Ribwort Plantain

Heinäratamonlehti; Jitrocelový list; Liść babki lancetowatej; Plantaginis Folium; Plantaginis Lanceolatae; Plantaginis lanceolatae folium; Plantain Herb; Plantain lancéolé; Siauralapių gysločių lapai; Spitzwegerich; Spitzwegerichkraut; Svartkämparblad.

Pharmacopoeias. *Eur.* (see p.vii) includes the leaf.

Ph. Eur. 6.2 (Ribwort Plantain; Plantaginis Lanceolatae Folium). The whole or fragmented, dried leaf and scape of *Plantago lanceolata*. It contains not less than 1.5% of total *ortho*-dihydroxycinnamic acid derivatives expressed as acteoside ($C_{29}H_{36}O_{15}$ = 624.6) with reference to the dried drug. Protect from light.

Profile

Ribwort plantain is an ingredient in herbal remedies used for catarrh and inflammation of the upper respiratory tract.

Ricin

Ricino.
CAS — 9009-86-3.

NOTE. The title ricin is used for the castor seed in *Chin.* and *Fr.*

Profile

Ricin is a lectin present in castor seeds, the seeds of *Ricinus communis* (Euphorbiaceae). It is extremely toxic when given parenterally and the fatal dose by injection has been reported to be around 1 microgram/kg. The toxicity of orally ingested beans depends on how thoroughly they are chewed since the hard seed coat prevents absorption. Ingestion of as few as 3 castor seeds by a child and 4 by an adult may be fatal. Ricin may also be absorbed through abraded skin. It has potential use in aerosol form as an agent of chemical warfare. Toxic effects may be delayed for several days after exposure by any route. Early symptoms include severe gastrointestinal irritation, haemorrhage, vomiting, and diarrhoea, which may result in circulatory collapse. Abnormal liver function tests and pulmonary oedema have been reported. Ophthalmological disturbances ranging from irritation and conjunctivitis to optic nerve damage may occur; miosis and mydriasis have also been reported. Proteinuria, haematuria, and renal impairment may develop and serum creatinine levels may be raised. In severe cases haemolysis of the red blood cells with subsequent acute renal failure may occur. Fatalities due to multi-organ failure have occurred. If the patient presents within 1 hour of ingestion any seeds may be removed by gastric lavage and activated charcoal given. Treatment thereafter is symptomatic.

After expression of the oil from castor seeds (see p.2278), the ricin remaining in the seed cake or 'pomace' is destroyed by steam treatment. The detoxified pomace is used as a fertiliser.

Ricin conjugated with monoclonal or polyclonal antibodies is being studied in the treatment of cancers; zolimomab aritox is an example of such a conjugate. Some of these conjugates have been investigated for various malignancies, particularly leukaemias and lymphomas.

Toxicity. A report of ricin toxicity after partial chewing and ingestion of 10 to 15 castor oil seeds,[1] and reviews[2-4] of ricin toxicity, including its potential as an agent of chemical warfare.

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Aci-Jel†; ***Israel:*** Glovan; ***NZ:*** Aci-Jel†; ***USA:*** Acid Jelly.

Rilonacept *(USAN, rINN)*

IL-1 Trap; Interleukin-1 Receptor; Interleukin-1 Trap; Rilonaceptum.

Рилонацепт
CAS — 501081-76-1.

Profile

Rilonacept is an interleukin-1 blocker used in the treatment of cryopyrin-associated periodic syndromes (CAPS) including familial cold auto-inflammatory syndrome (FCAS) and Muckel-Wells syndrome (MWS), which are rare inherited auto-inflammatory disorders. Rilonacept is a soluble decoy interleukin-1 receptor that binds interleukin-1_{beta} (p.2325) and blocks its actions at cell surfaces.

Rilonacept is given by subcutaneous injection. The solution, when prepared according to the manufacturer's directions, contains 160 mg per 2 mL and this is the maximum amount that should be given as a single injection or at a single site; if a larger dose is required (as at loading) two separate injections should be given on the same day at two different sites.

The loading dose is 320 mg (as two separate injections). A single injection of 160 mg is then given once weekly. The loading dose for children aged 12 to 17 years is 4.4 mg/kg up to a maximum of 320 mg (given as one or two injections depending on the dose). A single injection of 2.2 mg/kg up to a maximum of 160 mg is then given once weekly.

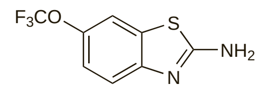
Preparations

Proprietary Preparations (details are given in Part 3)
USA: Arcalyst.

Riluzole *(BAN, USAN, rINN)*

PK-26124; Rilutsoli; Riluzol; Riluzolum; RP-54274. 2-Amino-6-(trifluoromethoxy) benzothiazole; 6-Trifluoromethoxy-1,3-benzothiazol-2-ylamine.

Рилузол
$C_8H_5F_3N_2OS$ = 234.2.
CAS — 1744-22-5.
ATC — N07XX02.
ATC Vet — QN07XX02.



Adverse Effects and Treatment

Adverse effects associated most commonly with riluzole are asthenia, nausea, elevations in liver enzyme values, headache, and abdominal pain. Other gastrointestinal effects may include diarrhoea or constipation, anorexia, and vomiting. There may be tachycardia, dizziness, vertigo, or somnolence. Circumoral paraesthesia has been reported and decreased lung function and rhinitis may occur. Anaphylactoid reactions, angioedema, pancreatitis, and neutropenia have all been reported rarely.

Effects on the blood. Severe neutropenia has been reported[1] in a 71-year old patient with amyotrophic lateral sclerosis receiving standard doses of riluzole. The neutrophil count returned to normal on cessation of riluzole.

See also under Overdosage, below.

1. Weber G, Bitterman H. Riluzole-induced neutropenia. *Neurology* 2004; **62:** 1648.

Effects on the kidneys. A 44-year-old patient developed renal tubular impairment 3 months after starting riluzole for amyotrophic lateral sclerosis.[1] Tubular function recovered 1 month after stopping riluzole.

1. Poloni TE, *et al.* Renal tubular impairment during riluzole therapy. *Neurology* 1999; **52:** 670.

Effects on the liver. Icteric toxic hepatitis, with jaundice and elevated liver enzyme values, has been reported[1] in an elderly woman receiving riluzole for amyotrophic lateral sclerosis (ALS). Acute hepatitis developed in 2 patients several weeks after starting therapy with riluzole for ALS.[2] Liver histology showed hepatocellular damage with inflammatory infiltration and microvesicular steatosis without fibrosis. Hepatotoxicity was reversed in all these cases when riluzole was stopped.

1. Castells LI, *et al.* Icteric toxic hepatitis associated with riluzole. *Lancet* 1998; **351:** 648.
2. Remy A-J, *et al.* Acute hepatitis after riluzole administration. *J Hepatol* 1999; **30:** 527–30.

Effects on the pancreas. Riluzole was cited[1] as the most likely cause of severe pancreatitis that developed in a 77-year-old woman 6 months after starting therapy for sporadic amyotrophic lateral sclerosis; pancreatic symptoms improved when riluzole was stopped.

1. Drory VE, *et al.* Riluzole-induced pancreatitis. *Neurology* 1999; **52:** 892–3.

Hypersensitivity. A severe life-threatening systemic inflammatory reaction occurred in a patient 2 weeks after starting treatment with riluzole for amyotrophic lateral sclerosis.[1] Symptoms resolved spontaneously on stopping riluzole.

1. Sorenson EJ. An acute, life-threatening, hypersensitivity reaction to riluzole. *Neurology* 2006; **67:** 2260–1.

Overdosage. Severe neutropenia developed in a 63-year-old woman receiving riluzole for amyotrophic lateral sclerosis 10 days after inadvertent dose increase to 200 mg daily (twice the standard recommended dose).[1]

Methaemoglobinaemia has been reported[2] in a 43-year-old patient with amyotrophic lateral sclerosis after intentional overdose with 2.8 g of riluzole. The patient was treated with gastric lavage followed by activated charcoal; intravenous methylthioninium chloride successfully reversed the methaemoglobinaemia. However, the patient died of respiratory failure related to her underlying disease 7 days after the overdose.

An amnesic syndrome that persisted for over a year developed in a woman 4 days after ingestion of 3 g of riluzole.[3]

2. Viallon A, *et al.* Methemoglobinemia due to riluzole. *N Engl J Med* 2000; **343:** 665–6.
3. Haaxma CA, *et al.* Delayed amnesic syndrome after riluzole autointoxication in Huntington disease. *Neurology* 2006; **66:** 1123–4.

Precautions

Riluzole is contra-indicated in patients with hepatic disease or markedly raised liver enzyme values. Liver function tests should be performed before and throughout treatment with riluzole. In the UK, riluzole is not recommended in patients with renal impairment although US licensed product information states that the pharmacokinetics are not significantly different in renal impairment. Caution should be exercised in those with a history of liver disorders. Patients or their carers should be told how to recognise signs of neutropenia and should be advised to seek immediate medical attention if symptoms such as fever develop; white blood cell counts should be determined in febrile illness and riluzole stopped if neutropenia occurs. Riluzole may cause dizziness or vertigo and patients should be warned not to drive or operate machinery if these symptoms occur.

Riluzole has been reported to impair fertility in *animals*.

Pharmacokinetics

Riluzole is rapidly absorbed from the gastrointestinal tract after oral doses, with peak plasma concentrations occurring in 1 to 1⁄ hours. The rate and extent of absorption are decreased when riluzole is given with a high-fat meal. Riluzole is widely distributed throughout the body and is about 97% bound to plasma proteins. It crosses the blood-brain barrier. Riluzole is extensively metabolised to several metabolites in the liver, mainly by the cytochrome P450 isoenzyme CYP1A2, and subsequent glucuronidation. Riluzole is excreted mainly in the urine, mainly as glucuronides, with an elimination half-life of about 9 to 15 hours. About 2% is excreted unchanged in the urine. Small amounts are excreted in faeces. There is some evidence that clearance of riluzole is reduced in Japanese patients.

Uses and Administration

Riluzole is a glutamate antagonist used in the management of amyotrophic lateral sclerosis, a form of motor neurone disease. Riluzole is indicated to slow progression of early disease but efficacy has not been demonstrated in its late stages. The precise mechanism of action is unknown but it may inhibit presynaptic glutamate release and interfere with its postsynaptic effects. The usual adult dose of riluzole is 50 mg twice daily by mouth on an empty stomach.

Motor neurone disease. Motor neurone disease (motoneuron disease) represents a group of fatal progressive degenerative disorders that affect upper and/or lower motor neurones in the brain and spinal cord. The most common form of motor neurone disease is amyotrophic lateral sclerosis (known in the USA as Lou Gehrig's disease), which involves both upper and lower motor neurones. It produces muscular atrophy and weakness and symptoms of progressive bulbar palsy such as slowness of movement and speech disturbances. Most patients die within 2 to 5 years of disease onset, usually from respiratory failure. There is no completely effective treatment and management remains largely supportive with appropriate symptomatic management of spasticity (p.1887), pain (p.8), and sialorrhoea. Tricyclic antidepressants are widely used for their multiple beneficial effects. Occupational and speech therapy also play a crucial role in maximising function. Pathological crying or laughing (pseudobulbar affect) may occur in as many as 50% of patients and has been treated with amitriptyline or fluvoxamine. Dysphagia may eventually compromise food and fluid intake necessitating enteral nutrition as an alternative or supplemental route for oral nutrition. Respiratory support will ultimately be necessary, initially with non-invasive ventilation but progressing eventually to tracheostomy.

Although the pathogenesis of motor neurone disease is still uncertain, it is thought that accumulation of the excitatory neurotransmitter glutamate in the CNS may be involved. Clinical studies have shown riluzole, a glutamate antagonist, to be modestly effective in prolonging survival by an average of 3 months and delaying the time to use of tracheostomy. However, there is still insufficient data to be able to assess which patients would derive greatest benefit. Additionally, questions have been raised about the clinical usefulness of riluzole in terms of cost-benefit, and there are concerns about adverse effects, notably hepatotoxicity.

Also under study for the treatment of motor neurone disease are somatomedins, in particular mecasermin (insulin-like growth factor I). Neurotrophic factors have been investigated including brain-derived neurotrophic factor (BDNF) and recombinant ciliary neurotrophic factor (CNTF), but results have been generally inconclusive. Glial-cell-derived neurotrophic factor (GDNF) and xaliproden are under investigation.

There has been some interest in the antiepileptic drug gabapentin, which may inhibit glutamate formation in the CNS from branched-chain amino acids. Lamotrigine and topiramate have also been tried but with disappointing results. ONO-2506 is an enantiomeric homologue of valproate that is also under investigation. Dextromethorphan has been studied in amyotrophic lateral sclerosis. Minocycline has demonstrated neuroprotective effects in *animal* studies and is therefore also being studied in this condition; ceftriaxone is also under investigation. Immunoglobulins have been tried in some forms of motor neurone disease such as multifocal motor neuropathy.

Antioxidants, including vitamins C and E, are commonly used by patients in the belief that one mechanism for neuronal death is free radical accumulation resulting from oxidative stress. However, despite substantial literature on the subject and widespread use of antioxidants, significant evidence to support their benefit in motor neurone disease is lacking. Creatine supplements have been tried in a bid to preserve motor function and motor neurones, although benefit has not been shown in controlled studies.

A small percentage of patients with familial amyotrophic lateral sclerosis has been shown to have a mutation in the gene encoding for the enzyme copper-zinc superoxide dismutase but there has been no consensus as to whether patients with this mutation should be given superoxide dismutase supplements.

Movement disorders. Beneficial results have been obtained with riluzole in small studies of patients with Huntington's chorea.[1,2] Riluzole has been tried in a small number of patients with early Parkinson's disease but no evidence of benefit was observed.[3] It has also been tried in levodopa-induced dyskinesias in advanced Parkinson's disease with conflicting reports of benefit[4] or no benefit.[5]

Rimonabant *(USAN, rINN)*

Rimocaban; Rimonabantum; SR-141716. 5-(*p*-Chlorophenyl)-1-(2,4-dichlorophenyl)-4-methyl-*N*-piperidinopyrazole-3-carboxamide.

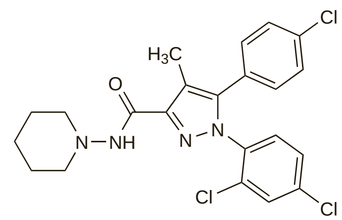
Римонабант

$C_{22}H_{21}Cl_3N_4O$ = 463.8.

CAS — 168273-06-1 (rimonabant); 158681-13-1 (rimonabant hydrochloride).

ATC — A08AX01.

ATC Vet — QA08AX01.



Profile

Rimonabant is a selective cannabinoid type-1 receptor antagonist used as an adjunct to diet and exercise for the treatment of obese patients (BMI ≥ 30 kg/m^2), and also for overweight patients (BMI > 27 kg/m^2) who have associated risk factors such as type 2 diabetes mellitus or dyslipidaemia. It is given orally in doses of 20 mg daily before breakfast. However, following concern about psychiatric reactions marketing of rimonabant was suspended in Europe in October 2008.

Nausea, anxiety, and dizziness occur commonly with rimonabant. Depressive symptoms have also occurred and rimonabant should not be given to patients with major depression or to those being treated with antidepressants; it is also not recommended in patients with other uncontrolled serious psychiatric disorders. Since rimonabant is metabolised by the liver, caution is advised in patients with moderate hepatic impairment. Licensed product information does not recommend its use in patients with severe hepatic or renal impairment because of lack of data in these patient groups. Plasma concentrations of rimonabant are increased when given with ketoconazole; other CYP3A4 inhibitors might have the same effect.

Rimonabant is also being investigated as an aid for smoking cessation.

◊ The action and potential uses of rimonabant have been reviewed.[1-5] Rimonabant is a selective cannabinoid type-1 receptor antagonist that reduces the overactivity of the endocannabinoid (endogenous cannabinoid) system. Studies of rimonabant *in vitro* and in *animals* have shown that it inhibits the proliferation and maturation of adipocytes, improves lipid and glucose metabolism, and regulates food intake and energy balance.[1,3,4]

Four large multicentre randomised controlled studies have been carried out to examine the effects of rimonabant in obesity (RIO) in conjunction with a mildly hypocalorific diet (deficit of about 600 kcal/day),[6-9] and all studies showed that rimonabant was of benefit when given at a dose of 20 mg daily. A significant decrease in body-weight and waist circumference was reported from the RIO-Europe study[6] over 1 year, although results from the RIO-North America study[7] conducted over 2 years were more modest; both studies also showed improvement in cardiovascular risk factors. The RIO-Lipids study[8] examined the effects of rimonabant over 1 year in overweight or obese patients with untreated dyslipidaemias and noted improvement in several metabolic risk factors as well as weight loss. Similar results including improvement in plasma-glucose concentrations (as indicated by glycosylated haemoglobin measurements) were obtained in overweight or obese patients with type 2 diabetes mellitus given rimonabant over 1 year in the RIO-Diabetes study.[9] Meta-analysis[10] and systematic review[11] of the 4 studies in the RIO-programme agreed that rimonabant produced statistically greater weight loss than placebo, although some problems with methodology were noted. Since no follow-up data were reported, no conclusion could be reached about weight regain.[10] Of particular concern was the increase in incidence of psychiatric adverse effects such as depression and anxiety in the treatment group.[10]

Rimonabant is also being studied as an aid to smoking cessation but a systematic review[12] of randomised controlled studies concluded that although rimonabant 20 mg daily may be of benefit in stopping smoking, the evidence in maintaining abstinence is inconclusive.

Rociverine *(rINN)*

LG-30158; Rociverina; Rocivérine; Rociverinum. 2-Diethylamino-1-methylethyl *cis*-1-hydroxy(bicyclohexyl)-2-carboxylate.

Роциверин

$C_{20}H_{37}NO_3$ = 339.5.
CAS — 53716-44-2.
ATC — A03AA06.
ATC Vet — QA03AA06.

Profile

Rociverine is an antispasmodic that has been given orally in doses of 30 to 40 mg or rectally in doses of 50 to 75 mg daily. It has also been given by injection.

Preparations

Proprietary Preparations (details are given in Part 3)
Ital.: Rilaten.

Rose Bengal Sodium

CI Acid Red 94; Colour Index No. 45440; Rosa de bengala sódico; Rose Bengal; Sodium Rose Bengal. The disodium salt of 4,5,6,7-tetrachloro-2′,4′,5′,7′-tetraiodofluorescein .

$C_{20}H_2Cl_4I_4Na_2O_5$ = 1017.6.
CAS — 11121-48-5 (rose bengal); 632-69-9 (rose bengal disodium).
ATC — S01JA02.
ATC Vet — QS01JA02.

NOTE. The name Rose Bengale has been applied to the substance described in this monograph as well as to dichlorotetraiodofluorescein (CI Acid Red 93; Ext. D & C Reds Nos. 5 and 6; Colour Index No. 45435), a compound used as its disodium or dipotassium salt as a colouring agent.

ROS is a code approved by the BP 2008 for use on single unit doses of eye drops containing rose bengal sodium where the individual container may be too small to bear all the appropriate labelling information.

Profile

Rose bengal sodium stains devitalised conjunctival and corneal epithelial cells as well as mucus and is used as an aid in the diagnosis of dry eye. It is used to detect or assess ocular damage resulting from Sjögren's syndrome or from ill-fitting contact lenses, and for keratitis, squamous cell carcinomas, and detection of foreign bodies. Rose bengal sodium is applied as 1% eye drops or as sterile papers impregnated with the dye.

Instillation of this dye may be painful, especially in dry eyes. Rose bengal sodium can stain exposed skin, clothing, and soft contact lenses. Rose bengal sodium should not be used before taking swabs as it possesses some antiviral activity.

Rose bengal sodium is taken up by the liver and excreted in the bile; the iodine-131-labelled compound (p.2054) has been used as a diagnostic aid in the determination of hepato-biliary function.

Rose Fruit

Brier Fruit; Csipkerózsa áltermés; Cynorrhodon; Cynosbati Fructus; Cynosbati Pseudofructus; Dog Rose Fruits; Églantier; Erškėčių vaisiai; Escaramujo; Hips; Hypanthium Rosae; Nypon; Rosae Fructus; Rosae pseudo-fructus; Rose Hips; Ruusunmarja; Šípek.

Pharmacopoeias. In *Eur.* (see p.vii) and *Jpn*.

Ph. Eur. 6.2 (Dog Rose). The rose hips made up by the receptacle and the remains of the dried sepals of *Rosa canina*, *R. pendulina*, and other *Rosa* spp., with the achenes removed. It contains not less than 0.3% of ascorbic acid, calculated with reference to the dried drug. Protect from light.

Profile

The fruits of various *Rosa* species, in particular the dog rose, *R. canina*, are used as a source of vitamin C (p.1983). Rose fruit is included in herbal preparations for constipation and urinary-tract disorders.

Preparations

Proprietary Preparations (details are given in Part 3)

Rose Oil

Attar of Rose; Esencia de Rosa; Oleum Rosae; Otto of Rose; Rosa, aceite esencial de.

Pharmacopoeias. In *USNF.*

USNF 26 (Rose Oil). A volatile oil distilled with steam from the fresh flowers of *Rosa gallica*, *R. damascena*, *R. alba*, *R. centifolia*, and varieties of these species (Rosaceae). It is a colourless or yellow liquid, having the characteristic odour of rose. At 25° it is a viscous liquid. On gradual cooling, it changes to a translucent, crystalline mass, easily liquefied by warming. Miscible with an equal volume of chloroform. Store in well-filled airtight containers.

Profile

Rose oil is largely employed in perfumery and toilet preparations and has been used as a flavour. It is also used in aromatherapy. It contains citronellol. Hypersensitivity reactions have been reported.

Preparations

USNF 26: Stronger Rose Water;
USP 31: Rose Water Ointment.

Proprietary Preparations (details are given in Part 3)
Hung.: Naksol†.

Multi-ingredient: ***Arg.:*** Estri-Atlas; ***Chile:*** Cicapost; ***Ger.:*** Rosatum Heilsalbe; ***Port.:*** Cicapost.

Rosemary

Romarin; Romarin (rosemary leaf); Roris Marini; Rosmariininlehti (rosemary leaf); Rosmarin; Rosmarinblad (rosemary leaf); Rosmarini folium (rosemary leaf); Rozmaringlevél (rosemary leaf); Rozmarinų lapai (rosemary leaf); Rozmarýnový list (rosemary leaf).

Pharmacopoeias. *Eur.* (see p.vii) includes the dried leaf.

Ph. Eur. 6.2 (Rosemary Leaf; Rosmarini Folium). The whole, dried leaf of *Rosmarinus officinalis*. It contains not less than 1.2% v/w of essential oil and not less than 3% of total hydroxycinnamic derivatives, expressed as rosmarinic acid ($C_{18}H_{16}O_8$ = 360.3) both with reference to the anhydrous drug.

Profile

Rosemary (*Rosmarinus officinalis*, Lamiaceae) has rubefacient and mild analgesic activity when applied topically, and is included in external preparations for rheumatic and circulatory disorders. It is also reported to have carminative, spasmolytic, and diuretic effects and is included in herbal preparations for gastrointestinal, cardiovascular, and urinary-tract disorders.

Rosemary is a source of rosemary oil (below).

Preparations

Proprietary Preparations (details are given in Part 3)

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Rosemary Oil). The essential oil obtained by steam distillation from the flowering aerial parts of *Rosmarinus officinalis*. It is available as Spanish type rosemary oil and Moroccan and Tunisian type rosemary oil. Spanish type rosemary oil contains 2.0 to 4.5% borneol, 0.5 to 2.5% bornyl acetate, 8.0 to 12.0% camphene, 13.0 to 21.0% camphor, 16.0 to 25.0% cineole, 1.0 to 2.2% *p*-cymene, 2.5 to 5.0% limonene, 1.5 to 5.0% β-myrcene, 18 to 26% α-pinene, 2.0 to 6.0% β-pinene, 1.0 to 3.5% α-terpineol, and 0.7 to 2.5% verbenone. Moroccan and Tunisian type rosemary oil contains 1.5 to 5.0% borneol, 0.1 to 1.5% bornyl acetate, 2.5 to 6.0% camphene, 5.0 to 15.0% camphor, 38.0 to 55.0% cineole, 0.8 to 2.5% *p*-cymene, 1.5 to 4.0% limonene, 1.0 to 2.0% β-myrcene, 9.0 to 14.0% α-pinene, 4.0 to 9.0% β-pinene, 1.0 to 2.6% α-terpineol, and a maximum of 0.4% verbenone.

A clear, mobile, colourless to pale yellow liquid with a characteristic odour. Store in well-filled airtight containers at a temperature not exceeding 25°. Protect from light.

Profile

Rosemary oil is carminative and mildly irritant. It is used in perfumery and as a flavour and has been employed in hair lotions, inhalations, and liniments. It is also used in aromatherapy.

Preparations

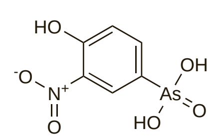
Roxarsone *(BAN, USAN, rINN)*

NSC-2101; Roxarsona; Roxarsonum. 4-Hydroxy-3-nitrophenylarsonic acid.

Роксарсон

$C_6H_6AsNO_6$ = 263.0.
CAS — 121-19-7.



Pharmacopoeias. In *US* for veterinary use only.

USP 31 (Roxarsone). A pale yellow, crystalline powder. Slightly soluble in cold water; soluble in boiling water; freely soluble in dehydrated alcohol, in acetic acid, in acetone, in methyl alcohol, and in alkalis; insoluble in ether and in ethyl acetate; sparingly soluble in dilute mineral acids. It puffs up and deflagrates on heating.

Profile

Roxarsone has been used as a growth promotor in animal feeds.

Royal Jelly

Apilak; Jalea real; Queen Bee Jelly.

Маточное Молочко

CAS — 8031-67-2.

Profile

Royal jelly is a milky-white viscid secretion from the salivary glands of the worker honey bee, *Apis mellifera* (Apidae); it is essential for the development of queen bees. Royal jelly has been used as a nutritional supplement, but of the many and diverse claims made for its therapeutic value, none has been substantiated.

Royal jelly is also included in some cosmetic preparations for its supposed beneficial effect on skin tissue.

Hypersensitivity reactions have been reported.

Hypersensitivity. There were 14 reports of suspected adverse effects (10 considered serious) involving bee products such as royal jelly, propolis (p.2373), and bee pollen (p.2370) reported to the Canadian health authorities (Health Canada) between January 1998 and October 2004.[1] Anaphylactoid reactions[2] and acute severe exacerbations of asthma[3-6] (one fatal[4]) have occurred in atopic individuals who took royal jelly.

Rubber

Caoutchouc; Caucho; India-Rubber.

Profile

Rubber consists of the prepared latex of *Hevea brasiliensis* and other species of *Hevea* (Euphorbiaceae). It is used as a component of many medical devices such as catheters, syringes, enema tips, ostomy bags, balloons, and surgical gloves. Hypersensitivity reactions have occurred after direct contact of skin and mucous membranes with rubber components of such products and also after indirect contact with preparations stored in or given by them; deaths have been reported. Reactions have been attributed either to protein components of the rubber or to additives such as preservatives or vulcanisation accelerators. For references to glove starch powder as a possible risk factor in the development of rubber latex allergy, see Glove Powder under Adverse Effects of Starch, p.1968. Cross-sensitivity between rubber proteins and those of certain fruits, including bananas and chestnuts, has been reported.

Rubidium Iodide

Rubidio, ioduro de.

RbI = 212.4.

CAS — 7790-29-6.

Profile

Rubidium iodide has the actions of iodine and the iodides (see p.2169). It is an ingredient of several proprietary ophthalmic preparations promoted for the treatment of eye disorders.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Ital.:*** Facovit; Jodo Calcio Vitaminico; Polijodurato; Rubjovit.

Rue Oil

Oleum Rutae; Ruda, aceite esencial de.

Profile

Rue oil is a volatile oil obtained from rue, *Ruta graveolens* (Rutaceae). Rue oil and infusions of rue were formerly used as antispasmodics and emmenagogues and are reported to have abortifacient properties. Rue is a photosensitiser and the oil is a powerful local irritant.

Homoeopathy. Rue has been used in homoeopathic medicines under the following names: Ruta; Ruta gra. Ruta grav. Ruta graveolens.

Preparations

Proprietary Preparations (details are given in Part 3)

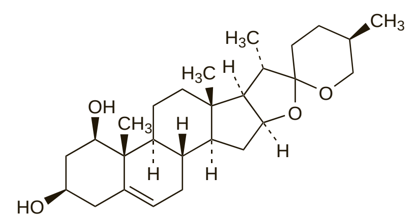
Multi-ingredient: ***Arg.:*** Aulo Repelente De Piojos; ***Austral.:*** Joint & Muscle Cream; ***Singapore:*** Noricaven†.

Ruscogenin

Ruscogenina; Ruskojenin. (25*R*)-Spirost-5-ene-1β,3β-diol.

$C_{27}H_{42}O_4$ = 430.6.

CAS — 472-11-7.



Profile

Ruscogenin is a sapogenin obtained from butcher's broom, *Ruscus aculeatus* (Liliaceae). It has been applied in the local treatment of haemorrhoids as rectal ointment or suppositories. It has also been tried in peripheral vascular disorders.

Preparations

Proprietary Preparations (details are given in Part 3)

Sacrosidase *(USAN)*

Sacrosidasa.

CAS — 85897-35-4.

ATC — A16AB06.

ATC Vet — QA16AB06.

Profile

Sacrosidase is a therapeutic enzyme used for sucrase replacement therapy in congenital sucrase-isomaltase deficiency. It is given with each meal or snack in usual doses of 8 500 international units for patients up to 15 kg, or 17 000 international units for patients over 15 kg.

Sage

Feuilles de Sauge; Hármaslevelű zsálya levél (sage leaf, three-lobed); Krūminių šalavijų lapai (sage leaf, three-lobed); Liść szałwii (sage leaf); List šalvěje lékařské (sage leaf); List šalvěje trojlaločné (sage leaf, three-lobed); Orvosizsálya-levél (sage leaf); Salbeiblätter; Salvia; Salviablad (sage leaf); Salviablad, treflikat (sage leaf, three-lobed); Salviae Folium (sage leaf); Salviae Officinalis Folium (sage leaf); Salviae trilobae folium (sage leaf, three-lobed); Salvianlehti, kolmiliuskainen (sage leaf, three-lobed); Salvianlehti (sage leaf); Sauge officinale, feuille de (sage leaf); Sauge trilobée, feuille de (sage leaf, three-lobed); Vaistinių šalavijų lapai (sage leaf).

Pharmacopoeias. In *Eur.* (see p.vii), which also includes three-lobed sage.

Ph. Eur. 6.2 (Sage Leaf (Salvia officinalis); Salviae Officinalis Folium). The whole or cut dried leaves of *Salvia officinalis*. The whole drug contains not less than 1.5% v/w and the cut drug not less than 1.0% v/w of essential oil, both calculated with reference to the anhydrous drug. Sage leaf oil is rich in thujone. Protect from light.

Ph. Eur. 6.2 (Sage Leaf, Three-lobed; Salviae Trilobae Folium). The whole or cut, dried leaves of *Salvia fructicosa* (*S. triloba*). The whole drug contains not less than 1.8% v/w of essential oil, and the cut drug not less than 1.2% v/w of essential oil, both calculated with reference to the anhydrous drug. It has a spicy odour when ground, similar to eucalyptus oil. Protect from light.

Profile

Sage has carminative, antispasmodic, antiseptic, and astringent properties and is used as a flavour. It is used in preparations for a wide variety of purposes, including respiratory-tract disorders, gastrointestinal disorders, and in mouthwashes and gargles for disorders of the mouth and throat. Three-lobed sage leaf (Greek sage) is also used; it is sometimes found as an adulterant of sage.

Sage is the source of sage oil (see below).

Homoeopathy. Sage has been used in homoeopathic medicines under the following names: Salvia officinalis; Salvia officinalis e foliis siccatis; Sal. off.

Preparations

Ph. Eur.: Sage Tincture.

Sage Oil

Kvapiųjų šalavijų eterinis aliejus (clary sage oil); Muskatellsalviaöljy (clary sage oil); Muskatellsalviaolja (clary sage oil); Salviae sclareae aetheroleum (clary sage oil); Salviae Sclareae Etheroleum (clary sage oil); Sauge sclarée, huile essentielle de (clary sage oil); Silice šalvěje muškátové (clary sage oil).

CAS — 8016-63-5 (clary sage oil).

NOTE. The oil of three-lobed sage leaf (see above), which is sometimes found as an adulterant, has a lower thujone content than oil from *Salvia officinalis*

Pharmacopoeias. In *Swiss. Eur.* (see p.vii) includes Clary Sage Oil from *Salvia sclarea.*

Profile

Sage oil is used similarly to sage (see above). Sage oil and clary sage oil are also used in aromatherapy.

Preparations

Proprietary Preparations (details are given in Part 3)
Fr.: Node G; ***Ger.:*** Fichtensirup N†.

Multi-ingredient: ***Austria:*** Colda; Coldistan; Parodontax; Piniment; ***Cz.:*** Parodontal F5†; ***Fr.:*** Item Lentes; ***Ger.:*** Pernionin N†; Salviathymol N; Trauma-cyl; Varicylum-S; ***Israel:*** Parodontax†; ***Ital.:*** Venalta; ***Philipp.:*** Kamillosan M; Transpulmin Balsam; ***Pol.:*** Carmolis; Salviasept; ***Rus.:*** Carmolis (Кармолис)†; Carmolis Fluid (Кармолис Жидкость)†; ***S.Afr.:*** Oleum Salviae Comp; ***Switz.:*** Bismorectal; Carmol; Carmol Plus†; Frixo-Dragon Vert†; Osa gel dentaire aux plantes; Parodontax F†; Parodontax†; Pinimenthol Baby†; Radix†; Ziegella.

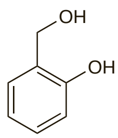
Salicyl Alcohol *(USAN)*

Salicain; Saligenin; Saligenol. 2-Hydroxybenzyl alcohol.

Салициловый Спирт

$C_7H_8O_2$ = 124.1.

CAS — 90-01-7.



NOTE. The name salicain has also been used as a proprietary name for hydroxytetracaine.

Profile

Salicyl alcohol is reported to have local anaesthetic and analgesic properties and has been used in various topical preparations. It is present in the bark of some trees and has been associated with contact sensitivity; it is also a metabolite of salicin (salicyl alcohol glucoside—see Salix, p.121).

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Fr.:*** Ephydrol.

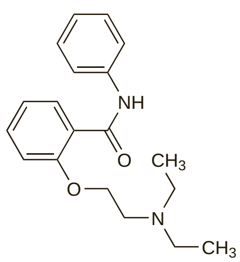
Salverine Hydrochloride *(rINNM)*

Hidrocloruro de salverina; M-811 (salverine); Salvérine, Chlorhydrate de; Salverini Hydrochloridum. 2-[2-(Diethylamino)ethoxy]-benzanilide hydrochloride.

Сальверина Гидрохлорид

$C_{19}H_{24}N_2O_2$,HCl = 348.9.

CAS — 6376-26-7 (salverine).



(salverine)

Profile

Salverine hydrochloride has been used as an antispasmodic in combination preparations for the treatment of biliary-tract disorders, respiratory-tract disorders, and pain.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austria:*** Cynarix comp; Montamed; Novipec.

Salvia Divinorum

Diviner's Sage; Divining Sage; Hierba de María; *Salvia divinorum*; ska María Pastora.

NOTE. The following terms have been used as 'street names' (see p.vi) or slang names for various forms of Salvia divinorum:

Big Sal; La Pastora; LSD Lite; Maria Pastora; Sally D; Salvia; Ska; The Shepherdess.

Profile

Salvia divinorum has been traditionally used in Mexican Indian culture to induce hallucinations and is now a substance of abuse.

Sambucus

Bodzavirág; Elder Flower; Fläderblomma; Fleurs de Sureau; Holunderblüten; Juoduogių šeivamedžių žiedai; Květ bezu černého; Kwiat bzu czarnego; Mustaseljankukka; Sabugueiro; Sambuc.; Sambuci flos; Sambuci Nigrae Flos; Saúco; Sureau, fleur de.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Elder Flower). The dried flowers of *Sambucus nigra*. It contains not less than 0.8% of flavonoids, calculated as isoquercitroside with reference to the dried drug. Protect from light.

Profile

Sambucus has astringent, diaphoretic, and anticatarrhal properties and is used in herbal preparations for a variety of disorders, particularly respiratory-tract disorders. Elder-flower water has been used as a vehicle for eye and skin lotions. Elder-flower ointment has been used as a basis for pomades and cosmetic ointments.

Homoeopathy. Sambucus has been used in homoeopathic medicines under the following names: Sambucus nigra; Samb. nig.

Preparations

Proprietary Preparations (details are given in Part 3)

Sandalwood

East Indian Sandalwood; White Sandalwood.

Pharmacopoeias. In *Chin.*

Profile

The wood of white sandalwood, *Santalum album* (Santalaceae), has antibacterial and antispasmodic activity and is used in herbal medicine as an adjunct in the treatment of infections of the lower urinary tract. Sandalwood and its preparations contain essential oil.

Sandalwood oil is used in aromatherapy and in perfumery.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austria:*** Brady's-Magentropfen.

Sanguinaria

Bloodroot; Red Puccoon; Sanguinaria canadensis; Sanguinaris canadensis.

Profile

Sanguinaria consists of the dried rhizome of *Sanguinaria canadensis* (Papaveraceae). Sanguinarine, an alkaloid extracted from sanguinaria, has been used as an antiplaque agent in toothpaste and mouthwash preparations. Sanguinaria was formerly used as an expectorant but fell into disuse because of its toxicity. Sanguinaria has also been classified by the FDA as a herb that is unsafe for use in foods, beverages, or drugs.

Homoeopathy. Sanguinaria has been used in homoeopathic medicines under the following names: Sanguinaria canadensis; Sang. ca.

Sanguinarium nitrate has been used in homoeopathic medicines under the following names: Sanguinarinum Nitricum; Sang. nit.

◊ Reviews.

2. Grenby TH. The use of sanguinarine in mouthwashes and toothpaste compared with some other antimicrobial agents. *Br Dent J* 1995; **178:** 254–8.
3. Tenenbaum H, *et al.* Effectiveness of a sanguinarine regimen after scaling and root planing. *J Periodontol* 1999; **70:** 307–11.

Malignant neoplasms of the skin. Self-treatment of basal cell carcinoma on the nasal tip by a 51-year-old man using a topical caustic preparation containing *Sanguinaria canadensis* has been reported.[1] Although a similar caustic paste was originally used in the 1930s as part of Mohs' micrographic surgery (MMS) for some types of skin cancer, the MMS technique in use today is more refined, and self-administration of caustic pastes containing sanguinaria for skin lesions is not recommended.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Arg.:*** Clematis III Oligoplex†; ***Austral.:*** Lexat†; ***Canad.:*** Bronchial Cough; Mielocol; Viadent†; Wampole Bronchial Cough Syrup†; ***Ital.:*** Dentosan Carie & Alito†; Eudent con Glysan†.

Sapropterin Hydrochloride *(rINNM)*

Dapropterin Hydrochloride; Hidrocloruro de sapropterina; Sapropterin Dihydrochloride *(USAN)*; Saproptérine, Chlorhydrate de; Sapropterini Hydrochloridum; SUN-0588 (sapropterin or sapropterin hydrochloride); T-1401; (6*R*)-5,6,7,8-Tetrahydrobiopterin Hydrochloride. (−)-(6*R*)-2-Amino-6-[(1*R*,2*S*)-1,2-dihydroxypropyl]-5,6,7,8-tetrahydro-4(3*H*)-pteridinone dihydrochloride.

Сапроптерина Гидрохлорид

$C_9H_{15}N_5O_3$,2HCl = 314.2.

CAS — 62989-33-7 (sapropterin); 69056-38-8 (sapropterin hydrochloride).

ATC — A16AX07.

ATC Vet — QA16AX07.

Profile

Sapropterin, the active form of tetrahydrobiopterin, is used as the hydrochloride for the diagnosis and treatment of variant forms of phenylketonuria (hyperphenylalaninaemia, p.1922) associated with tetrahydrobiopterin (BH_4) deficiency. It is given by mouth in daily doses of 1 to 20 mg/kg, in 2 or more divided doses. It has also been tried for the correction of hyperphenylalaninaemia seen in patients receiving treatment for leukaemia and which has been suggested as a possible cause of neurological symptoms.

Sarsaparilla

Salsaparilha; Salsepareille; Sarsa; Sarsaparilla Root; Smilacis Rhizoma; Zarzaparrilla.

Pharmacopoeias. In *Chin.* and *Jpn.* which specify *Smilax glabra.*

Profile

Sarsaparilla is the dried root of various species of *Smilax* (Liliaceae). It has been used, usually in the form of a decoction or extract, as a vehicle and flavour for medicaments. It is also an ingredient of herbal preparations.

Homoeopathy. Sarsaparilla has been used in homoeopathic medicines under the following names: Smilax; Sarsap.

Preparations

Proprietary Preparations (details are given in Part 3)

Sassafras Oil

Oleum Sassafras; Sasafrás, aceite esencial de.

Profile

Sassafras oil is a volatile oil distilled from the root or root bark of *Sassafras albidum* (Lauraceae), or from the wood of certain species of *Ocotea* (Lauraceae). It contains safrole.

Sassafras oil has rubefacient properties and was formerly used as a pediculicide. Neither sassafras nor the oil should be taken internally; the use of herb teas of sassafras may lead to a large dose of safrole. The use of safrole in foods has been banned because of carcinogenic and hepatotoxic risks. The use of safrole in toilet preparations is also controlled.

Poisoning. A 47-year-old woman experienced 'shakiness', vomiting, anxiety, tachycardia, and raised blood pressure after ingestion of a potentially fatal dose of sassafras oil (5 mL). She was given activated charcoal and symptomatic management.[1]

Schick Test

Prueba de Schick.

Pharmacopoeias. *Br.* include standards for Schick test toxin and control.

BP 2008 (Schick Test Toxin). It is prepared from a toxigenic strain of *Corynebacterium diphtheriae*. It contains a suitable antimicrobial preservative. Store at 2° to 8°.

BP 2008 (Schick Control). It is Schick Test Toxin that has been heated at a temperature not lower than 70° and not higher than 85° for not less than 5 minutes. It is prepared from the same batch of Schick Test Toxin as that with which it is to be used. Store at 2° to 8°.

Profile

Intradermal injection of Schick test toxin has been used for the diagnosis of susceptibility to diphtheria and, more importantly, to detect patients who might experience an adverse reaction to diphtheria vaccines. Children up to the age of about 8 to 10 years rarely suffer from such reactions and therefore the Schick test is not usually performed in this age group. In older children and adults a Schick test was formerly used before the use of standard diphtheria vaccines. However, diphtheria vaccines for use in adults and adolescents (p.2209) are now formulated with lesser amounts of toxoid so Schick testing is unnecessary.

Schisandra

Schizandra.

Pharmacopoeias. *Chin.* includes the dried ripe fruit of *Schisandra chinensis* (Fructus Schisandrae Chinensis) and *S. sphenanthera* (Fructus Schisandra Sphenanthera)

Profile

The dried ripe fruit of *Schisandra chinensis* or *S. sphenanthera*, sometimes referred to as schizandrae fructus, are known in Chinese medicine as wuweizi and nanwuweizi respectively. Schisandra is used in a variety of disorders and contains lignans claimed to have protective effects on the liver. The oil is also used.

The derivative bifendate has been reported to interact with ciclosporin (see p.1826). SchE (*Hezheng Pharmaceutical Company, China*), an extract of *Schisandra sphenanthera* containing amongst other ingredients deoxyschizandrin, has been reported to increase maximum blood concentrations of tacrolimus (see p.1845).

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Bacopa Complex; ***Indon.:*** Curliv; Curliv Plus; Hepa-Q; Hepacell; Hepamax; ***Pol.:*** Penigra; ***Rus.:*** Carmolis (Кармолис)†.

Scoparium

Broom Tops; Genêt; Genêt à Balai; Planta Genista; Retama negra; Scoparii Cacumina.

Pharmacopoeias. In *Fr.*

Profile

Scoparium is the dried tops of broom, *Sarothamnus scoparius* (*Cytisus scoparius*) (Leguminosae). It is a mild diuretic, haemostatic, and vasoconstrictor and has been given as a decoction or alcoholic extract. It has oxytocic properties and should be avoided in pregnancy. It contains sparteine (p.2391).

Preparations

Proprietary Preparations (details are given in Part 3)
Ger.: Repowine mono†; Spartiol.

Multi-ingredient: ***Fr.:*** Creme Rap; ***Ger.:*** Oxacant N†; Venacton†; ***Pol.:*** Fitoven.

Sea Buckthorn

Argousier; Sallowthorn; Sea-buckthorn.

NOTE. Distinguish from Alder Buckthorn Bark (see Frangula Bark, p.1732) and from Buckthorn (p.1713).

Profile

Sea buckthorn (*Hippophae rhamnoides*, Eleagnaceae) is the source of sea buckthorn oil, below.

Preparations

Proprietary Preparations (details are given in Part 3)
Fr.: Hippophan†.

Sea Buckthorn Oil

Profile

Sea buckthorn oil is extracted from the seeds and berries of sea buckthorn (above) and has been taken orally for skin and mucous membrane disorders and as a tonic. It has also been investigated in liver fibrosis.

Preparations

Proprietary Preparations (details are given in Part 3)
UK: Omega 7.

Seaweeds, Kelps, and Wracks

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Kelp; Fucus vel Ascophyllum). The fragmented dried thallus of *Fucus vesiculosus* or *F. serratus* or *Ascophyllum nodosum*. It contains not less than 0.03% and not more than 0.2% of total iodine, calculated with reference to the dried drug. It has a salty and mucilaginous taste, and an unpleasant marine odour. Protect from light.

The Ph. Eur. title was formerly Bladderwrack and the BP 2008 gives Bladderwrack and Fucus as approved synonyms.

Profile

Dried seaweeds of various species are ingredients of a number of herbal preparations.

The terms kelps and wracks have been used indiscriminately for each other and other brown seaweeds. For example, Kelp (Ph. Eur. 6.2) refers to a preparation of various species of wrack and was formerly titled Bladderwrack.

Bladder wrack (*Fucus vesiculosus*), toothed wrack (*F. serratus*), or knotted wrack (*Ascophyllum nodosum*) are included in preparations given for various disorders including obesity, constipation, and iodine deficiency.

Kelps refer properly to species of *Laminaria* and *Macrocystis*. They are present as an ingredient of several dietary supplements and herbal preparations, including for use in obesity; they have also been used as a source of iodine. Laminaria stalks (p.2330) are used for dilation of cavities or the cervix.

Fucoidan (p.2307) is a sulfated polysaccharide extracted from brown seaweeds.

Homoeopathy. *F. vesiculosus* has been used in homoeopathic medicines under the following names: Fucus v.

Adverse effects and precautions. Kelp can concentrate various heavy metals; auto-immune thrombocytopenic purpura and disordered erythropoiesis in a patient who had been taking kelp tablets for 6 weeks was attributed to the arsenic content of the preparation.[1]

Clinical hyperthyroidism has also been reported in patients taking kelp-containing preparations as part of a slimming regimen[2] or a dietary supplement.[3]

The FDA has advised that preparations containing compounds such as kelp, which may be taken orally in bulk laxatives or weight-control preparations, should be taken with a full glass of water or, if the patient has difficulty in swallowing, they should be avoided. Such compounds swell into masses that may obstruct the oesophagus if not taken with sufficient water.

Secretin *(BAN, USAN, rINN)*

Secretina; Sécrétine; Secretinum; Sekretiini; Sekretin.

Секретин

CAS — 17034-35-4 (porcine); 108153-74-8 (human).
ATC — V04CK01.
ATC Vet — QV04CK01.

Units

The potency of secretin may be expressed as Crick-Harper-Raper (CHR) units based on the pancreatic secretion in *cats* or as clinical units, the value of which was amended in the 1960s. One clinical unit is considered to be approximately equivalent to 4 CHR units. One clinical unit is equivalent to 200 nanograms of a purified synthetic preparation of secretin.

Adverse Effects

Hypersensitivity reactions may occasionally occur. Diarrhoea has occurred in patients given high doses by intravenous infusion.

Precautions

The secretin test should be avoided in patients with acute pancreatitis. Patients should receive an intravenous test dose because of the risk of hypersensitivity reactions.

Uses and Administration

Secretin is a polypeptide hormone involved in the regulation of gastric function. It may be prepared from the duodenal mucosa of *pigs*; synthetic human and porcine versions are also available. On intravenous injection it causes an increase in the secretion by the pancreas of water and bicarbonate into the duodenum.

Secretin is used as a diagnostic agent in various disorders of the pancreas. Patients should be given an initial intravenous test dose of 1 clinical unit (200 nanograms); if no hypersensitivity reaction is noted after 1 minute, the diagnostic dose may be given.

Secretin is used alone, or with pancreozymin (p.2361) or other cholecystokinetic agents such as ceruletide (p.2279) or sincalide (p.2388), as a test for exocrine pancreatic function. The test usually involves duodenal intubation of the patient and examination of duodenal aspirate. The diagnostic dose of secretin used has varied but common doses have been 1 clinical unit/kg (200 nanograms/kg) given by slow intravenous injection.

Patients with the Zollinger-Ellison syndrome (p.1704) show an increase in gastrin when given secretin; this is in contrast to a small change or no effect in subjects without the disorder. The usual dose of secretin for the diagnosis of Zollinger-Ellison syndrome is 2 clinical units/kg (400 nanograms/kg) by slow intravenous injection. Serum-gastrin concentrations are measured for up to 30 minutes following the diagnostic dose.

Secretin is also used in a dose of 1 clinical unit/kg (200 nanograms/kg) by slow intravenous injection as an aid in the identification of the pancreatic ducts in patients undergoing endoscopic retrograde cholangiopancreatography.

Autism. There have been anecdotal reports of improvement in behaviour in autistic children given porcine secretin. However, a double-blind placebo-controlled study[1] involving 60 children with autism or pervasive developmental disorder noted no benefit over 4 weeks after a single infusion of 400 nanograms/kg of synthetic human secretin. A randomised, placebo-controlled study[2] in 64 children with autism has similarly found no evidence of efficacy from 2 repeated doses of porcine secretin. Further controlled studies have likewise failed to demonstrate efficacy.[3,4]

Senecio

Крестовник Золотистый (*Senecio aureus*); Крестовник Якова (*Senecio jacobaea*)

Profile

The ragwort, *Senecio jacobaea*, and, in the USA, the golden ragwort (golden senecio; liferoot; squaw weed), *S. aureus* (Compositae), have been used in the form of extracts as emmenagogues but are of doubtful value. Ragwort, in the form of a decoction or ointment, has also been applied externally to aid wound healing and in the treatment of peripheral vascular disorders.

Many species of the genus *Senecio*, which includes the ragworts and groundsels, are poisonous. They have been found to contain pyrrolizidine alkaloids, which produce hepatic necrosis. The ragwort, *S. jacobaea*, which is abundant throughout the British Isles, is poisonous to livestock when eaten in quantity. Poisoning has also been reported in humans after ingestion of herbal teas containing pyrrolizidine alkaloids. In the UK, the sale, supply, or importation of unlicensed medicinal products containing *Senecio* spp. for internal use is prohibited.

Homoeopathy. Golden ragwort has been used in homoeopathic medicines under the following names: Senecio aur.; Senecio aureus; Sen. aur..

Preparations

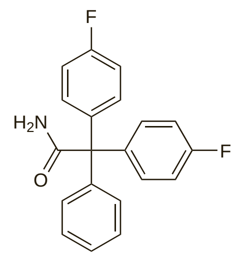
Proprietary Preparations (details are given in Part 3)
Multi-ingredient: *Canad.:* Thunas Tab for Menstrual Pain†.

Senicapoc *(USAN, rINN)*

17043; ICA-17043; Sénicapoc; Senicapocum. 2,2-bis (4-Fluorophenyl)-2-phenylacetamide.

Сеникапок

$C_{20}H_{15}F_2NO$ = 323.3.
CAS — 289656-45-7.



Profile

Senicapoc is an inhibitor of the Gardos calcium-activated potassium channel. It has been investigated to prevent the dehydration of red cells in sickle-cell anaemia.

Senlizumab *(BAN)*

Bay-10-3356; Bay-w-3356; CDP-571.

Сенлизумаб

CAS — 336128-48-4.

Profile

Senlizumab is a humanised monoclonal antibody to tumour necrosis factor. It has been investigated in the treatment of Crohn's disease, ulcerative colitis, and rheumatoid arthritis.

Sepia

Profile

Sepia is the dried inky secretion of the cuttle fish.

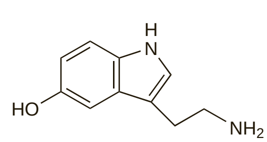
Homoeopathy. Sepia has been used in homoeopathic medicines under the following names: Sepia officinalis.

Serotonin

Enteramina; Enteramine; 5-Hidroxitriptamina; 5-HT; 5-Hydroxytryptamine; Serotonina. 3-(2-Aminoethyl)-1*H*-indol-5-ol.

Серотонин

$C_{10}H_{12}N_2O$ = 176.2.
CAS — 50-67-9.



Profile

Serotonin, which is synthesised in the body from the essential amino acid tryptophan, is found in the brain, blood platelets, and throughout the gastrointestinal tract. It acts as a biochemical mediator and its roles include involvement in CNS neurotransmission, haemostasis, vascular spasm, and gastrointestinal motility. Abnormalities within the serotonin system are associated with a variety of disorders and many drugs have been developed to manipulate serotonin concentrations.

Serotonin itself may be of value in the treatment of posthypoxic myoclonus (p.470). Concentrations of endogenous serotonin may be increased through synthesis and serotonin precursors have been given for the treatment of depression (see Oxitriptan, p.414 and Tryptophan, p.427).

Some antidepressants increase serotonin concentrations by inhibiting the metabolism of monoamine oxidase type A, the enzyme that deaminates serotonin. Examples include the older non-selective irreversible inhibitors of monoamine oxidase types A and B (MAOIs) such as phenelzine (p.415), and the newer selective reversible inhibitors of monoamine oxidase type A (RIMAs) such as moclobemide (p.411).

Drugs that inhibit the neuronal reuptake of serotonin after release (and thus potentiate its action) are also used in the treatment of depression. They include tricyclic antidepressants such as amitriptyline (p.376), the selective serotonin reuptake inhibitors (SSRIs) such as fluoxetine (p.391), and selective serotonin and noradrenaline reuptake inhibitors (SNRIs) such as venlafaxine (p.427). Some SSRIs and SNRIs are also used in the management of anxiety disorders, and SSRIs have been tried in the management of premature ejaculation. Sibutramine (p.2163) is an SNRI used in the management of obesity.

Serotonin receptors, a major site of drug action, are classified by structure and function into seven families: 5-HT_1, 5-HT_2, 5-HT_3, 5-HT_4, 5-HT_5, 5-HT_6, and 5-HT_7 with each family having further subtypes. Consequently, drugs acting on serotonin receptors exhibit widely differing chemical structures and diverse pharmacological activities depending on which receptor subtype they act on and whether they act as agonists or antagonists. Serotonin receptor activity is complex and it is possible for the same disorder to be treated by both serotonin agonists or antagonists. For example, serotonin antagonists used in the treatment of migraine include the older ergot-derived compounds such as methysergide (p.623) and metergoline (p.2343) whereas the newer triptans such as sumatriptan (p.625) are selective 5-HT_1 agonists. Buspirone (p.965) is a 5-HT_{1A} partial agonist used in the treatment of anxiety disorders. Cisapride (p.1720) is a 5-HT_4 agonist used for gastrointestinal disorders. 5-HT_{2C} agonists are under investigation for obesity.

Many different drugs act as serotonin antagonists. They include sedating antihistamines such as carbinoxamine (p.570), cyproheptadine (p.575), methdilazine (p.585), and promethazine (p.588) used for allergic conditions. Some antiserotonergic antihistamines such as cyproheptadine, oxetorone (p.624), and pizotifen (p.624) are also used in the management of migraine. Antagonists specific for the $5\text{-HT}_{2A/2C}$ receptor include the antihypertensive ketanserin (p.1320), the antipsychotic risperidone (p.1024), and the antidepressant trazodone (p.424). The antipsychotic clozapine (p.981) also has antiserotonergic activity at the $5\text{-HT}_{2A/2C}$ receptor in addition to its other properties. Ondansetron (p.1756) is a 5-HT_3 antagonist used for chemotherapy-induced emesis and postoperative nausea and vomiting.

Drugs with other mechanisms of action involving serotonin systems include fenclonine, an inhibitor of serotonin synthesis that has been used in the treatment of carcinoid syndrome. Reserpine (p.1387) depletes serotonin stores in the brain, heart, and many other organs and has been used in hypertension and psychoses. Fenfluramine (p.2156) and its isomer dexfenfluramine (p.2154) appear to stimulate the release of serotonin and selectively inhibit its reuptake resulting in increased CNS serotonin concentrations; both were formerly used in the treatment of obesity.

Some hallucinogenic drugs of abuse such as bufotenine (p.2270) and lysergide (p.2335) have serotonergic properties.

Serotonin also occurs in stinging nettles (*Urtica dioica*) (p.2409), bananas, and other fruit, and in the stings of wasps and scorpions.

Serrapeptase *(rINN)*

Serrapeptasa; Serrapeptasum; Serrapeptidase; Serratia Extracellular Proteinase; Serratiopeptidase.

Серрапептаза

CAS — 37312-62-2; 95077-02-4.

Pharmacopoeias. In *Jpn.*

Profile

Serrapeptase is a proteolytic enzyme derived from *Serratia* spp. It has been taken orally for its supposed action in relieving inflammation and oedema associated with conditions such as trauma, infection, respiratory-tract congestion, or chronic venous insufficiency, in usual doses of 5 to 10 mg (10 000 to 20 000 units) up to three times daily.

Sesame Oil

Aceite de Ajonjolí; Benne Oil; Gingelly Oil; Oleum Sesami; Refined Sesame Oil; Seesamiöljy; Sésame, huile de; Sesami oleum; Sésamo, aceite de; Sesamolja; Sezamový olej; Sezamų aliejus; Szezámolaj; Teel Oil.

CAS — 8008-74-0.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), and *Jpn.* Also in *USNF.*

Ph. Eur. 6.2 (Sesame Oil, Refined; Sesami Oleum Raffinatum). The fatty oil obtained from the ripe seeds of *Sesamum indicum* by expression or extraction and subsequent refining. It may contain a suitable antioxidant. It is a clear, light yellow, almost colourless liquid. It solidifies to a soft mass at about –4°. Practically insoluble in alcohol; miscible with petroleum spirit. Store in well-filled, airtight containers. Protect from light. Refined sesame oil for use in the manufacture of parenteral dosage forms should be stored under an inert gas in airtight containers.

USNF 26 (Sesame Oil). The refined fixed oil obtained from the seed of one or more cultivated varieties of *Sesamum indicum* (Pedaliaceae). It may contain suitable antioxidants. A pale yellow, practically odourless, oily liquid. Slightly soluble in alcohol; miscible with carbon disulfide, with chloroform, with ether, and with petroleum spirit. Store in airtight containers at a temperature not exceeding 40°. Protect from light.

Profile

Sesame oil has been used in the preparation of liniments, plasters, ointments, and soaps. Because it is relatively stable, it is a useful solvent and vehicle for parenteral products. Hypersensitivity reactions have been seen.

Adverse effects. References to hypersensitivity reactions[1-7] associated with sesame, and subcutaneous nodules[8] after injection of the oil.

Shellac

E904; Goma laca; Gomme Laque; Gommes laques; Lacca; Lacca in Tabulis; Schellack; Šelak; Šelakas; Sellak; Shellack; Shellakka.

CAS — 9000-59-3.

Pharmacopoeias. In *Eur.* (see p.vii). Also in *USNF.*

Jpn includes Purified Shellac and White Shellac (Bleached).

Ph. Eur. 6.2 (Shellac). It is obtained by purification of the resinous secretion of the female insect *Kerria lacca* (Kerr) Lindinger (*Laccifer lacca* Kerr). There are 4 types of shellac depending on the nature of the treatment of crude secretion (seedlac): Wax-containing Shellac; Bleached Shellac; Dewaxed Shellac; and Bleached, Dewaxed Shellac.

Brownish-orange or yellow, shining, translucent, hard or brittle more or less thin flakes (Wax-containing Shellac; Dewaxed Shellac), or a creamy-white or brownish-yellow powder (Bleached Shellac; Bleached, Dewaxed Shellac).

Practically insoluble in water. With dehydrated alcohol it gives a more or less opalescent solution (Wax-containing Shellac; Bleached Shellac) or a clear solution (Dewaxed Shellac; Bleached, Dewaxed Shellac). When warmed, it is sparingly soluble or soluble in alkaline solutions. Protect from light. Store Bleached Shellac and Bleached, Dewaxed Shellac at a temperature not exceeding 15°.

USNF 26 (Shellac). It is obtained by purification of lac, the resinous secretion of the insect *Laccifer lacca kerr* (Coccidae). There are 4 varieties: Orange Shellac, Dewaxed Orange Shellac, Regular Bleached (White) Shellac, and Refined Bleached Shellac. Orange Shellac occurs as thin, hard, brittle, transparent, pale lemon-yellow to brownish-orange flakes, having little or no odour. Bleached Shellac occurs as opaque, amorphous, cream to yellow granules or coarse powder, having little or no odour.

Insoluble in water; very slowly soluble in alcohol, 85 to 95% (w/w); soluble in ether, 13 to 15%, in petroleum spirit, 2 to 6%, in benzene, 10 to 20%, and in aqueous solutions of ethanolamines, alkalis, and borax; sparingly soluble in turpentine oil. Store preferably at a temperature not exceeding 8°.

Profile

Shellac is used as an enteric coating for pills and tablets, but disintegration time has been reported to increase markedly on storage.

Preparations

USNF 26: Pharmaceutical Glaze.

Shepherd's Purse

Bolsa de pastor; Bourse à pasteur; Capsella; Herba Bursae Pastoris; Shepherds Burse Herb.

Pharmacopoeias. In *Fr.*

Profile

Shepherd's purse, the aerial parts of *Capsella bursa-pastoris* (*Thlaspi bursa-pastoris*) (Cruciferae) has antihaemorrhagic and astringent properties. It is used to prevent or arrest bleeding, and has been specifically used for menorrhagia. It is also used for urinary-tract disorders and diarrhoea.

Homoeopathy. Shepherd's purse has been used in homoeopathic medicines under the following names: Capsella bursapastoris; Thlaspi bursa pastoris; Capsella; Thal. b. p.

Preparations

Proprietary Preparations (details are given in Part 3)

Ger.: Styptysat.

Multi-ingredient: ***Austral.:*** Capsella Complex; ***Austria:*** Menodoron; ***Fr.:*** Histo-Fluine P; ***Ger.:*** Rhoival†; ***Pol.:*** Klimax†; Prostapol; Uroprost; ***S.Afr.:*** Menodoron; ***Spain:*** Proctosor†; ***UK:*** Antitis; Sciargo.

Siam Benzoin

Benjoin du Laos; Benjuí de Siam; Bensoe, Siam; Bentsoe, Siam; Benzoe tonkinensis; Benzoino derva; Benzoová pryskyřice siamská.

CAS — 9000-72-0.

Pharmacopoeias. In *Chin.* and *Eur.* (see p.vii). Also in some pharmacopoeias under the title benzoin and should not be confused with Sumatra benzoin. *Jpn* and *US* allow both Siam benzoin and Sumatra benzoin under the title Benzoin.

Ph. Eur. 6.2 (Benzoin, Siam). The resin obtained by incising the trunk of *Styrax tonkinensis*. It has a characteristic odour of vanillin and contains 45.0 to 55.0% of total acids, calculated as benzoic acid, and with reference to the dried drug. Protect from light.

USP 31 (Benzoin). A balsamic resin from *Styrax tonkinensis*, or other species of the *Anthostyrax* section of the genus *Styrax* (Styracaceae). It yields not less than 90% of alcohol-soluble extractive. It occurs as pebble-like tears of variable size and shape, compressed, yellowish-brown to rusty brown externally, milky white on fracture, separate or very slightly agglutinated, hard and brittle at ordinary temperatures but softened by heat. It has an agreeable, balsamic, vanilla-like odour.

Profile

Siam benzoin has been used similarly to Sumatra benzoin (p.2394). It has also been used as a preservative and was formerly used in the preparation of benzoinated lard.

Preparations of Sumatra and Siam benzoins are used in aromatherapy.

Preparations

USP 31: Compound Benzoin Tincture; Podophyllum Resin Topical Solution.

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Braz.:*** Dermol†; ***Fr.:*** Balsolene; Borostyrol; Homeoplasmine; Inotyol†; ***Israel:*** Inotyol; ***Ital.:*** Ondroly-A†; ***Switz.:*** Borostyrol N†.

Siberian Ginseng

Ciwujia; Eleuterokokový kořen (eleutherococcus); Eleuterokokų šaknys (eleutherococcus); Eleuthero; Eleutherococci radix (eleutherococcus); Éleuthérocoque (eleutherococcus); Korzeń eleuterokoka (eleutherococcus); Rysk rot (eleutherococcus); Tajgagyökér (eleutherococcus); Venäjänjuuri (eleutherococcus).

NOTE. The name Russian Ginseng has been applied to *Eleutherococcus senticosus*.

The name Ginseng usually refers to *Panax ginseng* and related species (see p.2312).

Some material supplied as Siberian ginseng may be *Periploca sepium* (Asclepiadaceae), a plant unrelated to *Eleutherococcus senticosus*, due to the similarity of the Chinese names for these plants.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), and *US.*

Ph. Eur. 6.2 (Eleutherococcus; Eleutherococci Radix). The dried, whole or cut underground organs of *Eleutherococcus senticosus*. It contains not less than 0.08% for the sum of eleutheroside B and eleutheroside E.

USP 31 (Eleuthero). The dried rhizome with roots of *Eleutherococus senticosus* (Araliaceae) (*Acanthopanax senticosus*) (Araliaceae). It contains not less than 0.08% of the sum of eleutheroside B and eleutheroside E, calculated on the dried basis. Protect from light.

Profile

Siberian ginseng is reported to enhance natural resistance and to improve performance under stress. It is used similarly to ginseng (*Panax ginseng*) (see p.2312) although the constituents of the two herbs are different. It is also used in traditional Chinese medicine.

◊ Reviews.

1. Davydov M, Krikorian AD. Eleutherococcus sentiosus (Rupr. & Maxim.) Maxim. (Araliaceae) as an adaptogen: a closer look. *J Ethnopharmacol* 2000; **72:** 345–93.

Adverse effects. Thalamic infarction occurred in a 26-year-old man who had taken oral high-energy dietary supplements containing Siberian ginseng daily for about a year during a vigorous training programme for a marathon.[1] He had taken about 1.5 to 2 g of Siberian ginseng daily; small amounts of caffeine were also contained in the preparations. In the absence of other aetiological factors, it was proposed that prolonged daily use of Siberian ginseng in combination with caffeine and vigorous exercise was responsible for the stroke.

1. Polenakovik S. Dietary supplements and stroke. *Mayo Clin Proc* 2005; **80:** 1240–1.

Interactions. For a report of raised serum-digoxin concentrations in a patient taking *digoxin* and Siberian ginseng, see Interference with Digoxin Assays, p.1260.

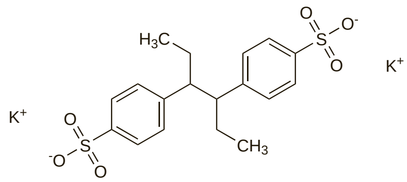
Sigetin

Sygethin. Dipotassium *meso*-3,4-Bis(*p*-sulfophenyl)hexane.

Сигетин

$C_{18}H_{20}O_6S_2K_2$ = 474.7.

CAS — 13517-49-2.



Profile

Sigetin is an analogue of hexestrol (p.2109) but is reported to have no oestrogenic activity. It is used in the management of menopausal symptoms in a usual oral daily dose of 100 to 200 mg.

Sigetin is also reported to enhance the action of oxytocin and to improve placental blood flow and has been given intravenously or intramuscularly in the active management of labour and for threatened intra-uterine fetal asphyxia.

ATC Vet — QD08AL30.

Profile

Silver is a pure white, malleable and ductile metal. It possesses antibacterial properties and is used topically either as the metal or as silver salts. It is not absorbed to any great extent and the main problem associated with the metal is argyria, a grey discoloration of the tissues. Silver is also present as the core in some copper-wound plastic intra-uterine contraceptive devices. Silver is used as a colouring agent for some types of confectionery.

Salts or compounds of silver that have been used therapeutically include silver acetate (p.2387), silver allantoinate and silver zinc allantoinate, silver borate, silver carbonate, silver chloride, silver chromate, silver glycerolate, colloidal silver iodide, silver lactate, silver manganite, silver nitrate (p.2387), silver-nylon polymers, silver protein (p.2387), and sulfadiazine silver (p.337).

Homoeopathy. Silver has been used in homoeopathic medicines under the following names: Argentum metallicum; Arg. met.

Silver chloride has been used in homoeopathic medicines under the following names: Argentum muriaticum; Arg. mur.

Silver cyanide has been used in homoeopathic compounds under the following names: Argentum cynatum; Arg. cy.

Silver iodide has been used in homoeopathic medicines under the following names: Argentum iodatum; Arg. iod.

Argyria. Argyria (generalised argyrosis), characterised by a slate, blue-grey discoloration of the skin, sclera, mucosal surfaces, and nails, developed in a patient who had used vasoconstrictor nasal drops containing silver protein for 4 years. The colour changes were most obvious in skin exposed to the sun. Argyria is irreversible and withdrawal of the nasal drops and use of other measures such as use of sun block and chemical peeling had little effect in this patient.[1]

1. Tomi NS, *et al.* A silver man. *Lancet* 2004; **363:** 532.

Catheter care. The benefits of silver coated or impregnated catheters in preventing or reducing urinary-tract infection are uncertain, and studies have provided conflicting evidence. Some[1] consider that the benefits are statistically insignificant. However, a meta-analysis[2] involving 8 studies with a total of 2355 patients concluded, despite some concerns about the quality and heterogeneity of the studies, that there was a benefit, but that silver alloy coated catheters were significantly more effective in preventing urinary-tract infections than were those coated with silver oxide.

1. Reiche T, *et al.* A prospective, controlled, randomized study of the effect of a slow-release silver device on the frequency of urinary tract infection in newly catheterized patients. *BJU Int* 2000; **85:** 54–9.
2. Saint S, *et al.* The efficacy of silver alloy-coated urinary catheters in preventing urinary tract infection: a meta-analysis. *Am J Med* 1998; **105:** 236–41.

Wound healing. Silver is incorporated into topical dressings for wound care although a systematic review[1] of 3 randomised controlled studies found insufficient evidence to support the use of silver-containing dressings or other formulations for the treatment of infected or contaminated wounds. Bacterial resistance to silver can occur, but this risk can be minimised by choosing dressings that release high levels of silver ions and have a rapid bactericidal action.[2]

The mechanism of bactericidal action of silver in dressings is that silver atoms are oxidised and slowly released as positively charged silver cations when in contact with fluid. The silver ions bind to and disrupt bacterial cell walls as well as binding to bacterial enzymes and DNA. A nanocrystalline silver coating to the dressing increases the surface area of exposure and facilitates release of silver ions. Silver can also be incorporated as complex silver molecules in various different topical formulations that regulate the speed of delivery.[1] Proposed mechanisms of silver resistance have been plasmid acquisition and gene mutation.[2]

Silver Acetate

Argenti Acetas; Plata, acetato de.

$C_2H_3AgO_2$ = 166.9.

CAS — 563-63-3.

Profile

Silver acetate has been used similarly to silver nitrate as an antiseptic. It has also been used in antismoking preparations.

Smoking cessation. References.

1. Lancaster T, Stead LF. Silver acetate for smoking cessation. Available in The Cochrane Database of Systematic Reviews; Issue 3. Chichester: John Wiley; 1997 (accessed 12/04/06).

Silver Nitrate

Argent, nitrate d'; Argenti nitras; Dusičnan stříbrný; Ezüst-nitrát; Gümüş Nitrat; Hopeanitraatti; Nitrato de Plata; Nitrato de Prata; Plata, nitrato de; Sidabro nitratas; Silvernitrat; Srebra azotan.

$AgNO_3$ = 169.9.

CAS — 7761-88-8.

ATC — D08AL01.

ATC Vet — QD08AL01.

Pharmacopoeias. In *Eur.* (see p.vii), *Int.*, *Jpn*, *US*, and *Viet.*

Ph. Eur. 6.2 (Silver Nitrate). A white or almost white, crystalline powder or transparent colourless crystals. Very soluble in water; soluble in alcohol. Store in nonmetallic containers. Protect from light.

USP 31 (Silver Nitrate). Colourless or white crystals. On exposure to light in the presence of organic matter, it becomes grey or greyish-black. Soluble 1 in 0.4 of water, 1 in 0.1 of boiling water, 1 in 30 of alcohol, and 1 in 6.5 of boiling alcohol; slightly soluble in ether. Its solutions in water have a pH of about 5.5. Store in airtight containers. Protect from light.

Incompatibility. Silver nitrate is incompatible with a range of substances. Although it is unlikely that there will be a need to add any of the interacting substances to silver nitrate solutions considering its current uses, pharmacists should be aware of the potential for incompatibility.

The reported yellow-brown discoloration of samples of silver nitrate bladder irrigation (1 in 10 000) probably arose from the reaction of the silver nitrate with alkali released from the glass bottle which appeared to be soda-glass.[1]

1. *PSGB Lab Report P/80/6* 1980.

Adverse Effects

Symptoms of poisoning stem from the corrosive action of silver nitrate and include pain in the mouth, sialorrhoea, abdominal pain, diarrhoea, vomiting, coma, and convulsions.

Short-term mild conjunctivitis is common in infants given silver nitrate eye drops; repeated use or the use of high concentrations produces severe damage and even blindness. Chronic application to the conjunctiva, mucous surfaces, or open wounds leads to argyria (see Silver, above), which though difficult to treat is mainly a cosmetic hazard.

Although silver nitrate is not readily absorbed, absorption of nitrite after reduction of nitrate may cause methaemoglobinaemia. There is also a risk of electrolyte disturbances.

Effects on the eyes. Silver nitrate from a stick containing 75% was applied to the eyes of a newborn infant instead of a 1% solution.[1] After 1 hour there was a thick purulent secretion, the eyelids were red and oedematous, and the conjunctiva markedly injected. The corneas had a blue-grey bedewed appearance with areas of corneal opacification. After treatment by lavage and topical application of antibacterials and homatropine 2% there was a marked improvement and after 1 week topical application of corticosteroids was started. Residual damage was limited to slight corneal opacity.

1. Hornblass A. Silver nitrate ocular damage in newborns. *JAMA* 1975; **231:** 245.

Uses and Administration

Silver nitrate possesses antiseptic properties and is used in many countries as a 1% solution for the prophylaxis of gonococcal ophthalmia neonatorum (see Neonatal Conjunctivitis, p.180). However, as it can cause irritation, other drugs are often used.

In stick form it has been used as a caustic to destroy warts (p.1584) and other small skin growths. Compresses soaked in a 0.5% solution of silver nitrate have been applied to severe burns to reduce infection. Solutions have also been used as topical antiseptics and astringents in other conditions. Instillation of silver nitrate solution has been investigated for pleurodesis in the management of malignant effusions.

Silver nitrate has been used in cosmetics to dye eyebrows and eye lashes.

Homoeopathy. Silver nitrate has been used in homoeopathic medicines under the following names: Argent. Nit.; Argenti nitras; Argentum nitricum; Arg. nit.

Silver Protein

Albumosesilber; Argent, protéinate d'; Argentoproteinum; Argentum proteicum; Argentum Proteinicum; Hopeaproteiini; Plata, proteína de; Protargolum; Proteinato de Plata; Proteinato de Prata; Silverprotein; Srebra proteinicum; Strong Protargin; Strong Protein Silver; Strong Silver Protein.

CAS — 9007-35-6 (colloidal silver); 9015-51-4 (silver protein).

NOTE. Synonyms for mild silver protein include: Argentoproteinum Mite; Argentum Vitellinicum; Mild Protargin; Mild Silver Proteinate; Silver Nucleinate; Silver Vitellin; Vitelinato de Plata and Vitelinato de Prata.

Pharmacopoeias. In *It.*, *Jpn*, and *Viet.*

Eur. (see p.vii) includes Silver, Colloidal, for External Use.

Ph. Eur. 6.2 (Silver, Colloidal, for External Use; Argentum Colloidale ad Usum Externum). It is colloidal metallic silver, containing protein. It contains 70.0 to 80.0% of Ag, calculated with reference to the dried substance. Green or bluish-black, metallic, hygroscopic, shiny flakes or powder. Freely soluble or soluble in water; practically insoluble in alcohol and in dichloromethane. Store in airtight containers.

Profile

Silver protein solutions have antibacterial properties, due to the presence of low concentrations of ionised silver, and have been used as eye drops and for application to mucous membranes. The mild form of silver protein is considered to be less irritating, but less active.

Colloidal silver, which is also a preparation of silver in combination with protein, has also been used topically for its antibacterial activity.

Homoeopathy. Silver protein has been used in homoeopathic medicines under the following names: Argentum colloidale.

Adverse effects. Irreversible neurotoxicity associated with the daily ingestion of a home-made colloidal silver drink for 4 months developed in an elderly patient.[1] He presented with myoclonic status epilepticus, then entered into a prolonged coma, and eventually died of pneumonia some months later. On admission, high levels of silver were found in the plasma, erythrocytes, and CSF, and at autopsy there was evidence of selective silver accumulation in the brain. As of October 2007, four reports of silver toxicity in patients ingesting home-made products, likewise prepared using a colloidal silver generator, had also been received by the Australian Adverse Drug Reactions Advisory Committee (ADRAC);[2] one patient also applied it topically after shaving. All patients had high plasma-silver concentrations and

The symbol † denotes a preparation no longer actively marketed

developed skin discoloration; some also had systemic symptoms including hepatotoxicity, cardiomyopathy, amnesia, and incoherent speech.

For argyria after prolonged use of nasal drops containing silver protein see under Silver, above.

Proprietary Preparations (details are given in Part 3)
Braz.: Argirol; ***Fr.:*** Stillargol; ***Ger.:*** Rhinoguttae Argenti diacetylotannici proteinici; Rhinoguttae pro Infantibus N.

Multi-ingredient: ***Austria:*** Coldargan; ***Belg.:*** Argyrophedrine; ***Ger.:*** Gastrarctin N; ***Hung.:*** Coldargan; ***Ital.:*** Argirofedrina†; Argisone; Argotone; Arscolloid; Bio-Arscolloid; Corti-Arscolloid; Rinantipiol†; Rinofomentil†; ***Port.:*** Naso-Calma†.

Sincalide *(BAN, USAN, rINN)*

CCK-OP; Sincalida; Sincalidum; Sinkalid; Sinkalidi; SQ-19844. De-1-(5-oxo-L-proline)-de-2-L-glutamine-5-methionine-caerulein.

Синкалид

$C_{49}H_{62}N_{10}O_{16}S_3$ = 1143.3.
CAS — 25126-32-3.
ATC — V04CC03.
ATC Vet — QV04CC03.

Pharmacopoeias. *US* includes Sincalide for Injection.

Adverse Effects

Sincalide stimulates gallbladder contraction and gastrointestinal muscle and may give rise to abdominal discomfort. Dizziness, nausea, and flushing may also occur.

Uses and Administration

Sincalide is the synthetic C-terminal octapeptide of cholecystokinin (see pancreozymin, p.2361) and when given by intravenous injection it stimulates gallbladder contraction; it also stimulates intestinal muscle.

Sincalide is used for testing gallbladder function and as an adjunct to cholecystography. It is usually given in doses of 20 nanograms/kg by intravenous injection over 30 to 60 seconds. It is also used as a diagnostic agent, often with secretin (p.2384), for testing the functional capacity of the pancreas; this test generally requires duodenal intubation of the patient and examination of duodenal aspirate. A suggested procedure is to give a 1-hour intravenous infusion of secretin, and 30 minutes after starting this infusion, to start a separate infusion of sincalide 20 nanograms/kg over a 30-minute period. A dose of 40 nanograms/kg may be given to accelerate the transit time of a barium meal through the small bowel; it should be given after the barium meal has passed the proximal jejunum.

Preparations

USP 31: Sincalide for Injection.

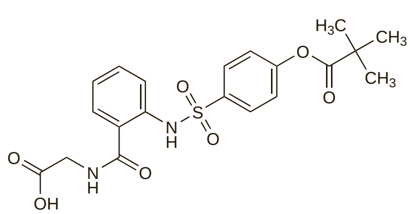
Proprietary Preparations (details are given in Part 3)
Canad.: Kinevac†; ***USA:*** Kinevac.

Sivelestat *(USAN, rINN)*

EI-546; LY-544349; ONO-5046; Sivélestat; Sivelestatum. *o*-(*p*-Hydroxybenzenesulfonamido)hippuric acid pivalate.

Сивелестат

$C_{20}H_{22}N_2O_7S$ = 434.5.
CAS — 127373-66-4.



Sivelestat Sodium *(USAN, rINNM)*

Natrii Sivelestatum; Sivelestat sódico; Sivélestat Sodique.

Натрий Сивелестат

$C_{20}H_{21}N_2NaO_7S,4H_2O$ = 528.5.
CAS — 201677-61-4.

Profile

Sivelestat is an elastase inhibitor that primarily inhibits neutrophil elastase. It is given by intravenous infusion as the sodium salt in the treatment of acute lung injury associated with systemic inflammatory response syndrome. However, a large study in patients with acute lung injury did not find it of benefit.

Proprietary Preparations (details are given in Part 3)
Jpn: Elaspol.

Skullcap

Escutelaria; Scullcap; Scutellaria.

Pharmacopoeias. *Chin.* includes Herba Scutellariae Barbatae (Barbated Skullcap Herb; *Scutellaria barbata*) and Radix Scutellariae (Baical Skullcap Root; *S. baicalensis*). *Jpn* includes Scutellaria Root (*S. baicalensis*).

Profile

Skullcap, the aerial parts of *Scutellaria lateriflora* (Labiatae) and other *Scutellaria* spp., has sedative and antispasmodic properties. It is used as a nerve tonic, and for insomnia and menstrual disorders.

Baical skullcap (*S. baicalensis*) is used in Chinese herbal medicine.

Preparations

Proprietary Preparations (details are given in Part 3)
Pol.: Baikadent.

Multi-ingredient: ***Austral.:*** Albizia Complex; Andrographis Compound; Calmo; Euphrasia Compound; Feminine Herbal Complex; Goodnight Formula†; Nevaton; Pacifenity†; Passiflora Complex†; Passionflower Plus; Relaxaplex†; Valerian†; ***Canad.:*** Herbal Nerve; ***UK:*** Herbal Indigestion Naturtabs; HRI Calm Life; Newrelax; Nodoff; Quiet Days; Quiet Tyme; Scullcap & Gentian Tablets; St Johnswort Compound; Stressless; Vegetable Cough Remover; Wellwoman.

Skunk Cabbage

Col apestosa; Skunkweed.

Profile

Skunk cabbage, the root and rhizome of *Symplocarpus foetidus* (*Dracontium foetidum*) (Araceae), has expectorant properties and is used in respiratory-tract disorders.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***UK:*** Horehound and Aniseed Cough Mixture; Vegetable Cough Remover.

Slippery Elm

Elm Bark; Olmo resbaladizo; Slippery Elm Bark; Ulmus.

Pharmacopoeias. In *US.*
USP 31 (Elm). The dried inner bark of *Ulmus rubra* (*U. fulva*) (Ulmaceae). Store in a dry place at a temperature of 8° to 15°.

Profile

Slippery elm contains a considerable amount of mucilage and has been used as a demulcent.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Bioglan Psylli-Mucil Plus; Cal Alkyline; Digestive Aid; Herbal Cleanse†; PC Regulax†; Travelaide†; ***Canad.:*** Herbal Throat†; ***UK:*** Modern Herbals Pile; Pileabs; Slippery Elm Stomach Tablets.

Soapwort

Bouncing Bet; Fuller's Herb; Red Soapwort; Saponaire.

NOTE. Distinguish from White Soapwort, *Gypsophila paniculata* (Caryophyllaceae)

Pharmacopoeias. In *Fr.*

Profile

The root of red soapwort, *Saponaria officinalis* (Caryophyllaceae), contains saponins and is included in herbal preparations for catarrh and other respiratory-tract disorders and for skin disorders. It has been used as a foaming agent. The aerial parts of the herb have also been used.

Homoeopathy. Soapwort has been used in homoeopathic medicines under the following names: Saponaria; Saponaria officinalis.

Preparations

Proprietary Preparations (details are given in Part 3)
Ger.: Aspectonetten N†.

Multi-ingredient: ***Cz.:*** Bronchicum Tropfen†; Pleumolysin; Tussilen; ***Fr.:*** Depuratif Parnel; ***Ger.:*** Bronchicum Tropfen N†; Em-medical†; ***Pol.:*** Bronchicum†; Pectosol; Reumosol; Saponarex; ***Port.:*** Erpecalm.

Soda Lime

Cal sodada; Calcaria absorbens; Calcaria Compositio; Calx Sodica; Chaux Sodée.

CAS — 8006-28-8.

Pharmacopoeias. In *Br.* Also in *USNF.*
BP 2008 (Soda Lime). A mixture of sodium hydroxide, or sodium hydroxide and potassium hydroxide, with calcium hydroxide. White or greyish-white granules, or it may be coloured with an indicator to show when its absorptive capacity is exhausted. It absorbs about 20% of its weight of carbon dioxide. Partially soluble in water; almost completely soluble in 1M acetic acid. A suspension in water is strongly alkaline to litmus.
USNF 26 (Soda Lime). A mixture of calcium hydroxide and sodium or potassium hydroxide or both. It may contain an indicator that is inert and that changes colour when the soda lime can no longer absorb carbon dioxide. White or greyish-white granules. May have a colour if an indicator is added.

Incompatibility. Soda lime is incompatible with trichloroethylene.

Profile

Soda lime is used to absorb carbon dioxide, for instance in closed-circuit anaesthetic apparatus, and in the determination of the basal metabolic rate. Limits are specified for particle size, and particles should be free from dust.

Soda lime must not be used with trichloroethylene, since this is decomposed by warm alkali to produce a toxic end product that gives rise to lesions of the nervous system.

Soda lime is irritating and corrosive to skin, mucous membranes, and eyes.

Sodium Aminobenzoate

Aminobenzoate Sodium. Sodium 4-aminobenzoate.

$C_7H_6NNaO_2$ = 159.1.

Pharmacopoeias. In *US.*
USP 31 (Aminobenzoate Sodium). pH of a 5% solution in water is between 8.0 and 9.0.

Profile

Sodium aminobenzoate has been used in analgesic preparations.

Preparations

Proprietary Preparations (details are given in Part 3)
Multi-ingredient: ***Ital.:*** Fotofil; Neo-Ustiol; ***Spain:*** Tri Hachemina.

Sodium Arsenate

Arseniato de sodio; Natrium Arsenicicum; Sodium Arseniate.

$Na_2HAsO_4,7H_2O$ = 312.0.
CAS — 7778-43-0 (anhydrous sodium arsenate); 10048-95-0 (sodium arsenate heptahydrate).

Profile

Sodium arsenate was formerly used in the treatment of chronic skin diseases, in parasitic diseases of the blood, and in some forms of anaemia. It has the adverse effects of Arsenic Trioxide, p.2260.

Preparations

Proprietary Preparations (details are given in Part 3)
Multi-ingredient: ***Mex.:*** Iodarsolo B12†.

Sodium Camsilate

Sodium Camphorsulphonate. Sodium (+)-camphor-10-sulfonate.

$C_{10}H_{15}NaO_4S$ = 254.3.
CAS — 21791-94-6; 34850-66-3.

Pharmacopoeias. In *Viet.*

Profile

Sodium camsilate has been used as a respiratory and cardiac stimulant.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Belg.:*** Eucalyptine Pholcodine Le Brun†; Kamfeine†; Tux†; ***Braz.:*** Algice; Baldin-CE†; Broncopinol†; Cafalena†; Gripanil†; Gripomatine†; Griponia†; Gripsay; Killgrip†; Ozonyl Aquoso; Ozonyl Expectorante; Pulmorien†; Tetrapulmo; Tripulmin†; ***Chile:*** Gruben.

Sodium Carbonate Anhydrous

Carbonato de sodio anhidro; Cenizas de Soda; E500; Exsiccated Sodium Carbonate; Natrii Carbonas; Natrii carbonas anhydricus; Natrio karbonatas, bevandenis; Natrium Carbonicum Calcinatum; Natrium Carbonicum Siccatum; Natriumkarbonaatti, vedetön; Natriumkarbonat, vattenfritt; Sodium (carbonate de) anhydre; Uhličitan sodný; Uhličitan sodný bezvodý; Vízmentes nátrium-karbonát.

Na_2CO_3 = 106.0.
CAS — 497-19-8.

NOTE. Soda ash is a synonym for the technical grade of sodium carbonate anhydrous.

Pharmacopoeias. In *Eur.* (see p.vii) and *Jpn. USNF* allows the anhydrous substance or the monohydrate.
Ph. Eur. 6.2 (Sodium Carbonate, Anhydrous). A white or almost white, slightly granular, hygroscopic powder. Freely soluble in water; practically insoluble in alcohol. A 10% solution in water is strongly alkaline. Store in airtight containers.
USNF 26 (Sodium Carbonate). Colourless crystals, or white, crystalline powder or granules. Soluble 1 in 3 of water and 1 in 1.8 of boiling water.

Sodium Carbonate Decahydrate

Carbonato de sodio decahidratado; Cristales de Sosa; E500; Natrii Carbonas; Natrii carbonas decahydricus; Natrio karbonatas dekahidratas; Natrium Carbonicum Crystallisatum; Natriumkarbonaattidekahydraatti; Nátrium-karbonát-dekahidrát; Natriumkarbonatdekahydrat; Sodium (carbonate de) décahydraté; Uhličitan sodný dekahydrát.

$Na_2CO_3,10H_2O$ = 286.1.
CAS — 6132-02-1.

NOTE. Washing soda is a synonym for the technical grade of sodium carbonate decahydrate.

Pharmacopoeias. In *Eur.* (see p.vii) and *Jpn.*
Ph. Eur. 6.2 (Sodium Carbonate Decahydrate). Colourless, efflorescent, transparent crystals or a white or almost white crystalline powder. Freely soluble in water; practically insoluble in alcohol. A 10% solution in water is strongly alkaline. Store in airtight containers.

Sodium Carbonate Monohydrate

Carbonato de sodio monohidratado; E500; Natrii carbonas monohydricus; Natrio karbonatas monohidratas; Natriumkarbonaattimonohydraatti; Nátrium-karbonát-monohidrát; Natriumkarbonatmonohydrat; Sodium (carbonate de) monohydraté; Sodu węglan jednowodny; Uhličitan sodný monohydrát.

Na_2CO_3,H_2O = 124.0.
CAS — 5968-11-6.

Pharmacopoeias. In *Eur.* (see p.vii). *USNF* allows the anhydrous substance or the monohydrate.
Ph. Eur. 6.2 (Sodium Carbonate Monohydrate). A white or almost white, crystalline powder or colourless crystals. Freely soluble in water; practically insoluble in alcohol. A 10% solution in water is strongly alkaline. Store in airtight containers.
USNF 26 (Sodium Carbonate). Colourless crystals, or white, crystalline powder or granules. When exposed to dry air above 50°, it effloresces and at 100° it becomes anhydrous. Soluble 1 in 3 of water and 1 in 1.8 of boiling water.

Profile

Sodium carbonate is used in antacid preparations. Anhydrous sodium carbonate and the monohydrate are also used as reagents. The decahydrate has been used in alkaline baths. Sodium carbonate in its anhydrous or hydrated form is also used as a water softener.

Sodium carbonate may be irritating or mildly corrosive to skin, mucous membranes, and eyes.

Preparations

BPC 1973: Surgical Chlorinated Soda Solution;
USP 31: Citric Acid, Magnesium Oxide, and Sodium Carbonate Irrigation.

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Arg.:*** Alikal; Otocalmia Biotic; Otocerol; Otoclean Gotas Oticas; Sal de Fruta Eno; Sincerum; Uvasal; Yasta; ***Austral.:*** Eno; ***Braz.:*** Digestbem; Sal de Fruta Eno; Sonrisal; ***Fr.:*** Bactident; Hydralin; ***Hong Kong:*** Eno†; Hydralin; ***Irl.:*** Cymalon; ***Israel:*** Eno; Urikal; ***Ital.:*** Gastrotuss; ***Port.:*** Eno; Gastropensan; ***Spain:*** Sal de Fruta Eno; Tanasid†; ***Switz.:*** Saltrates Rodell†; ***UK:*** Cymalon; Eno; Resolve; ***Venez.:*** Eno.

Sodium Chlorate

Clorato de potasio; Natrium Chloricum; Sodii Chloras.

$NaClO_3$ = 106.4.
CAS — 7775-09-9.

Profile

Sodium chlorate closely resembles potassium chlorate (p.2371) in its properties and has been used as an astringent. Its main use is as a weedkiller and it is therefore a common household chemical. Poor storage conditions can lead to explosions.

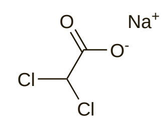
Preparations

Proprietary Preparations (details are given in Part 3)
Multi-ingredient: ***Spain:*** Co Bucal.

Sodium Dichloroacetate *(USAN)*

CPC-211; DCA; Dicloroacetato de sodio.

$C_2HCl_2NaO_2$ = 150.9.
CAS — 2156-56-1 (sodium dichloroacetate); 79-43-6 (dichloroacetic acid).



Profile

Dichloroacetic acid activates pyruvate dehydrogenase, a mitochondrial enzyme that catalyses metabolism of pyruvate and lactate, and it inhibits glycolysis. It also stimulates myocardial contractility. Sodium dichloroacetate has been used for the treatment of congenital lactic acidosis, lactic acidosis in patients with severe malaria, homozygous familial hypercholesterolaemia, and for severe brain injury. It is also under investigation for stroke.

Adverse effects. Adverse effects reported with sodium dichloroacetate have mainly involved the central and peripheral nervous systems.[1] Anxiolytic or sedative effects are common. Reversible polyneuropathy has been reported after chronic use, as has asymptomatic elevation of serum transaminases. Reduced urate clearance and elevated serum urate levels have been reported in patients with type 2 diabetes mellitus. See also under Use in Metabolic Acidosis, below for reference to early termination of a study due to development of peripheral neuropathy.

Use in metabolic acidosis. In a study[1] in 29 patients with lactic acidosis (p.1667), sodium dichloroacetate 50 mg/kg given by intravenous infusion over 30 minutes, followed by a second dose 2 hours after beginning the first infusion, produced a metabolic response in 23 patients with a short-term increase in survival. However, a subsequent study[2] found that, while dichloroacetate infusion did reduce blood-lactate concentrations, it did not alter haemodynamics or survival in patients with severe lactic acidosis. A review[3] of these and other controlled studies in the treatment of acquired and congenital lactic acidosis concluded that the maximum lactate-lowering effect is dose-dependent but independent of time after dosing. Whether lowering lactate levels contributes to reducing morbidity and mortality in hyperlactataemia remains controversial, although data from recent studies suggest that treatment in mild cases may reduce the risk of death. A review[4] of the treatment of children with dichloroacetate for congenital lactic acidosis hypothesised that it might improve quality of life by reducing the frequency of acid–base decompensations, improving neurological function, and stimulating linear growth. A randomised controlled study[5] of dichloroacetate for the treatment of congenital lactic acidosis in 43 patients ranging in age from 3 months to 18 years found that dichloroacetate for 6 months was well tolerated and reduced blood-lactate response to a carbohydrate challenge but had no effect on basal-lactate concentrations nor did it improve neurologic or other measures of clinical outcome. In another randomised controlled study[6] of the effects of dichloroacetate in the treatment of the multisystem syndrome of mitochondrial myopathy, encephalopathy, lactic acidosis, and stroke-like episodes (MELAS), 13 of 15 patients given the study medication developed peripheral neuropathy, displaying either clinical signs and symptoms or electrophysiological evidence. The study was therefore stopped early, and on this basis, the authors concluded that dichloroacetate could not be recommended for the treatment of MELAS.

In a randomised, double-blind, placebo-controlled study[7] in 124 West African children with severe *Plasmodium falciparum* malaria, a single intravenous infusion of sodium dichloroacetate in a dose of 50 mg/kg given at the same time as quinine increased the rate and magnitude of fall in blood-lactate levels without compromising the plasma kinetics of quinine.

In the UK, the *BNFC* includes the following doses for neonates and children with pyruvate dehydrogenase defects: 12.5 mg/kg 4 times daily by mouth, adjusted according to response up to 200 mg/kg daily.

Sodium dichloroacetate has also been studied[8] in patients with traumatic brain injury for its lactate-lowering effect in cerebrospinal fluid.

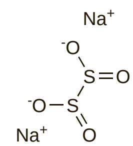
Sodium Dithionite

Ditionito de sodio; Natrii Dithionis; Sodium Hydrosulfite; Sodium Hydrosulphite; Sodium Sulphoxylate; Sodu ditionian; Sodu podsiarczyn.

$Na_2S_2O_4$ = 174.1.
CAS — 7775-14-6.



NOTE. The name sodium hydrosulfite is also applied to $NaHSO_2$ = 88.06.

Pharmacopoeias. In *Pol.*

Profile

Sodium dithionite is used as a reducing agent. It may be used in the form of a simple urine test in the detection of paraquat poisoning. A 0.25% solution has been used to remove phenazopyridine stains from fabric. It is irritant to the skin.

Sodium Gluconate

E576; Gluconato de sodio. Monosodium D-gluconate.

$C_6H_{11}NaO_7$ = 218.1.
CAS — 527-07-1.

Pharmacopoeias. In *US.*

Profile

Sodium gluconate is a food additive.

Gluconates act as acceptors of hydrogen ions produced by metabolic processes and are an indirect source of bicarbonate ions.

Sodium Humate

CAS — 1415-93-6 (humic acids); 68131-04-4 (sodium humates).

Profile

Humic acids are mixtures of complex macromolecules derived from the decomposition of organic material and are found in soils and peats. They have been used topically, usually as sodium humate, for musculoskeletal and joint disorders. They also have industrial applications.

Preparations

Proprietary Preparations (details are given in Part 3)
Ger.: Leukona-Sulfomoor-Bad F†; Rheumasan Moor-Bad S†.

Multi-ingredient: ***Austria:*** Humal; Leukona-Sulfomoor-Bad†; Salhumin; ***Ger.:*** Salhumin Rheuma-Bad; Salhumin Sitzbad N†; Salhumin Teilbad N†.

Sodium Hydroxide

Ätznatron; Caustic Soda; E524; Hidróxido de sodio; Hydroxid sodný; Natrii hydroxidum; Natrio hidroksidas; Natrium Hydricum; Natrium Hydroxydatum; Nátrium-hidroxid; Natriumhydroksidi; Natriumhydroxid; Soda Lye; Sodium, hydroxyde de; Sodu wodorotlenek; Sosa cáustica.

NaOH = 40.00.
CAS — 1310-73-2.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), *Int.*, and *Jpn.* Also in *USNF.*
Ph. Eur. 6.2 (Sodium Hydroxide). White or almost white, crystalline masses supplied as pellets, sticks, or slabs. It is deliquescent and readily absorbs carbon dioxide. Very soluble in water; freely soluble in alcohol. A 0.01% solution in water has a pH of not less than 11.0. Store in airtight, nonmetallic containers.
USNF 26 (Sodium Hydroxide). White or practically white fused masses, small pellets, flakes, sticks, or other forms. It is hard and

brittle and shows a crystalline fracture. When exposed to air it rapidly absorbs moisture and carbon dioxide. Soluble 1 in 1 of water; freely soluble in alcohol. Store in airtight containers.

Adverse Effects

Sodium hydroxide is strongly alkaline and corrosive, and rapidly destroys organic tissues.

The ingestion of caustic alkalis causes immediate burning pain in the mouth, throat, substernal region, and epigastrium, and the lining membranes become swollen and detached. There is dysphagia, hypersalivation, vomiting with the vomitus becoming blood-stained, diarrhoea, and shock. In severe cases, abdominal pain, asphyxia due to oedema of the glottis, circulatory failure, oesophageal or gastric perforation, peritonitis, or pneumonia may occur. Stricture of the oesophagus can develop weeks or months later.

Caustic alkalis on contact with the skin can produce full thickness burns leading to extensive damage. Alkali burns to the eyes cause conjunctival oedema and corneal destruction; damage may be irreversible.

Treatment of Adverse Effects

Ingestion should not be treated by lavage or emesis. Dilution with water or milk is generally considered controversial for management of corrosive ingestion. However, early dilution therapy of alkalis may reduce oesophageal injury; large volumes of fluid should be avoided. Neutralisation of alkalis is contra-indicated. The airway should be maintained and shock and pain alleviated.

In cases of skin contamination, clothing should be removed immediately and the skin flooded with copious amounts of water for at least 15 minutes. Excision or skin grafting of burnt areas may be necessary in severe cases. Contaminated eyes should be irrigated thoroughly with water or 0.9% sodium chloride until the conjunctival sac pH is normal, which may require irrigation for up to an hour.

Uses and Administration

Sodium hydroxide is a powerful caustic. A 2.5% solution in glycerol has been used as a cuticle solvent. An escharotic preparation of sodium hydroxide and calcium oxide was known as London paste. Sodium hydroxide is also used for adjusting the pH of solutions.

Disinfection. For reference to the possible use of sodium hydroxide for the disinfection of material contaminated by the agent causing Creutzfeldt-Jakob disease, see p.1622.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austria:*** Leberinfusion; Sulfo-Schwefelbad; ***Ger.:*** Glutarsin E†; ***Switz.:*** Saltrates†.

Sodium Iodoheparinate

Iodoheparinate Sodium; Iodoheparinato de sodio.

ATC — S01XA09.
ATC Vet — QS01XA09.

Profile

Sodium iodoheparinate is a derivative of heparin (p.1301) that has been used topically for the treatment of corneal burns and ulceration.

Sodium Methylarsinate

Metilarsinato de sodio; Natrium Methylarsonicum; Sodium Metharsinite. Disodium monomethylarsonate hexahydrate.

$CH_3AsNa_2O_3,6H_2O$ = 292.0.
CAS — 5967-62-4.

Profile

Sodium methylarsinate is an organic arsenic compound with adverse effects similar to those of arsenic trioxide (p.2260). It was formerly included in some vitamin and mineral preparations. It has also been used as a herbicide.

Sodium Morrhuate *(rINN)*

Morrhuate de Sodium; Morrhuate Sodium; Morruato de sodio; Natrii Morrhuas; Natriummorruaatti; Natriummorruat.

Натрия Морруат

CAS — 8031-09-2.

Pharmacopoeias. *Chin.* and *US* include the injection.

Profile

Sodium morrhuate consists of the sodium salts of the fatty acids of cod-liver oil. It is a sclerosant that has been used in the treatment of varicose veins (p.2347). Usual doses are 50 to 100 mg for small or medium veins or 150 to 250 mg for large veins given as a 5% solution by intravenous injection.

Preparations

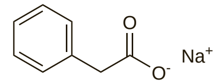
USP 31: Morrhuate Sodium Injection.

Proprietary Preparations (details are given in Part 3)
USA: Scleromate.

Sodium Phenylacetate *(USAN)*

Fenilacetato de sodio.

$C_8H_7NaO_2$ = 158.1.
CAS — 114-70-5.



Profile

Sodium phenylacetate is used as adjunctive treatment for acute hyperammonaemia and associated encephalopathy in patients with enzymatic deficiencies in the urea cycle (p.1929). It is given with sodium benzoate (p.1630) as a combined preparation for intravenous infusion in which 1 mL contains 100 mg of each component. The preparation is diluted in sterile glucose injection 10% at ≥25 mL/kg before infusion. Other similar therapies (e.g. oral sodium phenylbutyrate, see below) should be stopped before starting the infusion. A loading dose is infused over 90 to 120 minutes followed by an equivalent maintenance dose infused over 24 hours. Doses of sodium phenylacetate (together with the same amount of sodium benzoate) are 250 mg/kg for patients weighing 20 kg or less, and 5.5 g/m^2 for those over 20 kg. Maintenance infusions are continued until plasma ammonia concentrations are normal or oral nutrition and therapy can be tolerated. Sodium phenylacetate has also been given by mouth.

Preparations

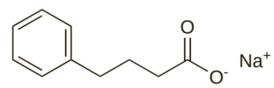
Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***USA:*** Ammonul; Ucephan.

Sodium Phenylbutyrate *(BAN, USAN)*

Fenilbutirato de sodio; Natrii phenylbutyras; Natriumfenylbutyrat; Natriumfenyylibutyraatti; Sodium, phénylbutyrate de; Sodyum Fenilbutirat. Sodium 4-Phenylbutyrate.

$C_{10}H_{11}NaO_2$ = 186.2.
CAS — 1716-12-7.
ATC — A16AX03.
ATC Vet — QA16AX03.



Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Sodium Phenylbutyrate). A white or yellowish-white powder. Freely soluble in water and in methyl alcohol; practically insoluble in dichloromethane. A 2% solution in water has a pH of 6.5 to 7.5.

Profile

Sodium phenylbutyrate is a prodrug for sodium phenylacetate (see above) and is used as adjunctive treatment of hyperammonaemia in patients with urea cycle disorders (p.1929). It is given orally in equally divided doses with meals. The total daily dose for patients weighing under 20 kg is 450 to 600 mg/kg, and for those weighing over 20 kg, 9.9 to 13.0 g/m^2.

Sodium phenylbutyrate is also under investigation for the treatment of some sickle-cell disorders (p.1044) and for use as a potential differentiation-inducing agent in malignant glioma and acute myeloid leukaemia. Sodium phenylbutyrate is also under investigation for spinal muscular atrophy, which is caused by homozygous absence of the SMN1 gene, after reports that it significantly increased SMN transcript expression in both fibroblast cultures and leucocytes from these patients.

Sodium Polymetaphosphate

E452 (sodium polyphosphates); Polimetafosfato de sodio.

CAS — 50813-16-6.

NOTE. Although Sodium hexametaphosphate has been used as a synonym for the polymetaphosphate, the latter also exists in much higher degrees of polymerisation.

Profile

Sodium polymetaphosphate has been used as a 5% dusting powder in hyperhidrosis and bromhidrosis, and as a prophylactic against athlete's foot.

Sodium polymetaphosphate combines with calcium and magnesium ions to form complex soluble compounds and is used as a water softener.

Sodium Pyrophosphate *(USAN)*

Sodu pirofosforan; Tetrasodium Pyrophosphate; TSPP.

$Na_4P_2O_7$ = 265.9.
CAS — 7722-88-5.

Profile

Sodium pyrophosphate acts as a calcium chelator and is used in products for dental care to reduce tartar formation. It is also used as a food additive, and as a water softener in detergents and for industrial applications. Potassium pyrophosphate (tetrapotassium pyrophosphate) and sodium acid pyrophosphate (disodium pyrophosphate) are used similarly.

Sodium pyrophosphate is also used in kits for the preparation of technetium-99m pyrophosphate.

Preparations

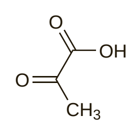
Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Arg.:*** Esmedent Dientes Sens Blanq + Ctrol Sarro; Fluordent PX; Odol Control Sarro†; ***Braz.:*** Malvatricin Antiplaca; ***Chile:*** FKD; ***Ital.:*** AZ Tartar Control; ***USA:*** Plax.

Sodium Pyruvate

Piruvato de sodio. Sodium α-ketopropionate; sodium 2-oxopropanoate.

$C_3H_4NaO_3$ = 111.1.
CAS — 127-17-3 (pyruvic acid); 113-24-6 (sodium pyruvate).



(pyruvic acid)

Profile

Sodium pyruvate has been given intravenously in the diagnosis of disorders of pyruvate metabolism.

◊ Relative serum concentrations of lactate and pyruvate after a 10-minute intravenous infusion of sodium pyruvate 500 mg/kg have been used as an aid to the diagnosis of disorders of pyruvate metabolism.[1] Death shortly after pyruvate loading in a 9-year-old child with restrictive cardiomyopathy suggests that the test should not be performed when cardiac function is decreased.[2]

2. Matthys D, *et al.* Fatal outcome of pyruvate loading test in child with restrictive cardiomyopathy. *Lancet* 1991; **338:** 1020–1.

Sodium Silicate

Silicato de sodio; Soluble Glass; Water Glass.

CAS — 1344-09-8.

Profile

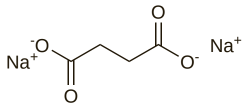
Concentrated aqueous solutions of sodium silicate are commercially available and have many industrial uses. The solutions vary in composition, viscosity, and density; the greater the ratio of Na_2O to SiO_2 the more tacky and alkaline the solution.

Sodium Succinate

E363 (succinic acid); Succinato de sodio.

$C_4H_4Na_2O_4,6H_2O = 270.1.$

CAS — 150-90-3 (anhydrous sodium succinate); 6106-21-4 (sodium succinate hexahydrate).



Profile

Sodium succinate is an ingredient of topical preparations tried for the treatment of cataract. It is also used as a food additive.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Fr.:*** Cristopal†; ***Spain:*** Vitaphakol.

Solidago

Aranyvesszűfű (solidaginis herba); Echtes Goldrutenkraut (*S. virgaurea*); European Goldenrod (*S. virgaurea*); Golden Rod; Goldrutenkraut (*S. gigantea* or *S. canadensis*); Gullris, europeisk (solidaginis virgaureae herba); Gullris (solidaginis herba); Herba Virgaureae (*S. virgaurea*); Kultapiisku, eurooppalainen (solidaginis virgaureae herba); Kultapiisku (solidaginis herba); Nat' zlatobýlu obecného (solidaginis virgaureae herba); Paprastųjų rykštenių žolė (solidaginis virgaureae herba); Rykštenių žolė (solidaginis herba); Solidage; Solidage verge d'or (*S. virgaurea*); Solidaginis Herba (*S. gigantea* or *S. canadensis*); Solidaginis virgaureae herba (*S. virgaurea*); Solidago Virga Aurea (*S. virgaurea*); Verge d'or; Ziele nawłoci (*S. virgaurea*); Ziele nawłoci pospolitej (*S. virgaurea*); Zlatobýlová nat' (solidaginis herba).

NOTE. The name Aaron's Rod has been applied to a number of plants including *Solidago* spp., *Verbascum* spp., and *Sempervivum tectorum.*

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Goldenrod, European; Solidaginis virgaureae herba). The whole or cut dried, flowering aerial parts of *Solidago virgaurea*. It contains not less than 0.5% and not more than 1.5% flavonoids, expressed as hyperoside ($C_{21}H_{20}O_{12} = 464.4$) with reference to the dried drug.

Ph. Eur. 6.2 (Goldenrod; Solidaginis herba). The whole or cut dried, flowering aerial parts of *Solidago gigantea* or *S. canadensis*. It contains not less than 2.5% of flavonoids, expressed as hyperoside ($C_{21}H_{20}O_{12} = 464.4$) with reference to the dried drug.

Profile

Solidago virgaurea (Asteraceae) has diuretic and anti-inflammatory activity. It is mainly used in inflammatory disorders of the bladder and kidneys and for the treatment of renal stones. It is also included in herbal preparations used for a variety of disorders.

S. gigantea (Early golden-rod) and *S. canadensis* were once considered to be adulterants of *S. virgaurea* but are now recognised as having similar activity.

Homoeopathy. Solidago has been used in homoeopathic medicines under the following names: Solidago virgaurea; Sol. vir.

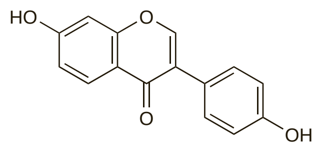
Soya Isoflavones

Daidzein

4′,7-Dihydroxyisoflavone; 7-Hydroxy-3-(4-hydroxyphenyl)-4*H*-1-benzopyran-4-one.

$C_{15}H_{10}O_4 = 254.2.$

CAS — 486-66-8.

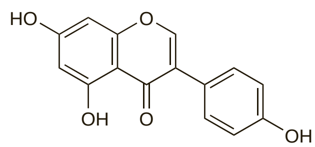


Genistein

CI-75610; Genisteol; Prunetol. 4′,5,7-Trihydroxyisoflavone; 5,7-Dihydroxy-3-(4-hydroxyphenyl)-4*H*-1-benzopyran-4-one.

$C_{15}H_{10}O_5 = 270.2.$

CAS — 446-72-0.



Profile

Genistein and daidzein are soya isoflavones. Genistein, a tyrosine kinase inhibitor, is a phytoestrogen that has been tried for the relief of menopausal symptoms. It is also being investigated for its beneficial effect on blood lipids and for its proposed tumour-suppressing activity. Daidzein has been investigated similarly. Daidzein, mainly in the form of its glycoside daidzin, is a component of some herbal medicines traditionally used in the management of alcohol abuse.

Effects on the endocrine system. For a suggestion that isoflavones in soya-based formulas may exert biological effects, see p.1966.

Hyperlipidaemias. For a discussion of possible beneficial effects of soya isoflavones on blood lipids, see p.1967.

Menopausal disorders. Soya isoflavones have been investigated for their oestrogen-modulating effects, see p.1967.

Sparteine Sulfate *(USAN, rINNM)*

Spart. Sulph.; Spartéine, Sulfate de; Sparteine Sulphate; (−)-Sparteine Sulphate; *l*-Sparteine Sulphate; Sparteini Sulfas; Sparteinum Sulfuricum; Sulfato de esparteína. Dodecahydro-7,14-methano-2*H*,6*H*-dipyrido[1,2-*a*:1′,2′-*e*][1,5]diazocine sulphate pentahydrate.

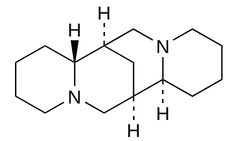
Спартеина Сульфат

$C_{15}H_{26}N_2,H_2SO_4,5H_2O = 422.5.$

CAS — 90-39-1 (sparteine); 299-39-8 (anhydrous sparteine sulfate); 6160-12-9 (sparteine sulfate pentahydrate).

ATC — C01BA04.

ATC Vet — QC01BA04.



(sparteine)

Pharmacopoeias. In *Fr.* and *Viet.*

Profile

Sparteine sulfate is a salt of the dibasic alkaloid, sparteine, which is obtained from scoparium (p.2384). Sparteine sulfate has been reported to lessen the irritability and conductivity of cardiac muscle and has been used in the treatment of cardiac arrhythmias. Small doses stimulate and large doses paralyse the autonomic ganglia. Peripherally, it has a fairly strong curare-like action, arresting respiration by paralysing the phrenic endings.

The metabolic oxidation of sparteine exhibits genetic polymorphism and this property has been exploited in *in-vitro* screening tests to identify other drugs that may be subject to similar genetic variations in their metabolism.

Precautions. Sparteine present in a herbal slimming preparation might cause adverse effects in slow metabolisers if excessive doses were ingested; pregnant women might be particularly at risk.[1]

1. Galloway JH, *et al.* Potentially hazardous compound in a herbal slimming remedy. *Lancet* 1992; **340:** 179.

Preparations

Proprietary Preparations (details are given in Part 3)

Proprietary Preparations (details are given in Part 3)

Braz.: Giamebil†.

Multi-ingredient: ***Chile:*** Te Laxante; ***Cz.:*** Hertz- und Kreislauftee†; ***Fr.:*** Mediflor Tisane Digestive No 3; ***Switz.:*** Gel a la consoude; Tisane antirhumatismale; Tisane pour l'estomac; Tisane pour le coeur et la circulation; Tisane pour le sommeil et les nerfs.

Spearmint Oil

Huile Essentielle de Menthe Crépue; Menta, aceite esencial de; Oleum Menthae Crispae; Oleum Menthae Viridis.

Pharmacopoeias. In *Br.* and *Fr.*

BP 2008 (Spearmint Oil). It is obtained by distillation from fresh flowering plants of *Mentha spicata* or *Mentha × cardiaca*. A clear colourless, pale yellow or greenish-yellow liquid when freshly distilled, visibly free from water and with the odour of spearmint. It becomes darker and viscous on keeping. It contains not less than 55% w/w of carvone. Soluble 1 in 1 of alcohol (80%) at 20°; the solution may become cloudy when diluted. Store at a temperature not exceeding 25° in well-filled containers. Protect from light.

Profile

Spearmint oil has similar properties to peppermint oil (p.1761) and is used as a carminative and as a flavour. It is also used in aromatherapy.

Allergy. Allergic contact cheilitis in a patient has been attributed to the spearmint oil present in tooth paste.[1]

1. Skrebova N, *et al.* Allergic contact cheilitis from spearmint oil. *Contact Dermatitis* 1998; **39:** 35.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austria:*** Euka; ***Chile:*** Polvos Alcalinos; ***Cz.:*** Parodontal F5†; ***Indon.:*** Listerine Coolmint; ***Ital.:*** Dentosan Azione Intensiva; Dentosan Mese; ***Philipp.:*** Listerine Coolmint; ***Switz.:*** Alvogyl; ***UK:*** Fre-bre; Profelan.

Spike Lavender

Lavande aspic.

Profile

Spike lavender, *Lavandula latifolia* (Lamiaceae), is used similarly to lavender (p.2331) as a sedative and for biliary disorders. It is the source of spike lavender oil (below).

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Ger.:*** Cholagutt-N†; ***Spain:*** Natusor Somnisedan†; Sedasor†.

Spike Lavender Oil

Alhucema, aceite esencial de; Huile Essentielle d'Aspic; Ol. Lavand. Spic.; Oleum Lavandulae Spicatae; Spicae Aetheroleum; Spike Oil.

Pharmacopoeias. In *Fr.*

Profile

Spike lavender oil is the volatile oil from *Lavandula latifolia* (Labiatae). It resembles lavender oil (p.2331) in its properties and is mainly used in perfumery. It is also used in aromatherapy. Hypersensitivity reactions may occur.

Preparations

Proprietary Preparations (details are given in Part 3)
Austria: Tavipec; ***Ger.:*** Bronchobest†; ***Thai.:*** Tavipec.

Multi-ingredient: ***Austria:*** Novipec; Tussamag; ***Rus.:*** Carmolis (Кармолис)†; ***S.Afr.:*** Balsem Vita GEEL; Balsem Vita ROOI; Balsem Vita WIT; Stuidruppels; ***Switz.:*** Baume du Chalet; Fortalis.

Spirulina

Espirulina.

Спирулина

Profile

Spirulina is a species of blue-green algae that has been promoted as an anorectic, but there is no convincing evidence that it is safe or effective for this indication.

Preparations

Proprietary Preparations (details are given in Part 3)
Fr.: Phycocyane†; ***India:*** Fitness; ***Indon.:*** Spirumate; ***UK:*** Biolina.

Multi-ingredient: ***Arg.:*** No-Gras; ***Austral.:*** Cal Alkyline; Rubus Complex†; ***Chile:*** Natur-Zin; Natursel-C; Reducform-F; ***Fr.:*** Thalgo Tonic; ***India:*** Vitexid; ***Malaysia:*** Eyebright Plus†.

Star Anise

Anís Estrellado; Anis Étoilé; Anisi stellati fructus; Anisum Badium; Anisum Stellatum; Badiana; Badiane; Badiane de Chine; Badyáníkový plod; Chinese Star Anise; Csillagánizs; Owoc anyżu gwiaździstego; Star Anise Fruit; Sternanis; Stjärnanis; Tähtianis; Žvaigždanyžių vaisiai.

NOTE. Distinguish from Japanese star anise.

Pharmacopoeias. In *Chin.* and *Eur.* (see p.vii).

Ph. Eur. 6.2 (Star Anise; Anisi Stellati Fructus). The dried composite fruit of *Illicium verum*, containing not less than 7% v/w of essential oil with reference to the anhydrous drug and a minimum 86.0% of *trans*-anethole in the essential oil. Protect from light.

Profile

The fruit of star anise, *Illicium verum* (Illiciaceae), is used as an expectorant for catarrh and as a gastrointestinal antispasmodic. It is used with thyme (p.2401) in herbal preparations for colds and upper respiratory-tract disorders. It is also used as a culinary spice.

Star anise is the source of star anise oil (below). It is also the source of shikimic acid, which is used in the production of the anti-influenza drug oseltamivir (p.900).

Adulteration of star anise with Japanese star anise (shikimi fruits; *I. anisatum*) has been responsible for a number of cases of neurotoxicity (see below). Import restrictions have been implemented in the EU. The problem is further complicated because the name *I. anisatum* has been applied to *I. verum*.

Adverse effects. Neurotoxicity has been associated with the use of star anise infusions in infants.[1-3] The toxicity is attributed to adulteration or contamination of Chinese star anise (*Illicium verum*) with Japanese star anise (*I. anisatum*) which contains toxic sesquiterpene lactones such as anisatin.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Braz.:*** Dorveran†; Ductoveran; Elixir 914†; ***Cz.:*** Naturland Grosser Swedenbitter†; ***Ital.:*** Relaxcol; ***Spain:*** Digestovital†; ***Switz.:*** Tisane laxative; Tisane pectorale et antitussive; ***Venez.:*** Atrobel; Cloverin†; Ervossil.

Star Anise Oil

Anisi stellati aetheroleum; Anisi Stellati Etheroleum; Badiane, huile essentielle de; Badyáníková silice; Oleum Badianae; Stjärnanisolja; Tähtianisöljy; Žvaigždanyžių eterinis aliejus.

Pharmacopoeias. In *Eur.* (see p.vii). *USNF* includes star anise oil under the title Anise Oil.

Ph. Eur. 6.2 (Star Anise Oil; Anisi Stellati Aetheroleum). An essential oil obtained by steam distillation from the dry ripe fruits of *Illicium verum*. It contains 0.2 to 2.5% linalol, 0.5 to 6.0% estragole, less than 0.3% α-terpineol, 0.1 to 0.5% *cis*-anethole, 86 to 93% *trans*-anethole, 0.1 to 0.5% anisaldehyde, and 0.1 to 3.0% foeniculin. A clear, colourless or pale yellow liquid. Relative density 0.979 to 0.985. F.p. 15° to 19°. Store in well-filled, airtight containers at a temperature not exceeding 25°. Protect from light.

USNF 26 (Anise Oil). The volatile oil distilled with steam from the dried, ripe fruit of *Pimpinella anisum* (Apiaceae) or from the dried ripe fruit of *Illicium verum* (Illiaceae). Congealing temperature not lower than 15°. Soluble 1 in 3 of alcohol (90%). Store in well-filled airtight containers. If solid material has separated, carefully warm the oil until it is completely liquefied, and mix before using.

Profile

Star anise oil is included in preparations for the treatment of coughs and cold symptoms. It is used in the pharmaceutical and food industries as an alternative to anise oil (see p.2258). It is also used in aromatherapy.

Preparations

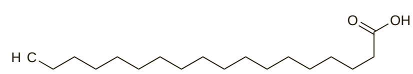
Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Ger.:*** Eupatal†; Makatussin Tropfen; ***Switz.:*** Foral†; Liberol Baby N; Odontal; ***Turk.:*** Sandolin.

Stearic Acid

Acide stéarique; Acido Esteárico; Acidum stearicum; Esteárico, ácido; Kwas stearowy; Kwas stearynowy; Kyselina stearová; Octadecanoic Acid; Steariinihappo; Stearino rūgštis; Stearinsäure; Stearinsyra; Sztearinsav.

CAS — 57-11-4 (stearic acid); 57-10-3 (palmitic acid).



NOTE. Stearic acid is sometimes incorrectly called 'stearine' in commerce.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), and *Jpn.* Also in *USNF.*

USNF also includes a purified form.

Ph. Eur. 6.2 (Stearic Acid). It is obtained from fat or oils from a vegetable or animal source and is a mixture consisting mainly of stearic acid ($C_{18}H_{36}O_2$ = 284.5) and palmitic acid ($C_{16}H_{32}O_2$ = 256.4). Stearic Acid 50 contains 40 to 60% stearic acid, the sum of the contents of stearic and palmitic acids being a minimum 90%. Stearic Acid 70 contains 60 to 80% stearic acid, the sum of the contents of stearic and palmitic acids being a minimum 90%. Stearic Acid 95 contains a minimum of 90% stearic acid, the sum of the contents of stearic and palmitic acids being a minimum 96%. White or almost white, waxy, flaky crystals, white or almost white, hard masses, or a white or yellowish-white powder. Practically insoluble in water; soluble in alcohol and in petroleum spirit (50° to 70°).

USNF 26 (Stearic Acid). A mixture of stearic acid and palmitic acid, the content of stearic acid being not less than 40%, and the sum of the two not less than 90%. Congealing point not lower than 54°. Hard, white or faintly yellowish, somewhat glossy and crystalline solid, or white or yellowish-white powder, with a slight odour, suggesting tallow. Practically insoluble in water; soluble 1 in 20 of alcohol, 1 in 2 of chloroform, and 1 in 3 of ether.

USNF 26 (Purified Stearic Acid). It contains not less than 90% stearic acid and not less than 96% of stearic and palmitic acids. Congealing point 66° to 69°.

Profile

Stearic acid is used as a lubricant in making tablets and capsules. It is also used as an emulsifying and solubilising agent. Various stearates are also used as pharmaceutical aids (see Nonionic Surfactants, p.1914, and Soaps and other Anionic Surfactants, p.2138).

Stone Root

Collinsonia; Collinsonia del Canadá; Hardhack; Heal-all; Knob Root.

Profile

Stone root, the root and rhizome of *Collinsonia canadensis* (Labiatae), has diuretic and litholytic properties and is used in the treatment of renal and urinary calculi. It is also used as an astringent for gastrointestinal disorders. It has also been included in herbal preparations for haemorrhoids.

Homoeopathy. Stone root has been used in homoeopathic medicines under the following names: Collinsonia canadensis; Collin. c.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***UK:*** Piletabs.

Storax

Balsamum Styrax Liquidus; Estoraque; Estoraque Líquido; Liquid Storax; Styrax.

Pharmacopoeias. In *Chin.* and *US.*

USP 31 (Storax). The balsam obtained from the trunk of *Liquidambar orientalis* (Levant storax) or *L. styraciflua* (American storax) (Hamamelidaceae). It is a semiliquid greyish to greyish-brown, sticky, opaque mass depositing on standing a heavy dark brown layer (Levant storax), or semisolid, sometimes a solid mass, softened by gently heating (American storax). It is transparent in thin layers, has a characteristic odour, and is more dense than water.

Insoluble in water; soluble, usually incompletely, in an equal weight of warm alcohol; soluble in acetone, in carbon disulfide, and in ether, some insoluble residue usually remaining.

Profile

Storax has actions similar to those of Peru balsam (p.2365). Purified storax or prepared storax was formerly applied as an ointment in the treatment of parasitic skin diseases. Storax has a mild antiseptic action and is an ingredient of some preparations for upper respiratory-tract disorders and for application to skin and mucous membranes. Skin sensitisation has been reported.

Preparations

BP 2008: Benzoin Inhalation; Compound Benzoin Tincture;
BPC 1954: Compound Iodoform Paint;
USP 31: Compound Benzoin Tincture.

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Fr.:*** Phytolithe†; ***NZ:*** Frador; ***S.Afr.:*** Turulington Tincture; ***UK:*** Frador.

Stramonium

Datura; Durmanový list (stramonium leaf); Durnaropių lapai (stramonium leaf); Estramonio; Hulluruohonlehti (stramonium leaf); Inferno; Jamestown Weed; Jimson Weed; Maszlaglevél (stramonium leaf); Stechapfel; Stramoine; Stramoine, feuille de (stramonium leaf); Stramonii folium (stramonium leaf); Stramoniumblad (stramonium leaf); Thornapple.

ATC Vet — QR03BB03.

NOTE. The terms Datura, Datura Herb, and Datura Leaf have been applied to preparations of various species of the genus Datura including *Datura metel*.

The following terms have been used as 'street names' (see p.vi) or slang names for various forms of stramonium:
Devil's weed; Loco weed.

Pharmacopoeias. *Eur.* (see p.vii) includes a monograph for Stramonium Leaf and Prepared Stramonium.

Ph. Eur. 6.2 (Stramonium Leaf; Stramonii Folium). It consists of the dried leaf or the dried leaf, flowering tops and occasionally fruit-bearing tops of *Datura stramonium* and its varieties. It contains not less than 0.25% of total alkaloids, calculated as hyoscyamine. The alkaloids consist mainly of hyoscyamine with varying proportions of hyoscine. It has an unpleasant odour. Protect from light and moisture.

The BP 2008 directs that when stramonium leaf or powdered stramonium leaf is prescribed, prepared stramonium shall be dispensed.

Ph. Eur. 6.2 (Stramonium, Prepared; Stramonii Pulvis Normatus). It is stramonium leaf powder adjusted to contain 0.23 to 0.27% of total alkaloids, calculated as hyoscyamine. Store in airtight containers. Protect from light.

Adverse Effects, Treatment, and Precautions

As for Atropine Sulfate, p.1219.

Abuse. Some reports[1-5] of poisoning after abuse of *Datura stramonium* or its preparations.

1. Gowdy JM. Stramonium intoxication: review of symptomatology in 212 cases. *JAMA* 1972; **221:** 585–7.
2. Shervette RE, *et al.* Jimson "Loco" weed abuse in adolescents. *Pediatrics* 1979; **63:** 520–3.
3. Anonymous. Jimson weed poisoning—Texas, New York, and California, 1994. *MMWR* 1995; **44:** 41–4.
4. Salen P, *et al.* Effect of physostigmine and gastric lavage in a Datura stramonium-induced anticholinergic poisoning epidemic. *Am J Emerg Med* 2003; **21:** 316–17.
5. Boumba VA, *et al.* Fatal poisoning from ingestion of Datura stramonium seeds. *Vet Hum Toxicol* 2004; **46:** 81–2.

Effects on the eyes. Anisocoria (unequal dilatation of the pupils) developed after accidental entry of a piece of jimson weed *(Datura stramonium)* into a patient's eye while gardening.[1]

1. Savitt DL, *et al.* Anisocoria from Jimsonweed. *JAMA* 1986; **255:** 1439–40.

Uses and Administration

Stramonium has the actions of atropine (p.1219). It has been given with other drugs in oral and rectal dosage forms for respiratory-tract disorders. It has also been smoked in cigarettes or burnt in powders and the fumes inhaled but the irritation produced by the fumes may aggravate bronchitis.

Homoeopathy. Stramonium has been used in homoeopathic medicines under the following names: Datura stramonium; Stram.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Potassium Iodide and Stramonium Compound†; ***Braz.:*** Asmatiron†; Expectol†; Teutoss†.

Streptodornase *(BAN, rINN)*

Estreptodornasa; Streptococcal Deoxyribonuclease; Streptodornaasi; Streptodornas; Streptodornasum.

Стрептодорназа

CAS — 37340-82-2.

Profile

Streptodornase is an enzyme obtained from cultures of various strains of *Streptococcus haemolyticus*. It catalyses the depolymerisation of polymerised deoxyribonucleoproteins. It liquefies the viscous nucleoprotein of dead cells; it has no effect on living cells. It is used with streptokinase in the topical treatment of lesions, wounds, and other conditions that require the removal of clots or purulent matter; the combination may also be used to dissolve clots in the bladder or in urinary catheters.

It has also been given orally with streptokinase and sometimes with antibacterials, for its supposed benefit in reducing oedema and inflammation associated with trauma and infection.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Arg.:*** Varidasa†; ***Austral.:*** Varidase†; ***Austria:*** Varidase; ***Denm.:*** Varidase; ***Fin.:*** Varidase; ***Ger.:*** Varidase; ***Irl.:*** Varidase†; ***Ital.:*** Varidase†; ***Mex.:*** Varidasa; ***Norw.:*** Varidase; ***Pol.:*** Distreptaza; ***Port.:*** Varidasa†; ***Spain:*** Ernodasa; Varidasa; ***Swed.:*** Varidase; ***UK:*** Varidase†.

Strontium Chloride

Estroncio, cloruro de; Stronsiyum Klorür; Strontii Chloridum; Strontiumklorid; Strontiumkloridi.

$SrCl_2,6H_2O$ = 266.6.

CAS — 10476-85-4 (anhydrous strontium chloride).

Profile

Strontium chloride is used as a 10% toothpaste for the relief of dental hypersensitivity. Strontium acetate has been used similarly.

Preparations

Proprietary Preparations (details are given in Part 3)

Arg.: Sensodyne Original; ***Austria:*** Sensodyne med; ***Braz.:*** Sensodyne Formula Original; ***Canad.:*** Sensodyne; ***Chile:*** Dentoxil; ***Switz.:*** Sensodent†; ***Turk.:*** Sensodyne Mint; ***UK:*** Sensodyne Original; ***USA:*** Sensodyne-SC; ***Venez.:*** Sencia; Tekdent†.

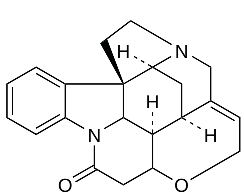
Multi-ingredient: ***Arg.:*** Esme Topico; ***Canad.:*** Reversa UV; ***Ital.:*** Pitiren; ***Singapore:*** 2Sensitive†.

Strychnine ⊗

Estricnina; Strychnina. Strychnidin-10-one.

$C_{21}H_{22}N_2O_2$ = 334.4.

CAS — 57-24-9.



Description. Strychnine is an alkaloid obtained from the seeds of nux vomica (p.2355) and other species of *Strychnos.*

Strychnine Hydrochloride ⊗

Estricnina, hidrocloruro de; Strych. Hydrochlor.; Strychninae Hydrochloridum.

$C_{21}H_{22}N_2O_2,HCl,2H_2O$ = 406.9.

CAS — 1421-86-9 (anhydrous strychnine hydrochloride); 6101-04-8 (strychnine hydrochloride dihydrate).

Strychnine Nitrate ⊗

Azotato de Estricnina; Estricnina, nitrato de; Nitrato de Estricnina; Strychninae Nitras; Strychnini Nitras; Strychninum Nitricum; Strykniininitraatti; Strykninnitrat.

$C_{21}H_{22}N_2O_2,HNO_3$ = 397.4.

CAS — 66-32-0.

Pharmacopoeias. In *Chin.*

Strychnine Sulfate ⊗

Estricnina, sulfato de; Strychninae Sulphas; Strychnine Sulphate; Strychninum Sulfuricum; Sulfato de Estricnina.

$(C_{21}H_{22}N_2O_2)_2,H_2SO_4,5H_2O$ = 857.0.

CAS — 60-41-3 (anhydrous strychnine sulfate); 60491-10-3 (strychnine sulfate pentahydrate).

Pharmacopoeias. In *Fr.* and *Viet.*

Adverse Effects

The symptoms of strychnine poisoning are mainly those arising from stimulation of the CNS. Early signs occurring within 15 to 30 minutes of ingestion include tremors, slight twitching, and stiffness of the face and limbs. Painful convulsions develop and may be triggered by minor sensory stimuli; since consciousness is not impaired patients may be extremely distressed. All forms of sensation are heightened. The body becomes arched backwards in hyperextension with the head retracted, arms and legs extended, fists clenched, and the feet turned inward. The jaw is rigidly clamped and contraction of the facial muscles produces a characteristic grinning expression known as 'risus sardonicus'. The convulsions may recur repeatedly and are interspersed with periods of relaxation. If not treated adequately, few patients survive more than 5 episodes of convulsions, death usually occurring due to respiratory and cardiac arrest. Fatalities in adults have occurred with doses as little as 16 mg.

Secondary effects arising from the severe spasms include lactic acidosis, rhabdomyolysis, renal failure, hyperthermia, hyperkalaemia, and dehydration.

Treatment of Adverse Effects

The main aim of therapy in strychnine poisoning is the prompt prevention or control of convulsions and asphyxia. Activated charcoal should be given if the patient presents within 1 hour of ingestion. Convulsions should be controlled or prevented by diazepam or lorazepam. Intubation and assisted respiration may be required. Should benzodiazepines fail then phenytoin or phenobarbital may be tried. All unnecessary external stimuli should be avoided and if possible the patient should be kept at rest in a quiet darkened room. Patients should be monitored for any secondary effects such as metabolic acidosis so that appropriate symptomatic treatment can be given.

Uses and Administration

Strychnine competes with glycine, which is an inhibitory neurotransmitter; it thus exerts a central stimulant effect by blocking an inhibitory activity.

Strychnine was formerly used as a bitter and analeptic but is now mainly used under strict control as a rodenticide. It has also been used as a mole poison, although this use is banned in some countries including the UK. Strychnine has been used in multi-ingredient preparations for the treatment of ophthalmic and urinary-tract disorders. It has also been tried in the treatment of nonketotic hyperglycinaemia.

Nonketotic hyperglycinaemia. Nonketotic hyperglycinaemia (also known as glycine encephalopathy) is an inborn defect in the enzyme system responsible for the metabolism of glycine. It is characterised by raised concentrations of glycine in plasma, CSF, and urine. Symptoms of glycine accumulation include respiratory distress, muscular hypotonia, seizures, vomiting, and extreme lethargy. Mental retardation and early infant death are common.

Sodium benzoate can reduce plasma-glycine concentrations to near normal[1] but is relatively ineffective in reducing CSF levels or in preventing mental retardation.[2] Strychnine, a glycine antagonist, has been of some benefit in counteracting its CNS effects.[3-5] However, even treatment with both drugs may be ineffective in severe cases[6] and may ultimately have little effect on the course of the disease.[7] Glycine is reported to stimulate *N*-methyl-D-aspartate (NMDA) receptors in the CNS and the combination of strychnine and ketamine (an NMDA receptor antagonist) was of some benefit in a newborn infant with severe non-ketotic hyperglycinaemia.[8] Addition of low-dose dextromethorphan (an NMDA receptor antagonist) to treatment with sodium benzoate, arginine, carnitine, diazepam, and phenobarbital in an infant with nonketotic hyperglycinaemia[9] was associated with resolution of nystagmus and improvement in eye contact and interactive behaviour, without altering serum- or CSF-glycine concentrations. Dextromethorphan with sodium benzoate alone may also be helpful, although the combination is not uniformly effective.[10] Treatment with sodium benzoate and dextromethorphan was beneficial in a 6-month-old child with mild atypical nonketotic hyperglycinaemia,[11] although it was later shown that it was sodium benzoate that had the greatest effect on EEG and behavioural changes. A partial response to low-protein diet and sodium benzoate occurred in a patient with late-onset nonketotic hyperglycinaemia; there was a more dramatic response when imipramine was added to therapy.[12]

Suanzaorentang

Ziziphus Soup.

Profile

Suanzaorentang is a traditional Chinese remedy for anxiety and insomnia. It contains five herbs: suanzaoren (*Zizyphus spinosus*, Rhamnaceae), fuling (*Poria cocos*, Polyporaceae), gancao (*Glycyrrhiza uralensis*, Leguminosae), zhimu (*Anemarrhena asphodeloides*, Liliaceae), and chuanxiong (*Ligusticum chuanxiong*, Umbelliferae).

Subtilisin A

Subtilisin Carlsberg; Subtilopeptidase A.

Субтилизин А

CAS — 9014-01-1 (subtilisin).

Profile

Subtilisins are a class of serine proteases isolated initially from *Bacillus subtilis* but which are also excreted by other *Bacillus* species. They are widely used in the manufacture of enzymatic detergents. Hypersensitivity reactions have been reported.

Subtilisin A, which is obtained from *Bacillus licheniformis*, is used as an enzymatic cleanser for contact lenses.

Sucrose Octa-acetate

Sacarosa, octaacetato de; Sucrose Octaacetate.
$C_{28}H_{38}O_{19}$ = 678.6.
CAS — 126-14-7.

Pharmacopoeias. In *USNF.*

USNF 26 (Sucrose Octaacetate). A white, practically odourless, hygroscopic powder. M.p. not lower than 78°. Soluble 1 in 1100 of water, 1 in 11 of alcohol, 1 in 0.3 of acetone, 1 in 0.5 of toluene, and 1 in 0.6 of benzene; very soluble in chloroform and in methyl alcohol; soluble in ether. Store in airtight containers.

Profile

Sucrose octa-acetate has been used as an alcohol denaturant. It is also incorporated into preparations intended to deter nail biting.

Preparations

Proprietary Preparations (details are given in Part 3)
Spain: Morde X.

Sulfobromophthalein Sodium

Bromsulfophthalein Sodium; Bromsulphthalein Sodium; BSP; SBP; Sodium Sulfobromophthalein; Sulfobromoftaleína sódica; Sulphobromophthalein Sodium *(BANM)*. Disodium 4,5,6,7-tetrabromophenolphthalein-3′,3″-disulphonate; Disodium 5,5′-(4,5,6,7-tetrabromophthalidylidene)bis(2-hydroxybenzenesulphonate).
$C_{20}H_8Br_4Na_2O_{10}S_2$ = 838.0.
CAS — 297-83-6 (sulfobromophthalein); 71-67-0 (sulfobromophthalein sodium).
ATC — V04CE02.
ATC Vet — QV04CE02.

Pharmacopoeias. In *Chin., It.,* and *Jpn.*

Profile

In patients with normal hepatic function sulfobromophthalein sodium is rapidly extracted, conjugated, and excreted in bile. It was formerly used intravenously as a diagnostic agent for testing the functional capacity of the liver but may cause severe hypersensitivity reactions.

Sulfuric Acid

Acid. Sulph.; Acid. Sulph. Dil.; Acide sulfurique; Acidum sulfuricum; E513; Kénsav; Kwas siarkowy; Kyselina sírová; Oil of Vitriol; Rikkihappo; Sulfato rūgštis; Sulfúrico, ácido; Sulphuric Acid; Svavelsyra; Verdünnte Schwefelsäure (dilute sulfuric acid).
H_2SO_4 = 98.08.
CAS — 7664-93-9.

NOTE. Concentrated oil of vitriol of commerce, 'COV', contains about 95 to 98% w/w, and brown oil of vitriol, 'BOV', contains 75 to 85% w/w of H_2SO_4.
Nordhausen or fuming sulfuric acid, 'Oleum', is sulfuric acid containing SO_3.
Battery or accumulator acid is sulfuric acid diluted with distilled water to a specific gravity of 1.2 to 1.26.

Pharmacopoeias. *Br.* and *Eur.* (see p.vii) include various concentrations. Also in *USNF.*

BP 2008 (Dilute Sulphuric Acid). It contains 9.5 to 10.5% w/w of H_2SO_4 and is prepared by adding 104 g of sulfuric acid to 896 g of water, with constant stirring and cooling.

Ph. Eur. 6.2 (Sulphuric Acid). It contains 95.0 to 100.5% w/w of H_2SO_4. A colourless, very hygroscopic, oily liquid. Miscible with water and with alcohol producing intense heat. Store in airtight containers.

USNF 26 (Sulfuric Acid). It contains 95.0 to 98.0% w/w of H_2SO_4. A clear, colourless, oily liquid. Is very caustic and corrosive. Miscible with water and with alcohol with the generation of much heat. Store in airtight containers.

Dilution. When sulfuric acid is mixed with other liquids, it should always be added slowly, with constant stirring, to the diluent.

Adverse Effects and Treatment

As for Hydrochloric Acid, p.2322.

Uses and Administration

Sulfuric acid has various industrial uses. Dilute sulfuric acid has been used as an astringent in diarrhoea and it has occasionally been prescribed in mixtures with vegetable bitters to stimulate appetite.

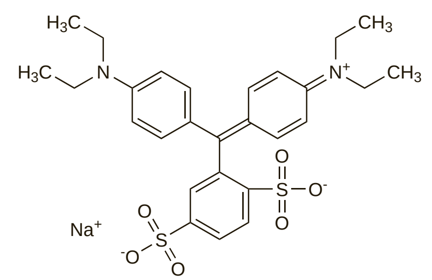
Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***USA:*** Debacterol.

Sulphan Blue *(BAN)*

Azul sulfán; Błękit sulfanowy; Blue VRS; Isosulfan Blue *(USAN)*; P-1888; P-4125; Sulfan Blue. Sodium α-(4-diethylaminophenyl)-α-(4-diethyliminiocyclo-hexa-2,5-dienylidene)toluene-2,5-disulfonate.
$C_{27}H_{31}N_2NaO_6S_2$ = 566.7.
CAS — 68238-36-8 (2,5-disulfonate isomer); 129-17-9 (2,4-disulfonate isomer).



(2,5-disulfonate isomer)

NOTE. Sulphan blue was formerly described in *BPC 1954* as the 2,4-disulfonate isomer and the following synonyms have been applied to this 2,4-isomer: Acid Blue 1; Alphazurine 2G; Colour Index No. 42045; Patent Blue V; Sulphanum Caeruleum. The name Patent Blue V, however, is mainly used for CI No. 42051 (p.2363).

Profile

Intravenous doses of sulphan blue produce staining of the skin and have been used as a direct visual test of the state of the circulation in healthy and damaged tissues, particularly in assessing tissue viability in burns and soft-tissue trauma. It has also been used subcutaneously in lymphangiography to outline the lymph vessels.

Hypersensitivity reactions including anaphylaxis and attacks of asthma have been reported with sulphan blue. It has also been reported to interfere with blood tests for protein and iron.

Preparations

Proprietary Preparations (details are given in Part 3)
Canad.: Lymphazurin; ***USA:*** Lymphazurin.

Sumatra Benzoin

Benjoim; Benjoin; Benjoin de sumatra; Benjuí, bálsamo de; Benzoë; Benzoe sumatranus; Benzoin; Benzoina; Gum Benjamin; Gum Benzoin; Styrax tonkinensis et Styrax benzoin.
CAS — 9000-05-9.

Pharmacopoeias. In *Eur.* (see p.vii) and *Jpn.*
US allows both Siam benzoin and Sumatra benzoin under the title Benzoin.

Ph. Eur. 6.2 (Sumatra Benzoin). A resin obtained by incising the trunk of *Styrax benzoin*. It contains 25 to 50% of total acids, calculated as benzoic acid (dried drug).
Creamy white, rounded to ovoid tears, which may be embedded in a dull, greyish-brown or reddish-brown matrix. It is hard and brittle and the fractured surface is dull and uneven.

USP 31 (Benzoin). A balsamic resin from *Styrax paralleloneurus* or *S. benzoin* (Styracaceae). It yields not less than 75% of alcohol-soluble extractive. It occurs as blocks or lumps of variable size made up of tears, compacted together, with a reddish-brown, reddish-grey, or greyish-brown resinous mass. The tears are externally yellowish or rusty brown, milky white on fresh fracture, hard and brittle at ordinary temperatures but softened by heat. It has an aromatic and balsamic odour. When heated it does not emit a pinaceous odour. When digested with boiling water, the odour suggests cinnamates or storax.

Profile

Sumatra benzoin is an ingredient of inhalations which are used in the treatment of catarrh of the upper respiratory tract. Sumatra benzoin is also used in topical preparations for its antiseptic and protective properties. Skin sensitisation has been reported.

Preparations of Sumatra and Siam benzoins are used in aromatherapy.

Preparations

BP 2008: Benzoin Inhalation; Compound Benzoin Tincture;
BPC 1954: Compound Iodoform Paint;
Ph. Eur.: Benzoin Tincture, Sumatra;
USP 31: Compound Benzoin Tincture; Podophyllum Resin Topical Solution.

Proprietary Preparations (details are given in Part 3)

Summer Savory

Bohnenkraut; Sarriette; Savory.

Profile

Summer savory (*Satureja hortensis*, Lamiaceae) is included in herbal preparations and is used as a culinary herb.

It is the source of savory oil which is included in herbal preparations, mainly for the relief of cold symptoms. It is also used in aromatherapy.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Gartech; ***Fr.:*** Resistim; ***Spain:*** Natusor Astringel†; Natusor Low Blood Pressure†; Tonimax; ***Switz.:*** Demonatur Capsules contre les refroidissements; Spagyrom.

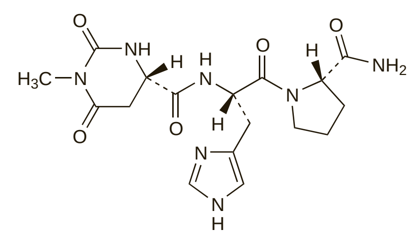
Surgibone *(USAN)*

Profile

Surgibone is sterile, specially processed mature bovine bone, that has been used for grafting procedures in orthopaedic and reconstructive surgery.

Taltirelin *(rINN)*

TA-0910; Taltirelina; Taltiréline; Taltirelinum. (−)-*N*-{[(*S*)-Hexahydro-1-methyl-2,6-dioxo-4-pyrimidinyl]carbonyl}-L-histidyl-L-prolinamide.
Тальтирелин
$C_{17}H_{23}N_7O_5$ = 405.4.
CAS — 103300-74-9.



Profile

Taltirelin is an analogue of protirelin (p.2175) and is claimed to have beneficial effects on CNS function. It is used in the treatment of spinocerebellar degeneration.

Preparations

Proprietary Preparations (details are given in Part 3)
Jpn: Ceredist.

Tannic Acid

Acide tannique; Acidum Tannicum; Gallotannic Acid; Garvsyra; Gerbstoff; Kwas taninowy; Tánico, ácido; Tanin; Tanina; Taninas; Tann. Acid; Tanniini (Parkkihappo); Tannin; Tanninum.
CAS — 1401-55-4.

NOTE. In pharmaceutical literature, the name digallic acid is frequently confused with tannic acid.
Commercial grades of tannic acid may contain gallic acid and being less soluble are not suitable for medicinal use.

Pharmacopoeias. In *Eur.* (see p.vii), *Jpn*, and *US.*

Ph. Eur. 6.2 (Tannic Acid). A mixture of esters of glucose with gallic acid and 3-galloylgallic acid. A yellowish-white or slightly brown amorphous light powder or shiny plates. Very soluble in water; freely soluble in alcohol, in acetone, and in glycerol (85%); practically insoluble in dichloromethane. Protect from light.

USP 31 (Tannic Acid). A tannin usually obtained from nutgalls (see Gall, p.2307), the excrescences produced on the young twigs of *Quercus infectoria* and allied species of *Quercus*, from the seed pods of tara (*Caesalpinia spinosa*), or from the nutgalls or leaves of sumac (any of genus *Rhus*).
Amorphous powder, glistening scales, or spongy masses, varying in colour from yellowish-white to light brown. Is odourless or has a faint, characteristic odour. Very soluble in water, in alcohol, and in acetone; freely soluble in diluted alcohol; slightly soluble in dehydrated alcohol; practically insoluble in chloroform, in ether, in petroleum spirit, and in benzene; soluble 1 in about 1 of warm glycerol. Store in airtight containers. Protect from light.

Profile

Tannic acid has been used as an astringent for the mucous membranes of the mouth and throat, and in suppositories for the treatment of haemorrhoids. It is an ingredient in a number of dermatological preparations.

Former uses of tannic acid include application to burns, addition to barium sulfate enemas to improve the quality of radiological pictures of the colon, and as an ingredient of 'Universal Antidote'. However, tannic acid has been associated with liver toxicity, sometimes fatal.

Tattoo removal. Although tannic acid may be used by plastic surgeons and dermatologists to produce a controlled partial-thickness burn in tattoo removal[1] it has been pointed out that in unskilled or amateur hands this procedure has resulted in full thickness burns requiring skin grafting to obtain satisfactory healing.[2]

Tansy

Atanasia; Barbotine; Hierba lombriguera; Rainfarn; Tanaceto; Tanaisie.

Profile

Tansy, the flowering tops of *Tanacetum vulgare* (*Chrysanthemum vulgare*) (Compositae), has been used as an anthelmintic and to stimulate menstruation. The oil is highly toxic and use of tansy is generally not recommended.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Calmo; ***Pol.:*** Artemisol.

Taraxacum

Dandelion Root; Diente de León; Korzeń mniszka (root); Löwenzahnwurzel; Pissenlit; Taraxaci Herba; Taraxaci Radix (root); Taraxacum officinalis; Taraxacum Root; Ziele mniszka.

Pharmacopoeias. In *Pol.*

Chin. specifies Taraxacum Herb from other species of *Taraxacum.*

Profile

Taraxacum is the fresh or dried root of the common dandelion, *Taraxacum officinale* (Compositae). It has been used as a bitter, as a diuretic, and as a mild laxative.

Homoeopathy. Taraxacum has been used in homoeopathic medicines under the following names: Taraxacum officinale; Tarax.

Tartaric Acid

Acide tartrique; Acidum tartaricum; Borkősav; E334; E353 (metatartaric acid); Kwas winowy; Kyselina vinná; Tart. Acid; Tartárico, ácido; Tartarik Asit; Tartrique (Acide); Viinihappo; Vinsyra; Vyno rūgštis; Weinsäure. (+)-L-Tartaric acid; (2*R*,3*R*)-2,3-Dihydroxybutane-1,4-dioic acid.

$C_4H_6O_6$ = 150.1.
CAS — 87-69-4; 526-83-0.

Pharmacopoeias. In *Eur.* (see p.vii) and *Jpn.* Also in *USNF.*
Ph. Eur. 6.2 (Tartaric Acid). A white or almost white, crystalline powder or colourless crystals. Very soluble in water; freely soluble in alcohol.
USNF 26 (Tartaric Acid). Colourless or translucent crystals or a white, fine to granular, crystalline powder. Is odourless. Soluble 1 in 0.8 of water, 1 in 0.5 of boiling water, 1 in 3 of alcohol, 1 in 250 of ether, and 1 in 1.7 of methyl alcohol.

Adverse Effects

Strong solutions of tartaric acid are mildly irritant and if ingested undiluted may cause violent vomiting and diarrhoea, abdominal pain, and thirst. Cardiovascular collapse or acute renal failure may follow.

Pharmacokinetics

Tartaric acid is absorbed from the gastrointestinal tract but up to 80% of an ingested dose is probably destroyed by micro-organisms in the lumen of the intestine before absorption occurs. Absorbed tartaric acid is excreted unchanged in the urine.

Uses and Administration

Tartaric acid is used in the preparation of effervescent powders, granules, and tablets, as an ingredient of cooling drinks, and as a saline purgative. If not neutralised, it must be taken well diluted. Tartaric acid or metatartaric acid are used in wine-making as deacidifying agents to assist in the removal of excess malic acid by forming an insoluble double salt with calcium carbonate.

Preparations

Proprietary Preparations (details are given in Part 3)

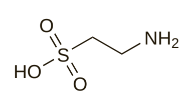
Taurine *(rINN)*

Taurina; Taurinum. 2-Aminoethanesulphonic acid.

Таурин

$C_2H_7NO_3S$ = 125.1.
CAS — 107-35-7.



Pharmacopoeias. In *Chin.*, *Jpn*, and *US.*
USP 31 (Taurine). White crystals or crystalline powder. Soluble in water.

Profile

Taurine is an amino acid known to be involved in bile acid conjugation as well as other physiological functions. It has been included in preparations for parenteral nutrition of low-birth-weight infants and in infant formulas but its role as an essential nutrient has not been established.

Taurine is included in some preparations for cardiovascular and metabolic disorders.

ATC Vet — QH01BA04.

Adverse Effects, Treatment, and Precautions

As for Vasopressin, p.2412.

The pressor and antidiuretic effects of terlipressin are reported to be less marked than those of vasopressin.

Effects on electrolytes. A report of hypokalaemia in a patient receiving terlipressin.[1]

1. Stéphan F, Paillard F. Terlipressin-exacerbated hypokalaemia. *Lancet* 1998; **351:** 1249–50.

Effects on the skin. Ischaemic skin necrosis developed in 3 patients several days after starting terlipressin treatment.[1] Skin lesions developed on the abdomen and lower limbs, which are not typical areas for ischaemia related to vasoconstrictors, and the authors concluded that obesity and venous insufficiency in these patients put them at particular risk.

1. Donnellan F, *et al.* Ischaemic complications of Glypressin in liver disease: a case series. *Br J Clin Pharmacol* 2007; **64:** 550–2.

Uses and Administration

Terlipressin is an inactive prodrug which is slowly converted in the body to lypressin, and has the general physiological actions of vasopressin (p.2412).

Terlipressin acetate is used to control bleeding oesophageal varices and is given by intravenous injection in doses of 2 mg, followed by 1 or 2 mg every 4 to 6 hours if necessary, until bleeding is controlled, for up to 72 hours.

Terlipressin is under investigation in the treatment of hepatorenal syndrome and shock.

Hepatorenal syndrome. Terlipressin has been found to be of benefit in the hepatorenal syndrome, a form of renal impairment associated with cirrhosis of the liver. A retrospective study[1] found that doses of about 3 mg/day for a mean of 11 days appeared to improve renal function in 58 of 91 patients; it may also have improved survival. Further prospective studies have also reported beneficial effects on renal function; these used doses of terlipressin 1 mg every 4 hours for 7 to 15 days,[2] and 1 mg every 12 hours for up to 15 days.[3] Meta-analysis[4] of 11 studies confirmed the efficacy of terlipressin in hepatorenal syndrome although a significant number of patients who responded to treatment relapsed after it was stopped. A systematic review[5] of 3 small randomised controlled studies of terlipressin suggested that it may reduce mortality and improve renal function in patients with hepatorenal syndrome, although the evidence was not sufficiently reliable to make recommendations for clinical practice.

1. Moreau R, *et al.* Terlipressin in patients with cirrhosis and type 1 hepatorenal syndrome: a retrospective multicenter study. *Gastroenterology* 2002; **122:** 923–30.

5. Gluud LL, *et al.* Terlipressin for hepatorenal syndrome. Available in The Cochrane Database of Systematic Reviews; Issue 4. Chichester: John Wiley; 2006 (accessed 25/06/08).

Shock. Terlipressin has vasopressor effects and has been tried[1,2] in the management of septic shock (p.1183). In a group of 8 patients who could not be adequately managed with conventional vasopressor therapy, an intravenous bolus of terlipressin 1 to 2 mg produced a progressive increase in mean arterial pressure over 10 to 20 minutes that was sustained for at least 5 hours, allowing reduction or cessation of noradrenaline.[3] Similar beneficial results have also been reported by others.[4,5] The use of a continuous infusion of terlipressin (500 micrograms/hour for 6 hours followed by half this dose for a further 12 hours) has been described in one case and appeared to be effective.[6] There is also a report[7] of 4 children treated with bolus doses of 20 micrograms/kg every 4 hours for up to 72 hours.

Variceal haemorrhage. Systematic review has indicated[1] that terlipressin is effective in the management of acute oesophageal variceal haemorrhage (see under Monoethanolamine, p.2346), and reduces the relative risk of mortality by about one-third. Differences in effectiveness from other therapies could not be conclusively shown. Comparison of a regimen of terlipressin given by intravenous bolus injection, plus glyceryl trinitrate given sublingually, with balloon tamponade in variceal bleeding has suggested similar efficacy.[2] However, tamponade was successful in all patients that were previously unresponsive to terlipressin plus glyceryl trinitrate whereas this drug combination failed in all patients previously unresponsive to tamponade. A comparison of terlipressin and endoscopic injection sclerotherapy found them to be equally effective for the control of acute variceal bleeding.[3]

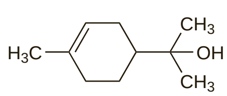
Terpineol

$C_{10}H_{18}O$ = 154.2.
CAS — 8000-41-7 (terpineol); 98-55-5 (α-terpineol).



Pharmacopoeias. In *Br.*

BP 2008 (Terpineol). A mixture of structural isomers in which α-terpineol predominates. It is a colourless, slightly viscous liquid which may deposit crystals; it has a pleasant characteristic odour. Very slightly soluble in water; freely soluble in alcohol (70%); soluble in ether.

Profile

Terpineol has disinfectant and solvent properties. It is used with other volatile agents in preparations for respiratory-tract disorders.

Preparations

BP 2008: Chloroxylenol Solution.

Proprietary Preparations (details are given in Part 3)

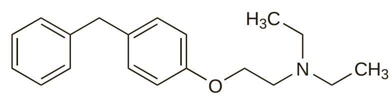
Tesmilifene Hydrochloride *(USAN, rINNM)*

BMS-217380-01; BMY-33419; DPPE; Hidrocloruro de tesmilifeno; Tesmilifène, Chlorhydrate de; Tesmilifeni Hydrochloridum. 2-[(α-Phenyl-*p*-tolyl)oxy]triethylamine hydrochloride; *N,N*-Diethyl-2-[4-(phenylmethyl)phenoxy]-ethanamine hydrochloride.

Тезмилифена Гидрохлорид

$C_{19}H_{25}NO,HCl$ = 319.9.
CAS — 98774-23-3 (tesmilifene); 92981-78-7 (tesmilifene hydrochloride).



(tesmilifene)

Profile

Tesmilifene hydrochloride is an intracellular histamine antagonist that appears to augment the antineoplastic activity of drugs such as the anthracyclines and taxanes. It is under investigation for the treatment of various cancers, including hormone-refractory cancer of the prostate and gastric and hepatic cancers.

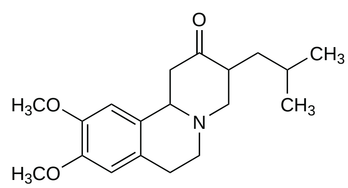
Tetrabenazine *(BAN, rINN)*

Ro-1-9569; Tetrabenatsiini; Tetrabenazin; Tetrabenazina; Tétrabénazine; Tetrabenazinum. 1,3,4,6,7,11b-Hexahydro-3-isobutyl-9,10-dimethoxybenzo-[*a*]quinolizin-2-one.

Тетрабеназин

$C_{19}H_{27}NO_3$ = 317.4.
CAS — 58-46-8.
ATC — N07XX06.
ATC Vet — QN07XX06.



Adverse Effects

Drowsiness is the most frequent adverse effect of tetrabenazine. Orthostatic hypotension, symptoms of extrapyramidal dysfunction, gastrointestinal disturbances, and depression may also occur. Neuroleptic malignant syndrome and parkinsonism have been reported rarely. Overdosage has produced sedation, sweating, hypotension, and hypothermia.

Effects on mental function. Depression is well documented as an adverse effect of tetrabenazine, and occurs in about 15% of patients; it has been reported to respond to reboxetine.[1] Florid psychiatric symptoms such as panic attacks and obsessive-compulsive symptoms may be precipitated or exacerbated by tetrabenazine.[2]

1. Schreiber W, *et al.* Reversal of tetrabenazine induced depression by selective noradrenaline (norepinephrine) reuptake inhibition. *J Neurol Neurosurg Psychiatry* 1999; **67:** 550.
2. Bruneau MA, *et al.* Catastrophic reactions induced by tetrabenazine. *Can J Psychiatry* 2002; **47:** 683.

Extrapyramidal disorders. Dysphagia and choking were associated with tetrabenazine in the treatment of Huntington's chorea.[1] Fatal pneumonia, probably as a consequence of aspiration, had also been reported.

1. Snaith RP, Warren H de B. Treatment of Huntington's chorea with tetrabenazine. *Lancet* 1974; **i:** 413–14.

Overdosage. A patient who swallowed about 1 g (40 tablets) of tetrabenazine became drowsy 2 hours later and marked sweating occurred.[1] Her state of consciousness improved after 24 hours and she talked rationally and gained full control of micturition after 72 hours.

1. Kidd DW, McLellan DL. Self-poisoning with tetrabenazine. *Br J Clin Pract* 1972; **26:** 179–80.

Precautions

Tetrabenazine may exacerbate the symptoms of parkinsonism. It may cause drowsiness; affected patients should not drive or operate machinery.

Interactions

Tetrabenazine has been reported to block the action of reserpine. It may also diminish the effects of levodopa and exacerbate the symptoms of parkinsonism. Use of tetrabenazine immediately after a course of an MAOI may lead to confusion, restlessness, and disorientation; tetrabenazine should not be given with, or within 14 days of stopping, such therapy.

Pharmacokinetics

Absorption of tetrabenazine is poor and erratic after oral doses. It appears to be extensively metabolised by first-pass metabolism. Its major metabolite, hydroxytetrabenazine, which is formed by reduction, is reported to be as active as the parent compound. It is excreted in the urine mainly in the form of metabolites.

Uses and Administration

Tetrabenazine is used in the management of movement disorders including chorea (p.953), ballism (p.953), dystonias (p.809), tardive dyskinesia (see under Extrapyramidal Disorders, p.971), and similar symptoms of CNS dysfunction.

For the treatment of chorea, ballism, and other organic CNS movement disorders, a starting oral dose of 25 mg three times daily has been recommended; the *BNF* considers a dose of 12.5 mg twice daily (or 12.5 mg daily in the elderly) more appropriate initially, which is less likely to cause excessive sedation. The dose may be gradually increased by 25 mg daily every 3 or 4 days according to response up to a maximum of 200 mg daily. If the patient does not respond within 7 days of receiving the maximum dose further treatment with tetrabenazine is unlikely to be of benefit.

For moderate to severe tardive dyskinesia, a dose of 12.5 mg daily is recommended initially, subsequently titrated according to response.

Extrapyramidal disorders. In a long-term study[1] of the use of tetrabenazine in 400 patients with movement disorders, the best responses seemed to be in tardive dyskinesia, tardive dystonia, and Huntington's disease but benefit was also obtained in some patients with idiopathic dystonia, segmental myoclonus, and Tourette's syndrome. Others have commented that in severe dystonia unresponsive to other drugs a combination of tetrabenazine with trihexyphenidyl and pimozide is sometimes effective.[2] Tetrabenazine significantly reduced chorea in ambulatory patients with Huntington's disease in a small 12-week randomised placebo-controlled study.[3] It was well tolerated, although there was a significant increase in reports of drowsiness and insomnia, which generally resolved with adjustment of doses.

Tetrachlorodecaoxide

TCDO; Tetrachlorodecaoxygen Anion Complex; Tetraclorodecaóxido; WF-10.

Cl_4O_{10} = 301.8.
CAS — 92047-76-2.

Profile

Tetrachlorodecaoxide is a water-soluble anion complex containing oxygen in a chlorite matrix. Active oxygen is only released in the presence of biological material. It has been applied as a solution for the stimulation of wound healing.

Wounds. Tetrachlorodecaoxide was reported to promote wound healing compared with saline in a double-blind study of 271 patients,[1] but a smaller study failed to show any benefit over glycerol.[2]

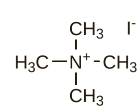
Tetramethylammonium Iodide

Tetrametilamonio, ioduro de.

$C_4H_{12}IN$ = 201.0.
CAS — 75-58-1.



Profile

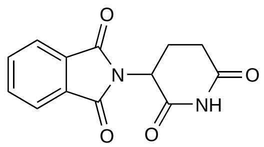
Tetramethylammonium iodide is a quaternary ammonium compound that has been used for the emergency disinfection of drinking water. It has also been employed for its ganglion-blocking properties.

Thalidomide *(BAN, USAN, rINN)*

E-217; K-17; NSC-66847; Talidomid; Talidomida; Talidomidi; Thalidomidum. 2-Phthalimidoglutarimide.

Талидомид

$C_{13}H_{10}N_2O_4$ = 258.2.
CAS — 50-35-1.
ATC — L04AX02.
ATC Vet — QL04AX02.



Pharmacopoeias. In *US*.

USP 31 (Thalidomide). A white to off-white powder. Sparingly soluble in water, in dehydrated alcohol, in acetone, in butyl acetate, in ethyl acetate, in glacial acetic acid, and in methyl alcohol; practically insoluble in chloroform, in ether, and in benzene; very soluble in dimethylformamide, in dioxan, and in pyridine. Store in airtight containers. Protect from light.

Adverse Effects and Precautions

Thalidomide was withdrawn from use as a hypnotic in the early 1960s after it was discovered that it produced teratogenic effects when given in early pregnancy. These effects, which could develop after a single dose, involved mainly malformations of the limbs and defects of the ears, eyes, and internal organs. Death at or shortly after birth was also common. Further abnormalities and problems, including effects on the CNS, developed in later life.

Thalidomide was reintroduced in 1998 for use as an immunomodulator but because of its severe teratogenic effects, it should not be used in women of child-bearing potential, or if such use is absolutely essential then stringent contraceptive measures must be used, including the simultaneous use of 2 reliable forms of contraception for at least 4 weeks before, during, and for 4 weeks after, thalidomide therapy. A pregnancy test must be carried out no longer than 24 hours before starting thalidomide treatment, and regular tests carried out during treatment. If pregnancy occurs during thalidomide therapy the drug must be stopped immediately and the patient given appropriate evaluation and counselling. As thalidomide is present in semen, male patients receiving thalidomide should use barrier methods of contraception even after successful vasectomy if their partner is of child-bearing potential. Patients should not donate blood or sperm during thalidomide therapy.

The other major adverse effect of thalidomide is peripheral neuropathy, which can be severe and irreversible.

Venous thromboembolism has been reported in a significant number of patients receiving thalidomide for multiple myeloma, particularly in those also receiving chemotherapeutic drugs, including dexamethasone.

Other common adverse effects include constipation, dizziness, and orthostatic hypotension. Drowsiness or somnolence occur frequently and, if affected, patients should not drive or operate machinery. Hypersensitivity reactions have occurred. An erythematous macular rash may develop, usually 2 to 10 days after initiation of therapy. Stevens-Johnson syndrome and toxic epidermal necrolysis have also been reported, and therefore thalidomide should be stopped if skin rash develops and only restarted after appropriate clinical evaluation. Thalidomide therapy should not be resumed if the rash is exfoliative, purpuric, or bullous, or if Stevens-Johnson syndrome or toxic epidermal necrolysis is suspected. Bradycardia, neutropenia, and an increase in the viral load in HIV-infected patients have also been reported; thalidomide therapy should not be started in neutropenic patients.

Although human data for breast feeding while taking thalidomide are lacking, licensed product information recommends that it should be avoided in view of the potential for serious adverse effects in the infant.

Effects on the cardiovascular system. Use of thalidomide in patients with malignant neoplastic disease has been associated with an increased risk of deep-vein thrombosis. There were 27 spontaneous reports of thromboembolic events in the first 18 months of thalidomide returning to the US market in July 1998; 26 of these were in patients with malignancies.[1] A review[2] of thromboembolic events associated with thalidomide identified 67 such reports from a total of 2075 adverse events reported to the FDA between October 1998 and June 2001; a further 29 cases were identified from clinical study data. Deep-vein thrombosis occurred in 48 of these patients, pulmonary embolism in 25, and 23 developed both. The most common primary diagnoses among these patients were multiple myeloma and renal cell carcinoma. However, it should be noted that patients with cancer are known to be at increased risk of venous thromboembolism and some chemotherapeutic regimens may further increase this risk. The contribution of thalidomide to the development of venous thromboembolism remains to be fully evaluated in controlled studies. Further reviews[3,4] of reports of venous thromboembolism associated with thalidomide concluded that the incidence of venous thromboembolism in patients with multiple myeloma is higher when thalidomide is given with chemotherapeutic drugs such as dexamethasone, melphalan, or doxorubicin.

Studies suggest that prophylactic use of a low-molecular-weight heparin (enoxaparin),[5] aspirin,[6] or warfarin[7] may reduce the incidence of deep-vein thrombosis in patients with multiple myeloma receiving thalidomide and chemotherapeutic drugs.

Bradycardia has been associated with thalidomide therapy in some patients, although symptoms may be managed by a reduction in dose.[8,9] See also under Effects on the Endocrine System, below.

Effects on the endocrine system. Amenorrhoea has been reported[1,2] in women taking thalidomide for severe dermatological conditions; menses resumed 2 to 3 months after stopping thalidomide.[2]

Hypothyroidism has been associated with thalidomide use in patients with multiple myeloma,[3,4] and it was suggested[3] that some adverse effects of thalidomide, such as bradycardia and constipation, may be manifestations of hypothyroidism.

Severe hyperglycaemia has been reported[5] in a 70-year-old man 4 weeks after starting thalidomide for multiple myeloma. Plasma-glucose concentrations returned to normal after treatment with insulin and an oral antidiabetic and he continued with thalidomide therapy.

5. Pathak RD, *et al.* Thalidomide-associated hyperglycemia and diabetes: case report and review of literature. *Diabetes Care* 2003; **26:** 1322–3.

Effects on the gastrointestinal tract. Bowel perforation requiring surgery has been reported[1] in 3 patients taking thalidomide for malignant neoplasms. A fourth case of acute abdominal pain and suspected bowel perforation is also described but the patient died of a cardiac arrest before surgery.

1. McClay H, Cervi P. Thalidomide and bowel perforation: four cases in one hospital. *Br J Haematol* 2008; **140:** 360–1.

Effects on the liver. Hepatitis has been reported[1] in a 58-year-old woman taking thalidomide for end-stage plasma cell leukaemia. In another report of hepatotoxicity,[2] a 76-year-old woman with multiple myeloma being treated with thalidomide and dexamethasone developed jaundice and acute increases in liver enzymes, which returned to normal when thalidomide was stopped. Fatal fulminant hepatic failure with encephalopathy that appeared to be associated with thalidomide developed in a 64-year-old woman being treated for multiple myeloma.[3]

1. Fowler R, Imrie K. Thalidomide-associated hepatitis: a case report. *Am J Hematol* 2001; **66:** 300–2.

3. Hamadani M, *et al.* Thalidomide-induced fulminant hepatic failure. *Mayo Clin Proc* 2007; **82:** 638.

Effects on the lungs. Interstitial pneumonitis has been reported in a patient taking thalidomide for multiple myeloma.[1] There have also been reports of dyspnoea in women taking thalidomide for ovarian cancer; resolution of symptoms occurred on drug withdrawal and some patients were able to continue therapy when reintroduced at a reduced dose.[2]

1. Onozawa M, *et al.* Thalidomide-induced interstitial pneumonitis. *J Clin Oncol* 2005; **23:** 2425–6.
2. Gordinier ME, Dizon DS. Dyspnea during thalidomide treatment for advanced ovarian cancer. *Ann Pharmacother* 2005; **39:** 962–5.

Effects on mental function. Symptoms of dementia appeared in a patient who had been taking thalidomide for about 2 months for the treatment of multiple myeloma.[1] Dementia later resolved completely within 48 hours of stopping thalidomide.

1. Morgan AE, *et al.* Reversible dementia due to thalidomide therapy for multiple myeloma. *N Engl J Med* 2003; **348:** 1821–2.

Effects on the nervous system. Peripheral neuropathy is a major adverse effect of thalidomide therapy, although the underlying mechanisms, risk factors, and optimum management are still not clear.[1] One prospective study[2] in patients with cutaneous or systemic lupus erythematosus concluded that the cumulative dose of thalidomide had no effect on the incidence of peripheral neuropathy, whereas results from a retrospective study[3] in patients with SLE or multiple myeloma showed that the risk of developing neurotoxicity as well as severity of symptoms did correlate with cumulative dose. However, the latter study[3] examined a range of doses and found that this correlation was most significant at cumulative doses over 20 g but either absent or equivocal at lower doses, which might explain the discrepancies in results between studies using different doses. Two further studies[4,5] in patients with multiple myeloma concluded that neurotoxicity was associated with duration of treatment of greater than 6 to 12 months rather than dose-intensity or total cumulative dose. Conversely, another study,[6] also in multiple myeloma patients, found electrophysiologic evidence of peripheral neuropathy in two-thirds of patients as early as 4 months from the start of treatment, and in all of them by 7 months; many patients also had clinical symptoms.

Central neurotoxicity has also been reported[7] in a patient who developed encephalopathy after receiving thalidomide monotherapy for multiple myeloma over 21 months.

7. Sohlbach K, *et al.* Encephalopathy in a patient after long-term treatment with thalidomide. *J Clin Oncol* 2006; **24:** 4942–4.

Effects on sexual function. Dose-related sexual dysfunction, including loss of libido, loss of penile rigidity, and premature ejaculation, was associated with thalidomide use in 2 male patients.[1] Erectile dysfunction has been reported[2] in 6 patients within 4 weeks of starting thalidomide therapy.

1. Pouaha J, *et al.* Thalidomide and sexual dysfunction in men. *Br J Dermatol* 2002; **146:** 1112–13.
2. Murphy PT, O'Donnell JR. Thalidomide induced impotence in male hematology patients: a common but ignored complication? *Haematologica* 2007; **92:** 1440.

Effects on the skin. Toxic epidermal necrolysis has been reported[1] in a 62-year-old woman about 5 weeks after starting thalidomide for the treatment of a glioblastoma. Although she was taking several other drugs, including dexamethasone, thalidomide was considered responsible since its use had the closest temporal relationship to the adverse effect. Toxic epidermal necrolysis has also been reported[2] in a 64-year-old patient 24 days after starting thalidomide and dexamethasone for myeloma. It was suggested that there might be an adverse interaction between thalidomide and dexamethasone. Thalidomide had previously been studied[3] for the *treatment* of toxic epidermal necrolysis, but the study was prematurely terminated because of significantly higher mortality in the thalidomide group; the causes of death were those usually attributed to the disease itself. Thalidomide had been chosen as an investigative drug because it is a potent inhibitor of TNF-α, which has been implicated in the pathogenesis of this condition. However, the authors noted that there was a tendency for plasma concentrations of TNF-α to increase after treatment with thalidomide compared with the placebo group, and postulated that thalidomide might paradoxically enhance TNF-α production in these patients.

Exacerbation of psoriasis by thalidomide, reported, in 2 patients might also have been due to an increase in TNF-α production.[4,5]

In an open-label study in 87 patients with multiple myeloma[6] comparing thalidomide given as monotherapy or given with dexamethasone, minor to moderate skin eruptions were noted in about 45% of patients in each group, and included morbilliform, seborrhoeic, maculopapular, and non-specific dermatitis. Three patients receiving thalidomide and dexamethasone developed severe skin reactions (exfoliative erythroderma, erythema multiforme, or toxic epidermal necrolysis) that required treatment to be stopped.

Migraine. Migraine attacks were associated with thalidomide use in a 36-year-old man.[1]

1. García-Albea E, *et al.* Jaqueca típica y talidomida. *Med Clin (Barc)* 1993; **100:** 557.

Mutagenicity. Reports of the birth of 3 malformed infants to parents who had themselves been exposed to thalidomide *in utero*[1,2] provoked fears that thalidomide may be a mutagen. However, the limb malformations seen in the infants were not typical of mutagenesis[3] and the teratogenic effect of thalidomide was likely to be associated with interference with angiogenesis in the fetus rather than mutation.[4] Review[5] of the evidence up to 1998 concluded that there was no scientific basis for the hypothesis that thalidomide is a mutagen and birth defects appeared to be no more common in children born to thalidomide-affected parents than in the population as a whole. Further support for the counter-argument came in 2002 from a Swedish retrospective study in which malformations or functional anomalies consistent with thalidomide embryopathy were not found in 64 children born to 34 parents with thalidomide embryopathy.[6]

Interactions

The sedative activity of barbiturates, alcohol, chlorpromazine, and reserpine has been reported to be enhanced by thalidomide. Use with other drugs that have the potential to cause peripheral neuropathy should be undertaken cautiously.

Antineoplastics. There may be an increased risk of deep-vein thrombosis from the use of thalidomide with *doxorubicin* (see p.714). See also Effects on the Cardiovascular System, above.

For the effect of thalidomide on the metabolism of *irinotecan*, see under Interactions of Irinotecan, p.738.

Corticosteroids. For reference to a possible interaction between thalidomide and *dexamethasone*, see under Effects on the Skin, above.

Hormonal contraceptives. Thalidomide does *not* alter the metabolism of ethinylestradiol and norethisterone,[1,2] and so the efficacy of oral contraceptives should not be affected by thalidomide therapy. Nevertheless, 2 reliable forms of contraception should always be used simultaneously when taking thalidomide (see Adverse Effects and Precautions, above), bearing in mind that the reliability of hormonal contraceptives may be compromised by drugs other than thalidomide (see p.2067).

1. Trapnell CB, *et al.* Thalidomide does not alter the pharmacokinetics of ethinyl estradiol and norethindrone. *Clin Pharmacol Ther* 1998; **64:** 597–602.
2. Scheffler MR, *et al.* Thalidomide does not alter estrogen-progesterone hormone single-dose pharmacokinetics. *Clin Pharmacol Ther* 1999; **65:** 483–90.

Interferons. Neurological toxicity was reported[1] in 4 of 13 patients in a phase II study of thalidomide and interferon alfa-2a used together in the treatment of renal cell carcinoma. It was suggested that the membrane-destabilising properties of both drugs could have produced such serious toxicity since it exceeded that expected from either drug alone. A fifth patient experienced a Stevens-Johnson reaction that was also attributed to the combination. The study was halted as a result of these serious adverse effects.

Severe bone marrow depression has been reported[2] in a patient given thalidomide with peginterferon alfa-2b that was also attributed to the combined effect of the 2 drugs.

Pharmacokinetics

Thalidomide is slowly absorbed from the gastrointestinal tract; peak plasma concentrations are reached within about 3 to 6 hours of an oral dose. It crosses the placenta and is distributed into the semen. The exact metabolic route and fate of thalidomide is unknown, although it appears to undergo non-enzymatic hydrolysis in plasma. The elimination half-life is about 5 to 7 hours.

Uses and Administration

Thalidomide has immunomodulating activity. It should always be given under appropriately supervised and controlled conditions because of the teratogenic risks and other potential adverse effects (see Adverse Effects and Precautions, above).

Thalidomide is used for the treatment of acute cutaneous manifestations of moderate to severe type 2 (erythema nodosum leprosum) lepra reactions (see Leprosy, p.176), but should not be given as monotherapy if moderate to severe neuritis is present; in such cases, corticosteroid therapy should also be given and continued until neuritis improves. Thalidomide may also be used for maintenance therapy for prevention and suppression of the cutaneous manifestations of recurrent type 2 lepra reactions. It is of no value in type 1 lepra reactions. It may be given orally in usual initial doses of 100 to 300 mg once daily. In severe cases up to 400 mg daily may be given. The dose should be reduced gradually by 50 mg every 2 to 4 weeks once a satisfactory response has been achieved. An alternative regimen is to start treatment with 100 mg once daily, and if symptoms are not controlled, increase the dose by increments of 100 mg at weekly intervals up to a maximum of 400 mg once daily.

Thalidomide is also used in the treatment of multiple myeloma (p.658) refractory to standard therapies. It is given orally in an initial dose of 200 mg once daily and, according to patient tolerance, the dose may be increased by 100 mg at weekly intervals up to a maximum dose of 800 mg daily. Thalidomide may be used with melphalan (p.742) and prednisone (p.1542) in patients with newly diagnosed multiple myeloma who are over 65 years of age or in those ineligible for high dose chemotherapy; thalidomide is given in a dose of 200 mg daily for a maximum of 12 cycles of 6 weeks each. Thalidomide may also be used with dexamethasone (p.1526) in the treatment of patients with newly diagnosed multiple myeloma: thalidomide 200 mg is given once daily; dexamethasone 40 mg is given orally on days 1 to 4, 9 to 12, and 17 to 20 in 28-day cycles.

Thalidomide should preferably be given at bedtime and at least 1 hour after the evening meal.

Thalidomide has been used in several other conditions whose aetiology may involve the immune system, such as treatment and prevention of graft-versus-host disease, treatment and prevention of recurrent aphthous stomatitis in severely and terminally immunocompromised patients, treatment of the clinical manifestations of both tuberculous and non-tuberculous mycobacterial infection, treatment of myelodysplastic syndrome and treatment of HIV-associated wasting syndrome, Kaposi's sarcoma, and Crohn's disease. It has also been used in the treatment of primary brain malignancies. Thalidomide is being investigated in some other malignancies.

Action. The mechanism of action of thalidomide is not completely understood, although investigations have shown that it has anti-inflammatory and immunomodulating effects, including inhibition of the synthesis of tumour necrosis factor (TNF)-α. However, this inhibition is incomplete and selective, and increased plasma-TNF-α concentrations have been seen in some patient groups. Other immunomodulatory and anti-inflammatory properties include inhibition of leucocyte chemotaxis into the site of inflammation and reduction of phagocytosis by polymorphonuclear leucocytes. Thalidomide also appears to modulate interleukins, although results of investigations into its effect on specific interleukins and interferon gamma have so far been equivocal. Effects on CD4+ cells and variable effects on other mediators of intercellular reactions have also been implicated. Thalidomide also inhibits angiogenesis, which may have implications in solid tumours and other diseases.

Behçet's syndrome. Thalidomide was effective for the treatment of oral and genital ulceration and follicular lesions in a randomised, double-blind, placebo-controlled study[1] in 96 male patients with Behçet's syndrome (p.1499). It was also noted that the development of new oral and genital ulcers was prevented, although relapses may occur on cessation of therapy. Thalidomide has also been reported[2,3] to be of benefit for severe oral and genital ulceration in children with Behçet's syndrome unresponsive to other treatments. Thalidomide also improved symptoms in a woman with Behçet's syndrome who had recurrent perforating intestinal ulcers.[4]

Cachexia. For the use of thalidomide in HIV-associated wasting, see HIV-associated Complications, below, and in cancer-related cachexia, see Malignant Neoplasms, below.

Graft-versus-host disease. A review[1] of studies investigating the use of thalidomide in chronic graft-versus-host disease (see Haematopoietic Stem Cell Transplantation, p.1811) concluded that although thalidomide appeared to be of benefit in some patients unresponsive to other treatments, doses greater than 200 mg daily are poorly tolerated in most patients. Giving thalidomide as prophylaxis led to poor survival, possibly through interfering with development of tolerance. Thalidomide was not of benefit when given as treatment for newly diagnosed disease.

1. Flowers MED, Martin PJ. Evaluation of thalidomide for treatment or prevention of chronic graft-versus-host disease. *Leuk Lymphoma* 2003; **44:** 1141–6.

HIV-associated complications. It has been proposed that thalidomide's inhibitory activity against TNF-α may explain its anti-HIV effect. However, there are conflicting reports as both decreased and increased TNF-α levels, as well as unchanged levels, have been seen in HIV-patients.[1] Nevertheless, thalidomide has shown some promise as a therapeutic agent for some AIDS-related diseases. It is an effective treatment for severe ulceration of the mouth (p.1700), oropharynx, and oesophagus in patients with HIV-infection.[2-5] Thalidomide has also been tried with some success in HIV-infected patients with prurigo nodularis,[6] alopecia areata[7] (p.1577), and hypertrophic genital herpes[8] (p.854). It has also proved to be of benefit in HIV-associated wasting[9] (p.858), and has shown promise in high doses for the treatment of AIDS-related Kaposi's sarcoma[10] (p.675). However, of concern is the finding that modest increases in plasma HIV RNA levels have been seen in some patients, which correlated with increases in TNF-α levels.[2,4]

Inflammatory bowel disease. Small open-label studies[1-3] have shown efficacy of thalidomide in patients with refractory Crohn's disease (see under Inflammatory Bowel Disease, p.1697). In many of those patients already receiving corticosteroids the dosage could be reduced and in some corticosteroids could be stopped completely. Reduction of TNF-α and interleukin-12 by thalidomide may be responsible for its clinical effects in Crohn's disease.[4] Thalidomide has also been reported[5] to be of benefit in children and young adults with intractable inflammatory bowel disease (both Crohn's disease and ulcerative colitis).

Kaposi's sarcoma. See under HIV-associated complications, above and under Malignant Neoplasms, below.

Lupus erythematosus. Thalidomide has been found to be of benefit in lupus erythematosus, including chronic discoid lupus erythematosus,[1,2] lupus erythematosus profundus,[3,4] SLE[5] (p.1513), and cutaneous lupus erythematosus.[6-11] The beneficial effect of thalidomide on cutaneous lupus erythematosus may be partly mediated through protection against UV-induced inflammation.[11]

Malignant neoplasms. Thalidomide has shown benefit in the treatment of patients with relapsed advanced multiple myeloma[1-4] (p.658) and also in patients with newly diagnosed disease;[4-8] the response improves when given with dexamethasone. Thalidomide also improved response when added to the regimen of pegylated liposomal doxorubicin, vincristine, and decreased frequency dexamethasone in patients with relapsed-refractory or newly diagnosed multiple myeloma,[9] and when added to melphalan and prednisone in newly-diagnosed elderly patients.[10,11] Thalidomide has also been investigated as maintenance treatment after intensive chemotherapy supported with haematopoietic stem-cell transplantation in patients with newly diagnosed disease;[12,13] thalidomide improved the response rate and event-free survival in both studies, although no improvement in overall survival was seen in one.[12] Thalidomide has also been tried in the treatment of several non-plasma cell malignancies with variable results.[14] It has shown promise in patients with recurrent high-grade gliomas[15] (p.660) and is under investigation for non-AIDS-related Kaposi's sarcoma[16,17] (p.675), metastatic melanoma[18] (p.673), myelofibrosis with myeloid metaplasia,[19-21] and androgen-independent prostate cancer[22,23] (p.671). Thalidomide has shown some benefit in the treatment of cancer-related cachexia (p.2115) in patients with pancreatic cancer.[24]

Rheumatic disorders. Beneficial responses to thalidomide have been reported in the treatment of refractory rheumatoid arthritis[1] and adult-onset Still's disease.[2] Thalidomide also improved symptoms in 2 children with systemic onset juvenile rheumatoid arthritis, in whom other therapy, including etanercept, had been ineffective.[3] Efficacy was also shown in a further 11 children with refractory disease who were able to reduce their use of prednisone.[4]

Skin disorders. Thalidomide has shown efficacy in several severe dermatological disorders refractory to conventional therapies.[1,2] A review[3] of studies of thalidomide in the treatment of severe type 2 (erythema nodosum leprosum) lepra reactions concluded that it is an effective alternative to corticosteroid therapy. It has also been investigated in other severe skin disorders and beneficial responses have been reported in erythema multiforme[4,5] (p.1580), pruritus associated with uraemia,[6] Langerhans-cell histiocytosis[7] (p.650), epidermolysis bullosa and its variants,[8-10] prurigo nodularis,[11,12] pyoderma gangrenosum[13,14] (p.1583), and Schnitzler's syndrome.[15]

Preparations

USP 31: Thalidomide Capsules.

Proprietary Preparations (details are given in Part 3)
India: Thalix; ***Mex.:*** Inmunoprin; Talizer; ***USA:*** Thalomid.

Thallium Acetate

Talio, acetato de; Thallous Acetate.

$C_2H_3O_2Tl = 263.4$.

CAS — 7440-28-0 (thallium); 563-68-8 (thallium acetate); 7446-18-6 (thallium sulfate).

Adverse Effects

Thallium salts are toxic when inhaled, ingested, or absorbed through the skin. Symptoms of poisoning may appear within 12 to 24 hours of a single toxic dose and include severe abdominal pain, nausea and vomiting, diarrhoea, gastrointestinal haemorrhage, salivation, metallic taste, paralytic ileus, pancreatic damage, and in severe cases cardiovascular collapse, tremors, delirium, convulsions, paralysis, and coma, leading to death in 1 to 2 days. However, the acute reaction may subside, to be followed within about 10 days by the development of neurological effects including paraesthesia, myalgia, myopathy, motor neuropathy, and visual disturbances due to optic neuropathy, psychosis, delirium, convulsions, and other signs of encephalopathy, tachycardia, hypertension, skin eruptions, and hepatorenal injury. Recovery from neurological damage is slow and may be incomplete. Alopecia occurs within 15 to 20 days; stomatitis may also develop. Death may result from respiratory failure; patients are also predisposed for several weeks to cardiac arrhythmias and sudden death. Fatalities have occurred after ingestion of 1 g or less in adults, although the UK Poisons Information Service consider the usual lethal dose by ingestion to be in the range 3 to 10 g in adults.

Smaller repeated doses are also toxic, with symptoms appearing over several weeks. Constipation is a common feature of less severe poisoning.

12. Kuo H-C, *et al.* Acute painful neuropathy in thallium poisoning. *Neurology* 2005; **65:** 302–4.

Treatment of Adverse Effects

Gastric lavage should be considered if the patient presents within 1 hour of acute ingestion. Intensive supportive therapy is necessary.

Attempts have been made to increase the faecal and urinary excretion of thallium. A suspension of activated charcoal has been given to reduce intestinal absorption and enteric recycling. Prussian blue (p.1461) given orally as a drink or via a nasogastric tube is also used routinely. A purgative such as mannitol may be required with either activated charcoal or Prussian blue as constipation is common in severe thallium toxicity. Giving potassium chloride by mouth may mobilise thallium from the tissues but is hazardous, especially if given during the early stage as signs of poisoning may be aggravated. Traditional chelation therapy is not generally recommended for thallium poisoning.

Haemoperfusion, haemodialysis, or peritoneal dialysis have been reported to be effective in eliminating absorbed thallium, although clinical benefit is doubtful.

Uses and Administration

Thallium acetate was formerly used by mouth for depilation in ringworm and as an ingredient of depilatory creams but both systemic and local treatments have caused deaths, and it is no longer used for such purposes. It has also been used as a rodenticide and insecticide; thallium sulfate has been used similarly. The use of thallium salts is strictly regulated in many countries. However, use in industry could still constitute a hazard. Cases of malicious poisoning still occur occasionally.

Theobroma

Cacao or Cocoa Powder; Chocolate; Teobroma; Theobrom.

Pharmacopoeias. In *USNF.*

USNF 26 (Chocolate). A powder prepared from the roasted, cured kernels of the ripe seed of *Theobroma cacao* (Sterculiaceae).

Profile

Theobroma is used as a flavoured basis for tablets and lozenges. Theobroma oil (p.2033) is used as a basis for suppositories.

Breast feeding. The American Academy of Pediatrics[1] states that irritability or increased bowel activity have been reported in infants whose mothers ate excessive amounts of chocolate (16 ounces (about 450 g) or more daily).

1. American Academy of Pediatrics. The transfer of drugs and other chemicals into human milk. *Pediatrics* 2001; **108:** 776–89. Correction. *ibid.* 1029. Also available at: http://aappolicy.aappublications.org/cgi/content/full/pediatrics%3b108/3/776 (accessed 08/07/04)

Preparations

USNF 26: Chocolate Syrup.

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austria:*** Asthmatee EF-EM-ES.

Theodrenaline Hydrochloride *(BANM, rINNM)* ⊗

H-8352; Hidrocloruro de teodrenalina; Noradrenaline Theophylline Hydrochloride; Théodrénaline, Chlorhydrate de; Theodrenalini Hydrochloridum. 7-[2-(3,4,β-Trihydroxyphenethylamino)ethyl]theophylline hydrochloride.

Теодреналина Гидрохлорид

$C_{17}H_{21}N_5O_5,HCl = 411.8.$

CAS — 13460-98-5 (theodrenaline); 2572-61-4 (theodrenaline hydrochloride).

ATC — C01CA23.

ATC Vet — QC01CA23.

Profile

Theodrenaline is mainly used as the hydrochloride in preparations with cafedrine promoted for the treatment of hypotension.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austria:*** Akrinor; ***Fr.:*** Praxinor; ***Ger.:*** Akrinor†; ***S.Afr.:*** Akrinor; ***Spain:*** Bifort†.

Thioctic Acid

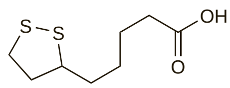
Acide thioctique; Acidum thiocticum; Alpha Lipoic Acid; Kwas tioktynowy; Kyselina thioktová; Lipoic Acid; α-Liponic Acid; Tióctico, ácido. 5-(1,2-Dithiolan-3-yl)valeric acid.

$C_8H_{14}O_2S_2 = 206.3.$

CAS — 62-46-4.

ATC — A16AX01.

ATC Vet — QA16AX01.



Pharmacopoeias. In *Eur.* (see p.vii) and *US.*

Ph. Eur. 6.2 (Thioctic Acid). A yellow, crystalline powder. M.p. about 61°. Very slightly soluble in water; very soluble in dimethylformamide; freely soluble in methyl alcohol. Protect from light.

USP 31 (Alpha Lipoic Acid). M.p. 60.0° to 62.0°.

Profile

Thioctic acid is used for its antoxidant effects in the treatment of diabetic neuropathy. It has been tried in the treatment of liver dysfunction and in subacute necrotising encephalopathy. Beneficial results have been claimed in amanitin poisoning after ingestion of the mushroom *Amanita phalloides*, but such use is controversial (see under Poisonous Mushrooms or Toadstools, p.2349). Ethylenediamine thioctate, sodium thioctate, thioctic acid amide (thioctamide), and trometamol thioctate have been used similarly.

Preparations

USP 31: Alpha Lipoic Acid Capsules; Alpha Lipoic Acid Tablets.

Proprietary Preparations (details are given in Part 3)

Arg.: Biletan; Ciagen; Neurotioct; Neutracol; Sigmus; Tioctan; ***Austria:*** Thioctacid; Tioctan; ***Cz.:*** Alpha-Lipon†; Thioctacid; Thiogamma; ***Ger.:*** Alpha-Lipogamma; Alpha-Lipon; alpha-Vibolex; Alphaflam; Azulipont†; Biomo-lipon; duralipon; espa-lipon†; Fenint†; Juthiac†; Neurium; Pleomix-Alpha†; Thioctacid; Thiogamma; Tromlipon; Verla-Lipon; Vitatrans; ***Hung.:*** Thioctacid; Thiogamma; ***Indon.:*** Alanox; Mecola Forte; ***Ital.:*** Tiobec Crema; ***Jpn:*** Tioctan†; ***Mex.:*** Thioctacid; ***Pol.:*** Neurex; Thiogamma; ***Rus.:*** Berlithion (Берлитион); Espa-Lipon (Эспа-липон); Thioctacid (Тиоктацид); Thiogamma (Тиогамма); ***Thai.:*** Lipoicin†.

Multi-ingredient: ***Arg.:*** Biletan Enzimatico; Carbogasol Digestivo; Co-Tioctan; Nervomax TB12; ***Canad.:*** Biotrim†; ***Hong Kong:*** Lipochol; ***India:*** Alcrin-M; ***Indon.:*** Alicron; Aptivium Liver Support; Mecola; Reliv; ***Ital.:*** Alfa Lip; Angiovein; Byodinoral; Depatox; Lipoacid Combi; Neuralfa; Neuroptic; Osteolip; Tiobec; Tiofort; ***Philipp.:*** Illumina; ***Port.:*** Lipoacid; Lipoacid Combi†; ***Spain:*** Policolinosil; ***Thai.:*** Lipochol.

Thiomucase

C-84-04; Chondroitinsulphatase; Tiomucasa.

Profile

Thiomucase is a mucopolysaccharidase with general properties similar to those of hyaluronidase, p.2321, but which also depolymerises chondroitin sulfate. It has been given to assist the diffusion of local anaesthetic injections.

Preparations

Proprietary Preparations (details are given in Part 3)

Spain: Thiocase.

Multi-ingredient: ***Braz.:*** Thiomucase.

Thiotriazoline

Tiotriazolin. Morpholine 5-methyl-1,2,4-triazoline-5-thioacetate.

Тиотриазолин

Profile

Thiotriazoline is reported to have anti-ischaemic, membrane stabilising, and antoxidant actions. It is used as a hepatoprotectant in various liver disorders and as a protectant in cardiovascular and cerebrovascular disorders. It is also used locally as an anti-inflammatory for wounds and lesions of the skin and mucous membranes and for vaginal or rectal inflammation.

Thiram *(USAN, rINN)*

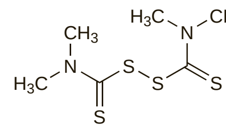
NSC-1771; SQ-1489; Thirame; Thiramum; Tiram; Tiramo; TMT; TMTD. Tetramethylthiuram disulphide.

Тирам

$C_6H_{12}N_2S_4 = 240.4.$

CAS — 137-26-8.

ATC — P03AA05.



Profile

Thiram, the methyl analogue of disulfiram (p.2296), has antibacterial and antifungal activity. It has been applied topically as an aerosol in the treatment of wounds and other skin disorders. It has been used as a fungicide in agriculture, and in industry as a rubber accelerator. Occupational exposure to thiram may cause irritation of mucous membranes and skin.

Thorium Dioxide

Thorium Oxide; Torio, dióxido de.

$ThO_2 = 264.0.$

CAS — 1314-20-1.

Profile

Colloidal solutions of thorium dioxide were formerly used as X-ray contrast media for examination of the liver and spleen, for arteriography, and occasionally for outlining the cerebral ventricles. Its elimination is very slow and incomplete. It accumulates in the reticuloendothelial system, especially in the liver and spleen. As it is radioactive (half-life: 1.41×10^{10} years), this accumulation is dangerous and there is strong evidence that the ensuing prolonged exposure to its radiation is a contributing factor in the development of malignant diseases and blood disorders often 20 to 30 years after its use.

Thuja

Tuya; White Cedar.

Profile

Thuja consists of the fresh leaves and twigs of *Thuja occidentalis* (Cupressaceae). It is included in some topical preparations for warts and in herbal antiseptic preparations. It is also used in herbal preparations for respiratory-tract disorders.

The oil distilled from the leaves and twigs is known as thuja oil or cedar leaf oil. It has been included in preparations for inhalation for the relief of respiratory-tract symptoms and for external use but is generally considered to be too toxic for internal use. Cedar leaf oil should be distinguished from cedar wood oil, obtained from *Juniperus virginiana* (see Red Cedar, p.2278).

Homoeopathy. Thuja has been used in homoeopathic medicines under the following names: Thuja occidentalis.

Preparations

Proprietary Preparations (details are given in Part 3)

Chile: Thujaderm.

Multi-ingredient: ***Austral.:*** Vicks Vaporub; ***Austria:*** Colda; Esberitox; Pe-Ce; ***Belg.:*** Aporil; Vicks Vaporub; ***Braz.:*** Calope†; Mentalol†; Vick Vaporub; ***Fr.:*** Item Alphacade; Item Alphazole; Item Lentes; Nitrol; Verrupan; Vicks Vaporub; ***Ger.:*** Esberitox N; ***Malaysia:*** Esberitox N; ***Pol.:*** Esberitox N; ***Port.:*** Alpha Cade; Alphacedre; Alphazole†; ***S.Afr.:*** Vicks Vaporub; ***Spain:*** Nitroina; ***Switz.:*** Esberitop; Vicks Vaporub N; ***Turk.:*** Kataljin; Vicks Vaporub; ***USA:*** Vicks Vaporub.

Thymalfasin *(USAN, rINN)*

Thymalfasine; Thymalfasinum; Thymosin α1; Timalfasina.

Тимальфазин

CAS — 62304-98-7; 69521-94-4.

Profile

Thymalfasin is a thymus hormone (p.2401) found in thymosin fraction 5 (a crude thymus gland extract) but now produced by synthesis. Thymalfasin is used alone or with interferon as an immunomodulator for the treatment of chronic hepatitis B, and with interferon for hepatitis C (p.851). It is given by subcutaneous injection in a dose of 1.6 mg twice weekly for up to 12 months. The dose in patients who weigh less than 40 kg is 40 micrograms/kg. Thymalfasin is also used to enhance the effectiveness of influenza vaccines in immunocompromised or elderly patients and of influenza and hepatitis B vaccines in chronic haemodialysis patients.

Thymalfasin is under investigation for a number of other diseases, including hepatitis D, hepatocellular carcinoma, non-small cell lung cancer, melanoma, and HIV infection and AIDS.

Thyme

Common Thyme; French Thyme; Garden Thyme; Kakukkfű; Rubbed Thyme; Thym; Thymi herba; Thymian; Timjami; Timjan; Timo; Tomillo; Tymiánová nať; Vaistinių čiobrelių žolė; Ziele tymianku.

NOTE. Distinguish from Wild Thyme, p.2415.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Thyme). The whole leaves and flowers separated from the previously dried stems of *Thymus vulgaris*, or *T. zygis*, or a mixture of both species. It contains not less than 12 mL/kg of essential oil, of which a minimum of 40% is thymol and carvacrol, both calculated with reference to the anhydrous drug. It has a strong aromatic odour reminiscent of thymol.

Profile

Thyme is the source of thyme oil (below). It has carminative, antiseptic, antitussive, and expectorant properties and is used chiefly in preparations for respiratory-tract disorders and as a flavour.

Thyme Oil

Esencia de Tomillo; Essência de Tomilho; Kakukkfűolaj; Kekik Yağı; Ol. Thym.; Olejek tymiankowy; Oleum Thymi; Thym, huile essentielle de; Thymi aetheroleum; Thymi Etheroleum; Timjamiöljy; Timjanolja; Tomillo, aceite esencial de; Tymiánová silice; Vaistinių čiobrelių eterinis aliejus.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Thyme Oil). The essential oil obtained by steam distillation from the fresh flowering aerial parts of *Thymus vulgaris*, *T. zygis*, or a mixture of both species. A clear, yellow or very dark reddish-brown, mobile liquid with a characteristic aromatic, spicy odour, reminiscent of thymol. Miscible with dehydrated alcohol and with petroleum spirit. It contains between 36 and 55% of thymol. Store in well-filled, airtight containers at a temperature not exceeding 25°. Protect from light.

Profile

Thyme oil is used similarly to thyme (above). It is also used in aromatherapy.

Preparations

Proprietary Preparations (details are given in Part 3)
Ger.: Bronchicum Medizinal-Bad†; Fichtensirup N†; Penaten; Thymian Erkaltungs-Bad.

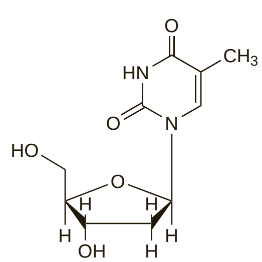
Thymidine

NSC-21548; Thymine 2-Desoxyriboside; Timidina; Tymidyna. 1-(2-Deoxy-β-D-ribofuranosyl)-5-methyluracil; 1-(2-Deoxy-β-D-ribofuranosyl)-1,2,3,4-tetrahydro-5-methylpyrimidine-2,4-dione.

Тимидин

$C_{10}H_{14}N_2O_5$ = 242.2.

CAS — 50-89-5.



Profile

Thymidine is an endogenous thymine nucleoside involved in many biological processes; it is one of the components of nucleic acids (p.2355). It was formerly given by intravenous infusion to modulate the toxicity of methotrexate but is not considered to be a substitute for calcium folinate; it may also have an antineoplastic action of its own.

Thymidine is given topically with other nucleosides in preparations for the treatment of corneal damage.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Belg.:*** Vitacic; ***Hung.:*** Vitacic†; ***Mon.:*** Vitacic; ***Rus.:*** Vitacic (Витасик)†.

Thymus Hormones

Timo, hormonas del.

CAS — 69558-55-0 (thymopentin); 60529-76-2 (thymopoietin); 63340-72-7 (thymic humoral factor).

Profile

The thymus gland controls the development of T-lymphocytes and thereby plays a central role in cell-mediated immunity and the regulation of immune responses. Several polypeptides characterised in the thymus or serum are able to induce lymphocyte differentiation *in vitro* and *in vivo*. They include: thymosin fraction 5, a crude thymus gland extract; thymalfasin (p.2400); thymosin beta 4; thymic humoral factor (THF), isolated from crude thymic extract dialysate; nonathymulin (thymulin, serum thymic factor, Facteur Thymique Serique, FTS), a synthetic nonapeptide; thymomodulin, a partially purified extract from calf thymus; thymogene A, extracted from calf thymus; thymopoietin, a polypeptide of known amino acid sequence; thymopentin (thymopoietin pentapeptide, TP-5), a fragment of thymopoietin with 5 amino acids; and thymostimulin (TP-1), extracted from calf thymus.

Various preparations, including crude extracts from calf thymus gland, thymomodulin, thymopentin, and thymostimulin have been tried as immunomodulators in numerous conditions including rheumatoid arthritis, diabetes mellitus, immunodeficiency disorders, skin disorders, malignant neoplasms, and some infections.

Multi-ingredient: ***Austria:*** Wobe-Mugos; ***Cz.:*** Wobe-Mugos†.

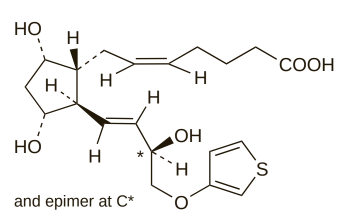
Tiaprost Trometamol *(BANM, rINNM)*

Tiaprost Trométamol; Tiaprostum Trometamolum. Trometamol salt of (±)-(*Z*)-7-{(1*R*,2*R*,3*R*,5*S*)-3,5-dihydroxy-2-[(*E*)-(3*RS*)-3-hydroxy-4-(3-thienyloxy)but-1-enyl]cyclopentyl}hept-5-enoic acid.

Тиапрост Трометамол

$C_{20}H_{28}O_6S,C_4H_{11}NO_3$ = 517.6.

CAS — 71116-82-0 (tiaprost).



(tiaprost)

Profile

Tiaprost trometamol is a synthetic analogue of dinoprost (prostaglandin F_2). It is used as a luteolytic in veterinary medicine.

Tibezonium Iodide *(rINN)*

Ioduro de tibezonio; Rec-15/0691; Tibezonii Iodidum; Tibézonium, Iodure de. Diethylmethyl{2-[4-(4-phenylthiophenyl)-3*H*-1,5-benzodiazepin-2-ylthio]ethyl}ammonium iodide.

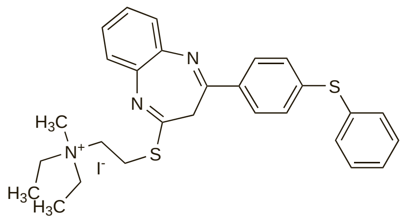
Тибезония Йодид

$C_{28}H_{32}IN_3S_2$ = 601.6.

CAS — 54663-47-7.

ATC — A01AB15.

ATC Vet — QA01AB15.



Profile

Tibezonium iodide has been used in the treatment of infections of the mouth and throat.

Preparations

Proprietary Preparations (details are given in Part 3)

Gr.: Riposon; ***Ital.:*** Antoral; ***Mex.:*** Maxoral; ***Port.:*** Maxius.

Tilactase *(rINN)*

β-Galactosidase; β-D-Galactosidase; β-D-Galactoside Galactohydrolase; Lactase; Tilactasa; Tilactasum.

Тилактаза

CAS — 9031-11-2.

ATC — A09AA04.

ATC Vet — QA09AA04.

Pharmacopoeias. In *Jpn* (from *Aspergillus oryzae* or *Penicillium multicolor*) and *US* (from *Aspergillus oryzae*).

USP 31 (Lactase). A hydrolytic enzyme derived from *Aspergillus oryzae*. Each g contains not less than 30 000 USP units. Store in airtight containers at room temperature.

Profile

Tilactase hydrolyses lactose into glucose and galactose. It has been added to milk and milk products, or taken by mouth with a meal containing dairy products, in order to prevent the symptoms of lactose intolerance (p.1954) in persons deficient in the endogenous enzyme.

Preparations

Proprietary Preparations (details are given in Part 3)

Arg.: Lac-Tas; ***Austral.:*** Lact-Easy†; Lactaid†; ***Canad.:*** Dairyaid; Lactaid; Lactrase†; Prolactase; ***Irl.:*** Colief; ***Ital.:*** Lacdigest; Silact; ***Jpn:*** Galantase†; ***Malaysia:*** Lactaide†; ***Port.:*** Lisolac; ***Switz.:*** Lacdigest; ***UK:*** Colief; ***USA:*** Dairy Ease; Lactaid; Lactrase; SureLac; ***Venez.:*** Lectozim†.

Multi-ingredient: *Canad.:* Digesta.

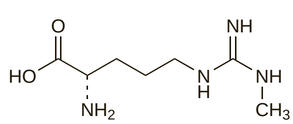
Tilarginine *(rINN)*

BW-546C88; 546C88; L-NMMA; Targinina; Targinine *(BAN)*; Targininum; Tilarginina; Tilargininum. *N*-Methyl-L-arginine.

Таргинин

$C_7H_{16}N_4O_2$ = 188.2.

CAS — 17035-90-4.



Profile

Tilarginine is a nitric oxide synthase inhibitor under investigation in the treatment of cardiogenic shock, although results have been disappointing. It has also been tried in septic shock but appears to have been associated with increased mortality. It has also been investigated in migraine.

Tilia

Hársfavirág; Kwiatostan lipy; Lehmuksenkukka; Liepų žiedai; Lime Flower; Lindblomma; Linden; Lipový květ; Tiliae flos; Tilleul; Tilleul, fleur de; Tilo.

Pharmacopoeias. *Eur.* (see p.vii) includes the flowers.
Fr. also includes the bark.

Ph. Eur. 6.2 (Lime Flower). The whole dried inflorescences of *Tilia cordata*, *Tilia platyphyllos*, *Tilia × vulgaris* (=[*Tilia × europaea*]), or a mixture of these species. It has a faint aromatic odour. Protect from light.

Profile

Tilia is mildly astringent and is reputed to have antispasmodic and diaphoretic properties. Lime-flower 'tea' is a traditional domestic remedy.

Various species of tilia are used in herbal preparations for a variety of disorders.

Homoeopathy. Tilia has been used in homoeopathic medicines under the following names: Tilia europaea; Til. euro.

Preparations

Proprietary Preparations (details are given in Part 3)

Belg.: Vibtil; ***Cz.:*** Kvet Lipy†; Lipovy; ***Pol.:*** Lipomal.

Multi-ingredient: *Arg.:* Armonil; Dr Calm†; Herbaccion Sedante†; Incaico Serenidad; Insomnal†; Nervocalm; No-Nerviol†; Sedanat; Sedante Arceli†; Sedante Dia; Serenil; Top Life Relax†; ***Austral.:*** Diaco; ***Austria:*** Grippetee St Severin; St Bonifatius-Tee; ***Belg.:*** Natudor; ***Canad.:*** Herbal Sleep Well†; ***Chile:*** Calmatol; Nature Complex Reduct-Te; Recalm; Reduc-Te; ***Cz.:*** Cajova Smes pri Nachlazeni; Nontusyl†; Průdušková; ***Fr.:*** Alkagin; Apaisance; Calmophytum; Lenicalm†; Mediflor Tisane Antirhumatismale No 2; Mediflor Tisane Calmante Troubles du Sommeil No 14; Vigilia; ***Ger.:*** Nervosana†; ***Israel:*** Jungborn; ***Ital.:*** Alkagin; Lenicalm; Sambuco (Specie Composta)†; Sebacnol†; Sedofit; Tiglio (Specie Composta)†; Tussol; Videorelax†; ***Pol.:*** Fitoven; Melisal; Melissed; Pectobonisol; Pyrosal; Termasil; Tiliros; ***Port.:*** Alkagin; ***Spain:*** Agua del Carmen; Jaquesor†; Mesatil†; Natusor Gripotul†; Natusor Jaquesan†; Natusor Sinulan†; Natusor Somnisedan†; ***Switz.:*** Tisane contre les refroidissements; Tisane pour nourissons et enfants; ***UK:*** Menopause Relief; Wellwoman.

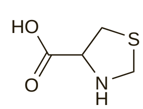
Timonacic *(rINN)*

ATC; NSC-25855; Thioproline; Timonácico; Timonacicum. Thiazolidine-4-carboxylic acid.

Тимонацик

$C_4H_7NO_2S$ = 133.2.

CAS — 444-27-9.



NOTE. The name ATC has also been used for a combination of paracetamol and trichloroethanol (4-acetamidophenyl 2,2,2-trichloroethyl carbonate).

Profile

Timonacic is used as an adjuvant in the treatment of acute and chronic hepatic disorders.

Timonacic methyl hydrochloride (carbolidine hydrochloride) has been used as a mucolytic.

Preparations

Proprietary Preparations (details are given in Part 3)

Ital.: Muvial†; ***Pol.:*** Hepacom; Heparegen; ***Switz.:*** Heparegen†.

Tin

Cyna; Estaño; Étain; Stannum; Zinn.

Sn = 118.71.

CAS — 7440-31-5.

Profile

Tin is a silver-white, lustrous, malleable, ductile metal. Owing to their low solubility, tin and tin oxide are very poorly absorbed from the gastrointestinal tract and have low toxicity. Chronic inhalation causes a benign form of pneumoconiosis.

Organic compounds of tin are highly toxic and may cause liver and kidney damage as well as severe neurological damage associated with oedema of the white matter of the brain. Treatment has been symptomatic. Contamination of the skin with organic tin compounds can cause severe burning; suitable precautions should be taken to prevent absorption of organic tin compounds through the skin.

Tin and tin oxide have been given in the treatment of boils, but there is little evidence of effectiveness; they were also formerly used in some countries for the treatment of tapeworm. Organic tin compounds, especially tributyltin oxide (TBTO), are used as molluscicides.

Tin in food. Excess amounts of inorganic tin in food tend to arise from tin-coated cans, especially unlacquered ones, and may produce gastric irritation. Concentrations as low as 150 mg/kg in canned beverages and 250 mg/kg in other canned foods have produced adverse effects in certain individuals, but some foods containing up to 700 mg/kg have not produced any detectable effects. Consumers should be advised not to store foods in opened tinplated cans.[1]

A recommended acceptable daily intake for chronic exposure to tin has been suggested as a provisional tolerable weekly intake of 14 mg/kg, although it was subsequently noted that this value may have been derived from intakes associated with acute effects, and it was concluded that the toxicokinetics and effects of inorganic tin after long-term exposure to dietary doses at concentrations that did not elicit acute effects should be re-assessed.[1] It was also concluded that it was inappropriate to establish an acute reference dose for inorganic tin, since development of gastric irritation depends on the concentration and nature of tin in the food product rather than on the dose ingested on a body-weight basis.[1] In the EU regulations limit the maximum amount of tin in foods sold in member states to wet weights of 200 mg/kg in canned foods other than beverages, 100 mg/kg in canned beverages including fruit and vegetable juices, and 50 mg/kg in various canned foods for infants.[2]

Tin-protoporphyrin

Protoporfirina-Estaño; (Sn)-protoporphyrin.

Profile

Tin-protoporphyrin and the related compound tin-mesoporphyrin are metalloporphyrins which inhibit haem oxygenase, an enzyme involved in the breakdown of haem to bile pigments. They have been investigated as inhibitors of bilirubin production in hyperbilirubinaemia of various causes, and have been tried in porphyria (p.1448).

Tiropramide Hydrochloride *(rINNM)*

Hidrocloruro de tiropramida; Tiropramide, Chlorhydrate de; Tiropramidi Hydrochloridum. DL-α-Benzamido-*p*-[2-(diethylamino)ethoxy]-*N*,*N*-dipropylhydrocinnamamide hydrochloride.

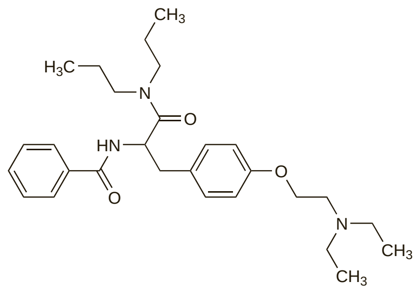
Тиропрамида Гидрохлорид

$C_{28}H_{41}N_3O_3$,HCl = 504.1.

CAS — 55837-29-1 (tiropramide); 57227-16-4 (tiropramide hydrochloride).

ATC — A03AC05.

ATC Vet — QA03AC05.



(tiropramide)

Profile

Tiropramide hydrochloride is used as an antispasmodic. Doses of 100 mg 2 or 3 times daily or 200 mg twice daily have been given by mouth. It has also been given rectally and parenterally.

Preparations

Proprietary Preparations (details are given in Part 3)
Ital.: Alfospas; Maiorad; ***Port.:*** Maiorad; ***Thai.:*** Maiorad.

Titanium

Titan; Titane; Titanio; Tytan.

Ti = 47.867.

CAS — 7440-32-6.

Profile

Titanium has been used in the repair of skull damage and for implantation in dental surgery.

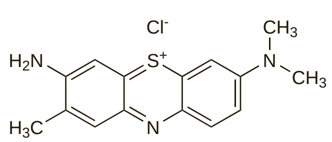
Tolonium Chloride *(rINN)*

CI Basic Blue 17; Cloruro de tolonio; Colour Index No. 52040; Tolonii Chloridum; Tolonium, Chlorure de; Toluidine Blue O. 3-Amino-7-dimethylamino-2-methylphenazathionium chloride.

Толония Хлорид

$C_{15}H_{16}ClN_3S$ = 305.8.

CAS — 92-31-9.



NOTE. Distinguish from Toluidine Blue, Colour Index No. 63340.

Profile

Tolonium chloride is a thiazine dye chemically related to methylthioninium chloride (p.1450). It has been used to stain oral and gastric neoplasms and was given intravenously to stain the parathyroid glands. Other uses have included the treatment of menstrual disorders and methaemoglobinaemia.

Tolonium chloride should be avoided in patients with G6PD deficiency as haemolysis may occur.

Preparations

Proprietary Preparations (details are given in Part 3)
Cz.: Toluidinblau; ***Ger.:*** Toluidinblau; ***Gr.:*** OraTest; ***Neth.:*** OraTest; ***NZ:*** Orascreen; ***Port.:*** OraTest.

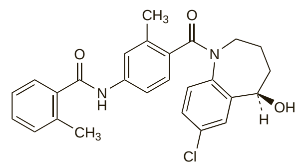
Tolvaptan *(USAN, rINN)* ⊗

OPC-41061; Tolvaptán; Tolvaptanum. (±)-4′-[(7-Chloro-2,3,4,5-tetrahydro-5-hydroxy-1*H*-1-benzazepin-1-yl)carbonyl]-*o*-tolu-*m*-toluidide.

Толваптан

$C_{26}H_{25}ClN_2O_3$ = 448.9.

CAS — 150683-30-0.



and enantiomer

Profile

Tolvaptan is a selective vasopressin V_2-receptor antagonist under investigation for the treatment of hyponatraemia, including that in heart failure.

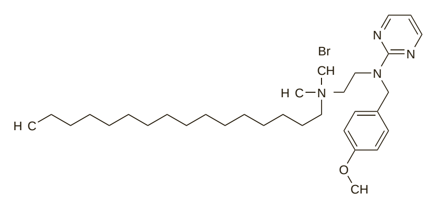
Tonzonium Bromide *(rINN)*

Bromuro de tonzonio; NC-1264; NSC-5648; Thonzonium Bromide *(USAN)*; Tonzonii Bromidum; Tonzonium, Bromure de. Hexadecyl[2-(*N*-*p*-methoxybenzyl-*N*-pyrimidin-2-ylamino)ethyl]dimethylammonium bromide.

Тонзония Бромид

$C_{32}H_{55}BrN_4O$ = 591.7.

CAS — 553-08-2.



Profile

Tonzonium bromide is a cationic surfactant. As an additive in ear drops and aerosol sprays it has been claimed to promote tissue contact by dispersion and penetration of cellular debris and exudate.

Preparations

Proprietary Preparations (details are given in Part 3)
Multi-ingredient: *USA:* Coly-Mycin S Otic; Cortisporin-TC.

Tormentil

Blodrot; Consolda Vermelha; Erect Cinquefoil; Miškinių sidabražolių šakniastiebiai; Nátržníkový oddenek; Rätvänänjuurakko; Tormentilla; Tormentillae rhizoma; Tormentille; Vérontófűgyökértörzs.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Tormentil). The whole or cut, dried rhizome, freed from the roots, of *Potentilla erecta* (*P. tormentilla*). It contains not less than 7% of tannins expressed as pyrogallol, calculated with reference to the dried drug. Protect from light.

Profile

Tormentil has astringent properties and is used in herbal preparations for diarrhoea and other indications. Gastrointestinal irritation and vomiting have occasionally occurred.

Transfer Factor

Transferencia, factor de.

Трансферный Фактор

Profile

Transfer factor is a peptide constituent of dialysable leucocyte extracts prepared from the leucocytes of a sensitised donor, that can passively transfer cell-mediated immunity to a non-sensitised recipient.

Transfer factor has been suggested for use in infections due to bacteria, fungi, and viruses, inflammatory disorders, skin disorders such as eczema, nervous system disorders, immunodeficiency diseases, and malignancies, although the response when it has been tried in some of these conditions has not always been satisfactory.

Preparations

Proprietary Preparations (details are given in Part 3)
Cz.: Imunor.

Transforming Growth Factor Antibodies

Антитела к Трансформирующему Фактору Роста

Profile

A human monoclonal antibody specific for transforming growth factor β1 is under investigation for the treatment of systemic sclerosis.

Lerdelimumab (p.2333) is a human monoclonal antibody specific for transforming growth factor β2.

Trepibutone *(rINN)*

AA-149; Trepibutona; Trépibutone; Trepibutonum; Trepionate. 3-(2,4,5-Triethoxybenzoyl)propionic acid.

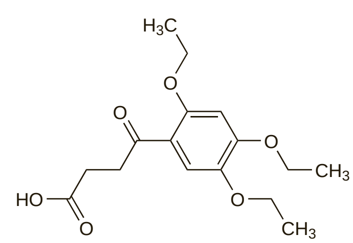
Трепибутон

$C_{16}H_{22}O_6$ = 310.3.

CAS — 41826-92-0.

ATC — A03AX09.

ATC Vet — QA03AX09.



Pharmacopoeias. In *Jpn.*

Profile

Trepibutone has been reported to have spasmolytic and choleretic activity and is used in biliary-tract disorders and pancreatitis.

Preparations

Proprietary Preparations (details are given in Part 3)
Port.: Choliatron.

Tribenoside *(BAN, USAN, rINN)*

21401-Ba; Ba-21401; Tribenosid; Tribénoside; Tribenosidi; Tribenósido; Tribenosidum; Tribenozid; Tribenozidas. Ethyl 3,5,6-tri-*O*-benzyl-D-glucofuranoside.

Трибенозид

$C_{29}H_{34}O_6$ = 478.6.

CAS — 10310-32-4.

ATC — C05AX05; C05CX01.

ATC Vet — QC05AX05; QC05CX01.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Tribenoside). A yellowish to pale yellow, clear, viscous liquid. Practically insoluble in water; very soluble in acetone, in dichloromethane, and in methyl alcohol. Store under nitrogen in airtight containers.

Profile

Tribenoside has been used in inflammatory and varicose disorders of the veins, including haemorrhoids (p.1697). It has been given orally in usual doses of 800 mg daily. It has also been given rectally and topically.

Preparations

Proprietary Preparations (details are given in Part 3)

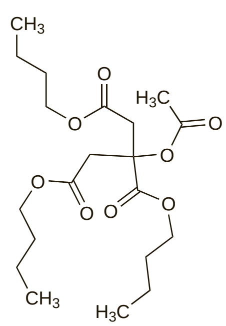
Tributyl Acetylcitrate

Tributilo acetilcitratas; Tributylacetylcitrat; Tributyl-acetylcitrát; Tributyle, acétylcitrate de; Tributylis acetylcitras; Tributyyliasetyylisitraatti. Tributyl 2-(acetyloxy)propane-1,2,3-tricarboxylate.

$C_{20}H_{34}O_8$ = 402.5.
CAS — 77-90-7.



Pharmacopoeias. In *Eur.* (see p.vii). Also in *USNF.*
Ph. Eur. 6.2 (Tributyl Acetylcitrate). A clear oily liquid. Immiscible with water; miscible with alcohol and with dichloromethane.
USNF 26 (Acetyltributyl Citrate). A clear, practically colourless, oily liquid. Insoluble in water; freely soluble in alcohol, in isopropyl alcohol, in acetone, and in toluene. Store in airtight containers.

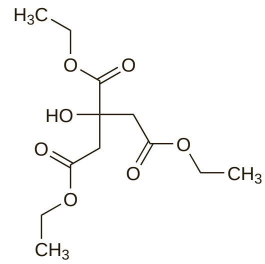
Profile

Tributyl acetylcitrate is a plasticiser and flavour used in pharmaceutical manufacturing and in the food industry.

Triethyl Citrate

E1505; Triethyl citrát; Triéthyle, citrate de; Triethyli Citras; Triethylis citras; Trietil-citrát; Trietilo citratas; Trietilo, citrato de; Trietylcitrat; Trietyylisitraatti. 2-Hydroxy-1,2,3-propanetricarboxylic acid triethyl ester.

$C_{12}H_{20}O_7$ = 276.3.
CAS — 77-93-0.



Pharmacopoeias. In *Eur.* (see p.vii). Also in *USNF.*
Ph. Eur. 6.2 (Triethyl Citrate). A clear, viscous, colourless or almost colourless, hygroscopic liquid. Soluble in water; miscible with alcohol; slightly soluble in fatty oils. Store in airtight containers.
USNF 26 (Triethyl Citrate). A practically colourless oily liquid. Soluble in water; miscible with alcohol and with ether. Store in airtight containers.

Profile

Triethyl citrate is a plasticiser used in pharmaceutical manufacturing and in the food and cosmetics industries.

Preparations

Proprietary Preparations (details are given in Part 3)

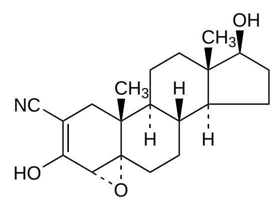
Multi-ingredient: ***Chile:*** Uriage Desodorante Tri-Actif; ***Fr.:*** Spirial.

Trilostane *(BAN, USAN, pINN)*

Trilostaani; Trilostan; Trilostano; Trilostanum; Win-24540. 4α,5α-Epoxy-17β-hydroxy-3-oxoandrostane-2α-carbonitrile.

Трилостан

$C_{20}H_{27}NO_3$ = 329.4.
CAS — 13647-35-3.
ATC — H02CA01.
ATC Vet — QH02CA01.



Adverse Effects

Adverse effects associated with trilostane have included flushing, nausea, vomiting, diarrhoea, rhinorrhoea, and tingling and swelling of the mouth. Skin rashes may occur and, rarely, granulocytopenia in immunocompromised patients.

Precautions

Trilostane is contra-indicated in pregnancy and should be used with caution in patients with renal or hepatic impairment. Circulating corticosteroids and blood electrolytes should be monitored. In some patients, supplementation with corticosteroids may be necessary.

Interactions

Trilostane may interfere with the activity of oral contraceptives. Hyperkalaemia may occur if trilostane is given with potassium-sparing diuretics or aldosterone antagonists.

Uses and Administration

Trilostane is an adrenocortical suppressant that inhibits the enzyme system essential for the production of glucocorticoids and mineralocorticoids. It is used for the treatment of adrenal cortical hyperfunction such as Cushing's syndrome and primary hyperaldosteronism. It is also used in postmenopausal breast cancer that has relapsed after oestrogen antagonist therapy.

The usual daily dose in adrenal cortical hyperfunction is 240 mg orally in divided doses for at least 3 days and then adjusted, according to response, within the range of 120 to 480 mg daily. Doses of 960 mg daily have been given.

In postmenopausal breast cancer an initial daily dose of 240 mg is given in divided doses, with glucocorticoid replacement therapy. This is increased in steps of 240 mg every 3 days up to a maintenance dose of 960 mg daily; this may be reduced to 720 mg daily if adverse effects are intolerable.

Preparations

Proprietary Preparations (details are given in Part 3)

Jpn: Desopan; ***UK:*** Modrenal.

Trimebutine Maleate *(BANM, rINNM)*

Maleato de trimebutina; Trimebutin Maleat; Trimébutine, maléate de; Trimebutini maleas. 2-Dimethylamino-2-phenylbutyl 3,4,5-trimethoxybenzoate hydrogen maleate.

Тримебутина Малеат

$C_{22}H_{29}NO_5,C_4H_4O_4$ = 503.5.
CAS — 39133-31-8 (trimebutine); 34140-59-5 (trimebutine maleate).
ATC — A03AA05.
ATC Vet — QA03AA05.

Pharmacopoeias. In *Jpn.*

Profile

Trimebutine maleate has been used as an antispasmodic in gastrointestinal disorders in oral doses of up to 600 mg daily in divided doses. It has also been given by injection and rectally. Trimebutine base has also been used.

Irritable bowel syndrome. Trimebutine has been reported[1-3] to be effective in the treatment of irritable bowel syndrome (p.1699) although a considerable placebo response has been seen.[1] Its action is thought to be mediated both via gastrointestinal opioid receptors and modulation of the release of gastrointestinal peptides.[4]

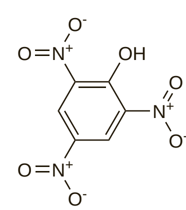
Trinitrophenol

Carbazotic Acid; Kwas pikrynowy; Picric Acid; Picrinic Acid; Trinitrofenol. 2,4,6-Trinitrophenol.

$C_6H_3N_3O_7$ = 229.1.
CAS — 88-89-1.



Pharmacopoeias. In *Fr.*

Storage and hazards. Trinitrophenol burns readily and explodes when heated rapidly or when subjected to percussion.

For safety in handling, trinitrophenol is usually supplied mixed with not less than half its weight of water. It should be stored in a cool place. It must not be stored in glass-stoppered bottles.

Trinitrophenol combines with metals to form salts, some of which are very explosive.

Profile

Trinitrophenol has disinfectant properties and was formerly used in the treatment of burns. It is now chiefly used in manufacturing and as a laboratory reagent.

Dermatitis, skin eruptions, severe itching, and yellow staining of the skin may occur after contact with trinitrophenol. Systemic toxicity may follow ingestion or absorption through the skin or lungs; symptoms may include vomiting, pain, and diarrhoea, progressing to haemolysis, hepatitis, anuria, convulsions, unconsciousness, and death. The metabolic rate is increased, causing pyrexia.

Homoeopathy. Trinitrophenol has been used in homoeopathic medicines.

Preparations

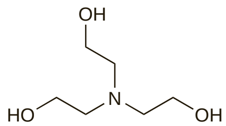
Proprietary Preparations (details are given in Part 3)
Multi-ingredient: ***Chile:*** Agua Sulfatada Picrica; ***Spain:*** Oftalmol Ocular.

Trolamine *(pINN)*

Trietanoloamina; Triethanolamine; Trolamiini; Trolamin; Trolamina; Trolaminas; Trolaminum.

Троламин

CAS — 102-71-6.



Description. Trolamine is a variable mixture of bases containing mainly 2,2′,2″-nitrilotriethanol (trolamine $(CH_2OH.CH_2)_3N$), together with 2,2′-iminobisethanol (diolamine) and smaller amounts of 2-aminoethanol (monoethanolamine).

Pharmacopoeias. In *Eur.* (see p.vii). Also in *USNF.*

Ph. Eur. 6.2 (Trolamine; Triethanolamine BP 2008). A clear, viscous, colourless or slightly yellow, very hygroscopic liquid. Miscible with water and with alcohol; soluble in dichloromethane. Store in airtight containers. Protect from light.

USNF 26 (Trolamine). A mixture of alkanolamines consisting largely of trolamine containing some diolamine and monoethanolamine. A colourless to pale yellow, viscous, hygroscopic liquid having a slight ammoniacal odour. Miscible with water and with alcohol; soluble in chloroform. Store in airtight containers. Protect from light.

Adverse Effects

Trolamine salts may be irritating to the skin and mucous membranes. Contact dermatitis has been reported after the use of ear drops containing trolamine polypeptide oleate-condensate.

Carcinogenicity. Because of concern about the possible production of carcinogenic nitrosamines in the stomach, the Swiss authorities restricted the use of trolamine to preparations for external use.[1]

1. Anonymous. Trolamine: concerns regarding potential carcinogenicity. *WHO Drug Inf* 1991; **5:** 9.

Uses and Administration

Trolamine is used with fatty acids such as stearic and oleic acids as an emulsifier and as an alkalinising agent. It has also been used to reduce dithranol-induced staining of the skin.

Ear drops containing trolamine polypeptide oleate-condensate 10% are used for the removal of impacted ear wax (p.1725).

Trolamine salicylate (p.132) has also been used.

Radiotherapy. An emulsion of trolamine has been widely used in the treatment and prevention of radiation-induced dermatitis in patients undergoing radiotherapy. However, several studies have suggested that it is of little or no benefit.[1-3]

1. Fisher J, *et al.* Randomized phase III study comparing best supportive care to Biafine as a prophylactic agent for radiation-induced skin toxicity for women undergoing breast irradiation: Radiation Therapy Oncology Group (RTOG) 97-13. *Int J Radiat Oncol Biol Phys* 2000; **48:** 1307–10.
2. Szumacher E, *et al.* Phase II study assessing the effectiveness of Biafine cream as a prophylactic agent for radiation-induced acute skin toxicity to the breast in women undergoing radiotherapy with concomitant CMF chemotherapy. *Int J Radiat Oncol Biol Phys* 2001; **51:** 81–6.
3. Elliott EA, *et al.* Phase III trial of an emulsion containing trolamine for the prevention of radiation dermatitis in patients with advanced squamous cell carcinoma of the head and neck: results of Radiation Therapy Oncology Group Trial 99-13. *J Clin Oncol* 2006; **24:** 2092–7.

Trometamol *(BAN, rINN)* ⊗

NSC-6365; THAM; Trihydroxymethylaminomethane; TRIS; Tris(hydroksymetylo)aminometan; Tris(hydroxymethyl)aminomethane; Trométamol; Trometamoli; Trometamolis; Trometamolum; Tromethamine *(USAN)*. 2-Amino-2-(hydroxymethyl)propane-1,3-diol.

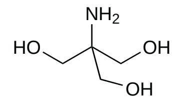
Трометамол

$C_4H_{11}NO_3$ = 121.1.

CAS — 77-86-1.

ATC — B05BB03; B05XX02.

ATC Vet — QB05BB03; QB05XX02.



Pharmacopoeias. In *Eur.* (see p.vii) and *US.*

Ph. Eur. 6.2 (Trometamol). A white or almost white, crystalline powder or colourless crystals. Freely soluble in water; sparingly soluble in alcohol; very slightly soluble in ethyl acetate. A 5% solution in water has a pH of 10.0 to 11.5.

USP 31 (Tromethamine). A white, crystalline powder having a slight characteristic odour. Soluble 1 in 1.8 of water and 1 in 45.5 of alcohol; freely soluble in low-molecular-weight aliphatic alcohols; practically insoluble in carbon tetrachloride, in chloroform, and in benzene. pH of a 5% solution in water is between 10.0 and 11.5. Store in airtight containers.

Incompatibilities. There is evidence to suggest that fluorouracil degrades to cardiotoxic compounds in formulations buffered with trometamol.[1]

1. Lukaschek J, *et al.* Cardiotoxicity and neurotoxicity of high-dose continuous fluorouracil as a result of degradation compounds in the drug vials. *J Clin Oncol* 2004; **22:** 5022–5.

Adverse Effects and Precautions

Great care must be taken to avoid extravasation at the injection site as solutions may cause tissue damage. Local irritation, venospasm and phlebitis have occurred.

Respiratory depression can occur and mechanical ventilation may be required. Hypoglycaemia may also occur. Trometamol is contra-indicated in anuria and uraemia, and should be used cautiously in patients with renal impairment as hyperkalaemia has been reported in such patients. Trometamol is not recommended for use in patients with respiratory acidosis alone. If it is used in patients with respiratory acidosis accompanying metabolic acidosis, ventilation should be maintained mechanically. Trometamol is contra-indicated in chronic respiratory acidosis.

Blood concentrations of bicarbonate, glucose, and electrolytes, partial pressure of carbon dioxide, and blood pH should be monitored during infusion of trometamol.

Uses and Administration

Trometamol is an organic amine proton acceptor used as an alkalinising agent in the treatment of metabolic acidosis (p.1667). It also acts as a weak osmotic diuretic. Trometamol is mainly used during cardiac bypass surgery and during cardiac arrest. It may also be used to reduce the acidity of citrated blood for use in bypass surgery.

The dose used should be the minimum required to increase the pH of the blood to within normal limits and is based on the bodyweight and the base deficit. Trometamol is given by slow intravenous infusion as a 0.3M solution; it should not be given for longer than a day except in life-threatening emergencies.

Trometamol citrate is given by mouth for the management of urinary calculi and acidosis. Trometamol acefyllinate has also been used for acidosis.

Trypsin *(BAN)*

Thrypsinum; Tripsina; Tripsinas; Tripszin; Trypsiini; Trypsine; Trypsinum; Trypsyna.

CAS — 9002-07-7.

ATC — B06AA07; D03BA01.

ATC Vet — QB06AA07; QD03BA01.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), and *US.*

Ph. Eur. 6.2 (Trypsin). A proteolytic enzyme obtained by the activation of trypsinogen extracted from mammalian pancreas. It has an activity of not less than 0.5 microkatals/mg, calculated with reference to the dried substance. A white or almost white, crystalline or amorphous powder; the amorphous form is hygroscopic. Sparingly soluble in water. A 1% solution in water has a pH of 3.0 to 6.0. Solutions have a maximum stability at pH 3 and a maximum activity at pH 8. Store at 2° to 8° in airtight containers. Protect from light.

USP 31 (Crystallized Trypsin). A proteolytic enzyme crystallised from an extract of the pancreas of healthy bovine or porcine animals, or both. It contains not less than 2500 USP units in each mg, calculated on the dried basis. A white to yellowish-white, odourless, crystalline or amorphous powder. Store in airtight containers at temperature not exceeding 40°.

Profile

Trypsin is a proteolytic enzyme that has been applied for the debridement of wounds. It has also been taken by mouth, usually with chymotrypsin (p.2281), and sometimes with antibacterial or other drugs, for its supposed benefit in relieving oedema and inflammation associated with infection or trauma. Trypsin solutions have been inhaled for the liquefaction of viscous sputum, and trypsin is also an ingredient of mixtures intended to relieve various gastrointestinal disorders. Trypsin has been used in oncology in a combination preparation with chymotrypsin and papain (see under Uses and Administration of Papain, p.2362).

Hypersensitivity reactions may occasionally occur.

ATC — V04CF01.

ATC Vet — QV04CF01.

NOTE. 'PPD' is an abbreviation sometimes used for tuberculin purified protein derivative which should not be confused with para-phenylenediamine (p.2363), which is also referred to by the same abbreviation.

Pharmacopoeias. In *Eur.* (see p.vii) and *US.*

Ph. Eur. 6.2 (Tuberculin for Human Use, Old). It consists of a filtrate, concentrated by heating, containing the soluble products of the culture and lysis of one or more strains of *Mycobacterium tuberculosis* and/or *M. bovis*. It contains a suitable preservative that does not give rise to false-positive reactions. In concentrated form, it is a transparent, viscous, yellow or brown liquid. Protect from light.

Ph. Eur. 6.2 (Tuberculin Purified Protein Derivative for Human Use). A preparation obtained by precipitation from the heated products of the culture and lysis of *Mycobacterium tuberculosis* and/or *M. bovis.* It contains a suitable preservative that does not give rise to false-positive reactions. It is a colourless or pale yellow liquid; the diluted preparation may be a freeze-dried powder which upon dissolution gives a colourless or pale yellow liquid. Protect from light.

USP 31 (Tuberculin). A sterile solution derived from the concentrated, soluble products of growth of the tubercle bacillus (*Mycobacterium tuberculosis* or *M. bovis*) prepared in a special medium. It is provided either as Old Tuberculin, a culture filtrate adjusted to the standard potency by the addition of glycerol and isotonic sodium chloride solution, or as Purified Protein Derivative (PPD), a further purified protein fraction. Store at 2° to 8°.

Adverse Effects

Pain and pruritus may occur at the injection site, occasionally with vesiculation, ulceration, or necrosis in highly sensitive persons. Granuloma has been reported.

Nausea, headache, dizziness, malaise, rash, urticaria, oedema, and pyrexia have been reported occasionally; immediate systemic hypersensitivity, including anaphylaxis, has been reported rarely. There have also been rare reports of lymphangitis.

Hypersensitivity. There are rare reports[1-4] of severe anaphylactic or anaphylactoid reactions, occasionally fatal,[1] to tuberculin.

3. Wright DN, *et al.* Systemic and local allergic reactions to the tine test purified protein derivative. *JAMA* 1989; **262:** 2999–3000.
4. Sanofi Pasteur, Canada. Risk of serious allergic reactions following TUBERSOL [Tuberculin Purified Protein Derivative (Mantoux)] administration (issued 19th May 2005). Available at: http://www.hc-sc.gc.ca/dhp-mps/alt_formats/hpfb-dgpsa/pdf/medeff/tubersol_hpc-cps-eng.pdf (accessed 08/08/08)

Lymphangitis. Lymphangitis has been reported on 5 occasions after the Mantoux test and on 7 occasions after the Heaf test.[1] However, it was noted that a tuberculin test may have been inappropriate in some of these patients, particularly older subjects and those with evidence of healed tuberculous lesions.[2]

1. Morrison JB. Lymphangitis after tuberculin tests. *BMJ* 1984; **289:** 413.
2. Festenstein F. Lymphangitis after tuberculin tests. *BMJ* 1984; **289:** 625–6.

Precautions

Tuberculin should be given with caution to patients who have, or are suspected of having, active tuberculosis; although severe local reactions may occur in patients with active tuberculosis, sensitivity may be diminished if it is particularly severe. Sensitivity to tuberculin may also be diminished in the following conditions: viral or severe bacterial infection including HIV infection and infectious mononucleosis; neoplastic disease particularly lymphoma; sarcoidosis; corticosteroid or immunosuppressive therapy; recent use of live virus vaccines; ultraviolet light treatment; chronic renal failure; dehydration; and malnutrition.

Tuberculins may be adsorbed onto the surface of syringes and should therefore be given immediately.

Uses and Administration

Tuberculin skin tests are used to detect tuberculoprotein hypersensitivity when BCG vaccination is being considered or as an aid to diagnosis of tuberculosis. A person showing a specific sensitivity to tuberculin is considered to have been infected with the tubercle bacillus, though the infection may be inactive. Tuberculin for sensitivity testing is given by intradermal injection as in the Mantoux test. Multiple-puncture devices such as the Heaf test or tine tests have also been used, although they are no longer available in the UK.

In the UK, it is recommended that tuberculin testing should always be performed when BCG vaccination is being considered, and the **Mantoux** test is recommended. For a routine Mantoux test, a diluted solution of tuberculin purified protein derivative (PPD) is given by intradermal injection and the reaction, which is graded by the degree of induration, read 48 to 72 hours later. A retest with a stronger solution of PPD may be considered if the results of the initial test are unclear. Different commercial preparations vary in labelling format and potency, and doses and interpretation of results cannot therefore be extrapolated from one preparation to another.

Individuals with no or minimal reactions who have not previously been given BCG vaccines may be offered BCG vaccination. Patients with a positive reaction are considered to be hypersensitive to tuberculoprotein and should not be vaccinated. Investigation for the presence of active tuberculosis is generally only indicated for patients showing a strongly positive reaction to a tuberculin skin test. However, there are many factors that should be considered when interpreting the results; in addition to those listed under Precautions (see above), there are the effects of previous BCG vaccination, repeated tuberculin testing, and age. In some areas, a positive reaction may be a result of cross-sensitivity of the test to non-tuberculous mycobacteria (see below).

For the **Heaf** test, a solution of PPD is applied to the forearm using a multiple-puncture gun (Heaf gun), and the reaction evaluated about a week later.

The term **tine** test is generally used for disposable multiple-puncture devices coated with dried old tuberculin or PPD. However, some consider tine tests to be unreliable.

In some other countries, the population tested, the procedures used, and grading of reactions may differ slightly from that outlined above.

Tuberculins have also been used, in conjunction with other antigens, for anergy testing to assess the status of cell-mediated immunity.

Latent tuberculosis. Full eradication of tuberculosis from developed countries requires identification of latent as well as active cases.[1] Tuberculin testing has been in use for over 100 years and, while still considered a useful diagnostic agent for tuberculosis, the problems of false-positive reactions or reduced sensitivity to the test are well recognised.[1] Use of the test to identify latent disease has evolved with experience.[2] Previous BCG vaccination is one factor that significantly increases the likelihood of a false-positive reaction to tuberculin testing, which makes the diagnosis of latent tuberculosis particularly difficult.[3] Interpretation of the skin test should therefore be made by considering the induration size in the context of the individual clinical profile, including other risk factors for infection.[2,3] Three different approaches to assess the annual risk of tuberculous infection using tuberculin testing gave different results in a study of schoolchildren who had been given BCG vaccinations early in life.[4] This led the authors to conclude that the effect of previous BCG vaccination on tuberculin reactivity may be more complex than assumed, and that the tuberculin test is a poor indicator of latent infection. It has been suggested[2] that it is not necessary for low-risk persons in the general population of the USA to receive routine tuberculin testing for tuberculosis; high-risk groups of adults and children for whom screening might be warranted have been defined, and consensus recommendations made. An opinion has also been ventured[5] that tuberculin testing before BCG vaccination is not necessary in children in the UK.

5. Bothamley GH, *et al.* Tuberculin testing before BCG vaccination. *BMJ* 2003; **327:** 243–4.

Malignant disease. Benefit has been reported[1] in 2 patients with adult T-cell leukaemia/lymphoma predominantly involving the skin after local treatment with tuberculin purified protein derivative.

1. Kanekura T, *et al.* Purified protein derivative treatment for skin lesions of adult T-cell leukaemia/lymphoma. *Br J Dermatol* 1999; **140:** 767–8.

Non-tuberculous mycobacterial infection. The tuberculin skin test is not specific for *Mycobacterium tuberculosis*, but can also represent a cross-reaction caused by antigens on other non-tuberculous mycobacteria. Re-examination[1] of results from children with non-tuberculous mycobacterial infection concluded that the avian Mantoux test (avian tuberculin purified protein derivative (PPD) prepared from *M. avium*) was more sensitive than the human Mantoux test (tuberculin PPD prepared from *M. tuberculosis*) in the detection of non-tuberculous mycobacteria in regions with a low incidence of tuberculosis, and may be a useful aid to differential diagnosis in areas where tuberculosis is prevalent.

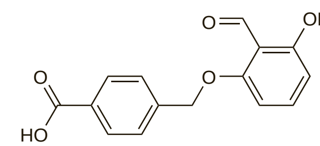
Tucaresol *(BAN, rINN)* ⊗

BW-589C; 589C; 589C80; Tucarésol; Tucaresolum. α-(2-Formyl-3-hydroxyphenoxy)-*p*-toluic acid.

Тукарезол

$C_{15}H_{12}O_5$ = 272.3.

CAS — 84290-27-7.



Profile

Tucaresol is reported to interact with haemoglobin to increase oxygen affinity. It has been investigated as an oral drug for the treatment of sickle-cell disease (p.1044). Tucaresol is also reported to have immunostimulant properties and is under investigation in HIV infection and hepatitis B. Hypersensitivity reactions have occurred.

Javanese Turmeric

Curcuma Zanthorrhiza; Curcumae Javanicae; Curcumae xanthorrhizae rhizoma; Geltonšaknių ciberžolių šakniastiebiai; Gurkmeja, javanesisk; Jaavan kurkuma; Jávai-kurkuma gyökértörzs; Oddenek kurkumy žlutokořenné; Temoe lawacq; Temoe Lawak; Témoé-lawaq.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Turmeric, Javanese). It consists of the dried rhizome, cut in slices, of *Curcuma xanthorrhiza*. It contains not less than 5% v/w of essential oil and not less than 1% of dicinnamoyl methane derivatives expressed as curcumin, both calculated with reference to the anhydrous drug. It has an aromatic odour. Protect from light.

Profile

Javanese turmeric is an ingredient of preparations indicated for biliary and gastrointestinal disorders. It is a close relative of the spice turmeric (p.1473), which has been used similarly.

Irritable bowel syndrome. For reference to the ineffectiveness of Javanese turmeric in patients with irritable bowel syndrome see under Fumitory, p.2307.

Turpentine Oil

Aetheroleum Terebinthinae; Esencia de Trementina; Essence de Térébenthine; Oleum Terebinthinae; Oleum Terebinthinae Depuratum; Rectified Turpentine Oil; Spirits of Turpentine; Térébenthine, huile essentielle de; Terebentin Yağı; Terebinthini aetheroleum; Terebintin Esansı; Trementina, aceite esencial de.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), and *Jpn.*

Ph. Eur. 6.2 (Turpentine Oil, Pinus Pinaster Type; Terebinthini Aetheroleum ab Pinum Pinastrum). An essential oil obtained by steam distillation, followed by rectification at a temperature below 180°, from the oleoresin obtained by tapping *Pinus pinaster*. A suitable antioxidant may be added. It contains 70.0 to 85.0% α-pinene, 0.5 to 1.5% camphene, 11.0 to 20.0% β-pinene, maximum 1% car-3-ene, 0.4 to 1.5% β-myrcene, 1.0 to 7.0% limonene, 0.2 to 2.5% longifolene, 0.1 to 3.0% β-caryophyllene, and maximum 1.0% caryophyllene oxide.

A clear, colourless or pale yellow liquid with a characteristic odour. Relative density 0.856 to 0.872. Store in well-filled airtight containers at a temperature not exceeding 25°. Protect from light.

Adverse Effects

In poisoning with turpentine oil there may be local burning and gastrointestinal upset, coughing and choking, pulmonary oedema, excitement, coma, fever, tachycardia, liver damage, haematuria, and albuminuria. Fatalities have occurred.

The application to the skin of liniments containing turpentine oil may cause irritation and absorption of large amounts may cause some of the effects listed above. Hypersensitivity reactions and local irritation have been reported.

Uses and Administration

Turpentine oil is widely used as a solvent. It is applied topically as a rubefacient. It is an ingredient of many preparations used in respiratory-tract disorders, but is now judged to be neither safe nor effective.

Preparations

BP 2008: White Liniment.

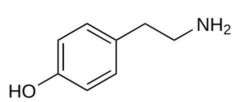
Tyramine Hydrochloride ⊗

Tiramina, hidrocloruro de; *p*-Tyramine Hydrochloride; Tyrosamine Hydrochloride. 4-Hydroxyphenethylamine hydrochloride; 4-(2-Aminoethyl)phenol hydrochloride.

$C_8H_{11}NO,HCl$ = 173.6.

CAS — 51-67-2 (tyramine); 60-19-5 (tyramine hydrochloride).



(tyramine)

Profile

Tyramine hydrochloride is a sympathomimetic with indirect effects on adrenergic receptors. It has been given orally or by injection in the tyramine pressor test for the investigation of monoamine oxidase inhibitory activity or amine uptake blocking activity. It has also been used in studies of physiological and disease states, and in the diagnosis of migraine and phaeochromocytoma.

The hazards of taking foods rich in tyramine while under treatment with MAOIs are described in the chapter on Antidepressants (see Phenelzine, p.417).

◊ The bioavailability of tyramine given by mouth is significantly reduced by the presence of food, which could have implications when used in tyramine pressor tests.[1]

Ubidecarenone *(BAN, rINN)*

Coenzyme Q10; Ubidecarenona; Ubidécarénone; Ubidecarenonum; Ubidekarenon; Ubidekarenonas; Ubidekarenoni; Ubiquinone-10. 2-Deca(3-methylbut-2-enylene)-5,6-dimethoxy-3-methyl-*p*-benzoquinone.

Убидекаренон

$C_{59}H_{90}O_4$ = 863.3.
CAS — 303-98-0.
ATC — C01EB09.
ATC Vet — QC01EB09.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), *Jpn,* and *US.*

Ph. Eur. 6.2 (Ubidecarenone). A yellow or orange crystalline powder. It gradually decomposes and darkens on exposure to light. M.p. about 48°. Practically insoluble in water; very slightly soluble in dehydrated alcohol; soluble in acetone. Store in airtight containers. Protect from light.

USP 31 (Ubidecarenone). A yellow to orange, crystalline powder. M.p. about 48°. Practically insoluble in water; very slightly soluble in dehydrated alcohol; soluble in ether. Protect from light.

Profile

Ubidecarenone is a naturally occurring coenzyme involved in electron transport in the mitochondria. It is claimed to be a free radical scavenger and to have antoxidant and membrane stabilising properties. It has been given by mouth as an adjunct in cardiovascular disorders, including mild or moderate heart failure. It has also been tried in other conditions associated with coenzyme deficiency, and is promoted as a dietary supplement. Ubidecarenone is under investigation for the management of cancer, Huntington's chorea (p.953) and parkinsonism.

◊ For discussion of the use of ubidecarenone in statin-induced muscle disorders, see Effects on Skeletal Muscle, under Simvastatin, p.1391.

$C_9H_{14}N_6O_6$ = 302.2.

Profile

Urazamide has been given orally in the treatment of hepatic disorders. It has also been given by intramuscular and intravenous injection.

Preparations

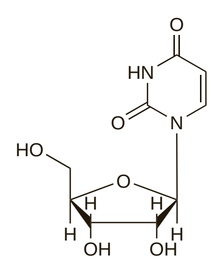
Proprietary Preparations (details are given in Part 3)
Ital.: Carbaica†.

Uridine

Uracil Riboside; Uridina; Urydyna. 1-β-D-Ribofuranosyluracil; 1-β-D-Ribofuranosylpyrimidine-2,4(1*H*,3*H*)-dione.

Уридин

$C_9H_{12}N_2O_6$ = 244.2.
CAS — 58-96-8.



Profile

Uridine is an endogenous uracil nucleoside involved in many biological processes; it is one of the components of nucleic acids (p.2355). Uridine is used in preparations containing other nucleosides in the treatment of corneal damage. It has been included in preparations for peripheral and cerebral vascular disorders and myopathies; it has also been used for liver disorders, anaemias, and as a tonic. Uridine has been tried in patients with hereditary orotic aciduria.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Belg.:*** Vitacic; ***Cz.:*** Laevadosin†; ***Hung.:*** Vitacic†; ***Ital.:*** Centrum; ***Mon.:*** Vitacic; ***Rus.:*** Vitacic (Витасик)†.

Uridine Triphosphate

Ins-316; Trifosfato de uridina; Uridina trifosfato; Uridine Triphosphoric Acid; UTP. Uridine 5′-(tetrahydrogen triphosphate).

Уридин Трифосфат

$C_9H_{15}N_2O_{15}P_3$ = 484.1.
CAS — 63-39-8.

Profile

Uridine triphosphate is an endogenous uracil nucleotide involved in many biological processes. It has been claimed to be of value in muscular atrophy and muscular weakness, and has been included in preparations for neuralgia, neuritis, and muscular disorders; the disodium and trisodium salts have also been used.

◊ Uridine triphosphate has been reported to have beneficial effects on mucociliary clearance in chronic respiratory disease such as cystic fibrosis, asthma, and chronic bronchitis, although it may not be suitable for such therapy because it is rapidly degraded by enzymatic activity within sputum and by airway epithelial cells.[1,2] It may, however, have a role as a method of producing deep-lung sputum specimens for cytological evaluation and is being investigated as an aid to the diagnosis of for example, lung cancer[1,2] or airway inflammation in asthma.[3]

Adverse Effects and Precautions

Ursodeoxycholic acid may cause nausea, vomiting, and other gastrointestinal disturbances; diarrhoea is reported to occur less frequently than with chenodeoxycholic acid. Increased liver enzyme values are also less likely. Pruritus may occur. Treatment with ursodeoxycholic acid may cause more calcification of cholesterol stones than chenodeoxycholic acid.

Ursodeoxycholic acid should not be given to patients with intestinal and hepatic disorders that interfere with entero-hepatic circulation of bile salts (but see Chronic Liver Disease below). It is ineffective for the dissolution of calcified and pigment gallstones and is of no value in patients without a patent and functioning gallbladder. Licensed product information recommends that its use should be avoided in pregnancy.

◊ References.

1. Hempfling W, *et al.* Systematic review: ursodeoxycholic acid—adverse effects and drug interactions. *Aliment Pharmacol Ther* 2003; **18:** 963–72.

Interactions

Ursodeoxycholic acid should not be used with drugs that increase bile cholesterol such as oestrogenic hormones and cholesterol-lowering drugs such as clofibrate. Use with bile-acid binding drugs including antacids, charcoal, and colestyramine should be avoided since this may reduce the effectiveness of therapy with ursodeoxycholic acid.

For references to the possible effects of ursodeoxycholic acid on ciclosporin, see p.1828.

Pharmacokinetics

Ursodeoxycholic acid is absorbed from the gastrointestinal tract and undergoes enterohepatic recycling. It is partly conjugated in the liver before being excreted into the bile. Under the influence of intestinal bacteria the free and conjugated forms undergo 7α-dehydroxylation to lithocholic acid, some of which is excreted directly in the faeces and the rest absorbed and mainly conjugated and sulfated by the liver before excretion in the faeces. However, in comparison with chenodeoxycholic acid, less ursodeoxycholic acid undergoes such bacterial degradation.

Uses and Administration

Ursodeoxycholic acid is a naturally occurring bile acid (see p.2266) present in small quantities in human bile. Ursodeoxycholic acid suppresses the synthesis and secretion of cholesterol by the liver and inhibits intestinal absorption of cholesterol. It is used for the dissolution of cholesterol-rich **gallstones** in patients with functioning gallbladders (see below). The licensed dose is 6 to 12 mg/kg daily as a single bedtime dose or in 2 or 3 divided doses; obese patients may require up to 15 mg/kg daily. The daily dose may be divided unequally and the larger dose given before bedtime to counteract the increase in biliary cholesterol concentration seen overnight. The time required for dissolution of gallstones is likely to be between 6 and 24 months depending on stone size and composition. Treatment should be continued for 3 to 4 months after radiological disappearance of the stones. A dose of 300 mg twice daily has been suggested for the *prevention* of gallstones in patients undergoing rapid weight loss. Ursodeoxycholic acid has also been given in reduced doses in combination with chenodeoxycholic acid (p.2280).

Ursodeoxycholic acid is also used in **primary biliary cirrhosis**. The usual dose is 10 to 15 mg/kg daily in 2 to 4 divided doses.

Ursodeoxycholic acid has been tried in the treatment of primary sclerosing cholangitis.

The more hydrophilic derivative, tauroursodeoxycholic acid, has also been used.

Chronic liver disease. The use of ursodeoxycholic acid in chronic liver diseases has been summarised.[1-5] There have been differing opinions of its value in primary biliary cirrhosis (below). Response has been reported in obstetric cholestasis of pregnancy,[6-10] primary sclerosing cholangitis,[11] chronic active hepatitis,[12] and viral hepatitis.[13,14] Although ursodeoxycholic acid is widely used in the treatment of obstetric cholestasis, data on its safety and efficacy in this indication are lacking, and its possible role therefore remains unclear until further larger studies have been done.[15] See also Adverse Effects and Precautions, above. Ursodeoxycholic acid appears to be of benefit in liver disease associated with cystic fibrosis[16-18] and in the UK the *BNFC* recommends a dose of 10 to 15 mg/kg twice daily in children and adolescents with this condition; alternatively the total daily dose may be given in 3 divided doses. Ursodeoxycholic acid had initially shown some promise in the treatment of nonalcoholic steatohepatitis,[19] but a randomised, controlled study[20] failed to confirm this. There has also been some interest in the use of ursodeoxycholic acid to treat refractory graft-versus-host disease of the liver in transplant patients,[21] and possibly as an adjuvant to immunosuppressant therapy[22-24] after orthotopic liver transplantation (p.1815). It may also be of benefit in the prevention of hepatic complications following allogeneic bone marrow transplantation (p.1811).[25,26] Ursodeoxycholic acid has shortened the clinical course of parenteral nutrition-associated cholestasis in very-low-birth-weight infants,[27] and the *BNFC* recommends a dose of 10 mg/kg three times daily for this purpose. Benefit has also been reported[28] in parenteral-nutrition associated cholestasis in children and adults, although the optimal timing and duration of therapy remains to be evaluated. Ursodeoxycholic acid has also been associated with a lower incidence of colonic dysplasia in patients with ulcerative colitis and primary sclerosing cholangitis.[29,30] For sclerosing cholangitis in children and adolescents, the *BNFC* recommends a dose of 5 to 10 mg/kg 2 or 3 times daily up to a maximum of 15 mg/kg 3 times daily depending on response. In children with biliary atresia, ursodeoxycholic acid may be used to treat associated cholestasis. The *BNFC* suggests a dose of 5 mg/kg three times daily in neonates and children up to 2 years of age, the dose and frequency adjusted according to response up to a maximum of 10 mg/kg three times daily.

PRIMARY BILIARY CIRRHOSIS. Primary biliary cirrhosis (PBC) is a chronic liver disease of unknown aetiology that develops due to progressive destruction of small and intermediate bile ducts within the liver, subsequently evolving to fibrosis and cirrhosis. Over 90% of patients are female, usually aged between 40 and 60 years. The disease is thought to be auto-immune in nature. Most patients develop antimitochondrial antibodies that may be evident even before disease is clinically apparent.[1,2] Genetic factors and hormonal stimulation may play a role in precipitating PBC.[1,2] Infectious agents such as *Chlamydophila pneumoniae* (*Chlamydia pneumoniae*)[2] or retroviruses[3] may be involved in the pathogenesis.

Clinical manifestations include pruritus, fatigue, jaundice, hepatomegaly, and hypercholesterolaemia leading to xanthoma formation. In late disease portal hypertension, bleeding oesophageal varices and liver failure may develop. Impaired calcium and vitamin D absorption may result in osteomalacia or osteoporosis, and fat-soluble vitamin deficiencies may occur. There may be accumulation of copper in the liver.[4] Other disorders including rheumatoid arthritis, scleroderma, thyroiditis, and Sjögren's syndrome may be associated with PBC.[1,5]

The disease is slowly progressive, with a mean survival of 8 years for symptomatic patients, and 16 years for asymptomatic individuals.[1,6] Despite its presumed auto-immune aetiology, few immunosuppressive drugs have shown any benefit,[5,7] although newer drugs such as mycophenolate mofetil, sirolimus, and tacrolimus have yet to be fully evaluated.[7]

The best-studied treatment for PBC is ursodeoxycholic acid, which is thought to replace toxic endogenous bile acids, stimulate bile acid secretion, and exert local immunosuppressive and cytoprotective effects.[1,4,5,7-9] The value of ursodeoxycholic acid is controversial: its reported therapeutic benefits in terms of delaying disease progression and the need for liver transplantation[5,10] have not been confirmed by meta-analysis or systematic review.[11,12] Both of these were, however, criticised[13,14] on the grounds that most of the studies included had follow-up periods of only 2 years. In consequence, some do not recommend its use,[12,15] but others still believe it to be the treatment of choice.[1,7,13,14,16] Its advocates consider that it appears to be efficacious for about 10 years and improves long-term survival by delaying the progression of hepatic fibrosis, development of oesophageal varices, and the need for liver transplantation. However, it is not effective in the presence of extensive fibrosis or cirrhosis in advanced disease.[13,14,16]

Both penicillamine and azathioprine have been used in PBC, but trials have failed to show any benefit from treatment[5-7] and their use has declined. A systematic review[17] identified a significant increase in the occurrence of adverse effects with penicillamine and concluded that its use could not be supported for patients with PBC. Corticosteroids, colchicine, ciclosporin, and chlorambucil have also been tried, but toxicity has restricted their use.[5,7] They may be of benefit[2,4,6,7] when used with ursodeoxycholic acid, although some guidelines[5] do not recommend their use. A systematic review[18] of studies with methotrexate concluded that it tended to increase mortality or the need for liver transplantation and should not therefore be used in patients with PBC outside clinical trials. Budesonide[7] and bezafibrate[1,7] have also been tried.

Symptomatic treatment includes the use of bile acid sequestrants, such as colestyramine, to treat both pruritus and hypercholesterolaemia. Ursodeoxycholic acid may also improve pruritus in up to 40% of patients, and rifampicin, phenobarbital, and opioid antagonists are used as second-line therapies.[1,4,5,8] Vitamin D and calcium supplementation will prevent osteomalacia; supplementation with vitamins A, E, and K may also be necessary.[1,4,5,8] Liver transplantation is recommended for liver failure, although PBC can recur in the allograft.[5,13,14,16]

Gallstones. Gallstones (cholelithiasis) occur when mechanisms for the solubilisation of cholesterol or bilirubin fail or are overcome. They may be divided into those formed of pure cholesterol, which are usually solitary; pigment stones, largely made up of bilirubin or its derivatives; and mixed stones of cholesterol, bile pigment, and calcium salts, which form the great majority of cases seen in the West.

Gallstones are generally more common in women than in men. The prevalence also increases with age and obesity, although rapid weight loss as a result of dieting or surgery is associated with an increased risk.

As many as two-thirds of patients with gallstones are asymptomatic. Symptoms usually relate to the site of the stone although biliary colic is often present regardless of whether the stone is in the gallbladder or biliary tract. If the stone blocks the exit from the gallbladder, inflammation and bacterial infection may follow (acute cholecystitis), sometimes leading to perforation and subsequent peritonitis. Less commonly, obstruction of the common bile duct by gallstones (choledocholithiasis) may lead to cholestasis and jaundice; infection of the bile ducts and septicaemia may follow. Pancreatitis may also be associated with gallstone disease, and there may be an increased risk of developing malignant neoplasms of the gallbladder.

Treatment. Asymptomatic gallstones discovered during other investigations should not be treated, and even mildly symptomatic patients may be managed with analgesics and subsequent observation. Potent analgesics such as morphine may be needed in more severe cases (see Biliary and Renal Colic, p.5). In symptomatic patients the preferred treatment for gallstones is surgical removal of the gallbladder; laparoscopic cholecystectomy causes less postoperative morbidity than open surgery, and has largely replaced other methods of treatment.

In patients unsuited to, or unwilling to undergo, surgery for gallbladder stones, drug therapy, alone or with lithotripsy, may be considered.

Exogenous bile acids have been tried in an attempt to dissolve the cholesterol component of gallstones. Ursodeoxycholic acid is more effective and is associated with fewer adverse effects than chenodeoxycholic acid. Combination therapy has also been tried but this is no more effective than ursodeoxycholic acid alone. Dissolution of gallstones is slow but can be achieved in about one-third of cases with the best results seen with small stones. However, about half of all successfully treated patients will develop further gallstones within 10 years. Studies of prophylactic bile acid therapy have mostly yielded disappointing results, although such therapy may be of benefit in patients on very-low-calorie diets, after surgery for weight loss, and in those receiving treatment with octreotide.

Somewhat larger stones may respond to extracorporeal shock-wave lithotripsy, or fluoroscopically guided laser lithotripsy, which may be more effective. Oral bile acids should then be given to dissolve the stone fragments.

Another method that has been used is the direct instillation of a solvent (usually methyl *tert*-butyl ether) into the gallbladder, which dissolves stones within a matter of hours, and is effective against almost all cholesterol-based stones regardless of size and number. Care is required to avoid overflow of the solvent into the common bile duct or the duodenum, where it can cause inflammation. Other solvents, such as ethyl propionate have been investigated as potentially less toxic alternatives, and edetic acid has been suggested as a possible solvent for non-cholesterol gallstones. As with all non-surgical methods, recurrence is likely.

Patients with **stones in the common bile duct** or **acute cholecystitis** require prompt therapy because of the risk of serious complications; endoscopic sphincterotomy and physical retrieval of the stones with a basket or balloon appears to be the preferred treatment, with open surgery as an alternative. A biliary stent to allow bile flow around the stone has been used as a temporary measure in patients with stones too large to remove by endoscopic sphincterotomy. Lithotripsy or infusion of a solvent such as monoctanoin or methyl *tert*-butyl ether are possible alternatives in patients unfit for surgery.

In patients who develop cholecystitis or cholangitis antibacterial therapy may be required (see Biliary-tract Infections, p.164).

Urtica

Brännässleblad (nettle leaf); Brennessel; Dilgėlių lapai (nettle leaf); Kopřivový list (nettle leaf); Liść pokrzywy (nettle leaf); Nokkosenlehti (nettle leaf); Ortie; Ortie dioïque; Ortie, feuille d' (nettle leaf); Ortiga; Pokrzywa zwyczajna; Stinging Nettle; Urtica dioica; Urticae folium (nettle leaf).

Pharmacopoeias. In *Ger.* and *US* (both specify the root and rhizome of *Urtica dioica*).
Eur. (see p.vii) includes the leaf of *Urtica* spp. and also a form of *Urtica dioica* for homoeopathic preparations.
Br. includes a form of *Urtica urens* for homeopathic preparations.

Ph. Eur. 6.2 (Nettle Leaf; Urticae Folium). The whole or cut dried leaves of *Urtica dioica*, *Urtica urens*, or a mixture of the 2 species. It contains a minimum of 0.3% for the sum of caffeoylmalic acid and chlorogenic acid expressed as chlorogenic acid ($C_{16}H_{18}O_9$ = 354.3), calculated on the dried basis.

Ph. Eur. 6.2 (Common Stinging Nettle for Homoeopathic Preparations). The whole, fresh, flowering plant of *Urtica dioica*. Protect from light.

BP 2008 (Urtica Urens Herb for Homeopathic Preparations). Fresh leaves and flowers of *Urtica urens*. The plant produces an itchy, burning sensation.

USP 31 (Stinging Nettle). The dried roots and rhizomes of *Urtica dioica* (Urticaceae), and may contain *Urtica urens*, known in commerce as dwarf nettle, as a minor component. It contains not less than 0.8% of total amino acids, not less than 0.05% of sitosterol, and not less than 0.003% scopoletin ($C_{10}H_8O_4$ = 192.2), calculated on the dried basis. Store in airtight containers. Protect from light.

Profile

Urtica (*Urtica dioica*) has been used in herbal medicine, mainly for urinary-tract and rheumatic disorders. *Urtica urens* has been used similarly.

Homoeopathy. Urtica has been used in homoeopathic medicines under the following names: Common stinging nettle; Urtica dioica; Urtica urens; Urt. u.

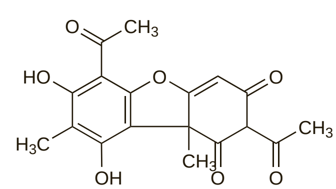
Usnea Barbata

Barba de capuchino.
CAS — 125-46-2 (usnic acid).



(usnic acid)

Profile

Usnea barbata is a lichen. It contains usnic acid, which is reported to have antimicrobial activity. *Usnea barbata* extract, usnic acid, and copper usnate have been used in topical preparations.

Adverse effects. Two patients developed severe hepatotoxicity believed to be associated with usnic acid contained in a multi-ingredient herbal preparation promoted for weight loss; one patient required emergency liver transplantation.[1]

1. Sanchez W, *et al.* Severe hepatotoxicity associated with use of a dietary supplement containing usnic acid. *Mayo Clin Proc* 2006; **81:** 541–4.

Preparations

Valepotriates

Valepotriatos.

Acevaltrate *(rINN)*

Acévaltrate; Acevaltrato; Acevaltratum. 4-Acetoxymethyl-(1 or 6)-3-(acetoxy-3-methylbutyryloxy)-1,6,7,7a-tetrahydro-(6 or 1)-isovaleryloxycyclopenta[*c*]pyran-7-spiro-2′-oxiran.

Ацевалтрат

$C_{24}H_{32}O_{10}$ = 480.5.
CAS — 25161-41-5.

Didrovaltrate *(rINN)*

Didrovaltrato; Didrovaltratum. 6-Acetoxy-1,4a,5,6,7,7a-hexahydro-1-isovaleryloxy-4-isovaleryloxymethylcyclopenta[*c*]pyran-7-spiro-2′-oxiran.

Дидровальтрат

$C_{22}H_{32}O_8$ = 424.5.
CAS — 18296-45-2.

Valtrate *(pINN)*

Valtrato; Valtratum. 4-Acetoxymethyl-1,6-di-isovaleryloxy-1,6,7,7a-tetrahydrocyclopenta[*c*]pyran-7-spiro-2′-oxiran.

Вальтрат

$C_{22}H_{30}O_8$ = 422.5.
CAS — 18296-44-1.

Profile

Valepotriates are epoxy-iridoid esters, isolated from valerian (see below). They include acevaltrate, didrovaltrate, and valtrate. On prolonged storage and drying they are hydrolysed to yield isovaleric acid.

A mixture stated to contain acevaltrate, didrovaltrate, and valtrate has been used as a sedative and as an anxiolytic. Concern has been expressed over the potential toxicity of valepotriates which have been reported to have cytotoxic properties *in vitro*.

Preparations

Proprietary Preparations (details are given in Part 3)
Austria: Valmane; ***Gr.:*** Valmane.

Multi-ingredient: ***Arg.:*** SDN 200.

Valerian

Baldrianwurzel; Korzeń kozłka; Kozlíkový kořen; Macskagyökér; Valer; Valeriaananjuuri; Valerian Rhizome; Valerian Root; Valeriana; Valerianae radix; Valerianarot; Valériane, racine de; Valerijonų šaknys.

CAS — 8057-49-6 (valerian extract).
ATC — N05CM09.
ATC Vet — QN05CM09.

Pharmacopoeias. In *Eur.* (see p.vii) and *US. Eur.* also includes valerian dry hydroalcoholic extract and tincture. *US.* includes the powdered form.

Jpn has Japanese Valerian from *V. fauriei*.

Ph. Eur. 6.2 (Valerian Root; Valerian BP 2008). The yellowish-grey to pale brownish-grey whole underground parts of *Valeriana officinalis*, including the rhizome surrounded by the roots and stolons, or by fragments of these parts. It contains not less than 0.4% v/w of essential oil for the whole drug and not less then 0.3% v/w for the cut drug, both calculated with reference to the dried drug. Protect from light.

USP 31 (Valerian). The subterranean parts of *Valeriana officinalis* (Valerianaceae), including the rhizome, roots, and stolons. It contains not less than 0.5% of volatile oil and not less than 0.05% of valerenic acid, calculated on the dried basis. Store in airtight containers. Protect from light.

Profile

Valerian has sedative properties and is used as an extract, infusion, or tincture, or occasionally as the dried root, in preparations for anxiety states. It has also been used as a carminative. Valerian oil is used in aromatherapy. The odour of valerian may be removed from the skin and from hard surfaces with sodium bicarbonate.

Valspodar *(BAN, USAN, rINN)*

PSC-833; SDZ-PSC-833; Valspodarum. Cyclo{[(2*S*,4*R*,6*E*)-4-methyl-2-(methylamino)-3-oxo-6-octenoyl]-L-valyl-*N*-methylglycyl-*N*-methyl-L-leucyl-L-valyl-*N*-methyl-L-leucyl-L-alanyl-D-alanyl-*N*-methyl-L-leucyl-*N*-methyl-L-leucyl-*N*-methyl-L-valyl}.

Вальсподар

$C_{63}H_{111}N_{11}O_{12}$ = 1214.6.
CAS — 121584-18-7.

Profile

Valspodar is an analogue of ciclosporin (p.1822). It inhibits P-glycoprotein, which is associated with multidrug resistance. Valspodar is being investigated in various neoplasms to restore sensitivity of resistant tumour cells to anticancer drugs, but results have been disappointing.

Valspodar inhibits the cytochrome P450 isoenzyme CYP3A4, and may reduce the metabolism and clearance of other drugs.

Vanilla

Baunilha; Vainilla; Vanilla Beans; Vanilla Pods.

Pharmacopoeias. In *USNF.*

USNF 26 (Vanilla). The cured, full-grown, unripe fruit of *Vanilla planifolia*, often known in commerce as Mexican, Bourbon, or Madagascar vanilla, or of *V. tahitensis*, known in commerce as Tahitian vanilla (Orchidaceae). Vanilla that has become brittle should not be used. Store in airtight containers at a temperature not exceeding 8°.

Profile

Vanilla is used as a flavour and in perfumery. However, the odour and flavour of vanilla are not entirely due to vanillin (see below) but depend on the presence of other aromatic substances. Preparations of vanilla have been used in aromatherapy.

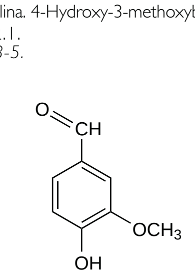
Preparations

USNF 26: Vanilla Tincture.

Vanillin

Vainillina; Vaniliini; Vanilin; Vanilinas; Vanillic Aldehyde; Vanilline; Vanillinum; Wanilina. 4-Hydroxy-3-methoxybenzaldehyde.

$C_8H_8O_3$ = 152.1.
CAS — 121-33-5.



Pharmacopoeias. In *Eur.* (see p.vii) and *Viet.* Also in *USNF.*

Ph. Eur. 6.2 (Vanillin). White or slightly yellowish crystalline needles or powder. M.p. 81° to 84°. Slightly soluble in water; freely soluble in alcohol and in methyl alcohol; it dissolves in dilute solutions of alkali hydroxides. Protect from light.

USNF 26 (Vanillin). Fine, white to slightly yellow crystals, usually needle-like, having an odour and taste suggestive of vanilla.

M.p. 81° to 83°. Soluble 1 in 100 of water at 25°, 1 in 20 of water at 80°, 1 in 20 of glycerol; freely soluble in alcohol, in chloroform, in ether, and in solutions of fixed alkali hydroxides. Its solutions are acid to litmus. Store in airtight containers. Protect from light.

Profile
Vanillin is used as a flavour and in perfumery.

Preparations
BP 2008: Tolu-flavour Solution.

Proprietary Preparations (details are given in Part 3)

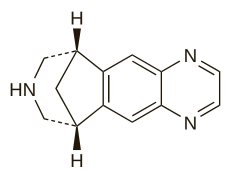
Multi-ingredient: ***Belg.:*** Pulmex; Pulmex Baby; ***Turk.:*** Musilaks.

Varenicline *(BAN, rINN)*

Vareniclina; Varénicline; Vareniclinum. 7,8,9,10-Tetrahydro-6*H*-6,10-methanoazepino[4,5-*g*]quinoxaline.

Варениклин

$C_{13}H_{13}N_3$ = 211.3.
CAS — 249296-44-4.
ATC — N07BA03.
ATC Vet — QN07BA03.



Varenicline Tartrate *(BANM, USAN, rINNM)*

CP-526555-18; Tartrato de vareniclina; Varénicline, Tartrate de; Vareniclini Tartras.

Варениклина Тартрат

$C_{13}H_{13}N_3,C_4H_6O_6$ = 361.3.
CAS — 375815-87-5.
ATC — N07BA03.
ATC Vet — QN07BA03.

Adverse Effects and Precautions
The most common adverse effect of varenicline is nausea; other adverse effects also commonly reported are headache, dizziness, somnolence, fatigue, sleep disturbances, increased appetite, and gastrointestinal disturbances including vomiting, constipation, and flatulence. There have been reports of neuropsychiatric symptoms as well as exacerbation of pre-existing psychiatric illness in patients who have taken varenicline. Patients should be monitored for such symptoms, including suicidal ideation or behaviour, agitation, depression, or other changes in behaviour.

Dizziness and somnolence may affect the performance of skilled tasks such as driving.

Pharmacokinetics
Varenicline is well absorbed from the gastrointestinal tract, reaching peak plasma concentrations within 3 to 4 hours; bioavailability is high. Steady state concentrations are reached within 4 days of multiple oral dosing. Metabolism is minimal and about 92% of a dose is excreted unchanged in the urine; the elimination half-life is about 24 hours.

4. Faessel HM, *et al.* Multiple-dose pharmacokinetics of the selective nicotinic receptor partial agonist, varenicline, in healthy smokers. *J Clin Pharmacol* 2006; **46:** 1439–48.

Uses and Administration
Varenicline is a selective nicotinic receptor partial agonist that is used as an aid for smoking cessation.

Varenicline is given orally as the tartrate with doses expressed in terms of the equivalent amount of varenicline; 1.71 mg of varenicline tartrate is equivalent to about 1 mg of varenicline. An initial dose equivalent to 500 micrograms varenicline is given once daily for the first 3 days, increasing to 500 micrograms twice daily for the next 4 days. The dose from the eighth day for the remainder of the course is 1 mg twice daily. The dose may be reduced to 500 micrograms twice daily if adverse effects are intolerable. Patients are advised to set a date to stop smoking and start varenicline 1 to 2 weeks before. Treatment is normally given for 12 weeks; in patients who successfully stop smoking, a further 12 weeks of treatment has been recommended to reduce the risk of relapse. For doses in renal impairment, see below.

Administration in renal impairment. In patients with severe renal impairment (creatinine clearance less than 30 mL/minute) licensed product information recommends a starting dose of 500 micrograms daily increased if necessary after 3 days to a maximum dose of 500 micrograms twice daily (in the USA) or 1 mg once daily (in the UK). In patients with end-stage renal disease undergoing haemodialysis, a maximum dose of 500 micrograms once daily may be given provided that this is well tolerated. No dosage adjustment is considered to be needed in patients with lesser degrees of impairment.

Smoking cessation. Varenicline is an α4β2 nicotinic acetylcholine receptor partial agonist that is used as an aid for smoking cessation (p.2354). Results from 2 randomised controlled studies[1,2] show greater efficacy than placebo as well as favourable results compared with bupropion, a standard treatment for smoking cessation. However, these studies also showed that nausea was reported in almost 30% of participants in the varenicline group; abnormal dreams were also a problem. A further 12 weeks of treatment with varenicline improved abstinence at 24 weeks in patients who stopped smoking in the first 12 weeks of treatment; after stopping all treatment, the reduced relapse rate was maintained in this group up to 28 weeks later (i.e. 1 year from the start of treatment).[3]

Vascular Endothelial Growth Factor

Сосудистого Эндотелиального Фактора Роста; Фактор Роста Эндотелия Сосудов

Profile
Vascular endothelial growth factor is a family of structurally related proteins involved in angiogenesis and vasculogenesis. VEGF-A, the first member of the family to be discovered and still often referred to as simply VEGF, is thought to provide most of the angiogenic effect of this family. Other members described to date include: VEGF-B, VEGF-C, VEGF-D, VEGF-E, and placental growth factor.

A gene therapy product supplying the gene for vascular endothelial growth factor D via an adenoviral vector is under investigation for the prevention of stenosis in synthetic grafts used in haemodialysis.

Vasoactive Intestinal Peptide

Péptido vasoactivo intestinal; PIV; Vasoactive Intestinal Polypeptide; VIP.

Вазоактивный Пептид Кишечника

CAS — 37221-79-7.

His–Ser–Asp–Ala–Val–Phe–Thr–Asp–Asn–Tyr–Thr–Arg–Leu–Arg
Asn–Leu–Ile–Ser–Asn–Leu–Tyr–Lys–Lys–Val–Ala–Met–Gln–Lys

Aviptadil *(BAN, rINN)*

Aviptadilum; Vasoactive Intestinal Octacosapeptide (Swine).

Авиптадил

$C_{147}H_{238}N_{44}O_{42}S$ = 3325.8.
CAS — 40077-57-4.

Profile
Vasoactive intestinal peptide acts as a hormone and neurotransmitter in various parts of the body; it is a potent relaxant of smooth muscle and has vasodilator and bronchodilator properties as well as stimulating the gastrointestinal tract to increased secretion. It is available as a synthetic analogue, aviptadil. It has been tried in the management of acute oesophageal food impaction, and for the treatment of acute respiratory distress syndrome, pulmonary arterial hypertension, acute lung injury, and chronic thromboembolic pulmonary hypertension. Aviptadil has been tried as a combination product with phentolamine for erectile dysfunction (p.2179).

◊ Vasoactive intestinal peptide has potential therapeutic applications in immunological disorders since it appears to inhibit inflammatory responses; it modulates the function of inflammatory cells via specific receptors affecting both innate and adaptive immunity.[1] It also appears to have endogenous neuroprotective properties within the CNS, possibly through influencing the expression and secretion of glial-cell derived neuroprotective factors. Consequently, it may have therapeutic potential in neurodegenerative disorders such as Parkinson's disease, Alzheimer's disease, and stroke.[2]

Preparations
Proprietary Preparations (details are given in Part 3)

NZ: Invicorp.

Vasopressin *(rINNM)*

ADH; Antidiuretic Hormone; Beta-Hypophamine; Vasopresina; Vasopressiini; Vasopressine; Vasopressinum; Vazopresin.

Вазопрессин

CAS — 11000-17-2 (vasopressin injection).
ATC — H01BA01.
ATC Vet — QH01BA01.

NOTE. Vasopressin Injection is *rINN*.

Pharmacopoeias. In *US*, which includes both argipressin and lypressin in this title.

An injection is included in *Jpn*.

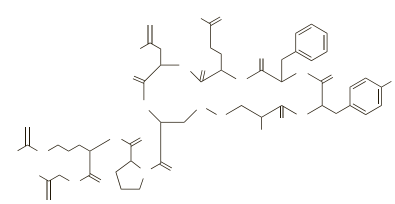
USP 31 (Vasopressin). A polypeptide hormone having the properties of causing the contraction of vascular and other smooth muscles, and of antidiuresis. It is prepared by synthesis or obtained from the posterior lobe of the pituitary of healthy, domestic animals used for food by humans. Its vasopressor activity is not less than 300 USP units/mg. Store in airtight containers at 2° to 8°.

Argipressin *(BAN, rINN)*

[8-Arginine]vasopressin; Argipresina; Argipressine; Argipressinum; AVP. Cys-Tyr-Phe-Gln-Asn-Cys-Pro-Arg-Gly-NH_2 cyclic (1→6) disulphide.

Аргипрессин

$C_{46}H_{65}N_{15}O_{12}S_2$ = 1084.2.
CAS — 113-79-1.
ATC — H01BA06.
ATC Vet — QH01BA06.



Description. Argipressin is a form of vasopressin obtained from most mammals including man but excluding pig. It is usually prepared synthetically. Lypressin (see below) is vasopressin from pig.

Argipressin Tannate *(BANM, USAN, rINNM)*

8-L-Arginine-vasopressin Tannate; Argipressine, Tannate d'; Argipressini Tannatum; CI-107; Tanato de argipresina. Tannins compound with argipressin.

Аргипрессина Таннат

ATC — H01BA06.
ATC Vet — QH01BA06.

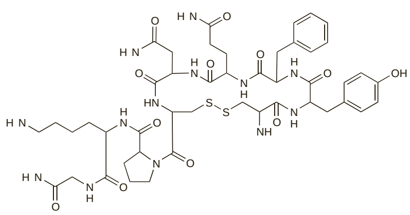
Units
8.2 units of argipressin for bioassay are contained in approximately 20 micrograms of synthetic peptide acetate (with human albumin 5 mg and citric acid) in one ampoule of the first International Standard (1978).

Lypressin *(BAN, USAN, rINN)*

L-8; Lipresina; Lipressina; Lipresszin; LVP; Lypressiini; Lypressine; Lypressinum. [8-Lysine]vasopressin; Cys-Tyr-Phe-Gln-Asn-Cys-Pro-Lys-Gly-NH_2 cyclic (1→6) disulphide.

Липрессин

$C_{46}H_{65}N_{13}O_{12}S_2$ = 1056.2.
CAS — 50-57-7.
ATC — H01BA03.
ATC Vet — QH01BA03.



Description. Lypressin is the form of vasopressin present in the posterior pituitary of pigs.

Pharmacopoeias. *US* includes Lypressin Nasal Solution.

Incompatibility. Vasopressin was shown to be physically compatible (when injected at the Y-site in an intravenous tubing set) when tested in intravenous fluids with other drugs commonly used in cardiac arrest.[1] However, tests of vasopressin with drugs commonly used in septic shock showed physical incompatibility with phenytoin (when mixed in infusion bags).[2] Precipitation has also been reported[3] with vasopressin and furosemide together in intravenous fluids (tested at the Y-site).

1. Feddema S, *et al.* Physical compatibility of vasopressin with medications commonly used in cardiac arrest. *Am J Health-Syst Pharm* 2003; **60:** 1271–2.
2. Barker B, *et al.* Visual compatibility of vasopressin with other injectable drugs. *Am J Health-Syst Pharm* 2005; **62:** 1969, 1975–6.
3. Faria CE, *et al.* Visual compatibility of furosemide with phenylephrine and vasopressin. *Am J Health-Syst Pharm* 2006; **63:** 906–8.

Units

7.7 units of lypressin are contained in about 23.4 micrograms of synthetic peptide (with albumin 5 mg and citric acid) in one ampoule of the first International Standard (1978).

Adverse Effects

Large parenteral doses of vasopressin may give rise to marked pallor, pounding headache, vertigo, sweating, tremor, nausea, vomiting, diarrhoea, eructation, cramp, and a desire to defaecate; some of these effects may also occur after large intranasal doses of lypressin. In women, vasopressin may cause uterine cramps of a menstrual character. Hyponatraemia with water retention and signs of water intoxication can occur.

Hypersensitivity reactions have occurred and include urticaria and bronchoconstriction. Anaphylactic shock and cardiac arrest have been reported.

Vasopressin may constrict coronary arteries. Chest pain, myocardial ischaemia, and infarction have occurred following injection, and fatalities have been reported. Other cardiovascular effects include occasional reports of arrhythmias and bradycardia, as well as hypertension. Peripheral vasoconstriction has resulted in gangrene, and thrombosis as well as local irritation at the injection site may occur.

Nasal congestion, irritation, and ulceration have been reported occasionally after intranasal use, usually as lypressin; systemic effects at usual intranasal doses are mostly reported to be mild.

Effects on the heart. Arrhythmias, including ventricular tachycardia and fibrillation,[1] torsade de pointes,[2-4] and asystole[5] are among the adverse effects of vasopressin. Paradoxical bradycardia and hypotension have also been reported.[6]

Treatment of Adverse Effects

The antidiuretic effects on water retention and sodium imbalance may be treated by water restriction and a temporary withdrawal of vasopressin. Severe cases may require osmotic diuresis alone or with furosemide.

Extravasation. Localised intravenous and intra-arterial guanethidine was used in the treatment of a patient with extravasation of vasopressin.[1] The intra-arterial use of guanethidine was considered to have helped to avoid necrotic changes.

1. Crocker MC. Intravascular guanethidine in the treatment of extravasated vasopressin. *N Engl J Med* 1981; **304:** 1430.

Precautions

Vasopressin should not be used in patients with chronic nephritis with nitrogen retention. It should be avoided or given only with extreme care, and in small doses, to patients with vascular disease, especially of the coronary arteries.

It should be given with care to patients with conditions which might be aggravated by water retention including asthma, epilepsy, migraine, and heart failure. Fluid intake should be adjusted to avoid hyponatraemia and water intoxication. Care is also required in hypertension or other conditions that may be exacerbated by a rise in blood pressure. Nasal absorption of vasopressin may be impaired in patients with rhinitis.

Abuse. Vasopressin or its analogues have been abused as so-called 'smart drugs' for their supposed effect on memory recall and cognition.

Resistance. Antibodies to vasopressin were detected in 6 of 28 patients being treated for diabetes insipidus, all of whom had a decrease in antidiuretic effect with previously effective argipressin or lypressin therapy;[1] desmopressin and chlorpropamide remained effective in these patients. There have been reports of patients with diabetes insipidus of pregnancy unresponsive to argipressin but responsive to desmopressin.[2] This was probably due to excessive placental production of vasopressinase, an enzyme which degrades argipressin.

1. Vokes TJ, *et al.* Antibodies to vasopressin in patients with diabetes insipidus: implications for diagnosis and therapy. *Ann Intern Med* 1988; **108:** 190–5.
2. Shah SV, Thakur V. Vasopressinase and diabetes insipidus of pregnancy. *Ann Intern Med* 1988; **109:** 435–6.

Interactions

The antidiuretic effects of vasopressins might be expected to be enhanced in some patients receiving chlorpropamide, clofibrate, carbamazepine, fludrocortisone, urea, or tricyclic antidepressants. Lithium, heparin, demeclocycline, noradrenaline, and alcohol may decrease the antidiuretic effect. Ganglion-blocking drugs may increase sensitivity to the pressor effects of vasopressins.

Cimetidine. A report of severe bradycardia and heart block leading to asystole in a patient given combined vasopressin and cimetidine therapy.[1]

1. Nikolic G, Singh JB. Cimetidine, vasopressin and chronotropic incompetence. *Med J Aust* 1982; **2:** 435–6.

Uses and Administration

Vasopressin is secreted by the hypothalamus and stored in the posterior lobe of the pituitary gland. It may be prepared from the gland of mammals or by synthesis. Vasopressin has a direct antidiuretic action on the kidney, increasing tubular reabsorption of water. It also constricts peripheral blood vessels and causes contraction of the smooth muscle of the intestine, gallbladder, and urinary bladder. It has practically no oxytocic activity.

Vasopressin, which is usually given parenterally or intranasally in the synthetic forms of argipressin or lypressin, is used in the treatment of cranial diabetes insipidus due to a deficiency in antidiuretic hormone. It is ineffective in nephrogenic diabetes insipidus. Argipressin has also been used in the prevention and treatment of postoperative abdominal distension, and was formerly given to remove gas in abdominal visualisation procedures. Argipressin or lypressin are used in the treatment of bleeding oesophageal varices. Argipressin may have a role in cardiopulmonary resuscitation and shock due to vasodilatation.

In the treatment of cranial diabetes insipidus to control polyuria, argipressin may be given subcutaneously or intramuscularly; the dose in the UK is 5 to 20 units every 4 hours. In the USA, 5 to 10 units given 2 or 3 times daily or more has been used. Alternatively, argipressin or lypressin has been given as a nasal spray; dosage should be individually adjusted as required. A long-acting oily suspension of vasopressin tannate was formerly used by intramuscular injection in diabetes insipidus.

In the initial control of variceal bleeding argipressin is given in an initial dose of 20 units in 100 mL of glucose 5% infused intravenously over 15 minutes. Lypressin has also been given for bleeding oesophageal varices. Doses for children are given under Administration in Children, below.

Vasopressin has also been used as a vasoconstrictor in local anaesthetic injections.

Administration. Results[1] suggesting that although intravenous argipressin produced much higher plasma concentrations than intranasal, the latter evoked a greater CNS response.

1. Pietrowsky R, *et al.* Brain potential changes after intranasal vs intravenous administration of vasopressin: evidence for a direct nose-brain pathway for peptide effects in humans. *Biol Psychiatry* 1996; **39:** 332–40.

Administration in children. Although not licensed in the UK for use in children, the *BNFC* includes a dose for adjunctive treatment of acute massive haemorrhage of the gastrointestinal tract or oesophageal varices in patients aged from 1 month to 18 years. An initial dose of 0.3 units/kg (up to 20 units) is given intravenously over 20 to 30 minutes, followed by a continuous infusion of 0.3 units/kg per hour adjusted according to response to a maximum of 1 unit/kg per hour. If the bleeding stops the infusion is continued at the same dose for 12 hours, then gradually withdrawn over 24 to 48 hours; the maximum duration of treatment should be 72 hours.

Vasopressin given by continuous intravenous infusion in an average dose of 9 milliunits/kg per hour was safe and effective in 5 children who had diabetes insipidus as a manifestation of severe brain injury.[1] A dose of 1.5 to 3 milliunits/kg per hour has also been used safely for postoperative diabetes insipidus in 2 children aged 3 years and under.[2] Similar initial doses of argipressin were used in 3 comatose children with cranial diabetes insipidus,[3] while a published algorithm for the management of acute cranial diabetes insipidus has recommended an initial dose of vasopressin of 0.25 to 1 milliunits/kg per hour, subsequently titrated to achieve an appropriate output and specific gravity of urine, and a serum sodium value of between 140 and 145 mmol/litre.[4]

Advanced cardiac life support. Vasopressin (as argipressin) may be used as an alternative to adrenaline in cardiopulmonary resuscitation (see p.1156). In a preliminary study argipressin 40 units by intravenous injection appeared to be of value in the treatment of cardiac arrest due to ventricular fibrillation.[1] Spontaneous circulation returned in 16 of 20 patients so treated; 14 were successfully resuscitated on arrival in hospital and 8 survived to be discharged. In comparison, of 20 patients treated with 1 mg of adrenaline intravenously only 7 were resuscitated and 3 survived till discharge. However, a larger study[2] found no difference between vasopressin and adrenaline in the rates of survival to hospital admission for patients with ventricular fibrillation or pulseless electrical activity, although vasopressin was associated with a higher rate of hospital admission and discharge among patients with asystole. It also found that two doses of vasopressin followed by a single dose of adrenaline resulted in a better survival rate than three doses of adrenaline. Another large study[3] of patients who experienced cardiac arrest while in hospital and were treated with either vasopressin 40 units or adrenaline 1 mg, found no difference in survival to discharge from hospital. A systematic review[4] of 5 trials, including these 3, found no clear advantage for the use of vasopressin over adrenaline in the treatment of cardiac arrest.

Diabetes insipidus. For a discussion of diabetes insipidus and its management, including reference to the use of vasopressin analogues (particularly desmopressin), see p.2179.

Haemorrhagic disorders. There are reports of vasopressin being used in the management of various haemorrhagic disorders including blood loss in abortion and caesarean section[1,2] and haemoptysis.[3,4] Infusion of vasopressin into the superior or inferior mesenteric artery has been used in the management of lower gastrointestinal bleeding, but modern embolisation techniques may be associated with fewer complications.[5] For the use of vasopressin in upper gastrointestinal variceal haemorrhage, see below.

5. Darcy M. Treatment of lower gastrointestinal bleeding: vasopressin infusion versus embolization. *J Vasc Interv Radiol* 2003; **14:** 535–43.

Nocturnal enuresis. For references to the use of the vasopressin analogue, desmopressin, in nocturnal enuresis, see p.2187.

Shock. Argipressin has been reported to have beneficial vasopressor effects in the management of shock (p.1183) due to vasodilatation. It has been given by continuous intravenous infusion at a dose of about 2 to 6 units/hour as supplemental therapy in patients who could not be adequately managed with conventional vasopressor therapy.[1,2] In a retrospective study[3] vasopressin given with or without catecholamines for haemodynamic support of shock did not increase the incidence of venous thromboembolism compared with catecholamines given alone. Further reports[4,5] of the benefit of vasopressin in septic shock suggest that it may be of value in reducing doses of catecholamine vasopressors.

5. Szumita PM, *et al.* Vasopressin for vasopressor-dependent septic shock. *Am J Health-Syst Pharm* 2005; **62:** 1931–6.

Variceal haemorrhage. Vasopressin has been widely used to control bleeding from oesophageal varices, as discussed under Monoethanolamine, on p.2346. However, terlipressin, and more recently octreotide, have been found to have some advantages over vasopressin, including bolus dosage and fewer adverse effects, and octreotide is increasingly preferred for this purpose. Glyceryl trinitrate has been given with the aim of counteracting the adverse cardiac effects of vasopressin while potentiating its beneficial effects on portal pressure.[1-4]

Vegetable Fatty Oils

Kasvirasvaöljyt; Olea Herbaria; Oljor, feta, vegetabiliska.

Pharmacopoeias. In *Eur.* (see p.vii).
Ph. Eur. 6.2 (Vegetable Fatty Oils). Vegetable fatty oils are mainly solid or liquid triglycerides of fatty acids that may contain small amounts of other lipids such as waxes, free fatty acids, partial glycerides, or unsaponifiable matters. They are obtained from the seeds or fruits of plants by expression and/or solvent extraction, and may then be refined or hydrogenated with the addition of a suitable antoxidant if necessary. The following are defined:

- *virgin oil*: the oil obtained from raw materials of special quality by mechanical procedures such as cold expression or centrifugation.
- *refined oil*: the oil obtained by expression and/or solvent extraction, and subsequently, either alkali refining (followed by bleaching and deodorisation) or physical refining.
- *hydrogenated oil*: an oil obtained by expression and/or solvent extraction, and subsequently, either alkali refining or physical refining, then possible bleaching, followed by drying, hydrogenation, and subsequently bleaching and deodorisation.

Only phosphoric acid and alkali refined oils may be used in the preparation of parenteral dosage forms.

Hydrogenated Vegetable Oil

Aceite vegetal hidrogenado.

Pharmacopoeias. In *Br. Jpn* allows under the title Hydrogenated Oil a product from fish, other animals or vegetables. Also in *USNF.*
BP 2008 (Hydrogenated Vegetable Oil). A mixture of triglycerides of fatty acids of vegetable origin. An almost white, fine powder at room temperature and a pale yellow, oily liquid above its m.p. of 57° to 70°. Practically insoluble in water; soluble in chloroform, in hot isopropyl alcohol, and in petroleum spirit. Store at a temperature of 8° to 25°.
USNF 26 (Hydrogenated Vegetable Oil). Type 1 Hydrogenated Vegetable Oil occurs as a fine, white powder, beads, or small flakes; m.p. 57° to 85°. Type 2 Hydrogenated Vegetable Oil occurs as a plastic (semi-solid) or flakes, having a softer consistency than Type 1; m.p. 20° to 50°.
Insoluble in water; soluble in chloroform, in hot isopropyl alcohol, and in petroleum spirit. Store in airtight containers at a temperature of 8° to 15°.

Profile

Vegetable fatty oils are generally solid or liquid triglycerides of fatty acids that may contain small amounts of other lipids. They are obtained from the seeds or fruits of plants by expression and/or solvent extraction, and may then be refined or hydrogenated with the addition of a suitable antoxidant if necessary. They are fixed oils (expressed oils) and do not evaporate on warming as opposed to essential oils (ethereal oils, volatile oils), which evaporate readily and are usually obtained from their aromatic plant source by distillation. Some fixed vegetable oils are used to modify the consistency of ointments and for their emollient properties. They have also been used as vehicles for fat-soluble substances such as vitamins.

Hydrogenated vegetable oil is refined, bleached, hydrogenated, and deodorised vegetable oil stearins consisting mainly of the triglycerides of stearic and palmitic acids. It is used as a tablet lubricant and as an ointment or suppository basis.

Preparations

Proprietary Preparations (details are given in Part 3)
Spain: Blodex†.

Veratrine

Veratriini; Veratrin; Veratrina; Veratrinum.

CAS — 8051-02-3 (veratrine mixture); 71-62-5 (veratrine amorphous); 62-59-9 (veratrine crystallised, cevadine).

Description. Veratrine is a mixture of alkaloids from the dried ripe seeds of *Schoenocaulon officinale* (Liliaceae) (sabadilla). Veratrine should be distinguished from protoveratrines obtained from veratrum.

Adverse Effects, Treatment, and Precautions

Veratrine resembles aconite (p.2246) in its action on the peripheral nerve endings and poisoning should be treated similarly. It is an intense local irritant and has a powerful direct stimulating action on all muscle tissues. It has a violent irritant action on mucous membranes, even in minute doses, and must be handled with great care. When ingested it causes violent vomiting, purging, an intense burning sensation in the mouth and throat, and general muscular weakness.

Uses and Administration

Veratrine should not be used internally. It was formerly applied externally for its analgesic properties and as a parasiticide, especially for head lice, but even when used in this way there is danger of systemic poisoning from absorption.

Green Veratrum

American Hellebore; American Veratrum; Eléboro verde; Green Hellebore; Green Hellebore Rhizome; Veratro Verde; Veratrum Viride.

CAS — 8002-39-9.
ATC — C02KA01.
ATC Vet — QC02KA01.

Description. Green veratrum consists of the dried rhizome and roots of *Veratrum viride* (Liliaceae) from which are derived the alkaloidal mixtures alkavervir and cryptenamine.

White Veratrum

Eléboro blanco; European Hellebore; Veratrum Album; White Hellebore; White Hellebore Rhizome.

ATC — C02KA01.
ATC Vet — QC02KA01.

Description. White veratrum consists of the dried rhizome and roots of *Veratrum album* (Liliaceae) from which are derived the alkaloids protoveratrine A and B.

Adverse Effects

Veratrum alkaloids may cause nausea and vomiting at conventional therapeutic doses. Other adverse effects include epigastric and substernal burning, sweating, mental confusion, bradycardia or cardiac arrhythmias, dizziness, and hiccup. Profound hypotension and respiratory depression can occur at high doses.

Sneezing powder. Various symptoms of intoxication occurred in 7 patients due to the use of a sneezing powder containing white veratrum alkaloids.[1]

1. Fogh A, *et al.* Veratrum alkaloids in sneezing-powder: a potential danger. *J Toxicol Clin Toxicol* 1983; **20:** 175–9.

Treatment of Adverse Effects

After oral ingestion of veratrum alkaloids the stomach should be emptied by aspiration and lavage; activated charcoal may be considered within 1 hour of ingestion. Excessive hypotension with bradycardia or cardiac arrhythmias can be treated with atropine. The patient should be placed in a supine position with the feet raised.

Uses and Administration

White and green veratrum contain a number of pharmacologically active alkaloids that produce centrally mediated peripheral vasodilatation and bradycardia. They have been used in the treatment of hypertension but are generally considered to produce an unacceptably high incidence of adverse effects and have largely been replaced by less toxic antihypertensives.

Both green and white veratrum have also been used as insecticides.

Homoeopathy. White Veratrum has been used in homoeopathic medicines under the following names: Veratrum album; Ver. alb.

Verbascum

Aaron's Rod (*Verbascum thapsus*); Bouillon Blanc; Bouillon blanc, fleur de (mullein flower); Diviznový květ (mullein flower); Great Mullein (*Verbascum thapsus*); Kungsljusblomma (mullein flower); Mullein; Ökörfarkkoró virág (mullein flower); Orange Mullein (*Verbascum phlomoides*); Tūbių žiedai (mullein flower); Ukontulikukankukka (mullein flower); Verbasci flos (mullein flower); Wollblumen.

NOTE. The name Aaron's Rod has been applied to a number of plants including *V. densiflorum*, *Solidago* spp., and *Sempervivum tectorum.*

Pharmacopoeias. *Eur.* (see p.vii) includes the dried flowers.
Ph. Eur. 6.2 (Mullein Flower; Verbasci flos). The dried flowers, reduced to the corolla and the androecium, of *Verbascum thapsus*, *V. densiflorum*, and *V. phlomoides*. Store in airtight containers.

Profile

Verbascum flower is an ingredient of herbal remedies for cough and cold symptoms. The dried leaves and stems have also been used.

Preparations

Proprietary Preparations (details are given in Part 3)
Ger.: Eres N†; ***Pol.:*** Noverban.

Multi-ingredient: ***Austral.:*** Procold†; Verbascum Complex†; ***Austria:*** Brust- und Hustentee St Severin; ***Cz.:*** Naturland Grosser Swedenbitter†; Species Pectorales Planta; ***Fr.:*** Detoxell; ***Ger.:*** Equisil N; Hevertopect N†; ***Mex.:*** Bronkitose Mielimon; ***Pol.:*** Flegatussin; Gwajatussin; Termasil; ***Rus.:*** Original Grosser Bittner Balsam (Оригинальный Большой Бальзам Биттнера); ***Spain:*** Bronpul†; Natusor Broncopul†.

Verbenone

Werbenon. 2-Pinen-4-one; 4,6,6-Trimethylbicyclo[3.1.1]hept-3-en-2-one.

$C_{10}H_{14}O = 150.2.$
CAS — 80-57-9 (verbenone); 18309-32-5 (d-verbenone); 1196-01-6 (l-verbenone).
ATC Vet — QR05CA11 (L-verbenone).

Profile

Verbenone is a terpene found in lemon-verbena oil, rosemary oil (p.2381) and some other essential oils. It has been used, sometimes with pine oil, for respiratory disorders.

Verbenone has also been used as an insect repellent in forestry.

Preparations

Proprietary Preparations (details are given in Part 3)
Ital.: Ozopulmin; Ozopulmin G.

Multi-ingredient: ***Ital.:*** Ozopulmin; Ozopulmin G.

Vervain

Herba Columbariae; Herba Verbenae; Shop Vervain Wort; Verbena; Verveine Officinale.

Pharmacopoeias. In *Chin.* and *Eur.* (see p.vii).
Ph. Eur. 6.2 (Verbena Herb). The whole or fragmented, dried aerial parts of *Verbena officinalis* collected during flowering. It contains a minimum of 15% of verbenalin ($C_{17}H_{24}O_{10}$ = 388.4) calculated with reference to the dried drug.

Profile

Vervain, the aerial parts of *Verbena officinalis* (Verbenaceae), has been used for a wide range of disorders. It is a bitter and has been used for digestive disorders. It also has sedative properties and has been used for anxiety disorders and as a tonic during convalescence from chronic illness.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Avena Complex; Calmo; Nevaton; ***Austria:*** Sinupret; ***Cz.:*** Sinupret; Stomatosan†; ***Fr.:*** Calmophytum; Vigilia; ***Ger.:*** Sinupret; ***Hong Kong:*** Sinupret; ***Hung.:*** Sinupret; ***Indon.:*** Sinupret; ***Ital.:*** Neoderma 47; ***Mex.:*** Bisolsinus; ***Philipp.:*** Sinupret; ***Pol.:*** Sinupret; ***Rus.:*** Sinupret (Синупрет); ***Singapore:*** Sinupret; ***Switz.:*** Sinupret; Tisane pour nourissons et enfants; ***Thai.:*** Sinupret; ***UK:*** Athera; HRI Night; Kalms Sleep; Modern Herbals Menopause; Modern Herbals Stress; Newrelax; Period Pain Relief; Prementaid; Scullcap & Gentian Tablets; Stressless; SuNerven.

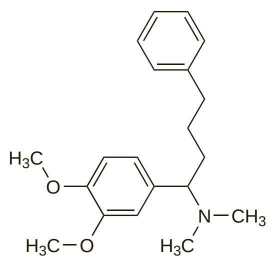
Vetrabutine Hydrochloride *(BANM, rINNM)*

Dimophebumine Hydrochloride; Hidrocloruro de vetrabutina; Sp-281; Vétrabutine, Chlorhydrate de; Vetrabutini Hydrochloridum. *N,N*-Dimethyl-α-(3-phenylpropyl)veratrylamine hydrochloride.

Ветрабутина Гидрохлорид

$C_{20}H_{27}NO_2,HCl$ = 349.9.

CAS — 3735-45-3 (vetrabutine); 5974-09-4 (vetrabutine hydrochloride).



(vetrabutine)

Profile

Vetrabutine hydrochloride is used as a uterine relaxant in veterinary medicine.

Vinburnine *(rINN)*

CH-846; (−)-Eburnamonine; 3α,16α-Eburnamonine; Vinburnina; Vinburninum; Vincamone. (3α,16α)-Eburnamenin-14(15*H*)-one.

Винбурнин

$C_{19}H_{22}N_2O$ = 294.4.

CAS — 4880-88-0.

ATC — C04AX17.

ATC Vet — QC04AX17.

Profile

Vinburnine is an alkaloid related to vincamine (below) and has been used in conditions associated with cerebral circulatory insufficiency.

Vinburnine phosphate has been used similarly.

Preparations

Proprietary Preparations (details are given in Part 3)

Fr.: Cervoxan; ***Ital.:*** Eburnal†; Tensiplex†; ***Port.:*** Cervoxan; ***Spain:*** Cervoxan.

Vincamine *(BAN, rINN)*

Vincamina; Vincaminum. Methyl (3α,16α)-14,15-dihydro-14β-hydroxyeburnamenine-14-carboxylate.

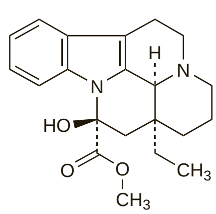
Винкамин

$C_{21}H_{26}N_2O_3$ = 354.4.

CAS — 1617-90-9.

ATC — C04AX07.

ATC Vet — QC04AX07.



Pharmacopoeias. In *Fr.*

Profile

Vincamine is an alkaloid obtained from *Vinca minor* (Apocynaceae). It is claimed to increase cerebral circulation and utilisation of oxygen and has been used in a variety of cerebral disorders. Vincamine may have adverse effects on the cardiovascular system and care should be taken in patients with hypertension or cardiac dysfunction.

Vincamine salts including vincamine hydrochloride, oxoglurate, teprosilate, and hydrogen tartrate have also been used.

Preparations

Proprietary Preparations (details are given in Part 3)

Arg.: Cincuental†; Vinkhum; ***Austria:*** Cetal†; ***Belg.:*** Cerebroxine; ***Fr.:*** Vinca†; ***Ger.:*** Ophdilvas N†; ***Hong Kong:*** Aethroma†; ***Ital.:*** Vasonett†; Vinca-Ri†; Vinca-Treis; Vincadar†; Vraap†; ***Mex.:*** Vincapan; ***Port.:*** Arteriovinca; Cervinca; Vincagil†; ***Spain:*** Arteriovinca†; Domeni†; Tefavinca; Vadicate†; Vincacen; Vincaminol; ***Switz.:*** Cetal†; Oxygeron.

Multi-ingredient: ***Arg.:*** Ribex; ***Fr.:*** Rheobral; ***Port.:*** Anacervix; Centracetam†; Stimilfar†; ***Spain:*** Anacervix; Devincal; ***Venez.:*** Devincal†.

Vinpocetine *(USAN, rINN)*

AY-27255; Ethyl Apovincaminate; Ethyl Apovincaminoate; RGH-4405; Vinpocetin; Vinpocetina; Vinpocétine; Vinpocetinum; Vinposetiini. Ethyl (3α,16α)-eburnamenine-14-carboxylate.

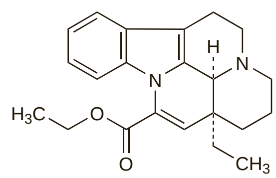
Винпоцетин

$C_{22}H_{26}N_2O_2$ = 350.5.

CAS — 42971-09-5.

ATC — N06BX18.

ATC Vet — QN06BX18.



Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Vinpocetine). A white or slightly yellow, crystalline powder. Practically insoluble in water; soluble in dichloromethane; slightly soluble in anhydrous alcohol.

Profile

Vinpocetine is a derivative of vincamine (above) that has been given orally in cerebrovascular disorders and dementia. Good evidence to support its use in cognitive impairment is lacking.

◊ References.

Preparations

Proprietary Preparations (details are given in Part 3)

Arg.: Cavinton†; ***Braz.:*** Vicog; ***Cz.:*** Cavinton; Vicebrol; ***Ger.:*** Cavinton†; ***Hung.:*** Cavinton; ***Pol.:*** Cavinton; Vicebrol; Vinpoton; ***Port.:*** Cavinton; Ultra-Vinca; Vipocem; ***Rus.:*** Cavinton (Кавинтон); Telectol (Телектол); ***Singapore:*** Cavinton; ***Thai.:*** Cavinton; Vinpocen.

Multi-ingredient: ***Rus.:*** Vinpotropile (Винпотропил).

Vinyl Chloride

Cloruro de vinilo; VCM; Vinilo, cloruro de; Vinyl Chloride Monomer; Winylu chlorek. Chloroethylene.

C_2H_3Cl = 62.50.

CAS — 75-01-4.

Profile

Vinyl chloride is used in the manufacture of polyvinyl chloride (PVC) and other vinyl polymers. Occupational exposure to vinyl chloride in polymerisation plants has been associated with acro-osteolysis, especially in the terminal phalanges of the fingers, a condition resembling Raynaud's phenomenon, and sclerodermatous skin changes. Liver damage and hepatic angiosarcoma, splenomegaly, thrombocytopenia, impaired respiratory function, and chromosomal abnormalities have also occurred.

Water

Agua; Aqua; Aqua Communis; Aqua Fontana; Aqua Potabilis; Eau Potable; Vatten; Vesi; Víz; Wasser; Woda.

H_2O = 18.02.

CAS — 7732-18-5.

Purified Water

Agua purificada; Aqua purificata; Eau purifiée; Išgrynintas vanduo; Puhdistettu vesi; Tisztított víz; Vatten, renat; Voda čištěná; Woda oczyszczona.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), *Int., Jpn, US,* and *Viet.*

Eur. also includes Highly Purified Water. *US* also includes Sterile Purified Water.

Some pharmacopoeias only include distilled water or have additional monographs for demineralised water or distilled water.

Ph. Eur. 6.2 (Water, Purified; Aqua Purificata). It is water for the preparation of medicines other than those that are required to be both sterile and apyrogenic, unless otherwise justified and authorised. It is prepared from suitable potable water either by distillation, by ion exchange, by reverse osmosis, or by any other suitable method. Store in conditions designed to prevent growth of micro-organisms and to avoid any other contamination. Submonographs cover Purified Water in Bulk and Purified Water in Containers.

Ph. Eur. 6.2 (Water, Highly Purified; Aqua Valde Purificata). It is water intended for the preparation of medicinal products where water of high biological quality is needed, except where Water for Injections is required.

USP 31 (Purified Water). It is prepared from potable water by a suitable process.

Preparation. ***DEIONISATION.*** By passing potable water through columns of anionic and cationic ion-exchange resins, ionisable substances can be removed, producing a water of high specific resistance. Colloidal and non-ionisable impurities such as pyrogens may not be removed by this process.

DISTILLATION. In this process water is separated as vapour from non-volatile impurities and is subsequently condensed. In practice, non-volatile impurities may be carried into the distillate by entrainment unless a suitable baffle is fitted to the still.

Water for Injections

Agua para inyecciones; Aq. pro Inj.; Aqua ad iniectabilia; Aqua ad Injectionem; Aqua Injectabilis; Aqua Pro Iniectione; Aqua pro Injectione; Aqua pro Injectionibus; Eau pour préparations injectables; Injekcinis vanduo; Injektionesteisiin käytettävä vesi; Vatten för injektionsvätskor; Víz parenterális célra; Voda na injekci; Wasser für Injektionszwecke; Water for Injection; Woda do wstrzykiwań.

Pharmacopoeias. In *Chin., Eur.* (see p.vii), *Int., Jpn, US,* and *Viet.*

US also includes Sterile Water for Injection, Sterile Water for Inhalation, Sterile Water for Irrigation, and Bacteriostatic Water for Injection.

Ph. Eur. 6.2 (Water for Injections). It is water for the preparation of medicines for parenteral administration when water is used as the vehicle, and for dissolving or diluting substances or preparations for parenteral administration. It is prepared by distillation of potable water or purified water from a neutral glass, quartz, or suitable metal still fitted with an effective device for preventing the entrainment of droplets; the first portion of the distillate is discarded and the remainder collected. Store in conditions designed to prevent growth of micro-organisms and to avoid any other contamination. Sub-monographs cover Water for Injections in Bulk and Sterilised Water for Injections.

USP 31 (Water for Injection). It is purified by distillation or a purification process that is equivalent or superior to distillation in the removal of chemicals and micro-organisms. When used for the preparation of parenteral solutions it should be sterilised first or the final preparation should be sterilised after preparation. Sterile Water for Injection, Inhalation, or Irrigation and Bacteriostatic Water for Injection are the subjects of separate monographs.

Profile

There are international standards for the quality of water intended for human consumption. Toxic substances such as arsenic, barium, cadmium, chromium, copper, cyanide, lead, and selenium may constitute a danger to health if present in drinking water in excess of the recommended concentrations. Water-borne infections are also a hazard.

Fluoride is regarded as an essential constituent of drinking water but may endanger health if present in excess—see Sodium Fluoride, p.1962. Ingestion of water containing large quantities of nitrates may cause methaemoglobinaemia in infants; many countries have standards for nitrates in water.

The use of tap water containing metal ions (such as aluminium, copper, and lead), fluoride, or tosylchloramide sodium, for dialysis may be hazardous.

Hard water contains soluble calcium and magnesium salts, which form scale and sludge in boilers, water pipes, and autoclaves; they also cause the precipitation of soap and prevent its lathering. Temporary hardness in water is due to the presence of bicarbonates which are converted to insoluble carbonates on heating. Permanent hardness is due to dissolved chlorides, nitrates, and sulfates, which do not form a precipitate on heating. The presence or absence of such salts can play a part in cardiovascular health.

Without further purification, potable water may be unsuitable for certain pharmaceutical purposes. In such instances, purified water should always be used. Most pharmacopoeias include monographs on various preparations of water, such as water suitable for injections. Potable water should not be used when such preparations of water are specified.

Excessive ingestion of water can lead to water intoxication with disturbances of the electrolyte balance.

Wheat

Blé; Froment; Frumento; Grano; Trigo; Weizen.

Пшеница Мягкая

NOTE. Distinguish from Triticum, a synonym for Couch-grass (see p.2288).

Profile

Wheat (*Triticum* spp., Poaceae) is a grass cultivated worldwide as a cereal crop. Common wheat (*Triticum aestivum*, (*T. vulgare*)) is the source of wheat germ and wheat-germ oil (below). Malted grain of wheat is used in the preparation of malt extract (p.1955). Wheat is also used as a source of bran (p.1712) and starch (p.1968).

Wheat germ and wheat-germ oil are used in preparations for lesions of the skin and mucous membranes and as nutritional supplements.

Preparations

Proprietary Preparations (details are given in Part 3)
Braz.: Dermocrem; Vagitrene; ***Canad.:*** Dermatix Fitocream; ***Ger.:*** Vulnostimulin; ***Ital.:*** Fitostimoline; Step 2; ***Turk.:*** Fito; ***Venez.:*** Derain; Gynoderain.

Multi-ingredient: ***Arg.:*** Amenite Plus†; Cicatul; Microlift; ***Fr.:*** Phytolongbronze; ***Ital.:*** Decon Ovuli; Fitostimoline; Sclerovis H; Solecin; ***Mex.:*** Fitoestimulina; Italdermol; ***Port.:*** Fitocreme; ***UK:*** S.P.H.P..

Wheat-germ Oil

Búzacsíraolaj; Germes de blé, huile de; Kviečių gemalų aliejus; Oleum Tritici Germinis; Pšeničný olej; Tritici aestivi oleum; Tritici Oleum; Vehnänalkioöljy; Vetegroddolja.

Масло Пшеничных Зародышей

CAS — 8006-95-9.

Pharmacopoeias. *Eur.* (see p.vii) includes Wheat-germ Oil, Refined, and Wheat-germ Oil, Virgin.

Ph. Eur. 6.2 (Wheat-germ Oil, Refined; Tritici Aestivi Oleum Raffinatum). The fatty oil obtained from the germ of the grain of *Triticum aestivum* by cold expression or by other suitable mechanical means and/or by extraction. It is then refined. A suitable antoxidant may be added. A clear, light yellow liquid. Practically insoluble in water and in alcohol; miscible with light petroleum at 40° to 60°. Relative density about 0.925. Store in an airtight container. Protect from light.

Ph. Eur. 6.2 (Wheat-germ Oil, Virgin; Tritici Aestivi Oleum Virginale). The fatty oil obtained from the germ of the grain of *Triticum aestivum* by cold expression or other suitable mechanical means. A clear, light yellow or golden-yellow liquid. Practically insoluble in water and in alcohol; miscible with light petroleum at 40° to 60°. Relative density about 0.925. Store in an airtight container. Protect from light.

Profile

Wheat-germ oil is a rich source of vitamin E (p.1992). It is included in dietary supplements and in preparations for lesions of the skin and mucous membranes.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Braz.:*** Gamaline-V; ***Fr.:*** Bio-Selenium; Phytophanere; ***Indon.:*** Eviprostat; ***Ital.:*** Babigoz Crema Protettiva; Babysteril; Ottovis; ***Jpn:*** Eviprostat; ***Singapore:*** Eviprostat; ***Switz.:*** Sanhelios Capsules a la vitamine A†; ***UK:*** No-Sor Nose Balm.

Wild Carrot

Dauci Herba; Daucus; Queen Anne's Lace; Zanahoria silvestre.

NOTE. The name Queen Anne's lace has also been used for cow parsley (*Anthriscus sylvestris*), another umbellifer.

Pharmacopoeias. In *Chin.*

Profile

The fruits of the wild carrot, *Daucus carota* (Umbelliferae) have been used as a diuretic and anthelmintic, and are included in herbal preparations for various indications. Other parts of the plant have been used in folk medicine. Carrot seed oil is used in aromatherapy. The root of the cultivated form, *D. carota* subsp. *sativus*, is a culinary item and a source of carotenoids in the diet.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Arg.:*** Hepatalgina; Metiogen; Palatrobil; ***Chile:*** Natur-Zin; Natursel-C; ***Ital.:*** Evamilk; ***Malaysia:*** Eyebright Plus†; ***UK:*** Sciargo; Watershed.

Wild Cherry Bark

Corteza de cerezo silvestre; Prunus Serotina; Virginian Prune; Virginian Prune Bark; Wild Black Cherry Bark; Wild Cherry.

Profile

Wild cherry bark is the dried bark of the wild or black cherry, *Prunus serotina* (Rosaceae), known in commerce as Thin Natural Wild Cherry Bark, containing not less than 10% of water-soluble extractive. It has a slight odour and an astringent, aromatic, bitter taste, recalling that of bitter almonds. It contains (+)-mandelonitrile glucoside (prunasin) and an enzyme system, which interact in the presence of water yielding benzaldehyde, hydrocyanic acid, and glucose.

Wild cherry bark, in the form of the syrup, has been used in the treatment of cough but it has little therapeutic value. It has also been used as a flavour.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Canad.:*** Bronchial Cough; Mielocol; Rophelin†; Wampole Bronchial Cough Syrup†; ***Venez.:*** Cerylana.

Wild Lettuce

Herba Lactucae Virosae; Laitue Vireuse; Lechuga silvestre.

Profile

The wild lettuce, *Lactuca virosa* (Compositae), has been given in herbal medicine as a sedative and antitussive. The dried latex extract (lactucarium; lettuce opium) is also used.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Canad.:*** Sirop Cocillana Codeine; Sirop Cocillana Compose; ***S.Afr.:*** Choats Extract of Lettuce Cough Mixture; ***UK:*** Anased; Antibron; Gerard House Somnus; HRI Night; Kalms Sleep; Quiet Life; Quiet Nite; Slumber; Unwind Herbal Nytol; ***Venez.:*** Cerylana.

Wild Pansy

European Field Pansy (*Viola arvensis*); European Wild Pansy (*Viola arvensis* or *V. tricolor*); Field Pansy (*Viola arvensis* or *V. tricolor*); Heart's Ease; Heartsease (*Viola tricolor*); Johnny-jump-up (*Viola tricolor*); Keto-orvokki; Love-in-idleness (*Viola tricolor*); Pansy (*Viola tricolor*); Pensée sauvage; Viol; Violae herba; Violae Tricoloris Herba (viola tricolor); Ziele fiołka trójbarwnego (viola tricolor).

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Wild Pansy (Flowering Aerial Parts); Viola Herba cum Flore). The dried flowering aerial parts of *Viola arvensis* and/or *V. tricolor*. It contains a minimum of 1.5% of flavonoids, expressed as violanthin ($C_{27}H_{30}O_{14}$ = 578.5), calculated with reference to the dried drug. Protect from light.

Profile

Wild pansy, *Viola tricolor* or *V. arvensis* (Violaceae) is used in herbal medicine in topical preparations for minor skin disorders, in particular for seborrhoeic skin diseases. Wild pansy is also included in oral preparations for gastrointestinal and respiratory-tract disorders.

Homoeopathy. Wild Pansy has been used in homoeopathic medicines under the following names: Viola tricolor.

Adverse effects. Haemolysis was reported in a 9-month-old infant with G6PD deficiency given an extract of wild pansy orally.[1]

1. Behmanesh Y, Abdollahi M. Haemolysis after consumption of Viola tricolor. *WHO Drug Inf* 2002; **16:** 15–16.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Bioglan Bioage Peripheral; ***Cz.:*** Antirevmaticky Caj; Bronchialtee N†; ***Fr.:*** Depuratif Parnel; Evacrine; Fitacnol†; ***Ital.:*** Neoderma 47; ***Switz.:*** Antidry; Viola; ***UK:*** Gerard House Skin.

Wild Thyme

Backtimjan; Kangasajuruoho; Mateřídoušková nat' (Nat' mateřídoušky); Mother of Thyme; Paprastųjų čiobrelių žolė; Quendel; Serpolet; Serpylli herba.

NOTE. Distinguish from Thyme, p.2401.

Pharmacopoeias. In *Eur.* (see p.vii).

Ph. Eur. 6.2 (Wild Thyme; Serpylli Herba). The whole or cut, dried, flowering aerial parts of *Thymus serpyllum* containing a minimum of 0.3% v/w of essential oil, calculated with reference to the dried drug. Protect from light.

Profile

Wild thyme (*Thymus serpyllum*, Lamiaceae) is included in herbal medicines for disorders of the upper respiratory tract. Its actions are similar to, but weaker than, those of thyme (p.2401). Commercially, *T. pulegioides* and *T. praecox* subsp. *arcticus* are also offered as *T. serpyllum.*

Wild thyme oil is used similarly.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Gartech; ***Austria:*** Scottopect; ***Belg.:*** Colimax†; Thymoseptine; ***Cz.:*** Bronchialtee N†; Detsky Caj s Hermankem; Prudušková; Thymomel; ***Fr.:*** Aromasol; Bronchorectine au Citral; Dinacode avec codeine†; Dinacode†; Nazinette du Docteur Gilbert; ***Indon.:*** Silex; ***Ital.:*** Stenobronchial; Tussamag; Tussamag Complex; ***Port.:*** Pilka F†; ***Rus.:*** Stoptussin-Fito (Стоптуссин-фито); ***Spain:*** Llantusil†; ***Switz.:*** Frixo-Dragon Vert†; Nasobol†; Pectosan N†; Tisane contre les refroidissements.

Xanthine-containing Beverages

Xantina, bebidas con.

Adverse Effects

The adverse effects of xanthine-containing beverages are largely due to their caffeine (p.1116), theophylline (p.1140), and theobromine (p.1140) content. Common adverse effects are sleeplessness, anxiety, tremor, palpitations, and withdrawal headache.

Breast feeding. For references to the effects of caffeinated beverages in breast feeding, see under Caffeine, p.1117.

Effects on the heart. A meta-analysis of published studies found no evidence of an association between coffee consumption and the development of coronary heart disease,[1] and a large cohort study in men followed up for 14 years and women for up to 20 years also found no evidence of a link.[2] Expert opinion in the UK[3] has been that the evidence that caffeine or coffee consumption contributes to coronary heart disease development is inconsistent. Coffee prepared by boiling, as is the practice in Scandinavia for example, does raise serum cholesterol concentrations due to the presence of the diterpenes cafestol and kahweol, and coffee made in a cafetière (French press) has a similar effect, but filtered coffee does not, as the hypercholesterolaemic fraction does not pass a paper filter.[4] A case-control study has suggested a relationship between consumption of boiled, but not filtered, coffee and incidence of a first non-fatal myocardial infarction.[5] Others have raised concern that the potential pressor effect of caffeine itself may be a cardiovascular risk factor,[6] but as mentioned above there is little evidence for this. A large prospective cohort study[7] found no association between dietary caffeine and risk of atrial fibrillation or flutter.

Tea drinking has not been associated with increased cardiovascular risk[3]—indeed, its polyphenol content has been suggested to have beneficial antioxidant effects.[8,9]

6. James JE. Is habitual caffeine use a preventable cardiovascular risk factor? *Lancet* 1997; **349:** 279–81.

7. Frost L, Vestergaard P. Caffeine and risk of atrial fibrillation or flutter: the Danish Diet, Cancer, and Health Study. *Am J Clin Nutr* 2005; **81:** 578–82.
8. Luo M, *et al.* Inhibition of LDL oxidation by green tea extract. *Lancet* 1997; **349:** 360–1.
9. Geleijnse JM, *et al.* Tea flavonoids may protect against atherosclerosis: the Rotterdam study. *Arch Intern Med* 1999; **159:** 2170–4.

Effects on the muscles. Severe myositis in an elderly man who drank around 14 litres of tea daily was attributed to hypokalaemia produced by the xanthine content of the beverage.[1] The patient improved after intravenous potassium replacement and subsequently remained well with a reduction in tea intake.

1. Trewby PN, *et al.* Teapot myositis. *Lancet* 1998; **351:** 1248.

Malignant neoplasms. A review of available data did not suggest a clinically significant association between the regular use of coffee and the development of cancer of the lower urinary tract in men or women.[1]

1. Viscoli CM, *et al.* Bladder cancer and coffee drinking: a summary of case-control research. *Lancet* 1993; **341:** 1432–7.

Interactions

The possibility of synergistic effects in patients receiving xanthines who consume large amounts of xanthine-containing beverages should be borne in mind.

Antipsychotics. Xanthine-containing beverages have been reported to precipitate some antipsychotic drugs from solution *in vitro*, but do not appear to alter antipsychotic concentrations *in vivo*. For references, see p.975.

Uses and Administration

Xanthine-containing beverages including chocolate, coffee, cocoa, cola, maté, and tea are widely consumed and have a mild stimulant effect on the CNS. The primary xanthine constituent is caffeine (p.1116) but other xanthine derivatives such as theobromine (p.1140) and theophylline (p.1140) may also be present; cocoa and chocolate contain significant amounts of theobromine.

Coffee is the kernel of the dried ripe seeds of *Coffea arabica*, *C. liberica*, *C. canephora* (robusta coffee), and other species of *Coffea* (Rubiaceae), roasted until it acquires a deep brown colour and a pleasant characteristic aroma. It contains about 1 to 2% of caffeine. Coffee has been used in the form of an infusion or decoction as a stimulant and as a flavour in some pharmaceutical preparations. A decoction is used as a beverage containing up to about 100 mg of caffeine per 100 mL. Preparations of instant coffee may contain up to 40% less caffeine while decaffeinated preparations may contain only up to about 3 mg per 100 mL.

Kola (cola, cola seeds, kola nuts) is the dried cotyledons of *Cola nitida* and *C. acuminata* (Sterculiaceae), containing up to about 2.5% of caffeine and traces of theobromine. Kola is used in the preparation of cola drinks which may contain up to 20 mg of caffeine per 100 mL.

Maté (Paraguay Tea) is the dried leaves of *Ilex paraguensis* (Aquifoliaceae), containing 0.2 to 2% of caffeine and traces of theobromine. Maté is less astringent than tea and is extensively used as a beverage in South America.

Tea (thea, chá, thé, tee) is the prepared young leaves and leaf-buds of *Camellia sinensis* (=*C. thea*) (Theaceae). It contains 1 to 5% of caffeine, up to 24% of tannin, and small amounts of theobromine and theophylline. Tea is used in an infusion as a beverage containing up to about 60 mg of caffeine per 100 mL.

Guarana consists of the crushed seeds of *Paullinia cupana* var *sorbilis* (Sapindaceae). Caffeine appears to be its major active ingredient which was once termed guaranine. Herbal preparations include a beverage or liquid extract and may contain 5% caffeine.

Homoeopathy. Coffee has been used in homoeopathic medicines under the following names: Coffea arabica; Coffea; Coffea cruda; Coff. cr.

Kola has been used in homoeopathic medicines under the following names: Cola.

Maté has been used in homoeopathic medicines under the following names: Ilex paraguayensis; Ile. para.

Guarana has been used in homoeopathic medicines.

Diabetes mellitus. Regular coffee consumption has been reported[1-6] to reduce the risk of developing type 2 diabetes mellitus, although it is not clear whether this effect is due to caffeine or some other constituent in coffee.

Xanthopterin

2-Amino-4,6-dihydroxypteridine.

$C_6H_5N_5O_2 = 179.1.$

CAS — 119-44-8.

Profile

Xanthopterin is a natural pigment that has been used in the management of eye disorders.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Ital.:*** Xantervit; Xantervit Antibiotico; Xantervit Epa-rina.

Xylazine *(BAN, rINN)*

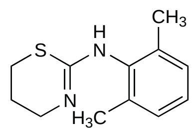
Ksylatsiini; Xilazina; Xylazin; Xylazinum. *N*-(5,6-Dihydro-4*H*-1,3-thiazin-2-yl)-2,6-xylidine.

Ксилазин

$C_{12}H_{16}N_2S = 220.3.$

CAS — 7361-61-7.

ATC Vet — QN05CM92.



Pharmacopoeias. In *US.*

USP 31 (Xylazine). Colourless to white crystals. Sparingly soluble in acetone, in chloroform, and in dilute acid; insoluble in dilute alkali. Store in airtight containers at a temperature of 25°, excursions permitted between 15° and 30°.

Xylazine Hydrochloride *(BANM, USAN, rINNM)*

Bay-Va-1470; Hidrocloruro de xilazina; Ksylatsiinihydrokloridi; Xilazin-hidroklorid; Xylazine, chlorhydrate de; Xylazin-hydrochlorid; Xylazinhydroklorid; Xylazini hydrochloridum.

Ксилазина Гидрохлорид

$C_{12}H_{16}N_2S, HCl = 256.8.$

CAS — 23076-35-9.

Pharmacopoeias. In *US.*

Eur. (see p.vii) includes for veterinary use only.

Ph. Eur. 6.2 (Xylazine Hydrochloride for Veterinary Use; Xylazine Hydrochloride BP(Vet) 2008). A white or almost white, crystalline, hygroscopic powder. Freely soluble in water and in dichloromethane; very soluble in methyl alcohol. A 10% solution in water has a pH of 4.0 to 5.5. Store in airtight containers. Protect from light.

USP 31 (Xylazine Hydrochloride). Colourless to white crystals. Sparingly soluble in acetone, in methyl alcohol, and in dilute acid; insoluble in dilute alkali. A 1% solution in water has a pH of 4.0 to 6.0. Store in airtight containers at a temperature of 25°, excursions permitted between 15° and 30°.

Profile

Xylazine is a sedative, analgesic, and muscle relaxant used in veterinary medicine. The hydrochloride is used similarly. Abuse has been reported.

Adverse effects. Reports[1-5] of toxicity and abuse associated with xylazine. Bradycardia, hypotension, and coma were associated with the self-administration of 200 mg of xylazine. Treatment was supportive.[1]

1. Samanta A, *et al.* Accidental self administration of xylazine in a veterinary nurse. *Postgrad Med J* 1990; **66:** 244–5.
2. Mittleman RE, *et al.* Xylazine toxicity—literature review and report of two cases. *J Forensic Sci* 1998; **43:** 400–2.
3. Hoffmann U, *et al.* Severe intoxication with the veterinary tranquilizer xylazine in humans. *J Anal Toxicol* 2001; **25:** 245–9.

5. Elejalde JI, *et al.* Drug abuse with inhalated xylazine. *Eur J Emerg Med* 2003; **10:** 252–3.

Xylose

Ksilozė; Ksyloosi; Ksyloza; Wood Sugar; Xilosa; Xilóz; Xylos; Xylosa; D-Xylose; Xylosum. α-D-Xylopyranose.

$C_5H_{10}O_5 = 150.1.$

CAS — 58-86-6; 6763-34-4.

Pharmacopoeias. In *Eur.* (see p.vii) and *US.*

Ph. Eur. 6.2 (Xylose). A white or almost white crystalline powder or colourless needles. Freely soluble in water; soluble in hot alcohol.

USP 31 (Xylose). Odourless, colourless needles or white crystalline powder. Very soluble in water; slightly soluble in alcohol. Store in airtight containers at a temperature of 15° to 30°.

Profile

Xylose has been used for the investigation of absorption from the gastrointestinal tract. In the absence of malabsorption, about 35% of a 5-g oral dose and about 25% of a 25-g oral dose are reported to be excreted in the urine within 5 hours. It has been given by mouth, usually in a dose of either 5 or 25 g, with up to 700 mL of water. The amount recovered in the urine is estimated and used to assess any malabsorption. Adjustment may have to be made for renal impairment. Xylose may cause some gastrointestinal discomfort with large doses. Other drugs may affect the absorption of xylose and interfere with the xylose test.

The test has been adapted to use blood-xylose concentrations.

◊ References.

Yellow Dock

Curly Dock; Lengua de vaca; Sour Dock.

NOTE. The name sour dock has also been used for sorrel (p.2391).

Profile

Yellow dock, the root of *Rumex crispus* (Polygonaceae) has laxative and choleretic properties. It is used for constipation, jaundice, and chronic skin disorders.

Homoeopathy. Yellow Dock has been used in homoeopathic medicines under the following names: Rumex; Rumex crispus; Rumex c.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Colax; Dermaco; Haemo-Red Formula; Herbal Cleanse†; Trifolium Complex†; ***Canad.:*** Herborex; ***UK:*** Skin Eruptions Mixture.

Ylang Ylang

Cananga; Ylang-ylang.

Profile

The flowers of ylang ylang (*Cananga odorata*, Annonoceae) are the source of ylang ylang oil. Ylang ylang oil is used in perfumery, as a flavouring agent, and in aromatherapy.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***UK:*** Teenstick.

Yucca

Yuca.

Profile

Various species of *Yucca* (Liliaceae), including Mohave yucca (*Y. schidigera*; *Y. mohavensis*), the Joshua tree (*Y. brevifolia*; *Y. arborescens*), and bear grass (*Y. filamentosa*) have been used in herbal medicine and as foods.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** Prost-1†; ***Braz.:*** Bronquiogem.

Zanthoxylum Fruit

Prickly Ash Berries; Zanthoxylum, fruto de.

Pharmacopoeias. In *Chin.* and *Jpn.*

Profile

Zanthoxylum fruit is the pericarp of the ripe fruit of *Zanthoxylum piperitum* (*Xanthoxylum piperitum*) (Rutaceae) or other species of *Zanthoxylum*. It contains about 3.3% v/w of essential oil.

Zanthoxylum (BPC 1934) (Toothache Bark; Xanthoxylum) is the dried bark of the northern prickly ash, *Z. americanum*, or the southern prickly ash, *Z. clavaherculis*. Both varieties contain a complex mixture of components, including benzophenanthridine alkaloids; northern prickly ash also contains coumarins.

Zanthoxylum fruit has carminative properties and has been used for rheumatic disorders. Zanthoxylum bark has been used similarly, but there is some concern about the potential toxicity of the benzophenanthridine alkaloids which it contains, and some authorities consider that it should not be recommended.

Preparations

Proprietary Preparations (details are given in Part 3)

Multi-ingredient: ***Austral.:*** For Peripheral Circulation Herbal Plus Formula 5; Lifesystem Herbal Formula 6 For Peripheral Circulation†; Uva-Ursi Plus†; ***Fr.:*** Node K; Phytheol; ***UK:*** Daily Overwork & Mental Fatigue Relief; Peerless Composition Essence; Tabritis.

Zein

Zeína.

CAS — 9010-66-6 (zeins).

Pharmacopoeias. In *Chin.* Also in *USNF.*

USNF 26 (Zein). A prolamine derived from corn, *Zea mays* (Gramineae). A white to yellow powder. Insoluble in water and in acetone; readily soluble in acetone-water mixtures between the limits of 60% and 80% of acetone by volume; soluble in aqueous alcohols, in ethoxyethanol; in glycols, in furfuryl alcohol, in tetrahydrofurfuryl alcohol, and in aqueous alkaline solutions of pH 11.5 and above; insoluble in all anhydrous alcohols except methyl alcohol. Store in airtight containers.

Profile

Zein is used as a tablet binder and coating agent for pharmaceutical preparations and foodstuffs. It has been used as a substitute for shellac.

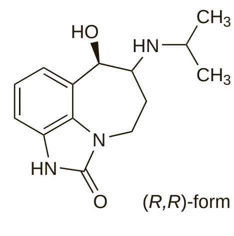
Zilpaterol Hydrochloride *(rINNM)* ⊗

Hidrocloruro de zilpaterol; RU-42173 (base or hydrochloride); Zilpatérol, Chlorhydrate de; Zilpateroli Hydrochloridum. (±)-*trans*-4,5,6,7-Tetrahydro-7-hydroxy-6-(isopropylamino)imidazo-[4,5,1-*jk*][1]benzazepin-2(1*H*)-one hydrochloride.

Зилпатерола Гидрохлорид

$C_{14}H_{19}N_3O_2,HCl = 297.8.$

CAS — 117827-79-9 (zilpaterol); 119520-05-7 (zilpaterol); 119520-06-8 (zilpaterol hydrochloride);.



(zilpaterol)

Profile

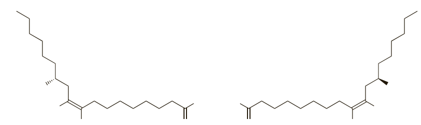
Zilpaterol hydrochloride is a beta$_2$-agonist. It is employed in the USA and some other countries as an animal-feed additive to promote weight gain but such use is not permitted in the EU. It has anabolic properties and may be subject to abuse in sport.

Zinc Ricinoleate

Рицинолеат Цинка

$(C_{18}H_{33}O_3)_2Zn = 660.3.$

CAS — 13040-19-2.



Profile

Zinc ricinoleate is used in preparations to combat body odour including underarm, colostomy, and ileostomy deodorant products. It is also used as a deodoriser in laundry products.

Preparations

Proprietary Preparations (details are given in Part 3)

Ital.: Antio.

Multi-ingredient: ***Austral.:*** Banish II.

Zirconium

Circonio; Zirconio; Zirkonium.

Zr = 91.224.

CAS — 7440-67-7 (zirconium); 1314-23-4 (zirconium dioxide); 60676-90-6 (zirconium lactate); 7699-43-6 (zirconium oxychloride);.

Profile

Zirconium and its compounds e.g. zirconium dioxide, zirconium lactate, and zirconium oxychloride, have been used in deodorant preparations; the dioxide is also used in dentistry. There have been reports of hypersensitivity reactions with granulomas. Zirconium dioxide has also been used as a contrast medium.

Adverse effects. A report[1] of pulmonary fibrosis associated with inhalation of a polishing agent containing mainly zirconium dioxide with quartz.

1. Bartter T, *et al.* Zirconium compound-induced pulmonary fibrosis. *Arch Intern Med* 1991; **151:** 1197–1201.

Volume 2

Preparations

This section of Martindale contains brief details of proprietary preparations available in a number of countries and includes those supplied on prescription as well as those sold directly to the public. They are provided to help the reader identify preparations and to suggest their uses. Inclusion is not an endorsement of the activity of any ingredient nor of the preparation's indications.

For this edition we have covered Argentina, Australia, Austria, Belgium, Brazil, Canada, Chile, Czech Republic, Denmark, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Israel, Italy, Malaysia, Mexico, the Netherlands, New Zealand, Norway, Philippines, Poland, Portugal, Russia, Singapore, South Africa, Spain, Sweden, Switzerland, Thailand, Turkey, the United Arab Emirates, UK, USA, and Venezuela. We have also included some proprietary preparations from Japan. Generally each entry consists of: the proprietary name; manufacturer or source of supply and country; ingredients usually listed by the manufacturer as being active; and a guide to the manufacturer's indications. Where possible, entries from different countries but with the same name and active ingredients have been amalgamated for clarity. We have tried to highlight instances where preparations are available with the same name, but significantly different ingredients.

An entry may cover a range of dosage forms and strengths. Dosage forms are only specified when different forms have the same proprietary name but different active ingredients. Specifying all dosage forms and the quantity of each active ingredient would have vastly increased the number of entries. Furthermore, this section is not intended as a guide to prescribing; where a preparation is to be supplied the dose should be appropriate for that preparation and that particular patient, and authoritative local sources should be consulted.

The ingredients have usually been translated into English. Almost all the ingredients listed are described in the monographs in Volume 1, and readers are directed to an appropriate monograph by the page number provided after the ingredient.

We have tried to include preparations that were available in the last few years since they may still be in circulation and their names may still be referred to in the literature and in practice. Such preparations that have been withdrawn from the market or are no longer being actively marketed may be identified by the symbol †. Readers should be aware that since this section was prepared other preparations are likely to have been withdrawn or introduced; also ingredients may change, as may indications.

The manufacturer's full name and address can be found in the Directory of Manufacturers.

Each preparation title is also listed in the General Index. Where thought helpful, preparation titles have also been listed at the end of the relevant monograph. However, it should be noted that the absence of such a list at the end of a monograph is no indication as to the availability of a substance as many drugs are marketed as generic or unbranded preparations.

Cystoid macular oedema; inhibition of miosis during surgery; pain and inflammation associated with eye surgery.

A Saude da Mulher *EMS, Braz.*
Sodium salicylate (p.124·2); plumeria lancifolia; passion flower (p.2363·2).
Dysmenorrhoea.

A Vogel Capsules a l'ail *Bioforce, Switz.†.*
Garlic (p.2309·2).
Cerebrovascular disease.

A Vogel Capsules polyvitaminees *Bioforce, Switz.†.*
Halibut-liver oil (p.1948·1); rose fruit (p.2381·2); acerola; dried yeast (p.1998·3); safflower oil (p.1960·3).
Tonic.

A to Z *Hall, Canad.†.*
Multivitamin and mineral preparation (p.1922·1).

AAA
Note.This name is used for preparations of different composition.
Roche Consumer, S.Afr.†.
Benzocaine (p.1854·1); cetalkonium chloride (p.1634·1).
Mouth and throat disorders.

Manx, UK.
Benzocaine (p.1854·1).
Sore throat.

Aacidexam *Organon, Belg.*
⊗ Dexamethasone sodium phosphate (p.1526·2).
Corticosteroid.

Aacifemine *Organon, Belg.*
Estriol (p.2101·1).
Oestrogen deficiency.

aar brain N *aar, Ger.†.*
St John's wort (p.422·3).
Depression.

aar gamma N *aar, Ger.*
Cynara (p.2291·2).
Dyspepsia.

aar os *aar, Ger.*
Putamen ovi.
Bone and teeth disorders; calcium deficiency.

aar vir *aar, Ger.*
Echinacea pallida (p.2298·1).
Influenza.

Aarane *Aventis, Switz.†.*
⊗ Sodium cromoglicate (p.1136·3); reproterol hydrochloride (p.1131·1).
Obstructive airways disease.

Aarane N *Aventis, Ger.*
⊗ Sodium cromoglicate (p.1136·3); reproterol hydrochloride (p.1131·1).
Obstructive airways disease.

AAS *Sanofi-Aventis, Braz.; GSK Consumer, Port.; Sanofi-Aventis, Spain.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolism prophylaxis.

Aasedatil *Vitapan, Braz.†.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolism prophylaxis.

AB *Saval, Chile.*
Chlorhexidine hydrochloride (p.1635·3).
Mouth and throat disorders.

AB Antitusivo *Saval, Chile.*
Chlorhexidine hydrochloride (p.1635·3); noscapine (p.1566·2).
Coughs.

AB FE *Camps, Spain†.*
Aspirin (p.20·3); caffeine (p.1116·3); phenazone (p.116·1).
Fever; pain.

3200 AB (Low Phe/Tyr) *BMS, Cz.†.*
Food for special diets (p.1922·1).
Tyrosinaemia.

Abacateirol *Regius, Braz.†.*
Avocado (p.2262·2); sodium salicylate (p.124·2); methenamine (p.298·3); theophylline (p.1140·1).
Kidney disorders.

Abacin *Benedetti, Ital.†.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Abacten *Andromaco, Chile.*
Azithromycin (p.207·1).
Bacterial infections.

Abacus *Pharmaland, Thai.*
Hydroxyzine hydrochloride (p.581·2).
Anxiety; hypersensitivity reactions; pruritus; tension.

Abaglin *Teva Tuteur, Arg.*
Gabapentin (p.482·3).
Epilepsy; postherpetic neuralgia.

Abajos *Nufarindo, Indon.*
Paracetamol (p.108·1); thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Neuralgia; neuritis.

Abaktal *Lek, Cz.; Lek, Hung.; Lek, Pol.; Lek, Rus.; Lek, Thai.†.*
Pefloxacin mesilate (p.313·3).
Bacterial infections.

Abalgin
Note.This name is used for preparations of different composition.
Nycomed, Denm.; Leiras, Fin.
Dextropropoxyphene hydrochloride (p.40·1).
Pain.

Laboratorios Chile, Chile.
Oral drops: Adiphenine (p.2247·3); phenobarbital (p.492·2).
Muscle spasm; pain.

Laboratorios Chile, Chile.
Suppositories: Propyphenazone (p.119·3); adiphenine (p.2247·3).
Muscle spasm; pain.

Abamune *Cipla, India.*
Abacavir sulfate (p.861·3).
HIV infection.

Abanifan *Biospray, Gr.*
Diosmin (p.2304·2); hesperidin (p.2304·3).
Vascular disorders.

Abanta
Note.This name is used for preparations of different composition.
Columbia, Arg.
Ointment: Zinc oxide (p.1621·2); allantoin (p.1588·1); cod-liver oil (p.1935·2).
Skin disorders.

Columbia, Arg.
Skin cleanser: Vitamin E (p.1992·2); aloe vera (p.1588·2).
Soap substitute.

Abatem *Wermar, Mex.*
Paracetamol (p.108·1).
Fever; pain.

Abaxon *Roemmers, Venez.*
Alprazolam (p.960·1).
Anxiety.

Abba
Note. This name is used for preparations of different composition.
Medichrom, Gr.
Ketoconazole (p.539·1).
Fungal scalp infections.

Fidia, Ital.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Abbocalcijex *Abbott, Gr.*
Calcitriol (p.1986·2).
Renal osteodystrophy; vitamin D deficiency.

Abbocillin-V *Sigma, Austral.*
Benzathine phenoxymethylpenicillin (p.212·3).
Bacterial infections.

Abbocillin-VK *Sigma, Austral.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Abbocurium *Abbott, Pol.*
Atracurium besilate (p.1902·1).
Competitive neuromuscular blocker.

Abboderm *Abbott, Chile†.*
⊗ Erythromycin (p.269·2); alcohol (p.1625·2).
Acne.

Abbodop *Abbott, Denm.; Electra-Box, Fin.; Abbott, Norw.; Electra-Box, Swed.*
Dopamine hydrochloride (p.1273·2).
Heart failure; oliguria; shock.

Abbofol *Abbott, Pol.*
Propofol (p.1791·1).
General anaesthesia; sedation in intensive care patients.

Abbokinase *Abbott, Austria; Abbott, Israel; Abbott, Swed.†; ImaRx, USA.*
Urokinase (p.1420·1).
Thromboembolic disorders.

Abbolipid *Abbott, Ger.†.*
Safflower oil (p.1960·3); soya oil (p.1965·3).
Lipid infusion for parenteral nutrition.

Abboplegisol *Hospira, Spain.*
Electrolyte infusion (p.1667·1).
Adjunct to open-heart surgery.

Abbosynagis *Abbott, Israel.*
Palivizumab (p.2235·3).
Respiratory syncytial virus infections.

Abbotic *Abbott, Indon.*
Clarithromycin (p.248·2).
Bacterial infections.

Abboticin
Abbott, Denm.
Erythromycin ethyl succinate (p.269·3), erythromycin lactobionate (p.270·1), or erythromycin stearate (p.270·1).
Bacterial infections.

Abbott, Fin.; Abbott, Norw.
Erythromycin ethyl succinate (p.269·3) or erythromycin lactobionate (p.270·1).
Bacterial infections.

Abbott, Swed.
Erythromycin (p.269·2), erythromycin ethyl succinate (p.269·3), or erythromycin lactobionate (p.270·1).
Bacterial infections.

Abboticine *Abbott, Fr.*
Erythromycin ethyl succinate (p.269·3).
Bacterial infections.

Abbottracurium *Abbott, Braz.*
Atracurium besilate (p.1902·1).
Competitive neuromuscular blocker.

Abbottselsun *Abbott, Spain.*
Selenium sulfide (p.1613·1).
Scalp disorders.

Abbovir *Abbott, Pol.*
Aciclovir sodium (p.862·3).
Herpesvirus infections.

ABC
Note. This name is used for preparations of different composition.
Beiersdorf, Austria.
Capsicum (p.2276·2).
Muscle and joint pain.

Offenbach, Mex.
Multivitamin and mineral preparation (p.1922·1).

ABC Hydrogel-Warmepflaster *Beiersdorf, Austria.*
Nonivamide (p.96·2).
Muscle pain.

ABC Solucao *Hertz, Braz.†.*
Benzoic acid (p.1630·2); iodine (p.2169·2); potassium iodide (p.2169·2).
Fungal skin infections.

ABC Warme-Pflaster *Beiersdorf, Ger.†.*
Cayenne pepper (p.2276·2).
Musculoskeletal and joint disorders.

ABC Warme-Pflaster Sensitive *Beiersdorf, Ger.†.*
Nonivamide (p.96·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

ABC Warme-Salbe *Beiersdorf, Ger.†.*
Glycol salicylate (p.62·3); benzyl nicotinate (p.28·1).
Formerly contained diethylamine salicylate, benzyl nicotinate, and nonivamide.
Musculoskeletal, joint, and soft-tissue disorders; neuralgia.

ABC to Z *Nature's Bounty, USA.*
Ferrous fumarate (p.1938·3); folic acid (p.1940·1); multivitamins and minerals (p.1922·1).
Iron-deficiency anaemias.

ABCDin *Ferrosan, Denm.†.*
Multivitamin preparation (p.1922·1).

ABClox *Centaur, India.*
Amoxicillin (p.202·2); cloxacillin (p.256·1); lactic-acid-producing organisms (p.2372·3).
Bacterial infections.

Abdec *Pfizer, Indon.*
Vitamin preparation (p.1922·1).

Abdelyn *Coronet, Indon.*
Vitamins A, B, and D; lysine hydrochloride (p.1922·1).
Vitamin supplement.

Abdiflam *Tunggal Idaman, Indon.*
Diclofenac sodium (p.44·3).
Musculoskeletal and joint disorders.

Abdimox *Tunggal Idaman, Indon.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Abdine Cold Relief *Bell, UK.*
Paracetamol (p.108·1).
Cold and influenza symptoms.

Abdomilon *Cesra, Cz.†.*
Calamus (p.2271·3); rhubarb (p.1768·3); gentian (p.2310·3); frangula bark (p.1732·2); melissa (p.2339·3); angelica (p.2258·1); absinthium (p.2244·1).
Gastrointestinal disorders.

Abdomilon N *Caesaro, Austria; Cesra, Ger.*
Absinthium (p.2244·1); angelica (p.2258·1); calamus (p.2271·3); gentian (p.2310·3); melissa (p.2339·3).
Dyspepsia; gastrointestinal disorders.

Abdominol *Medea, Spain.*
Atropine methobromide (p.1219·2); caffeine (p.1116·3); propyphenazone (p.119·3).
Pain due to smooth muscle spasm.

Abdoscan *Nycomed Amersham, UK†.*
Ferristene (p.1478·1).
Contrast medium for magnetic resonance imaging.

Abduce *Pharmanik (Φαρμανικ), Gr.*
Aciclovir (p.862·3).
Labial and genital herpes simplex infections.

Abecidin A C D *Pasteur, Chile.*
Vitamin A palmitate; ergocalciferol; vitamin C (p.1922·1).
Vitamin supplement.

Abefen *Pisa, Mex.*
Chloramphenicol (p.239·3).
Bacterial infections.

Abelcet *Bioprofarma, Arg.; Orphan, Austral.; Liposome Company, Austria; Wyeth, Belg.; Bago, Braz.; Enzon, Canad.; Cephalon, Cz.; Elan, Denm.; Zeneus, Fin.; Zeneus, Fr.; Zeneus, Ger.; Wyeth, Gr.; Asia Pacific, Hong Kong; Zeneus, Hong Kong; Zeneus, Hung.; Zeneus, Irl.; Elan, Ital.; Medeus, Malaysia†; St Ives, NZ; Zeneus, Neth.; Elan, Norw.; Cephalon, Port.; Elan, Singapore; Pacific Biosciences, Singapore; Zeneus, Spain; Meda, Swed.†; Elan, Switz.†; Onko, Turk.; Cephalon, UK; Enzon, USA.*
Amphotericin B phospholipid complex (p.523·2) (p.523·2).
Fungal infections; leishmaniasis.

Abenol *Pendopharm, Canad.*
Paracetamol (p.108·1).
Fever; pain.

Abentel *Atlantic, Thai.*
Albendazole (p.139·2).
Worm infections.

ABE-Plyn *Inco Veritas, Pol.*
Lactic acid (p.2329·3); salicylic acid (p.1612·2).
Corns.

Aberela *Janssen-Cilag, Norw.; Janssen-Cilag, Swed.*
Tretinoin (p.1618·1).
Acne; photoageing of the skin.

Aberten *Menarini, Gr.*
Theophylline (p.1140·1).
Asthma; neonatal apnoea and bradycardia; obstructive airways disease.

Abesira *Clariana, Spain†.*
Vitamin B substances and amino acids (p.1922·1).
Anaemias; metabolic disorders; tonic.

Abflex *Xeragen, S.Afr.*
Paracetamol (p.108·1); doxylamine succinate (p.578·2); caffeine (p.1116·3); codeine phosphate (p.37·2).
Pain with tension.

Abfuhr-Heilkrautertee *Abtswinder, Cz.†.*
Senna (p.1769·2); frangula bark (p.1732·2); urtica (p.2409·3); maté (p.2416·1); juniper (p.2328·2); coriander (p.2288·1); birch leaf (p.2266·3); centaurea cyanus; calendula (p.2273·1).
Digestive disorders; slimming aid.

Abfuhrtee *Sanochemia, Austria†.*
Couch-grass (p.2288·2); chamomile (p.2279·3); centaurea cyanus; frangula bark (p.1732·2); rhubarb (p.1768·3); senna (p.1769·2).
Constipation.

Abfuhrtee N *Bad Heilbrunner, Ger.*
Senna (p.1769·2).
Constipation.

Abfuhrtee St Severin *Smetana, Austria.*
Achillea (p.2245·2); peppermint leaf (p.1761·2); senna (p.1769·2).
Constipation.

Abiclav *Lindopharm, Ger.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Abidec *Pfizer Consumer, Irl.; Teofarma, Ital.; Chefaro, UK.*
Multivitamin preparation (p.1922·1).

Abilify *BMS, Austral.; BMS, Belg.; BMS, Braz.; BMS, Chile; BMS, Cz.; Otsuka, Denm.; BMS, Fin.; BMS, Fr.; BMS, Ger.; BMS, Gr.; Otsuka, Hong Kong; Otsuka, Hung.; Otsuka, Indon.; BMS, Irl.; BMS, Ital.; BMS, Malaysia; BMS, Mex.; BMS, NZ; Otsuka, Neth.; Otsuka, Norw.; Otsuka, Philipp.; BMS, Port.; BMS, S.Afr.; BMS, Singapore; BMS, Spain; BMS, Swed.; BMS, Switz.; Thai Otsuka, Thai.; BMS, UK; Otsuka, UK; BMS, USA; Otsuka, USA; BMS, Venez.*
Aripiprazole (p.962·3).
Adjunct in depression; bipolar disorder; mania; schizophrenia.

Abine *Dosa, Arg.*
Gemcitabine (p.728·1).
Malignant neoplasms.

Abinol *Recalcine, Chile.*
Lorazepam (p.1004·1).
Anxiety; childhood behaviour disorders; insomnia; premedication.

Abiocef *IBI, Ital.†.*
Cefonicid sodium (p.226·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Abiolex *Andromaco, Chile.*
Amoxicillin (p.202·2).
Bacterial infections.

Abiostil *Deca, Ital.*
Neomycin sulfate (p.305·1); cineole (p.2282·3); pine silvestris oil (p.2368·2); camphor (p.2273·2); menthol (p.2340·1).
Nasopharyngeal infections.

Abiotyl *Biocrom, Arg.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Abiplatin *Teva, Israel; Teva, S.Afr.; Abic-Teva, Thai.*
Cisplatin (p.698·2).
Malignant neoplasms.

Abitaxel *Teva, Rus.†.*
Paclitaxel (p.759·1).
Breast cancer; non-small cell lung cancer; ovarian cancer.

Abitren *Abic, Israel.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal and joint disorders; pain; renal colic.

Abitrexate *Teva, Israel; Teva, S.Afr.; Abic-Teva, Thai.*
Methotrexate sodium (p.745·2).
Malignant neoplasms; psoriasis; rheumatoid arthritis.

Abitrol *Intermed, Gr.*
⊗ Bisoprolol (p.1234·2).
Hypertension.

Abixa *Lundbeck, Philipp.*
Memantine hydrochloride (p.367·1).
Alzheimer's disease.

ABKI *Quimica y Farmacia, Mex.*
Ibuprofen (p.64·2).
Fever; inflammation; musculoskeletal, joint, and soft-tissue disorders; pain.

Ablok *Biolab Sanus, Braz.*
⊗ Atenolol (p.1217·3).
Hypertension.

Ablok Plus *Biolab Sanus, Braz.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Formerly contained atenolol and hydrochlorothiazide.
Hypertension.

Abloom *Duncan, Arg.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Abluent *Tolmann, Philipp.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders associated with excessive mucus.

Abnobaviscum *Abnoba, Ger.*
Mistletoe (p.2345·3).
Malignant neoplasms.

Abodine *Abbott, Indon.*
Povidone-iodine (p.1659·2).
Antiseptic.

Abolibe *Sidefarma, Port.*
Ginkgo biloba (p.2311·1).
Mental function disorders; vascular disorders.

Abopur *Norton Healthcare, Denm.*
Allopurinol (p.552·2).
Gout; renal calculi.

Abovis *Taisho, Jpn.*
Aclatonium napadisilate (p.1704·2).
Abdominal distension; nausea; reduced appetite; vomiting.

Abralux *Valuge, Arg.*
Polyethylene granules (p.1585·3).
Abrasive skin wash.

Abrasone *Seid, Spain.*
⊗ Fluocinolone acetonide (p.1531·3); framycetin sulfate (p.279·1).
Infected skin disorders.

Abrasone Rectal *Seid, Spain.*
⊗ Fluocinolone acetonide (p.1531·3); hexetidine (p.1647·1); ruscogenin (p.2382·2).
Anorectal disorders.

Abrax *CTI, Israel.*
Dicosanol.
Herpes labialis.

Abraxane *Abraxis, USA.*
Paclitaxel albumin-bound particles (p.759·1).
Breast cancer.

Abreva *GSK Consumer, Canad.; SmithKline Beecham Consumer, USA.*
Docosanol (p.872·2).
Herpes labialis.

Abrilar
Note. This name is used for preparations of different composition.
Roemmers, Arg.†.
⊗ Salmeterol xinafoate (p.1135·1).
Asthma.

Farmoquimica, Braz.
Ivy (p.2328·1).
Respiratory-tract disorders with increased mucus.

Pharma Investi, Chile.
Alfa-hederina.
Coughs; respiratory-tract congestion.

Abrixone *Eurodrug, Mex.*
Metadoxine (p.1978·2).
Alcohol withdrawal; liver disorders.

Abrobion *Medicus, Gr.*
Ambroxol (p.1550·3).

Abroflor *VSM, Neth.*
Homoeopathic preparation.

Abrol *Rekah, Israel.*
Paracetamol (p.108·1).
Fever; pain.

Abrolen *Alet, Gr.*
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Abrolet *Rekah, Israel.*
Paracetamol (p.108·1).
Fever; pain.

Absenor *Orion, Cz.; Orion, Fin.; Orion, Swed.*
Sodium valproate (p.508·2).
Epilepsy; mania.

Absint *Medochemie, Hong Kong†.*
Flunitrazepam (p.996·2).
Insomnia.

Absolue *Lancome, Canad.*
SPF 15: Avobenzone (p.1589·3); octisalate (p.1608·2); octocrilene (p.1608·3).
Sunscreen.

Absorbase *Carolina, USA.*
Vehicle for topical preparations.

Absorber HFV *Arteva, Ger.†.*
Dimeticone (p.1770·2).
Reduction of gastrointestinal gas.

Absorbine Analgesic *Young, Canad.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); eucalyptus oil (p.2301·2).

Absorbine Antifungal Foot Powder *Young, USA†.*
Miconazole nitrate (p.541·3).
Fungal skin infections.

Absorbine Arthritis *Young, Canad.*
Menthol (p.2340·1); capsicum (p.2276·2).

Absorbine Athletes Foot Care *Young, USA.*
Tolnaftate (p.548·3); menthol (p.2340·1).
Fungal infections.

Absorbine Jr *Young, Canad.; Young, USA.*
Menthol (p.2340·1).
Muscle, joint, and soft-tissue pain; neuralgia.

Absorbine Jr Antifungal *Young, Canad.*
Tolnaftate (p.548·3).
Tinea pedis.

Absorbine Jr Roll-on Ice *Young, Canad.*
Menthol (p.2340·1).

Absorbine Junior Patch *Young, Canad.*
Camphor (p.2273·2); eucalyptus oil (p.2301·2); menthol (p.2340·1).

Absorbine Power Gel *Young, Canad.*
Menthol (p.2340·1).

Absorlent *Esteve, Spain.*
Estradiol (p.2097·2).
Menopausal disorders; osteoporosis.

Absorlent Plus *Esteve, Spain.*
Patch A, estradiol (p.2097·2); patch B, estradiol; norethisterone acetate (p.2119·3).
Menopausal disorders; osteoporosis.

Absten S *Medley, Braz.*
⊗ Mazindol (p.2157·3).
Obesity.

Abstensyl *Sintesina, Arg.*
Disulfiram (p.2296·2).
Alcoholism.

Abtrim *Ashbourne, UK†.*
Clotrimazole (p.530·1).
Fungal skin infections; vaginal candidiasis.

Abufene *Bouchara-Recordati, Fr.; Bouchara, Singapore.*
Beta-alanine (p.1928·1).
Menopausal disorders.

Abuglib *Pharmacos Abug, Mex.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Abutiroi *Pharmacos Abug, Mex.*
Levothyroxine sodium (p.2171·2).
Hypothyroidism.

Abutol *Schwarz, Pol.*
⊗ Acebutolol hydrochloride (p.1200·1).
Angina pectoris; arrhythmias; hypertension.

Abvitos *Gache, Venez.*
Vitamins A, C, and D (p.1922·1).
Vitamin A, C, and D deficiency.

AC & C *Pendopharm, Canad.; Vita Health, Canad.*
Aspirin (p.20·3); caffeine (p.1116·3); codeine phosphate (p.37·2).
Fever; inflammation; pain.

AC Lan *Lanpharm, Arg.*
Acetylcysteine (p.1548·2).
Respiratory-tract congestion.

AC Vascular *Biotenk, Arg.*
Nimodipine (p.1357·2).
Cerebrovascular disorders.

Aca *Atlantic, Malaysia; Atlantic, Thai.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Acabel *Grunenthal, Arg.†; Grunenthal, Chile†; Altana, Port.; Andromaco, Spain; Grunenthal, Venez.*
Lornoxicam (p.77·3).
Inflammation; musculoskeletal and joint disorders; pain.

Acacin *Ivax, Mex.*
Cefalexin (p.218·2).
Bacterial infections.

Acadione *Sanofi-Aventis, Fr.*
Tiopronin (p.1467·1).
Cystinuric lithiasis; rheumatoid arthritis.

A-Calcid *Biomedica-Chemica, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Acalix *Roemmers, Arg.; Vargas, Venez.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension; ischaemic heart disease; myocardial infarction.

Acalka *Gross, Braz.†; Silesia, Chile; Patriot, Philipp.; Ferrer, Port.; Robert, Spain; Ferrer, Thai.*
Potassium citrate (p.1673·2).
Alkalinisation of urine; renal calculi.

ACAM2000 *Acambis, USA.*
A smallpox vaccine (p.2238·1).
Active immunisation.

Acamed *Medifive, Thai.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Acamol *Volta, Chile; Teva, Israel.*
Paracetamol (p.108·1).
Fever; pain.

Acamol Compuesto *Volta, Chile.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).

Acamol Tsinun Day *Teva, Israel.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms.

Acamol Tsinun Night *Teva, Israel.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Cold symptoms.

Acamoli *Teva, Israel.*
Paracetamol (p.108·1).
Fever; pain.

Acamoli Cold *Teva, Israel.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Cold symptoms.

Acanol *Sanofi Synthelabo, Mex.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Acantex
Roche, Arg.
Ceftriaxone (p.238·1).
Bacterial infections.

Roche, Chile.
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Acarbay *Cipla, India.*
Acarbose (p.436·2).
Diabetes mellitus.

Acarbixin *Sons, Mex.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Acarcid *Pierre Fabre Sante, Fr.†.*
Acetamide; crotamiton (p.1593·2); benzalkonium chloride (p.1629·1); thyme oil (p.2401·2); geranium oil (p.2311·1); myrtle oil (p.2349·3).
Elimination of house dust mites.

Acard *Polfa Warszawa, Pol.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Acardi *Boehringer Ingelheim, Jpn.*
Pimobendan (p.1371·3).
Heart failure.

Acardust *Raymos, Arg.†; Pharmygiene, Fr.; Scot, Israel.*
Esdepallethrine (p.2042·3); piperonyl butoxide (p.2049·1).
Acaricide; eradication of house dust mite.

Acarex *Allergopharma, Ger.†.*
Potassium hydroxide (p.2371·3); methyl alcohol (p.2024·3).
Test for detection of house dust mite excretae.

Acaril *Allergopharma, Ger.†.*
Benzyl benzoate (p.2036·1).
Elimination of house dust mites.

Acarilbial *Bial, Port.*
Benzyl benzoate (p.2036·1).
Scabies.

Acarosan *Allergopharma, Ger.†.*
Benzyl benzoate (p.2036·1).
Elimination of house-dust mites.

Acarsan *Biosintetica, Braz.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Acasmul *Pharma Investi, Chile.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; ischaemic heart disease.

Acatar
Note. This name is used for preparations of different composition.
SMB, Belg.
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

US Pharmacia, Pol.
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

ACB
Pacific, NZ.
⊗ Acebutolol hydrochloride (p.1200·1).
Angina pectoris; arrhythmias; hypertension.

Merck, Singapore†; Pacific, Singapore†.
⊗ Acebutolol (p.1200·1).
Angina pectoris; arrhythmias; hypertension.

Ac-Butamol *Acemed, Hung.†.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

ACC
Hexal, Arg.†; Hexal, Austria; Sandoz, Hung.; Sandoz, Mex.; Hexal, Rus.; Hexal, S.Afr.; Ecosol, Switz.
Acetylcysteine (p.1548·2).
Paracetamol overdosage; respiratory-tract congestion.

Hexal, Cz.; Hexal, Ger.; Hexal, Pol.
Acetylcysteine (p.1548·2) or acetylcysteine sodium (p.1548·2).
Paracetamol overdosage; respiratory-tract congestion.

Accesum *Roux-Ocefa, Arg.*
Diosmin (p.2304·2); hesperidin (p.2304·3).
Haemorrhoids; venous insufficiency.

Accolate *AstraZeneca, Arg.; AstraZeneca, Austral.; AstraZeneca, Belg.; AstraZeneca, Braz.; AstraZeneca, Canad.; AstraZeneca, Chile; AstraZeneca, Cz.; AstraZeneca, Fin.; AstraZeneca, Hong Kong; AstraZeneca, Hung.; AstraZeneca, Indon.; AstraZeneca, Irl.; AstraZeneca, Mex.; AstraZeneca, Philipp.; AstraZeneca, Pol.; AstraZeneca, Port.; AstraZeneca, Rus.; AstraZeneca, S.Afr.; AstraZeneca, Singapore; AstraZeneca, Spain; AstraZeneca, Switz.; AstraZeneca, Thai.†; AstraZeneca, Turk.; AstraZeneca, UK; AstraZeneca, USA; AstraZeneca, Venez.*
Zafirlukast (p.1150·2).
Asthma.

Accoleit *AstraZeneca, Ital.*
Zafirlukast (p.1150·2).
Asthma.

Accomin *Wyeth Consumer, Austral.*
Vitamin B substances with lysine and iron (p.1922·1).

Accu-Chek *Roche, Arg.; Roche Diagnostics, Austral.; Roche, Braz.; Roche Diagnostics, Canad.†; Roche, Chile; Roche Diagnostics, Fr.; Roche Diagnostics, Irl.; Roche Diagnostics, Ital.; Roche Diagnostics, Mex.*
Test for glucose in blood (p.2314·1).

Accu-Chek Advantage *Roche Diagnostics, NZ; Boehringer Mannheim, USA.*
Test for glucose in blood (p.2314·1).

Accuhist *Pediamed, USA.*
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2).

Accuhist LA *Pediamed, USA†.*
Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); hyoscyamine sulfate (p.1736·1); atropine sulfate (p.1219·3); hyoscine hydrobromide (p.1734·1).

Accuhist DM Pediatric
Note. This name is used for preparations of different composition.
Pediamed, USA†.
Oral drops: Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Upper respiratory-tract disorders.

Pediamed, USA.
Syrup: Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Upper respiratory-tract disorders.

Accuhist PDX
Note. This name is used for preparations of different composition.
Pediamed, USA.
Oral drops: Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Upper respiratory-tract disorders.

Pediamed, USA.
Syrup: Phenylephrine hydrochloride (p.1568·1); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Upper respiratory-tract disorders.

Accuneb *Dey, USA.*
⊗ Salbutamol sulfate (p.1131·3).
Asthma.

Accupaque *Amersham, Austria; Amersham, Ger.; Amersham, Switz.*
Iohexol (p.1483·1).
Contrast medium for radiography and computerised tomography.

AccuPeel *ICN, Hong Kong†; ICN, Singapore†.*
Trichloroacetic acid (p.1620·1).
Dyschromia; facial wrinkles.

Accupep *Sherwood, USA.*
Preparation for enteral nutrition (p.1922·1).
Gastrointestinal disorders.

Accupril *Pfizer, Arg.; Pfizer, Austral.; Pfizer, Belg.; Pfizer, Braz.; Pfizer, Canad.; Pfizer, Chile; Pfizer, Hong Kong; Pfizer, Indon.; Pfizer, Malaysia†; Pfizer, NZ; Pfizer, Philipp.; Pfizer, S.Afr.; Pfizer, Singapore†; Pfizer, Thai.; Parke, Davis, USA; Pfizer, Venez.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Accuprin *Pfizer, Ital.*
Quinapril hydrochloride (p.1382·2) or quinaprilat (p.1382·3).
Heart failure; hypertension.

Accupro
Pfizer, Austria.
Quinapril hydrochloride (p.1382·2) or quinaprilat (p.1382·3).
Heart failure; hypertension.

Godecke, Cz.; Pfizer, Denm.; Pfizer, Fin.; Godecke, Ger.; Parke, Davis, Ger.; Pfizer, Ger.; Pfizer, Hung.; Pfizer, Irl.; Godecke, Pol.; Parke, Davis, Pol.; Goedecke, Rus.; Pfizer, Swed.; Pfizer, Switz.; Pfizer, UK.
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Accupro Comp *Pfizer, Fin.; Pfizer, Swed.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Accupron *Pfizer, Gr.*
Quinapril (p.1382·3).
Heart failure; hypertension; myocardial infarction.

Accuran *Alvia (Αλβια), Gr.*
Isotretinoin (p.1599·2).
Acne.

Accurbron *Marion Merrell Dow, USA.*
Theophylline (p.1140·1).
Asthma; bronchospasm.

Accure *Alphapharm, Austral.*
Isotretinoin (p.1599·2).
Acne.

Accuretic *Pfizer, Arg.; Pfizer, Austral.; Pfizer, Belg.; Pfizer, Canad.; Pfizer, Chile; Pfizer, Gr.; Pfizer, Irl.; Pfizer, Ital.; Pfizer, NZ; Pfizer, S.Afr.; Pfizer, Switz.; Pfizer, UK; Parke, Davis, USA; Pfizer, Venez.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Accusol *Baxter, Cz.; Baxter, Port.*
Calcium chloride; magnesium chloride; sodium chloride; sodium bicarbonate; with or without potassium chloride and glucose (p.1670·3).
Haemodiafiltration; haemodialysis; haemodialysis and haemofiltration solution; haemofiltration.

Accutane *Roche, Canad.; Roche, USA.*
Isotretinoin (p.1599·2).
Acne.

Accutest Fecal *Marco, Austral.†.*
Test for haemoglobin in faeces.

Accutest Multi-Drug *Marco, Austral.†.*
Test for amfetamine, benzoylecgonine, methamfetamine, morphine, or THC in urine.

Accutin *Durascan, Denm.*
Isotretinoin (p.1599·2).
Acne.

Accutrend *Roche, Braz.*
Tests for cholesterol, triglycerides or glucose (p.2314·1) in blood.

Accutrend Cholesterol *Roche Diagnostics, Ital.; Roche Diagnostics, Mex.; Roche Diagnostics, UK.*
Test for cholesterol in blood.

Accutrend Colesterol *Roche, Arg.; Roche, Chile.*
Test for cholesterol in blood.

Accutrend GC *Roche Diagnostics, Canad.†.*
Test for glucose and cholesterol in blood (p.2314·1).

Accutrend GCT *Roche, Chile.*
Tests for cholesterol (Accutrend Colesterol), glucose (Accutrend Glucosa), or triglycerides (Accutrend Trigliceridos) in blood.

Accutrend Glucosa *Roche, Arg.; Roche, Chile.*
Test for glucose in blood (p.2314·1).

Accutrend Glucose *Roche Diagnostics, Austral.; Roche Diagnostics, Ital.†; Roche Diagnostics, Mex.; Roche Diagnostics, NZ†.*
Test for glucose in blood (p.2314·1).

Accutrend Triglicerides *Roche, Chile.*
Test for triglycerides in blood.

Accuvit *Ache, Braz.*
Multivitamin preparation (p.1922·1).

Accuzide *Pfizer, Austria; Parke, Davis, Cz.; Godecke, Ger.; Parke, Davis, Ger.; Pfizer, Ger.; Pfizer, Hung.; Pfizer, Philipp.; Parke, Davis, Pol.; Pfizer, Turk.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Accuzyme *Healthpoint, USA.*
⊗ Papain (p.2362·3); urea (p.1620·2).
Debridement of necrotic tissue.

ACD *Gobbi, Arg.*
Vitamin A; vitamin C; vitamin D (p.1922·1).

Ac-De *Lemery, Mex.*
Dactinomycin (p.707·2).
Malignant neoplasms.

ACE plus Selenyum *Kocak, Turk.*
Vitamins A, C, and E plus selenium (p.1922·1).

Acea *Ferndale, UK.*
Metronidazole (p.837·1).
Rosacea.

Acebitor *Unison, Philipp.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension; left-ventricular dysfunction.

Aceclo *Aristo, India.*
Aceclofenac (p.14·3).
Ankylosing spondylitis; osteoarthritis; rheumatoid arthritis.

Aceclofar *Julphar, UAE.*
Aceclofenac (p.14·3).
Musculoskeletal and joint disorders; pain.

Aceclonac *Verisfield, Gr.*
Aceclofenac (p.14·3).
Inflammation.

Acecol *Daiichi Sankyo, Jpn.*
Temocapril hydrochloride (p.1409·3).
Hypertension.

Acecomb *AstraZeneca, Austria.*
⊗ Hydrochlorothiazide (p.1307·3); lisinopril (p.1325·2).
Hypertension.

Acecor *SPA, Cz.*
⊗ Acebutolol hydrochloride (p.1200·1).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Acecovyl *Alpharma, Mex.*
Vitamin A palmitate; colecalciferol; ascorbic acid (p.1922·1).
Vitamin A, C, and D deficiency.

Acecromol *Wolff, Ger.†.*
Sodium cromoglicate (p.1136·3).
Asthma.

Acedicon *Boehringer Ingelheim, Belg.*
Thebacon hydrochloride (p.1574·2).
Formerly known as Acedicone.
Coughs.

Acediur
Note. This name is used for preparations of different composition.
Menarini, Ital.
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Sigma-Tau, Spain.
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Acef *KG, Ital.*
Cefazolin sodium (p.222·1).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Aceflan *Uniao Quimica, Braz.†.*
Aceclofenac (p.14·3).
Inflammation; pain.

ACE-Hemmer *RAN, Ger.; Ratiopharm, Ger.*
Captopril (p.1239·2).
Heart failure; hypertension.

ACE-Hemmer comp *Ratiopharm, Ger.*
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Aceite Acalorico *Ordesa, Spain.*
Olive oil (p.2356·2); betacarotene (p.1930·3); liquid paraffin (p.2030·3).
Constipation; obesity.

Aceite Esmeralda Moone *Gordon, Arg.*
Camphor (p.2273·2); methyl salicylate (p.85·3); phenol (p.1656·1).
Musculoskeletal and joint disorders.

Aceite Geve Concentrado *Teofarma, Spain.*
Cod-liver oil (p.1935·2).
Deficiency of vitamins A and D.

Acekapton *Strallhofer, Austria.*
Aspirin (p.20·3).
Fever; pain.

Acelisino comp *Lannacher, Austria.*
⊗ Lisinopril (p.1325·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Acellulair *GSK, Neth.*
An acellular pertussis vaccine (p.2230·1).
Active immunisation.

Acelluvax DTP *Chiron, Israel; Berk, Turk.*
A diphtheria, tetanus, and acellular pertussis vaccine (p.2210·3).
Active immunisation; active immunisation of infants and young children.

Acelopram *Ferakon, Gr.*
Citalopram (p.385·3).
Depression.

Acemedrox *Bunker, Braz.*
Medroxyprogesterone acetate (p.2113·1).
Progestogenic.

Acemetadoc *Docpharm, Ger.*
Acemetacin (p.15·1).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders.

Acemin *AstraZeneca, Austria.*
Lisinopril (p.1325·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acemix *Bioprogress, Ital.*
Acemetacin (p.15·1).
Musculoskeletal and joint disorders.

Acemuc *Betapharm, Ger.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with viscous mucus.

Acemucol *Streuli, Switz.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders associated with excess or viscous mucus.

Acemuk *Hexal, Arg.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with increased or viscous mucus.

Acemuk Biotic *Investi, Arg.*
Amoxicillin trihydrate (p.202·2); acetylcysteine (p.1548·2).
Respiratory-tract infections.

Acemycin *Elpen (Ελπεν), Gr.*
Cefamandole nafate (p.220·3).
Bacterial infections.

Acenil *Tocogino, Mex.*
⊗ Fluocinolone (p.1531·3); nystatin (p.543·2); metronidazole (p.837·1).
Vaginal infections.

Acenol *Galena, Pol.*
Paracetamol (p.108·1).
Fever; pain.

Acenorm *Alphapharm, Austral.; Azupharma, Ger.†.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acenor-M *BMS, Indon.*
Fosinopril sodium (p.1291·3).
Hypertension.

Acenorm HCT *Azupharma, Ger.†.*
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Acenotromb *Prieto, Arg.*
Acenocoumarol (p.1201·1).
Thromboembolic disorders.

Acenox *Pasteur, Chile.*
Acenocoumarol (p.1201·1).
Thromboembolic disorders.

Acenterine *Christiaens, Belg.*
Aspirin (p.20·3).
Fever; pain.

Aceomel *PannonPharma, Hung.; Clonmel, Irl.*
Captopril (p.1239·2).
Heart failure; hypertension.

Aceon *Solvay, USA.*
Perindopril erbumine (p.1368·3).
Cardiovascular risk reduction; hypertension.

Aceoto *Zambon, Spain.*
Ciprofloxacin (p.243·3).
Otitis externa.

Aceoto Plus *Zambon, Spain.*
⊗ Ciprofloxacin hydrochloride (p.243·3); fluocinolone acetonide (p.1531·3).
Otitis externa.

Acephen *G & W, USA.*
Paracetamol (p.108·1).
Pain.

Acephlogont *Azupharma, Ger.†.*
Acemetacin (p.15·1).
Gout; inflammation, musculoskeletal, joint, and soft-tissue disorders.

Aceplus
Note. This name is used for preparations of different composition.
BMS, Austria.
⊗ Fosinopril sodium (p.1291·3); hydrochlorothiazide (p.1307·3).
Hypertension.

BMS, Ital.
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Acepramin *PannonPharma, Hung.*
Aminocaproic acid (p.1053·2).
Fibrinolysis.

Acepran *Andromaco, Chile.*
Clonazepam (p.478·2).
Epilepsy; panic attacks.

Acepress *Bernofarm, Indon.; BMS, Ital.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acepril
Note. This name is used for preparations of different composition.
United Nordic, Denm.†; Duopharma, Hong Kong; Duopharma, Malaysia.
Lisinopril (p.1325·2).
Heart failure; hypertension.

Teva, Hung.; Spirig, Switz.
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

BMS, UK.
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acepril PlusZ *PharmaConsult, Hung.*
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Aceprilex *Pliva, Ital.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Aceprin *Hovid, Malaysia.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Aceptin *Metro, Philipp.*
Ranitidine hydrochloride (p.1766·1).
Dyspepsia; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Acequide *Recordati, Ital.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Acequin *Recordati, Ital.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Acer *Ratiopharm, Pol.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Aceratun *Delta, Braz.*
Urea hydrogen peroxide (p.1666·2).
Cleansing of external ear.

Acerbine
Note. This name is used for preparations of different composition.
Montavit, Austria.
Benzoic acid (p.1630·2); malic acid (p.2337·1); propylene glycol (p.2374·1); propylene glycol malate (p.2374·1); salicylic acid (p.1612·2).
Bruises; burns; sunburn; ulcers; wounds.

Interdelta, Switz.†.
Ointment: Benzoic acid (p.1630·2); malic acid (p.2337·1); salicylic acid (p.1612·2); propylene glycol (p.2374·1); propylene glycol malate (p.2374·1); hexachlorophene (p.1646·1).
Burns; wounds.

Interdelta, Switz.†.
topical gel; Topical solution: Benzoic acid (p.1630·2); malic acid (p.2337·1); salicylic acid (p.1612·2); propylene glycol (p.2374·1); propylene glycol malate (p.2374·1).
Burns; wounds.

Acerbiol *Vitafarma, Spain.*
Benzyl alcohol (p.1631·3); benzoic acid (p.1630·2); malic acid (p.2337·1); propylene glycol malate (p.2374·1); propylene glycol (p.2374·1); salicylic acid (p.1612·2).
Burns; skin ulcers; wounds.

Acerbon *AstraZeneca, Ger.; Promed, Ger.*
Lisinopril (p.1325·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acercomp *AstraZeneca, Fin.†; AstraZeneca, Ger.; Promed, Ger.*
⊗ Lisinopril (p.1325·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Acerdil *Recalcine, Chile.*
Lisinopril (p.1325·2).
Heart failure; hypertension.

Acerdil-D *Recalcine, Chile.*
⊗ Lisinopril (p.1325·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Aceren *Nycomed, Denm.†.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Aceril *Dexcel, Israel.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acerilin *Ilsan, Turk.*
Lisinopril (p.1325·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acerin *Scan-Anida, Pol.*
Lactic acid (p.2329·3); salicylic acid (p.1612·2).
Calluses; corns.

Acerpes *Investi, Arg.; Riemser, Ger.; Ecosol, Switz.†.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acertil *Servier, Hong Kong.*
Perindopril (p.1368·2).
Heart failure; hypertension.

Acertol *Lacer, Spain.*
Paracetamol (p.108·1).
Fever; pain.

Aces *Carlson, USA.*
Betacarotene; calcium ascorbate; *d*-alpha tocoferol; selenomethionine (p.1922·1).
Nutritional supplement.

Acesal *Altana, Ger.; Geymonat, Ital.†.*
Aspirin (p.20·3).
Fever; pain; thrombosis prophylaxis.

Acesan *Sun-Farm, Pol.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Acesial *Adamed, Cz.*
Ramipril (p.1385·3).
Diabetic nephropathy; hypertension; myocardial infarction.

Acesistem *Sigma-Tau, Ital.*
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Acespargin *Filofarm, Pol.*
Potassium N-acetylhydroaspartate.
Potassium deficiency.

Acestrol *Almirall, Port.*
Megestrol acetate (p.2114·3).
Breast cancer; cachexia associated with malignant neoplasms; endometrial cancer; prostatic cancer.

Acet *Pharmascience, Canad.; Pharmascience, Malaysia†; Euro-Med, Philipp.; Pharmascience, Singapore.*
Paracetamol (p.108·1).
Fever; pain.

Acet-2, Acet-3 *Pharmascience, Canad.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3).
Fever; pain.

Acet Codeine *Pharmascience, Canad.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Fever; pain.

Aceta *Century, USA.*
Paracetamol (p.108·1).
Fever; pain.

Aceta with Codeine *Century, USA.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Pain.

Acetabs *Krewel, Ger.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with viscous mucus.

Acetacol *PP Lab, Thai.†.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Cold symptoms; hay fever; nasal congestion.

Aceta-Diazol *Grin, Mex.*
⊗ Acetazolamide (p.1875·1).
Epilepsy; glaucoma; oedema.

Acetadol *Medi-Rx, Philipp.*
Paracetamol (p.108·1).
Fever; pain.

Acetadote *Cumberland, USA.*
Acetylcysteine (p.1548·2).
Paracetamol poisoning.

Acetafen *Rayere, Mex.; Infinity, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Aceta-Gesic *Rugby, USA.*
Phenyltoloxamine citrate (p.588·1); paracetamol (p.108·1).
Upper respiratory-tract symptoms.

Acetalgine *Streuli, Switz.*
Paracetamol (p.108·1).
Fever; pain.

Acetalis *Proula, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Acetamil *Ducto, Braz.*
Paracetamol (p.108·1).
Fever; pain.

Acetaminophen with Codeine *Pharmascience, Canad.*
Paracetamol (p.108·1); caffeine (p.1116·3); codeine phosphate (p.37·2).
Coughs; fever; pain.

Acetamol *Abiogen, Ital.*
Paracetamol (p.108·1).
Fever; pain.

Acetan *Kwizda, Austria.*
Lisinopril (p.1325·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Aceta-P *PP Lab, Thai.†.*
Paracetamol (p.108·1).
Fever; pain.

Acetapyrin-C *PP Lab, Thai.†.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Cold symptoms; hay fever.

Acetar
Note. This name is used for preparations of different composition.
Labesfal, Port.
Piracetam (p.368·2).
Cerebrovascular disorders; chronic alcoholism; mental function impairment; Raynaud's syndrome.

Thai Otsuka, Thai.
Electrolyte infusion with or without glucose (p.1667·1).
Carbohydrate source; fluid and electrolyte disorders.

Acetasil *Silom, Thai.*
Paracetamol (p.108·1).
Fever; pain.

Acetasol *Actavis, USA.*
Acetic acid (p.2244·2); propylene glycol acetate (p.1919·3); benzethonium chloride (p.1630·1).
Ear infection.

Acetasol HC *Actavis, USA.*
⊗ Hydrocortisone (p.1535·2); acetic acid (p.2244·2); propylene glycol diacetate (p.1919·3); benzethonium chloride (p.1630·1).
Ear infection.

Acetazone Forte *Rougier, Canad.*
Chlorzoxazone (p.1894·3); paracetamol (p.108·1).
Pain; skeletal muscle spasm.

Acetazone Forte C8 *Rougier, Canad.*
Chlorzoxazone (p.1894·3); paracetamol (p.108·1); codeine phosphate (p.37·2).
Pain; skeletal muscle spasm.

Acetec *Biolab, Malaysia.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Aceten *Wockhardt, India; Wockhardt, Rus.; Biotech, S.Afr.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Acetensa *Fahrenheit, Indon.*
Losartan potassium (p.1326·1).
Hypertension.

Acetensil *Andromaco, Cz.†; Librapharm, Spain.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension; left-ventricular dysfunction.

Acetensil Plus *Librapharm, Spain.*
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Acetest *Bayer, Canad.†; Bayer Diagnostics, Fr.†; Bayer Diagnostics, Irl.; Bayer Diagnostics, Mex.; Bayer Diagnostics, UK; Bayer, USA.*
Test for ketones in urine.
In the UK these are described in the Drug Tariff as Nitroprusside Reagent Tablets (Rothera's Tablets).

Aceticil *Cazi, Braz.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolism prophylaxis.

Acetif *Novag, Mex.*
Paracetamol (p.108·1).
Fever; pain.

Acetil-A *Precimex, Mex.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolic disorders.

Acetin
Note. This name is used for preparations of different composition.
IQFA, Mex.
Aspirin (p.20·3).
Fever; inflammation; pain.

LBS, Thai.
Acetylcysteine (p.1548·2).
Respiratory-tract disorders.

Acetoben *Ronava, Venez.*
Ammonium acetate (p.1551·2); ammonium carbonate (p.1551·3); sodium benzoate (p.1630·2); camacho; polygala (p.1572·3).
Cough.

Acetocaustin *Temmler, Ger.*
Monochloroacetic acid (p.1608·1).
Verrucas.

Acetocaustine *Viatris, Switz.*
Monochloroacetic acid (p.1608·1).
Warts.

Acetofen *Medley, Braz.*
Paracetamol (p.108·1).
Fever; pain.

Acetoflux *EMS, Braz.*
Medroxyprogesterone acetate (p.2113·1).
Progestogenic.

Acetolit *Mertens, Arg.*
Paracetamol (p.108·1).
Fever; pain.

Acetolyt *Medicopharm, Austria; Combustin, Ger.*
Calcium-sodium-hydrogencitrate.
Acidosis; metabolic acidosis.

Acetonal *Brady, Austria.*
Aluminium acetotartrate (p.2255·1); trichlorisobutyl salicylate.
Anorectal disorders.

Acetopt *Sigma, Austral.; Healthcare Logistics, NZ; Sigma, Philipp.*
Sulfacetamide sodium (p.335·3).
Bacterial eye infections.

Acetosal *Rekah, Israel.*
Aspirin (p.20·3).
Influenza symptoms; pain; rheumatic disorders.

Acetoxyl *Valeo, Canad.*
Benzoyl peroxide (p.1590·2).
Acne.

Acetuber *Teofarma, Spain.*
Cocarboxylase (p.1975·2); dimenhydrinate (p.576·2); glucose (p.1945·3); pyridoxine (p.1979·1); potassium chloride (p.1684·3).
Formerly contained cocarboxylase, dimenhydrinate, glucose, pyridoxine, potassium chloride, and dibasic sodium phosphate.
Acetonaemia; vomiting in pregnancy.

Acetylcodone *UCB, Belg.*
Acetyldihydrocodeine hydrochloride (p.1550·3).
Coughs.

Acetylin *BMS, Ger.†.*
Aspirin (p.20·3).
Fever; pain.

Acetyst *Ritsert, Ger.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Aceval *Valmor, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Acevit *Pediapharm, Chile.*
Vitamin A palmitate; ergocalciferol; ascorbic acid (p.1922·1).
Vitamin supplement.

Acevor *Help, Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Acezide *BMS, UK.*
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
These ingredients can be described by the British Approved Name Co-zidocapt.
Hypertension.

AC-FA *Pharmasant, Thai.*
Ketoconazole (p.539·1).
Fungal skin infections.

Ac-Fast *Hormona, Mex.*
Paracetamol (p.108·1).
Pain.

Acfol *Cazi, Braz.†; ITF, Port.; Italfarmaco, Spain.*
Folic acid (p.1940·1).
Folic acid deficiency; megaloblastic anaemia; prevention of neural tube defects in pregnancy.

Acheflan *Ache, Braz.*
Cordia verbenacea oil.
Inflammatory disorders.

Aches & Pains *Homeocan, Canad.*
Homoeopathic preparation.

Achillea Comp *Weleda, S.Afr.*
Homoeopathic preparation.

Achromide *Adcock Ingram, S.Afr.*
Merbromin (p.1652·1); acriflavinium chloride (p.1625·1); sulfanilamide (p.343·1); zinc oxide (p.1621·2); cod-liver oil (p.1935·2).
Burns; ulcers; wounds.

Achromycin
Sigma, Austral.†; Wyeth Lederle, Austria†; Riemser, Ger.; Wyeth, India; Wyeth-Ayerst, Thai.†.
Tetracycline hydrochloride (p.347·2).
Amoebiasis; bacterial infections; intestinal amoebiasis.

Achromycin V *Sigma, Austral.†; Lederle, USA†.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Aciban *Be-Tabs, S.Afr.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1).
Dyspepsia; gastric hyperacidity; heartburn; peptic ulcer.

Acic
Hexal, Austria; Rowex, Irl.
Aciclovir (p.862·3).
Herpes labialis.

Hexal, Ger.
Aciclovir (p.862·3) or aciclovir sodium (p.862·3).
Herpesvirus infections.

Aciclin *Fidia, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclo *Ahimsa, Arg.; Basics, Ger.; CT, Ger.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclobene *Ratiopharm, Austria.*
Aciclovir (p.862·3) or aciclovir sodium (p.862·3).
Herpesvirus infections.

Aciclobeta *Betapharm, Ger.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclodan *Pharmacodane, Denm.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclomed *Ethimed, Belg.; Cimed, Braz.*
Aciclovir (p.862·3).
Herpesvirus skin infections.

Aciclophar *Teva, Belg.*
Aciclovir (p.862·3).
Herpesvirus skin infections.

Aciclor *Hertz, Braz.†; Megat, Venez.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclosina *Cipan, Port.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclostad *Stada, Austria; Stada, Ger.; Stada, Rus.†; VP, Spain.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclotex *Sertex, Arg.*
Aciclovir (p.862·3).
Herpes simplex infections of the face and lips.

Aciclotyrol *Tyrol, Austria†.*
Aciclovir (p.862·3).
Herpes simplex skin infections.

Aciclovan *HB, Braz.†.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aciclovax *Labesfal, Port.*
Aciclovir sodium (p.862·3).
Herpesvirus infections.

Aciclovivax *Ivax, Fr.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acic-Ophtal *Winzer, Ger.*
Aciclovir (p.862·3).
Herpes simplex eye infections.

Acicvir *Pacific, NZ†.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acid A Vit *Pierre Fabre, Neth.*
Tretinoin (p.1618·1).
Acne.

Acid Control *Novopharm, Canad.; Stanley, Canad.*
Famotidine (p.1730·1).

Acid Halt *Wampole, Canad.*
Famotidine (p.1730·1).

Acid Jelly *Hope, USA.*
Hydroxyquinoline sulfate (p.2323·1); ricinoleic acid (p.2379·2); acetic acid (p.2244·2).
Maintenance of vaginal acidity.

Acid Mantle
Note.This name is used for preparations of different composition.
Darier, Mex.
Emollient.
Skin irritation.

Bayer, Venez.
Aluminium acetate (p.2255·1).

Acid Reducer *Genpharm, Canad.; Pharmascience, Canad.; Vita Health, Canad.*
Ranitidine hydrochloride (p.1766·1).

Acidan *Ace, Philipp.*
Mefenamic acid (p.80·1).
Pain.

Acidanon *Zentiva, Cz.*
Magnesium hydroxide (p.1743·2); aluminium hydroxide (p.1706·2).
Gastric hyperacidity.

Acide acetylsalicylique comp. "Radix" *Streuli, Switz.†.*
Aspirin (p.20·3); paracetamol (p.108·1); codeine hydrochloride (p.37·2); lidocaine hydrochloride (p.1862·3).
Fever; pain.

Aciderm *Sanval, Braz.*
Ketoconazole (p.539·1).
Fungal infections.

Acidex
Note.This name is used for preparations of different composition.
Ivax, Arg.
Ranitidine hydrochloride (p.1766·1).
Gastritis; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Stada, Austria.
Cimetidine (p.1716·2).
Gastro-oesophageal reflux.

Pinewood, Irl.; Pinewood, UK.
Sodium alginate (p.2141·1); sodium bicarbonate (p.1673·2); calcium carbonate (p.1714·1).
Flatulence; gastro-oesophageal reflux; heartburn.

Acidigen *Human, Cz.†; Human, Hung.†.*
Ammonium chloride (p.1551·3); sodium chloride (p.1686·1); potassium chloride (p.1684·3).
Gastric hyperacidity; metabolic alkalosis.

Acidin *East India Pharma, India.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastritis; gastrointestinal hyperacidity; peptic ulcer.

Acidine *Upha, Malaysia†.*
Famotidine (p.1730·1).
Peptic ulcer; Zollinger-Ellison syndrome.

Acidion *Inibsa, Spain†.*
Aluminium hydroxide (p.1706·2); dimeticone (p.1770·2); magnesium carbonate (p.1743·1); magnesium hydroxide (p.1743·2).
Flatulence; gastric hyperacidity; peptic ulcer.

Acidix *Solfran, Mex.*
Nalidixic acid (p.303·3).
Urinary-tract infections.

Acid-Lac *Remexa, Mex.*
Lactic acid (p.2329·3).
Maintenance of normal skin pH.

Acidofilofago *Roux-Ocefa, Arg.*
Lactobacillus acidophilus (p.2372·3).
Diarrhoea; enterocolitis.

Acidophilus *Novartis Consumer, Ger.†; Mason, USA; Nature's Bounty, USA.*
Lactobacillus acidophilus (p.2372·3).
Dietary supplement; gastrointestinal disorders.

Acidophilus Bifidus *Blackmores, Austral.*
Lactobacillus acidophilus (p.2372·3); *Bifidobacterium animalis.*
Maintenance of normal gastrointestinal flora.

Acidophilus with Bifidus *Mason, USA; Nature's Bounty, USA.*
Lactobacillus acidophilus (p.2372·3); *Lactobacillus bifidus.*
Dietary supplement.

Acidophilus Plus
Note.This name is used for preparations of different composition.
GNLD, Austral.
Lactobacillus acidophilus (p.2372·3); *Bifidobacterium bifidum* (p.2372·3); *Lactobacillus bulgaricus* (p.2372·3); *Lactobacillus casei* (p.2372·3); *Streptococcus thermophilus* (p.2372·3).
Digestive disorders.

Quest, UK.
Lactobacillus acidophilus (p.2372·3); *Lactobacillus rhamnosus* (p.2372·3); *Lactobacillus casei* (p.2372·3).
Maintenance of normal gastrointestinal flora.

Acidosis
Note.This name is used for preparations of different composition.
Potter's, UK.
Oral liquid: Meadowsweet (p.2338·1); compound gentian infusion (p.2310·3); euonymus (p.1730·1).
Dyspepsia; flatulence; heartburn.

Potter's, UK.
Tablets: Meadowsweet (p.2338·1); vegetable charcoal (p.1435·3); rhubarb (p.1768·3).
Dyspepsia; gastric hyperacidity; heartburn.

Acidovert *Klein, Ger.†.*
Calcium citrate (p.1675·3); magnesium citrate (p.1743·2).
Acid–base regulation; metabolic acidosis.

Acidrine *Teofarma, Fr.; Cheplapharm, Ger.†; Solvay, Indon.; Teofarma, Ital.*
Aluminium glycinate (p.1706·2); galactane sulfate; myrtecaine laurilsulfate (p.1867·2).
Gastro-oesophageal pain; gastrointestinal disorders.

Acidum phosphoricum Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Acidum picrinicum Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Acidumphos-Gastreu *Reckeweg, Ger.†.*
Homoeopathic preparation.
Formerly known as Diabetes-Gastreu S R40.

Acid-X *BDI, USA.*
Paracetamol (p.108·1); calcium carbonate (p.1714·1).
Gastrointestinal disorders.

Acifar *Ifars, Indon.*
Aciclovir (p.862·3).
Herpes simplex skin and mucous membrane infections.

Acifein *Herbacos, Cz.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Pain.

Aciflux
Note.This name is used for preparations of different composition.
Andromaco, Chile†.
Ranitidine hydrochloride (p.1766·1).
Dyspepsia; gastric hyperacidity.

GSK, Neth.
Cimetidine (p.1716·2); alginic acid (p.2140·3).
Gastro-oesophageal reflux.

Acifol
Note.This name is used for preparations of different composition.
Dominguez, Arg.
Folic acid (p.1940·1).
Folic acid supplement.

Fustery, Mex.†.
⊗ Propranolol (p.1381·1).

Acifol-B12 *Dominguez, Arg.*
Folic acid (p.1940·1); cyanocobalamin (p.1980·2).
Folic acid and vitamin B deficiency.

Acifolik *Hasco-Lek, Pol.*
Folic acid (p.1940·1).
Prevention of neural tube defects in pregnancy.

Acifugan *Jaba, Port.†; Lacer, Spain†.*
Allopurinol (p.552·2); benzbromarone (p.555·2).
Gout; hyperuricaemia.

Acifungin *Unia, Pol.*
Boric acid (p.2268·1); methyl salicylate (p.85·3); salicylic acid (p.1612·2); gallic acid; acetic acid (p.2244·2); tannic acid (p.2394·3).
Fungal skin, scalp, and nail infections.

Acifur *Ivax, Mex.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acigon *Nicholas Piramal, India†.*
Alginic acid (p.2140·3) or sodium alginate (p.2141·1); aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); sodium bicarbonate (p.1673·2).
Gastro-oesophageal reflux.

Acihexal *Hexal, Austral.*
Aciclovir (p.862·3) or aciclovir sodium (p.862·3).
Herpesvirus infections.

Aci-Jel
Note.This name is used for preparations of different composition.
Janssen-Cilag, Austral.†; Janssen-Cilag, NZ†.
Acetic acid (p.2244·2); hydroxyquinoline sulfate (p.2323·1); ricinoleic acid (p.2379·2); glycerol (p.2314·2).
Maintenance of vaginal acidity.

Janssen-Cilag, Irl.†; Janssen-Cilag, UK†.
Acetic acid (p.2244·2).
Vaginal infections.

Acilac
Note.This name is used for preparations of different composition.
Euroderm, Arg.
⊗ Lactic acid (p.2329·3); vitamin E (p.1992·2); urea (p.1620·2).
Formerly contained alpha hydroxyacid, vitamin E, and urea.
Dry skin.

Technilab, Canad.†.
Lactulose (p.1738·2).
Constipation; hepatic encephalopathy.

Acilax *Jean-Marie, Hong Kong.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acilene *UCB, Spain†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); aluminium hydroxide-magnesium carbonate co-dried precipitate (p.1707·2).
Gastric hyperacidity; peptic ulcer.

Acilin *Berman, Mex.*
Charcoal (p.1435·2); iodochloride; papaverine (p.2191·3).
Gastrointestinal astringent.

Acilmed *Bajamed, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Aciloc
Note.This name is used for preparations of different composition.
Orion, Denm.
Cimetidine (p.1716·2).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Cadila Pharma, India; Cadila, Philipp.; Cadila, Rus.; Cadila, Thai.
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; dyspepsia; gastro-oesophageal reflux; gastrointestinal hyperacidity; pancreatic insufficiency; peptic ulcer; short bowel syndrome; Zollinger-Ellison syndrome.

Aciloc RD *Cadila, India.*
Ranitidine hydrochloride (p.1766·1); domperidone (p.1726·2).

Acimax *Alphapharm, Austral.*
Omeprazole magnesium (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Acimed
Note. A similar name is used for preparations of different composition (see below).
Sanitas, Arg.
Omeprazole (p.1753·1).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Aci-Med
Note. A similar name is used for preparations of different composition (see above).
Triomed, S.Afr.
Cimetidine (p.1716·2).
Dyspepsia; gastric hyperacidity; heartburn.

Acimethin *Madaus, Austria; Gry, Ger.; Vifor, Switz.*
Methionine (p.1450·1).
Adjunct in antibiotic therapy; paracetamol overdosage; renal calculi; urinary-tract disorders.

Acimol *Pfleger, Ger.*
Methionine (p.1450·1).
Adjunct in antibacterial therapy; renal calculi; urine acidification.

Acimont *Pharmonta, Austria.*
⊗ Formic acid (p.2306·3); methyl salicylate (p.85·3); turpentine oil (p.2406·3).
Musculoskeletal, joint, and soft-tissue disorders.

Acimox *Diba, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Acimox AC *Diba, Mex.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Acimox-Ex *Diba, Mex.*
Amoxicillin trihydrate (p.202·2); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Acinat *Natufarma, Arg.*
Calcium carbonate (p.1714·1); magnesium carbonate (p.1743·1).
Dietary supplement; gastric hyperacidity.

Acinic *Adelco, Gr.*
Mefenamic acid (p.80·1).
Inflammation; pain.

Acinil *Hexal, Denm.; Hexal, Swed.*
Cimetidine (p.1716·2).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Acintor *Lepetit, Ital.*
Klebsiella pneumoniae glycoprotein (p.2329·2).
Respiratory-tract infections.

Acipem *Caber, Ital.†.*
Pipemidic acid (p.315·1).
Urinary-tract infections.

Acipen *Astellas, Neth.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Acipen-V *Astellas, Neth.*
Phenoxymethylpenicillin (p.314·1).
Bacterial infections.

Aciphen *Wagner, Hung.*
Diethylamine salicylate (p.47·2).
Inflammation; musculoskeletal, joint, and soft-tissue disorders.

Aciphex *Eisai, Spain; Eisai, USA.*
Rabeprazole sodium (p.1765·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Acipol *Lekko, Rus.*
Lactobacillus acidophilus (p.2372·3); kefir.
Regulation of intestinal flora.

Acirufan *Laetitia, Ger.*
Homoeopathic preparation.

Acitab
Note. A similar name is used for preparations of different composition

(see below).
Mavi, Mex.
Aspirin (p.20·3).
Fever; pain.

Acitab DT
Note. A similar name is used for preparations of different composition (see above).
Cipla-Medpro, S.Afr.
Aciclovir (p.862·3).
Herpesvirus infections.

Acitak Trinity, UK†.
Cimetidine (p.1716·2).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Aci-Tip Investi, Arg.; Pharma Investi, Chile†.
Magaldrate (p.1742·3); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; gastritis; gastro-oesophageal reflux.

Acitop Cipla-Medpro, S.Afr.
Aciclovir (p.862·3).
Herpes labialis.

Acitral Interbat, Indon.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; gastritis; hiatus hernia; peptic ulcer.

Acitrom Sarabhai Piramal, India.
Acenocoumarol (p.1201·1).
Thromboembolic disorders.

Acival Geminis, Arg.
Nimodipine (p.1357·2).
Cerebrovascular disorders.

Aciveral Bunker, Braz.
Aciclovir (p.862·3).

Acivir
Pharmacodane, Denm.; Cipla, India; Cipla, Israel; Spirig, Switz.
Aciclovir (p.862·3).
Herpes simplex infections.

DeltaSelect, Ger.
Aciclovir sodium (p.862·3).
Herpes simplex infections.

Acivirax Cifarma, Braz.
Aciclovir (p.862·3).
Herpesvirus infections.

Acix
Note.This name is used for preparations of different composition.
Zentiva, Cz.
Algeldrate (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Hexal, Pol.
Aciclovir (p.862·3).
Herpesvirus infections.

Acks BPL, India.
Ibuprofen (p.64·2); mephenesin (p.1897·2); methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal, joint, and soft-tissue disorders.

Aclam Lapi, Indon.
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Aclarex Pfizer, Gr.
Celecoxib (p.34·2).
Inflammation.

Aclaro JSJ, USA.
Hydroquinone (p.1598·2).
Skin pigmentation disorders.

Aclasta Novartis, Arg.; Novartis, Belg.; Novartis, Canad.; Novartis, Cz.; Novartis, Denm.; Novartis, Fin.; Novartis, Fr.; Novartis, Ger.; Novartis, Gr.; Novartis, Hung.; Novartis, Irl.; Novartis, Norw.; Novartis, Spain; Novartis, Swed.; Novartis, UK.
Zoledronic acid (p.1106·1).
Hypercalcaemia of malignancy; metastatic bone disease; osteoporosis; Paget's disease of bone.

Aclav Columbia, Arg.
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Aclene Cipla, India.
Adapalene (p.1587·1).
Acne.

Aclimafel AF, Mex.
Veralipride (p.1035·2).
Menopausal disorders.

Aclin Alphapharm, Austral.; Alphapharm, Hong Kong; Alphapharm, Malaysia†; Merck, Malaysia†.
Sulindac (p.126·3).
Gout; musculoskeletal and joint disorders; pain with inflammation.

Aclinda Azupharma, Ger.†.
Clindamycin hydrochloride (p.251·1).
Bacterial infections.

Aclophen Nutripharm, USA.
Phenylephrine hydrochloride (p.1568·1); paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Upper respiratory-tract symptoms.

Aclor Aspen, Austral.
Cefaclor (p.217·2).
Bacterial infections.

Acloral Liomont, Mex.
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Aclorisan Dovalle, Braz.†.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2).
Flatulence; gastric hyperacidity.

Aclosan Gobbi, Arg.
Tamsulosin hydrochloride (p.2197·1).
Benign prostatic hyperplasia.

Aclosone Schering-Plough, Neth.
⊗ Alclometasone dipropionate (p.1516·1).
Skin disorders.

Aclotan Piam, Ital.†.
Dermatan sulfate sodium (p.1256·3).
Thrombosis prophylaxis.

Aclotin Valeant, Hung.; ICN, Pol.
Ticlopidine hydrochloride (p.1411·2).
Thromboembolic disorders; thrombosis prophylaxis.

Aclotine Lab Francais du Fractionnement, Fr.
Antithrombin (human) (p.1054·1).
Thromboembolic disorders.

Aclovate PharmaDerm, USA.
⊗ Alclometasone dipropionate (p.1516·1).
Skin disorders.

Aclovir Ratiopharm, Fin.
Aciclovir (p.862·3).
Herpes simplex infections; varicella-zoster infections.

Aclovirax Marching, Hong Kong.
Aciclovir (p.862·3).
Herpesvirus infections.

ACM 20 ACM, Fr.
Multivitamin, mineral, and amino-acid preparation (p.1922·1).

Acnacyl Rosken, Hong Kong†; Pfizer Consumer, Singapore†.
Benzoyl peroxide (p.1590·2).
Acne.

Acnaid
Note.This name is used for preparations of different composition.
Stiefel, Mex.
Soap substitute.
Acne.

Stiefel, Chile†.
Cream: Sulfur (p.1614·1); resorcinol (p.1612·1); chloroxylenol (p.1640·2).
Acne.

Stiefel, Chile.
Soap: Sulphonated rice bran oil; sulfonated mustard oil; liquid paraffin (p.2030·3).
Acne.

Acnase
Note.This name is used for preparations of different composition.
Zurita, Braz.
Cream: Benzoyl peroxide (p.1590·2); sulfur (p.1614·1).
Acne.

Zurita, Braz.
Topical gel: Benzoyl peroxide (p.1590·2).
Acne.

Acnaveen Johnson & Johnson, Ital.†.
Avena (p.2262·1); salicylic acid (p.1612·2).
Acne; seborrhoea.

Acne Homeocan, Canad.†.
Homoeopathic preparation.

Acne Clear
Note.This name is used for preparations of different composition.
ICM, Singapore.
Sulfur (p.1614·1); zinc oxide (p.1621·2); resorcinol (p.1612·1); calamine (p.1591·2).
Acne.

Altaire, USA.
Benzoyl peroxide (p.1590·2).
Acne.

Acne Cream Widmer, Cz.†.
Salicylic acid (p.1612·2); colloidal sulfur (p.1614·1); triclosan (p.1665·2); silica (p.2146·2).
Acne.

Acne Creme Widmer, Switz.
Salicylic acid (p.1612·2); colloidal sulfur (p.1614·1); colloidal silicon dioxide (p.2146·3); triclosan (p.1665·2).
Acne.

Acne Creme Plus Widmer, Switz.
Benzoyl peroxide (p.1590·2); miconazole nitrate (p.541·3).
Acne.

Acne Derm
Note. A similar name is used for preparations of different composition (see Acnederm, below).
Fischer, Israel.
Benzoyl peroxide (p.1590·2).
Acne.

Acne Feldin Galenium, Indon.
Sulfur (p.1614·1).
Acne.

Acne Gel Widmer, Switz.
⊗ Colloidal sulfur (p.1614·1); pyridoxine hydrochloride (p.1978·2); triclosan (p.1665·2); urea (p.1620·2).
Acne.

Acne Hermal Olvos, Gr.
Erythromycin (p.269·2).
Acne.

Acne Lotio Widmer, Cz.†.
Salicylic acid (p.1612·2); lactic acid (p.2329·3); triclosan (p.1665·2); zinc sulfate (p.1999·2); magnesium sulfate (p.1679·3).
Acne.

Acne Lotion
Note. A similar name is used for preparations of different composition (see below).
Widmer, Switz.
Salicylic acid (p.1612·2); triclosan (p.1665·2); zinc sulfate (p.1999·2); magnesium sulfate (p.1679·3).
Acne.

Acne Lotion 10
Note. A similar name is used for preparations of different composition (see above).
C & M, USA.
Sulfur (p.1614·1).
Acne.

Acne Mask Neutrogena, Israel†.
Benzoyl peroxide (p.1590·2).
Acne.

Acne Oral Spray Brauer, Austral.†.
Lappa (p.2330·3); artemisia abrotanum; bellis perennis; fumaria; hepar sulf; juglans reg.; kali brom.; nat. mur.; rhus ven.; saponaria; selenium; sulfur; sulfur iod.; viola tric.
Acne.

Acne & Pimple Gel Curacel, Austral.†.
Sulfur (p.1614·1); allantoin (p.1588·1); zinc oxide (p.1621·2); resorcinol (p.1612·1); *dl*-alpha tocoferil acetate; vitamin A palmitate; eicosapentaenoic acid.
Acne.

Acne Plus Widmer, Austria; Widmer, Ger.; Widmer, Philipp.
Miconazole nitrate (p.541·3); benzoyl peroxide (p.1590·2).
Acne.

Acne Solutions Clinique, Canad.
Salicylic acid (p.1612·2).
Acne.

Acne Sulf RiC, Pol.
Sulfur (p.1614·1); camphor (p.2273·2); lime water (p.2272·2).
Acne; rosacea; seborrhoea.

Acne-Aid
Note.This name is used for preparations of different composition.
Stiefel, Arg.; Stiefel, Austral.; Stiefel, Canad.; Stiefel, Israel; Stiefel, Mex.†; Stiefel, Philipp.; Stiefel, S.Afr.; Stiefel, Thai.
Soap.
Acne; cleansing of oily skin.

Stiefel, Hong Kong; Stiefel, Singapore.
Bar: Soap.
Acne.

Stiefel, Malaysia.
Bar; liquid cleanser: Skin cleanser.
Acne.

Stiefel, Hong Kong; Stiefel, Malaysia; Stiefel, Singapore.
Cream: Sulfur (p.1614·1); resorcinol (p.1612·1); chloroxylenol (p.1640·2).
Acne.

Stiefel, Hong Kong.
Topical liquid: Liquid skin cleanser.
Acne.

Acnecare Widmer, Neth.
Benzoyl peroxide (p.1590·2); miconazole nitrate (p.541·3).
Acne.

Acnecide Galderma, Irl.; Galderma, UK.
Benzoyl peroxide (p.1590·2).
Acne.

Acneclear
Note.This name is used for preparations of different composition.
Christo, Hong Kong.
Benzoyl peroxide (p.1590·2).
Acne.

Janpharm, S.Afr.
Cleansing bar: Triclosan (p.1665·2).
Acne.

Janssen-Cilag, S.Afr.
Cream: Miconazole nitrate (p.541·3); benzoyl peroxide (p.1590·2).
Acne.

Acneclin Valeant, Arg.
Minocycline hydrochloride (p.300·3).
Bacterial infections.

Acnecolor Spirig, Switz.
Clotrimazole (p.530·1).
Acne.

Acnecure Taxandria, Neth.†.
Miconazole nitrate (p.541·3); benzoyl peroxide (p.1590·2).
Acne.

Acne-Derm
Note. A similar name is used for preparations of different composition (see Acne Derm, above).
Unia, Pol.
Azelaic acid (p.1589·3).
Acne.

Acnederm
Note.This name is used for preparations of different composition.
Ego, Singapore.
Azelaic acid (p.1589·3); phenoxyethanol (p.1657·1); glycerol (p.2314·2).
Formerly contained sulfur, ichthammol, undecylenic alkanolamide, and zinc oxide.
Acne.

Ego, Malaysia†.
Sulfur (p.1614·1); ichthammol (p.1599·1); undecenoic acid monoethanolamide (p.549·3); zinc oxide (p.1621·2).
Acne.

Ego, Hong Kong.
Lotion: Azelaic acid (p.1589·3); glycerol (p.2314·2).
Acne.

Ego, NZ.
Lotion: Azelaic acid (p.1589·3); phenoxyethanol (p.1657·1).
Acne.

Ego, Hong Kong.
Ointment: Sulfur (p.1614·1); ichthammol (p.1599·1); undecylenic alkanolamide (p.549·3); zinc oxide (p.1621·2).
Acne.

Ego, NZ†.
Ointment: Sulfur (p.1614·1); ammoniumsulfobitol (p.1599·1); undecylenic alkanolamide (p.549·3); zinc oxide (p.1621·2); alcloxa (p.1587·2).
Acne.

Acnederm Foaming Wash Ego, Austral.; Ego, Malaysia; Ego, NZ.
Cetrimide (p.1634·1); chlorhexidine gluconate (p.1635·3); phenoxyethanol (p.1657·1).
Acne.

Acnederm Lotion Ego, Malaysia.
Azelaic acid (p.1589·3); phenoxyethanol (p.1657·1).
Acne.

Acnederm Medicated Ego, Austral.
Azelaic acid (p.1589·3); phenoxyethanol (p.1657·1).
Acne.

Acnederm Wash
Note.This name is used for preparations of different composition.
Ego, Hong Kong.
Cetrimide (p.1634·1); chlorhexidine gluconate (p.1635·3); glycerol (p.2314·2).
Formerly contained cetrimide, chlorhexidine gluconate, and phenoxyethanol.
Acne.

Ego, NZ†.
Cetrimide (p.1634·1); chlorhexidine gluconate (p.1635·3); propylene phenoxyethanol.
Acne.

Ego, Singapore.
Cetrimide (p.1634·1); chlorhexidine gluconate (p.1635·3); phenoxyethanol (p.1657·1); glycerol (p.2314·2).
Formerly contained cetrimide only.
Acne.

Acnefuge Spirig, Switz.†.
Benzoyl peroxide (p.1590·2).
Acne.

Acnelyse Abdi, Turk.
Tretinoin (p.1618·1).
Acne.

Acne-Med Heliopharma, Hung.†.
Benzoyl peroxide (p.1590·2).
Acne.

Acne-Med Wolff Simplex Medika, Switz.†.
Hexachlorophene (p.1646·1).
Acne.

Acnemin Vinas, Spain.
Isotretinoin (p.1599·2).
Acne.

Acneout Ingens, Arg.
Tretinoin (p.1618·1); erythromycin (p.269·2).
Acne.

Acnepas Atlas, Arg.
Benzoyl peroxide (p.1590·2).
Acne.

Acnepas E Atlas, Arg.
Benzoyl peroxide (p.1590·2); erythromycin (p.269·2).
Acne.

Acneplus Widmer, Belg.
Benzoyl peroxide (p.1590·2); miconazole nitrate (p.541·3).
Acne.

Acneryne Galderma, Belg.
Erythromycin (p.269·2).
Acne.

Acnesan
Note.This name is used for preparations of different composition.
Fortbenton, Arg.
Benzoyl peroxide (p.1590·2).
Acne.

Novogaleno, Ital.†.
Sulfur (p.1614·1); zinc sulfate (p.1999·2); glycolic acid (p.1598·1); enoxolone (p.50·1).
Seborrhoea.

Acnesoap Stiefel, Braz.
Soap substitute.
Acne.

Acnesol Systopic, India.
Erythromycin (p.269·2).
Acne.

Acnestop Euroderm, Arg.
Clindamycin phosphate (p.251·2).
Acne.

Acnetane Adcock Ingram, S.Afr.
Isotretinoin (p.1599·2).
Acne.

Acnetrex Mega Lifesciences, Philipp.
Isotretinoin (p.1599·2).
Acne.

Acnetrim Trima, Israel.
Erythromycin (p.269·2).
Acne.

Acnetrol
Note.This name is used for preparations of different composition.
Lagos, Arg.
Lotion: Mallow (p.2337·2); calendula (p.2273·1); rosemary (p.2381·2); enebro (p.1616·1).
Skin disorders.

Lagos, Arg.
Topical gel: Chamomile (p.2279·3); trepadora; sage (p.2382·3); rosemary (p.2381·2).
Skin disorders.

Acnex
Note.This name is used for preparations of different composition.
Dermtek, Canad.†.
Salicylic acid (p.1612·2).
Acne.

Rafa, Israel†.
Hexachlorophene (p.1646·1); tyrothricin (p.358·2); resorcinol (p.1612·1); sulfur (p.1614·1); zinc oxide (p.1621·2).
Acne; dermatitis; eczema.

Konsuma, Venez.
Benzoyl peroxide (p.1590·2).
Acne.

Acnexyl *Pharmasant, Thai.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Acnezaic *Pfizer Consumer, Ital.†.*
Azelaic acid (p.1589·3).
Acne.

Acniben *Isdin, Arg.*
A soap substitute and moisturiser.
Acne.

Acniben Rx Hidratante *Isdin, Chile.*
Emmollient and barrier preparation.
Acne.

Acniben Rx Limpiadora *Isdin, Chile.*
Soap substitute.
Acne.

Acnidazil *Italchimici, Ital.; Janssen-Cilag, Neth.†; Janssen-Cilag, S.Afr.*
Miconazole nitrate (p.541·3); benzoyl peroxide (p.1590·2).
Acne.

Acnil
Note.This name is used for preparations of different composition.
Cristalia, Braz.
Isotretinoin (p.1599·2).
Acne.

IQFA, Mex.
Tretinoin (p.1618·1).
Acne.

Medipha r, Venez.
Gel; liquid soap; lotion: Salicylic acid (p.1612·2).
Acne.

Medipharr, Venez.†.
Soap: Salicylic acid (p.1612·2); sulfur (p.1614·1).
Acne.

Acnisal *Alliance, Irl.; Alliance, UK.*
Salicylic acid (p.1612·2).
Acne.

Acnisdin *Isdin, Spain.*
Sulfur (p.1614·1); calcium dobesilate (p.2272·1); resorcinol (p.1612·1).
Acne.

Acnisdin Retinoico *Isdin, Spain.*
Calcium dobesilate (p.2272·1); tretinoin (p.1618·1).
Acne; psoriasis.

Acno *Baker Cummins, USA.*
Sulfur (p.1614·1); salicylic acid (p.1612·2).
Acne.

Acno Cleanser *Baker Cummins, USA.*
Skin cleanser.

Acnocin *Sandoz, UK.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
These ingredients can be described by the British Approved Name Co-cyprindiol.

Acnogen *Genepharm, Gr.*
Isotretinoin (p.1599·2).
Acne.

Acnoil Free *Dermoteca, Port.*
Magnesium silicate (p.2144·3); aluminium silicate (p.1707·3).
Acne.

Acnomel
Note.This name is used for preparations of different composition.
Key, Arg.†.
Resorcinol (p.1612·1); sulfur (p.1614·1).
Acne.

Numark, USA.
Resorcinol (p.1612·1); sulfur (p.1614·1); titanium dioxide (p.1617·3).
Acne.

Acnotex *C & M, USA.*
Sulfur (p.1614·1); salicylic acid (p.1612·2); methylbenzethonium chloride (p.1653·1).
Acne.

Acnotin *Bago, Chile; Medicap, Hong Kong; Mega Lifesciences, Malaysia; Mega Lifesciences, Singapore; Mega Lifesciences, Thai.*
Isotretinoin (p.1599·2).
Acne.

A-Cnotren *Pharmathen, Gr.*
Isotretinoin (p.1599·2).

A1cNOW *Metrika, USA.*
Test for glycosylated haemoglobin in blood.

Acnoxin *Andromaco, Arg.*
Salicylic acid (p.1612·2); resorcinol monoacetate (p.1612·1); chloramphenicol (p.239·3).
Acne.

Acnoxyl Abrasivo *Mepro, Chile.*
Essential fatty acids; melaleuca oil (p.2338·2).
Acne.

Acnoxyl Gel Cuidado Intensivo *Mepro, Chile†.*
Melaleuca oil (p.2338·2).
Acne.

Acnoxyl Gel Humectante *Koni-Cofarm, Chile.*
Melaleuca oil (p.2338·2); collagen (p.2286·1).
Acne.

Acnoxyl Gel De Limpieza *Mepro, Chile†.*
Melaleuca oil (p.2338·2).
Acne.

Acnoxyl Jabon *Koni-Cofarm, Chile†.*
Palmitic acid; oleic acid (p.2030·1); docosahexaenoic acid (p.1362·1); liquid paraffin (p.2030·3); melaleuca oil (p.2338·2).
Acne.

Acnoxyl Jabon Liquido *Mepro, Chile.*
Melaleuca oil (p.2338·2); alfa hydroxy acids; glycerol (p.2314·2).
Acne.

Acnoxyl Locion Tonica *Koni-Cofarm, Chile.*
⊗ Melaleuca oil (p.2338·2); alfa hydroxy acids; alcohol (p.1625·2); menthol (p.2340·1).
Acne.

Acnoxyl Shampoo Cabello Graso *Mepro, Chile†.*
Melaleuca oil (p.2338·2); dexpanthenol (p.2362·1); menthol (p.2340·1).
Seborrhoeic dermatitis.

Acnoxyl Stick Corrector *Mepro, Chile†.*
Melaleuca oil (p.2338·2).
Acne.

ACNU *Baxter Oncology, Ger.; Viatris, Neth.†; Asta Medica, Switz.†.*
Nimustine hydrochloride (p.756·3).
Malignant neoplasms.

Acobelin *Globo, Braz.†.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Acocontin *Modi-Mundipharma, India.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with viscous mucus.

Acodin
Note.This name is used for preparations of different composition.
Sanofi-Aventis, Pol.
Syrup: Dextromethorphan hydrobromide (p.1555·2); dexpanthenol (p.2362·1).
Cough.

Sanofi-Aventis, Pol.
Tablets: Dextromethorphan hydrobromide (p.1555·2).
Cough.

Acodon *Nakorn, Thai.†.*
Dipyrone (p.49·2).
Fever; pain.

Acoflam *Goldshield, UK†.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Acoin *Combustin, Ger.*
Tetracaine hydrochloride (p.1871·3); lauromacrogol 400 (p.1916·1).
Local anaesthesia.

Acolyt *Modi-Mundipharma, India.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with viscous mucus.

Acomir con hierro *Medipharm, Chile.*
Ferrous sulfate (p.1939·3); vitamin A palmitate; ergocalciferol; ascorbic acid (p.1922·1).
Iron and vitamin deficiency.

Acomplia *Sanofi Synthelabo, Arg.; Sanofi-Aventis, Cz.†; Sanofi-Aventis, Fr.†; Sanofi-Aventis, Gr.†; Sanofi-Aventis, UK†.*
Rimonabant (p.2380·3).
Obesity.

Acon
Note.This name is used for preparations of different composition.
Aventis, Mex.
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Roemmers, Venez.
Pyritinol (p.369·2).
Mental function disorders.

Acondicionador Labial *Rider, Chile†.*
SPF 15: Padimate O (p.1609·1); oxybenzone (p.1608·3).
Sunscreen.

Aconex *Agepha, Austria.*
⊗ Naphazoline hydrochloride (p.1565·2).
Conjunctivitis.

Aconit Schmerzol *Wala, Ger.*
Homoeopathic preparation.

Aconitum Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Aconitum Nicotiana comp *Weleda, Ger.*
Homoeopathic preparation.

Aconitum-Homaccord *Peithner, Austria†.*
Homoeopathic preparation.

Acordin *Mepha, Switz.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris; heart failure; myocardial infarction.

Acorus *Zeppenfeldt, Ger.*
Couch-grass (p.2288·2).
Urinary-tract disorders.

Acorvio Plus *Ferndale, UK.*
⊗ Miconazole nitrate (p.541·3); fluprednidene acetate (p.1533·1).
Skin disorders with fungal infection.

Acotoss *Neckerman, Braz.†.*
Diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3); ammonium chloride (p.1551·3).
Coughs and cold symptoms.

Acotral *Phoenix, Arg.*
Ezetimibe (p.1284·3).
Hypercholesterolaemia.

Acovil *Sanofi-Aventis, Spain.*
Ramipril (p.1385·3).
Diabetic nephropathy; heart failure following myocardial infarction; hypertension; myocardial infarction prevention.

Acpan *Gray, Arg.*
Glycopyrronium bromide (p.2315·3).

Ac-Pulmin *Vomelin, Hung.†.*
Acetylcysteine (p.1548·2).
Respiratory-tract congestion.

Acpulsif *Dexa, Indon.*
Cisapride (p.1720·3).
Gastrointestinal motility disorders.

Acqta *Rayere, Mex.*
Loperamide (p.1741·3).
Diarrhoea.

Acqua di Sirmione *Terme Sirmione, Ital.†.*
Sulfurous thermal water (p.1614·1).
Catarrh; cold symptoms; rhinitis; sinusitis.

Acqua Virginiana *Kelemata, Ital.*
Hamamelis (p.2318·2).
Skin irritation.

Acquin *Arrow, Austral.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Acran *Sanbe, Indon.*
Ranitidine hydrochloride (p.1766·1).
Peptic ulcer; Zollinger-Ellison syndrome.

Acrea *Aulo Gelio, Arg.*
Arginine (p.1928·2); menthol (p.2340·1); jojoba oil.
Vaginal lubricant.

Acrel *Vita, Spain.*
Risedronate sodium (p.1103·3).
Osteoporosis; Paget's disease of bone.

Acrexon *Shin Poong, Philipp.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Acridilole *Akrikhin, Rus.*
⊗ Carvedilol (p.1241·3).
Angina pectoris; hypertension.

Acridin *Legrand, Braz.*
Acriflavinium chloride (p.1625·1); methenamine (p.298·3); methylthioninium chloride (p.1450·3); belladonna (p.2263·3).
Urinary-tract infections.

Acriflex *Thornton & Ross, UK.*
Chlorhexidine gluconate (p.1635·3).
Burns; scalds; wounds.

Acrilans *Akrikhin, Rus.*
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Acromax
Note.This name is used for preparations of different composition.
Agepha, Austria.
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis.

Climax, Braz.†.
Adenosine; methionine; betaine; choline; pyridoxine; cyanocobalamin; sorbitol (p.1922·1).
Digestive disorders; liver disorders.

Acromicina *Wyeth, Mex.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Acrosin *Climax, Braz.†.*
Liver extract (p.2337·3).
Liver disorders.

Acroxil *Sons, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Acroxil-C *Sons, Mex.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Acrylarm *Poen, Arg.; Roemmers, Venez.*
Carbomer 940 (p.2141·3).
Dry eyes.

Acsacea *Chemomedica, Austria.*
Metronidazole (p.837·1).
Rosacea.

Ac-Sal *Isdin, Chile.*
Salicylic acid (p.1612·2); triclosan (p.1665·2); aloe vera (p.1588·2).
Acne.

ACT
Note. A similar name is used for preparations of different composition (see below).
Johnson & Johnson Medical, USA.
Sodium fluoride (p.1962·2).
Dental caries prophylaxis.

ACT-3
Note. A similar name is used for preparations of different composition (see above).
Whitehall Consumer, Austral.; Wyeth Consumer, NZ.
Ibuprofen (p.64·2).
Fever; inflammation; musculoskeletal and joint disorders; pain.

Acta *Jean-Marie, Hong Kong.*
Tretinoin (p.1618·1).
Acne.

Actacel *Sanofi Pasteur, Arg.; Sanofi Pasteur, Chile; Aventis, S.Afr.; Sanofi Pasteur, Singapore; Sanofi Pasteur, Thai.*
A diphtheria, tetanus, acellular pertussis, and haemophilus influenzae vaccine (p.2211·1).
Active immunisation.

Actacode *Sigma, Austral.*
Codeine phosphate (p.37·2).
Coughs.

Actagen *Goldline, USA.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Upper respiratory-tract symptoms.

Actagen-C Cough *Goldline, USA.*
Pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2); triprolidine hydrochloride (p.592·3).
Coughs and cold symptoms.

Actal
Note.This name is used for preparations of different composition.
Valeant, Hong Kong; ICN, Malaysia; Valeant, Singapore; ICN, Thai.
Alexitol sodium (p.1704·2).
Gastric hyperacidity; heartburn; peptic ulcer.

Combiphar, Indon.; Valeant, Indon.
Aluminium hydroxide (p.1706·2).
Dyspepsia; gastric hyperacidity; gastritis; peptic ulcer.

Merck Consumer, UK.
Alexitol sodium (p.1704·2).
Dyspepsia; gastric hyperacidity.

Actal Plus
Note.This name is used for preparations of different composition.
Valeant, Hong Kong; Combiphar, Indon.; Valeant, Indon.; Valeant, Singapore.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; gastritis; heartburn; peptic ulcer.

ICN, Malaysia.
Alexitol sodium (p.1704·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Gastric hyperacidity; heartburn; peptic ulcer.

Actalipid *Actavis, Rus.*
Simvastatin (p.1390·2).
Hyperlipidaemias.

Actan *Saval, Chile.*
Fluoxetine (p.397·3).
Depression; obsessive-compulsive disorder.

Actapront *Purissimus, Arg.*
Isothipendyl hydrochloride (p.582·1).
Pruritus.

Actapulgite *Ipsen, Belg.; Beaufour, Fr.; Beaufour, Switz.*
Attapulgite (p.1709·1).
Diarrhoea; gastrointestinal disorders; meteorism.

Actastav *Actavis, Rus.*
Stavudine (p.907·1).
HIV infection.

Actasulid *Actavis, Rus.*
Nimesulide (p.95·3).

Actebral
Note.This name is used for preparations of different composition.
Menarini, Belg.†.
⊗ Cyprodenate (p.2152·3).
Cerebral disorders.

Recalcine, Chile.
Dedietilaminoetil-p-aminobenzoato hydrochloride; gamma-aminobutyric acid (p.2308·1); haematoporphyrin hydrochloride (p.2318·1).
Mental function impairment.

Actemra *Chugai, Jpn.*
Tocilizumab (p.2326·1).
Castleman's disease.

Actenacol *Dicofarm, Ital.*
Fennel (p.2302·3); passion flower (p.2363·2); melissa (p.2339·3).
Gastrointestinal disorders.

Acthar *Aventis, Irl.†; Questcor, USA.*
⊗ Corticotropin (p.1523·3).
Corticosteroid release stimulant; diagnostic testing of adrenocortical function.

Acthelea *Elea, Arg.*
⊗ Corticotropin (p.1523·3).
Corticosteroid release stimulant; diagnostic testing of adrenocortical function.

Act-HIB *Pasteur Merieux, Austria; Sanofi Pasteur, Belg.; Aventis Pasteur, Braz.†; Sanofi Pasteur, Canad.; Sanofi Pasteur, Chile; Aventis Pasteur, Cz.; Sanofi Pasteur, Denm.; Aventis Pasteur, Fr.; Aventis Pasteur, Ger.†; Vianex (Βιανέξ), Gr.; Sanofi Pasteur, Hong Kong; Sanofi Pasteur, Hung.; Sanofi Pasteur, Indon.; Sanofi Pasteur, Irl.; Pasteur Merieux, Israel; Sanofi Pasteur, Ital.; Aventis Pasteur, Malaysia†; Sanofi Pasteur, Neth.; Sanofi Pasteur, Norw.; Aventis Pasteur, Philipp.; Sanofi Pasteur, Pol.; Aventis, S.Afr.; Sanofi Pasteur, Singapore; Sanofi Pasteur, Spain; Sanofi Pasteur, Swed.; Sanofi Pasteur, Thai.; Aventis Pasteur, Turk.; Aventis Pasteur, UK†; Sanofi Pasteur, USA; Zuoz, Venez.†.*
A haemophilus influenzae conjugate vaccine (tetanus toxoid conjugate) (p.2213·2).
Active immunisation.

† This preparation may no longer be actively marketed ⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Act-HIB DTP *Aventis Pasteur, UK†.*
A diphtheria, tetanus, pertussis, and haemophilus influenzae vaccine (p.2211·1).
Active immunisation.

Act-HIB Polio *Aventis Pasteur, Norw.†.*
A haemophilus influenzae conjugate vaccine (tetanus toxoid conjugate) and an injectable inactivated poliomyelitis vaccine (types I, II and III) (p.2214·1).
Active immunisation.

Acthrel *Ferring, USA.*
⊗ Corticorelin triflutate (p.1523·2).
Determination of ACTH production in Cushing's syndrome.

Acti 5 *Pierre Fabre Sante, Fr.*
⊗ Deanol pidolate (p.2152·3); sodium ascorbate (p.1984·1); magnesium aminobenzoate.
Tonic.

Acti-B$_{12}$ *Sandoz, Canad.*
Hydroxocobalamin (p.1980·3); amino acids (p.1922·1).
Anaemia.

ActiBath *Jergens, USA.*
Avena (p.2262·1).
Dry skin; pruritus.

Actibil *Arkomedika, Fr.†.*
Cynara (p.2291·2); fumitory (p.2307·2).
Gastrointestinal and urinary-tract disorders.

ActiCal Plus *Usana, Canad.†.*
A vitamin D and mineral preparation (p.1922·1).

Acticalcin *TRB, Braz.*
Calcitonin (salmon) (p.1093·1).
Bone pain due to malignancy; hypercalcaemia; osteoporosis; Paget's disease of bone; sympathetic pain syndromes.

Acticarbine *Elerte, Fr.*
Papaverine hydrochloride (p.2191·3); activated charcoal (p.1435·2).
Gastrointestinal disorders.

Actichlor *Adams, Hong Kong.*
Troclosene sodium (p.1665·3).
Disinfection of surfaces and equipment.

Acticillin *British Dispensary, Thai.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Acticin *Alpharma, USA; Penederm, USA.*
Permethrin (p.2048·2).
Scabies.

Acticoat *Smith & Nephew, Ital.*
Silver (p.2387·1).
Medicated dressing for infected wounds.

Acticort *Baker Cummins, USA.*
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Acticrom *Euro-Pharma, Ital.†.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; keratoconjunctivitis.

Actidem *GSK, Turk.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Respiratory-tract congestion.

Actidil *Warner-Lambert, Ital.†.*
Triprolidine hydrochloride (p.592·3).
Skin irritation.

Actidose with Sorbitol *Paddock, USA.*
Activated charcoal (p.1435·2); sorbitol (p.1965·1).
Emergency treatment of poisoning.

Actidose-Aqua *Cambridge, UK; Paddock, USA.*
Activated charcoal (p.1435·2).
Emergency treatment of poisoning.

Actidox *Saninter, Port.*
Doxycycline (p.267·1).
Bacterial infections.

Actidue *Pfizer Consumer, Ital.*
White tablets (daytime), paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); blue tablets (night-time) paracetamol; diphenhydramine hydrochloride (p.577·2).
Daytime tablets formerly contained paracetamol and phenylpropanolamine hydrochloride.
Cold and influenza symptoms.

Actifed
Note. This name is used for preparations of different composition.
Pfizer Consumer, Austral.; GSK, Belg.; Pfizer Consumer, Canad.; GSK, Hong Kong; GSK, Indon.; Pfizer Consumer, Irl.; GSK, Israel†; Pfizer Consumer, Ital.; GSK, Malaysia; Pfizer Consumer, Mex.; Johnson & Johnson, NZ; Janssen-Cilag, Port.; GSK, S.Afr.; GSK, Singapore; GSK, Thai.; GSK, Turk.; Wellcome, USA; GSK, Venez.†.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis; cold and influenza symptoms; otitis media; respiratory-tract congestion.

Pfizer Sante, Fr.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold symptoms; upper respiratory-tract congestion.

GSK, India†.
Triprolidine hydrochloride (p.592·3); phenylpropanolamine (p.1569·2).
Respiratory-tract congestion.

GSK, Pol.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Upper respiratory-tract disorders.

Actifed Allergy *Wellcome, USA.*
White daytime caplets, pseudoephedrine (p.1571·2); blue night time caplets, pseudoephedrine; diphenhydramine hydrochloride (p.577·2).

Actifed CC Chesty *Pfizer Consumer, Austral.; Pfizer, NZ†.*
Guaifenesin (p.1561·3).
Cough; coughs and cold symptoms.

Actifed CC Dry *Johnson & Johnson, Austral.; Pfizer, NZ†.*
Pholcodine (p.1570·2).
Cough; coughs.

Actifed CC Junior *Pfizer Consumer, Austral.*
Dextromethorphan hydrobromide (p.1555·2); triprolidine hydrochloride (p.592·3).
Upper respiratory-tract disorders.

Actifed Chesty
Note. This name is used for preparations of different composition.
Pfizer Consumer, Austral.; Pfizer, NZ†.
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2).
Coughs; cold symptoms; respiratory-tract congestion.

Pfizer Consumer, Irl.†.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Coughs; upper respiratory-tract congestion.

Actifed Cold & Allergy *Warner-Lambert, USA.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract congestion.

Actifed Cold & Fever *GSK, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Formerly known as Actigesic.
Cold and influenza symptoms.

Actifed Cold & Sinus *Warner-Lambert, USA.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold symptoms.

Actifed Composto *Pfizer Consumer, Ital.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs; respiratory-tract congestion.

Actifed Compound
Note. This name is used for preparations of different composition.
GSK, Hong Kong; GSK, Israel†; GSK, Singapore; GSK, Thai.†.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2).
Cough; cold symptoms; upper respiratory-tract congestion.

Pfizer Consumer, Irl.†.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs; upper respiratory-tract congestion.

Actifed DM
Note. This name is used for preparations of different composition.
GSK, Hong Kong†; GSK, Indon.; GSK, Israel†; GSK, Malaysia; Pfizer Consumer, Mex.; GSK, Singapore; GSK, Thai.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Allergic rhinitis; coughs; cold symptoms; nasal congestion.

GSK, India†.
Triprolidine hydrochloride (p.592·3); phenylpropanolamine (p.1569·2); dextromethorphan hydrobromide (p.1555·2).
Respiratory-tract congestion.

Actifed Dry *Pfizer Consumer, Austral.; Pfizer, NZ†.*
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs; upper respiratory-tract disorders.

Actifed Dry Cough Regular *GSK, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2).
Formerly known as Actifed Co.
Coughs.

Actifed Dry Cough Sugar Free *GSK, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Formerly known as Actifed DM.
Coughs.

Actifed Expectorant
Note. This name is used for preparations of different composition.
Pfizer Sante, Fr.†.
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

GSK, Indon.; GSK, Israel†; GSK, Malaysia; GSK, Singapore.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Allergic rhinitis; cold symptoms; cough; upper respiratory-tract congestion.

Actifed jour et nuit *Pfizer Sante, Fr.*
White tablets, paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); blue tablets, paracetamol; diphenhydramine hydrochloride (p.577·2).
The white tablets replaced yellow tablets which contained paracetamol and phenylpropanolamine hydrochloride.
Cold symptoms.

Actifed Nasale *Pfizer Consumer, Ital.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Actifed New *GSK, Belg.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Actifed PE *Johnson & Johnson, Austral.*
Phenylephrine hydrochloride (p.1568·1).

Actifed Plus
Note. This name is used for preparations of different composition.
Pfizer Consumer, Canad.; Wellcome, USA.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold symptoms; sinusitis.

GSK, India†.
Triprolidine hydrochloride (p.592·3); phenylpropanolamine (p.1569·2); paracetamol (p.108·1).
Respiratory-tract congestion associated with pain or fever.

Actifed Sinus Daytime *Wellcome, USA.*
Pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Upper respiratory-tract symptoms.

Actifed Sinus Nighttime *Wellcome, USA.*
Pseudoephedrine hydrochloride (p.1571·2); diphenhydramine hydrochloride (p.577·2); paracetamol (p.108·1).
Upper respiratory-tract symptoms.

Actifed Toux Seche *Pfizer Sante, Fr.†.*
Triprolidine hydrochloride (p.592·3); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Actifed Wet Cough Non Drowsy *GSK, S.Afr.*
Pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Coughs.

Actifedduo *Pfizer Sante, Fr.*
Cetirizine (p.571·1); pseudoephedrine (p.1571·2).
Allergic rhinitis.

Actifedrin
Note. This name is used for preparations of different composition.
Farmoquimica, Braz.; GSK, Chile.
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms; nasal congestion; rhinitis.

Investi, Arg.
Lozenges: Benzydamine hydrochloride (p.27·3).
Mouth and throat disorders.

Investi, Arg.
Syrup; tablets: Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract congestion.

Actifedrin Antitusivo *GSK, Chile.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2).
Upper respiratory-tract disorders.

Actifedrin Nasal *Investi, Arg.*
⊗ Naphazoline hydrochloride (p.1565·2).
Nasal congestion.

Actifen *Gebro, Austria.*
Dexibuprofen (p.39·2).
Fever; inflammation; pain.

Actiferrine *Mepha, Switz.*
Ferrous sulfate (p.1939·3).
-Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Iron deficiency; iron-deficiency anaemia.

Actiferrine-F Nouvelle formule *Mepha, Switz.*
Ferrous sulfate (p.1939·3); folic acid (p.1940·1).
-Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Iron and folate deficiency; iron-deficiency anaemia.

Actiferro *Lampugnani, Ital.†.*
Sodium ferric gluconate complex (p.1962·2).
Iron-deficiency disorders.

Actiflora *Brovar, S.Afr.*
Lactobacillus acidophilus (p.2372·3).
Restoration of a normal gastrointestinal flora.

Actiflu *Cipla, India.*
Triprolidine hydrochloride (p.592·3); phenylpropanolamine (p.1569·2).

Actiflu Plus *Cipla, India.*
Triprolidine hydrochloride (p.592·3); phenylpropanolamine (p.1569·2); paracetamol (p.108·1).

Actifluor *Altana, Ital.†.*
Sodium fluoride (p.1962·2); stannous fluoride (p.1967·3).
Dental caries prophylaxis.

Actigall *Novartis, NZ; Watson, USA.*
Ursodeoxycholic acid (p.2408·1).
Gallstones; primary biliary cirrhosis; primary sclerosing cholangitis.

Actigeron *Bago, Chile.*
Acetylcarnitine hydrochloride (p.1932·2).
Dementia.

Actigesic *GSK, Indon.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold and influenza symptoms; nasopharyngitis; sinusitis.

Actigrip *Pfizer Consumer, Ital.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Influenza symptoms; respiratory-tract congestion.

Actihaemyl *Stulln, Ger.; Valeant, Ger.*
Protein-free bovine blood extract (p.2337·3).
Eye disorders; wounds.

Actihist *Hovid, Malaysia.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Cold symptoms; rhinitis.

Actihist Expectorant *Hovid, Malaysia.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Coughs and cold symptoms.

Actihist-Co *Hovid, Hong Kong†; Hovid, Malaysia.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs; nasal congestion.

Actil *Masa, Thai.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis; cold symptoms; hay fever; nasal congestion.

Actilam *Sofex, Port.*
⊗ Hesperidin (p.2304·3); deanol acetamidobenzoate (p.2152·3); magnesium glycerophosphate (p.1679·2).
Mental function disorders; vascular disorders.

Actilax
Note. This name is used for preparations of different composition.
Alphapharm, Austral.
Lactulose (p.1738·2).
Constipation; hepatic encephalopathy.

Medic, Denm.
Sodium picosulfate (p.1771·1).
Constipation.

Actilis *Laphi, Fr.*
Barrier cream.

Actilyse *Boehringer Ingelheim, Arg.; Boehringer Ingelheim, Austral.; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Belg.; Boehringer Ingelheim, Braz.; Boehringer Ingelheim, Chile; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Denm.; Boehringer Ingelheim, Fin.; Boehringer Ingelheim, Fr.; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Hong Kong; Boehringer Ingelheim, Hung.; German Remedies, India; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Irl.; Boehringer Ingelheim, Israel; Boehringer Ingelheim, Ital.; Boehringer Ingelheim, Malaysia; Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, NZ; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Norw.; Boehringer Ingelheim, Philipp.; Boehringer Ingelheim, Pol.; Boehringer Ingelheim, Port.; Boehringer Ingelheim, Rus.; Boehringer Ingelheim, S.Afr.; Boehringer Ingelheim, Singapore; Boehringer Ingelheim, Spain; Boehringer Ingelheim, Swed.; Boehringer Ingelheim, Switz.; Boehringer Ingelheim, Thai.; Boehringer Ingelheim, Turk.; Boehringer Ingelheim, UK; Boehringer Ingelheim, Venez.*
Alteplase (p.1207·2).
Ischaemic stroke; myocardial infarction; peripheral arterial thromboembolism; pulmonary embolism.

Actimag *Vita, Ital.†; Iquinosa, Spain.*
Magnesium pidolate (p.1679·3).
Magnesium depletion.

Actiman *Biofarma, Mex.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate (p.2280·3); ascorbic acid (p.1983·3); manganese sulfate (p.1956·2).
Osteoarthritis.

Actimax *Sandoz, Arg.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Actiment *Tecnonat, Arg.*
Nutritional supplement (p.1922·1).

Actimmune *Genentech, USA.*
Interferon gamma-1b (p.893·3).
Infections in chronic granulomatous disease; osteopetrosis.

Actimol *Pharmed, India.*
Diclofenac sodium (p.44·3); paracetamol (p.108·1).
Rheumatoid arthritis.

Actimoxi *Clariana, Spain†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Actin *The Forty-Two, Thai.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Actinac *Peckforton, UK.*
⊗ Chloramphenicol (p.239·3); hydrocortisone acetate (p.1535·2); nicoboxil (p.95·1); allantoin (p.1588·1); precipitated sulfur (p.1614·1).
Acne.

Actine
Note. This name is used for preparations of different composition.
Darrow, Braz.
Liquid soap: Salicylic acid (p.1612·2); aloe vera (p.1588·2).
Acne; seborrhoea.

Darrow, Braz.
Soap: Salicylic acid (p.1612·2); sulfur (p.1614·1); aloe vera (p.1588·2).
Acne; seborrhoea.

Actinerval *Bago, Arg.*
Carbamazepine (p.471·3).
Epilepsy; neuralgia.

Actinium *Armstrong, Mex.*
Oxcarbazepine (p.490·3).
Epilepsy; neuropathic pain.

Actinoma *Orva, Turk.*
Diclofenac diethylamine (p.44·3) or diclofenac sodium (p.44·3).
Actinic keratosis; musculoskeletal and joint pain.

Action *Sante Naturelle, Canad.*
Ascorbic acid (p.1983·3).

Action Chewable *Bayer Consumer, Austral.*
Chlorphenamine maleate (p.571·3); phenylephrine tartrate (p.1568·1).
Cold symptoms; hay fever.

Action Cold & Flu *Bayer Consumer, Austral.*
Chlorphenamine maleate (p.571·3); phenylephrine acid tartrate (p.1568·1); aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Actiphos *Teofarma, Fr.†.*
Phosphoric acid salts (p.2367·1).
Tonic.

Actiplex *Umeda, Thai.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis; cold symptoms; nasal congestion.

Actipol *Diafarm, Rus.†.*
Aminobenzoic acid (p.1589·1).
Viral eye infections.

Actipram *Laboratorios Chile, Chile.*
Citalopram hydrobromide (p.385·3).
Depression.

Actiprofen *GSK Consumer, Austral.; Sanofi Synthelabo, Braz.*
Ibuprofen (p.64·2).
Fever; inflammation; musculoskeletal and joint disorders; pain.

Actiq *Orphan, Austral.; Cephalon, Denm.; Orphan, Fin.; Cephalon, Fr.; Cephalon, Ger.; Gerolymatos, Gr.; Cephalon, Irl.; Dompe, Ital.; Cephalon, Neth.; Cephalon, Norw.; Ferrer, Spain; Swedish Orphan, Swed.; Cephalon, Switz.; Cephalon, UK; Cephalon, USA.*
⊗ Fentanyl citrate (p.55·3).
Pain.

Actiquim *Quimica y Farmacia, Mex.*
Naproxen (p.92·3).
Gout; musculoskeletal, joint, and peri-articular disorders.

Actira *Bayer, Austria; Baycare, Ital.; Bayer, Neth.†; Bayer, Spain.*
Moxifloxacin hydrochloride (p.302·1).
Bacterial infections.

Actirelax *Northia, Arg.*
Suxamethonium (p.1912·1).
Depolarising neuromuscular blocker.

Actires *Dicofarm, Ital.*
Propolis (p.2373·3); boswellia (p.2307·1).
Respiratory-tract disorders.

Actisac *Polipharm, Thai.†.*
Fluoxetine (p.397·3).
Depression.

Actisens *Altana, Ital.†.*
⊗ Sodium fluoride (p.1962·2); potassium nitrate (p.1658·3).
Gum hypersensitivity.

Actiser-T *Silesia, Chile.*
⊗ Testosterone (p.2129·3).
Hypogonadism.

Actisite *Willvonseder, Austria; Solco, Ital.†; Dentaid, Spain; Solco, Switz.†; Alza, USA†.*
Tetracycline hydrochloride (p.347·2).
Bacterial mouth infections.

Actiskenan *BMS, Fr.*
⊗ Morphine sulfate (p.86·3).
Pain.

Actison *Buxton, Arg.*
Amantadine hydrochloride (p.792·3).
Parkinsonism.

Actisorb Ag+ *Johnson & Johnson Medical, Fr.*
Activated charcoal (p.1435·2); silver (p.2387·1).
Formerly known as Actisorb Plus.
Infected wounds.

Actisorb Plus *Johnson & Johnson, Ital.*
Activated charcoal (p.1435·2); silver (p.2387·1).
Infected or malodorous wounds.

Actisorb Silver *Johnson & Johnson, Ger.†; Johnson & Johnson, Irl.; Johnson & Johnson Medical, UK.*
Activated charcoal (p.1435·2); silver (p.2387·1).
Previously known as Actisorb Plus.
Infected or malodorous wounds; ulcers.

Actisoufre *Grimberg, Fr.*
Sodium sulfate (p.1771·3); dried yeast (p.1998·3).
Rhinitis; upper respiratory-tract inflammation.

Actithiol *Almirall, Spain.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders.

Actithiol Antihist *Almirall, Spain.*
Carbocisteine (p.1553·2); promethazine hydrochloride (p.588·2).
Respiratory-tract disorders.

Actitonic *Amido, Fr.†.*
Amino-acid and mineral preparation (p.1922·1).
Tonic.

Actitrin *Hasco-Lek, Pol.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Cold and influenza symptoms; cough.

Activacin *Kyowa, Jpn.*
Alteplase (p.1207·2).
Myocardial infarction.

Activadone *Thea, Spain.*
Chromocarb diethylamine (p.2281·1).
Adjunct in eye surgery; conjunctival capillary fragility.

Activarol *Carlo Erba OTC, Ital.†; Azevedos, Port.†.*
Haematoporphyrin hydrochloride; glycine; cyanocobalamin; calcium gluconate (p.1922·1).
Tonic.

Activase *Roche, Canad.; Genentech, USA.*
Alteplase (p.1207·2).
Maintenance of central venous catheter patency; myocardial infarction; pulmonary embolism; stroke.

Activator *Andromaco, Chile†.*
Magnesium oxide (p.1744·1); pyridoxine hydrochloride (p.1978·2).
Magnesium deficiency disorders.

Active C *Roche-Posay, Braz.; Roche-Posay, Singapore.*
Ascorbic acid (p.1983·3).
Skin ageing; wrinkles.

Active Calcium *Usana, Singapore.*
Calcium; magnesium; colecalciferol; silicon (p.1922·1).
Dietary supplement.

Active Calcium Plus *Usana, Canad.*
Calcium; colecalciferol; magnesium; silicon (p.1922·1).
Dietary supplement.

Active Dry Lotion *Norwood, Canad.†.*
SPF 30: Octinoxate (p.1608·2); oxybenzone (p.1608·3); octisalate (p.1608·2).
Sunscreen.

Activella *Novo Nordisk, USA.*
Estradiol (p.2097·2); norethisterone acetate (p.2119·3).
Menopausal disorders; osteoporosis.

Activelle *Novo Nordisk, Arg.; Novo Nordisk, Austria; Novo Nordisk, Belg.; Medley, Braz.; Silesia, Chile; Novo Nordisk, Cz.; Novo Nordisk, Denm.; Novo Nordisk, Fin.; Novo Nordisk, Fr.; Novo Nordisk, Ger.; Novo Nordisk, Gr.†; Novo Nordisk, Hong Kong; Novo Nordisk, Hung.; Novo Nordisk, Irl.; Novo Nordisk, Israel; Novo Nordisk, Ital.; Novo Nordisk, Malaysia; Novo Nordisk, Neth.; Novo Nordisk, Norw.; Novo Nordisk, Pol.; Isdin, Port.; Novo Nordisk, S.Afr.; Novo Nordisk, Singapore; Isdin, Spain; Novo Nordisk, Swed.; Novo Nordisk, Switz.; Novo Nordisk, Thai.; Novo Nordisk, Turk.*
Estradiol (p.2097·2); norethisterone acetate (p.2119·3).
Hormone replacement therapy; menopausal disorders; osteoporosis.

Activent *More, Philipp.*
⊗ Salbutamol sulfate (p.1131·3).
Bronchospasm.

Activex 40 Plus *Propan, S.Afr.*
Ginseng (p.2312·1); muira-puama; vitamins (p.1922·1); minerals; kelp (p.2384·2); lysine hydrochloride.
Tonic.

Activir *GSK, Austria; GSK, Fr.; GSK, S.Afr.*
Aciclovir (p.862·3).
Herpes labialis.

Activital Forte *Welti, Switz.*
Arginine aspartate (p.1928·2); magnesium aspartate (p.1679·1).
Activital formerly contained arginine aspartate, calcium gluconate, and magnesium gluconate.
Tonic.

Activon *Drossapharm, Switz.†.*
Etofenamate (p.53·1).
Soft-tissue disorders.

Activon Extra *Goodwill, Hung.*
Etofenamate (p.53·1).
Musculoskeletal, joint, and soft-tissue disorders.

Activox *Arkopharma, Fr.*
Erysimum; chamomile (p.2279·3).
Mouth and throat disorders.

Activox Lierre *Arkopharma, Fr.*
Ivy (p.2328·1).
Respiratory-tract disorders.

Actizid *Overseas, India†.*
Pyrazinamide (p.320·2).
Tuberculosis.

Actocortina *Altana, Spain.*
⊗ Hydrocortisone sodium phosphate (p.1535·3).
Corticosteroid.

Actokit *Procter & Gamble, Neth.*
Blue tablets, calcium carbonate (p.1714·1); orange tablets, risedronate sodium (p.1103·3).
Osteoporosis.

Actomite *Ceuta, UK.*
Bioallethrin (p.2036·2).
Elimination of house dust mite.

Actonel *Aventis, Arg.; Sanofi-Aventis, Austral.; Aventis, Austria; Procter & Gamble, Belg.; Sanofi-Aventis, Braz.; Procter & Gamble, Canad.; Sanofi-Aventis, Chile; Sanofi-Aventis, Cz.; Procter & Gamble, Fr.; Aventis, Ger.; Procter & Gamble, Ger.; Sanofi-Aventis, Gr.; Aventis, Hong Kong; Sanofi-Aventis, Hung.; Aventis, India; Sanofi-Aventis, Indon.; Aventis, Irl.; Procter & Gamble, Irl.; Aventis, Israel; Procter & Gamble, Ital.; Sanofi-Aventis, Malaysia; Aventis, Mex.; Procter & Gamble, Neth.; Aventis, Philipp.; Aventis, Pol.; Sanofi-Aventis, Port.; Aventis, S.Afr.; Sanofi-Aventis, Singapore; Sanofi-Aventis, Spain; Aventis, Switz.; Aventis, Thai.; Aventis, Turk.; Aventis, UK; Procter & Gamble, UK; Procter & Gamble, USA; Sanofi-Aventis, Venez.*
Risedronate sodium (p.1103·3).
Osteoporosis; Paget's disease of bone.

Actonel with Calcium *Procter & Gamble, USA.*
4 Tablets, risedronate sodium (p.1103·3); 24 tablets, calcium carbonate (p.1714·1).
Osteoporosis.

Actonel Combi
Note. This name is used for preparations of different composition.
Sanofi-Aventis, Austral.; Procter & Gamble, Irl.; Sanofi-Aventis, Irl.
7 Tablets, risedronate sodium (p.1103·3); 21 tablets, calcium carbonate (p.1714·1).
Osteoporosis.

Procter & Gamble, UK.
Tablets, risedronate sodium (p.1103·3); effervescent granules, calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Osteoporosis.

Actonel Trio *Sanofi-Aventis, Hung.*
4 Tablets, risedronate sodium (p.1103·3) (Actonel); 60 tablets, colecalciferol (p.1986·2); calcium carbonate (p.1714·1) (Calcichew-D).
Osteoporosis.

Actonelcombi *Procter & Gamble, Fr.*
Tablets, risedronate sodium (p.1103·3); effervescent granules, calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Osteoporosis.

Actonorm
Note. This name is used for preparations of different composition.
Wallace Mfg Chem., UK.
Oral gel: Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence.

Wallace Mfg Chem., UK.
Oral powder: Magnesium carbonate (p.1743·1); aluminium hydroxide (p.1706·2); atropine sulfate (p.1219·3); calcium carbonate (p.1714·1); magnesium trisilicate (p.1744·1); sodium bicarbonate (p.1673·2); peppermint oil (p.1761·2).
Dyspepsia; flatulence; gastric hyperacidity.

Actophlem *Adcock Ingram, S.Afr.*
Theophylline (p.1140·1); etofylline (p.1121·1); diphenylpyraline hydrochloride (p.578·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Actoplus Met *Takeda, USA.*
Pioglitazone hydrochloride (p.456·1); metformin hydrochloride (p.453·2).
Diabetes mellitus.

Actopril *Ergha, Irl.†.*
Captopril (p.1239·2).
Heart failure; hypertension.

Actorin *Hua, Thai.*
Aspirin (p.20·3).
Pain.

Actos *Abbott, Arg.; Lilly, Austral.; Takeda, Austria; Lilly, Belg.; Abbott, Braz.; Lilly, Canad.; Abbott, Chile†; Takeda, Cz.; Takeda, Denm.; Lilly, Fin.; Takeda, Fr.; Takeda, Ger.; Lilly, Gr.; Takeda, Hong Kong; Takeda, Indon.; Takeda, Ital.; Takeda, Jpn; Takeda, Malaysia; Lilly, NZ; Takeda, Neth.; Takeda, Norw.; Takeda, Philipp.; Takeda, Port.; Lilly, Rus.; Lilly, S.Afr.; Lilly, Spain; Lilly, Swed.; Takeda, Switz.; Takeda, Thai.; Takeda, UK; Lilly, USA; Takeda, USA; Abbott, Venez.*
Pioglitazone hydrochloride (p.456·1).
Diabetes mellitus.

Actosolv *Aventis, Austria; Eumedica, Belg.; Aventis, Ital.†.*
Urokinase (p.1420·1).
Thromboembolic disorders.

Actospect *Adcock Ingram, S.Afr.*
Guaifenesin (p.1561·3).
Coughs.

Actovegin *Nycomed, Austria; Nycomed, Ger.; Nycomed, Hong Kong; Nycomed, Hung.; Nycomed, Rus.; Nycomed, Thai.†.*
Protein-free bovine blood extract (p.2337·3).
Burns; cerebral and peripheral vascular disorders; cerebral metabolic disorders; eye disorders; radiation-induced lesions; scalds; ulcers; wounds.

Actparin *Bergamo, Braz.*
Heparin sodium (p.1301·2).
Thromboembolic disorders.

Actraphane *Novo Nordisk, Cz.*
⊗ A mixture of insulin injection (human) 30% and isophane insulin (human) 70% (p.443·2).
Diabetes mellitus.

Actraphane 10, 20, 30, 40, 50 *Novo Nordisk, Ger.; Novo Nordisk, Ital.; Novo Nordisk, Neth.*
⊗ Mixtures of insulin injection (human) 10%, 20%, 30%, 40% and 50% and isophane insulin injection (human) 90%, 80%, 70%, 60%, and 50% respectively (p.443·2).
Formerly known as Actraphane HM 10/90, 20/80, 30/70, 40/60, and 50/50.
Diabetes mellitus.

Actraphane HM *Novo Nordisk, Gr.†; Novo Nordisk, S.Afr.*
⊗ Mixtures of insulin injection (human, recombinant) and isophane insulin (human, recombinant) in varying proportions (p.443·2).
Diabetes mellitus.

Actrapid *Novo Nordisk, Austral.; Pentafarma, Chile†; Novo Nordisk, Cz.; Novo Nordisk, Denm.; Novo Nordisk, Fin.; Novo Nordisk, Fr.; Novo Nordisk, Ger.; Novo Nordisk, Gr.; Novo Nordisk, Hung.; Abbott, India; Novo Nordisk, Irl.; Novo Nordisk, Ital.; Novo Nordisk, NZ; Novo Nordisk, Neth.; Novo Nordisk, Norw.; Novo Nordisk, Pol.; Novo Nordisk, Port.; Novo Nordisk, Spain; Novo Nordisk, Swed.; Novo Nordisk, UK.*
⊗ Neutral insulin injection (human, pyr, monocomponent) (p.443·2).
Formerly known as Human Actrapid.
Diabetes mellitus.

Actrapid HM *Novo Nordisk, Arg.; Novo Nordisk, Austria; Novo Nordisk, Belg.; Novo Nordisk, Chile; Novo Nordisk, Hong Kong; Ferron, Indon.; Novo Nordisk, Indon.; Novo Nordisk, Malaysia; Novo Nordisk, Philipp.; Novo Nordisk, Rus.; Novo Nordisk, S.Afr.; Novo Nordisk, Singapore; Novo Nordisk, Switz.; Novo Nordisk, Thai.*
⊗ Neutral insulin injection (human, monocomponent) (p.443·2).
Diabetes mellitus.

Actrapid MC *Novo Nordisk, Arg.†; Novo Nordisk, Braz.†; Novo Nordisk, Hong Kong†; Novo Nordisk, Rus.; Novo Nordisk, Switz.*
⊗ Neutral insulin injection (porcine, monocomponent) (p.443·2).
Diabetes mellitus.

Actron
Note. This name is used for preparations of different composition.
Bayer Consumer, Arg.; Bayer, Chile; Bayer, Mex.
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Bayer, Fr.
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Bayer, Spain†.
Paracetamol (p.108·1).
Fever; pain.

Actron Compuesto *Bayer, Spain.*
Aspirin (p.20·3); caffeine (p.1116·3); paracetamol (p.108·1).
Fever; pain.

Actual *Bago, Arg.*
Famotidine (p.1730·1); calcium carbonate (p.1714·1); magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Actualene *Carlo Erba OTC, Ital.*
Cabergoline (p.802·1).
Hyperprolactinaemia; lactation suppression; prolactinoma.

Actuss *Sigma, Austral.†.*
Pholcodine (p.1570·2).
Coughs.

Actyfilus *Codifra, Fr.*
Capsules (transparent), *Lactobacillus lactis* (p.2372·3); *Lactobacillus paracasei*; Lacidophilus NCFM; *Lactobacillus casei* (p.2372·3); *Bifidobacterium longum* (p.2372·3); capsules (cream), inulin (p.2326·3).
Digestive disorders.

Actymine *Codifra, Fr.*
Vitamins; minerals; vegetable oils; fish oil (p.1922·1).
Dry skin; sun-induced skin damage.

Actypral *Codifra, Fr.*
Bioflavonoids; vitamins; minerals; lycopene (p.1922·1).
Skin ageing.

Acuaderm *Bajer, Arg.*
Calamine (p.1591·2); diphenhydramine hydrochloride (p.577·2); camphor (p.2273·2); aloe vera (p.1588·2).
Pruritus.

Acuafil *Sophia, Mex.†.*
Wool fat (p.2033·2); liquid paraffin (p.2030·3).
Dry eyes.

Acuafil Ofteno *Sophia, Mex.; Elmor, Venez.*
Polyvinyl alcohol (p.2145·3).
Dry eyes.

Acuatim *Otsuka, Indon.; Otsuka, Jpn.*
Nadifloxacin (p.303·2).
Acne.

Acubiron *Bohm, Spain.*
Pygeum africanum (p.2192·3).
Benign prostatic hyperplasia.

Acubisina *Intra, Venez.†.*
Acubigenina.

Acucil *Apotex, S.Afr.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Acuco *Apotex, S.Afr.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Acudex *Polfa Kutno, Pol.*
Dextranomer (p.1593·3).
Ulcers; wounds.

Acudor *Ferring, Port.*
Etodolac (p.52·2).
Gout; musculoskeletal, joint, and peri-articular disorders; pain.

ACU-dyne *Acme, USA.*
Povidone-iodine (p.1659·2).
Skin disinfection; vaginal disorders.

Acu-Erylate S *Apotex, S.Afr.*
Erythromycin estolate (p.269·3).
Bacterial infections.

Acuflam *Unison, Philipp.*
Diclofenac potassium (p.44·3).
Actinic keratoses; fever; gout; musculoskeletal and joint disorders; pain.

Acuflex *Acupharm, S.Afr.*
Indometacin (p.66·3).
Gout; musculoskeletal and joint disorders.

Acuflu P *Apotex, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold and influenza symptoms.

Acugel *Acupharm, S.Afr.*
Dicycloverine hydrochloride (p.1722·3); aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Acugesic *Duopharma, Hong Kong; Duopharma, Malaysia.*
Tramadol hydrochloride (p.130·3).
Pain.

Acugest *Acupharm, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Cold and influenza symptoms.

Acugest Co *Acupharm, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2).
Coughs.

Acugest DM *Apotex, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Acugest Expect *Acupharm, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Coughs.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Acuilfem *Gezzi, Arg.*
Ibuprofen (p.64·2).
Pain.

Acuilix *Pfizer, Fr.*
⊗ Hydrochlorothiazide (p.1307·3); quinapril hydrochloride (p.1382·2).
Hypertension.

Acuitel *Pfizer, Fr.; Pfizer, Turk.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Acular *Allergan, Arg.; Allergan, Austral.; Allergan, Austria; Allergan, Braz.; Allergan, Canad.; Allergan, Chile; Allergan, Denm.; Allergan, Fin.; Allergan, Fr.; Allergan, Ger.; Alvia (Αλβια), Gr.; Allergan, Hong Kong; Allergan, Irl.; Allergan, Ital.; Allergan, Malaysia; Allergan, NZ; Allergan, Neth.; Allergan, Philipp.; Allergan, Port.; Allergan, S.Afr.; Allergan, Singapore; Allergan, Spain; Gervasi, Spain; Allergan, Switz.; Allergan, Thai.; Abdi, Turk.; Allergan, UK; Allergan, USA; Allergan, Venez.†.*
Ketorolac trometamol (p.74·2).
Allergic eye disorders; cystoid macular oedema; inflammation, pain, and photophobia following ocular surgery.

Aculare *Allergan, Belg.*
Ketorolac trometamol (p.74·2).
Ocular inflammation following cataract surgery.

Acularen *Allergan, Mex.*
Ketorolac trometamol (p.74·2).
Allergic conjunctivitis; postoperative ocular inflammation.

Aculoid *Apotex, S.Afr.*
Cyclizine hydrochloride (p.574·2).
Nausea; vestibular disorders; vomiting.

Acumel *Baxter, Ital.*
Lipid (from olive oil (p.2356·2) and soya oil (p.1965·3)), amino-acid, and glucose infusion (p.1922·1).
Contains egg lecithin.
Parenteral nutrition.

Acumerck *Generics, Hung.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Acumet *Acupharm, S.Afr.*
Metoclopramide hydrochloride (p.1747·3).
Gastrointestinal motility disorders; nausea and vomiting.

Acunaso *Apotex, S.Afr.*
Pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract congestion.

Acuode *Recalcine, Chile.*
Colecalciferol (p.1986·2).
Hypoparathyroidism; osteomalacia; rickets; tetanus; vitamin D deficiency.

Acuolens *Alcon Cusi, Spain.*
Hypromellose (p.2144·2).
Dry eyes.

Acu-Oxytet *Apotex, S.Afr.*
Oxytetracycline hydrochloride (p.312·3).
Bacterial infections.

Acupan *3M, Belg.; Biocodex, Fr.; 3M, Irl.; 3M, NZ; 3M, Switz.†; 3M, UK.*
Nefopam hydrochloride (p.94·2).
Pain.

Acuphlem *Acupharm, S.Afr.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders with excess mucus.

Acupillin *Apotex, S.Afr.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Acuprel *Parke, Davis, Spain.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Acupril *Pfizer, Mex.; Pfizer, Neth.; Pfizer, Port.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Acura *Nordic Drugs, Norw.; Nordic, Swed.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Acurate *Apotex, S.Afr.*
Paracetamol (p.108·1); doxylamine succinate (p.578·2); caffeine (p.1116·3); codeine phosphate (p.37·2).
Pain with tension.

Acurenal *ICN, Pol.*
Quinapril (p.1382·3).
Heart failure; hypertension.

Acuretic *Pfizer, Port.; Binesa, Spain.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Acurmil *Lisapharma, Ital.*
Atracurium besilate (p.1902·1).
Competitive neuromuscular blocker.

Acusprain *Apotex, S.Afr.*
Naproxen (p.92·3).
Dysmenorrhoea; gout; musculoskeletal and joint disorders.

Acustat *Transpen, UK.*
Skin patch.
Musculoskeletal, joint, and soft-tissue injury.

Acustop *Apotex, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); promethazine hydrochloride (p.588·2).
Fever; pain.

Acustop Cataplasma *Sang-A, Malaysia; Sang-A, Singapore†.*
Flurbiprofen (p.61·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

AcuTect *Diatide, USA.*
Technetium-99m apcitide (p.2055·3).
Scintigraphic imaging of acute venous thrombosis.

Acuten *Farma, Venez.*
Paracetamol (p.108·1); codeine (p.37·2).
Fever; pain.

Acutil *Body Spring, Ital.*
Multivitamin preparation (p.1922·1).

Acutil Fosforo *Angelini, Ital.*
Aceglutamide (p.2244·2) or glutamine (p.1947·2); -asparagine (p.1929·3); -phosphoserine (p.2367·1); pyridoxine (p.1979·1) or pyridoxine hydrochloride (p.1978·2).
Tonic.

Acutret *Ipca, India†.*
Isotretinoin (p.1599·2).
Acne.

Acutussive *Acupharm, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3); codeine phosphate (p.37·2).
Coughs.

Acuzide *Pfizer, Neth.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

ACV *Greater Pharma, Thai.*
Aciclovir (p.862·3).
Herpesvirus infections of skin and mucous membranes.

ACWY Vax *GSK, UK.*
A meningococcal vaccine (groups A, C, W , and Y) (p.2224·1).
Active immunisation.

Acxen *Loren, Mex.†.*
Paracetamol (p.108·1); naproxen (p.92·3).
Inflammation; pain.

Acxion *IFA, Mex.*
⊗ Phentermine hydrochloride (p.2162·2).
Obesity.

ACY *Ecobi, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acyclostad *Stada, Cz.; Berner, Fin.†; Stada, Hung.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acyclo-V *Alphapharm, Austral.; CTI, Israel.*
Aciclovir (p.862·3).
Herpesvirus infections; HIV infection.

Acyclox *Amat, Austria.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acydona *Pliva, Spain.*
Povidone-iodine (p.1659·2).
Disinfection of burns, skin, and wounds.

Acyflox *Pliva, Spain.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Acyhex *Hexal, Philipp.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acyl *Biofarma, Turk.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acylcoffin *Slovakofarma, Cz.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Acylene *UCB, Spain†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2).
Gastrointestinal hyperacidity.

Acylete *Kireen, Malaysia.*
Aciclovir (p.862·3).
Herpesvirus infections.

Acylpyrin *Herbacos, Cz.*
Aspirin (p.20·3).
Fever; pain.

Acylpyrin + C *Herbacos, Cz.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Acyprin *Collins, Mex.*
Allopurinol (p.552·2).
Hyperuricaemia.

Acypront *Mack, Malaysia†.*
Acetylcysteine (p.1548·2).
Respiratory-tract congestion.

Acyrax *Orion, Fin.*
Aciclovir (p.862·3) or aciclovir sodium (p.862·3).
Herpesvirus infections.

Acyvir *APT, Hong Kong; Glaxo Allen, Ital.; Pharmasant, Thai.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aczebri *Shin Poong, Philipp.*
Cefaclor (p.217·2).
Bacterial infections.

Aczone *QLT, Canad.; QLT, USA.*
Dapsone (p.261·2).
Acne.

AD Mycin *Boryung, Thai.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

AD Pabyrn *LPB, Ital.*
Vitamin A palmitate (p.1973·1); colecalciferol (p.1986·2).
Vitamin A and D deficiency.

A-D Plex *Kalbe, Indon.*
Vitamins A, B, and D (p.1922·1).
Nutritional supplement.

AD Shock *Mertens, Arg.*
Vitamin A (p.1971·2); ergocalciferol (p.1987·1).
Hypocalcaemia; hypoparathyroidism; osteoarthritis; osteomalacia; renal osteodystrophy; rickets; tetanus.

ADA *Estedi, Spain.*
Phenylephrine hydrochloride (p.1568·1).
Nasal congestion; sinus congestion.

Adacai *Schering-Plough, Chile; Schering-Plough, Venez.*
Ezetimibe (p.1284·3); simvastatin (p.1390·2).
Hypercholesterolaemia.

Adacel *Sanofi Pasteur, Canad.; Aventis Pasteur, USA.*
An adsorbed diphtheria, tetanus, and pertussis vaccine (p.2210·3).
Active immunisation.

Adaderm *Vargas, Venez.*
Vitamin A (p.1971·2); colecalciferol (p.1986·2).
Skin disorders.

Adafen *Akdeniz, Turk.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Adaferin *Lavipharm, Gr.; Galderma, India; Galderma, Israel; Galderma, Mex.*
Adapalene (p.1587·1).
Acne.

Adagen *Enzon, USA.*
Pegademase bovine (p.2364·1).
Adenosine deaminase deficiency.

Adalat *Bayer, Arg.; Bayer, Austral.; Bayer, Austria; Bayer, Belg.; Bayer, Braz.; Bayer, Canad.; Bayer, Chile; Bayer, Cz.; Bayer, Denm.; Bayer, Fin.; Bayer, Ger.; Bayer, Gr.; Bayer, Hong Kong; Bayer, Hung.; Bayer, Indon.; Bayer, Irl.; Bayer, Ital.; Bayer, Jpn; Bayer, Malaysia; Bayer, Mex.; Bayer, NZ; Bayer, Neth.; Bayer, Norw.; Bayer, Philipp.; Bayer, Pol.; Centrofarma, Port.; Bayer, Rus.; Bayer, S.Afr.; Bayer, Singapore; Bayer, Spain; Bayer, Swed.; Bayer, Switz.; Bayer, Thai.; Bayer, Turk.; Bayer, UK; Bayer, USA; Schering, USA; Bayer, Venez.*
Nifedipine (p.1350·1).
Angina pectoris; coronary spasm; hypertension; Raynaud's syndrome.

Adalate *Bayer, Fr.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension; Raynaud's syndrome.

Adalex *HB, Braz.†.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Adalgen *Andromaco, Chile†.*
Paracetamol (p.108·1); chlormezanone (p.968·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Adalgur *Teofarma, Spain.*
Paracetamol (p.108·1); thiocolchicoside (p.1898·2).
Pain; skeletal muscle spasm.

Adalgur N *Angelini, Port.*
Paracetamol (p.108·1); thiocolchicoside (p.1898·2).
Musculoskeletal and joint pain.

Adalken *Kendrick, Mex.*
Penicillamine (p.1456·2).
Cystinuria; heavy metal poisoning; Wilson's disease.

Adamin *Leti, Venez.†.*
Cisapride (p.1720·3).
Gastrointestinal motility disorders.

Adamin-G *Scientific Hospital Supplies, Irl.*
Glutamine (p.1947·2).
Nutritional supplement.

Adamon
Note. This name is used for preparations of different composition.
Kampel Martian, Arg.†; Viatris, Austria; Meda, Hung.; Viatris, Ital.
Tramadol hydrochloride (p.130·3).
Pain.

Transfarma, Thai.†.
Ciclonium bromide (p.1716·2).
Dysmenorrhoea; gastro-intestinal, biliary, and urinary-tract spasm.

Adana *Sandoz, Arg.*
Irbesartan (p.1316·1).
Hypertension.

Adana Plus *Sandoz, Arg.*
⊗ Irbesartan (p.1316·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Adancor *Lipha Sante, Fr.*
Nicorandil (p.1349·1).
Angina pectoris.

Adant *Daiichi Sankyo, Fr.; Meiji, Indon.; Tedec Meiji, Israel; Meiji, Thai.; Er-Kim, Turk.*
Sodium hyaluronate (p.2320·1).
Joint disorders; osteoarthritis.

Adapettes
Note. This name is used for preparations of different composition.
Alcon, Mex.
Disodium edetate (p.1463·3); sorbic acid (p.1662·2) (p.1622·2).
Wetting solution for contact lenses.

Alcon, USA.
Range of solutions for contact lenses (p.1622·2).

Adaphen *Triomed, S.Afr.*
⊗ Methylphenidate (p.2160·1) or methylphenidate hydrochloride (p.2159·2).
Attention-deficit hyperactivity disorder; narcoleptic syndrome.

Adapne *Cinetic, Arg.*
Adapalene (p.1587·1).
Acne.

Adaptic *Johnson & Johnson, Ital.*
White soft paraffin (p.2031·2).
Burns; wounds.

Adaptoplast *Vican, Gr.*
Salicylic acid (p.1612·2).
Calluses.

Adartrel
GSK, Cz.; GSK, Switz.
Ropinirole hydrochloride (p.816·1).
Restless legs syndrome.

GSK, Fr.; GSK, Gr.; GSK, UK.
Ropinirole (p.816·2).
Restless legs syndrome.

Adasept
Note. This name is used for preparations of different composition.
Odan, Canad.
Cleanser: Triclosan (p.1665·2).
Skin cleanser.

Odan, Canad.
Topical gel: Triclosan (p.1665·2); salicylic acid (p.1612·2); sodium thiosulfate (p.1466·1).
Acne.

Adaspor *IMS, Ital.*
Adazone; peracetic acid (p.1655·2).
Instrument disinfection.

Adato-Cel *Chiron, Israel†.*
Hypromellose (p.2144·2) in sodium chloride.
Aid in eye surgery and gonioscopy.

Adato-Deca *Chiron, Israel†.*
⊗ Perflunafene (p.2365·2).
Aid in eye surgery.

Adato-Octa *Chiron, Israel†.*
Perfluorooctane (p.2365·3).
Ophthalmic tamponade.

Adato-Sil Ol *Chiron, Israel†.*
Dimethicone (p.2032·1).
Aid in eye surgery.

Adavin *Lek, Pol.*
Nicergoline (p.2352·1).
Migraine and vascular headache; pulmonary hypertension; vascular disorders.

Adavite *Hudson, USA.*
A range of vitamin preparations (p.1922·1).

Adax *Saval, Chile.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states; panic attacks.

Adaxil *Altana, Arg.*
Glucosamine sulfate (p.2313·2).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Musculoskeletal and joint disorders.

A-D-C *Mertens, Arg.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1); ascorbic acid (p.1983·3).
Vitamin A, D, and C supplement.

ADC Fluor *Mertens, Arg.*
Vitamin A; vitamin D; vitamin C (p.1922·1) sodium fluoride (p.1962·2).
Nutritional supplement.

Adcal *ProStrakan, UK.*
Calcium carbonate (p.1714·1).
Calcium supplement; hyperphosphataemia; osteoporosis.

Adcal-D_3 *ProStrakan, UK.*
Calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Calcium and vitamin D deficiency; osteoporosis.

Adco-Amoclav *Ranbaxy, S.Afr.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Adco-Bisocor *Adcock Ingram, S.Afr.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Adco-Ciprin *Ranbaxy, S.Afr.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Adco-Clofelam *Adcock Ingram, S.Afr.*
Diclofenac potassium (p.44·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Adco-Dermed *Adcock Ingram, S.Afr.*
Ketoconazole (p.539·1).
Pityriasis versicolor; seborrhoeic dermatitis.

Adco-Dol *Adcock Ingram, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3); doxylamine succinate (p.578·2).
Fever; pain.

Adco-Flupain *Adcock Ingram, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold and influenza symptoms.

Adco-Indogel *Adcock Ingram, S.Afr.*
Indometacin (p.66·3).
Musculoskeletal and joint disorders.

Adco-Kiddipayne *Adcock Ingram, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); promethazine hydrochloride (p.588·2).
Fever; pain.

Adco-Linctopent *Adcock Ingram, S.Afr.*
⊗ Bromhexine hydrochloride (p.1552·2); orciprenaline sulfate (p.1129·1).
Coughs.

Adco-Liquilax *Adcock Ingram, S.Afr.*
Lactulose (p.1738·2).
Constipation; hepatic encephalopathy.

Adco-Loten *Adcock Ingram, S.Afr.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Adcomag Trisil *Adco, S.Afr.*
Magnesium carbonate (p.1743·1); magnesium trisilicate (p.1744·1); sodium bicarbonate (p.1673·2).
Flatulence; gastric hyperacidity.

Adco-Payne *Adcock Ingram, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3); meprobamate (p.1006·2).
Pain and tension.

Adco-Phenobarbitone Vitalet *Adcock Ingram, S.Afr.*
Phenobarbital (p.492·2); vitamin B substances (p.1922·1).
Epilepsy; insomnia; sedative.

Adco-Retic *Adcock Ingram, S.Afr.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Adco-Roznal *Adcock Ingram, S.Afr.*
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; peptic ulcer.

Adcortyl *BMS, Irl.; BMS, Israel†; BMS, UK.*
⊗ Triamcinolone acetonide (p.1544·3).
Inflammatory disorders; musculoskeletal, joint, and peri-articular disorders; skin disorders.

Adcortyl in Orabase *BMS, Irl.; BMS, UK.*
⊗ Triamcinolone acetonide (p.1544·3).
Inflammatory disorders of the mouth.

Adco-Sinal Co *Adcock Ingram, S.Afr.*
Paracetamol (p.108·1); phenylpropanolamine hydrochloride (p.1569·3); phenyltoloxamine citrate (p.588·1); codeine phosphate (p.37·2).
Cold and influenza symptoms.

Adco-Sodasol *Adcock Ingram, S.Afr.*
Sodium citrate (p.1673·3); sodium bicarbonate (p.1673·2); anhydrous citric acid (p.2284·1); tartaric acid (p.2395·2).
Gastric hyperacidity; urinary alkalinisation.

Adco-Sporozole *Adcock Ingram, S.Afr.*
Itraconazole (p.536·3).
Fungal infections.

Adco-Sufedrin *Adcock Ingram, S.Afr.*
Pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract congestion.

Adco-Talomil *Adcock Ingram, S.Afr.*
Citalopram hydrobromide (p.385·3).
Depression; panic disorder.

Adco-Tussend *Adcock Ingram, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2).
Coughs.

Adco-Wormex *Adcock Ingram, S.Afr.*
Mebendazole (p.148·3).
Worm infections.

Add Ins *SHS, UK.*
Food for special diets (p.1922·1).
Phenylketonuria.

Addamel *Fresenius Kabi, Rus.; Fresenius Kabi, Spain.*
Electrolyte (p.1667·1) and trace element preparation (p.1922·1).
Parenteral nutrition.

Addamel N *Fresenius Kabi, Cz.; Fresenius Kabi, Gr.; Fresenius Kabi, Hong Kong; Fresenius Kabi, Hung.; Pharmacia Upjohn, Israel; Fresenius Kabi, Ital.; Fresenius Kabi, Malaysia; Baxter, NZ†; Fresenius Kabi, NZ†; Fresenius Kabi, Neth.; Fresenius Kabi, Pol.; Fresenius Kabi, Port.; Fresenius Kabi, Singapore; Fresenius Kabi, Switz.; Fresenius Kabi, Thai.; Fresenius Kabi, Turk.*
Electrolyte (p.1667·1); and trace element preparation (p.1922·1).
Parenteral nutrition.

Addel N *Baxter, Ger.*
Electrolyte (p.1667·1) and trace element (p.1922·1) preparation.
Parenteral nutrition.

Addera *Novartis, Fin.*
Nutritional supplement (p.1922·1).

Adderall *Shire Biochem, Canad.; Shire Richwood, USA.*
⊗ Dexamfetamine sulfate (p.2153·1); dexamfetamine saccharate (p.2154·1); amfetamine sulfate (p.2150·2); amfetamine aspartate (p.2150·2).
Attention deficit hyperactivity disorder; narcoleptic syndrome.

Addex *Fresenius Kabi, Fin.; Fresenius Kabi, Norw.; Fresenius Kabi, Swed.*
A range of electrolyte preparations (p.1667·1).

Addex-THAM *Fresenius Kabi, Swed.*
⊗ Trometamol (p.2405·1).
Acute metabolic acidosis; acute respiratory acidosis.

Addigrip *Aventis Pasteur, Austria; Aventis Pasteur, Belg.†; Sanofi Pasteur, Ger.; Vianex (Βιανεξ), Gr.*
An influenza vaccine (surface antigen) (p.2218·2).
Active immunisation.

Addi-K *Leo, Hong Kong†; Leo, Singapore†; Leo, Thai.*
Potassium chloride (p.1684·3).
Hypokalaemia.

Addiphos *Fresenius Kabi, Denm.; Pharmacia, Irl.; Fresenius Kabi, Neth.; Fresenius Kabi, Pol.; Fresenius Kabi, UK.*
Electrolyte preparation (p.1667·1).
Hypophosphataemia; parenteral nutrition.

Additiva *Scheffler, Cz.*
Ascorbic acid (p.1983·3).
Vitamin C supplement.

Additiva Calcium *Natur Produkt, Pol.*
Calcium carbonate (p.1714·1).
Calcium supplement; osteoporosis.

Additiva Ferrum *Natur Produkt, Pol.*
Ferrous gluconate (p.1939·1); cyanocobalamin (p.1980·2); folic acid (p.1940·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron-deficiency anaemia.

Additiva Magnesium *Natur Produkt, Pol.*
Magnesium carbonate (p.1743·1).
Magnesium deficiency.

Additrace *Pharmacia, Irl.; Fresenius Kabi, UK.*
Trace-element preparation (p.1922·1).
Parenteral nutrition.

Addivit *Medice, Ger.*
Vitamin preparation (p.1922·1).

Addivita *Scheffler, Ital.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency.

Addlife *Pascual, Philipp.*
Ubidecarenone (p.2407·2).
Dietary supplement.

Addos *Arrow, Austral.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

ADE 2 (Adedois) *Prodotti, Braz.*
Vitamin A acetate (p.1973·1); ergocalciferol (p.1987·1).
Vitamin A and D deficiency.

Adebit *Chinoin, Cz.†; Zentiva, Hung.*
Buformin hydrochloride (p.438·3).
Diabetes mellitus.

Adecal
Note. This name is used for preparations of different composition.
Teuto, Braz.
Vitamin A acetate (p.1973·1); colecalciferol (p.1986·2).
Bio-Kem, Turk.
Vitamin A; vitamin D; calcium gluconate; calcium phosphate (p.1922·1).

Adecaps *Pharmaselect, Austria.*
Cod-liver oil (p.1935·2).
Vitamin A and D deficiency.

Adeconce *Lafedar, Arg.*
Vitamins A, C, and D (p.1922·1).

Adecur
Tecnofarma, Chile; Nolver, Venez.
Terazosin (p.1410·3).
Benign prostatic hyperplasia; hypertension.
Asofarma, Mex.
Terazosin hydrochloride (p.1410·2).
Benign prostatic hyperplasia; hypertension.

Adecut *Takeda, Jpn.*
Delapril hydrochloride (p.1256·2).
Hypertension.

Adederme *EMS, Braz.*
Vitamin A (p.1971·2); vitamin D (p.1986·1); zinc oxide (p.1621·2).
Skin disorders.

Adefin *Alphapharm, Austral.; Pacific, NZ.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Adeflor M *Upjohn, USA†.*
Multivitamin and mineral preparation with fluoride (p.1962·2) and iron (p.1922·1).
Dental caries prophylaxis; dietary supplement.

Adeforte *Gross, Braz.*
Vitamin A palmitate (p.1973·1); colecalciferol (p.1986·2); tocoferil acetate (p.1992·3).
Vitamin supplement.

Adeglos *Ortoquimica, Braz.†.*
Zinc oxide (p.1621·2); boric acid (p.2268·1); dogfish-liver oil.
Skin disorders.

Adehl *Kayaku, Jpn.*
Colforsin daropate hydrochloride (p.2285·3).

Adekals *Offenbach, Mex.*
Vitamin A (p.1971·2); ergocalciferol (p.1987·1).
Vitamin A and D deficiency.

Adekin *Desitin, Ger.*
Amantadine hydrochloride (p.792·3).
Influenza A; parkinsonism.

Adekon *Concordia, Mex.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1).
Vitamin A and D deficiency.

Adekon C *Concordia, Mex.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1); ascorbic acid (p.1983·3).
Vitamin A, D, and C deficiency.

Adeks *Axcan, Canad.; Scandipharm, USA.*
Multivitamin preparation with zinc (p.1922·1).

Adel
Note. This name is used for preparations of different composition.
Senosiain, Mex.
Clarithromycin (p.248·2).
Bacterial infections.
Ponce, Venez.†.
Vitamin A; vitamin D; boric acid; zinc oxide; talc.
Barrier preparation.

Adelcort *Adelco, Gr.*
⊗ Prednisolone (p.1540·3).
Corticosteroid.

Ad-Element *Darrow, Braz.*
Trace-element preparation (p.1922·1).
Parenteral nutrition.

Adelfan-Esidrex *Novartis, Braz.†; Novartis, Spain†.*
⊗ Reserpine (p.1387·3); dihydralazine sulfate (p.1264·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Adelheid-Jodquelle, Tolzer *Jodquellen, Ger.*
Sodium iodide (p.2169·2); potassium; sodium; ammonium; calcium; magnesium; iron; chloride; sodium bromide; bicarbonate.
Iodine-deficiency disorders.

Adelone *Cooper (Κοπερ), Gr.*
⊗ Prednisolone acetate (p.1541·1).
Inflammatory eye disorders.

Adeloren *Loren, Mex.†.*
Vitamin A (p.1971·2); colecalciferol (p.1986·2).

Adelphan *Novartis, Turk.*
Reserpine (p.1387·3); dihydralazine sulfate (p.1264·3).
Hypertension.

Adelphane *Novartis, India.*
Reserpine (p.1387·3); dihydralazine sulfate (p.1264·3).
Hypertension.

Adelphane-Esidrex *Novartis, Hong Kong; Novartis, India; Novartis, Rus.*
⊗ Reserpine (p.1387·3); dihydralazine sulfate (p.1264·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Adelphan-Esidrex *Novartis, Switz.; Novartis, Turk.*
⊗ Reserpine (p.1387·3); dihydralazine sulfate (p.1264·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Adelphan-Esidrix *Novartis, Ger.†.*
⊗ Reserpine (p.1387·3); dihydralazine sulfate (p.1264·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Ademina *Etifar, Venez.*
Vitamin A (p.1971·2); vitamin D (p.1992·2); zinc oxide (p.1621·2); boric acid (p.2268·1).
Skin disorders.

Adena C *Innotech, Fr.†.*
Pink tablets, deoxyribonucleic acid (p.2292·3); white tablets, ascorbic acid (p.1983·3).
Tonic.

Adenamin *Farmamust, Gr.*
⊗ Atenolol (p.1217·3).
Angina pectoris; hypertension.

Adenar *Proula, Venez.*
Vitamin A (p.1971·2); vitamin D (p.1986·1).
Vitamin deficiency.

Adenas *Eagle, Austral.†.*
Vitamins; minerals; ginseng; eleutherococcus senticosis root (p.1922·1).
Tonic.

Adenil *Lamsa, Arg.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1); miconazole nitrate (p.541·3).
Infected skin disorders.

Adenobeta *Salus, Ital.†.*
Cocarboxylase chloride (p.1976·3); cyanocobalamin (p.1980·2).
Neuritis.

Adenocard *Libbs, Braz.; Astellas, Canad.; Fujisawa, USA.*
Adenosine (p.1202·1).
Diagnosis of arrhythmias; paroxysmal supraventricular tachycardia.

Adenocor *Sanofi Synthelabo, Austral.; Sanofi-Aventis, Belg.; Sanofi-Aventis, Cz.; Sanofi Synthelabo, Denm.; Sanofi-Aventis, Fin.; Sanofi-Aventis, Gr.; Sanofi-Aventis, Hung.; Sanofi-Aventis, Irl.; Sanofi Winthrop, Israel; Sanofi-Aventis, Malaysia; Sanofi-Aventis, NZ; Sanofi Synthelabo, Neth.; Sanofi Synthelabo, Norw.; Sanofi-Aventis, Pol.; Sanofi Synthelabo, S.Afr.; Sanofi-Aventis, Singapore; Sanofi-Aventis, Spain; Sanofi Synthelabo, Thai.; Sanofi Synthelabo, UK; Sanofi Synthelabo, Venez.†.*
Adenosine (p.1202·1).
Acute intermittent porphyria; diagnosis of arrhythmias; paroxysmal supraventricular tachycardia.

Adenoject *Sun, India.*
Adenosine (p.1202·1).
Coronary vasodilator in diagnostic procedures; paroxysmal supraventricular tachycardia.

Adenoplex *EG, Ital.*
Cocarboxylase (p.1975·2); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Neuritis.

Adenoprostal *IBSA, Switz.†.*
Pollen extract (p.2370·2).
Micturition disorders associated with benign prostatic hyperplasia.

Adenosan *Farmanic, Gr.*
Ketoconazole (p.539·1).
Fungal skin infections.

Adenoscan *Sanofi Synthelabo, Austral.; Sanofi Synthelabo, Austria; Sanofi Synthelabo, Cz.†; Sanofi Synthelabo, Fin.†; Sanofi-Aventis, Fr.; Sanofi Synthelabo, Ger.; Sanofi Synthelabo, Hong Kong; Sanofi-Aventis, Ital.; Asubio, Jpn; Sanofi Synthelabo, Neth.; Sanofi-Aventis, Spain; Sanofi Synthelabo, UK; Fujisawa, USA.*
Adenosine (p.1202·1).
Coronary vasodilator during radionuclide myocardial perfusion imaging.

Adenovit *NCSN, Ital.†.*
Cyanocobalamin (p.1980·2); cocarboxylase hydrochloride (p.1976·3); pyridoxine hydrochloride (p.1978·2).
Neuropathies.

Adenyl *Aerocid, Fr.*
Adenosine phosphate (p.2247·2).
Haemorrhoids; venous insufficiency.

Adenylocrat *Godecke, Ger.†.*
Crataegus (p.2289·1).
Cardiac disorders.

Adepal *Wyeth, Fr.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Biphasic oral contraceptive.

Adepiron *Adeka, Turk.*
Dipyrone (p.49·2).
Fever; pain.

A-Depress-Therapy *AG Therapy, Gr.*
Citalopram (p.385·3).
Depression.

Adepril
Note. This name is used for preparations of different composition.
Teofarma, Ital.
Amitriptyline hydrochloride (p.376·1).
Depression.
Carbel, Mex.†.
Carbamazepine (p.471·3).
Depression.

Adepsique *Psicofarma, Mex.*
Amitriptyline hydrochloride (p.376·1); diazepam (p.986·3); perphenazine (p.1017·1).
Insomnia; mixed anxiety depressive states.

Adepssir *Ferrer, Philipp.*
Fluoxetine hydrochloride (p.391·2).
Bulimia nervosa; depression; obsessive-compulsive disorder; premenstrual dysphoric disorder.

Adept *Shire, UK.*
Icodextrin (p.1937·2).
Prevention of surgical adhesions.

Aderan *Roemmers, Arg.*
⊗ Sibutramine hydrochloride (p.2163·2).
Obesity.

Aderm *Sigma, Austral.†.*
Aqueous Cream BP.

Aderma Dermalibour *Bio-Merieux, Hong Kong†; Pierre Fabre, Hong Kong†.*
Avena (p.2262·1); zinc oxide (p.1621·2); zinc sulfate (p.1999·2); copper sulfate (p.1935·3); glycerol (p.2314·2).
Dry skin; eczema; nappy rash.

Aderma Epitheliale *Bio-Merieux, Hong Kong†; Pierre Fabre, Hong Kong†.*
Avena (p.2262·1); vitamin A (p.1971·2); vitamin E (p.1992·2).
Skin abrasions; sunburn; wounds.

Aderma Exomega *Bio-Merieux, Hong Kong†; Pierre Fabre, Hong Kong†.*
Avena (p.2262·1); omega 6 fatty acids (p.2308·2); glycerol (p.2314·2).
Eczema.

A-Derma Lait Solaire *Ducray, Fr.*
SPF 25: Avena (p.2262·1); zinc oxide (p.1621·2); titanium dioxide (p.1617·3).
Sunscreen.

A-Derma Pain Salicylique *Ducray, Fr.†.*
Salicylic acid (p.1612·2).
Skin disorders.

Aderma Ultra High Protection *Bio-Merieux, Hong Kong†; Pierre Fabre, Hong Kong†.*
Titanium dioxide (p.1617·3); zinc oxide (p.1621·2); avena (p.2262·1).
Sunscreen.

Adermicina *Medical, Arg.*
Neomycin sulfate (p.305·1); vitamin A (p.1971·2); ergocalciferol (p.1987·1); zinc oxide (p.1621·2); benzocaine (p.1854·1).
Burns; skin disorders; wounds.

Adermicina A *Medical, Arg.*
Vitamin A (p.1971·2); zinc oxide (p.1621·2); benzocaine (p.1854·1).
Burns; skin disorders; wounds.

Adermicina A Mama *Medical, Arg.*
Vitamin A palmitate (p.1973·1).
Stretch marks.

Adermina *Koni-Cofarm, Chile.*
⊗ Fluocinolone (p.1531·3).
Skin disorders.

Aderogil D3 *Sanofi-Aventis, Braz.*
Colecalciferol (p.1986·2); vitamin A acetate (p.1973·1).
Vitamin deficiencies.

Aderogyl *Millet-Franklin, Arg.; Aventis, Mex.†.*
Vitamin A palmitate; ergocalciferol; acetomenaphthone (p.1922·1).
Vitamin A, D, and K supplement.

Aderosol *Medical, Arg.*
Ergocalciferol (p.1987·1).
Vitamin D supplement.

Aderplus spezial Dr Hagedorn *Naturarzneimittel, Ger.*
Homoeopathic preparation.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Adesera *Cipla, India.*
Adefovir dipivoxil (p.865·1).
Chronic hepatitis B.

Adesipress-TTS *Boehringer Ingelheim, Ital.†.*
Clonidine (p.1247·1).
Hypertension.

Adesitrin *Pharmacia, Ital.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris.

Adetphos *Kowa, Jpn.*
Adenosine triphosphate, disodium salt (p.2247·3).
Heart failure; vertigo.

Adevitan G *Kener, Mex.*
Vitamins A, C, and D (p.1922·1).

Adex *Dexxon, Israel.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Adexone *Rekah, Israel.*
⊗ Dexamethasone (p.1526·1); salicylic acid (p.1612·2).
Skin disorders.

Adexor *Egis, Cz.; EGIS, Hung.*
Trimetazidine hydrochloride (p.1419·2).
Angina pectoris; vestibular disorders.

Adezan *Adelco, Gr.*
Dipyridamole (p.1268·1).
Thromboembolic disorders.

Adezio *Xepa-Soul Pattinson, Hong Kong; Xepa-Soul Pattinson, Malaysia; Xepa-Soul Pattinson, Singapore.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Adfer *Fahrenheit, Indon.*
Ferrous gluconate (p.1939·1); manganese sulfate; copper sulfate (p.1922·1); folic acid (p.1940·1); vitamin B (p.1980·2).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Adiamil *Mediderm, Chile.*
Adapalene (p.1587·1).
Acne.

Adiantine *Potter's, UK.*
Hamamelis (p.2318·2); rosemary oil (p.2381·3); bay oil (p.2263·2).
Scalp disorders.

Adiaril *ABC, Fr.*
Glucose; sucrose; potassium gluconate; sodium citrate; sodium chloride (p.1672·2).
Diarrhoea; oral rehydration therapy.

Adiatin *Novag, Mex.*
Famotidine (p.1730·1).
Peptic ulcer.

Adiazine *Bouchara-Recordati, Fr.†; IFET (ΙΦΕΤ), Gr.*
Sulfadiazine (p.336·2).
Bacterial infections; nocardiosis; toxoplasmosis.

Adibal *Diba, Mex.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1).
Vitamin A and D deficiency.

Adicanil *Pharmathen, Gr.*
Lisinopril (p.1325·2).
Heart failure; hypertension; myocardial infarction.

Adiclair *Ardeypharm, Ger.*
Nystatin (p.543·2).
Fungal infections.

Adiecal *Francia, Ital.*
Calcium carbonate (p.1714·1).
Calcium deficiency.

Adifen
Note. This name is used for preparations of different composition.
Adipharm (Αδηφαρμ), Gr.
⊗ Tamoxifen citrate (p.772·3).
Breast cancer.

Raza, Malaysia†.
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Adiff *Ipca, India.*
Adapalene (p.1587·1).
Acne.

Adilox *David, India.*
Ampicillin (p.204·1); cloxacillin (p.256·1).
Bacterial infections.

Adimet *Ratiopharm, Cz.; Ratiopharm, Hung.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Adimod *Armstrong, Mex.*
Pidotimod (p.2367·3).
Immunostimulant.

Adin *Ferring, Israel.*
Desmopressin acetate (p.2185·3).
Diabetes insipidus; nocturnal enuresis.

Adine *Laboratorios Chile, Chile.*
⊗ Noradrenaline acid tartrate (p.1360·1).
Hypotension.

Adinol *Teva, Israel.*
Zinc oxide (p.1621·2); Burrow's solution; wool alcohols (p.2033·2); silicon dioxide (p.2146·2).
Barrier preparation; eczema; nappy rash; skin irritation.

Adiod *Teofarma, Spain.*
Colecalciferol (p.1986·2); vitamin A (p.1971·2); iodine (p.2169·2).
Deficiency of vitamins A and D.

Adios *Diomed, UK.*
Bladderwrack (*Fucus* spp.) (p.2384·2); boldo (p.2267·2); butternut; taraxacum (p.2395·1).
Obesity.

Adios Max *Diomed, UK.*
Bladderwrack (*Fucus* spp.) (p.2384·2).
Obesity.

Adipex
Gerot, Cz.
⊗ Phentermine resinate (p.2162·3).
Obesity.

Gerot, Malaysia; Gerot, Switz.
⊗ Phentermine (as an ion-exchange resin complex) (p.2162·2).
Obesity.

Adipex-P *Gate, USA.*
⊗ Phentermine hydrochloride (p.2162·2).
Obesity.

Adipine *Trinity, UK.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Adipodiet *Frandiet, Fr.*
Nutritional supplement (p.1922·1).

Adiporell *Sanorell, Ger.*
Homoeopathic preparation.

Adiporetic *Frandiet, Fr.†.*
Nutritional supplement (p.1922·1).

Adiprost *Adipharm (Αδηφαρμ), Gr.*
Flutamide (p.725·1).
Prostatic cancer.

Adipur *Medika, Switz.*
Simvastatin (p.1390·2).
Hypercholesterolaemia.

Adiro *Bayer, Arg.†; Bayer, Mex.†; Bayer, Spain.*
Aspirin (p.20·3).
Fever; inflammation; musculoskeletal and joint disorders; pain; thromboembolism prophylaxis.

Adisar *Pharma Investi, Chile.*
⊗ Sibutramine hydrochloride (p.2163·2).
Obesity.

Adistan *Chinoin, Mex.†.*
Astemizole (p.567·2).

Adisterolo *Abiogen, Ital.*
Vitamin A (p.1971·2); colecalciferol (p.1986·2).
Vitamin A and D deficiency.

Adital *Gobbi, Arg.*
Macrogol (p.2336·1); electrolytes (p.1667·1).
Bowel evacuation; constipation.

Adiugrip *Sanofi Pasteur, Ital.*
An influenza vaccine (p.2218·2).
Active immunisation.

Adiuretin
Ferring, Cz.†.
Desmopressin (p.2185·2) or desmopressin acetate (p.2185·3).
Diabetes insipidus; nocturnal enuresis; polyuria; test of renal concentrating capacity.

Ferring, Neth.
Desmopressin acetate (p.2185·3).
Diabetes insipidus; nocturnal enuresis; polydipsia; polyuria.

Adiuvan *Lazar, Arg.*
Glimepiride (p.441·1).
Diabetes mellitus.

Adiuvant *Manetti Roberts, Ital.†.*
Pirglutargine (p.2369·1).
Mental function disorders.

Adivit *Tripharma, Rus.*
Vitamin preparation (p.1922·1).

Adivon *Ederka, Mex.*
Ibuprofen (p.64·2).
Inflammation; pain.

Adizem *Napp, Irl.; Rafa, Israel; Napp, UK.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Adjuvin *Lannacher, Cz.*
Sertraline hydrochloride (p.421·3).
Depression; obsessive-compulsive disorders; panic disorder; post-traumatic stress disorder; social phobia.

Adlynx *Aldril, Philipp.*
Lincomycin hydrochloride (p.293·2).
Staphylococcal infections.

Admiral *SJA, Gr.*
Tenoxicam (p.128·2).
Gout; inflammation; osteoarthritis; pain; rheumatoid arthritis; spondyloarthropathies.

Admon *Esteve, Spain.*
Nimodipine (p.1357·2).
Mental function impairment; neurological deficit following subarachnoid haemorrhage.

Ad-Muc
Note. This name is used for preparations of different composition.
Biolab Sanus, Braz.
Chamomile (p.2279·3).

Merz Consumer, Ger.†; Merz, Hong Kong.
Chamomile (p.2279·3); myrrh (p.2349·2).
Inflammation of gums and oral mucosa; inflammatory disorders of the mouth and gums; skin ulcers.

ADN
Note. This name is used for preparations of different composition.
Braun, Arg.; Braun, Chile†.
Preparation for enteral nutrition with or without fibre (p.1922·1).

Sigma, Arg.
Deoxyribonucleic acid (p.2292·3).
Tonic.

ADN Nutricomp *Behrens, Venez.*
A range of preparations for enteral nutrition (p.1922·1).

Adnemic *Nakornpatana, Thai.†.*
Multivitamin and mineral preparation with ferrous fumarate (p.1938·3) (p.1922·1).
Iron-deficiency anaemia; vitamin deficiency.

Adnemic F *Nakornpatana, Thai.†.*
Multivitamin and mineral preparation with ferrous fumarate (p.1938·3) and folic acid (p.1940·1) (p.1922·1).
Iron-deficiency anaemia; vitamin deficiency.

Adnexba *Sevapharma, Cz.†.*
Staphylococcus aureus; streptococci; enterococci; *Escherichia coli*; *Neisseria gonorrhoeae*.
Adnexitis.

Ado C *Kwizda, Austria.*
Paracetamol (p.108·1); ascorbic acid (p.1983·3).
Fever; pain.

Adocomp *TAD, Ger.*
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Adocor *TAD, Ger.*
Captopril (p.1239·2).
Heart failure; hypertension.

Adofen *Ferrer, Spain.*
Fluoxetine hydrochloride (p.391·2).
Bulimia nervosa; depression; mixed anxiety depressive states; obsessive-compulsive disorder.

Adol
Note. A similar name is used for preparations of different composition (see Adoll, below).
Julphar, UAE.
Paracetamol (p.108·1).
Fever; pain.

Adol Allergy Sinus *Julphar, UAE.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Hay fever; sinusitis; upper respiratory-tract disorders.

Adol Cold *Julphar, UAE.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Cold and influenza symptoms.

Adol Compound *Julphar, UAE.*
Salicylamide (p.121·2); paracetamol (p.108·1); caffeine (p.1116·3); codeine phosphate (p.37·2).
Fever; pain.

Adol Extra *Julphar, UAE.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Adol PM *Julphar, UAE.*
Paracetamol (p.108·1); diphenhydramine hydrochloride (p.577·2).
Cold symptoms; insomnia.

Adol Sinus *Julphar, UAE.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Nasal congestion; sinus headache.

Adolan *Abic, Israel.*
⊗ Methadone hydrochloride (p.82·3).
Opioid withdrawal syndrome; pain.

Adolcas *Casasco, Arg.*
Monofluoride phosphate; calcium carbonate (p.1714·1).
Osteoporosis.

Adolen *Konsuma, Venez.*
Paracetamol (p.108·1); aspirin (p.20·3); caffeine (p.1116·3).
Pain.

Adoless *Farmoquimica, Braz.*
24 Tablets, gestodene (p.2105·2); ethinylestradiol (p.2101·3); 4 tablets, inert.
Combined oral contraceptive.

Adoll
Note. A similar name is used for preparations of different composition (see Adol, above).
HPP, Hong Kong.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; migraine; myocardial infarction.

Adolonta *Grunenthal, Spain.*
Tramadol hydrochloride (p.130·3).
Pain.

Adolor *Obolenskoe, Rus.*
Ketorolac trometamol (p.74·2).
Pain.

Adolorin *Kwizda, Austria.*
Propyphenazone (p.119·3); paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Adolorin ASS/Vit C *Kwizda, Austria.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Adolphs Salt Substitute *Adolphs, USA.*
Sodium-free dietary salt substitute (p.1922·1).

Adolquir *Kin, Spain.*
Dexketoprofen trometamol (p.73·1).
Pain.

Adona
Note. This name is used for preparations of different composition.
Silesia, Chile.
Paracetamol (p.108·1); ibuprofen (p.64·2).
Fever; inflammation; pain.

Tanabe, Hong Kong; Tanabe, Indon.; SIT, Ital.; Tanabe, Jpn.
Carbazochrome sodium sulfonate (p.1058·2).
Haemorrhagic disorders.

Adop-Tar *ICN, Arg.†.*
⊗ Fluocinolone acetonide (p.1531·3); salicylic acid (p.1612·2); coal tar (p.1616·2).
Psoriasis.

Adoquick Vit C *Kwizda, Austria.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Adormix *Sanofi-Aventis, Chile.*
Zolpidem tartrate (p.1037·3).
Insomnia.

Adovia *Pharmacypria, Gr.*
Risperidone (p.1024·2).
Psychoses.

Adoxa
Note. This name is used for preparations of different composition.
S Med, Austria.
Doxazosin mesilate (p.1275·1).
Hypertension.

Doak, USA.
Doxycycline (p.267·1).
Bacterial infections.

Adprex *Hebron, Braz.†.*
St John's wort (p.422·3).
Depression.

Adprin-B *Pfeiffer, USA.*
Aspirin (p.20·3).
Calcium carbonate (p.1714·1), magnesium carbonate (p.1743·1), and magnesium oxide (p.1744·1) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Pain.

Adratan *Elpen (Ελπεν), Gr.†.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Adrebloc *Beta, Arg.†.*
Amlodipine (p.1214·2); benazepril hydrochloride (p.1223·2).
Hypertension.

Adrecort *Allen, Mex.*
⊗ Dexamethasone (p.1526·1).
Corticosteroid.

Adreject *ALK, Spain.*
⊗ Adrenaline (p.1203·2).
Anaphylaxis.

Adrekar *Sanofi Synthelabo, Austria; Sanofi Synthelabo, Ger.*
Adenosine (p.1202·1).
Arrhythmias.

Adrena *Human, Philipp.*
⊗ Methylprednisolone sodium succinate (p.1538·2).
Corticosteroid.

Adrenam *NAM, Ger.†.*
⊗ Etilefrine hydrochloride (p.1284·1).
Hypotension.

Adrenin *Oboi, Philipp.*
⊗ Adrenaline hydrochloride (p.1203·3).
Adjunct in infiltration anaesthesia; haemorrhage; shock; urticaria.

Adrenol *Fabra, Arg.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Adrenoplasma *Climax, Braz.†.*
Carbazochrome (p.1058·2).
Haemorrhage.

Adrenor *Samarth, India.*
⊗ Noradrenaline acid tartrate (p.1360·1).
Adjunct in cardiac arrest; hypotension.

Adrenotone *Merck, S.Afr.*
⊗ Adrenaline (p.1203·2).
Bronchospasm; cardiac arrest; hypersensitivity reactions.

Adrenoxil *Climax, Braz.†; CPH, Port.*
Carbazochrome (p.1058·2).
Haemorrhage; haemorrhagic disorders.

Adrenoxyl *Sanofi Synthelabo, Ger.†.*
Carbazochrome (p.1058·2).
Haemorrhage.

Adreson *Organon, Belg.†; Organon, Neth.†.*
⊗ Cortisone acetate (p.1524·2).
Corticosteroid.

AdreView *GE Healthcare, Neth.*
Iodine-123 iobenguane (p.2054·2).
Detection of malignant neoplasms.

Adrexan *Mayoly-Spindler, Fr.†.*
⊗ Propranolol hydrochloride (p.1380·3).
Cardiovascular disorders.

Adriacin *Kyowa, Jpn.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Adriaderm *Terapeutico, Ital.*
Barrier preparation.

Adrianol *Actavis, Rus.*
⊗ Phenylephrine hydrochloride (p.1568·1); tramazoline hydrochloride (p.1574·3).
Nasal congestion.

Adriblastin *Pfizer, Austria; Pharmacia, Ger.; Pfizer, Switz.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Adriblastina *Pfizer, Arg.; Pfizer, Belg.; Pfizer, Braz.; Pfizer, Chile; Pfizer, Cz.; Pfizer, Gr.; Pfizer, Hung.; Pharmacia, Israel; Pharmacia, Ital.; Pfizer, Mex.; Pfizer, Neth.; Pfizer, Philipp.; Pharmacia, Pol.; Pharmacia,*

Port.†; Pharmacia, S.Afr.; Pfizer, Singapore; Pfizer, Thai.; Carlo Erba, Turk.; Deva, Turk.; Pfizer, Venez.
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Adriblastine *Pfizer, Fr.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Adrigyl *Bouchara-Recordati, Fr.†.*
Colecalciferol (p.1986·2).
Vitamin D deficiency.

Adrim
Dabur, India†; Dabur, Philipp.; Dabur, Thai.
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Biogalenic, Venez.
Doxorubicin (p.712·2).
Malignant neoplasms.

Adrimedac *Medac, Ger.; Medac, Pol.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Adrinex *Medical, Port.†.*
⊗ Adrenaline (p.1203·2); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Adrocil *Oftalder, Port.†.*
Trifluridine (p.910·3).
Viral eye infections.

Adrome *Landson, Indon.*
Carbazochrome sodium sulfonate (p.1058·2).
Haemorrhage.

Adronat *Alphapharm, Austral.; Neopharmed, Ital.; Tecnifar, Port.*
Alendronate sodium (p.1088·1).
Osteoporosis; Paget's disease of bone.

Adrovance *MSD, Cz.; Beaufour, Fr.; Vianex (Βιανεξ), Gr.*
Alendronate sodium (p.1088·1); colecalciferol (p.1986·2).
Osteoporosis.

Adroxef *Laboratorios Chile, Chile.*
Cefadroxil (p.218·1).
Bacterial infections.

Adroyd *Pfizer, India.*
⊗ Oxymetholone (p.2123·3).
Aplastic anaemia.

Adrucil *Pharmacia, Canad.†; Gensia, USA.*
Fluorouracil (p.722·2).
Malignant neoplasms.

Adrusen *SIFI, Ital.; SIFI, Singapore†.*
Lycopene; vitamins; minerals (p.1922·1).

Ad-Sorb *Key, Austral.*
Activated charcoal (p.1435·2).
Flatulence.

Adsorbed DT Coq *Aventis Pasteur, Hong Kong†.*
An adsorbed diphtheria, tetanus, and pertussis vaccine (p.2210·3).
Active immunisation.

Adsorbed DT Vaccine *Bio Farma, Thai.*
An adsorbed diphtheria and tetanus vaccine (p.2210·1).
Active immunisation.

Adsorbocarpine *Alcon, USA.*
Pilocarpine hydrochloride (p.1884·3).
Glaucoma; raised intra-ocular pressure; reversal of mydriasis.

Adsorbonac *Alcon, Ger.; Alcon, Ital.; Alcon, Singapore†; Alcon, USA.*
Sodium chloride (p.1686·1).
Corneal oedema; eye irritation.

ADT
Note. This name is used for preparations of different composition.
CSL, Austral.; CSL, NZ.
An adsorbed diphtheria and tetanus vaccine (p.2210·1).
Active immunisation.

Generis, Port.
Amitriptyline hydrochloride (p.376·1).
Depression; nocturnal enuresis.

AD-Til *Nycomed, Braz.*
Colecalciferol (p.1986·2); vitamin A acetate (p.1973·1).
Vitamin deficiencies.

Aduar *Vannier, Arg.*
Mebendazole (p.148·3); tinidazole (p.848·3).

Aducin *Nettopharma, Denm.†.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Adulax *Casen Fleet, Spain.*
Glycerol (p.2314·2).
Constipation.

Adulfen Codeine *Boots Healthcare, Belg.*
Ibuprofen (p.64·2); codeine phosphate (p.37·2).
Pain.

Adulfen Lysine *Boots Healthcare, Belg.*
Ibuprofen lysine (p.64·2).
Fever; pain.

Adult Chesty Cough *Numark, UK.*
Diphenhydramine (p.577·1).
Coughs.

Adult Chesty Cough Non Drowsy *Numark, UK.*
Guaifenesin (p.1561·3).
Coughs.

Adult Citrex *Pharmaniaga, Malaysia.*
Vitamin preparations with zinc (p.1999·1) (p.1922·1).
Dietary supplement.

Adult Citrex Cal-Mag-D3 *Pharmaniaga, Malaysia.*
Calcium (p.1675·2); colecalciferol (p.1986·2); magnesium (p.1678·3).
Vitamin D and mineral supplement.

Adult Citrex Multivitamin + Ginseng + Omega 3 *Pharmaniaga, Malaysia.*
Vitamin preparation with ginseng (p.2312·1) and omega-3 marine triglycerides (p.1362·2).
Dietary supplement.

Adult Dry Cough *Numark, UK.*
Dextromethorphan (p.1555·2).
Coughs.

Adult Meltus for Chesty Coughs & Catarrh *SSL, UK.*
Guaifenesin (p.1561·3); cetylpyridinium chloride (p.1635·1); honey (p.1948·2).
Catarrh; coughs.

Adumbran *Boehringer Ingelheim, Austria; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Spain†.*
Oxazepam (p.1014·2).
Anxiety; sleep disorders.

Adurix *Nycomed, Denm.*
⊗ Clopamide (p.1250·1).
Diabetes insipidus; oedema.

Adursal *Leiras, Fin.*
Ursodeoxycholic acid (p.2408·1).
Biliary-tract disorders; chronic active hepatitis; gallstones.

Advabase *Intendis, Ital.*
Emollient.

Advagraf *Astellas, Cz.; Astellas, Fr.; Astellas, UK.*
Tacrolimus (p.1843·1).
Transplant rejection.

Advair *GSK, Canad.; GSK, USA.*
⊗ Fluticasone propionate (p.1533·2); salmeterol xinafoate (p.1135·1).
Asthma; obstructive airways disease.

Advance
Note. This name is used for preparations of different composition.
Avon, Canad.†.
Pyrithione zinc (p.1611·2).
Dandruff.

Advanced Care, USA.
Pregnancy test (p.2372·1).

Advance Formance *Abbott, Mex.*
Preparation for enteral nutrition (p.1922·1).

Advanced Eye Relief *Bausch & Lomb, USA.*
Propylene glycol (p.2374·1).
Dry eyes.

Advanced Formula Di-Gel *Schering-Plough, USA.*
Magnesium hydroxide (p.1743·2); calcium carbonate (p.1714·1); simeticone (p.1770·2).
Hyperacidity.

Advanced Formula Zenate *Solvay, USA.*
Multivitamin and mineral preparation with iron and folic acid (p.1922·1).
Formerly called Zenate.
Nutritional supplement in pregnancy and lactation.

Advanced Relief Visine *Pfizer Consumer, USA.*
⊗ Tetryzoline hydrochloride (p.1574·1); macrogol 400 (p.2336·3); povidone (p.2146·1); dextran 70 (p.1059·3).
Dry eyes; eye irritation.

Advanced-RF Natal Care *Ethex, USA.*
Vitamin and mineral preparation (p.1922·1).

Advantage *Roche Diagnostics, Austral.†; Roche Diagnostics, Canad.*
Test for glucose in blood (p.2314·1).

Advantage 24 *Wellspring, Canad.†; Lake, USA.*
Nonoxinol 9 (p.1917·2).
Contraceptive.

Advantan *Schering, Arg.; CSL, Austral.; Schering, Austria; Schering, Belg.; Intendis, Braz.; Intendis, Cz.; Schering, Fin.; Intendis, Ger.; Schering, Gr.; Schering, Hong Kong; Schering, Indon.; Intendis, Ital.; Intendis, Mex.; CSL, NZ; Schering, Philipp.; Intendis, Pol.; Intendis, Port.; Intendis, Rus.; Schering, S.Afr.; Schering, Switz.; Schering, Turk.; Schering, Venez.*
⊗ Methylprednisolone aceponate (p.1539·1).
Skin and scalp disorders.

Advate *Baxter, Austria; Baxter, Belg.; Baxter, Cz.; Baxter, Denm.; Baxter, Fin.; Baxter, Fr.; Baxter, Ger.; Baxter, Gr.; Baxter, Ital.; Baxter, Jpn; Baxter, NZ; Baxter, Neth.; Baxter, Spain; Baxter, Swed.; Baxter, Switz.; Baxter BioScience, UK; Baxter, USA.*
Octocog alfa (p.1067·2).
Haemorrhagic disorders.

Advel *Hexal, Ger.*
Ibuprofen (p.64·2).
Fever; pain.

Adventan *Intendis, Spain.*
⊗ Methylprednisolone aceponate (p.1539·1).
Skin disorders.

Advera *Abbott, Arg.†; Abbott, Austral.†; Abbott, Braz.; Abbott, Cz.†; Ross, Israel; Abbott, Mex.; Ross, USA.*
Preparation for enteral nutrition in patients with HIV infection or AIDS (p.1922·1).
Nutritional supplement in HIV infection.

Adversuten *AWD, Ger.†.*
Prazosin hydrochloride (p.1375·2).
Heart failure; hypertension; Raynaud's syndrome.

Advicor *Abbott, USA.*
Nicotinic acid (p.1957·3); lovastatin (p.1328·2).
Hypercholesterolaemia.

Advil *Wyeth Consumer, Austral.; Wyeth Lederle, Austria; Wyeth Consumer, Braz.; Wyeth Consumer, Canad.; Wyeth Consumer, Chile†; Wyeth, Cz.; Wyeth Sante, Fr.; Wyeth, Gr.; Wyeth Consumer, Hong Kong; Wyeth, Hung.; Wyeth Consumer, Irl.; Wyeth, Israel; Wyeth Consumer, Mex.; Wyeth Consumer, Neth.; Wyeth, Philipp.; SA Druggists Self Med, S.Afr.; Wyeth, Spain; Wyeth, Turk.; Wyeth Consumer, UK; Whitehall, USA; Wyeth-Ayerst, USA; Wyeth, Venez.*
Ibuprofen (p.64·2).
Fever; inflammation; osteoarthritis; pain; peri-articular and soft-tissue disorders; rheumatoid arthritis.

Advil Allergy Sinus *Wyeth Consumer, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); ibuprofen (p.64·2).
Upper respiratory-tract disorders.

Advil Cold *Wyeth Lederle, Austria; Wyeth, Cz.; Wyeth, Hung.*
Ibuprofen (p.64·2); pseudoephedrine hydrochloride (p.1571·2).
Cold and influenza symptoms; sinusitis.

Advil Cold & Flu *Wyeth Consumer, Irl.*
Ibuprofen (p.64·2); pseudoephedrine hydrochloride (p.1571·2).
Cold and influenza symptoms.

Advil Cold & Sinus *Wyeth Consumer, Canad.; Whitehall, USA.*
Ibuprofen (p.64·2); pseudoephedrine hydrochloride (p.1571·2).
Formerly known as Coadvil in the *USA*.
Cold and influenza symptoms; sinusitis.

Advil Cold & Sinus Plus *Wyeth Consumer, Canad.*
Ibuprofen (p.64·2); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Allergic symptoms; sinusitis.

Advil CS *Wyeth Consumer, S.Afr.*
Ibuprofen (p.64·2); pseudoephedrine hydrochloride (p.1571·2).
Cold and influenza symptoms.

Advil Mono *PSI, Belg.*
Ibuprofen (p.64·2).
Fever; pain.

Advil PM *Wyeth Consumer, USA.*
Diphenhydramine citrate (p.577·2); ibuprofen (p.64·2).

A-D-Vit *Meyer, Venez.*
Vitamin A (p.1971·2); colecalciferol (p.1986·2); calcium phosphate (p.1676·2).
Osteoporosis; rickets.

AD-vitamin *ACO, Swed.*
Vitamin A palmitate (p.1973·1); colecalciferol (p.1986·2).
Vitamin supplement.

ADX *Sigma, Arg.*
Ginseng; catuaba; guarana; damiana; saw palmetto; ginkgo biloba; arginine; zinc; bovine testicle hydrolysate; pollen; vitamin E (p.1922·1).

Adyston *Krewel, Ger.†.*
⊗ Pholedrine sulfate (p.1371·1); norfenefrine hydrochloride (p.1361·1).
Hypotension.

Adytenn *Ultra, Mex.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Aedolac *Rottapharm, Ital.*
Emollient.

Aegis *Pliva, Ital.*
Bacillus subtilis.
Restoration of gastrointestinal flora.

Aegrosan *Opfermann, Ger.†.*
Dimeticone (p.1770·2).
Reduction of gastrointestinal gas.

Aeknil *Therapeutic, Philipp.*
Paracetamol (p.108·1).
Fever; pain.

A-E-Mulsin *Mucos, Austria; Mucos, Cz.†; Mucos, Ger.†.*
Vitamin A palmitate (p.1973·1); alpha tocoferil acetate (p.1992·3).
Vitamin A and E deficiency.

Aequamen *Altana, Ger.*
Betahistine mesilate (p.2265·1).
Ménière's syndrome; vestibular disorders.

Aequifusine *Braun, Switz.*
Electrolyte infusion with glucose (p.1667·1).
Carbohydrate source; fluid and electrolyte disorders.

Aequiton-P *Sudmedica, Ger.†.*
Phenazone (p.116·1).
Fever; pain.

A-E-R *Birchwood, USA.*
Hamamelis (p.2318·2).
Anorectal disorders; vaginal irritation.

Aerflu *Boniscontro & Gazzone, Ital.*
⊗ Flunisolide (p.1531·1).
Respiratory-tract hypersensitivity; rhinitis.

Aerinaze *Schering-Plough, Cz.*
Desloratadine (p.576·1); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis.

Aerius *Schering-Plough, Arg.; Schering-Plough, Austria; Schering-Plough, Belg.; Schering, Canad.; Schering-Plough, Chile; Schering-Plough, Cz.; SP, Denm.; Schering-Plough, Fin.; Schering-Plough, Fr.; Essex, Ger.; Schering-Plough, Gr.; Schering-Plough, Hong Kong; Schering-Plough, Hung.; Schering-Plough, Indon.; Schering-Plough, Israel; Schering-Plough, Ital.; Schering-Plough, Malaysia; Schering-Plough, NZ; Schering-Plough, Neth.; Schering-Plough, Norw.; Schering-Plough, Philipp.; Schering-Plough, Pol.; Schering-Plough, Port.; Schering-Plough, Rus.; Schering-Plough, Singapore; Schering-Plough, Spain; Schering-Plough, Swed.; Essex, Switz.; Schering-Plough, Thai.; Schering-Plough, Turk.; Schering-Plough, Venez.*
Desloratadine (p.576·1).
Allergic conjunctivitis; allergic rhinitis; pruritus; urticaria.

Aero Helpp Forte *ISA, Arg.†.*
Permethrin (p.2048·2); piperonyl butoxide (p.2049·1); malathion (p.2046·1).
Pediculosis.

Aero Itan *Saval, Chile.*
Dimeticone (p.2032·1); metoclopramide (p.1747·3); chlordiazepoxide (p.968·1).
Dyspepsia; flatulence; gastrointestinal motility disorders; meteorism.

Aero Plus *BMS, Spain†.*
Dimeticone (p.1770·2); metoclopramide hydrochloride (p.1747·3).
Aerophagia; delayed gastric emptying.

Aero Red *Uriach, Spain.*
Dimeticone (p.1770·2).
Flatulence.

Aero Red Antiacido *Uriach, Spain.*
Calcium carbonate (p.1714·1); simeticone (p.1770·2); magnesium hydroxide (p.1743·2).
Flatulence; gastric hyperacidity.

Aero Red Complex *Uriach, Spain.*
Dimeticone (p.1770·2); lipolytic enzymes; amylolytic enzymes; proteolytic enzymes; cellulolytic enzymes.
Digestive system disorders.

Aeroaid *Graham-Field, USA; Health & Medical, USA.*
Thiomersal (p.1663·3).
Skin disinfection; wounds.

AeroBec *Ivax, Denm.; Ivax, Fin.; Ivax, Ger.; 3M, Irl.†; 3M, Neth.†; Ivax, Norw.; 3M, S.Afr.†; Ivax, Swed.; 3M, Switz.†; 3M, UK.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma; obstructive airways disease.

AeroBid *Forest Pharmaceuticals, USA.*
⊗ Flunisolide (p.1531·1).
Asthma.

Aerobin
Note. This name is used for preparations of different composition.
Farmasan, Ger.
Theophylline (p.1140·1) or theophylline sodium glycinate (p.1146·3).
Obstructive airways disease.

Farmasan, Thai.†; TTN, Thai.†.
Theophylline (p.1140·1).
Obstructive airways disease.

Aero-Bud *Andromaco, Chile.*
⊗ Budesonide (p.1520·1).
Asthma.

Aerocaine *Aeroceuticals, USA†.*
Benzocaine (p.1854·1); benzethonium chloride (p.1630·1).
Skin disorders.

Aerocef *Fujisawa, Austria.*
Cefixime (p.224·3).
Bacterial infections.

Aerocort
Cipla, India.
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3); beclometasone dipropionate (p.1516·2).
Asthma.

Cipla, Venez.
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Aerocortin *Fujisawa, Austria.*
⊗ Beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Aerodan *Medipharm, Chile.*
Fexofenadine hydrochloride (p.579·3).
Allergic rhinitis; allergic skin disorders.

Aeroderm *Seid, Spain†.*
Lidocaine hydrochloride (p.1862·3).
Burns; insect stings; skin irritation.

Aeroderma *Pharmanik (Φαρμανικ), Gr.†.*
Bifonazole (p.527·3).
Fungal skin infections.

Aerodesin *Lysoform, Ger.*
⊗ Propyl alcohol (p.1660·2); alcohol (p.1625·2); glutaral (p.1645·2).
Surface disinfection.

Aerodini *Teuto, Braz.*
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Formerly known as Aerodine.
Obstructive airways disease.

Aerodiol *Servier, Arg.; Servier, Austral.; Servier, Austria; Servier, Belg.; Servier, Braz.; Servier, Denm.; Servier, Fr.; Servier, Ger.; Servier, Gr.†; Servier, Hong Kong†; Servier, Irl.; Servier, Ital.; Servier, NZ; Servier, Neth.; Servier, Switz.; Servier, Turk.; Servier, UK†; Servier, Venez.*
Estradiol (p.2097·2).
Menopausal disorders.

Aerodur *AstraZeneca, Ger.; Stern, Ger.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Aerodyne *Fujisawa, Austria†.*
Theophylline (p.1140·1) or theophylline sodium glycinate (p.1146·3).
Obstructive airways disease.

Aerofagil *Geymonat, Ital.†.*
Sodium citrate (p.1673·3); dimeticone (p.1770·2).
Aerophagia; meteorism.

Aeroflat *Roche, Chile†; Biosarto, Spain.*
Metoclopramide (p.1747·3); simeticone (p.1770·2).
Aerophagia; aid in gastrointestinal radiology; delayed gastric emptying; gastrointestinal disorders; nausea and vomiting.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Aeroflux
Note. This name is used for preparations of different composition.
GSK, Braz.
⊗ Salbutamol sulfate (p.1131·3); guaifenesin (p.1561·3); sodium citrate (p.1673·3).
Obstructive airways disease.

GSK, Mex.; GSK, Venez.
⊗ Salbutamol sulfate (p.1131·3); ambroxol hydrochloride (p.1550·3).
Asthma; bronchitis; respiratory-tract disorders with increased mucus.

Aerofreeze *Graham-Field, USA.*
Dichlorodifluoromethane (p.1689·1); trichlorofluoromethane (p.1689·1).
Topical anaesthesia.

Aerogal *Panalab, Arg.*
Silicone oil (p.2032·1).
Barrier preparation.

Aerogastrol *Medipharm, Chile.*
Metoclopramide (p.1747·3); simeticone (p.1770·2); chlordiazepoxide (p.968·1).
Dyspepsia; flatulence; gastrointestinal motility disorders; meteorism.

Aerogel *BMS, Spain.*
Aluminium hydroxide (p.1706·2); dimeticone (p.1770·2).
Dyspepsia; flatulence; gastrointestinal hyperacidity.

Aerogreen *Greenpharma, Braz.†.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

AeroHist Plus *Aero, USA.*
Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); hyoscine methonitrate (p.1734·2).
Upper respiratory-tract disorders.

Aerojet *Farmalab, Braz.*
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease.

AeroKid *Aero, USA.*
Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); hyoscine methonitrate (p.1734·2).
Upper respiratory-tract disorders.

Aerolate *Fleming, USA.*
Theophylline (p.1140·1).
Obstructive airways disease.

Aerolid *Piam, Ital.*
⊗ Flunisolide (p.1531·1).
Respiratory-tract hypersensitivity; rhinitis.

Aerolin
GSK, Braz.; GSK, Gr.; Ivax, Irl.
⊗ Salbutamol sulfate (p.1131·3).
Asthma; chronic respiratory failure; obstructive airways disease.

GSK, Chile.
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease; premature labour.

Aeromax
Note. This name is used for preparations of different composition.
GSK, Ger.
⊗ Salmeterol xinafoate (p.1135·1).
Obstructive airways disease.

Medinfar, Port.
⊗ Budesonide (p.1520·1).
Allergic rhinitis; nasal polyps.

Aeromed *Medipharm, Chile.*
Ivy (p.2328·1).
Cough.

Aerometrol Plus *Andromaco, Chile.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Asthma.

Aeromicrosona C *ICN, Arg.†.*
⊗ Ketoconazole (p.539·1); hydrocortisone acetate (p.1535·2); gentamicin sulfate (p.282·1).
Infected skin disorders.

Aeromuc *Fujisawa, Austria.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders.

Aeron *Arrow, Austral.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Aeronix *Menarini, Spain.*
Zafirlukast (p.1150·2).
Asthma.

Aero-Om *OM, Port.*
Simeticone (p.1770·2).
Diarrhoea; flatulence.

Aeropax *Orion, Denm.; Sandoz, Neth.*
Dimeticone (p.1770·2).
Aid in radiography and gastroscopy; aid to gastroscopy; flatulence; infant colic; meteorism.

Aeropaxyn *Lannacher, Austria†.*
Sodium cromoglicate (p.1136·3).
Asthma; bronchitis.

Aero-Ped *Stiefel, Braz.†.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Aero-Plus *Andromaco, Chile.*
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Aero-Sal *Andromaco, Chile†.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Aeroseb
Note. This name is used for preparations of different composition.
Panalab, Arg.
Shampoo: Pyrithione zinc (p.1611·2); cade oil (p.1616·1).
Scalp disorders.

Panalab, Arg.
Soap: Pyrithione zinc (p.1611·2).
Seborrhoea.

Aeroseb-Dex *Allergan Herbert, USA.*
⊗ Dexamethasone (p.1526·1).
Skin disorders.

Aerosial *Ivax, Mex.*
⊗ Budesonide (p.1520·1).
Asthma; bronchitis.

Aerosil *Degussa, UK.*
Colloidal silicon dioxide (p.2146·2).
Pharmaceutical formulation aid.

Aerosol Spitzner N *Spitzner, Ger.†.*
Pine silvestris oil (p.2368·2); pumilio pine oil (p.2376·3); eucalyptus oil (p.2301·2); siberian fir oil; noble pine oil.
Respiratory-tract disorders.

Aerosolv *Fujisawa, Austria.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with viscous mucus.

Aerosoma *Etex, Chile.*
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Aeroson *Soho, Indon.*
Dimeticone (p.1770·2).
Abdominal distension; dyspepsia; flatulence; meteorism.

Aerosonit *GSK, Pol.*
Isosorbide dinitrate (p.1317·3).
Ischaemic heart disease; myocardial infarction.

AeroSpan *Forest Laboratories, USA.*
⊗ Flunisolide (p.1531·1).
Asthma.

Aerosporin *GSK, Philipp.*
Polymyxin B sulfate (p.317·3).
Bacterial ear infections.

Aerotamol *Royton, Braz.†.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Aerotec *Sanofi Synthelabo, Ital.†.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Aerotide *GSK, Braz.*
⊗ Beclometasone dipropionate (p.1516·2); salbutamol (p.1131·2).
Asthma.

Aerotina *Raffo, Arg.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Aerotrat *Cazi, Braz.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Aerotrop *Cassara, Arg.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

AeroTuss 12 *Aero, USA.*
Dextromethorphan tannate (p.1556·1).
Cough.

Aerovac *Sankyo, Austria.*
Lysates of *Staphylococcus aureus*; *Streptococcus mitis*; *Streptococcus pyogenes*; *Streptococcus pneumoniae*; *Klebsiella pneumoniae*; *Moraxella catarrhalis*; *Haemophilus influenzae*.
Respiratory-tract infections.

Aerovac G *Casasco, Arg.*
Haemophilus influenzae; *Streptococcus pneumoniae*; *Klebsiella pneumoniae*; *Moraxella catarrhalis*; streptococcus.
Respiratory-tract infections.

Aerovent
Note. This name is used for preparations of different composition.
Cassara, Arg.
⊗ Budesonide (p.1520·1).

Teva, Israel.
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Aerovial *Lafi, Chile; Recalcine, Chile.*
⊗ Budesonide (p.1520·1).
Asthma.

Aerovit *Ufavita, Rus.*
Vitamin preparation with rutoside (p.1922·1).

Aerox *Torrex Chiesi, Hung.*
⊗ Budesonide (p.1520·1).
Asthma.

Aeroxina *Elea, Arg.*
Clarithromycin (p.248·2).
Bacterial infections.

Aerozoin *Graham-Field, USA.*
Compound benzoin tincture.
Barrier preparation.

AErrane *Baxter, Austral.; Baxter, Cz.; Baxter, Hung.; Kalbe, Indon.; Baxter, Israel; Baxter, Ital.; Baxter, NZ; Baxter, Neth.; Baxter, Philipp.; Baxter, Pol.; AstraZeneca, S.Afr.; Baxter, Spain; Baxter, Thai.; Eczacibasi-Baxter, Turk.; Baxter Anaesthesia, UK.*
Isoflurane (p.1785·3).
General anaesthesia.

Aeruginox *Shenzhen, Philipp.*
Cefuroxime sodium (p.238·2).
Bacterial infections.

Aescorin Forte *Steigerwald, Ger.*
Aesculus (p.2248·2).
Soft-tissue injury; venous insufficiency.

Aescorin N *Steigerwald, Ger.†.*
Aesculus (p.2248·2); hamamelis (p.2318·2).
Haemorrhoids; vascular disorders.

Aescosulf N *Truw, Ger.*
Homoeopathic preparation.

Aesculaforce *Aponova, Austria; Bioforce, Switz.*
Aesculus (p.2248·2).
Venous insufficiency.

AesculaMed *Bioforce, Switz.*
Aesculus (p.2248·2).
Venous insufficiency.

Aesculan *Herbapol Poznan, Pol.; Herbapol Wroclaw, Pol.*
Esculoside (p.2248·2); lidocaine hydrochloride (p.1862·3).
Haemorrhoids.

Aesculo Gel L *Medice, Ger.*
Coconut oil (p.2029·2).
Pediculosis.

Aesculus Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Aescusan
Note. This name is used for preparations of different composition.
Pharma Wernigerode, Rus.
Aescin (p.2248·2); thiamine hydrochloride (p.1976·1).
Haemorrhoids; venous insufficiency.

Riemser, Ger.
Cream: Aesculus (p.2248·2); hamamelis (p.2318·2).
Soft-tissue inflammation; venous insufficiency.

Jenapharm, Ger.
Delayed-release tablets; tablets: Aesculus (p.2248·2).
Venous insufficiency.

Aescuven *Cesra, Ger.; Cesra, Pol.*
Aesculus (p.2248·2).
Oedema; soft-tissue inflammation; venous insufficiency.

Aesim *Lamsa, Arg.*
Simeticone (p.1770·2).
Flatulence.

Aesol *Leiras, Fin.*
Vitamin A palmitate (p.1973·1); alpha tocoferil acetate (p.1992·3).
Vitamins A and E deficiency; vitamins A and E supplement.

Aet *Craveri, Arg.*
Lauromacrogol 400 (p.1916·1).
Varices.

Aethoxysclerol *BSN, Austral.†; Teuto, Braz.†.*
Lauromacrogol 400 (p.1916·1).
Varices.

Aethoxysklerol *Nycomed, Austria; Codali, Belg.; Kreussler, Cz.; Kreussler, Denm.; Kreussler, Fin.; Kreussler, Ger.; IFET (ΙΦΕΤ), Gr.; Kreussler, Hung.; Sigma-Tau, Neth.; Kreussler, Pol.; Inverdia, Swed.; Kreussler, Switz.; Kreussler, Thai.†; Cem, Turk.*
Lauromacrogol 400 (p.1916·1).
Dilated cutaneous veins; haemorrhoids; varices.

Aethroma *Mepha, Hong Kong†.*
Vincamine (p.2414·1).
Cerebrovascular disorders.

Aetoxisclerol *Kreussler, Fr.*
Lauromacrogol 400 (p.1916·1).
Formerly known as Veinosclerol.
Varices.

Aetoxy Sklerol *Dominguez, Arg.*
Lauromacrogol 400 (p.1916·1).
Varices.

AF
Note. This name is used for preparations of different composition.
Valdecasas, Mex.
Folic acid (p.1940·1).
Folic acid deficiency; prevention of neural tube defects.

Lennon, S.Afr.
Zinc undecenoate (p.549·3); undecenoic acid (p.549·2); terpineol (p.2396·1).
Fungal skin infections.

Afacort *Anfarm, Gr.*
⊗ Dexamethasone (p.1526·1); neomycin (p.305·1).
Bacterial eye infections with inflammation.

Afalpi Tiptipot *CTI, Israel.*
Pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract congestion.

Afaxin *Sanofi Synthelabo, Philipp.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Afazol *Grin, Mex.*
⊗ Naphazoline hydrochloride (p.1565·2).
Eye irritation.

Afazol Z *Grin, Mex.*
⊗ Naphazoline hydrochloride (p.1565·2); zinc sulfate (p.1999·2).
Eye disorders.

AFBM *Sigma, Braz.*
Vitamin A palmitate; pyridoxine hydrochloride; tocoferil acetate (p.1922·1).

Afebril *Bago, Arg.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Afebrin
Note. This name is used for preparations of different composition.
Legrand, Braz.†.
Phenylpropanolamine hydrochloride (p.1569·3); phenylephrine hydrochloride (p.1568·1); phenyltoloxamine citrate (p.588·1); carbinoxamine maleate (p.570·2).
Cold and influenza symptoms.

Westmont, Hong Kong†; Konimex, Indon.
Paracetamol (p.108·1).
Fever; pain.

Afebryl *SMB, Belg.; Galephar, Fr.†; Azevedos, Port.; Galepharma, Turk.*
Aspirin (p.20·3); paracetamol (p.108·1); ascorbic acid (p.1983·3).
Fever; inflammation; pain.

Afecton *Help, Gr.*
Cefaclor (p.217·2).
Bacterial infections.

Afeditab *Watson, USA.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Afeksin *Actavis, Denm.*
Fluoxetine hydrochloride (p.391·2).
Bulimia; depression; obsessive-compulsive disorder.

Afeme *Cetus, Arg.*
Dexchlorpheniramine (p.572·2).
Hypersensitivity reactions.

Afenexil *Temis, Arg.*
Paroxetine hydrochloride (p.414·2).
Depression.

Afenil
Note. This name is used for preparations of different composition.
Abbott, Gr.
Trandolapril (p.1416·2).
Hypertension.

Piam, Ital.
Food for special diets (p.1922·1).
Phenylketonuria.

Afenoxin *Faran, Gr.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

A-ferin
Note. This name is used for preparations of different composition.
Bilim, Turk.
Capsules: Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); codeine phosphate (p.37·2).
Respiratory-tract congestion.

Bilim, Turk.
Forte tablets; paediatric suspension: Paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Respiratory-tract congestion.

Bilim, Turk.
Sachets: Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract congestion.

Bilim, Turk.
Sinus tablets: Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Respiratory-tract congestion.

Afexil *Zentiva, Cz.*
Fexofenadine hydrochloride (p.579·3).
Allergic rhinitis; urticaria.

Affectine *Galpharma, Israel.*
Fluoxetine hydrochloride (p.391·2).
Depression; obsessive-compulsive disorder.

Affex *Astellas, Irl.*
Fluoxetine (p.397·3).
Bulimia; depression; obsessive-compulsive disorder.

Afiancen *Buxton, Arg.*
Leflunomide (p.75·3).

AFI-B-Total *Nycomed, Norw.†.*
Vitamin B substances (p.1922·1).
Alcoholism; megaloblastic anaemia; vitamin B deficiency.

AFI-D_2 *Nycomed, Norw.*
Ergocalciferol (p.1987·1).
Hypoparathyroid tetany.

Afid Plus *Fresenius Kabi, Ger.*
Didecyloxethylmethylammoniumpropionate; cocospropylenediamineguanidinium diacetate.
Instrument disinfection.

A-Fil *GenDerm, USA.*
Meradimate (p.1604·2); titanium dioxide (p.1617·3).
Sunscreen.

Afilan *Quesada, Arg.*
⊗ Mazindol (p.2157·3).
Obesity.

Afilite *Argiletz, Fr.†.*
Nutritional supplement (p.1922·1).

Afipran *Nycomed, Norw.*
Metoclopramide (p.1747·3) or metoclopramide hydrochloride (p.1747·3).
Gastrointestinal disorders.

Afiten *Medochemie, Cz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

A-Flam *EBN, Fr.*
Fish oil (p.1362·2); grape (p.2316·3).
Joint and soft-tissue inflammation.

Aflamid *Anchor, Mex.*
Meloxicam (p.80·3).
Ear, nose, and throat inflammation.

Aflamin
Note. This name is used for preparations of different composition.
Gedeon Richter, Hung.
Aceclofenac (p.14·3).
Musculoskeletal, joint, and peri-articular disorders; pain.

Hexal, S.Afr.
Indometacin (p.66·3).
Gout; musculoskeletal and joint disorders.

Aflarex *Alcon, Chile; Alcon, Venez.*
⊗ Fluorometholone acetate (p.1533·1).
Inflammatory eye disorders.

Aflat *Omega, Arg.*
Simeticone (p.1770·2).
Flatulence; infant colic.

Aflegan *ICN, Pol.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Aflem *Jumont, Philipp.*
Carbocisteine (p.1553·2).
Coughs; respiratory-tract congestion.

Aflen *Galenica, Gr.*
Triflusal (p.1418·3).
Thrombosis prophylaxis.

Aflex *Pharmaland, Thai.*
Nabumetone (p.91·2).
Osteoarthritis; rheumatoid arthritis.

Afligec *Filadams, Philipp.*
Mefenamic acid (p.80·1).
Pain.

Afloben *Benedetti, Ital.*
Benzydamine hydrochloride (p.27·3).
Puerperal vaginal hygiene; vaginitis.

Afloderm *Belupo, Cz.; Belupo, Rus.*
⊗ Alclometasone dipropionate (p.1516·1).
Skin disorders.

Aflogen *Faran, Gr.*
Nimesulide (p.95·3).
Inflammation; musculoskeletal disorders; pain.

Aflogol *Sanitas, Chile.*
Calcium aminosalicylate (p.201·2).
Skin and hair disorders.

Aflorix *Gramon, Arg.*
Clotrimazole (p.530·1).
Fungal skin infections.

Afloxan *Rottapharm, Chile†; Rotta, Hong Kong; Rottapharm, Ital.; Pharmalink, Philipp.; Rotta, Philipp.; Rotta, Thai.*
Proglumetacin maleate (p.119·1).
Gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Afloyan *Alter, Spain.*
Mirtazapine (p.409·2).
Depression.

Aflubin *Bittner, Austria; Bittner, Rus.*
Homoeopathic preparation.

Aflukin C *IPS, Neth.*
Quinine sulfate (p.612·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Aflumicort *Cafar, Venez.*
Fluconazole (p.532·1).
Fungal infections.

Aflumycin *Agis, Israel.*
⊗ Prednisolone (p.1540·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

Afluon *Viatris, Gr.; Viatris, Spain.*
Azelastine hydrochloride (p.568·2).
Allergic conjunctivitis; allergic rhinitis.

Afluria *ZLB, Neth.; CSL, USA.*
An influenza vaccine (split virion) (p.2218·2).
Active immunisation.

Aflusil *Loeffler, Mex.*
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Afluta *Kwizda, Austria.*
Flutamide (p.725·1).
Prostatic cancer.

Afobam *Anpharm, Pol.; Egis, Pol.*
Alprazolam (p.960·1).
Anxiety; panic attacks.

Afoklin *Roemmers-Klinos, Venez.*
Folic acid (p.1940·1).
Antidote to folic acid antagonists; folic acid deficiency; prevention of neural tube defects in pregnancy.

Afongan *AB-Consult, Austria; Galderma, Mex.; Galderma, Port.†.*
Omoconazole nitrate (p.544·1).
Fungal and Gram-positive bacterial infections.

Afonilum *Abbott, Austria; Abbott, Cz.; Abbott, Ger.; Abbott, Pol.*
Theophylline (p.1140·1).
Obstructive airways disease.

Afonilum novo *Abbott, Ger.*
Theophylline sodium glycinate (p.1146·3).
Obstructive airways disease.

Afonina *Farmacoope, Port.*
Benzocaine (p.1854·1); tyrothricin (p.358·2).
Mouth and throat disorders.

Afonisan *Purissimus, Arg.*
Sulfadiazine (p.336·2); allantoin (p.1588·1).
Mouth and throat disorders.

Afopic *Teuto, Braz.*
Folic acid (p.1940·1).

Aforinol *Rekah, Israel.*
⊗ Mepyramine maleate (p.585·2); xylometazoline hydrochloride (p.1575·1); hamamelis (p.2318·2).
Nasal congestion.

Afos *Salus, Ital.†.*
Fosfomycin calcium (p.278·2).
Bacterial infections.

afpred-DEXA *Riemser, Ger.*
⊗ Dexamethasone sodium metasulfobenzoate (p.1526·2).
Obstructive airways disease.

afpred-THEO *Riemser, Ger.*
Theophylline (p.1140·1).
Cor pulmonale; neonatal apnoea; obstructive airways disease.

Afrazine *Schering-Plough, UK.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

African Gold *Strickland, Canad.†.*
Hydroquinone (p.1598·2).

Afrin
Note. This name is used for preparations of different composition.
Mantecorp, Braz.; Schering-Plough, Hong Kong; Schering-Plough, Hung.; Schering-Plough, Indon.; Schering-Plough, Malaysia; Schering-Plough, Mex.; Schering-Plough, Pol.; Schering-Plough, Singapore; Schering-Plough, Venez.
⊗ Oxymetazoline hydrochloride (p.1567·2).
Aid in intranasal examination; middle ear infections; nasal congestion; ocular congestion.

Schering-Plough, USA.
Nasal drops; nasal spray: ⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Schering-Plough, USA.
Tablets: Pseudoephedrine sulfate (p.1571·2).
Nasal congestion.

Afrin Moisturizing Saline Mist *Schering-Plough, USA.*
Sodium chloride (p.1686·1).
Formerly called Afrin Saline Mist.
Inflammation and dryness of nasal membranes.

Afrin Natural *Mantecorp, Braz.*
Sodium chloride (p.1686·1).
Nasal congestion.

Afrinex *Schering-Plough, Mex.*
Dexbrompheniramine maleate (p.569·2); pseudoephedrine sulfate (p.1571·2).
Nasal congestion.

Afrinex Infantil *Schering-Plough, Mex.*
Aspirin (p.20·3); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Allergic rhinitis; fever; nasal congestion; pain.

Afro *Casel, Turk.*
⊗ Testosterone (p.2129·3).
Androgen deficiency.

Afrodita *Duncan, Arg.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

Afrodor
Note. This name is used for preparations of different composition.
Farco, Cz.; Farco, Ger.; Farco, Hung.†; Farco, Rus.
Acecarbromal (p.959·2); quebracho (p.2377·1); alpha tocopheril acetate (p.1922·1).
Tonic.

Farmanic, Gr.
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Afron *Neves, Port.†.*
Genistein (p.2391·2); daidzein (p.2391·2); glicitein.
Menopausal disorders; menstrual disorders.

Afronis *Elanda, Pol.*
Boric acid (p.2268·1); menthol (p.2340·1); resorcinol (p.1612·1); thymol (p.1664·3).
Skin disorders.

Aftab *Rottapharm, Fin.; Opfermann, Ger.; Rottapharm, Ital.*
⊗ Triamcinolone acetonide (p.1544·3).
Aphthous ulcer; gingivitis; stomatitis.

Aftach *Teijin, Hong Kong; Teijin, Jpn; Angelini, Port.*
⊗ Triamcinolone acetonide (p.1544·3).
Aphthous ulcer.

Af-Taf *Sam-On, Israel.*
Phenylephrine hydrochloride (p.1568·1).
Nasal congestion.

Aftagel *Cooperation Pharmaceutique, Fr.*
Lidocaine hydrochloride (p.1862·3); zinc sulfate (p.1999·2).
Inflammatory mouth disorders.

Aftajuventus *Ern, Spain.*
⊗ Benzalkonium chloride (p.1629·1); hydrocortisone hydrogen succinate (p.1535·3).
Stomatitis.

Aftasone *Vinas, Spain.*
⊗ Hydrocortisone hydrogen succinate (p.1535·3).
Mouth ulcers.

Aftasone B C *Vinas, Spain.*
⊗ Ascorbic acid (p.1983·3); hydrocortisone hydrogen succinate (p.1535·3); pyridoxine (p.1979·1); riboflavin (p.1977·2).
Mouth ulcers.

Aftate *Schering-Plough, Hong Kong; Schering-Plough, USA.*
Tolnaftate (p.548·3).
Fungal skin infections; tinea pedis.

After 10 *Step, Arg.†.*
Pregnancy test (p.2372·1).

After Bite *Tender, Canad.; Pensa, Spain; Meda, Switz.; Ardern, UK.*
Ammonia (p.2256·1).
Insect bites; stings.

After Burn
Note. This name is used for preparations of different composition.
Tender, Cz.†.
Lidocaine hydrochloride (p.1862·3); aloe vera (p.1588·2).
Burns; skin irritation.

Tender, Israel.
Lidocaine (p.1862·3).
Pain and minor skin irritation.

After Sun *Dermoteca, Port.*
Moisturiser.

Afterbite *Tender, Israel.*
Ammonia (p.2256·1).
Bites and stings.

Afterburn *Tender, Canad.*
Lidocaine hydrochloride (p.1862·3).

After-Work *Hamilton, Austral.†.*
Emollient.
Dry skin.

Aftil *Elmor, Venez.*
Salicylic acid (p.1612·2); benzoin resin (p.2394·2); cinnamon (p.2283·1).
Aphthous ulcers; herpes labialis.

Aftine *Cifarma, Braz.*
Neomycin sulfate (p.305·1); bismuth sodium tartrate (p.1712·1); menthol (p.2340·1); procaine hydrochloride (p.1869·1).
Mouth and throat disorders.

Af-Tipa *Perrigo, Israel.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Aftir Gel *Biochimici, Ital.*
Malathion (p.2046·1).
Pediculosis.

Aftir Shampoo *Biochimici, Ital.*
Hydroxyquinoline sulfate (p.2323·1).
For use after Aftir Gel; pediculosis.

Aftosium *Ferrier, Fr.*
Homoeopathic preparation.

Afugin *Hexal, Pol.*
Terbinafine hydrochloride (p.546·3).
Fungal skin and nail infections.

Afumix *Senosiain, Mex.*
Fluconazole (p.532·1); tinidazole (p.848·3).
Vaginal infections.

Afungil *Senosiain, Mex.*
Fluconazole (p.532·1).
Fungal infections.

Afunginal *ACME, Philipp.*
Nystatin (p.543·2).
Oral candidiasis.

Agaffin *Merck, Austria.*
Sodium picosulfate (p.1771·1).
Bowel evacuation; constipation.

Agapurin *Zentiva, Cz.; Medphano, Ger.; Zentiva, Pol.; Slovakofarma, Singapore†; Slovakofarma, Thai.; Roemmers-Klinos, Venez.*
Pentoxifylline (p.1367·2).
Vascular disorders.

Agaricus comp *Weleda, Ger.*
Homoeopathic preparation.

Agarol
Note. This name is used for preparations of different composition.
Pfizer Consumer, Austral.; Pfizer, Hong Kong; Pfizer, Thai.
Liquid paraffin (p.2030·3).
Formerly contained liquid paraffin and phenolphthalein in *Thai.*
Constipation.

Pfizer, Braz.
Liquid paraffin (p.2030·3); sodium picosulfate (p.1771·1); agar (p.2140·3).
Formerly contained liquid paraffin, phenolphthalein, and agar.
Constipation.

Pfizer, Chile.
Liquid paraffin (p.2030·3); phenolphthalein (p.1762·1); agar (p.2140·3); glycerol (p.2314·2).
Constipation.

Pfizer, India†; Pfizer, Venez.†.
Liquid paraffin (p.2030·3); phenolphthalein (p.1762·1); agar (p.2140·3).
Constipation.

Elea, Arg.
Capsules; oral liquid: Liquid paraffin (p.2030·3); sodium picosulfate (p.1771·1); agar (p.2140·3).
Constipation.

Interbelle, Arg.
Chewing gum; gelcaps: Sodium picosulfate (p.1771·1).
Constipation.

Agarol CM *Warner-Lambert, Ital.†.*
Liquid paraffin (p.2030·3).
Constipation.

Agarol Extra *Numark, Canad.*
Senna (p.1769·2).
Constipation.

Agarol Fibras Naturales *Elea, Arg.†.*
Ispaghula (p.1737·1).
Constipation.

Agarol N *Pfizer Consumer, Ger.†.*
Liquid paraffin (p.2030·3).
Constipation.

Agarol Plain
Note. This name is used for preparations of different composition.
Numark, Canad.
Liquid paraffin (p.2030·3); glycerol (p.2314·2).
Constipation.

Pfizer, Gr.
Liquid paraffin (p.2030·3).
Constipation.

Agarol with Sennosides *Numark, Canad.*
Senna (p.1769·2).
Constipation.

Agarol Soft *Pfizer Consumer, Switz.*
Fig (p.1731·3); sorbitol (p.1965·1).
Constipation.

Agarolax *Pfizer, Venez.†.*
Phenolphthalein (p.1762·1).
Constipation.

Agaroletten *Pfizer Consumer, Ger.*
Bisacodyl (p.1710·1).
Bowel evacuation; constipation.

Agasten *Novartis, Braz.*
Clemastine fumarate (p.573·2).
Hypersensitivity.

Agathol *Iderne, Fr.*
Zinc oxide (p.1621·2); titanium dioxide (p.1617·3); peru balsam (p.2365·3).
Burns.

AGB *Cassara, Arg.*
A hepatitis B vaccine (recombinant) (p.2215·2).
Active immunisation.

Age Block *Avon, Canad.†.*
SPF 15: Avobenzone (p.1589·3); octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Agedin Plus *GD, Ital.*
Eicosapentaenoic acid (p.1362·1); ubidecarenone (p.2407·2); methionine (p.1450·1); betacarotene (p.1930·3).
Nutritional supplement.

A-Gel
Note. A similar name is used for preparations of different composition (see below).
Pharmatel, NZ†.
Lubricating gel.
Personal and surgical lubricant.

Agel
Note. A similar name is used for preparations of different composition (see above).
Andromaco, Venez.†.
Chlorquinaldol (p.242·3).
Mouth and throat disorders.

Agelan *Antigen, Hong Kong†; Antigen, Irl.†.*
⊗ Indapamide (p.1314·1).
Hypertension.

Agelmin *Kleva, Gr.; Kleva, Singapore†.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; pruritus; urticaria.

Agen
Note. This name is used for preparations of different composition.
Zentiva, Cz.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Zentiva, Hung.
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Embil, Turk.
Polysaccharide polysulfuric acid ester; nonoxinol (p.1917·2).
Contraceptive.

A-gen 53
Note. This name is used for preparations of different composition.
ICN, Austria.
Polysaccharide polysulfuric acid ester.
Contraceptive.

Riemser, Ger.
Cellulose poly(sulfuric acid ester), trisodium salt; nonoxinol 9 (p.1917·2).
Contraceptive.

Agenerase *GSK, Arg.; GSK, Austral.; GSK, Austria; GSK, Belg.†; GSK, Braz.; GSK, Canad.; GSK, Chile; GSK, Cz.; GSK, Denm.†; GSK, Fin.; GSK, Fr.; GSK, Ger.; GSK, Gr.; IFET, Gr.; GSK, Irl.; GSK, Israel; GSK, Ital.; GSK, Mex.; GSK, NZ; GSK, Neth.; GSK, Norw.†; GSK, Pol.; GSK, Port.; GSK, Rus.; GSK, Spain; GSK, Swed.†; GSK, Switz.; GSK, Turk.; GSK, UK†; Glaxo Wellcome, USA†; GSK, Venez.*
Amprenavir (p.865·3).
HIV infection.

Agermin *Andromaco, Chile†.*
Chlorhexidine (p.1635·2).
Disinfection of skin and wounds.

Ageroplas *Farma Lepori, Spain.*
Ditazole (p.1271·2).
Thromboembolism prophylaxis.

Agerpen *Reig Jofre, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Agglad *Sophia, Mex.*
Brimonidine tartrate (p.1878·3).
Glaucoma; ocular hypertension.

Agglad Ofteno *Volta, Chile; Elmor, Venez.*
Brimonidine tartrate (p.1878·3).
Glaucoma; ocular hypertension.

Aggovask *Faran, Gr.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Aggrastat *MSD, Austral.; MSD, Austria; MSD, Belg.; Merck Frosst, Canad.; MSD, Cz.; MSD, Denm.; MSD, Fin.; MSD, Ger.; Vianex (Βιανεξ), Gr.; MSD, Hong Kong; MSD, Hung.; MSD, Irl.; MSD, Israel; MSD, Ital.; MSD, Malaysia; MSD, NZ; MSD, Neth.; MSD, Norw.; MSD, Philipp.; MSD, Pol.; MSD, Singapore; MSD, Swed.; MSD, Switz.; MSD, Thai.; MSD, Turk.; MSD, UK; Merck, USA.*
Tirofiban hydrochloride (p.1414·1).
Myocardial infarction; prevention of ischaemic cardiac complications during angioplasty or atherectomy; unstable angina.

Aggrastat *MSD, S.Afr.*
Tirofiban hydrochloride (p.1414·1).
Prevention of cardiac ischaemia in angioplasty or atherectomy.

Aggravan *Ferron, Indon.*
Cilostazol (p.1245·2).
Arterial occlusion; intermittent claudication.

Aggrenox *Boehringer Ingelheim, Belg.; Boehringer Ingelheim, Canad.; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Hong Kong; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Philipp.; Boehringer Ingelheim, Port.; Boehringer Ingelheim, Thai.; Boehringer Ingelheim, USA.*
Dipyridamole (p.1268·1); aspirin (p.20·3).
Cerebral ischaemia; ischaemic stroke; thromboembolic disorders.

Aggribloc *Nicholas Piramal, India.*
Tirofiban hydrochloride (p.1414·1).
Myocardial infarction; unstable angina.

Agilam *Elmor, Venez.*
Domperidone (p.1726·2).
Gastrointestinal disorders.

Agilan *Fujisawa, Austria.*
⊗ Dihydroergotamine mesilate (p.618·2); etilefrine hydrochloride (p.1284·1).
Hypotension.

Agilex *Mertens, Arg.*
Indometacin (p.66·3).
Fever; inflammation; pain.

Agilisin *Sankyo, Braz.*
Indometacin (p.66·3).
Fever; gout; musculoskeletal, joint, and peri-articular disorders; pain.

Agilo *Fujisawa, Austria†.*
⊗ Etilefrine hydrochloride (p.1284·1).
Hypotension.

Agilomed *Stada, Austria.*
Diclofenac sodium (p.44·3).
Inflammation; pain.

Agilona *Vinas, Spain.*
Benzydamine flufenamate (p.27·3).
Inflammation; pain; peri-articular and soft-tissue disorders.

Agin *Nordin, Mex.*
Aspirin (p.20·3); sulfadiazine (p.336·2).

Aginax *Q-Med, Ital.†.*
Barrier preparation.

Aginax Solution *CAG, Fr.*
Soap substitute.
Skin irritation.

Agiobita *SJA, Gr.*
Dihydroergocristine (p.364·2).
Peripheral vascular disorders.

Agiobulk *Altana Madaus, S.Afr.*
Ispaghula (p.1737·1).
Constipation; diarrhoea.

Agiocur *Madaus, Austria; Meda, Fin.; Madaus, Ger.; Madaus, Hong Kong; Madaus, Israel; Madaus, Port.; Madaus, Thai.†.*
Ispaghula (p.1737·1).
Colostomy management; constipation; diarrhoea; diverticular disease; inflammatory bowel disease; irritable bowel syndrome; regulation of faecal consistency; stool softener.

Agiofibe *Abbott, Austral.; Zuoz, Venez.*
Ispaghula (p.1737·1).
Constipation; dietary fibre supplement.

Agiofibra *Nycomed, Braz.; Altana, Mex.*
Ispaghula (p.1737·1).
Constipation; diarrhoea; dietary fibre supplement.

Agiofibras *Phoenix, Arg.*
Ispaghula (p.1737·1).
Constipation; hypercholesterolaemia.

Agiofibre *Madaus, Ital.*
Ispaghula (p.1737·1).
Dietary fibre supplement.

Agiogel *Altana Madaus, S.Afr.†.*
Ispaghula (p.1737·1).
Constipation; diverticulitis; irritable bowel syndrome.

Agiolax *Phoenix, Arg.; Abbott, Austral.; Madaus, Austria; Madaus, Belg.; Nycomed, Braz.; Madaus, Cz.; Meda, Fin.; Madaus, Fr.; Madaus, Ger.; Madaus, Hong Kong; Madaus, Israel; Madaus, Ital.; Altana, Mex.; Madaus, Neth.; Madaus, Norw.; Madaus, Pol.; Neo-Farmaceutica, Port.; Altana Madaus, S.Afr.; Madaus, Spain; Meda, Swed.; Madaus, Switz.; Madaus, Thai.; Zuoz, Venez.*
Ispaghula (p.1737·1); senna (p.1769·2).
Bowel evacuation; constipation; haemorrhoids; stool softener.

Agiolax mite *Madaus, Switz.*
Ispaghula (p.1737·1).
Constipation; irritable bowel syndrome; stool softener.

Agiolax Pico *Madaus, Cz.; Madaus, Ger.*
Sodium picosulfate (p.1771·1).
Bowel evacuation; constipation.

Agiopic *Madaus, Austria.*
Sodium picosulfate (p.1771·1).
Bowel evacuation; constipation.

Agioslim *Madaus, Ital.*
Ispaghula (p.1737·1); glucomannan (p.2312·3).
Slimming aid.

AgioStop *Madaus, Ger.*
Saccharomyces cerevisiae (p.1998·3).
Acne; diarrhoea.

Agioten *Gerolymatos, Gr.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Agipiu *Candioli, Ital.†.*
Silver carbonate (p.2387·1); alkylbenzyldimethylammonium saccharinate (p.1629·3).
Burn and wound disinfection.

Agiserc *Agis, Israel.*
Betahistine (p.2265·1).
Vestibular disorders.

Agispor *Agis, Israel.*
Bifonazole (p.527·3).
Fungal skin infections; seborrhoeic dermatitis.

Agispor Onychoset *Agis, Israel.*
⊗ Bifonazole (p.527·3); urea (p.1620·2).
Fungal nail infections.

Agisten *Agis, Israel.*
Clotrimazole (p.530·1).
Fungal skin infections; vaginitis.

Agisten with Aloe Vera *Agis, Israel.*
Clotrimazole (p.530·1); aloe vera (p.1588·2).
Fungal skin infections.

Agit *Sanol, Ger.*
Dihydroergotamine mesilate (p.618·2).
Hypotension; migraine and other vascular headaches; varices.

Agit plus *Sanol, Ger.†.*
⊗ Dihydroergotamine mesilate (p.618·2); etilefrine hydrochloride (p.1284·1).
Hypotension.

Aglan *Zentiva, Pol.*
Meloxicam (p.80·3).
Ankylosing spondylitis; osteoarthritis; rheumatoid arthritis.

Aglio *Veresne, Arg.*
Garlic (p.2309·2); acetic acid (p.2244·2).
Pediculosis.

Aglucide *Beta, Arg.*
Gliclazide (p.440·3).
Diabetes mellitus.

Aglucil *Elofar, Braz.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Aglucose *Sigma, Braz.*
Acarbose (p.436·2).
Diabetes mellitus.

Aglumet *Probiomed, Mex.*
Metformin (p.453·3).
Diabetes mellitus.

Aglutella *Plada, Ital.*
Range of gluten-free food for special diets (p.1922·1).

Agnesin *Hevert, Ger.*
Homoeopathic preparation.

Agnicin *Parggon, Mex.*
Amikacin (p.200·2).
Bacterial infections.

Agnofem *Madaus, Austria.*
Agnus castus (p.2249·1).
Mastalgia; menstrual disorders.

Agnolyt *Madaus, Ger.; Madaus, Switz.*
Vitex agnus castus (p.2249·1).
Mastalgia; menstrual disorders; premenstrual syndrome.

Agno-Sabona *Sabona, Ger.†.*
Agnus castus (p.2249·1).
Mastalgia; menstrual disorders.

Agnu Gyne *Medikon, Indon.*
Agnus castus (p.2249·1).
Female infertility; mastalgia; menstrual disorders.

Agnucaston *Austroplant, Austria; Bionorica, Cz.; Bionorica, Ger.; Bionorica, Hung.; Bionorica, Indon.; Darya-Varia, Indon.; Bionorica, Rus.†; Bionorica, Thai.†; Biomeks, Turk.*
Agnus castus (p.2249·1).
Female infertility; mastalgia; menstrual disorders.

Agnufemil *Steigerwald, Ger.†.*
Agnus castus (p.2249·1).
Mastalgia; premenstrual syndrome.

Agnukliman *Gebro, Austria.*
Cimicifuga (p.2282·1).
Menopausal disorders.

Agnumens *Gebro, Austria.*
Agnus castus (p.2249·1).
Menstrual disorders; premenstrual syndrome.

Agnurell *Sanorell, Ger.*
Homoeopathic preparation.

Agnus castus comp *Hevert, Ger.*
Homoeopathic preparation.

Agnus femin *Hevert, Ger.*
Homoeopathic preparation.
Formerly known as Agnus castus.

Agobilina *Biol, Arg.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Agofell *Janssen-Cilag, S.Afr.*
Diisopromine hydrochloride (p.1724·1); sorbitol (p.1965·1).
Biliary-tract disorders.

Agofenac *Ogera, Switz.†.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Agofollin *Biotika, Cz.*
Estradiol benzoate (p.2097·2) or estradiol dipropionate (p.2097·3).
Menopausal disorders; menstrual disorders.

Agolutin *Biotika, Cz.; Hoechst Biotika, Cz.*
Progesterone (p.2125·1).
Menstrual disorders.

Agon *Therapharm, Austral.†.*
Felodipine (p.1285·3).
Hypertension.

Agoprim *Ogera, Switz.†.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Agopton *Takeda, Austria; Takeda, Ger.; Takeda, Switz.*
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; gastrointestinal hyperacidity; peptic ulcer; Zollinger-Ellison syndrome.

Agoral *Warner-Lambert, USA.*
Liquid paraffin (p.2030·3); phenolphthalein (p.1762·1); agar (p.2140·3).
Constipation.

Agorex *Ogera, Switz.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Agorhino *Ogera, Switz.†.*
Phenylephrine hydrochloride (p.1568·1); dimenhydrinate (p.576·2); caffeine (p.1116·3).
Cold symptoms; nasal and sinus congestion; rhinitis.

Agovirin *Biotika, Cz.*
⊗ Testosterone isobutyrate (p.2131·3).
Breast cancer; male hypogonadism; menstrual disorders.

A/G-Pro *Miller, USA.*
Multivitamin, mineral, and amino-acid preparation (p.1922·1).

Agradil *Sanofi-Aventis, Ital.*
Veralipride (p.1035·2).
Menopausal disorders.

A-Gram *Pierre Fabre, Fr.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Agrastat *MSD, Arg.; MSD, Braz.; MSD, Chile; MSD-Chibret, Fr.; MSD, Mex.; MSD, Spain; MSD, Venez.*
Tirofiban hydrochloride (p.1414·1).
Ischaemic heart disease; myocardial infarction; prevention of ischaemic cardiac complications during angioplasty or atherectomy; unstable angina.

Agreal *Sanofi-Aventis, Belg.†; Sanofi-Aventis, Braz.; Sanofi-Aventis, Chile; Grunenthal, Fr.†; Sanofi-Aventis, Port.†; Sanofi-Aventis, Spain†.*
Veralipride (p.1035·2).
Menopausal disorders.

Agre-Calvit *Solvay, Philipp.*
Calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Calcium supplement.

Agregamina *Irex, Port.†.*
Ticlopidine hydrochloride (p.1411·2).
Thromboembolic disorders.

Agre-Gola *Vemedia, Neth.*
Cetylpyridinium chloride (p.1635·1); phenol (p.1656·1); menthol (p.2340·1).
Sore throat.

Agrelid *Ariston, Arg.*
Anagrelide hydrochloride (p.2257·1).
Thrombocythaemia.

Agremol *Eurodrug, Thai.*
Dipyridamole (p.1268·1).
Ischaemic heart disease; thromboembolic disorders.

Agrenox *Boehringer Ingelheim, Arg.*
Dipyridamole (p.1268·1); aspirin (p.20·3).
Cerebrovascular ischaemia.

Agretik *Ilsan, Turk.*
Ticlopidine hydrochloride (p.1411·2).
Thromboembolism prophylaxis.

Agrezol *Meprofarm, Indon.*
Cilostazol (p.1245·2).
Arterial occlusion; intermittent claudication.

Agrimel *Ortoquimica, Braz.†.*
Aconite (p.2246·1); rorippa nasturtium aquaticum; tolu (p.1574·2); ipecacuanha (p.1562·3).
Coughs.

Agrip *Plata, Arg.*
Paracetamol (p.108·1); bromhexine (p.1552·2); chlorphenamine maleate (p.571·3); caffeine (p.1116·3).
Cold and influenza symptoms.

Agrippal *Elea, Arg.; Novartis, Braz.; Chiron, Cz.†; Chiron Vaccin, Fr.; Gerolymatos, Gr.; Chiron Vaccines, Hong Kong; Chiron, Hung.; Chiron Vaccines, Irl.; Chiron, Israel; Chiron Vaccines, Ital.; Ivax, Mex.; Chiron, Neth.; Chiron Vaccines, Philipp.; Biovac, S.Afr.; Novartis Vaccines, Singapore; Chiron, Swed.; Meda, Swed.; Chiron, Thai.; Berk, Turk.; Wyeth, UK.*
An influenza vaccine (surface antigen) (p.2218·2).
Active immunisation.

Agrippin *Bernofarm, Indon.*
Paracetamol (p.108·1); phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3); ascorbic acid (p.1983·3).
Cold symptoms.

Agrisen *Alpharma, Mex.*
Ranitidine (p.1766·1).
Peptic ulcer.

Agrumina *Also, Ital.†.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency; vitamin C supplement.

Agruvit *Sanofi-Aventis, Ital.*
Ascorbic acid (p.1983·3); calcium ascorbate (p.1984·1).
Vitamin C deficiency; vitamin C supplement.

Agrylin *Orphan, Austral.; Sigma, Braz.†; Shire, Canad.; IFET (ΙΦΕΤ), Gr.†; Shire, Hong Kong; Fahrenheit, Indon.; Roberts, Israel; Shire, Philipp.; Tema, S.Afr.; Shire, USA.*
Anagrelide hydrochloride (p.2257·1).
Essential thrombocythaemia.

Agua del Carmen
Note. This name is used for preparations of different composition.
Pasteur, Chile.
Melissa oil (p.2339·3); lemon oil (p.2332·3); rosemary oil (p.2381·3); peppermint oil (p.1761·2); clove oil (p.2285·1); cinnamon oil (p.2283·2).
Insomnia; nervous disorders.

Fardi, Spain.
Coriander seeds (p.2288·1); matricaria (p.2279·3); melissa (p.2339·3); tilia (p.2402·2); lemon verbena (p.2333·1); cinnamon (p.2283·1); angelica (p.2258·1); nutmeg (p.2355·2); hyssop (p.2323·3).
Menstrual disorders; nervous disorders.

Agua Inglesa *Catarinense, Braz.*
Broom; cinchona; pear.
Reduced appetite.

Agua Melisa Carminativa *Sanitas, Chile.*
Melissa oil (p.2339·3); lemon oil (p.2332·3); clove oil (p.2285·1); nutmeg oil (p.2355·3); peppermint oil (p.1761·2); rosemary oil (p.2381·3); neroli oil (p.2351·1); cinnamon oil (p.2283·2).
Anxiety; dyspepsia; excess gastrointestinal gas.

Agua Sulfatada Picrica *Volta, Chile.*
Copper sulfate (p.1935·3); zinc sulfate (p.1999·2); camphorated alcohol; trinitrophenol (p.2404·3).

Aguala *Royal, Chile.*
Sodium picosulfate (p.1771·1).
Bowel evacuation; constipation.

Agucort *LKM, Arg.*
Oseltamivir (p.901·1).
Influenza.

Agudil *Sigma-Tau, Spain.*
Glutamine (p.1947·2); asparagine (p.1929·3); pyridoxine hydrochloride (p.1978·2); phosphoserine (p.2367·1).
Tonic.

Agufam *ST, Thai.*
Famotidine (p.1730·1).
Gastric hyperacidity; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Agufem *Biofarm, Pol.*
Agnus castus (p.2249·1).
Menstrual disorders.

Aguipental *Solfran, Mex.*
Benzylpenicillin (p.213·1); streptomycin (p.333·3).

Agulan *Darya-Varia, Indon.*
Ticlopidine hydrochloride (p.1411·2).
Thromboembolic disorders.

Agurin
Note. This name is used for preparations of different composition.
Recalcine, Chile†.
Algestone acetophenide (p.2082·1); estradiol enantate (p.2097·3).
Combined oral contraceptive; dysmenorrhoea.

Nolver, Venez.
Paracetamol (p.108·1).
Fever; pain.

Agyr *Tyrol, Austria†.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Agyrax *UCB, Belg.; Vedim, Fr.*
Meclozine hydrochloride (p.584·3).
Motion sickness; nausea; vertigo; vomiting.

AH 3 N *Rodleben, Ger.*
Hydroxyzine hydrochloride (p.581·2).
Pruritus; urticaria.

AH-chew *Dexo, USA.*
Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); hyoscine methonitrate (p.1734·2).
Upper respiratory-tract symptoms.

AH-chew D *WE, USA.*
Phenylephrine hydrochloride (p.1568·1) or phenylephrine tannate (p.1568·3).
Nasal congestion.

AHD 2000 *Lysoform, Ger.; Sonix, Philipp.*
⊗ Alcohol (p.1625·2).
Hand disinfection; skin disinfection.

AHF *CSL, Austral.†; CSL, NZ.*
A factor VIII preparation (p.1067·1).
Factor VIII deficiency; von Willebrand's disease.

Ahiston *Teva, Israel.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Ahiston Compound *Teva, Israel.*
Chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1).
Hypersensitivity reactions.

Ahora Test *Step, Arg.†.*
Pregnancy test (p.2372·1).

AHP 200 *Rosen, Ger.*
Oxaceprol (p.2359·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

A-Hydrocort *Abbott, Canad.†; Hospira, USA.*
⊗ Hydrocortisone sodium succinate (p.1536·1).
Corticosteroid.

Aicamin *Esfar, Port.*
Orazamide (p.2357·3).
Liver disorders.

Aidar *Pharmaland, Thai.†.*
Cimetidine (p.1716·2).
Peptic ulcer; Zollinger-Ellison syndrome.

Aidol *Farmanic, Gr.*
Mefenamic acid (p.80·1).
Inflammation; musculoskeletal and joint disorders; pain.

Aigin *Hevert, Ger.†.*
Kava (p.2328·3).
Anxiety.

Aiglonyl *Fumouze, Fr.†.*
Sulpiride (p.1028·3).
Anxiety; behaviour disorders in children.

Ailax *Galen, Irl.; Focus, UK†.*
Dantron (p.1722·2); poloxamer 188 (p.1918·1).
These ingredients can be described by the British Approved Name Co-danthramer.
Constipation.

Aimafix *Kedrion, Arg.; Biosano, Chile; Kedrion, Ital.; Kedrion, Rus.; Kocsel, Turk.*
Factor IX (p.1068·3).
Haemorrhagic disorders.

Ainedif *Penn, Arg.*
Diclofenac (p.44·2).
Inflammation.

Ainek *Keyerson, Mex.†.*
Piroxicam (p.117·3).
Inflammation; pain.

Ainelac *Hexal, Mex.*
Ketorolac trometamol (p.74·2).
Pain.

Ainex
Note. This name is used for preparations of different composition.
Schering-Plough, Chile; Schering-Plough, Venez.
Nimesulide (p.95·3).
Fever; inflammation; musculoskeletal and joint disorders; pain.

Sandoz, Mex.
Ibuprofen (p.64·2).
Gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Air Citronella *Antipiol, Ital.†.*
Citronella oil (p.2284·2); geranium oil (p.2311·1).
Insect repellent.

Air Salonpas *Hisamitsu, NZ†; Pharmaco, NZ†; Hisamitsu, USA.*
Camphor (p.2273·2); menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal, joint, and soft-tissue pain.

Airbeclosona *Northia, Arg.*
⊗ Beclometasone (p.1517·2).
Asthma.

Airbronal *Baliarda, Arg.†.*
Theophylline (p.1140·1); ketotifen fumarate (p.582·2).
Obstructive airways disease.

Airbude *Northia, Arg.*
⊗ Budesonide (p.1520·1).

Airclin *Ache, Braz.*
⊗ Triamcinolone acetonide (p.1544·3).
Nasal disorders.

Aircort *Italchimici, Ital.*
⊗ Budesonide (p.1520·1).
Asthma; nasal polyps; rhinitis.

Airest *Caber, Ital.†.*
Bamifylline hydrochloride (p.1116·1).
Asthma; bronchospasm.

Airex *Medhaus, Philipp.*
Cefalexin (p.218·2).
Bacterial infections.

Airfen *Cofasa, Venez.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Airol *Pierre Fabre, Cz.; Pierre Fabre, Ger.; Pierre Fabre, Gr.; Pierre Fabre, Israel; Pierre Fabre, Ital.; Pierre Fabre, Philipp.; Pierre Fabre, Switz.*
Tretinoin (p.1618·1).
Acne.

Airomet *Masa, Thai.*
Omeprazole (p.1753·1).
Peptic ulcer; Zollinger-Ellison syndrome.

Airomir
3M, Arg.†; 3M, Austral.; UCB, Belg.; 3M, Canad.; Ivax, Denm.; Ivax, Fin.; Ivax, Fr.; 3M, Hong Kong; Ivax, Irl.; 3M, Malaysia; 3M, NZ; Ivax, Neth.; 3M, Philipp.; 3M, Singapore†; Ivax, Swed.; 3M, Switz.†; 3M, Thai.†; Ivax, UK.
⊗ Salbutamol sulfate (p.1131·3).
Bronchospasm; obstructive airways disease.

3M, Chile; Ivax, Norw.; 3M, S.Afr.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Airon *Oftalmi, Venez.*
Montelukast sodium (p.1126·2).
Allergic rhinitis; asthma.

Airrox *Millimed, Thai.*
Simeticone (p.1770·2).
Aid to gastroscopy and X-ray examination; excess gastrointestinal gas.

Airsalbu *Northia, Arg.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Airtab *Millimed, Thai.*
Magnesium trisilicate (p.1744·1); aluminium hydroxide (p.1706·2).
Gastric hyperacidity; gastritis; heartburn; peptic ulcer.

Air-Tal *Almirall, Belg.*
Aceclofenac (p.14·3).
Inflammation; musculoskeletal, joint, and peri-articular disorders.

Airtal *Almirall, Chile†; Almirall, Ital.; Almirall, Port.; Almirall, Rus.; Almirall, Spain; Gentek, Venez.†.*
Aceclofenac (p.14·3).
Gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Airtal Difucrem *Almirall, Spain.*
Aceclofenac (p.14·3).
Peri-articular and soft-tissue disorders.

Airum *Recalcine, Chile.*
⊗ Clenbuterol (p.1120·1).
Bronchospasm.

Air-X *RX, Hong Kong; RX, Thai.*
Simeticone (p.1770·2).
Aid to gastroscopy and X-ray examination; excess gastrointestinal gas; flatulence.

Aisoskin *Fidia, Ital.*
Isotretinoin (p.1599·2).
Acne.

Aitornet *Bajamed, Mex.*
Ketorolac (p.75·2).
Pain.

Ajan *3M, Ger.†.*
Nefopam hydrochloride (p.94·2).
Pain.

Ajatin *Profarma, Cz.*
Benzododecinium bromide (p.1631·2).
Disinfection of skin and wounds.

Ajo 1000 + C *Garden House, Arg.*
Garlic (p.2309·2); vitamin C (p.1983·3).
Dietary supplement.

Ajo Forte *Provefarma, Arg.*
Garlic (p.2309·2); ascorbic acid (p.1983·3); acerola.
Dietary supplement.

Ajolip *Natufarma, Arg.*
Garlic (p.2309·2); bearberry (p.2263·3).
Dietary supplement.

Ajomast *Monserrat, Arg.*
Garlic (p.2309·2).
Hyperlipidaemia.

Ajomast Circulatorio *Monserrat, Arg.†.*
Garlic (p.2309·2); rutoside (p.2305·1).
Circulatory disorders; haemorrhoids; venous insufficiency.

Ajuta *Hermes, Ger.*
Devil's claw root (p.39·1).
Musculoskeletal and joint disorders.

Ak Vernacon *Akorn, Canad.*
Pheniramine maleate (p.587·3); phenylephrine hydrochloride (p.1568·1).
Eye disorders.

Akabar *AF, Mex.*
Nifuroxazide (p.307·2).
Bacterial infections of the gastrointestinal tract.

Akacin *Diba, Mex.; Atlantic, Thai.*
Amikacin sulfate (p.200·3).
Gram-negative bacterial infections.

Akaderm N *Gepepharm, Ger.*
Salicylic acid (p.1612·2); lactic acid (p.2329·3).
Skin disorders.

Akamin *Alphapharm, Austral.*
Minocycline hydrochloride (p.300·3).
Bacterial infections.

Akamon *Medochemie, Hong Kong; Medochemie, Malaysia.*
Bromazepam (p.964·3).
Anxiety.

Akarin *Nycomed, Denm.*
Citalopram hydrobromide (p.385·3) or citalopram hydrochloride (p.385·3).
Depression; panic attacks.

Akarpine *Akorn, USA.*
Pilocarpine hydrochloride (p.1884·3).
Glaucoma; raised intra-ocular pressure; reversal of mydriasis.

Akatinol *Phoenix, Arg.; Merz, Cz.†.*
Memantine hydrochloride (p.367·1).
Mental function disorders; movement disorders; parkinsonism; spasticity.

Ak-Beta *Akorn, USA.*
⊗ Levobunolol hydrochloride (p.1882·3).
Glaucoma; ocular hypertension.

Ak-Chlor *Akorn, USA†.*
Chloramphenicol (p.239·3).
Eye infections.

Ak-Con *Akorn, Canad.; Akorn, USA.*
⊗ Naphazoline hydrochloride (p.1565·2).
Eye disorders; minor eye irritation.

Ak-Dilate *Akorn, Canad.†; Akorn, USA.*
Phenylephrine hydrochloride (p.1568·1).
Funduscopy; open-angle glaucoma; ophthalmic examination; production of mydriasis; refraction without cycloplegia; uveitis.

AKE *Fresenius Kabi, Ger.; Fresenius Kabi, Neth.; Fresenius Kabi, Switz.†; Fresenius Kabi, Turk.*
Amino-acid, carbohydrate, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Akeprul *Loeffler, Mex.*
Benzoyl peroxide (p.1590·2).
Acne.

Akerat
Note. This name is used for preparations of different composition.
Pierre Fabre Dermo-Cosmetique, Arg.; Avene, Fr.; Medifarm Avene, Venez.
⊗ Urea (p.1620·2); salicylic acid (p.1612·2); lactic acid (p.2329·3).
Dry skin; keratinisation disorders; skin disorders.

Silesia, Chile.
⊗ Urea (p.1620·2); salicylic acid (p.1612·2); lactic acid (p.2329·3); almond oil (p.2252·2).
Skin disorders.

Akevir *Kener, Mex.*
Aciclovir (p.862·3).

Akezol *Kener, Mex.*
⊗ Acetazolamide (p.1875·1).

Ak-Fluor *Akorn, USA.*
Fluorescein sodium (p.2306·1).
Ophthalmic diagnostic agent.

Akicin *General Drugs, Thai.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Akilen
Note. This name is used for preparations of different composition.
Medochemie, Hong Kong†; Medochemie, Malaysia.
Verapamil hydrochloride (p.1421·1).
Angina pectoris; arrhythmias; heart failure; hypertension.

Sanbe, Indon.
Ofloxacin (p.310·2).
Bacterial infections.

Akineton
Abbott, Arg.; Abbott, Austria; Knoll, Braz.; SIT, Cz.; SIT, Denm.; SIT, Fin.; Desma, Ger.; Vianex (Βιανέξ), Gr.; SIT, Hung.; DMS, Ital.; Abbott, Mex.; Abbott, Neth.; Abbott, Norw.†; Abbott, Philipp.; Desma, Port.; Abbott, S.Afr.; Desma, Spain; Abbott, Swed.†; Desma, Switz.; Abbott, Turk.; Abbott, Venez.
Biperiden hydrochloride (p.797·2) or biperiden lactate (p.797·3).
Bronchospasm; drug-induced extrapyramidal disorders; head injury; nicotine poisoning; organophosphorus poisoning; parkinsonism; phosphorus poisoning; spasticity; trigeminal neuralgia.

Abbott, Austral.; Pharmacobel, Belg.; Abbott, Canad.; DB, Fr.; Abbott, Irl.; Desma, Pol.; Abbott, Rus.†; Abbott, USA.
Biperiden hydrochloride (p.797·2).
Drug-induced extrapyramidal disorders; head injury; nocturnal cramps; parkinsonism; spasticity; trigeminal neuralgia.

Abbott, Chile.
Biperiden (p.797·2).
Parkinsonism.

Akinspray *Urgo, Belg.*
Benzalkonium chloride (p.1629·1); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Akirol *Sedabel, Braz.†.*
Sulfur (p.1614·1); benzoyl peroxide (p.1590·2).
Acne.

Akistin *Pharmaselect, Austria.*
Diethylamine salamidacetate (p.121·2).
Musculoskeletal and joint disorders; neuralgias.

Aklonin *Wernigerode, Ger.†.*
Phenamazide hydrochloride (p.1761·3).
Smooth muscle cramp; vomiting.

Aklovir *Ilsan, Turk.*
Aciclovir (p.862·3).
Herpesvirus infections.

Ak-NaCl *Akorn, USA.*
Sodium chloride (p.1686·1).
Corneal oedema.

Akne Cordes *Ichthyol, Austria; Ichthyol, Ger.†.*
Erythromycin (p.269·2).
Acne.

Aknecide *Galderma, Cz.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Aknecolor *Spirig, Cz.*
Clotrimazole (p.530·1).
Acne.

Aknederm Ery *Gepepharm, Ger.*
Erythromycin (p.269·2).
Acne.

Aknederm Neu *Gepepharm, Ger.*
Ictasol (p.1599·1); zinc oxide (p.1621·2).
Skin disorders.

Aknederm Oxid *Gepepharm, Ger.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Aknefug *Wolff, Cz.†.*
Estradiol (p.2097·2); hexachlorophene (p.1646·1).
Acne.

Aknefug BP *Orva, Turk.*
Benzoyl peroxide (p.1590·2).
Acne.

Aknefug Doxy *Wolff, Ger.*
Doxycycline hyclate (p.267·1).
Acne.

Aknefug Iso *Wolff, Ger.*
Isotretinoin (p.1599·2).
Acne.

Aknefug Mino *Wolff, Ger.*
Minocycline hydrochloride (p.300·3).
Acne.

Aknefug simplex *Wolff, Ger.†.*
Hexachlorophene (p.1646·1).
Acne; rosacea.

Aknefug-EL *Wolff, Cz.; Wolff, Ger.; Wolff, Hung.*
Erythromycin (p.269·2).
Acne.

Aknefug-Emulsion *Wolff, Ger.†.*
Estradiol (p.2097·2); hexachlorophene (p.1646·1).
Acne.

Aknefug-liquid *Wolff, Ger.*
Salicylic acid (p.1612·2).
Acne.

Aknefug-liquid N *Wolff, Hung.†.*
Salicylic acid (p.1612·2); coal tar (p.1616·2).
Acne; seborrhoeic dermatitis.

Aknefug-oxid *Wolff, Cz.†; Wolff, Ger.; Wolff, Hung.*
Benzoyl peroxide (p.1590·2).
Acne.

Aknefug-Simplex *Wolff, Cz.†.*
Hexachlorophene (p.1646·1).
Acne.

Aknemin *Merck, Neth.; Crookes Healthcare, UK.*
Minocycline hydrochloride (p.300·3).
Bacterial infections.

Akne-Mycin *Hermal, Port.; Coria, USA.*
Erythromycin (p.269·2).
Acne.

Aknemycin
Note. This name is used for preparations of different composition.
Hermal, Austria; Boots Healthcare, Belg.; Hermal, Cz.; Hermal, Hong Kong; Hermal, Hung.; Hermal, Malaysia; Boots Healthcare, Neth.; Herrmann, Pol.; Hermal, Singapore.
Erythromycin (p.269·2).
Acne.

Hermal, Israel.
Erythromycin (p.269·2); ichthammol (p.1599·1).
Acne.

Hermal, Ger.
Lotion; ointment: Erythromycin (p.269·2).
Acne.

Boots Healthcare, Switz.
Ointment; topical solution: Erythromycin (p.269·2).
Acne.

Hermal, Ger.; Boots Healthcare, Switz.
Topical emulsion: Erythromycin (p.269·2); ichthammol (p.1599·1).
Acne.

Aknemycin compositum *Hermal, Austria.*
Erythromycin (p.269·2); light ammonium bituminosulfonate (p.1599·1).
Acne.

Aknemycin Plus *Hermal, Cz.; Hermal, Ger.; Hermal, Israel; Hermal, Malaysia; Herrmann, Pol.; Hermal, Singapore; Crookes Healthcare, UK.*
Erythromycin (p.269·2); tretinoin (p.1618·1).
Acne.

Aknenormin *Hermal, Cz.; Hermal, Ger.; Hermal, Hung.; Herrmann, Pol.*
Isotretinoin (p.1599·2).
Acne.

Ak-Neo-Dex *Akorn, USA.*
⊗ Neomycin sulfate (p.305·1); dexamethasone sodium phosphate (p.1526·2).
Eye inflammation with bacterial infection.

Aknepur *Infusia, Cz.†.*
Colloidal sulfur (p.1614·1).
Acne.

Akne-Puren *Alpharma-Isis, Ger.†.*
Minocycline hydrochloride (p.300·3).
Acne.

Akneroxid *Hermal, Austria; Boots Healthcare, Belg.; Hermal, Cz.; Hermal, Ger.; Hermal, Hung.; Hermal, Malaysia; Boots Healthcare, Neth.; Herrmann, Pol.; Hermal, Singapore; Boots Healthcare, Switz.*
Benzoyl peroxide (p.1590·2).
Acne.

Aknesil *Farmanic, Gr.*
Isotretinoin (p.1599·2).
Acne.

Aknex *Gebro, Switz.*
Benzoyl peroxide (p.1590·2).
Acne.

Aknex Cleaning *Gebro, Switz.*
Cetrimonium bromide (p.1635·1).
Acne; skin cleansing.

Aknicare *Dermoteca, Port.*
Pyruvic acid; triclosan (p.1665·2).
Soap substitute for acne-prone skin.

Aknicare Cleanser *General Topics, Ital.*
Pyruvic acid; triclosan (p.1665·2).
Acne.

Aknichthol *Ichthyol, Austria.*
Ictasol (p.1599·1); salicylic acid (p.1612·2); colloidal sulfur (p.1614·1).
Acne.

Aknichthol Creme *Ichthyol, Ger.*
Ictasol (p.1599·1).
Acne.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Aknichthol N
Note.This name is used for preparations of different composition.
Ichthyol, Ger.
Ictasol (p.1599·1); salicylic acid (p.1612·2).
Acne.
Ichthyol, Switz.
Sodium bituminosulfonate (p.1599·1); salicylic acid (p.1612·2).
Acne.

Aknil Sunthi Sepuri, Indon.
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; pain.

Aknilox Drossapharm, Switz.; Assos, Turk.
Erythromycin (p.269·2).
Acne.

Aknin-Mino Sanofi Synthelabo, Ger.†.
Minocycline hydrochloride (p.300·3).
Acne.

Aknin-N Sanofi, Switz.
Minocycline hydrochloride (p.300·3).
Acne.

Aknoral IBSA, Switz.
Minocycline hydrochloride (p.300·3).
Acne.

Aknoren Bochemie, Cz.
Azelaic acid (p.1589·3).
Acne.

Aknosan Hermal, Ger.
Minocycline hydrochloride (p.300·3).
Acne.

Akorazol Collins, Mex.
Ketoconazole (p.539·1).
Fungal infections.

Ak-Pentolate Akorn, USA.
Cyclopentolate hydrochloride (p.1879·3).
Production of mydriasis and cycloplegia.

Ak-Poly-Bac Akorn, USA.
Polymyxin B sulfate (p.317·3); bacitracin zinc (p.210·3).
Eye infections.

Ak-Pred Akorn, USA†.
⊗ Prednisolone sodium phosphate (p.1541·2).
Eye inflammation.

AkPro Akorn, USA.
⊗ Dipivefrine hydrochloride (p.2295·3).
Glaucoma.

Akratol Rafarm, Gr.
Nabumetone (p.91·2).
Inflammation; musculoskeletal and joint disorders; pain.

Akriderm Akrikhin, Rus.
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Akriderm Genta Akrikhin, Rus.
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

Akriderm GK Akrikhin, Rus.
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

Akriderm SK Akrikhin, Rus.
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Akridipin Marvel, Rus.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Akrinor Viatris, Austria; AWD, Ger.†; Adcock Ingram, S.Afr.
⊗ Cafedrine hydrochloride (p.1238·2); theodrenaline hydrochloride (p.2400·1).
Circulatory disorders; hypotension.

Ak-Rinse Akorn, USA.
Electrolytes (p.1667·1).
Eye irrigation.

Akripamide Akrikhin, Rus.
⊗ Indapamide (p.1314·1).
Hypertension.

Akrofen Nufarindo, Indon.
Phenylbutazone (p.117·1).
Musculoskeletal, joint, and peri-articular disorders; thrombophlebitis.

Akrofolline Biofarma, Turk.
Estradiol propionate (p.2097·3).
Menopausal disorders.

Ak-Rose Akorn, Canad.
Rose bengal sodium (p.2381·1).
Ophthalmic diagnostic agent.

Aksef Nobel, Turk.
Cefuroxime axetil (p.238·2) or cefuroxime sodium (p.238·2).
Bacterial infections.

Aksil Embil, Turk.
Benzoyl peroxide (p.1590·2).
Acne.

Aksoderm Gemi, Pol.
Vitamin A (p.1971·2).
Skin disorders.

Ak-Spore Akorn, USA.
Polymyxin B sulfate (p.317·3); neomycin sulfate (p.305·1); bacitracin zinc (p.210·3).
Eye infections.

Ak-Sulf Akorn, Canad.; Akorn, USA.
Sulfacetamide sodium (p.335·3).
Eye infections.

Akt-3 Lupin, India.
1 Capsule, rifampicin (p.325·3); 1 tablet, ethambutol (p.275·2); isoniazid (p.288·1).
Tuberculosis.

Akt-4 Lupin, India.
1 Capsule, rifampicin (p.325·3); 2 tablets, pyrazinamide (p.320·2); 1 tablet, ethambutol (p.275·2); isoniazid (p.288·1).
Tuberculosis.

Akta Nicholas, Indon.
Vitamin preparation (p.1922·1).

Aktace Nicholas, Indon.
Ascorbic acid; vitamin B substances (p.1922·1).
Vitamin B and C deficiency.

Ak-Taine Akorn, Canad.; Akorn, USA.
Proxymetacaine hydrochloride (p.1870·1).
Local anaesthesia.

Ak-Tate Sandoz, Canad.
⊗ Prednisolone acetate (p.1541·1).
Inflammatory eye disorders.

Aktibol Nevzat, Turk.
Cobamamide (p.1980·2).
Megaloblastic anaemia.

Aktiferrin Ratiopharm, Austria; Ratiopharm, Cz.; Ratiopharm, Hung.; Merckle, Rus.
Ferrous sulfate (p.1939·3).
-Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Iron deficiency; iron-deficiency anaemia.

Aktiferrin Compositum
Note.This name is used for preparations of different composition.
Ratiopharm, Austria; Merckle, Rus.
Ferrous sulfate (p.1939·3) folic acid (p.1940·1).
-Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Iron and folic acid deficiency; iron deficiency; iron-deficiency anaemia.
Ratiopharm, Cz.
Ferrous sulfate (p.1939·3); folic acid (p.1940·1); cyanocobalamin (p.1980·2).
-Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Aktiferrin N Merckle, Ger.
Ferrous sulfate (p.1939·3).
Iron deficiency.

Aktiferrin-F
Note.This name is used for preparations of different composition.
Mepha, Israel; Mepha, Malaysia.
Ferrous sulfate (p.1939·3); folic acid (p.1940·1).
-Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Iron and folic acid deficiency; iron-deficiency anaemia.
Mepha, Singapore.
Ferrous sulfate (p.1939·3); folic acid (p.1940·1); vitamin B (p.1980·2).
Serine (p.1962·1) is included in this preparation to increase the absorption and availability of iron.
Iron and folic acid deficiency; iron-deficiency anaemia.

Aktil Gedeon Richter, Hung.
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Aktiosan Hexal, Arg.†.
Diclofenac sodium (p.44·3).
Gout; musculoskeletal, joint, and soft-tissue disorders.

Aktivanad
Nycomed, Austria.
Oral liquid: Liver extract; yeast; rose fruit; caffeine (p.1922·1).
Tonic.
Nycomed, Austria; Aventis, S.Afr.†.
Syrup: Liver extract; yeast; rose fruit; ferric glycerophosphate; lysine (p.1922·1).
Tonic.
Aventis, S.Afr.†.
Tablets: Haematoporphyrin; liver extracts; amino acids; vitamins; caffeine; yeast extract; ferric glycerophosphate (p.1922·1).
Tonic.

Aktivanad-N
Rentschler, Ger.
Oral liquid: Liver extract; yeast extract; caffeine (p.1922·1).
Tonic.
Rentschler, Ger.†.
Tablets: Vitamin B substances; vitamin C; caffeine (p.1922·1).
Tonic.

Aktivin Michallik, Ger.
Isopropyl alcohol (p.1650·3).
Skin disinfection.

AkTob Akorn, USA.
Tobramycin (p.354·1).

Akton Exel, Belg.
Cloxazolam (p.981·1).
Anxiety; premedication; sleep disorders.

Ak-Tracin Akorn, USA†.
Bacitracin (p.210·3).
Eye infections.

Aktren Bayer, Austria; Bayer, Ger.
Ibuprofen (p.64·2).
Fever; pain.

Ak-Trol Akorn, USA†.
⊗ Dexamethasone (p.1526·1); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Eye inflammation with bacterial infection.

Akutol Aveflor, Pol.
Acrylic copolymer aerosol.
Wounds.

Akwa Tears
Note.This name is used for preparations of different composition.
Akorn, Canad.
Wool fat (p.2033·2); liquid paraffin (p.2030·3); yellow soft paraffin (p.2031·3).
Dry eyes.
Akorn, USA.
Eye drops: Polyvinyl alcohol (p.2145·3).
Dry eyes.
Akorn, USA.
Eye ointment: White soft paraffin (p.2031·2); liquid paraffin (p.2030·3); wool fat (p.2033·2).
Dry eyes.

al 110 Nestle, Braz.; Nestle, Fr.; Nestle, Hong Kong; Nestle, Ital.; Nestle, Philipp.; Nestle, Port.†.
Food for special diets (p.1922·1).
Diarrhoea; lactose intolerance.

Alacetan Asconex, Ger.†.
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Fever; inflammation; pain.

Alacetan NNA Asconex, Ger.
Naproxen sodium (p.92·3).
Fever; pain.

Alacol DM Ballay, USA.
Dextromethorphan hydrobromide (p.1555·2); brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Upper respiratory-tract disorders.

Alacor Durascan, Denm.†.
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Ala-Cort Del-Ray, USA.
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Alacramyn Bioclon, Mex.
Scorpion venom antisera (p.2237·2).
Scorpion stings.

Alacre Neo-Farmaceutica, Port.
St John's wort (p.422·3).
Depression.

Alacta-NF Mead Johnson Nutritionals, Thai.†.
Food supplement with vitamins and minerals (p.1922·1).

Alager Denver, Arg.
Azelastine hydrochloride (p.568·2).
Allergic eye disorders.

Alaidol Byk, Arg.†.
Proglumetacin maleate (p.119·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Alamag Goldline, USA.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Hyperacidity.

Alamag Plus Goldline, USA.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Hyperacidity.

Alamast Vistakon, USA.
Pemirolast potassium (p.1129·3).
Allergic conjunctivitis.

Alamin David, India.
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Alampen Spefar, Venez.
Ampicillin (p.204·1).
Bacterial infections.

Alanase Pacific, NZ.
⊗ Beclometasone dipropionate (p.1516·2).
Nasal polyps; rhinitis.

Alandiem Zimaia, Port.
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Alanox Darya-Varia, Indon.
Thioctic acid (p.2400·2).
Nutritional supplement in diabetes mellitus.

Alantamida Meyer, Venez.
Dequalinium chloride (p.1641·3); allantoin (p.1588·1).

Alantan Unia, Pol.
Allantoin (p.1588·1).
Burns; skin disorders; wounds.

Alantan-Plus Unia, Pol.
Allantoin (p.1588·1); dexpanthenol (p.2362·1).
Burns; skin disorders; wounds.

Alantavit Coel, Pol.
Allantoin (p.1588·1); vitamin A (p.1971·2); colecalciferol (p.1986·2).
Burns; skin disorders; ulcers; wounds.

Alapren Ranbaxy, S.Afr.
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Alapril
Note.This name is used for preparations of different composition.
S Med, Austria.
Enalapril maleate (p.1276·1).
Heart failure; hypertension.
Mediolanum, Ital.
Lisinopril (p.1325·2).
Heart failure; hypertension; myocardial infarction.

Alapryl Menarini, Spain.
Halazepam (p.1000·1).
Anxiety.

Alarin Biofarma, Turk.
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Alasenn Schworer, Ger.
Senna (p.1769·2); ononis (p.2357·1); achillea (p.2245·2); taraxacum (p.2395·1).
Constipation.

Alastik
Note.This name is used for preparations of different composition.
Grunenthal, Chile†.
Cream; lotion: Glycolic acid (p.1598·1).
Acne; dry skin; eye contour disorders; photoageing of the skin; seborrhoea; skin pigmentation disorders.
Grunenthal, Chile†.
Topical gel: Glycolic acid (p.1598·1); hydroquinone (p.1598·2); kojic acid (p.1603·3).
Skin pigmentation disorders.

Alasulf Major, USA.
Sulfanilamide (p.343·1); aminoacridine hydrochloride (p.1625·1); allantoin (p.1588·1).
Vaginal infections.

Alateris Ransom, UK.
Glucosamine (p.2313·2).
Knee osteoarthritis.

Alavac-S Teomed, Switz.†.
House-dust mite allergen extracts (p.2250·2) (p.2251·1).
Allergen immunotherapy.

Alavert Wyeth-Ayerst, USA.
Loratadine (p.583·3).
Hypersensitivity reactions.

Alavert Allergy & Sinus D Wyeth Consumer, USA.
Loratadine (p.583·3); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract disorders.

Alaway Bausch & Lomb, USA.
Ketotifen fumarate (p.582·2).
Eye irritation.

Alax Herbapol Poznan, Pol.
Aloes (p.1705·2); belladonna (p.2263·3); frangula bark (p.1732·2); liquorice (p.1740·3).
Constipation.

Alaxa Angelini, Ital.
Bisacodyl (p.1710·1).
Constipation.

Alaxan
Note.This name is used for preparations of different composition.
Great Eastern, Thai.; Therapharma, Thai.
Carisoprodol (p.1894·1); phenylbutazone calcium (p.117·1).
Musculoskeletal and joint disorders.
United Laboratories, Philipp.
Capsules; tablets: Paracetamol (p.108·1); ibuprofen (p.64·2).
Fever; pain.
United Laboratories, Philipp.
Topical gel: Menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal and joint pain.

Alaxan PI Great Eastern, Thai.; Therapharma, Thai.
Ibuprofen (p.64·2); paracetamol (p.108·1).
Musculoskeletal pain.

Alba
Note. A similar name is used for preparations of different composition (see below).
Biem, Turk.; SNBTS, UK†.
⊗ Albumin (p.1052·1).
Hypoalbuminaemia; plasma volume expansion.

Alba-3
Note. A similar name is used for preparations of different composition (see above).
IQB, Braz.
Albendazole (p.139·2).
Worm infections.

Albalon Allergan, Austral.; Allergan, Belg.†; Allergan, Canad.; Allergan, Hong Kong; Allergan, Malaysia; Allergan, NZ†; Allergan, Neth.; Allergan, Switz.; Allergan, Thai.; Allergan, USA.
⊗ Naphazoline hydrochloride (p.1565·2).
Eye irritation; ocular congestion.

Albalon Relief Allergan, Austral.; Allergan, NZ†.
Phenylephrine hydrochloride (p.1568·1).
Eye irritation.

Albalon-A Allergan, Austral.; Allergan, Canad.; Allergan, NZ†; Allergan, S.Afr.†.
⊗ Naphazoline hydrochloride (p.1565·2); antazoline phosphate (p.567·1).
Eye irritation; ocular congestion.

Albapure Dexa, Indon.
⊗ Albumin (p.1052·1).
Hypoproteinaemia; hypovolaemia.

Albarel
Egis, Cz.
Rilmenidine phosphate (p.1388·3).
Hypertension.
Egis, Rus.
Rilmenidine (p.1388·3).
Hypertension.

Albasol Allergan, Chile†.
⊗ Naphazoline hydrochloride (p.1565·2).
Eye congestion.

Albasol A *Allergan, Chile†.*
⊗ Naphazoline hydrochloride (p.1565·2); antazoline phosphate (p.567·1).
Eye disorders.

Albatel *TO-Chemicals, Thai.*
Albendazole (p.139·2).
Worm infections.

Albay
Note. This name is used for preparations of different composition.
Thomson, Austral.; Ebos, NZ; Miles, USA.
Honey bee venom (p.2251·1), wasp venom proteins (p.2251·1), or yellow jacket venom (p.2250·2).
Allergen immunotherapy; diagnosis of hypersensitivity to insect stings.
Bayer, S.Afr.
Bee venom (p.2251·1) (p.2250·2).
Diagnosis of allergy to bee stings; hyposensitisation to bee sting.

Albec *Psicofarma, Mex.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Albel *Geolab, Braz.*
Albendazole (p.139·2).
Worm infections.

Alben *Infabra, Braz.†; Biolab, Thai.*
Albendazole (p.139·2).
Worm infections.

Albenda *Milano, Thai.; Julphar, UAE.*
Albendazole (p.139·2).
Worm infections.

Albendol *Eurodrug, Malaysia.*
Albendazole (p.139·2).
Worm infections.

Albendrox *Royton, Braz.†.*
Albendazole (p.139·2).
Worm infections.

Albendy *Galenogal, Braz.†.*
Albendazole (p.139·2).
Worm infections.

Albenix *Globo, Braz.†.*
Albendazole (p.139·2).
Worm infections.

Albensil *Arlex, Mex.*
Albendazole (p.139·2).
Worm infections.

Albentel *Teuto, Braz.*
Albendazole (p.139·2).
Worm infections.

Albenza *SmithKline Beecham, USA.*
Albendazole (p.139·2).
Cysticercosis; echinococcosis.

Albenzonil *Ducto, Braz.*
Albendazole (p.139·2).
Worm infections.

Albeoler *Andromaco, Chile.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Albepir *Albephar, Venez.*
Pyrithione zinc (p.1611·2).
Dandruff; seborrhoeic dermatitis.

Alber T *Unison, Hong Kong†; Unison, Thai.*
Tolnaftate (p.548·3); triacetin (p.549·1).
Fungal skin infections.

Albert Tiafen *Aventis, Canad.†.*
Tiaprofenic acid (p.129·2).
Osteoarthritis; rheumatoid arthritis.

Albesin *Biotech, Venez.*
Fluconazole (p.532·1).
Fungal infections.

Albesine Biotic *Indeco, Arg.*
Amoxicillin (p.202·2); diclofenac (p.44·2).

Albetol *Leiras, Fin.*
⊗ Labetalol hydrochloride (p.1321·1).
Angina pectoris; hypertension.

Albey
Note. This name is used for preparations of different composition.
Stallergenes, Fr.
Bee venom (p.2251·1) or wasp venom (p.2251·1) (p.2250·2).
Formerly known as Albay.
Allergen immunotherapy of bee or wasp stings; diagnosis of hypersensitivity to bee or wasp stings.
Medi Challenge, S.Afr.
Bee venom (p.2251·1) (p.2250·2).
Hyposensitisation.

Albezin *Brasterapica, Braz.†.*
Albendazole (p.139·2).
Worm infections.

Albezol *SM, Venez.*
Albendazole (p.139·2).
Worm infections.

Albezole *Khandelwal, India.*
Albendazole (p.139·2).
Worm infections.

Albicansan *Sanum-Kehlbeck, Ger.*
Homoeopathic preparation.

Albicar
Note. This name is used for preparations of different composition.
Casasco, Arg.
Levocarnitine (p.1932·2).
Carnitine deficiency.
Elmor, Venez.
Albendazole (p.139·2).
Worm infections.

Albicon *Farmalab, Braz.*
Potassium chloride (p.1684·3); benzocaine (p.1854·1); sodium bicarbonate (p.1673·2).
Formerly contained borax, potassium chloride, benzocaine, and sodium carbonate.
Local disinfection and anaesthesia.

Albicort *Sanofi-Aventis, Belg.; Sanofi Synthelabo, Neth.†.*
⊗ Triamcinolone acetonide (p.1544·3).
Corticosteroid.

Albicort Compositum *Sanofi Synthelabo, Neth.†.*
⊗ Triamcinolone acetonide (p.1544·3); salicylic acid (p.1612·2).
Keratinisation disorders; psoriasis.

Albintil *Solvay, Spain.*
Multivitamin preparation (p.1922·1).

Albios *Giuliani, Ital.*
Dietary fibre supplement with minerals (p.1922·1).

Albiotic *Pharmacia, Ger.†.*
Lincomycin hydrochloride (p.293·2).
Bacterial infections.

Albiotin *Kalbe, Indon.*
Clindamycin hydrochloride (p.251·1).
Bacterial infections.

Albistin *Cazi, Braz.*
Nystatin (p.543·2).
Fungal infections.

Albital
Note. This name is used for preparations of different composition.
Cristalia, Braz.†.
Acetyltryptophan sodium; potassium caprylate; protein (p.1922·1).
Parenteral nutrition.
Hardis, Ital.; Serono, Mex.†.
⊗ Albumin (p.1052·1).
Hypoalbuminaemia.

Albizia Complex *Mediherb, Austral.*
Albizia; skullcap (p.2388·2); feverfew (p.622·2).
Hypersensitivity reactions.

Albocresil *Altana, Arg.; Nycomed, Braz.; Grunenthal, Chile†.*
Policresulen (p.1077·2).
Haemorrhage; mucous membrane inflammation in the mouth; skin ulcers and burns; vaginal disorders.

Alboral *Silanes, Mex.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety disorders; epilepsy; insomnia; premedication; skeletal muscle spasm; tetany.

Albothyl *Altana, Ger.; Altana, Hong Kong; Altana, Indon.; Pharos, Indon.; Altana, Malaysia; Altana, Mex.; Altana, Philipp.; Altana, Pol.; Altana, Singapore.*
Policresulen (p.1077·2).
Anogenital warts; aphthous ulcers; burns; cervical and vaginal disorders; haemorrhage; skin and mucous membrane disorders; ulcers; wounds.

Albotyl *Medicus, Gr.†.*
Nicergoline (p.2352·1).
Vasodilator.

Alboz *Collins, Mex.*
Omeprazole (p.1753·1).
Peptic ulcer.

Albraton *Steigerwald, Ger.†.*
Homoeopathic preparation.

Albucid *Chauvin ankerpharm, Ger.†; Allergan, India; Nicholas, Indon.*
Sulfacetamide sodium (p.335·3).
Eye infections.

Albulair *Cassara, Arg.*
⊗ Levosalbutamol sulfate (p.1125·3).
Obstructive airways disease.

Albuman *Berna, Ital.†; Berna, Switz.; Berna, Turk.*
⊗ Albumin (p.1052·1).
Burns; hypoalbuminaemia; hypovolaemic shock; plasma volume expansion.

Albumar *Grossman, Mex.†.*
⊗ Albumin (p.1052·1).
Plasma volume expansion; shock.

Albumarc *American Red Cross, USA.*
⊗ Albumin (p.1052·1).

Albumax *Blausiegel, Braz.†; Green Cross, Philipp.*
⊗ Albumin (p.1052·1).
Burns; neonatal hyperbilirubinaemia; plasma volume expansion.

Albumex *CSL, Austral.; CSL, NZ.*
⊗ Albumin (p.1052·1).
Adult respiratory distress syndrome; burns; cardiopulmonary bypass surgery; haemodialysis; hypoproteinaemia; hypovolaemia; plasma exchange; plasma volume expansion; shock.

Albuminar *CSL, Braz.; ZLB Behring, Hong Kong; Centeon, Israel; Aventis Pasteur, Philipp.; ZLB Behring, Philipp.; Farma-Tek, Turk.; CSL Behring, USA.*
⊗ Albumin (p.1052·1).
Burns; hypoalbuminaemia; hypoproteinaemia; hypovolaemia; hypovolaemic shock; plasma volume expansion.

Albuminativ *Octapharma, Austria; Octapharma, Fin.; Octapharma, Neth.†; Octapharma, Swed.*
⊗ Albumin (p.1052·1).
Hypovolaemia.

Albumyn *Bioclon, Mex.†.*
⊗ Albumin (p.1052·1).
Hypoproteinaemia; plasma volume expansion.

Alburaas *Combiphar, Indon.; Shanghai RAAS, Thai.*
⊗ Albumin (p.1052·1).
Hypoproteinaemia; hypovolaemia.

Alburex
Note. This name is used for preparations of different composition.
Demo, Gr.
⊗ Plasma protein fraction (p.1076·2).
ZLB, Ital.
⊗ Albumin (p.1052·1).
Plasma volume expansion.

Albusol *NBI, S.Afr.*
⊗ Albumin (p.1052·1).
Hypoproteinaemia; hypovolaemia.

Albustix *Bayer Diagnostics, Fr.; Bayer Diagnostics, Irl.; Bayer Diagnostici, Ital.; Bayer, NZ; Bayer Diagnostics, UK; Bayer, USA.*
Test for protein in urine.

Albutamol *Centaur, India.*
⊗ Etofylline (p.1121·1); salbutamol (p.1131·2); bromhexine (p.1552·2).
Obstructive airways disease.

Albutein *Grifols, Hong Kong; Grifols, Indon.; Tempo Scan Pacific, Indon.; Alpha Therapeutic, Ital.; Grifols, Malaysia; Grifols, Philipp.; Grifols, Singapore; Grifols, Thai.; Grifols, UK; Alpha Therapeutic, USA.*
⊗ Albumin (p.1052·1).
Burns; cardiopulmonary bypass procedures; dialysis; hyperbilirubinaemia; hypoalbuminaemia; hypoproteinaemia; hypovolaemia; hypovolaemic shock; neonatal hyperbilirubinaemia.

Albyl minor *Recip, Swed.*
Aspirin (p.20·3).
Fever; pain.

Albyl-E *Nycomed, Norw.*
Aspirin (p.20·3).
Thrombosis prophylaxis.

Alca-C *Novartis Consumer, Switz.*
Carbasalate calcium (p.33·3); ascorbic acid (p.1983·3).
Cold symptoms.

Alcacat *Baxter, Mex.†.*
Sodium chloride (p.1686·1).

Alcachofa Plus *Tecnonat, Arg.*
Cynara (p.2291·2).

Alcachofrax *Catarinense, Braz.*
Cynara (p.2291·2).
Lipid disorders.

Alcacyl *Novartis Consumer, Switz.*
Carbasalate calcium (p.33·3).
Aluminium hydroxide (p.1706·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; pain.

Alcacyl instantanee *Novartis Consumer, Switz.*
Lysine aspirin (p.79·1).
Fever; pain.

Alcafelol *Luper, Braz.†.*
Choline citrate (p.1934·2); cynara (p.2291·2); boldo (p.2267·2); magnesium sulfate (p.1679·3).
Liver disorders.

Alcaflor *Luper, Braz.†.*
Cynara (p.2291·2); boldo (p.2267·2).
Liver disorders.

Alcaine *Alcon, Austral.; Alcon, Belg.; Alcon, Canad.; Alcon, Gr.; Alcon, Hong Kong; Alcon, Malaysia; Alcon, Mex.; Alcon, Norw.; Alcon, Philipp.; Alcon, Pol.; Alcon, Rus.; Alcon, Singapore; Alcon, Switz.; Alcon, Turk.; Alcon, USA; Alcon, Venez.*
Proxymetacaine hydrochloride (p.1870·1).
Local anaesthesia.

Alcalergin *Herbarium, Braz.*
Liquorice (p.1740·3).
Cough.

Alcalinos Gelos *Gelos, Spain.*
Calcium carbonate (p.1714·1); magnesium hydroxide (p.1743·2); sodium bicarbonate (p.1673·2); dibasic sodium phosphate (p.1682·3).
Gastrointestinal hyperacidity.

Alcalone Plus *Bunker, Braz.*
Magnesium hydroxide (p.1743·2); aluminium hydroxide (p.1706·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity.

Alcalosio *SIT, Ital.*
Anhydrous glucose (p.1945·3); potassium citrate (p.1673·2); pyridoxine hydrochloride (p.1978·2); sodium bicarbonate (p.1673·2); sodium citrate (p.1673·3).
Acetonaemia; gastrointestinal hyperacidity; vomiting.

Alca-Luftal *BMS, Braz.*
Simeticone (p.1770·2); magnesium hydroxide (p.1743·2); aluminium hydroxide (p.1706·2).
Flatulence; gastric hyperacidity.

Alcamex *Cooper (Κοπερ), Gr.*
Calcium carbonate (p.1714·1).
Calcium deficiency.

Alcan *Sons, Mex.†.*
Chloramphenicol (p.239·3).
Bacterial infections.

Alcaphor *Pharmadeveloppement, Fr.*
⊗ Trometamol citrate (p.2405·2); sodium acid citrate (p.1673·2); dipotassium citrate (p.1674·2).
Metabolic acidosis; renal calculi.

Alcare *Calgon Vestal, USA.*
⊗ Alcohol (p.1625·2).
Antiseptic.

Alcasedine *Will-Pharma, Neth.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1).
Dyspepsia; heartburn.

Alcasol *Meda, Belg.*
Sodium bicarbonate (p.1673·2); borax (p.2268·1); sodium chloride (p.1686·1).
Conjunctivitis; dry eyes.

Alcatex *Medix, Mex.†.*
Cimetidine (p.1716·2).

Alcavixin *Korea United, Philipp.*
Vincristine sulfate (p.787·1).
Malignant neoplasms.

Alcelam *Pharmasant, Thai.*
Alprazolam (p.960·1).
Anxiety; insomnia; mixed anxiety depressive states.

Alcep *Hasco-Lek, Pol.*
Onion (p.2356·3).
Upper respiratory-tract infections.

Alcepalan *Herbapol Poznan, Pol.*
Onion (p.2356·3); heparin sodium (p.1301·2).
Keloids; scars.

Alchera *Pharmacare, S.Afr.*
Zopiclone (p.1039·1).
Insomnia.

Alcidolin *Sanofarm, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alcinal *Rekah, Israel.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3).
Coughs and cold symptoms.

Alcinal New *Rekah, Israel.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); chlorphenamine maleate (p.571·3).
Coughs and cold symptoms.

Alcinal Plus *Rekah, Israel.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3); paracetamol (p.108·1).
Coughs and cold symptoms; fever; pain.

Alcis *Chiesi, Spain.*
Estradiol (p.2097·2).
Menopausal disorders; osteoporosis.

Alciton *Kleva, Gr.*
Calcitonin (p.1093·1).
Osteoporosis.

Alco *Interbat, Indon.*
Pseudoephedrine hydrochloride (p.1571·2).
Influenza symptoms.

Alco Plus *Interbat, Indon.*
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2).
Influenza symptoms.

Alco Plus DMP *Interbat, Indon.*
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Cough; influenza symptoms.

Alco-Aloe *Ansell, Fr.*
⊗ Alcohol (p.1625·2); aloes (p.1705·2); chlorhexidine gluconate (p.1635·3); phenoxyethanol (p.1657·1).
Hand disinfection.

Alcobon *ICN, NZ†.*
Flucytosine (p.534·2).
Fungal infections.

Alcoderm
Note. This name is used for preparations of different composition.
Bajer, Arg.
Coal tar (p.1616·2).
Skin disorders.
Galderma, Irl.†.
Liquid paraffin (p.2030·3).
Dry skin.

Alcodin *Alcon, Ital.*
Myrtillus (p.2349·3).
Capillary fragility.

Alcohocel *Perez Gimenez, Spain.*
⊗ Alcohol (p.1625·2); cetylpyridinium chloride (p.1635·1).
Skin disinfection.

Alcohol Benzalconio *Viviar, Spain.*
⊗ Alcohol (p.1625·2); benzalkonium chloride (p.1629·1).
Skin, wound, and surface disinfection.

Alcohol Cetil *Noriega, Spain†.*
⊗ Alcohol (p.1625·2); cetylpyridinium chloride (p.1635·1).
Skin disinfection.

Alcohol Cetilpi Cuve *Perez Gimenez, Spain†.*
⊗ Alcohol (p.1625·2); cetylpyridinium chloride (p.1635·1).
Skin disinfection.

Alcohol CL Benz *Betamadrileno, Spain.*
⊗ Alcohol (p.1625·2); benzalkonium chloride (p.1629·1).
Skin, wound, and surface disinfection.

Alcohol Poten *Maxfarma, Spain.*
⊗ Alcohol (p.1625·2); benzethonium chloride (p.1630·1).
Skin, wound, and surface disinfection.

Alcohol Potenciado *Viviar, Spain.*
⊗ Alcohol (p.1625·2); benzalkonium chloride (p.1629·1).
Skin, wound, and surface disinfection.

Alcojel *Wellspring, Canad.†.*
Isopropyl alcohol (p.1650·3).
Skin disorders.

Alcolex *Labomed, Chile.*
⊗ Benzoxonium chloride (p.1631·2); alcohol (p.1625·2).
Disinfection of instruments, skin, and wounds.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Alcomicin *Alcon, Canad.*
Gentamicin sulfate (p.282·1).
Eye infections.

Alcon Adequad *Alcon, Belg.*
⊗ Dextran 70 (p.1059·3); hypromellose (p.2144·2).
Dry eyes.

Alcon AE *Alcon, Arg.*
Vitamin A; vitamin E (p.1922·1).
Dietary supplement.

Alcon Eye Gel *Alcon, Belg.*
Carbomer (p.2141·3).
Dry eyes.

Alcon Lagrimas
Note.This name is used for preparations of different composition.
Alcon, Arg.
Eye drops: ⊗ Dextran 70 (p.1059·3); hypromellose (p.2144·2).
Dry eyes.

Alcon, Arg.
Eye ointment: Liquid paraffin (p.2030·3); wool fat (p.2033·2); white soft paraffin (p.2031·2).
Dry eyes.

Alconmide *Alcon, Philipp.*
Lodoxamide trometamol (p.2334·2).
Allergic eye disorders.

Alcontar *Galderma, Arg.†.*
Coal tar (p.1616·2).
Eczema; psoriasis.

Alcoolat de Melisse *Weleda, Switz.†.*
Melissa (p.2339·3); nutmeg (p.2355·2); cinnamon (p.2283·1); angelica (p.2258·1); coriander (p.2288·1); clove (p.2284·3); lemon oil (p.2332·3).
Digestive system disorders; headache; menstrual cramps; sleep disorders; toothache.

Alcophyllex *Propan, S.Afr.*
Theophylline (p.1140·1); etofylline (p.1121·1); diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Bronchospasm.

Alcophyllin *Propan, S.Afr.*
Theophylline (p.1140·1).
Obstructive airways disease.

Alcortin *Primus, USA.*
⊗ Hydrocortisone (p.1535·2); diiodohydroxyquinoline (p.832·1).
Skin disorders.

Alcos-Anal
Note.This name is used for preparations of different composition.
BMS, Ger.†; Meda, Norw.
Lauromacrogol 400 (p.1916·1); 5-chlorocarvacrol (p.1639·3); sodium oleate (p.2139·1).
Anorectal disorders.

Meda, Swed.
Sodium oleate (p.2139·1); 2-hydroxy-5-chlorothymol.
Anorectal disorders.

Alco-Screen *Marco, Austral.†; Aptus, NZ†.*
Test for alcohol in saliva.

Alcosept *Floris, Israel.*
⊗ Chlorhexidine gluconate (p.1635·3); alcohol (p.1625·2).
Skin disinfection.

Alcover *Gerot, Austria; Gerot, Hung.†; CT, Ital.*
Sodium oxybate (p.1794·2).
Alcohol withdrawal syndrome.

Alcowipe *SSL, UK.*
Isopropyl alcohol (p.1650·3).
Hard surface disinfection.

Alcoxidine *Vitamed, Israel.*
Chlorhexidine gluconate (p.1635·3).
Skin disinfection.

Alcrin-M *Anglo-French Drugs, India.*
Thioctic acid (p.2400·2); chromium polynicotinate; inositol (p.2325·2); mecobalamin (p.1981·1).
Peripheral neuropathy.

Alcur *Gea, Denm.†.*
Acetylcysteine (p.1548·2).
Respiratory-tract congestion.

Alcusal *Alcusal, Austral.*
Copper salicylate.
Musculoskeletal and joint disorders; sports injuries.

Alcysten *Lachema, Cz.†.*
Cytarabine (p.705·1).
Leukaemias; non-Hodgkin's lymphoma.

Alcytam *Torrent, Braz.*
Citalopram (p.385·3).
Alcohol withdrawal syndrome; depression.

Alda *TNP, Thai.†.*
Albendazole (p.139·2).
Worm infections.

Aldactacine *Pfizer, Spain.*
⊗ Altizide (p.1209·1); spironolactone (p.1400·1).
Ascites; hypertension; oedema.

Aldactazida *Pfizer, Venez.*
⊗ Spironolactone (p.1400·1); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Aldactazide *Pfizer, Canad.; SPA, Ital.; Ali, Turk.; Searle, USA.*
⊗ Spironolactone (p.1400·1); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension; liver cirrhosis with oedema or ascites; nephrotic syndrome.

Aldactazine *Continental Pharma, Belg.; Pfizer, Fr.; Pfizer, Port.*
⊗ Altizide (p.1209·1); spironolactone (p.1400·1).
Ascites; hypertension; nephrotic syndrome; oedema.

Aldactide *Pfizer, Irl.; Pharmacia, UK.*
⊗ Spironolactone (p.1400·1); hydroflumethiazide (p.1311·3).
These ingredients can be described by the British Approved Name Co-flumactone.
Heart failure; hypertension.

Aldacton *Ali, Turk.*
⊗ Spironolactone (p.1400·1).
Heart failure; hyperaldosteronism; liver cirrhosis with ascites or oedema; nephrotic syndrome.

Aldactone
Pfizer, Arg.; Pfizer, Austral.; Pfizer, Austria; Continental Pharma, Belg.; Pfizer, Braz.; Pfizer, Canad.; Pfizer, Fin.; Pfizer, Fr.; Pfizer, Ger.; Pfizer, Gr.; Pfizer, Hong Kong; RPG, India; Pfizer, Indon.; Pfizer, Irl.; Pharmacia, Israel; Lepetit, Ital.; Pfizer, Mex.; Pharmacia, NZ†; Pfizer, Neth.; Pfizer, Norw.; Pfizer, Philipp.; Pfizer, Port.; Searle, Rus.†; Pharmacia, S.Afr.; Pfizer, Singapore; Pfizer, Spain; Pfizer, Swed.; Pfizer, Switz.; Pfizer, Thai.; Pharmacia, UK; Searle, USA; Pfizer, Venez.
⊗ Spironolactone (p.1400·1).
Aldosteronism; diagnosis of hyperaldosteronism; heart failure; hirsutism in women; hypertension; hypokalaemia; hypomagnesaemia; liver cirrhosis with ascites or oedema; myasthenia gravis; nephrotic syndrome; oedema.

Roche, Austria; Roche, Cz.; Roche, Ger.; Roche, Hung.†; Roche, Pol.
⊗ Potassium canrenoate (p.1374·1).
Heart failure; hyperaldosteronism; liver cirrhosis with ascites or oedema; nephrotic syndrome; oedema.

Aldactone Saltucin *Roche, Austria; Roche, Ger.†.*
⊗ Spironolactone (p.1400·1); butizide (p.1238·1).
Cor pulmonale; heart failure; hyperaldosteronism; hypertension; liver cirrhosis with ascites and oedema; nephrotic syndrome; oedema.

Aldactone-D *Pfizer, Arg.*
⊗ Spironolactone (p.1400·1); furosemide (p.1292·1).
Heart failure; hyperaldosteronism; liver cirrhosis with ascites; nephrotic syndrome; oedema.

Aldalix *Pfizer, Fr.*
⊗ Spironolactone (p.1400·1); furosemide (p.1292·1).
Heart failure.

Aldamin *Unipharm, Mex.*
Albendazole (p.139·2).
Worm infections.

Aldan *Polfarmex, Pol.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Aldara *Sidus, Arg.; 3M, Austral.; 3M, Belg.; Intendis, Braz.; 3M, Canad.; 3M, Chile; 3M, Cz.; 3M, Denm.; 3M, Fin.; 3M, Fr.; 3M, Ger.; Lavipharm, Gr.; 3M, Hong Kong; Meda, Hung.; 3M, Irl.; 3M, Israel; 3M, Ital.; 3M, Malaysia; 3M, Mex.; 3M, NZ; 3M, Neth.; 3M, Norw.; 3M, Philipp.; 3M, Pol.; Meda, Port.; 3M, S.Afr.; 3M, Singapore; 3M, Spain; 3M, Swed.; 3M, Switz.; 3M, Thai.; 3M, UK; Graceway, USA.*
Imiquimod (p.881·3).
Actinic keratosis; anogenital warts; basal cell carcinoma.

Aldarone *Cadila Pharma, India†.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Aldazida
Note.This name is used for preparations of different composition.
Pfizer, Arg.; Pfizer, Braz.
⊗ Spironolactone (p.1400·1); hydrochlorothiazide (p.1307·3).
Heart failure; hyperaldosteronism; hypertension; liver cirrhosis with ascites and oedema; nephrotic syndrome; oedema.

Pfizer, Mex.
⊗ Spironolactone (p.1400·1); butizide (p.1238·1).
Ascites; hepatic cirrhosis; hypertension; oedema.

Aldazide *Pfizer, Indon.; Pfizer, Philipp.; Pharmacia, S.Afr.*
⊗ Spironolactone (p.1400·1); butizide (p.1238·1).
Heart failure; hypertension; liver cirrhosis; nephrotic syndrome; oedema.

Aldazine *Alphapharm, Austral.; Alphapharm, Malaysia†; Merck, Malaysia†; Pacific, NZ.*
Thioridazine hydrochloride (p.1031·2).
Agitation; alcohol withdrawal syndrome; anxiety; behaviour disorders in children and the elderly; psychoses; schizophrenia.

Aldecin *Schering-Plough, Austral.†; Schering-Plough, Cz.; Schering-Plough, Hong Kong†; Schering-Plough, Hung.†; Schering-Plough, Neth.; Schering-Plough, Rus.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; asthma; nasal polyps; obstructive airways disease.

Aldecina *Byk, Port.†; Schering-Plough, Venez.†.*
⊗ Beclometasone dipropionate (p.1516·2).
Nasal polyps; obstructive airways disease; rhinitis.

Alderil *Vita, Venez.†.*
Resorcinol (p.1612·1); salicylic acid (p.1612·2); sulfur (p.1614·1).
Acne.

Aldex AN *Zyber, USA.*
Doxylamine succinate (p.578·2).

Aldiab *Merck, Indon.*
Glipizide (p.441·3).
Diabetes mellitus.

Aldiana *Sevapharma, Cz.†.*
A diphtheria vaccine (p.2209·3).
Active immunisation.

Aldic *Shiwa, Thai.†.*
⊗ Furosemide (p.1292·1).
Barbiturate poisoning; hypertension; oedema; renal impairment.

Aldin *Merck, Indon.*
Ranitidine hydrochloride (p.1766·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Aldipin *Helvepharm, Switz.†.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension; Raynaud's syndrome.

Aldisa *Sanbe, Indon.*
Loratadine (p.583·3); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis; cold symptoms.

Alditeana *Sevapharma, Cz.†.*
A diphtheria and tetanus vaccine (p.2210·1).
Active immunisation.

Alditepera *Sevapharma, Cz.†.*
A diphtheria, tetanus, and pertussis vaccine (p.2210·3).
Active immunisation.

Aldivina *Farcoral, Mex.*
Ranitidine (p.1766·1).
Peptic ulcer.

Aldizem *Alkaloid, Cz.†.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension; Raynaud's syndrome.

Aldo Asma *Aldo, Spain.*
⊗ Ascorbic acid; phenylephrine hydrochloride (p.1568·1); isoprenaline hydrochloride (p.1316·3).
Obstructive airways disease.

Aldo Otico *Aldo, Spain†.*
⊗ Framycetin sulfate (p.279·1); lidocaine hydrochloride (p.1862·3); triamcinolone acetonide (p.1544·3); choline salicylate (p.36·3).
External ear disorders; otitis media.

Aldobronquial *Aldo, Spain.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Aldoclor *Merck, USA.*
⊗ Methyldopa (p.1334·1); chlorothiazide (p.1243·1).
Hypertension.

Aldocumar *Aldo, Spain.*
Warfarin sodium (p.1425·2).
Thromboembolic disorders; thrombosis prophylaxis.

Aldoderma *Aldo, Spain.*
⊗ Framycetin sulfate (p.279·1); triamcinolone acetonide (p.1544·3).
Infected skin disorders.

Aldofen *Tocogino, Mex.*
Ibuprofen (p.64·2).
Inflammation; pain.

Aldolan *Liba, Turk.*
⊗ Pethidine hydrochloride (p.113·2).
Pain.

Aldoleo *Altana, Spain.*
⊗ Chlortalidone (p.1243·3); spironolactone (p.1400·1).
Hypertension; oedema.

Aldolor *CTI, Israel.*
Paracetamol (p.108·1).
Fever; headache; pain.

Aldomet
MSD, Arg.; MSD, Austral.; MSD, Belg.; MSD, Braz.; MSD, Denm.; MSD-Chibret, Fr.; Vianex (Βιανεξ), Gr.; MSD, Hong Kong; MSD, Irl.; MSD, Ital.; MSD, Malaysia†; MSD, Mex.; MSD, Neth.; MSD, Norw.; MSD, Philipp.; Pharmalink, Philipp.; MSD, Port.; MSD, S.Afr.; Biopat, Spain; MSD, Swed.; MSD, Switz.; M & H, Thai.; MSD, UK; MSD, Venez.
Methyldopa (p.1334·1).
Hypertension.

Merck Frosst, Canad.†.
Methyldopa (p.1334·1) or methyldopate hydrochloride (p.1334·2).
Hypertension.

Aldometil *MSD, Austria.*
Methyldopa (p.1334·1).
Hypertension.

Aldomin *MSD, Israel.*
Methyldopa (p.1334·1).
Hypertension.

Aldonar *Upsifarma, Port.*
⊗ Spironolactone (p.1400·1).
Hypertension.

Aldoretic *MSD, Austria; Chibret, Port.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3); methyldopa (p.1334·1).
Hypertension.

Aldoril *Merck, USA†.*
⊗ Methyldopa (p.1334·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Aldoron *Ivax, Arg.*
Nimesulide (p.95·3).
Gout; musculoskeletal, joint, and peri-articular disorders.

Aldoron NF *Ivax, Arg.*
Diclofenac sodium (p.44·3).
Musculoskeletal and joint disorders; pain.

Aldo-Silverderma *Aldo-Union, Hong Kong.*
Sulfadiazine silver (p.337·2).
Burns; pressure sores and skin ulcers.

Aldosomnil *Aldo, Spain.*
Lormetazepam (p.1005·2).
Insomnia; premedication.

Aldospirone *Teva, Israel.*
⊗ Spironolactone (p.1400·1).
Heart failure; hyperaldosteronism; hypertension; hypokalaemia; liver cirrhosis.

Aldospray *Aldo-Union, Rus.*
Mabuprofen (p.65·2).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Aldospray Analgesico *Aldo, Spain.*
Mabuprofen (p.65·2).
Peri-articular and soft-tissue disorders.

Aldosterin *Cellofarm, Braz.†.*
⊗ Spironolactone (p.1400·1).
Hyperaldosteronism; hypertension; hypokalaemia; oedema.

Aldotensin *Teuto, Braz.*
Methyldopa (p.1334·1).
Hypertension.

Aldozone *Pfizer, Switz.*
⊗ Spironolactone (p.1400·1); butizide (p.1238·1).
Heart failure; hypertension; liver cirrhosis with ascites; nephrotic syndrome; oedema.

Aldribid *Aldril, Philipp.*
Ampicillin sodium (p.204·1).
Bacterial infections.

Aldricin *Aldril, Philipp.*
Erythromycin ethyl succinate (p.269·3).
Bacterial infections.

Aldromax *Gap, Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Aldronac *Roemmers-Klinos, Venez.*
Alendronate sodium (p.1088·1).
Osteoporosis; Paget's disease of bone.

Aldrox
Note.This name is used for preparations of different composition.
Pasteur, Chile.
Alendronate sodium (p.1088·1).
Osteoporosis.

Vargas, Venez.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Antacid.

Aldurazyme *Genzyme, Belg.; Genzyme, Canad.; Genzyme, Cz.; Genzyme, Denm.; Genzyme, Fin.; Genzyme, Fr.; Genzyme, Ger.; Genzyme, Israel; Genzyme, Ital.; Medra, NZ; Genzyme, Neth.; Genzyme, Norw.; Genzyme, Pol.; Genzyme, Spain; Genzyme, Swed.; Genzyme, UK; Genzyme, USA.*
Laronidase (p.2330·3).
Mucopolysaccharidosis I.

Aledron *IQFA, Mex.*
Oxolamine citrate (p.1567·1).
Coughs.

Alefos *Faran, Gr.*
Alendronic acid (p.1088·1).
Osteoporosis.

Alegi *Lapi, Indon.*
⊗ Dexamethasone (p.1526·1); dexchlorpheniramine maleate (p.572·1).
Allergic disorders.

Alegysal *Ferron, Indon.; Santen, Indon.; Mitsubishi, Jpn; Santen, Philipp.*
Pemirolast potassium (p.1129·3).
Allergic rhinitis; asthma; conjunctivitis.

Aleli *Bernabo, Arg.*
Ethinylestradiol (p.2101·3); gestodene (p.2105·2).
Combined oral contraceptive.

Alembicol D *Alembic Products, UK.*
Fractionated coconut oil (p.1956·3).
Food for special diets; malabsorption syndromes.

Alemelano *Elvetium, Arg.†.*
Bifemelane hydrochloride (p.363·2).

Alenat *Arrow, Swed.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alenato *Valeant, Arg.; ICN, Pol.*
Alendronate sodium (p.1088·1).
Osteoporosis; Paget's disease of bone.

Alenbit *Chrispa (Χρισπα), Gr.*
Norfloxacin (p.309·2).
Urinary-tract infections.

Alencast *Chrispa (Χρισπα), Gr.*
Nimesulide (p.95·3).
Inflammation; musculoskeletal disorders; pain.

Alendil *Farmoquimica, Braz.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendil Calcio D *Farmoquimica, Braz.*
Tablets, alendronate sodium (p.1088·1); tablets, calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Osteoporosis.

Alendo *Polychronus, Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendral *Biospray, Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendro *Arrow, Austral.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendrogen *Generics, Cz.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendromax *Arrow, Hung.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendron *Sandoz, Hung.*
Alendronate sodium (p.1088·1).
Osteoporosis.

AlendronHexal *Hexal, Austria.*
Alendronic acid (p.1088·1).
Osteoporosis.

Alendro-Q *Juta, Ger.; Q-Pharm, Ger.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alendros *Abiogen, Ital.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alenia *Biosintetica, Braz.*
⊗ Formoterol fumarate (p.1122·1); budesonide (p.1520·1).
Asthma.

Alenic Alka
Note. This name is used for preparations of different composition.
Rugby, USA.
Oral liquid: Aluminium hydroxide (p.1706·2); magnesium carbonate (p.1743·1).
Hyperacidity.
Rugby, USA.
Tablets: Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); sodium bicarbonate (p.1673·2).
Hyperacidity.

A-Lennon *Pharmacare, S.Afr.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Alenstran *Chrispa (Χρισπα), Gr.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; pruritus.

Alental *Chobet, Arg.*
Fluoxetine hydrochloride (p.391·2).
Depression; eating disorders; obsessive-compulsive disorder.

Alentol *Farmo Quimica, Chile.*
Fluoxetine (p.397·3).
Bulimia; depression.

Alenwin *Arrow, Cz.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alenzantyl *Chrispa (Χρισπα), Gr.*
Azelaic acid (p.1589·3).
Acne.

Aleot *Apomedica, Austria.*
⊗ Chlorphenesin (p.529·2); diphenhydramine hydrochloride (p.577·2); chlorobutanol (p.1639·2); benzalkonium chloride (p.1629·1); urea (p.1620·2).
Ear disorders.

Alepa *Duopharm, Ger.*
Milk thistle (p.1452·1).
Liver disorders.

Alepam *Alphapharm, Austral.*
Oxazepam (p.1014·2).
Alcohol withdrawal syndrome; anxiety.

Aleprozil *Diba, Mex.*
Omeprazole (p.1753·1).
Aspiration syndrome; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Alepsal
Note. This name is used for preparations of different composition.
Spedrog, Arg.; Sanofi Synthelabo, Mex.
Phenobarbital (p.492·2).
Epilepsy; sedative.
Genevrier, Fr.
Phenobarbital (p.492·2); caffeine (p.1116·3).
Epilepsy.

Alepsal Compuesto *Sanofi Synthelabo, Mex.*
Phenobarbital (p.492·2); phenytoin sodium (p.495·2).
Epilepsy.

Alerbak *Pfizer, Chile.*
Sodium spaglumate (p.2327·2).
Allergic conjunctivitis.

Alercina *Cinfa, Spain.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Alercortil *Allergan, Arg.†.*
⊗ Hydrocortisone (p.1535·2); naphazoline hydrochloride (p.1565·2).
Conjunctivitis.

Alercrom *Grin, Mex.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis.

Alerdex *Armoxindo, Indon.*
⊗ Dexamethasone (p.1526·1); dexchlorpheniramine maleate (p.572·1).
Allergic disorders.

Alerdil *Diba, Mex.*
Chlorphenamine (p.572·2).
Hypersensitivity.

Alerdina *Cafar, Venez.*
Loratadine (p.583·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Aler-Dryl *Reese, USA.*
Diphenhydramine hydrochloride (p.577·2).

Alerdual *Thea, Fr.*
Azelastine hydrochloride (p.568·2).
Allergic conjunctivitis.

Alerfan *Anpharm, Pol.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Alerfed *Guardian, Indon.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms; sinusitis.

Alerfedine *Lazar, Arg.*
Fexofenadine hydrochloride (p.579·3).
Allergic rhinitis; urticaria.

Alerfedine D *Lazar, Arg.*
Fexofenadine hydrochloride (p.579·3); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis.

Alerfin
Note. This name is used for preparations of different composition.
Farmalab, Braz.
⊗ Beclometasone dipropionate (p.1516·2).
Liferpal, Mex.
Loratadine (p.583·3).
Hypersensitivity.

Alerfin Ex *Liferpal, Mex.*
Loratadine (p.583·3); ambroxol (p.1550·3).

Alerfrin *Allergan, Spain.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Ocular congestion and irritation.

Alerfur *Ivax, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Alerg *IA, Ger.†.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis.

Alergaliv *Legrand, Braz.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Alergan *Chemopharma, Chile.*
Loratadine (p.583·3).
Allergic eye disorders; allergic rhinitis; allergic skin disorders; urticaria.

Alergi *Raymos, Arg.*
⊗ Dexamethasone (p.1526·1); chlorphenamine (p.572·2).
Hypersensitivity reactions.

Alergibon *Galderma, Braz.†; Galderma, Mex.*
Emollient; soap substitute.
Barrier preparation; dry skin; skin disorders.

Alergical
Note. This name is used for preparations of different composition.
Iquinosa, Spain.
Cream: ⊗ Betamethasone valerate (p.1519·1); fluocinolone acetonide (p.1531·3).
Skin disorders.
Juventus, Spain.
Syrup: ⊗ Chlorphenamine maleate (p.571·3); prednisolone metasulfobenzoate sodium (p.1541·1).
Hypersensitivity reactions; skin disorders.
Juventus, Spain.
Tablets: ⊗ Ascorbic acid (p.1983·3); chlorphenamine maleate (p.571·3); prednisolone (p.1540·3).
Hypersensitivity reactions; skin disorders.

Alergical Expect *Juventus, Spain.*
Chlorphenamine maleate (p.571·3); diprophylline (p.1120·2); guaifenesin (p.1561·3); paracetamol (p.108·1).
Bronchospasm; fever; pain.

Alergiderm *Prodotti, Braz.*
Promethazine hydrochloride (p.588·2).
Hypersensitivity reactions.

Alergidryl *Klonal, Arg.†.*
Chlorphenamine (p.572·2).
Hypersensitivity reactions.

Alergiftalmina *Davi, Port.*
⊗ Antazoline phosphate (p.567·1); naphazoline hydrochloride (p.1565·2).
Blepharospasm; conjunctivitis.

Alergin *Cipla, India.*
⊗ Ephedrine hydrochloride (p.1558·2); theophylline (p.1140·1); phenobarbital (p.492·2).
Asthma; bronchospasm.

Alergipan *Benitol, Arg.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Alergitanil *Prodotti, Braz.*
Mepyramine maleate (p.585·2).
Hypersensitivity reactions.

Alergitrat
Note. This name is used for preparations of different composition.
Fecofar, Arg.
Chlorphenamine (p.572·2).
Hypersensitivity reactions.
Eversil, Braz.†.
Mepyramine maleate (p.585·2); tripelennamine hydrochloride (p.592·2); strontium bromide (p.2269·3); calcium pantothenate; magnesium thiosulfate.
Hypersensitivity reactions.

Alergo Filinal *Eurofarma, Braz.*
Diphenhydramine hydrochloride (p.577·2); aminophylline (p.1114·2); guaifenesin (p.1561·3); pyridoxine hydrochloride (p.1978·2).
Respiratory-tract disorders.

Alergo Glucalbet *Arrow, Braz.†.*
Mepyramine maleate (p.585·2); pentoxyverine citrate (p.1567·3); calcium gluconate (p.1675·3); ammonium chloride (p.1551·3).
Coughs.

Alergocrom *Aldo, Spain; Medifarm, Venez.†.*
Sodium cromoglicate (p.1136·3).
Asthma; bronchospasm.

Alergoftal *Alcon Cusi, Malaysia; Alcon Cusi, Spain; Alcon, Turk.*
⊗ Antazoline phosphate (p.567·1); naphazoline hydrochloride (p.1565·2).
Allergic conjunctivitis; allergic or inflammatory eye disorders.

Alergoliber *Recordati, Spain.*
Rupatadine fumarate (p.590·2).
Allergic rhinitis.

Alergolon *Biolab Sanus, Braz.*
⊗ Methylprednisolone (p.1538·1).
Corticosteroid.

Alergonase *Montrose, Cz.*
⊗ Fluticasone propionate (p.1533·2).
Allergic rhinitis; nasal polyps.

Alergonil *Ducto, Braz.*
Dexchlorpheniramine maleate (p.572·1).
Hypersensitivity reactions.

Alergoral *Darrow, Braz.*
Allergen preparation (p.2250·2).
Allergen immunotherapy.

Alergosan *Klinger, Braz.†.*
Promethazine (p.588·2).
Hypersensitivity reactions.

Alergot *Oftalmi, Venez.*
Azelastine (p.568·2).
Allergic conjunctivitis.

Alergotox *Makros, Braz.†.*
Diphenhydramine hydrochloride (p.577·2); theophylline (p.1140·1); aminophylline (p.1114·2).
Hypersensitivity.

Alergotox Efedrina *Makros, Braz.†.*
⊗ Diphenhydramine hydrochloride (p.577·2); ephedrine hydrochloride (p.1558·2); liver antitoxin.
Hypersensitivity.

Alergotox Expectorante *Makros, Braz.†.*
Diphenhydramine hydrochloride (p.577·2); guaifenesin (p.1561·3); aminophylline (p.1114·2); liver antitoxin.
Respiratory-tract congestion.

Alergotox Nasal *Makros, Braz.†.*
⊗ Diphenhydramine hydrochloride (p.577·2); naphazoline hydrochloride (p.1565·2).
Nasal congestion.

Alergovalle *Dovalle, Braz.†.*
Dexchlorpheniramine (p.572·2).
Hypersensitivity reactions.

Alergoxal *Bros, Gr.*
Cetirizine (p.571·1).
Hypersensitivity disorders.

Alergyo *Sanval, Braz.*
Dexchlorpheniramine maleate (p.572·1).
Hypersensitivity reactions.

Aleric *US Pharmacia, Pol.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Alerid *UCB, Austria; Cipla, Cz.; Asche, Ger.†; Neopharma, Hung.; Cipla, India; UCB, Swed.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders; pruritus; urticaria.

Alerid Cold *Cipla, India.*
Cetirizine hydrochloride (p.570·3); phenylpropanolamine (p.1569·2); paracetamol (p.108·1).

Alerid D *Cipla, India.*
Cetirizine hydrochloride (p.570·3); phenylpropanolamine hydrochloride (p.1569·3).

Alerion *Filaxis, Arg.*
Clonazepam (p.478·2).
Anxiety disorders; epilepsy.

Alerjon *Edol, Port.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Eye irritation.

Alerken *Kener, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Alerlisin *Menarini, Spain.*
Cetirizine hydrochloride (p.570·3).
Hypersensitivity reactions.

Alermed *Lek-Am, Pol.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Alermi *Offenbach, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Alermina *Lafedar, Arg.*
Diphenhydramine (p.577·1).
Hypersensitivity reactions.

Alermine *Royton, Braz.†.*
Dexchlorpheniramine maleate (p.572·1).
Hypersensitivity reactions.

Alermizol *Pharmacia, Arg.†; Reig Jofre, Spain†.*
Astemizole (p.567·2).
Hypersensitivity reactions.

Alermuc *Elisium, Arg.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Alernex *Dabur, India†.*
Fexofenadine hydrochloride (p.579·3).
Allergic rhinitis; urticaria.

Alernitis *Ikapharmindo, Indon.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Alerpriv *Montpellier, Arg.; Montpellier, Rus.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Alerpriv D *Montpellier, Arg.*
Loratadine (p.583·3); pseudoephedrine sulfate (p.1571·2).
Cold and influenza symptoms; otitis; rhinitis; sinusitis.

Alersan *Hexal, Braz.†.*
⊗ Betamethasone dipropionate (p.1518·3).
Formerly contained mepyramine maleate and magnesium thiosulfate.
Hypersensitivity.

Alertec *Shire, Canad.*
⊗ Modafinil (p.2160·3).
Narcoleptic syndrome.

Alerten *Mega Lifesciences, Malaysia; Mega Lifesciences, Philipp.*
Ubidecarenone (p.2407·2).
Cardiovascular disorders; dietary supplement.

Alertidine *Schering-Plough, Venez.†.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; urticaria.

Alertonic *Sigma, Austral.†; Odan, Canad.; Adcock Ingram, S.Afr.*
Pipradrol hydrochloride (p.2162·3); vitamin B substances; minerals; trace elements (p.1922·1).
Tonic.

Alertop *Laboratorios Chile, Chile.*
Cetirizine hydrochloride (p.570·3).
Hypersensitivity reactions.

Alertop-D *Laboratorios Chile, Chile.*
Cetirizine hydrochloride (p.570·3); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis; cold symptoms.

Alertrin *Plough, Port.*
Loratadine (p.583·3).
Allergic rhinitis; eye irritation; urticaria.

Alerxem *Kleva, Gr.*
⊗ Fluticasone (p.1533·2).
Hypersensitivity disorders.

Alerza *Ipca, Rus.*
Cetirizine hydrochloride (p.570·3).
Hypersensitivity reactions.

Alerzina *Lek-Am, Pol.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Alerzona *Silesia, Chile.*
⊗ Mepyramine maleate (p.585·2); prednisone acetate (p.1543·1).
Skin disorders.

Alesal *Zuoz, Venez.*
Diethylamine salicylate (p.47·2).
Musculoskeletal and joint disorders.

Alesion *Boehringer Ingelheim, Jpn.*
Epinastine hydrochloride (p.579·3).
Allergic rhinitis; asthma; pruritus.

Alespan *Intermed, Gr.*
Zolpidem (p.1038·2).
Insomnia.

Alesse *Wyeth, Canad.; Wyeth, Chile; Wyeth, Mex.; Wyeth, Neth.; Wyeth-Ayerst, USA; Wyeth, Venez.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
28-Day packs also contain 7 inert tablets.
Androgen-associated acne in women; combined oral contraceptive.

Alestopor *Kleva, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Aletir *Bunker, Braz.*
Cetirizine hydrochloride (p.570·3).
Hypersensitivity reactions.

Aletris Oligoplex *Madaus, Ger.*
Homoeopathic preparation.

Aleucin *Piam, Ital.†.*
Food for special diets (p.1922·1).
Maple syrup urine disease.

Aleudrina *Boehringer Ingelheim, Spain.*
⊗ Isoprenaline sulfate (p.1316·3).
Cardiac disorders; shock.

Aleva *OEP, Philipp.*
Ebastine (p.579·1).
Allergic rhinitis; urticaria.

Aleval *Sun, Mex.*
Sertraline hydrochloride (p.421·3).
Depression; obsessive-compulsive disorder; panic disorder.

Alevarin *Biofarma, Mex.*
Aesculus (p.2248·2).
Venous insufficiency.

Aleve *Bayer Consumer, Arg.; Roche Consumer, Austral.†; Bayer, Austria; Bayer, Belg.; Roche, Belg.; Bayer, Cz.; Bayer Sante, Fr.; Roche Consumer, Ger.; Bayer, Hung.; Bayer, Ital.; Bayer, Neth.; Bayer, Pol.; Bayer, S.Afr.; Bayer, Singapore; Bayer, Spain; Bayer, Switz.; Mecom, Turk.; Procter & Gamble, USA.*
Naproxen sodium (p.92·3).
Fever; gout; inflammation; musculoskeletal and joint disorders; pain.

Alex *Glenmark, India.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1); caffeine (p.1116·3).
Formerly contained dextromethorphan hydrobromide, phenylpropanolamine hydrochloride, chlorphenamine maleate, paracetamol, and caffeine.
Cold symptoms; coughs.

Alex Cough
Note. This name is used for preparations of different composition.
Glenmark, India.
Lozenges: Dextromethorphan hydrobromide (p.1555·2).
Coughs; sore throat.
Glenmark, India.
Syrup: Dextromethorphan hydrobromide (p.1555·2); phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3); guaifenesin (p.1561·3).
Coughs.

Alex Paediatric *Glenmark, India.*
Phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3).
Nasal congestion; nasal hypersensitivity reactions.

Alex Plus *Glenmark, Rus.*
Dextromethorphan hydrobromide (p.1555·2); terpin hydrate (p.1573·3); levomenthol.
Cough.

Alexa *Sigma, Braz.*
Gestodene (p.2105·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

Alexan *Ebewe, Austria; Pfizer, Chile; Ebewe, Cz.; Ebewe, Ger.; Neocorp, Ger.; Ebewe, Hong Kong; Ebewe, Hung.; Mack, Israel; Pfizer, Mex.†; EuroCept, Neth.; Ebewe, Pol.; Ferraz, Lynce, Port.†; Ebewe, Rus.; Intramed, S.Afr.; Mack, Singapore†; Mack, Thai.†; Eczacibasi, Turk.*
Cytarabine (p.705·1).
Formerly known as Cytovis in *Israel*.
Leukaemias; non-Hodgkin's lymphomas.

Alexia *Saval, Chile.*
Fexofenadine hydrochloride (p.579·3).
Allergic rhinitis; allergic skin disorders.

Alexia D *Saval, Chile.*
Fexofenadine hydrochloride (p.579·3); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis.

Alexin
Note. This name is used for preparations of different composition.
Dabur, India†.
Cefalexin (p.218·2).
Bacterial infections.

Farmoz, Port.
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Alexing *Farcoral, Mex.*
Ambroxol (p.1550·3); dextromethorphan (p.1555·2).
Coughs; respiratory-tract congestion.

Alexonal *Sandoz, Indon.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alex-P *Glenmark, India.*
Dextromethorphan hydrobromide (p.1555·2); phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Cold symptoms; coughs.

Aleztem *Rayere, Mex.*
Astemizole (p.567·2).
Hypersensitivity reactions.

Alfa
Note. This name is used for preparations of different composition.
Bergamon, Ital.
Didecyldimethylammonium chloride (p.1642·2).
Disinfection of burns, mucous membranes, and wounds.

Pfizer Consumer, Spain.
⊗ Naphazoline nitrate (p.1565·2).
Eye irritation.

Alfa Acid *Sinclair, Ital.*
Ammonium lactate (p.1589·2); salicylic acid (p.1612·2); dexpanthenol (p.2362·1).
Scalp disorders.

Alfa C *Bracco, Ital.*
Benzalkonium chloride (p.1629·1).
Eye irritation.

Alfa Calcimax *Gador, Arg.†.*
Alfacalcidol (p.1986·1).
Osteomalacia; osteoporosis; renal osteodystrophy; rickets; vitamin D deficiency.

Alfa D *Recalcine, Chile†.*
Alfacalcidol (p.1986·1).
Vitamin D supplement.

Alfa Kappa *Kedrion, Ital.*
Amino-acid preparation (p.1922·1).
Nutritional supplement in renal failure.

Alfa Lip *NCSN, Ital.*
Thioctic acid (p.2400·2); vitamins (p.1922·1).
Nutritional supplement.

Alfabase *Cassara, Arg.*
Emollient.

Alfabase 8 *Cassara, Arg.*
Glycolic acid (p.1598·1).
Photoageing of skin.

Alfacaina *Dentsply, Ital.*
⊗ Articaine hydrochloride (p.1854·1).
Adrenaline (p.1203·2) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Alfacalcil *Zwitter, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alfaciclina *Vargas, Venez.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Alfacid *Grunenthal, Ger.*
Rifabutin (p.323·3).
Mycobacterium-avium complex infections in AIDS patients; tuberculosis.

Alfacip *Cipla, India.*
Alfacalcidol (p.1986·1).

Alfacip Plus *Cipla, India.*
Alfacalcidol (p.1986·1); calcium (p.1675·2).

Alfacolin *Prieto, Arg.*
Colistin (p.257·2).
Bacterial infections.

Alfacort
Cassara, Arg.
⊗ Hydrocortisone (p.1535·2) or hydrocortisone acetate (p.1535·2).
Inflammatory eye disorders; skin disorders.

Julphar, UAE.
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Alfacortone *Spirig, Switz.*
⊗ Hydrocortisone acetate (p.1535·2).
Burns; insect stings; skin disorders.

Alfacrist *Chrispa (Χρισπα), Gr.*
Dihydroergocristine (p.364·2).
Peripheral vascular disorders.

Alfad *Biosintetica, Braz.†; Altana, Mex.*
Alfacalcidol (p.1986·1).
Hyperparathyroidism; hypoparathyroidism; osteomalacia; osteoporosis; renal osteodystrophy; rickets; vitamin D deficiency.

Alfadel *Polychronus, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alfadil *Pfizer, Swed.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

Alfadiman *Lazar, Arg.*
Allopurinol (p.552·2).
Hyperuricaemia.

Alfadiol *GSK, Pol.*
Alfacalcidol (p.1986·1).
Hypocalcaemia; hypoparathyroidism; nephrotic syndrome; osteomalacia; osteoporosis; renal osteodystrophy; rickets.

Alfadopan *Etifar, Venez.†.*
Methyldopa (p.1334·1).
Hypertension.

Alfadoxin *Laboratorios Chile, Chile.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

Alfadrops *Cipla, India.*
Apraclonidine hydrochloride (p.1877·3).
Glaucoma.

Alfaferone *Alfa Wassermann, Cz.; Wassermann, Ital.; Alfa Wassermann, Pol.*
Interferon alfa (p.885·1).
Anogenital warts; hepatitis B; hepatitis C; malignant neoplasms.

Alfaflor *INTES, Ital.*
⊗ Bottle A, betamethasone sodium phosphate (p.1518·3); naphazoline nitrate (p.1565·2); bottle B, tetracycline hydrochloride (p.347·2).
Inflammatory eye disorders.

Alfagamma *Humana, Ital.†.*
Essential fatty acids; vitamin E; vitamin B (p.1922·1).
Nutritional supplement.

Alfagen *Wassermann, Ital.†.*
Collagen (p.2286·1).
Ulcers; wounds.

Alfaken *Kendrick, Mex.*
Lisinopril (p.1325·2).
Hypertension.

Alfakinasi *Wassermann, Ital.†.*
Urokinase (p.1420·1).
Thromboembolic disorders.

Alfalastin *LFB, Fr.*
Alpha -proteinase inhibitor (p.2253·2).
Alpha antitrypsin deficiency.

Alfalfa Sativa Compuesta *Hochstetter, Chile†.*
Alfalfa; avena sativa; papaya (p.1922·1).
Tonic.

Alfalfa Tonic *Boiron, Canad.; Homeocan, Canad.*
Homoeopathic preparation.

Alfamedin *Kade, Ger.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia.

Alfamet *Ulagay, Turk.*
Methyldopa (p.1334·1).
Hypertension.

Alfa-Mon *Biotech, Venez.*
Vitamin A (p.1971·2).

Alfamox *Teofarma, Ital.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Alfan *Alpharma, Mex.*
⊗ Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); ephedrine hydrochloride (p.1558·2).
Cough; nasal congestion.

Alfaprost *Elfar, Spain.*
Terazosin hydrochloride (p.1410·2).
Benign prostatic hyperplasia; hypertension.

Alfapsin *Hetero, India.*
Trypsin (p.2405·3); chymotrypsin (p.2281·3).
Inflammation; oedema.

Alfare *Nestle, Austral.; Nestle, Braz.; Nestle, Fr.; Nestle, Ital.; Nestle, Mex.; Nestle, Philipp.; Nestle, Port.†; Nestle, Switz.; Nestle, Venez.*
Preparation for enteral nutrition (p.1922·1).
Diarrhoea; digestive disorders; hypersensitivity; malabsorption disorders; milk intolerance.

Alfarol *Chugai, Jpn.*
Alfacalcidol (p.1986·1).
Hypoparathyroidism; osteomalacia; osteoporosis; renal failure; rickets.

Alfasid *Fako, Turk.*
Sultamicillin (p.344·1).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Alfasilin *Fako, Turk.*
Ampicillin (p.204·1).
Bacterial infections.

Alfasin *Solvay, Braz.*
⊗ Finasteride (p.2188·3).
Alopecia; benign prostatic hyperplasia.

Alfason *Astellas, Ger.*
⊗ Hydrocortisone butyrate (p.1535·3).
Skin disorders.

Alfast *Cristalia, Braz.*
⊗ Alfentanil hydrochloride (p.16·2).
Pain.

Alfate *Stadmed, India.*
Sucralfate (p.1772·2).
Gastritis; peptic ulcer.

Alfater *Hardis, Ital.*
Interferon alfa (p.885·1).
Anogenital warts; hepatitis B; hepatitis non-A non-B; malignant neoplasms.

Alfatil *Lilly, Fr.*
Cefaclor (p.217·2).
Bacterial infections.

Alfavit *Medgenix, Belg.†.*
⊗ Ephedrine tartrate (p.1559·1); vitamins (p.1922·1).
Tonic.

Alfavitil *DNR, Arg.†.*
Pronalen.
Cellulitis.

Alfazol *IQFA, Mex.*
Albendazole (p.139·2).
Worm infections.

Allergefon *SERP, Mon.*
Carbinoxamine maleate (p.570·2).
Hypersensitivity reactions.

Alfem *Nucitec, Mex.*
Calcium carbonate (p.1714·1); colecalciferol (p.1986·2); magnesium oxide (p.1744·1).
Calcium, vitamin D, and magnesium supplement; osteomalacia; osteoporosis; rickets; tetany.

Alfener *Farmanust, Gr.*
Diltiazem (p.1267·1).
Angina pectoris; hypertension.

Alfenta *Janssen-Ortho, Canad.; Taylor, USA.*
⊗ Alfentanil hydrochloride (p.16·2).
Analgesia during anaesthesia; analgesia in ventilated patients; induction of anaesthesia.

Alferm
Note. This name is used for preparations of different composition.
Schoning-Berlin, Ger.†.
Ointment: ⊗ Prednisolone (p.1540·3); thymol (p.1664·3).
Anorectal disorders.

Schoning-Berlin, Ger.†.
Suppositories: ⊗ Prednisolone (p.1540·3); thymol (p.1664·3); menthol (p.2340·1).
Anorectal disorders.

Alferon *Cryopharma, Mex.*
Interferon alfa-2a (recombinant) (p.885·1).
Hepatitis B; malignant neoplasms.

Alferon N *Interferon Sciences, USA.*
Interferon alfa-n3 (p.885·1).
Genital warts.

Alfetim *Sanofi-Aventis, Hung.; Sanofi Synthelabo, Spain†.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Alficetin *Nova Argentia, Arg.*
Colistimethate sodium (p.256·3).
Bacterial infections.

Alfin *Sanitas, Chile.*
Sildenafil citrate (p.2193·1).
Erectile dysfunction.

Alfinor *Medochemie, Malaysia.*
Betahistine hydrochloride (p.2265·1).
Ménière's disease.

Alfitar *Fardi, Spain.*
Coal tar (p.1616·2).
Psoriasis; seborrhoeic dermatitis.

Alflam *Mugi, Indon.*
Diclofenac potassium (p.44·3).
Inflammation; pain.

Al-Flor *Francia, Ital.†.*
Lactic-acid producing bacteria (p.2372·3); yeast; anise; lime; vitamin C; vitamin B substances (p.1922·1).
Restoration of gastrointestinal flora.

Alflutop *Biotehnos, Rus.*
Defatted and deproteinised sea fish extract.
Musculoskeletal and joint disorders.

Alfospas *Rottapharm, Ital.*
Tiropramide hydrochloride (p.2403·1).
Smooth muscle spasm.

Alfoxil *Abfar, Turk.*
Amoxicillin (p.202·2).
Bacterial infections.

Alfron *Sigma, Braz.*
Alprazolam (p.960·1).
Alcohol withdrawal syndrome; anxiety; panic disorder.

Alfuca *Kenyaku, Thai.*
Albendazole (p.139·2).
Worm infections.

Alfuprost *Farmedia, Gr.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Alfural *Rafarm, Gr.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Alfuzin *Biomedica-Chemica, Gr.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Alfuzina *Bunker, Braz.*
Methyldopa (p.1334·1).
Hypertension.

Alfuzostad *Stada, Cz.; Stada, Hung.; Steigerwald, Pol.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Alganax *Guardian, Indon.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states; panic disorder.

Alganex *Roche, Swed.*
Tenoxicam (p.128·2).
Dysmenorrhoea; inflammation; musculoskeletal, joint, and peri-articular disorders; postoperative pain.

Algedol *Pfizer, Arg.*
⊗ Morphine sulfate (p.86·3).
Pain.

Algedrox *De Mayo, Braz.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2).
Flatulence; gastrointestinal hyperacidity.

Algefit *Pharmaselect, Austria.*
Diclofenac sodium (p.44·3).
Soft-tissue and peri-articular disorders.

Algesal
Note. This name is used for preparations of different composition.
Raffo, Arg.; Solvay, Austria; Pharmaselect, Cz.; Biokanol, Ger.; Solvay, Hung.; Byk Gulden, Mex.†; CS, Port.; Solvay, Switz.†.
Diethylamine salicylate (p.47·2); myrtecaine (p.1867·2).
Inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; neuralgia.

Vemedia, Belg.; Solvay, Fin.; Solvay, Ital.†; Solvay, Neth.; Nycomed, Norw.; Solvay, Swed.; Frik, Turk.; Zeroderma, UK.
Diethylamine salicylate (p.47·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Stada, Spain.
Diethylamine salicylate (p.47·2); myrtecaine (p.1867·2) or myrtecaine laurilsulfate (p.1867·2).
Peri-articular and soft-tissue disorders.

Algesal Forte *Solvay, Neth.*
Diethylamine salicylate (p.47·2); myrtecaine (p.1867·2).
Muscle and joint pain.

Algesal Superactive *Solvay, Indon.*
Diethylamine salicylate (p.47·2); myrtecaine (p.1867·2).
Musculoskeletal, joint, and soft-tissue disorders; neuralgia.

Algesal Suractive *Pharmadeveloppement, Fr.; Solvay, Gr.; Frik, Turk.*
Diethylamine salicylate (p.47·2); myrtecaine (p.1867·2).
Musculoskeletal and joint pain; soft-tissue disorders.

Algesalona *Solvay, Ger.†; Solvay, Switz.†.*
Diethylamine salicylate (p.47·2); myrtecaine (p.1867·2); flufenamic acid (p.60·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Algesalona E *Solvay, Ger.†.*
Etofenamate (p.53·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Algex *Farmo Quimica, Chile.*
Mefenamic acid (p.80·1).
Pain.

Algexin *Cimed, Braz.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Smooth muscle spasm.

Algi *Mabo, Spain.*
Metamizole magnesium (p.49·3).
Fever; pain.

Algi Peralgin *Infabra, Braz.†.*
Oxyphenbutazone (p.107·3); paracetamol (p.108·1).
Fever; inflammation; pain.

Algiasdin *Isdin, Spain.*
Ibuprofen (p.64·2).
Fever; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Algibon *Galderma, Venez.*
Skin cleanser.

Algi-Butazolon
Note. This name is used for preparations of different composition.
Dovalle, Braz.†.
Oral solution: Diclofenac (p.44·2); paracetamol (p.108·1).

Dovalle, Braz.†.
Tablets: Diclofenac (p.44·2); paracetamol (p.108·1); carisoprodol (p.1894·1); caffeine (p.1116·3).

Algical Kalzarevet *Femi Agran, Israel.*
Calcium carbonate (p.1714·1); sodium alginate (p.2141·1); sodium bicarbonate (p.1673·2).
Dyspepsia; gastric hyperacidity; gastro-oesophageal reflux; heartburn.

Algice *Cazi, Braz.*
Green tablets, dipyrone (p.49·2); sodium camsilate (p.2388·3); cineole (p.2282·3); guaifenesin (p.1561·3); niaouli oil (p.2351·3); yellow tablets, vitamin C (p.1983·3).
Cold and influenza symptoms.

Algicler
Note. This name is used for preparations of different composition.
Monserrat, Arg.
Tablets: Diclofenac (p.44·2); paracetamol (p.108·1).

Monserrat, Arg.
Topical gel: Diclofenac diethylamine (p.44·3).

Algicon
Note. This name is used for preparations of different composition.
Sanofi-Aventis, UK†.
Aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium alginate (p.2141·1); magnesium carbonate (p.1743·1); potassium bicarbonate (p.1673·1).
Gastric hyperacidity; gastro-oesophageal reflux.

Aventis, Irl.†; Aventis, Neth.
Oral suspension: Magnesium alginate (p.2141·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium carbonate (p.1743·1); potassium bicarbonate (p.1673·1); calcium carbonate (p.1714·1).
Gastro-oesophageal reflux.

Aventis, Mex.†.
Oral suspension: Magnesium alginate (p.2141·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium carbonate (p.1743·1); calcium carbonate (p.1714·1).
Gastric hyperacidity.

Aventis, Mex.†.
Tablets: Magnesium alginate (p.2141·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium carbonate (p.1743·1).
Gastric hyperacidity.

Aventis, Neth.
Tablets: Magnesium alginate (p.2141·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium carbonate (p.1743·1); potassium bicarbonate (p.1673·1).
Gastro-oesophageal reflux.

Algi-Cool *Qualiphar, Belg.*
Menthol (p.2340·1); dexpanthenol (p.2362·1); chamomile (p.2279·3); arnica (p.2260·2); devil's claw (p.39·1); camphor (p.2273·2).
Musculoskeletal and joint disorders.

Algicote
Note. This name is used for preparations of different composition.
Sanofi-Aventis, Chile.
Chewable tablets: Magnesium alginate (p.2141·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium carbonate (p.1743·1); potassium bicarbonate (p.1673·1).
Gastro-oesophageal reflux.

Sanofi-Aventis, Chile.
Oral suspension: Magnesium alginate (p.2141·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); magnesium carbonate (p.1743·1); calcium carbonate (p.1714·1); potassium bicarbonate (p.1673·1).
Gastro-oesophageal reflux.

Algicum *Azevedos, Port.*
Diethylamine salicylate (p.47·2).
Musculoskeletal, joint, and soft-tissue disorders.

Algidente *Sedabel, Braz.†.*
Phenol (p.1656·1); procaine hydrochloride (p.1869·1); clove oil (p.2285·1).
Mouth disorders.

Algiderm *Finadiet, Arg.*
Erythromycin (p.269·2).
Bacterial skin infections.

Algiderma *Davi, Port.*
Diethylamine salicylate (p.47·2).
Musculoskeletal, joint, and soft-tissue disorders.

Algidol
Note. This name is used for preparations of different composition.
Vitae, Mex.
Ibuprofen (p.64·2).
Pain.

Almirall, Spain.
Paracetamol (p.108·1); codeine phosphate (p.37·2); ascorbic acid (p.1983·3).
Pain.

Algidrin *Fardi, Spain.*
Ibuprofen lysine (p.64·2).
Inflammation; pain.

Algifemin *Sanitas, Chile.*
Mefenamic acid (p.80·1).
Pain.

Algifen
Note. This name is used for preparations of different composition.
Sintofarma, Braz.†.
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; inflammation; pain.

Zentiva, Cz.
Dipyrone (p.49·2); pitofenone hydrochloride (p.2369·2); fenpiverinium bromide (p.2303·2).
Painful smooth muscle spasm.

Algifen Neo *Ivax, Cz.*
Dipyrone (p.49·2); pitofenone hydrochloride (p.2369·2).
Painful smooth muscle spasm.

Algifene *Ferraz, Lynce, Port.*
Dextropropoxyphene (p.40·1); paracetamol (p.108·1).
Pain.

Algiflamanil *Neo Quimica, Braz.*
Oxyphenbutazone (p.107·3); paracetamol (p.108·1).
Fever; inflammation; pain.

Algiflex *EMS, Braz.*
Ibuprofen (p.64·2).

Algifor *Vifor, Switz.*
Ibuprofen (p.64·2) or ibuprofen lysine (p.64·2).
Fever; juvenile idiopathic arthritis; pain.

Algi-Itamanil *Neo Quimica, Braz.†.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; inflammation; pain.

Algik *Azevedos, Port.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Algikey *Inkeysa, Spain.*
Ketorolac trometamol (p.74·2).
Pain.

Algimate *Jaba Recordati, Port.*
Clonixin lysine (p.37·1).
Pain.

Algimesil *Francia, Ital.*
Nimesulide (p.95·3).
Musculoskeletal and joint disorders.

Algina *Confar, Port.*
Methyl salicylate (p.85·3); menthol (p.2340·1); guaiacol (p.1561·2).
Musculoskeletal, joint, and soft-tissue disorders.

Alginatol *Nizhpharm, Rus.*
Sodium alginate (p.2141·1).

Algine *Adelco, Gr.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Alginete *KRKA, Cz.†.*
Alginic acid (p.2140·3); carmellose sodium (p.2142·1).
Obesity.

Alginex *Sanopharm, Switz.†.*
Ethyl salicylate (p.52·1); camphor (p.2273·2); menthol (p.2340·1); turpentine oil (p.2406·3).
Musculoskeletal, joint, and peri-articular disorders; sports injuries.

Alginor *Boehringer Ingelheim, Ital.*
Cimetropium bromide (p.1720·2).
Adjunct in gastrointestinal examinations and surgical procedures; gastrointestinal disorders.

Algin-Vek *Faran, Gr.*
Tenoxicam (p.128·2).
Gout; inflammation; osteoarthritis; pain; rheumatoid arthritis; spondyloarthropathies.

Algio Nervomax *TRB, Arg.*
Ampoule 1, thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2); ampoule 2, diclofenac sodium (p.44·3).
Pain; peri-articular and soft-tissue disorders.

Algio Nervomax Fuerte *TRB, Arg.*
⊗ Ampoule 1, thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2); ampoule 2, diclofenac sodium (p.44·3); betamethasone sodium phosphate (p.1518·3).
Musculoskeletal and joint disorders.

Algio-Bladuril *Casasco, Arg.*
Flavoxate hydrochloride (p.2190·1); propyphenazone (p.119·3).
Bladder disorders; female genital-tract spasm.

Algiodent *Ronnet, Arg.*
Tyrothricin (p.358·2); benzocaine (p.1854·1); hexylresorcinol (p.1647·1); cresol (p.1641·1).
Mouth and throat disorders.

Algion *Saval, Chile.*
Hyoscine butylbromide (p.1734·1); paracetamol (p.108·1).
Smooth muscle spasm.

Algiopiret *Fada, Arg.†.*
Dipyrone (p.49·2).
Fever; pain.

Algioprofen *Lazar, Arg.†.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Algioprux *Sidus, Arg.†.*
Naproxen (p.92·3).
Inflammation; pain.

Algiospray *Novag, Mex.†.*
Peridilmethylamine.

Algio-Truxa *Raffo, Arg.†.*
Paracetamol (p.108·1); piroxicam (p.117·3).
Inflammation; pain.

Algioxib *Dupomar, Arg.*
Diclofenac sodium (p.44·3).
Formerly contained rofecoxib.
Inflammation.

Algipan
Note. This name is used for preparations of different composition.
Qualiphar, Belg.
Methyl nicotinate (p.85·3); glycol salicylate (p.62·3); mephenesin (p.1897·2).
Musculoskeletal pain; skeletal muscle spasm.

UCB, Fr.
Methyl nicotinate (p.85·3); glycol salicylate (p.62·3); histamine hydrochloride (p.2319·2); mephenesin (p.1897·2).
Muscle pain.

Wyeth, India.
Methyl nicotinate (p.85·3); glycol salicylate (p.62·3); capsicum oleoresin (p.2276·2); histamine hydrochloride (p.2319·2).
Muscle and joint pain; neuralgia.

Wyeth, Irl.
Methyl nicotinate (p.85·3); glycol salicylate (p.62·3); capsaicin (p.32·3).
Musculoskeletal and joint pain.

Algirem *Masterlek, Rus.*
Rimantadine hydrochloride (p.904·2).
Influenza.

Algi-Reumatril *Hertz, Braz.*
Paracetamol (p.108·1); ibuprofen (p.64·2).
Inflammation; pain.

Algirona *Bunker, Braz.*
Dipyrone (p.49·2).
Fever; pain.

Algiseda *Sanitas, Arg.*
Carisoprodol (p.1894·1); paracetamol (p.108·1).
Musculoskeletal, joint, and peri-articular disorders.

Algisedal *Viatris, Fr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Pain.

Algiseptico *Fada, Arg.†.*
Piperacillin (p.315·2).
Bacterial infections.

Algisite *Smith & Nephew, Canad.†.*
Calcium alginate (p.1058·1).
Wounds.

Algispray
Note. A similar name is used for preparations of different composition (see below).
Casasco, Arg.
Dichlorodifluoromethane (p.1689·1); trichlorofluoromethane (p.1689·1).
Local anaesthesia; pain.

Algis-Spray
Note. A similar name is used for preparations of different composition (see above).
Qualiphar, Belg.
Turpentine oil (p.2406·3); camphor (p.2273·2); menthol (p.2340·1).
Musculoskeletal and joint pain.

Algistop *ISA, Arg.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Algi-Tanderil *Klinger, Braz.†.*
Diclofenac sodium (p.44·3); paracetamol (p.108·1); carisoprodol (p.1894·1); caffeine (p.1116·3).
Inflammation; pain.

Algitrin *Schering-Plough, Mex.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; pain.

Algix *Gentili, Ital.*
Etoricoxib (p.53·1).
Gout; osteoarthritis; rheumatoid arthritis.

Algo *Lokman, Turk.*
Aspirin (p.20·3).
Fever; pain; thrombosis prophylaxis.

Algo Bebe *Lokman, Turk.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Algobaz *CPH, Port.†.*
Mecobalamin (p.1981·1).
Megaloblastic anaemia.

Algoceanic *Proceane, Fr.†.*
Sea water; bladderwrack (p.2384·2); chondrus crispus; ascophyllum nodosum.
Mineral supplement.

Algocetil *Francia, Ital.*
Sulindac (p.126·3).
Gout; musculoskeletal, joint, and peri-articular disorders; neuritis.

Algocod *SMB, Belg.*
Codeine phosphate (p.37·2); paracetamol (p.108·1).
Pain.

Algocor *Teofarma, Ital.*
Gallopamil hydrochloride (p.1295·3).
Angina pectoris; myocardial infarction.

Algofen *Chefaro, Ital.*
Ibuprofen (p.64·2).
Pain.

Algofina *Sanamed, Austria.*
Aspirin (p.20·3); paracetamol (p.108·1).
Fever; pain.

Algoflex
Note. This name is used for preparations of different composition.
Sanofi-Aventis, Hung.
Tablets: Ibuprofen (p.64·2).
Fever; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Sanofi-Aventis, Hung.
Topical gel: Ketoprofen (p.73·1).
Musculoskeletal, joint, and soft-tissue disorders.

Algoflex-M *Sanofi-Aventis, Hung.*
Round tablets, ibuprofen (p.64·2); oblong tablets, drotaverine hydrochloride (p.2298·1).
Dysmenorrhoea.

Algofren *Intermed, Gr.*
Ibuprofen (p.64·2).
Inflammation; musculoskeletal and joint disorders; pain.

Algogen *Nakornpatana, Thai.*
Paracetamol (p.108·1).
Pain.

Algolider *Siar, Ital.*
Nimesulide (p.95·3).
Fever; inflammation; pain.

Algolisina *Poliforma, Ital.†.*
Pridinol mesilate (p.1898·1); benzydamine hydrochloride (p.27·3); lidocaine hydrochloride (p.1862·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Algolysin *Teva, Israel.*
Dextropropoxyphene hydrochloride (p.40·1); paracetamol (p.108·1).
Fever; pain.

Algon *Lavipharm, Gr.*
Aspirin (p.20·3); caffeine (p.1116·3); paracetamol (p.108·1).
Fever; pain.

Algonapril *Crinos, Ital.*
Naproxen (p.92·3).
Gout; inflammation; musculoskeletal, joint, and soft-tissue disorders; pain.

Algophene *SMB, Belg.*
Paracetamol (p.108·1); dextropropoxyphene hydrochloride (p.40·1).
Pain.

Algopirina *Medisint, Ital.*
Aspirin (p.20·3); paracetamol (p.108·1).
Cold and influenza symptoms; pain.

Algoplaque
Note. This name is used for preparations of different composition.
Urgo, Fr.
A hydrocolloid dressing.
Burns; ulcers; wounds.

Urgo, Ger.
Carmellose sodium (p.2142·1).
Ulcers; wounds.

Algopyrin *Sanofi-Aventis, Hung.*
Dipyrone (p.49·2).
Fever; pain.

Algopyrin Complex *Sanofi-Aventis, Hung.*
Dipyrone (p.49·2); caffeine (p.1116·3); drotaverine hydrochloride (p.2298·1).
Headache; migraine.

Algoren *Ronava, Venez.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; anxiety; arrhythmias; hypertension; migraine.

Algorex *Amnol, Ital.*
Maritime pine (p.2368·1); aesculus (p.2248·2); bromelains (p.2269·1); vitamin B substances (p.1922·1).
Inflammation; oedema.

Algosenac *Senese, Ital.*
Diclofenac sodium (p.44·3).
Musculoskeletal and joint disorders; painful smooth muscle spasm.

Algosfar *Medifarma, Mex.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Smooth muscle spasm.

Algostase *SMB, Belg.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Algostase Mono *SMB, Belg.*
Paracetamol (p.108·1).
Fever; pain.

Algosteril *Brothier, Fr.; Johnson & Johnson, Ger.†; Johnson & Johnson, Ital.; Smith & Nephew, UK.*
Calcium alginate (p.1058·1).
Haemostatic dressing; wounds.

Algosteril Trionic *Johnson & Johnson, Ger.†.*
Calcium alginate (p.1058·1); manganese gluconate (p.1956·2); zinc gluconate (p.1999·2).
Burns; ulcers; wounds.

Algosulid *Med-One, Gr.*
Nimesulide (p.95·3).
Inflammatory disorders.

Algotropyl *Alpharma, Fr.†.*
Paracetamol (p.108·1); promethazine hydrochloride (p.588·2).
Cold symptoms.

Algover *Iapharm, Gr.*
Nimesulide (p.95·3).
Inflammatory disorders.

Algo-Wax *Lokman, Turk.*
Menthol (p.2340·1); camphor (p.2273·2); capsicum oleoresin (p.2276·2); eucalyptus oil (p.2301·2); thyme oil (p.2401·2); turpentine oil (p.2406·3); lavender oil (p.2331·2).
Musculoskeletal and joint pain.

Algoxam *Alter, Ital.*
Piroxicam (p.117·3).
Musculoskeletal and joint disorders.

Algozone *Ozone, Hung.*
Dipyrone (p.49·2).
Fever; pain.

Algut *Merck, Indon.*
Allopurinol (p.552·2).
Gout.

Algybrex *Northia, Arg.*
Celecoxib (p.34·2).

Algy-Flanderil *Vitapan, Braz.†.*
Ibuprofen (p.64·2).
Inflammation; musculoskeletal and joint disorders; pain.

Alho Rogoff *Crefar, Port.†.*
Garlic (p.2309·2).
Cardiovascular disorders; rheumatic disorders; senility; stress.

Alho-Arthrosan N *Wiedemann, Ger.*
Homoeopathic preparation.

Alho-Sedosan *Wiedemann, Ger.*
Homoeopathic preparation.

Alhydrate *Nestle, Fr.; Nestle, Ital.*
Maltodextrin; sucrose; sodium chloride; citric acid; potassium citrate (p.1672·2).
Diarrhoea; oral rehydration therapy.

Ali Veg *GSK Consumer, Spain.*
Cimetidine (p.1716·2).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; gastrointestinal hyperacidity; peptic ulcer; short-bowel syndrome; Zollinger-Ellison syndrome.

Alib *Ibfarma, Braz.†.*
Albendazole (p.139·2).
Worm infections.

A-Lices *AFT, NZ; Hoe, Singapore.*
Malathion (p.2046·1).
Pediculosis.

Alici-A *Mallix, Philipp.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Alicron *Ferron, Indon.*
Thioctic acid (p.2400·2); biotin (p.1931·3); chromium polynicotinate.
Supplement in diabetes mellitus.

Alicura *Catarinense, Braz.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; inflammation; pain.

Alidase *Bernabo, Arg.*
Naproxen (p.92·3) or naproxen sodium (p.92·3).
Fever; gout; musculoskeletal, joint, and peri-articular disorders; pain.

Alidial *Filaxis, Arg.*
Gabapentin (p.482·3).
Epilepsy; postherpetic neuralgia.

Alidol *Syntex, Mex.*
Ketorolac trometamol (p.74·2).
Pain.

Aliflus *Menarini, Ital.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Asthma.

Alikal *GSK, Arg.*
Aspirin (p.20·3); caffeine (p.1116·3); sodium bicarbonate (p.1673·2); citric acid (p.2284·1); sodium carbonate (p.2389·1).
Dyspepsia; headache.

Alikal Dolor *GSK, Arg.*
Paracetamol (p.108·1).
Fever; pain.

Alimax *Cristalia, Braz.*
Heparin sodium (p.1301·2).
Burns.

Alimentum *Abbott, Canad.; Abbott, Singapore; Ross, USA.*
Protein hydrolysate infant feed (p.1922·1).
Fat malabsorption; food allergies; lactose intolerance; protein intolerance.

Alimix *Janssen-Cilag, Gr.†.*
Cisapride (p.1720·3).
Gastric motility disorders.

Alimta *Lilly, Arg.; Lilly, Austral.; Lilly, Belg.; Lilly, Canad.; Lilly, Chile; Lilly, Cz.; Lilly, Denm.; Lilly, Fin.; Lilly, Fr.; Lilly, Ger.; Lilly, Gr.; Lilly, Hong Kong; Lilly, Hung.; Lilly, Irl.; Lilly, Israel; Lilly, Ital.; Lilly, Malaysia; Lilly, NZ; Lilly, Neth.; Lilly, Norw.; Lilly, Pol.; Lilly, Rus.; Lilly, Singapore; Lilly, Spain; Lilly, Swed.; Lilly, Switz.; Lilly, Thai.; Lilly, Turk.; Lilly, UK; Lilly, USA.*
Pemetrexed disodium (p.762·1).
Malignant pleural mesothelioma; non-small cell lung cancer.

Alin
Note.This name is used for preparations of different composition.
Lazar, Arg.
Ezetimibe (p.1284·3).
Hypercholesterolaemia.
Millet Roux, Braz.
Albendazole (p.139·2).
Worm infections.
Chinoin, Mex.
⊗ Dexamethasone (p.1526·1), dexamethasone isonicotinate (p.1526·1), or dexamethasone sodium phosphate (p.1526·2).
Corticosteroid.
Biofarma, Turk.
Phenolphthalein (p.1762·1).

Alin Nasal *Chinoin, Mex.*
⊗ Dexamethasone sodium phosphate (p.1526·2); neomycin sulfate (p.305·1); phenylephrine hydrochloride (p.1568·1).
Rhinitis; sinusitis.

Alin Oftalmico *Chinoin, Mex.*
⊗ Dexamethasone sodium phosphate (p.1526·2); neomycin sulfate (p.305·1).
Eye disorders.

Alinal *Julphar, UAE†.*
Pipenzolate bromide (p.1762·2); phenobarbital (p.492·2).
Gastrointestinal spasm.

Alinamin *Takeda, Indon.*
Fursultiamine (p.1975·3) with or without vitamin B (p.1977·2).
Vitamin B deficiency.

Alinamin B12
Note.This name is used for preparations of different composition.
Takeda, Malaysia†; Takeda, Singapore†.
Fursultiamine (p.1975·3); vitamin B (p.1980·2). Procaine hydrochloride (p.1869·1) is included in this preparation to alleviate the pain of injection.
Anaemias; megaloblastic anaemia; neuritis.
Takeda, Thai.†.
Fursultiamine hydrochloride (p.1976·3); vitamin B (p.1980·2).
Macrocytic anaemia; megaloblastic anaemia; neuritis.

Alinamin-F
Note.This name is used for preparations of different composition.
Takeda, Hong Kong.
Fursultiamine hydrochloride (p.1976·3); riboflavin (p.1977·2).
Arthralgia; myalgia; neuralgia; neuritis.
Takeda, Jpn.
Fursultiamine hydrochloride (p.1976·3).
Vitamin B deficiency; vitamin B supplement.
Takeda, Singapore.
Fursultiamine (p.1975·3); riboflavin (p.1977·2).
Arthralgia; beri-beri; CNS disorders; gastrointestinal motility disorders; myalgia; myocardial metabolic disorders; neuralgia; peripheral nerve paralysis; peripheral neuritis; vitamin B deficiency; Wernicke's encephalopathy.
Takeda, Thai.
Injection: Fursultiamine hydrochloride (p.1976·3).
Vitamin B deficiency.
Takeda, Thai.
Tablets: Fursultiamine hydrochloride (p.1976·3); riboflavin (p.1977·2).
Vitamin B deficiency.

Alindrin *Recip, Swed.*
Ibuprofen (p.64·2).
Fever; pain.

Alinia *Romark, USA.*
Nitazoxanide (p.842·3).
Cryptosporidiosis; giardiasis.

Alinol *Pharmasant, Thai.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alinor *Alpharma, Norw.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction.

Alinvit *Collins, Mex.*
Multivitamin preparation (p.1922·1).

Alione *Coloplast, Ger.*
Carmellose (p.2142·1).
Burns; ulcers; wounds.

Alione Charbon *Coloplast, Fr.*
Activated charcoal (p.1435·2).
Burns; ulcers; wounds.

Aliot *Biotech, Venez.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Aliovital *Agropharm, Pol.*
Garlic (p.2309·2).
Atherosclerosis; hyperlipidaemias.

Alipal Forte *Arex, Venez.*
Paracetamol (p.108·1); caffeine (p.1116·3); chlorphenamine maleate (p.571·3).
Cold and influenza symptoms.

Alipas *Bernabo, Arg.*
Ezetimibe (p.1284·3).
Hypercholesterolaemia.

Alipas Duo *Bernabo, Arg.*
Ezetimibe (p.1284·3); simvastatin (p.1390·2).
Hyperlipidaemias.

Alipride *Centaur, India.*
Cisapride (p.1720·3).
Delayed gastric emptying; gastro-oesophageal reflux.

Aliserin *Unifarm, Ital.*
Diphenhydramine hydrochloride (p.577·2).
Insomnia.

Aliseum *Formenti, Ital.*
Diazepam (p.986·3).
Anxiety disorders; epilepsy; insomnia.

Alista *Novell, Indon.*
Cilostazol (p.1245·2).
Arterial occlusion.

Alisyd *Darier, Mex.*
⊗ Prednicarbate (p.1540·2).
Skin disorders.

Alitest *Columbia, Mex.†.*
Carbon-13 (p.2277·1).
Diagnostic agent.

Alitol *KRKA, Pol.*
Garlic oil (p.2309·2).
Atherosclerosis.

Alitraq *Abbott, Arg.; Abbott, Austral.; Abbott, Braz.; Abbott, Chile; Abbott, Hong Kong; Abbott, Irl.; Abbott, Israel; Ross, Israel; Abbott, Ital.; Abbott, Mex.; Abbott, NZ; Abbott, Philipp.; Abbott, Singapore†; Abbott, Turk.; Abbott Nutrition, UK†; Abbott, Venez.*
Preparation for enteral nutrition (p.1922·1).

Aliucillin *Aliud, Austria.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Aliudox *Aliud, Austria.*
Doxycycline hyclate (p.267·1).
Bacterial infections.

Alivax *Vivax, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Alive *Uniao Quimica, Braz.*
Sodium chloride (p.1686·1).
Nasal congestion.

Alivet *Leti, Venez.*
Paracetamol (p.108·1); chlorphenamine (p.572·2) or chlorphenamine maleate (p.571·3).
Cold symptoms.

Alivet Dia *Leti, Venez.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); caffeine (p.1116·3).
Cold symptoms.

Alivetforte *Leti, Venez.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms.

Alivetnoc *Leti, Venez.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Cold symptoms.

Alivetos *Leti, Venez.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Alivetos Pediatrico *Leti, Venez.*
Guaifenesin (p.1561·3).
Coughs.

Aliviador *Biologia, Braz.†.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1).
Musculoskeletal and joint disorders.

Aliviagrip *Denver, Arg.*
Ibuprofen (p.64·2); pseudoephedrine (p.1571·2).

Alivian
Note.This name is used for preparations of different composition.
Vitarum, Arg.
Ranitidine (p.1766·1).
Gastric hyperacidity; peptic ulcer.
Cazi, Braz.
Meloxicam (p.80·3).
Musculoskeletal, joint, and peri-articular disorders.

Alivioderm *Hexal, Braz.†.*
Nitrofurazone (p.309·1).
Infected burns; skin infections.

Aliviodol *Centrum, Spain.*
Meloxicam (p.80·3).
Ankylosing spondylitis; osteoarthrosis; rheumatoid arthritis.

Aliviol *Cifarma, Braz.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); turpentine oil (p.2406·3); mustard oil (p.2349·2); rosemary oil (p.2381·3); lavender oil (p.2331·2).
Pain.

Aliviomas *Alacan, Spain.*
Naproxen (p.92·3).
Fever; gout; musculoskeletal and joint disorders; pain.

Aliviosin *Alacan, Spain.*
Indometacin (p.66·3).
Gout; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Alivium *Mantecorp, Braz.*
Ibuprofen (p.64·2).
Fever; pain.

Alizar *Gynopharm, Chile.*
⊗ Spironolactone (p.1400·1).
Hyperaldosteronism; hypertension; hypocalcaemia; oedema.

Aljil *Yeni, Turk.*
Caffeine (p.1116·3); propyphenazone (p.119·3); paracetamol (p.108·1).
Fever; pain.

ALK
Scherax, Ger.
A range of allergen extracts (p.2250·2).
Allergen immunotherapy.
Trimedal, Switz.
A range of grass and tree pollen allergen extracts (p.2370·2) (p.2250·2).
Allergen immunotherapy.

Alka *Bayer Consumer, UK.*
Aspirin (p.20·3).
Fever; pain.

Alka XS Go *Bayer Consumer, UK†.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Pain.

Alkabel *Cypress, USA.*
Phenobarbital (p.492·2); hyoscyamine sulfate (p.1736·1); atropine sulfate (p.1219·3); hyoscine hydrobromide (p.1734·1).
Enterocolitis; irritable bowel syndrome.

Alkadil *Alkaloid, Cz.†.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Alkafizz *Xeragen, S.Afr.*
Sodium citrate (p.1673·3); sodium bicarbonate (p.1673·2); anhydrous citric acid (p.2284·1); tartaric acid (p.2395·2).
Gastric hyperacidity; urinary alkalinisation.

Alkagel *EMS, Braz.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2).
Flatulence; gastric hyperacidity.

Alkagel Complex *Quimica y Farmacia, Mex.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2).
Flatulence; gastric hyperacidity.

Alkagel IS *Quimica y Farmacia, Mex.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Alkagin
Note.This name is used for preparations of different composition.
Ganassini, Ital.
Calendula (p.2273·1); mallow (p.2337·2); tilia (p.2402·2).
Personal hygiene.
Ganassini, Fr.
Topical gel: Aloe vera (p.1588·2); panthenol (p.2362·1); calendula (p.2273·1); mallow (p.2337·2); tilia (p.2402·2); peppermint (p.1761·2).
Genital pruritus.
Dermoteca, Port.
Topical gel: Calendula (p.2273·1); mallow (p.2337·2); tilia (p.2402·2); aloe (p.1588·2); chlorhexidine gluconate (p.1635·3).
Personal hygiene.
Ganassini, Fr.
Topical solution: Cocoylamidopropylbetaine; TEA cocoylglutamate; calendula (p.2273·1); mallow (p.2337·2); tilia (p.2402·2).
Personal hygiene.
Dermoteca, Port.
Topical solution: Calendula (p.2273·1); mallow (p.2337·2); tilia (p.2402·2); triclosan (p.1665·2).
Personal hygiene.
Dermoteca, Port.
Wipes: Calendula (p.2273·1); mallow (p.2337·2); tilia (p.2402·2); dipotassium glycyrrhizate (p.2316·2); tocoferol acetate (p.1992·3).
Personal hygiene.

Alkala N *Sanum-Kehlbeck, Ger.*
Sodium citrate (p.1673·3); potassium bicarbonate (p.1673·1); sodium bicarbonate (p.1673·2).
Gastrointestinal hyperacidity.

Alkala T *Sanum-Kehlbeck, Ger.*
Sodium bicarbonate (p.1673·2).
Metabolic acidosis.

Alkaligen *Human, Cz.†; Teva, Hung.*
Sodium bicarbonate (p.1673·2).
Barbiturate and salicylate poisoning; metabolic acidosis.

Alkalit *Infusia, Cz.†.*
Potassium citrate (p.1673·2); sodium acid citrate (p.1673·2).
Hyperuricaemia; renal calculi.

Alkalite D *Garec, S.Afr.*
Dicycloverine hydrochloride (p.1722·3); aluminium hydroxide (p.1706·2); light magnesium oxide (p.1744·1).
Gastric hyperacidity.

Alkamine *ANB, Thai.*
Aluminium hydroxide gel (p.1706·2); magnesium trisilicate (p.1744·1); kaolin (p.1738·1); atropine sulfate (p.1219·3).
Gastric hyperacidity; peptic ulcer.

Alka-Mints *Bayer, USA.*
Calcium carbonate (p.1714·1).
Hyperacidity.

Alkanil *Inga, India.*
Sodium acid citrate (p.1673·2); dibasic potassium citrate (p.1674·2).
Adjunct to sulfonamide therapy; dysuria; metabolic acidosis; systemic alkaliniser.

Alka-Prim *Polpharma, Pol.*
Aspirin (p.20·3).
Glycine (p.1947·3) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; pain.

Alka-Seltzer
Note.This name is used for preparations of different composition.
Bayer Consumer, Austral.; Bayer, Austria; Bayer, Belg.; Bayer Consumer, Canad.; Bayer, Cz.; Bayer, Fin.; Bayer, Fr.; Bayer, Ger.; Bayer, Hong Kong; Bayer, Hung.; Bayer, Ital.; Bayer Consumer, Malaysia; Bayer, NZ; Bayer, Neth.; Bayer, Philipp.; Bayer, Port.; Bayer, Rus.; Bayer Healthcare, Singapore; Bayer, Swed.; Bayer, Switz.; Bayer, Thai.; Bayer, Turk.; Bayer Consumer, UK; Miles, USA; Bayer, Venez.
Aspirin (p.20·3); citric acid (p.2284·1); sodium bicarbonate (p.1673·2).
Dyspepsia; fever; hangover; headache; heartburn; pain.
Bayer, Israel; Bayer, Pol.
Aspirin (p.20·3).
Fever; musculoskeletal and joint disorders; pain; thrombosis prophylaxis.
Bayer, Spain.
Aspirin (p.20·3); calcium phosphate (p.1676·2); citric acid (p.2284·1); sodium bicarbonate (p.1673·2).
Fever; musculoskeletal and joint disorders; pain.

Alka-Seltzer Antacid *Miles Consumer Healthcare, USA.*
Sodium bicarbonate (p.1673·2); citric acid (p.2284·1); potassium bicarbonate (p.1673·1).
Gastrointestinal disorders.

Alka-Seltzer with Aspirin *Miles Consumer Healthcare, USA.*
Aspirin (p.20·3); citric acid (p.2284·1); sodium bicarbonate (p.1673·2).
Arthritis; fever; gastrointestinal disorders; myocardial infarction; pain.

Alka-Seltzer Doble Accion *Bayer Consumer, Arg.*
Aspirin (p.20·3); sodium bicarbonate (p.1673·2); citric acid (p.2284·1).
Gastrointestinal disorders; pain.

Alka-Seltzer Plus Cold *Miles Consumer Healthcare, USA.*
Chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).

Alka-Seltzer Plus Cold & Cough *Miles Consumer Healthcare, USA.*
Capsules: Dextromethorphan (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).

Alka-Seltzer Plus Cold & Sinus *Bayer, USA.*
Capsules: Pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Cold symptoms; nasal congestion.

Alka-Seltzer Plus Day Cold *Bayer, USA.*
Dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1); paracetamol (p.108·1).
Cold symptoms; cough.

Alka-Seltzer Plus Night-Time Cold *Miles Consumer Healthcare, USA.*
Capsules: Doxylamine succinate (p.578·2); dextromethorphan (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).

Alka-Seltzer Plus Nose & Throat *Bayer, USA.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1).
Upper respiratory-tract disorders.

Alka-Seltzer XS *Bayer Consumer, UK.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3); citric acid (p.2284·1); sodium bicarbonate (p.1673·2).
Gastric discomfort; pain.

Alkasid *Leo, Denm.†; Julphar, UAE.*
Aluminium magnesium silicate (p.2141·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastritis; gastro-oesophageal reflux; heartburn; peptic ulcer.

Alkasol *Stadmed, India.*
Sodium acid citrate (p.1673·2).
Dysuria; fever; metabolic acidosis; systemic alkaliniser.

Alkasol-P *Stadmed, India.*
Sodium acid citrate (p.1673·2); paracetamol (p.108·1); sorbitol (p.1965·1).
Alkali depletion; cold symptoms; fever; pain.

Alkasolve *Sam-On, Israel.*
Potassium citrate (p.1673·2); sodium citrate (p.1673·3).
Diabetic acidosis; urinary alkalinisation.

Alkastom *Panvifarm, Gr.†.*
Cimetidine (p.1716·2).
Peptic ulcer.

Alkavite *Vitality, USA.*
A multivitamin and mineral preparation (p.1922·1).

Alkcema *Valeant, Hung.*
⊗ Triamcinolone acetonide (p.1544·3); chlorhexidine hydrochloride (p.1635·3).
Infected skin disorders.

Alkenide *Zambon, Fr.†.*
Poloxamer 188 (p.1918·1).
Skin cleanser.

Alkeran
GSK, Austral.; GSK, Austria; GSK, Belg.; GSK, Braz.; GSK, Canad.; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Fr.; GSK, Ger.; GSK, Hong Kong; GSK, India; GSK, Irl.; GSK, Israel; GSK, Ital.; GSK, Malaysia; GSK, Mex.; GSK, Neth.; GSK, Norw.; GSK, Philipp.; GSK, Pol.; Wellcome, Port.; GSK, Rus.; GSK, S.Afr.; GSK, Singapore; GSK, Switz.; GSK, Thai.; GSK, Turk.
Melphalan (p.742·1).
Malignant neoplasms; polycythaemia vera.

GSK, Chile; GSK, NZ; GSK, Swed.; GSK, UK; Celgene, USA.
Melphalan (p.742·1) or melphalan hydrochloride (p.742·3).
Malignant neoplasms; polycythaemia vera.

IFET (ΙΦΕΤ), Gr.
Melphalan hydrochloride (p.742·3).
Breast cancer; multiple myeloma; ovarian cancer.

Alkerana *GSK, Arg.*
Melphalan (p.742·1).
Malignant neoplasms.

Alket
Note.This name is used for preparations of different composition.
Poen, Arg.
Epinastine hydrochloride (p.579·3).
Allergic conjunctivitis.

Difass, Ital.
Ketoprofen (p.73·1).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain; phlebitis.

Alkets *Hauck, USA†; Roberts, USA†.*
Calcium carbonate (p.1714·1).
Hyperacidity.

Alkocean *Proceane, Fr.†.*
Shark-liver oil (p.2386·1).
Tonic.

Alksebor *Valeant, Hung.*
Chlorhexidine hydrochloride (p.1635·3); vitamin A (p.1971·2); tocoferil acetate (p.1992·3); dexpanthenol (p.2362·1).
Skin and scalp disorders.

Alkyloxan *Choongwae, Singapore†; Kocsel, Turk.*
Cyclophosphamide (p.702·1).
Malignant neoplasms.

All Clear *Bausch & Lomb, Hong Kong; Bausch & Lomb, USA.*
⊗ Naphazoline hydrochloride (p.1565·2).
Eye irritation.

All Pecium *Dermoteca, Port.†.*
Pyrithione zinc (p.1611·2); sulfur (p.1614·1).
Seborrhoeic dermatitis.

Allamin *Kyorin, Thai.†.*
Amino-acid preparation (p.1922·1).
Nutritional supplement.

Allanderm-T *Allan, USA.*
Trypsin (p.2405·3); Peru balsam (p.2365·3); castor oil (p.2278·1).

AllanEnzyme
Note.This name is used for preparations of different composition.
Allan, USA.
⊗ Papain (p.2362·3); urea (p.1620·2); with or without chlorophyllin copper complex sodium (p.1471·1).
Ulcers; wounds.

Allan, USA.
⊗ Papain (p.2362·3); urea (p.1620·2).
Formerly known as AllanZyme.

AllanfillEnzyme *Allan, USA.*
⊗ Papain (p.2362·3); urea (p.1620·2); chlorophyllin copper complex (p.1471·1).
Formerly known as Allanfil.

Allapinin *Vilar, Rus.*
Lappaconitine hydrobromide (p.1323·1).
Arrhythmias.

Allavin Expectorant *CCM, Malaysia.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Coughs and cold symptoms; rhinitis.

Allavin Plus Expectorant *CCM, Malaysia.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); pseudoephedrine hydrochloride (p.1571·2).
Cough; nasal congestion.

Allbee *Robins, USA.*
A range of vitamin preparations (p.1922·1).

Alleal *Pierre Fabre, Ital.*
Ketotifen fumarate (p.582·2).
Allergic rhinitis.

Allecet *Cipla-Medpro, S.Afr.*
Cetirizine hydrochloride (p.570·3).
Hypersensitivity reactions.

Alledine *Arrow, Austral.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Alledryl *Prater, Chile.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Alledryl D *Prater, Chile.*
Loratadine (p.583·3); pseudoephedrine sulfate (p.1571·2).

Allegra *Aventis, Arg.; Sanofi-Aventis, Braz.; Aventis, Canad.; Sanofi-Aventis, Chile; Aventis, India; Aventis, Mex.; Sanofi-Aventis, USA; Sanofi-Aventis, Venez.*
Fexofenadine hydrochloride (p.579·3).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders; urticaria.

Allegra-D *Aventis, Arg.; Sanofi-Aventis, Braz.; Aventis, Canad.; Sanofi-Aventis, Chile; Aventis, Mex.; Aventis, USA; Sanofi-Aventis, Venez.*
Fexofenadine hydrochloride (p.579·3); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis; nasal congestion.

Allegro
Note.This name is used for preparations of different composition.
Berlin-Chemie, Ger.
Frovatriptan succinate (p.622·3).
Migraine.

Trima, Israel.
⊗ Fluticasone propionate (p.1533·2).
Allergic rhinitis.

Allegron *Aspen, Austral.; King, UK.*
Nortriptyline hydrochloride (p.413·2).
Depression; nocturnal enuresis.

Allelock *Kyowa, Jpn.*
Olopatadine hydrochloride (p.586·3).
Allergic rhinitis; urticaria.

Allenik *Galen, Turk.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions; motion sickness; vertigo.

Allenopar *Gerot, Austria.*
Paroxetine hydrochloride (p.414·2).
Anxiety; depression; obsessive-compulsive disorder; panic attacks; post-traumatic stress disorder.

Allens Chesty Cough *Allens, UK.*
Ammonium chloride (p.1551·3); tolu tincture (p.1574·2); squill tincture (p.1573·1); menthol (p.2340·1); marrubium (p.1564·1).
Coughs.

Allens Dry Tickly Cough *Allens, UK.*
Benzoin tincture (p.2394·2); ipecacuanha tincture (p.1562·3); capsicum tincture (p.2276·2); cetylpyridinium chloride (p.1635·1).
Coughs.

Allens Junior Cough *Allens, UK.*
Glycerol (p.2314·2); anhydrous citric acid (p.2284·1).
Coughs; sore throat.

Allens Pine & Honey *Allens, UK.*
Ipecacuanha (p.1562·3); liquorice (p.1740·3); pumilio pine oil (p.2376·3); squill oxymel.
Bronchitis; cold symptoms; coughs.

Allent *Ascher, USA.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis; nasal congestion.

AllePak *Everton, USA.*
Day tablets, pseudoephedrine hydrochloride (p.1571·2); hyoscine methonitrate (p.1734·2); night tablets, chlorphenamine maleate (p.571·3); hyoscine methonitrate.
Upper respiratory-tract disorders.

Aller-Aide *Rougier, Canad.*
Diphenhydramine hydrochloride (p.577·2).

Allerax *Bangkok Lab & Cosmetic, Thai.*
Hydroxyzine hydrochloride (p.581·2).
Allergic skin reactions; pruritus; sedative.

Allerbiocid S *Allerbio, Fr.†.*
Benzyl benzoate (p.2036·1); tannic acid (p.2394·3).
Insecticide and antifungal for bedding and upholstery.

Allercalm
Note.This name is used for preparations of different composition.
Amnol, Ital.
Zinc orotate; vitamin A (p.1922·1).
Nutritional supplement.

Actavis, UK.
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Allercept *Jamieson, Canad.†.*
Urtica (p.2409·3); perilla fruit.

Allercet *Micro, Thai.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Aller-Chlor *Rugby, USA.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Allercon *Parmed, USA.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Upper respiratory-tract symptoms.

Allercreme *Carme, USA†.*
Emollient and moisturiser.

Allerdine *LBS, Thai.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders.

Allerdrug *Med-One, Gr.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Allerdryl *Valeant, Canad.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity.

Allerest *Fisons, USA†.*
⊗ Naphazoline hydrochloride (p.1565·2).
Minor eye irritation.

Allerest Allergy & Sinus Relief *Heritage Consumer, USA.*
Pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).

Allerest Headache Strength *Ciba, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Upper respiratory-tract symptoms.

Allerest 12 Hour Nasal *Ciba Consumer, USA.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Allerest Maximum Strength *Ciba, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Upper respiratory-tract symptoms.

Allerest Sinus Pain Formula *Ciba, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Upper respiratory-tract symptoms.

AllerEze
Note. A similar name is used for preparations of different composition (see below).
Alphapharm, Austral.
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Aller-Eze
Note. A similar name is used for preparations of different composition (see above).
Novartis Consumer, UK.
Azelastine hydrochloride (p.568·2).
Allergic conjunctivitis; allergic rhinitis.

Allerfen *Sella, Ital.†.*
Promethazine hydrochloride (p.588·2).
Hypersensitivity reactions; insomnia.

Allerfre *Boots Healthcare, Neth.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Allerfrim *Rugby, USA.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Upper respiratory-tract symptoms.

Allerfrim with Codeine *Rugby, USA.*
Pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2); triprolidine hydrochloride (p.592·3).
Coughs and cold symptoms.

Allerg-Abak *Thea, Neth.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis.

Allergan *Bouty, Ital.*
Diphenhydramine hydrochloride (p.577·2).
Insect bites; pruritus; sunburn.

Allergan Enzymatic *Allergan, USA.*
Papain (p.2362·3) (p.1622·2).
Cleansing solution for soft contact lenses.

Allergefon *SERP, Mon.*
Carbinoxamine maleate (p.570·2).
Hypersensitivity reactions.

Allergen *Goldline, USA.*
Benzocaine (p.1854·1); phenazone (p.116·1); glycerol (p.2314·2).
Ear pain.

Allergex *Adcock Ingram, S.Afr.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Allergie-Injektopas *Pascoe, Ger.*
Homoeopathic preparation.

Allergies Relief *Homeocan, Canad.*
Homoeopathic preparation.

Allergika
Note.This name is used for preparations of different composition.
Illa, Ger.†.
Bath additive: Soya oil (p.1965·3).
Skin disorders.

Illa, Ger.†.
Cream; ointment: White soft paraffin (p.2031·2); liquid paraffin (p.2030·3).
Skin disorders.

Allergin
Note.This name is used for preparations of different composition.
Propan, S.Afr.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

PP Lab, Thai.†.
Chlorphenamine maleate (p.571·3).
Hypersensitivity.

Allergo-COMOD *Croma, Austria; Ursapharm, Cz.; Ioltech, Fr.†; Ursapharm, Ger.; Ursapharm, Neth.; Ursapharm, Pol.; Ursapharm, Switz.; Biem, Turk.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis.

Allergocrom *Ursapharm, Cz.; Ursapharm, Ger.; Ursapharm, Malaysia†; Ursapharm, Neth.†; Ursapharm, Pol.; Biem, Turk.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis; vernal keratoconjunctivitis.

Allergocrom Kombi *Ursapharm, Cz.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis.

Obstructive airways disease.

Allergospasmine *Asta Medica, Switz.†.*
⊗ Sodium cromoglicate (p.1136·3); reproterol hydrochloride (p.1131·1).
Obstructive airways disease.

Allergospray *Viatris, Austria.*
Azelastine hydrochloride (p.568·2).
Allergic rhinitis.

Allergostop *Biomedica-Chemica, Gr.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis.

Allergosyx *Syxyl, Ger.†.*
Homoeopathic preparation.

Allergotin *Cooper (Κοπερ), Gr.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis.

Allergoval *Kohler-Pharma, Ger.*
Sodium cromoglicate (p.1136·3).
Hypersensitivity reactions.

Allergovit
Allergopharma, Ger.; Allergopharma, Switz.
Allergen extracts (p.2250·2).
Allergen immunotherapy.

ACM, Neth.; Allergopharma, Pol.
Pollen allergens (p.2370·2) (p.2250·2).
Allergen immunotherapy; hyposensitisation.

Allergy *Parmed, USA.*
Chlorphenamine maleate (p.571·3).

Allergy Caplets *Tanta, Canad.*
Diphenhydramine hydrochloride (p.577·2).

Allergy Drops *Bausch & Lomb, Canad.; Bausch & Lomb, USA†.*
⊗ Naphazoline hydrochloride (p.1565·2).
Eye irritation.

† This preparation may no longer be actively marketed
⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Allergy Elixir *Tanta, Canad.*
Diphenhydramine hydrochloride (p.577·2).

Allergy Formula *Perrigo, Canad.; Vita Health, Canad.*
Diphenhydramine hydrochloride (p.577·2).

Allergy Relief
Note. This name is used for preparations of different composition.
Brauer, Austral.
Homoeopathic preparation.
Apotex, Canad.
Cetirizine hydrochloride (p.570·3).
Unichem, UK; Zee, USA.
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Allergy Sinus *Vita Health, Canad.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).

Allerief *Orbis Consumer, UK.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Allerin
Note. This name is used for preparations of different composition.
Medifarma, Indon.
⊗ Guaifenesin (p.1561·3); sodium citrate (p.1673·3); diphenhydramine hydrochloride (p.577·2); phenylpropanolamine hydrochloride (p.1569·3); alcohol (p.1625·2).
Cough.
United American, Singapore.
Diphenhydramine hydrochloride (p.577·2); guaifenesin (p.1561·3); phenylephrine hydrochloride (p.1568·1). Formerly contained diphenhydramine hydrochloride, guaifenesin, phenylpropanolamine hydrochloride, and sodium citrate.
Allergic rhinitis; cold symptoms; sinusitis; sore throat.
Great Eastern, Thai.; United American, Thai.
Diphenhydramine hydrochloride (p.577·2); guaifenesin (p.1561·3); sodium citrate (p.1673·3).
Coughs and cold symptoms.

Allerin AH *United Laboratories, Philipp.*
Diphenhydramine hydrochloride (p.577·2).
Cough; motion sickness; rhinitis.

Allerin Reformulated *United Laboratories, Philipp.*
Diphenhydramine hydrochloride (p.577·2); phenylpropanolamine hydrochloride (p.1569·3).
Cold and influenza symptoms; cough; upper respiratory-tract inflammation.

Allerjin *Gunsa, Turk.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions; motion sickness; vertigo.

Allerket *Pulitzer, Ital.*
Ketotifen fumarate (p.582·2).
Allergic rhinitis.

Allerlux *Mediwhite, Ital.*
Liquorice (p.1740·3); calendula (p.2273·1); lappa (p.2330·3); helichrysum italicum.
Allergic disorders.

AllerMax
Note. This name is used for preparations of different composition.
Schering-Plough, Austral.†.
⊗ Mometasone furoate (p.1539·3).
Allergic rhinitis.
Pfeiffer, USA.
Diphenhydramine hydrochloride (p.577·2).
Insomnia; motion sickness; parkinsonism.

Allermed *Murdock, USA.*
Pseudoephedrine hydrochloride (p.1571·2).
Nasal congestion.

Allermin *Synco, Hong Kong.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Allermine *Xixia, S.Afr.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Allernix *Rougier, Canad.*
Diphenhydramine hydrochloride (p.577·2).
Antihistamine.

Allernon *Lannacher, Austria.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Allerphed *Great Southern, USA.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Upper respiratory-tract symptoms.

Allerphen *Malayan, Singapore†.*
Chlorphenamine maleate (p.571·3).
Hay fever; hypersensitivity reactions; insect bites; pruritus.

Allersan *Europharm, Hong Kong.*
⊗ Betamethasone (p.1518·2); dexchlorpheniramine maleate (p.572·1).
Hypersensitivity reactions.

Allerset *Santa, Turk.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Allersil *Silom, Thai.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; hay fever.

Allersol *Sanovel, Turk.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis.

Allersoothe *AFT, NZ.*
Promethazine hydrochloride (p.588·2).
Hypersensitivity reactions; premedication; sedative.

Allerta *United Laboratories, Philipp.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Aller-Tab *Silom, Thai.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; hay fever.

Allertec *Polfa Warszawa, Pol.; Warsaw-Polfa, Rus.; Korean Drug, Singapore†.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders; pruritus; urticaria.

AllerTek *Ratiopharm, UK.*
Cetirizine (p.571·1).
Allergic rhinitis; urticaria.

Allertyn *DHA, Hong Kong; DHA, Singapore.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; urticaria.

AlleRx
Note. This name is used for preparations of different composition.
Adams, USA.
Suspension: Phenylephrine tannate (p.1568·3); chlorphenamine tannate (p.572·2); mepyramine tannate (p.585·2).
Upper respiratory-tract disorders.
Adams, USA.
Tablets: AM Tablets, pseudoephedrine hydrochloride (p.1571·2); hyoscine methonitrate (p.1734·2); PM tablets, chlorphenamine maleate (p.571·3); hyoscine methonitrate.
Cold symptoms; rhinitis; sinusitis.

Allerzil *Bruno, Ital.†.*
Terfenadine (p.590·3).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders.

Allestra *Ache, Braz.*
Gestodene (p.2105·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

Allevyn *Smith & Nephew, Austral.; Smith & Nephew, Fr.; Smith & Nephew, Ger.†; Smith & Nephew, Irl.†; Smith & Nephew, Ital.; Smith & Nephew, UK.*
Hydrophilic polyurethane dressing (p.1611·1).
Ulcers; wounds.

Allfen *MCR, USA.*
Guaifenesin (p.1561·3).
Coughs.

Allfen-DM *MCR, USA.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Cough.

Alli *GSK, USA.*
Orlistat (p.2358·1).
Obesity.

Alliocaps *Madaus, Arg.*
Garlic (p.2309·2).

Alliofil *Herbapol Poznan, Pol.*
Garlic (p.2309·2); urtica (p.2409·3).
Atherosclerosis; gastrointestinal, urinary-tract, and respiratory-tract disorders.

Alliogal *Gal, Pol.†.*
Garlic (p.2309·2); evening primrose oil (p.2302·1).
Atherosclerosis; gastrointestinal disorders; hypercholesterolaemia; peripheral vascular disorders.

Alliorut *Herbapol Poznan, Pol.*
Garlic (p.2309·2); crataegus (p.2289·1); troxerutin (p.2305·1).
Hyperlipidaemias; peripheral vascular disorders.

Alliosan *Allmedica, Ger.†.*
Garlic (p.2309·2).
Atherosclerosis; hyperlipidaemias.

Allium Cepa Compose *Boiron, Fr.†.*
Homoeopathic preparation.

Allium Compuesto *Ximena Polanco, Chile.*
Homoeopathic preparation.

Allium Plus *Zeller, Switz.*
Ginkgo biloba (p.2311·1); garlic (p.2309·2).
Cerebrovascular disease.

Allixon *Leti, Venez.*
Vitamin A; vitamin D (p.1922·1).
Vitamin A and D deficiency.

All-Nite Cold Formula *Major, USA.*
Dextromethorphan hydrobromide (p.1555·2); doxylamine succinate (p.578·2); paracetamol (p.108·1). Formerly contained pseudoephedrine hydrochloride, dextromethorphan hydrobromide, doxylamine succinate, and paracetamol.
Coughs and cold symptoms.

Allnol *Merck, Hong Kong†.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allo *ABZ, Ger.; CT, Ger.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

allo-basan *Schonenberger, Switz.†.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allobenz *Ana, Austria.*
Allopurinol (p.552·2); benzbromarone (p.555·2).
Gout; hyperuricaemia; renal calculi.

Allobeta *Betapharm, Ger.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alloboxal *Hexal, Arg.†.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allochrysine *Solvay, Belg.†; Genopharm, Fr.*
Aurotioprol (p.26·3).
Rheumatoid arthritis.

Allo.comp. *Ratiopharm, Ger.*
Allopurinol (p.552·2); benzbromarone (p.555·2).
Gout; hyperuricaemia.

Allo-Efeka *Riemser, Ger.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alloferin *ICN, Austria†; Valeant, Ger.; ICN, Hong Kong†; ICN, Malaysia†; Pharmaco, S.Afr.; ICN, Singapore†.*
Alcuronium chloride (p.1901·3).
Competitive neuromuscular blocker.

Alloferine *ICN, Braz.†.*
Alcuronium chloride (p.1901·3).
Competitive neuromuscular blocker.

Allogut *Atabay, Turk.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allohex *Dankos, Indon.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; urticaria.

Allohexal *Hexal, Austral.; Hexal, NZ.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allomaron *Aventis, Ger.†; Natrapharm, Philipp.; Aventis, S.Afr.†; Aventis, Thai.*
Allopurinol (p.552·2); benzbromarone (p.555·2).
Gout; hyperuricaemia.

Allonol *Ratiopharm, Fin.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; uric acid nephropathy.

Allopin *General Drugs, Thai.*
Allopurinol (p.552·2).
Gout; hyperuricaemia.

Alloptrex *Pierre Fabre, Fr.*
Sodium cromoglicate (p.1136·3).
Allergic eye disorders.

Allopur *Nycomed, Norw.; Ecosol, Switz.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi; uric acid nephropathy.

Allo-Puren *Alpharma-Isis, Ger.†.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alloril *Dexxon, Israel.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi; uric acid nephropathy.

Allorin *Douglas, Austral.†; Douglas, NZ.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alloris *Sanbe, Indon.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; urticaria.

Allosig *Fawns & McAllan, Austral.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allostad *Stada, Austria.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi; uric acid nephropathy.

Allotyrol *Tyrol, Austria†.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi; uric acid nephropathy.

Allo-Urik *Sanli, Turk.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alloxygen *Tynor, Philipp.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Allpyral *Thomson, Austral.; Ebos, NZ†; Miles, USA.*
Range of allergen extracts (p.2250·2).
Allergen immunotherapy.

Allpyral Pure Mite *Bayer, S.Afr.*
D. pteronyssinus extracts (p.2251·1)(p.2250·2).
Hyposensitisation.

Allpyral Special Grass *Bayer, S.Afr.*
Grass pollen extracts (p.2370·2)(p.2250·2).
Hyposensitisation.

Allsan *Biomed, Switz.*
A range of vitamin preparations with or without minerals (p.1922·1).

Allstam *Biostam (Βιοσταμ), Gr.*
Carbocisteine (p.1553·2).
Respiratory disorders associated with viscous mucus.

Alltracel P *Synapse, Irl.†.*
Calcium cellulose (p.1075·1).
Haemorrhage.

Alltracel S *Synapse, Irl.†.*
Calcium cellulose (p.1075·1); chlorhexidine (p.1635·2).
Haemorrhage.

Allumag M *Camden, Singapore.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1).
Gastric hyperacidity.

Allumag MPS *Camden, Singapore.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); simeticone (p.1770·2).
Gastric hyperacidity; gastro-oesophageal reflux.

Alluna Nacht *GSK Consumer, Ger.*
Valerian (p.2410·1); lupulus (p.2335·2).
Nervous disorders; sleep disorders.

Allupol *Polfa Grodzisk, Pol.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allurase *Terramedic, Philipp.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allurene *Schering, Austria; Schering, Neth.*
Estradiol (p.2097·2); drospirenone (p.2095·2).
Menopausal disorders; osteoporosis.

Allurit *Teofarma, Ital.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Allvoran *TAD, Ger.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal, joint, and soft-tissue disorders; pain.

Allya
Note. This name is used for preparations of different composition.
Pascoe, Ger.
Injection: Homoeopathic preparation.
Pascoe, Ger.†.
Ointment: St John's wort oil (p.423·2); camphor (p.2273·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.
Pascoe, Ger.
Tablets: Devil's claw root (p.39·1).
Musculoskeletal and joint disorders.

Alma *Adcock Ingram, S.Afr.*
Peppermint oil (p.1761·2); cardamom (p.2277·1).
Carminative.

Almacon *Pyridam, Indon.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; gastritis; peptic ulcer.

Almacone *Rugby, USA.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Hyperacidity.

Almag
Note. This name is used for preparations of different composition.
CT, Ger.; Hua, Thai.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2) or magnesium trisilicate (p.1744·1).
Gastric hyperacidity; gastritis; heartburn; peptic ulcer.
Inquifave, Venez.†.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Antacid.

Almagel *Atlas, Canad.; Actavis, Hung.; Balkanpharma, Rus.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Antacid; dyspepsia; gastro-oesophageal reflux; peptic ulcer.

Almagel A *Actavis, Hung.; Balkanpharma, Rus.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); benzocaine (p.1854·1).
Dyspepsia; gastro-oesophageal reflux; peptic ulcer.

Almagel Neo *Balkanpharma, Rus.*
Algeldrate (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; gastritis; gastro-oesophageal reflux; peptic ulcer.

Almagel Plus *Atlas, Canad.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).

Almarion *Chew, Thai.*
Theophylline (p.1140·1).
Obstructive airways disease.

Almarl *Sumitomo, Jpn.*
⊗ Arotinolol hydrochloride (p.1217·3).
Angina pectoris; hypertension; tachycardia; tremor.

Almarytm *3M, Ital.*
Flecainide acetate (p.1288·1).
Arrhythmias.

Almasal *Chew, Thai.*
⊗ Theophylline (p.1140·1); salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Alma-Tar *Vita, Venez.†.*
Cade oil (p.1616·1).
Scalp psoriasis; seborrhoea.

Almax *Almirall, Mex.; Almirall, Spain.*
Almagate (p.1705·1).
Dyspepsia; gastric hyperacidity; hiatus hernia; oesophagitis; peptic ulcer.

Almay Protective Lip Care *Revlon, Canad.†.*
SPF 25: Avobenzone (p.1589·3); octinoxate (p.1608·2); octisalate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Almebex Plus B_{12} *Dayton, USA.*
Vitamin B substances (p.1922·1).

Almepan *Spefar, Venez.†.*
Methyldopa (p.1334·1).
Hypertension.

Almevax *Chiron Vaccines, UK.*
A rubella vaccine (Wistar RA 27/3 strain) (p.2236·3).
Active immunisation.

Almic *TS, Ital.*
Fish oil (p.1362·2).
Nutritional supplement.

Almide *Alcon, Fr.*
Lodoxamide trometamol (p.2334·2).
Allergic eye disorders.

Almigripe *Jaba, Port.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Almin *SAD, Denm.*
Aluminium glycinate (p.1706·2).
Gastric hyperacidity; gastro-oesophageal reflux; hyperphosphataemia in renal dysfunction; peptic ulcer.

Alminox *Nycomed, Denm.*
Aluminium glycinate (p.1706·2); magnesium oxide (p.1744·1).
Gastritis; gastro-oesophageal reflux; peptic ulcer.

Almiral
Medochemie, Cz.; Medochemie, Malaysia; Medochemie, Rus.; Medochemie, Singapore; Medochemie, Thai.†.
Diclofenac diethylamine (p.44·3) or diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain; renal and biliary colic.

Medochemie, Hong Kong.
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders.

Almirid *Poli, Cz.; Desitin, Ger.; Poli, Pol.*
Dihydroergocryptine mesilate (p.364·2).
Hyperprolactinaemia; lactation inhibition; migraine; parkinsonism.

Almiron *Nutricia, Thai.†.*
Infant feed (p.1922·1).
Lactase deficiency; lactose intolerance.

Almiron Pepti *Nutricia, Fin.*
Infant feed (p.1922·1).
Cow's milk and soya protein allergy.

Almodin *Nordin, Mex.*
Aesculus (p.2248·2); hamamelis (p.2318·2).
Haemorrhoids; varices.

Almogran *Almirall, Belg.; Almirall, Denm.; Leiras, Fin.; Almirall, Fr.; Almirall, Ger.; Organon, Irl.; Almirall, Ital.; Almirall, Neth.; Almirall, Norw.; Almirall, Port.; Almirall, Spain; Nycomed, Swed.; Organon, UK.*
Almotriptan malate (p.617·3).
Migraine.

Almora
Note. This name is used for preparations of different composition.
Elpen (Ελπεν), Gr.
Potassium chloride; sodium bicarbonate; sodium chloride (p.1672·2).
Oral rehydration solution.

Forest Pharmaceuticals, USA†.
Magnesium gluconate (p.1679·2).
Dietary supplement.

Almorsan *TRB, Arg.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Almotrex *Solvay, Ital.*
Almotriptan malate (p.617·3).
Migraine.

Almyrol *Lysoform, Ger.*
Guanidine derivative; alkylamine; didecyldimethylammonium chloride (p.1642·2).
Instrument disinfection.

Alna *Boehringer Ingelheim, Austria; Boehringer Ingelheim, Ger.*
Tamsulosin hydrochloride (p.2197·1).
Benign prostatic hyperplasia.

Alnagon *Zentiva, Cz.*
Aspirin (p.20·3); caffeine (p.1116·3); phenobarbital (p.492·2); codeine phosphate (p.37·2).
Pain.

Alnase *Taro, Israel.*
⊗ Phenylephrine hydrochloride (p.1568·1); naphazoline hydrochloride (p.1565·2); mepyramine maleate (p.585·2).
Cold symptoms; rhinitis; sinusitis.

Alnax *Masa, Thai.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

Alnex *Pisa, Mex.*
Dipyrone (p.49·2).
Fever; pain.

Alnok *Durascan, Denm.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; hay fever; urticaria.

Aloclair *Butler, Ger.; Forest Laboratories, UK.*
Povidone (p.2146·1).
Mouth pain.

Alocril *Allergan, Canad.; Allergan, USA.*
Nedocromil sodium (p.1127·3).
Allergic conjunctivitis.

Alodan *Gerot, Austria.*
⊗ Pethidine hydrochloride (p.113·2).
Pain.

Alodont *Pfizer Sante, Fr.; Uhlmann-Eyraud, Switz.†.*
Cetylpyridinium chloride (p.1635·1); chlorobutanol (p.1639·2); eugenol (p.2301·2).
Mouth and throat disorders; mouth and throat infections.

Alodorm *Alphapharm, Austral.; Alphapharm, Thai.†; TTN, Thai.†.*
Nitrazepam (p.1011·2).
Insomnia.

Alodox *Ocusoft, USA.*
Doxycycline (p.267·1).
Bacterial infections.

Aloe Complex *Dolisos, Canad.†.*
Homoeopathic preparation.

Aloe Grande *Gordon, USA.*
Vitamin A (p.1971·2); vitamin E (p.1992·2); aloe vera (p.1588·2).
Skin disorders.

Aloe Vera Plus *GNLD, Austral.*
Aloe vera (p.1588·2); ascorbic acid; chamomile; eleutherococcus senticosis; passion flower (p.1922·1).
Digestive disorders; tonic.

Aloe Vesta *Convatec, USA.*
Emollient.

Aloebel *Fortbenton, Arg.*
⊗ Aloe vera (p.1588·2); urea (p.1620·2).

Aloelax *Knop, Chile.*
Cape aloes (p.1705·2); linseed (p.2333·3).
Constipation.

Alofedina *Coll, Spain.*
Aloes (p.1705·2); belladonna (p.2263·3); ipecacuanha (p.1562·3); nux vomica (p.2355·3); podophyllum (p.1610·2).
Formerly contained aloin, belladonna, phenolphthalein, ipecacuanha, nux vomica, and podophyllum.
Constipation.

Alofresh *Garden House, Arg.†.*
Sunflower oil (p.1970·3); parsley oil (p.2363·2).
Dietary supplement; halitosis.

Alogesia *Seid, Spain.*
Ibuprofen lysine (p.64·2).
Fever; pain.

Aloid *Janssen-Cilag, Mex.*
Miconazole nitrate (p.541·3).
Fungal skin and nail infections.

Alois *Apsen, Braz.*
Memantine hydrochloride (p.367·1).
Alzheimer's disease; parkinsonism.

Alomen *Benedetti, Ital.*
Ceftezole sodium (p.235·3).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Alomide *Alcon, Arg.; Alcon, Austria†; Alcon, Belg.; Alcon, Braz.; Alcon, Canad.; Alcon, Chile; Alcon, Cz.; Alcon, Denm.; Alcon, Fin.; Alcon, Ger.; Alcon, Gr.; Alcon, Hong Kong; Alcon, Hung.; Alcon, Indon.; Alcon, Irl.; Alcon, Israel; Alcon, Ital.; Alcon, Malaysia; Alcon, Mex.; Alcon, Norw.; Alcon, Pol.; Alcon, Port.; Alcon, Rus.; Alcon, S.Afr.; Alcon, Singapore; Alcon Cusi, Spain; Alcon, Switz.†; Alcon, Thai.; Alcon, Turk.; Alcon, UK; Alcon, USA; Alcon, Venez.*
Lodoxamide trometamol (p.2334·2).
Allergic conjunctivitis; keratitis; vernal keratoconjunctivitis.

Alonet *Pharmachemie, Singapore†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Alopam *Alpharma, Denm.; Alpharma, Fin.†; Alpharma, Norw.*
Oxazepam (p.1014·2).
Anxiety; insomnia; neuroses; restlessness.

Alopate *Wolfs, Belg.*
Zinc oxide (p.1621·2); titanium oxide (p.1617·3); kaolin (p.1738·1).
Skin disorders.

Alopek *Royal, Chile.*
Minoxidil (p.1342·1).
Alopecia androgenetica.

Aloperidin *Janssen-Cilag, Gr.*
Haloperidol (p.1000·2) or haloperidol decanoate (p.1000·2).
Huntington's chorea; psychoses; tics.

Alopexy *Pierre Fabre, Fr.; Pierre Fabre, Israel; Pierre Fabre, Neth.; Pierre Fabre, Spain; Pierre Fabre, Switz.*
Minoxidil (p.1342·1).
Alopecia androgenetica.

Alophen *Numark, Canad.; Numark, USA.*
Bisacodyl (p.1710·1).
Constipation.

Aloplastine *Wolfs, Belg.; Medix, Fr.*
Zinc oxide (p.1621·2); glycerol (p.2314·2); purified talc (p.1615·2).
Napkin rash; skin disorders; skin irritation.

Alopon *Resinag, Switz.†.*
Aluminium chlorohydrate (p.1588·3).
Anorectal disorders.

Alopresin *Sanofi-Aventis, Spain†.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Alopresin Diu *Sanofi-Aventis, Spain†.*
⊗ Hydrochlorothiazide (p.1307·3); captopril (p.1239·2).
Hypertension.

Aloprim *Nabi, USA.*
Allopurinol sodium (p.553·3).
Hyperuricaemia during cancer chemotherapy.

Alor *Atley, USA.*
Hydrocodone tartrate (p.63·1); aspirin (p.20·3).
Pain.

Alora
Note. This name is used for preparations of different composition.
Pharos, Indon.
Vitamin and mineral preparation (p.1922·1).
Pre- and postnatal supplement.

Nobel, Turk.
Passion flower (p.2363·2).
Anxiety; sleep disorders.

Procter & Gamble, USA.
Estradiol (p.2097·2).
Menopausal disorders; oestrogen deficiency.

Alorin *Essex, Ital.†.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders.

Aloset *Recalcine, Chile†.*
Methyldopa (p.1334·1).
Carcinoid syndrome; hypertension.

Alosfar *Esfar, Port.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alosol *Aventis, Mex.*
Polymyxin B sulfate (p.317·3); neomycin sulfate (p.305·1); lidocaine hydrochloride (p.1862·3).
Mouth and throat infections.

Alostil
Note. This name is used for preparations of different composition.
Pfizer Sante, Fr.
Minoxidil (p.1342·1).
Alopecia androgenetica.

Prafa, Indon.
Amikacin sulfate (p.200·3).
Bacterial infections.

Alotec *Boehringer Ingelheim, Jpn.*
⊗ Orciprenaline sulfate (p.1129·1).

Alovell *Novell, Indon.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Alovent *Boehringer Ingelheim, Venez.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Alovir *Caber, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Alox *Andromaco, Chile†.*
Oxcarbazepine (p.490·3).
Epilepsy.

Aloxan Derma *Resinag, Israel.*
Aluminium chlorohydrate (p.1588·3).
Burns; skin disorders; skin ulceration; wounds.

Aloxi *Medicom, Cz.; Galenica, Gr.; Helsinn Birex, Hung.; Helsinn Birex, Irl.; Italfarmaco, Ital.; Helsinn Birex, Neth.; Helsinn Birex, Pol.; Maelor, UK; MGI, USA.*
Palonosetron hydrochloride (p.1759·3).
Nausea and vomiting associated with cancer chemotherapy.

Aloxid *Interbat, Indon.*
Minoxidil (p.1342·1).
Alopecia.

Aloxidil *IDI, Ital.*
Minoxidil (p.1342·1).
Alopecia androgenetica.

Alozur *Ozone, Cz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Alpagelle *Pharmadeveloppement, Fr.*
Miristalkonium chloride (p.1653·3).
Contraceptive.

Alpara *Molex Ayus, Indon.*
Paracetamol (p.108·1); phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3); dextromethorphan hydrobromide (p.1555·2).
Cough; influenza symptoms.

Alpaz *Royal, Chile.*
Zopiclone (p.1039·1).
Insomnia.

Alpenaso *Soho, Indon.*
Terfenadine (p.590·3).
Allergic rhinitis; allergic skin disorders.

Alperol *Pharmasant, Thai.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension; tremor.

Alpertan *Raffo, Arg.*
Valsartan (p.1420·2).
Hypertension.

1-Alpha *Leo, Belg.*
Alfacalcidol (p.1986·1).
Hypoparathyroidism; osteoporosis; renal osteodystrophy; rickets.

Alpha Cade *Dermoteca, Port.*
Salicylic acid (p.1612·2); cade oil (p.1616·1); cedar oil (p.2400·3).
Psoriasis; seborrhoeic dermatitis.

Alpha D3 *Sidus, Arg.; Teva, Cz.; Gerolymatos, Gr.; Teva, Hong Kong; Teva, Hung.; GSK, India; Teva, Israel; Teva, Ital.; Teva, Rus.; Teva, Singapore; Teva, Thai.; Med, Turk.; Vivax, Venez.*
Alfacalcidol (p.1986·1).
Hyperparathyroidism; hypoparathyroidism; neonatal hypocalcaemia; osteomalacia; osteoporosis; pseudohypoparathyroidism; renal osteodystrophy; rickets; vitamin D deficiency.

Alpha 5 DS *Merck Medication Familiale, Fr.†.*
Glycolic acid (p.1598·1); piroctone olamine (p.1610·1); alpha hydroxy acid esters; levomenol (p.2333·3); allantoin (p.1588·1); vitamin A palmitate (p.1973·1); vitamin E acetate (p.1992·3).
Skin disorders.

Alpha Keri
Note. This name is used for preparations of different composition.
BMS, Austral.; BMS, Hong Kong; BMS, NZ; BMS, UK.
Liquid paraffin (p.2030·3); lanolin oil (p.2033·2).
Bath additive; dry skin disorders; nappy rash; pruritus.

BMS, Canad.†; Novartis, USA.
Bath oil: Liquid paraffin (p.2030·3); liquid lanolin (p.2033·2).
Dermatitis; dry, pruritic skin disorders.

BMS, USA†.
Cleansing bar: Skin cleanser.

Alpha Septol *Dermoteca, Port.*
Pyrithione zinc (p.1611·2); piroctone olamine (p.1610·1); salicylic acid (p.1612·2).
Seborrhoeic dermatitis.

Alpha Toothache Essence *Adco, S.Afr.*
Phenol (p.1656·1); clove oil (p.2285·1).
Toothache.

Alpha UV *LED, Fr.†.*
SPF 15; SPF 30: Avobenzone (p.1589·3); octinoxate (p.1608·2); titanium dioxide (p.1617·3).
Sunscreen.

Alpha-Amoxi *Apotex, NZ.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Alpha-Amoxyclav *Alpha, NZ.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Alphabikal *Demo, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alphacaine *Dentsply, Fr.; Simaport, Port.; Heck, Switz.*
⊗ Articaine hydrochloride (p.1854·1).
Adrenaline hydrochloride (p.1203·3) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Alphacal *Energon, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alphacedre *Dermoteca, Port.*
Vitamin B substances (p.1922·1); chlorhexidine gluconate (p.1635·3); cedar oil (p.2400·3).
Scalp disorders.

Alphacin *Alphapharm, Austral.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Alphacutanee *Leurquin, Fr.†.*
Chymotrypsin (p.2281·3).
Oedema.

Alphaderm *Alliance, Irl.; Alliance, UK.*
⊗ Hydrocortisone (p.1535·2); urea (p.1620·2).
Skin disorders.

Alphadinal *Alpharma, Mex.*
⊗ Naphazoline hydrochloride (p.1565·2).
Nasal congestion.

Alphadine
Note. This name is used for preparations of different composition.
Minerva (Μινερβα), Gr.
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Nicholas Piramal, India†.
Povidone-iodine (p.1659·2).
Bacterial and fungal infections of the skin and mucous membranes; skin disinfection.

Alphadol *Panacea, India.*
Alfacalcidol (p.1986·1).
Hyperparathyroidism; hypoparathyroidism; osteoporosis.

Alphadopa *Wockhardt, India.*
Methyldopa (p.1334·1).
Hypertension.

Alpha-Due *Phoinix Pharm (Φοινιξ Φαρμ), Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alphaflam *Winthrop, Ger.*
Thioctic acid (p.2400·2).
Diabetic polyneuropathy.

Alphagan *Allergan, Arg.; Allergan, Austral.; Allergan, Austria; Allergan, Belg.; Allergan, Braz.; Allergan, Canad.; Allergan, Chile; Allergan, Cz.; Allergan, Denm.; Allergan, Fin.; Allergan, Fr.; Allergan, Ger.; Alvia (Αλβια), Gr.; Allergan, Hong Kong; Allergan, Hung.†; Allergan, Irl.; Allergan, Israel; Allergan, Ital.; Allergan, Malaysia; Allergan, Mex.; Allergan, NZ; Allergan, Neth.; Allergan, Norw.; Allergan, Philipp.; Allergan, Pol.; Allergan, Port.; Allergan, S.Afr.; Allergan, Singapore; Allergan, Spain; Allergan, Swed.; Allergan, Switz.; Allergan, Thai.; Abdi, Turk.; Allergan, UK; Allergan, USA; Allergan, Venez.*
Brimonidine tartrate (p.1878·3).
Glaucoma; ocular hypertension.

Alphahist *Apex, Indon.*
Cyproheptadine hydrochloride (p.575·1).
Allergic skin disorders; reduced appetite.

Alphakeptol *Dermoteca, Port.†.*
Pyrithione zinc (p.1611·2); salicylic acid (p.1612·2); piroctone olamine (p.1610·1).
Scalp disorders.

Alpha-Lipogamma *Worwag, Ger.*
Thioctic acid (p.2400·2), meglumine thioctate (p.2400·2) or ethylenediamine thioctate (p.2400·2).
Diabetic polyneuropathy.

Alpha-Lipon
Note. This name is used for preparations of different composition.
Stada, Cz.†.
Thioctic acid (p.2400·2).
Diabetic polyneuropathy; liver disorders.

Aliud, Ger.; Stada, Ger.
Thioctic acid (p.2400·2) or ethylenediamine thioctate (p.2400·2).
Diabetic polyneuropathy.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Alphalox-D *Alpharma, Mex.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dicycloverine hydrochloride (p.1722·3).
Dyspepsia; gastric hyperacidity.

Alphamid *Actavis, Indon.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Alphamol *Molex Ayus, Indon.*
Paracetamol (p.108·1).
Fever; pain.

Alphamox *Alphapharm, Austral.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Alphanate *Grifols, Hong Kong; Alpha Therapeutic, Ital.; Grifols, Malaysia; Grifols, Neth.; Grifols, Philipp.; Grifols, Singapore; Grifols, Thai.; Grifols, UK; Grifols, USA.*
A factor VIII preparation (p.1067·1).
Haemorrhagic disorders.

Alphanine *Grifols, Ger.; Grifols, Hong Kong; Alpha Therapeutic, Ital.; Grifols, Malaysia; Grifols, Neth.; Grifols, Philipp.; Grifols, Singapore; Grifols, Thai.; Grifols, UK; Grifols, USA.*
A factor IX preparation (p.1068·3).
Factor IX deficiency; haemophilia B.

Alphaparin *Grifols, UK†.*
Certoparin sodium (p.1242·3).
Venous thromboembolism prophylaxis.

Alphapen *Unipharm, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Alpha-Plus *Genepharm, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alphapress *Alphapharm, Austral.*
Hydralazine hydrochloride (p.1305·3).
Hypertension.

Alphapril *Alphapharm, Austral.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Alpharegul *Arlor, Fr.*
Cucurbita oil; urtica; borage oil; soya lecithin; beeswax; zinc oxide; vitamin E; pyridoxine hydrochloride (p.1922·1).
Hair loss.

Alpharexin *Alpharma, Mex.*
Vitamin B substances; vitamin C; ferrous sulfate; zinc sulfate (p.1922·1).

Alphasidol *AG Therapy, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alphastria *Zambon, Switz.*
Sodium hyaluronate (p.2320·1); vitamin A palmitate (p.1973·1); alpha tocoferil acetate (p.1992·3); dexpanthenol (p.2362·1); allantoin (p.1588·1); camphor (p.2273·2); menthol (p.2340·1).
Prevention of skin striae.

Alphatrex *Savage, USA†.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

alpha-Vibolex *Rosen, Ger.*
Thioctic acid (p.2400·2).
Diabetic polyneuropathy.

Alpha-Zedex *Wockhardt, India†.*
Terfenadine (p.590·3); bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3).
Cold symptoms; coughs.

Alphazol *Vocate, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Alphazole *Dermoteca, Port.†.*
Climbazole (p.529·3); salicylic acid (p.1612·2); cedar oil (p.2400·3).
Scalp disorders.

Alphexine *Lilly, Fr.†.*
Cefaclor (p.217·2).
Bacterial infections.

Alphosyl
Note. This name is used for preparations of different composition.
Block, Austria; GSK Sante, Fr.†; Stafford-Miller, Israel†; Meda, Swed.†; Stafford-Miller, Switz.†.
Allantoin (p.1588·1); coal tar (p.1616·2).
Psoriasis; skin disorders.

Stafford-Miller, Irl.†.
Coal tar (p.1616·2).
Scalp disorders.

GSK Consumer, Spain.
Cream; topical solution: Allantoin (p.1588·1); coal tar (p.1616·2).
Psoriasis; seborrhoeic dermatitis.

Stafford-Miller, Austral.; GSK, S.Afr.
Lotion: Allantoin (p.1588·1); coal tar (p.1616·2).
Psoriasis.

GSK, S.Afr.
Scalp application: Coal tar (p.1616·2).
Skin and scalp disorders.

Stafford-Miller, Austral.; GSK Consumer, Spain.
Shampoo: Coal tar (p.1616·2).
Scalp disorders.

Alphosyl 2 in 1 *GSK, Israel; GSK Consumer, UK.*
Coal tar (p.1616·2).
Scalp disorders.

Alphosyl HC
Note. This name is used for preparations of different composition.
Stafford-Miller, Irl.†.
⊗ Coal tar (p.1616·2); hydrocortisone (p.1535·2).
Psoriasis.

Stafford-Miller, Israel†; GSK Consumer, UK.
⊗ Allantoin (p.1588·1); coal tar (p.1616·2); hydrocortisone (p.1535·2).
Psoriasis.

Alphosyle *Balverda, Ital.†.*
Allantoin (p.1588·1); coal tar (p.1616·2).
Psoriasis.

Alpicort
Note. This name is used for preparations of different composition.
Montavit, Austria.
⊗ Prednisolone (p.1540·3); salicylic acid (p.1612·2); coal tar (p.1616·2); colloidal sulfur (p.1614·1); thymol (p.1664·3).
Scalp disorders.

Wolff, Cz.; Wolff, Ger.; Wolff, Hung.; Wolff, Pol.
⊗ Prednisolone (p.1540·3); salicylic acid (p.1612·2).
Alopecia areata; eczema; psoriasis; scalp disorders.

Alpicort E *Wolff, Pol.*
⊗ Prednisolone (p.1540·3); salicylic acid (p.1612·2); estradiol benzoate (p.2097·2).
Alopecia.

Alpicort F *Wolff, Cz.; Wolff, Ger.; Wolff, Hung.; Medika, Switz.*
⊗ Prednisolone (p.1540·3); salicylic acid (p.1612·2); estradiol benzoate (p.2097·2).
Alopecia; scalp disorders.

Alpider *Velka, Gr.*
⊗ Betamethasone valerate (p.1519·1); fusidic acid (p.279·3).
Infected skin disorders.

Alpin *Arlex, Mex.*
Hyoscine butylbromide (p.1734·1).

Alpirex *Berman, Mex.*
Paracetamol (p.108·1).
Fever; pain.

Alplax *Gador, Arg.*
Alprazolam (p.960·1).
Anxiety; panic attacks.

Alplax Digest *Gador, Arg.*
Alprazolam (p.960·1); sulpiride (p.1028·3).
Somatic disorders.

Alplax Net *Gador, Arg.*
Alprazolam (p.960·1); domperidone (p.1726·2); simeticone (p.1770·2).
Anxiety with gastrointestinal disorders.

Alpovex *Rivero, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Alpoxen *Alpharma, Fin.; Alpharma, Norw.†; Alpharma, Swed.*
Naproxen (p.92·3).
Fever; gout; inflammation; musculoskeletal and joint disorders; pain.

Alpralid *CTI, Israel.*
Alprazolam (p.960·1).
Anxiety; panic disorders.

Alpram *Valmor, Venez.*
Alprazolam (p.960·1).
Anxiety; depression; panic disorder.

Alpranax *YSP, Malaysia.*
Alprazolam (p.960·1).
Anxiety; depression; panic disorder.

Alprastad *Stada, Austria.*
Alprazolam (p.960·1).
Anxiety.

Alpratyrol *Tyrol, Austria†.*
Alprazolam (p.960·1).
Anxiety disorders.

Alpravecs *Marvecs, Ital.*
Alprazolam (p.960·1).
Anxiety disorders; panic disorders.

Alprax *Arrow, Austral.; Arrow, Hong Kong; Torrent, India; Torrent, Thai.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states; panic disorder.

Alpraz *SMB, Belg.*
Alprazolam (p.960·1).
Anxiety; depression; panic disorder.

Alprazig *Baldacci, Ital.*
Alprazolam (p.960·1).
Anxiety disorders.

Alprazol *Casasco, Arg.*
Alprazolam (p.960·1).
Anxiety; panic disorder.

Alprazomed *Ethimed, Belg.*
Alprazolam (p.960·1).
Anxiety disorders.

Alprazomerck *Generics, Pol.*
Alprazolam (p.960·1).
Anxiety.

Alpress *Pfizer, Fr.*
Prazosin hydrochloride (p.1375·2).
Hypertension.

Alprim *Alphapharm, Austral.; Alphapharm, Malaysia; Alphapharm, Singapore; Merck, Singapore.*
Trimethoprim (p.355·2).
Bacterial infections of the urinary tract.

Alprocontin *Modi-Mundipharma, India.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

Alpron *Aldril, Philipp.*
Naproxen (p.92·3).
Gout; musculoskeletal and joint disorders; pain.

Alpronax *Merck, Port.†.*
Alprazolam (p.960·1).
Anxiety disorders.

Alprostan *Zentiva, Cz.; Zentiva, Rus.*
Alprostadil (p.2183·2).
Maintenance of patent ductus arteriosus; peripheral vascular disorders.

Alprostapint *Gebro, Austria; Pint, Austria; Pint, Cz.; Pint, Hung.; Pint, Israel.*
Alprostadil (p.2183·2).
Maintenance of patent ductus arteriosus; peripheral arterial occlusion.

Alprostar *Recordati, Ital.*
Alprostadil alfadex (p.2183·3).
Thromboangiitis obliterans.

Alprox *Orion, Denm.; Orion, Fin.; Orion, Irl.; Orion, Israel; Orion, Pol.*
Alprazolam (p.960·1).
Alcohol withdrawal syndrome; anxiety; panic disorder.

Alpurase *Biolink, Philipp.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Alpuric *Socobom, Belg.*
Allopurinol (p.552·2).
Gout; renal calculi.

Alquen *GSK, Spain.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Alquimid *Sanfer, Mex.*
Ifosfamide (p.731·3).
Malignant neoplasms.

Alra *Medi-Test, Fr.†.*
A range of skin-care preparations containing aloe vera (p.1588·2) for use in oncology patients.

Alres *Elmor, Venez.*
Paracetamol (p.108·1); caffeine (p.1116·3); dexchlorpheniramine maleate (p.572·1).
Influenza symptoms.

Alrex *Bausch & Lomb, Arg.; Bausch & Lomb, Braz.†; Bausch & Lomb, USA.*
⊗ Loteprednol etabonate (p.1537·3).
Allergic conjunctivitis.

Alrheumun *Teofarma, Ger.*
Ketoprofen (p.73·1).
Gout; inflammation; musculoskeletal and joint disorders.

Alrin *Teva, Israel.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Alrinte *Ativus, Braz.*
Rosemary (p.2381·2).
Dyspepsia; liver and biliary-tract disorders.

Alrof *David, India†.*
Rofecoxib (p.121·1).
Osteoarthritis; pain; rheumatoid arthritis.

Alsart *Meyer, Venez.*
Valsartan (p.1420·2).
Hypertension.

Alsartan *Aristo, India.*
Losartan potassium (p.1326·1).
Hypertension.

Alsartan-AM *Aristo, India.*
Losartan potassium (p.1326·1); amlodipine besilate (p.1214·1).
Hypertension.

Alsartan-H *Aristo, India.*
⊗ Losartan potassium (p.1326·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Alserine *Samakeephaesaj, Thai.†.*
Cimetidine (p.1716·2).
Gastric hyperacidity; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Alsidexten *Lemery, Mex.*
Diclofenac sodium (p.44·3).
Inflammation; pain.

Alsidrine *Alsi, Canad.†.*
Ammonium chloride (p.1551·3); cocillana (p.1554·3).

Alsimine with Vitamins A & D *Alsi, Canad.†.*
Multivitamins with calcium and iron (p.1922·1).

Alsiphene *Alsi, Canad.†.*
Paracetamol (p.108·1).

Alsirub *Alsi, Canad.†.*
Methyl salicylate (p.85·3); menthol (p.2340·1); cineole (p.2282·3).

Alsogil *Also, Ital.†.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Cold and influenza symptoms; pain.

Alsol
Note. This name is used for preparations of different composition.
EGIS, Hung.
Aluminium acetotartrate (p.2255·1).
Skin disorders.

Athenstaedt, Ger.
Ointment: Basic aluminium acetotartrate (p.2255·1).
Superficial wounds.

Athenstaedt, Ger.†.
Topical solution: Basic aluminium acetotartrate (p.2255·1).
Hyperhidrosis; soft-tissue injury.

Alsol N *Athenstaedt, Ger.†.*
Basic aluminium acetotartrate (p.2255·1).
Napkin rash; skin disorders; wounds.

Alsoy *Nestle, Braz.; Nestle, Canad.; Nestle, Ital.†; Nestle, Thai.†.*
Soya preparation (p.1922·1).
Cow's milk intolerance; lactose intolerance; nutritional supplement.

Alstat *David, India.*
Etamsylate (p.1064·3).
Haemorrhage; menorrhagia.

Alsucral *Orion, Fin.; Orion, Malaysia; Orion, Singapore.*
Sucralfate (p.1772·2).
Gastritis; gastro-oesophageal reflux; peptic ulcer.

Alsylax *Boehringer Ingelheim, Chile.*
Bisacodyl (p.1710·1).
Bowel evacuation; constipation.

Altabax *GSK, USA.*
Retapamulin (p.323·2).
Impetigo.

Altace *Aventis, Canad.; King, USA; Sanofi-Aventis, Venez.*
Ramipril (p.1385·3).
Cardiovascular risk reduction; diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Altace Plus *Sanofi-Aventis, Venez.*
⊗ Ramipril (p.1385·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Altacef *Glenmark, India.*
Cefuroxime axetil (p.238·2) or cefuroxime sodium (p.238·2).
Bacterial infections.

Altacet *Lek, Pol.*
Aluminium acetotartrate (p.2255·1).
Oedema.

Altacid *Bosnalijek, Rus.*
Aluminium hydroxide (p.1706·2); magnesium oxide (p.1744·1).
Dyspepsia; gastritis; gastro-oesophageal reflux; peptic ulcer.

Altacite *Roussel, S.Afr.*
Hydrotalcite (p.1733·3).
Gastric hyperacidity.

Altacite Plus *Peckforton, UK.*
Hydrotalcite (p.1733·3); simeticone (p.1770·2).
These ingredients can be described by the British Approved Name Co-simalcite.
Gastrointestinal disorders.

Altaclor *CT, Ital.*
Cefaclor (p.217·2).
Bacterial infections.

Altacura Ipragocce *Alta Care, Ital.*
Chamomile (p.2279·3); hamamelis (p.2318·2); euphrasia (p.2301·3).
Eye irritation.

Altadrine
Note. This name is used for preparations of different composition.
Alta Care, Ital.
Topical gel: ⊗ Garcinia cambogia (p.2309·2); caffeine (p.1116·3); simmondsia chinensis; aesculus (p.2248·2); capsicum (p.2276·2); urea (p.1620·2); methyl nicotinate (p.85·3).
Cellulitis.

Alta Care, Ital.
Transdermal patch: Avena (p.2262·1); green tea (p.2416·1); butcher's broom (p.2270·3); garcinia cambogia (p.2309·2); lemon (p.2332·3); magnesium chloride; ananas sativa; caffeine (p.1116·3).
Slimming-aid.

Altaflora Probiotici *Alta Care, Ital.*
Lactobacillus rhamnosus; *Streptococcus thermophilus*; *Lactobacillus acidophilus*; *Lactobacillus casei* (p.2372·3).
Restoration of gastrointestinal flora.

Altan *Rottapharm, Ital.*
Promelase (p.2373·3).
Haematomas; inflammation; oedema; respiratory-system disorders.

Altargo *GSK, Cz.; GSK, UK.*
Retapamulin (p.323·2).
Bacterial skin infections; impetigo; infected wounds.

Altaryl Childrens Allergy *Altaire, USA.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions.

Altat *Teikoku, Jpn.*
Roxatidine acetate hydrochloride (p.1769·1).
Gastritis; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; premedication; Zollinger-Ellison syndrome.

Altea (Specie Composta) *Dynacren, Ital.†.*
Althaea (p.2253·3); thyme (p.2401·1); fennel (p.2302·3); ribwort plantain (p.2379·1); liquorice (p.1740·3); iceland moss (p.2324·1).
Herbal tea; respiratory-tract congestion.

Alteana *Sevapharma, Cz.*
A tetanus vaccine (p.2240·1).
Active immunisation.

Alteis *Menarini, Fr.*
Olmesartan medoxomil (p.1361·1).
Hypertension.

Alteisduo *Menarini, Fr.*
⊗ Olmesartan medoxomil (p.1361·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Altemol *Andromaco, Mex.†.*
Interferon alfa-n3 (p.885·1).
Anogenital warts.

Alten *Medochemie, Hong Kong†; Medochemie, Malaysia; Medochemie, Singapore.*
Tretinoin (p.1618·1).
Acne.

Altenal *Rayere, Mex.*
Clotrimazole (p.530·1).
Balanitis; fungal skin infections; trichomoniasis; vulvovaginal candidiasis.

Altercor *Farmaprojects, Neth.†.*
Simvastatin (p.1390·2).
Atherosclerosis; hypercholesterolaemia.

Altergen *IBSA, Ital.*
Sodium hyaluronate (p.2320·1); sulfadiazine silver (p.337·2).
Burns; ulcers; wounds.

Alter-H$_2$ *Church, Mex.†.*
Ranitidine hydrochloride (p.1766·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Altermon *Faran, Gr.*
⊗ Menotrophin (p.2109·3).
Male and female infertility.

Alterna *Abbott, Arg.*
Preparation for enteral nutrition (p.1922·1).

ALternaGEL *J&J-Merck, USA.*
Dried aluminium hydroxide gel (p.1706·2).
Hyperacidity symptoms.

Alternus *Recalcine, Chile.*
Haloperidol (p.1000·2).

Altersol *IBSA, Ital.*
Acetylcysteine (p.1548·2).
Respiratory-tract congestion.

Altezerod *Altius, Arg.*
Tegaserod maleate (p.1776·1).

Altezym *Alter, Spain.*
Azithromycin (p.207·1).
Bacterial infections.

Althaea Complex *Blackmores, Austral.*
Maize (p.2288·1); althaea (p.2253·3); buchu (p.2269·3); bearberry (p.2263·3); *d*-alpha tocoferil acid succinate (p.1993·1); vitamin A acetate (p.1973·1).
Urinary-tract disorders.

Althagem *Gemi, Pol.*
Althaea (p.2253·3).
Respiratory-tract disorders.

Althamel *Gemi, Pol.*
Althaea (p.2253·3).
Respiratory-tract disorders.

Althea *Pond's, Philipp.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Acne and hirsutism; combined oral contraceptive; menstrual disorders.

Althrocin *Alembic, India.*
Erythromycin estolate (p.269·3).
Bacterial infections.

Altiazem
Menarini, Cz.†.
Diltiazem resinate (p.1267·1).
Angina pectoris; hypertension; myocardial infarction.

Menarini, Hong Kong; Lusofarmaco, Ital.; Lusofarmaco, Rus.; Menarini, Thai.†.
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension; myocardial infarction.

Alticort *Silesia, Chile.*
⊗ Clobetasol propionate (p.1522·2).
Skin disorders.

Alti-CPA *Altimed, Canad.†.*
Cyproterone acetate (p.2088·2).

Altim *Sanofi-Aventis, Fr.*
⊗ Cortivazol (p.1524·3).
Corticosteroid.

Alti-MPA *Altimed, Canad.†.*
Medroxyprogesterone acetate (p.2113·1).

Altior *Pensa, Spain.*
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Altisben *Alter, Spain.*
Sertraline hydrochloride (p.421·3).
Depression; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder.

Altiva *Ranbaxy, Braz.; Medico Uno, Hung.*
Fexofenadine hydrochloride (p.579·3).
Allergic rhinitis; hypersensitivity reactions; urticaria.

Altiva-D *Ranbaxy, Malaysia.*
Fexofenadine hydrochloride (p.579·3); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis.

Altiver *Maver, Mex.*
Captopril (p.1239·2).
Hypertension.

Altix *Herba Studio, Pol.*
Aluminium acetotartrate (p.2255·1).
Musculoskeletal, joint, and soft-tissue injury; skin disorders.

Altizem *Nobel, Turk.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Altocel *Irex, Fr.†.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Altofen *Sanbe, Indon.*
Ketoprofen (p.73·1).
Ankylosing spondylitis; gout; osteoarthritis; rheumatoid arthritis.

Altone *Pharmasant, Thai.*
⊗ Spironolactone (p.1400·1).
Heart failure; liver cirrhosis with ascites; oedema.

Altoprev *First Horizon, USA.*
Lovastatin (p.1328·2).
Formerly known as Altocor.
Hyperlipidaemias.

Altoram *Med-One, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Altosec *Pharmacare, S.Afr.*
Omeprazole (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Altosone *Essex, Ital.*
⊗ Mometasone furoate (p.1539·3).
Skin disorders.

Altramet *Lek, Pol.*
Cimetidine (p.1716·2).
Gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome acid aspiration.

Altraz *Alkem, India.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Altreet Ag *Coloplast, Fr.*
Sulfadiazine silver (p.337·2); carmellose sodium (p.2142·1).
Infected burns and wounds.

Altrical *Pisa, Mex.*
Calcitriol (p.1986·2).
Hypocalcaemia; hypoparathyroidism; osteoporosis; rickets.

Altrol *Gelcaps, Mex.*
Calcitriol (p.1986·2).
Hypoparathyroidism; osteoporosis; renal osteodystrophy; rickets.

Altrox *Torrent, Braz.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

Altruline *Pfizer, Chile; Pfizer, Mex.*
Sertraline hydrochloride (p.421·3).
Depression; mixed anxiety depressive states; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder; premenstrual dysphoric disorder; social phobia.

Altuss *SIFFRA, Ital.*
Senega (p.1572·3); althaea (p.2253·3); red-poppy (p.1472·3); marrubium (p.1564·1); pinus montana (p.2376·3); eucalyptus leaf (p.2301·2); propolis (p.2373·3); carpinus betulus; thyme oil (p.2401·2).
Cough.

Alu-3 *Germania, Austria.*
Aluminium tyrosinate.
Gastrointestinal disorders; hyperphosphataemia.

Alubifar *Rottapharm, Spain.*
Almasilate (p.1705·1).
Dyspepsia; gastritis; gastro-oesophageal reflux; peptic ulcer.

Alu-Cap *IFET (IΦET), Gr.; 3M, Israel; 3M, UK; 3M, USA†.*
Aluminium hydroxide (p.1706·2).
Antacid; gastric hyperacidity; hyperphosphataemia; peptic ulcer.

Alucid
Note. This name is used for preparations of different composition.
Labima, Belg.
Aluminium glycinate (p.1706·2); calcium carbonate (p.1714·1); magnesium trisilicate (p.1744·1); sodium bicarbonate (p.1673·2).
Dyspepsia; flatulence; gastric hyperacidity.

CCM, Malaysia.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; heartburn.

Alucinol *Franco-Indian, India.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; gastric hyperacidity; heartburn; peptic ulcer.

Alucol *Sanova, Austria; Melisana, Switz.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity; gastric irritation; gastro-oesophageal reflux; peptic ulcer.

Alucol Silicona *Farmasierra, Spain.*
Aluminium hydroxide (p.1706·2); dimeticone (p.1770·2); magnesium hydroxide (p.1743·2).
Gastrointestinal hyperacidity and flatulence.

Aluctyl *Astellas, Ital.*
Aluminium lactate (p.2255·1).
Mouth and throat disorders.

Aludal *Teva Tuteur, Arg.*
Granisetron hydrochloride (p.1733·1).
Nausea and vomiting.

Aludix *Sons, Mex.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Aludonna
Note. This name is used for preparations of different composition.
Armoxindo, Indon.
Oral suspension: Aluminium oxide (p.1585·3); magnesium oxide (p.1744·1); hyoscyamine hydrobromide (p.1736·1); atropine sulfate (p.1219·3); hyoscine hydrobromide (p.1734·1).
Gastric hyperacidity; gastritis; heartburn; peptic ulcer.

Armoxindo, Indon.
Tablets: Aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); calcium carbonate (p.1714·1); caffeine (p.1116·3); amylase (p.2256·3); chlorphenamine maleate (p.571·3); hyoscine hydrobromide (p.1734·1).
Gastric hyperacidity; gastritis; heartburn; peptic ulcer.

Aludonna D *Armoxindo, Indon.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; gastritis; gastro-oesophageal reflux; heartburn.

Aludrox
Note. This name is used for preparations of different composition.
Riemser, Ger.; Wyeth, India; Pfizer Consumer, Irl.
Aluminium hydroxide (p.1706·2).
Dyspepsia; gastric hyperacidity; heartburn; hyperphosphataemia; peptic ulcer.

Wyeth-Ayerst, USA.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Hyperacidity.

Pfizer Consumer, UK†.
Oral liquid: Aluminium hydroxide (p.1706·2).
Dyspepsia; hyperphosphataemia.

Wyeth, Gr.
Oral suspension: Aluminium hydroxide (p.1706·2); magnesium oxide (p.1744·1).
Antacid.

Wyeth, Gr.
Tablets: Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Antacid.

Aludrox II *Bago, Arg.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity.

Aludrox AC *Bago, Arg.†.*
Ranitidine hydrochloride (p.1766·1).
Gastric hyperacidity.

Aludrox Forte *Bago, Arg.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Aludrox MH *Wyeth, India.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastrointestinal hyperacidity; peptic ulcer.

Aludroxil *Sanval, Braz.*
Aluminium hydroxide (p.1706·2).
Antacid.

Alugastrin *Polfa Lodz, Pol.*
Dihydroxyaluminum sodium carbonate (p.1723·3).
Gastric hyperacidity; peptic ulcer.

Alugel *Atlas, Canad.; Chefaro, Spain.*
Aluminium hydroxide (p.1706·2).
Dyspepsia; gastritis; gastro-oesophageal reflux; gastrointestinal hyperacidity; hyperphosphataemia.

Alugel Magnesiado
Note. This name is used for preparations of different composition.
Chefaro, Spain.
Chewable tablets: Aluminium hydroxide (p.1706·2); magnesium oxide (p.1744·1).
Dyspepsia; gastrointestinal hyperacidity.

Chefaro, Spain†.
Oral suspension: Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Dyspepsia; gastrointestinal hyperacidity.

Alujel *Deva, Turk.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).

Alukon *Acupharm, S.Afr.*
Aluminium hydroxide (p.1706·2).
Gastric hyperacidity.

Alum Milk *Aventis, Thai.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Dyspepsia; gastritis; peptic ulcer.

Alumag
Note. This name is used for preparations of different composition.
Plata, Arg.†; Trianon, Canad.; Teva, Israel†; Novag, Mex.; Polfa Grodzisk, Pol.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Dyspepsia; flatulence; gastric hyperacidity; gastro-oesophageal reflux; peptic ulcer.

Beacons, Singapore.
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1).
Dyspepsia; gastritis; gastro-oesophageal reflux; peptic ulcer.

TC Pharma-Chem, Thai.
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); kaolin (p.1738·1); atropine sulfate (p.1219·3).
Gastric hyperacidity; peptic ulcer.

Alumag D *MDI, S.Afr.*
Dicycloverine hydrochloride (p.1722·3); aluminium hydroxide (p.1706·2); magnesium oxide (p.1744·1).
Gastric hyperacidity.

Alumag Plus *Beacons, Singapore.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); simeticone (p.1770·2).
Abdominal retention; flatulence.

Alumagall *Interdelta, Switz.†.*
Dried aluminium hydroxide gel (p.1706·2); magnesium hydroxide (p.1743·2); allantoin (p.1588·1).
Gastric hyperacidity.

Aluman *Corsalud, Venez.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Antacid.

Alumite D *Xixia, S.Afr.*
Dicycloverine hydrochloride (p.1722·3); aluminium hydroxide (p.1706·2); magnesium oxide (p.1744·1).
Gastric hyperacidity.

Alumpak *Valeant, Arg.*
Aluminium chloride (p.1588·2).
Hyperhidrosis.

Alupent *Boehringer Ingelheim, Austral.†; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Canad.†; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Gr.; German Remedies, India; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Irl.; Boehringer Ingelheim, Ital.; Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, Thai.†; Boehringer Ingelheim, UK; Boehringer Ingelheim, USA; Boehringer Ingelheim, Venez.†.*
⊗ Orciprenaline sulfate (p.1129·1).
Beta blocker overdosage; bradycardia; bronchospasm; digitalis intoxication; obstructive airways disease; premature labour; Stokes-Adams attacks; threatened miscarriage.

Alupent Expectorant *Boehringer Ingelheim, Irl.*
⊗ Orciprenaline sulfate (p.1129·1); bromhexine hydrochloride (p.1552·2).
Obstructive airways disease.

Alupep *Sripasit, Thai.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); kaolin (p.1738·1); atropine sulfate (p.1219·3).
Gastric hyperacidity; peptic ulcer.

Aluprex *Collins, Mex.*
Sertraline hydrochloride (p.421·3).
Depression; mixed anxiety depressive states; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder.

Aluprol *Rowe-Fleming, Venez.†.*
Allopurinol (p.552·2).
Hyperuricaemia.

Aluron *Ronava, Venez.*
Allopurinol (p.552·2).
Gout; hyperuricaemia.

Alusal *Polfa Grodzisk, Pol.*
Aluminium hydroxide (p.1706·2).
Gastric hyperacidity; hyperphosphataemia; peptic ulcer.

Alustal *Stallergenes, Ger.; Stallergenes, Ital.; Trimedal, Switz.*
Allergen extracts (p.2250·2).
Allergen immunotherapy; hyposensitisation.

Alusulin *Teva, Hung.*
Sucralfate (p.1772·2).
Gastro-oesophageal reflux; peptic ulcer.

Alu-Tab *3M, Austral.; 3M, Canad.†; 3M, Hong Kong; 3M, Malaysia; 3M, NZ; 3M, Philipp.; 3M, Singapore; 3M, USA.*
Aluminium hydroxide (p.1706·2).
Gastric hyperacidity; hyperphosphataemia; peptic ulcer.

Alutan *Medika, Switz.*
Citalopram hydrobromide (p.385·3).
Depression.

Alutard
ALK, Neth.
A range of allergen extracts (p.2250·2).
Hyposensitisation.

ALK, Norw.
Allergen extracts from timothy (*Phleum pratense*) (p.2370·2) or birch (*Betula verrucosa*) (p.2250·2).
Allergen immunotherapy.

Alutard SQ *ALK, Cz.; ALK, Denm.; ALK, Fin.; Alk-Abello, Pol.; ALK, Swed.; Trimedal, Switz.*
Allergen extracts (p.2250·2).
Allergen immunotherapy; hyposensitisation.

Alutop
Note. This name is used for preparations of different composition.
General Drugs, Thai.
Oral gel: Dried aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; meteorism; peptic ulcer.

General Drugs, Thai.
Tablets: Dried aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity; peptic ulcer.

Alvear *SIT, Ital.*
Royal jelly (p.2382·1).
Nutritional supplement.

Alvear con Ginseng *SIT, Ital.*
Ginseng (p.2312·1); honey (p.1948·2); royal jelly (p.2382·1); myrtillus (p.2349·3).
Nutritional supplement.

Alvedon *Multicare, Philipp.; AstraZeneca, Swed.; AstraZeneca, UK.*
Paracetamol (p.108·1).
Fever; pain.

Alvedrin *Offenbach, Mex.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Alven *Wassermann, Ital.*
Diosmin (p.2304·2).
Peripheral vascular disorders.

Alvena *Diba, Mex.*
Phenazopyridine hydrochloride (p.116·2).
Urinary-tract disorders.

Alvent *Farmalab, Braz.†.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

† This preparation may no longer be actively marketed
⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Alveofact *Boehringer Ingelheim, Austria†; Boehringer Ingelheim, Braz.; Boehringer Ingelheim, Cz.†; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Pol.*
Bovine pulmonary surfactant (p.2375·3).
Neonatal respiratory distress syndrome.

Alveofen *Prieto, Arg.*
⊗ Fenoterol (p.1121·1).
Obstructive airways disease.

Alveoten *IBI, Ital.*
Neltenexine (p.1566·1).
Respiratory-tract disorders.

Alvercol *Norgine, Austral.†; Norgine, S.Afr.†.*
Sterculia (p.1772·1); alverine citrate (p.1708·1).
Hyperkinetic disorders of the colon; hypertonic constipation; irritable bowel syndrome.

Alvesco *Altana, Arg.; Altana, Austral.; Nycomed, Braz.; Grunenthal, Chile; Altana, Cz.; Altana, Gr.; Altana, Hong Kong; Altana, Hung.; Altana, Irl.; Altana, Malaysia; Altana, Mex.; Altana, Neth.; Altana, Pol.; Altana Madaus, S.Afr.; Nycomed, UK; Sepracor, USA; Grunenthal, Venez.*
⊗ Ciclesonide (p.1521·3).
Asthma; obstructive airways disease.

Alvesin *Berlin-Chemie, Ger.*
Amino-acid and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Alvidina *Farcoral, Mex.†.*
Ranitidine hydrochloride (p.1766·1).
Peptic ulcer; Zollinger-Ellison syndrome.

Alvis *Novartis Ophthalmics, Arg.†.*
Pilocarpine hydrochloride (p.1884·3).
Ocular hypertension; production of miosis.

Alvisan Neo *Leros, Cz.*
Mistletoe (p.2345·3); St John's wort (p.422·3); equisetum (p.2299·3); crataegus (p.2289·1); peppermint leaf (p.1761·2); melissa (p.2339·3); chamomile (p.2279·3).
Hypertension; pre-sclerotic states.

Alvi-Tec *Tecnofarma, Mex.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Alvityl *Solvay, Fr.; Solvay, Rus.*
Multivitamin preparation (p.1922·1).
Tonic; vitamin deficiency.

Alvium *Columbia, Mex.†.*
Loratadine (p.583·3); pseudoephedrine (p.1571·2).
Cold symptoms.

Alviumito *Columbia, Mex.†.*
Loratadine (p.583·3); pseudoephedrine (p.1571·2).
Nasal congestion.

Alviumthe *Columbia, Mex.†.*
Loratadine (p.583·3); pseudoephedrine (p.1571·2).
Cold symptoms.

Alviz *Pharos, Indon.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states; panic disorder.

Alvo *Taisho, Jpn.*
Oxaprozin (p.105·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Alvo Nasal *Lafedar, Arg.†.*
⊗ Diphenhydramine hydrochloride (p.577·2); naphazoline hydrochloride (p.1565·2); phenylephrine hydrochloride (p.1568·1).
Nasal congestion.

Alvofact *Boehringer Ingelheim, Belg.†; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Neth.†.*
Bovactant (p.2375·3).
Neonatal respiratory distress syndrome.

Alvogil *Prats, Spain.*
Butyl aminobenzoate (p.1857·1); eugenol (p.2301·2); iodoform (p.1650·2).

Alvogyl
Note. This name is used for preparations of different composition.
Septodont, Cz.
Lidocaine (p.1862·3); eugenol (p.2301·2).
Dental disorders.

Septodont, Switz.
Butyl aminobenzoate (p.1857·1); iodoform (p.1650·2); eugenol (p.2301·2); spearmint oil (p.2391·3); penghawar djambi fibra.
Alveolitis; pain following tooth extraction.

Alxil *Bernofarm, Indon.*
Cefadroxil (p.218·1).
Bacterial infections.

Alymphon *Iso, Ger.†.*
Homoeopathic preparation.

Alyostal
Note. This name is used for preparations of different composition.
Stallergenes, Belg.
Venoms of bee (p.2251·1) and wasp (p.2251·1) (p.2250·2).
Allergen immunotherapy.

Stallergenes, Cz.; Stallergenes, Fr.; Stallergenes, Pol.; Trimedal, Switz.
A range of allergen extracts (p.2250·2).
Allergen immunotherapy; diagnosis of hypersensitivity; hyposensitisation.

Alyrane *Zeneca, Israel; AstraZeneca, Philipp.; Baxter Anaesthesia, UK†.*
Enflurane (p.1782·2).
General anaesthesia.

Alz *Curamed, Ger.†.*
Ginkgo biloba (p.2311·1).
Mental function impairment; peripheral vascular disorders; tinnitus; vertigo.

Alzaimax *Rontag, Arg.*
Donepezil hydrochloride (p.364·3).
Alzheimer's disease.

Alzam *Psicofarma, Mex.; Adcock Ingram, S.Afr.*
Alprazolam (p.960·1).
Alcohol withdrawal syndrome; anxiety disorders; panic disorder.

Alzar *Medika, Switz.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Alzaten *Ariston, Arg.*
Phenylephrine hydrochloride (p.1568·1); caffeine (p.1116·3).
Hypotension.

Alzen *Tecnifar, Port.*
Quetiapine fumarate (p.1022·2).
Mania; schizophrenia.

Alzene *Alphapharm, Austral.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Alzental *Shin Poong, Singapore.*
Albendazole (p.139·2).
Worm infections.

Alzex *Ativus, Braz.*
Multivitamin preparation (p.1922·1).

Alzim *Fahrenheit, Indon.*
Donepezil hydrochloride (p.364·3).
Alzheimer's disease.

Alzoben *Biofarma, Braz.†.*
Albendazole (p.139·2).
Worm infections.

Alzol *Pharmasant, Thai.*
Albendazole (p.139·2).
Worm infections.

Alzolam *Sun, Rus.*
Alprazolam (p.960·1).
Anxiety.

Alzomed-F *Farcoral, Mex.†.*
Benzonatate (p.1552·1).
Coughs.

Alzyr *Alpharma, Fin.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Alzytec *Samchully, Singapore.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; pruritus; urticaria.

AM *New Vision, Canad.†.*
Multivitamin preparation (p.1922·1).

AM Treatment *Shaklee, Canad.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Ama *Atlantic, Thai.*
Chlorpromazine hydrochloride (p.969·2); amobarbital (p.961·3).
Anxiety; psychoses; tension.

Amace-BP *Systopic, India.*
Amlodipine besilate (p.1214·1); benazepril (p.1223·3).
Hypertension.

Amacin *Asian Pharm, Thai.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amacone *Hua, Thai.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2) or magnesium trisilicate (p.1744·1); simeticone (p.1770·2).
Gastric hyperacidity; meteorism; peptic ulcer.

Amadiab *Lapi, Indon.*
Glimepiride (p.441·1).
Diabetes mellitus.

Amadol *TAD, Ger.; Viatris, Ger.*
Tramadol hydrochloride (p.130·3).
Pain.

Amagesan *Ritsert, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amalium *Janssen-Cilag, Austria.*
Flunarizine hydrochloride (p.580·2).
Migraine.

Aman
Note. A similar name is used for preparations of different composition (see below).
Hexal, Ger.†.
Amantadine sulfate (p.793·1).
Drug-induced extrapyramidal disorders; influenza A; parkinsonism.

Am-An
Note. A similar name is used for preparations of different composition (see above).
Berman, Mex.
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Amanda *Unison, Thai.*
Tramadol hydrochloride (p.130·3).
Pain.

Amanol *Medika, Switz.*
Omeprazole (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Amant *Faromed, Austria.*
Amantadine sulfate (p.793·1).
Influenza A; parkinsonism.

Amanta
ABZ, Ger.
Amantadine hydrochloride (p.792·3).
Influenza A; parkinsonism.

Azupharma, Ger.†.
Amantadine hydrochloride (p.792·3) or amantadine sulfate (p.793·1).
Influenza A; parkinsonism.

Amantadol *Hexal, Cz.*
Amantadine sulfate (p.793·1).
Influenza; parkinsonism.

Amantagamma *Worwag, Ger.*
Amantadine hydrochloride (p.792·3).
Drug-induced extrapyramidal disorders; parkinsonism.

Amantan *Altana, Belg.*
Amantadine hydrochloride (p.792·3).
Influenza A; parkinsonism.

Amantix *Merz, Pol.*
Amantadine sulfate (p.793·1).
Parkinsonism.

A-Mantle *Doak, USA.*
An ointment base.
Formerly known as Acid Mantle.

Amantrel *Cipla, India.*
Amantadine (p.792·3).
Herpes zoster infections; influenza A; parkinsonism.

Amaphen with Codeine *Trimen, USA.*
Codeine phosphate (p.37·2); paracetamol (p.108·1); caffeine (p.1116·3); butalbital (p.967·2).
Pain.

Amara *Weleda, S.Afr.*
Absinthium (p.2244·1); achillea (p.2245·2); cichorium; centaury (p.2279·1); gentian (p.2310·3); imperatoria ostruthium; juniper (p.2328·2); sage (p.2382·3); taraxacum (p.2395·1).
Gastrointestinal disorders.

Amara-Pascoe *Pascoe, Ger.*
Gentian (p.2310·3); cinchona bark (p.2282·3); absinthium (p.2244·1); cinnamon bark (p.2283·1).
Formerly known as Amara-Tropfen-Pascoe.
Gastrointestinal disorders.

Amara-Tropfen *Weleda, Ger.*
Absinthium (p.2244·1); cichorium intybus; centaury (p.2279·1); gentian (p.2310·3); imperatoria; juniper (p.2328·2); achillea (p.2245·2); sage (p.2382·3); taraxacum (p.2395·1).
Gastrointestinal disorders.

Amarel *Sanofi-Aventis, Fr.*
Glimepiride (p.441·1).
Diabetes mellitus.

Amargozin *Pascual, Philipp.*
Karela.
Food supplement for blood sugar management.

Amaro Medicinale *Giuliani, Ital.*
Rhubarb (p.1768·3); cascara (p.1715·2); gentian (p.2310·3); boldo (p.2267·2).
Appetite loss; constipation; digestive disorders.

Amarosal *Herbapol Wroclaw, Pol.*
Achillea (p.2245·2); fennel (p.2302·3); melissa (p.2339·3); marrubium (p.1564·1).
Dyspepsia; meteorism; reduced appetite.

Amarwin *Winthrop, Cz.*
Glimepiride (p.441·1).
Diabetes mellitus.

Amaryl *Aventis, Arg.; Aventis, Austral.; Aventis, Austria; Sanofi-Aventis, Braz.; Aventis, Canad.; Sanofi-Aventis, Chile; Sanofi-Aventis, Cz.; Aventis, Denm.; Sanofi-Aventis, Fin.; Aventis, Ger.; Aventis, Hong Kong; Sanofi-Aventis, Hung.; Aventis, India; Sanofi-Aventis, Indon.; Sanofi-Aventis, Irl.; Aventis, Israel; Sanofi-Aventis, Ital.; Sanofi-Aventis, Malaysia; Aventis, Mex.; Aventis, NZ; Aventis, Neth.; Aventis, Norw.; Sanofi-Aventis, Pol.; Sanofi-Aventis, Port.; Aventis, Rus.; Aventis, S.Afr.; Sanofi-Aventis, Singapore; Sanofi-Aventis, Spain; Aventis, Swed.; Aventis, Switz.; Aventis, Thai.; Aventis, Turk.; Aventis, UK; Hoechst Marion Roussel, USA; Sanofi-Aventis, Venez.*
Glimepiride (p.441·1).
Diabetes mellitus.

Amarylle *Sanofi-Aventis, Belg.*
Glimepiride (p.441·1).
Diabetes mellitus.

Amasulin *Takeda, Jpn.*
Carumonam sodium (p.217·1).
Mepivacaine hydrochloride (p.1866·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Amatine *Shire, Canad.*
⊗ Midodrine hydrochloride (p.1341·1).
Orthostatic hypotension.

Amatol *Liferpal, Mex.*
Mebendazole (p.148·3).
Worm infections.

Amavio *Altana, Gr.*
⊗ Ciclesonide (p.1521·3).
Asthma.

Ambacamp *Pharmacia, Ger.†.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Ambamida *Sintesina, Arg.*
Erythromycin (p.269·2).
Bacterial infections.

Ambaxino *Pharmacia, Spain†.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Ambe 12 *Merckle, Ger.*
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

Amben *Medochemie, Hong Kong.*
Cefadroxil (p.218·1).
Bacterial infections.

Ambenat *Ratiopharm, Austria.*
Glycol salicylate (p.62·3); benzyl nicotinate (p.28·1); heparin sodium (p.1301·2).
Muscle, nerve, and joint pain.

Ambene
Note. This name is used for preparations of different composition.
Ratiopharm, Austria.
⊗ Ampoule A, phenylbutazone sodium (p.117·1); sodium salamidacetate (p.121·2); dexamethasone (p.1526·1); ampoule B, cyanocobalamin (p.1980·2). Lidocaine hydrochloride (p.1862·3) is included in both ampoules to alleviate the pain of injection.
Arthritis; degenerative spinal disorders; neuralgias; neuritis.

Merckle, Ger.
Phenylbutazone (p.117·1) or phenylbutazone sodium (p.117·1).
Lidocaine hydrochloride (p.1862·3) is included in the injection to alleviate the pain of injection.
Ankylosing spondylitis; gout; rheumatoid arthritis.

Merckle, Rus.
⊗ Solution A: phenylbutazone (p.117·1); sodium salamidacetate (p.121·2); dexamethasone (p.1526·1); Solution B: cyanocobalamin (p.1980·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to reduce the pain of injection.
Gout; musculoskeletal and joint disorders; neuralgia; neuritis.

Ambene Comp *Merckle, Ger.†.*
Ampoule 1, phenylbutazone sodium (p.117·1); ampoule 2, cyanocobalamin (p.1980·2).
Lidocaine hydrochloride (p.1862·3) is included in each ampoule to alleviate the pain of injection.
Gout; musculoskeletal and joint-disorders.

Ambene N
Note. This name is used for preparations of different composition.
Merckle, Ger.
Glycol salicylate (p.62·3); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, and soft-tissue disorders.

Ratiopharm, Austria.
Suppositories: Phenylbutazone (p.117·1); cyanocobalamin (p.1980·2).
Gout; musculoskeletal, joint, soft-tissue, and periarticular disorders; neuritis; superficial thrombophlebitis.

Ratiopharm, Austria.
Tablets: Phenylbutazone (p.117·1); thiamine hydrochloride (p.1976·1); cyanocobalamin (p.1980·2).
Aluminium glycinate (p.1706·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Gout; musculoskeletal, joint, soft-tissue, and periarticular disorders; neuritis; superficial thrombophlebitis.

Ambenyl Cough Syrup *Forest Pharmaceuticals, USA.*
Codeine phosphate (p.37·2); bromazine hydrochloride (p.569·1).
Allergic upper respiratory symptoms; coughs and cold symptoms.

Ambenyl-D *Forest Pharmaceuticals, USA.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs; nasal congestion.

Ambese *Biotech, Venez.*
Secnidazole (p.846·3).
Protozoal infections.

Ambeven *Medikon, Indon.*
Graptophyllum pictum; sophora japonica; rubia cordifolia; coleus atropurpureus; burnet (p.2270·3); kaempferia angustifolia; curcuma heyneana.
Haemorrhoids.

Ambeven Plus *Medikon, Indon.*
Graptophyllum pictum; troxerutin (p.2305·1).
Haemorrhoids.

Ambex *Walmark, Cz.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambezetal *Cimed, Braz.*
Ampicillin benzathine (p.205·1); ampicillin sodium (p.204·1).
Bacterial infections.

Ambi 10
Note. This name is used for preparations of different composition.
Kiwi, USA.
Cream: Benzoyl peroxide (p.1590·2).
Acne.

Kiwi, USA.
Soap: Triclosan (p.1665·2).

AMBI 60/580 *AMBI, USA.*
Pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Respiratory-tract congestion.

AMBI 60/580/30 *AMBI, USA.*
Pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3); dextromethorphan hydrobromide (p.1555·2).
Coughs; respiratory-tract congestion.

AMBI 1000/5 *AMBI, USA.*
Pentoxyverine citrate (p.1567·3); guaifenesin (p.1561·3).
Cough.

AMBI 1000/55 *AMBI, USA.*
Guaifenesin (p.1561·3); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Ambidrin *Collins, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Ambien *Sanofi-Aventis, Hung.; Sanofi, USA.*
Zolpidem tartrate (p.1037·3).
Insomnia.

Ambilan
Note. This name is used for preparations of different composition.
Laboratorios Chile, Chile.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Orion, Fin.
Emollient.

Ambilan Bid *Laboratorios Chile, Chile.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Ambiopi *Mersifarma, Indon.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ambiosol *Solfran, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Ambirix *GSK, Cz.; GSK, Neth.; GSK, Port.; GSK, Swed.†; GSK, UK.*
An inactivated hepatitis A and recombinant hepatitis B vaccine (p.2217·1).
Active immunisation.

AmBisome *Gador, Arg.; Gilead, Austral.; Fresenius Kabi, Austria; UCB, Belg.; United Medical, Braz.†; Astellas, Canad.; Gilead, Denm.; Orphan, Fin.; Gilead, Fr.; Gilead, Ger.; Gilead, Gr.; Gilead, Hong Kong; Gilead, Hung.; Gilead, Irl.; Nexstar, Israel; Gilead, Ital.; Astellas, Jpn; Gilead, NZ; Gilead, Neth.; Gilead, Norw.; Gilead, Pol.; Gilead, Port.; Gilead, Rus.; Key Oncologics, S.Afr.; Gilead, Singapore; Gilead, Spain; Swedish Orphan, Swed.; Fresenius Kabi, Switz.; Gilead, Thai.†; Er-Kim, Turk.; Gilead, UK; Fujisawa, USA.*
Liposomal amphotericin B (p.523·2) (p.523·2).
Fungal infections; leishmaniasis.

Ambistryn-S *Sarabhai Piramal, India.*
Streptomycin sulfate (p.333·3).
Tuberculosis.

Ambiz *Unichem, India.*
Zolpidem (p.1038·2).
Insomnia.

Ambodil-C *Arlex, Mex.*
⊗ Ambroxol (p.1550·3); clenbuterol (p.1120·1).
Coughs.

Amboneural *Arcana, Austria.*
⊗ Selegiline hydrochloride (p.817·1).
Parkinsonism.

Amboral *Remek, Gr.*
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Ambotetra *Janssen-Cilag, Mex.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Ambotonin *Ebewe, Austria.*
Proteolytic peptide from porcine brain (Cerebrolysin) (p.2337·3).
Alzheimer's disease; cerebral disorders.

Ambra Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Ambra Oligoplex *Madaus, Arg.*
Mineral preparation (p.1922·1).

Ambrace *APT, Hong Kong.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Ambramicina *Scharper, Ital.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Ambra-Sinto T *Medley, Braz.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Ambre Solaire *Garnier, UK.*
Avobenzone (p.1589·3); enzacamene (p.1597·1); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Ambredin *Solco, Austria.*
⊗ Theophylline (p.1140·1); aceverine hydrochloride; octodrine phosphate (p.1361·1).
Obstructive airways disease.

Ambreks *Nobel, Turk.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambrexin *Ivax, Mex.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Ambril *Merck, Arg.; Desma, Ger.; Merck, Indon.; Merck, Venez.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambrix *GSK, UK.*
An inactivated hepatitis A and recombinant hepatitis B vaccine (p.2217·1).
Active immunisation.

Ambrizol *Biofarma, Braz.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambro *ABZ, Ger.; Hemopharm, Ger.; Hexal, Pol.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambrobene *Ratiopharm, Austria; Ratiopharm, Cz.; Ratiopharm, Hung.; Merckle, Rus.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Ambrobeta *Betapharm, Ger.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Ambrobion *Medicus, Gr.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Ambroclar *Schering-Plough, Venez.*
Loratadine (p.583·3); ambroxol (p.1550·3).

Ambrodil
Note. This name is used for preparations of different composition.
Aristo, India.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Farmoz, Port.
Zidovudine (p.913·3).
HIV infection.

Ambrodil Plus *Aristo, India.*
Ambroxol (p.1550·3); guaifenesin (p.1561·3); phenylpropanolamine (p.1569·2); chlorphenamine maleate (p.571·3); menthol (p.2340·1).
Bronchitis; cold symptoms; rhinitis; sinusitis.

Ambrodil-S *Aristo, India.*
⊗ Ambroxol (p.1550·3); salbutamol (p.1131·2).
Asthma; smokers' cough.

Ambrodoc *Docpharm, Ger.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Ambrodoxy *Hexal, Ger.*
Doxycycline hyclate (p.267·1); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections with increased or viscous mucus.

Ambrofur *Ivax, Mex.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Ambrohexal
Hexal, Austria; Hexal, Ger.; Sandoz, Hung.; Hexal, Rus.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Hexal, Pol.
Ambroxol (p.1550·3) or ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambroinfant *Rubiepharm, Ger.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Ambroksol *Altana, Pol.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambrol
Brasterapica, Braz.†.
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Shiwa, Thai.†.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Ambrolan *Lannacher, Austria.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Ambrolex *GSK, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with viscous mucus.

Ambrolitic *Chiesi, Spain.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Ambrolos *Hexal, Austria†; Hexal, Ger.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders; respiratory-tract disorders with viscous mucus.

Ambrolytic *Samakeephaesaj, Thai.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Ambromucil *Malesci, Ital.*
Ambroxol acefyllinate (p.1114·2).
Obstructive airways disease.

Ambromuco *Cafar, Venez.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambromuco Compositum *Cafar, Venez.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol hydrochloride (p.1120·1).
Respiratory-tract disorders.

Ambromyc *Farmedia, Gr.*
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Ambronorm *Genericon, Austria.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Ambropp *Dermapharm, Ger.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with increased or viscous mucus.

Ambro-Puren *Alpharma-Isis, Ger.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Ambrosan *ProMed, Cz.; ProMed, Pol.; Promed, Rus.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambrosil *Globo, Braz.†.*
Metronidazole (p.837·1).
Anaerobic bacterial infections; protozoal infections.

Ambrosol
Pliva Krakow, Pol.
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Pliva, Rus.
Ambroxol hydrochloride (p.1550·3).

Ambrospray *Medicom, Cz.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambroten *Marjan, Braz.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Ambrotos *Recalcine, Chile.*
Ambroxol hydrochloride (p.1550·3); ammonium citrate (p.2256·3).
Respiratory-tract disorders.

Ambrotus *Epifarma, Ital.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with viscous mucus.

Ambrox
Sinterapico, Braz.†.
Ambroxol (p.1550·3).
Respiratory-tract congestion.

TNP, Thai.†; SM, Venez.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Ambroxan *M & H, Thai.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Ambroxol AL comp *Aliud, Ger.*
Ambroxol hydrochloride (p.1550·3); doxycycline hyclate (p.267·1).
Respiratory-tract infections.

Ambroxol comp *Ratiopharm, Ger.*
Ambroxol hydrochloride (p.1550·3); doxycycline hyclate (p.267·1).
Respiratory-tract infections.

Ambufen *Macrophar, Thai.*
Ibuprofen (p.64·2).
Fever; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Ambulase *Grunenthal, Pol.; Grunenthal, Pol.*
⊗ Finasteride (p.2188·3).
Benign prostatic hyperplasia.

Amcef *Antibioticos, Mex.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Amchafibrin *Rottapharm, Spain.*
Tranexamic acid (p.1080·3).
Haemorrhage; hereditary angioedema.

Amciderm *Hermal, Ger.; Pharmasant, Thai.*
⊗ Amcinonide (p.1516·2).
Skin disorders.

Amcidil *Macrophar, Thai.*
Dicloxacillin (p.265·2).
Gram-positive bacterial infections.

Amcillin
Actavis, Indon.
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Dumex-Alpharma, Thai.†.
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Amcin *Cadila, India.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amcinafal *Relyo, Gr.*
Tenoxicam (p.128·2).
Gout; inflammation; osteoarthritis; pain; rheumatoid arthritis; spondyloarthropathies.

Amclo *Nicholas Piramal, India†.*
Amoxicillin trihydrate (p.202·2); cloxacillin sodium (p.256·1).
Bacterial infections.

Amco *Polipharm, Thai.*
Magnesium trisilicate (p.1744·1); aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; peptic ulcer.

Amcof *Cipla, India.*
⊗ Ambroxol hydrochloride (p.1550·3); salbutamol (p.1131·2); guaifenesin (p.1561·3); menthol (p.2340·1).
Coughs.

Amcold *Cipla, India.*
Cetirizine hydrochloride (p.570·3); ambroxol (p.1550·3).
Cold symptoms.

Amcopan *Macrophar, Thai.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Amcopan Plus *Macrophar, Thai.*
Hyoscine butylbromide (p.1734·1); paracetamol (p.108·1).
Smooth muscle spasm and pain.

Amcoral *Meiji, Jpn†.*
Amrinone (p.1215·1).
Heart failure.

Amcort
Note. This name is used for preparations of different composition.
Taro, Canad.
⊗ Amcinonide (p.1516·2).
Skin disorders.

Keene, USA†.
⊗ Triamcinolone diacetate (p.1544·3).
Corticosteroid.

Amc-Puren *Alpharma-Isis, Ger.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amdarone *Berlin Pharm, Thai.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amdepin *Cadila, India.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amdepin-AT *Cadila, India.*
⊗ Amlodipine besilate (p.1214·1); atenolol (p.1217·3).
Angina pectoris; hypertension.

Amdipin *Labomed, Chile.*
Amlodipine besilate (p.1214·1).
Hypertension; ischaemic heart disease.

Amdixal *Sandoz, Indon.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amdox-Puren *Alpharma-Isis, Ger.†.*
Doxycycline hyclate (p.267·1); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections with viscous mucus.

Amebamagma *Wyeth, India.*
Tinidazole (p.848·3).
Amoebiasis; giardiasis; trichomoniasis.

Ameban
Note. This name is used for preparations of different composition.
Parggon, Mex.
Oral suspension: Diiodohydroxyquinoline (p.832·1); kaolin (p.1738·1); pectin (p.2145·2).
Amoebiasis.

Parggon, Mex.
Tablets: Diiodohydroxyquinoline (p.832·1).
Amoebiasis.

Amebil *Lafit, Braz.†.*
Metronidazole (p.837·1).
Anaerobic bacterial infections; protozoal infections.

Ameblin *Degorts, Mex.*
Metronidazole benzoate (p.837·1).
Amoebiasis; anaerobic bacterial infections; giardiasis; trichomoniasis.

Amebyl *Offenbach, Mex.*
Metronidazole (p.837·1); diiodohydroxyquinoline (p.832·1).
Amoebiasis; bacterial infections; giardiasis.

Amebysol *Rayere, Mex.*
Tinidazole (p.848·3).
Amoebiasis; giardiasis; trichomoniasis.

Ameciron *Am-Europharma, Philipp.*
Ferrous sulfate (p.1939·3); folic acid (p.1940·1).
Iron and folic acid supplement; iron-deficiency anaemia.

Amecladin *Am-Europharma, Philipp.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Ameclina *Offenbach, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amedran *Farmedia, Gr.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Amefin *Pfizer, Mex.*
Quinfamide (p.846·2).
Amoebiasis.

Amefur *Ivax, Mex.*
Quinfamide (p.846·2).
Amoebiasis.

Ameket *SM, Philipp.*
Ranitidine hydrochloride (p.1766·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Amekrin *Pfizer, Denm.; Pfizer, Fin.†; Pfizer, Swed.*
Amsacrine (p.681·1).
Acute leukaemias.

Amelox *Square, Philipp.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amen *Carnrick, USA†.*
Medroxyprogesterone acetate (p.2113·1).
Abnormal uterine bleeding; secondary amenorrhoea.

Amender *Serral, Mex.*
Methyldopa (p.1334·1).
Hypertension.

Amenicil *Phoenix, Arg.*
St John's wort (p.422·3).
Depression.

Amenite A *Amenite, Arg.†.*
Vitamin A (p.1971·2).
Skin disorders.

Amenite Cap *Amenite, Arg.†.*
Pyrithione zinc (p.1611·2).
Scalp disorders.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Amenite E *Amenite, Arg.†*
Collagen (p.2286·1); elastin (p.2286·1).
Skin disorders.

Amenite Plus *Amenite, Arg.†*
Wheat germ (p.2415·1); collagen (p.2286·1).
Hair disorders.

Amenopam *Barrenne, Braz.*
Cimicifuga (p.2282·1).
Menopausal disorders.

Amenox *Sanofi Synthelabo, Mex.*
Quinfamide (p.846·2).
Amoebiasis.

Amerge *GSK, Canad.; Glaxo Wellcome, USA.*
Naratriptan hydrochloride (p.623·3).
Migraine.

Americaine *Novartis Consumer, USA†.*
Benzocaine (p.1854·1).
Anorectal disorders.

Americaine Anesthetic *Celltech, USA†.*
Benzocaine (p.1854·1).
Local anaesthesia; lubrication.

Americaine First Aid *Fisons, USA†.*
Benzocaine (p.1854·1); benzethonium chloride (p.1630·1).
Skin disorders.

Americaine Otic *Celltech, USA†.*
Benzocaine (p.1854·1).
Pain and pruritus in otitis.

Americet *MCR, USA.*
Paracetamol (p.108·1); caffeine (p.1116·3); butalbital (p.967·2).
Pain.

Ameride *BMS, Spain.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hepatic cirrhosis with ascites; hypertension; oedema.

Amerifed *AMBI, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).

Amerigel
Note. This name is used for preparations of different composition.
Amerx, USA.
Lotion: Oak (p.2355·3).
Nappy rash.

Amerx, USA.
Ointment: Oak bark (p.2355·3); meadowsweet (p.2338·1); zinc acetate (p.1999·1).
Skin disorders.

Amerituss AD *AMBI, USA.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1).

Amermycin *Unison, Hong Kong; Unison, Thai.*
Doxycycline (p.267·1).
Bacterial infections.

Amerol *Tempo Scan Pacific, Indon.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Amersan *Austroplant, Austria; Austroplant, Cz.*
Agrimony herb (p.2249·2); achillea (p.2245·2); peppermint oil (p.1761·2); rose fruit (p.2381·2); berberis; black currant (p.2267·1); myrtillus (p.2349·3).
Digestive disorders; liver and biliary tract disorders.

Amerscan DMSA *Nycomed, Cz.†; Amersham, Neth.†; Nycomed Amersham, UK.*
Technetium-99m (p.2055·3) succimer.
Radionuclide imaging of the kidney.

Amerscan Hepatate *GE, Cz.; GE Healthcare, Neth.; Nycomed Amersham, UK.*
Technetium-99m (p.2055·3) colloidal tin.
Radionuclide imaging of the liver and spleen.

Amerscan Medronate *GE, Cz.; GE Healthcare, Neth.; Nycomed Amersham, UK.*
Technetium-99m (p.2055·3) medronate.
Bone scintigraphy.

Amerscan Pentetate *Nycomed, Cz.†; Amersham, Neth.†; Nycomed Amersham, UK.*
Technetium-99m (p.2055·3) pentetate.
Assessment of renal function; radionuclide imaging of the brain, heart, and lungs; studies of gastro-oesophageal reflux and gastric emptying.

Amerscan Pulmonate *Nycomed, Cz.†; Nycomed Amersham, UK.*
⊗ Technetium-99m (p.2055·3) labelled albumin macroaggregate.
Radionuclide imaging of the lung.

Amerscan Stannous *GE, Cz.; GE Healthcare, Neth.; Nycomed Amersham, UK.*
Technetium-99m (p.2055·3) stannous medronate.
Red blood cell labelling for blood pool scintigraphy.

Amertec *Nycomed, Cz.†; Nycomed Amersham, UK.*
Technetium-99m (p.2055·3) as sodium pertechnetate.
Radionuclide imaging.

Amertil *Biofarm, Pol.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Ameryl *Medi-Rx, Philipp.*
Metronidazole (p.837·1).
Amoebiasis; giardiasis.

Amet *IFA, Mex.*
Desiccated thyroid (p.2177·1).
Hypothyroidism.

A-Methapred
Abbott, Israel†.
⊗ Methylprednisolone (p.1538·1).
Corticosteroid.

Hospira, USA.
⊗ Methylprednisolone sodium succinate (p.1538·2).
Corticosteroid.

Ametic
Note. A similar name is used for preparations of different composition (see below).
Garec, S.Afr.†.
Metoclopramide hydrochloride (p.1747·3).
Gastrointestinal motility disorders; nausea and vomiting.

Ametik
Note. A similar name is used for preparations of different composition (see above).
Kurtsan, Turk.
Trimethobenzamide hydrochloride (p.592·2).
Nausea and vomiting.

Ametop
Smith & Nephew, Canad.
Tetracaine hydrochloride (p.1871·3).
Local anaesthesia.

Smith & Nephew, Hong Kong; Smith & Nephew, Irl.†; Smith & Nephew, NZ†; Smith & Nephew Healthcare, UK.
Tetracaine (p.1871·2).
Local anaesthesia.

Ametricid *Medix, Mex.†.*
Tinidazole (p.848·3).
Amoebiasis; giardiasis; trichomoniasis.

Ametycine *Sanofi-Aventis, Fr.; Biosyn, Ger.*
Mitomycin (p.752·1).
Malignant neoplasms.

Ameu
Lichtwer, Ger.
Marine fish oil (p.1362·2).
Hyperlipidaemias.

Democal, Switz.†.
Omega-3 triglycerides (p.1362·1).
Hyperlipidaemias.

Ameustyn *Am-Europharma, Philipp.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders associated with excess mucus.

Amevive *Raffo, Arg.; Biogen, Canad.; Biogen, Israel; Biogen Dompe, Switz.; Biogen, USA.*
Alefacept (p.1587·3).
Psoriasis.

Amfamox *MSD, Austral.†.*
Famotidine (p.1730·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Amfobase *Herba Studio, Pol.*
Liquid paraffin (p.2030·3); white soft paraffin (p.2031·2).
Barrier preparation; skin disorders.

Amfostat *BMS, Arg.†; BMS, Mex.*
Amphotericin B (p.523·2).
Fungal infections; leishmaniasis.

Amgenal Cough *Goldline, USA.*
Bromazine hydrochloride (p.569·1); codeine phosphate (p.37·2).
Coughs and cold symptoms.

Amgrip *Collins, Mex.*
Caffeine (p.1116·3); dextromethorphan (p.1555·2); phenylephrine (p.1568·1); chlorphenamine (p.572·2); moroxydine hydrochloride (p.898·2).
Cold and influenza symptoms.

Amiada *Intendis, Ger.*
Terbinafine hydrochloride (p.546·3).
Fungal nail and skin infections.

Amias *Eureco, Neth.; Takeda, UK.*
Candesartan cilexetil (p.1238·3).
Heart failure; hypertension.

Amibriz *Janssen-Cilag, Mex.†.*
Mebendazole (p.148·3); quinfamide (p.846·2).
Amoebiasis; worm infections.

Amic *Jaba Recordati, Port.*
Amikacin (p.200·2).
Bacterial infections.

Amicacil *Teuto, Braz.†.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amicagel *Med-One, Gr.†.*
Amikacin (p.200·2).
Bacterial skin infections.

Amicalin *Royton, Braz.†.*
Amikacin (p.200·2).
Bacterial infections.

Amicaliq *Tanabe, Jpn†.*
Amino-acid, carbohydrate, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Amicar *Wyeth, Austral.†; Wyeth-Ayerst, Canad.†; Wyeth, Mex.†; Wyeth, NZ†; Xanodyne, USA.*
Aminocaproic acid (p.1053·2).
Fibrinolysis; haemorrhage.

Amicasil *Phoinix Pharm (Φοινιξ Φαρμ), Gr.; Pharmatex, Ital.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amicets *Elmor, Venez.*
Benzydamine hydrochloride (p.27·3); menthol (p.2340·1); thymol (p.1664·3).
Mouth and throat disorders.

Amicic *Novartis, Fr.†.*
Amino-acid preparation (p.1922·1).
Corneal ulcers.

Amicil *Unipharm, Mex.*
Amoxicillin (p.202·2).
Bacterial infections.

Amicilon *Ariston, Braz.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amicin *Biochem, India.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amicina *Kener, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amicip *Cipla, India.*
Amikacin (p.200·2).
Bacterial infections.

Amicla *Erfa, Belg.*
⊗ Amcinonide (p.1516·2).
Skin disorders.

Amiclair *Abatron, UK.*
Enzymatic contact lens cleanser (p.1622·2).

Amiclaran *Zentiva, Cz.*
⊗ Amiloride hydrochloride (p.1209·2).
Hypertension; liver cirrhosis with ascites; oedema.

Amiclav *Ashbourne, UK†.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
These ingredients can be described by the British Approved Name Co-amoxiclav.
Bacterial infections.

Amicloton *Zentiva, Cz.*
⊗ Amiloride hydrochloride (p.1209·2); chlortalidone (p.1243·3).
Hypertension.

Amico *SIT, Ital.*
Amino-acid preparation with cobamamide (p.1922·1).
Tonic.

Amicof *Union Drug, Thai.*
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

Amico-L *TO-Chemicals, Thai.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; peptic ulcer.

Amicor *Samarth, India.*
Amrinone lactate (p.1215·1).
Heart failure.

Amicosol *Ecosol, Switz.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amicrobin *Quimifar, Spain.*
Norfloxacin (p.309·2).
Genito-urinary tract infections.

Amidalin *Hexal, Braz.†.*
Tyrothricin (p.358·2); benzocaine (p.1854·1).
Mouth and throat disorders.

Amidarone 200 *TO-Chemicals, Thai.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amidate *Hospira, USA.*
Etomidate (p.1783·3).
General anaesthesia.

Amidiaz *Richmond, Arg.*
⊗ Morphine (p.86·3).
Pain.

Amidolite *Braun, Ital.*
⊗ An etherified starch (p.1065·1) in sodium chloride.
Hypovolaemia; shock.

Amidona *Grunenthal, Chile†.*
⊗ Methadone hydrochloride (p.82·3).
Opioid withdrawal; pain.

Amidrin *Fardi, Spain.*
⊗ Xylometazoline hydrochloride (p.1575·1).
Nasal congestion; sinus congestion.

Amidrox *Crinos, Ital.*
Pamidronate disodium (p.1101·1).
Hypercalcaemia of malignancy; multiple myeloma; osteolytic metastases in breast cancer.

Amifarin *Wandel, Mex.*
Dicloxacillin (p.265·2).
Bacterial infections.

Amifen *Meyer, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Amigdagen *Prodotti, Braz.*
Neomycin sulfate (p.305·1); tyrothricin (p.358·2); benzocaine (p.1854·1); menthol (p.2340·1).
Mouth and throat disorders.

Amigdalol *Delta, Braz.*
Tyrothricin (p.358·2); cetrimonium bromide (p.1635·1); vitamin C (p.1983·3); lidocaine (p.1862·3).
Mouth and throat disorders.

Amigdamicin *Sedabel, Braz.†.*
Neomycin sulfate (p.305·1); tyrothricin (p.358·2); benzocaine (p.1854·1); menthol (p.2340·1).
Mouth and throat disorders.

Amigdobis *Chinoin, Mex.*
Bismuth ethylhexanoate.
Sore throat.

Amigesic *Amide, USA.*
Salsalate (p.122·1).
Fever; inflammation; pain.

Amignul *Almirall, Port.; Uriach, Spain.*
Almotriptan malate (p.617·3).
Migraine.

Amigrenin *Veropharm, Rus.*
Sumatriptan succinate (p.625·2).
Migraine.

Ami-Hydrotride *CCM, Malaysia.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Amik *Farmigea, Ital.*
Amikacin sulfate (p.200·3).
Skin infections.

Amikacide *United American, Philipp.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikafur *Ivax, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikal *Gea, Denm.†.*
⊗ Amiloride hydrochloride (p.1209·2).
Hypertension; oedema.

Amikalem *Lemery, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikan *Anfarm, Gr.; SoSe, Ital.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikasol *Samakeephaesaj, Thai.†.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikasons *Sons, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikavax *Vivax, Venez.*
Amikacin (p.200·2).
Bacterial infections.

Amikavi *Mavi, Mex.*
Amikacin (p.200·2).
Bacterial infections.

Amikayect *Grossman, Mex.; Novapharma, Venez.†.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amiketem *Ulagay, Turk.*
Amikacin sulfate (p.200·3).
Gram-negative bacterial infections.

Amikin *BMS, Austral.; BMS, Canad.†; BMS, Cz.; BMS, Hong Kong; BMS, Hung.; BMS, Indon.; BMS, Irl.; BMS, Israel†; BMS, Malaysia†; BMS, Mex.; BMS, NZ; BMS, Philipp.; BMS, Pol.; BMS, S.Afr.; BMS, Singapore; BMS, Switz.; BMS, Thai.; BMS, UK; Apothecon, USA.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amiklin *BMS, Fr.†; BMS, Turk.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amikozit *Eczacibasi, Cz.†; Eczacibasi, Rus.; Eczacibasi, Turk.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amilamont *Rosemont, UK.*
⊗ Amiloride hydrochloride (p.1209·2).
Heart failure; hepatic cirrhosis with ascites; hypertension.

Amilande *Sanofi Synthelabo, Spain†.*
Amisulpride (p.961·1).
Schizophrenia.

Amilco *OBA, Denm.; Ivax, Hong Kong†; Ivax, Irl.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Heart failure; hepatic cirrhosis with ascites; hypertension; oedema.

Amil-Co *Ivax, UK.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
These ingredients can be described by the British Approved Name Co-amilozide.
Ascites; heart failure; hepatic cirrhosis; hypertension.

Amilene *Tecnofarma, Chile.*
Ondansetron (p.1756·3).
Nausea and vomiting.

Amilin *Hua, Thai.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Amilitrap *Dosa, Arg.*
Lamivudine (p.895·1).

Amilo-basan *Schonenberger, Switz.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; liver cirrhosis with ascites; oedema.

Amiloclor *Klonal, Arg.†.*
⊗ Hydrochlorothiazide (p.1307·3); amiloride hydrochloride (p.1209·2).
Hypertension.

Amilocomp beta *Betapharm, Ger.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Amiloferm *Nordic, Swed.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; liver cirrhosis with ascites; oedema.

Amilopil *Cifarma, Braz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amiloral/HCT *Aliud, Austria.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension; liver cirrhosis with ascites; oedema.

Amiloretic *Pharmacare, S.Afr.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Amiloretik *Hexal, Austria; Hexal, Ger.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; liver cirrhosis with ascites; oedema.

Amilorid comp *Genericon, Austria; CT, Ger.; Ratiopharm, Ger.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension; liver cirrhosis with ascites; oedema.

Amilorid Comp *BMS, Hung.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension; liver cirrhosis; oedema.

Amiloride Composto *Ratiopharm, Port.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).

Amiloride/HCTZ *Helvepharm, Switz.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; liver cirrhosis with ascites; oedema.

Amilorid/HCT *Aliud, Cz.; Aliud, Ger.; Sandoz, Ger.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Amilostad *Stada, Cz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amilostad HCT *Stada, Austria.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; liver cirrhosis with ascites; oedema.

Amilozid *CT, Ger.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Amilozid-B *Teva, Hung.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension; liver cirrhosis with ascites; oedema.

Amimox *AstraZeneca, Swed.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections; peptic ulcer associated with Helicobacter pylori.

Amin 21 K *Italfarmacia, Ital.*
Amino-acid preparation with potassium (p.1922·1).
Nutritional supplement.

Amin-Aid *R&D, USA.*
Preparation for enteral nutrition in renal failure (p.1922·1).

Aminazin *Akrikhin, Rus.*
Chlorpromazine hydrochloride (p.969·2).

Amindan *Desitin, Ger.†.*
⊗ Selegiline hydrochloride (p.817·1).
Parkinsonism.

Aminefron *Dexa, Indon.*
Amino acids (p.1922·1).
Dietary supplement in renal failure.

Aminess
Pharmacia, Hong Kong†; Recip, Norw.; Recip, Swed.; Ilsan, Turk.
Amino-acid preparation (p.1922·1).
Dietary supplement in renal impairment.

Clintec, USA.
Amino-acid infusion (p.1922·1).
parenteral nutrition in renal impairment.

Aminess-N *Recip, Fin.; Recip, Neth.*
Amino-acid preparation (p.1922·1).
Dietary supplement.

Amineurin *Hexal, Ger.*
Amitriptyline hydrochloride (p.376·1).
Depression; pain.

Amino *Natural Life, Arg.*
Amino-acid preparation (p.1922·1).
Dietary supplement.

Amino 3 *Fiori, Ital.*
Amino-acid preparation (p.1922·1).

Aminobrane *More, Philipp.*
A multivitamin, amino-acid, and mineral preparation (p.1922·1).

Aminocardol *Novartis, Turk.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Amino-Cerv *Milex, Canad.; Cooper, USA.*
⊗ Cystine (p.1937·1); inositol (p.2325·2); methionine (p.1450·1); sodium propionate (p.545·3); urea (p.1620·2).
Cervicitis; post cauterisation; post conisation; post cryosurgery; postpartum cervical tears.

Aminocid *Faria, Braz.†.*
Dipyrone (p.49·2); thiamine (p.1976·3); pyridoxine (p.1979·1); cyanocobalamin (p.1980·2).
Neuritis.

Aminocina *Biochimico, Braz.†.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Aminocont *Mundipharma, Fin.*
Aminophylline hydrate (p.1114·3).
Obstructive airways disease.

Aminodrip *Wockhardt, India.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Aminoefedrison *Rhein, Mex.*
Theophylline (p.1140·1); ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Aminofilin *Phoenix, Arg.†.*
Theophylline (p.1140·1).
Obstructive airways disease.

Aminofluid *Otsuka, Jpn.*
Amino-acid, glucose, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminofusin Hepar *Baxter, Ger.; Kalbe, Indon.*
Amino-acid and electrolyte infusion (p.1922·1).
Parenteral nutrition in liver disease.

Aminofusin L *Kalbe, Indon.*
Amino-acid, carbohydrate, vitamin, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminofusin N *Baxter, Ger.†.*
Amino-acid, xylitol, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminofusin Paed *Kalbe, Indon.*
Amino-acid, vitamin, and electrolyte infusion (p.1922·1).
Parenteral nutrition in neonates and infants.

Aminofusin 10% Plus *Baxter, Ger.†.*
Amino-acid and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminogran *UCB, Austral.; UCB, Irl.; Euromed, Ital.; Pharmabroker, NZ; UCB, Swed.; UCB, UK†.*
Food for special diets (p.1922·1).
Phenylketonuria.

Aminogran Mineral Mixture *UCB, Austral.; UCB, Irl.†.*
Mineral preparation (p.1922·1).
Mineral supplement; phenylketonuria (in conjunction with Aminogran).

Aminoima *IMA, Braz.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Aminoleban *Otsuka, Hong Kong; Otsuka, Indon.; Otsuka, Jpn; Otsuka, Philipp.; Thai Otsuka, Thai.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in hepatic encephalopathy and liver disorders.

Aminoleban EN *Otsuka, Hong Kong; Otsuka, Jpn.*
Preparation for enteral nutrition (p.1922·1).
Hepatic encephalopathy; liver failure.

Aminoleban Oral *Otsuka, Indon.; Otsuka, Philipp.; Thai Otsuka, Thai.*
Preparation for enteral nutrition (p.1922·1).
Formerly known as Aminoleban EN in *Thai*.
Hepatic encephalopathy; liver failure.

Aminoliv *Teuto, Braz.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Aminomal
Note.This name is used for preparations of different composition.
Malesci, Ital.
Delayed-release tablets; injection; suppositories; tablets: Aminophylline (p.1114·2).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection; lidocaine (p.1862·3) is also included in the suppositories.
Obstructive airways disease.

Malesci, Ital.
Elixir: Theophylline (p.1140·1).
Obstructive airways disease.

Aminomel *Baxter, Pol.*
A range of amino-acid infusions with or without electrolytes (p.1922·1).
Parenteral nutrition.

Amino-Mel G *Fresenius Kabi, Austria; Leopold, Cz.†; Fresenius Kabi, Hung.†.*
Amino-acid, electrolyte, and glucose infusion (p.1922·1).
Parenteral nutrition.

Amino-Mel hepa *Fresenius Kabi, Austria.*
Amino-acid and electrolyte infusion (p.1922·1).
Parenteral nutrition in liver disease.

Amino-Mel nephro *Fresenius Kabi, Austria.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in renal disease.

Amino-Mel Nephro *Fresenius Kabi, Cz.†.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in renal disease.

Aminomel nephro *Baxter, Ger.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in renal failure.

Amino-Min-D *Tyson, USA.*
Calcium with vitamin D and minerals (p.1922·1).
Calcium deficiency; dietary supplement.

Aminomix *Fresenius Kabi, Austria; Fresenius Kabi, Cz.; Fresenius Kabi, Fr.; Fresenius Kabi, Ger.; Fresenius Kabi, Gr.; Fresenius Kabi, Hung.; Fresenius Kabi, Neth.; Fresenius Kabi, Norw.†; Fresenius Kabi, Pol.; Fresenius Kabi, Port.; Fresenius Kabi, Spain; Fresenius Kabi, Switz.; Fresenius Kabi, Turk.*
A range of amino-acid, carbohydrate, and electrolyte infusions (p.1922·1).
Parenteral nutrition.

Aminomux *Gador, Arg.; Pasteur, Chile; Leti, Venez.*
Pamidronate disodium (p.1101·1).
Hypercalcaemia of malignancy; osteolysis of malignancy; osteoporosis; Paget's disease of bone.

Amino-Opti-C *Tyson, USA.*
Lemon bioflavonoids (p.2304·1); rutoside (p.2305·1); hesperidin (p.2304·3); vitamin C (p.1983·3); rose hips (p.2381·2).
Capillary bleeding.

Aminopad *Fresenius Kabi, Austria; Baxter, Ger.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Aminopan *UCB, Ger.†.*
Somatostatin acetate (p.1809·2).
Gastrointestinal haemorrhage; postoperative pancreatic disorders.

Aminoplasmal *Braun, Arg.; Braun, Austria; Braun, Chile; Braun, Cz.; Braun, Denm.; Braun, Fin.; Braun, Ger.; Bioser (Βιοσερ), Gr.; Braun, Hong Kong; Braun, Hung.; Braun, Indon.; Braun, Israel; Braun Melsungen, Ital.; Braun, Neth.; Braun, Pol.; Braun, Port.; Braun, Singapore†; Braun, Spain; Braun, Swed.†; Braun, Thai.; Braun, Turk.; Braun, UK.*
A range of amino-acid infusions with or without electrolytes (p.1922·1).
Parenteral nutrition.

Aminoplex *Sidus, Arg.†.*
Amino acids; vitamin B substances (p.1922·1).
Dietary supplement.

Aminopro *Euro-Med, Philipp.*
Amino-acid infusion with or without electrolytes (p.1922·1).
Parenteral nutrition.

Aminopt *Sigma, Austral.*
Aminoacridine hydrochloride (p.1625·1).
Eye infections.

Aminoram *Fresenius Kabi, Ital.*
Food for special diets (p.1922·1).
Liver disorders.

Aminoroztok Neo *Infusia, Cz.†.*
Amino-acid and electrolyte infusion with or without carbohydrate (p.1922·1).
Parenteral nutrition.

Aminosam *Szama, Arg.*
Biotin (p.1931·3).
Alopecia.

Aminoserin *Amnol, Ital.†.*
Amino acids; phosphatidyl serine; minerals; vitamin A palmitate (p.1922·1).
Nutritional supplement.

Aminosol *Abbott, Mex.; Hemofarm, Rus.; Thai Otsuka, Thai.*
Amino-acid infusion with or without electrolytes (p.1922·1).
Parenteral nutrition.

Aminosol Neo-E *Hemofarm, Rus.*
Amino-acid and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminosolut *DeltaSelect, Ger.†.*
Amino-acid, carbohydrate, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminostab *Fresenius Kabi, Fr.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Aminosteril *Fresenius Kabi, Arg.; Fresenius Kabi, Austria; Baxter, Fin.†; Fresenius Kabi, Ger.; Fresenius Kabi, Gr.; Fresenius Kabi, Hung.; Fresenius Kabi, Indon.; Fresenius Kabi, Mex.; Fresenius Kabi, Pol.; Fresenius Kabi, Rus.; Fresenius Kabi, Spain; Fresenius Kabi, Switz.; Fresenius Kabi, Thai.; Fresenius Kabi, Turk.*
A range of amino-acid infusions with or without electrolytes (p.1922·1).
Parenteral nutrition.

Aminosteril N Hepa *Fresenius Kabi, Cz.; Fresenius Kabi, Hong Kong†; Fresenius Kabi, Malaysia; Fresenius Kabi, Neth.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in liver failure.

Aminostress *Lafare, Ital.†.*
Nutritional supplement (p.1922·1).

Aminosyn *Hospira, USA.*
A range of amino-acid infusions with or without glucose and electrolytes (p.1922·1).
Parenteral nutrition.

Aminoterapia
Defuen, Arg.†.
Cream: Vitamin A; vitamin E acetate; ceramide; amino acids (p.1922·1).
Nail disorders.

Defuen, Arg.
Oral powder; tablets: Cystine; gelatin (p.1922·1).
Skin, hair, and nail disorders.

Defuen, Arg.†.
Tablets: Cystine; gelatin; cellulose (p.1922·1).
Skin, hair, and nail disorders.

Aminoterapia Capilar *Defuen, Arg.*
Cystine; hydrolysed animal protein; hydrolysed hair keratin; tocopheryl acetate; ascorbyl palmitate (p.1922·1).
Hair disorders.

Aminotool *Volchem, Ital.*
Amino-acid preparation (p.1922·1).

Aminotox *Teuto, Braz.†.*
Adenosine (p.1202·1); methionine (p.1450·1); betaine hydrochloride (p.2265·2); choline citrate (p.1934·2); pyridoxine hydrochloride (p.1978·2).
Liver disorders.

Aminotrans *GHP, Thai.†.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Aminotripa *Otsuka, Jpn.*
Amino-acid, carbohydrate, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Aminotrophylle-88 *Proel, Gr.*
Piracetam (p.368·2).
Mental function disorders.

Aminovac *Nikkho, Braz.*
Allergen preparation (p.2250·2).
Allergen immunotherapy.

Aminoveinte *Madariaga, Spain.*
Multivitamin and amino-acid preparation (p.1922·1).
Tonic.

Aminovel *Otsuka, Indon.*
Amino-acid, sorbitol, electrolyte, and vitamin infusion (p.1922·1).
Parenteral nutrition.

Aminoven *Fresenius Kabi, Arg.; Fresenius Kabi, Austria; Fresenius Kabi, Chile; Fresenius Kabi, Cz.; Fresenius Kabi, Fin.; Fresenius Kabi, Ger.; Fresenius Kabi, Gr.; Fresenius Kabi, Hung.; Fresenius Kabi, Ital.; Fresenius Kabi, Neth.; Fresenius Kabi, Pol.; Fresenius Kabi, Port.; Fresenius Kabi, Rus.; Fresenius Kabi, Spain; Fresenius Kabi, Switz.; Fresenius Kabi, Thai.; Fresenius Kabi, UK.*
Amino-acid infusion with or without glucose and electrolytes (p.1922·1).
Parenteral nutrition.

Aminovenoes N Paed *Fresenius Kabi, Cz.; Fresenius Kabi, Thai.†.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in neonates.

Aminovenos *Fresenius Kabi, Neth.; Fresenius Kabi, Turk.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in infants.

AminoVita *Cardinal, Philipp.*
A vitamin and amino-acid preparation (p.1922·1).

Aminoxidin *Fada, Arg.†.*
Ampicillin (p.204·1).
Bacterial infections.

Aminoxidin Sulbactam *Fada, Arg.*
Ampicillin (p.204·1); sulbactam (p.335·1).
Bacterial infections.

Aminoyodarsencal *Italmex, Mex.*
Calcium formate; calcium gluconate; calcium lactate; lysine hydrochloride; orthoiodine; tryptophan (p.1922·1).
Calcium deficiency; dietary supplement.

Aminozim *Balverda, Ital.†.*
Amino-acid preparation (p.1922·1).
Tonic.

Aminozyme *Stadmed, India.*
Protein hydrolysate; vitamin B substances; zinc sulfate (p.1922·1).
Burns; enzyme deficiency; hypoproteinaemia; nutritional supplement.

Amiobal *Baldacci, Braz.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiobeta *Betapharm, Ger.†.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiocar *Klonal, Arg.*
Amiodarone (p.1210·2).
Arrhythmias.

Amiod *IA, Ger.†.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiodacore *CTI, Israel.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias; heart failure.

Amiodar *Sigma-Tau, Ital.; Sandoz, Switz.*
Amiodarone hydrochloride (p.1210·2).
Angina pectoris; arrhythmias.

Amiodarex *Sanofi Synthelabo, Ger.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiodura *Merck dura, Ger.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiogamma *Worwag, Ger.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiohexal *Hexal, Cz.; Hexal, Ger.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiokordin *KRKA, Cz.; KRKA, Hung.†; KRKA, Pol.; KRKA, Rus.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amiopia *Medical, Spain.*
Vitamins, minerals, amino acids (p.1922·1); isoniazid (p.288·1).
Eye disorders.

Amiorel *Boehringer Ingelheim, Arg.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders with increased or viscous mucus.

Amiorel Compuesto *Boehringer Ingelheim, Arg.*
⊗ Bromhexine hydrochloride (p.1552·2); diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); ephedrine hydrochloride (p.1558·2).
Respiratory-tract disorders.

Amioron *Geolab, Braz.†.*
Amiodarone (p.1210·2).
Arrhythmias.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Amioxid *Neuraxpharm, Ger.*
Amitriptylinoxide (p.381·1).
Depression.

Amiparen *Otsuka, Indon.; Otsuka, Jpn; Thai Otsuka, Thai.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Amiphos *Dabur, India.*
Amifostine (p.1436·3).
Radiation-associated xerostomia; reduction of nephrotoxicity due to cisplatin; reduction of neutropenia due to cyclophosphamide and cisplatin therapy for ovarian cancer.

Amiprid *Keri, Hung.*
Amisulpride (p.961·1).
Psychoses.

Amira *Alphapharm, Austral.*
Moclobemide (p.411·1).
Depression.

Amirel *Medipharm, Chile.*
Mirtazapine (p.409·2).
Depression.

Amiretic *Biolab Sanus, Braz.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Amirine *Rivopharm, Switz.*
Mianserin hydrochloride (p.408·1).
Depression.

Amirone *Julphar, UAE.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Amisol *Medica Korea, Singapore.*
⊗ Clobetasone butyrate (p.1522·3).
Skin disorders.

Amisulid *Temmler, Ger.*
Amisulpride (p.961·1).
Schizophrenia.

Amitacon *Egis, Thai.†.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris; heart failure; myocardial infarction.

Amithiazide *Jean-Marie, Hong Kong.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Amitiza *Takeda, USA.*
Lubiprostone (p.1742·3).
Chronic idiopathic constipation.

Amitone
Note.This name is used for preparations of different composition.
Unison, Hong Kong.
Ketotifen fumarate (p.582·2).
Allergic rhinitis; asthma.
Menley & James, USA†.
Calcium carbonate (p.1714·1).
Hyperacidity.

Amitrex *Sanofi-Aventis, Hung.; Sanofi-Aventis, Port.*
Amisulpride (p.961·1).
Schizophrenia.

Amitrexyl *BMS, Venez.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amitrid *Leiras, Fin.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension; oedema.

Amitrip *Pacific, NZ.*
Amitriptyline hydrochloride (p.376·1).
Depression.

Amitron *Torlan, Spain.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infection.

Amivia *Coloplast, Fr.†.*
Calcium alginate (p.1058·1); carmellose sodium (p.2142·1).
Ulcers; wounds.

Amix
Note. A similar name is used for preparations of different composition (see Amixx, below).
Ashbourne, UK.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amixen *Bernabo, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amixen Clavulanico *Bernabo, Arg.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amixen Plus *Bernabo, Arg.*
Amoxicillin trihydrate (p.202·2); diclofenac potassium (p.44·3).
Bacterial infections with inflammation.

Amixide *Sun, Rus.*
Amitriptyline hydrochloride (p.376·1); chlordiazepoxide (p.968·1).
Anxiety; depression.

Amixin *Masterlek, Rus.*
Tilorone.
Viral infections.

Amixx
Note. A similar name is used for preparations of different composition (see Amix, above).
Krewel, Ger.
Amantadine hydrochloride (p.792·3).
Drug-induced extrapyramidal disorders; parkinsonism.

Amiyec *IQFA, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amiyu *Ajinomoto, Thai.; Biotek, Turk.*
Amino-acid preparation (p.1922·1).
Nutritional supplement; renal failure.

Amizal *Vida, Port.*
Idebenone (p.367·1).
Mental impairment associated with cerebrovascular disorders.

Amizepin *Polpharma, Pol.*
Carbamazepine (p.471·3).
Bipolar disorder; epilepsy; neuralgia.

Amizet 10 *Tanabe, Jpn†.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Amizet 10X *Tanabe, Jpn†.*
Amino-acid and carbohydrate infusion (p.1922·1).
Parenteral nutrition.

Amizide *Alphapharm, Austral.; Alphapharm, Malaysia; Pacific, NZ.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hepatic cirrhosis with ascites; hypertension; oedema.

Amizin *Giempi, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

AMK *Pisa, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amlactin *Upsher-Smith, USA.*
Ammonium lactate (p.1589·2).
Dry skin.

AmLactin AP *Upsher-Smith, USA.*
Pramocaine hydrochloride (p.1868·1); lactic acid (p.2329·3).

Amlate *Reddy, S.Afr.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlibon
Sandoz, Gr.; Sandoz, Venez.
Amlodipine (p.1214·2).
Angina pectoris; heart failure; hypertension.
Sandoz, Mex.
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlibon B *Sandoz, Venez.*
Amlodipine (p.1214·2); benazepril (p.1223·3).
Hypertension.

Amlid *Pinewood, Irl.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlidual *Sandoz, Mex.*
Amlodipine mesilate (Amlibon) (p.1214·2); simvastatin (Simplaqor) (p.1390·2).

Amlip *SM, Venez.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlist *Gerard, Irl.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlo *Wolff, Neth.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlo eco *Ecosol, Switz.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlo Tad *TAD, Ger.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlo Wolff *Wolff, Ger.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlobeta *Betapharm, Ger.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amloc
Pfizer, Arg.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.
Bago, Chile; Pfizer, Venez.†.
Amlodipine (p.1214·2).
Angina pectoris; hypertension.
Pharma Dynamics, S.Afr.
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlocard *AWD, Ger.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amloclair *Hennig, Ger.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlocor *Torrent, Braz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlo-corax *corax, Ger.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlodac *Zydus, India.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlodanorm *Genericon, Austria.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlode *Rowex, Irl.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlodep *Extractum, Hung.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlodeq *Rottapharm, Spain†.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlodigamma
Worwag, Cz.; Worwag, Hung.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.
Worwag, Ger.
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlodil
Gap, Gr.
Amlodipine (p.1214·2).
Angina pectoris; hypertension.
Bosnalijek, Rus.
Amlodipine besilate (p.1214·1).

Amlodin *Sumitomo, Jpn.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlodine *Quesada, Arg.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlodis *Eczacibasi, Turk.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlodoc *Docpharm, Ger.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlodowin *Chinoin, Hung.*
Amlodipine (p.1214·2).

Amlogal *SMB, Belg.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlogard *Pfizer, India.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlo-Isis *Alpharma-Isis, Ger.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlokard *Sanovel, Turk.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

AmloLich *Winthrop, Ger.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlonor *Norpharm, Neth.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlopen *Elpen (Ελπεν), Gr.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlopin
Lek, Pol.; Farma, Venez.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.
Spirig, Switz.
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlopine *Berlin Pharm, Thai.*
Amlodipine besilate (p.1214·1).
Angina pectoris; congestive heart failure; hypertension.

Amlopp *Cipla, Cz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amloprax *Teuto, Braz.†.*
Amlodipine besilate (p.1214·1).
Hypertension.

Amlopres *Cipla, India.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlopres AT *Cipla, India.*
⊗ Amlodipine besilate (p.1214·1); atenolol (p.1217·3).
Hypertension.

Amlopres L *Cipla, India.*
Amlodipine besilate (p.1214·1); lisinopril (p.1325·2).
Hypertension.

Amlopres Z *Cipla, India.*
Amlodipine besilate (p.1214·1); losartan potassium (p.1326·1).
Hypertension.

Amlopress *Phoinix Pharm (Φοινιξ Φαρμ), Gr.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlopril *Pfizer, Arg.*
Amlodipine besilate (p.1214·1); benazepril hydrochloride (p.1223·2).
Hypertension.

Amlo-Q *Juta, Ger.; Q-Pharm, Ger.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlor *Pfizer, Belg.; Pfizer, Fr.; Binesa, Spain.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amloratio *Ratiopharm, Pol.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amloreg *Ratiopharm, Austria.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amloretin *Biomedica-Chemica, Gr.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlosafe *Otsira, India†.*
Amlodipine besilate (p.1214·1).

Amlosafe-AT *Otsira, India†.*
⊗ Amlodipine besilate (p.1214·1); atenolol (p.1217·3).

Amlosafe-LS *Otsira, India†.*
Amlodipine besilate (p.1214·1); lisinopril (p.1325·2).

Amlosilat *AG Therapy, Gr.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlostad *Stada, Neth.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlostat *Biochem, India.*
Amlodipine besilate (p.1214·1).

Amlostat-AT *Biochem, India.*
⊗ Amlodipine besilate (p.1214·1); atenolol (p.1217·3).

Amlostin *Schein, UK.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlosyl *Norpharm, Neth.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlosyn *Generix, S.Afr.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlotabs *Cantabria, Spain†.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlotens *Klonal, Arg.; Specifar, Gr.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amlotenz *Belupo, Cz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlotop *Makiz-Pharma, Rus.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlotrust *Centaur, India.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Amlovas *Unique, Rus.; Drogsan, Turk.; Megat, Venez.*
Amlodipine besilate (p.1214·1).
Angina pectoris; arrhythmias; heart failure; hypertension.

Amlovasc
Hexal, Braz.†.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.
Streuli, Switz.
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Amlow *Unipharm, Israel.*
Amlodipine maleate (p.1214·2).
Angina pectoris; hypertension.

Amlozek *Adamed, Cz.; Adamed, Hung.; Adamed, Pol.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Ammeltz *Kobayashi, Thai.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2); nonivamide (p.96·2).
Musculoskeletal pain; soft-tissue disorders.

Ammidene *Macrophar, Thai.*
Piroxicam (p.117·3).
Gout; musculoskeletal and joint disorders.

Ammiformin *Macrophar, Thai.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Ammi-Indocin *Macrophar, Thai.*
Indometacin (p.66·3).
Gout; musculoskeletal and joint disorders.

Ammilazo *Macrophar, Thai.*
Phenazopyridine hydrochloride (p.116·2).
Urinary-tract pain.

Amminac *Macrophar, Thai.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders; pain.

Ammirox *Macrophar, Thai.*
Roxithromycin (p.331·1).
Bacterial infections.

Ammitram *Macrophar, Thai.*
Tramadol hydrochloride (p.130·3).
Pain.

Ammi-Votara *Macrophar, Thai.*
Diclofenac sodium (p.44·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Ammonaps *Swedish Orphan, Cz.; Orphan, Fr.†; Orphan, Ger.†; Orphan, Ital.; Orphan, Neth.; Orphan, Pol.; Swedish Orphan, Port.; Orphan, Spain; Swedish Orphan, UK.*
Sodium phenylbutyrate (p.2390·2).
Urea cycle disorders.

Ammonul *Ucyclyd, USA.*
Sodium phenylacetate (p.2390·2); sodium benzoate (p.1630·2).
Hyperammonaemia.

Amnesteem *Mylan, USA.*
Isotretinoin (p.1599·2).
Acne.

Amniolina *Reig Jofre, Spain.*
Talc (p.1615·2); zinc oxide (p.1621·2).
Nappy rash.

Amnivent *Ashbourne, UK†.*
Aminophylline (p.1114·2).
Bronchospasm.

Amnolake *Shinyaku, Jpn.*
Tamibarotene (p.772·3).
Acute promyelocytic leukaemia.

AMO Endosol *Advanced Medical Optics, Austral.; Allergan, Braz.†; Allergan, USA.*
Electrolytes (p.1667·1).
Irrigation solution during surgery.

Amo Resan *Alacan, Spain†.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

AMO Vitrax *Advanced Medical Optics, Austral.; Advanced Medical Optics, NZ†; Genop, S.Afr.; AMO, Singapore†; Allergan, USA.*
Sodium hyaluronate (p.2320·1).
Aid in ocular surgery.

Amobay *Bayer, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amobay CL *Bayer, Mex.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amobiotic
Laboratorios Chile, Chile.
Amoxicillin (p.202·2).
Bacterial infections.

Bernofarm, Indon.
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amobronc *Ist. Chim. Inter., Ital.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-system disorders.

Amocasin *Northia, Arg.*
⊗ Salbutamol (p.1131·2).
Asthma.

Amocetin *Remedina, Gr.*
Nimesulide (p.95·3).
Inflammation; musculoskeletal disorders; pain.

Amocid *Lysoform, Ger.*
Orthophenylphenol (p.1655·1).
Surface disinfection.

Amocillin *Caps, S.Afr.*
Amoxicillin sodium (p.202·2).
Bacterial infections.

Amocla
Penmix, Singapore.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Kuhnil, Thai.
Amoxicillin sodium (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoclan
Hexal, Austria; Katwijk, Neth.; Hexal, Rus.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Hexal, Hung.†.
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2); clavulanic acid (p.250·2) or potassium clavulanate (p.250·2).
Bacterial infections.

Westward, USA.
Amoxicillin (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoclane *Eurogenerics, Belg.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amoclav
Casasco, Arg.; Hexal, Ger.; 1A, Hung.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Biomedis, Philipp.
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amoclavam *BA Farma, Port.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoclave *Bial, Spain.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoclen *Zentiva, Cz.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amocol *Offenbach, Mex.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Amocomb *Bernofarm, Indon.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amocrin *Epifarma, Ital.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amodex *Bouchara-Recordati, Fr.*
Amoxicillin trihydrate (p.202·2) or amoxicillin sodium (p.202·2).
Bacterial infections.

Amodion *Schering-Plough, Venez.*
⊗ Ammonium acetate (p.1551·2); sodium benzoate (p.1630·2); ephedrine hydrochloride (p.1558·2).
Cough.

Amodipan *Santa, Gr.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amodivyr *Copernico, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Amodormin *Omicron, Arg.*
Diphenhydramine (p.577·1).
Insomnia.

Amoebriz *Janssen-Cilag, Mex.*
Mebendazole (p.148·3); quinfamide (p.846·2).
Amoebiasis; worm infections.

Amofar *Cafar, Venez.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amofat *Protein, Mex.†.*
Famotidine (p.1730·1).
Peptic ulcer.

Amofen *Pediapharm, Chile.*
Diclofenac (p.44·2).
Fever; inflammation; pain.

Amofil *Veripalvelu, Fin.*
A factor VIII preparation (p.1067·1).
Factor VIII deficiency; haemophilia A.

Amofilin *Pisa, Mex.*
Aminophylline (p.1114·2).

Amoflamisan *Beecham, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoflux *Bergamo, Braz.†; Lampugnani, Ital.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amofur *Ivax, Mex.*
Quinfamide (p.846·2).
Amoebiasis.

Amogal *Galena, Cz.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amohexal *Hexal, Austral.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoklavin *Deva, Turk.*
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amoksiklav
Lek, Cz.; Lek, Pol.; Lek, Rus.
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Lek, Hong Kong; Lek, Thai.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoksilav *Ilsan, Turk.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoksilin *Nobel, Turk.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoksina *Nevzat, Turk.*
Amoxicillin (p.202·2).
Bacterial infections.

Amol
Note. A similar name is used for preparations of different composition (see below).
Altana, Cz.
Peppermint oil (p.1761·2); citronella oil (p.2284·2); clove oil (p.2285·1); cinnamon oil (p.2283·2); lavender oil (p.2331·2); lemon oil (p.2332·3); menthol (p.2340·1).
Cold symptoms; coughs; digestive disorders; sore throat.

Altana, Pol.
Peppermint oil (p.1761·2); clove oil (p.2285·1); cinnamon oil (p.2283·2); lavender oil (p.2331·2); lemon oil (p.2332·3); menthol (p.2340·1); melissa oil (p.2339·3).
Cold symptoms; eczema; gastrointestinal disorders; headache; insect bites; musculoskeletal and joint disorders; nervous disorders; neuralgia; oral hygiene; toothache.

A-Mol
Note. A similar name is used for preparations of different composition (see above).
Siam Bheasach, Thai.
Paracetamol (p.108·1).
Fever; pain.

Amol Heilkrautergeist N *Altana, Ger.*
Melissa oil (p.2339·3); clove oil (p.2285·1); cinnamon oil (p.2283·2); lemon oil (p.2332·3); peppermint oil (p.1761·2); lavender oil (p.2331·2); menthol (p.2340·1).
Capillary disorders; gastrointestinal disorders.

A-Mol Plus *Siam Bheasach, Thai.*
Chlorphenamine maleate (p.571·3); paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms; nasal congestion.

Amolex *Andromaco, Chile.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amolgen *Solfran, Mex.*
Paracetamol (p.108·1).
Fever; pain.

Amolin
Note. A similar name is used for preparations of different composition (see below).
APT, Hong Kong.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Ergha, Irl.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Am-O-Lin
Note. A similar name is used for preparations of different composition (see above).
Bayer, NZ.
Almond oil (p.2252·2); calamine (p.1591·2); salicylic acid (p.1612·2); zinc oxide (p.1621·2).
Nappy rash; skin irritation.

Amoltex *Aldril, Philipp.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease; premature labour.

Amonate *Dafra, Belg.*
White tablets, artesunate (p.598·2); yellow tablets, amodiaquine (p.597·2).
Malaria.

Amoram *LPC, UK.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amorion *Orion, Fin.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amosan
Note.This name is used for preparations of different composition.
Oral-B, Austral.; Gillette, Belg.
Sodium perborate (p.1662·1); sodium bitartrate.
Mouth disorders.

Oral-B, Canad.; Oral-B, USA.
Sodium perborate (p.1662·1).
Oral disinfection; oral lesions.

Amosept *Lysoform, Ger.*
Didecyldimethylammonium chloride (p.1642·2).
Hand disinfection.

Amosin *Sintez, Rus.; Sanli, Turk.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amosine *Mugi, Indon.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amosol *SoSe, Ital.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amospes *Specifar (Σπεσιφαρ), Gr.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Amosyt *Bioglan, Swed.*
Dimenhydrinate (p.576·2).
Ménière's syndrome; motion sickness; nausea; vertigo.

Amotaks *Polfa Tarchomin, Pol.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amotein *Chiesi, Spain.*
Metronidazole (p.837·1).
Amoebiasis; anaerobic bacterial infections; giardiasis; trichomoniasis.

Amoval *Saval, Chile.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoval Duo *Saval, Chile.*
Amoxicillin (p.202·2).
Bacterial infections.

Amovin *Cofasa, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Amox
EMS, Braz.
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

KG, Ital.; SM, Thai.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxa *Atlantic, Hong Kong†; Atlantic, Singapore†; Atlantic, Thai.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxadene *Cifarma, Braz.*
Amoxicillin trihydrate (p.202·2).

Amoxal
Hexal, Austria.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

GSK, Venez.
Amoxicillin (p.202·2).
Bacterial infections.

Amoxapen *Remedica, Hong Kong; Remedica, Singapore.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxaren *Areu, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxcillin *Greater Pharma, Thai.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxclav *Sandoz, Ger.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amox-G *Klonal, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amox-G Bronquial *Klonal, Arg.*
Amoxicillin (p.202·2); bromhexine (p.1552·2).
Bacterial infections.

Amoxi
Mar, Arg.
Amoxicillin (p.202·2).
Bacterial infections.

SMB, Belg.†; 1A, Ger.; CT, Ger.; Sandoz, Ger.; Sanol, Ger.; Schwarz, Ger.; Generics, Israel; Pharmachemie, Neth.; TO-Chemicals, Thai.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi Gobens *Normon, Spain.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi Gobens Mucolitico *Normon, Spain.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Amoxi Plus *Mar, Arg.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amoxi Respiratorio *Mar, Arg.†.*
Amoxicillin (p.202·2); ambroxol (p.1550·3).
Respiratory-tract infections.

Amoxibacter *Rubio, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

amoxi-basan *Schonenberger, Switz.†.*
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxibeta *Betapharm, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxibiot *Investi, Arg.*
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxibron
Note.This name is used for preparations of different composition.
Kinder, Braz.
Amoxicillin (p.202·2).
Bacterial infections.

GSK, Mex.
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Amoxicap
Globo, Braz.†.
Amoxicillin (p.202·2).
Bacterial infections.

Hovid, Singapore.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxicilina Duo *Plata, Arg.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxicillin comp *Sandoz, Austria; Ratiopharm, Ger.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxicina *Oriental, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxiclav *Alpharma-Isis, Ger.; Basics, Ger.; Betapharm, Ger.; CT, Ger.; Teva, Israel; Pisa, Mex.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

AmoxiClavulan *1A, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxi-Clavulan *1A, Ger.; Aliud, Ger.; Stada, Ger.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxicler *Monserrat, Arg.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxiclide *Rimsa, Mex.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2); nimesulide (p.95·3).
Respiratory-tract infections.

Amoxicom *Eversil, Braz.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxicomp *Genericon, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxi-Cophar *Cophar, Switz.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxidal *Roemmers, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxidal Duo *Roemmers, Arg.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxidal Respiratorio
Note.This name is used for preparations of different composition.
Roemmers, Arg.
Injection: Amoxicillin sodium (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Roemmers, Arg.
oral suspension; Tablets: Amoxicillin trihydrate (p.202·2); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Amoxidal Respiratorio Duo *Roemmers, Arg.*
Amoxicillin trihydrate (p.202·2); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Amoxident *LPC, UK.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxidil *Cifarma, Braz.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi-Diolan *Meda, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxidoc *Docpharm, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxiduo *Roemmers-Klinos, Venez.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxidura Plus *Merck dura, Ger.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxifar *Zambon, Braz.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxifur *Ivax, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxiga *Elter, Venez.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxigran *Hovid, Singapore.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxigrand *Ahimsa, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxigrand Bronquial *Ahimsa, Arg.*
Amoxicillin (p.202·2); ambroxol (p.1550·3).
Respiratory-tract infections.

Amoxigrand Compuesto *Ahimsa, Arg.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amoxi-Hefa *Riemser, Ger.; Wernigerode, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxihexal *Hexal, Austria; Hexal, Cz.; Hexal, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxil
GSK, Austral.; GSK, Gr.; GSK, Indon.; GSK, Irl.; GSK, Mex.; GSK, S.Afr.; GSK, UK.
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

GSK, Braz.; German Remedies, India; GSK, NZ; GSK, Philipp.; GSK, Thai.; GSK, USA.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

GSK, Singapore.
Amoxicillin (p.202·2).
Bacterial infections.

Amoxilag *Lagap, Neth.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxilan *Lannacher, Austria; Meyer, Venez.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxillat *Azupharma, Ger.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxillat-Clav *Azupharma, Ger.†.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxillin
Pharos, Indon.
Amoxicillin (p.202·2).
Bacterial infections.

Benedetti, Ital.; Alpharma, Norw.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoximed *Cimed, Braz.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoximedical *Medical, Spain†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi-Mepha *Mepha, Switz.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoximerck *Merck dura, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoximex *Cimex, Switz.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxin *Ratiopharm, Fin.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxin Comp *Ratiopharm, Fin.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxina
Hexal, Braz.†.
Amoxicillin (p.202·2).
Bacterial infections.

Aesculapius, Ital.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxinovag *Novag, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi-Ped *Stiefel, Braz.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxipen *Biochimico, Braz.†; Drovepat, Venez.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxipenil *Montpellier, Arg.; Bago, Chile.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxipenil Bronquial *Montpellier, Arg.*
Amoxicillin trihydrate (p.202·2); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Amoxiplus *Ratiopharm, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxipoten *Del Bel, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxi-Puren *Alpharma-Isis, Ger.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi-saar plus *MIP, Ger.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxisol *Rimsa, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxistad *Stada, Austria.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxistad plus *Stada, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amoxi-Tablinen *Winthrop, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxitan *Bunker, Braz.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxitenk *Biotenk, Arg.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxitenk Plus *Biotenk, Arg.*
Amoxicillin trihydrate (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Amoxitenk Respiratorio *Biotenk, Arg.†.*
Amoxicillin (p.202·2); ambroxol hydrochloride (p.1550·3).
Lidocaine hydrochloride (p.1862·3) is included in the injection to alleviate the pain of injection.
Respiratory-tract infections.

Amoxival *Valmor, Venez.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxivan *Khandelwal, India.*
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxivet *Valeant, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxi-Wolff *Wolff, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxol *Cassara, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Amoxsan *Sanbe, Indon.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxy *Hua, Thai.; M & H, Thai.*
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxyfizz *Schwulst, S.Afr.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxylin *Biomedis, Thai.; Great Eastern, Thai.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxypen *Socobom, Belg.; Grunenthal, Ger.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amoxyplus *Novag, Spain.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Ampakine *Rontag, Arg.*
Amantadine (p.792·3).
Drug-induced extrapyramidal disorders; influenza; parkinsonism.

Ampamet *Menarini, Ital.*
⊗ Aniracetam (p.363·2).
Mental function impairment.

Amparax *Wyeth, Chile.*
Lorazepam (p.1004·1).
Anxiety; nausea and vomiting; premedication.

Amparo *Mibe, Ger.*
Amlodipine mesilate (p.1214·2).
Angina pectoris; hypertension.

Ampavit *ANB, Thai.*
Vitamin B (p.1980·2).
Megaloblastic anaemia.

Ampecyclal *Erempharma, Fr.*
⊗ Heptaminol adenosine phosphate (p.2319·1).
Haemorrhoids; metrorrhagia; venous insufficiency.

Ampen *Pfizer, Venez.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampenina *Behrens, Venez.*
Ampicillin sodium (p.204·1).
Bacterial infections.

Ampex *Pharmacos, Mex.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Amphadase *Amphastar, USA.*
Hyaluronidase (p.2321·1).
Adjunct in subcutaneous urography; adjuvant to increase the absorption and dispersion of injected drugs; hypodermoclysis.

Amphiprol *Proel, Gr.*
Amphotericin B (p.523·2).
Fungal infections.

Amphisept *Goldschmidt, Switz.†.*
⊗ Alcohol (p.1625·2).
Hand disinfection.

Amphisept E *Bode, Ger.*
⊗ Alcohol (p.1625·2).
Hand disinfection.

Amphochol *Herbapol Lodz, Pol.*
Fumitory (p.2307·2).
Biliary-tract disorders.

Amphocil *Mayne, Austral.; Torrex, Austria; Zodiac, Braz.; Torrex, Cz.; Samaritan, Gr.; Mayne, Hong Kong†; Torrex, Hung.; Alza, Irl.; Sequus, Israel; Three Rivers, Malaysia; Lemery, Mex.; Intermune, Neth.; Torrex, Pol.; Farmoz, Port.; Intermune, Singapore†; Sequus, Spain; Mayne, Thai.; Beacon, UK.*
Amphotericin B-sodium cholesteryl sulfate complex (p.523·2) (p.523·2).
Fungal infections; leishmaniasis.

Amphocycline *BMS, Fr.*
Amphotericin B (p.523·2); tetracycline (p.347·1).
Vaginitis.

Amphodyn
Fujisawa, Austria.
⊗ Etilefrine hydrochloride (p.1284·1); aescin (p.2248·2).
Circulatory disorders; hypotension.

Klinge, Ger.†.
⊗ Etilefrine hydrochloride (p.1284·1); aesculus (p.2248·2).
Circulatory disorders; hypotension.

Amphoglucamin *Sintez, Rus.*
Amphotericin B (p.523·2).
Fungal infections.

Amphojel *Aurium, Canad.; Whitehall, NZ†; Akromed, S.Afr.; Wyeth-Ayerst, USA.*
Aluminium hydroxide (p.1706·2).
Antacid; gastric hyperacidity.

Ampho-Moronal *Dermapharm, Austria; Dermapharm, Ger.; Dermapharm, Switz.*
Amphotericin B (p.523·2).
Fungal infections.

Amphosca *Homeocan, Canad.*
Homoeopathic preparation.

Amphosca a l'orchitine *Lehning, Fr.*
Homoeopathic preparation.

Amphosca a l'ovarine *Lehning, Fr.*
Homoeopathic preparation.

Amphotec
Raffo, Arg.; Sequus, USA; Nolver, Venez.
Amphotericin B (p.523·2).
Fungal infections.

Oryx, Canad.†.
Amphotericin B-sodium cholesteryl sulfate complex (p.523·2)(p.523·2).
Aspergillosis.

Ampi
Arion, Arg.†; Prodotti, Braz.
Ampicillin (p.204·1).
Bacterial infections.

Interbat, Indon.
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampibac *CT, Ital.†.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Ampibactan *Behrens, Venez.*
Ampicillin sodium (p.204·1); sulbactam sodium (p.335·1).
Bacterial infections.

Ampibal *Collins, Mex.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampi-Bis *Northia, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Ampi-Bis Plus *Northia, Arg.*
Ampicillin (p.204·1); sulbactam (p.335·1).
Bacterial infections.

Ampicidar *Columbia, Mex.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampiciflan *Bunker, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Ampiciklyna *Balldarassi, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicil *Medley, Braz.*
Ampicillin (p.204·1) or ampicillin sodium (p.204·1).
Bacterial infections.

Ampicilab *Multilab, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicilase *Teuto, Braz.*
Ampicillin (p.204·1) or ampicillin sodium (p.204·1).
Bacterial infections.

Ampicilib *Ibfarma, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicilil *Greenpharma, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicilon *Delta, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicimax *Royton, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicin *Westmont, Philipp.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampicinal *Globo, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampicler *Monserrat, Arg.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampiclox
GSK, Cz.†.
Ampicillin sodium (p.204·1); cloxacillin sodium (p.256·1).
Bacterial infections.

GSK, Hong Kong†.
Ampicillin (p.204·1); cloxacillin sodium (p.256·1).
Bacterial infections.

GSK, Irl.†; GSK, S.Afr.
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2); cloxacillin sodium (p.256·1).
Bacterial infections.

GSK, Thai.
Ampicillin (p.204·1); cloxacillin (p.256·1).
Bacterial infections.

Ampiclox-D *GSK, Mex.*
Ampicillin trihydrate (p.204·2); dicloxacillin sodium (p.265·2).
Bacterial infections.

Ampicyn
Aspen, Austral.
Ampicillin sodium (p.204·1).
Bacterial infections.

Siam Bheasach, Thai.
Ampicillin (p.204·1).
Bacterial infections.

Ampidrat *Collins, Mex.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampifar *Farmoquimica, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampifen *Malayan, Singapore†.*
Ibuprofen (p.64·2).
Musculoskeletal, joint, and soft-tissue disorders; pain.

Ampiga *Elter, Venez.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampigen *Fabra, Arg.*
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampigen SB
Note.This name is used for preparations of different composition.
Fabra, Arg.
Injection: Ampicillin sodium (p.204·1); sulbactam sodium (p.335·1).
Bacterial infections.

Fabra, Arg.
Tablets: Sultamicillin tosilate (p.344·1).
Bacterial infections.

Ampigran *Legrand, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Ampigrand *Ahimsa, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Ampigrin *Collins, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Ampikyy *Vitabalans, Fin.*
⊗ Hydrocortisone (p.1535·2).
Snake bites; wasp and bee stings.

Ampilan *Meyer, Venez.*
Ampicillin (p.204·1).
Bacterial infections.

Ampilevel *Ern, Spain.*
Ampicillin benzathine (p.205·1); ampicillin sodium (p.204·1).
Formerly contained ampicillin benzathine, ampicillin sodium, and bromhexine hydrochloride.
Bacterial infections.

Ampilin
Hetero, India; Atlantic, Malaysia.
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Atlantic, Singapore; Atlantic, Thai.
Ampicillin sodium (p.204·1).
Bacterial infections.

Ampilisa *Lisapharma, Ital.†.*
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampillin *PP Lab, Thai.†.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampilon *Loren, Mex.†.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampilox *Biochem, India.*
Ampicillin (p.204·1), ampicillin sodium (p.204·1), or ampicillin trihydrate (p.204·2); cloxacillin (p.256·1) or cloxacillin sodium (p.256·1).
Bacterial infections.

Ampilox-LB *Biochem, India.*
Ampicillin (p.204·1); cloxacillin (p.256·1); lactobacillus spores (p.2372·3).
Bacterial infections.

Ampilozin *Ducto, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Ampilux *Tubilux, Ital.*
Ampicillin sodium (p.204·1).
Eye infections.

Ampimax *Hexal, S.Afr.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampimex *Arlex, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Ampina *Penn, Arg.*
Nimodipine (p.1357·2).
Cerebrovascular disorders.

Ampine *Biomedica-Chemica, Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Ampinex *Medopharm, Philipp.*
Ampicillin sodium (p.204·1).
Bacterial infections.

Ampinox *Frasca, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Ampipen *Wyeth, India; Caps, S.Afr.*
Ampicillin (p.204·1).
Bacterial infections.

Ampiplus
Note.This name is used for preparations of different composition.
Menarini, Ital.†.
Ampicillin sodium (p.204·1); dicloxacillin sodium (p.265·2).
Bacterial infections.

Tecefarma, Spain.
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampiplus Simplex *Menarini, Ital.*
Ampicillin sodium (p.204·1).
Bacterial infections.

Ampi-Quim *Quimica y Farmacia, Mex.*
Ampicillin (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampirovix *Farmedia, Gr.*
Tenoxicam (p.128·2).
Inflammatory disorders.

Ampiset *Collins, Mex.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampisid
Note.This name is used for preparations of different composition.
Nevzat, Turk.
Injection: Ampicillin (p.204·1); sulbactam (p.335·1).
Bacterial infections.

Nevzat, Turk.
Oral suspension; tablets: Sultamicillin (p.344·1).
Bacterial infections.

Ampisina *Nevzat, Turk.*
Ampicillin (p.204·1).
Bacterial infections.

Ampisyn *Cipla, India.*
Ampicillin (p.204·1).
Bacterial infections.

Ampitasol *Pharmex (Φαρμεξ), Gr.*
Triclosan (p.1665·2).
Disinfection.

Ampi-Tecno *Tecnofarma, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Ampitenk *Biotenk, Arg.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampitrat *Vitapan, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampitren *Ronava, Venez.†.*
Ampicillin (p.204·1); sulbactam (p.335·1).
Bacterial infections.

Ampival *Sanval, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Ampixen *Oriental, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Ampixin *Neckerman, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Amplacilina *Eurofarma, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Amplacin *Cifarma, Braz.*
Ampicillin (p.204·1).
Bacterial infections.

Amplal *Gallia, Braz.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Amplamox *Biolab Sanus, Braz.†; Tecnifar, Port.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amplamox Plus *Tecnifar, Port.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amplavit *Cimed, Braz.*
Multivitamin preparation (p.1922·1).

Amplexol *Ethypharm, Port.†.*
Isosorbide mononitrate (p.1318·3).
Angina pectoris; heart failure; myocardial infarction.

Ampliactil *Aventis, Arg.*
Chlorpromazine hydrochloride (p.969·2).
Behaviour disorders in children; nausea and vomiting; pain; pruritus; psychoses.

Ampliar *Casasco, Arg.*
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Ampliar Duo *Casasco, Arg.*
Atorvastatin (p.1219·1); ezetimibe (p.1284·3).
Hypercholesterolaemia.

Amplibac *Bergamo, Braz.*
Ampicillin (p.204·1) or ampicillin sodium (p.204·1).
Bacterial infections.

Amplibenzatin Bronquial *Ivax, Arg.*
1 Ampoule, ampicillin sodium (p.204·1); ampicillin benzathine (p.205·1); 1 ampoule, clonixin lysine (p.37·1); chlorphenamine maleate (p.571·3); bromhexine hydrochloride (p.1552·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Respiratory-tract infections.

Amplictil *Sanofi-Aventis, Braz.*
Chlorpromazine hydrochloride (p.969·2).
Nausea and vomiting; premedication; psychoses; tetanus.

Amplidermis *Medea, Spain.*
⊗ Acedoben (p.2244·2); allantoin (p.1588·1); chlorquinaldol (p.242·3); dexamethasone (p.1526·1); mepyramine maleate (p.585·2); vitamin F (p.2308·2).
Infected burns, skin ulcers, and wounds; infected skin disorders.

Amplifar *Tecnifar, Port.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampligen *HemispheRx, USA.*
Poly I.poly C12U (p.902·1).
AIDS and HIV infection; chronic fatigue syndrome; invasive metastatic melanoma; renal cell carcinoma.

Ampliron *Rhein, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amplital *Pharmacia, Ital.*
Ampicillin (p.204·1), ampicillin sodium (p.204·1), or ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampliton *Makiz-Pharma, Rus.*
Tablets, amlodipine besilate (p.1214·1); tablets, cilazapril (p.1244·3).
Hypertension.

Amplium
Note.This name is used for preparations of different composition.
Farmasa, Braz.
Tinidazole (p.848·3).
Anaerobic bacterial infections; protozoal infections.

Sigma-Tau, Ital.
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2); cloxacillin sodium (p.256·1).
Bacterial infections.

Amplium-G *Farmasa, Braz.*
Tinidazole (p.848·3); miconazole nitrate (p.541·3).
Vulvovaginal infections.

Amplizer *OFF, Ital.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Amplobid *Bergamo, Braz.†.*
Erythromycin estolate (p.269·3).
Bacterial infections.

Amplobiotic *Prati-Donaduzzi, Braz.†.*
Chloramphenicol (p.239·3).
Bacterial infections.

Amplofen *Merck, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Amplospec *Biochimico, Braz.†.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Amplotal *Medley, Braz.*
Ampicillin benzathine (p.205·1); ampicillin sodium (p.204·1).
Bacterial infections.

Amplus
Note.This name is used for preparations of different composition.
Szama, Arg.
Salicylic acid (p.1612·2); pilocarpine hydrochloride (p.1884·3); dexpanthenol; vitamin B .
Scalp disorders.

Jagson, India.
Capsules; tablets: Ampicillin trihydrate (p.204·2); cloxacillin sodium (p.256·1); lactic-acid-producing organisms (p.2372·3).
Bacterial infections.

Jagson, India.
Injection: Ampicillin (p.204·1); cloxacillin (p.256·1).
Bacterial infections.

Ampoxin *Unichem, India.*
Ampicillin (p.204·1); cloxacillin (p.256·1).
Bacterial infections.

Ampoxin-LB *Unichem, India.*
Ampicillin trihydrate (p.204·2); cloxacillin sodium (p.256·1); lactic-acid-producing organisms (p.2372·3).
Bacterial infections.

Ampra *M & H, Thai.*
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Amprace *MSD, Austral.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Amprexyl
Unison, Hong Kong.
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Unison, Thai.
Ampicillin (p.204·1).
Bacterial infections.

Amprexyn *Liferpal, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Amprilan *KRKA, Cz.; KRKA, Hung.*
Ramipril (p.1385·3).
Heart failure; hypertension; myocardial infarction.

Amprilan H *KRKA, Cz.*
⊗ Ramipril (p.1385·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Amprilan HD *KRKA, Hung.*
⊗ Ramipril (p.1385·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Amprilan HL *KRKA, Hung.*
⊗ Ramipril (p.1385·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Ampro *TNP, Thai.†.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Ampromed *Millimed, Thai.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Amrix *ECR, USA.*
Cyclobenzaprine hydrochloride (p.1895·2).
Skeletal muscle spasm.

Amsa PD *Erfa, Canad.*
Amsacrine (p.681·1).
Acute leukaemias.

Amsalyo *OTL, Fr.†.*
Amsacrine (p.681·1).
Acute leukaemias.

Amsapen *Antibioticos, Mex.*
Ampicillin sodium (p.204·1).
Bacterial infections.

Amsati *Antibioticos, Mex.*
Azithromycin (p.207·1).
Bacterial infections.

Amsaxilina *Antibioticos, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amsidine *Pfizer, Belg.; Goldshield, Irl.; Pfizer, Neth.; Goldshield, UK.*
Amsacrine (p.681·1).
Acute leukaemias.

Amsidyl *Pfizer, Austral.; Godecke, Cz.†; Godecke, Ger.†; Pfizer, Switz.*
Amsacrine (p.681·1).
Acute leukaemias.

Amsupros *Pharmacia, Arg.†.*
Estramustine sodium phosphate (p.717·3).
Prostatic cancer.

AMT *Acis, Ger.†.*
Amantadine sulfate (p.793·1).
Influenza; parkinsonism.

Amtuss *Unison, Thai.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Amuchina *Pisa, Mex.†.*
Sodium hypochlorite (p.1661·1); sodium chloride (p.1686·1).
Mucous membrane, skin, surface, and wound disinfection.

Amuchina Med *Galephar, Switz.*
Sodium chloride (p.1686·1); sodium hypochlorite (p.1661·1).
Hand, skin, and wound disinfection.

Amuclan *Wolff, Ger.†; Wolff, Neth.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Amuclean *Amuchina, Ital.*
Benzalkonium chloride (p.1629·1).
Burn and wound disinfection.

Amuclor Med *Amuchina, Ital.*
Tosylchloramide sodium (p.1665·1).
Skin disinfection and cleansing.

Amuctol *Grunenthal, Arg.†.*
Erdosteine (p.1560·1).
Respiratory-tract disorders with viscous mucus.

Amuelle *Angelini, Ital.*
Pregnancy test (p.2372·1).

Amukin *BMS, Belg.; BMS, Neth.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Amukine *Gifrer Barbezat, Fr.*
Sodium hypochlorite (p.1661·1); sodium chloride (p.1686·1).
Skin, mucous membrane and wound cleansing.

Amukine Med *Amuchina, Ital.*
Sodium hypochlorite (p.1661·1).
Disinfection of burns, skin, wounds, and mucous membranes.

A-Mulsin *Mucos, Cz.†; Mucos, Ger.†.*
Vitamin A palmitate (p.1973·1).
Adjunct in cytotoxic therapy or radiotherapy; keratinisation disorders; vitamin A deficiency.

Amunovax *Sanofi Pasteur, Spain†.*
A measles vaccine (attenuated Enders' Edmonston strain) (p.2221·3).
Active immunisation.

Amusa *Icon, Philipp.*
Amoxicillin (p.202·2).
Bacterial infections.

Amvaz *Reddy, USA†.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amvey *APT, Hong Kong.*
Zopiclone (p.1039·1).
Insomnia.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Amvisc *Bio-Fizik, Turk.; Bausch & Lomb, USA.*
Sodium hyaluronate (p.2320·1).
Aid in ophthalmic surgery.

AMX *Pisa, Mex.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Amxol *Biolab, Hong Kong; Biolab, Malaysia; Biolab, Singapore; Biolab, Thai.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Amyben *Lexon, UK.*
Amiodarone hydrochloride (p.1210·2).
Tachyarrhythmias.

Amyclon *Nizpharm, Rus.†.*
Clotrimazole (p.530·1).
Fungal skin and nail infections.

Amycor *Merck-Lipha, Fr.*
Bifonazole (p.527·3).
Fungal skin infections.

Amycor Onychoset *Merck-Lipha, Fr.*
⊗ Bifonazole (p.527·3); urea (p.1620·2).
Fungal nail infections.

Amydramine *Julphar, UAE.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Amydramine II *Julphar, UAE.*
Diphenhydramine hydrochloride (p.577·2).
Cold symptoms; coughs; hypersensitivity reactions.

Amydramine Paediatric *Julphar, UAE.*
Diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Amygdorectol *Merck Medication Familiale, Fr.†; Merck-Lipha, Switz.*
Bismuth camphocarbonate (p.1712·1).
Mouth and throat disorders.

Amykon *Engelhard, Ger.†.*
Miconazole nitrate (p.541·3).
Fungal skin infections.

Amylin *Roemmers Rowe, Venez.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Amytal *Lilly, Austral.†; Lilly, Canad.†; Flynn, UK; Lilly, USA.*
Amobarbital sodium (p.961·3).
Hypnotic; insomnia; sedative; status epilepticus.

Amytril *Cristalia, Braz.*
Amitriptyline hydrochloride (p.376·1).
Depression.

Amyx *Zentiva, Cz.; Zentiva, Pol.*
Glimepiride (p.441·1).
Diabetes mellitus.

Amyzol *Lek, Rus.*
Amitriptyline hydrochloride (p.376·1).

Amze *Penn, Arg.*
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Amzepril *Richmond, Arg.†.*
Amlodipine (p.1214·2); benazepril (p.1223·3).
Hypertension.

Amziax *Chobet, Arg.*
Alprazolam (p.960·1).
Alcoholism; anxiety; delirium tremens.

AN 1 *Krugmann, Ger.†.*
⊗ Amfetaminil (p.2150·2).
Narcoleptic syndrome.

Anabact *Bioglan, Irl.†; Cambridge Healthcare, UK.*
Metronidazole (p.837·1).
Malodorous fungating tumours; malodorous skin ulcers.

Anabar *Lunsco, USA.*
Paracetamol (p.108·1); salicylamide (p.121·2); phenyltoloxamine citrate (p.588·1).

Anabet *BMS, Port.*
⊗ Nadolol (p.1345·2).
Hypertension.

Anabion *Berlico Mulia, Indon.*
Vitamin B substances; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Anabol *British Dispensary, Thai.*
⊗ Methandienone (p.2116·3).
Anabolic.

Anaboline Depot *Adelco, Gr.*
⊗ Nandrolone decanoate (p.2118·2).
Anabolic.

anabol-loges *Loges, Ger.*
Alpha tocoferil acetate (p.1992·3); magnesium hydrogen phosphate; terra silicea; St John's wort (p.422·3).
Tonic.

Anabrest *Synthon, Cz.*
⊗ Anastrozole (p.681·2).

Anabron *Millet Roux, Braz.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Anacal
Note.This name is used for preparations of different composition.
Ciclum, Port.
⊗ A heparinoid (p.1305·2); lauromacrogol 400 (p.1916·1); prednisolone (p.1540·3); hexachlorophene (p.1646·1).
Anorectal disorders.

Genus, UK.
A heparinoid (p.1305·2); lauromacrogol 400 (p.1916·1).
Anorectal disorders.

Anacalcit *Belmac, Spain.*
Sodium cellulose phosphate (p.1463·1).
Hypercalcaemia; hypercalciuria; osteopetrosis; vitamin D intoxication.

Anacaps *Ducray, Fr.*
Soya isoflavones (p.2391·2); bamboo extract; watercress extract; vitamins; evening primrose oil; zinc (p.1922·1).
Hair and scalp disorders.

Anacardio con Fosforo *Ximena Polanco, Chile.*
Homoeopathic preparation.

Anacervix *Lepori, Port.; Farma Lepori, Spain.*
Piracetam (p.368·2); vincamine (p.2414·1).
Cerebral trauma; cerebrovascular disorders.

Anacetine *Berlico Mulia, Indon.*
Paracetamol (p.108·1); guaifenesin (p.1561·3); phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3).
Cough; influenza symptoms.

Anacid *Ivax, Cz.; Ivax, Hung.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastric hyperacidity; gastritis; gastro-oesophageal reflux; peptic ulcer.

Anacid S *Ivax, Cz.*
Calcium carbonate (p.1714·1); magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Anacidol
Note.This name is used for preparations of different composition.
Menarini, Ital.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2); milk powder.
Gastrointestinal disorders.

Spirig, Switz.†.
Calcium carbonate (p.1714·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2).
Gastric disorders.

Anacin *Wyeth Consumer, Canad.; Wyeth Consumer, Chile; Wyeth Consumer, Hong Kong; ICC, Israel†; Whitehall, Israel†; Wyeth Consumer, Singapore†; Robins, USA; Wyeth, Venez.†.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; inflammation; pain.

Anacin Advanced Headache *Insight, USA.*
Paracetamol (p.108·1); aspirin (p.20·3); caffeine (p.1116·3).
Pain.

Anaclosil *IFET (ΙΦΕΤ), Gr.; Reig Jofre, Spain.*
Cloxacillin sodium (p.256·1).
Bacterial infections.

Anacold *Darou Pakhsh, Rus.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Respiratory-tract disorders.

Anacrodyne *Rekah, Israel.*
Vitamin B (p.1978·2).
Vitamin B deficiency.

Anacyclin *Novartis, Braz.†.*
Lynestrenol (p.2112·3); ethinylestradiol (p.2101·3). 28-Day packs also contain 6 inert tablets.
Combined oral contraceptive.

Anadar *Liptis, USA.*
Ibuprofen (p.64·2).

Anadar Cold & Flu *Liptis, USA.*
Ibuprofen (p.64·2); pseudoephedrine (p.1571·2); chlorphenamine maleate (p.571·3).
Cold and influenza symptoms.

Anadekin *Collins, Mex.*
Vitamins A, D, and K (p.1922·1).

Anadent
Note.This name is used for preparations of different composition.
Taro, Israel.
Topical gel: Benzocaine (p.1854·1).
Mouth disorders.

Taro, Israel†.
Topical solution: Benzocaine (p.1854·1); phenylephrine hydrochloride (p.1568·1).
Mouth disorders.

Anadex *Interbat, Indon.*
Paracetamol (p.108·1); dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3).
Cold and influenza symptoms; cough.

Anadil *Liferpal, Mex.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Fever; muscle spasm; pain.

Anadin
Note.This name is used for preparations of different composition.
Wyeth, Irl.
Aspirin (p.20·3); caffeine (p.1116·3); quinine sulfate (p.612·3).
Cold symptoms; pain.

SA Druggists Self Med, S.Afr.; Wyeth Consumer, UK.
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Anadin-3 *SA Druggists Self Med, S.Afr.*
Paracetamol (p.108·1).
Fever; pain.

Anadin Extra *Wyeth, Irl.; Home, Port.†; Wyeth Consumer, UK.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Cold and influenza symptoms; fever; pain.

Anadin Ibuprofen *Wyeth Consumer, UK.*
Ibuprofen (p.64·2).
Fever; pain.

Anadin Joint Pain *Wyeth Consumer, UK.*
Ibuprofen (p.64·2).
Joint pain.

Anadin Maximum Strength *Wyeth, Irl.*
Aspirin (p.20·3); caffeine (p.1116·3).
Cold and influenza symptoms; pain.

Anadin Paracetamol *Wyeth, Irl.; Home, Port.; Wyeth Consumer, UK.*
Paracetamol (p.108·1).
Fever; pain.

Anadin Ultra *Wyeth Consumer, UK.*
Ibuprofen (p.64·2).
Fever; pain.

Anadol *TO-Chemicals, Thai.*
Tramadol hydrochloride (p.130·3).
Pain.

Anador *Boehringer Ingelheim, Braz.*
Dipyrone (p.49·2).
Fever; pain.

Anadrol *Unimed, USA.*
⊗ Oxymetholone (p.2123·3).
Anaemias.

Anadvil *Wyeth Sante, Fr.; Home, Port.*
Ibuprofen (p.64·2).
Fever; pain.

Anadvil Rhume *Wyeth Sante, Fr.*
Ibuprofen (p.64·2); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms.

Anaebell *Bell, India†.*
Acriflavinium chloride (p.1625·1); lidocaine (p.1862·3); thymol (p.1664·3).
Skin disorders.

Anaemodoron *Weleda, Austria.*
Fragaria vesca; urtica dioica (p.2409·3).
Iron-deficiency anaemia.

Anaerobex *Gerot, Austria.*
Metronidazole (p.837·1).
Anaerobic bacterial infections; Helicobacter pylori infections.

Anaerocid *Sigma, Braz.*
Clindamycin hydrochloride (p.251·1) or clindamycin phosphate (p.251·2).
Bacterial infections.

Anaeromet *GSK, Belg.†.*
Metronidazole (p.837·1).
Anaerobic bacterial infections; protozoal infections.

Anaestalgin *Streuli, Switz.*
Procaine hydrochloride (p.1869·1); caffeine (p.1116·3).
Pain.

Anaesthecomp N *Ritsert, Ger.*
Lidocaine hydrochloride (p.1862·3); diphenhydramine hydrochloride (p.577·2).
Allergic rashes; insect stings; sunburn.

Anaestherit *Sanova, Austria.*
Benzocaine (p.1854·1).
Anorectal disorders; skin disorders.

Anaesthesin *Ritsert, Ger.*
Benzocaine (p.1854·1).
Local anaesthesia.

Anaesthesin N *Ritsert, Ger.*
Benzocaine (p.1854·1).
Local anaesthesia.

Anaesthesin-Rivanol *Ritsert, Ger.*
Benzocaine (p.1854·1); ethacridine lactate (p.1625·1).
Painful throat infections.

Anaesthesol *Nizpharm, Rus.*
Benzocaine (p.1854·1); bismuth subgallate (p.1711·1); zinc oxide (p.1621·2); menthol (p.2340·1).
Anorectal disorders.

Anaesthesulf *Ritsert, Ger.*
Lauromacrogol 400 (p.1916·1).
Pruritic skin disorders.

Anaesthetic Ear Drops *Vitamed, Israel.*
Tetracaine (p.1871·2); phenazone (p.116·1).
Otitis.

Anaesthetica *Pharmachemie, Neth.*
Bismuth subgallate (p.1711·1); lidocaine (p.1862·3); zinc oxide (p.1621·2).
Anorectal disorders.

Anafen *Bernofarm, Indon.*
Ibuprofen (p.64·2).
Fever; pain.

Anafertin *Armstrong, Mex.*
Algestone acetophenide (p.2082·1); estradiol enantate (p.2097·3).
Injectable contraceptive; menstrual disorders.

Anaflam *David, India.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; inflammation; musculoskeletal and joint disorders; pain.

Ana-Flex
Note. A similar name is used for preparations of different composition (see below).
Gunther, Braz.
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Anaflex
Note. A similar name is used for preparations of different composition (see above).
Bago, Arg.
Diclofenac diethylamine (p.44·3) or diclofenac sodium (p.44·3).
Inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Geistlich, Hung.†; Geistlich, Singapore; Geistlich, UK.
Polynoxylin (p.1658·3).
Burns; infected skin disorders; wounds.

Anafortan
Note.This name is used for preparations of different composition.
Khandelwal, India.
Injection: Camylofin (p.2274·1).
Smooth muscle spasm.

Khandelwal, India.
Tablets: Camylofin (p.2274·1); paracetamol (p.108·1).
Smooth muscle spasm.

Anafranil *Novartis, Arg.; Novartis, Austral.; Novartis, Austria; Novartis, Belg.; Novartis, Braz.; Oryx, Canad.; Novartis, Chile; Novartis, Cz.; Novartis, Denm.; Novartis, Fin.; Lynapharm, Fr.; Dolorgiet, Ger.; Novartis, Gr.; Novartis, Hong Kong; Novartis, Hung.; Novartis, India; Novartis, Indon.; Novartis, Irl.; Novartis, Israel; Biofutura, Ital.; Novartis, Malaysia; Novartis, Mex.; Novartis, NZ†; Novartis, Neth.; Novartis, Norw.; Novartis, Philipp.; Polfa Kutno, Pol.; Defiante, Port.; Novartis, Rus.; Novartis, S.Afr.; Novartis, Singapore†; Novartis, Spain; Novartis, Swed.; Novartis, Switz.; Novartis, Thai.; Novartis, Turk.; Novartis, UK; Novartis, USA; Novartis, Venez.*
Clomipramine hydrochloride (p.386·3).
Cataplexy; depression; narcoleptic syndrome; nocturnal enuresis; obsessive-compulsive disorder; pain syndromes; panic disorder; sleep disorders; social phobia.

Anagastra *Madaus, Spain.*
Pantoprazole sodium (p.1760·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Anagen *Cassara, Arg.*
Minoxidil (p.1342·1).
Alopecia.

Anagraine *Aspen, Austral.*
Metoclopramide (p.1747·3); paracetamol (p.108·1).
Migraine.

Anagregal *Gentili, Ital.†.*
Ticlopidine hydrochloride (p.1411·2).
Thrombosis prophylaxis.

Ana-Guard *Bayer, S.Afr.*
⊗ Adrenaline hydrochloride (p.1203·3).
Anaphylaxis.

Anahelp *Stallergenes, Fr.*
⊗ Adrenaline (p.1203·2).
Anaphylaxis.

Ana-Kit *Bayer, USA.*
Combination pack: ⊗ Injection, adrenaline hydrochloride (p.1203·3); 4 chewable tablets, chlorphenamine maleate (p.571·3).
Anaphylaxis.

Anakonidin *Konimex, Indon.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Cough.

Analab *Biolab, Malaysia; Biolab, Thai.*
Tramadol hydrochloride (p.130·3).
Pain.

Analcid *Terramedic, Philipp.*
Mefenamic acid (p.80·1).
Pain.

Analept *Faran, Gr.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Analergin *Ivax, Cz.; Ivax, Rus.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders; pruritus; urticaria.

Analeric *Vianex (Βιανέξ), Gr.*
Diflunisal (p.47·2).
Inflammation; pain.

Analfin *Tecnofarma, Mex.*
⊗ Morphine sulfate (p.86·3).
Pain.

Anal-Gen
Note. A similar name is used for preparations of different composition (see below).
Psorimed, Switz.†.
Hamamelis water (p.2318·2); melissa oil (p.2339·3).
Anogenital skin disorders.

Analgen
Note. A similar name is used for preparations of different composition (see above).
Liomont, Mex.
Naproxen (p.92·3).
Inflammation; pain.

Johnson & Johnson, Braz.†.
Ointment: Turpentine oil (p.2406·3); methyl salicylate (p.85·3); camphor (p.2273·2); mustard oil (p.2349·2); rosemary oil (p.2381·3); lavender oil (p.2331·2); menthol (p.2340·1).
Musculoskeletal and joint disorders.

Aventis, S.Afr.
Tablets: Aspirin (p.20·3); paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3).
Fever; pain.

Johnson & Johnson, Braz.†.
Topical gel: Menthol (p.2340·1).
Musculoskeletal and joint disorders.

Analgen Forte *Liomont, Mex.*
Naproxen (p.92·3); paracetamol (p.108·1).
Inflammation; pain.

Analgen-SA *Noristan, S.Afr.†.*
Aluminium aspirin (p.19·1); paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3); chlorphenoxamine hydrochloride (p.572·3); phenobarbital (p.492·2).
Fever; pain.

Analgesia Creme *Rugby, USA.*
Trolamine salicylate (p.132·3).
Muscle, joint, and soft-tissue pain; neuralgia.

Analgesic Balm *Watkins, Canad.; Geritrex, USA; Goldline, USA; Major, USA; URL, USA.*
Menthol (p.2340·1); methyl salicylate (p.85·3).
Muscle, joint, and soft-tissue pain; neuralgia.

Analgesic Cream Extra Strength *Confab, Hong Kong.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); eucalyptus oil (p.2301·2).
Musculoskeletal pain and stiffness.

Analgesic/Calmative *Sandoz, Austral.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); doxylamine succinate (p.578·2).
Pain.

Analgesico Dental *Hofmann, Chile.*
Eugenol (p.2301·2).
Toothache.

Analgesil *Kinder, Braz.*
Dipyrone (p.49·2).
Pain.

Analgesin *Teuto, Braz.*
Aspirin (p.20·3).
Fever; inflammation; pain.

Analget *Polfa Grodzisk, Pol.*
Paracetamol (p.108·1); propyphenazone (p.119·3); caffeine (p.1116·3).
Fever; pain.

Analgex *Uniao Quimica, Braz.†.*
Dipyrone (p.49·2).
Fever; pain.

Analgil *Azevedos, Port.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2); guaiacol (p.1561·2).
Musculoskeletal and joint disorders.

Analgilasa *Ipsen, Spain.*
Caffeine (p.1116·3); codeine phosphate (p.37·2); paracetamol (p.108·1).
Pain.

Analgin
Note. This name is used for preparations of different composition.
BB, Cz.
Dipyrone (p.49·2); pitofenone hydrochloride (p.2369·2); fenpiverinium bromide (p.2303·2).
Smooth muscle spasm.

Medphano, Ger.; Balkanpharma, Rus.; Pharmachim, Rus.
Dipyrone (p.49·2).
Fever; pain.

Analgin C-R *EMS, Braz.*
Green tablets, dipyrone (p.49·2); chlorphenamine maleate (p.571·3); orange tablets, vitamin C (p.1983·3).
Cold and influenza symptoms.

Analgina *Lafedar, Arg.*
Dipyrone (p.49·2).
Fever; pain.

Analgin-Chinin *Pharmachim, Rus.*
Dipyrone (p.49·2); quinine hydrochloride (p.612·3).
Fever; pain.

Analgine *Sterop, Belg.*
Dipyrone (p.49·2).
Fever; pain.

Analgiplus *Faes, Spain.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Pain.

Analgol *Profarm, Pol.*
Camphor (p.2273·2); juniper oil (p.2328·3); menthol (p.2340·1); pine oil (p.2368·2); turpentine oil (p.2406·3).
Catarrh; musculoskeletal and joint pain; neuralgia.

Analgolan *Profarm, Pol.*
Camphor (p.2273·2); methyl salicylate (p.85·3); pine oil (p.2368·2); turpentine oil (p.2406·3).
Musculoskeletal and joint pain; neuralgia.

Analgosedan *Brasmedica, Braz.†.*
Dipyrone (p.49·2); homatropine methylbromide (p.1881·3); adiphenine (p.2247·3); papaverine hydrochloride (p.2191·3).
Smooth muscle spasm.

Analka *Medic, Denm.*
Docusate sodium (p.1725·1); glycerol (p.2314·2).
Bowel evacuation; constipation.

Analmorph *Gray, Arg.*
⊗ Morphine hydrochloride (p.86·3).
Pain.

Analog LCP *Scientific Hospital Supplies, Irl.†.*
Food for special diets (p.1922·1).
Phenylketonuria.

Analog MSUD *Scientific Hospital Supplies, UK.*
Food for special diets (p.1922·1).
Maple syrup urine disease.

Analog P-AM *SHS, Cz.†.*
Preparation for enteral nutrition (p.1922·1).

Analog RVHB *Scientific Hospital Supplies, UK.*
Food for special diets (p.1922·1).
Homocystinuria; hypermethioninaemia.

Analog XMTVI *Scientific Hospital Supplies, UK.*
Food for special diets (p.1922·1).
Formerly known as Analog Xmet, Thre, Val, Isoleu.
Methylmalonic or propionic acidaemia.

Analog XP *Scientific Hospital Supplies, UK.*
Food for special diets (p.1922·1).
Phenylketonuria.

Analog Xphen, Tyr *Scientific Hospital Supplies, UK.*
Food for special diets (p.1922·1).
Tyrosinaemia.

Analpan *Duopharma, Hong Kong.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders; pain.

Analphen *Randall, Mex.*
Paracetamol (p.108·1).
Fever; pain.

Analpram-HC *Ferndale, USA.*
⊗ Hydrocortisone acetate (p.1535·2); pramocaine hydrochloride (p.1868·1).
Anorectal disorders.

Analsik *Sanbe, Indon.*
Dipyrone (p.49·2); diazepam (p.986·3).
Pain.

Analspec *Metiska, Indon.*
Mefenamic acid (p.80·1).
Fever; pain.

Analtrix *Faria, Braz.†.*
Oxyphenbutazone (p.107·3); paracetamol (p.108·1). Aluminium hydroxide (p.1706·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; inflammation; pain.

Analux *Alcon Cusi, Malaysia†; Alcon Cusi, Spain†.*
Phenylephrine hydrochloride (p.1568·1).
Eye irritation.

Analverin *Dovalle, Braz.†.*
Hyoscyamine hydrobromide (p.1736·1); dipyrone (p.49·2).
Pain; smooth muscle spasm.

Analverin Composto *Dovalle, Braz.†.*
Dipyrone (p.49·2); hyoscine (p.1733·3).
Muscle spasm; pain.

Analverin Plus *Dovalle, Braz.†.*
Paracetamol (p.108·1); hyoscine (p.1733·3).
Muscle spasm; pain.

Anamai *TNP, Thai.†.*
21 Tablets, norethisterone (p.2119·3); mestranol (p.2116·2); 7 tablets, inert.
Combined oral contraceptive.

AnaMantle HC *Kenwood, USA.*
⊗ Hydrocortisone acetate (p.1535·2); lidocaine hydrochloride (p.1862·3).

Anamix *SHS, Fr.*
Food for special diets (p.1922·1).
Phenylketonuria.

Anamorph *Fawns & McAllan, Austral.*
⊗ Morphine sulfate (p.86·3).
Pain.

Ananase *Rottapharm, Ital.; Delta, Port.; Vargas, Venez.*
Bromelains (p.2269·1).
Soft-tissue inflammation and oedema.

Ananase Forte *Sanofi-Aventis, Chile.*
Bromelains (p.2269·1).
Episiotomy; inflammation.

Anandron *Aventis, Arg.†; Aventis, Austral.; Sanofi-Aventis, Braz.; Aventis, Canad.; Aventis, Cz.†; Sanofi-Aventis, Fr.; Sanofi-Aventis, Gr.; Sanofi-Aventis, Hung.; Aventis, Mex.; Aventis, Neth.; Sanofi-Aventis, Port.; Aventis, Swed.*
Nilutamide (p.756·2).
Prostatic cancer.

Anangor *Biosintetica, Braz.*
Tramadol hydrochloride (p.130·3).
Pain.

Ananty *Plusandex, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Anapen *Lincoln, Cz.; Allerbio, Fr.; Beckmann, Ger.; Allertec, Gr.; Lincoln, Hung.; Celltech, Irl.; Lincoln Medical, Pol.; Decomed, Port.; Medeca, Swed.; Lincoln, UK.*
⊗ Adrenaline (p.1203·2).
Anaphylaxis.

Anapenil
Note. This name is used for preparations of different composition.
Grossman, Mex.
Injection: Clemizole penicillin (p.251·1); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Grossman, Mex.
Oral solution; tablets: Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Anaphase *Pierre Fabre Dermo-Cosmetique, Arg.; Ducray, Fr.*
Tocoferil nicotinate (p.1415·1); vitamin B substances (p.1922·1).
Hair disorders.

Anaphyl *Sam-On, Israel†.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Anapirol *Dinafarma, Braz.†.*
Dipyrone (p.49·2); caffeine (p.1116·3); orphenadrine citrate (p.812·1).
Smooth muscle spasm.

Anaplas *Unipharma, Gr.*
Terbinafine (p.546·3).
Fungal skin infections.

Anaplex *ECR, USA†.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Cold symptoms.

Anaplex DM *ECR, USA.*
Dextromethorphan hydrobromide (p.1555·2); brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs.

Anaplex HD *ECR, USA.*
Hydrocodone tartrate (p.63·1); pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2).
Coughs and cold symptoms.

Anapolon *Abdi, Turk.*
⊗ Oxymetholone (p.2123·3).
Anaemias.

Anapran *Polfa Pabianice, Pol.*
Naproxen sodium (p.92·3).
Fever; inflammation; pain.

Anapres *Lemery, Mex.*
Prazosin (p.1376·2).
Hypertension.

Anapril *Merck, Hong Kong; Berlin Pharm, Singapore; Berlin Pharm, Thai.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Anaprilin *Akrikhin, Rus.*
⊗ Propranolol (p.1381·1).

Anaprol *Provit, Mex.*
Dipyrone (p.49·2).
Fever; inflammation; pain.

Anaprolina *Silesia, Chile.*
⊗ Nandrolone decanoate (p.2118·2).
Anabolic; breast cancer; osteoporosis.

Anaprotab *Sanli, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Anaprox *Roche, Austral.; Roche, Canad.; Minerva (Μινερβα), Gr.; Roche, USA.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Anapsique *Psicofarma, Mex.*
Amitriptyline hydrochloride (p.376·1).
Depression.

Anapsyl *Novag, Mex.*
Naproxen sodium (p.92·3).
Inflammation; musculoskeletal and joint disorders; pain.

Anaptivan *Help, Gr.*
Cefuroxime sodium (p.238·2).
Bacterial infections.

Anapyrol *Maypo, Mex.*
Dipyrone (p.49·2).

Anara *Chinoin, Mex.*
Sodium picosulfate (p.1771·1).
Bowel evacuation; constipation.

Anarex *CCM, Malaysia; Beacons, Singapore.*
Orphenadrine citrate (p.812·1); paracetamol (p.108·1).
Dysmenorrhoea; skeletal muscle spasm.

Anargil *Medochemie, Cz.†; Medochemie, Hong Kong; Medochemie, Malaysia; Medochemie, Thai.*
⊗ Danazol (p.2090·2).
Benign breast disorders; endometriosis; female infertility; gynaecomastia; hereditary angioedema; menorrhagia; precocious puberty.

Anaribes Plus *Farmachimici, Ital.*
Black currant; betacarotene; vitamin C; vitamin E (p.1922·1).
Nutritional supplement.

Anarthril *Minerva (Μινερβα), Gr.*
Glucosamine (p.2313·2).
Osteoarthritis.

Anartrit
Note. This name is used for preparations of different composition.
Garden House, Arg.
Calcium (p.1675·2); magnesium (p.1678·3); colecalciferol (p.1986·2).
Calcium supplement; osteoporosis.

Hexal, Braz.†.
Piroxicam (p.117·3).
Dysmenorrhoea; gout; musculoskeletal, joint, and peri-articular disorders.

Anased *Potter's, UK.*
Lupulus (p.2335·2); Jamaica dogwood (p.2328·1); wild lettuce (p.2415·2); passion flower (p.2363·2); pulsatilla (p.2376·3).
Pain; tension.

Anaseptil *Farmasa, Braz.*
Polymyxin B sulfate (p.317·3); bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); zinc peroxide (p.1666·3).
Bacterial skin infections.

Anasilpiel *Euroexim, Spain.*
⊗ Neomycin undecenoate (p.305·2); triamcinolone acetonide (p.1544·3).
Infected skin disorders.

Anaskebir *Aspen, Arg.*
⊗ Anastrozole (p.681·2).

Anasma *Alter, Spain.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Asthma.

Anasmol *Roemmers Rowe, Venez.*
Warfarin sodium (p.1425·2).
Thromboembolic disorders.

Anaspaz *Ascher, USA.*
Hyoscyamine sulfate (p.1736·1).
Smooth muscle spasm.

Anassa *TO-Chemicals, Thai.*
Aspirin (p.20·3).
Fever; inflammation; pain.

Anastase *Motima, Fr.*
Vegetable extracts from phaseolus vulgaris; cyprus; hamamelis; watercress; lemon; pineapple (p.1922·1).

Anasten Plus *Errekappa, Ital.*
Arginine; magnesium; potassium; creatine; levocarnitine; ubidecarenone; vitamin C (p.1922·1).
Nutritional supplement.

Anasterol *Terapeutico, Ital.*
Cyclanthera pedata; lespedeza capitata; oryzanol (p.2358·3); vitamins.
Hypercholesterolaemia.

Anastil
Note. This name is used for preparations of different composition.
Vargas, Venez.†.
Oxazepam (p.1014·2).
Anxiety.

Eberth, Ger.†.
Thyme (p.2401·1).
Bronchitis; catarrh; coughs.

Anastim con RTH *Pierre Fabre Dermo-Cosmetique, Arg.*
RTH extract; α-pinene (p.2368·3); saw palmetto (p.2192·3); crotamiton (p.1593·2); enoxolone (p.50·1).
Scalp disorders.

Anastol *Remedina, Gr.*
⊗ Captopril (p.1239·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Anastraze *Sandoz, Arg.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Anatac *Arafarma, Spain.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders.

Anatensol
BMS, Austral.†; BMS, Indon.; BMS, Ital.; BMS, NZ.
Fluphenazine hydrochloride (p.998·1).
Anxiety; behavioural disorders; psychoses; tension.

Sarabhai Piramal, India; BMS, Port.
Fluphenazine decanoate (p.998·1).
Anxiety; schizophrenia.

BMS, Neth.
Fluphenazine decanoate (p.998·1) or fluphenazine hydrochloride (p.998·1).
Psychoses.

Anatetall *Chiron Vaccines, Ital.; Chiron, Thai.†; Berk, Turk.*
An adsorbed tetanus vaccine (p.2240·1).
Active immunisation.

Anatine *Pharmacia, Arg.†.*
⊗ Finasteride (p.2188·3).
Benign prostatic hyperplasia.

Anatoxal Adulti *Berna, Ital.*
An adsorbed diphtheria and tetanus vaccine (p.2210·1).
Formerly known as Anatoxal Di Te.
Active immunisation.

Anatoxal Te *Vieira, Port.†; Berna, Spain; Berna, Switz.*
An adsorbed tetanus vaccine (p.2240·1).
Active immunisation.

Anatoxal Di Te *Berna, Spain†; Berna, Switz.*
An adsorbed diphtheria and tetanus vaccine (p.2210·1).
Active immunisation.

Anatoxal Te Di *Berna, Spain.*
An adsorbed diphtheria and tetanus vaccine (p.2210·1).
Active immunisation of children and adults.

Anatoxal Di Te Berna *Faran, Gr.†.*
An adsorbed diphtheria and tetanus vaccine (p.2210·1).
Active immunisation.

Anatoxal Di Te Per *Faran, Gr.†; Berna, Spain†.*
A diphtheria, tetanus, and pertussis vaccine (p.2210·3).
Active immunisation.

Anatoxal-TE-Berna *Faran, Gr.†.*
An adsorbed tetanus vaccine (p.2240·1).
Active immunisation.

Anatrast *Mallinckrodt, USA.*
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Anatyl *Sanval, Braz.*
Paracetamol (p.108·1).
Fever; pain.

Anauran *Zambon, Ital.; Zambon, Rus.*
Polymyxin B sulfate (p.317·3); neomycin sulfate (p.305·1); lidocaine hydrochloride (p.1862·3).
Infected ear disorders.

Anaus *Beta, Arg.*
Sildenafil citrate (p.2193·1).
Erectile dysfunction.

Anausin *Viatris, Fr.*
Metoclopramide hydrochloride (p.1747·3).
Nausea and vomiting.

Anautin *SAD, Denm.*
Dimenhydrinate (p.576·2).
Allergic rhinitis; hay fever; motion sickness; urticaria.

Anavan *Fuji, Jpn.*
Diclofenac sodium (p.44·3).
Fever; inflammation; pain.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Anavenol
Note.This name is used for preparations of different composition.
Zentiva, Cz.
⊗ Dihydroergocristine mesilate (p.364·2); esculoside (p.2248·2); rutoside (p.2305·1) or rutoside sodium sulfate (p.2305·2).
Thrombophlebitis; venous insufficiency.

Zentiva, Pol.; Leciva, Rus.
Dihydroergocristine mesilate (p.364·2); esculoside (p.2248·2); rutoside (p.2305·1).
Cerebrovascular disorders; intermittent claudication; migraine; venous insufficiency.

Anavit *Nufarindo, Indon.*
Vitamins A, B, and D (p.1922·1).
Nutritional supplement.

Anavix *Demo, Gr.*
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Anax *Millimed, Thai.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

Anaxeryl *Bailly, Fr.*
Dithranol (p.1595·2); ichthammol (p.1599·1); salicylic acid (p.1612·2); resorcinol (p.1612·1); peru balsam (p.2365·3).
Formerly contained dithranol, ichthammol, salicylic acid, resorcinol, peru balsam, and birch tar oil.
Alopecia; psoriasis.

Anaya *Tauret, Cz.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Anazo *Medicine Products, Thai.*
Phenazopyridine hydrochloride (p.116·2).
Dysuria; urinary-tract pain.

Anbacim *Sanbe, Indon.*
Cefuroxime axetil (p.238·2) or cefuroxime sodium (p.238·2).
Bacterial infections.

Anbegele *Home, Port.†.*
Cetylpyridinium chloride (p.1635·1); chlorocresol (p.1640·1); lidocaine (p.1862·3).
Mouth disorders.

Anbesol
Note.This name is used for preparations of different composition.
Wyeth Consumer, Canad.; Wyeth Consumer, Chile.
Benzocaine (p.1854·1).
Minor skin abrasions; mouth pain.

SSL, Irl.; SA Druggists Self Med, S.Afr.; SSL, UK.
Lidocaine hydrochloride (p.1862·3); chlorocresol (p.1640·1); cetylpyridinium chloride (p.1635·1).
Aphthous stomatitis; cold sores; denture irritation; gingival pain; teething.

Whitehall, USA.
Topical gel: Benzocaine (p.1854·1); phenol (p.1656·1).
Oral lesions.

Whitehall, USA.
Topical liquid: Benzocaine (p.1854·1); phenol (p.1656·1); menthol (p.2340·1); camphor (p.2273·2); povidone-iodine (p.1659·2).
Mouth and throat disorders.

Anbesol Baby *Wyeth Consumer, Canad.*
Benzocaine (p.1854·1).
Teething.

Anbesol Cold Sore Therapy *Wyeth Consumer, USA.*
Benzocaine (p.1854·1); allantoin (p.1588·1); camphor (p.2273·2).
Herpes labialis.

Anbesol Extra Strength *Wyeth Consumer, Canad.*
Benzocaine (p.1854·1).
Mouth pain.

Anbesol Maximum Strength *Wyeth Consumer, Canad.*
Benzocaine (p.1854·1); phenol (p.1656·1); camphor (p.2273·2); menthol (p.2340·1).
Minor skin abrasions; mouth pain.

Anbifen *ANB, Thai.*
Ibuprofen (p.64·2).
Fever; pain.

Anbikan *ANB, Thai.*
Kanamycin (p.291·3).
Gram-negative bacterial infections.

Anbikin *ANB, Thai.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Anbin *Grifols, Ital.*
Antithrombin III (p.1054·1).
Antithrombin III deficiency.

Anbinex *Grifols, Cz.; Grifols, Ger.; Grifols, Spain.*
Antithrombin III (p.1054·1).
Formerly known as Anbin in *Spain*.
Antithrombin III deficiency.

Anbiolid *Meprofarm, Indon.*
Roxithromycin (p.331·1).
Bacterial infections.

Ancamin *PP Lab, Thai.†.*
Calamine (p.1591·2); zinc oxide (p.1621·2); chlorphenamine maleate (p.571·3).
Insect bites; pruritus; skin irritation.

Ancaron *Taisho, Jpn.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Ancef *Hospira, USA†.*
Cefazolin sodium (p.222·1).
Bacterial infections.

Ancefa *Meprofarm, Indon.*
Cefadroxil (p.218·1).
Bacterial infections.

Anceron *Schering-Plough, S.Afr.†.*
⊗ Beclometasone dipropionate (p.1516·2).
Rhinitis.

Ancet *C & M, USA.*
Skin cleanser.

Anchocalm *Genepharm, Gr.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Anchostam-100 *Biostam (Βιοσταμ), Gr.†.*
Ticlopidine (p.1412·1).
Antiplatelet therapy.

Ancid *Hexal, Ger.*
Hydrotalcite (p.1733·3).
Gastrointestinal hyperacidity; heartburn; peptic ulcer.

Ancine *Arlex, Mex.*
Clindamycin (p.251·1).
Bacterial infections.

Ancivin *Cantabria, Spain.*
Famciclovir (p.876·1).
Herpesvirus infections.

Ancla *Meprofarm, Indon.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Anclomax *Blausiegel, Braz.*
Aciclovir (p.862·3).

Ancobon *ICN, USA.*
Flucytosine (p.534·2).
Candidiasis; cryptococcosis.

Anconevron *Pharmanik (Φαρμανικ), Gr.†.*
Bromazepam (p.964·3).
Anxiety disorders.

Ancopir *Grossmann, Hong Kong; Grossmann, Switz.*
Vitamin B substances (p.1922·1).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Adjuvant in radiation therapy; alcoholism; lumbago; neuralgia; neuritis; sciatica; vitamin B deficiency.

Ancoren *Sanitas, Port.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Ancoron *Libbs, Braz.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Ancotil *Valeant, Arg.; Valeant, Austral.; ICN, Austria; ICN, Denm.; CSP, Fr.; Valeant, Ger.; IFET (ΙΦΕΤ), Gr.; Valeant, Hong Kong; ICN, Irl.; ICN, Ital.; ICN, Malaysia†; ICN, NZ; ICN, Neth.; ICN, Pol.; Valeant, Singapore†; Medilink, Swed.; Valeant, Switz.; ICN, UK.*
Flucytosine (p.534·2).
Formerly known as Alcobon in the *UK*.
Fungal infections.

Ancotyl *Valeant, Rus.*
Flucytosine (p.534·2).
Fungal infections.

Andalpha *Actavis, Indon.*
Tramadol hydrochloride (p.130·3).
Pain.

Andante
Note.This name is used for preparations of different composition.
Boehringer Ingelheim, Ger.
Bunazosin hydrochloride (p.1237·3).
Hypertension.

Gedeon Richter, Rus.
Zaleplon (p.1035·3).
Sleep disorders.

Sanovel, Turk.
Alendronic acid (p.1088·1).
Osteoporosis.

Andantol *Ache, Braz.; Asta Medica, Indon.; Sanfer, Mex.*
Isothipendyl hydrochloride (p.582·1).
Allergic skin disorders; burns; skin irritation.

Andantol Jalea *Zuoz, Venez.*
Camphor (p.2273·2); menthol (p.2340·1); chamomile (p.2279·3); arnica (p.2260·2); calendula (p.2273·1); aloe vera (p.1588·2).
Burns; insect bites and stings; pruritus; sunburn.

Andapsin *Orion, Swed.*
Sucralfate (p.1772·2).
Gastrointestinal haemorrhage; peptic ulcer.

Andaxin *EGIS, Hung.*
Meprobamate (p.1006·2).
Alcoholism; anxiety disorders; spasticity.

Andazol *Biofarma, Turk.*
Albendazole (p.139·2).
Hydatid disease; strongyloidiasis.

Andehist
Note.This name is used for preparations of different composition.
Cypress, USA†.
Oral drops: Carbinoxamine maleate (p.570·2); pseudoephedrine hydrochloride (p.1571·2).
Rhinitis.

Cypress, USA†.
Syrup: Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2).
Upper respiratory-tract disorders.

Andehist DM
Note.This name is used for preparations of different composition.
Silarx, USA†.
Oral drops: Carbinoxamine maleate (p.570·2); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Cypress, USA†.
Syrup: Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Andelux *Novartis, Braz.*
Cyproterone acetate (p.2088·2).

Andep *Medikon, Indon.*
Fluoxetine hydrochloride (p.391·2).
Depression.

Andepin *Synteza, Pol.*
Fluoxetine (p.397·3).
Bulimia; depression; obsessive-compulsive disorder.

Andikap *Supra Ferbindo, Indon.*
Activated attapulgite (p.1709·1); pectin (p.2145·2).
Diarrhoea.

Andil *Recalcine, Chile†.*
Paracetamol (p.108·1); adiphenine hydrochloride (p.2248·1).
Colic; fever; pain.

Andilex *CT, Ital.†.*
Nicorandil (p.1349·1).
Angina pectoris.

A-N-Dix *Provit, Mex.*
Nalidixic acid (p.303·3).
Bacterial infections of the urinary tract.

Andociclina Balsamica *Andromaco, Mex.†.*
Oxytetracycline (p.312·2); guaifenesin (p.1561·3); cineole (p.2282·3).
Lidocaine (p.1862·3) is included in this preparation to alleviate the pain of injection.
Respiratory-tract disorders.

Andolba *Eurofarma, Braz.*
Benzocaine (p.1854·1); benzethonium chloride (p.1630·1); menthol (p.2340·1); hydroxyquinoline benzoate (p.2323·2).
Gynaecological disorders.

Andolex *3M, Denm.; 3M, S.Afr.; 3M, Swed.*
Benzydamine hydrochloride (p.27·3).
Painful inflammation of the mouth and throat.

Andolex-C
Note.This name is used for preparations of different composition.
3M, S.Afr.
Lozenge; oral gel: Benzydamine hydrochloride (p.27·3); cetylpyridinium chloride (p.1635·1).
Inflammation and infection of the mouth and throat.

3M, S.Afr.
Mouthwash: Benzydamine hydrochloride (p.27·3); chlorhexidine gluconate (p.1635·3).
Inflammation and infection of the mouth and throat.

Andolor
Note.This name is used for preparations of different composition.
Krewel, Ger.
Tilidine hydrochloride (p.129·3).
Naloxone hydrochloride (p.1453·2) is included in this preparation to discourage abuse.
Pain.

Ulagay, Turk.
Dipyrone (p.49·2).
Fever; pain.

Andonex *Meprofarm, Indon.*
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); phenylephrine (p.1568·1); guaifenesin (p.1561·3); ipecacuanha (p.1562·3).
Cough.

Andopan *Atlantis, Mex.†.*
Paracetamol (p.108·1).
Fever; pain.

Andoprim *Andromaco, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Andox *Atlantis, Mex.*
Paracetamol (p.108·1).
Fever; pain.

Andractim *Besins, Belg.; Besins, Fr.; Piette, Thai.†.*
⊗ Androstanolone (p.2082·3).
Gynaecomastia; lichen sclerosus; male hypogonadism.

Andraxan *Medicom, Cz.; PH&T, Gr.; Mayne, Thai.; Onko, Turk.*
Flutamide (p.725·1).
Prostatic cancer.

Andre *Andre, India.*
⊗ Boric acid (p.2268·1); chlorphenamine maleate (p.571·3); sodium chloride (p.1686·1); zinc sulfate (p.1999·2); chlorobutanol (p.1639·2); naphazoline hydrochloride (p.1565·2).
Conjunctivitis.

Andreafol *Andreabal, Switz.*
Folic acid (p.1940·1).
Neural tube defect prophylaxis.

Andregen *Andre, India.*
Gentamicin sulfate (p.282·1).
Bacterial eye infections.

Andre-I-Kul *Andre, India.*
⊗ Phenylephrine hydrochloride (p.1568·1); naphazoline hydrochloride (p.1565·2); menthol (p.2340·1); camphor (p.2273·2).
Eye irritation.

Andrews *GSK Consumer, Irl.; GSK Consumer, UK.*
Citric acid (p.2284·1); magnesium sulfate (p.1679·3); sodium bicarbonate (p.1673·2).
Constipation; dyspepsia.

Andrews Antacid *GSK Consumer, Irl.; GSK Consumer, UK.*
Calcium carbonate (p.1714·1); magnesium carbonate (p.1743·1).
Dyspepsia; gastric hyperacidity; heartburn.

Andrews Tums Antacid *GSK Consumer, Austral.*
Calcium carbonate (p.1714·1).
Calcium supplement; dyspepsia; heartburn.

Andrin *Casasco, Arg.*
Terazosin hydrochloride (p.1410·2).
Benign prostatic hyperplasia; hypertension.

Andrioderma *Andromaco, Arg.*
Vitamin A (p.1971·2).
Skin disorders.

Andriodermol
Note.This name is used for preparations of different composition.
Uniao Quimica, Braz.
Topical liquid: Undecenoic acid (p.549·2); sodium undecenoate (p.549·3); propionic acid (p.545·2); sodium propionate (p.545·3); hexylresorcinol (p.1647·1).
Skin infections.

Uniao Quimica, Braz.
Topical paint: Undecenoic acid (p.549·2); zinc undecenoate (p.549·3); calcium propionate (p.545·3); hexylresorcinol (p.1647·1).
Skin infections.

Andriol *Organon, Austral.; Organon, Austria; Organon, Canad.; Organon, Denm.; Organon, Ger.; Organon, Hong Kong; Organon, Hung.; Organon, Ital.; Organon, Malaysia; Organon, Mex.; Organon, Neth.; Organon, Norw.; Organon, Philipp.; Organon, Port.; Organon, Rus.; Organon, Singapore; Organon, Switz.; Organon, Thai.; Organon, Venez.*
⊗ Testosterone undecylate (p.2130·2).
Delayed puberty; hypopituitarism; male hypogonadism; male infertility; masculinisation in transexuals; osteoporosis; testosterone deficiency.

Andriol Testocaps *Organon, Indon.*
⊗ Testosterone undecylate (p.2130·2).
Male hypogonadism; osteoporosis.

Androbloc *Torrex, Austria.*
Flutamide (p.725·1).
Prostatic cancer.

Androcur *Gobbi, Arg.; Schering, Arg.; Schering, Austral.; Schering, Austria; Schering, Belg.; Schering, Braz.; Berlex, Canad.; Schering, Cz.; Schering, Denm.; Schering, Fin.; Schering, Fr.; Jenapharm, Ger.; Schering, Ger.; Schering, Gr.; Schering, Hong Kong; Schering, Hung.; Schering, Indon.; Schering, Irl.; Schering, Israel; Schering, Ital.; Bayer Schering, Malaysia; Schering, Mex.; Bayer, NZ; Schering, Neth.; Schering, Norw.; Schering, Philipp.; Schering, Pol.; Bayer, Port.; Schering, Rus.; Schering, S.Afr.; Schering, Singapore; Schering, Spain; Schering, Swed.; Schering, Switz.; Schering, Thai.; Schering, Turk.; Bayer, UK; Schering, Venez.*
Cyproterone acetate (p.2088·2).
Androgen-dependent acne, alopecia, hirsutism, and seborrhoea in women; male sexual deviation; male virilisation; precocious puberty; prostatic cancer.

Androderm *Mayne, Austral.; Paladin, Canad.; AstraZeneca, Ger.†; Promed, Ger.†; IFET (ΙΦΕΤ), Gr.; Schwarz, Ital.†; Mayne, NZ; CEPA, Spain; AstraZeneca, Switz.; SmithKline Beecham, USA.*
⊗ Testosterone (p.2129·3).
Male hypogonadism; testosterone deficiency.

Andro-Diane *Schering, Austria.*
Cyproterone acetate (p.2088·2).
Androgen-dependent acne, alopecia, hirsutism, and seborrhoea in women.

Androdor *Andromaco, Chile†.*
Flutamide (p.725·1).
Prostatic cancer.

Androfemon *Jenapharm, Ger.†.*
⊗ Estradiol valerate (p.2097·3); testosterone enantate (p.2130·1).
Menopausal disorders.

Androfin *Lannacher, Cz.*
⊗ Finasteride (p.2188·3).
Benign prostatic hyperplasia.

Androfloxin *Teuto, Braz.*
Norfloxacin (p.309·2).
Urinary-tract infections.

AndroGel *Besins, Belg.; Solvay, Canad.; Besins, Cz.; Besins, Fr.; Besins, Israel; Solvay, Ital.; Besins, Neth.; Besins, Port.; Besins, Rus.; Unimed, USA; Biopas, Venez.*
⊗ Testosterone (p.2129·3).
Male hypogonadism; testosterone deficiency.

Andrographis Complex *Mediherb, Austral.*
Andrographis; echinacea (p.2298·1); ocimum sanctum.
Liver disorders; respiratory-tract disorders.

Andrographis Compound *Phytomedicine, Austral.*
Andrographis; echinacea (p.2298·1); skullcap (p.2388·2).
Cold symptoms.

Android *Valeant, USA.*
⊗ Methyltestosterone (p.2117·1).
Breast cancer; cryptorchidism; male hypogonadism.

Androlic *British Dispensary, Thai.*
⊗ Oxymetholone (p.2123·3).
Anabolic; anaemias; cachexia.

Androlip *Teuto, Braz.†.*
Simvastatin (p.1390·2).
Hypercholesterolaemia.

Androlistica *Holistica, Fr.*
Cucurbita oil; palm-nut oil; onion; omega-3 marine triglycerides; borage oil; yam extract; sea lettuce (p.1922·1).
Male menopause.

Androlon *Meprofarm, Indon.*
⊗ Mesterolone (p.2116·1).
Androgen deficiency; male infertility.

Androlone *Beta, Arg.*
⊗ Testosterone (p.2129·3).
Hypogonadism.

Androlone-D *Keene, USA.*
⊗ Nandrolone decanoate (p.2118·2).
Anaemia in renal disease.

Androneo *Neo Quimica, Braz.*
Cyproterone acetate (p.2088·2).
Androgen-dependent disorders in females; hypersexuality in males; prostatic cancer.

Andropatch *IFET (ΙΦΕΤ), Gr.; GSK, Irl.; GSK, UK.*
⊗ Testosterone (p.2129·3).
Hypogonadism; testosterone deficiency.

Andropel *Fortbenton, Arg.*
⊗ Finasteride (p.2188·3).
Alopecia.

Andros *Biomedis, Philipp.*
Sildenafil citrate (p.2193·1).
Erectile dysfunction.

Androskat *Altana, Austria; Altana, Neth.*
Papaverine hydrochloride (p.2191·3); phentolamine mesilate (p.1370·2).
Erectile dysfunction.

Androstat
Note. This name is used for preparations of different composition.
Bioprofarma, Arg.
Cyproterone acetate (p.2088·2).
Prostatic cancer.

Orion, Irl.
Flutamide (p.725·1).
Prostatic cancer.

Androsten *Herbarium, Braz.*
Gokhru (p.2404·1).

Androsteron *Bergamo, Braz.*
Cyproterone acetate (p.2088·2).
Androgen-dependent acne, alopecia, hirsutism, and seborrhoea in females; prostatic cancer; sexual deviation in males.

Androtag *Rontag, Arg.*
⊗ Testosterone (p.2129·3).
Male hypogonadism.

Androtardyl *Schering, Fr.*
⊗ Testosterone enantate (p.2130·1).
Male hypogonadism.

Androtin *Andromaco, Mex.*
Famotidine (p.1730·1).
Dyspepsia.

Androtop *Solvay, Ger.*
⊗ Testosterone (p.2129·3).
Testosterone deficiency.

Androvite *Optimox, USA.*
Multivitamin and mineral preparation with iron and folic acid (p.1922·1).

Androxicam *Andromaco, Mex.*
Piroxicam (p.117·3).
Gout; musculoskeletal, joint and peri-articular disorders; pain.

Androxinon *Schering, Arg.†.*
Bicalutamide (p.686·2).
Prostatic cancer.

Androxon *Organon, Braz.; Organon, Israel; Organon, Norw.†; Donmed, S.Afr.*
⊗ Testosterone undecylate (p.2130·2).
Male hypogonadism.

Androxy *Upsher-Smith, USA.*
⊗ Fluoxymesterone (p.2103·3).
Breast cancer; delayed puberty; hypogonadism.

Androxyl *Duopharma, Hong Kong.*
Cefadroxil (p.218·1).
Bacterial infections.

Andursil
Novartis, Braz.; Sanopharm, Switz.
Aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; gastritis; gastro-oesophageal reflux; peptic ulcer.

Anebol *Gador, Arg.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Anebron *Protein, Mex.†.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Anectine *GSK, Irl.; GSK, Mex.; GSK, Spain; GSK, UK; Glaxo Wellcome, USA.*
Suxamethonium chloride (p.1909·3).
Depolarising neuromuscular blocker.

Anekain *Pliva, Rus.*
Bupivacaine hydrochloride (p.1854·3).
Local anaesthesia.

Anekron *EMS, Braz.*
Choline citrate (p.1934·2); betaine hydrochloride (p.2265·2); methionine (p.1450·1); adenosine (p.1202·1); vitamin B (p.1978·2); sorbitol (p.1965·1).
Liver disorders.

Anemagen *Ethex, USA†.*
Ferrous fumarate (p.1938·3); cyanocobalamin (p.1980·2); stomach extract (p.2326·3).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Anemagen OB *Ethex, USA†.*
Ferrous fumarate (p.1938·3); calcium; vitamins (p.1922·1).
Docusate sodium (p.1725·1) is included in this preparation to reduce the constipating effects of iron.

Anemet *Aventis, Ger.; Aventis, Hung.†.*
Dolasetron mesilate (p.1725·3).
Nausea and vomiting.

Anemicon Plus *San Marino, Philipp.*
Ferrous fumarate (p.1938·3); folic acid (p.1940·1).
Anaemia in pregnancy; iron and folic acid deficiency.

Anemidox
Note. This name is used for preparations of different composition.
Merck, Arg.
Folic acid; thiamine; riboflavin; pyridoxine; cyanocobalamin; nicotinamide (p.1922·1).
Anaemias; vitamin B deficiency.

Merck, India.
Ferrous fumarate (p.1938·3); folic acid (p.1940·1); vitamin B (p.1980·2); calcium carbonate (p.1714·1); vitamin D (p.1986·1).
Vitamin C (p.1983·3) is included to increase the absorption and availability of iron.
Iron-deficiency anaemias.

Anemidox Folico *Merck, Arg.*
Folic acid (p.1940·1).
Megaloblastic anaemia; prevention of neural tubes defects.

Anemidox-Ferrum *Merck, Arg.*
Ferrous fumarate (p.1938·3); cyanocobalamin (p.1980·2); folic acid (p.1940·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Anemidox-Solutab *Merck, Arg.*
Ferrous fumarate (p.1938·3); folic acid (p.1940·1); cyanocobalamin (p.1980·2).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron and folic acid deficiency; iron-deficiency anaemia; vitamin B deficiency.

Anemifer *Pharma Line, Gr.*
Iron sucrose (p.1953·2).
Anaemia.

Anemiplus *Globo, Braz.†.*
Ferrous sulfate (p.1939·3).
Iron deficiency; iron-deficiency anaemia.

Anemital *Basi, Port.†.*
Ferrous gluconate (p.1939·1).
Anaemias.

Anemix *Hebron, Braz.†.*
Ferrous sulfate (p.1939·3); vitamin B substances (p.1922·1).
Anaemias.

Anemofer *Marjan, Braz.†.*
Cyanocobalamin (p.1980·2); ferrous sulfate (p.1939·3); folic acid (p.1940·1).
Ascorbic acid (p.1983·3) is included in the tablet preparation to increase the absorption and availability of iron.
Anaemias.

Anerex *AF, Mex.*
Vitamin B substances with iron (p.1922·1).
Anaemias; tonic.

Anerobia *Pfizer, Philipp.*
Metronidazole (p.837·1).
Amoebiasis; anaerobic bacterial infections; trichomoniasis.

Anerocid *Ferron, Indon.*
Clindamycin hydrochloride (p.251·1).
Bacterial infections.

Anerocin *Aldril, Philipp.*
Clindamycin hydrochloride (p.251·1).
Bacterial infections.

Anervan *Recip, Fin.; Recip, Norw.; Recip, Swed.*
Ergotamine tartrate (p.620·1); chlorcyclizine hydrochloride (p.571·2); caffeine (p.1116·3); meprobamate (p.1006·2).
Cluster headache; migraine.

Anerzol *Liferpal, Mex.*
Astemizole (p.567·2).

Anesdente do Bebe *Loprofar, Braz.†.*
Tetracaine hydrochloride (p.1871·3); menthol (p.2340·1).
Teething pain.

Anesject *Danpac, Indon.*
Ketamine hydrochloride (p.1787·1).
Anaesthesia; analgesia in obstetrics.

Anespas *Rudefsa, Mex.*
Prifinium bromide (p.1764·2).
Muscle spasm; pain.

Anespro *Behrens, Venez.*
Propofol (p.1791·1).
General anaesthesia.

Anestacon *PolyMedica, USA.*
Lidocaine hydrochloride (p.1862·3).
Urethral pain.

Anestafoam *Onset, USA.*
Lidocaine (p.1862·3).
Local anaesthesia.

Anestalcon *Alcon, Arg.; Alcon, Braz.; Alcon, Chile.*
Proxymetacaine hydrochloride (p.1870·1).
Local anaesthesia.

Anestesi Doble *Alcon Cusi, Spain.*
Oxybuprocaine hydrochloride (p.1867·3); tetracaine hydrochloride (p.1871·3).
Local anaesthesia.

Anestesia Loc Braun S/A *Braun, Spain.*
Cinchocaine hydrochloride (p.1857·3); procaine hydrochloride (p.1869·1).
Local anaesthesia.

Anestesia Topi Braun C/A *Braun, Spain.*
⊗ Tetracaine hydrochloride (p.1871·3).
Adrenaline (p.1203·2) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Anestesia Topi Braun S/A *Braun, Spain.*
Tetracaine (p.1871·2).
Local anaesthesia.

Anestesico *Allergan, Braz.; Alcon Cusi, Spain.*
Tetracaine hydrochloride (p.1871·3).
Naphazoline hydrochloride (p.1565·2) or phenylephrine hydrochloride (p.1568·1) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Anestesiol *Loprofar, Braz.†.*
Thymol (p.1664·3); menthol (p.2340·1); camphor (p.2273·2); tetracaine hydrochloride (p.1871·3); phenazone (p.116·1); clove oil (p.2285·1).
Mouth disorders.

Anesthal *Jagson, India.*
Thiopental sodium (p.1795·2).
General anaesthesia; status epilepticus.

Anestocil *Edol, Port.*
Oxybuprocaine hydrochloride (p.1867·3).
Local anaesthesia.

Anestol *Ilsan, Turk.*
Lidocaine (p.1862·3).
Local anaesthesia.

Anethaine *Torbet Laboratories, UK.*
Tetracaine hydrochloride (p.1871·3).
Local anaesthesia.

Aneurin *Teva, Ger.†.*
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Aneurol *Lacer, Spain.*
Diazepam (p.986·3).
Contains pyridoxine hydrochloride.
Alcohol withdrawal syndrome; anxiety; febrile convulsions; insomnia; skeletal muscle spasm.

Anevrase
Note. This name is used for preparations of different composition.
Cazi, Braz.†.
Oral solution: Passion flower (p.2363·2); mulungu (p.2348·1); valerian (p.2410·1); melmendro; crataegus (p.2289·1); melissa (p.2339·3).
Sedative.

Cazi, Braz.†.
Tablets: Passion flower (p.2363·2); mulungu (p.2348·1); valerian (p.2410·1); melmendro; crataegus (p.2289·1).
Sedative.

Anevrasi *Donini, Ital.*
Passion flower (p.2363·2); crataegus (p.2289·1); valerian (p.2410·1).
Insomnia.

Anew
Note. This name is used for preparations of different composition.
Avon, Canad.
SPF 15 cream; SPF 15 lotion: Octinoxate (p.1608·2); oxybenzone (p.1608·3); avobenzone (p.1589·3).
Sunscreen.

Avon, Canad.
SPF 15 eye cream: Octinoxate (p.1608·2); titanium dioxide (p.1617·3).
Sunscreen.

Anew Force Extra *Avon, Canad.*
SPF 15: Avobenzone (p.1589·3); octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Anew Luminosity *Avon, Canad.*
SPF 15: Avobenzone (p.1589·3); octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Anew Positivity *Avon, Canad.†.*
SPF 15: Avobenzone (p.1589·3); octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Anew Revital-Air *Avon, Canad.†.*
SPF 15: Avobenzone (p.1589·3); octinoxate (p.1608·2); octisalate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Anexa *Microsules, Arg.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Anexate *Roche, Austral.; Roche, Austria; Roche, Belg.; Roche, Canad.; Roche, Cz.; Roche, Fr.; Roche, Ger.; Roche, Gr.; Roche, Hong Kong; Roche, Hung.; Roche, Indon.; Roche, Irl.; Roche, Israel; Roche, Ital.; Roche, Malaysia; Roche, NZ; Roche, Neth.; Roche, Norw.; Roche, Philipp.; Roche, Pol.; Roche, Port.; Roche, S.Afr.; Roche, Singapore; Roche, Spain; Roche, Switz.; Roche, Thai.; Roche, Turk.; Roche, UK.*
Flumazenil (p.1445·2).
Benzodiazepine overdosage; reversal of benzodiazepine-induced sedation.

Anexsia *Andrx, USA.*
Hydrocodone tartrate (p.63·1); paracetamol (p.108·1).
Pain.

Anextuss *Cypress, USA.*
Guaifenesin (p.1561·3); phenylephrine hydrochloride (p.1568·1); dextromethorphan hydrobromide (p.1555·2).
Cough.

Anfagladin *Anfarm, Gr.*
Cefatrizine propylene glycol (p.221·3).
Bacterial infections.

Anfer *Anfarm, Gr.; Anfarm, Thai.†; TTN, Thai.†.*
Nabumetone (p.91·2).
Inflammatory disorders; osteoarthritis; pain; rheumatoid arthritis.

Anfertil *Wyeth, Braz.*
Norgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

Anflat *Cazi, Braz.†.*
Simeticone (p.1770·2).
Flatulence.

Anflatox *Ares, Mex.†.*
Meloxicam (p.80·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Anflene *Teuto, Braz.*
Piroxicam (p.117·3).
Dysmenorrhoea; gout; musculoskeletal and joint disorders.

Anfocort *BMS, Ital.*
⊗ Halcinonide (p.1535·1); amphotericin B (p.523·2).
Infected skin disorders.

Anfogen *Richmond, Arg.*
Liposomal amphotericin B (p.523·2) (p.523·2).
Fungal infections.

Anfokali *Bano, Austria.*
Homoeopathic preparation.

Anfolic *TRB, Arg.*
Folic acid (p.1940·1).
Folic acid deficiency; megaloblastic anaemia.

Anforicin B *Cristalia, Braz.*
Amphotericin B (p.523·2).
Fungal infections.

Anfoterin *Teuto, Braz.†.*
Tetracycline hydrochloride (p.347·2); amphotericin B (p.523·2).
Vaginal infections.

Anfozan *Proel, Gr.*
Etidronate disodium (p.1097·1).
Osteoporosis.

Anfree *Sincerity, Hong Kong.*
Flupentixol (p.997·1); melitracen (p.408·1).
Anxiety; depression.

Anfugine *Blausiegel, Braz.*
Tinidazole (p.848·3); miconazole nitrate (p.541·3).
Trichomoniasis; vaginal candidiasis.

Anfugitarin *Blausiegel, Braz.*
Miconazole nitrate (p.541·3).
Perianal and vulvovaginal candidiasis.

Anfuhex *Hexpharm, Indon.*
Ketoconazole (p.539·1).
Fungal infections.

Angass *Medice, Ger.*
Bismuth subnitrate (p.1711·2); bismuth aluminate (p.1710·3).
Peptic ulcer.

Angass S *Medice, Ger.†.*
Bismuth subnitrate (p.1711·2).
Peptic ulcer.

Ange *Teikoku, Jpn.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
28-Day packs also contain 7 inert tablets.
Triphasic oral contraceptive.

Angeliq
Schering, Arg.; Schering, Austral.; Schering, Austria; Schering, Belg.; Schering, Braz.; Schering, Chile; Bayer Schering, Cz.; Schering, Fin.; Schering, Fr.; Schering, Ger.; Schering, Gr.; Schering, Hong Kong; Bayer Schering, Hung.; Schering, Indon.; Schering, Irl.; Agis, Israel; Schering, Ital.; Schering, Mex.; Schering, Neth.; Schering, Philipp.; Schering, Pol.; Berlex, Port.; Schering, Rus.; Schering, S.Afr.; Schering, Spain; Schering, Thai.; Schering, UK; Bayer, USA.
Estradiol (p.2097·2); drospirenone (p.2095·2).
Menopausal disorders; osteoporosis.

Schering, Turk.
Estradiol valerate (p.2097·3); drospirenone (p.2095·2).
Menopausal disorders; osteoporosis.

Angemin *Schering, Denm.; Schering, Swed.*
Drospirenone (p.2095·2); estradiol (p.2097·2).
Menopausal disorders; osteoporosis.

Angenol *APT, Hong Kong.*
Paracetamol (p.108·1).
Fever; pain.

Angenovag *Novag, Mex.*
⊗ Dequalinium chloride (p.1641·3); enoxolone (p.50·1); hydrocortisone acetate (p.1535·2); tyrothricin (p.358·2); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Angettes *BMS, UK.*
Aspirin (p.20·3).
Thrombosis prophylaxis.

Angeze *Opus, UK.*
Isosorbide mononitrate (p.1318·3).
Angina pectoris.

Anghostam-100 *Biostam (Βιοσταμ), Gr.*
Ticlopidine (p.1412·1).
Thromboembolic disorders.

Angibosan *Bock, Ger.†.*
Homoeopathic preparation.

Angicon *Royal, Chile.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Angicor *Aventis, Denm.*
Nicorandil (p.1349·1).
Angina pectoris.

Angidil *Errekappa, Ital.†.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Angidine *Vifor, Switz.*
Gramicidin (p.286·1); benzethonium chloride (p.1630·1); tetracaine hydrochloride (p.1871·3).
Mouth and throat disorders.

Angifonil *Diviser Aquilea, Spain†.*
Cetylpyridinium chloride (p.1635·1).
Bacterial mouth infections.

Angil *Sanval, Braz.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris.

Angileptol *Sigma-Tau, Spain.*
Enoxolone (p.50·1); benzocaine (p.1854·1); chlorhexidine hydrochloride (p.1635·3).
Mouth and throat disorders.

Angilol *Douglas, NZ; DDSA Pharmaceuticals, UK.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction; obstructive cardiomyopathy; phaeochromocytoma; tremor.

Angimet *Bergamo, Braz.*
Methyldopa (p.1334·1).
Hypertension.

Angina MCC *Streuli, Switz.*
Cetylpyridinium chloride (p.1635·1); lidocaine hydrochloride (p.1862·3); menthol (p.2340·1).
Mouth and throat disorders.

Angina-Gastreu S R1 *Reckeweg, Ger.*
Homoeopathic preparation.

Anginamide *Medgenix, Belg.*
Sulfacetamide sodium (p.335·3).
Infections of the mouth and throat.

Anginazol *Intermedica, Switz.*
Dichlorobenzyl alcohol (p.1642·1); cetylpyridinium chloride (p.1635·1); chlorquinaldol (p.242·3); lidocaine hydrochloride (p.1862·3).
Mouth and throat infections.

Anginesin *Grossmann, Switz.†.*
Aluminium acetotartrate (p.2255·1); sage (p.2382·3).
Mouth and throat pain.

Angin-Heel S *Heel, Cz.*
Homoeopathic preparation.

Anginin *Delta, Port.†.*
Pyricarbate (p.2377·1).

Anginine *Sigma, Austral.; GSK, NZ†.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris.

Anginol *Labima, Belg.*
Dequalinium chloride (p.1641·3).
Mouth and throat disorders.

Anginol-Lidocaine *Labima, Belg.*
Dequalinium chloride (p.1641·3); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Anginomycin *Chephasaar, Ger.†.*
Tyrothricin (p.358·2); bacitracin (p.210·3).
Mouth and throat infections.

Angino-Rub *Eurofarma, Braz.*
Benzydamine hydrochloride (p.27·3); cineole (p.2282·3); turpentine oil (p.2406·3); camphor (p.2273·2); thymol (p.1664·3); menthol (p.2340·1).
Mouth and throat disorders.

Anginotrat *Purissimus, Arg.*
Gentamicin embonate (p.284·2); sulfadiazine (p.336·2); benzocaine (p.1854·1).
Mouth and throat disorders.

Anginotricin *Sanval, Braz.*
Neomycin sulfate (p.305·1); tyrothricin (p.358·2); benzocaine (p.1854·1); sodium perborate (p.1662·1).
Mouth and throat disorders.

Anginova
Note. This name is used for preparations of different composition.
Confar, Port.
Dequalinium chloride (p.1641·3); benzocaine (p.1854·1); trypsin (p.2405·3).
Mouth and throat disorders.

Medinova, Switz.†.
Dequalinium chloride (p.1641·3); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Anginovag *Novag, Spain.*
⊗ Dequalinium chloride (p.1641·3); enoxolone (p.50·1); hydrocortisone acetate (p.1535·2); lidocaine hydrochloride (p.1862·3); tyrothricin (p.358·2).
Mouth and throat disorders.

Anginovin H *Pfluger, Ger.†.*
Homoeopathic preparation.

Angin-San *Sandipro, Belg.*
Dequalinium chloride (p.1641·3); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Angiocine *Wolfs, Belg.*
Lidocaine hydrochloride (p.1862·3); chlorhexidine hydrochloride (p.1635·3).
Mouth and throat disorders.

Angiocis *CIS, Port.; Schering, UK.*
Technetium-99m stannous pyrophosphate (p.2055·3).
Red blood cell labelling for blood pool scintigraphy.

Angiodarona *Cazi, Braz.*
Amiodarone (p.1210·2).
Arrhythmias.

Angiodel *Organon, Turk.*
Bencyclane fumarate (p.1224·1).

Angiodrox *Solvay, Spain.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Angiofilina *Fabra, Arg.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Angiofluor *Poen, Arg.†.*
Fluorescein sodium (p.2306·1).
Adjunct in eye examination.

Angioflux *Mitim, Ital.*
A heparinoid (p.1305·2).
Thrombosis prophylaxis.

Angioftal *Allergan, Arg.†.*
Chromocarb diethylamine (p.2281·1).
Conjunctivitis.

Angiografin *Schering, Austral.†; Schering, Neth.†; Schering, S.Afr.†.*
Meglumine amidotrizoate (p.1475·3).
Radiographic contrast medium.

Angiografina *Schering, Arg.*
Meglumine amidotrizoate (p.1475·3).
Radiographic contrast medium.

Angiolingual *Royal, Chile.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris.

Angiolit *Pharmacia, Arg.†.*
Nicergoline (p.2352·1); flunarizine (p.580·3).
Cerebral and peripheral vascular disorders; circulatory disorders of the ear and eye.

Angiolong *Farmalab, Braz.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension.

Angiomax
Medison, Israel.
Bivalirudin (p.1234·2).
Thromboembolism prophylaxis in patients undergoing percutaneous coronary interventions.

Bago, Arg.; CSL, Austral.; Oryx, Canad.; CSL, NZ.; Medicines Company, USA.
Bivalirudin trifluoroacetate (p.1234·3).
Thromboembolism prophylaxis in patients undergoing percutaneous coronary interventions.

Angiomiron *Schering, Venez.†.*
Meglumine iodamide (p.1481·3); sodium iodamide (p.1482·1).
Radiographic contrast medium.

Angioneurina *Baxter, Arg.†.*
C esterase inhibitor (p.2287·1).

Angionorm *Farmasan, Ger.*
Dihydroergotamine mesilate (p.618·2).
Circulation disorders; hypotension; migraine.

Angiopas *Pascoe, Ger.†.*
Homoeopathic preparation.

Angiophtal *MSD-Chibret, Fr.†.*
Chromocarb diethylamine (p.2281·1).
Capillary fragility in the eye.

Angiopine *Ashbourne, UK†.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension; Raynaud's syndrome.

Angiopril
Note. This name is used for preparations of different composition.
Diffucap, Braz.†.
Enalapril maleate (p.1276·1).
Hypertension.

Torrent, Rus.
Captopril (p.1239·2).

Angiopurin *Dexcel, Hung.†.*
Pentoxifylline (p.1367·2).
Cerebral and peripheral vascular disorders.

Angiorex *Lampugnani, Ital.†.*
Myrtillus (p.2349·3).
Capillary disorders.

Angiorex Complex *Lampugnani, Ital.*
Rose fruit (p.2381·2); myrtillus (p.2349·3); butcher's broom (p.2270·3); centella (p.1592·3).
Venous insufficiency.

Angiosan *Novartis, Austria.*
Valsartan (p.1420·2).
Hypertension.

Angioten *Kalbe, Indon.*
Losartan potassium (p.1326·1).
Hypertension.

Angioton
Note. This name is used for preparations of different composition.
GD, Ital.
Cream: Ginkgo biloba (p.2311·1); centella (p.1592·3); menthol (p.2340·1); bioflavonoids (p.2304·1).
Peripheral vascular disorders.

GD, Ital.
Tablets: Centella (p.1592·3); myrtillus (p.2349·3); rutoside (p.2305·1); vitamins (p.1922·1).
Venous disorders.

Angioton S *DHU, Ger.*
Homoeopathic preparation.

Angiotrofin *Armstrong, Mex.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Angioval *Galenica, Gr.†.*
Isosorbide mononitrate (p.1318·3).
Angina pectoris.

Angiovan *Giempi, Venez.*
Amlodipine besilate (p.1214·1).
Angina pectoris; heart failure; hypertension.

Angiovein *Piam, Ital.*
Thioctic acid (p.2400·2); vitis vinifera (p.2316·3); centella (p.1592·3); aesculus (p.2248·2); andrographis; ginkgo biloba (p.2311·1); garlic (p.2309·2); vitamin B substances (p.1922·1).
Circulatory disorders.

Angiovist *Schering, Chile.*
Sodium amidotrizoate (p.1475·3); meglumine amidotrizoate (p.1475·3).
Radiographic contrast medium.

Angiox *Nycomed, Cz.; Medicines Company, Denm.; Leiras, Fin.; Nycomed, Fr.; Nycomed, Ger.; Medicines Company, Gr.; Medicines Company, Hung.; Nycomed, Ital.; Nycomed, Neth.; Medicines Company, Norw.; Medicines Company, Port.; Ferrer, Spain; Nycomed, Swed.; Medicines Company, UK.*
Bivalirudin (p.1234·2).
Acute coronary syndromes; thromboembolism prophylaxis in percutaneous coronary interventions.

Angiozem *Littman, Philipp.; Ashbourne, UK†.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Angipec *Lamsa, Arg.*
Amlodipine besilate (p.1214·1).

Angipina *Azevedos, Port.*
Nifedipine (p.1350·1).
Angina pectoris.

Angipress
Note. This name is used for preparations of different composition.
Biosintetica, Braz.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Crinos, Ital.†.
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Angipress CD *Biosintetica, Braz.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Angirel *Unison, Philipp.*
Trimetazidine hydrochloride (p.1419·2).
Angina pectoris; Ménière's disease.

Angised *GSK, Hong Kong; GSK, India; GSK, Israel†; GSK, S.Afr.; GSK, Singapore; GSK, Thai.†.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris.

Angi-Spray *Akromed, S.Afr.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris; heart failure; myocardial infarction.

Angistad *Stada, Philipp.*
Isosorbide mononitrate (p.1318·3).
Angina pectoris; heart failure; ischaemic heart disease; pulmonary hypertension.

Angitak *LPC, UK.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris.

Angitil *Trinity, UK.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Angitrate *Akromed, S.Afr.*
Isosorbide mononitrate (p.1318·3).
Angina pectoris.

Angitrit *Ranbaxy, Thai.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris.

Angizem *Sanofi-Aventis, Ital.; Sun, Thai.†.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension.

Anglix *Novartis, Mex.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris.

Anglopen *Liomont, Mex.*
Ampicillin (p.204·1), ampicillin sodium (p.204·1), or ampicillin trihydrate (p.204·2).
Bacterial infections.

Anglotex *Arlex, Mex.*
Ampicillin (p.204·1); dicloxacillin (p.265·2).
Bacterial infections.

Anglucid *Collins, Mex.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Angocin Anti-Infekt N *Repha, Ger.*
Tropaeolum majus (p.2264·3); horseradish (p.2320·1).
Respiratory-tract infections; urinary-tract infections.

Angocin Bronchialtropfen *Repha, Ger.*
Marrubium vulgare (p.1564·1).
Catarrh.

Angoron *Sanofi-Aventis, Gr.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias; wolff-Parkinson-White syndrome.

Angoten *Microsules, Arg.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Angrip *Giempi, Venez.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); caffeine (p.1116·3).
Cold symptoms.

Angrip Noche *Giempi, Venez.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Cold symptoms.

Angstrom Corpo *Chefaro, Ital.*
Octinoxate (p.1608·2); avobenzone (p.1589·3).
Sunscreen.

Angstrom Viso
Note. This name is used for preparations of different composition.
Chefaro, Ital.
Cream: Octinoxate (p.1608·2); avobenzone (p.1589·3); vitamin E acetate (p.1992·3); dimethicone (p.2032·1); betacarotene (p.1930·3); allantoin (p.1588·1); sodium pidolate (p.1614·1); triclosan (p.1665·2).
Barrier preparation; sunscreen.

Chefaro, Ital.
Stick: Octinoxate (p.1608·2); avobenzone (p.1589·3); vitamin E acetate (p.1992·3); betacarotene (p.1930·3).
Barrier preparation; sunscreen.

Anguilce *TRB, Arg.†.*
Elcatonin (p.1093·2).
Hypercalcaemia; osteoporosis; Paget's disease of bone; reflex sympathetic dystrophy.

Angular *Fada, Arg.†.*
Bromazepam (p.964·3).
Anxiety.

Angurate Magentee *Alsitan, Ger.†.*
Mentzelia cordifolia.
Gastrointestinal disorders.

Angyton *Royton, Braz.†.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Anhidrot *Stiefel, Arg.†.*
Aluminium chloride (p.1588·2).
Hyperhidrosis.

Anhissen *Sunthi Sepuri, Indon.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; urticaria.

Anhista *Sriprasit, Thai.*
Chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Cold symptoms.

Anhydrol Forte *Dermal Laboratories, Irl.; Dermal, Israel; Dermal Laboratories, UK.*
Aluminium chloride (p.1588·2).
Hyperhidrosis.

Anice (Specie Composta) *Dynacren, Ital.†.*
Aniseed (p.2258·2); chamomile (p.2279·3); caraway (p.2276·3); peppermint leaf (p.1761·2); fennel (p.2302·3).
Gastrointestinal disorders; herbal tea.

Aniduv *LKM, Arg.*
Nimodipine (p.1357·2).
Cerebrovascular disorders.

Aniflazime *Seber, Port.*
Serrapeptase (p.2385·3).
Inflammation; respiratory-tract congestion.

Aniflazym *Takeda, Ger.*
Serrapeptase (p.2385·3).
Inflammation.

Anikef *Duopharma, Hong Kong.*
Cefuroxime (p.238·2).
Bacterial infections.

Anilar *LKM, Arg.*
Sertraline (p.422·1).
Depression.

Anilid *Kener, Mex.*
⊗ Chlortalidone (p.1243·3).

Animal Shapes *Major, USA.*
Multivitamin preparation (p.1922·1).

Animal Shapes + Iron *Major, USA.*
Multivitamin preparation with iron (p.1922·1).

Animativ *BioSaude, Port.†.*
Multivitamin preparation with iron (p.1922·1).

Animex-On *Bernabo, Arg.*
Fluoxetine hydrochloride (p.391·2).
Bulimia; depression.

Animi-3 *PBM, USA.*
Omega-3 triglycerides (p.1362·1); vitamin B ; vitamin B ; folic acid (p.1922·1).
Dietary supplement.

Animic *Vinas, Spain.*
St John's wort (p.422·3).
Sleep disorders; tonic.

Animine
Note. This name is used for preparations of different composition.
McGloin, Austral.
Cream: Benzocaine (p.1854·1); benzalkonium chloride (p.1629·1).
Bites; pruritus; stings.

McGloin, Austral.
Lotion: Lidocaine hydrochloride (p.1862·3); benzalkonium chloride (p.1629·1); calamine (p.1591·2).
Bites; pruritus; stings.

Anionen-Spurenelement *Fresenius Kabi, Austria.*
Electrolytes for infusion (p.1667·1).
Parenteral nutrition.

Anios DD *Anios, Fr.*
Quaternary ammonium compound; guanidinium acetate; propyl alcohol (p.1660·2).
Cleaning and disinfection of surfaces and instruments.

Aniospray 29 *Anios, Fr.*
⊗ Didecyldimethylammonium chloride (p.1642·2); polihexanide (p.1658·2); alcohol PE (p.1625·2); glycolic acid (p.1598·1).
Instrument and surface disinfection.

Aniospray 41 *Anios, Fr.*
Formaldehyde (p.1644·2); glyoxal (p.1646·1); glutaral (p.1645·2); didecyldimethylammonium chloride (p.1642·2).
Disinfection of instruments and surfaces.

Aniosyme *Anios, Fr.*
Didecyldimethylammonium chloride (p.1642·2); chelators; proteases; lipases; amylases.
Instrument disinfection.

Anioxyde *Anios, Fr.*
Peracetic acid (p.1655·2); hydrogen peroxide (p.1647·3).
Instrument disinfection.

Anipen *Choongwae, Philipp.; Unimex, Philipp.*
Cilastatin (p.243·2); imipenem (p.286·3).
Bacterial infections.

Aniran *Rontag, Arg.*
⊗ Aniracetam (p.363·2).
Mental function disorders.

Anisan *Pascoe, Ger.†.*
Menthol (p.2340·1); bismuth subgallate (p.1711·1); aluminium acetotartrate (p.2255·1); St John's wort oil (p.423·2); hamamelis (p.2318·2); liver oil.
Anorectal disorders.

Anisimol *Medipharm, Chile.*
Fluoxetine (p.397·3).
Bulimia; depression.

Anistal *Silanes, Mex.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Anitid *Bernofarm, Indon.*
Ranitidine hydrochloride (p.1766·1).
Gastric hypersecretory disorders; peptic ulcer.

Anitrim *Italmex, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Anival *Errekappa, Ital.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Anixon *Kramer, Philipp.*
Vitamin B substances (p.1922·1); ferrous fumarate (p.1938·3); folic acid (p.1940·1).
Iron-deficiency anaemia; nutritional supplement.

Anksen *Sanovel, Turk.*
Dipotassium clorazepate (p.980·1).
Anxiety.

Anlene *Fonterra, Indon.; Fonterra, Malaysia; Fonterra, Philipp.*
A range of nutritional supplements (p.1922·1).

Anlo *Sigma, Braz.*
Amlodipine besilate (p.1214·1).
Hypertension.

Anlodibal *Baldacci, Braz.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Anlos *Sandoz, Indon.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; urticaria.

Anlostin *Biovena, Pol.*
Lovastatin (p.1328·2).
Atherosclerosis; hypercholesterolaemia.

Anmerob *Medikon, Indon.*
Metronidazole (p.837·1).
Amoebiasis; anaerobic bacterial infections; giardiasis; trichomoniasis.

Anmum *Fonterra, Indon.; Fonterra, Malaysia.*
Nutritional supplement for pregnancy and breast feeding (p.1922·1).
Nutritional supplement.

Anna *TNP, Thai.†.*
21 Tablets, levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3); 7 tablets, inert.
Combined oral contraceptive.

Annadine *Unison, Thai.*
Povidone-iodine (p.1659·2).
Skin disinfection.

Annita *Farmoquimica, Braz.*
Nitazoxanide (p.842·3).
Worm infections.

Annoxen *Siam Bheasach, Thai.*
Naproxen sodium (p.92·3).
Gout; musculoskeletal, joint, and peri-articular disorders.

Anodan-HC *Odan, Canad.*
⊗ Hydrocortisone acetate (p.1535·2); zinc sulfate (p.1999·2).
Anorectal disorders.

Anodesyn *Thornton & Ross, UK.*
Lidocaine hydrochloride (p.1862·3); allantoin (p.1588·1).
Anorectal disorders.

Anoflam *Pharma Nutria, Philipp.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; pain.

Anolor *Blansett, USA.*
Butalbital (p.967·2); paracetamol (p.108·1); caffeine (p.1116·3).

Anopyrin *Zentiva, Cz.*
Aspirin (p.20·3).
Fever; pain; thrombosis prophylaxis.

Anore *Kalbe, Indon.*
Norethisterone (p.2119·3).
Dysfunctional bleeding; endometriosis; postponement of menstruation; premenstrual syndrome.

Anore Dolor *Schwarzwalder, Ger.†.*
Homoeopathic preparation.

Anore X N *Schwarzwalder, Ger.†.*
Absinthium (p.2244·1); gentian (p.2310·3); angelica (p.2258·1).
Appetite loss; dyspepsia; meteorism.

Anore rheumatic N *Schwarzwalder, Ger.*
Homoeopathic preparation.

Anoreine
Note. This name is used for preparations of different composition.
Janssen-Cilag, Austria.
Carrageenan (p.2142·3); titanium dioxide (p.1617·3); zinc oxide (p.1621·2).
Anorectal disorders.

McNeil, Fr.
Carrageenan (p.2142·3); bismuth subgallate (p.1711·1); zinc oxide (p.1621·2).
Anorectal disorders.

Anoreine mit Lidocain *Janssen-Cilag, Austria.*
Carrageenan (p.2142·3); titanium dioxide (p.1617·3); zinc oxide (p.1621·2); lidocaine (p.1862·3).
Anorectal disorders.

Anorfin *Hexal, Denm.*
⊗ Buprenorphine hydrochloride (p.29·1).
Pain.

Anorsia *Asian Pharm, Thai.*
Pizotifen malate (p.624·2).
Anorexia; vascular headache.

102 Anos *ISA, Arg.*
A range of dietary supplements (p.1922·1).

Anovate *USV, India.*
⊗ Beclometasone dipropionate (p.1516·2); phenylephrine hydrochloride (p.1568·1); lidocaine hydrochloride (p.1862·3).
Anorectal disorders.

Anovulatorio Micro-Dosis *Laboratorios Chile, Chile; Mintlab, Chile.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

Anovulatorios *Laboratorios Chile, Chile.*
Lynestrenol (p.2112·3); mestranol (p.2116·2).
Combined oral contraceptive; menstrual disorders.

A-Nox *Aroma, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Anoxant *Eagle, Austral.*
A vitamin, mineral, amino-acid, and herbal antoxidant preparation (p.1922·1).

Anoxen *Roemmers, Venez.*
Fluoxetine hydrochloride (p.391·2).
Depression.

Anoxid *Volchem, Ital.*
Vitamins A, C, and E (p.1922·1).
Nutritional supplement.

Anoxolan *Neo Quimica, Braz.*
Cloxazolam (p.981·1).
Anxiety; epilepsy.

Anpec *Alphapharm, Austral.; Alphapharm, Malaysia†; Merck, Malaysia†.*
Verapamil hydrochloride (p.1421·1).
Angina pectoris; arrhythmias; hypertension.

Anpeval *Vir, Spain.*
Triflusal (p.1418·3).
Thromboembolic disorders.

Anphechlor *Medhaus, Philipp.*
Chloramphenicol (p.239·3) or chloramphenicol palmitate (p.239·3).
Bacterial infections.

Anpiride *Sanbe, Indon.*
Glimepiride (p.441·1).
Diabetes mellitus.

Anplag *Mitsubishi, Jpn.*
Sarpogrelate hydrochloride (p.1390·1).
Occlusive arterial disease.

Anposel *Medipharm, Chile.*
Meloxicam (p.80·3).
Osteoarthritis; pain; rheumatoid arthritis.

Anpre *Wermar, Mex.*
Meloxicam (p.80·3).
Dysmenorrhoea; gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Anpress *Condrugs, Thai.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

Anquil *Janssen-Cilag, Irl.†; Concord, UK.*
Benperidol (p.964·1).
Deviant sexual behaviour.

Anremed *Bajamed, Mex.*
Diltiazem (p.1267·1).
Angina pectoris; hypertension.

Ansaid *Pfizer, Canad.; Pfizer, Chile; Pharmacia, Cz.†; Pfizer, Mex.; Upjohn, USA.*
Flurbiprofen (p.61·2).
Gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Ansal *Novartis, Denm.*
⊗ Antazoline sulfate (p.567·1); naphazoline nitrate (p.1565·2).
Allergic conjunctivitis.

Ansar *Bioclon, Mex.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Ansatipin *Pfizer, Fin.; IFET (ΙΦΕΤ), Gr.†; Kenfarma, Spain; Pfizer, Swed.*
Rifabutin (p.323·3).
Nontuberculous mycobacterial infections; tuberculosis.

Ansatipine *Pfizer, Fr.*
Rifabutin (p.323·3).
Mycobacterial infections; tuberculosis.

Anselol *Douglas, Austral.; Douglas, NZ†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Ansentron *Biosintetica, Braz.*
Ondansetron hydrochloride (p.1756·3).
Nausea and vomiting.

Anseren *Novartis, Ital.*
Ketazolam (p.1002·2).
Anxiety disorders.

Ansi *Bernofarm, Indon.*
Fluoxetine hydrochloride (p.391·2).
Depression.

Ansial *Pharmacia, Arg.†.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Ansielix *Craveri, Arg.*
Alprazolam (p.960·1).
Anxiety; panic disorder.

Ansielix Digest *Craveri, Arg.*
Alprazolam (p.960·1); domperidone (p.1726·2); simeticone (p.1770·2).
Gastrointestinal disorders.

Ansienon *Cazi, Braz.†.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Ansieten *Ivax, Arg.*
Ketazolam (p.1002·2).
Anxiety.

Ansietil *Tecnofarma, Chile.*
Ketazolam (p.1002·2).
Anxiety.

Ansilan
Note. This name is used for preparations of different composition.
Lek, Cz.
Medazepam (p.1006·1).
Anxiety; nervous disorders.

Cosmopharm, Gr.
Famotidine (p.1730·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Giempi, Venez.
Alprazolam (p.960·1).
Anxiety; panic disorder.

Ansilive *Libbs, Braz.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety; epilepsy; insomnia; premedication; sedative; skeletal muscle spasm.

Ansilor *Sofex, Port.*
Lorazepam (p.1004·1).
Anxiety; epilepsy; insomnia; premedication.

Ansimar *ABC, Ital.; OEP, Philipp.*
Doxofylline (p.1120·3).
Obstructive airways disease.

Ansiokey *Inkeysa, Spain.*
Valerian (p.2410·1).
Insomnia; nervous disorders.

Ansiolin *Almirall, Ital.*
Diazepam (p.986·3).
Anxiety; epilepsy; insomnia; premedication.

Ansiopax *Hebron, Braz.†.*
Kava (p.2328·3).
Sedative.

Ansiotex *Cimed, Braz.*
Pimethixene (p.588·1).
Hypersensitivity reactions.

Ansitec *Libbs, Braz.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Ansiten *Azevedos, Port.*
Buspirone hydrochloride (p.965·3).
Anxiety disorders.

Ansium *Lesvi, Spain.*
Diazepam (p.986·3); sulpiride (p.1028·3).
Anxiety.

Ansiven *Abbott, Switz.†.*
Propofol (p.1791·1).
General anaesthesia; sedative.

Anso
Note. This name is used for preparations of different composition.
Lacer, Hong Kong.
⊗ Hexetidine (p.1647·1); lidocaine hydrochloride (p.1862·3); triamcinolone acetonide (p.1544·3); pentosan polysulfate (p.1367·1).
Anorectal disorders.

Lacer, Spain.
⊗ Lidocaine hydrochloride (p.1862·3); triamcinolone acetonide (p.1544·3); pentosan polysulfate sodium (p.1367·1).
Formerly contained hexetidine, lidocaine hydrochloride, triamcinolone acetonide, and pentosan polysulfate sodium.
Anorectal disorders.

Anstrep *Solas, Indon.*
Psidium guajava; curcuma longa; betel pepper; cimicifuga racemosa (p.2282·1).
Diarrhoea.

Ansudor *Galderma, Ger.†.*
Aluminium chlorohydrate (p.1588·3); triclocarban (p.1665·2).
Hyperhidrosis; intertrigo; wound exudate.

Answell *Cadila, India.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; pain.

Answer *Carter, Austral.†; Carter-Wallace, USA.*
Pregnancy test (p.2372·1).

Answer Now *Carter Horner, Canad.†.*
Pregnancy test (p.2372·1).

Anta *Pharmasant, Thai.*
Lorazepam (p.1004·1).
Anxiety; epilepsy; insomnia; muscle relaxation.

Antabus *Chemomedica, Austria; Farmo Quimica, Chile; Alpharma, Cz.; Alpharma, Denm.; Alpharma, Fin.; Altana, Ger.; Alpharma, Neth.; Alpharma, Norw.; Bohm, Spain; Alpharma, Swed.; Team Medica, Switz.; Nobel, Turk.*
Disulfiram (p.2296·2).
Chronic alcoholism.

Antabuse *Orphan, Austral.; Sanofi-Aventis, Belg.; Alpharma, Irl.; Wyeth-Ayerst, Israel†; Sirton, Ital.; CSL, NZ; Pharmacare, S.Afr.; Dumex-Alpharma, Thai.†; Alpharma, UK; Barr, USA; Duramed, USA.*
Disulfiram (p.2296·2).
Chronic alcoholism.

Antacaine *Quality, Hong Kong.*
Aluminium hydroxide (p.1706·2); magnesium carbonate (p.1743·1) or magnesium hydroxide (p.1743·2); oxetacaine (p.1867·2).
Dyspepsia; gastritis; heartburn; peptic ulcer; reflux oesophagitis.

Antacal *Errekappa, Ital.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Antacia-SM *The Forty-Two, Thai.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; gastritis; heartburn; peptic ulcer.

Antacid
Note. This name is used for preparations of different composition.
DC Labs, Canad.†.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).

Geneva, USA.
Oral suspension: Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Hyperacidity.

Goldline, USA.
Tablets: Calcium carbonate (p.1714·1).
Hyperacidity.

Antacid Chewable Tablets *Vitelle, Austral.*
Calcium carbonate (p.1714·1); magnesium carbonate (p.1743·1).
Dyspepsia; gastro-oesophageal reflux; heartburn.

Antacid Plus Antiflatulant *DC Labs, Canad.†; Stanley, Canad.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).

Antacid Suspension *Pharmel, Canad.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).

Antacide Suspension *Therapex, Canad.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).

Antacide Suspension avec Antiflatulent *Therapex, Canad.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).

Antacidum *Pfizer, Austria.*
Dihydroxyaluminum sodium carbonate (p.1723·3).
Dyspepsia; hyperacidity; peptic ulcer.

Antacil
Note. This name is used for preparations of different composition.
TNP, Thai.†.
Oral suspension: Aluminium hydroxide gel (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; peptic ulcer.

TNP, Thai.†.
Tablets: Magnesium trisilicate (p.1744·1); dried aluminium hydroxide gel (p.1706·2); kaolin (p.1738·1).
Gastric hyperacidity; peptic ulcer.

Antacin-D *Quality, Hong Kong.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2) or magnesium trisilicate (p.1744·1); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; gastritis; heartburn; hiatus hernia; oesophagitis; peptic ulcer.

Antacsal *Alpharma, Mex.*
Aspirin (p.20·3).
Fever; pain.

Antadar *FHC, Port.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Antaderm *Darier, Mex.*
Allantoin (p.1588·1); coal tar (p.1616·2).
Psoriasis; seborrhoeic dermatitis.

Antadex-H *Continentales, Mex.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Antadine *Sanofi Omnimed, S.Afr.†.*
Amantadine hydrochloride (p.792·3).
Drug-induced extrapyramidal disorders; influenza A; parkinsonism.

Antaethyl *Sanofi-Aventis, Hung.*
Disulfiram (p.2296·2).
Chronic alcoholism.

Antafit *Polipharm, Thai.*
Carbamazepine (p.471·3).
Epilepsy; trigeminal neuralgia.

Antag *MedGen, Philipp.*
Cimetidine (p.1716·2).
Dyspepsia; gastro-intestinal haemorrhage; gastro-oesophageal reflux; peptic ulcer; short-bowel syndrome; Zollinger-Ellison syndrome.

Antagel
Note.This name is used for preparations of different composition.
PannonPharma, Hung.
Magnesium oxide (p.1744·1); aluminium hydroxide (p.1706·2).
Gastric hyperacidity.

Centrafarm, Neth.; Katwijk, Neth.; Kring, Neth.; Pharmachemie, Neth.; Ratiopharm, Neth.; Sandoz, Neth.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastrointestinal disorders associated with hyperacidity.

Antagel M *PannonPharma, Hung.*
Magnesium hydroxide (p.1743·2).
Gastric hyperacidity.

Antagon
Note.This name is used for preparations of different composition.
Ativus, Braz.
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Organon, USA†.
Ganirelix acetate (p.2105·1).
Now known as Ganirelix Acetate Injection.
Inhibition of premature luteinising hormone surges in controlled ovarian hyperstimulation.

Antagon 1 *Liomont, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Antagonil *Astellas, Ger.*
Nicardipine hydrochloride (p.1348·1).
Angina pectoris; hypertension.

Antak *GSK, Braz.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Antalfebal *McNeil, Ital.*
Ibuprofen (p.64·2).
Fever; pain.

Antalfort *McNeil, Ital.*
Ibuprofen lysine (p.64·2).
Fever; pain.

Antalgic *Caps, S.Afr.*
Paracetamol (p.108·1).
Fever; pain.

Antalgil *McNeil, Ital.*
Ibuprofen (p.64·2).
Pain.

Antalgin
Note.This name is used for preparations of different composition.
Berlico Mulia, Indon.; Corsa, Indon.; Soho, Indon.
Dipyrone (p.49·2).
Fever; pain.

Medix, Mex.
Indometacin (p.66·3).
Gout; inflammation; musculoskeletal, joint and peri-articular disorders; pain.

Roche, Spain.
Naproxen sodium (p.92·3).
Fever; gout; musculoskeletal and joint disorders; pain.

Antalgo *Selvi, Ital.*
Nimesulide (p.95·3).
Fever; inflammation; pain.

Antalin *Saval, Chile.*
Amitriptyline hydrochloride (p.376·1); chlordiazepoxide (p.968·1).
Mixed anxiety depressive states.

Antalisin *McNeil, Ital.*
Ibuprofen lysine (p.64·2).
Fever; pain.

Antalyre *Boehringer Ingelheim, Fr.*
Salicylic acid (p.1612·2).
Formerly contained chlorhexidine gluconate and oxedrine tartrate.
Conjunctival irritation.

Antamin *Pascual, Philipp.; Pharex, Philipp.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Antanax *Novartis, Gr.†.*
Alprazolam (p.960·1).
Anxiety disorders.

Antanazol *Shin Poong, Singapore.*
Ketoconazole (p.539·1).
Fungal infections; seborrhoeic dermatitis.

Antapiril *Pharmacos, Mex.*
Aspirin (p.20·3); phenylephrine (p.1568·1); chlorphenamine (p.572·2).
Influenza symptoms.

Antara *Reliant, USA.*
Fenofibrate (p.1286·2).
Hyperlipidaemias.

Antarene *Elerte, Fr.*
Ibuprofen (p.64·2).
Fever; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Antares *Krewel Meuselbach, Cz.†.*
Kava (p.2328·3).
Anxiety; nervous disorders.

Antasten *Cetus, Arg.*
Captopril (p.1239·2).
Hypertension.

Antasten-Privin *Novartis Ophthalmics, Swed.*
⊗ Antazoline sulfate (p.567·1); naphazoline nitrate (p.1565·2); boric acid (p.2268·1); borax (p.2268·1).
Allergic conjunctivitis.

Antaxon *Zambon, Hung.*
Naltrexone hydrochloride (p.1455·2).
Opioid withdrawal.

Antaxone *Zambon, Ital.; Zambon, Port.; Zambon, Rus.; Pharmazam, Spain.*
Naltrexone hydrochloride (p.1455·2).
Alcohol withdrawal syndrome; opioid withdrawal syndrome.

Antazallerge *Siam Bheasach, Thai.*
⊗ Antazoline hydrochloride (p.567·1); tetryzoline hydrochloride (p.1574·1).
Conjunctivitis.

Antazoline-V *Rugby, USA.*
⊗ Naphazoline hydrochloride (p.1565·2); antazoline phosphate (p.567·1).
Eye irritation.

Antebe *Rafarm, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Antebor *Wolfs, Belg.; Medix, Fr.†.*
Sulfacetamide sodium (p.335·3).
Acne; skin infections.

Antebor N *Sanofi, Switz.*
Chlorhexidine (p.1635·2); triclosan (p.1665·2).
Acne; seborrhoea.

Antelepsin *Dresden, Cz.†; Desitin, Ger.*
Clonazepam (p.478·2).
Bipolar disorder; epilepsy; panic attacks.

Antemin *Streuli, Switz.*
Dimenhydrinate (p.576·2).
Nausea and vomiting.

Antemin compositum *Streuli, Switz.*
Dimenhydrinate (p.576·2); caffeine (p.1116·3); pyridoxine hydrochloride (p.1978·2).
Nausea and vomiting.

Anten *Pacific, NZ.*
Doxepin hydrochloride (p.389·1).
Depression.

Antenex *Alphapharm, Austral.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety disorders; skeletal muscle spasm; spasticity.

Anteovin *Gedeon Richter, Cz.†; Gedeon Richter, Hung.; Richter, Pol.; Gedeon Richter, Rus.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Biphasic oral contraceptive.

Antepan *Sanofi Synthelabo, Austria; Henning, Ger.; Sanofi Synthelabo, Ger.*
Protirelin (p.2175·3).
Assessment of pituitary and thyroid function.

Antepsin *Boehringer Ingelheim, Arg.; Orion, Denm.; Orion, Fin.; Chugai, Irl.; Baldacci, Ital.; Orion, Norw.; Bilim, Turk.; Chugai, UK; Merck, UK.*
Sucralfate (p.1772·2).
Gastritis; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer.

Antergan *TNP, Thai.†.*
⊗ Hydrocortisone acetate (p.1535·2); mepyramine maleate (p.585·2).
Pruritus; skin irritation.

Anthel
Note.This name is used for preparations of different composition.
Alphapharm, Austral.
Pyrantel embonate (p.155·1).
Worm infections.

Shiwa, Thai.†.
Albendazole (p.139·2).
Worm infections.

Anthelios
Note.This name is used for preparations of different composition.
Roche-Posay, Canad.
Cream, SPF 30; cream, SPF 60: Avobenzone (p.1589·3); enzacamene (p.1597·1); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Roche-Posay, Canad.
Lotion, SPF 45: Avobenzone (p.1589·3); titanium dioxide (p.1617·3); ecamsule (p.1596·1); octocrilene (p.1608·3).
Sunscreen.

Sunscreen.

Anthelios Helioblock W40 *Roche-Posay, Braz.*
SPF 40: Drometrizole trisiloxane (p.1596·1); ecamsule (p.1596·1); avobenzone (p.1589·3); octocrilene (p.1608·3); titanium dioxide (p.1617·3).
Sunscreen.

Anthelios SX *Roche-Posay, USA.*
SPF 15: Avobenzone (p.1589·3); ecamsule (p.1596·1); octocrilene (p.1608·3).
Sunscreen.

Anthelios XL Extreme *Roche-Posay, Singapore.*
Drometrizole trisiloxane (p.1596·1); ecamsule (p.1596·1).
Sunscreen.

Antherpos
Note.This name is used for preparations of different composition.
Roche-Posay, Braz.
Drometrizole trisiloxane (p.1596·1); ecamsule (p.1596·1); avobenzone (p.1589·3); octocrilene (p.1608·3); titanium dioxide (p.1617·3).
Sunscreen.

Roche-Posay, Irl.
Enzacamene (p.1597·1); avobenzone (p.1589·3); titanium dioxide (p.1617·3).
Lip protectant; sunscreen.

Roche-Posay, Arg.†.
SPF 50: Ecamsule (p.1596·1); avobenzone (p.1589·3); titanium dioxide (p.1617·3).
Sunscreen.

Roche-Posay, Canad.
SPF 50: Avobenzone (p.1589·3); enzacamene (p.1597·1); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Roche-Posay, Fr.
SPF 50: Octocrilene (p.1608·3); titanium dioxide (p.1617·3); avobenzone (p.1589·3); ecamsule (p.1596·1).
Sunscreen.

Anthisan *Aventis, Hong Kong; Sanofi-Aventis, Irl.; Aventis, NZ; Aventis, S.Afr.; Aventis, UK.*
Mepyramine maleate (p.585·2).
Allergic skin disorders; insect bites and stings; nettle rash; pruritus.

Anthisan Plus *Aventis, UK.*
Mepyramine maleate (p.585·2); benzocaine (p.1854·1).
Bites and stings.

Anthogenol *Phytologic, Austral.*
Grape (p.2316·3); ascorbic acid (p.1983·3).
Antoxidant; varicose veins.

Anthozym *Petrasch, Austria.*
Beta vulgaris; lactic acid; ferrous lactate; ascorbic acid; calcium lactate; potassium aspartate; magnesium aspartate; black currant juice (p.1922·1).
Tonic.

Anthracin *Dabur, Thai.*
Epirubicin hydrochloride (p.716·1).
Malignant neoplasms.

Anthra-Derm *Dermik, USA†.*
Dithranol (p.1595·2).
Psoriasis.

Anthraforte *Medican, Canad.*
Dithranol (p.1595·2).
Psoriasis.

Anthramed *Surya Dermato, Indon.*
Dithranol (p.1595·2).
Psoriasis.

Anthranol *Medican, Canad.; Stiefel, S.Afr.*
Dithranol (p.1595·2).
Psoriasis.

Anthrascalp *Medican, Canad.*
Dithranol (p.1595·2).
Psoriasis.

Anthraxiton *Medinova (Μεντινοβα), Gr.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders; pain.

Anthrom *Yung Shin, Philipp.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Anti *Antula, Swed.*
Aciclovir (p.862·3).
Herpes labialis.

Anti Anorex Triple *Lesvi, Spain.*
⊗ Cyproheptadine hydrochloride (p.575·1); deanol aceglumate (p.2152·3); metoclopramide hydrochloride (p.1747·3).
Tonic.

Anti Itch
Note. A similar name is used for preparations of different composition (see Anti-Itch, below).
Medibrands, Israel.
Pramocaine hydrochloride (p.1868·1).
Pruritus; skin irritation; stings.

Anti-Ac
Note. A similar name is used for preparations of different composition (see below).
Clement-Thekan, Fr.†.
Pirimiphos-methyl (p.2049·2); permethrin (p.2048·2); piperonyl butoxide (p.2049·1).
House dust mite acaricide.

Antiac
Note. A similar name is used for preparations of different composition (see above).
Salcura, UK.
Aloe vera (p.1588·2); manuka (p.2337·3).
Acne.

Antiacid
Note.This name is used for preparations of different composition.
Garden House, Arg.
Magnesium carbonate (p.1743·1); menthol (p.2340·1); calcium carbonate (p.1714·1).
Antacid; dietary supplement.

Lemax, Arg.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Antacid.

Anti-Acido
Note. A similar name is used for preparations of different composition (see below).
Giuliani, Ital.
Aluminium hydroxide dried gel (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2).
Aerophagia; gastric hyperacidity; meteorism.

Antiacido
Note. A similar name is used for preparations of different composition (see above).
GC, Venez.
Magnesium hydroxide (p.1743·2); aluminium hydroxide (p.1706·2).
Gastric hyperacidity.

Antiacil *Sedabel, Braz.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); magnesium trisilicate (p.1744·1).
Antacid.

Antiacne
Note. A similar name is used for preparations of different composition (see below).
Drag, Chile†.
Sulfur (p.1614·1); resorcinol (p.1612·1).
Acne.

Anti-Acne
Note. A similar name is used for preparations of different composition (see above).
MDM, Ital.
Sublimed sulfur (p.1614·1); meclocycline sulfosalicylate (p.297·2); nicoboxil (p.95·1).
Acne.

Anti-Acne Control Formula *Clinique, Canad.†.*
Salicylic acid (p.1612·2).
Acne.

Antiacneicos Ac-Sal *Isdin, Port.†.*
Salicylic acid (p.1612·2); triclosan (p.1665·2); aloe vera (p.1588·2); polyglyceryl methacrylate.
Acne.

Antiacneicos Niacex *Isdin, Port.†.*
Niseiramida; glycerol (p.2314·2); sodium carbomer.
Acne.

Antiadipositum *Riemser, Ger.*
Phenylpropanolamine hydrochloride (p.1569·3); thiamine hydrochloride; pyridoxine hydrochloride; ascorbic acid (p.1922·1).
Obesity.

Antiadipositum X-112 *Hanseler, Switz.*
⊗ Cathine hydrochloride (p.2152·2).
Obesity.

Antiadipositum X-112 T *Riemser, Ger.*
⊗ Cathine hydrochloride (p.2152·2).
Obesity.

Antiadiposo *Teofarma, Ital.*
Iodocasein (p.2170·1); thiamine nitrate (p.1976·2).
Metabolic activator.

Anti-Age Energy *Argenfarma, Arg.*
Vitamin and mineral preparation (p.1922·1).

Anti-Ageing Kalmia *Homeocan, Canad.†*
Homoeopathic preparation.

Antiamox *Epicaris, Arg.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Antianem *Suan, Gr.*
Iron polymaltose (p.1953·1).
Anaemia.

Anti-Asidoz *Assos, Turk.*
Sodium bicarbonate (p.1673·2).
Dyspepsia; metabolic acidosis; urinary alkalinisation.

Anti-Asmatico *CPH, Port.*
⊗ Aminophylline (p.1114·2); phenobarbital (p.492·2); ephedrine hydrochloride (p.1558·2).
Asthma.

Antiax *Saval, Chile.*
Magaldrate (p.1742·3); simeticone (p.1770·2).
Dyspepsia; gastric hyperacidity; gastritis; gastro-oesophageal reflux; peptic ulcer.

Antib *Biogam, Arg.*
A hepatitis B immunoglobulin (p.2214·3).
Passive immunisation.

Antibacin
Elpen (Ελπεν), Gr.
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Elpen, Singapore.
Ceftriaxone (p.238·1).
Bacterial infections.

Antibacter *Biol, Arg.†*
Sodium hypochlorite (p.1661·1); magnesium hypochlorite.
Disinfection.

Antibacter Forte *Bayer, Gr.*
Triclocarban (p.1665·2).
Disinfection.

Antibacterial Honey Barrier *Medihoney, Austral.*
Honey (p.1948·2).
Formerly known as Antibacterial Wound Gel.
Burns; ulcers; wounds.

Antibeksin *Fako, Turk.*
⊗ Ephedrine hydrochloride (p.1558·2); sodium citrate (p.1673·3); sulfogaiacol (p.1573·2); pheniramine maleate (p.587·3).
Respiratory-tract congestion.

Antiben *Liferpal, Mex.*
Dicloxacillin (p.265·2).
Bacterial infections.

Antibex *Pharmaniaga, Malaysia†; Raza, Malaysia†.*
Chlorhexidine gluconate (p.1635·3).
Skin and wound disinfection.

Anti-Bio *Anpharm (Ανφαρμ), Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Antibiocilina *Fada, Arg.†*
Amoxicillin (p.202·2).
Bacterial infections.

Antibiocort *Eczane, Arg.†*
⊗ Hydrocortisone (p.1535·2); naphazoline (p.1565·1); neomycin (p.305·1); gramicidin (p.286·1).
Infected eye disorders.

Antibiopen *Reig Jofre, Spain.*
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Antibiophilus *Germania, Austria; Azevedos, Port.*
Lactobacillus rhamnosus (p.2372·3).
Diarrhoea.

Antibioptal
Note. This name is used for preparations of different composition.
Poen, Arg.
Tobramycin (p.354·1); phenylephrine hydrochloride (p.1568·1).
Bacterial eye infections.

Farmila, Ital.
Chloramphenicol (p.239·3); neomycin sulfate (p.305·1).
Bacterial eye infections.

Antibiostad *Stada, Austria.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Antibio-Synalar *Jolly-Jatel, Fr.*
⊗ Fluocinolone acetonide (p.1531·3); polymyxin B sulfate (p.317·3); neomycin sulfate (p.305·1).
Otitis externa.

Antibi-Otic *Seng, Thai.*
Chloramphenicol (p.239·3).
Bacterial ear infections.

Antibiotic Cold Sore Ointment *Columbia, Canad.*
Polymyxin B sulfate (p.317·3); tyrothricin (p.358·2); camphor (p.2273·2); menthol (p.2340·1); benzocaine (p.1854·1).
Herpes labialis.

Antibiotic Cream *Technilab, Canad.†*
Gramicidin (p.286·1); polymyxin B sulfate (p.317·3).

Antibiotic Simplex *Howmedica, NZ.*
Erythromycin gluceptate (p.269·3); colistimethate sodium (p.256·3); polymethylmethacrylate/methylmethacrylate copolymer (p.2343·3).
Bone cement for orthopaedic surgery.

Antibiotique Onguent *Prodemdis, Canad.*
Bacitracin (p.210·3); polymyxin B sulfate (p.317·3).

Antibiotrex *Stiefel, Fr.*
Isotretinoin (p.1599·2); erythromycin (p.269·2).
Acne.

Antibiotulle Lumiere *Solvay, Fr.; Hefa, Ger.†*
Neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Burns; burns, ulcers; infected wounds; wounds.

Antibioxime *Atral, Port.*
Cefuroxime sodium (p.238·2).
Bacterial infections.

Anti-Bit *Eczacibasi, Rus.; Eczacibasi, Turk.*
Phenothrin (p.2048·3).
Pediculosis.

Antibloc *Craveri, Arg.*
⊗ Carvedilol (p.1241·3).
Angina pectoris; hypertension.

Antiblut *Genepharm, Gr.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Antibron *Potter's, UK.*
⊗ Lobelia (p.2157·2); wild lettuce (p.2415·2); coltsfoot (p.1555·1); euphorbia (p.2301·3); pleurisy root (p.2370·1); senega (p.1572·3).
Coughs.

Antican *Elpen (Ελπεν), Gr.*
Diosmin (p.2304·2); hesperidin (p.2304·3).
Vascular disorders.

Anticatarral *Edigen, Spain.*
Chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1); paracetamol (p.108·1).
Formerly contained chlorphenamine maleate, phenylephrine hydrochloride, guaiazulene, muramidase hydrochloride, and paracetamol.
Cold and influenza symptoms.

Anticepim *Verisfield, Gr.*
Cefepime (p.224·1).
Bacterial infections.

Anticerumen *Desma, Spain.*
Sodium laurilsulfate (p.2138·3).
Removal of ear wax.

Antichloric *Therabel, Belg.*
Calcium carbonate (p.1714·1); heavy magnesium carbonate (p.1743·1).
Peptic ulcer.

Antichol *Medicus, Gr.*
Simvastatin (p.1390·2).
Hyperlipidaemias.

Anticholium *Kohler, Austria; Kohler, Cz.; Kohler, Ger.; IFET (ΙΦΕΤ), Gr.*
Physostigmine salicylate (p.1883·3).
Alcohol withdrawal syndrome; antimuscarinic poisoning; central anticholinergic syndrome.

Anticina *Ivax, Mex.*
Ranitidine (p.1766·1).
Gastric hyperacidity.

Anticol *Polfa Warszawa, Pol.*
Disulfiram (p.2296·2).
Alcoholism.

Anticold
Note. This name is used for preparations of different composition.
Andromaco, Chile.
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); pseudoephedrine sulfate (p.1571·2).
Cold and influenza symptoms.

Christo, Hong Kong.
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); caffeine (p.1116·3).
Colds; influenza.

Anticon *Uniderm, Israel.*
Copper-wound plastic (p.1935·2).
Intra-uterine contraceptive device.

Anticongestiva *Sanofi-Aventis, Spain.*
Zinc oxide (p.1621·2).
Skin irritation.

Anticorizza *Ogna, Ital.†*
Paracetamol (p.108·1); salicylamide (p.121·2); caffeine (p.1116·3); tripelennamine hydrochloride (p.592·2).
Cold and influenza symptoms.

Anticors Diable Vert *Colin, Belg.*
Salicylic acid (p.1612·2).
Warts.

Anticude
IFET (ΙΦΕΤ), Gr.
Edrophonium chloride (p.630·3).
Myasthenia gravis.

UCB, Spain.
Edrophonium bromide (p.630·3).
Diagnosis of myasthenia gravis; reversal of competitive neuromuscular blockade.

Anti-D *Upha, Malaysia†; Beacons, Singapore.*
Chlorpropamide (p.438·3).
Diabetes mellitus.

Antidep *Torrent, India.*
Imipramine hydrochloride (p.400·3).
Depression; narcoleptic syndrome; nocturnal enuresis.

Anti-Dessechement *Lierac, Fr.*
⊗ Urea (p.1620·2).
Dry skin; keratinisation disorders.

Antidia *Bernofarm, Indon.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Antidiab *KRKA, Cz.†; KRKA, Pol.*
Glipizide (p.441·3).
Diabetes mellitus.

Antidiar *Ahimsa, Arg.†*
Phthalylsulfathiazole (p.315·1); menadione (p.1995·2).
Diarrhoea.

Anti-Diarrheal *Stanley, Canad.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Antidifar *Alpharma, Mex.*
Diiodohydroxyquinoline (p.832·1).
Amoebiasis.

Antidin *Teuto, Braz.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Antidine *Kimia, Indon.*
Famotidine (p.1730·1).
Gastro-oesophageal reflux; pathological hypersecretory disorders; peptic ulcer.

Antidol
Note. This name is used for preparations of different composition.
Elvetium, Arg.†
Rofecoxib (p.121·1).
Osteoarthritis; pain.

Gerbex, Canad.
Aspirin (p.20·3); caffeine (p.1116·3).

Quimica y Farmacia, Mex.; Cinfa, Spain.
Paracetamol (p.108·1).
Fever; pain.

Lek, Pol.
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Fever; pain.

Antidot *Sistas, Turk.*
Menthol (p.2340·1); camphor (p.2273·2); boric acid (p.2268·1); methyl salicylate (p.85·3).
Minor cuts and abrasions.

Antidotum Thallii-Heyl *Heyl, Ger.*
Prussian blue (p.1461·3).
Thallium poisoning.

Antidral *Polfa Kutno, Pol.*
Aluminium chloride (p.1588·2).
Hyperhidrosis.

Antidrasi *Visufarma, Ital.*
⊗ Diclofenamide (p.1880·2) or diclofenamide sodium (p.1880·2).
Control of intra-ocular pressure during eye surgery; glaucoma.

Antidry
Note. This name is used for preparations of different composition.
Merz, Switz.
Bath oil: Liquid paraffin (p.2030·3); almond oil (p.2252·2).
Skin disorders.

Merz, Switz.
Ointment: Pansy (p.2415·2); zinc oxide (p.1621·2); almond oil (p.2252·2).
Skin disorders.

Merz, Switz.
Shower oil: Liquid paraffin (p.2030·3); soya oil (p.1965·3); levomenol (p.2333·3).
Skin disorders.

Merz, Switz.
Topical lotion: Sodium lactate (p.1673·3); almond oil (p.2252·2).
Skin disorders.

Antiedema *Alcon Cusi, Spain.*
Sodium chloride (p.1686·1).
Corneal oedema.

Anti-Em *Adeka, Turk.*
Dimenhydrinate (p.576·2).
Motion sickness; nausea and vomiting; vertigo; vestibular disorders.

Antiemorroidali *AFOM, Ital.*
Ichthammol (p.1599·1); zinc oxide (p.1621·2); bismuth subgallate (p.1711·1); belladonna (p.2263·3).
Haemorrhoids.

Antiespasmodico *Veinfar, Arg.*
Homatropine (p.1881·2).
Smooth muscle spasm.

Antiestrias *Isdin, Port.*
Centella (p.1592·3); borage oil (p.2267·3); *dl*-alpha tocoferil acetate (p.1992·3); jojoba oil.
Firming cream.

Antietanol *Sanofi-Aventis, Braz.*
Disulfiram (p.2296·2).
Chronic alcoholism.

Antifebrin *Royton, Braz.†*
Aspirin (p.20·3).
Fever; inflammation; pain.

Antifect *Potter's, UK.*
Garlic (p.2309·2); garlic oil (p.2309·2); echinacea (p.2298·1).
Catarrh; nasal congestion; rhinitis.

Antiflam *Rolab, S.Afr.†*
Ibuprofen (p.64·2).
Fever; pain.

Antiflammin H *Pfluger, Ger.†*
Homoeopathic preparation.

Antiflat *Lannacher, Austria; Mecom, Turk.*
Simeticone (p.1770·2).
Aid in gastrointestinal radiography; detergent poisoning; excess gastrointestinal gas.

Antiflog *FIRMA, Ital.*
Piroxicam (p.117·3).
Musculoskeletal, joint, and peri-articular disorders.

Antiflogil *Farmasa, Braz.†*
Nimesulide (p.95·3).
Inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Antiflogol *Poen, Arg.*
⊗ Betamethasone (p.1518·2); tetryzoline hydrochloride (p.1574·1); chloramphenicol (p.239·3).
Infected eye disorders.

Antiflu
Note. This name is used for preparations of different composition.
Altana, Ital.
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); caffeine (p.1116·3).
Cold and influenza symptoms.

Sagmel, Rus.
Chlorphenamine maleate (p.571·3); paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Pharmco, S.Afr.†
Paracetamol (p.108·1); mepyramine maleate (p.585·2); diphenhydramine hydrochloride (p.577·2); caffeine (p.1116·3); codeine phosphate (p.37·2); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Antiflu Forte *Synco, Hong Kong.*
Paracetamol (p.108·1); salicylamide (p.121·2); phenylpropanolamine hydrochloride (p.1569·3); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); caffeine (p.1116·3).
Cold and influenza symptoms; rhinitis.

Antiflu-Des *Chinoin, Mex.*
Amantadine hydrochloride (p.792·3); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Influenza symptoms.

Antiflu-N-Forte *Synco, Hong Kong.*
⊗ Paracetamol (p.108·1); salicylamide (p.121·2); ephedrine hydrochloride (p.1558·2); phenylephrine hydrochloride (p.1568·1); dexchlorpheniramine maleate (p.572·1); caffeine (p.1116·3).
Cold and influenza symptoms; rhinitis.

AntiFocal *Vitorgan, Ger.*
Homoeopathic preparation.

AntiFocal N *Vitorgan, Ger.*
Homoeopathic preparation.

AntiFocal Nr 69-Sol L *Vitorgan, Ger.*
Homoeopathic preparation.

AntiFocal pro inj (Revitorgan-Dilution Nr 69) *Vitorgan, Ger.*
Homoeopathic preparation.

Antifom *Vargas, Venez.*
Simeticone (p.1770·2).
Flatulence.

Antifort *Christo, Hong Kong.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Rhinitis; upper respiratory-tract congestion.

Anti-Fosfat Ca *Assos, Turk.*
Calcium acetate (p.1675·2).
Hyperphosphataemia.

Anti-Fosfat Cc *Assos, Turk.*
Calcium carbonate (p.1714·1).
Hyperphosphataemia.

Antifungal
Note. This name is used for preparations of different composition.
Fortbenton, Arg.
Sulconazole nitrate (p.546·2).
Fungal skin infections.

YSP, Malaysia; Yung Shin, Singapore.
Miconazole nitrate (p.541·3).
Fungal skin and vaginal infections; fungal skin and vulvovaginal infections.

Antifungal Foot Deodorant *Or-Dov, Austral.†*
Tolnaftate (p.548·3).
Tinea pedis.

Antifungol
Note. This name is used for preparations of different composition.
Hexal, Rus.
Clotrimazole (p.530·1).
Fungal skin and vaginal infections.

Hexal, Ger.
Cream; lotion; pessaries; topical spray; vaginal cream: Clotrimazole (p.530·1).
Fungal infections of the skin and genito-urinary tract.

Hexal, Ger.
Paste: Clotrimazole (p.530·1); zinc oxide (p.1621·2).
Fungal skin infections.

Antigeron *Farmasa, Braz.*
Cinnarizine (p.573·1).
Vestibular disorders.

Antiglan *Potter's, UK.*
Saw palmetto (p.2192·3); equisetum (p.2299·3); hydrangea (p.2321·2).
Formerly contained kava, saw palmetto, equisetum, and hydrangea.
Bladder discomfort.

Antigram *Armstrong, Mex.*
Lysine aspirin (p.79·1); metoclopramide (p.1747·3).
Migraine; vascular headache.

Anti-Granulocyte BW *CIS, Cz.†*
Technetium-99m (p.2055·3) labelled anti-granulocyte monoclonal antibody.
Bone-marrow scintigraphy; inflammation scintigraphy.

Antigreg *Piam, Ital.; Vecchi, Malaysia; Piam, Singapore.*
Ticlopidine hydrochloride (p.1411·2).
Thrombosis prophylaxis.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Antigrietun *Casen Fleet, Spain.*
⊗ Allantoin (p.1588·1); aminoacridine (p.1625·2); peru balsam (p.2365·3); prednisolone (p.1540·3).
Allergic skin disorders; cracked nipples; mastitis; superficial burns.

Antigripal Compuesto *Vent-3, Arg.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Cold and influenza symptoms.

Anti-Gripe *Plough, Port.†.*
Aconite (p.2246·1); belladonna (p.2263·3); codeine (p.37·2); caffeine (p.1116·3); paracetamol (p.108·1).
Cold symptoms; fever; pain.

Anti-Gripe Asclepius *Plough, Port.*
Paracetamol (p.108·1).
Fever; pain.

Antigriphine *GSK Consumer, Belg.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Antigrippin-ANVI *Antiviral, Rus.*
Green capsules: aspirin (p.20·3); ascorbic acid (p.1983·3); rutoside (p.2305·1); white capsules: dipyrone (p.49·2); diphenhydramine (p.577·1); calcium gluconate (p.1675·3).
Influenza symptoms; sARS.

Antigrippine
Note.This name is used for preparations of different composition.
GSK Consumer, Neth.
Paracetamol (p.108·1); caffeine (p.1116·3); ascorbic acid (p.1983·3).
Fever; pain.

GSK Consumer, Port.
Paracetamol (p.108·1); mepyramine (p.585·1); caffeine (p.1116·3).
Formerly contained dextromethorphan hydrobromide, phenylpropanolamine hydrochloride, and paracetamol.
Fever; pain.

Anti-H *Eisai, Fr.†.*
Aluminium sodium silicate (p.1707·3); kaolin (p.1738·1); sodium bicarbonate (p.1673·2); calcium carbonate (p.1714·1).
Flatulence; gastrointestinal pain.

Antihemorroidal
Note.This name is used for preparations of different composition.
Denver, Arg.
⊗ Lidocaine hydrochloride (p.1862·3); betamethasone valerate (p.1519·1); phenylephrine hydrochloride (p.1568·1).
Haemorrhoids.

Sertex, Arg.
Zinc oxide (p.1621·2); lidocaine hydrochloride (p.1862·3).
Haemorrhoids.

Cinfa, Spain.
⊗ Benzocaine (p.1854·1); hydrocortisone acetate (p.1535·2); neomycin sulfate (p.305·1); tannic acid (p.2394·3).
Anorectal disorders.

ICN, Spain†.
Ointment: ⊗ Hydrocortisone acetate (p.1535·2); neomycin sulfate (p.305·1); promethazine hydrochloride (p.588·2); vitamin A (p.1971·2).
Anorectal disorders.

Antihep *Microgen, Rus.†.*
A hepatitis B immunoglobulin (p.2214·3).
Passive immunisation.

Antihist *Merck, S.Afr.*
Mepyramine maleate (p.585·2).
Hypersensitivity reactions.

Antihistaminico *Llorens, Spain.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions of the eye.

Anti-Homocysteine Factor *Eagle, Austral.*
Amino acids, vitamin B substances; minerals (p.1922·1).
Elevated homocysteine levels.

Antihydral *Robugen, Ger.; Iromedica, Switz.*
Methenamine (p.298·3).
Hyperhidrosis; skin infections.

Antihydral M *Robugen, Ger.†; Robugen, Hong Kong†.*
Methenamine (p.298·3); sulfur (p.1614·1).
Fungal skin infections; hyperhidrosis.

Antihypertonicum Forte *Hevert, Ger.*
Homoeopathic preparation.

Antihypertonicum S *Schuck, Ger.*
Betula (p.2266·3); crataegus (p.2289·1); mistletoe (p.2345·3); olive (p.2356·2); rhododendron leaf; rutoside (p.2305·1); proxyphylline (p.1130·3).
Atherosclerosis; hypertension.

Antihypertonicum-Tropfen N *Schuck, Ger.*
Homoeopathic preparation.

Antihypertonicum-Weliplex *Weber & Weber, Ger.†.*
Homoeopathic preparation.

Anti-Itch
Note. A similar name is used for preparations of different composition (see Anti Itch, above).
Taro, USA.
Diphenhydramine hydrochloride (p.577·2); zinc acetate (p.1999·1).
Pruritus.

Anti-Kalium *Medice, Ger.*
Calcium polystyrene sulfonate (p.1438·2).
Hyperkalaemia.

Antikataraktikum N *Ursapharm, Ger.*
Disodium inosinate (p.2296·1).
Visual disturbances.

Antikatarata *Novartis Ophthalmics, Arg.†.*
Disodium inosinate (p.2296·1); nicotinamide (p.1957·3); magnesium aspartate (p.1679·1); sodium glycerophosphate (p.2315·2).
Cataracts.

Antikatarata Plus *Novartis, Arg.*
Potassium iodide (p.2169·2); sodium iodide (p.2169·2).
Cataracts.

Antikeloides Creme *Widmer, Switz.*
⊗ Dexamethasone (p.1526·1); urea (p.1620·2); vitamin A palmitate (p.1973·1).
Scars.

Antikun *Interbat, Indon.*
Piracetam (p.368·2).
Cerebral infarction.

Antil *Carnot, Mex.†.*
Cimetidine (p.1716·2).

Antilerg *Valeant, Arg.*
Ketotifen fumarate (p.582·2).
Allergic conjunctivitis.

Antilergal *Medix, Mex.*
Loratadine (p.583·3).
Hypersensitivity reactions; rhinitis.

Antilerg-F *Demo, Gr.†.*
⊗ Dexamethasone (p.1526·1); neomycin (p.305·1).
Bacterial infections with inflammation.

Antilipid *Kleva, Gr.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Antilirium *Forest Pharmaceuticals, USA.*
Physostigmine salicylate (p.1883·3).
Reversal of drug-induced CNS antimuscarinic effects.

Antilysin *Spofa, Cz.†.*
Aprotinin (p.1055·1).
Haemorrhagic disorders.

Antimast N *Pharmakon, Ger.*
Homoeopathic preparation.

Antimast T *Selz, Ger.†.*
Homoeopathic preparation.

Antimast TN *Pharmakon, Ger.*
Homoeopathic preparation.

Antimed *Bajamed, Mex.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Antimeningococica A+C *Sanofi Pasteur, Arg.*
A meningococcal vaccine (group A and C) (p.2224·1).
Active immunisation.

Antimet *Antigen, Irl.*
Metoclopramide hydrochloride (p.1747·3).
Gastrointestinal disorders.

Antimic *Chew, Thai.*
Isoniazid (p.288·1).
Tuberculosis.

Antimicon *Lafit, Braz.†.*
Iodine (p.2169·2); benzoic acid (p.1630·2); salicylic acid (p.1612·2).

Antimicotica Solforata *AFOM, Ital.*
Sodium thiosulfate (p.1466·1); tartaric acid (p.2395·2).
Fungal skin infections.

Antimicotico *Savoma, Ital.*
Cream: Clotrimazole (p.530·1).
Fungal infections.

Antimicotico Martel *Hertz, Braz.*
Clotrimazole (p.530·1).
Fungal skin infections.

Antimigren *Pascoe, Ger.*
Homoeopathic preparation.

Antimigrin *Gebro, Austria.*
Naratriptan hydrochloride (p.623·3).
Migraine.

Antiminth
Note.This name is used for preparations of different composition.
Pfizer, USA†.
Pyrantel embonate (p.155·1).
Worm infections.

Costec, Arg.
Shampoo: Pyrithione zinc (p.1611·2).
Scalp disorders.

Costec, Arg.
Soap: Chlorhexidine gluconate (p.1635·3).
Skin cleanser.

Anti-Mosquito *Premia, UK.*
Menthoglycol.
Insect repellent.

Antimycotic *Biospray, Gr.*
⊗ Miconazole nitrate (p.541·3); fluprednidene acetate (p.1533·1).
Infected skin disorders.

Antinaus *Pacific, NZ.*
Prochlorperazine maleate (p.1020·1).
Anxiety; Ménière's disease; nausea and vomiting; psychoses; vertigo.

Anti-Nauseant *Stanley, Canad.*
Dimenhydrinate (p.576·2).
Nausea.

Antinephrin M *Hanosan, Ger.*
Homoeopathic preparation.

Antinerveux Lesourd *Lesourd, Fr.*
Lotus petal; melilot (p.2339·2).
Insomnia; irritability.

Antineuralgica
Note.This name is used for preparations of different composition.
EGIS, Hung.
Caffeine (p.1116·3); aminophenazone (p.19·1); phenacetin (p.115·3).
Fever; pain.

Alpharma, Norw.
Caffeine (p.1116·3); phenazone (p.116·1).
Pain.

Antineurina *Mabo, Spain.*
Cyanocobalamin (p.1980·2); pyridoxine hydrochloride (p.1978·2); thiamine hydrochloride (p.1976·1).
Neuritis; vitamin B deficiency.

Antinevralgico Dr Knapp *Montefarmaco, Ital.†.*
Paracetamol (p.108·1); aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Antinicoticum mono *Pharmakon, Ger.*
⊗ Homoeopathic preparation.

Antinicoticum sine (Rowo-100) *Pharmakon, Ger.†.*
Homoeopathic preparation.

Antio *Pentamedical, Ital.*
Zinc ricinoleate (p.2417·3).
Body odour.

Antiobiocilina *Fada, Arg.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Antiopiaz *Richmond, Arg.*
Naloxone (p.1454·1).
Opioid withdrawal.

Antiotic *Grossmann, Switz.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Antiox *Janssen, Philipp.*
Mebendazole (p.148·3).
Worm infections.

Antioxidans E *Hevert, Ger.*
dl-Alpha tocoferil acetate (p.1992·3).
Vitamin E deficiency.

Antioxidant Formula *Nutrifarma, Turk.*
Multivitamin and mineral preparation (p.1922·1).

Antioxidant Forte Tablets *Vitelle, Austral.*
Betacarotene (p.1930·3); riboflavin (p.1977·2); ascorbic acid (p.1983·3); sodium ascorbate (p.1984·1); *d*-alpha tocoferil acid succinate (p.1993·1); zinc amino acid chelate (p.2000·1); folic acid (p.1940·1); milk thistle (p.1452·1); vitis vinifera (p.2316·3).
Antioxidant; vitamin A, C, E, and B , folic acid, and zinc deficiencies.

Antioxidant Tablets *Cenovis, Austral.; Vitelle, Austral.*
Ascorbic acid (p.1983·3); sodium ascorbate (p.1984·1); betacarotene (p.1930·3); *d*-alpha tocoferil acid succinate (p.1993·1); zinc amino acid chelate (p.2000·1); riboflavin (p.1977·2).
Antioxidant; vitamin A, C, E, B , and zinc deficiencies.

Antioxidante Natural *Framingham, Arg.*
d-Alpha tocopherol (p.1992·2).
Vitamin E supplement.

Antioxidante Plus *ISA, Arg.*
Vitamins; selenium (p.1922·1).

Antioxidante Vital *AM, Arg.*
Vitamin and mineral preparation (p.1922·1).

Antioxycaps with Selenium *Minskinterkaps, Rus.*
Ascorbic acid; α-tocopherol acetate; betacarotene; selenium yeast (p.1922·1).
Vitamin and selenium deficiency.

Anti-oxydant 200 *Synergia, Fr.*
Vitamin C; vitamin E; betacarotene; lycopene; lutein; selenium (p.1922·1).
Antoxidant preparation.

Anti-oxydant F4 *Synergia, Fr.*
Vitamin C; citroflavonoids; green tea; myrtillus; grape extract; vitamin E; carotenoids; lycopene; selenium (p.1922·1).
Antoxidant preparation.

Antipain *Nida, Singapore.*
Methyl salicylate (p.85·3); menthol (p.2340·1); eugenol (p.2301·2).
Insect bites; musculoskeletal disorders.

Antiparkin *Viatris, Ger.*
⊗ Selegiline hydrochloride (p.817·1).
Parkinsonism.

Antipasmol *Monserrat, Arg.*
Belladonna (p.2263·3); papaverine hydrochloride (p.2191·3).
Smooth muscle spasm.

Antipeol
Note.This name is used for preparations of different composition.
Adcock Ingram, S.Afr.
Zinc oxide (p.1621·2); ichthammol (p.1599·1); salicylic acid (p.1612·2).
Skin disorders.

Medico-Biological Laboratories, UK.
⊗ Zinc oxide (p.1621·2); ichthammol (p.1599·1); salicylic acid (p.1612·2); urea (p.1620·2).
Skin disorders.

Antiphlogistine
Note.This name is used for preparations of different composition.
CIF, Braz.†.
Boric acid (p.2268·1); salicylic acid (p.1612·2); iodine (p.2169·2); peppermint oil (p.1761·2); sweet birch oil (p.86·2); eucalyptus oil (p.2301·2).
Inflammation.

Fumouze, Fr.†.
Kaolin (p.1738·1); salicylic acid (p.1612·2).
Muscle and connective tissue pain.

Doetsch, Grether, Switz.
Salicylic acid (p.1612·2); methyl salicylate (p.85·3); eucalyptus oil (p.2301·2); peppermint oil (p.1761·2).
Inflammation; pain.

Antiphlogistine Rub A-535 *Church & Dwight, Canad.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); eucalyptus oil (p.2301·2).
Musculoskeletal pain.

Antiphlogistine Rub A-535 Capsaicin *Church & Dwight, Canad.*
Capsaicin (p.32·3).
Musculoskeletal and joint disorders.

Antiphlogistine Rub A-535 Ice *Church & Dwight, Canad.*
Menthol (p.2340·1).
Musculoskeletal pain.

Antiphlogistine Rub A-535 No Odour *Church & Dwight, Canad.*
Trolamine salicylate (p.132·3).
Musculoskeletal pain.

Anti-Phosphat *Brady, Austria; Gry, Ger.*
Aluminium hydroxide (p.1706·2).
Hyperphosphataemia.

Anti-phosphate *Bichsel, Switz.*
Dried aluminium hydroxide (p.1706·2).
Hyperphosphataemia.

Antipiol *Denolin, Belg.*
Ichthammol (p.1599·1); zinc oxide (p.1621·2).
Skin disorders.

Antiplaq *Penn, Arg.*
Clopidogrel bisulfate (p.1250·2).

Anti-Plaque Chewing Gum *Or-Dov, Austral.†.*
Chlorhexidine acetate (p.1635·2).
Dental plaque.

Anti-potasium *Assos, Turk.*
Calcium polystyrene sulfonate (p.1438·2).
Hyperkalaemia.

Antipres
Note.This name is used for preparations of different composition.
Sandoz, Indon.
Sertraline (p.422·1).
Depression.

Giempi, Venez.
Fluoxetine hydrochloride (p.391·2).
Bulimia; depression; obsessive-compulsive disorder.

Antipressan *Teva, Hong Kong; Berk, UK.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Antiprestin *Pharos, Indon.*
Fluoxetine hydrochloride (p.391·2).
Depression.

Antiprex *Elpen (Ελπεν), Gr.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Antiprotin *Julphar, UAE.*
Bromocriptine mesilate (p.798·1).
Acromegaly; benign breast disorders; female infertility; hyperprolactinaemia; menstrual disorders; parkinsonism.

Antiprurit *Kade, Ger.†.*
⊗ Cell components and metabolic products of *Staphylococcus aureus*; *Enterococcus faecalis* (p.2372·3); *Pseudomonas aeruginosa*; and *Escherichia coli*; hydrocortisone (p.1535·2).
Skin disorders.

Antipsichos *Proel, Gr.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Antipulmina *Lisapharma, Ital.†.*
Peppermint oil (p.1761·2); pumilio pine oil (p.2376·3); eucalyptus oil (p.2301·2).
Respiratory-tract disorders.

Antipyn *Garec, S.Afr.†.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); promethazine hydrochloride (p.588·2).
Formerly contained paracetamol, codeine phosphate, and caffeine.
Fever; pain.

Antipyn Forte *Garec, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3); meprobamate (p.1006·2).
Pain associated with tension.

Antireumina *Teofarma, Ital.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Antirevmaticky Caj *Leros, Cz.*
Meadowsweet (p.2338·1); equisetum (p.2299·3); pansy (p.2415·2); devil's claw root (p.39·1); salix (p.121·3); solidaginis (p.2391·1); calluna.
Influenza symptoms; rheumatism.

Antirrinum *Reig Jofre, Spain.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Anti-rugas C *Dermoteca, Port.*
Ascorbic acid (p.1983·3).
Sun-induced skin damage.

Antis *Gerolymatos, Gr.*
Butamirate citrate (p.1553·1).
Cough.

Antiscabbia Candioli al DDT Terapeutico
Candioli, Ital.
Benzyl benzoate (p.2036·1); benzocaine (p.1854·1); clofenotane (p.2038·2).
Scabies.

Antiscabbia CM *Candioli, Ital.*
Benzyl benzoate (p.2036·1); benzocaine (p.1854·1); permethrin (p.2048·2).
Scabies.

Antiscabiosum *Strathmann, Ger.*
Benzyl benzoate (p.2036·1).
Scabies.

Antisept *Cadila, India.*
Bergenia ligulata; leptadenia reticulata; mallotus philippinensis; rubia cordifolia; berberis aristata; shorea robusta.
Burns; skin infections; wounds.

Antisepthic Plus *Florida, Arg.*
Benzalkonium chloride (p.1629·1); chlorhexidine (p.1635·2).
Disinfection.

Antiseptic Mouthwash
Note.This name is used for preparations of different composition.
Scott, Canad.; Sutton, Canad.; Trillium, Canad.
Cineole (p.2282·3); menthol (p.2340·1); thymol (p.1664·3).
Thornton & Ross, UK.
Sodium salicylate (p.124·2); thymol (p.1664·3); menthol (p.2340·1).
Mouth disorders.

Antiseptic Ointment *National Care, Canad.†.*
Chloroxylenol (p.1640·2).
Skin protection.

Antiseptic Skin Cream
Note.This name is used for preparations of different composition.
National Care, Canad.†.
Benzalkonium chloride (p.1629·1).
National Care, Canad.†.
Benzethonium chloride (p.1630·1); vitamin A (p.1971·2); vitamin D (p.1986·1).
Ostomy care; skin irritation.

Antiseptic Throat Lozenges
Note.This name is used for preparations of different composition.
Sutton, Canad.
Hexylresorcinol (p.1647·1).
Unichem, UK.
Amylmetacresol (p.1628·3).
Sore throat.

Antiseptic Wound & Skin Cleanser *MPM, USA.*
Benzethonium chloride (p.1630·1).
Disinfection of skin and wounds.

Antiseptico *Fidex, Arg.*
Povidone-iodine (p.1659·2).

Antiseptico Hertz *Hertz, Braz.*
Lidocaine (p.1862·3); benzethonium.

Antiseptin
Note.This name is used for preparations of different composition.
Hertz, Braz.†.
Bacitracin (p.210·3); neomycin (p.305·1); zinc (p.1999·1).
Skin infections.
Sanitas, Chile.
Triclosan (p.1665·2).
Disinfection of hands; skin infection.

Antiseptique Pastilles *Prodemdis, Canad.*
Domiphen bromide (p.1643·1).

Antisettico Astringente Sedativo *Bruschettini, Ital.*
⊗ Zinc phenolsulfonate (p.1621·3); sulfacetamide sodium (p.335·3); naphazoline hydrochloride (p.1565·2); lidocaine hydrochloride (p.1862·3).
Conjunctivitis.

Antisol *Pharmaniaga, Malaysia†; Raza, Malaysia†.*
Chlorhexidine gluconate (p.1635·3).
Skin disinfection.

Antispa *TP, Thai.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Antispas *Keene, USA.*
Dicycloverine hydrochloride (p.1722·3).
Functional bowel syndrome; irritable bowel syndrome.

Antispasmina *Hexa, Arg.*
Dipyrone (p.49·2); papaverine hydrochloride (p.2191·3); homatropine methylbromide (p.1881·3).
Pain; smooth muscle spasm.

Antispasmina Colica
Note.This name is used for preparations of different composition.
Recordati, Ital.
Papaverine hydrochloride (p.2191·3); belladonna (p.2263·3); hyoscyamine (p.1736·1).
Gastrointestinal spasm.
Lepori, Port.
Papaverine (p.2191·3); belladonna (p.2263·3); valerian (p.2410·1).
Smooth muscle spasm.

Antispasmodic Elixir *Morton Grove, USA.*
Phenobarbital (p.492·2); hyoscyamine sulfate (p.1736·1); atropine sulfate (p.1219·3); hyoscine hydrobromide (p.1734·1).

Antistax *Boehringer Ingelheim, Austria; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Ger.; Fher, Ital.; Boehringer Ingelheim, Spain; Pharmaton, Switz.; Boehringer Ingelheim, UK.*
Red vine (p.2316·3).
Venous insufficiency.

Antisterin *Unipharma, Gr.*
Pravastatin sodium (p.1374·3).
Hyperlipidaemias.

Antistina-Privin *Novartis, Denm.*
⊗ Antazoline sulfate (p.567·1); naphazoline nitrate (p.1565·2).
Allergic conjunctivitis.

Antistine-Privine *Novartis, Austral.*
⊗ Antazoline sulfate (p.567·1); naphazoline nitrate (p.1565·2).
Allergic conjunctivitis; eye irritation.

Antistin-Privin *Novartis, Fin.†; Novartis, Ger.; Novartis, Israel†; Adcock Ingram, S.Afr.; Novartis Ophthalmics, Singapore; Novartis, Switz.*
⊗ Antazoline sulfate (p.567·1); naphazoline nitrate (p.1565·2).
Allergic conjunctivitis.

Antistin-Privina *Novartis, Ital.*
⊗ Antazoline sulfate (p.567·1); naphazoline nitrate (p.1565·2).
Allergic conjunctivitis.

Antitensin *Teuto, Braz.*
⊗ Propranolol hydrochloride (p.1380·3).
Hypertension.

Antitis *Potter's, UK.*
Buchu leaf (p.2269·3); clivers (p.2284·3); couch-grass (p.2288·2); equisetum (p.2299·3); shepherd's purse (p.2386·2); bearberry (p.2263·3).
Cystitis; urinary or bladder discomfort.

Antitos
Note. A similar name is used for preparations of different composition (see below).
Plata, Arg.†.
Senega (p.1572·3); sulfogaiacol (p.1573·2).
Coughs.

Antitoss
Note. A similar name is used for preparations of different composition (see above).
Kleva, Gr.
Butamirate citrate (p.1553·1).
Cough.

Antitrom *Lazar, Arg.*
Acenocoumarol (p.1201·1).
Thromboembolic disorders.

Anti-Tuss *Century, USA†.*
Guaifenesin (p.1561·3).
Coughs.

Antitussivum Burger *Ysatfabrik, Ger.*
Codeine phosphate (p.37·2).
Coughs.

Antitussivum Burger N *Ysatfabrik, Ger.†.*
Dihydrocodeine tartrate (p.48·1); thyme oil (p.2401·2).
Coughs.

Anti-Uron *Pliva Krakow, Pol.*
Mesna (p.1449·2).
Prevention of urotoxicity associated with cyclophosphamide, ifosfamide, or trofosfamide.

Antivenin (Latrodectus Mactans) *Merck Frosst, Canad.*
Black widow spider antiserum (p.2239·2).
Black widow spider bite.

Antiverrugas *Isdin, Spain.*
Lactic acid (p.2329·3); salicylic acid (p.1612·2).
Warts.

Antivert *Pfizer, USA.*
Meclozine hydrochloride (p.584·3).
Motion sickness; vertigo.

Anti-Ves *Novartis, Ital.*
Soya oil; vitamins (p.1922·1).
Nutritional supplement.

Antivipmyn *Bioclon, Mex.*
Polyvalent crotalidae antiserum (p.2238·2).
Snake envenomation.

Antivir *Sanofi-Aventis, Pol.*
Aciclovir (p.862·3).
Herpesvirus infections.

Antivirax *EMS, Braz.*
Aciclovir (p.862·3).
Herpesvirus infections.

Antivom
Note.This name is used for preparations of different composition.
Unipharma, Gr.
Betahistine hydrochloride (p.2265·1).
Menière's disease; vertigo.
Teva, Hung.
Ondansetron hydrochloride (p.1756·3).
Nausea and vomiting.

Anti-Vomit *Deva, Turk.*
Trimethobenzamide hydrochloride (p.592·2).
Nausea and vomiting.

Anti-Worm *Leidapharm, Neth.*
Mebendazole (p.148·3).
Worm infections.

Antix *Antula, Fin.*
Aciclovir (p.862·3).
Herpes labialis.

Antiza *Coronet, Indon.*
Paracetamol (p.108·1); dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3).
Cold symptoms; cough; fever.

Antizid *Lilly, S.Afr.*
Nizatidine (p.1751·2).
Heartburn; hyperacidity.

Antizine *Pharmasant, Thai.*
Hydroxyzine hydrochloride (p.581·2).
Hypersensitivity reactions; sedative.

Antizol *Paladin, Canad.; Orphan Medical, Israel; IDIS, UK; Medisource, UK; Jazz, USA.*
Fomepizole (p.1446·3).
Available on a named-patient basis only in the *UK*.
Ethylene glycol poisoning; methanol poisoning.

Antodox *Juta, Ger.; Q-Pharm, Ger.*
Doxycycline hyclate (p.267·1).
Bacterial infections.

Antomiopic *Allergan, Braz.†; Novartis, Spain†.*
Vitamins and amino acids (p.1922·1); myrtillus (p.2349·3).
Eye disorders.

Antopal *Bama, Spain†.*
Binifibrate (p.1234·1).
Hyperlipidaemias.

Antopar *Lek, Cz.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Antoral *Recordati, Ital.*
Tibezonium iodide (p.2402·1).
Mouth and throat disinfection.

Antorcin *Antor, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Antoril *Teva Tuteur, Arg.*
Gemcitabine hydrochloride (p.727·3).
Malignant neoplasms.

Antotalgin *Farmina, Pol.*
Phenazone (p.116·1).
Earache.

Antox *Pharma Nord, Irl.*
Methionine (p.1450·1); vitamin C; vitamin E; selenium (p.1961·1) (p.1922·1).
Chronic pancreatitis.

Antoxyl *Tablets, India.*
Vitamins; amino acids; minerals; spirulina (p.1922·1).

Antra
AstraZeneca, Ger.
Omeprazole magnesium (p.1753·1) or omeprazole sodium (p.1753·1).
Gastro-oesophageal reflux; heartburn; peptic ulcer; Zollinger-Ellison syndrome.
AstraZeneca, Ital.
Omeprazole (p.1753·1) or omeprazole sodium (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.
AstraZeneca, Switz.
Omeprazole sodium (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Antrain *Interbat, Indon.*
Dipyrone (p.49·2).
Pain.

Antral *Carnot, Mex.†.*
Metronidazole (p.837·1).
Amoebiasis; giardiasis; trichomoniasis.

Antramups *AstraZeneca, Switz.*
Omeprazole magnesium (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Antran *Solfran, Mex.†.*
Multivitamin and mineral preparation (p.1922·1).

Antrenyl *Novartis, India.*
Oxyphenonium bromide (p.1759·2).
Adjunct in diarrhoea; gastritis; gastrointestinal hyperacidity; gastrointestinal hypermotility; peptic ulcer.

Antrex *Orion, Cz.†; Orion, Fin.; Atafarm, Turk.*
Calcium folinate (p.1943·3).
Adjunct to fluorouracil in colorectal cancer; megaloblastic anaemia; reduction of methotrexate toxicity.

Antrizine *Major, USA.*
Meclozine hydrochloride (p.584·3).
Motion sickness; vertigo.

Antrolin *NewFaDem, Ital.*
Nifedipine (p.1350·1); lidocaine hydrochloride (p.1862·3).
Anorectal disorders.

Antroquoril *Schering-Plough, Austral.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Antup R *Teijin, Jpn.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris; ischaemic heart disease; myocardial infarction.

Anturan *Amdipharm, UK.*
Sulfinpyrazone (p.559·2).
Gout; hyperuricaemia.

Anturane *Novartis, USA.*
Sulfinpyrazone (p.559·2).
Gouty arthritis.

Antussia
Note.This name is used for preparations of different composition.
Asian Pharm, Thai.
Capsules; tablets: Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2); diphenhydramine hydrochloride (p.577·2).
Coughs and cold symptoms.
Asian Pharm, Thai.
Syrup: Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); phenylephrine hydrochloride (p.1568·1).
Coughs.

Antust *Medicine Products, Thai.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); terpin hydrate (p.1573·3).
Coughs.

Antux *Ache, Braz.; Leti, Venez.*
Levodropropizine (p.1557·3).
Cough.

Antygrypin *Galenus, Pol.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Anu-Aide *Technilab, Canad.†.*
Zinc sulfate (p.1999·2).
Haemorrhoids.

Anuar
Note.This name is used for preparations of different composition.
Tecnofarma, Chile.
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Androgen-induced acne, alopecia, and hirsutism in women.
Pfizer, Arg.
Injection: Chloramphenicol sodium succinate (p.240·1).
Formerly contained chloramphenicol sodium succinate, colistimethate sodium, cinchocaine hydrochloride, dipyrone, guaifenesin, and chlorphenamine.
Bacterial infections.
Pharmacia, Arg.†.
Tablets: Roxithromycin (p.331·1).
Bacterial infections.

Anubis *Investi, Arg.*
84 Tablets, levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3); 7 tablets, inert.
Combined oral contraceptive.

Anucare *YSP, Malaysia.*
Benzyl benzoate (p.2036·1); peru balsam (p.2365·3); zinc oxide (p.1621·2).
Anorectal disorders.

Anorectal disorders.

Anuzinc HC Plus *Sabex, Canad.*
⊗ Zinc sulfate (p.1999·2); hydrocortisone acetate (p.1535·2); pramocaine hydrochloride (p.1868·1).
Anorectal disorders.

Anuzinc Plus *Sandoz, Canad.*
Pramocaine hydrochloride (p.1868·1); zinc sulfate (p.1999·2).
Anorectal disorders.

Anvitoff *Abbott, Ger.†; Knoll, Switz.†.*
Tranexamic acid (p.1080·3).
Fibrinolytic states; haemorrhagic disorders.

Anvitol *Azevedos, Port.†.*
Haematoporphyrin hydrochloride; glycine; cyanocobalamin (p.1922·1).
Tonic.

Anvomer B6 *Dexa, Indon.*
Parathiazine teoclate; vitamin B (p.1979·1).
Motion sickness; vomiting.

Anvomin *Christo, Hong Kong.*
Promethazine teoclate (p.588·3).
Motion sickness; nausea; vertigo; vestibular disorders.

Anxer *Unison, Hong Kong; Unison, Thai.†.*
Cefalexin (p.218·2).
Bacterial infections.

Anxicalm *Clonmel, Irl.*
Diazepam (p.986·3).
Anxiety; skeletal muscle spasm; spasticity.

Anxielax *Macrophar, Thai.*
Dipotassium clorazepate (p.980·1).
Anxiety; insomnia.

Anxietum *Ferrier, Fr.*
Homoeopathic preparation.

Anxiety/Stress L72 *Homeocan, Canad.†.*
Homoeopathic preparation.

Anxiolan *Medochemie, Thai.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Anxiolit *Gerot, Austria; Vifor, Switz.*
Oxazepam (p.1014·2).
Anxiety; insomnia.

Anxiolit plus *Gerot, Austria.*
Oxazepam (p.1014·2); methylbenactyzium bromide (p.1747·2).
Anxiety disorders.

Anxipress-D *Pharmaland, Thai.†.*
Perphenazine (p.1017·1); amitriptyline hydrochloride (p.376·1).
Depression.

Anxira *Condrugs, Thai.*
Lorazepam (p.1004·1).
Anxiety disorders.

Anxirid *Aspen, S.Afr.†.*
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states; panic disorder.

Anxiron *ICN, Cz.†; Valeant, Hung.*
Buspirone hydrochloride (p.965·3).
Anxiety; mixed anxiety depressive states; nervous disorders.

Anxium *Knop, Chile.*
St John's wort (p.422·3).
Depression.

Anxol *Svizera, India.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety; insomnia; seizures; skeletal muscle spasm; tetanus.

Anxoral *IPRAD, Fr.†.*
Crataegus (p.2289·1); passion flower (p.2363·2); valerian (p.2410·1).
Formerly contained crataegus, passion flower, valerian, and phenobarbital.
Anxiety; insomnia.

Anxut *Eisai, Ger.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Anxyrex *Irex, Fr.†.*
Bromazepam (p.964·3).
Alcohol withdrawal syndrome; anxiety.

Any *Homme de Fer, Fr.*
Mequinol (p.1604·2).
Hyperpigmentation.

Anzac *Bangkok Lab & Cosmetic, Thai.*
Fluoxetine hydrochloride (p.391·2).
Mixed anxiety depressive states; obsessive-compulsive disorder.

Fluoxetine hydrochloride (p.391·2).

Anzopac *UCI, Braz.†.*
Capsules, lansoprazole (p.1739·2); tablets, clarithromycin (p.248·2); capsules, amoxicillin trihydrate (p.202·2).
Peptic ulcer.

Anzoprol *UCI, Braz.†.*
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

AODrops *Ciba Vision, Canad.†.*
Lubricant for contact lenses (p.1622·2).

Aofen *Medicine Products, Thai.*
Griseofulvin (p.535·2).
Fungal infections of skin, hair, and nails.

AOFlow *Ciba Vision, Canad.†.*
Cleansing solution for contact lenses (p.1622·2).

Aosept *Ciba Vision, Austral.; Ciba Vision, Braz.†; Ciba Vision, Canad.; Ciba Vision, NZ; Ciba Vision, USA.*
Hydrogen peroxide (p.1647·3) (p.1622·2).
Disinfecting solution for contact lenses.

Aosept Clear Care *Ciba Vision, Canad.*
Cleaning, disinfecting, and protein removal solution for soft contact lenses (p.1622·2).

Aosept Plus *Ciba Vision, Arg.*
Hydrogen peroxide (p.1647·3) (p.1622·2).
Disinfecting solution for contact lenses.

A-Ostin-D3 *Farmedia, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Aotal *Merck-Lipha, Fr.*
Acamprosate calcium (p.958·3).
Alcoholism.

Aova *Velka, Gr.*
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

AP *Steigerwald, Ger.*
A range of homoeopathic preparations.

AP Inyect Cloruro Potasico *Fresenius Kabi, Spain.*
Potassium chloride (p.1684·3).
Hypokalaemia.

APA
Note. This name is used for preparations of different composition.
Lannacher, Austria.
Suppositories: Paracetamol (p.108·1); propyphenazone (p.119·3).
Fever; pain.
Lannacher, Austria.

Bacterial infections.

Apenorm *Cipla, India†.*
Cyproheptadine hydrochloride (p.575·1).

Apeplus
Note.This name is used for preparations of different composition.
Lafedar, Arg.
Cyproheptadine (p.575·2); carnitine hydrochloride; levoglutamine; pyridoxine hydrochloride (p.1922·1).
Reduced appetite.

Mediderm, Chile†.
⊗ Finasteride (p.2188·3).
Alopecia.

A-Per *Aroma, Turk.*
Paracetamol (p.108·1).
Fever; pain.

Aperdan *ABC, Ital.*
Naproxen cetrimonium (p.93·3).
Vulvovaginal disorders.

Apergan *Panzera, Ital.*
Royal jelly (p.2382·1); glucose (p.1945·3); ginseng (p.2312·1).
Nutritional supplement.

Aperisan *Dentinox, Cz.†; Dentinox, Ger.; Dentinox, Pol.*
Sage (p.2382·3).
Mouth and throat inflammation.

Aperomid *Masterlek, Rus.†.*
Pipecuronium bromide (p.1908·2).
Competitive neuromuscular blocker.

Apertia
Lundbeck, Austria†.
Citalopram hydrobromide (p.385·3) or citalopram hydrochloride (p.385·3).
Anxiety; depression; obsessive-compulsive disorder; panic attacks.

Lundbeck, Cz.†.
Citalopram hydrochloride (p.385·3).
Depression; obsessive-compulsive disorder; panic attacks.

Apetibe *Luper, Braz.†.*
Buclizine (p.570·1); amino acids; vitamins (p.1922·1).
Reduced appetite; tonic.

Apetil
Note.This name is used for preparations of different composition.
Bunker, Braz.
Buclizine hydrochloride (p.570·1); amino acids; vitamin B substances (p.1922·1).
Reduced appetite; tonic.

Ram, USA†.
Multivitamin and mineral preparation (p.1922·1).

Apetitol Forte *Mertens, Arg.*
Cyproheptadine hydrochloride (p.575·1); vitamins (p.1922·1).
Reduced appetite.

Apetivit BC *Cifarma, Braz.*
Cyproheptadine hydrochloride (p.575·1); vitamin B substances; vitamin C (p.1922·1).
Reduced appetite; vitamin deficiency.

Apetiviton BC *Cifarma, Braz.*
Cyproheptadine hydrochloride (p.575·1); vitamin B substances; vitamin C (p.1922·1).
Reduced appetite.

Apeton *IPI, Indon.*
Cyproheptadine hydrochloride (p.575·1).
Allergic skin disorders; rhinitis.

Apetrol *Medipharm, Chile.*
Cyproheptadine hydrochloride (p.575·1); vitamins (p.1922·1).
Reduced appetite.

Apevitin BC *EMS, Braz.*
Cyproheptadine hydrochloride (p.575·1); vitamin B substances; ascorbic acid (p.1922·1).
Reduced appetite; tonic.

Apex Repel Natural *Apex, Austral.; Apex, NZ.*
Lavender oil (p.2331·2); melaleuca oil (p.2338·2); eucalyptus oil (p.2301·2); lemon grass oil (p.2333·1); citronella oil (p.2284·2).
Insect repellent.

Apex Repel Super
Note.This name is used for preparations of different composition.
Apex, Austral.; Apex, NZ.
Lotion: Diethyltoluamide (p.2041·1); ethyl butylacetylaminopropionate (p.2043·1).
Insect repellent.

Apex, Austral.; Apex, NZ.
Roll-on: Diethyltoluamide (p.2041·1).
Insect repellent.

Apex, Austral.; Apex, NZ.
Topical spray: Diethyltoluamide (p.2041·1); 1,3-di(4-imidazolino-2-methoxyphenoxy)propane.
Insect repellent.

Apex Repel Ultra *Apex, Austral.; Apex, NZ.*
Diethyltoluamide (p.2041·1); ethyl butylacetylaminopropionate (p.2043·1).
Insect repellent.

ApexiCon *PharmaDerm, USA.*
⊗ Diflorasone diacetate (p.1529·1).
Skin disorders.

APF *Cypress, USA†.*
Sodium fluoride (p.1962·2).
Dental caries prophylaxis.

Aphenylbarbit *Streuli, Switz.*
Phenobarbital (p.492·2).
Epilepsy; febrile convulsions; sedative.

Aphilan
Note.This name is used for preparations of different composition.
UCB, Fr.
Cream: ⊗ Hydrocortisone acetate (p.1535·2).
Skin disorders.

UCB, Fr.
Tablets: Buclizine hydrochloride (p.570·1).
Allergic conjunctivitis; allergic rhinitis; motion sickness; urticaria.

A-P-Histallin *Medichem, Philipp.*
Phenylpropanolamine hydrochloride (p.1569·3); paracetamol (p.108·1).
Cold symptoms.

Aphloine P *DB, Fr.*
Aphloia; hamamelis (p.2318·2); viburnum (p.2267·1); esculoside (p.2248·2).
Haemorrhoids; peripheral vascular insufficiency.

Aphlox *Herbacos, Cz.†.*
Boric acid (p.2268·1); salicylic acid (p.1612·2); methyl salicylate (p.85·3); iodine (p.2169·2); potassium iodide (p.2169·2).
Inflammation; peri-articular and soft-tissue disorders.

Aphrenil *Euro-Med, Philipp.*
Chloramphenicol (p.239·3).
Bacterial infections.

Aphrodyne *Star, USA.*
Yohimbine hydrochloride (p.2200·2).

Aphrofem *Liptis, USA.*
Lyophilised fish roe; ginkgo biloba (p.2311·1).

Aphtagone *Trima, Israel.*
Aloe vera (p.1588·2); benzalkonium chloride (p.1629·1); enoxolone (p.50·1); povidone (p.2146·1); sodium hyaluronate (p.2320·1).
Oral lesions.

Aphthasol *Block, USA.*
Amlexanox (p.1115·2).
Aphthous ulcers.

Aphtin *Aflofarm, Pol.; Coel, Pol.; Farmina, Pol.; Galenowe Olsztyn, Pol.; Microfarm, Pol.; Prolab, Pol.*
Borax (p.2268·1).
Mouth infections.

Aphtoral *Pierre Fabre, Fr.*
Chlorhexidine gluconate (p.1635·3); tetracaine hydrochloride (p.1871·3); ascorbic acid (p.1983·3).
Mouth and throat disorders.

Api Baby *Sanitalia, Ital.*
Pollen (p.2370·2); royal jelly (p.2382·1); fructose; myrtillus (p.2349·3).
Nutritional supplement.

Apialys *Lapi, Indon.*
Vitamins; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Apidra *Aventis, Arg.; Sanofi-Aventis, Austral.; Aventis, Denm.; Sanofi-Aventis, Fr.; Aventis, Ger.; Sanofi-Aventis, Gr.; Sanofi-Aventis, Hung.; Sanofi-Aventis, Indon.; Sanofi-Aventis, Irl.; Sanofi-Aventis, Ital.; Aventis, Neth.; Aventis, Pol.; Sanofi-Aventis, Port.; Sanofi-Aventis, S.Afr.; Aventis, Swed.; Sanofi-Aventis, Switz.; Aventis, UK; Aventis, USA.*
⊗ Insulin glulisine (p.449·3).
Diabetes mellitus.

ApiHelix *Apipol, Pol.*
Ivy (p.2328·1); liquorice (p.1740·3); thyme (p.2401·1).
Respiratory-tract inflammation.

Apihepar *Madaus, Austria; Viatris, Austria.*
Milk thistle (p.1452·1).
Liver disorders.

Apikobal *Santa, Turk.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Apilac *Tallinn, Rus.*
Royal jelly (p.2382·1).
Tonic.

Apilaxe *Cooperation Pharmaceutique, Fr.†.*
Sorbitol (p.1965·1); althaea leaf (p.2253·3).
Constipation.

Apilcav *Libbs, Braz.†.*
Alprostadil (p.2183·2).
Erectile dysfunction.

Apilepsin *KRKA, Rus.*
Sodium valproate (p.508·2).

Apimid *Apogepha, Ger.†.*
Flutamide (p.725·1).
Prostatic cancer.

Apinorm *Apipol, Pol.*
Aloes (p.1705·2); caraway (p.2276·3); aniseed (p.2258·2).
Bowel evacuation; constipation.

Apiocolina *Bruschettini, Ital.†.*
Escherichia coli lysate.
Anorectal inflammation.

Apipulmol *Apipol, Pol.*
Ammonium chloride (p.1551·3); sulfogaiacol (p.1573·2).
Cough.

Apir Clorurado *Fresenius Kabi, Spain.*
Sodium chloride (p.1686·1).
Fluid and electrolyte disorders.

Apir Glucosado *Fresenius Kabi, Spain.*
Glucose (p.1945·3).
Fluid and electrolyte disorders; parenteral nutrition.

Apir Glucosalino *Fresenius Kabi, Spain.*
Glucose (p.1945·3); sodium chloride (p.1686·1).
Fluid and electrolyte disorders.

Apir Ringer *Fresenius Kabi, Spain.*
Electrolyte infusion (p.1667·1).
Fluid and electrolyte depletion.

Apir Ringer Lactato *Fresenius Kabi, Spain.*
Electrolyte infusion with sodium lactate (p.1667·1).
Fluid and electrolyte depletion.

Apiret *Oftalmi, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Apiretal *Ern, Spain.*
Paracetamol (p.108·1).
Fever; pain.

Apiretal Codeina *Ern, Spain.*
Paracetamol (p.108·1); codeine (p.37·2).
Pain.

Apirol *MSD, Israel.*
Norfloxacin (p.309·2).
Bacterial infections.

Apiron *Delta, Braz.*
Dipyrone (p.49·2).
Fever; pain.

Apis Compuesto *Ximena Polanco, Chile.*
Homoeopathic preparation.

Apisarthron *Esparma, Cz.; Esparma, Rus.*
Bee venom extract (p.2251·1); methyl salicylate (p.85·3); volatile mustard oil (p.2349·2).
Musculoskeletal pain; musculoskeletal, peri-articular, and soft-tissue disorders; neuralgia; neuritis.

Apisate *Sunthi Sepuri, Indon.; Wyeth, Indon.*
⊗ Diethylpropion hydrochloride (p.2154·3); vitamin B substances (p.1922·1).
Obesity.

Apiserum *DB, Fr.*
Royal jelly (p.2382·1).
Tonic.

Apiserum con Telergon I *Medicalfarm, Ital.*
Wine; acacia honey (p.1948·2); royal jelly (p.2382·1).
Nutritional supplement.

Apisgel *Dolisos, Canad.*
Homoeopathic preparation.

Apis-Homaccord *Peithner, Austria†.*
Homoeopathic preparation.

Apistress *Sanitalia, Ital.*
Royal jelly (p.2382·1); pollen (p.2370·2); propolis (p.2373·3).
Nutritional supplement.

Apitussic *Apipol, Pol.*
Sulfogaiacol (p.1573·2).
Respiratory-tract disorders.

Apixol *Columbia, Mex.†.*
Dipyrone (p.49·2).
Fever; pain.

Apizel *Apipol, Pol.*
Propolis (p.2373·3).
Burns; insect bites; skin disorders.

APL *Wyeth, Chile†; Akromed, S.Afr.*
⊗ Chorionic gonadotrophin (p.2085·1).
Cryptorchidism; infertility; male hypogonadism.

Aplacaina *Richmond, Arg.*
Alprazolam (p.960·1).
Anxiety; panic disorder.

Aplacasse *Menarini, Arg.*
Lorazepam (p.1004·1).
Anxiety.

Aplace *Kyorin, Jpn.*
Troxipide (p.1778·1).
Gastritis; peptic ulcer.

Aplacid *ITF, Chile.*
Sulpiride (p.1028·3).
Depression.

Aplactin *BMS, Ital.*
Pravastatin sodium (p.1374·3).
Atherosclerosis; hyperlipidaemias.

Aplaket *Rottapharm, Cz.†; Rotta, Hong Kong; Rottapharm, Ital.; Rotta, Malaysia; Delta, Port.; Rotta, Singapore; Rotta, Thai.*
Ticlopidine hydrochloride (p.1411·2).
Maintenance of extracorporeal circulation; thromboembolism prophylaxis.

Aplatic *Ratiopharm, Hung.*
Ticlopidine hydrochloride (p.1411·2).
Thrombosis prophylaxis.

Aplause *Marjan, Braz.*
Cimicifuga (p.2282·1).
Menopausal disorders.

Aplical *Grunenthal, Chile†.*
Calcium carbonate (p.1714·1).
Calcium deficiency; osteoporosis.

Aplical-D *Grunenthal, Chile†.*
Calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Calcium deficiency; osteomalacia; osteoporosis.

Aplicav *Libbs, Braz.*
Alprostadil (p.2183·2).
Erectile dysfunction.

Apligraf *Novartis, USA.*
Bioengineered human skin equivalent (p.1613·3).
Diabetic foot ulcers; venous leg ulcers.

Aplisol *JHP, USA.*
Tuberculin purified protein derivative (p.2405·3).
Diagnosis of tuberculosis.

Aplom *Valmor, Venez.*
Ranitidine hydrochloride (p.1766·1).
Gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Aplona *Athenstaedt, Ger.*
Apple powder; colloidal silicon dioxide (p.2146·3).
Diarrhoea.

Aplonit *Intermed, Gr.*
⊗ Celiprolol hydrochloride (p.1242·2).
Hypertension.

Aplosyn *Pascual, Philipp.*
⊗ Fluocinolone acetonide (p.1531·3).
Skin disorders.

Aplosyn C *Pascual, Philipp.*
⊗ Fluocinolone acetonide (p.1531·3); clioquinol (p.254·1).
Infected skin disorders.

Aplosyn N *Pascual, Philipp.*
⊗ Fluocinolone acetonide (p.1531·3); neomycin sulfate (p.305·1).
Infected skin disorders.

Aplosyn-Otic *Pascual, Hong Kong; Pascual, Philipp.*
⊗ Neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3); fluocinolone acetonide (p.1531·3).
Infected ear disorders.

Apmed *Cimed, Braz.*
Cyproheptadine hydrochloride (p.575·1); vitamins (p.1922·1).
Reduced appetite.

Apnol *Pharmaland, Thai.*
Allopurinol (p.552·2).
Gout; hyperuricaemia.

Apo-Acebutol *Apotex, Cz.*
⊗ Acebutolol hydrochloride (p.1200·1).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Apoacor *Curex, Israel.*
Verapamil hydrochloride (p.1421·1).
Angina pectoris; arrhythmias; hypertension.

Apo-Alpraz *Apotex, Canad.; Apotex, Malaysia; Apotex, Singapore.*
Alprazolam (p.960·1).
Anxiety; sedative.

Apo-Amilzide *Apotex, Canad.; Apotex, Cz.; Apotex, Hong Kong; Apotex, Malaysia; Apotex, Singapore.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hepatic cirrhosis with ascites; hypertension; oedema.

Apo-Amlo *Apotex, Cz.; Apotex, Pol.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Apo-Amoxi
Apotex, Canad.; Apotex, Cz.†; Apotex, NZ; Apotex, Pol.; Apotex, Singapore.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Apotex, Hong Kong.
Amoxicillin (p.202·2).
Bacterial infections.

Apo-Amoxi Clav *Apotex, Canad.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Apo-Ampi *Apotex, Canad.; Apotex, Cz.†.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Apo-Asa *Apotex, Cz.†.*
Aspirin (p.20·3).
Fever; pain.

Apo-Atenidone *Apotex, Canad.; Apotex, Malaysia.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Apo-Atenol *Apotex, Canad.; Apotex, Cz.; Apotex, Hong Kong; Apotex, Malaysia; Apotex, Singapore.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Apobace *Protein, Mex.†.*
Carbamazepine (p.471·3).
Epilepsy.

Apobacyn *Gerolymatos, Gr.*
Neomycin (p.305·1); bacitracin (p.210·3).
Bacterial skin infections.

Apobase *Alpharma, Fin.*
Emollient.

Apo-Benztropine *Apotex, Cz.*
Benzatropine mesilate (p.797·1).
Dystonia; parkinsonism.

Apo-C *Apotex, Cz.†.*
Ascorbic acid (p.1983·3).
Vitamin C supplement.

Apo-Cal *Apotex, Canad.; Apotex, Hong Kong; Apotex, Malaysia†.*
Calcium carbonate (p.1714·1).
Calcium deficiency; calcium supplement.

Apo-Capto *Apotex, Canad.; Apotex, Cz.†; Apotex, Hong Kong; Apotex, Malaysia†; Apotex, Rus.; Apotex, Singapore.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Apocard *3M, Belg.; Meda, Port.; 3M, Spain.*
Flecainide acetate (p.1288·1).
Arrhythmias.

Apo-Carve *Apotex, Cz.*
⊗ Carvedilol (p.1241·3).
Angina pectoris; hypertension.

Apocatil *Protein, Mex.†.*
Dequalinium (p.1641·3).
Mouth and throat disorders.

Apo-Cephalex *Apotex, Canad.*
Cefalexin (p.218·2).
Bacterial infections.

Apo-Chlorax *Apotex, Canad.; Apotex, Malaysia†; Apotex, Singapore.*
Chlordiazepoxide hydrochloride (p.968·2); clidinium bromide (p.1722·1).
Gastrointestinal disorders with associated anxiety.

Apociclina *Protein, Mex.†.*
Doxycycline (p.267·1).
Bacterial infections.

Apocillin *Alpharma, Norw.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Apocit *Apogepha, Ger.*
Potassium sodium hydrogen citrate (p.1674·2).
Renal calculi.

Apo-Cital *Apotex, Cz.*
Citalopram hydrobromide (p.385·3).
Depression; panic disorder.

Apoclavox *Apotex, Mex.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Apo-Clodin *Apotex, Pol.*
Ticlopidine hydrochloride (p.1411·2).
Stroke prophylaxis.

Apo-Cloxi *Apotex, Canad.; Apotex, Hong Kong.*
Cloxacillin sodium (p.256·1).
Bacterial infections.

Apocort *Alpharma, Fin.*
⊗ Hydrocortisone acetate (p.1535·2).
Skin disorders.

Apo-Cromolyn *Apotex, Canad.*
Sodium cromoglicate (p.1136·3).
Allergic rhinitis; asthma.

Apocyclin *Alpharma, Fin.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Apodasi *Protein, Mex.†.*
Didanosine (p.870·2).

Apodefil *Apotex, Mex.*
Sildenafil (p.2195·1).
Erectile dysfunction.

Apodepi *Apotex, Hung.*
Paroxetine (p.414·2).
Depression; panic disorder; post-traumatic stress disorder.

Apoderm *Nycomed, Austria.*
Deproteinised derivative of calf blood (p.2337·3).
Burns; ulcers; wounds.

Apo-Diclo
Apotex, Canad.
Diclofenac potassium (p.44·3) or diclofenac sodium (p.44·3).
Inflammation; pain.

Apotex, Cz.; Apotex, Malaysia†; Apotex, NZ; Apotex, Rus.
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Apotex, Hong Kong; Apotex, Pol.
Diclofenac (p.44·2).
Inflammation; musculoskeletal and joint disorders; pain.

Apo-Diltiaz *Apotex, Canad.; Apotex, Hong Kong.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension.

Apodorm *Alpharma, Denm.; Alpharma, Norw.; Alpharma, Swed.*
Nitrazepam (p.1011·2).
Epilepsy; infantile spasm; insomnia.

Apo-Doxan *Apotex, Pol.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

Apodoxin *Alpharma, Fin.*
Doxycycline (p.267·1).
Bacterial infections.

Apo-Doxy
Apotex, Canad.; Apotex, Cz.†; Apotex, Rus.†.
Doxycycline hyclate (p.267·1).
Bacterial infections.

Apotex, Singapore.
Doxycycline (p.267·1).
Bacterial infections.

Apodrolen *Apotex, Mex.*
Alendronic acid (p.1088·1).
Osteoporosis.

Apo-Erythro
Apotex, Canad.
Erythromycin (p.269·2), erythromycin ethyl succinate (p.269·3), or erythromycin stearate (p.270·1).
Bacterial infections.

Apotex, Hong Kong.
Erythromycin (p.269·2).
Bacterial infections.

Apofarm *Gezzi, Arg.*
Aciclovir (p.862·3).

Apo-Fedipisal *Protein, Mex.†.*
Nifedipine (p.1350·1).
Hypertension.

Apo-Feno *Apotex, Canad.; Apotex, Cz.; Apotex, Pol.*
Fenofibrate (p.1286·2).
Hyperlipidaemias.

Apo-Feno-Micro *Apotex, Hong Kong; Apotex, Malaysia.*
Fenofibrate (p.1286·2).
Hyperlipidaemias.

Apo-Fide *Apotex, Mex.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Apofin *Chiesi, Ital.*
Apomorphine hydrochloride (p.795·1).
Parkinsonism.

Apo-Finas *Apotex, Cz.*
⊗ Finasteride (p.2188·3).
Benign prostatic hyperplasia.

Apoflox *Protein, Mex.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Apo-Fluoxetine *Apotex, Rus.*
Fluoxetine hydrochloride (p.391·2).
Bulimia; depression; obsessive-compulsive disorder.

Apo-Flutam *Apotex, Pol.*
Flutamide (p.725·1).
Prostatic cancer.

Apoflux *Santa, Gr.†.*
Sodium fluoride (p.1962·2).
Prophylaxis of dental caries.

Apo-Fosinop *Apotex, Cz.*
Fosinopril sodium (p.1291·3).
Heart failure; hypertension.

Apo-Gab *Apotex, Cz.*
Gabapentin (p.482·3).
Epilepsy; peripheral neuropathy.

Apo-Gain *Apotex, Canad.; Apotex, Hong Kong†; Apotex, Malaysia.*
Minoxidil (p.1342·1).
Alopecia androgenetica.

Apo-Galant *Apotex, Cz.*
Galantamine hydrobromide (p.366·1).
Alzheimer's disease.

Apogastine *Curex, Israel.*
Famotidine (p.1730·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Apogeo *Progen, Ital.*
Soya isoflavones (p.2391·2); vitamin E (p.1992·2).
Nutritional supplement for the menopause.

Apo-Glimep *Apotex, Cz.*
Glimepiride (p.441·1).
Diabetes mellitus.

Apogly *Apotex, Mex.*
Glibenclamide (p.440·1).
Diabetes mellitus.

APO-go *Biochemie, Austria; Medeva, Cz.; Cephalon, Ger.; ITF, Gr.; Forum, Hung.†; Teva, Israel; Forum, Neth.; Forum, Port.; Italfarmaco, Spain; Gen, Turk.; Britannia Pharmaceuticals, UK.*
Apomorphine hydrochloride (p.795·1).
Parkinsonism.

Apo-Hepat *Pekana, Ger.†.*
Homoeopathic preparation.

Apo-Hydro *Apotex, Canad.; Apotex, Malaysia; Apotex, Singapore.*
⊗ Hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Apo-Hydroxyquine *Apotex, Canad.*
Hydroxychloroquine sulfate (p.604·2).
Malaria; rheumatoid arthritis.

Apo-Indap *Apotex, Pol.*
⊗ Indapamide (p.1314·1).
Hypertension.

Apo-Infekt *Pekana, Ger.†.*
Homoeopathic preparation.

Apo-Ipravent *Apotex, Canad.; Apotex, NZ.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease; rhinitis.

Apo-ISDN *Apotex, Canad.; Apotex, Cz.†; Apotex, Hong Kong; Apotex, Malaysia†; Apotex, Singapore.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris; heart failure.

Apo-K *Apotex, Canad.; Apotex, Hong Kong; Apotex, Malaysia; Apotex, Singapore.*
Potassium chloride (p.1684·3).
Hypokalaemia; potassium depletion.

Apo-Kesol *Protein, Mex.†.*
Ketoconazole (p.539·1).
Fungal infections.

Apo-Keto *Apotex, Canad.; Apotex, Malaysia; Apotex, Singapore.*
Ketoprofen (p.73·1).
Inflammation; musculoskeletal and joint disorders; pain.

Apokinon *Rontag, Arg.†; Aguettant, Fr.†.*
Apomorphine hydrochloride (p.795·1).
Parkinsonism.

Apokyn *Bertek, USA.*
Apomorphine hydrochloride (p.795·1).
Parkinsonism.

Apol *Etifar, Venez.*
Vitamin and mineral preparation (p.1922·1).

Apolar *Alpharma, Fin.; Actavis, Indon.; Alpharma, Norw.; Alpharma, Swed.†.*
⊗ Desonide (p.1525·1).
Skin disorders.

Apolar med dekvalin *Alpharma, Norw.*
⊗ Desonide (p.1525·1); dequalinium chloride (p.1641·3).
Infected skin disorders.

Apolar-N *Actavis, Indon.*
⊗ Desonide (p.1525·1); neomycin sulfate (p.305·1).
Anogenital pruritus; infected skin disorders; otitis externa.

Apo-Lato *Apotex, Mex.*
Sucralfate (p.1772·2).
Peptic ulcer.

Apo-Levocarb *Apotex, Canad.; Apotex, Hong Kong; Apotex, Malaysia; Apotex, NZ.*
Levodopa (p.804·3); carbidopa (p.803·1).
Parkinsonism.

Apolide *Apotex, Mex.*
Nimesulide (p.95·3).
Inflammation; pain.

Apoliz *Apotex, Mex.*
Cetirizine (p.571·1).
Hypersensitivity.

Apollo *Philusa, Philipp.*
Soft paraffin (p.2031·2).
Barrier preparation.

Apollonset *Farmanic, Gr.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety disorders; premedication; skeletal muscle spasm; sleep disorders; status epilepticus; tetanus.

Apo-Lova *Apotex, Pol.*
Lovastatin (p.1328·2).
Atherosclerosis; hypercholesterolaemia.

Apomastina *Apotex, Mex.*
Simvastatin (p.1390·2).
Hypercholesterolaemia.

Apo-Medroxy *Apotex, Canad.*
Medroxyprogesterone acetate (p.2113·1).
Progestogenic.

Apometglu *Apotex, Mex.*
Metformin (p.453·3); glibenclamide (p.440·1).
Diabetes mellitus.

Apo-Methazide *Apotex, Canad.*
⊗ Methyldopa (p.1334·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Apo-Methoprazine *Apotex, Canad.*
Levomepromazine maleate (p.1003·1).

Apo-Metoclop *Apotex, Canad.; Apotex, Rus.*
Metoclopramide hydrochloride (p.1747·3).
Gastrointestinal motility disorders; nausea and vomiting.

Apomiclin *Apotex, Mex.*
Clindamycin (p.251·1).
Bacterial infections.

Apomin *APT, Hong Kong.*
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Apo-Mina *Protein, Mex.*
Dimenhydrinate (p.576·2).
Nausea; vertigo.

Apomine *Mayne, Austral.; Mayne, NZ.*
Apomorphine hydrochloride (p.795·1).
Parkinsonism.

Apo-Moclob *Apotex, Cz.*
Moclobemide (p.411·1).
Depression; social phobia.

Apo-Nadol *Apotex, Canad.; Apotex, Hong Kong.*
⊗ Nadolol (p.1345·2).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine.

Aponal *Roche, Ger.*
Doxepin hydrochloride (p.389·1).
Anxiety; depression; insomnia; withdrawal syndromes.

Apo-Napro-Na *Apotex, Canad.; Apotex, Hong Kong; Apotex, Malaysia; Apotex, Singapore.*
Naproxen sodium (p.92·3).
Inflammation; musculoskeletal and joint disorders; pain.

Aponeusak *Protein, Mex.†.*
Fluoxetine (p.397·3).
Depression.

Apo-Nifed *Apotex, Canad.; Apotex, Singapore.*
Nifedipine (p.1350·1).
Angina pectoris; heart failure; hypertension; Raynaud's syndrome.

Aponil
Note.This name is used for preparations of different composition.
Glaxo Allen, Ital.
Lacidipine (p.1322·2).
Hypertension.

Medochemie, Rus.
Nimesulide (p.95·3).
Fever; musculoskeletal, joint, and peri-articular disorders; pain.

Aponistan V *Protein, Mex.*
Nystatin (p.543·2).
Fungal infections.

Apo-Norflox *Apotex, Canad.*
Norfloxacin (p.309·2).
Urinary-tract infections.

Apo-Oflox *Apotex, Canad.; Apotex, Malaysia†.*
Ofloxacin (p.310·2).
Bacterial infections.

Apo-Ome *Apotex, Cz.*
Omeprazole (p.1753·1).
Acid aspiration; dyspepsia; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Apo-Oxpar *Apotex, Mex.*
Paroxetine (p.414·2).
Depression.

Apo-Panto *Apotex, Cz.*
Pantoprazole sodium (p.1760·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Apo-Paradex *Apotex, NZ†.*
Paracetamol (p.108·1); dextropropoxyphene napsilate (p.40·1).
Pain.

Apo-Parox *Apotex, Cz.*
Paroxetine hydrochloride (p.414·2).
Anxiety; depression; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder; social phobia.

Apo-Pentox *Apotex, Pol.*
Pentoxifylline (p.1367·2).
Peripheral vascular disorders.

Apo-Pen-VK *Apotex, Canad.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Apo-Pera *Apotex, Mex.*
Loperamide (p.1741·3).

Apo-Perindo *Apotex, Cz.*
Perindopril erbumine (p.1368·3).
Cardiac ischaemia; heart failure; hypertension.

Apophage *Curex, Israel.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Apo-Pindol *Apotex, Canad.; Apotex, Cz.†.*
⊗ Pindolol (p.1372·1).
Angina pectoris; arrhythmias; hypertension.

Apopiran *Protein, Mex.†.*
Piroxicam (p.117·3).
Rheumatism.

Apoplectal N *Fujisawa, Ger.†.*
⊗ Aesculus (p.2248·2); buphenine hydrochloride (p.2270·2).
Cerebrovascular disorders.

Apo-Prava *Apotex, Pol.*
Pravastatin sodium (p.1374·3).
Cardiovascular risk reduction; hypercholesterolaemia.

Apopraza *Apotex, Mex.*
Omeprazole (p.1753·1).
Peptic ulcer.

Apo-Prazo *Apotex, Canad.; Apotex, Hong Kong; Apotex, NZ; Apotex, Singapore.*
Prazosin hydrochloride (p.1375·2).
Benign prostatic hyperplasia; heart failure; hypertension; Raynaud's disease.

Apoprin *Protein, Mex.†.*
Ranitidine (p.1766·1).
Peptic ulcer.

Apo-Probutol *Protein, Mex.†.*
Ethambutol (p.275·2).

Apo-Prochlorazine *Apotex, Canad.*
Prochlorperazine maleate (p.1020·1).

Apoprod *Apotex, Mex.*
Chlorpropamide (p.438·3).
Diabetes mellitus.

Apo-Pulm *Pekana, Ger.†.*
Homoeopathic preparation.

Apo-Pyl *Apotex, Mex.*
Enalapril (p.1276·1).
Hypertension.

A-Por *Aspen, S.Afr.*
Clotrimazole (p.530·1).
Fungal skin infections; vulvovaginal fungal infections.

Aporex *Alpharma, Norw.*
Dextropropoxyphene hydrochloride (p.40·1); paracetamol (p.108·1).
Pain.

Aporil *Qualiphar, Belg.*
Salicylic acid (p.1612·2); acetic acid (p.2244·2); lactic acid (p.2329·3); thuja (p.2400·3); greater celandine (p.2317·1).
Warts.

Apo-Risper *Apotex, Cz.*
Risperidone (p.1024·2).
Mania; schizophrenia.

Aposada *Apotex, Mex.*
Cisapride (p.1720·3).
Gastrointestinal motility disorders.

Apo-Salvent
Apotex, Canad.
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Apotex, Cz.†; Apotex, NZ.
⊗ Salbutamol sulfate (p.1131·3).
Bronchospasm; obstructive airways disease; status asthmaticus.

Apotex, Hong Kong†; Apotex, Mex.
⊗ Salbutamol (p.1131·2).
Asthma.

Apo-Seleg *Apotex, Cz.*
⊗ Selegiline hydrochloride (p.817·1).
Alzheimer's disease; parkinsonism.

Apo-Selin *Apotex, Pol.*
⊗ Selegiline hydrochloride (p.817·1).
Parkinsonism.

Apo-Sertral *Apotex, Cz.*
Sertraline hydrochloride (p.421·3).
Depression; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder; social phobia.

Apo-Simva *Apotex, Cz.*
Simvastatin (p.1390·2).
Cardiovascular risk reduction; hypercholesterolaemia.

Apostavina *Protein, Mex.†.*
Stavudine (p.907·1).
HIV infection.

Apo-Sulfatrim *Apotex, Canad.; Apotex, Cz.†; Apotex, NZ; Apotex, Singapore.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; protozoal infections.

Apo-Sulin *Apotex, Canad.; Apotex, Malaysia†; Apotex, Singapore.*
Sulindac (p.126·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Apo-Tamis *Apotex, Cz.*
Tamsulosin hydrochloride (p.2197·1).
Benign prostatic hyperplasia.

Apo-Tamox *Apotex, Canad.; Apotex, Hong Kong; Apotex, Singapore.*
⊗ Tamoxifen citrate (p.772·3).
Anovulatory infertility; breast cancer; endometrial cancer.

Apotel *Unipharma, Gr.*
Paracetamol (p.108·1).
Lidocaine hydrochloride (p.1862·3) is included in the injection to alleviate the pain of injection.
Fever; pain.

Apotel C-500 *Unipharma, Gr.*
Paracetamol (p.108·1); vitamin C (p.1983·3).
Fever; pain.

Apotel Extra *Unipharma, Gr.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Apoteoprol *Protein, Mex.†.*
Theophylline (p.1140·1).

Apo-Tetra *Apotex, Canad.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Apo-Theo *Apotex, Canad.; Apotex, Malaysia; Apotex, Singapore.*
Theophylline (p.1140·1).
Bronchospasm; obstructive airways disease.

Apo-Tic *Apotex, Cz.*
Ticlopidine hydrochloride (p.1411·2).
Thrombosis prophylaxis.

Apo-Timol *Apotex, Canad.; Apotex, NZ.*
⊗ Timolol maleate (p.1412·3).
Angina pectoris; arrhythmias; hypertension; migraine; myocardial infarction.

Apo-Timop *Apotex, Canad.; Apotex, Hong Kong; Apotex, NZ.*
⊗ Timolol maleate (p.1412·3).
Glaucoma; ocular hypertension.

Apo-Tinole *Protein, Mex.†.*
Allopurinol (p.552·2).
Gout.

Apotoke *Apotex, Mex.*
Ketorolac (p.75·2).
Inflammation; pain.

Apo-Triazide *Apotex, Canad.; Apotex, Hong Kong; Apotex, Malaysia†; Apotex, Rus.; Apotex, Singapore.*
⊗ Hydrochlorothiazide (p.1307·3); triamterene (p.1417·2).
Hypertension; oedema.

Apo-Triazo *Apotex, Canad.*
Triazolam (p.1033·2).
Insomnia.

Apo-Trihex *Apotex, Canad.; Apotex, Hong Kong; Apotex, Malaysia; Apotex, Singapore.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Apo-Trimip *Apotex, Canad.*
Trimipramine maleate (p.426·3).
Depression.

Apo-Trina *Apotex, Mex.*
Erythromycin (p.269·2).
Bacterial infections.

Apo-Trinelax *Apotex, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Apo-Tuss *Pekana, Ger.†.*
Homoeopathic preparation.

Apoven *Douglas, Austral.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Apovent *Curex, Israel.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Apo-Verap *Apotex, Canad.; Apotex, Cz.†.*
Verapamil hydrochloride (p.1421·1).
Angina pectoris; arrhythmias; hypertension; obstructive cardiomyopathy.

Apo-Vir *Apotex, Mex.*
Aciclovir (p.862·3).
Herpesvirus infections.

Apozema *Apomedica, Austria.*
Turmeric oil (p.1473·2); *p*,α-dimethylbenzyl alcohol (p.2294·2); peppermint oil (p.1761·2); eucalyptus oil (p.2301·2); camphor (p.2273·2); menthol (p.2340·1).
Digestive disorders; gastrointestinal disorders.

Apozema Allium Cepa compositum *Apomedica, Austria.*
Homoeopathic preparation.

Apozema Apis compositum *Apomedica, Austria.*
Homoeopathic preparation.

Apozemia *Apotex, Mex.*
Metformin (p.453·3).
Diabetes mellitus.

Apozepam *Alpharma, Denm.; Alpharma, Swed.†.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety; insomnia; premedication; restlessness; skeletal muscle spasm; spasticity.

Appearex *Merz, USA.*
Biotin (p.1931·3).
Nail disorders.

Appebon
United Laboratories, Philipp.
Syrup: Buclizine hydrochloride (p.570·1); vitamin B substances; lysine hydrochloride (p.1922·1).
Appetite stimulant.

United Laboratories, Philipp.
Tablets: Buclizine hydrochloride (p.570·1); vitamin B substances; vitamin C (p.1922·1).
Appetite stimulant.

Appebon with Iron
Note. This name is used for preparations of different composition.
United Laboratories, Philipp.
Capsules: Buclizine hydrochloride (p.570·1); vitamin B substances (p.1922·1); ferrous fumarate (p.1938·3).
Appetite stimulant.

United Laboratories, Philipp.
Syrup: Buclizine hydrochloride (p.570·1); vitamin B substances (p.1922·1); lysine hydrochloride; ferrous sulfate (p.1939·3).
Appetite stimulant.

Appedrine *Chattem, Canad.†.*
Benzocaine (p.1854·1); ferrous fumarate (p.1938·3); carmellose sodium (p.2142·1); vitamins (p.1922·1).
Obesity.

Appelin-B12 *Savoy, Singapore.*
Benzoic acid; inositol; lysine; sorbitol; vitamin B ; vitamin C (p.1922·1).
Tonic.

Appetason
Note. This name is used for preparations of different composition.
Ad-Drugstel, Philipp.
Capsules: Vitamin B substances (p.1922·1); ferrous sulfate (p.1939·3); buclizine hydrochloride (p.570·1).
Reduced appetite.

Ad-Drugstel, Philipp.
Syrup: Vitamin B substances; ferrous sulfate (p.1939·3); lysine hydrochloride (p.1922·1).
Reduced appetite.

Appetens *Novartis, Philipp.*
Pizotifen (p.624·2) or pizotifen malate (p.624·2); vitamin B substances (p.1922·1).
Reduced appetite.

Appetiser Mixture *Potter's, UK.*
Chamomile (p.2279·3); calumba (p.2273·2); compound gentian infusion (p.2310·3).
Flatulence; tonic.

Appeton *Kotra, Malaysia.*
A range of vitamin preparations with or without minerals, ginseng, lysine, or taurine (p.1922·1).

Appeton Lysine *Kotra, Hong Kong.*
A range of vitamin preparations with lysine (p.1922·1).

Appeton Memocap *Kotra, Malaysia†.*
Ginkgo biloba (p.2311·1).
Peripheral vascular disorders.

Appeton Weight Gain *Kotra, Hong Kong; Kotra, Malaysia†.*
A preparation for enteral nutrition (p.1922·1).

Applicaine
Note. This name is used for preparations of different composition.
Carter, Austral.
Oral gel: Choline salicylate (p.36·3).
Oral pain; teething.

Carter, Austral.
Topical liquid: Benzocaine (p.1854·1).
Mouth ulcers; oral pain; teething.

APR Cream *Curacel, Austral.†.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); capsicum oleoresin (p.2276·2); copper sulfate (p.1935·3); eicosapentaenoic acid (p.1362·1); melaleuca oil (p.2338·2); zinc sulfate (p.1999·2).
Musculoskeletal and joint disorders.

Apra *Altaire, USA.*
Paracetamol (p.108·1).
Fever; pain.

Apracur
Note. This name is used for preparations of different composition.
Serch, Arg.†.
Paracetamol (p.108·1); phenylephrine (p.1568·1); clemizole (p.574·1).
Influenza symptoms.

Trahan, Thai.
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); clemizole hydrochloride (p.574·1); salicylamide (p.121·2).
Cold symptoms.

Apracur Antifebril *Higate, Arg.*
Paracetamol (p.108·1).
Fever; pain.

Apracur Biotic *Serch, Arg.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Apracur Bucofaringeo *Serch, Arg.†.*
Hexylresorcinol (p.1647·1); benzocaine (p.1854·1).

Apracur Descongestivo *HMA, Arg.*
Paracetamol (p.108·1); phenylephrine (p.1568·1).
Cold symptoms.

Apracur Expectorante *HMA, Arg.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Apracur Nasal *HMA, Arg.*
⊗ Oxymetazoline (p.1567·2).
Nasal congestion.

Apraljin *Deva, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Apranax
Roche, Belg.; Valeant, Hung.; Roche, Switz.; Abdi, Turk.; Roche, Venez.†.
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Roche, Fr.
Naproxen (p.92·3) or naproxen sodium (p.92·3).
Inflammatory disorders; musculoskeletal and joint disorders; pain.

Apraz *Mantecorp, Braz.*
Alprazolam (p.960·1).
Alcohol withdrawal syndrome; anxiety; panic disorder.

Aprazol *Bilim, Turk.; Husnu, Turk.*
Lansoprazole (p.1739·2).
Dyspepsia; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Aprednislon *Merck, Austria.*
⊗ Prednisolone (p.1540·3).
Corticosteroid.

Apresazide *Novartis, USA†.*
⊗ Hydralazine hydrochloride (p.1305·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Apresolin *Novartis, Norw.; Novartis, Swed.*
Hydralazine hydrochloride (p.1305·3).
Heart failure; hypertension.

Apresolina *Novartis, Braz.; Novartis, Mex.; Novartis, Venez.†.*
Hydralazine hydrochloride (p.1305·3).
Heart failure; hypertension.

Apresoline *Novartis, Austral.; SteriMax, Canad.; Novartis, Hong Kong†; Novartis, Irl.; Novartis, NZ; Novartis, Philipp.; Novartis, S.Afr.; Novartis, Thai.; Amdipharm, UK; Novartis, USA.*
Hydralazine hydrochloride (p.1305·3).
Heart failure; hypertension; hypertensive crisis.

Apress *Gerolimatos (Γερολυματος), Gr.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Apri *Duramed, USA.*
Desogestrel (p.2093·2); ethinylestradiol (p.2101·3).
28-Day packs also contain 7 inert tablets.
Combined oral contraceptive.

Aprical
Note. This name is used for preparations of different composition.
Raffo, Arg.†.
Ranitidine (p.1766·1).

Rentschler, Cz.†; Shire, Ger.
Nifedipine (p.1350·1).
Angina pectoris; hypertension; Raynaud's syndrome.

April *Gador, Arg.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

AprilGen *Generics, Pol.*
Quinapril (p.1382·3).
Heart failure; hypertension.

Aprinol *Anfarm, Gr.*
Ambroxol hydrochloride (p.1550·3).
Respiratory disorders associated with viscous mucus.

Aprinox *Abbott, Austral.; Sovereign, UK.*
⊗ Bendroflumethiazide (p.1224·1).
Hypertension; oedema; suppression of lactation.

Aprix-DN *Recalcine, Chile†.*
Yellow tablets, paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); blue tablets, paracetamol; pseudoephedrine hydrochloride; chlorphenamine maleate (p.571·3).
Influenza symptoms.

Aprodine *Major, USA.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Upper respiratory-tract symptoms.

Aprodine with Codeine *Major, USA.*
Pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2); triprolidine hydrochloride (p.592·3).
Coughs and cold symptoms.

Aprofen *Medicine Products, Thai.*
Ibuprofen (p.64·2).
Fever; musculoskeletal, joint, and soft-tissue disorders; pain.

Aprol *Bilim, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Apromed *Kocak, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Aprostal *Solvay, Philipp.*
Mefenamic acid (p.80·1).
Inflammation; pain.

Aproten *Diet Erba, NZ; Ultrapharm, UK.*
Low-protein, gluten-free foods for special diets (p.1922·1).

Aprotex *Veropharm, Rus.*
Aprotinin (p.1055·1).

Aprotilin *Kleva, Gr.†.*
Maprotiline hydrochloride (p.407·2).
Depression.

Aprovel *Sanofi Synthelabo, Arg.; Sanofi-Aventis, Belg.; Sanofi-Aventis, Braz.; Sanofi-Aventis, Chile; Sanofi-Aventis, Cz.; Sanofi, Denm.; BMS, Fin.; BMS, Fr.; Sanofi Synthelabo, Ger.; Sanofi-Aventis, Gr.; Sanofi-Aventis, Hong Kong; BMS, Hung.; Sanofi-Aventis, Hung.; Sanofi-Aventis, Indon.; BMS, Irl.; Sanofi-Aventis, Irl.; Sanofi-Aventis, Ital.; Sanofi-Aventis, Malaysia; Sanofi Synthelabo, Mex.; BMS, Neth.; Sanofi, Neth.; Sanofi BMS, Norw.; Sanofi Synthelabo, Philipp.; BMS, Pol.; Sanofi-Aventis, Pol.; BMS, Port.; Sanofi Synthelabo, Port.; Sanofi Winthrop, Rus.; Sanofi Synthelabo, S.Afr.; Sanofi-Aventis, Singapore; Sanofi-Aventis, Spain; BMS, Swed.; Sanofi Synthelabo, Swed.; BMS, Switz.; Sanofi, Switz.; Sanofi Synthelabo, Thai.; BMS, UK; Sanofi Synthelabo, UK; Sanofi-Aventis, Venez.*
Irbesartan (p.1316·1).
Diabetic nephropathy; hypertension.

Aprovel HCT *Sanofi Synthelabo, Hong Kong†; Sanofi Synthelabo, Thai.†.*
⊗ Irbesartan (p.1316·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Aprowell *Ali, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Aproxal *Elpen (Ελπεν), Gr.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Aprozide *Sanofi-Aventis, Braz.*
⊗ Irbesartan (p.1316·1); hydrochlorothiazide (p.1307·3).
Hypertension.

APS Balneum *APS, Cz.†.*
Chamomile oil (p.2279·3).
Bath additive; skin disorders.

APSI/AQ *Stallergenes, Cz.†.*
Allergen extracts (p.2250·2).
Hyposensitisation.

Apsoderm *Alice Loren, Gr.*
Salicylic acid (p.1612·2).
Skin disorders.

Apsomol *Farmasan, Ger.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Apsor *Merck-Lipha, Fr.*
Tacalcitol (p.1615·1).
Psoriasis.

Aptamil I *Support, Braz.†.*
Infant feed (p.1922·1).
Colic; constipation.

Aptamil AR *Milupa, Port.*
Infant feed (p.1922·1).
Gastro-oesophageal reflux.

Aptamil HA *Milupa, Port.*
Infant feed (p.1922·1).
Milk intolerance.

APT-Ampicloxa *Merck, Hong Kong.*
Ampicillin trihydrate (p.204·2); cloxacillin sodium (p.256·1).
Bacterial infections.

Apteor *Solvay, Port.*
Fenofibrate (p.1286·2).
Hyperlipidaemias.

Aptha-X *CTI, Israel.*
Aloe vera (p.1588·2); benzalkonium chloride (p.1629·1); enoxolone (p.50·1); povidone (p.2146·1); sodium hyaluronate (p.2320·1).
Oral lesions.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Aptivium Liver Support *Cynergen, Indon.*
Silymarin (p.1452·2); turmeric (p.1473·2); thioctic acid (p.2400·2); vitamin B substances; ascorbic acid; vitamin E (p.1922·1).
Liver disorders.

Aptivium Optimum Joint Formula *Cynergen, Indon.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate (p.2280·3); dimethyl sulfone (p.2294·1); vitamin C (p.1983·3).
Osteoarthritis; rheumatoid arthritis.

Aptivus *Boehringer Ingelheim, Arg.; Boehringer Ingelheim, Belg.; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Fin.; Boehringer Ingelheim, Fr.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Hung.; Boehringer Ingelheim, Irl.; Boehringer Ingelheim, Ital.; Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, Pol.; Boehringer Ingelheim, Port.; Boehringer Ingelheim, Swed.; Boehringer Ingelheim, UK; Boehringer Ingelheim, USA.*
Tipranavir (p.909·3).
HIV infection.

Aptodin Plus *GD, Ital.*
Vitamin, mineral, and amino-acid preparation (p.1922·1).

Apton *Delta, Port.*
Pantoprazole (p.1760·1).
Gastro-oesophageal reflux; peptic ulcer.

Aptor *Nicholas, Indon.*
Aspirin (p.20·3).
Fever; pain.

Aptus Amphetamine *Aptus, NZ†.*
Test for amfetamine in urine.

Aptus Benzodiazepine *Aptus, NZ†.*
Test for benzodiazepines in urine.

Aptus Cannabis *Aptus, NZ†.*
Test for THC in urine.

Aptus Cocaine *Aptus, NZ†.*
Test for cocaine in urine.

Aptus Methadone *Aptus, NZ†.*
Test for methadone in urine.

Aptus Methamphetamine *Aptus, NZ†.*
Test for methamfetamine in urine.

Aptus Opiate *Aptus, NZ†.*
Test for opiates in urine.

Apulein *Gedeon Richter, Cz.†; Gedeon Richter, Hung.†.*
⊗ Budesonide (p.1520·1).
Skin disorders.

Apurin
Hexal, Austria†; Gea, Denm.; Sandoz, Fin.
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Hexal, Neth.
Allopurinol (p.552·2) or allopurinol sodium (p.553·3).
Gout; hyperuricaemia.

Apurol *Leciva, Cz.†; Siegfried, Thai.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Apurone *Substipharm, Fr.*
Flumequine (p.278·1).
Bacterial infections of the urinary tract.

Apuzin *YSP, Malaysia.*
Captopril (p.1239·2).
Diabetic nephropathy; heart failure; hypertension; myocardial infarction.

Apydan *Desitin, Denm.; Algol, Fin.; Desitin, Hung.; Desitin, Pol.*
Oxcarbazepine (p.490·3).
Epilepsy.

Apyrene *Vincenti, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Apyrol *Salusif, Port.†.*
Sodium hydroxyquinoline sulfate (p.2323·2); camphor (p.2273·2).
Muscular pain; soft-tissue disorders; wounds.

Aqium *Ego, Austral.*
Barrier cream.

Aqsia *Abdi, Turk.*
Electrolyte solution (p.1667·1).
Eye irrigation.

Aqua Ban *Lane, UK; Thompson, USA.*
Ammonium chloride (p.1551·3); caffeine (p.1116·3).
Premenstrual water retention.

Aqua Ban Herbal *Lane, UK.*
Lappa (p.2330·3); bearberry (p.2263·3); clivers (p.2284·3).
Water retention.

Aqua Ban Plus *Thompson, USA.*
Ammonium chloride (p.1551·3); caffeine (p.1116·3); ferrous sulfate (p.1939·3).
Premenstrual water retention.

Aqua Dermis *Bio-Pharmaceuticals, Malaysia†.*
Soap substitute.

Aqua Ear *Wyeth Consumer, Austral.; Whitehall, NZ†.*
Glacial acetic acid (p.2244·2); isopropyl alcohol (p.1650·3).
Otitis externa.

Aqua Emoform *Altana, Ital.†.*
Sodium monofluorophosphate (p.1964·3); sodium fluoride (p.1962·2).
Gingival inflammation; oral hygiene.

Aqua Lent Colirio *Inmunolab, Arg.*
⊗ Ephedrine (p.1558·1); phenazone (p.116·1).
Eye disorders.

Aqua Lent Lagrima *Inmunolab, Arg.†.*
Carmellose sodium (p.2142·1).
Dry eyes.

Aqua Lent Limpia Cristales *Inmunolab, Arg.*
Sodium chloride (p.1686·1) (p.1622·2).
Contact lens care.

Aqua Lent Lubricante *Inmunolab, Arg.*
Carmellose sodium (p.2142·1).
Dry eyes; eye irritation.

Aqua Lub *Probifasa, Mex.†.*
Lubricant for vaginal and rectal use.

Aqua Maris *Jadran, Rus.*
Sea water with natural salts and trace elements.
Nasal disorders.

AquaBalm *Quintessa, USA.*
Emollient.
Dry skin.

Aquabase *Avene, Fr.; Paddock, USA.*
Vehicle for topical preparations.

Aquablock *Pfizer, NZ.*
SPF 30+: Octinoxate (p.1608·2); zinc oxide (p.1621·2).
Sunscreen.

Aquacare *Allergan, Austral.; Allergan, NZ; Menley & James, USA.*
⊗ Urea (p.1620·2).
Dry skin; eczema; keratinisation disorders.

Aquacel *Convatec, Arg.; Convatec, Austral.†; Convatec, Canad.†; Convatec, Fr.; Convatec, Port.†.*
Carmellose sodium (p.2142·1).
Burns; skin ulcers; wounds.

Aquacel Ag *Convatec, Fr.; Convatec, Ital.*
Silver (p.2387·1); carmellose sodium (p.2142·1).
Burns; ulcers; wounds.

Aquachloral *PolyMedica, USA.*
Cloral hydrate (p.979·1).
Sedative.

Aquacort *Lindopharm, Ger.*
⊗ Budesonide (p.1520·1).
Nasal polyps; rhinitis.

Aquaderm
Note. This name is used for preparations of different composition.
Paladin, Canad.†.
Emollient.

Pendopharm, Canad.
SPF 15: Octisalate (p.1608·2); avobenzone (p.1589·3); octinoxate (p.1608·2); titanium dioxide (p.1617·3).
Sunscreen.

Baker Cummins, USA.
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Pendopharm, Canad.
SPF 30: Avobenzone (p.1589·3); octocrilene (p.1608·3); octinoxate (p.1608·2); titanium dioxide (p.1617·3).
Sunscreen.

Aquadetrim *Medana, Rus.*
Colecalciferol (p.1986·2).
Hypoparathyroidism; osteomalacia; osteoporosis; rickets; tetany; vitamin D deficiency.

Aquadon *Rekah, Israel.*
⊗ Chlortalidone (p.1243·3).
Hypertension; liver cirrhosis; oedema; renal failure.

Aquadrate *Alliance, Irl.; Alliance, UK.*
⊗ Urea (p.1620·2).
Dry skin disorders.

Aquae *Hamilton, Austral.; Hamilton, Hong Kong.*
Carmellose sodium (p.2142·1); sorbitol (p.1965·1); electrolytes (p.1667·1).
Artificial saliva.

Aqua-E *Yasoo, USA.*
Vitamin E (p.1992·2).

Aquafilme *Sofex, Port.†.*
Emollient.

Aquafor *Asta Medica, Ital.†.*
⊗ Xipamide (p.1434·1).
Hypertension.

Aquaform *Maersk, UK.*
Hydrogel dressing.
Ulcers; wounds.

Aquagel *Adams, Hong Kong.*
Lubricating jelly.

Aquagen SQ *ALK, Denm.; ALK, Fin.; ALK, Swed.*
Allergen extracts (p.2250·2).
Allergen immunotherapy; diagnosis of hypersensitivity.

Aqualan *Orion, Fin.*
Emollient.

Aqualane *Roux-Ocefa, Arg.*
Beeswax (p.2028·1); liquid paraffin (p.2030·3); white soft paraffin (p.2031·2).
Barrier cream.

Aqualarm *Chauvin, Fr.*
Carbomer 980 (p.2141·3).
Dry eyes.

Aqualcium *Delta, Fr.†.*
Mineral preparation (p.1922·1).
Calcium deficiency.

Aqualette *Lichtwer, UK.*
Taraxacum (p.2395·1); equisetum (p.2299·3).

Aqualibra *Medice, Ger.*
Ononis (p.2357·1); java tea (p.2328·2); solidago (p.2391·1).
Urinary-tract disorders.

Aquamag *Delta, Fr.†.*
Mineral preparation (p.1922·1).
Magnesium deficiency.

Aquamephyton *Merck, USA†.*
Phytomenadione (p.1995·3).
Coagulation disorders associated with vitamin K deficiency, due to faulty formation of factors II, VII, IX, and X.

Aquamycetin-N *Winzer, Ger.†.*
Chloramphenicol (p.239·3).
Bacterial eye infections.

Aquanil
Note. This name is used for preparations of different composition.
Dispolab, Chile; Person & Covey, USA.
Soap-free skin cleanser.

OmniVision, Denm.; Novartis, Fin.†; OmniVision, Norw.; OmniVision, Swed.†.
⊗ Timolol maleate (p.1412·3).
Glaucoma; ocular hypertension.

Darier, Mex.
Sodium laurilsulfate (p.2138·3).
Skin disorders.

Aquanil HC *Dispolab, Chile; Darier, Mex.; Person & Covey, USA.*
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Aquaphar *Albephar, Venez.*
⊗ Urea (p.1620·2).

Aquaphilic *Medco, USA.*
Vehicle for topical preparations.

Aquaphor
Note. This name is used for preparations of different composition.
Lilly, Ger.
⊗ Xipamide (p.1434·1).
Hypertension; oedema.

Beiersdorf, USA.
Yellow soft paraffin; liquid paraffin; mineral wax; wool wax alcohol.
Barrier ointment; ointment base.

Aquaphor Healing Ointment *Beiersdorf, USA.*
Soft paraffin; liquid paraffin; ceresin; wool alcohols; panthenol; bisabolol.
Dry skin disorders.

Aquaphoril *Viatris, Austria.*
⊗ Xipamide (p.1434·1).
Hypertension; oedema.

Aquaphyllin *Ferndale, USA†.*
Theophylline (p.1140·1).
Asthma; bronchospasm.

Aquapred *Winzer, Ger.*
⊗ Chloramphenicol (p.239·3); prednisolone sodium phosphate (p.1541·2).
Inflammatory disorders and infections of the eye.

Aquareduct *Azupharma, Ger.†.*
⊗ Spironolactone (p.1400·1).
Ascites; hyperaldosteronism; oedema.

Aquaretic *Azupharma, Ger.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Aquarid *Schwulst, S.Afr.*
⊗ Furosemide (p.1292·1).
Oedema.

Aquarius *Demo, Gr.*
Ketoconazole (p.539·1).
Fungal scalp infections.

Aquasalina *Bruschettini, Ital.†.*
Sodium chloride (p.1686·1); borax (p.2268·1); boric acid (p.2268·1).
Eye and nasal irrigation.

Aquasept *Medlock Medical, UK.*
Triclosan (p.1665·2).
Skin disinfection.

Aquasite *Novartis Ophthalmics, USA†.*
⊗ Macrogol 400 (p.2336·3); dextran 70 (p.1059·3); polycarbophil (p.1763·3).
Dry eyes.

Aqua-Soap *Remexa, Mex.*
Soap substitute.

Aquasol *SSL, UK.*
Purified water (p.2414·3).

Aquasol A
Note. This name is used for preparations of different composition.
Minerva (Μινερβα), Gr.†.
Vitamin A (p.1971·2); panthenol (p.2362·1).

Hospira, USA.
Vitamin A (p.1971·2).
Vitamin A deficiency.

Aquasol AD *Grossman, Mex.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1).
Vitamin A and D deficiency.

Aquasol A+D *Minerva (Μινερβα), Gr.*
Vitamin A (p.1971·2); ergocalciferol (p.1987·1).
Vitamin A and D deficiency.

Aquasol E *Columbia, Canad.; Mayne, USA.*
Vitamin E (p.1992·2).
Vitamin E deficiency.

Aquasport *Also, Ital.†.*
Mineral preparation (p.1922·1).

Aquasteril *Boxter, Fin.*
Water for injections (p.2414·3).

Aquasun
Note. This name is used for preparations of different composition.
Pfizer, NZ.
Lotion SPF 18: Octinoxate (p.1608·2); avobenzone (p.1589·3); oxybenzone (p.1608·3); octocrilene (p.1608·3).
Sunscreen.

Pfizer, NZ†.
SPF 4; SPF 8: Octinoxate (p.1608·2); avobenzone (p.1589·3).
Sunscreen.

Pfizer, NZ.
SPF 30+ cream; SPF 30+ lotion: Octinoxate (p.1608·2); avobenzone (p.1589·3); octil triazone (p.1608·1).
Sunscreen.

Pfizer, NZ†.
Stick SPF 30: Octinoxate (p.1608·2); avobenzone (p.1589·3); enzacamene (p.1597·1).
Sunscreen.

Aquatab C *Adams, USA.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Formerly contained guaifenesin, phenylpropanolamine hydrochloride, and dextromethorphan hydrobromide.
Coughs.

Aquatab D *Adams, USA.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2).
Formerly contained guaifenesin and phenylpropanolamine hydrochloride.
Nasal congestion.

Aquatab DM *Adams, USA.*
Guaifenesin (p.1561·3); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Aquatabs *Sovedis, Fr.*
Troclosene sodium (p.1665·3).
Water disinfection.

Aquatabs (Puritabs) *Dermatech, Austral.*
Troclosene sodium (p.1665·3).
Water disinfection.

Aquatain *Wyeth Consumer, Canad.*
Emollient.

AquaTears
Note. A similar name is used for preparations of different composition (see below).
Novartis, Austria.
Carbomer 974P (p.2141·3).
Dry eyes.

Aquatears
Note. A similar name is used for preparations of different composition (see above).
Cipla, India.
Polyvinyl alcohol (p.2145·3).
Dry eyes.

Aquatensen *Wallace, USA†.*
⊗ Methyclothiazide (p.1334·1).
Hypertension; oedema.

Aquaviron *Nicholas Piramal, India.*
⊗ Testosterone (p.2129·3).
Cryptorchidism; delayed puberty; hypogonadotrophic hypogonadism; osteoporosis.

Aquavit-E *Cypress, USA.*
dl-Alpha tocoferil acetate (p.1992·3).
Vitamin E deficiency.

Aquazide *Sun, India.*
⊗ Hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Aqucilina *Reig Jofre, Spain.*
Procaine benzylpenicillin (p.319·2).
Bacterial infections.

Aqucilina D A *Reig Jofre, Spain.*
Benzylpenicillin potassium (p.213·1); procaine benzylpenicillin (p.319·2).
Bacterial infections.

Aquedux *Sanofi Synthelabo, Port.†.*
⊗ Furosemide (p.1292·1).
Hypertension; oedema.

Aquella *Lifeplan, UK.*
Boldo; kelp; cider vinegar; lappa; taraxacum (p.1922·1).
Herbal supplement.

Aqueous Charcodote *Pharmascience, Singapore.*
Activated charcoal (p.1435·2).
Emergency treatment of poisoning.

Aquex *Gry, Ger.*
⊗ Xipamide (p.1434·1).
Hypertension; oedema.

Aquiflav *Uriach Aquilea OTC, Spain.*
Soya (p.1965·3).
Menopausal disorders.

Aquify *Ciba Vision, Arg.*
Sodium hyaluronate (p.2320·1).
Dry eyes.

Aquim *Ego, NZ†.*
Dimeticone (p.2032·1).
Barrier preparation.

Aquitol *Teva, Israel†.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1).
Vitamin A and D supplement.

Aquitos *Uriach Aquilea OTC, Spain.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Aquo-Cytobion *Merck, Ger.†.*
Hydroxocobalamin acetate (p.1980·3).
Vitamin B deficiency.

Aquo-Trinitrosan *Merck, Ger.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris; controlled hypotension; heart failure; hypertension; myocardial infarction.

Aqupla *Shionogi, Jpn.*
Nedaplatin (p.755·2).
Malignant neoplasms.

Aqurea *ICM, Singapore.*
⊗ Urea (p.1620·2).
Dry skin disorders.

Arabine *Mayne, Denm.; Mayne, Fin.; Mayne, Swed.*
Cytarabine (p.705·1).
Acute leukaemias.

Arabloc *Aventis, Austral.*
Leflunomide (p.75·3).
Rheumatoid arthritis.

Aracaf *TNP, Thai.†.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Cold symptoms; cough; nasal congestion.

ARA-cell *Stada, Austria; Cell Pharm, Ger.; Cell Pharm, Port.; Asos, Turk.*
Cytarabine (p.705·1).
Acute leukaemias; non-Hodgkins lymphoma.

Arachitol *Solvay, India.*
Colecalciferol (p.1986·2).
Hypoparathyroidism; rickets, osteomalacia.

Aracmyn *Bioclon, Mex.*
Spider venom antiserum (p.2239·2).
Spider bites (Latrodectus mactans, Loxosceles).

Aracytin *Janssen-Cilag, Arg.†; Pfizer, Braz.; Pfizer, Chile; Pfizer, Gr.; Pharmacia, Ital.*
Cytarabine (p.705·1).
Acute leukaemias; lymphomas; myelodysplastic syndrome.

Aracytine *Pfizer, Fr.*
Cytarabine (p.705·1).
Leukaemias; myelodysplasia.

Aradix *Drugtech, Chile.*
⊗ Methylphenidate (p.2160·1).
Attention-deficit hyperactivity disorder; narcolepsy.

Aradois *Biolab Sanus, Braz.*
Losartan potassium (p.1326·1).
Hypertension.

Aradois H *Biolab Sanus, Braz.*
⊗ Losartan potassium (p.1326·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Aragest *Dexxon, Israel.*
Medroxyprogesterone acetate (p.2113·1).
Endometriosis; menstrual disorders.

Aralast *Alpha Therapeutic, USA.*
Alpha -proteinase inhibitor (p.2253·2).
Alpha -proteinase deficiency.

Aralen
Sanofi Synthelabo, Canad.†; Sanofi Synthelabo, Philipp.; Sanofi Winthrop, USA.
Chloroquine phosphate (p.599·3).
Amoebiasis; malaria.

Sanofi Synthelabo, Mex.
Chloroquine (p.599·2).
Amoebiasis; malaria.

Aralia Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Aralis *Pfluger, Ger.*
Homoeopathic preparation.

Aramin *Cristalia, Braz.*
⊗ Metaraminol tartrate (p.1333·2).
Hypotension.

Aramine *MSD, Austral.; IFET (ΙΦΕΤ), Gr.†; MSD, NZ; MSD, Norw.†; MSD, Thai.†; Merck, USA.*
⊗ Metaraminol tartrate (p.1333·2).
Hypotension; shock.

Aramix *Elea, Arg.*
Escitalopram (p.391·1).
Depression.

Aranelle *Barr, USA.*
21 Tablets, norethisterone (p.2119·3); ethinylestradiol (p.2101·3); 7 tablets, inert.
Triphasic oral contraceptive.

Aranesp *Amgen, Austral.; Amgen, Austria; Amgen, Belg.; Amgen, Canad.; Amgen, Cz.; Amgen, Denm.; Amgen, Fin.; Amgen, Fr.; Amgen, Ger.; Genesis, Gr.; Amgen, Hong Kong; Amgen, Hung.; Amgen, Irl.; Amgen, Israel; Amgen, Ital.; Amgen, Neth.; Amgen, Norw.; Amgen, Pol.; Amgen, Port.; Amgen, Spain; Amgen, Swed.; Amgen, Switz.; Eczacibasi, Turk.; Amgen, UK; Amgen, USA.*
⊗ Darbepoetin alfa (p.1058·2).
Anaemias.

Araniforce-forte *Weber & Weber, Ger.*
Homoeopathic preparation.

Aranisan-N *Weber & Weber, Ger.†.*
Homoeopathic preparation.

Aranox *APT, Hong Kong.*
Itraconazole (p.536·3).
Fungal infections.

Arasena-A *Mochida, Jpn.*
Vidarabine (p.912·2).
Herpesvirus infections.

Aratac *Alphapharm, Austral.; Alphapharm, Malaysia; Pacific, NZ; Alphapharm, Singapore; Merck, Singapore; Merck, Thai.*
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Aratan *Andromaco, Chile.*
Losartan potassium (p.1326·1).
Hypertension.

Aratan D *Andromaco, Chile.*
⊗ Losartan potassium (p.1326·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Arava *Aventis, Arg.; Aventis, Austral.; Aventis, Austria; Sanofi-Aventis, Belg.; Sanofi-Aventis, Braz.; Aventis, Canad.; Sanofi-Aventis, Chile; Sanofi-Aventis, Cz.; Aventis, Denm.; Sanofi-Aventis, Fin.; Sanofi-Aventis, Fr.; Aventis, Ger.; Sanofi-Aventis, Gr.; Sanofi-Aventis, Hong Kong; Sanofi-Aventis, Hung.; Aventis, India; Sanofi-Aventis, Indon.; Sanofi-Aventis, Irl.; Aventis, Israel; Sanofi-Aventis, Ital.; Sanofi-Aventis, Malaysia; Aventis, Mex.; Aventis, NZ; Aventis, Neth.; Aventis, Norw.; Aventis, Philipp.; Sanofi-Aventis, Pol.; Sanofi-Aventis, Port.; Aventis, Rus.; Aventis, S.Afr.; Sanofi-Aventis, Singapore; Sanofi-Aventis, Spain; Aventis, Swed.; Aventis, Switz.; Aventis, Thai.; Aventis, Turk.; Aventis, UK; Hoechst Marion Roussel, USA; Sanofi-Aventis, Venez.*
Leflunomide (p.75·3).
Psoriatic arthritis; rheumatoid arthritis.

Arbid *Kolassa, Austria; Vifor, Switz.*
⊗ Buphenine hydrochloride (p.2270·2); diphenylpyraline hydrochloride (p.578·2).
Rhinitis; sinusitis.

Arbid N *Gepepharm, Ger.†.*
Diphenylpyraline hydrochloride (p.578·2).
Cold symptoms.

Arbidol *Masterlek, Rus.*
6-Bromo-5-hydroxy-1-methyl-4-dimethylaminomethyl-2-phenylthiomethylindole-3 carboxylic acid hydrochloride ethyl ester monohydrate.
Viral infections.

Arbid-top *Vifor, Switz.*
Phenylephrine hydrochloride (p.1568·1); dequalinium chloride (p.1641·3); muramidase hydrochloride (p.2348·1).
Nasal congestion.

Arbil *Ranbaxy, UK.*
Carbamazepine (p.471·3).
Bipolar disorder; epilepsy; trigeminal neuralgia.

Arbistin *Altana, Mex.*
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

Arbixil *Meyer, Venez.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol (p.1120·1) or clenbuterol hydrochloride (p.1120·1).
Respiratory-tract disorders.

Arbum *Jaldes, Fr.*
Lappa (p.2330·3); zinc; selenium; vitamins (p.1922·1).
Seborrhoea.

Arbuz *Bittermedizin, Ger.†.*
Papain (p.2362·3); pancreatin (p.2360·1).
Digestive disorders.

Arca-Be *Arcana, Austria.*
Thiamine disulfide (p.1976·3); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Neuralgia; neuritis.

Arcablock *Arcana, Austria.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Arcablock comp *Amat, Austria.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Arca-Enzym *Arcana, Austria.*
Pancreatin (p.2360·1); cellulase (p.2279·1); ox bile (p.2266·3); bromelains (p.2269·1).
Digestive disorders.

Arcalen *Herbapol Poznan, Pol.*
Arnica (p.2260·2); calendula (p.2273·1); esculoside (p.2248·2).
Soft-tissue injury.

Arcalion *Servier, Braz.; Grunenthal, Chile; Therval, Fr.; Servier, Gr.; Servier, Hong Kong; Serdia, India; Servier, Indon.; Servier, Malaysia; Servier, Philipp.; Servier, Port.; Servier, Singapore; Servier, Spain; Servier, Switz.; Servier, Thai.; Servier, Turk.; Servier, Venez.*
Sulbutiamine (p.1976·1).
Asthenia; tonic; vitamin B deficiency.

Arcalyst *Regeneron, USA.*
Rilonacept (p.2379·2).
Cryopyrin-associated periodic syndromes.

Arcamox *Armoxindo, Indon.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Arcanafenac *Merck, S.Afr.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Arcapec *Meprofarm, Indon.*
Attapulgite (p.1709·1); pectin (p.2145·2).
Diarrhoea.

Arcasin
Note. This name is used for preparations of different composition.
Meda, Ger.
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Esteve, Spain†.
Cisapride (p.1720·3).
Gastroparesis.

Arcavit A *Merck, Austria†.*
Vitamin A acetate (p.1973·1).
Vitamin A deficiency.

Arcavit A/E *Arcana, Austria.*
Vitamin A palmitate (p.1973·1); *dl*-alpha tocoferil acetate (p.1992·3).
Vitamin A and E deficiency.

Arcefal *Arlex, Mex.*
Cefaclor (p.217·2).
Bacterial infections.

Arceligasol *Gezzi, Arg.*
Hyssop (p.2323·3); bladderwrack (p.2384·2); fennel (p.2302·3); coltsfoot (p.1555·1); cynara (p.2291·2); equisetum (p.2299·3); peppermint (p.1761·2).

Arcental *FS Profas, Spain; Pliva, Spain.*
Ketoprofen (p.73·1).
Fever; gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Arche-cerin *Archea, Ger.†.*
Homoeopathic preparation.

Arche-gripal *Archea, Ger.†.*
Homoeopathic preparation.

Arche-septin *Archea, Ger.†.*
Homoeopathic preparation.

Archidex *TP, Thai.*
⊗ Dexamethasone phosphate (p.1526·2); neomycin (p.305·1).
Infected eye or ear disorders.

Archifen
Note. This name is used for preparations of different composition.
Archifar, Thai.
Ear drops: Chloramphenicol (p.239·3); lidocaine hydrochloride (p.1862·3).
Bacterial ear infections.

Archifar, Thai.
Eye drops: Chloramphenicol (p.239·3).
Bacterial eye infections.

Arcid *Diafarm, Spain.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastric hyperacidity; gastro-oesophageal reflux; peptic ulcer.

Arclonac *Condrugs, Thai.*
Diclofenac sodium (p.44·3).
Musculoskeletal and joint disorders.

Arcobee with C *Nature's Bounty, USA.*
Vitamin B substances with vitamin C (p.1922·1).

Arcocilin *Biofarma, Venez.*
Ampicillin (p.204·1).
Bacterial infections.

Arcocillin *Armoxindo, Indon.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Arcodryl *Armoxindo, Indon.*
Diphenhydramine hydrochloride (p.577·2).
Allergic disorders.

Arcoiran *Alter, Spain.*
Sumatriptan succinate (p.625·2).
Migraine.

Arcolan *Galderma, Braz.*
Ketoconazole (p.539·1).
Seborrhoeic dermatitis.

Arcolane *Galderma, Chile; Galderma, India; Galderma, Venez.*
Ketoconazole (p.539·1).
Pityriasis versicolor; scalp disorders; seborrhoeic dermatitis.

Arcored *Armoxindo, Indon.*
Vitamin B (p.1980·2).
Anaemias; nutritional supplement.

Arcosal *Rosco, Denm.*
Tolbutamide (p.463·1).
Diabetes mellitus.

Arcostrong *Eadriex, Philipp.*
Vitamins; minerals; ginseng; choline; inositol; methionine (p.1922·1).
Tonic.

Arcoxia *MSD, Arg.; MSD, Austria; MSD, Belg.; MSD, Braz.; MSD, Cz.; MSD, Denm.; MSD, Fin.; MSD-Chibret, Fr.; MSD, Ger.; Vianex (Βιανέξ), Gr.; MSD, Hong Kong; MSD, Indon.; MSD, Irl.; MSD, Israel; MSD, Ital.; MSD, Malaysia; MSD, Mex.; MSD, NZ; MSD, Neth.; MSD, Norw.; MSD, Philipp.; MSD, Port.; MSD, Singapore; MSD, Spain; MSD, Swed.; MSD, Thai.; MSD, UK; MSD, Venez.*
Etoricoxib (p.53·1).
Ankylosing spondylitis; osteoarthritis; pain; rheumatoid arthritis.

Arctuvan *Klinge, Ger.*
Bearberry leaves (p.2263·3).
Urinary-tract infections.

Ardeaelytosol *Ardeapharma, Cz.*
A range of electrolyte infusions (p.1667·1).

Ardeanutrisol G *Ardeapharma, Cz.*
Anhydrous glucose (p.1945·3).
Hypoglycaemia; ketoacidosis; parenteral nutrition.

Ardeanutrisol SO *Ardeapharma, Cz.†.*
Sorbitol (p.1965·1).
Parenteral nutrition.

Ardeaosmosol MA *Ardeapharma, Cz.*
⊗ Mannitol (p.1330·2).
Acute renal failure; forced diuresis; intra-ocular hypertension; intracranial hypertension.

Ardey-aktiv *Ardeypharm, Ger.*
Ginseng (p.2312·1).
Tonic.

Ardeyceryl P *Ardeypharm, Ger.†.*
Pyritinol hydrochloride (p.369·1).
Mental function disorders.

Ardeycholan *Ardeypharm, Ger.*
Cynara (p.2291·2).
Biliary-tract disorders; dyspepsia.

Ardeycordal mono *Ardeypharm, Ger.*
Crataegus (p.2289·1).
Heart failure.

Ardeycordal N *Ardeypharm, Ger.†.*
Crataegus (p.2289·1); potassium aspartate (p.1684·2); magnesium aspartate (p.1679·1).
Arrhythmias.

Ardeydorm *Ardeypharm, Ger.*
Tryptophan (p.427·1).
Sleep disorders.

Ardeydystin *Ardeypharm, Ger.†.*
Kava (p.2328·3).
Nervous disorders.

Ardeyhepan *Emonta, Austria; Ardeypharm, Ger.*
Milk thistle (p.1452·1).
Liver disorders.

Ardeynephron *Ardeypharm, Ger.*
Java tea (p.2328·2).
Urinary-tract disorders.

Ardeysedon *Ardeypharm, Ger.*
Valerian root (p.2410·1); lupulus (p.2335·2).
Nervous disorders; sleep disorders.

Ardeytropin *Ardeypharm, Ger.*
Tryptophan (p.427·1).
Depression; sleep disorders.

Ardin *Korea Pharma, Singapore.*
Loratadine (p.583·3).
Allergic rhinitis; urticaria.

Ardine *Disprovent, Arg.†; Columbia, Mex.†; Reig Jofre, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Ardine Bronquial *Antibioticos, Spain†.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Ardineclav *Reig Jofre, Spain.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Ardinex *Abbott, Austria; AstraZeneca, Cz.†; Abbott, Fin.; Abbott, Pol.; Mundipharma, Swed.*
Ibuprofen (p.64·2); codeine phosphate (p.37·2).
Fever; pain.

Ardium *Servier, Indon.*
Flavonoids (hesperidin (p.2304·3), diosmin (p.2304·2)).
Haemorrhoids; phlebitis; venous insufficiency.

Ardoral *Cinfa, Spain.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastric hyperacidity; gastro-oesophageal reflux; peptic ulcer.

Arduan *Gedeon Richter, Cz.; Gedeon Richter, Hung.; Richter, Pol.; Gedeon Richter, Rus.*
Pipecuronium bromide (p.1908·2).
Competitive neuromuscular blocker.

Arecamin *Northia, Arg.*
Cefalotin (p.220·2).
Bacterial infections.

Arechin *Polfa Pabianice, Pol.*
Chloroquine phosphate (p.599·3).
Amoebiasis; lambliasis; lupus erythematosus; malaria; rheumatoid arthritis.

Arecid *Allertec, Gr.*
Clarithromycin (p.248·2).
Bacterial infections.

Aredia *Novartis, Austral.; Novartis, Austria; Novartis, Belg.; Novartis, Braz.; Novartis, Canad.; Novartis, Chile†; Novartis, Cz.; Novartis, Denm.; Novartis, Fin.; Novartis, Fr.; Novartis, Ger.; Novartis, Gr.; Novartis, Hong Kong; Novartis, Hung.; Novartis, Indon.; Novartis, Irl.; Novartis, Israel; Novartis, Ital.; Novartis, Malaysia; Novartis, Mex.; Novartis, NZ†; Novartis, Neth.; Novartis, Norw.†; Novartis, Philipp.; Novartis, Pol.; Novartis, Port.†; Novartis, Rus.; Novartis, S.Afr.; Novartis, Singapore†; Novartis, Spain; Novartis, Swed.; Novartis, Switz.; Novartis, Thai.; Novartis, Turk.; Novartis, UK; Novartis, USA; Novartis, Venez.†.*
Pamidronate disodium (p.1101·1).
Hypercalcaemia of malignancy; metastatic bone pain; osteolytic bone metastases; osteoporosis; Paget's disease of bone.

Aredronet *Sun, India†.*
Pamidronate disodium (p.1101·1).
Hypercalcaemia of malignancy; osteolytic lesions and bone pain in multiple myeloma and in bone metastases associated with breast cancer; Paget's disease of bone.

Aregen *Novartis, Gr.; Normal, Port.*
Pimecrolimus (p.1609·1).
Atopic dermatitis; atopic eczema.

Arelix
Aventis, Austria; Aventis, Ger.
⊗ Piretanide (p.1372·3) or piretanide sodium (p.1372·3).
Forced diuresis; heart failure; hypertension; oedema; renal failure.

Sanofi-Aventis, Braz.; Sanofi-Aventis, Irl.; Sanofi Synthelabo, S.Afr.; Aventis, Switz.
⊗ Piretanide (p.1372·3).
Hypertension; oedema.

Arelix ACE *Aventis, Ger.*
⊗ Piretanide (p.1372·3); ramipril (p.1385·3).
Hypertension.

Areloger *Gerard, Irl.*
Meloxicam (p.80·3).
Ankylosing spondylitis; osteoarthritis; rheumatoid arthritis.

Arem *Pharmacare, S.Afr.*
Nitrazepam (p.1011·2).
Insomnia.

Aremin *Difass, Ital.*
Suleparoid (p.1406·3).
Soft-tissue injury; thromboembolic disorders.

Aremis *Esteve, Spain.*
Sertraline hydrochloride (p.421·3).
Anxiety; depression; obsessive-compulsive disorder; post-traumatic stress disorder.

Arendal *Ivax, Arg.; Pharma Investi, Chile.*
Alendronate sodium (p.1088·1).
Osteoporosis; Paget's disease of bone.

Areplex *Adamed, Pol.*
Clopidogrel bisulfate (p.1250·2).
Thrombosis prophylaxis.

Ares *Uniao Quimica, Braz.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Arestal *Janssen-Cilag, Fr.; Norgine, Neth.*
Loperamide oxide (p.1741·2).
Diarrhoea.

Arestin *Orapharma, Port.; OraPharma, USA.*
Minocycline hydrochloride (p.300·3).
Periodontitis.

Aretensin *Takeda, Ger.*
⊗ Ramipril (p.1385·3); piretanide (p.1372·3).
Hypertension.

Areuma *Ecobi, Ital.*
Nimesulide (p.95·3).
Fever; inflammation; pain.

Areuzolin *Areu, Spain.*
Cefazolin sodium (p.222·1).
Bacterial infections.

Arfarel *Pharmanik (Φαρμανικ), Gr.*
Clindamycin phosphate (p.251·2).
Acne.

Arfen
Note. This name is used for preparations of different composition.
Medochemie, Hong Kong; Medochemie, Malaysia.
Paracetamol (p.108·1).
Fever; pain.

Lisapharma, Ital.
Ibuprofen lysine (p.64·2).
Gynaecological inflammatory disorders; musculoskeletal and joint disorders; radiculitis.

Medinfar, Port.
Ibuprofen (p.64·2).
Fever; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Arfen Plus *Medochemie, Hong Kong.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Arficin *Belupo, Cz.*
Rifampicin (p.325·3).
Bacterial infections including tuberculosis and leprosy.

Arfloxina *Arlex, Mex.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Arflur *FDC, India†.*
Flurbiprofen (p.61·2).
Musculoskeletal and joint disorders; pain.

Arganova *Mitsubishi, Neth.*
Argatroban (p.1217·1).
Heparin-induced thrombocytopenia.

Argaryn *Arlex, Mex.†.*
Omeprazole (p.1753·1).
Peptic ulcer.

Argatroban *SmithKline Beecham, USA.*
Argatroban (p.1217·1).
Heparin-induced thrombocytopenia.

Argeal *Pierre Fabre, Arg.; Ducray, Fr.*
Kaolin (p.1738·1); saw palmetto (p.2192·3).
Seborrhoeic dermatitis.

Argeflox *Nova Argentia, Arg.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Argemol *Loeffler, Mex.*
Sulfadiazine silver (p.337·2).
Burns.

Argenpal *Braun, Port.†; Braun, Spain.*
Silver nitrate (p.2387·2).
Aphthous ulcers; skin disorders; verrucas; wounds.

Argent *Katadyn, Switz.†.*
Heavy kaolin (p.1738·1); silver (p.2387·1).
Burns; wounds.

Argentafil *Valeant, Mex.*
Sulfadiazine silver (p.337·2).
Burns; skin disorders; ulcers; wounds.

Argental *Liferpal, Mex.*
Sulfadiazine silver (p.337·2).
Infected skin disorders.

Argent-Eze *Lennon, S.Afr.*
Sulfadiazine silver (p.337·2).
Burns.

Argentocromo *Bucca, Spain†.*
Merbromin (p.1652·1); silver (p.2387·1).
Gingivitis; mouth infection.

Argentofenol *Bucca, Spain†.*
Phenol (p.1656·1); methylthioninium chloride (p.1450·3); silver nitrate (p.2387·2).
Aphthous stomatitis; oral bleeding; tonsillitis.

Argentum Complexe no 98 *Lehning, Fr.*
Homoeopathic preparation.
Formerly known as Complexe no 98.

Argentum Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Argesic *Econo Med, USA†.*
Methyl salicylate (p.85·3).
Muscle, joint, and soft-tissue pain; neuralgia.

Argesic-SA *Econo Med, USA.*
Salsalate (p.122·1).
Fever; inflammation; pain.

Argidam *Terapeutico, Ital.*
L-arginine; damiana; muira puama; zinc gluconate; vitamin E (p.1922·1).
Nutritional supplement.

Argiletz *Argiletz, Fr.†.*
Nutritional supplement (p.1922·1).

Argin *Volchem, Ital.*
Protein supplement (p.1922·1).
Arginine deficiency.

Arginaid Extra *Novartis Nutrition, USA.*
Preparation for enteral nutrition (p.1922·1).

Arginitric *Innopharm, Malaysia.*
Arginine (p.1928·2).
Dietary supplement.

Arginotri-B *Bouchara-Recordati, Fr.; Bouchara, Switz.*
Arginine hydrochloride (p.1928·2); thiamine hydrochloride; pyridoxine hydrochloride (p.1922·1).
Pain; tonic; vitamin B deficiency.

Argirofedrina *Vaillant, Ital.†.*
⊗ Ephedrine sulfate (p.1558·2); anhydrous sodium sulfate (p.1771·3); mild silver protein (p.2387·3).
Nasal congestion.

Argirol *Allergan, Braz.*
Mild silver protein (p.2387·3).
Eye infections.

Argisept *Centaur, India†.*
Sulfadiazine silver (p.337·2); chlorhexidine gluconate (p.1635·3).
Burns; pressure sores; ulcers.

Argisone *Teofarma, Ital.*
⊗ Hydrocortisone acetate (p.1535·2); mild silver protein (p.2387·3).
Bacterial eye infections.

Argital *ISA, Arg.†.*
Multivitamin and mineral preparation (p.1922·1).

Argivit *Aesculapius, Ital.*
Amino-acid, vitamin, and mineral preparation (p.1922·1).
Nutritional supplement.

Argocian *Biol, Arg.*
⊗ Hexoprenaline sulfate (p.1123·2).
Premature labour.

Argofan *Zentiva, Cz.*
Venlafaxine hydrochloride (p.427·3).
Anxiety disorders; depression.

Argol Essenza Balsamica *Alba Thyment, Pol.*
Cinnamon oil (p.2283·2); melissa oil (p.2339·3); mint oil (p.2345·2); clove oil (p.2285·1); thyme oil (p.2401·2); lemon oil (p.2332·3); nutmeg oil (p.2355·3); coriander oil (p.2288·1); menthol (p.2340·1).
Digestive disorders; insect bites; motion sickness; musculoskeletal and joint pain; pruritus; respiratory-tract disorders.

Argol Grip *Alba Thyment, Pol.*
Melissa oil (p.2339·3); cinnamon oil (p.2283·2); clove oil (p.2285·1); nutmeg oil (p.2355·3); thyme oil (p.2401·2); lemon oil (p.2332·3); coriander oil (p.2288·1); peppermint oil (p.1761·2); eucalyptus oil (p.2301·2); niaouli oil (p.2351·3); menthol (p.2340·1); camphor (p.2273·2).
Musculoskeletal and joint disorders; respiratory-tract disorders.

Argol Rheuma *Alba Thyment, Pol.*
Melissa oil (p.2339·3); cinnamon oil (p.2283·2); clove oil (p.2285·1); nutmeg oil (p.2355·3); thyme oil (p.2401·2); lemon oil (p.2332·3); coriander oil (p.2288·1); peppermint oil (p.1761·2); rosemary oil (p.2381·3); cajuput oil (p.2271·2); menthol (p.2340·1).
Musculoskeletal and joint disorders.

Argosulfan *Jelfa, Cz.†; Jelfa, Hung.; Jelfa, Pol.; Jelfa, Rus.*
Sulfathiazole silver (p.343·3).
Burns; infected skin disorders; infected ulcers; radiation-damaged skin; wounds.

Argotone *Bracco, Ital.*
⊗ Ephedrine hydrochloride (p.1558·2); mild silver protein (p.2387·3).
Nasal congestion.

Argun *Merckle, Ger.†.*
Lonazolac calcium (p.77·3).
Inflammation; musculoskeletal, joint, and soft-tissue disorders; pain.

Argyrophedrine *Merck, Belg.*
⊗ Ephedrine levulinate (p.1559·1); mild silver protein (p.2387·3).
Respiratory-tract congestion.

Arhemapectine Antihemorragique *Aerocid, Fr.†.*
Pectin (p.2145·2).
Haemorrhage.

Arheumacare *Health Perception, UK.*
Tablets, glucosamine sulfate (p.2313·2); turmeric (p.1473·2); ginger (p.1732·3); capsules, cod-liver oil (p.1935·2); borage oil (p.2267·3).
Joint disorders.

Aria *Lichtwer, UK.*
Soya isoflavones (p.2391·2); calcium; folic acid; B vitamins; selenium (p.1922·1).
Nutritional supplement.

Arial *Dompe, Ital.*
⊗ Salmeterol xinafoate (p.1135·1).
Obstructive airways disease.

Arianna *Schering, Ital.*
Gestodene (p.2105·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.

Aricept *Pfizer, Austral.; Pfizer, Austria; Pfizer, Belg.; Pfizer, Canad.; Pfizer, Cz.; Pfizer, Denm.; Pfizer, Fin.; Eisai, Fr.; Eisai, Ger.; Pfizer, Ger.; Pfizer, Gr.; Eisai, Hong Kong; Pfizer, Hung.; Eisai, Indon.; Pfizer, Irl.; Pfizer, Israel; Pfizer, Ital.; Eisai, Jpn; Eisai, Malaysia; Pfizer, NZ; Pfizer, Norw.; Eisai, Philipp.; Pfizer, Pol.; Pfizer, Port.; Pfizer, Rus.; Pfizer, S.Afr.; Eisai, Singapore; Pfizer, Spain; Pfizer, Swed.; Pfizer, Switz.; Eisai, Thai.; Pfizer, Turk.; Pfizer, UK; Eisai, USA; Pfizer, USA.*
Donepezil hydrochloride (p.364·3).
Alzheimer's disease; vascular dementia.

Aricilina *Ariston, Braz.*
Benzylpenicillin potassium (p.213·1).
Bacterial infections.

Ariclaim *Lilly, Cz.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Ital.; Boehringer Ingelheim, Neth.; Lilly, Port.*
Duloxetine hydrochloride (p.389·3).
Diabetic peripheral neuropathy; stress urinary incontinence in women.

Aricodiltosse *Menarini, Ital.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Aridex *Gentex, USA.*
Phenylephrine hydrochloride (p.1568·1); carbinoxamine maleate (p.570·2); pentoxyverine citrate (p.1567·3).
Upper respiratory-tract disorders.

Aridil *CP Pharmaceuticals, UK.*
⊗ Furosemide (p.1292·1); amiloride hydrochloride (p.1209·2).
These ingredients can be described by the British Approved Name Co-amilofruse.
Ascites; oedema.

Arifenicol *Ariston, Braz.*
Chloramphenicol sodium succinate (p.240·1).
Bacterial infections.

Ariflam *Ultra, Mex.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders; pain.

Ariflam Forte *Ultra, Mex.*
Diclofenac sodium (p.44·3); thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Musculoskeletal pain; neuralgia; neuropathy.

Arifon *Socofar, Port.; Servier, Rus.*
⊗ Indapamide (p.1314·1).
Hypertension.

Arilin *Wolff, Ger.; Medika, Switz.*
Metronidazole (p.837·1).
Anaerobic bacterial infections; protozoal infections; trichomoniasis.

Arilvax *Evans, Fin.†; Evans, Irl.†; Evans Medical, Israel; Chiron Vaccines, Neth.; Medpro, S.Afr.; Celltech, Singapore†; SBL, Swed.†; Evans Vaccines, Switz.†; Chiron Vaccines, UK.*
A yellow fever vaccine (17D strain) (p.2243·2).
Active immunisation.

Arima *Alphapharm, Austral.*
Moclobemide (p.411·1).
Depression.

Arimidex *AstraZeneca, Arg.; AstraZeneca, Austral.; AstraZeneca, Austria; AstraZeneca, Belg.; AstraZeneca, Braz.; AstraZeneca, Canad.; AstraZeneca, Chile; AstraZeneca, Cz.; AstraZeneca, Denm.; AstraZeneca, Fin.; AstraZeneca, Fr.; AstraZeneca, Ger.; Promed, Ger.; Stern, Ger.; AstraZeneca, Gr.; AstraZeneca, Hong Kong; AstraZeneca, Hung.; AstraZeneca, Indon.; AstraZeneca, Irl.; AstraZeneca, Israel; AstraZeneca, Ital.; AstraZeneca, Malaysia; AstraZeneca, Mex.; AstraZeneca, NZ; AstraZeneca, Neth.; AstraZeneca, Norw.; AstraZeneca, Philipp.; AstraZeneca, Pol.; AstraZeneca, Port.; AstraZeneca, Rus.; AstraZeneca, S.Afr.; AstraZeneca, Singapore; AstraZeneca, Spain; AstraZeneca, Swed.; AstraZeneca, Switz.; AstraZeneca, Thai.; AstraZeneca, Turk.; AstraZeneca, UK; AstraZeneca, USA; AstraZeneca, Venez.*
⊗ Anastrozole (p.681·2).
Breast cancer; prostatic cancer.

Arinate *Dafra, Belg.*
Artesunate (p.598·2).
Malaria.

Arindap *Medana, Rus.*
⊗ Indapamide (p.1314·1).
Hypertension.

Arintapin *Sandoz, Denm.*
Mirtazapine (p.409·2).
Depression.

Arionecs *Liconsa, Cz.*
Losartan potassium (p.1326·1).
Heart failure; hypertension.

Aripax *Erfar, Gr.*
Lorazepam (p.1004·1).
Anxiety disorders; insomnia; status epilepticus.

Ariproxina *Ariston, Braz.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Aristaloe *Neo Dermos, Arg.*
Aloe vera (p.1588·2); elastin (p.2286·1).

Aristamed *Nordmark, Thai.†.*
Sulfisomidine (p.344·1).
Bacterial skin infections.

Aristen *Aristopharma, Hong Kong.*
Clotrimazole (p.530·1).
Fungal skin infections.

Aristin-C *Anfarm, Gr.*
Ciprofloxacin (p.243·3) or ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Aristo
Note. This name is used for preparations of different composition.
Steiner, Ger.
St John's wort (p.422·3).
Depression.

Aristopharma, Hong Kong.
⊗ Triamcinolone acetonide (p.1544·3).
Skin disorders.

Aristobet-N *Aristopharma, Hong Kong.*
⊗ Betamethasone sodium phosphate (p.1518·3); neomycin sulfate (p.305·1).
Infected or inflammatory eye, ear, or nose disorders.

Aristochol *Steiner, Ger.†.*
Greater celandine (p.2317·1); cape aloe (p.1705·2).
Constipation.

Aristochol CC *Steiner, Ger.†.*
Greater celandine (p.2317·1); turmeric (p.1473·2).
Gastrointestinal spasm.

Aristochol N *Steiner, Ger.†.*
Greater celandine (p.2317·1); achillea (p.2245·2); taraxacum (p.2395·1); gnaphalii flowers; absinthium (p.2244·1).
Biliary disorders.

Aristocillin *Aristo, India.*
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Aristocor *Kwizda, Austria.*
Flecainide acetate (p.1288·1).
Arrhythmias.

Aristocort
Sigma, Austral.; Valeo, Canad.; Lederle, Hong Kong†; Zuellig, NZ; Wyeth-Ayerst, Thai.
⊗ Triamcinolone acetonide (p.1544·3).
Skin disorders.

Astellas, USA†.
⊗ Triamcinolone (p.1544·2) or trimacinolone acetonide (p.1544·3).
Corticosteroid.

Aristoforat *Steiner, Ger.*
St John's wort (p.422·3).
Depression.

Aristogyl *Aristo, India.*
Metronidazole (p.837·1) or metronidazole benzoate (p.837·1).
Amoebiasis; giardiasis.

Aristogyl Plus *Aristo, India.*
Metronidazole (p.837·1); diloxanide furoate (p.832·2); simeticone (p.1770·2).
Amoebiasis.

Aristogyl-F
Note. This name is used for preparations of different composition.
Aristo, India.
Oral suspension: Metronidazole benzoate (p.837·1); furazolidone (p.834·3).
Bacterial and protozoal gastrointestinal infections.

Aristo, India.
Tablets: Metronidazole (p.837·1); furazolidone (p.834·3); simeticone (p.1770·2).
Bacterial and protozoal gastrointestinal infections.

Aristomox *Aristo, India.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Aristomycin *Farmanic, Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Aristophen *Aristopharma, Hong Kong.*
Chloramphenicol (p.239·3).
Bacterial eye infections.

Aristopramida *Ariston, Braz.*
Metoclopramide hydrochloride (p.1747·3).
Nausea and vomiting.

Aristospan *Valeo, Canad.; Fujisawa, USA.*
⊗ Triamcinolone hexacetonide (p.1544·3).
Corticosteroid; musculoskeletal and joint disorders.

Aristozyme
Note. This name is used for preparations of different composition.
Aristo, India.
Capsules: Amylase (p.2256·3); pepsin (p.2365·1); simeticone (p.1770·2).
Dyspepsia.

Aristo, India.
Oral liquid: Amylase (p.2256·3); pepsin (p.2365·1).
Dyspepsia.

Aristrol *Otsira, India†.*
Calcitriol (p.1986·2).

Aristrol Forte *Otsira, India†.*
Calcitriol (p.1986·2); calcium (p.1675·2); zinc (p.1999·1).

Aritmal *Biosel, Turk.*
Lidocaine hydrochloride (p.1862·3).
Arrhythmias; local anaesthesia.

Arixtra *GSK, Austral.; GSK, Belg.; Sanofi Synthelabo, Braz.; GSK, Canad.; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Fr.; GSK, Ger.; GSK, Gr.; Sanofi Synthelabo, Hong Kong†; GSK, Indon.; GSK, Ital.; GSK, Malaysia; GSK, Mex.; Sanofi Synthelabo, NZ†; GSK, Neth.; GSK, Norw.; GSK, Pol.; GSK, Port.; GSK, Rus.; GSK, Singapore; GSK, Spain; GSK, Swed.; GSK, Switz.; GSK, Thai.; GSK, UK; GSK, USA.*
Fondaparinux sodium (p.1291·1).
Deep-vein thrombosis; myocardial infarction; pulmonary embolism; thromboembolism prophylaxis; unstable angina.

Arjun *Arjun, UK.*
Menthol (p.2340·1) in aqueous cream.

Arkamin *Unichem, India.*
Clonidine hydrochloride (p.1247·1).
Hypertension.

Arkamin-H *Unichem, India.*
⊗ Clonidine hydrochloride (p.1247·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Arket *Lemery, Mex.*
Ketoprofen (p.73·1).
Musculoskeletal, joint, and peri-articular disorders.

Arketin *Lesvi, Spain.*
Risperidone (p.1024·2).
Behaviour disorders in children; bipolar disorder; psychoses.

Arketis *Medochemie, Cz.*
Paroxetine hydrochloride (p.414·2).
Anxiety; depression; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder; social phobia.

Arkine *Pyridam, Indon.*
Trihexyphenidyl hydrochloride (p.820·2).
Parkinsonism.

Arkocaps *Arkopharma, Switz.†.*
Frangula bark (p.1732·2).
Constipation.

Arkocapsulas Carbon Vegetal *Arkochim, Spain.*
Activated charcoal (p.1435·2).
Diarrhoea.

Arkocapsulas Hiperico *Arkochim, Spain.*
St John's wort (p.422·3).
Tonic.

Arkogelules *Arkopharma, Fr.*
A range of herbal preparations.

Arkophytum *Arkomedika, Fr.†.*
Devil's claw root (p.39·1); black currant (p.2267·1); salix (p.121·3).
Painful joint disorders.

Arkotux *Arkochim, Spain.*
Ivy (p.2328·1).
Respiratory-tract congestion.

Arkovital C *Arkopharma, Fr.*
Ascorbic acid (p.1983·3).
Cold symptoms; tonic; vitamin C deficiency.

Arlecyn-K *Ultra, Mex.*
Clarithromycin (p.248·2).
Bacterial infections.

Arlemide *Rontag, Arg.*
Aripiprazole (p.962·3).
Schizophrenia.

Arlette *Gynopharm, Chile; Vivax Gynopharm, Venez.*
Desogestrel (p.2093·2).
Progestogen-only oral contraceptive.

Arlevert *Hennig, Cz.; Hennig, Ger.; Henning, Hung.; Ashbourne, UK.*
Cinnarizine (p.573·1); dimenhydrinate (p.576·2).
Vertigo.

Arlevid *Arlex, Mex.*
Zalcitabine (p.912·3).
HIV infection.

Arlexen *Arlex, Mex.*
Cefalexin (p.218·2).
Bacterial infections.

Arlexen B *Arlex, Mex.*
Cefalexin (p.218·2); bromhexine (p.1552·2).
Respiratory-tract infections.

Arlexicam *Arlex, Mex.*
Piroxicam (p.117·3).
Fever; inflammation; rheumatism.

Arlidin *Erfa, Canad.; USV, India; Grossman, Mex.*
⊗ Buphenine hydrochloride (p.2270·2).
Cerebral and peripheral vascular disorders; organic mental disorders.

Arlina *Rafarm, Gr.*
Aceclofenac (p.14·3).
Inflammatory disorders.

Arlitene *Meda, Port.†.*
Moxisylyte hydrochloride (p.1344·3).

Arluy *Asofarma, Mex.*
Mebeverine (p.1744·3).
Gastrointestinal spasm.

Armament *Faran, Gr.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma.

Armanor *Servier, Pol.; Servier, Rus.*
Almitrine dimesilate (p.2149·3).
Respiratory failure with hypoxaemia.

Armaya *Centrum, Spain.*
Polypodium leucotomos.
Eczema; psoriasis.

Armil *BMS, Spain†.*
Benzalkonium chloride (p.1629·1).
Skin and mucous membrane disinfection.

Arminol *Krewel, Ger.*
Sulpiride (p.1028·3).
Depression; schizophrenia; vestibular disorders.

Armisetin *Gunsa, Turk.*
Chloramphenicol (p.239·3).
Bacterial infections.

Armistor *Servier, Mex.*
Estradiol (p.2097·2).
Menopausal disorders.

Armix *Servier, Hung.*
Perindopril arginine (p.1368·2) or perindopril erbumine (p.1368·3).
Heart failure; hypertension; myocardial infarction.

Armix Komb *Servier, Hung.*
⊗ Indapamide (p.1314·1); perindopril erbumine (p.1368·3).
Hypertension.

Armix Prekomb *Servier, Hung.*
⊗ Indapamide (p.1314·1); perindopril erbumine (p.1368·3).
Hypertension.

Armocur *Agis, Israel†.*
Cyproterone acetate (p.2088·2).
Prostatic cancer; sexual disorders.

Armoglobulina *CSL, Braz.*
A normal immunoglobulin (p.2225·3).
Hypogammaglobulinaemia; idiopathic thrombocytopenic purpura; passive immunisation.

Armolev *Armoxindo, Indon.*
Levofloxacin (p.292·2).
Bacterial infections.

Armonil
Note. This name is used for preparations of different composition.
Ivax, Arg.
Tilia (p.2402·2); passion flower (p.2363·2); valerian (p.2410·1).
Insomnia.

Recordati, Ital.
Estradiol (p.2097·2).
Menopausal disorders; osteoporosis.

Armonil Noche *Ivax, Arg.*
Melatonin (p.2338·3).
Jet-lag symptoms.

Armonyl *Maver, Chile.*
Valerian (p.2410·1); passion flower (p.2363·2); crataegus (p.2289·1).
Insomnia.

Armotraz *Cipla, India.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Armovit *Armoxindo, Indon.*
Royal jelly; ginseng (p.2312·1); vitamins; minerals; rutoside (p.1922·1).
Nutritional supplement; tonic.

Armoxin *Arlex, Mex.*
Amoxicillin (p.202·2).
Bacterial infections.

Arnecrem *Casasco, Arg.†.*
Permethrin (p.2048·2); benzyl benzoate (p.2036·1); benzocaine (p.1854·1).
Pediculosis.

Arnela *Andromaco, Chile.*
Clotrimazole (p.530·1).
Fungal vulvovaginal infections.

Arnetin *Fisiopharma, Cz.†; Medochemie, Malaysia.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastric hyperacidity; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Arnica + *Homeocan, Canad.*
Homoeopathic preparation.

Arnica Comp
Note. This name is used for preparations of different composition.
DHU, Ger.
Homoeopathic preparation.

DHU, Malaysia†.
Arnica (p.2260·2); calendula (p.2273·1).
Minor wounds; soft-tissue disorders.

Arnica comp/Apis *Weleda, Ger.*
Homoeopathic preparation.

Arnica Complexe no 1 *Lehning, Fr.*
Homoeopathic preparation.
Formerly known as Complexe no 1.

Arnica Compuesta *Ximena Polanco, Chile.*
Homoeopathic preparation.

Arnica Hamamelis Compuesta *Knop, Chile.*
Homoeopathic preparation.

Arnica Hevert Complex *Hevert, Ger.*
Homoeopathic preparation.

Arnica Komplex *Richter, Austria.*
Homoeopathic preparation.

Arnica Massage Balm *Weleda, UK.*
Arnica flower oil; birch leaf oil (p.86·2); lavender oil (p.2331·2); rosemary oil (p.2381·3).
Rheumatic and muscular pain.

Arnica Massage Oil *Weleda, S.Afr.*
Arnica flower oil (p.2260·2); calendula oil (p.2273·1); birch leaf oil (p.2266·3); rosemary oil (p.2381·3); lavender oil (p.2331·2); lavandine oil.
Muscle and joint pain; skin disorders.

Arnica Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Arnica Oligoplex *Madaus, Ger.*
Homoeopathic preparation.

Arnica/Betula comp *Weleda, Ger.*
Homoeopathic preparation.

Arnicadol *Phytomedica, Fr.*
Arnica (p.2260·2); menthol (p.2340·1).
Soft-tissue injury.

Arnicaid *Hylands, Canad.*
Homoeopathic preparation.

Arnicalm *Boiron, Canad.†.*
Homoeopathic preparation.

Arnican *Melisana, Belg.; Cooperation Pharmaceutique, Fr.*
Arnica (p.2260·2).
Soft-tissue disorders.

Arnicare *Nelson, UK.*
Arnica (p.2260·2).
Bruising.

Arnica/Symphytum comp *Weleda, Ger.*
Homoeopathic preparation.

Arnicet *Metochem, Austria.*
Arnica (p.2260·2); hamamelis (p.2318·2).
Muscle pain; skin irritation; soft-tissue disorders.

Arnicon *Pan Quimica, Spain†.*
Arnica (p.2260·2); methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal and joint pain; soft-tissue disorders.

Arnid *Pharos, Indon.*
Nimesulide (p.95·3).
Osteoarthritis; pain; rheumatoid arthritis.

Arnidol *Harras-Curarina, Cz.*
Glycol salicylate (p.62·3); arnica (p.2260·2).
Musculoskeletal, joint, and soft-tissue disorders.

Arniflor *VSM, Neth.*
Homoeopathic preparation.

Arnigel
Note. This name is used for preparations of different composition.
Boiron, Fr.
Homoeopathic preparation.

Boiron, Port.
Arnica (p.2260·2).
Muscle pain; soft-tissue injuries.

Arnikaderm *Knop, Chile.*
Arnica (p.2260·2).
Inflammation; oedema.

Arnikamill *Biomo, Ger.†.*
Chamomile (p.2279·3); arnica flowers (p.2260·2).
Haemorrhoids; skin disorders; soft-tissue inflammation; wounds.

Arnikatinktur *Hetterich, Ger.*
Arnica (p.2260·2).
Inflammation; musculoskeletal, joint, and soft-tissue disorders.

Arnilite *Eulite, Neth.*
Homoeopathic preparation.

Arnisol *Profarm, Pol.*
Aesculus (p.2248·2); arnica (p.2260·2); oak (p.2355·3).
Soft-tissue injury.

Arnol *Cetus, Arg.*
Pancreatin (p.2360·1); dehydrocholic acid (p.2292·2); cellulase (p.2279·1); diazepam (p.986·3).

Arobon *Sanova, Austria; Nestle, Ital.*
Ceratonia (p.2143·2).
Diarrhoea.

Arofexx *Neopharmed, Ital.†.*
Rofecoxib (p.121·1).
Osteoarthritis; rheumatoid arthritis.

Arola Rosebalm *Pharmaceutical Enterprises, S.Afr.*
Bismuth subnitrate (p.1711·2); dimeticone (p.2032·1); allantoin (p.1588·1); zinc oxide (p.1621·2).
Skin disorders.

Arolac *Lisapharm, Fr.*
Lisuride maleate (p.811·1).
Erectile dysfunction; gynaecomastia in males; hyperprolactinaemia; lactation inhibition.

Aroltex *LKM, Arg.*
Pergolide (p.813·1).
Parkinsonism.

Aromadetox *Omega, Fr.*
Honey; black radish; rosemary; cynara; lemon oil; rosemary oil; basil oil; dill oil; peppermint oil; anise oil; wild carrot oil; orange oil; bay oil; nutmeg oil; almond oil (p.1922·1).
Aid to detoxification.

Aromadigest *Omega, Fr.*
Vervain; taragon; taraxacum; lemon oil; basil oil; dill oil; peppermint oil; rosemary oil; anise oil; cardamom oil; ginger oil; bay oil; nutmeg oil; juniper oil (p.1922·1).
Digestive disorders.

Aromag *ICM, Singapore.*
Light magnesium carbonate (p.1743·1); sodium bicarbonate (p.1673·2).
Dyspepsia; gastric hyperacidity; heartburn.

Aromagel *Hasco-Lek, Pol.*
Camphor (p.2273·2); Peru balsam (p.2365·3); rosemary oil (p.2381·3); eucalyptus oil (p.2301·2).
Respiratory-tract disorders; rheumatism.

Aromasil *Pfizer, Spain.*
⊗ Exemestane (p.719·3).
Breast cancer.

Aromasin *Pfizer, Arg.; Pfizer, Austral.; Pfizer, Austria; Pfizer, Belg.; Pfizer, Braz.; Pfizer, Canad.; Pfizer, Chile; Pfizer, Cz.; Pfizer, Denm.; Pfizer, Fin.; Pharmacia, Ger.; Pfizer, Gr.; Pfizer, Hong Kong; Pfizer, Hung.; Pfizer, Indon.; Pharmacia, Irl.; Pharmacia, Israel; Pharmacia, Ital.; Pfizer, Malaysia; Pfizer, NZ; Pfizer, Neth.; Pfizer, Norw.; Pfizer, Philipp.; Pharmacia, Pol.; Pfizer, Port.; Pharmacia, Rus.; Pharmacia, S.Afr.; Pfizer, Singapore; Pfizer, Swed.; Pfizer, Switz.; Pfizer, Thai.; Pfizer, Turk.; Pfizer, UK; Pharmacia Upjohn, USA; Pfizer, Venez.*
⊗ Exemestane (p.719·3).
Breast cancer; prostatic cancer.

Aromasine *Pfizer, Fr.*
⊗ Exemestane (p.719·3).
Breast cancer.

Aromasol *Plantes et Medecines, Fr.*
Clove oil (p.2285·1); peppermint oil (p.1761·2); pine oil (p.2368·2); lavender oil (p.2331·2); cinnamon oil (p.2283·2); rosemary oil (p.2381·3); wild thyme oil (p.2415·3).
Respiratory-tract congestion.

Aromatol *Hasco-Lek, Pol.*
Melissa (p.2339·3); clove oil (p.2285·1); cinnamon oil (p.2283·2); lemon oil (p.2332·3); peppermint oil (p.1761·2); lavender oil (p.2331·2); menthol (p.2340·1).
Circulatory disorders; cold symptoms; gastrointestinal disorders; headache; insomnia; neuralgia; rheumatism.

Aromavital *Omega, Fr.*
Fruit juice; honey; royal jelly; acerola; ginseng; cinnamon oil; turmeric oil; ginger oil; lemon grass oil; clove oil; nutmeg oil; peppermint oil; cumin oil (p.1922·1).
Tonic.

Aromazen *Omega, Fr.*
Melissa; honey; tilia; orange; vervain; basil oil; dill oil; orange oil; chamomile oil; santalum austrocaledonicum oil; lemon verbena oil (p.1922·1).
Sleep disorders.

Aromek *Celon, Pol.*
⊗ Letrozole (p.740·2).
Breast cancer.

Aromenal *Panalab, Arg.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Aronal Forte *Teva, Israel.*
Vitamin A (p.1971·2); guaiazulene (p.2317·3); aluminium lactate (p.2255·1); aldioxa (p.1587·2).
Sensitive gums; toothpaste.

Aronomag *Herbapol Wroclaw, Pol.*
Aronia melanocarpa; dibasic magnesium citrate.
Magnesium deficiency.

Aropax *GSK, Arg.; GSK, Austral.; GSK, Belg.; GSK, Braz.; Novartis, Mex.; GSK, NZ; GSK, S.Afr.*
Paroxetine hydrochloride (p.414·2).
Anxiety; depression; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder; social phobia.

Aroselin *Leovan, Gr.*
Nitrendipine (p.1358·2).
Hypertension.

Arovit
Bayer Consumer, Arg.
Vitamin A acetate (p.1973·1).
Vitamin A deficiency.

Roche, Braz.; Bayer, Ital.
Vitamin A acetate (p.1973·1) or vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Bio-Sante, Canad.
Vitamin A (p.1971·2).

Bayer Sante, Fr.†; Bayer, S.Afr.; Roche, Swed.; Roche, Switz.†.
Vitamin A palmitate (p.1973·1).
Keratinisation disorders; vitamin A deficiency.

Arowash *Cadila, India.*
Black catechu (p.2267·1); liquorice (p.1740·3); clove oil (p.2285·1).
Halitosis; mouth ulcers; toothache.

Aroxat *GSK, Chile.*
Paroxetine hydrochloride (p.414·2).
Depression; obsessive-compulsive disorder; panic attacks; social phobia.

Aroxin *DHA, Hong Kong; DHA, Singapore.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Arpha Hustensirup *Urgo, Ger.†.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Arphos *Fournier, Fr.*
Calcium glycerophosphate; magnesium gluconate (p.1922·1).
Tonic.

Arpicolin *Rosemont, UK.*
Procyclidine hydrochloride (p.814·3).
Drug-induced extrapyramidal disorders; parkinsonism.

Arpilon *Enzypharm, Austria†.*
Pipecuronium bromide (p.1908·2).
Competitive neuromuscular blocker.

Arpisen *Arlex, Mex.*
Rifampicin (p.325·3); isoniazid (p.288·1); pyrazinamide (p.320·2).
Tuberculosis.

Arranon *GSK, USA.*
Nelarabine (p.755·3).
Lymphoblastic leukaemia; lymphoblastic lymphoma.

Arrestin *Svizera, India.*
Aceclofenac (p.14·3).
Inflammation; pain.

Arret *Janssen-Cilag, Irl.; Johnson & Johnson MSD Consumer, UK.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Arretin *Valeant, Mex.; ICN, Pol.*
Tretinoin (p.1618·1).
Acne; hyperkeratosis; photoageing of the skin.

Arrhythmie-Gastreu N *Reckeweg, Ger.*
Homoeopathic preparation.

Arrumalon *Sidus, Arg.†.*
Glycosaminoglycans; peptides; cartilage (p.2277·3); bone marrow.
Osteoarthritis.

Arscolloid *SIT, Ital.*
Dichlorobenzyl alcohol (p.1642·1); silver protein (p.2387·3).
Oral disinfection.

Arsen *Arlex, Mex.*
Senna (p.1769·2).
Constipation.

Arsenal *IQFA, Mex.*
Naproxen (p.92·3).
Inflammation.

Arsenal Compuesto *IQFA, Mex.*
Naproxen sodium (p.92·3); paracetamol (p.108·1).
Fever; inflammation; pain.

Arsicort *Arsmedendi, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Arsinal *Meprofarm, Indon.*
Dipyrone (p.49·2); vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2); vitamin E.
Fatigue; migraine; neuralgia; neuritis.

Arsipor *Arsmedendi, Gr.*
Calcitonin (p.1093·1).
Osteoporosis.

Arsitam *Meprofarm, Indon.*
Ethambutol hydrochloride (p.274·1).
Tuberculosis.

Arsitec *Arsmedendi, Gr.*
Meloxicam (p.80·3).
Inflammatory disorders.

Arsorb *Arrow, Austral.*
Isosorbide mononitrate (p.1318·3).
Angina pectoris.

Arstatin *Arsmedendi, Gr.*
Simvastatin (p.1390·2).
Hyperlipidaemias.

Art *Negma, Fr.; Negma, Israel.*
Diacerein (p.41·3).
Osteoarthritis.

Artagen *Ranbaxy, India.*
Naproxen (p.92·3).
Gout; musculoskeletal, joint, and soft-tissue disorders.

Artal *Pharmia, Fin.*
Pentoxifylline (p.1367·2).
Peripheral and cerebral vascular disorders; vascular eye disorders.

Artamin *Sandoz, Austria; Sandoz, Malaysia.*
Penicillamine (p.1456·2).
Benign hyperglobulinaemic purpura; chronic active hepatitis; cystinosis; cystinuria; heavy metal poisoning; primary biliary cirrhosis; rheumatoid arthritis; scleroderma; Wilson's disease.

Artandyl *Synco, Hong Kong.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Artane *Wyeth, Arg.; Sigma, Austral.; Torrex, Austria; PSI, Belg.; Wyeth, Braz.; Wyeth, Chile†; Sanofi-Aventis, Fr.; Teofarma, Ger.; IFET, Gr.; Wyeth, Hong Kong; Lederle, Indon.; Wyeth, Irl.†; Lederle, Israel†; Teofarma, Ital.; Wyeth, Mex.†; Teofarma, Neth.; Teofarma, Port.; Wyeth, S.Afr.; Teofarma, Spain; Wyeth-Ayerst, Thai.†.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Artaxan *Malesci, Ital.*
Nabumetone (p.91·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Artaxol *Loeffler, Mex.*
Indometacin (p.66·3).
Musculoskeletal and joint disorders.

Artecef *Artecef, Neth.*
Artemotil (p.598·1).
Malaria.

Artecholin *Phytofarm Kleka, Pol.*
Artemisia abrotanum; milk thistle (p.1452·1); peppermint leaf (p.1761·2); cnicus benedictus (p.2285·2); greater celandine (p.2317·1); achillea (p.2245·2); taraxacum (p.2395·1).
Biliary-tract disorders.

Artecholwex *Herbapol Lodz, Pol.*
Artemisia abrotanum; milk thistle (p.1452·1); cnicus benedictus (p.2285·2); achillea (p.2245·2); peppermint leaf (p.1761·2); taraxacum (p.2395·1); greater celandine (p.2317·1).
Biliary-tract disorders.

Artedil *Chiesi, Spain.*
Manidipine hydrochloride (p.1330·2).
Hypertension.

Artedin *GD, Ital.*
Garlic; ginkgo biloba; curcubita; policosanol; vitamin C; vitamin E (p.1922·1).
Nutritional supplement.

Artelac *Bausch & Lomb, Arg.; Riel, Austria; Tramedico, Belg.; Bausch & Lomb, Braz.†; Santen, Denm.; Santen, Fin.; Chauvin, Fr.; Mann, Ger.; Mann, Hung.†; Mann, Irl.; Bausch & Lomb, Mex.; Santen, Norw.; Bausch & Lomb, Philipp.; Mann, Pol.; Lepori, Port.; Santen, Swed.; Pharma-Global, UK.*
Hypromellose (p.2144·2).
Dry eyes.

Artelife *Diba, Mex.*
Pentoxifylline (p.1367·2).
Cerebral and peripheral vascular disorders; circulatory disorders of the eyes and ears.

Artemal *Ipca, India†.*
Artesunate (p.598·2); sulfadoxine (p.338·1); pyrimethamine (p.610·2).
Malaria.

Artemidis *Sigma, Braz.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Androgenisation in women; combined oral contraceptive.

Artemisol *Herbapol Krakow, Pol.*
Absinthium (p.2244·1); tansy (p.2395·1).
Pediculosis.

Artemodi *Holley-Cotec, China.*
Artesunate (p.598·2); amodiaquine (p.597·2).
Malaria.

Artenolol *Ronava, Venez.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Arteolol *Lacer, Spain.*
⊗ Carteolol hydrochloride (p.1241·1).
Angina pectoris; arrhythmias; hypertension.

Arteopilo *Bausch & Lomb, Switz.*
⊗ Carteolol hydrochloride (p.1241·1); pilocarpine hydrochloride (p.1884·3).
Glaucoma; ocular hypertension.

Arteoptic *Novartis, Austria; Chauvin, Belg.; Novartis, Cz.; Novartis, Denm.†; Novartis, Fin.†; Novartis, Ger.; Otsuka, Hong Kong; Novartis Ophthalmics, Hung.†; Chauvin, Neth.; Novartis, Pol.; OM, Port.; Novartis Ophthalmics, Swed.†; Bausch & Lomb, Switz.; Otsuka, Thai.*
⊗ Carteolol hydrochloride (p.1241·1).
Glaucoma; ocular hypertension.

Arterase *Clement, Fr.*
Equisetum (p.2299·3); garlic (p.2309·2); cypress (p.2291·2); aesculus (p.2248·2).
Capillary fragility; venous insufficiency.

Arterenol *Aventis, Ger.*
⊗ Noradrenaline hydrochloride (p.1360·2).
Shock.

Artergin *Orion, Fin.†.*
Codergocrine mesilate (p.363·3).
Mental function disorders in the elderly.

Arteria-cyl Ho-Len-Complex *Liebermann, Ger.*
Homoeopathic preparation.

Arterioflexin *Lannacher, Austria.*
Clofibrate (p.1246·2).
Hyperlipidaemias.

Arteriol *Godor, Arg.*
Buflomedil hydrochloride (p.1236·3).
Cerebral and peripheral vascular disorders; Raynaud's syndrome.

Arteriosan *Bernabo, Arg.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Arteriosan Plus *Bernabo, Arg.*
Amlodipine besilate (p.1214·1); benazepril hydrochloride (p.1223·2).
Hypertension.

Arteriotrat *Purissimus, Arg.*
Folic acid; vitamin B ; vitamin B (p.1922·1).

Arteriovinca *Lepori, Port.; Farma Lepori, Spain†.*
Vincamine (p.2414·1).
Cerebral trauma; cerebrovascular disorders; circulatory disorders of the eye, ear, nose, and throat; mental function impairment; vestibular disorders.

Arterodiet *Yves Ponroy, Fr.†.*
Fish oil (p.1922·1).
Nutritional supplement.

Arteron *Ariston, Braz.*
Pentoxifylline (p.1367·2).

Arterosan *Royal, Chile†.*
Simvastatin (p.1390·2).
Hypercholesterolaemia.

Arterosan Plus *Doetsch, Grether, Switz.*
Crataegus (p.2289·1); melissa (p.2339·3); garlic oil (p.2309·2); ginkgo biloba (p.2311·1).
Cerebrovascular disorders.

Arterosol *Minerva (Μινέρβα), Gr.†.*
Piracetam (p.368·2).
Central nervous system disorders.

Artesiane *Dafra, Belg.*
Artemether (p.598·1).
Malaria.

Artesol *Drugtech, Chile.*
Cilostazol (p.1245·2).
Intermittent claudication.

Arteven *Boehringer Ingelheim, Ital.*
Suleparoid (p.1406·3).
Thrombosis prophylaxis.

Artevil *Drugtech, Chile.*
Clopidogrel (p.1251·1).
Atherosclerosis.

Artex *Therval, Fr.; Servier, Neth.; Servier, Port.*
⊗ Tertatolol hydrochloride (p.1411·1).
Hypertension.

Artexal *Servier, Denm.; Servier, Irl.*
⊗ Tertatolol hydrochloride (p.1411·1).
Hypertension.

Artezine *Shchelkovskii, Rus.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

Artflex *Ivax, Arg.*
Sodium hyaluronate (p.2320·1).
Osteoarthritis of the knee; shoulder pain.

Arth-A Oligocan *Homeocan, Canad.†.*
Homoeopathic preparation.

Artha-G *Williams, USA.*
Salsalate (p.122·1).
Fever; inflammation; pain.

Arth-B Oligocan *Homeocan, Canad.†.*
Homoeopathic preparation.

Arthotec *Pharmacia, Ger.*
Diclofenac sodium (p.44·3).
Misoprostol (p.2013·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Musculoskeletal and joint disorders.

Arthramina *Pharma Nord, Port.*
Glucosamine sulfate potassium chloride (p.2313·2).
Osteoarthritis.

Arthrease *DePuy, Ger.†; Biotechnology, Israel; DePuy, UK.*
Sodium hyaluronate (p.2320·1).
Osteoarthritis of the knee.

Arthremin *Leciva, Cz.†.*
Piroxicam (p.117·3).
Gout; musculoskeletal and joint disorders; pain.

Arthrexin *Alphapharm, Austral.; Alphapharm, Malaysia†; Merck, Malaysia†; Pacific, NZ; Pharmacare, S.Afr.*
Indometacin (p.66·3).
Fever; gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Arthribosan B 31 *Bock, Ger.†.*
Homoeopathic preparation.

ArthriCare *MD, Singapore.*
Glucosamine hydrochloride (p.2313·2) or glucosamine sulfate (p.2313·2).
Dietary supplement; joint disorders.

Arthricare Double Ice *Commerce, USA; Del, USA.*
Menthol (p.2340·1); camphor (p.2273·2).
Muscle and joint pain.

Arthricare Odor Free *Commerce, USA; Del, USA.*
Menthol (p.2340·1); methyl nicotinate (p.85·3); capsaicin (p.32·3).
Muscle and joint pain.

Arthricare Triple Medicated *Del, Canad.†; Commerce, USA; Del, USA.*
Methyl salicylate (p.85·3); menthol (p.2340·1); methyl nicotinate (p.85·3).
Muscle and joint pain.

Arthricare for Women Extra Moisturizing *Del, Canad.†.*
Capsaicin (p.32·3).
Formerly known as Arthricare Hand & Body.

Arthricare for Women Multi-Action *Del, Canad.†.*
Menthol (p.2340·1); methyl nicotinate (p.85·3); capsaicin (p.32·3).
Formerly known as Arthricare Odor Free.

Arthrifen *Armoxindo, Indon.*
Ibuprofen (p.64·2).
Fever; osteoarthritis; pain; rheumatoid arthritis.

Arthrifid S *Heel, Ger.*
Homoeopathic preparation.

Arthriflex *Sante Naturelle, Canad.*
Menthol (p.2340·1); cineole (p.2282·3).

Arthriforte *Blackmores, Austral.*
Fish oil (p.1362·2); eicosapentaenoic acid (p.1362·1); vitamin A (p.1971·2); turmeric (p.1473·2); devil's claw root (p.39·1); celery seed oil (p.2278·3); vitamin E (p.1992·2).
Arthritis; inflammation; rheumatism.

Arthril *Sons, Mex.*
Ketoprofen (p.73·1).
Inflammation.

Arthrimel *Clonmel, Irl.*
Glucosamine sulfate (p.2313·2).
Osteoarthritis.

Arthriselect *Dreluso, Ger.*
Homoeopathic preparation.

Arthritic Pain Herbal Formula 1 *Vitelle, Austral.*
Celery (p.2278·3); juniper (p.2328·2); devil's claw root (p.39·1); salix alba (p.121·3).
Arthritis; rheumatism.

Arthritic Pain L10 *Homeocan, Canad.†.*
Homoeopathic preparation.

Arthritic Pain Relief *Homeocan, Canad.*
Homoeopathic preparation.

Arthritil *Marching, Hong Kong.*
Glucosamine hydrochloride (p.2313·2).
Joint disorders.

Arthritil Plus *Marching, Hong Kong.*
Glucosamine hydrochloride (p.2313·2); chondroitin sulfate (p.2280·3).
Joint disorders.

Arthritis Free *Young Again Products, USA.*
Vitamins; minerals; glucosamine; boswellic acid (p.1922·1).

Arthritis Hot Creme *Thompson, USA.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Muscle, joint, and soft-tissue pain; neuralgia.

Arthritis Pain Formula
Note. This name is used for preparations of different composition.
Hylands, Canad.
Homoeopathic preparation.

Whitehall, USA.
Aspirin (p.20·3).
Aluminium hydroxide (p.1706·2) and magnesium hydroxide (p.1743·2) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Arthritis; fever; pain.

Arthritis Pain Formula Aspirin Free *Whitehall, USA.*
Paracetamol (p.108·1).
Fever; pain.

Arthritis Relief *Brauer, Austral.†.*
Homoeopathic preparation.

Arthrixyl N *Syxyl, Ger.†.*
Homoeopathic preparation.

arthro akut *Byk Gulden, Ger.†; Byk Tosse, Ger.†.*
Lonazolac calcium (p.77·3).
Inflammation; musculoskeletal and joint disorders; pain.

Arthrocine *Substipharm, Fr.*
Sulindac (p.126·3).
Musculoskeletal, joint, and peri-articular disorders.

Arthrodeformat P *Ziethen, Ger.†.*
⊗ Pituitary extract (p.1543·3); rosemary oil (p.2381·3).
Rheumatic disorders.

Arthrodestal N *Krugmann, Ger.†.*
Glycol salicylate (p.62·3); camphor (p.2273·2); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, and soft-tissue disorders; neuralgia.

Arthrodont *Pierre Fabre, Fr.; Pierre Fabre, S.Afr.*
Enoxolone (p.50·1).
Gum disorders.

Arthrodynat N *Ziethen, Ger.†.*
Urtica (p.2409·3).
Rheumatic disorders.

Arthrodynat P *Ziethen, Ger.†.*
Rosemary oil (p.2381·3); camphor (p.2273·2); St John's wort oil (p.423·2).
Rheumatic disorders.

Arthrofar *Vocate, Gr.*
Diacerein (p.41·3).
Osteoarthritis.

Arthrofen *Ashbourne, UK.*
Ibuprofen (p.64·2).
Inflammation; musculoskeletal and joint disorders; pain.

Arthro-Flex *Biotech, Singapore.*
Glucosamine sulfate (p.2313·2); manganese amino acid chelate (p.1956·3).
Musculoskeletal and joint disorders.

Arthrofluor *Teva, Hung.*
Sodium fluoride (p.1962·2).
Musculoskeletal and joint disorders.

Arthrokatt *Kattwiga, Ger.*
Homoeopathic preparation.

Arthrokehlan A *Sanum-Kehlbeck, Ger.*
Formoltoxoid from *Propionibacterium acnes* (p.702·1).
Musculoskeletal and joint disorders.

Arthrokehlan U *Sanum-Kehlbeck, Ger.*
Formol toxoid from Corynebacterium spp.
Tonic.

Arthrolib *EBN, Fr.*
Fish oil (p.1362·2); bamboo; ginger (p.1732·3); colecalciferol (p.1986·2); pyridoxine hydrochloride (p.1978·2).
Joint disorders.

Arthropan *Purdue Frederick, USA†.*
Choline salicylate (p.36·3).
Fever; inflammation; pain.

Arthrorein *Aurora, Gr.*
Diacerein (p.41·3).
Osteoarthritis.

Arthrorell *Sanorell, Ger.*
Homoeopathic preparation.

Arthrose-Echtroplex *Weber & Weber, Ger.†.*
Homoeopathic preparation.

Arthrose-Gastreu R73 *Reckeweg, Ger.†.*
Homoeopathic preparation.

Arthrosenex AR *Riemser, Ger.*
Arnica (p.2260·2).
Musculoskeletal and joint disorders.

Arthrosetten H *Riemser, Ger.*
Devil's claw root (p.39·1).
Musculoskeletal and joint disorders.

Arthrosin *Ashbourne, UK†.*
Naproxen (p.92·3).
Dysmenorrhoea; gout; musculoskeletal and joint disorders.

Arthrotabs *Duopharm, Ger.*
Devil's claw root (p.39·1).
Musculoskeletal and joint disorders.

Arthrotec *Pfizer, Austral.; Sanova, Austria; Continental Pharma, Belg.; Pfizer, Canad.; Searle, Cz.†; Pfizer, Denm.; Pfizer, Fin.; Pfizer, Gr.; Pfizer, Hong Kong; Pharmacia, Irl.; Pfizer, Israel; Pfizer, Neth.; Pfizer, Norw.; Pharmacia, Pol.; Pfizer, Port.; Searle, Rus.†; Pharmacia, S.Afr.; Pfizer, Swed.; Pfizer, Switz.; Pfizer, Thai.†; Pfizer, UK; Searle, USA; Pfizer, Venez.*
Diclofenac sodium (p.44·3).
Misoprostol (p.2013·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Inflammation; musculoskeletal, joint, and peri-articular disorders.

Arthrox *Polychronus, Gr.*
Meloxicam (p.80·3).
Inflammatory disorders.

Arthroxen *CP Pharmaceuticals, UK.*
Naproxen (p.92·3).
Musculoskeletal and joint disorders.

Arthru-Derm *Meyer Zall, S.Afr.*
Diclofenac sodium (p.44·3).
Inflammation; pain.

Arthrum H *LCA, Fr.*
Sodium hyaluronate (p.2320·1).
Joint disorders.

Arthryl *Rottapharm, Fin.; Rottapharm, Pol.*
Glucosamine sulfate (p.2313·2).
Degenerative knee disorders; osteoarthritis.

Articaina C/E *Inibsa, Spain.*
⊗ Articaine hydrochloride (p.1854·1).
Adrenaline acid tartrate (p.1203·2) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Articlox *Unipharma, Gr.*
Hydroxocobalamin (p.1980·3).
Megaloblastic anaemia; vitamin B12 deficiency.

Articolase *SIRC, Singapore†.*
Collagen (p.2286·1).
Peri-articular disorders.

Articolase (w/glucosamine) *SIRC, Singapore.*
Collagen (p.2286·1); glucosamine sulfate (p.2313·2).
Joint disorders.

Articulaire Serocytol *Serolab, Switz.*
An immunoglobulin (equine).
Musculoskeletal and joint disorders.

Articulan *Pentafarma, Port.*
Etodolac (p.52·2).
Musculoskeletal and joint disorders.

Articurell *Sanorell, Ger.*
Homoeopathic preparation.

Artifene *Northia, Arg.*
Dextropropoxyphene (p.40·1); dipyrone (p.49·2).
Pain.

Artific *Farma Lepori, Spain.*
Hypromellose (p.2144·2).
Dry eyes.

Artificial Tears
Note. This name is used for preparations of different composition.
Alcon, Canad.
⊗ Dextran (p.1059·3); hypromellose (p.2144·2).
Dry eyes.

Ivax, Canad.; Pharmascience, Canad.
Polyvinyl alcohol (p.2145·3).
Dry eyes.

Bausch & Lomb, USA.
Hypromellose (p.2144·2).
Dry eyes.

Artificial Tears Extra *Pharmascience, Canad.*
Polyvinyl alcohol (p.2145·3); povidone (p.2146·1).
Formerly known as PMS-Artificial Tears Extra.
Dry eyes.

Artificial Tears Plus *Ivax, Canad.*
Polyvinyl alcohol (p.2145·3); povidone (p.2146·1).
Dry eyes.

Artifleur *Bloem Beheer, Neth.*
Homoeopathic preparation.

Artiflex *Gelcaps, Mex.*
Glucosamine (p.2313·2); chondroitin sulfate (p.2280·3).
Osteoarthritis.

Artilog *Pharmacia, Ital.†.*
Celecoxib (p.34·2).
Osteoarthritis; rheumatoid arthritis.

Artin
Note. This name is used for preparations of different composition.
Sanova, Austria.
Aloes (p.1705·2); frangula bark (p.1732·2).
Constipation; stool softener.

Biogal-Teva, Hung.†.
⊗ Aloin (p.1705·3); phenolphthalein (p.1762·1); strychnine (p.2393·1); ipecacuanha (p.1562·3); belladonna (p.2263·3).
Constipation.

Artinibsa *Inibsa, Port.*
⊗ Articaine hydrochloride (p.1854·1).
Adrenaline acid tartrate (p.1203·2) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Artinizona *Teuto, Braz.*
⊗ Prednisone (p.1542·3).
Corticosteroid.

Artinor *Valeant, Mex.†.*
Piroxicam (p.117·3).
Inflammation; pain.

Artinostrum *Nostrum, Port.*
⊗ Articaine hydrochloride (p.1854·1).
Adrenaline acid tartrate (p.1203·2) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Artirem *Codali, Belg.; Guerbet, Fr.; Guerbet, Ger.; Guerbet, Neth.; Guerbet, Switz.*
Meglumine gadoterate (p.1480·2).
Contrast medium for magnetic resonance imaging.

Artisial *Dexo, Fr.*
Electrolytes (p.1667·1); carmellose sodium (p.2142·1); sorbitol (p.1965·1).
Saliva substitute.

Artiss
Note. This name is used for preparations of different composition.
Baxter, USA.
Powder for topical solution: Total protein; fibrinogen (p.1070·1); fibrinolysis inhibitor; thrombin (p.1080·1); calcium chloride (p.1675·2);
On mixing this forms a fibrin glue (p.1069·3).
Skin-graft adhesion.

Baxter, USA.
Topical solution: Total protein; fibrinogen (p.1070·1); thrombin (p.1080·1);
This forms a fibrin glue (p.1069·3).
Skin-graft adhesion.

Artistry *Amway, Canad.†.*
SPF 8: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Artocoron *Abbott, Ger.†.*
Naftidrofuryl oxalate (p.1346·2).
Peripheral vascular disorders.

Artofen *Teva, Israel; Vifor, Switz.*
Ibuprofen (p.64·2).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Artok *Nycomed, Austria.*
Lornoxicam (p.77·3).
Musculoskeletal and joint disorders; pain.

Artonil *Hexal, Swed.*
Ranitidine hydrochloride (p.1766·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Artosin *Roche, Mex.*
Tolbutamide (p.463·1).
Diabetes mellitus.

Artotec *Pfizer, Fr.*
Diclofenac sodium (p.44·3).
Misoprostol (p.2013·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Musculoskeletal and joint disorders.

Artra *Unipharm, Rus.*
Chondroitin sulfate sodium (p.2280·3); glucosamine hydrochloride (p.2313·2).
Osteoarthritis.

Artragil *Faes, Spain†.*
Piroxicam (p.117·3).
Gout; musculoskeletal, joint, and peri-articular disorders; pain.

Artrait *TRB, Arg.*
Methotrexate (p.745·2) or methotrexate sodium (p.745·2).
Malignant neoplasms; psoriasis; rheumatoid arthritis.

Artren
Merck, Braz.; Merck, Venez.
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Merck, Chile.
Diclofenac (p.44·2), diclofenac resinate (p.46·1), or diclofenac sodium (p.44·3).
Fever; gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Artrenac *Merck, Mex.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Artrenac Pro *Merck, Mex.*
Diclofenac sodium (p.44·3).
Misoprostol (p.2013·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Osteoarthritis; rheumatoid arthritis.

Artrene *Merck, Mex.*
Diclofenac sodium (p.44·3).
Misoprostol (p.2013·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Osteoarthritis; rheumatoid arthritis.

Artrex
Note. This name is used for preparations of different composition.
Spedrog, Arg.
Allopurinol (p.552·2); colchicine (p.556·1).
Gout; hyperuricaemia.

Bio-Ved, Singapore†.
Withania somnifera; boswellia serrata (p.2307·1); turmeric (p.1473·2); ginger (p.1732·3).
Musculoskeletal, joint, and soft-tissue disorders.

Artri *Medical, Spain.*
Adenosine phosphate (p.2247·2); indometacin (p.66·3).
Fever; inflammation; pain.

Artribid *MSD, Port.*
Sulindac (p.126·3).
Gout; musculoskeletal, joint, and peri-articular disorders.

Artricol *Medosan, Ital.*
Amtolmetin guacil (p.19·2).
Musculoskeletal, joint, and peri-articular disorders; pain.

Artricom *Combiphar, Indon.*
Tenoxicam (p.128·2).
Gout; musculoskeletal, joint, and peri-articular disorders.

Artriden *Degorts, Mex.*
Mefenamic acid (p.80·1).
Inflammation; pain.

Artridol
Note. This name is used for preparations of different composition.
Laboratorios Chile, Chile.
Glucosamine sulfate (p.2313·2).
Degenerative joint disorders.

Rimsa, Mex.
⊗ Indometacin (p.66·3); betamethasone (p.1518·2); methocarbamol (p.1897·3).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Merck, Port.
Hydroxymethoxy ethyl benzoate; phenylpropyl salicylate.
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Artridol Duo *Laboratorios Chile, Chile.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate (p.2280·3).
Joint disorders.

Artrifenil *Teuto, Braz.*
Ketoprofen (p.73·1).
Musculoskeletal and joint disorders.

Artril
Note. This name is used for preparations of different composition.
Farmasa, Braz.; Eczacibasi, Turk.
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Advance, Singapore.
Glucosamine sulfate (p.2313·2).
Osteoarthritis.

Artril C *Advance, Singapore.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate (p.2280·3).
Joint disorders.

Artrilan *Offenbach, Mex.*
⊗ Prednisolone (p.1540·3); salicylamide (p.121·2); meprobamate (p.1006·2).
Musculoskeletal and joint disorders.

Artrilase *Bago, Arg.*
Glucosamine sulfate (p.2313·2).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Musculoskeletal and joint disorders.

Artrilase Complex *Bago, Arg.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate sodium (p.2280·3).
Arthroses.

Artrilom *ProMed, Cz.*
Meloxicam (p.80·3).
Ankylosing spondylitis; osteoarthritis; rheumatoid arthritis.

Artrilox *Combiphar, Indon.*
Meloxicam (p.80·3).
Musculoskeletal and joint disorders.

Artriman *Biofarma, Mex.*
Glucosamine (p.2313·2).
Osteoarthritis.

Artrimax *Prater, Chile.*
Collagen UC-II (type 2, denatured) (p.2286·1).
Osteoarthritis; rheumatoid arthritis.

Artrimod *Labomed, Chile.*
Leflunomide (p.75·3).
Rheumatoid arthritis.

Artrinid *Uniao Quimica, Braz.*
Ketoprofen (p.73·1).
Gout; musculoskeletal, joint, and peri-articular disorders; pain.

Artrinovo *Llorens, Spain.*
Indometacin (p.66·3).
Gout; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Artriox *Medikon, Indon.*
Glucosamine (p.2313·2); chondroitin sulfate (p.2280·3); dimethyl sulfone (p.2294·1); zinc (p.1999·1).
Osteoarthritis.

Artritapsin *Maver, Chile.*
Paracetamol (p.108·1); ibuprofen (p.64·2).
Fever; inflammation; pain.

Artritec *Pharlab, Braz.†.*
Meloxicam (p.80·3).
Inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Artritin *Teguhsindo, Indon.*
Glucosamine (p.2313·2); chondroitin sulfate (p.2280·3); dimethyl sulfone (p.2294·1).
Osteoarthritis.

Artritol
Note. This name is used for preparations of different composition.
Bio-Sante, Canad.
Capsules: Paracetamol (p.108·1).

Bio-Sante, Canad.
Cream: Methyl salicylate (p.85·3); menthol (p.2340·1).

Artriunic *Novag, Spain.*
Tenoxicam (p.128·2).
Gout; musculoskeletal, joint and peri-articular disorders.

Artrizona *Silesia, Chile.*
Diacerein (p.41·3).
Degenerative joint disorders.

Artroben *Euromex, Mex.*
Benzydamine hydrochloride (p.27·3).
Inflammation; pain.

Artrocaptin
Note. This name is used for preparations of different composition.
Spedrog, Arg.
Chondroitin sulfate sodium (p.2280·3); glucosamine sulfate (p.2313·2).
Degenerative joint disorders.

Estedi, Spain.
Tolmetin sodium (p.130·2).
Musculoskeletal, joint, and peri-articular disorders; pain.

Artrocel *Biotecnoquimica, Venez.*
Procaine hydrochloride (p.1869·1).
Local anaesthesia.

Artrodar *TRB, Arg.; TRB, Braz.; TRB, Cz.; TRB, Indon.; Chemedica, Malaysia; Chemedica, Thai.; Leti, Venez.*
Diacerein (p.41·3).
Degenerative joint disorders; osteoarthritis.

Artrodesmol Extra *Nupel, Spain.*
⊗ Dimethyl sulfoxide (p.2022·1); phenylbutazone (p.117·1); fluocinolone acetonide (p.1531·3); methyl salicylate (p.85·3).
Peri-articular and soft-tissue disorders.

Artrodol *AGIPS, Ital.*
Diflunisal (p.47·2).
Musculoskeletal, joint, and soft-tissue disorders; pain.

Artrodue *MDM, Ital.*
Collagen (p.2286·1); mucopolysaccharides; vitamins; copper (p.1922·1).
Joint disorders.

Artrofenac *SoSe, Ital.†.*
Diclofenac sodium (p.44·3).
Musculoskeletal and joint disorders; painful smooth muscle spasm.

Artrofene *Sankyo, Port.†.*
Ketoprofen lysine (p.73·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders; neuralgia.

Artroglobina *Elvetium, Arg.†.*
Diacerein (p.41·3).
Musculoskeletal and joint disorders.

Artrolive *Ache, Braz.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate (p.2280·3).
Osteoarthritis.

Artrolyt *Madaus, Austria; Neo-Farmaceutica, Port.*
Diacerein (p.41·3).
Osteoarthritis.

Artromed *Medosan, Ital.*
Amtolmetin guacil (p.19·2).
Musculoskeletal and joint disorders; pain.

Artron *Liomont, Mex.†.*
Naproxen (p.92·3).
Musculoskeletal, joint, and peri-articular disorders; pain.

Artronil *Eurodrug, Malaysia; Eurodrug, Singapore; Eurodrug, Thai.*
Glucosamine sulfate (p.2313·2).
Degenerative joint disorders; osteoarthritis.

Artroplex *Knop, Chile.*
Homoeopathic preparation.

Artrosamin *Lapreven, Venez.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate (p.2280·3); collagen (p.2286·1).
Arthroses.

Artrosil *Ache, Braz.*
Ketoprofen lysine (p.73·3).
Musculoskeletal, joint, and peri-articular disorders; pain.

Artrosilen *Dompe, Rus.*
Ketoprofen lysine (p.73·3).
Pain.

Artrosilene *Dompe, Ital.*
Ketoprofen lysine (p.73·3).
Inflammation; musculoskeletal, joint, and peri-articular disorders.

Artrotec *Pharmacia, Ital.; Pfizer, Mex.; Pfizer, Neth.; Continental, Spain.*
Diclofenac sodium (p.44·3).
Misoprostol (p.2013·2) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Inflammation; musculoskeletal and joint disorders; pain.

Artrox *Pfizer, Swed.*
Glucosamine hydrochloride (p.2313·2).
Osteoarthritis.

Artroxicam
Note. This name is used for preparations of different composition.
Medichrom, Gr.
Tenoxicam (p.128·2).
Gout; inflammation; osteoarthritis; pain; rheumatoid arthritis; spondyloarthropathies.

SoSe, Ital.
Piroxicam (p.117·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Artruic *IFET (ΙΦΕΤ), Gr.†.*
Tenoxicam (p.128·2).
Gout; inflammation; osteoarthritis; pain; rheumatoid arthritis; spondyloarthropathies.

Artu
Note. This name is used for preparations of different composition.
Artu, Neth.
A range of allergen extracts (p.2250·2).
Diagnosis of hypersensitivity.

Gunsa, Turk.
⊗ Promethazine hydrochloride (p.588·2); ephedrine hydrochloride (p.1558·2); sulfogaiacol (p.1573·2); sodium benzoate (p.1630·2).
Respiratory-tract congestion.

Arturic *Alpharma, Fin.; Alpharma, Norw.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi; uric acid nephropathy.

Artuvac *Artu, Neth.*
Dermatophagoides pteronyssinus extracts (p.2250·2) (p.2251·1).
Allergen immunotherapy.

Artyflam *Rayere, Mex.*
Piroxicam (p.117·3).
Inflammation; musculoskeletal and joint disorders.

Artz *AstraZeneca, Denm.; MDM, Ital.; Daiichi Sankyo, Port.*
Sodium hyaluronate (p.2320·1).
Osteoarthritis.

Artzal *Sankyo, Austria; AstraZeneca, Fin.; AstraZeneca, Swed.*
Sodium hyaluronate (p.2320·1).
Arthrosis of the knee.

Aru C *Chauvin ankerpharm, Ger.†.*
Clotrimazole (p.530·1).
Corynebacterium skin infections; fungal skin infections.

Arubendol *Alpharma-Isis, Ger.†.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Aruclonin *Chauvin Ankerpharm, Cz.; Chauvin ankerpharm, Ger.†; Chauvin Ankerpharm, Hung.*
Clonidine hydrochloride (p.1247·1).
Glaucoma; ocular hypertension.

Arudel *Alter, Spain.*
Simvastatin (p.1390·2).
Hyperlipidaemias; secondary prophylaxis of ischaemic heart disease.

Arufil *Chauvin Ankerpharm, Cz.; Chauvin ankerpharm, Ger.; Chauvin Ankerpharm, Hung.*
Povidone (p.2146·1).
Dry eyes.

Arufil C *Chauvin ankerpharm, Ger.*
Carbomer (p.2141·3).
Dry eyes.

Arutimol *Chauvin Ankerpharm, Cz.; Chauvin ankerpharm, Ger.; Chauvin Ankerpharm, Hung.; Chauvin, Rus.*
⊗ Timolol maleate (p.1412·3).
Glaucoma; ocular hypertension.

Arutrin *Chauvin ankerpharm, Ger.†.*
⊗ Triamcinolone acetonide (p.1544·3).
Skin disorders.

Aruzilina *Megat, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Arvastatil *Pharmanel, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Arvekap *Ipsen, Gr.*
⊗ Triptorelin (p.2135·2) or triptorelin embonate (p.2135·3).
Endometriosis; female infertility; prostatic cancer; uterine fibroids.

Arvenum
Note.This name is used for preparations of different composition.
Stroder, Ital.
Diosmin (p.2304·2).
Peripheral vascular disorders.

Sermedica, Port.
Bioflavonoids (p.2304·1).

Arvifax *Arriani, Gr.*
Venlafaxine (p.430·1).
Depression.

Arviron *Masterlek, Rus.*
Ribavirin (p.902·3).

Arvo *Phoenix, Arg.*
Travoprost (p.1886·1).
Glaucoma; ocular hypertension.

Arwin *Abbott, Austria.*
Ancrod (p.1215·3).
Peripheral vascular disorders.

Arxen *Arlex, Mex.*
Naproxen (p.92·3).
Inflammation; rheumatism.

Arxen Compositum *Arlex, Mex.*
Naproxen (p.92·3); paracetamol (p.108·1).
Inflammation; rheumatism.

Arycor
Sanofi Synthelabo, S.Afr.
Amiodarone hydrochloride (p.1210·2).
Arrhythmias.

Sanofi Synthelabo, Venez.†.
Amiodarone (p.1210·2).
Arrhythmias.

Arythmol *Abbott, Irl.; Abbott, Port.; Abbott, UK.*
Propafenone hydrochloride (p.1379·2).
Arrhythmias.

Arzedyn *Leovan, Gr.*
Cetirizine hydrochloride (p.570·3).

Arzepam *Solfran, Mex.*
Diazepam (p.986·3).
Anxiety; sedative.

Arzide *David, India.*
Rifampicin (p.325·3); isoniazid (p.288·1).
Tuberculosis.

Arzimol *Belmac, Spain.*
Cefprozil (p.232·2).
Bacterial infections.

Arzomeba *Pisa, Mex.*
Imipenem (p.286·3); cilastatin sodium (p.243·1).
Bacterial infections.

Arzomicin *Altana, Arg.*
Azithromycin (p.207·1).
Bacterial infections.

Arzomicina *APS, Port.†.*
Azithromycin (p.207·1).
Bacterial infections.

Arzomidol *Dollder, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

AS Cor *Sanfer, Mex.*
⊗ Norfenefrine hydrochloride (p.1361·1).
Hypotension.

AS 101 VA N *Staufen, Ger.†.*
Homoeopathic preparation.

ASA *German Remedies, India; Liomont, Mex.; Curtis, Pol.; Streuli, Switz.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolism prophylaxis.

Asa Right Powder *Eagle, Austral.*
Vitamin and mineral preparation with equisetum and ginger (p.1922·1).
Respiratory congestion.

Asa Tones *Eagle, Austral.*
Grindelia camporum (p.2317·2); ivy (p.2328·1); potassium iodide (p.2169·2); crataegus (p.2289·1); euphorbia hirta (p.2301·3); liquorice (p.1740·3); polygala tenuifolia (p.1572·3); drosera longifolia (p.2297·3).
Upper respiratory-tract symptoms.

Asabium *Otto, Indon.*
Clobazam (p.477·2).
Anxiety.

Asabon *Merck, Mex.*
Piroxicam (p.117·3).
Inflammation.

Asabrin *Ilsan, Turk.*
Aspirin (p.20·3).
Fever; pain.

Asacard *Flamel, Neth.; Flamel, Port.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Asacol *Altana, Belg.†; Procter & Gamble, Canad.; Medimport, Cz.; Schering, Denm.; Leiras, Fin.; Faran, Gr.; Tillotts, Hong Kong; Keri, Hung.; Win-Medicare, India; Tillotts, Israel; Giuliani, Ital.; Altana, Mex.; Baxter, NZ; Tillotts, NZ; Altana, Neth.; Schering, Norw.; Vitoria, Port.; Aventis, S.Afr.; Tillotts, Singapore; Schering, Swed.; Sanofi Synthelabo, Switz.; Tillotts, Thai.†; Biofarma, Turk.; Procter & Gamble, UK; Procter & Gamble, USA.*
Mesalazine (p.1745·1).
Inflammatory bowel disease.

Asacolitin *Meduna, Ger.*
Mesalazine (p.1745·1).
Ulcerative colitis.

Asacolon *Tillotts, Irl.*
Mesalazine (p.1745·1).
Crohn's disease; proctitis; ulcerative colitis.

ASAD *Stallergenes, Cz.†; Stallergenes, Fr.†; Stallergenes, Switz.†.*
Allergen extracts (p.2250·2).
Allergen immunotherapy; hyposensitisation.

Asafen *Sanofi Synthelabo, Mex.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine (p.1568·1); chlorphenamine (p.572·2).
Pain.

Asafen Nueva Formula *Sanofi Synthelabo, Chile†.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2); caffeine (p.1116·3).
Nasal congestion; upper respiratory-tract disorders.

Asaflow *Sandipro, Belg.*
Aspirin (p.20·3).
Cardiovascular and cerebrovascular disorders.

Asalazin *Medichrom, Gr.†.*
Mesalazine (p.1745·1).
Inflammatory bowel disease.

Asalen *Adcock Ingram, S.Afr.*
Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); paracetamol (p.108·1); caffeine (p.1116·3).
Cold and influenza symptoms.

Asalex *Chiesi, Ital.*
Mesalazine (p.1745·1).
Inflammatory bowel disease.

Asalis *Rowe-Fleming, Venez.†.*
Lysine aspirin (p.79·1).
Fever; inflammation; pain.

Asalit *Merck, Braz.*
Mesalazine (p.1745·1).
Ulcerative colitis.

Asam *Landson, Indon.*
Mefenamic acid (p.80·1).
Fever; pain.

Asamax *Astellas, Ital.; Astellas, Neth.; Astellas, Pol.*
Mesalazine (p.1745·1).
Inflammatory bowel disease.

Asamnex *Metiska, Indon.*
Tranexamic acid (p.1080·3).
Haemorrhage.

Asaphen *Pharmascience, Canad.*
Aspirin (p.20·3).
Fever; inflammation; pain.

Asapiuci *E-Pharma, Ital.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Asaprim *Primera, Philipp.*
Aspirin (p.20·3).
Fever; juvenile rheumatoid arthritis; pain; thrombosis prophylaxis.

Asaprol *Leti Gentek, Venez.*
Aspirin (p.20·3).
Fever; pain.

ASA-ratio *Ratiopharm, Ital.*
Aspirin (p.20·3).
Fever; pain.

Asarid *Boehringer Ingelheim, Belg.†.*
Aspirin (p.20·3).
Cardiovascular disorders; fever; pain.

Asarum Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Asasantin *Boehringer Ingelheim, Austral.; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Denm.; Boehringer Ingelheim, Fin.; Boehringer Ingelheim, Ger.†; Boehringer Ingelheim, Hung.; Boehringer Ingelheim, Irl.; Boehringer Ingelheim Promeco, Mex.†; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Norw.; Boehringer Ingelheim, S.Afr.; Boehringer Ingelheim, Swed.; Boehringer Ingelheim, UK.*
Dipyridamole (p.1268·1); aspirin (p.20·3).
Thromboembolism prophylaxis.

Asasantine *Boehringer Ingelheim, Fr.; Boehringer Ingelheim, Switz.*
Dipyridamole (p.1268·1); aspirin (p.20·3).
Stroke prophylaxis; thromboembolic disorders.

Asatab *TO-Chemicals, Thai.*
Aspirin (p.20·3).
Thromboembolic disorders.

Asavixin *Madaus, Ital.*
Mesalazine (p.1745·1).
Inflammatory bowel disease.

Asax *Pasteur, Chile.*
⊗ Furosemide (p.1292·1).
Hypertension; oedema.

Asazine *Tillotts, Switz.*
Mesalazine (p.1745·1).
Ulcerative colitis; ulcerative proctitis.

Asbunyl *IAE, Philipp.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asbunyl Plus *IAE, Philipp.*
⊗ Salbutamol (p.1131·2); guaifenesin (p.1561·3).
Cough.

ASC *Geritrex, USA.*
Triclosan (p.1665·2).
Skin cleanser.

Ascabiol
Note.This name is used for preparations of different composition.
Aventis, Austral.; Aventis, Irl.†; Pharmacare, S.Afr.; Aventis, UK.
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Zambon, Fr.
Benzyl benzoate (p.2036·1); sulfiram (p.2050·3).
Scabies.

Nicholas Piramal, India.
Lindane (p.2045·3).
Pediculosis; scabies.

Ascafyl *Meyer, Venez.*
Paracetamol (p.108·1); caffeine (p.1116·3); chlorphenamine maleate (p.571·3).
Influenza symptoms.

Ascal *Viatris, Neth.; Meda, Port.; Farmasierra, Spain.*
Carbasalate calcium (p.33·3).
Fever; pain; thromboembolism prophylaxis.

Ascalan *Lannacher, Austria.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

Ascalcin *Polfa Lodz, Pol.*
Aspirin (p.20·3); calcium lactate gluconate (p.1676·2).
Fever; pain.

Ascalcin Plus *Polfa Lodz, Pol.*
Aspirin (p.20·3); calcium lactate gluconate (p.1676·2); ascorbic acid (p.1983·3).
Fever; pain.

Ascardia *Pharos, Indon.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Ascarical *Farmoquimica, Braz.*
Pyrantel embonate (p.155·1).
Worm infections.

Ascaridil *Janssen-Cilag, Braz.*
Levamisole hydrochloride (p.147·2).
Ascariasis.

Ascarinase *Ibefar, Braz.†.*
Piperazine hydrate (p.153·1).
Worm infections.

Ascariobel *Sedabel, Braz.†.*
Mebendazole (p.148·3).
Worm infections.

Ascarizole *Globo, Braz.†.*
Tetramisole hydrochloride (p.156·1).
Worm infections.

Ascedor *Globo, Braz.†.*
Aspirin (p.20·3).

Ascencia *Bayer, Chile.*
Test system for measuring glucose in blood (p.2314·1).

Ascensia *Bayer, Arg.; Bayer, Austral.; Bayer Diagnostics, Fr.; Bayer Diagnostici, Ital.*
Test for glucose in blood (p.2314·1).

Ascensia Elite *Bayer, Canad.*
Test for glucose in blood (p.2314·1).

Ascensia Glucodisc *Bayer Diagnostics, UK.*
Test for glucose in blood (p.2314·1).

Asche Basis *Asche Chiesi, Ger.*
Emollient.
Skin disorders.

Asco-Caps *Key, USA.*
Ascorbic acid (p.1983·3).
Vitamin C supplement.

Ascocid
Note.This name is used for preparations of different composition.
Volchem, Ital.
Peptide, lipid, and carbohydrate preparation with vitamin C (p.1922·1).
Nutritional supplement.

Key, USA.
Calcium ascorbate (p.1984·1).
Vitamin C supplement.

Ascodan *Polpharma, Pol.*
Aspirin (p.20·3); codeine phosphate (p.37·2).
Cough; fever; pain.

Ascodyne *Chemedica, Switz.†.*
Multivitamin preparation with amino acids (p.1922·1).
Tonic.

Ascof *Pascual, Philipp.*
Agnus castus (p.2249·1).
Cough; obstructive airways disease.

Ascofer
Note.This name is used for preparations of different composition.
Gerda, Fr.
Ferrous ascorbate (p.1938·2).
Iron-deficiency anaemias.

Espefa, Pol.
Ferrous gluconate (p.1939·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron deficiency; iron-deficiency anaemia.

Ascomp with Codeine *Breckenridge, USA.*
Codeine phosphate (p.37·2); aspirin (p.20·3); caffeine (p.1116·3); butalbital (p.967·2).
Pain.

Asconvita *Medic+Aid, Philipp.*
Ascorbic acid (p.1983·3).
Scurvy; vitamin C deficiency.

Ascopen *Vendiz, Philipp.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Ascor *McGuff, USA.*
Ascorbic acid (p.1983·3).
Vitamin C supplement.

Ascorbex *Sante Naturelle, Canad.†.*
Ascorbic acid (p.1983·3).

Ascorbin *Montavit, Austria; Orion, Fin.; Orion, Malaysia; Orion, Singapore.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency; vitamin C supplement.

Ascorbine *IFET (ΙΦΕΤ), Gr.†.*
Vitamin C (p.1983·3).

Ascorbisal *Lannacher, Austria.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; musculoskeletal and joint disorders; pain.

Ascorcee *Virgo, Philipp.*
Ascorbic acid (p.1983·3).
Methaemoglobinaemia; scurvy; wound healing.

Ascorell *Sanorell, Ger.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency.

Ascorgem *Gemi, Pol.*
Ascorbic acid (p.1983·3).
Vitamin C supplement.

Ascoril +
Note.This name is used for preparations of different composition.
Glenmark, India.
Syrup: ⊗ Bromhexine (p.1552·2); terbutaline sulfate (p.1138·3) guaifenesin (p.1561·3); menthol (p.2340·1).
Coughs.

Glenmark, India.
Tablets: ⊗ Bromhexine (p.1552·2); terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Coughs.

Ascoril Expectorant *Glenmark, Rus.*
⊗ Salbutamol sulfate (p.1131·3); bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3); menthol (p.2340·1).
Respiratory-tract disorders.

Ascoril-C *Glenmark, India.*
Codeine phosphate (p.37·2); chlorphenamine maleate (p.571·3).
Coughs.

Ascoril-D+ *Glenmark, India.*
Dextromethorphan hydrobromide (p.1555·2); phenylpropanolamine hydrochloride (p.1569·3); triprolidine hydrochloride (p.592·3); menthol (p.2340·1).
Coughs.

Ascortonyl *Gerda, Fr.*
Ascorbic acid (p.1983·3); magnesium potassium aspartate.
Tonic.

Ascorutical
Note. This name is used for preparations of different composition.
Jelfa, Pol.
Ascorbic acid (p.1983·3); calcium carbonate (p.1714·1); calcium hydrogen phosphate (p.1676·1); rutoside (p.2305·1).
Capillary fragility; cold and influenza symptoms; hypersensitivity reactions.

Jelfa, Rus.
Ascorbic acid (p.1983·3); rutoside (p.2305·1); calcium carbonate (p.1714·1).

Ascorutin *Zentiva, Cz.*
Rutoside (p.2305·1); ascorbic acid (p.1983·3).
Capillary fragility; haemorrhage.

Ascorvit *Jenapharm, Ger.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency.

Ascosal *Grossmann, Switz.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold symptoms.

Ascot *Polipharm, Thai.†.*
Aspirin (p.20·3).
Inflammation; pain; thromboembolic disorders.

Ascotodin *Bruschettini, Ital.*
Mebechinium metilsulfate; thonzylamine hydrochloride (p.592·1).
Eye disorders.

AscoTop *AstraZeneca, Ger.; Promed, Ger.; Stern, Ger.*
Zolmitriptan (p.628·1).
Migraine.

Ascoxal
Note. This name is used for preparations of different composition.
AstraZeneca, Arg.†.
Ascorbic acid (p.1983·3); sodium percarbonate (p.1662·2).
Gingivitis.

AstraZeneca, Austral.; AstraZeneca, Fin.†; AstraZeneca, Mex.; AstraZeneca, Norw.†; AstraZeneca, Swed.†.
Ascorbic acid (p.1983·3); sodium percarbonate (p.1662·2); copper sulfate (p.1935·3).
Mouth and throat disorders; oral hygiene.

Ascredar *Roche, Austria.*
Clodronate disodium (p.1095·3).
Hypercalcaemia of malignancy; osteolytic bone metastases; Paget's disease of bone.

Ascriptin *Aventis, Gr.†; Aventis, Israel†; Sanofi-Aventis, Ital.; Aventis, Mex.; Novartis, USA; Vargas, Venez.*
Aspirin (p.20·3).
Aluminium hydroxide (p.1706·2) and magnesium hydroxide (p.1743·2) or aluminium hydroxide (p.1706·2), calcium carbonate (p.1714·1), and magnesium hydroxide (p.1743·2) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; inflammation; myocardial infarction; pain; thromboembolic disorders; thrombosis prophylaxis; transient ischaemic attacks.

Asdron *Marjan, Braz.*
Ketotifen fumarate (p.582·2).
Allergic conjunctivitis; allergic rhinitis; asthma; urticaria.

Asedas *Pyridam, Indon.*
Vitamins; minerals; docosahexaenoic acid; curcuma; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Aselli
Note. This name is used for preparations of different composition.
Weifa, Norw.
Cream: Cetylpyridinium chloride (p.1635·1); zinc tannate.
Minor skin disorders; skin disinfection; sunburn.

Weifa, Norw.
Ointment: Zinc tannate; zinc oxide (p.1621·2); titanium dioxide (p.1617·3); cod-liver oil (p.1935·2).
Minor skin disorders.

Asemin *Flupal, Venez.†.*
Astemizole (p.567·2).
Hypersensitivity reactions.

Asendin *Lederle, Indon.; Lederle, USA†.*
Amoxapine (p.382·2).
Depression.

Asendis *Goldshield, UK†.*
Amoxapine (p.382·2).
Depression.

Asendra *Pascoe, Ger.†.*
Urtica root (p.2409·3).
Benign prostatic hyperplasia.

Asenlix *Aventis, Mex.*
⊗ Clobenzorex hydrochloride (p.2152·3).
Obesity.

Asenta *Agis, Israel.*
Donepezil hydrochloride (p.364·3).
Alzheimer's disease.

Asentra *KRKA, Cz.; KRKA, Hung.; KRKA, Neth.; KRKA, Pol.; KRKA, Rus.*
Sertraline hydrochloride (p.421·3).
Anxiety; depression; obsessive-compulsive disorder; panic disorder; post-traumatic stress disorder.

ASEP *Galen, UK.*
Glutaral (p.1645·2).
Instrument disinfection.

Asepar *Gunsa, Turk.*
Piperazine hydrate (p.153·1).
Ascariasis; oxyuriasis.

Asepsan *Zambon, Ital.*
Povidone-iodine (p.1659·2).
Disinfection of vaginal mucosa.

Asepta *Konimex, Indon.*
Povidone-iodine (p.1659·2).
Disinfection.

Aseptalum *ICN, Arg.†.*
Aluminium subacetate (p.2255·1).
Astringent.

Aseptisol *Bode, Ger.†.*
Glutaral (p.1645·2); formaldehyde (p.1644·2); didecylmethyloxethylammonium propionate.
Instrument disinfection.

Aseptobron
Note. This name is used for preparations of different composition.
Temis, Arg.
Inhalation: Menthol (p.2340·1); cineole (p.2282·3); niaouli (p.2351·3); camphor (p.2273·2); terpinol (p.2396·1); pinus pinaster oil (p.2368·1).
Respiratory-tract disorders.

Temis, Arg.
Injection: Cineole (p.2282·3); niaouli oil (p.2351·3); guaiacol (p.1561·2); iodoform (p.1650·2).
Formerly contained camphor, cineole, niaouli, guaiacol, and iodoform.
Respiratory-tract disorders.

Temis, Arg.
Syrup: Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3).
Respiratory-tract disorders.

Aseptobron Ampicilina *Temis, Arg.†.*
Ampicillin sodium (p.204·1); clonixin lysine (p.37·1); cineole (p.2282·3); niaouli oil (p.2351·3); terpineol (p.2396·1).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Respiratory-tract infections.

Aseptobron Antigripal *Temis, Arg.*
Levophenylephrine hydrochloride (p.1568·3); paracetamol (p.108·1); vitamin C (p.1983·3).
Cold and influenza symptoms.

Aseptobron Bromexina *Temis, Arg.*
Oxeladin citrate (p.1567·1); bromhexine hydrochloride (p.1552·2).
Coughs.

Aseptobron C *Temis, Arg.*
Oxeladin citrate (p.1567·1); carbinoxamine maleate (p.570·2).

Aseptobron Caramelos *Temis, Arg.*
Tyrothricin (p.358·2); benzocaine (p.1854·1).
Mouth and throat disorders.

Aseptobron Descongestivo *Temis, Arg.*
Loratadine (p.583·3); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis; cold symptoms.

Aseptobron Expectorante *Temis, Arg.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders with increased or viscous mucus.

Aseptobron N
Note. This name is used for preparations of different composition.
Temis, Arg.
Mouth and throat spray: Benzocaine (p.1854·1); gramicidin (p.286·1); neomycin sulfate (p.305·1).
Mouth and throat disorders.

Temis, Arg.
Pastilles: Benzocaine (p.1854·1); gramicidin (p.286·1); neomycin sulfate (p.305·1); cineole (p.2282·3); menthol (p.2340·1).
Mouth and throat disorders.

Aseptobron Respiratorio *Temis, Arg.*
Amoxicillin trihydrate (p.202·2); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Aseptobron Unicap *Temis, Arg.*
Hydrocodone resinate; chlorphenamine resinate (p.572·2).

Asepto-Glutaral *Preston, Arg.†.*
Glutaral (p.1645·2).
Disinfection.

Aseptol *Akdeniz, Turk.*
Cetylpyridinium chloride (p.1635·1).
Oral hygiene.

Aseptone *Duopharma, Malaysia.*
⊗ Methadone hydrochloride (p.82·3).
Opioid withdrawal syndrome.

Aseptosyl *Sanofi Synthelabo, Belg.†.*
Potassium hydroxyquinoline sulfate (p.2323·2); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Aserbine *Pharmaco, S.Afr.; Goldshield, UK†.*
Benzoic acid (p.1630·2); malic acid (p.2337·1); salicylic acid (p.1612·2); propylene glycol (p.2374·1).
Burns; skin ulcers; wounds.

Asercit *Itaca, Braz.†.*
Dacarbazine (p.706·3).
Hodgkin's lymphoma; malignant melanoma.

Asering *Otsuka, Indon.*
Electrolyte infusion with or without glucose (p.1667·1).
Carbohydrate source; fluid replacement.

Aseroprin *Itaca, Braz.†.*
Azathioprine (p.1818·2).
Rheumatoid arthritis; transplant rejection.

Asestor *Spedrog, Arg.*
Simeticone (p.1770·2); homatropine methylbromide (p.1881·3).
Flatulence; gastrointestinal spasm.

Asetisin *Pharlab, Braz.†.*
Aspirin (p.20·3).

Asfeina *Bial, Port.†.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Asfrenon *Terramedic, Philipp.*
⊗ Salbutamol sulfate (p.1131·3).
Bronchospasm.

Asfrenon GF *Terramedic, Philipp.*
⊗ Salbutamol sulfate (p.1131·3); guaifenesin (p.1561·3).
Cough.

Asgoviscum N *AstraZeneca, Ger.†.*
Mistletoe (p.2345·3); crataegus (p.2289·1); garlic (p.2309·2).
Cardiac disorders.

Ashbourne Emollient Medicinal Bath Oil *Ashbourne, UK†.*
Liquid paraffin (p.2030·3); acetylated wool alcohols (p.2033·2).
Skin disorders.

Ashton & Parsons Infants Powders *Group, S.Afr.; SSL, UK.*
Chamomile (p.2279·3).
Colic; gastrointestinal disorders; teething.

Asiabron *Asian Pharm, Thai.*
Theophylline (p.1140·1); guaifenesin (p.1561·3).
Obstructive airways disease.

Asialax *Asian Pharm, Thai.*
Carisoprodol (p.1894·1); phenylbutazone (p.117·1).
Musculoskeletal and joint disorders.

Asialum *Asian Pharm, Thai.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Dyspepsia; gastric hyperacidity; peptic ulcer.

Asiamox *Asian Pharm, Thai.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Asiatapp *Asian Pharm, Thai.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Asthma; cold symptoms.

Asiazole *Asian Pharm, Thai.*
Metronidazole (p.837·1).
Amoebiasis; giardiasis; trichomoniasis.

Asiazole-TN *Asian Pharm, Thai.*
Tinidazole (p.848·3).
Amoebiasis; giardiasis; trichomoniasis.

Asic
Note. This name is used for preparations of different composition.
Cesam, Port.†.
Bearberry (p.2263·3); carboxyethylgermanium; titanium dioxide (p.1617·3); methoxycinnamate.
Hyperpigmentation.

Pharmaceutical Enterprises, S.Afr.
Dicycloverine hydrochloride (p.1722·3); doxylamine succinate (p.578·2); pyridoxine hydrochloride (p.1978·2).
Nausea and vomiting in pregnancy.

Asidal *Eczacibasi, Turk.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).

Asidopan Plus *Wyeth, Turk.*
Magaldrate (p.1742·3); simeticone (p.1770·2).

Asidrat *Pharos, Indon.*
Magaldrate (p.1742·3); simeticone (p.1770·2).
Gastric hyperacidity; peptic ulcer.

Asig *Sigma, Austral.*
Quinapril hydrochloride (p.1382·2).
Heart failure; hypertension.

Asilon *Akdeniz, Turk.*
Pipenzolate bromide (p.1762·2); simeticone (p.1770·2).

Asilone
Note. This name is used for preparations of different composition.
Roche, S.Afr.†.
Aluminium hydroxide (p.1706·2); simeticone (p.1770·2).
Gastric hyperacidity.

Thornton & Ross, UK.
Oral gel; oral suspension: Aluminium hydroxide (p.1706·2); light magnesium oxide (p.1744·1); simeticone (p.1770·2).
Dyspepsia; flatulence; gastro-oesophageal reflux; heartburn; hiatus hernia.

Daudt, Braz.
Oral suspension: Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence.

Daudt, Braz.†; Thornton & Ross, UK.
Tablets: Aluminium hydroxide (p.1706·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastritis; gastro-oesophageal reflux; hiatus hernia; peptic ulcer.

Asilone Windcheaters *Thornton & Ross, UK†.*
Simeticone (p.1770·2).
Flatulence.

Asimat *Mersifarma, Indon.*
Mefenamic acid (p.80·1).
Pain.

Asimil B12 *Torlan, Spain†.*
Mecobalamin (p.1981·1).
Vitamin B12 deficiency.

Asinis *Bittner, Austria; Bittner, Rus.*
Homoeopathic preparation.

Asinpirine *Ulagay, Turk.*
Aspirin (p.20·3).
Fever; pain.

Asiolex *Pharmacia, Arg.†.*
⊗ Anastrozole (p.681·2).
Breast cancer.

Asipral *Labomed, Chile†.*
Azithromycin (p.207·1).
Bacterial infections.

Asisdun *Duncan, Arg.†.*
Cyproterone (p.2089·2).

Asist *Bilim, Turk.*
Acetylcysteine (p.1548·2).
Paracetamol poisoning; respiratory disorders with increased mucus.

Asiviral *Terra, Turk.*
Aciclovir (p.862·3).
Herpesvirus infections.

Askamex *Konimex, Indon.*
Levamisole hydrochloride (p.147·2).
Ankylostoma; ascariasis.

Askaripar *Aksu, Turk.*
Piperazine hydrate (p.153·1).
Ascariasis; oxyuriasis.

Askina
Note. This name is used for preparations of different composition.
Braun, Fr.†.
Hydrogel dressing.
Ulcers; wounds.

Braun, UK.
Sodium chloride (p.1686·1).
Wound cleansing and irrigation.

Askina Biofilm *Braun, Fr.†; Braun, Port.†.*
Carmellose (p.2142·1).
Wounds.

Askina Carbsorb *Braun, Port.†.*
Activated charcoal (p.1435·2).
Ulcers; wounds.

Askina Gel *Braun, Port.†.*
Hydrogel dressing.
Ulcers; wounds.

Askina Hydro *Braun, Port.†.*
Hydrocolloid dressing.
Burns; ulcers; wounds.

Askina Sorb
Braun, Fr.†.
Calcium alginate (p.1058·1); carmellose sodium (p.2142·1).
Wounds.

Braun, Port.†.
Calcium alginate (p.1058·1); carmellose (p.2142·1).
Ulcers; wounds.

Askit *Askit, UK.*
Aspirin (p.20·3); aloxiprin (p.18·3); caffeine citrate (p.1116·3).
Fever; pain.

Asko *Pasifik, Turk.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Askorbin *Kimia, Indon.*
Ascorbic acid (p.1983·3).
Capillary bleeding; vitamin C deficiency.

ASL *Normon, Spain.*
Lysine aspirin (p.79·1).
Fever; inflammation; pain; thromboembolism prophylaxis.

Aslavital
Note. This name is used for preparations of different composition.
Sanova, Austria.
Injection: Procaine hydrochloride (p.1869·1); glutamic acid (p.1947·1).
Tonic.

Sanova, Austria.
Tablets: Procaine hydrochloride (p.1869·1); pyridoxine hydrochloride (p.1978·2); inositol (p.2325·2).
Tonic.

Asmabec *UCB, Fr.; UCB, Irl.; Celltech, Spain†; UCB, UK.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Asmabiol *Biol, Arg.†.*
Theophylline (p.1140·1).
Obstructive airways disease.

Asmacaire *Aldo-Union, Philipp.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Asmacare *Kimia, Indon.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Asmacortone *NCSN, Ital.*
⊗ Methylprednisolone sodium succinate (p.1538·2).
Corticosteroid.

Asmadex *Dexa, Indon.*
⊗ Theophylline (p.1140·1); ephedrine hydrochloride (p.1558·2).
Asthma; bronchitis.

Asmafen *Xepa-Soul Pattinson, Hong Kong; Xepa-Soul Pattinson, Malaysia; Pacific, NZ; Xepa-Soul Pattinson, Singapore†.*
Ketotifen fumarate (p.582·2).
Allergic bronchitis; allergic conjunctivitis; allergic rhinitis; allergic skin disorders; asthma.

Asmafilin *Casel, Turk.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Asmafin *Cazi, Braz.*
Aminophylline hydrate (p.1114·3).
Obstructive airways disease.

Asmaflu *Max Farma, Ital.*
⊗ Flunisolide (p.1531·1).
Allergic disorders of the respiratory tract.

Asmafort *Julphar, UAE.*
Ketotifen fumarate (p.582·2).
Allergic conjunctivitis; allergic rhinitis; asthma; urticaria.

Asmag *Farmapol, Pol.*
Magnesium aspartate (p.1679·1).
Magnesium deficiency.

Asmakil *Elofar, Braz.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Asmalergin *Merck, Braz.*
Ketotifen fumarate (p.582·2).
Asthma; hypersensitivity reactions.

Asmalia *Umeda, Thai.*
Aminophylline (p.1114·2).
Asthma; heart failure.

Asmalin *United American, Philipp.*
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asmalin Broncho *United American, Philipp.*
⊗ Guaifenesin (p.1561·3); salbutamol (p.1131·2).
Bronchospasm; cough.

Asmaline *Polipharm, Thai.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Asmaliv *Legrand, Braz.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asmalix *Century, USA.*
Theophylline (p.1140·1).
Obstructive airways disease.

Asmanex *Aesca, Austria; Schering-Plough, Braz.†; Schering-Plough, Cz.; Schering-Plough, Denm.; Schering-Plough, Fin.†; Essex, Ger.; Schering-Plough, Gr.; Schering-Plough, Irl.; Schering-Plough, NZ; Schering-Plough, Neth.; Schering-Plough, Port.; Schering-Plough, Spain†; Schering-Plough, Swed.; Essex, Switz.; Schering-Plough, UK; Schering, USA; Schering-Plough, Venez.*
⊗ Mometasone furoate (p.1539·3).
Asthma.

Asmano *Corsa, Indon.*
⊗ Theophylline (p.1140·1); ephedrine hydrochloride (p.1558·2).
Obstructive airways disease.

Asmanoc *Shiwa, Thai.†.*
Ketotifen fumarate (p.582·2).
Asthma; bronchitis; hay fever.

Asmanon *Cazi, Braz.*
Ketotifen fumarate (p.582·2).
Asthma; hypersensitivity reactions.

Asmapax *Nicholas Piramal, India.*
⊗ Ephedrine (p.1558·1); theophylline (p.1140·1); phenobarbital (p.492·2).
Obstructive airways disease.

Asmapen *Neo Quimica, Braz.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Asmaral-K *Serral, Mex.*
Ketotifen (p.582·2).
Asthma.

Asmasal
UCB, Fr.; UCB, Irl.; Celltech, Spain†; UCB, UK.
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Silom, Thai.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Asmasal Expectorant *Silom, Thai.†.*
⊗ Salbutamol (p.1131·2); guaifenesin (p.1561·3).
Bronchospasm associated with respiratory-tract congestion.

Asmasolon
Note.This name is used for preparations of different composition.
Probus, Indon.
⊗ Theophylline (p.1140·1); ephedrine hydrochloride (p.1558·2).
Obstructive airways disease.

Westmont, Philipp.; Great Eastern, Thai.; Westmont, Thai.
Theophylline (p.1140·1).
Obstructive airways disease.

Asmatec *UCB, Port.*
⊗ Formoterol fumarate (p.1122·1).
Obstructive airways disease.

Asmaten *Duopharma, Hong Kong.*
Ketotifen fumarate (p.582·2).
Allergic bronchitis; asthma; hypersensitivity disorders.

Asmatil *Alodial, Port.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Asmatiron *Ibefar, Braz.†.*
⊗ Theophylline (p.1140·1); ephedrine hydrochloride (p.1558·2); homatropine methylbromide (p.1881·3); diphenhydramine hydrochloride (p.577·2); lobelia (p.2157·2); stramonium (p.2392·3).
Obstructive airways disease.

Asmatol *Roux-Ocefa, Arg.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asmavent
Note.This name is used for preparations of different composition.
Mintlab, Chile.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

United American, Philipp.
⊗ Budesonide (p.1520·1).
Asthma.

Asmavent-B *Mintlab, Chile.*
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Asmax *Ativus, Braz.*
Ketotifen fumarate (p.582·2).
Asthma; hypersensitivity reactions.

Asmen *Farmalab, Braz.*
Ketotifen fumarate (p.582·2).
Asthma; hypersensitivity reactions.

Asmeren *Labomed, Chile.*
⊗ Clenbuterol (p.1120·1).
Obstructive airways disease.

Asmetic *Farmilia, Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Asmeton *Sankyo, Hong Kong; Sankyo, Thai.†.*
⊗ Methoxyphenamine hydrochloride (p.1564·2); aminophylline (p.1114·2); chlorphenamine maleate (p.571·3); noscapine (p.1566·2).
Asthma; bronchitis; coughs.

Asmifen *Bunker, Braz.*
Ketotifen fumarate (p.582·2).
Hypersensitivity reactions.

Asmigen *Pacific, NZ.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asmodrin *Sanval, Braz.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Asmofen *Teuto, Braz.*
Ketotifen fumarate (p.582·2).
Asthma.

Asmol
Alphapharm, Austral.
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Pacific, NZ†.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Asmo-Lavi *Vitoria, Port.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Asmopul
Note.This name is used for preparations of different composition.
Asmopul, Arg.†.
⊗ Atropine (p.1219·2); adrenaline (p.1203·2).
Asthma.

Cassara, Arg.
⊗ Fenoterol hydrobromide (p.1121·1).
Obstructive airways disease.

Asmoquinol *Ducto, Braz.*
Aminophylline (p.1114·2).
Obstructive airways disease.

Asmotone Plus *East India Pharma, India.*
⊗ Bromhexine hydrochloride (p.1552·2); terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Asmovent *Pharmaniaga, Malaysia†; Raza, Malaysia†.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Aso DDI *Raffo, Arg.†.*
Didanosine (p.870·2).
HIV infection.

Asodal *Sandipro, Belg.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3); tiemonium iodide (p.1776·3).
Colic; muscle spasm and pain.

Asodocel *Asofarma, Arg.*
Docetaxel (p.710·3).
Malignant neoplasms.

Asoflon *Asofarma, Mex.*
Tamsulosin hydrochloride (p.2197·1).
Benign prostatic hyperplasia.

Asoflut *Raffo, Arg.*
Flutamide (p.725·1).

Asofurtal *Raffo, Arg.*
Tegafur (p.776·1); uracil (p.2407·3).
Malignant neoplasms.

Asoglutan *Asofarma, Arg.; Raffo, Arg.*
Glucosamine sulfate (p.2313·2).
Arthroses.

Asoifos *Asofarma, Arg.†.*
Ifosfamide (p.731·3).
Malignant neoplasms.

Asolmicina *Defuen, Arg.†.*
Minocycline (p.300·3).
Bacterial infections.

A-Solmicina-C *Richet, Arg.†.*
Chloramphenicol palmitate (p.239·3).
Bacterial infections.

Asolmicina.dox *Defuen, Arg.*
Doxycycline (p.267·1).
Bacterial infections; malaria.

Asomal *Radyum, Turk.*
Paracetamol (p.108·1).
Fever; pain.

Asomutan *Raffo, Arg.*
Mitomycin (p.752·1).
Malignant neoplasms.

Asonacor *Abbott, Austria†.*
Propafenone hydrochloride (p.1379·2).
Arrhythmias.

Asonor *Pharma-Export, UK.*
Sodium chloride (p.1686·1); glycerol (p.2314·2); polysorbate 80 (p.1919·2).
Snoring.

Asotax *Raffo, Arg.; Asofarma, Mex.*
Paclitaxel (p.759·1).
Malignant neoplasms.

Asotecan *Raffo, Arg.*
Topotecan (p.780·2).
Malignant neoplasms.

Asoteron
Raffo, Arg.
Cyproterone (p.2089·2).
Prostatic cancer.

Nolver, Venez.
Cyproterone acetate (p.2088·2).
Female androgenisation; precocious puberty; prostatic cancer.

Asotrex *Raffo, Arg.*
Glucosamine sulfate (p.2313·2); chondroitin sulfate sodium (p.2280·3).
Musculoskeletal and joint disorders.

Asovit *Valmor, Venez.†.*
Vitamin B substances (p.1922·1).

Asovit-Mineral *Valmor, Venez.†.*
Vitamin and mineral preparation (p.1922·1).

Asovon *Medicine Products, Thai.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Asovorin *Raffo, Arg.*
Calcium levofolinate (p.1943·3).
Malignant neoplasms.

ASP *Medinfar, Port.*
Aspirin (p.20·3).
Fever; pain.

Aspacardin *Terapia, Hung.†.*
Magnesium aspartate (p.1679·1); potassium aspartate (p.1684·2).
Arrhythmias; heart failure; magnesium and potassium supplement; myocardial infarction.

Aspagin *Proel, Gr.*
Tenoxicam (p.128·2).
Gout; inflammation; osteoarthritis; pain; rheumatoid arthritis; spondyloarthropathies.

Aspalgin *Fawns & McAllan, Austral.*
Aspirin (p.20·3); codeine phosphate (p.37·2).
Fever; inflammation; pain.

Aspapirine *Erkimya, Turk.*
Aspirin (p.20·3).
Fever; pain.

Aspar *Tanabe, Indon.*
Potassium aspartate; magnesium aspartate; bisbentiamine; vitamin B (p.1922·1).
Nutritional supplement; tonic.

Asparagus-P *Grunwalder, Ger.*
Asparagus; parsley (p.2363·2).
Oedema; renal calculi.

Aspargin *Espefa, Pol.; Farmapol, Pol.; Filofarm, Pol.*
Magnesium aspartate (p.1679·1); potassium aspartate (p.1684·2).
Arrhythmias.

Aspartatol *Eagle, Austral.*
Potassium aspartate (p.1684·2); magnesium aspartate (p.1679·1); glutamine (p.1947·2).
Tonic.

Asparten *Grunenthal, Port.*
Arginine aspartate (p.1928·2).
Asthenia; urea cycle disorders.

Aspartil *Munir, Turk.*
Aspartame (p.1930·1).
Sugar substitute.

Aspartina *Bouty, Ital.*
Aspartame (p.1930·1).
Sugar substitute.

A-Spas *Hyrex, USA†.*
Hyoscyamine sulfate (p.1736·1).
Gastrointestinal disorders.

Aspaserine B6 Tranq *UCB, Spain†.*
Diazepam (p.986·3).
Contains pyridoxine.
Alcohol withdrawal syndrome; anxiety; febrile convulsions; insomnia; skeletal muscle spasm.

Aspasmine *Sterop, Belg.†.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Aspasmon N *Norgine, Ger.†.*
Peppermint oil (p.1761·2); anise oil (p.2258·2); caraway oil (p.2277·1).
Catarrh; gastrointestinal disorders.

Aspav *Alpharma, UK.*
Aspirin (p.20·3); papaveretum (p.105·2).
Pain.

Aspec *PSM, NZ; Hizon, Philipp.; Pharmaspec, Philipp.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolism prophylaxis.

Aspecton *Krewel, Ger.*
Thyme (p.2401·1).
Respiratory-tract congestion.

Aspecton Eukaps *Krewel, Ger.*
Eucalyptus oil (p.2301·2).
Respiratory-tract congestion.

Aspecton-Balsam *Krewel, Ger.†.*
Camphor (p.2273·2); thyme oil (p.2401·2); eucalyptus oil (p.2301·2).
Cold symptoms; coughs.

Aspectonetten N *Krewel, Ger.†.*
Gypsophila saponins.
Respiratory-tract catarrh.

Aspegic *Sanofi-Aventis, Belg.; Sanofi Synthelabo, Cz.†; Sanofi-Aventis, Fr.; Sanofi-Aventis, Hung.; Sanofi-Aventis, Ital.; Sanofi Synthelabo, Malaysia†; Sanofi Synthelabo, Neth.; Sanofi-Aventis, Port.; Sanofi Synthelabo, Switz.*
Lysine aspirin (p.79·1).
Fever; gout; inflammation; musculoskeletal and joint disorders; neuralgia; pain; thrombosis prophylaxis.

Aspegic Codeine *Sanofi-Aventis, Fr.†.*
Lysine aspirin (p.79·1); codeine phosphate (p.37·2).
Pain.

Aspent *Ranbaxy, Thai.*
Aspirin (p.20·3).
Myocardial infarction; osteoarthritis; rheumatoid arthritis; transient ischaemic attacks.

Aspercreme *Chattem, Canad.; Thompson, USA.*
Trolamine salicylate (p.132·3).
Muscle and joint pain; muscle, joint, and soft-tissue pain; neuralgia.

Aspergum *Heritage, Canad.; Schering-Plough, USA.*
Aspirin (p.20·3).
Fever; inflammation; myocardial infarction; pain; transient ischaemic attacks.

Aspergun *ICN, Arg.†.*
Piroctone olamine (p.1610·1); collagen (p.2286·1).
Dandruff.

Asperivo *Rivopharm, Switz.†.*
Aspirin (p.20·3).
Fever; pain.

Aspex *Rekah, Israel.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Asphaline *Vifor, Switz.†.*
Camphor (p.2273·2); thymol (p.1664·3); paraformaldehyde (p.1655·2); zinc oxide (p.1621·2).
Root canal infections.

Aspicalm *Medichrom, Gr.*
Lysine aspirin (p.79·1).
Fever; pain.

Aspicam *Biofarm, Pol.*
Meloxicam (p.80·3).
Degenerative joint disorders; osteoarthritis.

Aspicot *Concept, India.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Aspidol *Piam, Ital.†.*
Lysine aspirin (p.79·1).
Pain.

Aspidor *Zeler, Port.†.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Aspiglicina *Antonetto, Ital.*
Aspirin (p.20·3).
Glycine (p.1947·3) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Neuralgia.

Aspil *Fahrenheit, Indon.*
Cefotiam (p.230·1).
Bacterial infections.

Aspilets *United American, Hong Kong; Medifarma, Indon.; Imperial, Philipp.; Great Eastern, Thai.; United American, Thai.*
Aspirin (p.20·3).
Angina pectoris; fever; myocardial infarction; pain; pregnancy-induced hypertension; thromboembolic disorders.

Aspimag *Espefa, Pol.*
Aspirin (p.20·3).
Magnesium oxide (p.1744·1) is included in this preparation in an to limit adverse effects on the gastrointestinal mucosa.
Thromboembolism prophylaxis.

Aspimed *Cassara, Arg.†.*
Aspirin (p.20·3).
Fever; inflammation; pain.

Aspinal *Munir, Turk.*
Aspirin (p.20·3).
Fever; pain.

Aspinat Cardio *Shchelkovskii, Rus.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Aspinfantil *Diviser Aquilea, Spain†.*
Aspirin (p.20·3).
Fever; musculoskeletal, joint, and peri-articular disorders; pain; thromboembolism prophylaxis.

Aspipur *Attavet, Fr.*
Permethrin (p.2048·2); piperonyl butoxide (p.2049·1); methoprene (p.2046·3); tannins; tetramethrin (p.2051·1).
Insecticide.

Aspiretina *Andromaco, Venez.†.*
Aspirin (p.20·3).
Fever; inflammation; pain.

Aspiricor *Bayer, Austria.*
Aspirin (p.20·3).
Migraine; thromboembolism prophylaxis.

Aspirin Activ *Bayer, Pol.*
Aspirin (p.20·3); caffeine (p.1116·3).
Pain.

Aspirin Backache *Bayer Consumer, Canad.*
Aspirin (p.20·3); methocarbamol (p.1897·3).
Back pain.

Aspirin C *Bayer, Cz.; Bayer, Fin.; Bayer, Gr.; Bayer, Israel; Bayer, Pol.; Bayer, Rus.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; musculoskeletal and joint disorders; pain; thrombosis prophylaxis.

Aspirin + C *Bayer, Austria.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Aspirin Cardio *Bayer, Fin.; Bayer, Rus.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Aspirin Complex
Note. This name is used for preparations of different composition.
Bayer, Austria; Bayer, Ger.
Aspirin (p.20·3); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms; fever; nasal congestion; pain.

Bayer, Rus.
Aspirin (p.20·3); chlorphenamine maleate (p.571·3); phenylephrine acid tartrate (p.1568·1).
Cold and influenza symptoms.

Aspirin Extra *Bayer, Gr.*
Aspirin (p.20·3); caffeine (p.1116·3).
Pain.

Aspirin Forte *Bayer, Ger.; Bayer, Hung.†; Bayer, Turk.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; inflammation; pain.

Aspirin Free Anacin *Robins, USA.*
Paracetamol (p.108·1).
Formerly known as Anacin-3.

Aspirin Free Anacin PM *Whitehall, USA.*
Paracetamol (p.108·1); diphenhydramine hydrochloride (p.577·2).
Insomnia; pain.

Aspirin Free Excedrin *BMS, USA.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Pain.

Aspirin Free Pain Relief *Hudson, USA.*
Paracetamol (p.108·1).
Fever; pain.

Aspirin plus C *Bayer, Ger.; Bayer, Hung.; Bayer, Turk.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold symptoms; fever; inflammation; pain.

Aspirin Protect *Bayer, Hung.; Bayer, Pol.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Aspirin with Stomach Guard *Bayer Consumer, Canad.*
Aspirin (p.20·3).
Calcium carbonate (p.1714·1), magnesium carbonate (p.1743·1), and magnesium oxide (p.1744·1) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; inflammation; pain.

Aspirin Zipp *Bayer, Fin.*
Aspirin (p.20·3).
Cold symptoms; fever; pain.

Aspirina
Benitol, Arg.; Duncan, Arg.; Fabra, Arg.; Fecofar, Arg.; Gezzi, Arg.; Klonal, Arg.; Richet, Arg.; Vent-3, Arg.
Aspirin (p.20·3) or lysine aspirin (p.79·1).
Calcium carbonate (p.1714·1) and magnesium oxide (p.1744·1) are included in some preparations in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; inflammation; pain; thromboembolism prophylaxis.

Bayer, Braz.; Bayer, Chile; Bayer, Ital.; Bayer, Port.; Bayer, Spain; Gervasi, Spain.
Aspirin (p.20·3).
Fever; inflammation; musculoskeletal, joint, and periarticular disorders; pain; thromboembolism prophylaxis.

Aspirina 03 *Bayer, Ital.*
Aspirin (p.20·3).
Magnesium hydroxide (p.1743·2) and aluminium glycinate (p.1706·2) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; pain.

Aspirina C *Bayer, Braz.; Bayer, Chile; Bayer, Ital.; Bayer, Port.; Bayer, Spain.*
Aspirin (p.20·3); vitamin C (p.1983·3).
Fever; musculoskeletal disorders; pain.

Aspirina Complex *Bayer, Spain.*
Aspirin (p.20·3); phenylephrine acid tartrate (p.1568·1); chlorphenamine maleate (p.571·3).
Formerly contained aspirin, phenylpropanolamine tartrate, and chlorphenamine maleate.
Cold and influenza symptoms.

Aspirina Forte *Bayer, Braz.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Aspirina Plus *Bayer, Spain.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Aspirina Protect *Bayer, Mex.*
Aspirin (p.20·3).
Thromboembolic disorders.

Aspirine *Bayer, Belg.; BMS, Fr.; Bayer, Fr.*
Aspirin (p.20·3).
Fever; pain; thromboembolism prophylaxis.

Aspirine C *Bayer, Belg.; Bayer, Neth.; Bayer, Switz.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Aspirine Cardio *Bayer, Switz.*
Aspirin (p.20·3).
Thrombosis prophylaxis.

Aspirine Duo *Bayer, Belg.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Aspirine pH8 *3M, Fr.†.*
Aspirin (p.20·3).
Fever; pain.

Aspirine Protect *Bayer, Neth.*
Aspirin (p.20·3).
Thrombosis prophylaxis.

Aspirine vitamine C *UPSA, Fr.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Aspirinetas *Bayer Consumer, Arg.*
Aspirin (p.20·3).
Fever; pain.

Aspirinetta *Bayer, Ital.*
Aspirin (p.20·3).
Fever; pain.

Aspirin-Free Bayer Select Allergy Sinus *Sterling Health, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).

Aspirin-Free Bayer Select Head & Chest Cold *Sterling Health, USA.*
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); paracetamol (p.108·1).

Aspirisucre *Arkomedika, Fr.*
Aspirin (p.20·3).
Fever; pain.

Aspi-Rub *Sidus, Arg.†.*
Methyl salicylate (p.85·3).

Aspisol *Bayer, Ger.†.*
Lysine aspirin (p.79·1).
Fever; pain; rheumatism; thromboembolic disorders.

Aspitopic *Bayer, Spain.*
Etofenamate (p.53·1).
Inflammation; pain.

Aspitrate *Otsira, India†.*
Isosorbide mononitrate (p.1318·3); aspirin (p.20·3).

Asprimox *Invamed, USA†.*
Aspirin (p.20·3).
Aluminium hydroxide (p.1706·2), calcium carbonate (p.1714·1), and magnesium hydroxide (p.1743·2) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.

Aspro *Bayer Consumer, Austral.; Klosterfrau, Austria; Bayer, Belg.; Roche, Belg.; Roche Nicholas, Cz.†; Bayer Sante, Fr.; Bayer, Ger.; Bayer, Irl.; Bayer, Ital.; Bayer, NZ; Bayer, Neth.; Roche, Port.†; Roche Consumer, Singapore; Bayer, Switz.; Roche Consumer, UK.*
Aspirin (p.20·3).
Cold and influenza symptoms; fever; inflammation; pain; thromboembolism prophylaxis.

Aspro C *Roche Nicholas, Cz.†; Bayer, Hung.; Bayer, Ital.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms; fever; inflammation; pain.

Aspro mit Vitamin C *Klosterfrau, Austria.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Aspro vitamine C *Bayer Sante, Fr.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Asproaccel *Roche Nicholas, Fr.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Asprocard *ICN, Pol.*
Aspirin (p.20·3).
Glycine [589-y] is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Thrombosis prophylaxis.

Asprocol *ICN, Pol.*
Aspirin (p.20·3).
Glycine (p.1947·3) is included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; pain.

Asquam *Pierre Fabre Dermatologie, Cz.*
Ketoconazole (p.539·1).
Seborrhoeic dermatitis.

Asrina *Pharmasant, Thai.*
Aspirin (p.20·3).
Inflammation; pain; rheumatism.

ASS *Genericon, Austria; Hexal, Austria; Ratiopharm, Austria; 1A, Ger.; Aliud, Ger.; Alpharma-Isis, Ger.; CT, Ger.; Hexal, Ger.; RAN, Ger.; Ratiopharm, Ger.; Sandoz, Ger.; Stada, Ger.; Worwag, Ger.; Mepha, Switz.*
Aspirin (p.20·3).
Fever; inflammation; pain; rheumatism; thromboembolic disorders.

ASS + C *Hexal, Austria; Hexal, Ger.; Ratiopharm, Ger.; BMS, Hung.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold symptoms; fever; inflammation; pain.

ASS plus Vit C *1A, Austria.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Assal *Salus, Mex.*
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).

Assalix *Bionorica, Ger.; Bionorica, Switz.*
Salix (p.121·3).
Fever; pain; rheumatism.

Assan *Permamed, Switz.*
Flufenamic acid (p.60·3); glycol salicylate (p.62·3); heparin sodium (p.1301·2).
Musculoskeletal and joint pain; peripheral vascular disease; soft-tissue injury.

Assan thermo *Permamed, Switz.*
Flufenamic acid (p.60·3); glycol salicylate (p.62·3); benzyl nicotinate (p.28·1); heparin sodium (p.1301·2).
Musculoskeletal and joint disorders.

Assenzio (Specie Composta) *Dynacren, Ital.†.*
Absinthium (p.2244·1); gentian (p.2310·3); dried bitter-orange peel (p.2357·1); centaury (p.2279·1); cinnamon (p.2283·1).
Appetite loss; herbal tea.

Assepium *Gross, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; protozoal infections.

Assepium Balsamico *Gross, Braz.*
Co-trimoxazole (p.258·1); guaifenesin (p.1561·3); ammonium chloride (p.1551·3).
Respiratory-tract infections.

Asseptic *Neo Quimica, Braz.*
Chlorhexidine gluconate (p.1635·3).
Disinfection.

Assert *Eurofarma, Braz.*
Sertraline hydrochloride (p.421·3).
Depression.

Assieme *Simesa, Ital.; AstraZeneca, Neth.; Tecnifar, Port.*
⊗ Budesonide (p.1520·1); formoterol fumarate (p.1122·1).
Asthma; obstructive airways disease.

Assist *GD, Ital.*
Soya oil; lutein; zinc (p.1922·1).
Nutritional supplement.

Assival *Teva, Israel.*
Diazepam (p.986·3).
Anxiety; epilepsy; insomnia; skeletal muscle spasm.

Assocals *SJA, Gr.*
Calcitonin (p.1093·1).
Osteoporosis.

Assocort *BMS, Ital.*
⊗ Triamcinolone acetonide (p.1544·3); nystatin (p.543·2).
Infected skin disorders.

Assolid *Konpharma, Ital.*
⊗ Flunisolide (p.1531·1).
Allergic respiratory-tract disorders.

Assoprol *SJA, Gr.*
Omeprazole (p.1753·1).
Peptic ulcer.

Assoral *Savio, Ital.*
Roxithromycin (p.331·1).
Bacterial infections.

Assosept-S *SJA, Gr.*
Itraconazole (p.536·3).
Fungal infections.

Assplant *Robugen, Ger.*
Salix (p.121·3).
Rheumatism.

Assy Crema de Enjuague *Assistance, Arg.*
Permethrin (p.2048·2).
Pediculosis.

Assy Espuma *Assistance, Arg.; Andromaco, Chile†.*
Permethrin (p.2048·2).
Pediculosis.

Astafen *Ilsan, Turk.*
Ketotifen (p.582·2).
Asthma.

Astagen *Genesis, Philipp.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Astaplatin *Asta Oncologia, Braz.†.*
Cisplatin (p.698·2).
Malignant neoplasms.

Astat
Note. This name is used for preparations of different composition.
Acis, Hung.†.
Magnesium aspartate (p.1679·1).
Magnesium deficiency.

Tsumura, Jpn.
Lanoconazole (p.540·3).
Fungal skin infections.

Astebron *Integrated Pharmaceutical, Philipp.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Astelin *Sanfer, Mex.; Wallace, USA.*
Azelastine hydrochloride (p.568·2).
Allergic rhinitis.

Astemina *Diba, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Astenol *Farmabraz, Braz.†.*
Erythroxylon catuaba; guarana (p.2416·1); thiamine; pepsin (p.1922·1).
Tonic.

Astenolit *Altana, Spain.*
Vitamin, mineral and amino-acid preparation (p.1922·1).
Tonic.

Astergina *Flupal, Venez.*
Codergocrine (p.364·1).

Astergyl *Aster, Braz.†.*
Metronidazole (p.837·1).

Asteriodine *Aster, Braz.†.*
Povidone-iodine (p.1659·2).
Skin disinfection.

Astesen *Senosiain, Mex.*
Astemizole (p.567·2).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Astezol *ICN, Arg.†.*
Astemizole (p.567·2).
Hypersensitivity reactions.

Asthacrom *Cipla, India.*
⊗ Salbutamol (p.1131·2); sodium cromoglicate (p.1136·3).
Asthma.

Asthalin
Cipla, Cz.†; Cipla, India.
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Cipla, Venez.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Asthalin AX *Cipla, India.*
⊗ Ambroxol (p.1550·3); salbutamol (p.1131·2).
Obstructive airways disease.

Asthalin Expectorant *Cipla, India.*
⊗ Salbutamol sulfate (p.1131·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Asthavent
Cipla-Medpro, S.Afr.
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Cansin, Turk.
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asthenal *Grossmann, Switz.†.*
Sodium dimethyl aminophenylphosphinate; glutamic acid; thiamine hydrochloride; ascorbic acid (p.1922·1).
Tonic.

Astherin *Pyridam, Indon.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Asthma *CCM, Malaysia.*
⊗ Ephedrine hydrochloride (p.1558·2); theophylline (p.1140·1).
Bronchial asthma; chronic bronchitis.

Asthma & Catarrh Relief *Herbal Concepts, UK.*
⊗ Ipecacuanha (p.1562·3); lobelia (p.2157·2); marrubium (p.1564·1); liquorice (p.1740·3).
Asthma; catarrh.

Asthma 23 D *Sanova, Austria.*
⊗ Ephedrine hydrochloride (p.1558·2); belladonna (p.2263·3); papaverine hydrochloride (p.2191·3); caffeine-naphthylacetic sodium; theophylline (p.1140·1).
Obstructive airways disease.

Asthma Efeum *Apomedica, Austria.*
⊗ Proxyphylline (p.1130·3); phenazone (p.116·1); ethaverine sulfamate (p.2300·1); ephedrine hydrochloride (p.1558·2); diphenhydramine hydrochloride (p.577·2).
Obstructive airways disease.

Asthma H *Pfluger, Ger.†.*
Homoeopathic preparation.

Asthma 6-N *Hobein, Ger.†.*
⊗ Ephedrine hydrochloride (p.1558·2); grindelia (p.2317·2); senega root (p.1572·3).
Obstructive airways disease.

Asthma Soho *Soho, Indon.*
⊗ Theophylline (p.1140·1); ephedrine hydrochloride (p.1558·2).
Asthma.

Asthma-Bomin H *Pfluger, Ger.*
Homoeopathic preparation.

AsthmaHaler Mist *Numark, USA.*
⊗ Adrenaline acid tartrate (p.1203·2).
Bronchospasm.

Asthma-Hilfe *Agepha, Austria.*
⊗ Aminophylline (p.1114·2); theobromine (p.1140·1); ephedrine hydrochloride (p.1558·2); sulfogaiacol (p.1573·2).
Obstructive airways disease.

Asthmakhell N *Steigerwald, Ger.*
Homoeopathic preparation.

Asthmalitan *MIT, Ger.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

AsthmaNefrin *Menley & James, USA.*
⊗ Racepinefrine hydrochloride (p.1204·2).
Obstructive airways disease.

Asthmasian *Asian Pharm, Thai.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

† This preparation may no longer be actively marketed
⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Asthmatee EF-EM-ES *Smetana, Austria.*
Enulae root; marrubium vulgare (p.1564·1); origanum (p.2357·3); aniseed (p.2258·2); arnica (p.2260·2); cacao husk (p.2400·1).
Obstructive airways disease.

Asthmavowen-N *Weber & Weber, Ger.*
Homoeopathic preparation.

Asthmaxine *Synco, Hong Kong.*
Bromhexine hydrochloride (p.1552·2).
Respiratory disorders associated with viscous mucus.

Asthmino *Jagson, India†.*
⊗ Theophylline (p.1140·1); ephedrine hydrochloride (p.1558·2); phenobarbital (p.492·2).
Obstructive airways disease.

Asthmolin *Pharmasant, Thai.†.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asthmoprotect *Azupharma, Ger.†.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Asthmotrat *Intermed, Gr.*
⊗ Salbutamol sulfate (p.1131·3).
Asthma; chronic respiratory failure.

Astho-Med *Interdelta, Switz.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Astifat *Fatol, Ger.†.*
Ketotifen fumarate (p.582·2).
Asthma; bronchitis; hypersensitivity reactions.

Astifen *Christo, Hong Kong; Hexpharm, Indon.*
Ketotifen fumarate (p.582·2).
Allergic bronchitis; allergic conjunctivitis; allergic rhinitis; asthma; hypersensitivity disorders.

Astika *Ikapharmindo, Indon.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Astin *Probiomed, Mex.*
Pravastatin sodium (p.1374·3).
Atherosclerosis; hypercholesterolaemia.

Astizole *Cadila, India.*
Astemizole (p.567·2).

Astmerole *Fako, Turk.*
⊗ Salmeterol xinafoate (p.1135·1).
Obstructive airways disease.

Astmopent *Polfa Warszawa, Pol.; GSK, Rus.*
⊗ Orciprenaline sulfate (p.1129·1).
Arrhythmias; asthma; premature labour.

Asto-Chol *Mediapharm, Gr.*
Pravastatin (p.1375·1).
Hyperlipidaemias.

Astomera *Bittner, Austria.*
Homoeopathic preparation.

Astonin *Merck, Spain.*
Fludrocortisone (p.1530·1).
Adrenocortical insufficiency; hypotension.

Astonin H *Merck, Austria; Merck, Ger.; Merck, Hung.*
Fludrocortisone (p.1530·1).
Adrenocortical insufficiency; congenital adrenal hyperplasia; hypotension; orthostatic hypotension.

Astracaine *AstraZeneca, Canad.†.*
⊗ Articaine hydrochloride (p.1854·1).
Adrenaline (p.1203·2) is included in this preparation as a vasoconstrictor to diminish absorption and localise the effect of the local anaesthetic.
Local anaesthesia.

Astragalus Complex *Mediherb, Austral.*
Astragalus; echinacea (p.2298·1); Siberian ginseng (p.2386·3).
Tonic.

Astramorph *Astra, USA.*
⊗ Morphine sulfate (p.86·3).
Pain.

Astrasept *Fermenta Biotech, Rus.*
Amylmetacresol (p.1628·3); dichlorobenzyl alcohol (p.1642·1).
Sore throat.

Astrexine *UCB, Belg.*
Chlorhexidine hydrochloride (p.1635·3).
Wound and skin disinfection.

Astrijesan *Farmo Quimica, Chile.*
Mint oil (p.2345·2); menthol (p.2340·1); methyl salicylate (p.85·3); myrrh (p.2349·2); eugenol (p.2301·2); zinc chloride (p.1999·1).
Mouth disorders.

Astrin *Medeus, Spain†.*
Fluoxetine hydrochloride (p.391·2).
Bulimia nervosa; depression; mixed anxiety depressive states; obsessive-compulsive disorder.

Astrix *Faulding, Austral.; Mayne, Hong Kong; Teva, Hung.; Faulding, Singapore†.*
Aspirin (p.20·3).
Thromboembolic disorders.

Astro *Eurofarma, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Astrocast *Chrispa (Χρισπα), Gr.*
⊗ Budesonide (p.1520·1).
Topical corticosteroid.

Astrofen *Liferpal, Mex.*
Phenylbutazone (p.117·1).
Inflammation; rheumatism.

Astroglide *Biofilm, USA.*
Glycerol (p.2314·2); propylene glycol (p.2374·1); polyquaternium-5.
Vaginal lubricant.

Astronautal *Strallhofer, Austria.*
Diphenylpyraline hydrochloride (p.578·2); pyridoxine hydrochloride (p.1978·2).
Motion sickness; nausea; vertigo.

Astudal *Almirall, Spain.*
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Astyl *Laphal, Fr.†.*
⊗ Deanol bisorcate (p.2152·3).
Tonic.

Astymin-3 *Tablets, India.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition.

Astymin Forte *Tablets, India.*
Amino-acids and multivitamin preparation (p.1922·1).
Hypoproteinaemia; tonic.

Asucrose *Wockhardt, India.*
Acarbose (p.436·2).
Diabetes mellitus.

Asulblan *Fada, Arg.*
Amiodarone (p.1210·2).
Arrhythmias.

Asumalife *YSP, Malaysia; Yung Shin, Singapore.*
Ketotifen fumarate (p.582·2).
Allergic rhinitis; allergic skin disorders; asthma; pruritus; urticaria.

Asverin *Tanabe, Jpn.*
Tipepidine hibenzate (p.1574·2).
Coughs.

Asvex *Tanabe, Indon.*
Tipepidine hibenzate (p.1574·2).
Cough; upper respiratory-tract congestion.

Asvimol *Virgo, Philipp.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Asytec *Actavis, Denm.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; hay fever; urticaria.

AT III *Baxter, Ger.*
Antithrombin III (p.1054·1).
Antithrombin III deficiency.

AT 10 *Merck, Austria; Merck, Belg.†; Bayer, Ger.; Merck, Hung.†; Bayer, S.Afr.; Bayer, Switz.; Intrapharm, UK.*
Dihydrotachysterol (p.1986·3).
Hypocalcaemia of hypoparathyroidism; hypocalcaemic tetany; hypoparathyroidism; osteomalacia; pseudohypoparathyroidism; renal osteodystrophy; rickets.

Atac *Megahealth, Chile.*
Naproxen sodium (p.92·3).
Fever; inflammation; pain.

Atacand *AstraZeneca, Arg.; AstraZeneca, Austral.; AstraZeneca, Austria; AstraZeneca, Belg.; AstraZeneca, Braz.; AstraZeneca, Canad.; AstraZeneca, Chile; AstraZeneca, Cz.; AstraZeneca, Denm.; AstraZeneca, Fin.; AstraZeneca, Fr.; AstraZeneca, Ger.; Promed, Ger.; Stern, Ger.; AstraZeneca, Gr.; AstraZeneca, Hung.; AstraZeneca, Irl.; Teva, Israel; AstraZeneca, Malaysia; AstraZeneca, Mex.; AstraZeneca, NZ; AstraZeneca, Neth.; AstraZeneca, Norw.; AstraZeneca, Pol.; AstraZeneca, Port.; AstraZeneca, Rus.; AstraZeneca, S.Afr.; AstraZeneca, Singapore; AstraZeneca, Spain; AstraZeneca, Swed.; AstraZeneca, Switz.; AstraZeneca, Turk.; Astra, USA; AstraZeneca, Venez.*
Candesartan cilexetil (p.1238·3).
Heart failure; hypertension; left-ventricular dysfunction.

Atacand HCT *AstraZeneca, Braz.; AstraZeneca, USA.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Atacand Plus *AstraZeneca, Austral.; AstraZeneca, Austria; AstraZeneca, Belg.; AstraZeneca, Canad.; AstraZeneca, Cz.; AstraZeneca, Fin.; AstraZeneca, Ger.; Promed, Ger.; Stern, Ger.; AstraZeneca, Gr.; AstraZeneca, Hung.; AstraZeneca, Irl.; Teva, Israel; AstraZeneca, Malaysia; AstraZeneca, Mex.; AstraZeneca, Neth.; AstraZeneca, Norw.; AstraZeneca, S.Afr.; AstraZeneca, Singapore; AstraZeneca, Spain; AstraZeneca, Swed.; AstraZeneca, Switz.; AstraZeneca, Turk.; AstraZeneca, Venez.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Atacand-D *AstraZeneca, Arg.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

AtacandZid *AstraZeneca, Denm.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Atalak *Sons, Mex.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, periarticular, and soft-tissue disorders; pain.

Atalin *Gemballa, Braz.†.*
Kaolin (p.1738·1); pectin (p.2145·2).
Diarrhoea.

Ataline *Medochemie, Hong Kong; Medochemie, Malaysia; Medochemie, Singapore.*
⊗ Terbutaline sulfate (p.1138·3).
Asthma; obstructive airways disease.

Atamel *Pfizer, Venez.*
Paracetamol (p.108·1).
Fever; pain.

Atamel Plus *Pfizer, Venez.*
Paracetamol (p.108·1); caffeine (p.1116·3).
Fever; pain.

Atamelco *Pfizer, Venez.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Fever; pain.

Atamet *Athena Neurosciences, USA.*
Carbidopa (p.803·1); levodopa (p.804·3).
Parkinsonism.

Atamir *Sandoz, Denm.*
Penicillamine (p.1456·2).
Cystinuria; heavy metal poisoning; rheumatoid arthritis; Wilson's disease.

Atano *Milano, Thai.*
Hydroxyzine hydrochloride (p.581·2).
Anxiety disorders; hypersensitivity reactions; pruritus.

Atanol *Remedina, Gr.*
Trimetazidine (p.1419·2).

Atapec *Gemballa, Braz.†.*
Homatropine methylbromide (p.1881·3); furazolidone (p.834·3); pectin (p.2145·2).
Diarrhoea.

Atapryl *Athena Neurosciences, USA.*
⊗ Selegiline hydrochloride (p.817·1).

Ataralgin *Medicamenta, Cz.*
Paracetamol (p.108·1); guaifenesin (p.1561·3); caffeine (p.1116·3).
Influenza symptoms; pain.

Atarax
Note.This name is used for preparations of different composition.
UCB, Austria; UCB, Belg.; Erfa, Canad.; UCB, Cz.; UCB, Denm.; UCB, Fin.; UCB, Fr.; UCB, Ger.; UCB, Gr.; UCB, Hong Kong; UCB, Hung.; UCB, India; UCB, Ital.; UCB, Malaysia; UCB, Mex.; UCB, Neth.; UCB, Norw.; UCB, Pol.; UCB, Rus.; UCB, Spain; UCB, Swed.; UCB, Switz.; UCB, Thai.; UCB, Turk.; Pfizer, UK; Pfizer, USA†.
Hydroxyzine hydrochloride (p.581·2).
Alcohol withdrawal syndrome; allergic skin reactions; anxiety; hypersensitivity reactions; insomnia; motion sickness; nausea and vomiting; nervous disorders; premedication; pruritus; urticaria.

Mersifarma, Indon.
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

UCB, Port.; UCB, Singapore.
Hydroxyzine (p.581·2).
Anxiety; premedication; pruritus.

Ataraxone *Lazar, Arg.*
Hydroxyzine hydrochloride (p.581·2).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders; anxiety.

Atarin *Leiras, Fin.*
Amantadine hydrochloride (p.792·3).
Influenza A; parkinsonism.

Ataroc *Novell, Indon.*
⊗ Procaterol hydrochloride (p.1130·2).
Dyspnoea.

Atarva *Duncan, Arg.*
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Atarviton *Erfar, Gr.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety disorders; premedication; skeletal muscle spasm; sleep disorders; status epilepticus; tetanus.

Atasol
Note. A similar name is used for preparations of different composition (see below).
Church & Dwight, Canad.
Paracetamol (p.108·1).
Fever; pain.

Atasol-8, -15, -30 *Church & Dwight, Canad.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine citrate (p.1116·3).
Fever; pain.

Ataspin *Atabay, Turk.*
Aspirin (p.20·3).
Fever; pain; thrombosis prophylaxis.

Atassol
Note. A similar name is used for preparations of different composition (see above).
Solfran, Mex.
Dextromethorphan (p.1555·2).
Coughs.

Atazid *AstraZeneca, Denm.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Atcard *Utopian, Thai.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Atd *Biolab, Hong Kong; Biolab, Thai.†.*
Fluoxetine hydrochloride (p.391·2).
Anxiety; depression.

Ate *ABZ, Ger.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Ate Lich *Winthrop, Ger.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Ate Lich comp *Winthrop, Ger.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atebemyxine *Chauvin, Fr.*
Neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Bacterial eye infections.

Ateben *Pharmacia, Arg.†.*
Nortriptyline hydrochloride (p.413·2).
Depression.

Atebeta *Betapharm, Ger.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Ateblocor *ProMed, Cz.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atecard *Cazi, Braz.; Dabur, India†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Atecard-D *Dabur, India†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atecilina *Gramon, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Atecor *Rowex, Irl.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atecor CT *Rowex, Irl.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atecortin *Jelfa, Pol.*
⊗ Hydrocortisone acetate (p.1535·2); oxytetracycline hydrochloride (p.312·3); polymyxin B sulfate (p.317·3).
Infected ear or eye disorders.

Atedon *Pharmavit, Cz.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atedurex *Ecosol, Switz.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atege *Inde, Spain.*
Antithymocyte immunoglobulin (rabbit) (p.1817·3).
Transplant rejection.

Atehexal *Hexal, Austral.; Hexal, Austria; Hexal, Cz.; Hexal, Ger.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atehexal comp *Hexal, Ger.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atehexal Compositum *Hexal, Rus.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atel
Note.This name is used for preparations of different composition.
Investi, Arg.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; heart failure; hypertension; myocardial infarction.

Betapharm, Ger.
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atel C *Hexal, Arg.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atel N *Hexal, Arg.†.*
⊗ Atenolol (p.1217·3); nifedipine (p.1350·1).
Angina pectoris; hypertension.

Atelec *Mochida, Jpn.*
Cilnidipine (p.1245·2).
Hypertension.

Atem *Promedica, Ital.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Atemaron N R30 *Reckeweg, Ger.†.*
Homoeopathic preparation.

Atemperator
Note.This name is used for preparations of different composition.
Ivax, Arg.
Bromazepam (p.964·3).
Anxiety; delirium tremens.

Drugtech, Chile.
Magnesium valproate (p.511·3) or sodium valproate (p.508·2).
Epilepsy.

Armstrong, Mex.
Magnesium valproate (p.511·3).
Bipolar disorder; epilepsy; migraine.

Atemur *GSK, Ger.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Aten *Cadila, India.*
⊗ Atenolol (p.1217·3).
Angina pectoris; hypertension.

Atenase *UCI, Braz.†.*
Niclosamide (p.151·1).
Cestode infections.

Atenativ *Octapharma, Austria; Octapharma, Denm.; Octapharma, Fin.; Octapharma, Ger.; Octapharma, Gr.; Octapharma, Hung.; Kedrion, Ital.; Octapharma, Neth.; Octapharma, Norw.; Octapharma, Port.; Octapharma, Spain; Octapharma, Swed.; Octapharma, Switz.*
Antithrombin III (p.1054·1).
Antithrombin III deficiency; thromboembolic disorders.

Atenblock *Merck, Fin.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; myocardial infarction.

Atend *ZLB Behring, Mex.*
An antithrombin III preparation (p.1054·1).
Antithrombin III deficiency.

Atendol *Pohl, Ger.†.*
⊗ Atenolol (p.1217·3).
Arrhythmias; hypertension; ischaemic heart disease; myocardial infarction.

Atenegran *Legrand, Braz.*
⊗ Atenolol (p.1217·3).
Hypertension.

Ateneo *Neo Quimica, Braz.*
⊗ Atenolol (p.1217·3).
Arrhythmias; hypertension.

Atenet *Nycomed, Denm.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenetic *Gerard, Irl.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenfar *Medipharm, Chile.*
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Ateni *Gerard, Irl.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

AteNif beta *Betapharm, Ger.*
⊗ Atenolol (p.1217·3); nifedipine (p.1350·1).
Hypertension.

Atenigron *Mitim, Ital.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenil *Ecosol, Switz.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenix
Note. This name is used for preparations of different composition.
Raffo, Arg.
Sertraline (p.422·1).
Depression.

Tecnofarma, Chile.
⊗ Sibutramine hydrochloride (p.2163·2).
Obesity.

Ashbourne, UK.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

AtenixCo *Ashbourne, UK.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
These ingredients can be described by the British Approved Name Co-tenidone.
Hypertension.

Ateno *Alpharma-Isis, Ger.; Jean-Marie, Hong Kong†.*
⊗ Atenolol (p.1217·3).
Alcohol withdrawal syndrome; angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction.

Ateno comp *Alpharma-Isis, Ger.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenobal *Baldacci, Braz.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

ateno-basan *Schonenberger, Switz.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

ateno-basan comp *Schonenberger, Switz.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenobene *Ratiopharm, Cz.; Ratiopharm, Hung.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenoblock *Klonal, Arg.*
⊗ Atenolol (p.1217·3).
Hypertension.

Atenoblok *Triomed, S.Afr.*
⊗ Atenolol (p.1217·3).
Angina pectoris; hypertension; myocardial infarction.

Atenoblok Co *Triomed, S.Afr.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenoclor *Vitapan, Braz.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenodan *Pharmacodane, Denm.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenogamma *Worwag, Ger.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Atenogamma comp *Worwag, Ger.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenogen *Antigen, Irl.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenokin *Kinder, Braz.*
⊗ Atenolol (p.1217·3).
Hypertension.

Atenol *AstraZeneca, Braz.; Pfizer, Fin.; CT, Ital.; Merck, Mex.; TO-Chemicals, Thai.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction.

Atenolab *Multilab, Braz.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenolac *Lacer, Port.†.*
⊗ Atenolol (p.1217·3).

Atenolan *Lannacher, Austria; Lannacher, Rus.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenolan comp *Lannacher, Austria.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenolol AL comp *Aliud, Ger.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenolol comp *Genericon, Austria; Ratiopharm, Austria; Aliud, Ger.; CT, Ger.; Ratiopharm, Ger.; Sandoz, Ger.; Stada, Ger.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenolol Comp *BMS, Hung.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenolol Compositum *Merckle, Cz.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenomel *PannonPharma, Hung.; Clonmel, Irl.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenopress *Hexal, Braz.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Atenor *Sandoz, Denm.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenoric *Neo Quimica, Braz.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenorm *Cifarma, Braz.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; migraine; myocardial infarction.

Atenos
Note. This name is used for preparations of different composition.
UCB, Austria.
Pentoxyverine (p.1567·3), pentoxyverine citrate (p.1567·3), or pentoxyverine hydrochloride (p.1567·3).
Coughs.

UCB, Ger.; UCB, Port.†.
⊗ Tulobuterol hydrochloride (p.1150·1).
Obstructive airways disease.

Atenotop *Topgen, Belg.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Atenotyrol *Tyrol, Austria†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenotyrol comp *Tyrol, Austria†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atenoval *Valmor, Venez.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; hypertension.

Atenovit *Vitarum, Arg.*
⊗ Atenolol (p.1217·3).
Arrhythmias; hypertension.

Atens *Farmasa, Braz.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Atens H *Farmasa, Braz.*
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Atensec *Neo Quimica, Braz.*
Ramipril (p.1385·3).
Hypertension.

Atenses *Novag, Mex.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Atensin *Medochemie, Thai.†.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension.

Atensina *Boehringer Ingelheim, Braz.*
Clonidine hydrochloride (p.1247·1).
Hypertension; opioid withdrawal syndrome.

Atenual *Tecnofarma, Chile.*
Clomipramine (p.387·1).
Depression; narcoleptic syndrome; nocturnal enuresis; obsessive-compulsive disorder; pain.

Atenuol *Greenpharma, Braz.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atenuol CRT *Greenpharma, Braz.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Atepadene *Sidus, Arg.†; Mayoly-Spindler, Fr.*
Adenosine triphosphate disodium (p.2247·3).
Fibromyalgia; fibromyositis; pain.

Atepodin *Medix, Spain.*
Adenosine triphosphate sodium (p.2247·3).
Arrhythmias; muscular dystrophies; prevention of anoxia.

Atepress *Teuto, Braz.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Ateran *Eurofarmaco, Ital.†.*
A heparinoid (p.1305·2).
Thrombosis prophylaxis.

Aterax *UCB, S.Afr.*
Hydroxyzine hydrochloride (p.581·2).
Anxiety; hypersensitivity reactions; premedication; sedative.

Aterina *Tedec Meiji, Spain.*
Sulodexide (p.1406·3).
Atherosclerosis; hyperlipidaemias; thromboembolic disorders.

Aterkey *Inkeysa, Spain.*
Lovastatin (p.1328·2).
Atherosclerosis; hypercholesterolaemia.

Atermin *Magis, Ital.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Ateroclar
Note. This name is used for preparations of different composition.
Beta, Arg.
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Drugtech, Chile.
Ticlopidine hydrochloride (p.1411·2).
Thromboembolic disorders.

Medibase, Ital.
Heparin sodium (p.1301·2).
Thromboembolic disorders.

Ateroclar Duo *Beta, Arg.*
Ezetimibe tablets (p.1284·3); atorvastatin calcium tablets (p.1218·3).
Hypercholesterolaemia.

Ateroid *Cornelli, Ital.*
A heparinoid (p.1305·2).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Thrombosis prophylaxis.

Aterostat *Leksir, Rus.*
Simvastatin (p.1390·2).
Atherosclerosis; hypercholesterolaemia.

Ateroxide *Difass, Ital.*
A heparinoid (p.1305·2).
Venous ulcer.

Atesifar *Siphar, Switz.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Atestad *Stada, Philipp.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

At-Eze *Douglas, NZ.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

ATG *Fresenius, Belg.; Fresenius Biotech, Cz.; Fresenius, Hong Kong; Fresenius, Israel; Fresenius Kabi, Neth.; Fresenius Medical, Pol.; Fresenius Hemocare, Singapore†; Fresenius Medical, Swed.; Fresenius Medical, Switz.; Fresenius Biotech, Thai.*
An antithymocyte immunoglobulin (rabbit) (p.1817·3).
Graft-versus-host disease; transplant rejection.

Atgam *Pfizer, Austral.; Pfizer, Canad.; Pfizer, Hong Kong; Pfizer, Malaysia; Pfizer, Mex.; Pfizer, NZ; Pharmacia Upjohn, Rus.; Pharmacia, S.Afr.; Pfizer, Singapore; Pharmacia, Spain†; Pfizer, Switz.†; Upjohn, USA; Pfizer, Venez.*
Antithymocyte immunoglobulin (horse) (p.1817·3).
Aplastic anaemia; immunosuppressant; renal transplant rejection.

Athenol *SMB, Belg.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Athera *Lane, UK.*
Parsley (p.2363·2); vervain (p.2413·3); senna leaf (p.1769·2); clivers (p.2284·3).
Menopausal symptoms.

Atherovit *Beres, Hung.*
Folic acid (p.1940·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Vitamin B deficiency; vitamin B supplement.

Athimil *Organon, Chile; Organon, Venez.†.*
Mianserin hydrochloride (p.408·1).
Depression.

Athletes Foot *Schering, Arg.†; Scholl, Hung.†; Scholl, Israel.*
Tolnaftate (p.548·3).
Tinea pedis.

Athos
Note. This name is used for preparations of different composition.
Roemmers, Arg.
Ivy (p.2328·1).
Respiratory-tract disorders.

Medix, Mex.
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Athril *TO-Chemicals, Thai.*
Glucosamine sulfate (p.2313·2).
Degenerative joint disorders.

Athrofen *Amino, Switz.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders; pain.

Athymil *Organon, Fr.*
Mianserin hydrochloride (p.408·1).
Depression.

Atibax C *Fabop, Arg.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Atifan *KRKA, Cz.*
Terbinafine hydrochloride (p.546·3).
Fungal skin and nail infections.

Atiflan *Ederka, Mex.*
Naproxen (p.92·3).
Inflammation; pain.

Atimos *Torrex, Cz.; Torrex, Hung.; Chiesi, Ital.; Torrex, Pol.; Chiesi, Port.; Chiesi, Rus.*
⊗ Formoterol fumarate (p.1122·1).
Asthma; obstructive airways disease.

Atimos Modulite *Trinity, UK.*
⊗ Formoterol fumarate (p.1122·1).
Asthma.

Atinac *Diffucap, Braz.†.*
Loratadine (p.583·3).
Hypersensitivity reactions.

A-Tinic *Polipharm, Thai.†.*
Tretinoin (p.1618·1).
Sun-induced skin damage.

Atinorm
Note. This name is used for preparations of different composition.
Chrispa (Χρισπα), Gr.
Citalopram (p.385·3).
Depression.

Bioprogress, Ital.
⊗ Atenolol (p.1217·3); indapamide (p.1314·1).
Hypertension.

Atiramin *Juste, Spain.*
Azatadine maleate (p.568·1); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis.

Atisuril *Altana, Mex.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Atiten *Bayer, Ital.*
Dihydrotachysterol (p.1986·3).
Hypoparathyroidism; pseudohypoparathyroidism.

Ativan *Sigma, Austral.; Wyeth, Canad.; IFET (ΙΦΕΤ), Gr.; Wyeth, Hong Kong†; Wyeth, India; Sunthi Sepuri, Indon.; Wyeth, Indon.; Wyeth, Irl.; Wyeth, Malaysia; Wyeth, Mex.; Healthcare Logistics, NZ; Akromed, S.Afr.; Wyeth, Singapore; Wyeth-Ayerst, Thai.†; Wyeth, Turk.; Wyeth, UK; Biovail, USA; Wyeth, Venez.*
Lorazepam (p.1004·1).
Alcohol withdrawal syndrome; anxiety; insomnia; mania; mixed anxiety depressive states; nausea and vomiting; premedication; sedative; status epilepticus.

Atizor *Medipharm, Chile.*
Azithromycin (p.207·1).
Bacterial infections.

Atkinson & Barker's Gripe Mixture *Torbet Laboratories, UK.*
Sodium bicarbonate (p.1673·2); caraway oil (p.2277·1); dill oil (p.2293·3).
Formerly contained light magnesium carbonate, sodium bicarbonate, fennel oil, and dill oil.
Infant colic.

Atlacne *Atlas, Arg.*
Isotretinoin (p.1599·2).
Acne.

Atlamicin *Atlas, Arg.*
Erythromycin (p.269·2).
Acne.

Atlansil *Roemmers, Arg.; Sanofi-Aventis, Braz.; Pharma Investi, Chile.*
Amiodarone hydrochloride (p.1210·2).
Angina pectoris; arrhythmias.

Atma *Bittner, Austria; Bittner, Rus.*
Homoeopathic preparation.

Atmadisc *Sanol, Ger.; Schwarz, Ger.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Obstructive airways disease.

Atmocol *Adams, UK.*
A deodorant spray for use with colostomies and ileostomies.

Atmos
Note. This name is used for preparations of different composition.
Eurofarma, Braz.
Amlodipine besilate (p.1214·1); enalapril maleate (p.1276·1).
Hypertension.

AstraZeneca, Fin.; AstraZeneca, Norw.; AstraZeneca, Swed.
⊗ Testosterone (p.2129·3).
Erectile dysfunction; hypogonadism; osteoporosis.

Atmose *Morishita, Philipp.*
Mefenamic acid (p.80·1).
Osteoarthritis; pain; rheumatoid arthritis.

Atoactive *Biodue, Ital.*
⊗ Fluocinolone acetonide (p.1531·3).
Skin disorders.

Atock *Astellas, Jpn; Astellas, Philipp.*
⊗ Formoterol fumarate (p.1122·1).
Obstructive airways disease.

Atodel *Remedica, Malaysia; Remedica, Thai.*
Prazosin hydrochloride (p.1375·2).
Heart failure; hypertension; Raynaud's syndrome.

Atoderm
Note. This name is used for preparations of different composition.
Sanofi Synthelabo, Arg.†.
Dimeticone (p.2032·1).
Barrier preparation.

Bioderma, Ital.; Bioderma, Venez.
Emollient.
Dry skin disorders.

Atoderm creme *Bioderma, Fr.*
Emollient.
Dry skin disorders.

Atoderm moussant *Bioderma, Fr.*
Copper sulfate (p.1935·3); zinc sulfate (p.1999·2).
Cleansing of dry skin.

Atogal *Ingers, Cz.*
Atorvastatin (p.1219·1).

Atoken *Kendrick, Mex.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Atoksilin *Atabay, Turk.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Atolant *Mitsubishi, Jpn.*
Neticonazole hydrochloride (p.543·1).
Fungal skin infections.

Atolone *Major, USA.*
⊗ Triamcinolone (p.1544·2).
Corticosteroid.

Atomase *Douglas, Malaysia†; Douglas, NZ; Douglas, Singapore†; Douglas, Thai.; TTN, Thai.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; nasal polyps.

Atomax *Makiz-Pharma, Rus.*
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Atomic Enema *Health Chemical, Hong Kong.*
Sodium chloride (p.1686·1).
Constipation.

Atomide *Douglas, NZ†.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Atomo Desinflamante *Imvi, Arg.*
Amyl salicylate (p.19·3); camphor (p.2273·2); menthol (p.2340·1); terpineol (p.2396·1); cineole (p.2282·3); guaiacol (p.1561·2).
Musculoskeletal, joint, and peri-articular disorders.

Atomo Desinflamante C *Imvi, Arg.*
Amyl salicylate (p.19·3); camphor (p.2273·2); turpentine oil (p.2406·3); salicylic acid (p.1612·2); capsaicin (p.32·3).
Musculoskeletal and joint disorders; neuralgia.

Atomo Desinflamante Depor *Imvi, Arg.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Atomo Desinflamante Familiar *Imvi, Arg.*
Camphor (p.2273·2); menthol (p.2340·1); amyl salicylate (p.19·3); cineole (p.2282·3); terpineol (p.2396·1); guaiacol (p.1561·2).
Musculoskeletal, joint, and soft-tissue disorders.

Atomo Desinflamante G *Imvi, Arg.*
Methyl salicylate (p.85·3); menthol (p.2340·1); cineole (p.2282·3); terpineol (p.2396·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders; neuralgia.

Atomo Desinflamante Geldic *Imvi, Arg.*
Diclofenac diethylamine (p.44·3).
Musculoskeletal, joint, and peri-articular disorders; oedema.

Atomo Desinflamante Ibu *Imvi, Arg.*
Ibuprofen (p.64·2).
Fever; pain.

Atomoderma A *Imvi, Arg.*
Vitamin A (p.1971·2).
Skin disorders.

Atomoderma A-D *Imvi, Arg.*
Vitamin A (p.1971·2); vitamin D (p.1986·1); cod-liver oil (p.1935·2).
Skin disorders.

Atomoderma A-E *Imvi, Arg.*
Vitamin A palmitate (p.1973·1); tocoferil acetate (p.1992·3); allantoin (p.1588·1).
Skin disorders.

Atomoderma Plus *Imvi, Arg.*
⊗ Hydrocortisone (p.1535·2); fish-liver oil; cod-liver oil (p.1935·2); zinc oxide (p.1621·2).
Anorectal disorders; skin disorders.

Atopic
Note. This name is used for preparations of different composition.
Dermoteca, Port.†.
Bath gel: Lactic acid (p.2329·3).
Dry skin disorders.

Dermoteca, Port.†.
Cream; topical emulsion: Evening primrose oil (p.2302·1); lactic acid (p.2329·3).
Dry skin disorders.

Atopiclair *Ashbourne, UK; Graceway, USA.*
Enoxolone (p.50·1); piroctone olamine (p.1610·1); allantoin (p.1588·1); grape (p.2316·3); sodium hyaluronate (p.2320·1); telmesteine (p.1573·3).
Atopic eczema; skin disorders.

Atopil *IDI, Ital.†.*
Borage oil; vitamins; selenium (p.1922·1).
Nutritional supplement.

Ator *Sanovel, Turk.*
Atorvastatin (p.1219·1).
Hypercholesterolaemia.

Ator-Chol *Farmedia, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atorgon *Proel, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atoris
KRKA, Cz.; KRKA, Hung.; KRKA, Rus.
Atorvastatin calcium (p.1218·3).
Cardiovascular risk reduction; hypercholesterolaemia.

KRKA, Pol.
Atorvastatin (p.1219·1).
Hypercholesterolaemia.

Atorlip *Pharmavita, Chile; Cipla, India.*
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Atorolnga *Lamda (Λαμδα), Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atorpharm *Medis, Cz.*
Atorvastatin calcium (p.1218·3).
Hyperlipidaemias.

Atorsan *Sandoz, Indon.*
Atorvastatin calcium (p.1218·3).
Hyperlipidaemias.

Atorstat *Specifar (Σπεσιφαρ), Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atorva *Teva, Hung.; Zydus, India.*
Atorvastatin calcium (p.1218·3).
Cardiovascular risk reduction; hypercholesterolaemia.

Atorval *Phoinix Pharm (Φοινιξ Φαρμ), Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atorvanox *Verisfield, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atorvastan *Biotenk, Arg.*
Atorvastatin (p.1219·1).
Atherosclerosis; hypercholesterolaemia.

Atorvin *Aurora, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atorvox *Gedeon Richter, Hung.*
Atorvastatin calcium (p.1218·3).
Cardiovascular risk reduction; hypercholesterolaemia.

Atosil *Bayer, Ger.*
Promethazine hydrochloride (p.588·2).
Agitation; hypersensitivity reactions; insomnia; nausea and vomiting; restlessness.

Atossa *Anpharm, Pol.; ICN, Pol.*
Ondansetron (p.1756·3) or ondansetron hydrochloride (p.1756·3).
Nausea and vomiting.

Atossion *Elofar, Braz.*
Dropropizine (p.1557·3).
Coughs.

Atossisclerol Kreussler *Gloria, Ital.*
Lauromacrogol 400 (p.1916·1).
Sclerotherapy of varices.

Atostan *Phoinix Pharm (Φοινιξ Φαρμ), Gr.*
Somatostatin (p.1809·1).

Atouxx *Schwarz, Fr.*
Isomyrtol; pholcodine (p.1570·2).
Cough.

Atovarol *Vivax, Venez.*
Atorvastatin (p.1219·1).
Hypercholesterolaemia.

Atoxecar *Beta, Arg.†.*
Oxcarbazepine (p.490·3).
Epilepsy.

ATP *Hebron, Braz.†.*
Amino-acid preparation (p.1922·1).

ATP-Daiichi *Daiichi, Hong Kong.*
Adenosine triphosphate, disodium salt (p.2247·3).
Cardiovascular disorders; eye disorders; vestibular disorders.

Atractil *Trenker, Hong Kong; Trenker, Thai.*
⊗ Diethylpropion (p.2154·3).
Obesity.

Atralcilina *Atral, Port.*
Benzylpenicillin potassium (p.213·1); procaine benzylpenicillin (p.319·2).
Bacterial infections.

Atralidon *Atral, Port.*
Paracetamol (p.108·1).
Fever; pain.

Atralin *Coria, USA.*
Tretinoin (p.1618·1).
Acne.

Atralmicina *Atral, Port.*
Benethamine penicillin (p.212·1); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Atralxitina *Atral, Port.*
Cefoxitin sodium (p.230·2).
Bacterial infections.

Atram *Zentiva, Cz.; Zentiva, Pol.*
⊗ Carvedilol (p.1241·3).
Angina pectoris; heart failure; hypertension.

Atranac *Corsa, Indon.*
Diclofenac sodium (p.44·3).
Gout; musculoskeletal and joint disorders.

Atrederm *Pliva Krakow, Pol.*
Tretinoin (p.1618·1).
Acne.

Atretol *Athena Neurosciences, USA†.*
Carbamazepine (p.471·3).
Epilepsy; trigeminal neuralgia.

Atrexel *Schering-Plough, Mex.*
Methotrexate (p.745·2).
Rheumatoid arthritis.

Atriance *GSK, Cz.; GSK, UK.*
Nelarabine (p.755·3).
Acute lymphoblastic leukaemia; lymphoblastic lymphoma.

Atrican *Innotech, Fr.; Innotech, Rus.*
Tenonitrozole (p.848·1).
Urogenital trichomoniasis.

Atridox *Sidus, Arg.; Atrix, Denm.†; Meda, Fin.†; Atrix, Ger.; Curasan, Ger.; Ebedent, Gr.; Essential Dental, NZ†; Atrix, Neth.; Atrix, Port.; Meda, Swed.; Heinimann, Switz.; Oraldent, UK; CollaGenex, USA.*
Doxycycline hyclate (p.267·1).
Bacterial mouth infections.

Atrilon *Byk, Port.†.*
Lonazolac calcium (p.77·3).
Musculoskeletal, joint, and peri-articular disorders; pain.

Atrimon
Note. This name is used for preparations of different composition.
Ivax, Arg.
Algestone acetophenide (p.2082·1); estradiol enantate (p.2097·3).
Combined injectable contraceptive.

Nolver, Venez.
Zolpidem tartrate (p.1037·3).
Insomnia.

Atripla *Gilead, UK; BMS, USA.*
Efavirenz (p.872·3); emtricitabine (p.873·3); tenofovir disoproxil fumarate (p.908·3).
HIV infection.

Atriscal *Lacer, Spain.*
Dexibuprofen (p.39·2).
Dysmenorrhoea; osteoarthritis; pain.

Atriser *Serral, Mex.*
Sulindac (p.126·3).
Inflammation.

Atrisol *Quimica y Farmacia, Mex.*
Captopril (p.1239·2).
Heart failure; hypertension.

Atrisolon *Andre, India.*
⊗ Atropine sulfate (p.1219·3); prednisolone (p.1540·3).
Inflammatory eye disorders.

Atrium *Sapos, Hung.†.*
Febarbamate (p.996·1); difebarbamate (p.994·2); phenobarbital (p.492·2).
Alcohol withdrawal syndrome.

Atrival *Defuen, Arg.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Atrivex *Multicare, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with abnormal mucus; upper respiratory-tract inflammation.

Atro Grin *Grin, Mex.†.*
Atropine sulfate (p.1219·3).
Production of mydriasis.

Atro Ofteno *Sophia, Mex.*
Atropine (p.1219·2).
Production of mydriasis and cycloplegia.

Atrobel
Note. This name is used for preparations of different composition.
Fawns & McAllan, Austral.†.
Belladonna herb (p.2263·3).
Peptic ulcer; reduction of secretions; smooth muscle spasm.

Ronava, Venez.
Papaverine hydrochloride (p.2191·3); belladonna (p.2263·3); hyoscyamus (p.2323·3); paregoric (p.105·1); star anise (p.2392·1).

Atrodual *Boehringer Ingelheim, Fin.*
⊗ Ipratropium bromide (p.1124·1); salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Atrogel *Bioforce, UK.*
Arnica (p.2260·2).
Bruises; muscle pain.

Atroil *Rafarm, Gr.*
Eicosapentaenoic acid (p.1362·1); docosahexaenoic acid (p.1362·1).
Hyperlipidaemias.

Atrombin *Leiras, Fin.*
Dipyridamole (p.1268·1).
Thromboembolic disorders.

Atromicin *Teuto, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Atromid-S *AstraZeneca, Port.†.*
Clofibrate (p.1246·2).

Atromizin *Cafar, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Atronase *Boehringer Ingelheim, Belg.*
Ipratropium bromide (p.1124·1).
Rhinitis.

Atrop *Upha, Malaysia†.*
Atropine sulfate (p.1219·3).
Production of mydriasis and cycloplegia.

AtroPen *Meridian, USA.*
Atropine sulfate (p.1219·3).
Organophosphorus or carbamate pesticide poisoning.

Atrophena *Spefar, Venez.†.*
Papaverine hydrochloride (p.2191·3).

Atropicel *Oftalmi, Venez.†.*
Atropine sulfate (p.1219·3).
Production of cycloplegia and mydriasis.

Atropinol *Winzer, Ger.†.*
Atropine (p.1219·2).
Production of mydriasis.

Atropion *Ariston, Braz.*
Atropine sulfate (p.1219·3).
Arrhythmias.

Atropisa *Pisa, Mex.*
Atropine (p.1219·2).

Atropisol *Novartis Ophthalmics, Canad.†.*
Atropine sulfate (p.1219·3).
Production of mydriasis and cycloplegia.

Atropocil *Edol, Port.*
Atropine sulfate (p.1219·3).
Production of mydriasis and cycloplegia.

Atropt *Sigma, Austral.; Healthcare Logistics, NZ.*
Atropine sulfate (p.1219·3).
Production of cycloplegia and mydriasis; production of mydriasis and cycloplegia.

Atropulm *Julphar, UAE.*
Ipratropium bromide (p.1124·1).
Obstructive airways disease.

Atrosan *Bioforce, UK.*
Devil's claw root (p.39·1).
Musculoskeletal and joint disorders.

Atrosept *Geneva, USA.*
Methenamine (p.298·3); salol (p.122·1); atropine sulfate (p.1219·3); hyoscyamine sulfate (p.1736·1); benzoic acid (p.1630·2); methylthioninium chloride (p.1450·3).
Urinary-tract infections.

Atrosol *Sanovel, Turk.*
Atropine sulfate (p.1219·3).
Production of mydriasis and cycloplegia.

Atrospan *Fischer, Israel.*
Atropine sulfate (p.1219·3).
Production of cycloplegia and mydriasis.

Atrost *Gap, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atrosterol *Kleva, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atrotil *Pharmaniaga, Malaysia†; Raza, Malaysia†.*
Diphenoxylate hydrochloride (p.1724·1).
Atropine sulfate (p.1219·3) is included in this preparation to discourage abuse.
Diarrhoea.

Atrovent *Boehringer Ingelheim, Arg.; Boehringer Ingelheim, Austral.; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Belg.; Boehringer Ingelheim, Braz.; Boehringer Ingelheim, Canad.; Boehringer Ingelheim, Chile; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Denm.; Boehringer Ingelheim, Fin.; Boehringer Ingelheim, Fr.; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Hong Kong; Boehringer Ingelheim, Hung.; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Irl.; Boehringer Ingelheim, Israel; Teijin, Jpn; Boehringer Ingelheim, Malaysia; Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, NZ; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Norw.; Boehringer Ingelheim, Philipp.; Boehringer Ingelheim, Pol.; Unilfarma, Port.; Boehringer Ingelheim, Rus.; Boehringer Ingelheim, S.Afr.; Boehringer Ingelheim, Singapore; Boehringer Ingelheim, Spain; Boehringer Ingelheim, Swed.; Boehringer Ingelheim, Switz.; Boehringer Ingelheim, Thai.; Boehringer Ingelheim, Turk.; Boehringer Ingelheim, UK; Boehringer Ingelheim, USA.*
Ipratropium bromide (p.1124·1).
Allergic rhinitis; asthma; obstructive airways disease; rhinorrhoea.

Atrovent Beta *Boehringer Ingelheim, S.Afr.*
⊗ Ipratropium bromide (p.1124·1); fenoterol hydrobromide (p.1121·1).
Obstructive airways disease.

Atrovent Comp *Boehringer Ingelheim, Fin.*
⊗ Ipratropium bromide (p.1124·1); fenoterol hydrobromide (p.1121·1).
Obstructive airways disease.

Atroveran *Vargas, Venez.*
Papaverine (p.2191·3); belladonna (p.2263·3); hyoscyamus (p.2323·3).
Smooth muscle spasm.

Atrovita *Faran, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Atrox *Biofarm, Pol.*
Atorvastatin calcium (p.1218·3).
Hypercholesterolaemia.

Atrozol *Vipharm, Pol.*
⊗ Anastrozole (p.681·2).
Breast cancer.

ATryn *Leo, Cz.; Leo, Port.; Leo, UK.*
Antithrombin alfa (p.1054·2).
Antithrombin III deficiency.

ATS *Hoechst Marion Roussel, USA.*
Erythromycin (p.269·2).
Acne.

Atse *1A, Ger.†.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with excess and viscous mucus.

Attain *Sherwood, USA.*
Lactose-free preparation for enteral nutrition (p.1922·1).

Attempta *Ratiopharm, Ger.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Androgen-dependent acne, alopecia, and hirsutism in women; combined oral contraceptive in women with androgenic symptoms.

Attenta *Alphapharm, Austral.*
⊗ Methylphenidate hydrochloride (p.2159·2).
Attention-deficit hyperactivity disorder; narcoleptic syndrome.

Attenuvax *Aventis Pasteur, Denm.†; MSD, Neth.†; Sanofi Pasteur, Switz.; Merck, USA.*
A live measles vaccine (Enders' Edmonston strain) (p.2221·3).
Active immunisation.

Attor *Biochem, India.*
Atorvastatin calcium (p.1218·3).
Hyperlipidaemias.

Aturgyl
Note. This name is used for preparations of different composition.
GSK, Braz.†.
⊗ Fenoxazoline hydrochloride (p.1560·3).
Nasal congestion.

Sanofi-Aventis, Braz.; Sanofi-Aventis, Fr.
⊗ Oxymetazoline hydrochloride (p.1567·2).
Nasal congestion; rhinopharyngeal congestion.

Atus *Metapharma, Ital.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Atusil *Pediapharm, Chile.*
Promolate (p.1571·2).
Coughs.

Atuss DM *Atley, USA.*
Dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Coughs and associated respiratory-tract disorders.

Atuss-12 DM *Atley, USA.*
Pseudoephedrine polistirex (p.1572·1); chlorphenamine polistirex (p.572·2); dextromethorphan polistirex (p.1556·1).
Upper respiratory-tract disorders.

Atuss DS *Atley, USA.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract disorders.

Atuss-12 DX *Atley, USA.*
Dextromethorphan polistirex (p.1556·1); guaifenesin (p.1561·3).
Coughs.

Atuss EX *Atley, USA†.*
Hydrocodone tartrate (p.63·1); guaifenesin (p.1561·3).
Coughs and associated respiratory-tract disorders.

Atuss G *Atley, USA.*
Hydrocodone tartrate (p.63·1); phenylephrine hydrochloride (p.1568·1); guaifenesin (p.1561·3).
Coughs and associated respiratory-tract disorders.

Atuss HC *Atley, USA.*
Hydrocodone tartrate (p.63·1); chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1).
Upper respiratory-tract disorders.

Atuss HD *Atley, USA.*
Hydrocodone tartrate (p.63·1); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).

Atuss HS *Atley, USA.*
Hydrocodone tartrate (p.63·1); chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract disorders.

Atuss HX *Atley, USA.*
Hydrocodone tartrate (p.63·1); guaifenesin (p.1561·3).
Cough.

AT-V *Offenbach, Mex.†.*
Diazepam (p.986·3).

Atzirut X *CTI, Israel.*
Bisacodyl (p.1710·1).
Constipation.

AU 4 Regeneresen *Dyckerhoff, Ger.*
Ribonucleic acid (p.2379·1).
Ear disorders.

Aubeline *Arkopharma, Belg.; Arkopharma, Fr.*
Crataegus (p.2289·1).
Cardiac disorders; nervous disorders.

Aubril *Novartis, India.*
Trimethoprim (p.355·2); sulfadiazine (p.336·2).
Respiratory-tract infections; urinary-tract infections.

Aucic *Poen, Arg.*
Carmellose sodium (p.2142·1).
Dry eyes.

Aucusik *Andromaco, Chile.*
Benzocaine (p.1854·1); benzethonium chloride (p.1630·1); benzyl alcohol (p.1631·3); menthol (p.2340·1).
Pruritus.

Audax *Mundipharma, Ger.†; SSL, Irl.; SSL, UK†.*
Choline salicylate (p.36·3).
Ear wax removal; earache.

Audazol *Lesvi, Spain.*
Omeprazole (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Audi Baby *Diepharmex, Fr.*
Sea water.
External ear hygiene.

Audicort *Wyeth, Irl.†; Goldshield, UK†.*
⊗ Neomycin undecenoate (p.305·2); triamcinolone acetonide (p.1544·3).
Inflammatory ear disorders with bacterial infection; otitis externa.

Audifluor *Diba, Mex.*
Sodium fluoride (p.1962·2).
Otosclerosis.

Audione *Serra Pamies, Spain.*
Vitamins (p.1922·1); potassium iodide (p.2169·2).
Ear disorders; eye disorders.

Audispray *Diepharmex, Fr.*
Sea water.
External ear hygiene.

Audocaina *Organifar, Venez.†.*
Lidocaine (p.1862·3); phenazone (p.116·1); glycerol (p.2314·2).
Ear disorders.

Aufbaukalk I *Weleda, S.Afr.*
Homoeopathic preparation.

Aufbaukalk II *Weleda, S.Afr.*
Homoeopathic preparation.

Augclav *Pharmahof, Thai.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augelit *Catarinense, Braz.†.*
Diclofenac sodium (p.44·3).
Inflammation; pain.

Augenschutz NA *Salushaus, Ger.*
Vitamin A palmitate (p.1973·1).
Night-blindness.

Augentonicum *Medserve, Switz.*
Digitalis (p.1258·3); esculoside (p.2248·2).
Eye disorders.

Augentonikum N *Stulln, Ger.*
Digitalin (p.2293·3).
Eyestrain.

Augentropfen Mucokehl D5 *Sanum-Kehlbeck, Ger.*
Homoeopathic preparation.

Augentropfen Similasan *Jacoby, Austria.*
Homoeopathic preparation.

Augentropfen Stulln *Sanova, Austria.*
Digitalis (p.1258·3); esculoside (p.2248·2).

Augentropfen Stulln Mono *Stulln, Ger.*
Digitalis leaf (p.1258·3); esculoside (p.2248·2).
Eyestrain.

Augmaxcil *Triomed, S.Afr.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augmentan *GSK, Ger.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augmentin
GSK, Austral.; GSK, Chile; GSK, Fin.; GSK, Israel; GSK, USA.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

GSK, Austria; GSK, Belg.; GSK, Cz.; GSK, Fr.; GSK, Gr.; GSK, Hong Kong; Teva, Hung.; GSK, Irl.; GSK, Ital.; GSK, Malaysia; GSK, Mex.; GSK, NZ; GSK, Neth.; GSK, Philipp.; GSK, Pol.; GSK, Port.; GSK, Rus.; GSK, S.Afr.; GSK, Singapore; GSK, Switz.; GSK, Thai.; GSK, Venez.
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

GSK, Braz.
Amoxicillin sodium (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

GSK, India.
Amoxicillin (p.202·2), amoxicillin sodium (p.202·2), or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

GSK, Indon.
Amoxicillin (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

GSK, Turk.
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

GSK, UK.
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
These ingredients can be described by the British Approved Name Co-amoxiclav.
Bacterial infections.

Augmentin Bid
GSK, Chile.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

GSK, Venez.†.
Amoxicillin (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augmentin-Duo *GSK, Cz.; GSK, Hung.; GSK, UK.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
These ingredients can be described by the British Approved Name Co-amoxiclav.
Bacterial infections.

Augmentine *GSK, Spain.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augmentin-Extra *GSK, Hung.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augmex
Korea United, Philipp.; Pharmatrix, Philipp.
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Korea United, Singapore†.
Amoxicillin (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Augort *Andromaco, Spain†.*
Fluoxetine hydrochloride (p.391·2).
Bulimia nervosa; depression; obsessive-compulsive disorder.

Augpen *Emcure, Thai.*
Amoxicillin trihydrate (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Augurcin *Aldril, Philipp.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Aulcer *Alacan, Spain.*
Omeprazole (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Aulin *Grunenthal, Arg.†; CSC, Austria; Essex, Chile†; Medicom, Cz.; Lavipharm, Gr.; Helsinn Birex, Indon.; Helsinn Birex, Irl†.; Roche, Ital.; Essex, Philipp.; Medicom, Pol.; Angelini, Port.; Vifor, Switz.; Schering-Plough, Venez.*
Nimesulide (p.95·3).
Fever; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Aulo Gelio Pie *Aulo Gelio, Arg.*
Camphor (p.2273·2); vitamin A (p.1971·2).
Foot disorders.

Aulo Gelio Repelente *Aulo Gelio, Arg.*
Citronella oil (p.2284·2).
Insect repellent.

Aulo Repelente De Piojos *Aulo Gelio, Arg.*
Citronella oil (p.2284·2); rue (p.2382·2); quassia (p.2377·1); eucalyptus citriodora oil.
Insect repellent.

Aunativ *Octapharma, Austria†; Pharmacia, Cz.†; Octapharma, Denm.†; Octapharma, Gr.; Octapharma, Norw.†; Octapharma, Swed.*
A hepatitis B immunoglobulin (p.2214·3).
Passive immunisation.

Auradol *Lusofarmaco, Ital.*
Frovatriptan succinate (p.622·3).
Migraine.

Auralgan
Note. This name is used for preparations of different composition.
Wyeth Consumer, Austral.; Wyeth Consumer, Canad.; Whitehall, NZ.
Benzocaine (p.1854·1); phenazone (p.116·1); glycerol (p.2314·2).
Ear wax removal; earache; otitis media.

Wyeth, Philipp.
Phenazone (p.116·1); benzocaine (p.1854·1); hydroxyquinoline sulfate (p.2323·1).
Ear wax removal; otitis media.

Wyeth-Ayerst, Thai.†.
Benzocaine (p.1854·1); phenazone (p.116·1).
Ear wax removal; otitis media.

Deston, USA.
Benzocaine (p.1854·1); phenazone (p.116·1); acetic acid (p.2244·2); polycosanol; glycerol (p.2314·2).
Acute otitis media; ear wax removal.

Auralyt
Note. This name is used for preparations of different composition.
Wyeth Consumer, Mex.
Benzocaine (p.1854·1).

SA Druggists Self Med, S.Afr.
Glycerol (p.2314·2); phenazone (p.116·1); benzocaine (p.1854·1).
Ear wax removal; otitis media.

Auram *Ache, Braz.*
Oxcarbazepine (p.490·3).
Epilepsy; trigeminal neuralgia.

Auramin *ICN, Austria.*
Minocycline hydrochloride (p.300·3).
Bacterial infections.

Aurantin *Pfizer, Ital.*
Phenytoin sodium (p.495·2).
Arrhythmias; epilepsy.

Auraphene-B *Reese, USA.*
Urea hydrogen peroxide (p.1666·2).

Aurasept *Adcock Ingram, S.Afr.*
Benzocaine (p.1854·1); phenazone (p.116·1).
Otitis.

Auratek hCG *Bio Merieux, UK†.*
Pregnancy test (p.2372·1).

Aureciclina *Sanval, Braz.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Aurecil *Edol, Port.†.*
Chlortetracycline hydrochloride (p.243·1).
Bacterial eye infections.

Aurene *Ivax, Arg.*
Oxcarbazepine (p.490·3).
Epilepsy.

Aureocort *Dermapharm, Austria; Teofarma, Ital.; Goldshield, UK.*
⊗ Chlortetracycline hydrochloride (p.243·1); triamcinolone acetonide (p.1544·3).
Infected skin disorders.

Aureocrem *Puebla, Arg.*
Polysaccharides of *Pseudomonas aeruginosa*.

Aureodelf *Lederle, Ger.†.*
⊗ Chlortetracycline hydrochloride (p.243·1); triamcinolone acetonide (p.1544·3).
Infected skin disorders.

Aureodermil *Edol, Port.†.*
Chlortetracycline hydrochloride (p.243·1).
Bacterial skin infections.

Aureomicina *Wyeth Lederle, Ital.; Alcon Cusi, Spain.*
Chlortetracycline hydrochloride (p.243·1).
Bacterial infections.

Aureomix *SIT, Ital.*
Chlortetracycline hydrochloride (p.243·1); sulfacetamide sodium (p.335·3).
Ear, nose, mouth, throat, and eye infections.

Aureomycin
Dermapharm, Austria; Erfa, Belg.; Riemser, Ger.; Wyeth Lederle, Norw.†; US Summit, Thai.
Chlortetracycline hydrochloride (p.243·1).
Bacterial infections.

Wyeth, Hong Kong†.
Chlortetracycline (p.242·3).
Bacterial infections.

Aureomycin N *Wyeth, Ger.†.*
Chlortetracycline hydrochloride (p.243·1); nystatin (p.543·2).
Vaginal infections.

Aureomycine *Meda, Belg.; Cooperation Pharmaceutique, Fr.; UCB, Fr.*
Chlortetracycline hydrochloride (p.243·1).
Eye and skin infections.

Aurex *Hexal, Pol.*
Citalopram hydrobromide (p.385·3).
Depression.

Auricam *Collins, Mex.*
Meloxicam (p.80·3).
Inflammation.

Auricid *Day, Ital.†.*
Cefonicid sodium (p.226·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Auricularum *Grimberg, Fr.; Grimberg, Israel.*
⊗ Oxytetracycline hydrochloride (p.312·3); polymyxin B sulfate (p.317·3); dexamethasone sodium phosphate (p.1526·2); nystatin (p.543·2).
Otitis.

Auricum *Dolisos, Canad.†.*
Homoeopathic preparation.

Aurid *Pharmathen, Gr.*
⊗ Budesonide (p.1520·1).

Auriderm K2
Medstyle, Chile.
Vitamin K (p.1995·2).
Skin discoloration.

Auriga, Hong Kong.
Vitamin K (p.1995·3).
Erythema; haematomas; pre- and post- injection of wrinkle-filling product; pre- and post- sclerotherapy; purpura.

Auridonal *Ducto, Braz.†.*
Chloramphenicol (p.239·3).
Bacterial ear infections.

Aurigen *Mavi, Mex.†.*
Allopurinol (p.552·2).
Gout.

Aurigoutte *Merck Medication Familiale, Fr.*
Hexamidine isetionate (p.1646·3); lidocaine hydrochloride (p.1862·3).
Ear disorders.

Aurimel *MSD, Venez.†.*
Dextromethorphan hydrobromide (p.1555·2); carbinoxamine maleate (p.570·2).
Cough.

Auristan *Monin, Fr.†.*
Phenylephrine hydrochloride (p.1568·1).
Otitis externa.

Auritricin *Delta, Braz.*
Tyrothricin (p.358·2); etyl metaborate; chlorobutanol (p.1639·2).
Ear infections.

Aurituss *Pediapharm, Chile; Recalcine, Chile.*
⊗ Salmeterol (p.1135·3); fluticasone (p.1533·2).

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Auro *Del, USA.*
Urea hydrogen peroxide (p.1666·2).
Ear wax removal.

Auroanalin N *Hevert, Ger.†.*
Glycol salicylate (p.62·3).
Inflammation; rheumatism.

Auroanalin Thermo *Hevert, Ger.*
Glycol salicylate (p.62·3); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, and soft-tissue disorders.

Aurobemid *Stada, Austria.*
Moclobemide (p.411·1).
Depression.

Aurobin *Gedeon Richter, Hung.; Gedeon Richter, Rus.*
⊗ Prednisolone caproate (p.1541·1); lidocaine hydrochloride (p.1862·3); dexpanthenol (p.2362·1); triclosan (p.1665·2).
Anorectal disorders.

Aurocalcin *Farmilia, Gr.*
Calcitonin (p.1093·1).
Osteoporosis.

Aurochobet *Chobet, Arg.*
Calcium gold keratinate (p.62·3).
Musculoskeletal and joint disorders.

Auroclim *Juste, Spain.*
16 Tablets, estradiol valerate (p.2097·3); 12 tablets, estradiol valerate; levonorgestrel (p.2121·2).
Menopausal disorders; osteoporosis.

Aurodipine *Aurora, Gr.*
Nimodipine (p.1357·2).
Ischaemic nervous system disorders.

Aurodren *Aurora, Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Auro-Dri *Del, Canad.; Del, USA.*
Isopropyl alcohol (p.1650·3).
Ear disorders; water in the ear.

Aurofox *Salus, Mex.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Auroguard Otic *SDA, USA.*
Benzocaine (p.1854·1); phenazone (p.116·1); hydroxyquinoline sulfate (p.2323·1).
Ear disorders.

Auroken *Kendrick, Mex.†.*
Fluoxetine hydrochloride (p.391·2).
Depression; mixed anxiety depressive disorders.

Aurolate *Pasadena, USA.*
Sodium aurothiomalate (p.122·2).

Auromelid *Farmilia, Gr.*
Nimesulide (p.95·3).
Inflammatory disorders.

Auromyose *Organon, Neth.†.*
Aurothioglucose (p.26·2).
Rheumatoid arthritis.

Auronal *Egis, Cz.*
Felodipine (p.1285·3).
Angina pectoris; hypertension.

Aurone *Lennon, S.Afr.*
Phenazone (p.116·1).
Earache.

Aurone Forte *SA Druggists Self Med, S.Afr.*
Phenazone (p.116·1); benzocaine (p.1854·1); chlorobutanol (p.1639·2).
Inflammatory ear disorders with infection.

Auropan *KRKA, Rus.*
Auranofin (p.25·3).

Auroplatin *Steigerwald, Ger.*
Homoeopathic preparation.

Aurorex *Roche, Mex.*
Moclobemide (p.411·1).
Depression; social phobia.

Aurorix *Roche, Arg.†; Roche, Austral.; Roche, Austria; Roche, Belg.; Roche, Braz.; Roche, Chile; Roche, Cz.; Roche, Denm.; Roche, Fin.; Roche, Ger.; Roche, Gr.; Roche, Hong Kong; Roche, Hung.; Roche, Indon.; Roche, Malaysia; Roche, NZ†; Roche, Neth.; Roche, Norw.; Roche, Philipp.; Roche, Pol.; Roche, Port.; Roche, S.Afr.; Roche, Singapore†; Roche, Swed.; Roche, Switz.; Roche, Thai.; Roche, Turk.*
Moclobemide (p.411·1).
Depression; panic disorder; social anxiety disorder; social phobia.

Aurostatin *Aurora, Gr.*
Lovastatin (p.1328·2).
Hyperlipidaemias.

Aurosyx N *Syxyl, Ger.†.*
Homoeopathic preparation.

Auroto *Barre-National, USA†.*
Benzocaine (p.1854·1); phenazone (p.116·1).
Earache.

Auroxicam *Aurora, Gr.*
Meloxicam (p.80·3).
Inflammatory disorders.

Auroxidol *Aurora, Gr.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Aurum-Gastreu S R2 *Reckeweg, Ger.*
Homoeopathic preparation.

Aurumheel *Peithner, Austria.*
Homoeopathic preparation.

Auscap *Sigma, Austral.*
Fluoxetine hydrochloride (p.391·2).
Depression; obsessive-compulsive disorder.

Auscard *Sigma, Austral.†.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris.

Ausclav *Sigma, Austral.†.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Ausentron *Laboratorios Chile, Chile.*
Clomipramine (p.387·1).
Depression; nocturnal enuresis; obsessive-compulsive disorder; premature ejaculation.

Ausfam *Arrow, Austral.; Arrow, Hong Kong.*
Famotidine (p.1730·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Ausgem *Sigma, Austral.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Auspilic *Pharos, Indon.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Auspril *Sigma, Austral.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Ausran *Sigma, Austral.*
Ranitidine hydrochloride (p.1766·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Aussie Tan
Note. This name is used for preparations of different composition.
Or-Dov, Austral.†.
SPF 4: Octinoxate (p.1608·2); avobenzone (p.1589·3).
Sunscreen.

Or-Dov, Austral.
SPF 7: Octinoxate (p.1608·2); avobenzone (p.1589·3); oxybenzone (p.1608·3).
Sunscreen.

Or-Dov, Austral.
SPF 15 Lotion: Octinoxate (p.1608·2); avobenzone (p.1589·3); oxybenzone (p.1608·3).
Sunscreen.

Or-Dov, Austral.
SPF 15 Topical gel: Octinoxate (p.1608·2); avobenzone (p.1589·3).
Sunscreen.

Aussie Tan Pre-Tan *Or-Dov, Austral.*
Tyrosine (p.1971·1); tyrosinase.
To accelerate tanning.

Aussie Tan Skin Moisturiser *Or-Dov, Austral.*
⊗ Urea (p.1620·2); lactic acid (p.2329·3).

Aussie Tan Sunstick *Or-Dov, Austral.*
Salol (p.122·1).
Sunscreen.

Austrapen *Lennon, Austral.*
Ampicillin sodium (p.204·1).
Bacterial infections.

Austrophyllin *Petrasch, Austria†.*
Diprophylline (p.1120·2).

Aut *Elea, Arg.†.*
Pyrantel embonate (p.155·1).
Gastrointestinal worm infections.

Autdol *Laboratorios Chile, Chile.*
Diclofenac sodium (p.44·3).
Fever; gout; inflammation; musculoskeletal and joint disorders; pain.

Aution Sticks 10EA *Menarini Diagnostics, Port.†.*
Test for glucose, protein, bilirubin, urobilinogen, pH, specific gravity, blood, ketones, nitrites, and leucocytes in urine.

Autoderm Extra *Ecolab, Ger.*
⊗ Alcohol (p.1625·2); isopropyl alcohol (p.1650·3); benzyl alcohol (p.1631·3).
Skin disinfection.

Autohaler *Cipla, India†.*
⊗ Isoprenaline sulfate (p.1316·3).
Obstructive airways disease.

Autohelios *Roche-Posay, Arg.†; Roche-Posay, Braz.*
Dihydroxyacetone (p.1594·1).
Sunscreen adjunct.

Autoplasme Vaillant *SERP, Mon.*
Black mustard (p.2349·1).
Respiratory-tract congestion.

Autoplex *Baxter, Ger.†; Baxter, Swed.†.*
A factor VIII inhibitor bypassing fraction (p.1068·2).
Haemorrhage in patients with inhibitors to factor VIII.

Autoplex T *Baxter, Malaysia†; Nabi, USA†.*
A factor VIII inhibitor bypassing fraction (p.1068·2).
Haemorrhage in patients with inhibitor to factor VIII.

Autrin
Note. This name is used for preparations of different composition.
Wyeth, India; Wyeth, Mex.†; Pharmacare, S.Afr.
Ferrous fumarate (p.1938·3); folic acid; vitamin B (p.1922·1).
Vitamin C (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Wyeth, Venez.†.
Capsules: Ferrous sulfate (p.1939·3); vitamin B (p.1980·2).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Wyeth, Venez.†.
Syrup: Ferrous sulfate (p.1939·3); vitamin B substances (p.1922·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Autrinic Compuesto *Wyeth, Arg.†.*
Ferrous fumarate (p.1938·3); ascorbic acid; vitamin B ; intrinsic factor; folic acid (p.1922·1).
Anaemias.

Autritis *Pentafarma, Port.*
Indometacin (p.66·3).

Auxib *MSD, Austria; MSD, Neth.*
Etoricoxib (p.53·1).
Arthritic gout; gout; osteoarthritis; rheumatoid arthritis.

Auxiloson *Boehringer Ingelheim, Ger.†.*
⊗ Dexamethasone isonicotinate (p.1526·1).
Respiratory-tract disorders.

Auxina A + E *Chiesi, Spain.*
Vitamin A palmitate (p.1973·1); tocoferil acetate (p.1992·3).
Deficiency of vitamins A and E; eye disorders; infertility; recurrent miscarriage; skin disorders.

Auxina A Masiva *Chiesi, Spain.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Auxina E *Chiesi, Spain.*
Tocoferil acetate (p.1992·3).
Biliary-tract disorders; cystic fibrosis; hypoproteinaemia; vitamin E deficiency.

Auxitrans *Aerocid, Fr.*
Pentaerythritol (p.1761·1).
Constipation.

Auxofer *Magis, Ital.*
Ferrous gluconate (p.1939·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron-deficiency anaemia.

Auxxil *Laboratorios Chile, Chile.*
Levofloxacin (p.292·2).
Bacterial infections.

Avaden *Schering, Braz.; Schering, Chile; Schering, Cz.†; Schering, Mex.; Schering, Neth.†; Schering, Venez.*
16 Tablets, estradiol (p.2097·2); 12 tablets estradiol; gestodene (p.2105·2).
Menopausal disorders; osteoporosis.

Avadene *Schering, Fr.; Bayer, Port.*
16 Tablets, estradiol (p.2097·2); 12 tablets, estradiol; gestodene (p.2105·2).
Menopausal disorders; osteoporosis.

Avafontan *Alpharma, Mex.*
Dipyrone (p.49·2).
Fever; pain.

Avafortan *Therabel, Fr.†.*
Camylofin hydrochloride (p.2274·1) or camylofin noramidopyrine mesilate (p.2274·1); dipyrone (p.49·2).
Pain; smooth muscle spasm.

Avagard CHG *3M, Canad.*
⊗ Alcohol (p.1625·2); chlorhexidine gluconate (p.1635·3).

Avagard D *3M, Canad.*
⊗ Alcohol (p.1625·2).
Hand disinfection.

Avage *Allergan, USA.*
Tazarotene (p.1617·1).
Facial wrinkles; skin pigmentation disorders.

Avaglim *GSK, Cz.; GSK, Fr.; GSK, Gr.; GSK, Hung.; GSK, Port.*
Rosiglitazone maleate (p.458·2); glimepiride (p.441·1).
Diabetes mellitus.

Avail *Menley & James, USA.*
Multivitamin and mineral preparation with iron and folic acid (p.1922·1).

Avala *Farmasa, Mex.; DHU, Spain.*
Cimicifuga (p.2282·1).
Menopausal disorders.

Avaldrian *Alpharma, Mex.†.*
Dipyrone (p.49·2).
Fever; pain.

Avalide *BMS, Canad.; Sanofi Synthelabo, Canad.; BMS, Mex.; BMS, USA.*
⊗ Irbesartan (p.1316·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Avallone *Novartis, Austria.*
Ibuprofen (p.64·2).
Inflammation; musculoskeletal and joint disorders; pain.

Avalon *Difa, Ital.*
Avena (p.2262·1).
Emollient skin cleanser.

Avalox *Bayer, Braz.; Bayer, Ger.; Bayer, Ital.; Bayer, Switz.*
Moxifloxacin hydrochloride (p.302·1).
Bacterial infections; bacterial infections of the respiratory tract.

Avamigran
Note. This name is used for preparations of different composition.
Viatris, Austria.
Ergotamine tartrate (p.620·1); mecloxamine citrate (p.1744·3); camylofin hydrochloride (p.2274·1); caffeine (p.1116·3); propyphenazone (p.119·3).
Cluster headache; migraine.

Transfarma, Philipp.
Ergotamine tartrate (p.620·1).
Vascular headache.

Viatris, Port.†.
Ergotamine tartrate (p.620·1); propyphenazone (p.119·3).
Cluster headache; vascular headache.

Meda, Thai.; Pharmalink, Thai.
Ergotamine tartrate (p.620·1); caffeine (p.1116·3).
Migraine and related vascular headaches.

Avamigran N *AWD, Ger.†.*
Ergotamine tartrate (p.620·1); propyphenazone (p.119·3).
Cluster headache; migraine.

Avamys *GSK, Austral.; GSK, Cz.*
⊗ Fluticasone furoate (p.1533·2).
Allergic rhinitis.

Avance *Medlock Medical, UK.*
Hydropolymer wound dressing containing silver (p.2387·1).
Exudating wounds.

Avancel
Note. This name is used for preparations of different composition.
Bago, Arg.
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Oral contraceptive in women with androgenic symptoms.

Bago, Chile†.
Tenoxicam (p.128·2).
Gout; musculoskeletal, joint, and peri-articular disorders.

Avancort *Polifarma, Ital.*
⊗ Methylprednisolone aceponate (p.1539·1).
Skin disorders.

Avandamet *GSK, Arg.; GSK, Austral.; GSK, Belg.; GSK, Canad.; GSK, Chile; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Fr.; GSK, Ger.; GSK, Gr.; GSK, Hong Kong; GSK, Hung.; GSK, Indon.; GSK, Irl.; GSK, Israel; GSK, Ital.; GSK, Malaysia; GSK, Mex.; GSK, Neth.; GSK, Norw.; GSK, Philipp.; GSK, Pol.; GSK, Port.; GSK, Singapore; GSK, Spain; GSK, Swed.; GSK, Switz.; GSK, Thai.; GSK, UK; GSK, USA; GSK, Venez.*
Rosiglitazone maleate (p.458·2); metformin hydrochloride (p.453·2).
Diabetes mellitus.

Avandaryl *GSK, Indon.; GSK, USA.*
Rosiglitazone maleate (p.458·2); glimepiride (p.441·1).
Diabetes mellitus.

Avandia *GSK, Arg.; GSK, Austral.; GSK, Belg.; GSK, Braz.; GSK, Canad.; GSK, Chile; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Fr.; GSK, Ger.; GSK, Gr.; GSK, Hong Kong; GSK, Hung.; GSK, Indon.; GSK, Irl.; GSK, Israel; GSK, Ital.; GSK, Malaysia; GSK, Mex.; GSK, NZ; GSK, Neth.; GSK, Norw.; GSK, Philipp.; GSK, Pol.; GSK, Port.; GSK, Rus.; GSK, S.Afr.; GSK, Singapore; GSK, Spain; GSK, Swed.; GSK, Switz.; GSK, Thai.; GSK, Turk.; GSK, UK; SmithKline Beecham, USA; GSK, Venez.*
Rosiglitazone maleate (p.458·2).
Diabetes mellitus.

Avant *Medochemie, Malaysia†.*
Haloperidol (p.1000·2).
Behavioural disorders; hiccups; movement disorders; psychomotor agitation; psychoses; stuttering; tics; vomiting.

Avantrin *UCB, Ital.†.*
Trapidil (p.1416·3).
Ischaemic heart disease.

Avanza *British Pharmaceuticals, Austral.*
Mirtazapine (p.409·2).
Depression.

Avapena *Sandoz, Mex.*
Chloropyramine hydrochloride (p.571·3).
Hypersensitivity.

Avapro *BMS, Arg.; BMS, Austral.; BMS, Braz.; BMS, Canad.; Sanofi Synthelabo, Canad.; BMS, Mex.; BMS, USA; Sanofi Winthrop, USA.*
Irbesartan (p.1316·1).
Diabetic nephropathy; hypertension.

Avapro HCT *BMS, Arg.; BMS, Austral.*
⊗ Irbesartan (p.1316·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Avar *Tiber, USA.*
Sulfur (p.1614·1); sulfacetamide sodium (p.335·3).
Acne.

Avaron *Bioton, Pol.*
Glimepiride (p.441·1).
Diabetes mellitus.

Avastar *Vianex (Βιανεξ), Gr.†.*
Tirofiban (p.1414·2).
Antiplatelet therapy.

Avastin *Roche, Arg.; Roche, Austral.; Roche, Belg.; Roche, Braz.; Roche, Canad.; Roche, Chile; Roche, Cz.; Roche, Denm.; Roche, Fin.; Roche, Fr.; Roche, Ger.; Roche, Gr.; Roche, Hong Kong; Roche, Hung.; Roche, Indon.; Roche, Irl.; Roche, Israel; Roche, Ital.; Chugai, Jpn; Roche, Mex.; Roche, NZ; Roche, Neth.; Roche, Norw.; Roche, Philipp.; Roche, Pol.; Roche, Port.; Genentech, Rus.; Roche, S.Afr.; Roche, Singapore; Roche, Spain; Roche, Swed.; Roche, Switz.; Roche, Thai.; Roche, UK; Genentech, USA.*
Bevacizumab (p.684·3).
Breast cancer; colorectal cancer; non-small cell lung cancer; renal cell cancer.

Avastinee *APT, Hong Kong.*
Simvastatin (p.1390·2).
Cardiovascular risk reduction; hypercholesterolaemia.

Avastoph *Medic+Aid, Philipp.*
Cloxacillin sodium (p.256·1).
Staphylococcal infections.

Avatratin *Iator, Gr.*
Simvastatin (p.1390·2).
Hyperlipidaemias.

Avaxim *Sanofi Pasteur, Arg.; Aventis Pasteur, Austral.; Aventis Pasteur, Braz.†; Sanofi Pasteur, Canad.; Sanofi Pasteur, Chile; Sanofi Pasteur, Cz.; Sanofi Pasteur, Fr.; Vianex (Βιανεξ), Gr.; Sanofi Pasteur, Hong Kong; Sanofi Pasteur, Hung.; Sanofi Pasteur, Indon.; Sanofi Pasteur, Irl.; Pasteur Merieux, Israel; Sanofi Pasteur, Ital.; Sanofi Pasteur, Malaysia; Sanofi Pasteur, Mex.; MSD, NZ; Sanofi Pasteur, Neth.; Aventis Pasteur,*

Philipp.; Aventis Pasteur, Pol.; Sanofi Pasteur, Port.; Aventis, S.Afr.; Sanofi Pasteur, Singapore; Sanofi Pasteur, Spain; Sanofi Pasteur, Swed.; Sanofi Pasteur, Thai.; Aventis Pasteur, Turk.; Aventis Pasteur, UK.
An inactivated hepatitis A vaccine (p.2214·2).
Separate preparations are available for children and for adolescents and adults.
Active immunisation.

Avazinc *Rekah, Israel.*
Zinc sulfate (p.1999·2).
Zinc deficiency.

AVC *Theramed, Canad.†.*
Sulfanilamide (p.343·1).
Vulvovaginal candidiasis.

Avecyde *3M, Malaysia†; Galderma, Mex.; 3M, Singapore†.*
Lactic acid (p.2329·3).
Skin cleansing; skin irritation; soap substitute.

Avedorm duo *Eberth, Ger.*
Valerian (p.2410·1); lupulus (p.2335·2).
Agitation; sleep disorders.

Avedox-FC *Continentales, Mex.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Aveendix *Darier, Mex.*
Avena (p.2262·1); borage (p.2267·3); lactyl glutamate; vitamin E acetate (p.1992·3); levomenol (p.2333·3).
Dry skin; skin irritation.

Aveeno *Rydelle, USA.*
Soap-free skin cleanser; emollient and moisturiser.

Aveeno Anti-Itch *Johnson & Johnson, Canad.*
Calamine (p.1591·2); pramocaine hydrochloride (p.1868·1).
Skin disorders.

Aveeno Cleansing Bar *Rydelle, USA.*
Sulfur (p.1614·1); salicylic acid (p.1612·2); colloidal oatmeal (p.2262·1).
Acne.

Aveeno Diaper Rash *Johnson & Johnson, Canad.*
Zinc oxide (p.1621·2).
Nappy rash.

Aveeno Preparations *Johnson & Johnson, Canad.; Johnson & Johnson, Ital.; Dermoteca, Port.; Johnson & Johnson, UK.*
A range of preparations containing avena (p.2262·1).
Skin care; skin cleansing; skin disorders.

Avegon *Menarini, Gr.*
Vitamin A (p.1971·2); vitamin E (p.1992·2).

Avelon *Bayer, S.Afr.*
Moxifloxacin hydrochloride (p.302·1).
Bacterial infections.

Avelox *Bayer, Arg.; Bayer, Austral.; Bayer, Austria; Bayer, Belg.; Bayer, Canad.; Bayer, Chile; Bayer, Cz.; Bayer, Denm.; Bayer, Fin.; Bayer, Gr.; Bayer, Hong Kong; Bayer, Hung.; Bayer, Indon.; Bayer, Irl.; Shionogi, Jpn; Bayer Schering, Malaysia; Bayer, Mex.; Bayer, NZ; Bayer, Neth.; Bayer, Philipp.; Bayer, Pol.; BayHealth, Port.; Bayer, Rus.; Bayer, Singapore; Bayer, Swed.; Bayer, Thai.; Bayer, Turk.; Bayer, UK; Schering-Plough, USA; Bayer, Venez.*
Moxifloxacin hydrochloride (p.302·1).
Bacterial infections.

Avemar *Er-Kim, Turk.*
Preparation for enteral nutrition (p.1922·1).

Avena Complex *Blackmores, Austral.*
Rosemary (p.2381·2); avena (p.2262·1); vervain (p.2413·3); kola (p.2416·1); vitamin B substances (p.1922·1).
Tonic.

Avena Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Avena Rihom Komplex *Richter, Austria.*
Homoeopathic preparation.

Avena Sativa Comp *Weleda, S.Afr.; Weleda, UK.*
Avena (p.2262·1); coffea tosta; lupulus (p.2335·2); passion flower (p.2363·2); valerian (p.2410·1).
Insomnia; restlessness; sedative; to aid relaxation.

Avenaforce *Bioforce, Switz.†.*
Avena (p.2262·1).
Insomnia; nervousness.

Avene Antirougeurs *Avene, Fr.*
⊗ Butcher's broom (p.2270·3); dextran sulfate (p.2293·1); hesperidin methyl chalcone (p.2305·2).
Skin redness.

Avene Creme Protectrice and Lait Protecteur *Avene, Fr.†.*
SPF 12B 12A: Cinnamate.
Sunscreen.

Avene Ecran Extreme
Note. This name is used for preparations of different composition.
Avene, Fr.†.
SPF 50B 15A: Zinc oxide (p.1621·2); titanium dioxide (p.1617·3).
Sunscreen.

Avene, Fr.†.
SPF 60B 60A: Cinnamate.
Sunscreen.

Avene Ecran Jour *Avene, Fr.†.*
SPF 15: Zinc oxide (p.1621·2); titanium dioxide (p.1617·3); cinnamate.
Sunscreen.

Avene Ecran Tres Haute Protection
Note. This name is used for preparations of different composition.
Avene, Fr.†.
Cream SPF 20B 20A: Cinnamate.
Sunscreen.

Avene, Fr.†.
SPF 20B 15A: Titanium dioxide (p.1617·3); zinc oxide (p.1621·2).
Sunscreen.

Avene, Fr.†.
Stick SPF 20B 20A: Cinnamate; titanium dioxide (p.1617·3).
Sunscreen.

Avene 50 Proteccion Extrema *Silesia, Chile.*
SPF 50: Titanium dioxide (p.1617·3); zinc oxide (p.1621·2).
Sunscreen.

Avene 20 Proteccion Total
Note. This name is used for preparations of different composition.
Silesia, Chile.
Cream SPF 20: Titanium dioxide (p.1617·3); zinc oxide (p.1621·2); cinnamate.
Sunscreen.

Silesia, Chile.
Stick SPF 20: Titanium dioxide (p.1617·3); cinnamate.
Sunscreen.

Avene Spray 50+ *Silesia, Chile.*
Titanium dioxide (p.1617·3); zinc oxide (p.1621·2); bisoctrizole (p.1591·2); Tinosorb S (p.1590·2).
Sunscreen.

Aveno
Note. This name is used for preparations of different composition.
Szama, Arg.
Avena (p.2262·1); melaleuca oil (p.2338·2).
Skin disorders.

Galderma, Braz.
Barrier preparation; skin cleanser.

Avenoc
Note. This name is used for preparations of different composition.
Boiron, Cz.
Pilewort (p.2368·1); paeonia officinalis; adrenaline; amylocaine hydrochloride (p.1853·3).
Anorectal disorders; haemorrhoids.

Boiron, Canad.; Boiron, Port.
Homoeopathic preparation.

Avensyl *Elmor, Venez.*
Ispaghula (p.1737·1); avena (p.2262·1).
Constipation.

Aventyl *Pharmascience, Canad.; Lilly, USA.*
Nortriptyline hydrochloride (p.413·2).
Depression.

Aveptol *Aledicine, Gr.*
Levocarnitine (p.1932·2).

Averpan *Neovita, Braz.†.*
Mebendazole (p.148·3).
Worm infections.

Avertex *Beta, Arg.*
⊗ Finasteride (p.2188·3).
Benign prostatic hyperplasia.

Avertin *Avefarm, Cz.*
Betahistine hydrochloride (p.2265·1).
Ménière's disease.

Avesoap *ICN, Arg.†.*
Soap substitute for sensitive skin.

Aviane *Duramed, USA.*
21 Tablets, levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3); 7 tablets, inert.
Combined oral contraceptive.

Aviant *Schering-Plough, Mex.*
Desloratadine (p.576·1).
Allergic rhinitis; allergic skin disorders.

Avibon *Sanofi-Aventis, Fr.*
Vitamin A palmitate (p.1973·1).
Skin disorders.

Avicap *Kocak, Turk.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Avicis *Galderma, Braz.*
Estradiol (p.2097·2).
Alopecia.

A-Vicon *Collins, Mex.†.*
Vitamin A (p.1971·2).

A-Vicotrat *Heyl, Ger.†.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Avidart *GSK, Spain.*
⊗ Dutasteride (p.2188·1).
Benign prostatic hyperplasia.

Avidazine *Bell, India.*
Cinnarizine (p.573·1).
Ménière's disease; tinnitus; vertigo.

Avigen *Aksu, Turk.*
Vitamin A (p.1971·2).
Vitamin A deficiency.

Avigilen
Note. This name is used for preparations of different composition.
Sanova, Austria.
Alpha tocoferil acetate (p.1992·3).
Intermittent claudication; muscle and connective tissue disorders.

Riemser, Ger.
Piracetam (p.368·2).
Mental function disorders.

Avil
Aventis, Austral.; Hexal, Austria; Aventis, India; Sanofi-Aventis, Indon.; Aventis, NZ†; Ilsan, Turk.
Pheniramine maleate (p.587·3).
Allergic disorders; cold symptoms; motion sickness; pruritus; rhinitis; vestibular disorders.

Avil Decongestant *Aventis, Austral.*
Pheniramine maleate (p.587·3); ammonium chloride (p.1551·3); menthol (p.2340·1).
Bronchial and nasal congestion; coughs.

Avil Expectorant *Hub, India.*
Pheniramine maleate (p.587·3); ammonium chloride (p.1551·3); menthol (p.2340·1).
Bronchitis; coughs; respiratory-tract hypersensitivity.

Avilac *Agis, Israel.*
Lactulose (p.1738·2).
Constipation; hepatic encephalopathy.

Avinal-Ex *Sons, Mex.†.*
Vitamin A (p.1971·2).
Vitamin A deficiency.

Avintac *Mavi, Mex.*
Ranitidine (p.1766·1).

Avinza *King, USA.*
⊗ Morphine sulfate (p.86·3).
Pain.

Aviomarin *Pliva Krakow, Pol.*
Dimenhydrinate (p.576·2).
Motion sickness; nausea and vomiting.

Avipur *Taro, Israel.*
Vitamin A (p.1971·2).
Vitamin A deficiency.

Avir *Roemmers-Klinos, Venez.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aviral *Medley, Braz.; Mepha, Switz.; Pliva, UK.*
Aciclovir (p.862·3).
Herpesvirus infections.

Avirase *Lampugnani, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Avirax *Fabrigen, Canad.†.*
Aciclovir (p.862·3).
Herpesvirus infections.

Avirex-T *Tecnofarma, Mex.*
Aciclovir (p.862·3).
Herpesvirus infections.

Aviril H
Note. This name is used for preparations of different composition.
Leciva, Cz.†.
Ointment: Cinchocaine hydrochloride (p.1857·3); lysates of: *Escherichia coli*; *Staphylococcus*; *Pseudomonas aeruginosa*; *Streptococcus*; hamamelis (p.2318·2); calcium hydroxide (p.2272·2).
Anorectal disorders; haemorrhoids.

Leciva, Cz.†.
Suppositories: Hydroxyquinoline sulfate (p.2323·1); potassium sulfate (p.1684·3); cinchocaine hydrochloride (p.1857·3); lysates of: *Escherichia coli*; *Staphylococcus*; *Pseudomonas aeruginosa*; *Streptococcus*.
Anorectal disorders; haemorrhoids.

Avirin
Note. This name is used for preparations of different composition.
Royal, Chile†.
Amlodipine (p.1214·2).
Hypertension; ischaemic heart disease.

Eurofarmaco, Ital.†.
Inosine pranobex (p.884·2).
Viral infections.

Avirostat *Varifarma, Arg.*
Interferon alfa-2a (p.885·1).
Anogenital warts; hepatitis; malignant neoplasms.

Avirox *Sandoz, Denm.*
Aciclovir (p.862·3).
Herpes labialis.

Avishot *Organon, Jpn.*
Naftopidil (p.2190·2).
Benign prostatic hyperplasia.

A-Vita
Note. A similar name is used for preparations of different composition (see below).
Leiras, Fin.
Vitamin A palmitate (p.1973·1); menthol (p.2340·1).
Nasal dryness.

Avita
Note. A similar name is used for preparations of different composition (see above).
Penederm, USA.
Tretinoin (p.1618·1).
Acne.

A-Vitamiini *Leiras, Fin.†.*
Vitamin A (p.1971·2).
Scalp and skin disorders.

A-vitamin *Medic, Denm.*
Vitamin A (p.1971·2).
Vitamin A deficiency.

Avitan *Neckerman, Braz.†.*
Vitamin A (p.1971·2).

Avitana *Pfizer, Chile.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Avitcid *Orion, Fin.*
Tretinoin (p.1618·1).
Acne; keratinisation disorders.

A-Vite *Neves, Port.*
Vitamin A (p.1971·2).
Vitamin A deficiency.

A-Vitel *Medipharma, Arg.*
Vitamin A palmitate (p.1973·1).
Skin disorders.

A-Vitel E *Medipharma, Arg.*
Vitamin A (p.1971·2); alpha tocopherol (p.1992·2).
Skin disorders.

Avitene *Bard, Hong Kong†; Shionogi, USA.*
Microfibrillar collagen (p.2286·1).
Haemorrhage in surgical procedures.

Avitil *Roemmers Medihe, Venez.*
Extramel.
Pigmentation disorders; vitiligo.

Avitol *Lannacher, Austria.*
Vitamin A acetate (p.1973·1).
Vitamin A deficiency.

Avitracid *Adroka, Switz.†.*
Isopropyl alcohol (p.1650·3).
Hand disinfection.

Avix *Ibirn, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Avixis *Galderma, Arg.; Galderma, Mex.*
⊗ Alfatradiol (p.2082·1).
Alopecia androgenetica.

Avlocardyl *AstraZeneca, Fr.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction; obstructive cardiomyopathy; oesophageal varices; tremor.

Avloclor *AstraZeneca, Indon.; AstraZeneca, Irl.; Zeneca, Israel; AstraZeneca, UK.*
Chloroquine phosphate (p.599·3).
Hepatic amoebiasis; lupus erythematosus; malaria; rheumatoid arthritis.

Avlosulfon *Wyeth-Ayerst, Israel†.*
Dapsone (p.261·2).
Dermatitis herpetiformis; leprosy.

Avmigran *Ulagay, Turk.*
Ergotamine tartrate (p.620·1); caffeine (p.1116·3); mecloxamine citrate (p.1744·3); paracetamol (p.108·1).
Migraine.

Avoca *Bray, UK.*
⊗ Silver nitrate (p.2387·2); potassium nitrate (p.1658·3).
Verrucas; warts.

Avocin *Wyeth Lederle, Ital.†.*
Piperacillin sodium (p.315·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Avodart *GSK, Arg.; GSK, Austria; GSK, Belg.; GSK, Canad.; GSK, Chile; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Fr.; GSK, Ger.; GSK, Gr.; GSK, Indon.; GSK, Irl.; GSK, Israel; GSK, Ital.; GSK, Malaysia; GSK, Mex.; GSK, Neth.; GSK, Norw.; GSK, Philipp.; GSK, Pol.; GSK, Port.; GSK, Rus.; GSK, S.Afr.; GSK, Singapore; GSK, Swed.; GSK, Switz.; GSK, Turk.; GSK, UK; GSK, USA.*
⊗ Dutasteride (p.2188·1).
Benign prostatic hyperplasia.

Avogin *Lapi, Indon.*
Ginger (p.1732·3); vitamin B (p.1979·1).
Nausea and vomiting.

Avolve *GSK, Austria; Alenfarma, Port.*
⊗ Dutasteride (p.2188·1).
Benign prostatic hyperplasia.

Avomine *Sanofi-Aventis, Austral.; Nicholas Piramal, India; Aventis, NZ; Pharmacare, S.Afr.; Manx, UK.*
Promethazine teoclate (p.588·3).
Motion sickness; nausea and vomiting.

Avonex *Abbott, Arg.; Biogen, Austral.; Biogen, Austria; Biogen, Belg.; Abbott, Braz.; Biogen, Canad.; Abbott, Chile; Biogen, Cz.; Biogen, Denm.; Biogen, Fin.; Biogen, Fr.; Biogen, Ger.; Genesis, Gr.; Biogen, Hung.; Biogen, Irl.; Biogen, Israel; Dompe Biotec, Ital.; Abbott, Mex.; Biogen, NZ; Biogen, Neth.; Biogen, Norw.; Biogen, Pol.†; Biogen, Port.; Biogen, Rus.; Pharmaplan, S.Afr.; Biogen, Spain; Biogen, Swed.; Biogen Dompe, Switz.; Gen, Turk.; Biogen, UK; Biogen, USA; Abbott, Venez.*
Interferon beta-1a (p.891·2).
Multiple sclerosis.

Avorax *Xepa-Soul Pattinson, Hong Kong; Xepa-Soul Pattinson, Malaysia; Xepa-Soul Pattinson, Singapore.*
Aciclovir (p.862·3).
Herpesvirus infections of the skin and mucous membranes.

Avrazor *Zentiva, Cz.*
Ornidazole (p.843·1).
Anaerobic bacterial infections; protozoal infections.

Avril *Teofarma, Spain.*
Cod-liver oil (p.1935·2); aluminium acetotartrate (p.2255·1); benzalkonium chloride (p.1629·1); zinc oxide (p.1621·2).
Burns; wounds.

Avural *LKM, Arg.*
Indinavir (p.884·2).
HIV infection.

Avuxilan *Arlex, Mex.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Avyclor *Uno, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Avyplus *Epifarma, Ital.*
Aciclovir (p.862·3).
Herpesvirus infections.

Avysal *Selvi, Ital.†.*
Aciclovir (p.862·3).
Herpesvirus infections.

Awayke *Panacea, India†.*
Loratadine (p.583·3).
Cold symptoms; hypersensitivity reactions.

Awesome Animals *Nu-Life, Canad.*
Multivitamin and mineral preparation (p.1922·1).

Awestatin *AWD, Hung.*
Simvastatin (p.1390·2).
Cardiovascular risk reduction; hypercholesterolaemia.

Awirol *ICN, Pol.*
Aciclovir (p.862·3).
Herpesvirus skin infections.

Axagon *Simesa, Ital.*
Esomeprazole magnesium (p.1729·2) or esomeprazole sodium (p.1729·2).
Gastro-oesophageal reflux; peptic ulcer.

Axal
Note. This name is used for preparations of different composition.
Duopharma, Malaysia.
Benfluorex hydrochloride (p.1224·3).
Hyperlipidaemias.
Randall, Mex.†.
Aspirin (p.20·3).

Axalan *Medifarma, Indon.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Musculoskeletal and joint disorders; pain.

Axalin *Cipla, India†.*
⊗ Salbutamol sulfate (p.1131·3); ambroxol (p.1550·3); guaifenesin (p.1561·3); menthol (p.2340·1).

Axalin-AX *Cipla, India.*
⊗ Salbutamol (p.1131·2); ambroxol hydrochloride (p.1550·3).
Obstructive airways disease.

Axamon *Pik, Rus.*
Ipidacrine (p.631·2).
Alzheimer's disease; CNS and peripheral nervous system disorders; demyelinating disease; gastrointestinal atony; myasthenia.

Axant *Mintlab, Chile.*
Lactulose (p.1738·2).

Axasol *Andromaco, Chile.*
Clotrimazole (p.530·1).
Balanitis; fungal vaginal infections.

Axcel Dextrozine *Kotra, Malaysia.*
Dextromethorphan hydrobromide (p.1555·2); promethazine hydrochloride (p.588·2).
Cough; respiratory-tract congestion.

Axcel Fusi-Corte *Kotra, Malaysia.*
⊗ Fusidic acid (p.279·3); betamethasone valerate (p.1519·1).
Infected skin disorders.

Axcel Tridine *Kotra, Malaysia.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms; respiratory-tract congestion; rhinitis; sinusitis.

Axed *Grin, Mex.*
Vitamin A; ergocalciferol (p.1922·1).
Vitamin A and E deficiency.

Axelabron *Ferakon, Gr.*
Risperidone (p.1024·2).
Psychoses.

Axelan *Proel, Gr.*
Minoxidil (p.1342·1).
Alopecia androgenetica.

Axelanol *Ferakon, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Axelorax *Proel, Gr.*
Cefatrizine propylene glycol (p.221·3).
Bacterial infections.

Axelovert *Ferakon, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Axelvin *Proel, Gr.*
Lisinopril (p.1325·2).
Heart failure; hypertension; myocardial infarction.

Axepim *BMS, Fr.*
Cefepime hydrochloride (p.223·3).
Bacterial infections.

Axer *Wassermann, Ital.†.*
Naproxen sodium (p.92·3).
Musculoskeletal and joint disorders; pain.

Axerophthol *Biotika, Cz.*
Vitamin A acetate (p.1973·1).
Vitamin A deficiency.

Axert *Janssen-Ortho, Canad.; Ortho McNeil, USA.*
Almotriptan malate (p.617·3).
Migraine.

Axetine
GSK, Belg.
Cefuroxime axetil (p.238·2).
Bacterial infections.
Medochemie, Cz.; Medochemie, Hong Kong†; Medochemie, Rus.; Medochemie, Thai.†.
Cefuroxime sodium (p.238·2).
Bacterial infections.

Axiago *Beta, Spain.*
Esomeprazole magnesium (p.1729·2).
Gastro-oesophageal reflux; peptic ulcer.

Axibin *Korea United, Philipp.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Axid
Farmoquimica, Braz.; Pharmel, Canad.; Lilly, Gr.†; Lilly, Hong Kong; Lilly, Indon.; Flynn, Irl.; Lilly, Malaysia†; Lilly, Mex.; Lilly, Neth.; Norgine, Neth.; GSK, Philipp.; Lilly, Thai.†; Lilly, Turk.; Flynn, UK; Braintree, USA; GSK, USA; Wyeth Consumer, USA; Lilly, Venez.†.
Nizatidine (p.1751·2).
Dyspepsia; gastritis; gastro-oesophageal reflux; heartburn; peptic ulcer.

Axilin *Ivax, Mex.*
Flunarizine (p.580·3).
Migraine.

Axilium *Pulitzer, Ital.*
Lormetazepam (p.1005·2).
Insomnia.

Aximad *Boniscontro & Gazzone, Ital.*
Cefotaxime sodium (p.228·1).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Gram-negative bacterial infections.

Axis *Labinca, Arg.†.*
Piroxicam (p.117·3).

Axistal *Asian Pharm, Thai.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Axit *Alphapharm, Austral.*
Mirtazapine (p.409·2).
Depression.

Axmaxolv *Jewim, Philipp.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Axobat *Lisapharma, Ital.*
Ceftriaxone sodium (p.237·1).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Axocillin *Malayan, Singapore†.*
Cloxacillin sodium (p.256·1).
Gram-positive bacterial infections.

Axofin *Eurodrug, Mex.*
Doxofylline (p.1120·3).
Obstructive airways disease.

Axofor *Aventis, Mex.*
Hydroxocobalamin acetate (p.1980·3).
Anaemias; neuralgias; neuritis; neuropathies; vitamin B deficiency.

Axokine *Rontag, Arg.*
Hydroxychloroquine sulfate (p.604·2).
Lupus erythematosus; rheumatoid arthritis.

Axol *YSP, Malaysia; Bayer, Mex.; Yung Shin, Singapore.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Axone *Cadila, India.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Axonyl *Pfizer, Fr.†.*
Piracetam (p.368·2).
Dyslexia in children; mental function disorders; vertigo.

Axoren *GSK, Ital.†.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Axotide *GSK, Switz.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Axsain *Zeneus, Irl.; Cephalon, UK; Rodlen, USA.*
Capsaicin (p.32·3).
Diabetic neuropathy; post-herpetic neuralgia.

Axtar *Unipharm, Mex.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Axtil *Adamed, Pol.*
Ramipril (p.1385·3).
Cardiovascular risk reduction; heart failure; hypertension; myocardial infarction; non-diabetic glomerulonephropathy.

Axtin *Mavi, Mex.*
Fluoxetine (p.397·3).
Depression.

Axtrim *Unipharm, Mex.*
Piroxicam (p.117·3).
Inflammation.

Axura *Merz, Austria; Merz, Cz.; Merz, Ger.; Merz, Neth.; Merz, Pol.; Grunenthal, Port.; Andromaco, Spain; Merz, Switz.*
Memantine hydrochloride (p.367·1).
Formerly known as Akatinol in *Ger.*
Alzheimer's disease.

Axurocef *China Chem & Pharma, Thai.*
Cefuroxime axetil (p.238·2).
Bacterial infections.

Aydolid *Farma Lepori, Spain.*
Fosfosal (p.62·1).
Fever; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Aydolid Codeina *Farma Lepori, Spain.*
Codeine phosphate (p.37·2); fosfosal (p.62·1).
Pain.

Aygestin *Barr, USA.*
Norethisterone acetate (p.2119·3).
Abnormal uterine bleeding; endometriosis; secondary amenorrhoea.

Aylide *Alphapharm, Austral.*
Glimepiride (p.441·1).
Diabetes mellitus.

Ayoral *Rayere, Mex.†.*
Dipyrone (p.49·2); papaverine (p.2191·3).
Fever; muscle spasm; pain.

Ayoral Simple *Rayere, Mex.†.*
Dipyrone (p.49·2).
Fever; pain.

Ayr-5 *SMB, Chile.*
⊗ Urea (p.1620·2).
Skin disorders.

Ayr Saline *Ascher, USA.*
Sodium chloride (p.1686·1).
Nasal irritation.

Ayr con urea *SMB, Chile.*
⊗ Urea (p.1620·2).
Dry skin; hyperkeratosis.

Ayra *Sanovel, Turk.*
Candesartan cilexetil (p.1238·3).
Hypertension.

Ayrementol *SMB, Chile.*
Menthol (p.2340·1); camphor (p.2273·2).
Dry skin; skin irritation.

Ayrton's Antiseptic *McGloin, Austral.*
Zinc oxide (p.1621·2); dichlorobenzyl alcohol (p.1642·1).
Superficial skin infections.

Ayrton's Chilblain *McGloin, Austral.*
Camphor (p.2273·2); benzocaine (p.1854·1); peru balsam (p.2365·3); phenol (p.1656·1).
Chilblains.

Ayton *Maigal, Arg.*
Vegetable oils; soya lecithin (p.2332·2).
Skin disorders.

AZ *Elmor, Venez.*
Azelastine hydrochloride (p.568·2).
Eye disorders.

AZ 15 *Procter & Gamble, Ital.*
Sodium chloride (p.1686·1); benzalkonium chloride (p.1629·1); azulene (p.2262·3).
Gum protection; oral hygiene.

Az Ofteno *Volta, Chile.*
Azelastine hydrochloride (p.568·2).
Allergic conjunctivitis.

AZ Ofteno *Sophia, Mex.*
Azelastine hydrochloride (p.568·2).
Allergic conjunctivitis.

AZ Protezione Gengive *Procter & Gamble, Ital.*
Triclosan (p.1665·2); pyrophosphate; sodium fluoride (p.1962·2).
Gum disorders.

AZ Tartar Control *Procter & Gamble, Ital.*
Sodium fluoride (p.1962·2); potassium and sodium pyrophosphates (p.2390·3).
Dental caries prophylaxis; dental tartar.

AZ Verde *Procter & Gamble, Ital.*
Sodium fluoride (p.1962·2).
Dental caries prophylaxis.

Aza 20 *Pharmacore, Indon.*
Azelaic acid (p.1589·3).
Acne.

Azaallen *Allen, Austria.*
Azathioprine (p.1818·2).
Auto-immune disorders; transplant rejection.

Azacard *Oftalmi, Venez.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Azacid *Fako, Turk.*
Azithromycin (p.207·1).
Bacterial infections.

Azacleus *Nucleus, Neth.*
Azithromycin ethanolate (p.207·3).
Bacterial infections.

Azacortid *Aventis, Arg.; Sanofi-Aventis, Chile.*
⊗ Deflazacort (p.1524·3).
Corticosteroid.

Azacortine *Omega, Belg.*
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Azactam *BMS, Arg.†; BMS, Austral.; BMS, Austria; BMS, Belg.; BMS, Braz.; BMS, Chile; BMS, Cz.; BMS, Denm.; BMS, Fin.; Sanofi-Aventis, Fr.; BMS, Ger.; BMS, Gr.; BMS, Hong Kong; BMS, Irl.; BMS, Israel†; BMS, Ital.; Eisai, Jpn; BMS, NZ; BMS, Norw.; BMS, Philipp.; BMS, Pol.; BMS, Port.; BMS, S.Afr.; BMS, Singapore; BMS, Spain; BMS, Swed.; BMS, Switz.; BMS, UK; BMS, USA; BMS, Venez.*
Aztreonam (p.209·2).
Gram-negative bacterial infections.

Azadose *Pfizer, Fr.*
Azithromycin (p.207·1).
Nontuberculous mycobacterial infections.

Azafalk *EciFarma, Chile†; Falk, Ger.*
Azathioprine (p.1818·2).
Auto-immune disorders; rheumatoid arthritis; transplant rejection.

Azaglax *GSK, Austria.*
Azathioprine (p.1818·2).
Auto-immune disorders; transplant rejection.

Azahexal *Hexal, Austral.*
Azathioprine (p.1818·2).
Autoimmune disorders; transplant rejection.

Azalia *Gedeon Richter, Cz.*
Desogestrel (p.2093·2).
Progestogen-only oral contraceptive.

Azamedac *Medac, Ger.*
Azathioprine (p.1818·2).
Auto-immune disorders; transplant rejection.

Azamun *Douglas, Austral.; Leiras, Fin.; Douglas, Hong Kong†; Douglas, NZ; Pharmaplan, S.Afr.*
Azathioprine (p.1818·2).
Auto-immune disorders; immunosuppressant; transplant rejection.

Azanplus *GSK, Mex.*
Ranitidine bismuth citrate (p.1768·1).
Peptic ulcer.

Azantac *GSK, Fr.; GSK, Mex.; PCO, Neth.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; dyspepsia; gastritis; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Azaphen *Makiz-Pharma, Rus.*
Pipofezine or pipofezine hydrochloride (p.420·1).
Depression.

Azapin
Note. This name is used for preparations of different composition.
Arrow, Austral.
Azathioprine (p.1818·2).
Auto-immune disorders; transplant rejection.
Pharmathen, Gr.
Mirtazapine (p.409·2).
Depression.

Azapress *Bodene, S.Afr.*
Azathioprine (p.1818·2).
Transplant rejection.

Azaprin *Nolver, Venez.*
Azathioprine (p.1818·2).
Transplant rejection.

Azaprine *Ivax, Cz.*
Azathioprine (p.1818·2).
Auto-immune disorders; idiopathic thrombocytopenic purpura; transplant rejection.

Aza-Q *Juta, Ger.; Q-Pharm, Ger.*
Azathioprine (p.1818·2).
Auto-immune disorders; transplant rejection.

Azaran *Hemofarm, Rus.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Azarek *Hexal, Austria†; Ecosol, Switz.*
Azathioprine (p.1818·2).
Auto-immune disorders; idiopathic thrombocytopenic purpura; transplant rejection.

Azaron
Note. This name is used for preparations of different composition.
Sanova, Austria; Chefaro, Cz.†; Chefaro, Ger.; Chefaro, Neth.; Chefaro, Spain.
Tripelennamine hydrochloride (p.592·2).
Bites and stings; burns; hypersensitivity reactions; urticaria.
Omega, Belg.
Diphenhydramine hydrochloride (p.577·2).
Pruritus; skin irritation.

Azasan *Salix, USA.*
Azathioprine (p.1818·2).
Rheumatoid arthritis; transplant rejection.

AzaSite *Inspire, USA.*
Azithromycin (p.207·1).
Bacterial conjunctivitis.

Azathiodura *Merck dura, Ger.*
Azathioprine (p.1818·2).
Auto-immune disorders; transplant rejection.

Azatill *Prodotti, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azatrilem *Lemery, Mex.*
Azathioprine (p.1818·2).
Immunosuppressant.

Azatyl *Remedina, Gr.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Azecar *Bago, Arg.*
Acenocoumarol (p.1201·1).
Thromboembolic disorders.

Azectol *Help, Gr.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Azedose *Faran, Gr.*
Azelaic acid (p.1589·3).
Acne.

Azee *Cipla, India.*
Azithromycin (p.207·1).
Bacterial infections.

Azelac *Med-One, Gr.*
Azelaic acid (p.1589·3).
Acne.

Azelan *Intendis, Braz.*
Azelaic acid (p.1589·3).
Acne.

Azelast *Sigma, Braz.†.*
Azelastine hydrochloride (p.568·2).
Hypersensitivity reactions.

Azelaxine *Velka, Gr.*
Azelaic acid (p.1589·3).
Acne.

Azelderm *Kleva, Gr.; Orva, Turk.*
Azelaic acid (p.1589·3).
Acne.

Azelex *Allergan, USA.*
Azelaic acid (p.1589·3).
Acne.

Azelone *Korea United, Philipp.*
Azelastine hydrochloride (p.568·2).
Allergic rhinitis; allergic skin disorders; urticaria.

Azeltin *Biofarma, Turk.*
Azithromycin (p.207·1).
Bacterial infections.

Azelvin *Novartis, Norw.; Novartis, Swed.*
Azelastine hydrochloride (p.568·2).
Allergic rhinitis.

Azenam *Aristo, India.*
Aztreonam (p.209·2).
Gram-negative bacterial infections.

Azenil *Pfizer, Israel.*
Azithromycin (p.207·1).
Bacterial infections.

Azep *Sigma, Austral.; Viatris, Hong Kong; German Remedies, India; Asta Medica, Malaysia†; Transfarma, Philipp.; Meda, Port.; Asta Medica, Singapore†; Transfarma, Thai.†.*
Azelastine hydrochloride (p.568·2).
Allergic rhinitis.

Azepal *ICN, Hung.†.*
Carbamazepine (p.471·3).
Alcohol withdrawal syndrome; bipolar disorder; diabetes insipidus; diabetic neuropathy; epilepsy; neuralgias.

Azepam *Macrophar, Thai.*
Diazepam (p.986·3).
Anxiety; autonomic disorders; musculoskeletal spasm; psychoneurotic disorders.

Azetavir *Tecnofarma, Mex.*
Zidovudine (p.913·3).
Viral infections.

Azi *Sigma, Braz.; Sandoz, Hung.*
Azithromycin (p.207·1).
Bacterial infections.

Aziac *Infabra, Braz.†.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2).
Gastrointestinal hyperacidity.

Aziatop *Elea, Arg.*
Omeprazole (p.1753·1).
Peptic ulcer.

Azibact *Ipca, India.*
Azithromycin (p.207·1).
Bacterial infections.

Azibactron *Faran, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Azibiot *Cimprich, Cz.; Euromex, Mex.; KRKA, Pol.*
Azithromycin (p.207·1).
Bacterial infections.

Azicid *Generics, Hung.*
Azithromycin (p.207·1).
Bacterial infections.

Aziclav *Spirig, Switz.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Azidina *Cipan, Port.*
Zidovudine (p.913·3).
HIV infection.

Azidromic *Royton, Braz.†.*
Azithromycin (p.207·1).
Bacterial infections.

Azifarm *Mediapharm, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Azifast *Ipca, India.*
Azithromycin (p.207·1).
Bacterial infections.

Azigram *Vivax, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Azilect *Lundbeck, Belg.; Teva, Cz.; Teva, Denm.; Lundbeck, Fin.; Lundbeck, Fr.; Lundbeck, Ger.; Teva, Ger.; Lundbeck, Gr.; Lundbeck, Irl.; Teva, Israel; Teva, Neth.; Teva, Norw.; Teva, Pol.; Lundbeck, Port.; Teva, Spain; Lundbeck, UK; Teva, USA.*
Rasagiline mesilate (p.815·3).
Parkinsonism.

Aziliv *Delta, Braz.*
Ranitidine hydrochloride (p.1766·1).
Peptic ulcer.

Azilline *Spirig, Switz.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Azimakrol *Roemmers-Klinos, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Azimax *Pfizer, Port.*
Azithromycin (p.207·1).
Bacterial infections.

Azime *Sedabel, Braz.†.*
Pancreatin (p.2360·1); dimeticone (p.1770·2).
Digestive disorders; flatulence.

Azimed *Cimed, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azimix *Ativus, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azimycin *Polfa Tarchomin, Pol.*
Azithromycin (p.207·1).
Bacterial infections.

Azinc *Arkopharma, Fr.; Arkochim, Spain; Arkopharma, UK.*
A range of vitamin and mineral preparations (p.1922·1).

Aziphar *Ares, Mex.*
Azithromycin (p.207·1).
Bacterial infections.

Aziram *Uniao Quimica, Braz.*
Aluminium hydroxide (p.1706·2).
Antacid.

Azirox *Aurora, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Azirutec *Zwitter, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Azithral *Verisfield, Gr.; Alembic, India.*
Azithromycin (p.207·1).
Bacterial infections.

Azithrin *Alet, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Azithrox *Farmstandart, Rus.*
Azithromycin (p.207·1).
Bacterial infections.

Azithrus *Synthesis, Rus.*
Azithromycin (p.207·1).
Bacterial infections.

Aziton *Labesfal, Port.*
Azithromycin (p.207·1).
Bacterial infections.

Azitral *Sanitas, Arg.; Shreya, Rus.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrax *Farmoquimica, Braz.†.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrin *Delta, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrix *Pentafarma, Port.*
Azithromycin (p.207·1).
Bacterial infections.

Azitro
Merck, Neth.
Azithromycin ethanolate (p.207·3).
Bacterial infections.

Deva, Turk.
Azithromycin (p.207·1).
Bacterial infections.

Azitrocin *Pfizer, Ital.; Pfizer, Mex.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrogal *Sant Gall, Arg.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrogran *Legrand, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrohexal *Sandoz, Mex.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrolab *Multilab, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrolan *Lanpharm, Arg.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrolid *Minerva (Μινερβα), Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrom *Laboratorios Chile, Chile; SM, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Azitromax *Pfizer, Norw.; Pfizer, Swed.*
Azithromycin (p.207·1).
Bacterial infections.

Azitromicil *Greenpharma, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azitromin *Farmasa, Braz.†; Farma, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

Azitron *Cifarma, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrona *Klonal, Arg.*
Azithromycin (p.207·1).
Bacterial infections.

Azitronax *Pharlab, Braz.†.*
Azithromycin (p.207·1).
Bacterial infections.

Azitrox *Lamsa, Arg.; Zentiva, Cz.; Zentiva, Pol.*
Azithromycin (p.207·1).
Bacterial infections.

Azitroxil *De Mayo, Braz.*
Azithromycin (p.207·1).
Bacterial infections.

Azivirus *Suan, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Aziwok *Wockhardt, India; Wockhardt, Rus.*
Azithromycin (p.207·1).
Bacterial infections.

Azlaire *Schering-Plough, Mex.; Schering-Plough, Venez.*
Pranlukast (p.1130·2).
Allergic rhinitis; asthma.

Azmacon
Cipla, Hong Kong.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Armoxindo, Indon.
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Azmacort *Sanofi-Aventis, Braz.; Aventis, Cz.†; KOS, USA.*
⊗ Triamcinolone acetonide (p.1544·3).
Asthma; obstructive airways disease.

Azmasol *Beximco, Singapore.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Azo Gantrisin *Roche, Turk.*
Sulfafurazole (p.338·3); phenazopyridine hydrochloride (p.116·2).
Urinary-tract infections.

Azoazol *Gador, Arg.†.*
Zidovudine (p.913·3).
HIV infection.

Azodac *Eurolab, Arg.*
Levocarnitine fumarate; fructose; acetylcarnitine; vitamin E; citric acid; vitamin C (p.1922·1).
Dietary supplement.

Azoflu *Suan, Gr.*
Fluconazole (p.532·1).
Fungal infections.

Azoflune *Tecnimede, Port.*
Fluconazole (p.532·1).
Fungal infections.

Azofur *Ivax, Mex.*
Phenazopyridine (p.116·3).
Urinary-tract pain.

Azogen *Degorts, Mex.*
Phenazopyridine hydrochloride (p.116·2); nalidixic acid (p.303·3).
Bacterial infections of the urinary tract.

Azol
Note.This name is used for preparations of different composition.
Alphapharm, Austral.; Merck, Indon.; Alphapharm, Malaysia; Alphapharm, Singapore; Merck, Singapore.
⊗ Danazol (p.2090·2).
Benign breast disorders; endometriosis; gynaecomastia; hereditary angioedema; menorrhagia.

Kern, Spain.
Sulfanilamide (p.343·1).
Skin infections.

Azolac Folico *Altana, Arg.*
Folic acid (p.1940·1).
Anaemias.

Azolin *Biochem, India.*
Cefazolin sodium (p.222·1).
Bacterial infections.

Azoline *Fischer, Israel.*
⊗ Tetryzoline hydrochloride (p.1574·1).
Allergic conjunctivitis; eye irritation.

Azolmen *Menarini, Ital.*
Bifonazole (p.527·3).
Fungal skin infections.

Azo-Mandelamine *Pfizer, Venez.*
Methenamine mandelate (p.298·3); phenazopyridine hydrochloride (p.116·2).
Urinary-tract infections.

Azo-Max *Unipharm, Mex.*
Azithromycin (p.207·1).
Bacterial infections.

Azomax *Kocak, Turk.*
Azithromycin (p.207·1).
Bacterial infections.

Azomid *Adcock Ingram, S.Afr.*
⊗ Acetazolamide (p.1875·1).
Glaucoma.

Azomir *Sanofi Synthelabo, Philipp.*
Phenazopyridine hydrochloride (p.116·2).
Urinary-tract pain and irritation.

Azomycin *Julphar, UAE.*
Azithromycin (p.207·1).
Bacterial infections.

Azomyr *Kirby, Arg.†; Schering-Plough, Cz.; Essex, Ital.; Schering-Plough, Mex.; Schering-Plough, Neth.; Schering-Plough, Port.; Menarini, Spain.*
Desloratadine (p.576·1).
Allergic rhinitis; allergic skin disorders; urticaria.

Azona
Note.This name is used for preparations of different composition.
Orion, Fin.
Trazodone hydrochloride (p.424·3).
Depression; insomnia; psychoses.

Keton, Mex.
⊗ Dexamethasone (p.1526·1).
Corticosteroid.

Azopi *Generics, Israel.*
Azathioprine (p.1818·2).
Auto-immune disorders; rheumatoid arthritis; transplant rejection.

Azopt *Alcon, Arg.; Alcon, Austral.; Alcon, Austria; Alcon, Belg.; Alcon, Braz.; Alcon, Canad.; Alcon, Chile; Alcon, Cz.; Alcon, Denm.; Alcon, Fin.; Alcon, Fr.; Alcon, Ger.; Alcon, Gr.; Alcon, Hong Kong; Alcon, Hung.; Alcon, Indon.; Alcon, Irl.; Alcon, Israel; Alcon, Ital.; Alcon, Malaysia; Alcon, Mex.; Pacific, NZ; Alcon, Neth.; Alcon, Norw.; Alcon, Philipp.; Alcon, Pol.; Alcon, Port.; Alcon, Rus.; Alcon, Singapore; Alcon Cusi, Spain; Alcon, Swed.; Alcon, Switz.; Alcon, Thai.; Alcon, Turk.; Alcon, UK; Alcon, USA; Alcon, Venez.*
⊗ Brinzolamide (p.1879·1).
Glaucoma; ocular hypertension.

Azoptic *Alcon, S.Afr.*
⊗ Brinzolamide (p.1879·1).
Glaucoma; ocular hypertension.

Azor
Note.This name is used for preparations of different composition.
Pharmacare, S.Afr.
Alprazolam (p.960·1).
Anxiety; mixed anxiety depressive states.

Daiichi Sankyo, USA.
Amlodipine besilate (p.1214·1); olmesartan medoxomil (p.1361·1).
Hypertension.

Azoran
Note.This name is used for preparations of different composition.
RPG, India.
Azathioprine (p.1818·2).
Auto-immune disorders; organ transplantation.

Columbia, Mex.
Omeprazole (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Azosilin *Fako, Turk.*
Ampicillin (p.204·1); phenazopyridine hydrochloride (p.116·2).
Bacterial infections.

Azo-Standard *Amerifit, USA.*
Phenazopyridine hydrochloride (p.116·2).
Urinary-tract pain.

Azostix *Bayer, Austral.; Bayer, NZ†; Bayer Diagnostics, UK; Bayer, USA.*
Test for urea in blood.

Azotine *Ivax, Arg.†.*
Zidovudine (p.913·3).
HIV infection.

Azo-Uronalin *Vitae, Mex.*
Nalidixic acid (p.303·3); phenazopyridine (p.116·3).
Urinary-tract infections.

Azovir
Note.This name is used for preparations of different composition.
Medikon, Indon.
Aciclovir (p.862·3).
Herpesvirus infections.

ICN, Pol.
Zidovudine (p.913·3).
HIV infection.

Azo-Wintomylon *Sanofi Synthelabo, Mex.*
Nalidixic acid (p.303·3); phenazopyridine hydrochloride (p.116·2).
Urinary-tract infections.

Azpencil *Degorts, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Azro *Eczacibasi, Turk.*
Azithromycin (p.207·1).
Bacterial infections.

Azromax *Gerard, Irl.*
Azithromycin (p.207·1).
Bacterial infections.

Aztemin *Apotex, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Aztil *Offenbach, Mex.*
Astemizole (p.567·2).
Hypersensitivity.

Aztreotic *Kleva, Gr.†.*
Aztreonam (p.209·2).
Bacterial infections.

Aztrin *Pharos, Indon.*
Azithromycin (p.207·1).
Bacterial infections.

Aztrolen *Degorts, Mex.*
Astemizole (p.567·2).
Allergic conjunctivitis; allergic rhinitis; urticaria.

Azuben *Ipsen, Spain†.*
Pefloxacin mesilate (p.313·3).
Bacterial infections.

Azubronchin *Azupharma, Ger.†.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Azucalcit *Azupharma, Ger.†.*
Calcitonin (salmon) (p.1093·1).
Hypercalcaemia; osteoporosis; Paget's disease of bone; reflex sympathetic dystrophy.

Azucalen *Herbapol Wroclaw, Pol.*
Calendula (p.2273·1); chamomile (p.2279·3).
Vulvovaginal disorders.

Azucaps *Medix, Mex.†.*
Phenformin (p.437·2).
Diabetes mellitus.

Azucimet *Azupharma, Ger.†.*
Cimetidine (p.1716·2).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Azucort *Collins, Mex.*
⊗ Triamcinolone (p.1544·2).
Skin disorders.

Azudoxat *Azupharma, Ger.†.*
Doxycycline hyclate (p.267·1).
Bacterial infections.

Azudoxat comp *Azupharma, Ger.†.*
Doxycycline hyclate (p.267·1); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Azufibrat *Azupharma, Ger.†.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Azufracid *Bajer, Arg.*
Sulfur (p.1614·1); sodium thiosulfate (p.1466·1).
Formerly contained sulfur and iodine.
Skin cleanser.

Azuglucon *Azupharma, Ger.†.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Azukon *Torrent, Braz.*
Gliclazide (p.440·3).
Diabetes mellitus.

Azulan *Herbapol Wroclaw, Pol.; Phytofarm Kleka, Pol.*
Chamomile (p.2279·3).
Gastrointestinal spasm; skin and mucous membrane inflammation.

Azulen *Provita, Austria.*
Guaiazulene (p.2317·3).
Hypersensitivity and inflammatory disorders.

Azulenal *Agepha, Austria.*
Guaiazulene (p.2317·3).
Hypersensitivity disorders; mucus membrane inflammation; skin disorders.

Azulene *Thea, Fr.†.*
Guaiazulene (p.2317·3).
Conjunctival irritation.

Azulenol *Teva, Hung.*
Guaiazulene (p.2317·3).
Skin disorders.

Azulfidina *Pfizer, Mex.*
Sulfasalazine (p.1773·2).
Rheumatoid arthritis; ulcerative colitis.

Azulfidine *Pfizer, Arg.; Pfizer, Chile; Pharmacia, Ger.; Santen, Jpn; Pharmacia Upjohn, USA; Pfizer, Venez.*
Sulfasalazine (p.1773·2).
Inflammatory bowel disease; rheumatoid arthritis.

Azulfin *Apsen, Braz.*
Sulfasalazine (p.1773·2).
Rheumatoid arthritis; ulcerative colitis.

Azulina *Llorens, Spain.*
⊗ Tetryzoline hydrochloride (p.1574·1).
Formerly contained methylthioninium chloride and tetryzoline hydrochloride.
Eye disorders.

Azulipont *Azupharma, Ger.†.*
Thioctic acid (p.2400·2).
Diabetic polyneuropathy.

Azulix *Torrent, Braz.*
Glimepiride (p.441·1).
Diabetes mellitus.

Azulon
Note. This name is used for preparations of different composition.
Szama, Arg.
Guaiazulene (p.2317·3).
Hypersensitivity reactions; inflammation.
Baxter, Ger.
Chamomile (p.2279·3).
Skin disorders.

Azumetop *Azupharma, Ger.†.*
⊗ Metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; migraine; myocardial infarction.

Azumetop HCT *Azupharma, Ger.†.*
⊗ Metoprolol tartrate (p.1338·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Azunaftil *Azupharma, Ger.†.*
Naftidrofuryl oxalate (p.1346·2).
Peripheral vascular disorders.

Azunol
Note. This name is used for preparations of different composition.
Shinyaku, Hong Kong†.
Azulene sodium sulfonate (p.2262·3).
Gastric ulcer; gastritis; mouth and throat disorders.
Shinyaku, Jpn.
Sodium gualenate (p.2262·3).
Mouth and throat disorders.

Azupamil *Azupharma, Ger.†.*
Verapamil hydrochloride (p.1421·1).
Angina pectoris; arrhythmias; hypertension.

Azupanthenol *Parke, Davis, Ger.†.*
Guaiazulene (p.2317·3); sodium pantothenate (p.1960·1).
Gastrointestinal disorders.

Azupentat *Azupharma, Ger.†.*
Pentoxifylline (p.1367·2).
Peripheral vascular disorders.

Azuperamid *Azupharma, Ger.†.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Azuprostat *Sandoz, Ger.*
Sitosterol (p.1373·2).
Benign prostatic hyperplasia.

Azuprostat Sabal *Sandoz, Ger.†.*
Saw palmetto (p.2192·3).
Benign prostatic hyperplasia.

Azuprostat Urtica *Sandoz, Ger.†.*
Urtica (p.2409·3).
Benign prostatic hyperplasia.

Azur
Note. This name is used for preparations of different composition.
Steiner, Ger.
Paracetamol (p.108·1); caffeine (p.1116·3).
Pain.
Biores, Ital.
Fluoxetine hydrochloride (p.391·2).
Bulimia; depression; obsessive-compulsive disorder.

Azur compositum *Steiner, Ger.*
Paracetamol (p.108·1); caffeine (p.1116·3); codeine phosphate (p.37·2).
Pain.

Azur compositum SC *Steiner, Ger.†.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Pain.

Azuranit *Azupharma, Ger.†.*
Ranitidine hydrochloride (p.1766·1).
Acid aspiration; gastro-oesophageal reflux; gastrointestinal haemorrhage; peptic ulcer; Zollinger-Ellison syndrome.

Azuril *Pharmanel, Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Azuseptol *Hasco-Lek, Pol.*
Chamomile (p.2279·3).
Gastrointestinal spasm; skin and mucous membrane inflammation.

Azutan *Arex, Venez.*
Benzydamine hydrochloride (p.27·3).
Inflammation; mouth and throat disorders.

Azuthidrona *Lafedar, Arg.; Valuge, Arg.*
⊗ Hydrocortisone acetate (p.1535·2).
Skin disorders.

Azutranquil *Azupharma, Ger.†.*
Oxazepam (p.1014·2).
Anxiety; insomnia.

Azutrimazol *Azupharma, Ger.†.*
Clotrimazole (p.530·1).
Fungal skin and genito-urinary tract infections.

Azymol *Drugtech, Chile.*
Aripiprazole (p.962·3).
Schizophrenia.

Azyr *SIFI, Ital.*
Vitamin and mineral preparation (p.1922·1).

Azyrol *Sons, Mex.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Azytan *Medilat, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

B1-12-15 *Italmex, Mex.*
Pangamic acid (p.2362·1); cyanocobalamin (p.1980·2); thiamine hydrochloride (p.1976·1) or thiamine nitrate (p.1976·2).
Anaemias; neuralgia; neuritis.

3B *Atlantic, Hong Kong; Atlantic, Malaysia; Atlantic, Thai.*
Vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2).
Anaemias; neural disorders.

B-6 *Pharmasant, Thai.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

B15 *Natural Life, Arg.†.*
Pangamic acid (p.2362·1).
Vitamin B supplement.

B_{12} Ankermann *Worwag, Cz.†; Worwag, Ger.*
Cyanocobalamin (p.1980·2).
Megaloblastic anaemia; vitamin B deficiency.

B Chabre *Expanpharm, Fr.*
Vitamin B substances (p.1922·1).

B Complex *Au Naturel, Canad.; Flora, Canad.; Holista, Canad.; Nutricorp, Canad.; CTI, Israel†; CCM, Malaysia; Vesco, Thai.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

B-100 Complex *TP, Thai.*
Vitamin B (p.1976·1); vitamin B (p.1977·2); vitamin B (p.1978·2); nicotinamide (p.1957·3).
Peripheral neuritis; vitamin B deficiency.

B Complex 50 *Jamieson, Hong Kong.*
Vitamin B substances; choline; inositol (p.1922·1).
Dietary supplement.

B Complex C 550 *Adams, Canad.*
Vitamin B substances and vitamin C (p.1922·1).

B complex with Minerals *Sisu, Canad.†.*
Vitamin B substances with minerals (p.1922·1).

B Complex plus C *Bio Vita, Canad.; Jamieson, Canad.; Nutricorp, Canad.; Pharmetics, Canad.*
Vitamin B substances and vitamin C (p.1922·1).

B Complex with Vitamin C *Pharmetics, Canad.*
Vitamin B substances; vitamin C (p.1922·1).

B_{12} compositum *Helvepharm, Switz.†.*
Cyanocobalamin; iron sucrose; calcium glycerophosphate (p.1922·1).
Tonic.

B Compound *Swiss Herbal, Canad.*
Vitamin B substances (p.1922·1).

B Compound with Vitamin C *Swiss Herbal, Canad.*
Vitamin B substances; vitamin C (p.1922·1).

B_{12} Depot-Hevert *Hevert, Ger.*
Hydroxocobalamin acetate (p.1980·3).
Vitamin B deficiency.

B12 Depot-Rotexmedica *Rotexmedica, Ger.*
Hydroxocobalamin acetate (p.1980·3).
Vitamin B deficiency.

B Dexol *Pharmasant, Thai.*
⊗ Dexamethasone (p.1526·1).
Corticosteroid.

B_{12} Fol-Vicotrat *Heyl, Ger.†.*
Cyanocobalamin (p.1980·2); folic acid (p.1940·1).
Vitamin B and folic acid deficiency.

B 12-L 90 *Loges, Ger.†.*
Cyanocobalamin (p.1980·2).
Anaemias; tonic; vitamin B deficiency.

B & O Supprettes No. 15A *Amerifit, USA.*
Prepared opium (p.105·1); powdered belladonna extract (p.2263·3).
Ureteral spasm pain.

B & O Supprettes No. 16A *Amerifit, USA.*
Prepared opium (p.105·1); powdered belladonna extract (p.2263·3).
Ureteral spasm pain.

B plus C *Novopharm, Canad.; Vita Health, Canad.*
Vitamin B substances and vitamin C (p.1922·1).

B12 Rotexmedica *Rotexmedica, Ger.*
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

B12 Steigerwald *Steigerwald, Ger.*
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

B Stress C plus Iron & Vitamins *Stanley, Canad.†.*
Vitamin preparation with iron (p.1922·1).

B Stress Select *Sisu, Canad.†.*
Vitamin B substances (p.1922·1).

B_1 Vicotrat *Heyl, Ger.†.*
Thiamine nitrate (p.1976·2).
Vitamin B deficiency.

B_6 Vicotrat *Heyl, Ger.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

B_{12} Vicotrat *Heyl, Ger.†.*
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

B_6 Vigen *Aksu, Turk.*
Pyridoxine hydrochloride (p.1978·2).
Idiopathic sideroblastic anaemia; isoniazid neuropathy; premenstrual syndrome; vitamin B deficiency.

B Virol *Rolmex, Canad.*
Multivitamin preparation (p.1922·1).

Babcon *Eisai, Thai.†; Toho, Thai.†.*
Dimethicone (p.1770·2).
Excess gastrointestinal gas; preparation for gastrointestinal examinations.

Babee *Pfeiffer, USA.*
Benzocaine (p.1854·1); cetalkonium chloride (p.1634·1); camphor (p.2273·2); menthol (p.2340·1); cineole (p.2282·3).
Oral lesions.

Babefen Sus *Polipharm, Thai.†.*
Ibuprofen (p.64·2).
Inflammation; pain.

Babic *Teva, Israel.*
Sodium bicarbonate (p.1673·2).
Infant colic.

Babicum *Natur Produkt, Pol.*
Ribwort plantain (p.2379·1); honey (p.1948·2).
Catarrh; cough.

Babiforton *Sanofi Synthelabo, Ger.†.*
Eucalyptus oil (p.2301·2); pine needle oil (p.2368·2); peppermint oil (p.1761·2).
Nasal congestion.

Babigoz Crema Protettiva *Guigoz, Ital.*
Zinc oxide (p.1621·2); chamomile (p.2279·3); wheatgerm oil (p.2415·1).
Nappy rash.

Babi-Lyte *SEA Pharm, Thai.*
Sodium chloride; potassium chloride; sodium citrate; glucose (p.1672·2).
Diarrhoea; oral rehydration therapy.

Babinoks *Sistas, Turk.*
Paracetamol (p.108·1).
Fever; pain.

Babix *Stiefel, Arg.*
Liquid paraffin (p.2030·3).
Skin cleansing.

Babix-Inhalat N *Mickan, Ger.*
Eucalyptus oil (p.2301·2); Norway spruce oil.
Respiratory-tract disorders.

Babix-Wundsalbe N *Mickan, Ger.†.*
Zinc oxide (p.1621·2); lemon oil (p.2332·3); chamomile oil (p.2279·3).
Skin disorders.

Baby A + D *Vitamed, Israel.*
Vitamin A (p.1971·2); colecalciferol (p.1986·2).
Vitamin A and D supplement.

Baby AF *Sam-On, Israel.*
Sodium chloride (p.1686·1).
Nasal congestion.

Baby Agisten *Agis, Israel.*
Clotrimazole (p.530·1).
Fungal skin infections.

Baby Anbesol *Whitehall, USA.*
Benzocaine (p.1854·1).
Teething pain.

Baby Block *Estee Lauder, Canad.†.*
SPF 25: Titanium dioxide (p.1617·3).
Sunscreen.

Baby Cough with Antihistamine *Atlantic, Hong Kong; Atlantic, Thai.*
Acetic acid (p.2244·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); glycerol (p.2314·2); tolu balsam (p.1574·2); chlorphenamine maleate (p.571·3).
Coughs.

Baby Cough Syrup Atlantic *Atlantic, Thai.*
Acetic acid (p.2244·2); ammonium chloride (p.1551·3); glycerol (p.2314·2); sodium citrate (p.1673·3); tolu syrup (p.1574·2).
Coughs.

Baby Cough Syrup Greater *Greater Pharma, Thai.*
Ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Baby Fact B *Gemepe, Arg.*
Pulmonary surfactant (p.2375·3).
Neonatal respiratory distress syndrome.

Baby Gas-X *Novartis Consumer, USA.*
Simeticone (p.1770·2).
Infant colic.

Baby Gel *Medibrands, Israel.*
Benzocaine (p.1854·1).
Teething pain.

Baby Gripe *TO-Chemicals, Thai.*
Dill oil (p.2293·3); sodium bicarbonate (p.1673·2).
Flatulence; infant bloating.

Baby Gum *Rafa, Israel.*
Choline salicylate (p.36·3); cetalkonium chloride (p.1634·1).
Mouth pain.

Baby Luuf *Apomedica, Austria.*
Camphor (p.2273·2); eucalyptus oil (p.2301·2); turpentine oil (p.2406·3); majoram oil (p.2358·1).
Respiratory-tract disorders.

Baby Orajel *Del, Canad.; Sanitas, Chile†; Hand-Prod, Pol.; Del, USA.*
Benzocaine (p.1854·1).
Teething pain.

Baby Orajel Tooth and Gum Cleanser *Del, USA.*
Poloxamer 407 (p.1918·2); simeticone (p.1770·2).
Dental hygiene.

Baby Paste *Vitamed, Israel.*
Zinc oxide (p.1621·2); starch (p.1968·1).
Nappy rash; skin irritation.

Baby Paste + Chamomile *Vitamed, Israel.*
Chamomile (p.2279·3); sage (p.2382·3); calamine (p.1591·2); zinc oxide (p.1621·2).
Skin disorders.

Baby Sebamed *Sebapharma, Thai.*
A range of skin cleansers and emollients.

Baby Shield *Hoe, Malaysia†; Hoe, Singapore†.*
Barrier lotion.
Nappy rash; skin irritation.

Baby Shield Plus *Hoe, Malaysia; Hoe, Singapore.*
Chlorhexidine gluconate (p.1635·3).
Nappy rash.

Baby Zanzara *Bouty, Ital.*
Ammonia (p.2256·1); almond oil (p.2252·2).
Bites.

BabyBIG *California Department of Health, USA.*
Botulism immunoglobulin (p.2207·3).
Botulism in infants.

Babycheck-Plus *Veda, Fr.*
Pregnancy test (p.2372·1).

Babycold *Pharmasant, Thai.*
Brompheniramine maleate (p.569·2).
Allergic rhinitis; hypersensitivity reactions.

Babydent *Stada, Cz.; Stada, Hung.*
Benzocaine (p.1854·1).
Teething pain.

Baby-Drax *Uniao Quimica, Braz.*
Glucose; sodium chloride; potassium chloride; sodium citrate (p.1672·2).
Diarrhoea; oral rehydration.

Babyfen *Qualiphar, Belg.*
Fennel oil (p.2303·1).
Infant colic.

Babygella
Note. This name is used for preparations of different composition.
Rottapharm, Fr.
Zinc oxide (p.1621·2).
Nappy rash.
Rottapharm, Ital.
Cream: Calendula (p.2273·1); chamomile (p.2279·3); zinc oxide (p.1621·2).
Barrier preparation.
Rottapharm, Ital.
Topical paste: Squalane; sweet almond oil; lactic acid; zinc oxide (p.1621·2).
Barrier preparation.

Babygencal *Qualiphar, Belg.*
Chamomile (p.2279·3).
Teething pain.

Babylax *Mann, Irl.; Fleet, Philipp.*
Glycerol (p.2314·2).
Constipation.

Babymed *Cimed, Braz.*
Vitamin A (p.1971·2); ergocalciferol (p.1987·1); zinc (p.1999·1).
Nappy rash.

Babynose *Cooper (Κοπερ), Gr.†.*
Sodium chloride (p.1686·1).
Drying of nasal mucosa.

Babypasmil *Lafedar, Arg.*
Dicycloverine (p.1723·1).

Babypiril *Zambon, Spain.*
Ibuprofen arginine (p.65·2).
Fever; inflammation; pain.

Babyprin *Pfizer, Turk.*
Aspirin (p.20·3).
Fever; pain; thrombosis prophylaxis.

Baby-Rinolo *Bruno, Ital.*
Chlorphenamine maleate (p.571·3); paracetamol (p.108·1).

Formerly contained phenylpropanolamine hydrochloride, chlorphenamine maleate, and paracetamol.
Respiratory-tract disorders.

Babys Own Cough Syrup *Mentholatum, S.Afr.*
Ammonium chloride (p.1551·3); camphor (p.2273·2).
Coughs.

Babys Own Ointment *Block, Canad.†.*
Zinc oxide (p.1621·2).
Nappy rash.

Babys Own Teething Gel *Block, Canad.†.*
Benzyl alcohol (p.1631·3).
Teething pain.

Babys own Tummy Tablets *Hyde, S.Afr.*
Magnesium hydroxide (p.1743·2).
Constipation; gastric hyperacidity.

Babysan Powder *Szama, Arg.*
Alcloxa (p.1587·2).
Hyperhidrosis; skin disorders.

Babysiton *Faes, Spain.*
Cetylpyridinium chloride (p.1635·1); zinc oxide (p.1621·2).
Skin disorders.

Babyskin *Albephar, Venez.*
Barrier preparation.

Babysteril *Eurospital, Ital.*
Zinc oxide (p.1621·2); almond oil (p.2252·2); wheat-germ oil (p.2415·1); vitamin A (p.1971·2); vitamin E (p.1992·2).
Napkin rash.

Baby-Tex *Sertex, Arg.*
Vitamin A (p.1971·2); zinc oxide (p.1621·2); boric acid (p.2268·1).
Skin disorders.

Babyzim *Sam-On, Israel.*
Pepsin (p.2365·1); lactic acid (p.2329·3); sodium glycerophosphate (p.2315·2); nicotinic acid (p.1957·3).
Gastrointestinal disorders.

Bacacil *Rottapharm, Ital.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bacagen *Boniscontro & Gazzone, Ital.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bacal *Nakornpatana, Thai.*
Neomycin sulfate (p.305·1); bacitracin (p.210·3); amylocaine hydrochloride (p.1853·3).
Mouth and throat disorders.

Bacampicin *Pharmacia, Belg.†; Pharmacia Upjohn, Port.†.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bacampicine *Pharmacia, Fr.†.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bacard *Chew, Thai.*
Chlorhexidine gluconate (p.1635·3); cetrimide (p.1634·1).
Skin and wound disinfection.

Bacard Antiseptic *Chew, Thai.*
Chlorhexidine gluconate (p.1635·3).
Skin, hand, and wound disinfection.

Bacasint *Piam, Ital.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bacattiv *Uno, Ital.†.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

bacbutINH *Armoxindo, Indon.*
Ethambutol hydrochloride (p.274·1); isoniazid (p.288·1).
Vitamin B (p.1979·1) is included in this preparation for the prophylaxis of peripheral neuropathy.
Tuberculosis.

Bacbutol *Armoxindo, Indon.*
Ethambutol (p.275·2).
Tuberculosis.

Baccalin *Bode, Ger.†.*
Benzalkonium chloride (p.1629·1); didecyldimethylammonium chloride (p.1642·2).
Disinfection.

Baccidal *Kyorin, Jpn; Abbott, Spain.*
Norfloxacin (p.309·2).
Bacterial infections.

Bacda-B *Millimed, Thai.*
⊗ Clotrimazole (p.530·1); betamethasone (p.1518·2).
Fungal skin infections.

Bacfar *Elofar, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bacferol *Grisi, Mex.†.*
Vitamin E (p.1992·2).
Vitamin E supplement.

Bach Rescue Remedy *Bach, UK.*
Helianthemum nummularium; clematis vitalba; impatiens glandulifera; prunus cerasifera; ornithogalum umbellatum.

Bacibact *Orion, Fin.*
Bacitracin (p.210·3); neomycin sulfate (p.305·1).
Infected skin disorders.

Bacicoline *MD Vision, Fr.*
⊗ Bacitracin (p.210·3); colistimethate sodium (p.256·3); hydrocortisone acetate (p.1535·2).
Eye disorders.

Bacicoline-B *MSD, Neth.*
⊗ Colistimethate sodium (p.256·3); bacitracin (p.210·3); hydrocortisone acetate (p.1535·2).
Inflammatory ear infections.

Bacid
Note. This name is used for preparations of different composition.
Erfa, Canad.
Lactobacillus rhamnosus (p.2372·3).
Diarrhoea; stomatitis.

Uno, Ital.†.
Cefonicid sodium (p.226·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Ciba, USA.
Lactobacillus acidophilus (p.2372·3).
Dietary supplement.

Bacidal *Medichem, Philipp.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Baciderm *SM, Venez.*
Bacitracin (p.210·3).
Skin infections.

Bacidermа *Confar, Port.*
Bacitracin (p.210·3); neomycin (p.305·1).
Bacterial skin infections.

Bacidermina *Greenpharma, Braz.*
Neomycin (p.305·1); bacitracin (p.210·3).
Skin infections.

Bacifim *Medipharma, Arg.*
Rifampicin (p.325·3); isoniazid (p.288·1).
Tuberculosis.

Bacifurane *Melisana, Belg.†.*
Nifuroxazide (p.307·2).
Gastro-enteritis.

Bacigen *Cazi, Braz.*
Neomycin sulfate (p.305·1); bacitracin zinc (p.210·3).
Skin infections.

Baciguent *Johnson & Johnson, Canad.*
Bacitracin (p.210·3).
Infected burns and wounds.

Bacigyl *Aristo, India.*
Norfloxacin (p.309·2).
Bacterial infections.

Bacigyl-N *Aristo, India†.*
Norfloxacin (p.309·2); metronidazole (p.837·1).

Baci-IM *Pharma Tek, USA.*
Bacitracin (p.210·3).
Bacterial infections.

Baciject *SteriMax, Canad.*
Bacitracin (p.210·3).
Bacterial infections.

Bacilexin *Danlex, Philipp.*
Cefalexin (p.218·2).
Bacterial infections.

Bacillin *Lafare, Ital.*
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bacillocid rasant *Bode, Ger.†.*
Glutaral (p.1645·2); benzalkonium chloride (p.1629·1); didecyldimethylammonium chloride (p.1642·2).
Surface disinfection.

Bacillol *Bode, Ger.*
⊗ Propyl alcohol (p.1660·2); isopropyl alcohol (p.1650·3); alcohol (p.1625·2); 1,6-dihydroxy-2,5-dioxahexane (p.1642·3); mecetronium etilsulfate (p.1652·1).
Surface disinfection.

Bacillol AF *Bode, Ger.*
⊗ Propyl alcohol (p.1660·2); isopropyl alcohol (p.1650·3); alcohol (p.1625·2).
Surface disinfection.

Bacillol plus *Bode, Ger.*
Propyl alcohol (p.1660·2); isopropyl alcohol (p.1650·3); glutaral (p.1645·2).
Surface disinfection.

Bacilor *Lyocentre, Fr.*
Lactobacillus casei var *rhamnosus* (p.2372·3).
Diarrhoea.

Bacimycin
Note. This name is used for preparations of different composition.
Grossmann, Hong Kong.
Bacitracin (p.210·3); neomycin (p.305·1).
Burns; infected skin disorders; wounds.

Alpharma, Norw.
Bacitracin zinc (p.210·3); chlorhexidine acetate (p.1635·2).
Infected skin disorders.

Grossmann, Switz.
Bacitracin (p.210·3); neomycin sulfate (p.305·1).
Infected skin disorders.

Bacimyxin *Pharmascience, Canad.*
Polymyxin B sulfate (p.317·3); bacitracin (p.210·3).
Bacterial skin infections.

Bacin *Atlantic, Malaysia; Atlantic, Singapore; Atlantic, Thai.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacinantrat *Globo, Braz.†.*
Neomycin (p.305·1); bacitracin (p.210·3).
Skin infections.

Bacineo *Luper, Braz.†.*
Neomycin sulfate (p.305·1); bacitracin (p.210·3).
Bacterial skin infections.

Bacipro *Biogalenic, Venez.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Bacirom *Aristo, India†.*
Cefpirome sulfate (p.231·3).
Bacterial infections.

Bacisporin *Alcala, Spain.*
⊗ Bacitracin zinc (p.210·3); hydrocortisone (p.1535·2); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Infected skin disorders.

Bacitin *Pharmascience, Canad.*
Bacitracin (p.210·3).
Bacterial skin infections.

Bacitopic *Laboratorios Chile, Chile†.*
Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); zinc oxide (p.1621·2).
Bacterial skin infections; infected burns and wounds.

Bacitopic Compuesto *Laboratorios Chile, Chile.*
⊗ Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); antazoline phosphate (p.567·1); xylometazoline hydrochloride (p.1575·1).
Cold symptoms; rhinitis; sinusitis.

Bacitracina Zimaia *Generis, Port.*
Bacitracin (p.210·3); vitamin A (p.1971·2).
Bacterial skin infections.

Bacitracina-Neo *Zimaia, Port.†.*
Bacitracin (p.210·3); neomycin (p.305·1).
Bacterial skin infections.

Bacitracin-N *YSP, Malaysia.*
Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Infected burns; infected wounds.

Backache
Note. This name is used for preparations of different composition.
Potter's, UK.
Oral mixture: Bearberry (p.2263·3); juniper (p.2328·2); clivers (p.2284·3); taraxacum (p.2395·1); lappa (p.2330·3).
Backache.

Potter's, UK.
Tablets: Gravel root (p.2317·1); hydrangea root (p.2321·2); buchu (p.2269·3); bearberry (p.2263·3).
Backache.

Backache with Arnica *Hylands, Canad.*
Homoeopathic preparation.

Backache Ledum *Homeocan, Canad.†.*
Homoeopathic preparation.

Backache Maximum Strength Relief *BMS, USA.*
Magnesium salicylate (p.79·2).

Backache Relief *Herbal Concepts, UK.*
Buchu (p.2269·3); bearberry (p.2263·3); parsley piert (p.2363·2).
Backache.

Back-Aid *Rougier, Canad.*
Paracetamol (p.108·1); chlorzoxazone (p.1894·3).

BackOsamine *Health Perception, UK.*
Glucosamine (p.2313·2); chondroitin; bromelains (p.2269·1); turmeric (p.1473·2).
Back disorders.

Baclo *Douglas, Austral.*
Baclofen (p.1888·1).
Skeletal muscle spasm.

Baclodox *Indeco, Arg.*
Baclofen (p.1888·1).
Skeletal muscle spasm or spasticity.

Baclohexal *Hexal, Austral.†.*
Baclofen (p.1888·1).
Skeletal muscle spasm.

Baclon *Uniao Quimica, Braz.; Leiras, Fin.*
Baclofen (p.1888·1).
Skeletal muscle spasm; spasticity.

Baclopar *Merck, Fin.; Gerard, Irl.*
Baclofen (p.1888·1).
Spasticity.

Baclosal *Unipharm, Israel; M & H, Thai.*
Baclofen (p.1888·1).
Spasticity.

Baclosan *Polpharma, Rus.*
Baclofen (p.1888·1).
Skeletal muscle spasm.

Baclospas *Ashbourne, UK†.*
Baclofen (p.1888·1).
Skeletal muscle spasm or spasticity.

Bacmin *Marnel, USA.*
Multivitamin and mineral preparation with iron and folic acid (p.1922·1).

Bacnutri *Grisi, Mex.*
Cod-liver oil (p.1935·2).
Vitamin A and D supplement.

Bacopa Complex *Mediherb, Austral.*
Becopa; schisandra (p.2384·2); Siberian ginseng (p.2386·3); rosemary oil (p.2381·3).
Anxiety; tonic.

Bacotan *TO-Chemicals, Thai.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Bacpiryl *Parggon, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacproin *Best, Mex.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Bacprotin *Prodotti, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacqure *Ranbaxy, Malaysia.*
Imipenem (p.286·3); cilastatin sodium (p.243·1).
Bacterial infections.

Bacris *Cristalia, Braz.†.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; protozoal infections.

Bacrocin *Valeant, Braz.*
Mupirocin (p.302·3).
Bacterial skin infections.

Bac-Sulfitrin *Ducto, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacta *Masa, Thai.†.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactacin *Osoth, Thai.*
Nitrofurazone (p.309·1).
Burns; skin ulcers; wounds.

Bactalin *Genepharm, Gr.*
Piperacillin (p.315·2); tazobactam (p.344·3).
Bacterial infections.

Bactamox *Grunenthal, Venez.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bactedene *Macrophar, Thai.*
Povidone-iodine (p.1659·2).
Disinfection of skin, wounds, burns, and umbilicus.

Bactelan *Quimica y Farmacia, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacteomycine *Merck Medication Familiale, Fr.†.*
Neomycin sulfate (p.305·1).
Infected skin disorders.

Bacteracin *Teuto, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; protozoal infections.

Bacterian *Musa, Braz.†.*
Benzalkonium chloride (p.1629·1).
Disinfection.

Bacterianos D *Anios, Fr.†.*
Formaldehyde (p.1644·2); glyoxal (p.1646·1); glutaral (p.1645·2); didecyldimethylammonium chloride (p.1642·2).
Disinfection of surfaces.

Bacteric *Hexal, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bacterinil *Luper, Braz.†.*
Ampicillin (p.204·1).
Bacterial infections.

Bacterix *Gifrer Barbezat, Fr.*
Nifuroxazide (p.307·2).

Bacternil *Maffioli, Ital.*
Sulfadiazine silver (p.337·2).
Infected burns and ulcers; infected skin disorders.

Bacterol *Pharmabiotics, Chile.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacteroskin *Stiefel, Arg.†.*
Coco fatty acids; undecenoic acid (p.549·2); triclocarban (p.1665·2).
Feminine hygiene; soap substitute.

Bactesyn *Kalbe, Indon.*
Sultamicillin (p.344·1).
Bacterial infections.

Bacteval *Valmor, Venez.*
Sulfamethizole (p.339·3); phenazopyridine hydrochloride (p.116·2).
Urinary-tract infections.

Bactex *Union Drug, Thai.*
Mupirocin (p.302·3).
Bacterial skin infections.

Bacticef *Mitim, Ital.*
Cefaclor (p.217·2).
Bacterial infections.

Bacticel *Bago, Arg.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bacticide *Euro-Med, Philipp.*
Povidone-iodine (p.1659·2).
Skin cleanser; skin disinfection; vaginal cleansing; wounds.

Bacti-Cleanse *Pedinol, USA.*
Benzalkonium chloride (p.1629·1).
Skin cleanser.

Bacticlor *Ranbaxy, UK.*
Cefaclor (p.217·2).
Bacterial infections.

Bacticort *Montpellier, Arg.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

Bacticort Complex *Montpellier, Arg.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1); tolnaftate (p.548·3); nystatin (p.543·2).
Infected skin disorders.

Bactidan *Pierre Fabre, Ital.*
Enoxacin (p.268·3).
Urinary-tract and respiratory-tract infections.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Bactide *Collins, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactident *UPSA Conseil, Fr.*
Sodium perborate (p.1662·1); sodium carbonate (p.2389·1); sodium phosphate (p.1682·3); sodium laurilsulfate (p.2138·3).
False teeth hygiene.

Bactidol *Pfizer, Hong Kong; Pfizer, Indon.; Pfizer, Malaysia†; Pfizer, Philipp.; Pfizer Consumer, Singapore.*
Hexetidine (p.1647·1).
Mouth and throat disorders.

Bactidron *Aventis, S.Afr.†.*
Enoxacin (p.268·3).
Cystitis; gonorrhoea.

Bactiflox *Mepha, Malaysia.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Bactifree *United Laboratories, Philipp.*
Mupirocin (p.302·3).
Skin infections.

Bactigent *Filadams, Philipp.; Generics Pharmacal, Philipp.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bactigram *Magis, Ital.*
Cefaclor (p.217·2).
Bacterial infections.

Bactigras *Smith & Nephew, Austral.; Smith & Nephew, Canad.; Braun, Ger.†; Smith & Nephew, Hong Kong†; Smith & Nephew, Ital.; Smith & Nephew, Malaysia; Smith & Nephew, Philipp.; Smith & Nephew, S.Afr.; Smith & Nephew, Thai.; Smith & Nephew, UK.*
Chlorhexidine acetate (p.1635·2).
Burns; scalds; skin infections; ulcers; wounds.

Bactil *CEPA, Spain.*
Ebastine (p.579·1).
Hypersensitivity reactions.

Bactilen *Cryopharma, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactilene *Bergamon, Ital.*
Dimethyldidecylammonium chloride; enoxolone (p.50·1).
Genital irritation.

Bactilina *Richmond, Arg.*
Ampicillin (p.204·1).
Bacterial infections.

Bactille *More, Philipp.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactimed
Note. This name is used for preparations of different composition.
3DDD, Belg.
Amoxicillin (p.202·2).
Bacterial infections.
MedGen, Philipp.
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Bactine
Note. This name is used for preparations of different composition.
Bayer Consumer, Canad.
Benzalkonium chloride (p.1629·1); lidocaine hydrochloride (p.1862·3).
Skin disorders; wound cleansing.
Miles, USA.
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Bactine Antiseptic *Miles, USA.*
Lidocaine (p.1862·3); benzalkonium chloride (p.1629·1).
Skin disorders.

Bactine Pain Relieving Cleansing
Note. This name is used for preparations of different composition.
Bayer, USA.
Topical spray: Lidocaine (p.1862·3); benzalkonium chloride (p.1629·1).
Bayer, USA.
Topical wipes: Pramocaine hydrochloride (p.1868·1); benzalkonium chloride (p.1629·1).

Bactio Rhin *Altana, Arg.*
⊗ Naphazoline hydrochloride (p.1565·2).
Nasal congestion.

Bactio Rhin Prednisolona *Altana, Arg.*
⊗ Naphazoline hydrochloride (p.1565·2); prednisolone (p.1540·3).
Allergic rhinitis; sinusitis.

Bactiprox *Erlimpex, Indon.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Bactisona *Lafedar, Arg.*
⊗ Ketoconazole (p.539·1); hydrocortisone acetate (p.1535·2); gentamicin sulfate (p.282·1).
Skin infections.

Bactisubtil *Sanofi Synthelabo, Belg.†; Cassella-med, Ger.†; Aventis, Port.†; Sanofi-Aventis, Rus.*
Bacillus cereus IP 5832.
Diarrhoea; gastrointestinal disorders; restoration of the gastrointestinal flora.

Bacti-Uril *Bago, Arg.*
Co-trimoxazole (p.258·1); phenazopyridine hydrochloride (p.116·2).
Urinary-tract infections.

Bactiv *YSS, Philipp.*
Amoxicillin sodium (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bactiver *Maver, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactizon *Sanbe, Philipp.*
Cefoperazone sodium (p.227·1).
Bacterial infections.

Bactocef *Garec, S.Afr.†.*
Cefradine (p.233·1).
Bacterial infections.

Bactocin
Note. This name is used for preparations of different composition.
Bunker, Braz.
Mupirocin (p.302·3).
Bacterial skin infections.
Scharper, Ital.
Lactobacillus plantarum.
Vulvovaginitis.
Hormona, Mex.
Ofloxacin (p.310·2).
Bacterial infections.

Bactoclav *OEP, Philipp.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bactoderm
Note. This name is used for preparations of different composition.
Hertz, Braz.
Neomycin (p.305·1); bacitracin (p.210·3).
Skin infections.
Ikapharmindo, Indon.; Agis, Israel†.
Mupirocin (p.302·3).
Bacterial skin infections; skin infections.

Bactof *Svizera, India.*
Ofloxacin (p.310·2).
Bacterial infections.

Bactofen *Teleflex, Ital.*
Benzoxonium chloride (p.1631·2).
Disinfection of skin, mucous membranes, and instruments.

Bactoflox
Note. This name is used for preparations of different composition.
Aurantis, Braz.†; Biochimico, Braz.†.
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.
Pentafarma, Port.
Ofloxacin (p.310·2).
Bacterial infections.

Bactomax *Cristalia, Braz.*
Teicoplanin (p.344·3).
Gram-positive bacterial infections.

Bactomicin *Sigma, Braz.†.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Bactopen *EMS, Braz.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Bactoprim Combi *Combiphar, Indon.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactopumon *Cinfa, Spain.*
Tolu balsam (p.1574·2); bromhexine hydrochloride (p.1552·2); co-trimoxazole (p.258·1).
Respiratory-tract infections.

Bactoquin *Otsira, India†.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Bactoreduct *Azupharma, Ger.†.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bactoscrub *Vitamed, Israel.*
Chlorhexidine gluconate (p.1635·3).
Skin disinfection.

Bactosept *Vitamed, Israel.*
Chlorhexidine gluconate (p.1635·3).
Burn cleansing; disinfection of instruments and skin; wound cleansing.

BactoShield *Amsco, USA.*
Chlorhexidine gluconate (p.1635·3); isopropyl alcohol (p.1650·3).
Skin disinfection.

Bactox *Innotech, Fr.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bactracid *Apogepha, Ger.*
Norfloxacin (p.309·2).
Urinary-tract infections.

Bactramin *Chugai, Jpn.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bactrazine *Smith & Nephew, S.Afr.*
Sulfadiazine silver (p.337·2).
Infected ulcers and burns.

Bactricid *Soho, Indon.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactrim *Roche, Arg.; Roche, Austral.; Roche, Austria; Roche, Belg.; Roche, Braz.; Roche, Fr.; Piramal, India; Roche, Indon.; Roche, Ital.; Roche, Mex.; Roche, Norw.; Roche, Philipp.; Roche, Pol.; Roche, Port.; Roche, S.Afr.; Roche, Swed.; Roche, Switz.; Roche, Thai.; Roche, Turk.; Roche, USA.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; protozoal infections.

Bactrim Balsamico *Roche, Arg.*
Co-trimoxazole (p.258·1); guaifenesin (p.1561·3).
Respiratory-tract infections.

Bactrim Compositum *Roche, Mex.*
Co-trimoxazole (p.258·1); guaifenesin (p.1561·3).
Respiratory-tract infections.

Bactrimel *Roche, Chile; Roche, Gr.; Roche, Neth.; Roche, Venez.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; toxoplasmosis.

Bactrisan *Sanval, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bactrizol
Note. This name is used for preparations of different composition.
IMA, Braz.; Corsa, Indon.
Co-trimoxazole (p.258·1).
Bacterial infections.
Behrens, Venez.
Metronidazole (p.837·1).

Bactroban
GSK, Arg.; GSK, Austral.; GSK, Austria; GSK, Belg.; GSK, Canad.; GSK, Chile; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Hung.; GSK, Irl.; GSK, Israel; GSK, Ital.; GSK, Malaysia; GSK, Neth.; GSK, Pol.; GSK, S.Afr.; GSK, Swed.; GSK, Switz.; GSK, UK; SmithKline Beecham, USA.
Mupirocin (p.302·3) or mupirocin calcium (p.302·3).
Bacterial skin infections; elimination of nasal staphylococci; infected burns and wounds.
GSK, Braz.; GSK, Gr.; GSK, India; GSK, Indon.; GSK, Mex.; GSK, NZ; GSK, Philipp.; GSK, Rus.; GSK, Singapore; GSK, Thai.; GSK, Turk.; GSK, Venez.
Mupirocin (p.302·3).
Bacterial skin and wound infections; elimination of nasal staphylococci.
GSK, Fr.; GSK, Hong Kong; GSK, Jpn; Beecham, Port.; GSK, Spain.
Mupirocin calcium (p.302·3).
Bacterial skin infections; elimination of nasal staphylococci.

Bactrobandos *GSK, Venez.†.*
Mupirocin calcium (p.302·3).
Bacterial skin infections.

Bactrocin *LBS, Thai.*
Netilmicin sulfate (p.306·3).
Bacterial infections.

Bactrocine *Help, Gr.*
Mupirocin (p.302·3).
Bacterial skin infections.

Bactron *Ronava, Venez.†.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bactroneo *Neo Quimica, Braz.*
Mupirocin (p.302·3).
Bacterial skin infections.

Bactropin *Cimed, Braz.; Sons, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bactylisine *Peters, Fr.†.*
Mixed quaternary ammonium salts; polyalkylamine.
Surface disinfection.

Bacxal *Pharmacare, Philipp.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Baczole *San Marino, Philipp.; Nakornpatana, Thai.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Badiaga Complexe no 47 *Lehning, Fr.*
Homoeopathic preparation.
Formerly known as Complexe no 47.

Badyket
Note. This name is used for preparations of different composition.
Menarini, Arg.
Bemiparin (p.1223·2).
Thromboembolic disorders.
Tecefarma, Spain†.
Dexketoprofen trometamol (p.73·1).
Inflammation; pain.

Baflox *Galeno, Venez.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Bafucin *Pfizer, Fin.; Pfizer, Swed.*
Benzocaine (p.1854·1); gramicidin (p.286·1); cetylpyridinium chloride (p.1635·1); dichlorobenzyl alcohol (p.1642·1).
Mouth and throat disorders.

Bages *Unison, Malaysia; Unison, Thai.*
Camphor (p.2273·2); menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal and joint pain.

Bagno Oculare *AFOM, Ital.†; Ogna, Ital.†.*
Zinc sulfate (p.1999·2); boric acid (p.2268·1); borax (p.2268·1).
Eye irritation.

Bagobutam *Bago, Chile†.*
Dobutamine hydrochloride (p.1271·2).
Heart failure.

Bagociletas *Bago, Arg.*
Tyrothricin (p.358·2); benzocaine (p.1854·1).
Mouth and throat disorders.

Bagociletas con Anestesia *Bago, Arg.*
Nitrofurantoin (p.308·1); tetracaine dibudinate (p.1871·3).
Mouth and throat disorders.

Bagociletas sin Anestesia *Bago, Arg.†.*
Nitrofurantoin (p.308·1); cetrimonium bromide (p.1635·1); hexylresorcinol (p.1647·1).
Mouth and throat disorders.

Bagoderm *Bago, Arg.*
Sodium acexamate (p.2245·2); cetrimonium bromide (p.1635·1).
Burns; cracked nipples; nappy rash; wounds.

Bagohepat *Bago, Arg.; Armstrong, Mex.*
Cynara (p.2291·2); dehydrocholic acid (p.2292·2).
Digestive disorders; liver disorders.

Bagomet *Montpellier, Rus.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Bagomicina *Bago, Chile.*
Minocycline (p.300·3).
Bacterial infections.

Bagopril *Bago, Rus.*
Enalapril maleate (p.1276·1).

Bagothyrox *Montpellier, Rus.*
Levothyroxine sodium (p.2171·2).
Hypothyroidism.

Bagovit A
Bago, Arg.
Vitamin A (p.1971·2).
Skin disorders.
Bago, Chile.
Vitamin A palmitate (p.1973·1).
Skin disorders.

Bagovit A Plus *Bago, Arg.*
⊗ Vitamin A palmitate (p.1973·1); triamcinolone acetonide (p.1544·3).
Skin disorders.

Bagovit Avant Piel *Bago, Arg.*
Vitamin A (p.1971·2); methylsilanol manuronate; dimethylsilanol hyaluronate.
Skin disorders.

Bagovit Solar *Bago, Arg.*
A range of sunscreen preparations.

Bagren *Serono, Braz.*
Bromocriptine mesilate (p.798·1).
Acromegaly; benign breast disorders; female infertility; lactation inhibition; menstrual disorders; parkinsonism; polycystic ovary; prolactinomas.

Bagton *Loeffler, Mex.*
Clioquinol (p.254·1).
Burns; skin infections.

Baikadent *Herbapol Wroclaw, Pol.*
Skullcap (p.2388·2).
Mouth disorders.

Bain antirhumatismal *Kneipp, Switz.†.*
Juniper oil (p.2328·3); sweet birch oil (p.86·2).
Bath additive; musculoskeletal and joint disorders.

Bain de Bouche Lipha *Merck Medication Familiale, Fr.*
Veratrol; menthol (p.2340·1); resorcinol (p.1612·1) cloral hydrate (p.979·1).
Mouthwash.

Bain contre les refroidissements *Kneipp, Switz.†.*
Eucalyptus oil (p.2301·2); camphor (p.2273·2).
Bath additive; coughs and colds.

Bain extra-doux dermatologique *Widmer, Switz.*
Ichthammol (p.1599·1); chamomile (p.2279·3); guaiazulene (p.2317·3).
Skin disorders.

Bain de Soleil *Procter & Gamble, USA.*
SPF 4: Octinoxate (p.1608·2); octisalate (p.1608·2).
Sunscreen.

Bain de Soleil All Day
Note. This name is used for preparations of different composition.
Procter & Gamble, USA.
SPF 4; SPF 8: Octinoxate (p.1608·2); octocrilene (p.1608·3); titanium dioxide (p.1617·3).
Sunscreen.
Procter & Gamble, USA.
SPF 15; SPF 30: Octinoxate (p.1608·2); octocrilene (p.1608·3); oxybenzone (p.1608·3); titanium dioxide (p.1617·3).
Sunscreen.

Bain de Soleil Color
Note. This name is used for preparations of different composition.
Procter & Gamble, USA.
SPF 8+: Octinoxate (p.1608·2); octocrilene (p.1608·3).
Sunscreen.
Procter & Gamble, USA.
SPF 15+; SPF 30+: Octinoxate (p.1608·2); octocrilene (p.1608·3); oxybenzone (p.1608·3).
Sunscreen.

Bain de Soleil Luminessence *Schering-Plough, Canad.†.*
SPF 4; SPF 8: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Bain de Soleil Oil Free Faces *Schering-Plough, Canad.†.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Bain de Soleil Oil-Free Protecteur *Schering-Plough, Canad.†.*
SPF 25: Avobenzone (p.1589·3); homosalate (p.1598·1); octisalate (p.1608·2); octocrilene (p.1608·3); oxybenzone (p.1608·3).
Sunscreen.

Bain de Soleil Orange
Note. This name is used for preparations of different composition.
Schering-Plough, Canad.†.
SPF 4: Octinoxate (p.1608·2); octisalate (p.1608·2).
Sunscreen.

Schering-Plough, Canad.†.
SPF 15: Octinoxate (p.1608·2); octocrilene (p.1608·3); octisalate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Bain de Soleil Tanning Mist
Note. This name is used for preparations of different composition.
Schering-Plough, Canad.†.
SPF 4: Octocrilene (p.1608·3); octinoxate (p.1608·2). Formerly known as Bain de Soleil Mega Tan.
Sunscreen.

Schering-Plough, Canad.†.
SPF 8: Octocrilene (p.1608·3); octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Bain de Soleil Tropical Schering-Plough, Canad.†.
SPF 4: Octinoxate (p.1608·2); octisalate (p.1608·2).
Sunscreen.

Bains Romains Couzian, Fr.
St John's wort oil (p.423·2).
Bath additive; dry skin; skin irritation.

Bainto TP, Thai.
Gamma-aminobutyric acid (p.2308·1).
Amnesia; hypertension; mental function impairment; palsy; speech disorders.

Bajaten
Note. This name is used for preparations of different composition.
Merck, Arg.
⊗ Indapamide (p.1314·1).
Hypertension.

Sanitas, Chile.
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Bajaten D Sanitas, Chile.
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Heart failure; hypertension.

Bajumol Poen, Arg.†.
Mepyramine maleate (p.585·2); phenylephrine hydrochloride (p.1568·1); phenazone (p.116·1).
Eye inflammation and irritation.

Bakam De Salute, Ital.
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bakamsilin Kocak, Turk.
Bacampicillin hydrochloride (p.210·2).
Bacterial infections.

Bakol Arkomedika, Fr.
Phytosterols (p.1373·1); vitamin E (p.1992·2).
Hypercholesterolaemia.

Baktisef Sanovel, Turk.
Ceftriaxone (p.238·1).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Bakton Ilsan, Turk.
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; toxoplasmosis.

Baktonium Bode, Ger.†.
Benzalkonium chloride (p.1629·1).
Hand and skin disinfection.

Bakumondo-to Tsumura, Jpn.
Ophiopogon tuber; pinellia tuber; jujube; liquorice; ginseng; brown rice.
Traditional Kampo medicine.

Balacet Cornerstone, USA.
Dextropropoxyphene napsilate (p.40·1); paracetamol (p.108·1).
Pain.

Balad Korean Drug, Singapore†.
Sodium fusidate (p.279·3).
Bacterial skin infections; infected wounds and burns.

Baladex Aflofarm, Pol.
Guaifenesin (p.1561·3); theophylline (p.1140·1).
Obstructive airways disease.

Balanca Grunenthal, Ger.
Ethinylestradiol (p.2101·3); chlormadinone acetate (p.2084·3).
Combined oral contraceptive.

Balance Fresenius Medical, Cz.; Fresenius Medical, Fin.; Fresenius Medical, Hung.; Fresenius Medical, Neth.; Fresenius Medical, Port.; Fresenius Medical, Swed.
Sodium chloride; calcium chloride; magnesium chloride; sodium lactate; glucose monohydrate (p.1670·3).
A range of peritoneal dialysis solutions.

Balance Elastin E Bio-Pharmaceuticals, Malaysia†.
Elastin (p.2286·1); vitamin E (p.1992·2).
Dry skin disorders.

Balance Glucosa Calcio Fresenius Medical, Spain.
Calcium chloride; magnesium chloride; sodium chloride; sodium lactate; glucose (p.1670·3).
Peritoneal dialysis.

balance glucose calcium Fresenius Kabi, Denm.
Glucose; calcium chloride; magnesium chloride; sodium chloride; sodium lactate (p.1670·3).
Peritoneal dialysis.

Balanced B Adams, Canad.; General Nutrition, Canad.; Hall, Canad.; Pharmetics, Canad.; Vitality, Canad.
Vitamin B substances (p.1922·1).

Balanced B Complex plus Vitamins C & E Pharmavite, Canad.†.
Vitamin B substances, vitamin C, and Vitamin E (p.1922·1).

Balanced C Complex Jamieson, Canad.†.
Ascorbic acid (p.1983·3).

Balanced Cal-Mag Quest, UK.
Calcium, magnesium, and vitamin D preparation (p.1922·1).

Balanced Irrigating Salt Solution Teva, Israel.
Electrolyte solution (p.1667·1).
Irrigation of eyes, ears, nose, and throat.

Balanced Salt Solution Alcon, NZ†; Euro-Med, Philipp.; Abbott, USA; Akorn, USA; Bausch & Lomb, USA.
Electrolyte solution (p.1667·1).
Eye irrigation.

Balancid Novum AstraZeneca, Denm.; AstraZeneca, Fin.
Calcium carbonate (p.1714·1); magnesium hydroxide (p.1743·2).
Gastritis; gastro-oesophageal reflux; gastrointestinal hyperacidity; peptic ulcer.

Balans Labomed, Chile.
Betacarotene; alpha tocopherol; ascorbic acid (p.1922·1).
Vitamin supplement.

Balansol Teva, Hung.
Sodium chloride; potassium chloride; calcium chloride; magnesium chloride; sodium acetate; sodium malate; sorbitol (p.1965·1) (p.1667·1).
Fluid and electrolyte disorders.

Balbek Provit, Mex.
Dextromethorphan (p.1555·2).
Coughs.

B-Alcerin Medicus, Gr.†.
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Balcor Baldacci, Braz.; Baldacci, Port.†.
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension.

Baldin-CE Neckerman, Braz.†.
Dipyrone (p.49·2); sodium camsilate (p.2388·3); ascorbic acid (p.1983·3); guaifenesin (p.1561·3); cineole (p.2282·3); niaouli oil (p.2351·3).
Cold and influenza symptoms.

Baldmin Mintlab, Chile.
Pipenzolate bromide (p.1762·2); phenobarbital (p.492·2).

Baldorm Klein, Ger.
Valerian (p.2410·1).
Nervous disorders; sleep disorders.

Baldracin Austroplant, Austria; Austroplant, Cz.
Valerian (p.2410·1); peppermint leaf (p.1761·2); melissa (p.2339·3); lupulus (p.2335·2).
Nervous disorders; sleep disorders.

Baldrian AMA Kwizda, Austria.
Valerian (p.2410·1); lupulus (p.2335·2).
Nervous disorders; sleep disorders.

Baldrian-Dispert Solvay, Swed.
Valerian (p.2410·1).
Anxiety; sleep disorders.

Baldrian-Dispert Nacht Solvay, Ger.
Valerian (p.2410·1); lupulus (p.2335·2).
Insomnia.

Baldrinetten Solvay, Austria†.
Valerian (p.2410·1).
Sedative.

Baldriparan Whitehall-Robins, Switz.
Valerian (p.2410·1); melissa (p.2339·3); lupulus (p.2335·2).
Nervous disorders.

Baldriparan N Stark Whitehall-Much, Ger.†.
Valerian (p.2410·1); lupulus (p.2335·2); melissa (p.2339·3).
Nervous disorders; sleep disorders.

Baldriparan pour la nuit Whitehall-Robins, Switz.
Valerian (p.2410·1).
Sleep disorders.

Baldriparan Stark Whitehall-Much, Ger.†.
Valerian (p.2410·1).
Sleep disorders.

Baldrisedon Wild, Switz.†.
Valerian (p.2410·1).
Anxiety; sleep disorders.

Baldrisedon plus Wild, Switz.†.
Valerian (p.2410·1); melissa (p.2339·3); peppermint leaf (p.1761·2).
Nervous disorders; sleep disorders.

Baldrivit Rodisma, Ger.
Valerian (p.2410·1).
Nervous disorders; sleep disorders.

Baldurat Pohl, Ger.
Valerian (p.2410·1).
Nervous tension; sleep disorders.

Balepton Leovan, Gr.
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Baliartrin Baliarda, Arg.
Glucosamine sulfate (p.2313·2).
Musculoskeletal and joint disorders.

Baliartrin Duo Baliarda, Arg.
Glucosamine sulfate (p.2313·2); chondroitin sulfate sodium (p.2280·3).
Arthroses.

Balidon Recalcine, Chile.
Triazolam (p.1033·2).
Sleep disorders.

Balidorm Baliarda, Arg.†.
Zolpidem tartrate (p.1037·3).

Baliglue Baliarda, Arg.
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Balin Atlantic, Malaysia; Atlantic, Singapore.
Sulfadiazine (p.336·2); trimethoprim (p.355·2).
Bacterial infections.

Balisa Riemser, Ger.
⊗ Urea (p.1620·2).
Keratinisation disorders.

Balisa VAS Riemser, Ger.
⊗ Urea (p.1620·2); tretinoin (p.1618·1).
Keratinisation disorders.

Balkis
Note. This name is used for preparations of different composition.
Dolorgiet, Ger.†.
Capsules: Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Colds; hay fever.

Dolorgiet, Ger.
Nasal drops; nasal spray: ⊗ Xylometazoline hydrochloride (p.1575·1).
Nasal congestion.

Ball Argenfarma, Arg.†.
Aspirin (p.20·3).

Balm of Gilead Potter's, UK.
⊗ Balm of Gilead (p.2371·1); squill (p.1573·1); lobelia (p.2157·2); lungwort.
Coughs.

Balmandol
Spirig, Cz.; Spirig, Switz.
Almond oil (p.2252·2); light liquid paraffin (p.2031·1).
Skin disorders.

Orva, Turk.
Almond oil (p.2252·2); liquid paraffin (p.2030·3).
Eczema; psoriasis; seborrhoeic dermatitis.

Balmed Hermal Boots Healthcare, Switz.
Soya oil (p.1965·3).
Bath additive; skin disorders.

Balmed Hermal F Boots Healthcare, Switz.
Arachis oil (p.2259·1); liquid paraffin (p.2030·3).
Bath additive; skin disorders.

Balmed Hermal Plus Boots Healthcare, Switz.
Soya oil (p.1965·3); lauromacrogol 400 (p.1916·1).
Bath additive; skin disorders.

Balmex
Note. This name is used for preparations of different composition.
GSK, Arg.†.
Zinc oxide (p.1621·2).
Nappy rash.

GSK, Braz.
Zinc oxide (p.1621·2); liquid paraffin (p.2030·3); beeswax (p.2028·1); silicone (p.2032·1); peru balsam (p.2365·3).
Skin disorders.

Balmex Baby Macsil, USA.
Zinc oxide (p.1621·2); peru balsam (p.2365·3); corn starch (p.1968·1); calcium carbonate (p.1714·1).
Nappy rash.

Balmex Emollient Chattem, USA.
Emollient and moisturiser.

Balmikel Minorock Mandiri, Indon.
Menthol (p.2340·1); camphor (p.2273·2); eucalyptus oil (p.2301·2); methyl salicylate (p.85·3).
Muscle and joint pain.

Balminil Elfar, Spain†.
Nitrendipine (p.1358·2).
Hypertension.

Balminil Codeine Night-Time+Expectorant Rougier, Canad.
Codeine phosphate (p.37·2); diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Coughs; respiratory-tract congestion.

Balminil Codeine+Decongestant+Expectorant Rougier, Canad.
Codeine phosphate (p.37·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Coughs; respiratory-tract congestion.

Balminil Cough & Flu Rougier, Canad.
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3); paracetamol (p.108·1).
Congestion; coughs.

Balminil DM Rougier, Canad.; Rougier, Hong Kong†.
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Balminil DM+Decongestant Rougier, Canad.
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Formerly known as Balminil DM D.
Congestion; coughs.

Balminil DM+Decongestant+Expectorant Rougier, Canad.
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Formerly known as Balminil DM D E.
Congestion; cough.

Balminil DM+Expectorant Rougier, Canad.
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Formerly known as Balminil DM E.
Coughs.

Balminil Expectorant Rougier, Canad.
Guaifenesin (p.1561·3).
Coughs.

Balminil Nasal Decongestant Rougier, Canad.
⊗ Xylometazoline hydrochloride (p.1575·1).
Nasal congestion.

Balminil Night-Time Rougier, Canad.
Dextromethorphan hydrobromide (p.1555·2); diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Congestion; coughs.

Balminil Suppositories Rougier, Canad.
Eucalyptus oil (p.2301·2); niaouli oil (p.2351·3); menthol (p.2340·1); sodium dibunate (p.1573·1).
Coughs.

Balm-Mint Andrae, Austria†.
Melissa (p.2339·3).
Insomnia; nervous disorders.

Balmosa Forest Laboratories, UK.
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2); capsicum oleoresin (p.2276·2).
Musculoskeletal, joint, and soft-tissue pain.

Balmox Beecham, Port.; Alloga, Switz.
Nabumetone (p.91·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Balneoconzen N S & K, Ger.
Soya oil (p.1965·3).
Skin disorders.

Balneol Solvay, USA.
Skin cleanser.

Balneovit BioLife, Ger.
Soya oil (p.1965·3).
Bath additive; skin disorders.

Balnetar Westwood-Squibb, Canad.; Westwood-Squibb, USA.
Coal tar (p.1616·2).
Dermatitis; psoriasis; skin disorders.

Balneum
Note. This name is used for preparations of different composition.
Hermal, Austria; Boots Healthcare, Ger.; Hermal, Ger.; Boots Healthcare, Irl.; Hermal, Israel; Crookes Healthcare, UK.
Soya oil (p.1965·3).
Bath additive; dry skin conditions.

Hermal, Hong Kong.
White soft paraffin (p.2031·2); wool fat (p.2033·2); light liquid paraffin (p.2031·1).
Skin disorders.

Hermal, Malaysia; Hermal, Singapore; Boots, Thai.†; Hermal, Thai.†.
Bath oil: Light liquid paraffin (p.2031·1).
Bath additive; dry skin disorders; pruritus.

Hermal, Malaysia; Hermal, Singapore; Boots, Thai.†; Hermal, Thai.†.
Cream; lotion: Wool fat (p.2033·2); light liquid paraffin (p.2031·1); white soft paraffin (p.2031·2).
Dry skin disorders.

Balneum F Hermal, Austria; Boots Healthcare, Ger.; Hermal, Ger.; Hermal, Israel.
Arachis oil (p.2259·1); light liquid paraffin (p.2031·1).
Bath additive; skin disorders.

Balneum Hermal Hermal, Cz.; Boots Healthcare, Ital.; Herrmann, Pol.; Boots Healthcare, Switz.†.
Soya oil (p.1965·3).
Bath additive; dry skin disorders; pruritus.

Balneum Hermal F Hermal, Cz.; Herrmann, Pol.; Boots Healthcare, Switz.†.
Arachis oil (p.2259·1); liquid paraffin (p.2030·3).
Bath additive; dry skin disorders; pruritus.

Balneum Hermal Forte Boots Healthcare, Ital.
Arachis oil (p.2259·1); liquid paraffin (p.2030·3).
Bath additive; skin disorders.

Balneum Hermal Plus
Hermal, Cz.; Herrmann, Pol.
Soya oil (p.1965·3); lauromacrogol 400 (p.1916·1).
Bath additive; dry skin disorders; pruritus.

Boots Healthcare, Switz.†.
Soya oil (p.1965·3); macrogol lauril ethers (p.1916·1).
Skin disorders.

Balneum Intensiv
Note. This name is used for preparations of different composition.
Hermal, Hong Kong; Hermal, Malaysia.
⊗ Urea (p.1620·2).
Dry skin disorders.

Hermal, Singapore; Boots, Thai.†; Hermal, Thai.†.
Cream; lotion; wash: ⊗ Urea (p.1620·2).
Dry skin disorders.

Hermal, Singapore.
Shower gel: Soap substitute.

Boots, Thai.†; Hermal, Thai.†.
Shower lotion: Emollient; moisturiser.

Balneum Intensiv Plus
Hermal, Hong Kong; Hermal, Malaysia; Boots, Thai.†; Hermal, Thai.†.
⊗ Lauromacrogol (p.1916·1); urea (p.1620·2).
Dry skin disorders; pruritus.

Hermal, Singapore.
⊗ Macrogol lauril ether (p.1916·1); urea (p.1620·2).
Skin disorders.

Balneum Plus
Hermal, Austria; Boots Healthcare, Ger.; Hermal, Ger.
Soya oil (p.1965·3); lauromacrogol 400 (p.1916·1).
Bath additive; skin disorders.

Boots Healthcare, Irl.; Hermal, Israel.
Soya oil (p.1965·3); laureth compounds (p.1916·1).
Bath additive; dry skin; pruritus.

Crookes Healthcare, UK.
Bath additive: Soya oil (p.1965·3); macrogol lauril ethers (p.1916·1).
Dry skin; pruritus.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Crookes Healthcare, UK.
Cream: ⊗ Macrogol lauril ethers (p.1916·1); urea (p.1620·2).
Skin disorders.

Balnox *Guidotti, Gr.*
Lacidipine (p.1322·2).
Hypertension.

Balpril *Baldacci, Port.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Balsabit *Pensa, Spain.*
Pramocaine hydrochloride (p.1868·1).
Burns; insect bites; pruritus.

Balsader *Drovepat, Venez.†; Kimiceg, Venez.†.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1).
Rubefacient.

Balsam Mentholi compositum *Chema-Elektromet, Pol.*
Menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal and joint disorders; neuralgia.

Balsam Sakti *Konimex, Indon.*
Menthol (p.2340·1); camphor (p.2273·2); clove oil (p.2285·1); peppermint oil (p.1761·2); cajuput oil (p.2271·2).
Nasal congestion; pain.

Balsam Szostakowskiego (Vinilinum) *ICN, Pol.*
Polyvinox.
Burns; chilblains; gastric hyperacidity; peptic ulcer; ulcers; wounds.

Balsamex *Konimex, Indon.*
Menthol (p.2340·1); camphor (p.2273·2); eucalyptus oil (p.2301·2).
Muscle and joint pain.

Balsamico *Sella, Ital.*
Cineole (p.2282·3); menthol (p.2340·1); camphor (p.2273·2).
Cold symptoms.

Balsamicum *Weleda, UK.*
Homoeopathic preparation.

Balsamina *Ahimsa, Arg.*
Hexylresorcinol (p.1647·1); benzocaine (p.1854·1).
Formerly known as Balsamin.
Mouth and throat disorders.

Balsamina Kroner *Ceccarelli, Ital.*
Sulfogaiacol (p.1573·2); mepyramine maleate (p.585·2).
Catarrh; coughs.

Balsamo Alesida *Pfizer, Venez.*
Menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal and joint pain.

Balsamo Analgesico
Note. This name is used for preparations of different composition.
Pasteur, Chile.
Menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal, joint, and soft-tissue pain.

Gestafarma, Port.
Salicylic acid (p.1612·2); benzyl nicotinate (p.28·1); menthol (p.2340·1).
Musculoskeletal, joint, and soft-tissue disorders.

Balsamo Analgesico Basi *Basi, Port.*
Camphor (p.2273·2); menthol (p.2340·1); methyl salicylate (p.85·3); turpentine oil (p.2406·3).
Formerly contained salicylic acid, menthol, and methyl salicylate.
Musculoskeletal, joint, and soft-tissue disorders.

Balsamo Analgesico con Fenilbutazona *Sanitas, Chile.*
Phenylbutazone (p.117·1); dimeticones (p.2032·1); methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal, joint, and peri-articular pain.

Balsamo Analgesico Labesfal *Labesfal, Port.*
Camphor (p.2273·2); menthol (p.2340·1); methyl salicylate (p.85·3); turpentine oil (p.2406·3).
Formerly contained methyl salicylate (.
Musculoskeletal, joint, and soft-tissue disorders.

Balsamo Analgesico Sanitas *Upsifarma, Port.*
Methyl salicylate (p.85·3); salicylic acid (p.1612·2); menthol (p.2340·1); belladonna (p.2263·3).
Formerly contained methyl salicylate, salicylic acid, menthol, and capsicum (.
Musculoskeletal and joint pain.

Balsamo Bengue *EMS, Braz.*
Menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal and joint disorders.

Balsamo Branco *Catarinense, Braz.*
Lavender (p.2331·1); melissa (p.2339·3); caraway (p.2276·3); aniseed (p.2258·2); cinnamon (p.2283·1); clove (p.2284·3); lemon (p.2332·3).
Dyspepsia.

Balsamo Ifusa *Ifusa, Mex.*
Methyl salicylate (p.85·3); pine oil (p.2368·2); peppermint oil (p.1761·2).
Musculoskeletal and joint pain.

Balsamo Italstadium *Falqui, Ital.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2).
Musculoskeletal and joint pain.

Balsamo Kneipp *Boehringer Ingelheim, Spain†.*
Camphor (p.2273·2); Peru balsam (p.2365·3); cineole (p.2282·3); pine silvestris oil (p.2368·2); thymol (p.1664·3); menthol (p.2340·1).
Respiratory-tract disorders.

Balsamo Leon *Beiersdorf, Chile†.*
Menthol (p.2340·1); camphor (p.2273·2); thymol (p.1664·3); pine oil (p.2368·2); turpentine oil (p.2406·3); eucalyptus oil (p.2301·2); anfocerina K.
Coughs and cold symptoms.

Balsamo Nordin *Nordin, Mex.*
Arnica (p.2260·2); chamomile (p.2279·3); methyl salicylate (p.85·3).
Soft-tissue disorders.

Balsamo Nordin Unguento *Nordin, Mex.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1).
Musculoskeletal and joint disorders.

Balsamo Nostrum *Nostrum, Port.*
Menthol (p.2340·1); methyl salicylate (p.85·3); camphor (p.2273·2).

Balsamo Primi Denti *Sanofi-Aventis OTC, Ital.*
Milk serum.
Teething pain.

Balsamo Sifcamina *Teofarma, Ital.*
Methyl nicotinate (p.85·3); glycol salicylate (p.62·3).
Musculoskeletal disorders.

Balsamorhinol *Pierre Fabre, Fr.*
Chlorobutanol (p.1639·2); menthol (p.2340·1).
Rhinitis.

Balsan *Labinca, Arg.†.*
Sodium chloride; polysorbate 80 (p.1919·2); benzalkonium chloride.
Snoring.

Balsasulf *Fabra, Arg.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Balsatux *Edmond Pharma, Ital.†.*
Sulfogaiacol (p.1573·2); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Balsedrina *IQFA, Mex.*
Dextromethorphan (p.1555·2).
Coughs.

Balsem Sulphuris *Lennon, S.Afr.*
Turpentine oil (p.2406·3); precipitated sulfur (balsem sulfuris) (p.1614·1).
Backache; kidney disorders.

Balsem Vita GEEL *Lennon, S.Afr.*
Spike lavender oil (p.2392·1); rosemary oil (p.2381·3); clove oil (p.2285·1); cassia oil (p.2278·1); nutmeg oil (p.2355·3); lemon oil (p.2332·3); thyme oil (p.2401·2).
Colic; flatulence.

Balsem Vita ROOI *Lennon, S.Afr.*
Spike lavender oil (p.2392·1); clove oil (p.2285·1); cassia oil (p.2278·1); nutmeg oil (p.2355·3); lemon oil (p.2332·3); rosemary oil (p.2381·3); thyme oil (p.2401·2).
Colic; flatulence.

Balsem Vita WIT *Lennon, S.Afr.*
Cassia oil (p.2278·1); spike lavender oil (p.2392·1); clove oil (p.2285·1); nutmeg oil (p.2355·3); thyme oil (p.2401·2).
Colic; flatulence.

Balsem-Kopiva *Lennon, S.Afr.*
Balsam copaiba.
Bladder and kidney disorders.

Balsibron *Liferpal, Mex.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Balsibron-C *Liferpal, Mex.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol hydrochloride (p.1120·1).
Respiratory-tract disorders with viscous mucus.

Balsoclase *UCB, Neth.*
Pentoxyverine citrate (p.1567·3).
Coughs.

Balsoclase Antitussivum *UCB, Belg.*
Pentoxyverine citrate (p.1567·3).
Coughs.

Balsoclase Compositum *UCB, Neth.*
Pentoxyverine citrate (p.1567·3); cineole (p.2282·3); sodium citrate (p.1673·3); terpin hydrate (p.1573·3); thyme (p.2401·1).
Coughs.

Balsoclase Expectorans
Note. This name is used for preparations of different composition.
UCB, Belg.
Oral solution; syrup: Pentoxyverine citrate (p.1567·3); guaifenesin (p.1561·3).
Coughs.

UCB, Belg.
Suppositories: Pentoxyverine (p.1567·3); guaifenesin (p.1561·3); cineole (p.2282·3).
Balsoclase suppositories formerly contained pentoxyverine, guaifenesin, cineole, terpineol, and terpin hydrate.
Coughs.

Balsoclase-E *UCB, Neth.*
Pentoxyverine (p.1567·3); cineole (p.2282·3).
Coughs.

Balsofumine *Sanofi-Aventis, Fr.*
Peru balsam (p.2365·3); sumatra benzoin (p.2394·2); eucalyptus (p.2301·2); lavender oil (p.2331·2); thyme oil (p.2401·2).
Respiratory-tract congestion.

Balsofumine Mentholee *Sanofi Synthelabo OTC, Fr.*
Peru balsam (p.2365·3); sumatra benzoin (p.2394·2); eucalyptus (p.2301·2); lavender oil (p.2331·2); thyme oil (p.2401·2); menthol (p.2340·1).
Respiratory-tract congestion.

Balsolan *Gemi, Pol.*
Peru balsam (p.2365·3).
Burns; chilblains; ulcers.

Balsolene *Cooperation Pharmaceutique, Fr.*
Eucalyptus oil (p.2301·2); niaouli oil (p.2351·3); menthol (p.2340·1); siam benzoin (p.2386·2).
Respiratory-tract congestion.

Balsoprim *Juste, Spain.*
Bromhexine hydrochloride (p.1552·2); co-trimoxazole (p.258·1).
Respiratory-tract infections.

Bals-Sulphur *Sulphur Zdroj, Pol.*
Sodium chloride; bromide; iodide; borate (p.1667·1); sulfur (p.1614·1); menthol (p.2340·1).
Musculoskeletal, joint, and soft-tissue disorders.

Balta Intimo *Boots Healthcare, Ital.†.*
Menthol (p.2340·1); cineole (p.2282·3); Iceland moss (p.2324·1); undecenoic acid (p.549·2).
Personal hygiene.

Balta-Crin Tar *Boots Healthcare, Ital.†.*
Tar (p.1616·2); allantoin (p.1588·1).
Seborrhoeic dermatitis.

Balticina *Rowe-Fleming, Venez.†.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Balto Foot Balm *Lane, UK.*
Camphor (p.2273·2); menthol (p.2340·1); zinc oxide (p.1621·2); precipitated sulfur (p.1614·1).
Aching feet; excessive perspiration; hard skin.

Baludol *Balu, Gr.*
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Balurol *Baldacci, Braz.*
Pipemidic acid (p.315·1).
Urinary-tract infections.

Balya *Sanofi Synthelabo, Turk.*
Vitamin A (p.1971·2); colecalciferol (p.1986·2).

Balzide *Malesci, Ital.*
Balsalazide sodium (p.1709·2).
Ulcerative colitis.

Balziva *Barr, USA.*
21 Tablets, ethinylestradiol (p.2101·3); norethisterone (p.2119·3); 7 tablets, inert.
Combined oral contraceptive.

Bamalite *Tecnobio, Spain.*
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Bambec *AstraZeneca, Austria; AstraZeneca, Braz.; AstraZeneca, Cz.†; AstraZeneca, Denm.; AstraZeneca, Ger.; Stern, Ger.; AstraZeneca, Hong Kong†; AstraZeneca, Hung.†; AstraZeneca, Ital.†; AstraZeneca, Malaysia†; AstraZeneca, NZ; AstraZeneca, Norw.; AstraZeneca, Philipp.; AstraZeneca, Singapore; Epsilon, Spain; AstraZeneca, Swed.; AstraZeneca, Thai.; AstraZeneca, UK.*
⊗ Bambuterol hydrochloride (p.1115·3).
Asthma; obstructive airways disease.

Bambudil *Cipla, India.*
⊗ Bambuterol hydrochloride (p.1115·3).
Obstructive airways disease.

Bamgetol *Mersifarma, Indon.*
Carbamazepine (p.471·3).
Epilepsy; neuralgia.

Bamifix *Farmalab, Braz.; Chiesi, Ital.*
Bamifylline hydrochloride (p.1116·1).
Obstructive airways disease.

Bamixol *Pulitzer, Ital.†.*
Bamifylline hydrochloride (p.1116·1).
Asthma; bronchospasm.

Bamycor *Hassle, Swed.†.*
Aspirin (p.20·3).
Cardiovascular and cerebrovascular disorders.

Bamyl *Ellem, Swed.*
Aspirin (p.20·3).
Fever; inflammation; pain.

Bamyl koffein *Ellem, Swed.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Bamyl S *Ellem, Swed.*
Aspirin (p.20·3).
Fever; pain.

Bamyl S koffein *Ellem, Swed.*
Aspirin (p.20·3); caffeine (p.1116·3).
Fever; pain.

Bamyxin *Rekah, Israel.*
Bacitracin (p.210·3); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Bacterial eye infections.

Ban Pain
Note. This name is used for preparations of different composition.
Pharmacare, S.Afr.
Syrup: Paracetamol (p.108·1); codeine phosphate (p.37·2); promethazine hydrochloride (p.588·2).
Fever; pain.

Pharmacare, S.Afr.
Tablets: Paracetamol (p.108·1); codeine phosphate (p.37·2); caffeine (p.1116·3); meprobamate (p.1006·2).
Pain with tension.

Banadroxin *Pharmanik (Φαρμανικ), Gr.†.*
Cefatrizine propylene glycol (p.221·3).
Bacterial infections.

Banadyne-3 *Norstar, USA.*
⊗ Lidocaine (p.1862·3); menthol (p.2340·1); alcohol (p.1625·2).
Herpes labialis.

Banalg *Forest Pharmaceuticals, USA.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1).
Muscle, joint, and soft-tissue pain; neuralgia.

Banan *Sankyo, Hong Kong; Sandoz, Indon.; Sankyo, Jpn; Pharmalink, Philipp.; Sankyo, Philipp.; Sankyo, Thai.*
Cefpodoxime proxetil (p.232·1).
Bacterial infections.

Cellaburat; octyldiphenylphosphate.
Skin ulcers; wounds.

Band-Aid Antibiotic Johnson & Johnson, Canad.
Bacitracin zinc (p.210·3); polymyxin B sulfate (p.317·3).

Band-Aid Anti-Itch Johnson & Johnson, Canad.
Camphor (p.2273·2).
Skin disorders.

Bandax Lloyd, Philipp.
Cefalexin (p.218·2).
Bacterial infections.

Bandol Pharmacia, Spain†.
Paracetamol (p.108·1).
Fever; pain.

Bandotan Teva Tuteur, Arg.†.
Didanosine (p.870·2).
HIV infection.

Bandrobon Dupomar, Arg.
Ibandronate sodium (p.1098·3).
Hypercalcaemia of malignancy; myeloma; osteolysis of malignancy; osteoporosis; Paget's disease of bone.

Banedif
Note.This name is used for preparations of different composition.
Maxfarma, Spain.
Bacitracin (p.210·3); neomycin sulfate (p.305·1); zinc oxide (p.1621·2).
Infected skin disorders.

Bago, Chile.
Ointment: Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); zinc oxide (p.1621·2).
Bacterial skin infections.

Bago, Chile.
Topical powder: Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); aluminium hydroxide (p.1706·2).
Bacterial skin infections.

Banedif Oftalmico Bago, Chile.
Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1).
Bacterial eye infections.

Banedif Oftalmico con Prednisolona Bago, Chile.
⊗ Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1); prednisolone (p.1540·3).
Infected eye disorders with inflammation.

Baneocin
Sandoz, Austria.
Bacitracin (p.210·3) or bacitracin zinc (p.210·3); neomycin sulfate (p.305·1).
Bacterial infections.

Sandoz, Hung.; Sandoz, Malaysia; Sandoz, Pol.; Sandoz, Rus.; Sandoz, Singapore.
Bacitracin zinc (p.210·3); neomycin sulfate (p.305·1).
Bacterial infections.

Baneopol Streuli, Switz.
Bacitracin (p.210·3); polymyxin B sulfate (p.317·3); neomycin sulfate (p.305·1).
Infected eye and skin disorders.

Banflex Forest Pharmaceuticals, USA.
Orphenadrine citrate (p.812·1).
Musculoskeletal pain.

Banholeum Sofex, Port.
Soya oil (p.1965·3).
Skin disorders.

Banholeum Composto Sofex, Port.
Soya oil (p.1965·3); coal tar (p.1616·2).
Bath additive; skin disorders.

Banholeum Gele Sofex, Port.
Soya oil (p.1965·3); liquid paraffin (p.2030·3).
Skin disorders.

Banidor Hertz, Braz.†.
Caffeine (p.1116·3); dipyrone (p.49·2); orphenadrine (p.812·2).

Banimed Bajamed, Mex.
Minocycline (p.300·3).
Bacterial infections.

Banish II Smith & Nephew, Austral.
Zinc ricinoleate (p.2417·3); dipropylene glycol.
Colostomy and ileostomy odour.

Banishing Cream Avon, Canad.
Hydroquinone (p.1598·2).
Skin pigmentation disorders.

Banlice Pfizer Consumer, Austral.
Pyrethrins (p.2049·3); piperonyl butoxide (p.2049·1).
Pediculosis.

Banner Protein Osotspa, Thai.
A preparation for enteral nutrition (p.1922·1).

Bano Meditop, Hung.
Calcium citrate (p.1675·3).
Calcium deficiency; calcium supplement; osteoporosis.

Bano Coloide Arlex, Mex.
Soya bean (p.1965·3); povidone-iodine (p.1659·2).
Skin disorders.

Bano Liquido con Eucalipto Johnson & Johnson, Arg.†.
Menthol (p.2340·1); cineole (p.2282·3); rosemary oil (p.2381·3).

Bano Ocular Poen, Arg.
⊗ Tetryzoline hydrochloride (p.1574·1).
Eye irritation.

Bano Ocular Agrand Ahimsa, Arg.
⊗ Naphazoline (p.1565·1).
Eye disorders.

Banocide GSK, India.
Diethylcarbamazine citrate (p.143·1).
Worm infections.

Banocin
Note.This name is used for preparations of different composition.
Nakornpatana, Thai.
Ointment: Neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3); bacitracin zinc (p.210·3).
Burns; ulcers; wounds.

Nakornpatana, Thai.
Topical powder: Clioquinol (p.254·1); bacitracin (p.210·3); neomycin sulfate (p.305·1); zinc stearate (p.2139·3).
Burns; ulcers; wounds.

Banoclus Frasca, Arg.; Lamsa, Arg.
Diclofenac (p.44·2) or diclofenac diethylamine (p.44·3).
Fever; inflammation; pain.

Banoftal Alcon, Arg.†; Alcon Cusi, Spain.
Hamamelis (p.2318·2); calendula (p.2273·1); boric acid (p.2268·1); borax (p.2268·1).
Eye disorders.

Banophen Allergy Major, USA.
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions; insomnia; motion sickness.

Banophen Decongestant Major, USA.
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2).
Hypersensitivity reactions; insomnia; motion sickness.

Ban-Sol Remexa, Mex.
SPF 30; SPF 50: Avobenzone (p.1589·3); octinoxate (p.1608·2).
Sunscreen.

Bansor Thornton & Ross, UK†.
Cetrimide (p.1634·1).
Sore gums.

Bantel TNP, Thai.†.
Pyrantel embonate (p.155·1).
Worm infections.

Bantenol Abello, Spain†.
Mebendazole (p.148·3).
Worm infections.

Bantif Child Caprifarmindo, Indon.; Sanbe, Indon.
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Cough; nasal congestion.

Bantix Mediderm, Chile.
Mupirocin calcium (p.302·3).
Elimination of nasal staphylococci; skin infections.

Bantizol Blue Sky, Philipp.
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bapex Probiomed, Mex.
Gabapentin (p.482·3).
Epilepsy.

Bapixied Bajamed, Mex.
Piroxicam (p.117·3).
Inflammation; pain.

Baquinor Sanbe, Indon.
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Baraclude BMS, Arg.; BMS, Austral.; BMS, Cz.; BMS, Fr.; BMS, Gr.; BMS, Hung.; BMS, Indon.; BMS, Malaysia; BMS, NZ; BMS, Philipp.; BMS, Port.; BMS, Singapore; BMS, UK; BMS, USA.
Entecavir (p.875·1).
Chronic hepatitis B.

Baralgan Albert, S.Afr.†.
Dipyrone (p.49·2); pitofenone hydrochloride (p.2369·2); fenpiverinium bromide (p.2303·2).
Colic; genital-tract spasm.

Baralgetas Jugoremedia, Rus.†.
Fenpiverinium bromide (p.2303·2); dipyrone (p.49·2); pitofenone hydrochloride (p.2369·2).

Baralgin GSK, Braz.
Dipyrone (p.49·2).
Fever; pain.

Baralgin M Sanofi-Aventis, Rus.; Pharmagen, Turk.
Dipyrone (p.49·2).
Fever; pain.

Baralgina M Sanofi-Aventis, Chile.
Dipyrone (p.49·2).
Fever; pain.

Baratol Shire, Irl.†; Akromed, S.Afr.; Amdipharm, UK.
Indoramin hydrochloride (p.1315·1).
Hypertension.

Barazan Dieckmann, Ger.
Norfloxacin (p.309·2).
Bacterial infections of the urinary tract.

Barbamin Streuli, Switz.†.
Propyphenazone (p.119·3); diphenhydramine hydrochloride (p.577·2).
Fever; pain.

Barbidonna Wallace, USA†.
Atropine sulfate (p.1219·3); hyoscine hydrobromide (p.1734·1); hyoscyamine hydrobromide (p.1736·1) or hyoscyamine sulfate (p.1736·1); phenobarbital (p.492·2).
Gastrointestinal disorders.

Barbitron Sanval, Braz.
Phenobarbital (p.492·2).
Convulsions.

Barbloc Alphapharm, Austral.
⊗ Pindolol (p.1372·1).
Angina pectoris; arrhythmias; hypertension.

Barcan UCB, Denm.; UCB, Fin.; UCB, Norw.; UCB, Swed.
Aceclofenac (p.14·3).
Inflammation; musculoskeletal and joint disorders.

Barex Dominguez, Arg.
Macrogol 3350 (p.2336·3); electrolytes (p.1667·1).
Bowel evacuation; constipation.

Barexal Ipsen, Belg.
Smectite (p.1771·1); aluminium hydroxide-magnesium carbonate co-dried gel (p.1707·2).
Diarrhoea.

Bargonil Roemmers Rowe, Venez.
Tribenoside (p.2403·3); a heparinoid (p.1305·2); lidocaine hydrochloride (p.1862·3); shark-liver oil (p.2386·1).
Haemorrhoids.

Bariclor Degorts, Mex.
Chloramphenicol (p.239·3).
Bacterial infections.

Baricol E-Z-EM, Neth.
Barium sulfate (p.1477·2).
Radiography of the gastrointestinal tract.

Baricon Mallinckrodt, USA.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Baridium Pfeiffer, USA.
Phenazopyridine hydrochloride (p.116·2).
Irritation of the lower urinary tract.

Bariederm Uriage, Fr.
Barrier cream.

Barigesic Degorts, Mex.
⊗ Aspirin (p.20·3); prednisone (p.1542·3).
Inflammation; pain.

Barigraf Justesa Imagen, Arg.; Schering, Chile†; Juste, Spain.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Barilux Waldheim, Austria; Sanochemia, Ger.; IFET (ΙΦΕΤ), Gr.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Barilux Brausetabletten Sanochemia, Ger.†.
Sodium bicarbonate (p.1673·2); citric acid (p.2284·1); dimethicone (p.1770·2).
Adjunct in gastrointestinal radiography.

Barin Roemmers Osmoph, Venez.
Barium sulfate (p.1477·2).
Radiographic contrast medium.

Bario Bioquimico, Arg.; Denver, Arg.; Temis, Arg.
Barium sulfate (p.1477·2).
Radiographic contrast medium.

Bario Dif Rovi, Spain.
Barium sulfate (p.1477·2).
Dimeticone (p.1770·2) is included in this preparation to eliminate gas from the gastrointestinal tract before radiography.
Contrast medium for gastrointestinal radiography.

Bario Llorente Llorente, Spain†.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Bariofarma Varifarma, Arg.
Barium sulfate (p.1477·2).
Radiographic contrast medium.

Bariogel Cristalia, Braz.; Organifar, Venez.†.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Bariotin Etifar, Venez.†.
Barium sulfate (p.1477·2).
Radiographic contrast medium.

Bariplex Degorts, Mex.
Multivitamin preparation (p.1922·1).

Baripril Lesvi, Spain.
Enalapril maleate (p.1276·1).
Heart failure; hypertension; left-ventricular dysfunction.

Baripril Diu Lesvi, Spain.
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Baritex ICM, Singapore.
Dimeticone (p.2032·1).
Barrier cream.

Baritop Sanochemia, UK.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal tract radiography.

Barium Med Complex Dynamit, Austria.
Homoeopathic preparation.

Barmicil Sons, Mex.†.
Gentamicin sulfate (p.282·1).
Bacterial infections.

Barmicil Compuesto Sons, Mex.
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

Barnetil Sanofi Synthelabo, Belg.†; Sanofi-Aventis, Fr.†; Synthelabo, Port.†.
Sultopride hydrochloride (p.1029·3).
Aggression; delirium; mania; psychoses; schizophrenia.

Barnotil Sanofi Synthelabo, Ital.†.
Sultopride hydrochloride (p.1029·3).
Psychoses.

Barobag Mallinckrodt, USA.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Baroc
Bayer, Cz.
Ibuprofen sodium (p.65·2).
Fever; pain.

Bayer, Port.
Ibuprofen (p.64·2).
Fever; pain.

Baro-cat Mallinckrodt, USA.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Barokaton
Note.This name is used for preparations of different composition.
Sanova, Austria.
Injection: ⊗ 1-(β-Diethylaminoethyl)-theobromin-ethylbromide; 2-diethylaminoethanol hydrochloride (p.2154·3).
Asthma; cardiovascular disorders.

Sanova, Austria.
Tablets: 1-(β-Diethylaminoethyl)-theobromin-ethylbromide.
Asthma; cardiovascular disorders.

Barominic Am-Europharma, Philipp.
Chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Baropyrine Am-Europharma, Philipp.
Paracetamol (p.108·1).
Fever; pain.

Baros Mallinckrodt, USA.
Sodium bicarbonate (p.1673·2); tartaric acid (p.2395·2); simeticone (p.1770·2).
Adjunct in gastrointestinal radiography.

Barosperse Mallinckrodt, Arg.; Mallinckrodt, USA.
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography; radiographic contrast medium.

Barotonal Alpharma-Isis, Ger.†.
⊗ Hydrochlorothiazide (p.1307·3); reserpine (p.1387·3).
Hypertension.

Baroxal Remek, Gr.
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Barrier Cream National Care, Canad.†.
Dimeticone (p.2032·1).
Skin disorders.

Barriere Wellspring, Canad.
Dimeticone (p.2032·1).
Nappy rash; skin irritation.

Barriere-HC Shire, Canad.
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

Barrycidal Barry, Ital.
Alkylbenzyldimethylammonium chloride (p.1629·1); benzethonium chloride (p.1630·1); diisobutylcresoxyethoxyethylbenzyldimethylammonium chloride.
Instrument disinfection.

Bartolium Nufarindo, Indon.
Flunarizine (p.580·3).
Cerebral and peripheral vascular disorders; migraine; vestibular disorders.

Baruden Anpharm (Ανφαρμ), Gr.
Amlodipine (p.1214·2).
Angina pectoris; hypertension.

Barzepin Novell, Indon.
Oxcarbazepine (p.490·3).
Epilepsy.

† This preparation may no longer be actively marketed ⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Basab *BA Farma, Port.†.*
Lomefloxacin (p.295·3).

Basalflex *Braun, Ital.*
Amino acid, glucose, and electrolyte infusion (p.1922·1).
Parenteral nutrition.

Basaljel *Aurium, Canad.*
Aluminium hydroxide (p.1706·2).
Hyperphosphataemia.

Basan *Leiras, Fin.*
Basis for topical preparations.

Bascardial *Bastian, Ger.†.*
Potassium aspartate (p.1684·2); magnesium aspartate (p.1679·1).
Coronary circulation disorders with magnesium and potassium deficiency.

Basdene *Bouchara-Recordati, Fr.*
Benzylthiouracil (p.2167·2).
Hyperthyroidism.

Bas-Dextrano *Braun, Port.*
⊗ Dextran 40 (p.1059·1) in glucose or sodium chloride.
Plasma volume expansion; thromboembolic disorders.

Basen *Takeda, Jpn; Takeda, Philipp.; Takeda, Thai.*
Voglibose (p.464·2).
Diabetes mellitus.

Baserin *Pharmaniaga, Malaysia†; Raza, Malaysia†.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Basicaina *Senese, Ital.*
Lidocaine hydrochloride (p.1862·3).
Local anaesthesia.

Basifen *Basi, Port.*
Fenbufen (p.54·3).
Musculoskeletal, joint, and peri-articular disorders.

Basikol *Arkopharma, Hong Kong.*
Phytosterols (p.1373·1); vitamin E (p.1992·2).
Hypercholesterolaemia.

Basilicao *Simoes, Braz.†.*
Colophony (p.2286·2); turpentine.
Acne.

Basina *T Man, Thai.*
Neomycin sulfate (p.305·1); bacitracin (p.210·3); amylocaine hydrochloride (p.1853·3).
Mouth and throat disorders.

Basinal *Basi, Port.*
Naltrexone hydrochloride (p.1455·2).
Opioid withdrawal syndrome.

Basireuma *Basi, Port.†.*
Phenylbutazone (p.117·1).
Musculoskeletal and joint disorders.

Basiron *Galderma, Fin.; Galderma, Norw.; Galderma, Rus.; Galderma, Swed.; Galderma, Switz.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Basiron AC *Galderma, Cz.*
Benzoyl peroxide (p.1590·2).
Acne.

Basiter *Galderma, Ger.†.*
Coal tar (p.1616·2).
Eczema; psoriasis.

Basiton *Sarabhai Piramal, India.*
Vitamin B substances; vitamin C; folic acid (p.1922·1).
Vitamin B and C deficiency.

B1-ASmedic *Dyckerhoff, Ger.*
Thiamine nitrate (p.1976·2).
Vitamin B deficiency.

B2-ASmedic *Dyckerhoff, Ger.*
Riboflavin (p.1977·2).
Riboflavin deficiency.

B6-ASmedic *Dyckerhoff, Ger.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

B_{12}-ASmedic *Dyckerhoff, Ger.*
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

Basocef *DeltaSelect, Ger.*
Cefazolin sodium (p.222·1).
Bacterial infections.

Basocin *Galderma, Ger.*
Clindamycin phosphate (p.251·2).
Acne.

Basodexan *Hermal, Ger.*
⊗ Urea (p.1620·2).
Skin disorders.

Basofortina *Novartis, Arg.*
Methylergometrine maleate (p.2011·1).
Postpartum atony; postpartum haemorrhage; uterine subinvolution.

Basoplex *Riemser, Ger.*
Paracetamol (p.108·1); phenylpropanolamine hydrochloride (p.1569·3); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Basoquin *Pfizer, India.*
Amodiaquine (p.597·2).
Malaria.

Basotar *Galderma, Denm.†.*
Coal tar (p.1616·2).
Eczema; psoriasis.

Bassado *Pharmacia, Ital.*
Doxycycline hyclate (p.267·1).
Bacterial infections.

Basti-Cal *Bastian, Ger.†.*
Calcium carbonate (p.1714·1).
Calcium deficiency; osteoporosis.

Basticrat *Bastian, Ger.†.*
Crataegus (p.2289·1).
Cardiac disorders.

Basti-Mag *Bastian, Ger.*
Magnesium aspartate (p.1679·1).
Magnesium deficiency.

Bastiverit *Bastian, Ger.†.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Bat *Zeta, Ital.*
Cetylpyridinium chloride (p.1635·1).
Disinfection of wounds and burns.

Batasalgin *Copernico, Ital.*
⊗ Gentamicin sulfate (p.282·1); betamethasone valerate (p.1519·1).
Infected skin disorders.

Bateral *Allen, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bath E45 *Crookes Healthcare, UK.*
Bath additive.
Dry skin.

Batinel *Teva Tuteur, Arg.*
Mitoxantrone (p.754·3).
Malignant neoplasms.

Batiodin *Oro, Turk.*
Povidone-iodine (p.1659·2).
Minor cuts and abrasions; skin disinfection.

Batistol *Serch, Arg.†.*
Pentane (p.2026·1); butane (p.1688·2).
Local anaesthesia.

Batixim *SoSe, Ital.*
Cefotaxime sodium (p.228·1).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Gram-negative bacterial infections.

Batmen *Menarini, Spain.*
⊗ Prednicarbate (p.1540·2).
Skin disorders.

Batrafen
Aventis, Austria; Aventis, Hong Kong.
Ciclopirox (p.529·2).
Fungal nail infections.

Sanofi-Aventis, Chile; Sanofi-Aventis, Cz.; Sanofi-Aventis, Indon.; Aventis, Irl.†; Sanofi-Aventis, Pol.; Sanofi-Aventis, Port.; Sanofi-Aventis, Spain; Abbott, Switz.
Ciclopirox olamine (p.529·2).
Fungal skin, nail, and vulvovaginal infections.

Aventis, Ger.; Sanofi-Aventis, Hung.; Aventis, Israel; Sanofi-Aventis, Ital.; Sanofi-Aventis, Rus.; Sanofi-Aventis, Venez.
Ciclopirox (p.529·2) or ciclopirox olamine (p.529·2).
Fungal skin, nail and vaginal infections.

Sanofi-Aventis, NZ.
Cream; nail lacquer; topical solution: Ciclopirox (p.529·2) or ciclopirox olamine (p.529·2).
Fungal skin and nail infections.

Batramycin *Geistlich, Singapore.*
Bacitracin (p.210·3); neomycin sulfate (p.305·1).
Bacterial skin infections.

Batramycine
Note. This name is used for preparations of different composition.
Geistlich, Switz.†.
Nasal ointment: Bacitracin (p.210·3); neomycin sulfate (p.305·1); octacaine hydrochloride (p.1867·2).
Bacterial nasal infections.

Geistlich, Switz.
Ointment; topical powder: Bacitracin (p.210·3); neomycin sulfate (p.305·1).
Infected wounds or burns.

Batrevac *Solvay, Austria; Solvay, Neth.; Solvay, Port.; SBL, Swed.†.*
An inactivated influenza vaccine (surface antigen) (p.2218·2).
Active immunisation.

Batrizol *Medimport, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Batrox *Bergamo, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Batticon *Adeka, Turk.*
Povidone-iodine (p.1659·2).
Oral hygiene; skin disinfection; skin disorders.

Batugin *Kimia, Indon.*
Strobilanthes crispus; sonchus arvensis.
Renal colic.

Baudry *Boiron, Canad.†.*
Homoeopathic preparation.

Baume *Zeller, Switz.†.*
Achillea (p.2245·2); absinthium (p.2244·1); poppy flowers (p.1472·3); guaiacum wood; tormentil root (p.2403·2); cinnamon bark (p.2283·1); benzoin (p.2394·2); myrrh (p.2349·2); tolu balsam (p.1574·2).
Gastrointestinal disorders.

Baume Analgesique *Multi-Pro, Canad.*
Methyl salicylate (p.85·3); camphor (p.2273·2).

Baume Analgesique Medicamente *Prodemdis, Canad.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); eucalyptus oil (p.2301·2).

Baume Aroma *Mayoly-Spindler, Fr.*
Clove oil (p.2285·1); capsicum oil; methyl salicylate (p.85·3).
Muscle and joint pain.

Baume Bengue *Beaufour, Fr.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Muscle and joint pain.

Baume du Chalet *Plan, Switz.*
Lavender oil (p.2331·2); citronella oil (p.2284·2); spike lavender oil (p.2392·1); terebinthin (p.2406·3).
Skin disorders; wounds.

Baume de Chine Temple of Heaven blanc *Panax, Switz.*
Menthol (p.2340·1); camphor (p.2273·2); peppermint oil (p.1761·2); eucalyptus oil (p.2301·2); clove oil (p.2285·1); cinnamon oil (p.2283·2).
Musculoskeletal and joint disorders; soft-tissue injury.

Baume Esco *Streuli, Switz.*
Salicylic acid (p.1612·2); menthol (p.2340·1); methyl salicylate (p.85·3).
Musculoskeletal and joint pain.

Baume Esco Forte *Streuli, Switz.*
Salicylic acid (p.1612·2); menthol (p.2340·1); methyl salicylate (p.85·3); ethyl nicotinate (p.52·1).
Musculoskeletal and joint pain.

Bausch & Lomb Computer Eye Drops *Bausch & Lomb, Austral.*
Glycerol (p.2314·2).
Dry eyes; eye irritation.

Bausch & Lomb Concentrated Cleaner *Bausch & Lomb, Austral.*
Cleansing solution for gas permeable and hard contact lenses (p.1622·2).

Bausch & Lomb Conditioning Solution *Bausch & Lomb, Austral.; Bausch & Lomb, S.Afr.*
Disinfecting and storage solution for gas permeable and hard contact lenses (p.1622·2).

Bausch & Lomb Daily Cleaner *Bausch & Lomb, S.Afr.*
Cleaning solution for soft contact lenses (p.1622·2).

Bausch & Lomb FizziClean *Bausch & Lomb, S.Afr.*
Proteolytic enzyme cleaner (p.1622·2).
Cleaner for contact lenses.

Bausch & Lomb Lens Lubricant *Bausch & Lomb, S.Afr.*
Wetting solution for hard and soft contact lenses (p.1622·2).

Bausch & Lomb Moisture Drops *SofLens, S.Afr.†.*
Wetting solution for contact lenses (p.1622·2).

Bausch & Lomb Multi-Purpose *Bausch & Lomb, S.Afr.*
Cleaning, disinfecting, and storage solution for soft contact lenses (p.1622·2).

Bausch & Lomb ReNu Lubricating & Rewetting Drops *Bausch & Lomb, Austral.*
Lubricating and wetting solution for soft contact lenses (p.1622·2).

Bausch & Lomb ReNu Multiplus Multi-purpose Solution *Bausch & Lomb, Austral.*
Solution for soft contact lens care (p.1622·2).

Bausch & Lomb ReNu Multipurpose Solution *Bausch & Lomb, Austral.*
Cleaning, disinfecting, rinsing, and storage solution for soft contact lenses (p.1622·2).

Bausch & Lomb Sensitive Eyes Daily Cleaner *Bausch & Lomb, Austral.*
Cleansing solution for soft contact lenses (p.1622·2).

Bausch & Lomb Sensitive Eyes Protein Removal *Bausch & Lomb, Austral.*
Proteolytic enzyme (p.1622·2).
Cleanser for soft contact lenses.

Bausch & Lomb Sensitive Eyes Saline *Bausch & Lomb, Austral.*
Sodium chloride (p.1686·1) (p.1622·2).
Saline solution for soft contact lenses.

Bauxol *Mintlab, Chile.*
Bromhexine (p.1552·2); clofedanol (p.1554·2).
Coughs.

Baxamed *Bajamed, Mex.*
Norfloxacin (p.309·2).
Bacterial infections.

Baxan *BMS, UK.*
Cefadroxil (p.218·1).
Bacterial infections.

Baxapril *Brasmedica, Braz.†.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; protozoal infections.

Baxedin *Omega, Canad.*
Chlorhexidine gluconate (p.1635·3).
Disinfection and antisepsis.

Baxedin 2% - 70% *Omega, Canad.*
Chlorhexidine gluconate (p.1635·3); isopropyl alcohol (p.1650·3).
Disinfection.

Baxidin *Sanitas, Ital.*
Cetrimide (p.1634·1); chlorhexidine gluconate (p.1635·3).
Disinfection of wounds and burns.

Baxidyme *Bosch, Philipp.*
Ceftazidime (p.234·1).
Bacterial infections.

Baxi-K *Baxter, Mex.†.*
Amikacin sulfate (p.200·3).

Baxil *Erfa, Belg.*
Chlorhexidine gluconate (p.1635·3).
Mouth and throat disorders.

Baxima *Sandoz, Indon.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Baxo *Toyama, Jpn.*
Piroxicam (p.117·3).
Inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Baxolyn *Bosch, Philipp.*
Ciprofloxacin lactate (p.243·3).
Bacterial infections.

Bayagel
Note. This name is used for preparations of different composition.
Bayer Consumer, Arg.
Etofenamate (p.53·1); pine oil (p.2368·2); eucalyptus oil (p.2301·2).
Musculoskeletal, joint, and soft-tissue pain.

Bayer, Chile.
Etofenamate (p.53·1).
Musculoskeletal and joint pain.

Bayaspirina *Bayer, Arg.*
Aspirin (p.20·3).
Fever; inflammation; pain; thromboembolism prophylaxis.

Bayaspirina C *Bayer, Arg.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold symptoms; fever; pain.

Baycaron *Bayer, Neth.†.*
⊗ Mefruside (p.1332·1).
Hypertension; oedema.

Baycidal *Bayer, Ital.†.*
Triflumuron (p.2051·3).
Insecticide.

Baycillin *Bayer, Ger.*
Propicillin potassium (p.319·3).
Bacterial infections.

Baycip
Bayer, Chile.
Ciprofloxacin (p.243·3), ciprofloxacin hydrochloride (p.243·3), or ciprofloxacin lactate (p.243·3).
Bacterial infections.

Bayer, Spain.
Ciprofloxacin hydrochloride (p.243·3) or ciprofloxacin lactate (p.243·3).
Bacterial infections.

Baycuten
Note. This name is used for preparations of different composition.
Bayer, Braz.; Bayer, Port.
⊗ Clotrimazole (p.530·1); dexamethasone (p.1526·1).
Infected skin disorders.

Bayer, Chile; Bayer, Cz.; Bayer, Ger.†; Bayer, Philipp.
⊗ Clotrimazole (p.530·1); dexamethasone acetate (p.1526·1).
Infected skin disorders.

Bayer, Mex.
⊗ Clotrimazole (p.530·1); dexamethasone (p.1526·1); neomycin (p.305·1).
Infected skin disorders.

Baycuten HC *Bayer, Ger.*
⊗ Clotrimazole (p.530·1); hydrocortisone (p.1535·2).
Infected skin disorders.

Baycuten N
Note. This name is used for preparations of different composition.
Bayer Schering, Malaysia.
⊗ Clotrimazole (p.530·1); dexamethasone acetate (p.1526·1).
Fungal skin infections.

Bayer, Mex.; Bayer, Venez.
⊗ Clotrimazole (p.530·1); dexamethasone acetate (p.1526·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Baycuten-N *Bayer, Indon.*
⊗ Dexamethasone acetate (p.1526·1); clotrimazole (p.530·1).
Infected skin disorders.

Bayer Extra Strength Back & Body Pain *Bayer, USA.*
Aspirin (p.20·3); caffeine (p.1116·3).
Pain.

Bayer Low Adult Strength *Sterling Health, USA.*
Aspirin (p.20·3).

Bayer Select Chest Cold *Sterling Health, USA.*
Dextromethorphan hydrobromide (p.1555·2); paracetamol (p.108·1).

Bayer Select Flu Relief *Sterling Health, USA.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3).

Bayer Select Head Cold *Sterling Health, USA.*
Pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).

Bayer Select Maximum Strength Backache *Sterling Health, USA.*
Magnesium salicylate (p.79·2).

Bayer Select Maximum Strength Night Time Pain Relief *Sterling Health, USA.*
Paracetamol (p.108·1); diphenhydramine hydrochloride (p.577·2).
Insomnia; pain.

Bayer Select Maximum Strength Sinus Pain Relief *Sterling Health, USA.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Nasal congestion; pain.

Bayer Select Night Time Cold *Sterling Health, USA.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2); triprolidine hydrochloride (p.592·3).

Bayer Womens Aspirin Plus Calcium *Bayer, USA.*
Aspirin (p.20·3); calcium (p.1675·2).
Pain.

Bayers Tonic *Bayer, India.*
Liver extract; sodium acid phosphate; yeast extract; alcohol (p.1922·1).
Tonic.

Baygam *Bayer, Canad.†.*
A normal immunoglobulin (p.2225·3).
Passive immunisation.

Baygon *Skills, Ital.*
Propoxur (p.2049·2); tetramethrin (p.2051·1); piperonyl butoxide (p.2049·1).
Insecticide.

BayHep *Bayer, Israel.*
A hepatitis B immunoglobulin (p.2214·3).
Passive immunisation.

BayHep B *Bayer, Canad.†; Bayer Biological, Hong Kong; Bayer, Philipp.; GenAsia, Philipp.; Bayer, Singapore†; Biem, Turk.*
A hepatitis B immunoglobulin (p.2214·3).
Passive immunisation.

Baylotensin *Mitsubishi, Jpn.*
Nitrendipine (p.1358·2).
Angina pectoris; hypertension.

Baymycard *Bayer, Ger.; Bayer, Hung.*
Nisoldipine (p.1358·1).
Angina pectoris; hypertension.

Baynas *Shinyaku, Jpn.*
Ramatroban (p.2377·3).
Allergic rhinitis.

Bayolin *Bayer, Gr.; Bayer, Hung.†.*
A heparinoid (p.1305·2); glycol salicylate (p.62·3); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Bayotensin *Bayer, Ger.*
Nitrendipine (p.1358·2).
Hypertension.

Baypen *Bayer, Austria; Bayer, Fr.; Bayer, Ger.; Bayer, Israel†; Bayer, Ital.*
Mezlocillin sodium (p.299·3).
Bacterial infections.

Baypresol *Bayropharm, Spain.*
Nitrendipine (p.1358·2).
Angina pectoris; hypertension; Raynaud's syndrome.

Baypress *Bayer, Austria; Bayer, Belg.; Bayer, Cz.; Bayer, Denm.; Bayer, Fr.; Bayer, Gr.; Bayer, Hong Kong; Bayer, Hung.; Bayer, Ital.; Bayer, Mex.†; Bayer, Neth.; Bayer, Port.; Bayer, Switz.; Bayer, Thai.; Bayer, Turk.; Bayer, Venez.*
Nitrendipine (p.1358·2).
Hypertension.

Baypril *Bayer, Arg.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension; unstable angina.

BayRab *Bayer, Canad.†; Bayer Biological, Hong Kong; Bayer, Israel; Probifasa, Mex.†; Bayer, Philipp.; GenAsia, Philipp.; Bayer, Singapore†.*
A rabies immunoglobulin (p.2233·3).
Passive immunisation.

BayRho-D *Gador, Arg.†; Bayer, Canad.†; Bayer, Chile†; Bayer Biological, Hong Kong; Bayer, Israel; Probifasa, Mex.†; Bayer, Singapore†; Biem, Turk.*
An anti-D immunoglobulin (p.2204·2).
Prevention of rhesus sensitisation.

Bayro *Bayer, Braz.; Bayer, Chile†; Viatris, Ital.; Bayer, Mex.*
Etofenamate (p.53·1).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Bayro Termo *Bayer, Mex.*
Etofenamate (p.53·1); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, and peri-articular disorders.

Bayrogel *Bayer, Arg.†.*
Etofenamate (p.53·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Bayro-Therm *Bayer, Chile†.*
Etofenamate (p.53·1); benzyl nicotinate (p.28·1).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Baytalcid *Bayer, Venez.†.*
Hydrotalcite (p.1733·3).
Antacid.

BayTet *Bayer, Canad.†; Bayer Biological, Hong Kong; Bayer, Israel; Probifasa, Mex.†; Bayer, Philipp.; GenAsia, Philipp.; Bayer, Singapore†; Bayer, USA.*
A tetanus immunoglobulin (p.2239·3).
Formerly known as Hyper-Tet in the *USA*.
Passive immunisation.

Baythion EC *Bayer, Ital.†.*
Phoxim (p.2049·1).
Insecticide.

Bayzolam *Bayer, Arg.*
Alprazolam (p.960·1).
Anxiety; panic disorder.

Bazalin *Astellas, Spain.*
⊗ Coal tar (p.1616·2); fluocinolone acetonide (p.1531·3); salicylic acid (p.1612·2).
Keratinisation disorders; psoriasis.

Bazetham
Pliva Krakow, Pol.
Tamsulosin hydrochloride (p.2197·1).
Benign prostatic hyperplasia.

Pliva, UK.
Tamsulosin (p.2197·2).

Bazoton *Abbott, Ger.*
Urtica root (p.2409·3).
Benign prostatic hyperplasia.

Bazuctril *Chrispa (Χρισπα), Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Bazuka *Dendron, UK.*
Salicylic acid (p.1612·2); lactic acid (p.2329·3).
Calluses; corns; verrucas; warts.

BB Test *Innotech, Fr.*
Pregnancy test (p.2372·1).

BBdent Gel Topico *Maver, Chile.*
Benzocaine (p.1854·1).

B-Beta *Ferron, Indon.*
⊗ Bisoprolol fumarate (p.1234·1).
Hypertension.

BB-K8 *BMS, Ital.*
Amikacin sulfate (p.200·3).
Bacterial infections.

BC *GSK Consumer, USA.*
Aspirin (p.20·3); salicylamide (p.121·2); caffeine (p.1116·3).
Pain.

BC Allergy Sinus Headache *GSK Consumer, USA.*
Pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Upper respiratory-tract disorders.

BCAD *Mead Johnson, Fr.*
Food for special diets (p.1922·1).
Leucinosis.

BCAD 1 *Mead Johnson, Hong Kong.*
Food for special diets (p.1922·1).
Maple syrup urine disease.

BCAD 2 *Mead Johnson Nutritionals, USA.*
Food for special diets (p.1922·1).
Maple syrup urine disease.

B-Caroteno *AM, Arg.*
Betacarotene (p.1930·3).
Skin pigmentation.

B-C-Bid *Roberts, USA†.*
Vitamin B complex with vitamin C (p.1922·1).

B-Combin *SAD, Denm.*
Vitamin B substances (p.1922·1).

B-Complex *BMS, Thai.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

B-Complex Threshold *GNLD, Austral.*
Vitamin B substances (p.1922·1); rutoside (p.2305·1).
Vitamin B deficiencies.

B-Cool *Julphar, UAE.*
Oxybuprocaine hydrochloride (p.1867·3); cetylpyridinium chloride (p.1635·1); tyrothricin (p.358·2).
Throat disorders.

B-Dol *Be-Tabs, S.Afr.*
Paracetamol (p.108·1); doxylamine succinate (p.578·2); caffeine (p.1116·3); codeine phosphate (p.37·2).
Pain with tension.

Beacodyl *Beacons, Singapore.*
Codeine phosphate (p.37·2); promethazine hydrochloride (p.588·2).
Allergic rhinitis; cough; urticaria.

Beacolux *CCM, Malaysia†.*
Bisacodyl (p.1710·1).
Bowel evacuation; constipation.

Beacolytic *CCM, Malaysia.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with viscous mucus.

Beacon K *CCM, Malaysia.*
Potassium chloride (p.1684·3).
Hypokalaemia.

Beacons *Beacons, Singapore.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1).
Cold symptoms.

Beacons Cough *Beacons, Singapore.*
⊗ Ammonium chloride (p.1551·3); ephedrine hydrochloride (p.1558·2); ipecacuanha (p.1562·3).
Cough.

Beacons DQ *Beacons, Singapore.*
Dequalinium chloride (p.1641·3).
Sore throat.

Beactafed *Beacons, Singapore.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis; nasal congestion; urticaria.

Beactafed Co *Beacons, Singapore.*
Codeine phosphate (p.37·2); pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Formerly known as Beactafed.
Allergic rhinitis; cough; nasal congestion; respiratory-tract congestion.

Beafemic *CCM, Malaysia; Beacons, Singapore.*
Mefenamic acid (p.80·1).
Fever; musculoskeletal, joint, and peri-articular disorders; pain.

Beaflu-Plus *Beacons, Singapore.*
Chlorphenamine maleate (p.571·3); paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Fever; hypersensitivity reactions; pain.

Beafort *Beacons, Singapore.*
Thiamine hydrochloride; riboflavin; pyridoxine hydrochloride; cyanocobalamin; nicotinamide; calcium pantothenate (p.1922·1).
Vitamin B supplement.

Beagenco *Beacons, Singapore†.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); dexchlorpheniramine maleate (p.572·1).
Fever; hypersensitivity reactions; pain.

Beagenta *CCM, Malaysia.*
Gentamicin sulfate (p.282·1).
Bacterial skin, eye, and ear infections.

Beaglobe *CCM, Malaysia.*
Sulfadiazine (p.336·2); trimethoprim (p.355·2).
Bacterial infections.

Beagocrine *Upha, Malaysia†.*
Codergocrine mesilate (p.363·3).
Mental function impairment in the elderly.

Beagyne *Effik, Fr.*
Fluconazole (p.532·1).
Vaginal and perineal candidiasis.

Beahexol *Beacons, Singapore.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Beakopectin *Upha, Malaysia†; Beacons, Singapore.*
Kaolin (p.1738·1); pectin (p.2145·2).
Diarrhoea.

Beamodium *CCM, Malaysia.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Beamotil *CCM, Malaysia; Beacons, Singapore.*
Diphenoxylate hydrochloride (p.1724·1).
Atropine sulfate (p.1219·3) is included in this preparation to discourage abuse.
Colostomy and ileostomy management; diarrhoea.

Beamoxy *CCM, Malaysia.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Be-Ampicil *Be-Tabs, S.Afr.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Beanamine *Beacons, Singapore.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Allergic rhinitis; cough; urticaria.

Beano *GSK Consumer, Canad.; Stafford-Miller, UK; AkPharma, USA.*
Alpha galactosidase A (p.2252·3).
Flatulence arising from ingestion of complex carbohydrates.

Beapen *CCM, Malaysia.*
Phenoxymethylpenicillin potassium (p.314·2).
Gram-positive bacterial infections.

Beaphenicol *CCM, Malaysia; Beacons, Singapore†.*
Chloramphenicol (p.239·3).
Bacterial infections.

Beapizide *Beacons, Singapore.*
Glipizide (p.441·3).
Diabetes mellitus.

Beaplex *Beacons, Singapore.*
Thiamine hydrochloride; riboflavin; pyridoxine hydrochloride; cyanocobalamin; nicotinamide; folic acid (p.1922·1).
Vitamin B supplement.

Bearantel *Beacons, Singapore.*
Pyrantel embonate (p.155·1).
Worm infections.

Bearax *Beacons, Singapore.*
Aciclovir (p.862·3).
Herpesvirus infections.

Bearcef *Daewoong, Singapore.*
Cefuroxime axetil (p.238·2).
Bacterial infections.

Bear-E-Yum *Mallinckrodt, USA.*
Barium sulfate (p.1477·2).
Contrast medium for gastrointestinal radiography.

Beatacycline
CCM, Malaysia.
Tetracycline (p.347·1).
Bacterial infections.

Beacons, Singapore.
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Beatafed *CCM, Malaysia.*
Pseudoephedrine hydrochloride (p.1571·2); triprolidine hydrochloride (p.592·3).
Allergic rhinitis; sinusitis; upper respiratory-tract congestion.

Beatafed Compound *Upha, Malaysia†.*
Codeine phosphate (p.37·2); triprolidine hydrochloride (p.592·3).
Coughs.

Beathorphan *Beacons, Singapore.*
Dextromethorphan hydrobromide (p.1555·2).
Cough.

Beathricin *Beacons, Singapore.*
Lidocaine hydrochloride (p.1862·3); tyrothricin (p.358·2).
Mouth and throat infections.

Beatifen *Beacons, Singapore.*
Ketotifen fumarate (p.582·2).
Allergic conjunctivitis; allergic rhinitis; asthma.

Beatizem *Beacons, Singapore.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; hypertension.

Beatoconazole *Beacons, Singapore.*
Ketoconazole (p.539·1).
Fungal skin infections.

Beatolin *CCM, Malaysia.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Beatolin Expectorant *Upha, Malaysia†.*
⊗ Guaifenesin (p.1561·3); salbutamol sulfate (p.1131·3).
Coughs.

Beatrolol *Upha, Malaysia†.*
⊗ Metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism.

Beavate *CCM, Malaysia.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Beavate N *CCM, Malaysia.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Beazyme *CCM, Malaysia.*
Papain (p.2362·3).
Inflammatory disorders; oedema.

Beba HA *Nestle, Cz.†.*
Infant feed (p.1922·1).
Food hypersensitivity.

Bebecrem *Lacefa, Arg.†.*
Barrier preparation.

Bebegel *Viatris, Fr.; Meda, Port.*
Glycerol (p.2314·2).
Bowel evacuation; constipation.

Bebektin *Janssen-Cilag, Mex.*
Miconazole nitrate (p.541·3); zinc oxide (p.1621·2).
Infected skin disorders.

Bebelac EC *Global Eramas, Indon.; Lyempf, Indon.; Tempo Scan Pacific, Indon.; Dumex, Malaysia.*
Infant feed (p.1922·1).
Gastrointestinal disorders.

Bebelac FL *Global Eramas, Indon.; Lyempf, Indon.; Tempo Scan Pacific, Indon.; Dumex, Malaysia.*
Lactose-free infant feed (p.1922·1).
Lactose intolerance.

Beben *Pfizer Consumer, Ital.*
⊗ Betamethasone benzoate (p.1518·3).
Skin disorders.

Beben Clorossina *Pfizer Consumer, Ital.*
⊗ Betamethasone benzoate (p.1518·3); chloroxine (p.242·2).
Infected skin disorders.

Bebesales *Pharmacia, Spain†.*
Calcium lactate pentahydrate; citric acid monohydrate; magnesium sulfate; potassium chloride; sodium bicarbonate; sodium chloride; glucose (p.1672·2).
Oral rehydration therapy.

Bebexin *Demo, Gr.*
Cetirizine (p.571·1).
Antihistamine.

Bebidol *TNP, Thai.†.*
Dill oil (p.2293·3); sodium bicarbonate (p.1673·2).
Flatulence; infant bloating.

Bebilon Amino *Nutricia, Pol.*
Infant feed (p.1922·1).
Colic; food allergy.

Bebilon Pepti *Nutricia, Pol.*
A range of infant feeds (p.1922·1).
Colic; diarrhoea; food allergy.

Bebilon Sojowy *Nutricia, Pol.*
Soy-based infant feed (p.1922·1).
Cows milk intolerance; fructosaemia; galactosaemia; lactose and sucrose intolerance.

Bebimix *Sella, Ital.*
Honey (p.1948·2); royal jelly (p.2382·1); myrtillus (p.2349·3).
Nutritional supplement.

Bebol *Wyeth, Turk.*
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Bebulin *Immuno, Braz.†.*
A factor IX preparation (p.1068·3).
Haemorrhagic disorders.

Bebulin VH *Immuno, USA.*
A factor IX preparation (p.1068·3).
Haemophilia B.

Bec *Maruko, Jpn.*
Aranidipine (p.1216·3).
Hypertension.

Becacort *Upha, Malaysia†.*
⊗ Hydrocortisone (p.1535·2); miconazole nitrate (p.541·3).
Infected skin disorders.

Becadexamin *GSK, India.*
Multivitamin and mineral preparation (p.1922·1).

Became *Yung Shin, Hong Kong; YSP, Malaysia; Yung Shin, Singapore.*
Carbinoxamine maleate (p.570·2); pseudoephedrine hydrochloride (p.1571·2).
Rhinitis.

Becantex *CPH, Port.; Sanofi Synthelabo, Thai.†.*
Sodium dibunate (p.1573·1).
Coughs.

Becantosse *Dinafarma, Braz.†.*
Sodium dibunate (p.1573·1); potassium iodide (p.2169·2).
Coughs.

Becardin *Remedica, Hong Kong†.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction; obstructive cardiomyopathy; phaeochromocytoma; tremor; variceal haemorrhage.

Becarin *CCM, Malaysia.*
Miconazole nitrate (p.541·3).
Fungal skin and nail infections.

Bece *Codilab, Port.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin supplement.

BECeco *Ecosol, Switz.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Becede *Vannier, Arg.*
Alprazolam (p.960·1).
Anxiety.

Becedyn *Bayer, Philipp.*
Vitamin B substances; ascorbic acid (p.1922·1).
Vitamin B and C deficiency.

Becenun *BMS, Braz.*
Carmustine (p.694·3).
Malignant neoplasms.

Becetamol *Gebro, Austria; Gebro, Switz.*
Paracetamol (p.108·1).
Fever; pain.

Beceze *Norton, S.Afr.†; Ivax, UK.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; asthma.

Bechilar *Montefarmaco, Ital.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bechlomin *Jean-Marie, Hong Kong.*
⊗ Betamethasone (p.1518·2); dexchlorpheniramine maleate (p.572·1).
Hypersensitivity reactions; inflammatory eye disorders.

Becilan *DB, Fr.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

Beclase *De Mayo, Braz.*
⊗ Sodium dibunate (p.1573·1); mepyramine maleate (p.585·2); ephedrine hydrochloride (p.1558·2).
Coughs.

Beclasma *Raffo, Arg.; Raffo, Chile†.*
⊗ Beclometasone dipropionate (p.1516·2); salbutamol (p.1131·2).
Asthma; obstructive airways disease.

Beclate *Cipla, Hong Kong; Cipla, India; Cipla, Malaysia; Cipla-Medpro, S.Afr.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; asthma; nasal polyps; skin disorders.

Beclate-C *Cipla, India.*
⊗ Beclometasone dipropionate (p.1516·2); clioquinol (p.254·1).
Infected skin disorders.

Beclate-N *Cipla, India.*
⊗ Beclometasone dipropionate (p.1516·2); neomycin sulfate (p.305·1).
Infected skin disorders.

Beclazone *Galena, Cz.†; Ivax, Cz.†; Ivax, Hong Kong; Ivax, Irl.; Ivax, Malaysia; Ivax, Mex.; Airflow, NZ; Norton, Rus.; Ivax, Singapore†; Norton Healthcare, Singapore†; Ivax, UK.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma; obstructive airways disease.

Beclo *Sandoz, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclo Asma *Aldo-Union, Hong Kong†; Aldo-Union, Singapore; Aldo, Spain.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclo Rino *Estedi, Spain.*
⊗ Beclometasone dipropionate (p.1516·2).
Nasal polyps; rhinitis.

Beclo Siozwo *Febena, Ger.†.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis.

Beclobreathe *Sandoz, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Beclodin *Chiesi, Neth.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Becloenema *Estedi, Spain.*
⊗ Beclometasone dipropionate (p.1516·2).
Ulcerative colitis.

Becloforte *GSK, Austral.†; GSK, Cz.; GSK, Hong Kong†; GSK, Israel; GSK, Malaysia†; GSK, Neth.; GSK, Rus.; GSK, S.Afr.; GSK, Singapore†; GSK, Spain; GSK, Switz.†; GSK, Thai.†; GSK, Turk.; Allen & Hanburys, UK†.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclofortil *Medifarm, Venez.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclogen
Note. This name is used for preparations of different composition.
Tocogino, Mex.
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1); gentamicin (p.284·2).
Infected skin disorders.

Generics, UK.
⊗ Beclometasone dipropionate (p.1516·2).
Rhinitis.

Beclohale *Julphar, UAE.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclohexal *Hexal, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclojet *Chiesi, Fr.; Chiesi, Rus.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclomet *Lannacher, Austria; Orion, Cz.; Meda, Denm.; Orion, Fin.; Orion, Ger.; Galenica, Gr.†; Orion, Hung.†; Actavis, Indon.; Orion, Malaysia; Meda, Norw.; Orion, Singapore; Ferrer, Spain; Meda, Swed.; Orion, Switz.†; Orion, Thai.; Elmor, Venez.†.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; asthma; nasal polyps.

Beclomet Compositum *Elmor, Venez.†.*
⊗ Beclometasone dipropionate (p.1516·2); salbutamol (p.1131·2).
Obstructive airways disease.

Beclometatop *Topgen, Belg.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis.

Beclomin *Jean-Marie, Hong Kong†.*
⊗ Betamethasone (p.1518·2); dexchlorpheniramine maleate (p.572·1).
Hypersensitivity reactions; inflammatory eye disorders.

Beclonarin *Rappai, Switz.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; polyps.

Beclonasal *Orion, Fin.; Orion, Hung.*
⊗ Beclometasone dipropionate (p.1516·2).
Nasal polyps; rhinitis.

Beclonato *Ducto, Braz.*
⊗ Betamethasone dipropionate (p.1518·3); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Beclone *Leurquin, Fr.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclophar *Teva, Belg.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclo-Rhino *Viatris, Fr.; Goldshield, Irl.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; rhinitis.

Beclorhinol *Asche Chiesi, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; nasal polyps.

Beclorino *Medifarm, Venez.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; nasal polyps.

Beclosal *Biogalenic, Venez.*
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Beclosema *Etex, Chile.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclosil *Medifarm, Venez.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclosol *GSK, Braz.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma; nasal polyps; rhinitis.

Beclosona *Spyfarma, Spain.*
⊗ Beclometasone dipropionate (p.1516·2).
Skin disorders.

Beclospin *Chiesi, Fr.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beclotaide *Alenfarma, Port.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Becloturmant *Asche Chiesi, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Beclovent *GSK, Chile†; Glaxo Wellcome, USA.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Beco *Mepha, Switz.*
Vitamin B substances (p.1922·1).
Alcoholism; liver disorders; neuritis; vitamin B deficiency.

Becodisk *GSK, Pol.; GSK, Rus.; GSK, Switz.; GSK, Thai.†.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Becodisks *GSK, Cz.; GSK, Hong Kong; Allen & Hanburys, Irl.†; GSK, S.Afr.†; GSK, Turk.; Allen & Hanburys, UK.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Becof *Caps, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Becogem *APT, Hong Kong.*
⊗ Betamethasone (p.1518·2); gentamicin sulfate (p.282·1); clotrimazole (p.530·1).
Infected skin disorders.

Becolex *Chiesi, Gr.*
⊗ Beclometasone (p.1517·2).
Corticosteroid.

Becolim *Atlantic, Hong Kong; Atlantic, Malaysia; Atlantic, Singapore†; Atlantic, Thai.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Becoloxin *Upha, Malaysia†.*
Meclozine hydrochloride (p.584·3); pyridoxine hydrochloride (p.1978·2).
Motion sickness; nausea and vomiting.

Becom *British Dispensary, Thai.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Becombion *Merck, Indon.; Merck, Malaysia; Merck, Singapore†.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency; vitamin B supplement.

Becombion Extra Lysine *Merck, Indon.*
Vitamin B substances; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Becomplex *Alpharma, Malaysia†; Alpharma, Singapore†.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency; vitamin B supplement.

Becomplina Fuerte *Labomed, Chile.*
Thiamine; riboflavin; pyridoxine; cyanocobalamin; nicotinamide; calcium pantothenate (p.1922·1).
Vitamin B supplement.

Beconase *GSK Consumer, Austral.; GSK, Austria; GSK, Belg.; GSK, Chile†; GSK, Cz.; GSK, Denm.; GSK, Fin.; GSK, Fr.; GSK, Hong Kong; GSK, Indon.; Allen & Hanburys, Irl.; GSK, Israel†; GSK, Malaysia; GSK, Mex.; GSK, Neth.; GSK, Port.; GSK, Rus.†; GSK, S.Afr.; Allen, Spain; GSK, Switz.; GSK, Thai.; GSK Consumer, UK; Glaxo Wellcome, USA; GSK, Venez.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; nasal polyps.

Beconase Allergy *GSK Consumer, Austral.*
⊗ Fluticasone propionate (p.1533·2).
Allergic rhinitis.

Beconase Aquosum *GSK, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis; nasal polyps.

Beconase Hayfever *GSK Consumer, Austral.; GSK, NZ.*
⊗ Beclometasone dipropionate (p.1516·2).
Allergic rhinitis.

Beconasol *GSK, Switz.*
⊗ Beclometasone dipropionate (p.1516·2).
Nasal polyps; rhinitis.

Becoplex Ido *Novo Nordisk, S.Afr.†.*
Vitamin B substances (p.1922·1).

Becortem *Bergamo, Braz.*
⊗ Prednisone (p.1542·3).
Corticosteroid.

Becortin *Purissimus, Arg.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin embonate (p.284·2); clotrimazole (p.530·1).
Infected skin and mucous membrane disorders.

Becosol *GHP, Thai.†.*
Vitamin B substances, glucose, and sodium chloride infusion (p.1922·1).
Parenteral nutrition.

Becosules *Pfizer, India.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B and C deficiency.

Becosym *Roche Consumer, Irl.†.*
Vitamin B substances (p.1922·1).

Becotal *Streuli, Switz.*
Vitamin B substances (p.1922·1).
Neuropathies; vitamin B deficiency.

Becotide *GSK, Austral.; GSK, Austria; GSK, Belg.†; GSK, Cz.; GSK, Fin.†; GSK, Fr.; Glaxo Wellcome, Gr.†; GSK, Hong Kong; GSK, Indon.; Allen & Hanburys, Irl.; GSK, Israel†; Lusofarmaco, Ital.; GSK, Malaysia†; GSK, Mex.; GSK, Neth.; GSK, Norw.; GSK, Rus.; GSK, S.Afr.; GSK, Singapore†; GSK, Spain; GSK, Swed.; GSK, Switz.†; GSK, Thai.†; GSK, Turk.; Allen & Hanburys, UK†.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma; nasal polyps; obstructive airways disease; rhinitis.

Becotide A *GSK, Ital.†.*
⊗ Beclometasone dipropionate (p.1516·2).
Nose, sinus, and throat disorders; obstructive airways disease.

Becovigen *Aksu, Turk.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Becovit *Julphar, UAE.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency; vitamin B supplement.

Becovital *Kocak, Turk.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Becovital-C *Kocak, Turk.*
Vitamin B substances; vitamin C (p.1922·1).

Becozym *Bayer Consumer, Arg.; Roche, Israel; Bayer, Ital.; Bayer, Swed.*
Vitamin B substances (p.1922·1).
Alcoholism; neuralgia; neuropathies; vitamin B deficiency.

Becozym-C *Roche, Arg.†.*
Vitamin B substances; vitamin C (p.1922·1).

Becozyme *Roche, Belg.; Bayer Sante, Fr.; IFET, Gr.; Bayer, Port.; Bayer, Switz.; Roche, Turk.*
Vitamin B substances (p.1922·1).
Alcoholism; liver disorders; nausea and vomiting in pregnancy; neuralgia; neuritis; tonic; vitamin B deficiency.

Becozyme C *Bayer, Port.; Roche, Turk.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B and C deficiency.

Becozyme C Forte *Piramal, India; Roche, Spain.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B and C deficiency.

Becozyme-S *Bayer, Gr.; IFET (ΙΦΕΤ), Gr.*
Multivitamin preparation (p.1922·1).
Vitamin B deficiency.

Bectam *Labomed, Chile.*
Paroxetine hydrochloride (p.414·2).
Depression.

Bectosan *Liferpal, Mex.*
Dextromethorphan (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Bed Wetting *Hylands, Canad.*
Homoeopathic preparation.

Bed Wetting Relief *Brauer, Austral.†.*
Homoeopathic preparation.

Bedelix *Beaufour, Fr.*
Montmorillonite beidellitique.
Gastrointestinal disorders.

Bedena *SM, Venez.*
Bromhexine hydrochloride (p.1552·2).
Cough; respiratory-tract congestion.

Bediatil *Pasteur, Chile.*
Ibuprofen (p.64·2).
Fever; pain.

Bedice *Genepharm, Gr.†.*
Flurbiprofen (p.61·2).
Inflammatory disorders; pain.

Bedicort G *Jelfa, Pol.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

Bedin *Pharmasant, Thai.*
⊗ Dihydroergocristine mesilate (p.364·2); clopamide (p.1250·1); reserpine (p.1387·3).
Hypertension.

Bedix *Bernabo, Arg.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders.

Bedix-D *Bernabo, Arg.*
Loratadine (p.583·3); pseudoephedrine sulfate (p.1571·2).
Allergic rhinitis.

Bedoce-Cal *Aventis, Mex.*
Calcium phosphate (p.1676·2); cyanocobalamin (p.1980·2).
Anaemias; calcium supplement.

Bedocil *Allen, Mex.†.*
Cyanocobalamin (p.1980·2); thiamine hydrochloride (p.1976·1).
Anaemias; neuritis.

Bedodeka *Teva, Israel.*
Vitamin B (p.1980·2).
Anaemias; vitamin B deficiency.

Bedodeka Antineuralgica *Biogal, Israel†.*
Procaine hydrochloride (p.1869·1); vitamin B substances (p.1922·1).
Arthralgia; neuralgia.

Bedol *Resource Medical, UK.*
Estradiol (p.2097·2).
Menopausal disorders; osteoporosis.

Bedorma *Vifor, Switz.*
Diphenhydramine hydrochloride (p.577·2).
Sleep disorders.

Bedovit Compuesto *Inquifave, Venez.*
Thiamine; pyridoxine; cyanocobalamin (p.1922·1).
Vitamin supplement.

Bedovit Pharmaton *Boehringer Ingelheim, Chile.*
Ginseng; deanol tartrate; vitamins; rutin; minerals; soya lecithin (p.1922·1).
Tonic.

Bedovit Simple *Inquifave, Venez.*
Cyanocobalamin (p.1980·2).

Bedoxine *Meuse, Belg.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

Bedoyecta
Note. This name is used for preparations of different composition.
Grossman, Mex.
Calcium ascorbate; vitamin B substances; inositol; rutoside (p.1922·1).

Farma, Venez.
Hydroxocobalamin (p.1980·3); pyridoxine hydrochloride (p.1978·2); thiamine hydrochloride (p.1976·1).
Neuralgia; neuritis.

Bedoyecta Ped *Grossman, Mex.*
Vitamin B substances (p.1922·1).

Bedoyecta Tri *Grossman, Mex.*
Vitamin B substances (p.1922·1).

Bedoz *Nadeau, Canad.†.*
Cyanocobalamin (p.1980·2).

Bedoze *Merck, Port.†.*
Cyanocobalamin (p.1980·2).
Megaloblastic anaemia; neuralgias; neuritis.

Bedozil *Bunker, Braz.*
Cyanocobalamin (p.1980·2).
Megaloblastic anaemia; vitamin B supplement.

Bedranol *Sandoz, UK.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; hypertension.

Beducen *Roche, Venez.†.*
Panthenol (p.2362·1).
Skin disorders.

Beech Nut Cough Drops
Note. This name is used for preparations of different composition.
Beta, Canad.†.
Black: Menthol (p.2340·1); anise oil (p.2258·2).
Beta, Canad.†.
Honey-Lemon; wild cherry: Menthol (p.2340·1); eucalyptus (p.2301·2).
Beta, Canad.†.
Menthol: Menthol (p.2340·1); anethole (p.2258·1); eucalyptus oil (p.2301·2).

Beecham Lemon *GSK Consumer, Spain.*
Ascorbic acid (p.1983·3); phenylephrine hydrochloride (p.1568·1); paracetamol (p.108·1).
Cold and influenza symptoms.

Beechams Active Cold Relief *GSK Consumer, UK.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Beechams All-In-One *GSK Consumer, UK.*
Paracetamol (p.108·1); guaifenesin (p.1561·3); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Beechams Cold & Flu *GSK Consumer, UK.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Beechams Decongestant Plus with Paracetamol *GSK Consumer, UK.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1).
Cold symptoms.

Beechams Flu-Plus
Note. This name is used for preparations of different composition.
SmithKline Beecham Consumer, Irl.†.
Paracetamol (p.108·1); ascorbic acid (p.1983·3); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.
GSK Consumer, UK.
Oral liquid: Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); vitamin C (p.1983·3).
Cold and influenza symptoms.
GSK Consumer, UK.
Tablets: Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); caffeine (p.1116·3).
Cold and influenza symptoms.

Beechams Hot Lemon *GSK, Hong Kong†.*
Paracetamol (p.108·1); ascorbic acid (p.1983·3); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Beechams Hot Lemon Decongestant *SmithKline Beecham Consumer, Irl.†.*
Paracetamol (p.108·1); ascorbic acid (p.1983·3); phenylephrine hydrochloride (p.1568·1).
Cold symptoms.

Beechams Hot Remedies *GSK Consumer, Irl.†.*
Paracetamol (p.108·1); ascorbic acid (p.1983·3).
Cold symptoms.

Beechams Max Strength Sore Throat Relief *GSK Consumer, UK.*
Hexylresorcinol (p.1647·1); benzalkonium chloride (p.1629·1).
Sore throat.

Beechams for Natural Defence *GSK Consumer, UK.*
Ascorbic acid (p.1983·3) with zinc.

Beechams Powders *GSK Consumer, UK.*
Aspirin (p.20·3); caffeine (p.1116·3).
Cold and influenza symptoms; pain.

Beechams Powders Capsules *GSK Consumer, UK.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Beechams Throat-Plus *GSK Consumer, UK.*
Benzalkonium chloride (p.1629·1); hexylresorcinol (p.1647·1).
Sore throat.

Beefolic *Sriprasit, Thai.*
Vitamin B substances with folic acid (p.1922·1).
Vitamin B deficiency, neuritis.

Beehive Balsam *Ayrton, UK.*
Purified honey (p.1948·2); glycerol (p.2314·2); ipecacuanha (p.1562·3).
Coughs.

Beelith *Beach, USA.*
Pyridoxine hydrochloride (p.1978·2); magnesium oxide (p.1744·1).
Dietary supplement.

Beesix *SA Druggists Self Med, S.Afr.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

Beespan *Garec, S.Afr.*
Vitamin B substances (p.1922·1).
Vitamin B deficiencies.

Beetrion *Franco-Indian, India.*
Multivitamin and mineral preparation (p.1922·1).

Bee-Zee *Rugby, USA.*
Multivitamin and mineral preparation (p.1922·1).

Befact *SMB, Belg.*
Vitamin B substances (p.1922·1).
Alcoholism; neuritis; vitamin B deficiency.

Befar *Nexmed, Hong Kong.*
Alprostadil (p.2183·2).
Erectile dysfunction.

Befarin *Berlin Pharm, Thai.*
Warfarin sodium (p.1425·2).
Thromboembolic disorders.

Befelka-Oel *Befelka, Ger.*
St John's wort oil (p.423·2); calendula oil (p.2273·1); chamomile oil (p.2279·3); viola tricoloris oil.
Skin disorders.

Beferon
Note. A similar name is used for preparations of different composition (see below).
Cristalia, Braz.
Interferon alfa (p.885·1).

Beferron
Note. A similar name is used for preparations of different composition (see above).
Gache, Venez.
Ferric ammonium citrate (p.1938·1); vitamin B (p.1980·2).
Anaemias.

Befibrat *Hennig, Ger.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Befimat *Biomedica-Chemica, Gr.*
Nimodipine (p.1357·2).
Neurological deficit following subarachnoid haemorrhage.

Befitec *Tecnofarma, Mex.*
Bezafibrate (p.1232·1).

Befizal *Roche, Fr.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Beflavine *Bayer Sante, Fr.*
Riboflavin (p.1977·2).
Vitamin B deficiency.

Be-Flex Plus *Larken, USA.*
Phenyltoloxamine citrate (p.588·1); paracetamol (p.108·1); salicylamide (p.121·2).
Pain.

Befol
Note. This name is used for preparations of different composition.
Biotenk, Arg.
Diclofenac potassium (p.44·3).
Formerly contained rofecoxib.
Fever; inflammation; pain.
Farma, Venez.
Vitamin B substances (p.1922·1).
Hyperhomocysteinaemia.

Befol Plus *Biotenk, Arg.*
Diclofenac potassium (p.44·3); paracetamol (p.108·1).
Musculoskeletal and joint disorders; pain.

Beforal *Leciva, Cz.†.*
Butorphanol tartrate (p.32·1).
Pain; premedication.

Beforplex *Eumedica, Belg.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Befosfin *Cafar, Venez.*
Cocarboxylase (p.1975·2); vitamin B (p.1980·2); riboflavin phosphate.
Neuritis; vitamin B deficiency.

Befucil *Biomedica-Chemica, Gr.*
⊗ Betamethasone valerate (p.1519·1); fusidic acid (p.279·3).
Infected skin disorders.

Begadon *Berman, Mex.*
Vitamin B substances (p.1922·1).

Begalin *Pfizer, Gr.*
Sultamicillin (p.344·1) or sultamicillin tosilate (p.344·1).
Bacterial infections.

Begalin-P *Pfizer, Gr.*
Ampicillin sodium (p.204·1); sulbactam sodium (p.335·1).
Bacterial infections.

Begesic
Note. This name is used for preparations of different composition.
Berlin, Hong Kong; Berlin Pharm, Thai.†.
Methyl salicylate (p.85·3); menthol (p.2340·1); eugenol (p.2301·2).
Formerly contained methyl salicylate, menthol, eugenol, and cajuput oil.
Lumbago; musculoskeletal and joint pain; sciatica.
Littman, Philipp.; Berlin Pharm, Singapore.
Methyl salicylate (p.85·3); menthol (p.2340·1); eugenol (p.2301·2); cajuput oil (p.2271·2).
Insect bites; musculoskeletal, joint, and soft-tissue disorders; pain.

Begincalm *Genepharm, Gr.†.*
Indometacin (p.66·3).
Inflammatory disorders.

Beglan *Faes, Spain.*
⊗ Salmeterol xinafoate (p.1135·1).
Asthma; bronchitis.

Begrivac *Grunenthal, Austria; Novartis Vaccines, Cz.; Meda, Fin.; Chiron Behring, Ger.†; Novartis, Hung.; Wyeth, Irl.†; Chiron, Ital.; Multichem, NZ†; Chiron Behring, Norw.; Chiron Behring, Pol.; Meda, Swed.; Wyeth, UK.*
An influenza vaccine (split virion) (p.2218·2).
Active immunisation.

Begrocit *Grossmann, Switz.†.*
Vitamin B substances; vitamin C; calcium (p.1922·1).
Dietary supplement.

Behepan
Note. This name is used for preparations of different composition.
Pfizer, Swed.
Injection: Hydroxocobalamin acetate (p.1980·3).
Megaloblastic anaemia; Schilling test; sprue; vitamin B deficiency.
Pfizer, Swed.
Tablets: Cyanocobalamin (p.1980·2).
Megaloblastic anaemia; sprue; vitamin B deficiency.

Beheptal *Biosel, Turk.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Behexine *Osotspa, Thai.†.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Behistin *Pharmasant, Thai.*
Betahistine mesilate (p.2265·1).
Ménière's disease; vertigo.

Behkacin *Behrens, Venez.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Behoedmiddel vir Kinders *Pharmacare, S.Afr.*
Magnesium carbonate (p.1743·1); chalk (p.1716·1).
Gastric hyperacidity.

Behrisol *Behrens, Venez.†.*
Electrolyte infusion with glucose (p.1667·1).
Carbohydrate source; fluid and electrolyte disorders.

Beiklin *Scherer, Singapore†.*
Multivitamin and mineral preparation (p.1922·1).

Beilande *HPP, Hong Kong.*
Famotidine (p.1730·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Bekalen *Megat, Venez.†.*
Lincomycin hydrochloride (p.293·2).
Bacterial infections.

Bekamin C *Kimia, Indon.*
Ascorbic acid (p.1983·3).
Capillary bleeding; vitamin C deficiency.

Bekarbon *Kimia, Indon.*
Activated charcoal (p.1435·2).
Diarrhoea; flatulence.

Bekesina *Ultra, Mex.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Cough.

Bekesina-S *Ultra, Mex.*
Dextromethorphan hydrobromide (p.1555·2).
Cough.

Bekfan-C *Arlex, Mex.*
Dextromethorphan (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Bekidiba *Diba, Mex.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Bekidiba Dex *Diba, Mex.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Beklamet *Biosel, Turk.*
⊗ Beclometasone dipropionate (p.1516·2).
Skin disorders.

Beklazon *Bilim, Turk.*
⊗ Beclometasone dipropionate (p.1516·2).
Skin disorders.

Beknol *Kener, Mex.*
Benzonatate (p.1552·1).
Coughs.

Beko *Orion, Fin.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency; vitamin B supplement.

Bekunis
Note. This name is used for preparations of different composition.
Schulke & Mayr, Austria; Lavipharm, Gr.†; Roha, Israel; Farmasa, Mex.; Roha, Pol.; Roha, Switz.
Senna (p.1769·2).
Bowel evacuation; constipation.
Abdi, Turk.
Bisacodyl (p.1710·1); senna (p.1769·2).
Roha, Port.
Tablets: Senna (p.1769·2); bisacodyl (p.1710·1).
Constipation.
Roha, Port.
Tea: Senna (p.1769·2).
Constipation.

Bekunis Bisacodyl *Roha, Ger.; Roha, Neth.*
Bisacodyl (p.1710·1).
Constipation.

Bekunis Complex *Diafarm, Spain.*
Bisacodyl (p.1710·1); senna (p.1769·2).
Bowel evacuation; constipation.

Bekunis Dragees *Roha, Switz.*
Bisacodyl (p.1710·1).
Constipation.

Bekunis Herbal Tea *Thursday, Austral.*
Senna (p.1769·2).
Constipation.

Bekunis Instant *Thursday, Austral.; Roha, Ger.*
Senna (p.1769·2).
Constipation.

Bekunis Plantaardig *Roha, Neth.*
Senna (p.1769·2).
Constipation.

Bekunis Senna *Roha, Neth.*
Senna (p.1769·2).
Constipation.

Bekunis-Krautertee N *Roha, Ger.*
Senna (p.1769·2).
Constipation.

BeL *Winthrop, Ger.*
Simvastatin (p.1390·2).
Coronary heart disease secondary prophylaxis; hypercholesterolaemia.

Bel Labial *Uriach, Spain.*
Aciclovir (p.862·3).
Herpes simplex infections.

Belachin-Gastreu R1 *Reckeweg, Neth.*
Homoeopathic preparation.

Belacid *Nakornpatana, Thai.*
Charcoal (p.1435·2); magnesium hydroxide (p.1743·2); belladonna (p.2263·3); peppermint oil (p.1761·2).
Gastric hyperacidity.

Belacodid
Note. This name is used for preparations of different composition.
Climax, Braz.†.
Injection: Codeine phosphate (p.37·2); sparteine sulfate (p.2391·2); homatropine methonitrate (p.1881·3).
Smooth muscle spasm.
Climax, Braz.†.
Oral drops: ⊗ Codeine (p.37·2); phenethylamine citrate; pentetrazol (p.2162·1); homatropine methonitrate (p.1881·3).
Cough.
Climax, Braz.†.
Syrup: ⊗ Codeine phosphate (p.37·2); phenethylamine citrate; trolamine thymolsulphonate; pentetrazol (p.2162·1); homatropine methonitrate (p.1881·3).
Cough.

Belagin *IMA, Braz.*
Copper sulfate (p.1935·3); zinc sulfate (p.1999·2); aluminium (p.2254·1); menthol (p.2340·1); benzalkonium chloride (p.1629·1).
Gynaecological infections.

Belanette
Schering, Cz.
Drospirenone (p.2095·2); ethinylestradiol betadex clathrate (p.2102·1).
Combined oral contraceptive.
Schering, Neth.
Drospirenone (p.2095·2); ethinylestradiol (p.2101·3).
28-Day packs also contain 7 inert tablets.
Combined oral contraceptive.

Belara *Grunenthal, Chile; Grunenthal, Cz.; Grunenthal, Fr.; Grunenthal, Ger.; Grunenthal, Hung.; Tec-O-Pharm, Israel; Formenti, Ital.; Grunenthal, Mex.; Grunenthal, Port.; Grunenthal, Rus.; Andromaco, Spain; Grunenthal, Switz.; Grunenthal, Venez.*
Ethinylestradiol (p.2101·3); chlormadinone acetate (p.2084·3).
Androgenisation in women; combined oral contraceptive.

Be-Lax *Be-Tabs, S.Afr.*
Magnesium sulfate (p.1679·3); magnesium carbonate (p.1743·1).
Constipation.

Belbar *Luar, Arg.*
⊗ Neomycin (p.305·1); polymyxin B (p.318·2); dexamethasone (p.1526·1).
Infected eye disorders.

Belcetin *Sedabel, Braz.†.*
Bacitracin (p.210·3); neomycin (p.305·1).
Bacterial skin infections.

Belcid
Biolab, Malaysia†.
Aluminium oxide (p.1585·3); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; peptic ulcer.
Biolab, Thai.
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; peptic ulcer.

Belcomycine *Aventis, Neth.†.*
Colistin sulfate (p.256·2).
Bacterial infections.

Belestar *Biol, Arg.*
Conjugated oestrogens (p.2087·2).
Menopausal disorders; osteoporosis.

Belexa *Farmasa, Braz.*
Vitamin B substances (p.1922·1).

Bel-Gel *Sedabel, Braz.†.*
Diclofenac diethylamine (p.44·3).

Beliam *Abbott, Arg.*
Cefalexin (p.218·2).
Bacterial infections.

Belidral *Almirall, Belg.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Ascites; heart failure; hypertension; oedema.

Belifax *Pharmathen, Gr.*
Omeprazole (p.1753·1).
Acid aspiration; eradication of Helicobacter pylori in combination with antimicrobials; peptic ulcer; reflux oesophagitis; Zollinger-Ellison syndrome.

Be-Lis *Galeno, Venez.†.*
Vitamin B substances (p.1922·1).
Dietary supplement.

Belisina *CPH, Port.*
Lysine hydrochloride; vitamin B substances (p.1922·1).
Tonic.

Belivon *Organon, Austria†; JC Healthcare, Ital.; Janssen-Cilag, Neth.; Janssen-Cilag, Port.†.*
Risperidone (p.1024·2).
Psychoses; schizophrenia.

Bell Diono Resolvent *Bell, India.*
⊗ Ethylmorphine (p.52·2); allylthiourea; hydrocortisone (p.1535·2); yellow mercuric oxide (p.2341·2).
Corneal scars, ulcers, and opacities.

Bell Pentolate *Bell, India.*
Cyclopentolate hydrochloride (p.1879·3).
Production of mydriasis and cycloplegia.

Bell Pino-Atrin *Bell, India.*
Atropine sulfate (p.1219·3).
Production of mydriasis and cycloplegia; uveitis.

Bell Resolvent *Bell, India.*
⊗ Ethylmorphine (p.52·2); allylthiourea; hydrocortisone (p.1535·2); yellow mercuric oxide (p.2341·2).
Corneal scars, ulcers, and opacities.

Bella *Hexal, Ger.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Acne and hirsutism in women.

Bellacane *Treiner, USA.*
Hyoscyamine sulfate (p.1736·1); phenobarbital (p.492·2).
Gastrointestinal disorders.

Bellacid *Soho, Indon.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Belladonna Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Belladonna-Homaccord *Peithner, Austria†.*
Homoeopathic preparation.

Belladonnysat Burger *Ysatfabrik, Ger.*
Belladonna (p.2263·3).
Smooth muscle spasm.

Bellafit N *Streuli, Switz.*
Atropine sulfate (p.1219·3).
Colic; hyperhidrosis; sialorrhoea.

Bellagotin *Streuli, Switz.†.*
Belladonna (p.2263·3); diphenhydramine hydrochloride (p.577·2); ergotamine tartrate (p.620·1).
Nervous disorders.

Bellahist-D *Cypress, USA.*
Phenylephrine hydrochloride (p.1568·1); hyoscyamine sulfate (p.1736·1); hyoscine hydrobromide (p.1734·1); chlorphenamine maleate (p.571·3); atropine sulfate (p.1219·3).
Upper respiratory-tract disorders.

Bellamine *Major, USA.*
Levorotatory alkaloids of belladonna (p.2263·3); phenobarbital (p.492·2); ergotamine tartrate (p.620·1).
Gastrointestinal disorders.

Bellamox *Soho, Indon.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bellanorm *Rosch & Handel, Austria.*
Belladonna (p.2263·3).
Bronchospasm; gastrointestinal disorders; motion sickness; night sweats.

Bellapan *Farmapol, Pol.*
Belladonna (p.2263·3).
Dystonia; hyperhidrosis; Ménière's disease; migraine; motion sickness; smooth muscle spasm.

Bellapheen *Soho, Indon.*
Belladonna (p.2263·3); ergotamine tartrate (p.620·1); phenobarbital (p.492·2).
Autonomic disorders; gastrointestinal disorders; hypermenorrhoea; menopausal disorders.

Bellaspon *Zentiva, Cz.†.*
Ergotamine tartrate (p.620·1); belladonna (p.2263·3); phenobarbital (p.492·2).
Menopausal disorders; nervous disorders.

Bellatal *Richwood, USA.*
Phenobarbital (p.492·2); hyoscyamine sulfate (p.1736·1); atropine sulfate (p.1219·3); hyoscine hydrobromide (p.1734·1).
Hypnotic; sedative.

Bellatotal *Cetus, Arg.*
Homatropine (p.1881·2); dipyrone (p.49·2).
Pain; smooth muscle spasm.

Bellatram *Soho, Indon.*
Tramadol hydrochloride (p.130·3).
Pain.

Belle Cream *Bell, India†.*
Zinc oxide (p.1621·2).
Photodermatoses; sunscreen.

Bellergal *Triton, Canad.; Novartis, Thai.†; Novartis, Turk.*
Laevorotatory alkaloids of belladonna (p.2263·3); ergotamine tartrate (p.620·1); phenobarbital (p.492·2).
Cardiovascular disorders; endocrine disorders; gastrointestinal disorders; menopausal disorders; nervous system disorders.

Bellergal Retardado *Novartis, Chile†.*
Total belladonna alkaloids (p.2263·3); ergotamine tartrate (p.620·1); phenobarbital (p.492·2).
Circulatory disorders; endocrine disorders; gastrointestinal disorders; nervous disorders.

Bellergal-S *Novartis, USA.*
Laevorotatory alkaloids of belladonna (Bellafoline) (p.2263·3); ergotamine tartrate (p.620·1); phenobarbital (p.492·2).
Cardiovascular disorders; gastrointestinal disorders; menopausal disorders; recurrent throbbing headache.

Bellergot *Herbapol Wroclaw, Pol.*
Belladonna (p.2263·3); ergotamine tartrate (p.620·1); phenobarbital (p.492·2).
Dysmenorrhoea; menopausal disorders; neuroses; vascular headache.

Bellgyn *Ratiopharm, Austria.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Androgen-associated acne, alopecia, and hirsutism in women.

Belloform *Tentan, Switz.†.*
⊗ Cathine hydrochloride (p.2152·2).
Obesity.

Bells Muscle Rub *Bell, UK.*
Sweet birch oil (p.86·2); cajuput oil (p.2271·2); eucalyptus oil (p.2301·2); methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal disorders.

Belmacina *Pliva, Spain.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Belmalax *Belmac, Spain.*
Lactulose (p.1738·2).
Constipation; hepatic encephalopathy.

Belmalen *Cetus, Arg.*
Diclofenac (p.44·2); orphenadrine (p.812·2).
Inflammation; pain.

Belmalen Plus *Cetus, Arg.*
Glucosamine (p.2313·2).
Musculoskeletal and joint disorders.

Belmalip *Belmac, Spain.*
Simvastatin (p.1390·2).
Hyperlipidaemias; secondary prophylaxis of ischaemic heart disease.

Belmazol *Daquimed, Port.; Belmac, Spain.*
Omeprazole (p.1753·1).
Dyspepsia; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Belmycetin-C *Bell, India.*
⊗ Chloramphenicol (p.239·3); hydrocortisone acetate (p.1535·2).
Infected eye disorders.

Belnif *Mibe, Ger.*
⊗ Metoprolol tartrate (p.1338·1); nifedipine (p.1350·1).
Angina pectoris; hypertension.

Beloc
Note. This name is used for preparations of different composition.
AstraZeneca, Arg.†; AstraZeneca, Austria; AstraZeneca, Ger.; Promed, Ger.; AstraZeneca, Switz.
⊗ Metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; heart failure; hypertension; hyperthyroidism; migraine; myocardial infarction.

Recalcine, Chile.
⊗ Acebutolol (p.1200·1).
Angina pectoris; arrhythmias; hypertension.

AstraZeneca, Turk.
⊗ Metoprolol succinate (p.1338·1) or metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine.

Alian, Venez.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Beloc comp *Sanova, Austria.*
⊗ Metoprolol tartrate (p.1338·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Beloc COR *AstraZeneca, Switz.†.*
⊗ Metoprolol tartrate (p.1338·1).
Heart failure.

Beloc-Zok *AstraZeneca, Ger.; Promed, Ger.; AstraZeneca, Switz.*
⊗ Metoprolol succinate (p.1338·1).
Angina pectoris; arrhythmias; heart failure; hypertension; ischaemic heart disease; migraine; myocardial infarction.

Beloc-Zok comp *Pharmacia, Ger.*
⊗ Metoprolol succinate (p.1338·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Beloderm
Belupo, Cz.
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Belupo, Rus.
⊗ Betamethasone (p.1518·2).
Skin disorders.

Belogent *Belupo, Cz.; Belupo, Rus.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

Beloken *AstraZeneca, Spain.*
⊗ Metoprolol succinate (p.1338·1) or metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction.

Belomet *Recalcine, Chile.*
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Asthma.

Belosalic
Belupo, Cz.
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Infected skin disorders.

Belupo, Rus.
⊗ Betamethasone (p.1518·2) or betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Belozok *AstraZeneca, Arg.*
⊗ Metoprolol succinate (p.1338·1).
Angina pectoris; arrhythmias; heart failure; hypertension; migraine; myocardial infarction.

Bel-Phen-Ergot S *Goldline, USA.*
Phenobarbital (p.492·2); ergotamine tartrate (p.620·1); belladonna (p.2263·3).

Belprazol *Sedabel, Braz.†.*
Omeprazole (p.1753·1).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Belsar *Menarini, Belg.*
Olmesartan medoxomil (p.1361·1).
Hypertension.

Beltrax Uno *Baliarda, Arg.*
Saw palmetto (p.2192·3).

Belup *Luper, Braz.†.*
Multivitamin preparation (p.1922·1).

Belupan *Grunenthal, Chile†.*
Papaverine (p.2191·3); phenobarbital (p.492·2); belladonna liquid extract (p.2263·3).
Colic.

Beluron *Neo-Farmaceutica, Port.*
Paracetamol (p.108·1).
Fever; pain.

Belustine *OTL, Neth.*
Lomustine (p.741·1).
Malignant neoplasms.

Bemag *Altana, Pol.*
Magnesium lactogluconate; magnesium aspartate (p.1679·1); vitamin B .
Magnesium deficiency.

Bemase *Okasa, Thai.; TTN, Thai.*
⊗ Beclometasone dipropionate (p.1516·2).
Rhinitis.

Bemaz *Laboratorios Chile, Chile.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Bemecor *Lek, Pol.*
Metildigoxin (p.1336·2).
Arrhythmias; heart failure.

Bemedrex *HRA, Fr.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Bemetrazole *Be-Tabs, S.Afr.*
Metronidazole (p.837·1).
Anaerobic bacterial infections; protozoal infections.

Bemetson *Orion, Fin.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Bemetson-K *Orion, Fin.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Bemicin *Northia, Arg.*
Pancuronium bromide (p.1907·3).
Competitive neuromuscular blocker.

Bemiks *Eczacibasi, Turk.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Bemiks C *Eczacibasi, Turk.*
Vitamin B substances; vitamin C (p.1922·1).

Beminal *Eurofarma, Braz.; Overseas, India†; Akromed, S.Afr.; Whitehall, USA.*
Vitamin B substances with vitamin C (p.1922·1).
Vitamin deficiency.

Beminal Plus *Eurofarma, Braz.*
Vitamin B substances; vitamin C; vitamin E; minerals (p.1922·1).

Beminex *Sons, Mex.*
⊗ Dexamethasone phosphate (p.1526·2).
Eye disorders.

Bemofil *Veripalvelu, Fin.†.*
A factor IX preparation (p.1068·3).

Bemolan *Altana, Spain.*
Magaldrate (p.1742·3).
Gastric hyperacidity.

Bemon *Riemser, Ger.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Bemonalcool *Sanitas, Ital.*
⊗ Benzalkonium chloride (p.1629·1); alcohol (p.1625·2).
Disinfection of skin and wounds.

Bemplas *Casasco, Arg.*
⊗ Clonidine hydrochloride (p.1247·1); chlortalidone (p.1243·3).
Hypertension.

Bena
Note. This name is used for preparations of different composition.
Xepa-Soul Pattinson, Hong Kong; Xepa-Soul Pattinson, Malaysia†.
Ammonium chloride (p.1551·3); diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3).
Coughs; respiratory-tract congestion.

General Drug, Philipp.
Guaifenesin (p.1561·3).
Cough.

Benace *Novartis, India.*
Benazepril hydrochloride (p.1223·2).
Heart failure; hypertension.

Benacid *Chew, Thai.*
⊗ Probenecid (p.558·2).
Gout; gouty arthritis.

Benacilina *Ivax, Mex.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benacne *Home, Port.*
Benzoyl peroxide (p.1590·2).
Acne.

Benacol DTM *Kalbe, Indon.*
Dextromethorphan hydrobromide (p.1555·2); diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sulfogaiacol (p.1573·2); sodium citrate (p.1673·3); menthol (p.2340·1).
Cough.

Benacol Expectorant *Kalbe, Indon.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sulfogaiacol (p.1573·2); sodium citrate (p.1673·3); menthol (p.2340·1).
Cold symptoms; cough; nasal congestion; sinusitis.

Benacort *Pulmomed, Rus.*
⊗ Budesonide (p.1520·1).
Asthma.

Benactiv *Boots Healthcare, Ital.*
Flurbiprofen (p.61·2).
Mouth and throat pain and inflammation.

Benaday *Pfizer, Denm.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; hay fever; urticaria.

Benaderma *Confar, Port.*
Diphenhydramine hydrochloride (p.577·2).
Skin disorders.

Benaderma com Calamina *Confar, Port.*
Calamine (p.1591·2); camphor (p.2273·2); diphenhydramine hydrochloride (p.577·2).
Skin disorders.

Benaderma Pruridermase *Confar, Port.†.*
Calamine (p.1591·2); diphenhydramine hydrochloride (p.577·2).
Skin disorders.

Benadon *Bayer Consumer, Arg.; Bayer, Ital.; Bayer, Port.; Bayer, Spain; Roche, Swed.; Bayer, Switz.; Roche, Venez.†.*
Pyridoxine hydrochloride (p.1978·2).
Alcoholism; anaemias; nausea and vomiting; neuritis; vitamin B deficiency.

Benadrex *Pfizer Consumer, Mex.*
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2).
Cough.

Benadryl
Note. This name is used for preparations of different composition.
Elea, Arg.; Pfizer, Gr.; Pfizer, Hong Kong†; Pfizer, Indon.; Pfizer Consumer, Mex.; Pfizer Consumer, Spain; Pfizer, Thai.; Parke, Davis, USA; Warner-Lambert, USA; Pfizer, Venez.
Diphenhydramine hydrochloride (p.577·2).
Allergic disorders; cough; insomnia; minor skin irritation; motion sickness; parkinsonism.

Pfizer, Braz.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Pfizer Consumer, Canad.; Pfizer, India.
Diphenhydramine hydrochloride (p.577·2) or diphenhydramine (p.577·1).
Hypersensitivity reactions; nausea and vomiting; sedative.

Pfizer, Denm.; Pfizer, Fin.
Acrivastine (p.566·1).
Allergic conjunctivitis; allergic rhinitis; allergic skin disorders; hay fever; urticaria.

Pfizer Consumer, Irl.
Diphenhydramine hydrochloride (p.577·2); calamine (p.1591·2); camphor (p.2273·2).
Allergic skin disorders; skin irritation.

Pfizer, Malaysia.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Formerly known as Benadryl Cough.
Coughs and cold symptoms; rhinitis.

Pfizer, Austria.
Oral drops; oral liquid: Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); menthol (p.2340·1); sodium citrate (p.1673·3).
Cold and influenza symptoms; coughs.

Warner-Lambert, Ital.†.
Syrup: Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Benadryl 24 *Elea, Arg.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Benadryl Allergy *Pfizer, USA.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions.

Benadryl Allergy Oral Solution *Pfizer Consumer, UK.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Benadryl Allergy Relief *Pfizer Consumer, UK.*
Acrivastine (p.566·1).
Allergic rhinitis; urticaria.

Benadryl Allergy/Cold *Warner-Lambert, USA.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).

Benadryl Allergy/Congestion *Warner-Lambert, USA.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2).

Benadryl Allergy/Sinus Headache *Pfizer Consumer, Canad.; Warner-Lambert, USA.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Eye irritation; headache; upper respiratory-tract disorders.

Benadryl Antialergico *Parke, Davis, Arg.†.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions; motion sickness; parkinsonism.

Benadryl Antihistamine *Pfizer, Philipp.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions.

Benadryl Antitusivo *Elea, Arg.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); menthol (p.2340·1); sodium citrate (p.1673·3).
Coughs.

Benadryl CD
Note. This name is used for preparations of different composition.
Pfizer, Malaysia†; Pfizer, Singapore†.
Diphenhydramine hydrochloride (p.577·2); codeine phosphate (p.37·2); ammonium chloride (p.1551·3).
Cold symptoms; coughs.

Pfizer, Thai.†.
Diphenhydramine hydrochloride (p.577·2); codeine phosphate (p.37·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Benadryl Chesty Cough and Nasal Congestion *Johnson & Johnson, NZ.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2).
Coughs; nasal congestion.

Benadryl Chesty Forte *Johnson & Johnson, NZ.*
Bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3).
Coughs.

Benadryl Childrens Allergy *Pfizer, USA.*
Diphenhydramine citrate (p.577·2).
Hypersensitivity reactions.

Benadryl CM *Pfizer, Indon.*
⊗ Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1); alcohol (p.1625·2).
Cough.

Benadryl Cold Nighttime Formula *Parke, Davis, USA.*
Pseudoephedrine hydrochloride (p.1571·2); diphenhydramine hydrochloride (p.577·2); paracetamol (p.108·1).
Upper respiratory-tract symptoms.

Benadryl Complex *Warner-Lambert, Ital.†.*
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Benadryl Cough
Note. This name is used for preparations of different composition.
Parke, Davis, India†; Pfizer, Thai.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs; respiratory-tract congestion; sneezing.

Pfizer Consumer, Singapore.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Cold symptoms; coughs.

Benadryl 24 D *Elea, Arg.*
Loratadine (p.583·3); pseudoephedrine (p.1571·2).

Benadryl Day & Night *Elea, Arg.*
Day tablets, paracetamol (p.108·1); pseudoephedrine (p.1571·2); night tablets, paracetamol; diphenhydramine hydrochloride (p.577·2).
Cold and influenza symptoms.

Benadryl Decongestant *Pfizer, Thai.; Parke, Davis, USA.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs; upper respiratory-tract symptoms.

Benadryl Descongestivo *Elea, Arg.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2).

Benadryl DM Compuesto *Elea, Arg.*
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1); ammonium chloride (p.1551·3).
Coughs.

Benadryl DMP
Note. This name is used for preparations of different composition.
Pfizer, Indon.
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1).
Cough and cold symptoms.

Pfizer, Thai.
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs; respiratory-tract congestion.

Benadryl DMP Child *Pfizer, Indon.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Cough and cold symptoms.

Benadryl Dry Cough and Nasal Congestion *Johnson & Johnson, NZ.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs; nasal congestion.

Benadryl Dry Forte *Johnson & Johnson, NZ.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benadryl E *Pfizer Consumer, Mex.*
Diphenhydramine hydrochloride (p.577·2); guaifenesin (p.1561·3).
Cough.

Benadryl Expectorant *Pfizer, Philipp.*
Guaifenesin (p.1561·3).
Chest congestion.

Benadryl for the Family Chesty Cough & Nasal Congestion *Pfizer Consumer, Austral.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2).
Coughs.

Benadryl for the Family Chesty Forte *Pfizer Consumer, Austral.†.*
Bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3).
Coughs.

Benadryl for the Family - Dry *Pfizer Consumer, Austral.†.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); diphenhydramine hydrochloride (p.577·2).
Coughs and cold symptoms.

Benadryl for the Family Dry Cough and Nasal Congestion *Pfizer Consumer, Austral.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Cough; nasal congestion.

Benadryl for the Family Dry Forte *Pfizer Consumer, Austral.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benadryl for the Family Original *Pfizer Consumer, Austral.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Allergic rhinitis; cough and cold symptoms.

Benadryl Itch
Note. This name is used for preparations of different composition.
Warner-Lambert, USA.
Cream; topical spray; topical stick: Diphenhydramine hydrochloride (p.577·2); zinc acetate (p.1999·1).
Hypersensitivity reactions.

Warner-Lambert, USA.
Topical gel: Diphenhydramine hydrochloride (p.577·2).
Pruritus.

Benadryl N *Parke, Davis, Cz.†; Pfizer Consumer, Ger.†.*
Diphenhydramine hydrochloride (p.577·2).
Coughs, colds and associated respiratory-tract disorders.

Benadryl Nightime *Johnson & Johnson, NZ.*
Dextromethorphan hydrobromide (p.1555·2); diphenhydramine hydrochloride (p.577·2).
Coughs and cold symptoms.

Benadryl One A Day *Pfizer Consumer, UK.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Benadryl Original *Johnson & Johnson, NZ.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Benadryl Plus *Pfizer Consumer, UK.*
Acrivastine (p.566·1); pseudoephedrine hydrochloride (p.1571·2).
Allergic rhinitis.

Benadryl Skin Allergy Relief *Pfizer Consumer, UK.*
Diphenhydramine hydrochloride (p.577·2); camphor (p.2273·2); zinc oxide (p.1621·2).
Allergic skin disorders; skin irritation.

Benadryl Total/Allergy *Pfizer Consumer, Canad.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Eye irritation; headache; upper respiratory-tract disorders.

Benagol *Boots Healthcare, Ital.*
Dichlorobenzyl alcohol (p.1642·1); amylmetacresol (p.1628·3).
Oral hygiene.

Benagol Mentolo-Eucaliptolo *Boots Healthcare, Ital.*
Dichlorobenzyl alcohol (p.1642·1); amylmetacresol (p.1628·3); menthol (p.2340·1).
Oral hygiene.

Benagol Vitamina C *Boots Healthcare, Ital.*
Dichlorobenzyl alcohol (p.1642·1); amylmetacresol (p.1628·3); sodium ascorbate (p.1984·1); ascorbic acid (p.1983·3).
Adjunct in cold symptoms; oral hygiene.

Benal *Berman, Mex.*
Thiamine (p.1976·3).
Vitamin B deficiency.

Benalapril *Berlin-Chemie, Ger.; Berlin-Chemie, Pol.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

Benalapril Plus *Berlin-Chemie, Ger.*
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Benalcon *Sanitas, Ital.*
Benzalkonium chloride (p.1629·1).
Disinfection of wounds.

Benalet *Pfizer, Braz.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).

Benalgin *Balkanpharma, Rus.*
Dipyrone (p.49·2); thiamine hydrochloride (p.1976·1); caffeine (p.1116·3).
Fever; pain.

Benalgis *Franco-Indian, India.*
Vitamin B (p.1975·2).
Beri-beri; neuritis.

Benapen *Biolab Sanus, Braz.*
Procaine benzylpenicillin (p.319·2); benzylpenicillin potassium (p.213·1).
Bacterial infections.

Benaprost *Bago, Arg.*
Terazosin hydrochloride (p.1410·2).
Benign prostatic hyperplasia.

Benarin *Pulmomed, Rus.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Benatux *Cifarma, Braz.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Benaxil *Yoo Young, Philipp.*
Diphenhydramine hydrochloride (p.577·2).
Angioedema; conjunctivitis; pruritus; rhinitis; urticaria.

Benaxima *Ivax, Mex.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Benaxona *Ivax, Mex.*
Ceftriaxone sodium (p.237·1).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Benazeplus *Aliud, Ger.; Stada, Ger.*
⊗ Benazepril hydrochloride (p.1223·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Benazepril comp *1A, Ger.; Betapharm, Ger.; Hexal, Ger.*
⊗ Benazepril hydrochloride (p.1223·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Benazepril HCT *AWD, Ger.*
⊗ Benazepril hydrochloride (p.1223·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Bencard Priktestoplossing *Artu, Neth.*
A range of allergen extracts (p.2250·2).
Diagnosis of hypersensitivity.

Bencard Skin Testing Solutions *Allergy Therapeutics, UK.*
Allergen extracts (single and mixed) (p.2250·2).
Diagnosis of hypersensitivity.

Bencelin *Antibioticos, Mex.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Bencelin Combinado *Antibioticos, Mex.*
Benzathine benzylpenicillin (p.212·1); procaine benzylpenicillin (p.319·2); benzylpenicillin (p.213·1).
Bacterial infections.

Bencid *Geno, India; Pharmaland, Thai.*
⊗ Probenecid (p.558·2).
Gout; gouty arthritis; hyperuricaemia.

Benciefredil *Novag, Mex.*
Guaifenesin (p.1561·3); dextromethorphan (p.1555·2).
Coughs.

Bencifem *Prieto, Arg.*
Benzydamine hydrochloride (p.27·3).

Bencil Scab *Fabra, Arg.*
Permethrin (p.2048·2); benzyl benzoate (p.2036·1).
Pediculosis.

Benclamid *Craveri, Arg.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Benclamin *Cazi, Braz.; Polipharm, Thai.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Benclav *Zak, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bencocan *Teuto, Braz.*
Benzyl benzoate (p.2036·1).

Bencole *Adcock Ingram, S.Afr.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Benda *TNP, Thai.†.*
Mebendazole (p.148·3).
Worm infections.

Bendacor *Corsalud, Venez.*
Mebendazole (p.148·3).
Worm infections.

Bendalina *Angelini, Ital.; Angelini, Philipp.; Lepori, Port.; Elmor, Venez.*
Bendazac lysine (p.27·1).
Cataracts.

Bendamen *Meyer, Venez.*
Mebendazole (p.148·3).
Worm infections.

Bendapar *Ivax, Mex.*
Albendazole (p.139·2).
Worm infections.

Bendex *Cipla, India; Cipla-Medpro, S.Afr.*
Albendazole (p.139·2).
Giardiasis; worm infections.

Bendigon N *Gepepharm, Ger.†.*
⊗ Mefruside (p.1332·1); reserpine (p.1387·3).
Hypertension.

Bendracol *Synco, Hong Kong.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sulfogaiacol (p.1573·2); sodium citrate (p.1673·3); terpin hydrate (p.1573·3); menthol (p.2340·1).
Coughs; respiratory-tract congestion.

Bendrax *Haller, Braz.†.*
Mebendazole (p.148·3).
Worm infections.

Bendzon *Dzwon, India.*
Oxybuprocaine hydrochloride (p.1867·3).
Local anaesthesia.

Benecid *Valdecasas, Mex.*
⊗ Probenecid (p.558·2).
Adjunct to beta-lactam antibacterials; gout.

Benectrin *Legrand, Braz.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Benectrin Balsamico *Legrand, Braz.*
Co-trimoxazole (p.258·1); guaifenesin (p.1561·3); ammonium chloride (p.1551·3).
Bacterial infections.

Benecut *Sanova, Austria.*
Naftifine hydrochloride (p.542·3).
Fungal skin infections.

Benedorm
Note. This name is used for preparations of different composition.
Ariston, Arg.
Bromazepam (p.964·3).
Alcohol withdrawal syndrome; anxiety.

Valeant, Mex.
Melatonin (p.2338·3).
Sleep disorders.

Benefiber *Novartis Consumer, Austral.†; Novartis, Braz.†; Novartis Nutrition, USA.*
Guar gum (p.442·3).
Constipation; diarrhoea; dietary fibre supplement.

Benefix
Note. This name is used for preparations of different composition.
Wyeth, Arg.; Wyeth, Austral.; Genetics Institute, Austria; Baxter, Belg.; Wyeth, Braz.†; Wyeth, Canad.; Wyeth, Chile†; Wyeth, Cz.; Wyeth, Denm.; Baxter, Fin.; Baxter, Fr.; Baxter, Ger.; Baxter, Gr.; Baxter, Ital.; Wyeth, NZ; Wyeth, Neth.; Wyeth, Norw.; Wyeth Lederle, Port.; Baxter, Spain; Baxter, Swed.; Baxter, Switz.; Wyeth, UK.
Nonacog alfa (p.1068·3).
Factor IX deficiency; haemophilia B.

Wyeth, Mex.†; Wyeth, USA.
A factor IX preparation (recombinant) (p.1068·3).
Factor IX deficiency.

Beneflora *Cedar Health, UK.*
Lactobacillus acidophilus (p.2372·3); *Bifidobacterium* spp; *Streptococcus thermophilus* (p.2372·3); *Lactobacillus casei* (p.2372·3); *Lactobacillus bulgaricus* (p.2372·3); *Bifidobacterium longum* (p.2372·3); fructo oligosaccharides; pea fibres.
Maintenance of normal gastrointestinal flora.

Beneflur *Schering, Mex.; Schering, Spain.*
Fludarabine phosphate (p.721·1).
Chronic lymphocytic leukaemia.

Benegel *Legrand, Braz.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1); rosemary oil (p.2381·3); lavender oil (p.2331·2); turpentine oil (p.2406·3); mustard oil (p.2349·2).
Musculoskeletal and joint disorders.

Benemicin *Polfa, Cz.; Tarchomin, Rus.*
Rifampicin (p.325·3).
Bacterial infections including leprosy and tuberculosis.

Benemid *IFET (ΙΦΕΤ), Gr.; MSD, Thai.†; Merck, USA.*
⊗ Probenecid (p.558·2).
Adjunct to beta-lactam antibacterials; gout; hyperuricaemia.

Benemide *Bouchara-Recordati, Fr.*
⊗ Probenecid (p.558·2).
Adjunct to beta-lactam antibacterials; gout; hyperuricaemia.

Benepax *Apsen, Braz.*
Paroxetine hydrochloride (p.414·2).
Depression.

Benera *TO-Chemicals, Thai.*
Belladonna alkaloids (p.2263·3); ergotamine tartrate (p.620·1); phenobarbital (p.492·2).
Menopausal disorders; migraine; neurocirculatory asthenia; psychosomatic disorders.

Benergina *Merck, Port.*
Diphenhydramine hydrochloride (p.577·2).
Skin disorders.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Beneroc *Bayer, Braz.*
Vitamin B preparation (p.1922·1).

Benerva *Roche, Belg.; Roche, Braz.; Bayer Sante, Fr.; IFET (ΙΦΕΤ), Gr.; Roche Consumer, Irl.†; Bayer, Ital.; Bayer Consumer, Mex.; Bayer, Spain; Bayer, Swed.; Bayer, Switz.; Roche Consumer, UK.*
Thiamine hydrochloride (p.1976·1).
Alcoholism; beri-beri; neuritis; neuropathies; vitamin B deficiency; Wernicke's encephalopathy.

Benestan *Sanofi-Aventis, Port.; Sanofi-Aventis, Spain.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Benet *Takeda, Jpn.*
Risedronate sodium (p.1103·3).
Osteoporosis.

Benetazon *Leciva, Hung.†.*
Tribuzone.
Musculoskeletal and joint disorders.

Benetor *Menarini, Fin.; Galen, Irl.*
Olmesartan medoxomil (p.1361·1).
Hypertension.

Benetransit *Kalisterra, Fr.*
Cassia (p.1715·3); cynara (p.2291·2); fennel (p.2302·3); yogurt.
Digestive disorders.

Benetussin *Janssen-Cilag, Port.*
Ammonium chloride (p.1551·3); diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3).
Coughs.

Beneum *Teuto, Braz.*
Thiamine hydrochloride (p.1976·1).
Vitamin B supplement.

Beneuran *Nycomed, Austria.*
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Beneuran compositum *Nycomed, Austria.*
Thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); folic acid (p.1940·1); cyanocobalamin (p.1980·2).
Cervical syndrome; funicular myelosis; herpes zoster infection; nervous exhaustion; neuralgia; neuritis; pregnancy induced vomiting.

Beneuran Vit B-Komplex *Nycomed, Austria†.*
Riboflavin sodium phosphate (p.1977·3); pyridoxine hydrochloride (p.1978·2); dexpanthenol (p.2362·1); thiamine hydrochloride (p.1976·1); nicotinamide (p.1957·3).
Eye disorders; gastrointestinal disorders; liver disorders; mouth and throat disorders; neurological disorders; obstetric disorders; skin disorders; vitamin deficiency.

Beneurol *Meuse, Belg.*
Thiamine hydrochloride (p.1976·1).
Beri-beri; neuritis; vitamin B deficiency; Wernicke's encephalopathy.

Beneuron Forte *Franco-Indian, India.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B and C deficiency.

Benevat *Teuto, Braz.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Benevolus *Schwabe, Arg.†.*
Silymarin (p.1452·2).
Liver disorders.

Benevran *Legrand, Braz.*
Diclofenac potassium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Benexol *Roche, Turk.*
Thiamine (p.1976·3); pyridoxine (p.1979·1).
Vitamin B deficiency.

Benexol B12
Note. This name is used for preparations of different composition.
Bayer Consumer, Mex.; Bayer, Switz.
Thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Alcoholism; megaloblastic and sideroblastic anaemias; neuritis; neuropathies; vitamin B deficiency.

Bayer, Ital.
Injection: Cocarboxylase (p.1975·2); pyridoxine hydrochloride (p.1978·2); hydroxocobalamin (p.1980·3).
Neuropathies; vitamin B , B , and B deficiency; vomiting.

Bayer, Ital.
Tablets: Thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Neuropathies; vitamin B , B , and B deficiency; vomiting.

Benexol B1 B6 B12 *Bayer, Spain.*
Cyanocobalamin (p.1980·2); pyridoxine hydrochloride (p.1978·2); thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Benflogin
Note. This name is used for preparations of different composition.
Ache, Braz.
Benzydamine hydrochloride (p.27·3).
Fever; inflammation; pain.

Angelini, Ital.
Ibuprofen guaiacol ester (p.65·2).
Fever; inflammation; pain.

Benflux *Atral, Port.; Polinac, Venez.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Benfofen *Sanofi Synthelabo, Ger.†.*
Diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and soft-tissue disorders; pain.

Benfogamma *Worwag, Cz.; Worwag, Hung.; Worwag, Pol.; Worwag, Rus.*
Benfotiamine (p.1975·2).
Vitamin B deficiency.

Benfol *Andromaco, Mex.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Painful smooth muscle spasm.

Ben-Gay *Pfizer, Cz.; Pfizer, Hong Kong; Pfizer, Israel; Pfizer, Pol.; Pfizer, Rus.; Pfizer Consumer, Singapore†; Pfizer, Turk.; Pfizer, USA.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal and soft-tissue pain; neuralgia; sports injuries.

Bengay *Pfizer, Indon.; Ponce, Venez.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal and joint pain; soft-tissue injury.

Bengay Arthritis *Pfizer Consumer, Canad.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Musculoskeletal and joint pain.

Bengay Greaseless *Pfizer, Philipp.*
Menthol (p.2340·1); methyl salicylate (p.85·3).
Muscle pain.

Bengay Ice *Pfizer Consumer, Canad.†.*
Menthol (p.2340·1).
Muscle and joint pain.

Bengay Muscle Pain Regular (Original) *Pfizer Consumer, Canad.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Muscle and joint pain.

Bengay Muscle Pain Ultra *Pfizer Consumer, Canad.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2).
Muscle and joint pain.

Bengay No Odor *Pfizer Consumer, Canad.*
Trolamine salicylate (p.132·3).
Muscle and joint pain.

Ben-Gay Patch *Pfizer, USA.*
Menthol (p.2340·1).
Muscle, joint, and soft-tissue pain; neuralgia.

Bengay Plus *Pfizer, Indon.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2).
Musculoskeletal pain; soft-tissue injury.

Ben-Gay Ultra *Pfizer, Hong Kong; Pfizer Consumer, Singapore†; Pfizer, USA.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2).
Muscle, joint, and soft-tissue pain; neuralgia; sports injuries.

Bengay Ultra *Pfizer, Philipp.*
Menthol (p.2340·1); methyl salicylate (p.85·3); camphor (p.2273·2).
Musculoskeletal and joint pain.

Ben-Gay Ultrastrength *Pfizer, Israel.*
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2).
Musculoskeletal and joint pain.

Ben-Gay Vanishing *Pfizer, USA.*
Menthol (p.2340·1).
Muscle, joint, and soft-tissue pain; neuralgia.

Benglau *CSC, Austria.*
Dapiprazole hydrochloride (p.2292·2).
Reversal of mydriasis.

Benhex *PSM, NZ.*
Lindane (p.2045·3).
Scabies.

Benical *Bayer, Switz.; Roche, Turk.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); chlorphenamine maleate (p.571·3).
Coughs; respiratory-tract congestion.

Benical Cold *Roche, Turk.*
Paracetamol (p.108·1); dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract congestion.

Benicar *Sankyo, Braz.; Sankyo, USA; Sankyo, Venez.*
Olmesartan medoxomil (p.1361·1).
Hypertension.

Benicar HCT *Sankyo, Braz.; Sankyo, USA.*
⊗ Olmesartan medoxomil (p.1361·1); hydrochlorothiazide (p.1307·3).
Hypertension.

beni-cur *Sabona, Ger.†.*
Garlic (p.2309·2).
Atherosclerosis.

Beniforte *Pharmatechnica, Philipp.*
Folic acid (p.1940·1); ferrous fumarate (p.1938·3); vitamin B (p.1980·2).
Anaemias.

Benil
Note. This name is used for preparations of different composition.
Vianex (Βιανέξ), Gr.
Brimonidine (p.1878·3).
Glaucoma.

Akdeniz, Turk.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Respiratory-tract congestion.

Benilin *Medikon, Indon.*
Dextromethorphan (p.1555·2); phenylpropanolamine (p.1569·2); diphenhydramine (p.577·1).
Upper respiratory-tract disorders.

Benilylin *Pfizer, Turk.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Respiratory-tract congestion.

Beniod *Chiesi, Spain.*
Delapril hydrochloride (p.1256·2).
Hypertension.

Benisan *Fabra, Arg.*
Piroxicam (p.117·3).
Inflammation; pain.

Benison *Biosel, Turk.*
Diphenhydramine hydrochloride (p.577·2).
Hypersensitivity reactions; motion sickness; vertigo.

Benistina *Ortoquimica, Braz.†.*
Mepyramine maleate (p.585·2); pyridoxine (p.1979·1).
Hypersensitivity reactions.

Benitol *Benitol, Arg.*
Bismuth salicylate (p.1711·1); sodium bicarbonate (p.1673·2); magnesium oxide (p.1744·1); magnesium carbonate (p.1743·1); calcium carbonate (p.1714·1); belladonna (p.2263·3).
Formerly contained bismuth salicylate and sodium bicarbonate.
Antacid.

Benitrom *Ivax, Mex.*
Erythromycin (p.269·2).
Bacterial infections.

Bennasone *Silom, Thai.†.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Bennatuss
Note. This name is used for preparations of different composition.
Hoe, Malaysia.
Ammonium chloride (p.1551·3); diphenhydramine hydrochloride (p.577·2).
Cough; nasal congestion.

Hoe, Singapore.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs; nasal congestion.

Bennetts Colic Mixture *Bennetts, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); belladonna (p.2263·3).
Infant colic.

Benocetam *Bernofarm, Indon.*
Piracetam (p.368·2).
Cerebrovascular disorders.

Benocten *Medinova, Singapore; Medinova, Switz.*
Diphenhydramine hydrochloride (p.577·2).
Sleep disorders.

Benodent
Note. This name is used for preparations of different composition.
IMS, Ital.
Capsules: Chlorhexidine gluconate (p.1635·3).
Mouth infections; oral hygiene.

IMS, Ital.
Mouthwash: Sodium fluoride (p.1962·2); chlorhexidine (p.1635·2).
Dental caries prophylaxis; dental hygiene.

Benodent CLX *IMS, Ital.*
Chlorhexidine gluconate (p.1635·3).
Dental disorders.

Benodent Gel Gengivale *IMS, Ital.†.*
⊗ Chlorhexidine (p.1635·2); potassium nitrate (p.1658·3); enoxolone potassium (p.50·1).
Gum disorders.

Benofomin *Bernofarm, Indon.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Benol *Aksu, Turk.*
Thiamine (p.1976·3); pyridoxine (p.1979·1).
Vitamin B deficiency.

Benomox *Zak, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Benoquin
Note. This name is used for preparations of different composition.
Ivax, Arg.
Balsalazide (p.1709·3).
Ulcerative colitis.

Valeant, Canad.; Mac, India†; Valeant, USA.
Monobenzone (p.1607·3).
Final depigmentation in extensive vitiligo; post-inflammatory melasma; skin hyperpigmentation.

Benoral
Note. This name is used for preparations of different composition.
Sanofi, Irl.†; Sanofi Synthelabo, UK†.
Benorilate (p.27·2).
Fever; inflammation; musculoskeletal and joint disorders; pain.

BioSaude, Port.
Dichlorobenzyl alcohol (p.1642·1) benzydamine hydrochloride (p.27·3).
Mouth disorders.

Reig Jofre, Spain.
Benzathine phenoxymethylpenicillin (p.212·3).
Bacterial infections.

Santa, Turk.
Thiamine (p.1976·3); pyridoxine (p.1979·1).
Vitamin B deficiency.

Benormal *Cristalia, Braz.*
Vitamin B substances with calcium (p.1922·1).
Nutritional supplement.

Benosid *Farmasan, Ger.†.*
⊗ Budesonide (p.1520·1).
Obstructive airways disease.

Benoson *Bernofarm, Indon.*
⊗ Betamethasone (p.1518·2) or betamethasone valerate (p.1519·1).
Corticosteroid.

Benoson V *Bernofarm, Indon.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Benoson G *Bernofarm, Indon.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

Benoson M *Bernofarm, Indon.*
⊗ Betamethasone valerate (p.1519·1); miconazole nitrate (p.541·3).
Skin disorders with fungal infection.

Benoson N *Bernofarm, Indon.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Skin disorders.

Benostan *Bernofarm, Indon.*
Mefenamic acid (p.80·1).
Fever; pain.

Benovit C *Bernofarm, Indon.*
Vitamin B substances; ascorbic acid (p.1922·1).
Vitamin B and C supplement.

Benoxi *Unimed, Cz.*
Oxybuprocaine hydrochloride (p.1867·3).
Local anaesthesia.

Benoxid *Astellas, Ital.*
Benzoyl peroxide (p.1590·2).
Acne; skin disinfection.

Benoxinat *Agepha, Austria.*
Oxybuprocaine hydrochloride (p.1867·3).
Local anaesthesia.

Benoxinat SE *Alcon, Ger.†.*
Oxybuprocaine hydrochloride (p.1867·3).
Local anaesthesia.

Benoxinate *Alcon, Hong Kong†; Liba, Turk.*
Oxybuprocaine hydrochloride (p.1867·3).
Local anaesthesia.

Benoxuric *Bernofarm, Indon.*
Allopurinol (p.552·2).
Hyperuricaemia.

Benoxygel *Stiefel, Port.; Stiefel, Spain.*
Benzoyl peroxide (p.1590·2).
Acne.

Benoxyl *Stiefel, Canad.; Stiefel, Mex.; Stiefel, Philipp.; Stiefel, S.Afr.; Stiefel, Venez.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Benozym *Bernofarm, Indon.*
Pancreatin (p.2360·1); bromelains (p.2269·1); ox bile extract (p.2266·3).
Digestive enzyme and pancreatic deficiencies.

Benpen *CSL, Austral.; CSL, NZ.*
Benzylpenicillin sodium (p.213·1).
Bacterial infections.

Benph *Gerard, Irl.*
Terazosin hydrochloride (p.1410·2).
Benign prostatic hyperplasia.

Benpine *Atlantic, Malaysia; Atlantic, Singapore; Atlantic, Thai.*
Chlordiazepoxide hydrochloride (p.968·2).
Alcohol withdrawal syndrome; anxiety; skeletal muscle spasm.

Benquil *Concord, UK†.*
Benperidol (p.964·1).
Deviant sexual behaviour.

Bens *Tender, Canad.†; Ardern, UK.*
Diethyltoluamide (p.2041·1).
Insect repellent.

Bens Natural *Ardern, UK.*
Lemon eucalyptus.
Insect repellent.

Bensal HP *7 Oaks, USA.*
Benzoic acid (p.1630·2); salicylic acid (p.1612·2).
Fungal skin infections.

Bensolmin *Continentales, Mex.*
Mebendazole (p.148·3).
Amoebiasis; worm infections.

Bensulf *Fada, Arg.*
Thiopental sodium (p.1795·2).

Bensulfoid *ECR, USA.*
Cream: Colloidal sulfur (p.1614·1); resorcinol (p.1612·1).
Acne.

Ben-Tann *Midlothian, USA.*
Diphenhydramine tannate (p.577·3).
Hypersensitivity reactions.

Bentasil
Note. This name is used for preparations of different composition.
Carter Horner, Canad.†.
Black currant lozenges; orange lozenges for kids; strawberry lozenges for kids: Menthol (p.2340·1).
Sore throat.

Carter Horner, Canad.†.
Cherry lozenges; honey-lemon lozenges: Anethole (p.2258·1); menthol (p.2340·1).
Coughs; sore throats.

Bentasil Eucalyptus *Carter Horner, Canad.†.*
Eucalyptus oil (p.2301·2); menthol (p.2340·1).
Coughs; nasal congestion; sore throat.

Bentasil Licorice with Echinacea *Carter Horner, Canad.†.*
Ammonium chloride (p.1551·3); anethole (p.2258·1); echinacea (p.2298·1); liquorice (p.1740·3); eucalyptus oil (p.2301·2); menthol (p.2340·1).
Sore throat.

Bentasil Menthol *Carter Horner, Canad.†.*
Eucalyptus oil (p.2301·2); menthol (p.2340·1).
Coughs; nasal congestion; sore throat.

Bentelan *Biofutura, Ital.*
⊗ Betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Bentiamin *Haller, Braz.†.*
Albendazole (p.139·2).
Worm infections.

Bentifen *Novartis, Ital.; Novartis, Neth.; Novartis, Port.*
Ketotifen fumarate (p.582·2).
Allergic conjunctivitis.

Bentix *Sons, Mex.*
⊗ Clioquinol (p.254·1); fluocinolone acetonide (p.1531·3).
Infected skin disorders.

Bentonine *IFET (ΙΦΕΤ), Gr.†.*
Bentonite (p.2141·2).
Paraquat poisoning.

Bentophyto
Note.This name is used for preparations of different composition.
Panalab, Arg.
Soap: Undecenoic acid diethanolamide (p.549·3).
Fungal skin infections.

Panalab, Arg.
Topical powder: Undecenoic acid diethanolamide (p.549·3); triclosan (p.1665·2); salicylic acid (p.1612·2); boric acid (p.2268·1); alum (p.2254·1); precipitated sulfur (p.1614·1).
Fungal skin infections.

Bentos *Kaken, Jpn; Europhta, Mon.*
⊗ Befunolol hydrochloride (p.1878·2).
Glaucoma; ocular hypertension.

Bentyl *Medley, Braz.; Aventis, Mex.; Duncan, Philipp.; Axcan, USA.*
Dicycloverine hydrochloride (p.1722·3).
Functional bowel syndrome; irritable bowel syndrome; smooth muscle spasm.

Bentylol *Axcan, Canad.*
Dicycloverine hydrochloride (p.1722·3).
Gastrointestinal spasm.

Benur *Bioindustria, Ital.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia.

Ben-u-ron *Sigmapharm, Austria; Bene, Cz.; Bene, Ger.; Novartis Consumer, Ger.; Bene-Chemie, Hong Kong; Bene, Hung.; Neo-Farmaceutica, Port.; Milupa, Switz.*
Paracetamol (p.108·1).
Fever; pain.

Benursil *Benedetti, Ital.†.*
Ursodeoxycholic acid (p.2408·1).
Biliary disorders; cholesterol gallstones.

Benuryl *Valeant, Canad.*
⊗ Probenecid (p.558·2).
Hyperuricaemia.

Benutrex *Organon, Venez.*
Vitamin B substances; vitamin C (p.1922·1).

Benutrex 1000 *Organon, Chile.*
Thiamine hydrochloride; riboflavin; pyridoxine hydrochloride; nicotinamide; dexpanthenol; cyanocobalamin; hydroxocobalamin (p.1922·1).
Neuralgia; neuritis; vitamin B deficiency.

Benutrex B12 *Organon, Venez.*
Vitamin B substances (p.1922·1).

Benutrex C *Organon, Philipp.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B and C deficiency.

Benuvit-C *Tai Yu, Philipp.*
Vitamin B substances; vitamin C; glucose (p.1922·1).
Parenteral nutrition.

Benylan *Pfizer, Denm.*
Diphenhydramine hydrochloride (p.577·2); menthol (p.2340·1).
Formerly contained diphenhydramine hydrochloride, ammonium chloride, and menthol.
Coughs; hypersensitivity.

Benylin
Note.This name is used for preparations of different composition.
Pfizer Consumer, Belg.
Diphenhydramine hydrochloride (p.577·2).
Formerly known as Benylin Antihistaminicum.
Hypersensitivity reactions.

Pfizer, Chile.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Pfizer Consumer, Irl.; Janssen-Cilag, Port.
Diphenhydramine hydrochloride (p.577·2); menthol (p.2340·1).
Coughs.

Pfizer, Switz.†.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Coughs.

Benylin a la codeine N *Pfizer Consumer, Switz.*
Diphenhydramine hydrochloride (p.577·2); codeine phosphate (p.37·2); ammonium chloride (p.1551·3).
Benylin a la codeine contained diphenhydramine hydrochloride, codeine phosphate, ammonium chloride.
Coughs.

Benylin Active Response *Pfizer Consumer, UK†.*
Echinacea purpurea (p.2298·1).
Upper respiratory-tract infections.

Benylin Adult *Warner-Lambert, USA†.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benylin Antitusivo *Pfizer Consumer, Spain†.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benylin Bronchospect *Pfizer Consumer, S.Afr.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Coughs.

Benylin CD *Pfizer, Hong Kong.*
Diphenhydramine hydrochloride (p.577·2); codeine phosphate (p.37·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Cough.

Benylin Chesty *Pfizer Consumer, S.Afr.*
⊗ Orciprenaline sulfate (p.1129·1); bromhexine hydrochloride (p.1552·2).
Coughs.

Benylin Chesty Coughs Non-Drowsy *Pfizer Consumer, UK.*
Guaifenesin (p.1561·3); menthol (p.2340·1).
Coughs.

Benylin Chesty Coughs Original *Pfizer Consumer, UK.*
Diphenhydramine hydrochloride (p.577·2); menthol (p.2340·1).
Coughs.

Benylin Childrens Chesty Coughs *Pfizer Consumer, Irl.; Pfizer Consumer, UK.*
Guaifenesin (p.1561·3).
Coughs.

Benylin Childrens Cough and Cold *Pfizer Consumer, Irl.*
Dextromethorphan hydrobromide (p.1555·2); triprolidine hydrochloride (p.592·3).
Coughs and cold symptoms.

Benylin Childrens Coughs & Colds *Pfizer Consumer, UK.*
Dextromethorphan hydrobromide (p.1555·2); triprolidine hydrochloride (p.592·3).
Coughs and cold symptoms.

Benylin Childrens Dry Cough
Note. A similar name is used for preparations of different composition (see below).
Pfizer Consumer, Irl.
Diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Benylin Childrens Dry Coughs
Note. A similar name is used for preparations of different composition (see above).
Pfizer Consumer, UK.
Pholcodine (p.1570·2).
Coughs.

Benylin Childrens Night Coughs *Pfizer Consumer, UK.*
Diphenhydramine hydrochloride (p.577·2); menthol (p.2340·1).
Coughs; hypersensitivity symptoms of the respiratory tract.

Benylin Clear Action *Pfizer Consumer, Irl.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Benylin with Codeine
Note.This name is used for preparations of different composition.
Pfizer Consumer, Irl.; Pfizer Consumer, UK†.
Diphenhydramine hydrochloride (p.577·2); codeine phosphate (p.37·2); menthol (p.2340·1).
Coughs.

Pfizer Consumer, S.Afr.
Diphenhydramine hydrochloride (p.577·2); codeine phosphate (p.37·2); ammonium chloride (p.1551·3).
Coughs.

Benylin Cold & Flu
Note.This name is used for preparations of different composition.
Pfizer Consumer, UK.
Capsules: Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Pfizer Consumer, UK.
Sachets: Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Benylin 1 Cold and Flu *Pfizer Consumer, Canad.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3); paracetamol (p.108·1).
Formerly known as Benylin 4 Flu.
Coughs and cold symptoms.

Benylin 2 Cold and Flu with Codeine *Pfizer Consumer, Canad.*
Codeine phosphate (p.37·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Formerly known as Benylin Codeine D-E.
Coughs; nasal congestion.

Benylin 1 Cold and Flu Day Night *Pfizer Consumer, Canad.*
Day caplets, paracetamol (p.108·1); dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3); night caplets, paracetamol; pseudoephedrine hydrochloride; diphenhydramine hydrochloride (p.577·2).
Cold and influenza symptoms.

Benylin 1 Cold and Flu Nightime *Pfizer Consumer, Canad.*
Paracetamol (p.108·1); dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3); chlorphenamine maleate (p.571·3).
Cold and influenza symptoms.

Benylin Compuesto *Pfizer, Venez.*
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2).
Cough.

Benylin Cough *Pfizer, Hong Kong.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Cough.

Benylin Cough & Congestion *Pfizer Consumer, UK.*
Diphenhydramine hydrochloride (p.577·2); menthol (p.2340·1); dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs and cold symptoms.

Benylin D *Pfizer Consumer, Canad.*
Pseudoephedrine hydrochloride (p.1571·2).
Nasal congestion.

Benylin Day & Night *Pfizer Consumer, Irl.; Pfizer Consumer, UK.*
Day tablets, paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2); night tablets, paracetamol; diphenhydramine hydrochloride (p.577·2).
Day tablets formerly contained paracetamol and phenylpropanolamine hydrochloride.
Cold and influenza symptoms.

Benylin Descongestivo *Pfizer Consumer, Spain.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs; nasal congestion.

Benylin DM *Pfizer Consumer, Canad.*
Dextromethorphan hydrobromide (p.1555·2) or dextromethorphan polistirex (p.1556·1).
Coughs.

Benylin DM-D *Pfizer Consumer, Canad.; Pfizer Consumer, S.Afr.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs; nasal congestion.

Benylin DM-D-E *Pfizer Consumer, Canad.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Coughs; nasal congestion.

Benylin DM-E *Pfizer Consumer, Canad.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Benylin Dry Cough
Note.This name is used for preparations of different composition.
Pfizer Consumer, Irl.
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Pfizer Consumer, S.Afr.
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benylin Dry Coughs Non-Drowsy *Pfizer Consumer, UK.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benylin Dry Coughs Original *Pfizer Consumer, UK.*
Diphenhydramine hydrochloride (p.577·2); dextromethorphan hydrobromide (p.1555·2); menthol (p.2340·1).
Coughs.

Benylin Dual Action Chesty *Pfizer Consumer, Irl.*
Pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Coughs.

Benylin Dual Action Dry *Pfizer Consumer, Irl.*
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2); triprolidine hydrochloride (p.592·3).
Coughs.

Benylin E *Pfizer Consumer, Canad.*
Guaifenesin (p.1561·3).
Coughs.

Benylin Energy Boosting *Pfizer Consumer, Canad.†.*
Siberian ginseng (p.2386·3).
Fatigue following colds and influenza.

Benylin Expectorant *Warner-Lambert, USA†.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Benylin First Defense *Pfizer Consumer, Canad.†.*
Echinacea (p.2298·1); menthol (p.2340·1).
Cough and cold symptoms.

Benylin 4 Flu
Pfizer Consumer, Irl.; Pfizer Consumer, UK.
Diphenhydramine hydrochloride (p.577·2); paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Cold and influenza symptoms.

Benylin Four Flu *Pfizer Consumer, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Cold and influenza symptoms.

Benylin Multi-Symptom *Warner-Lambert, USA†.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); guaifenesin (p.1561·3).
Cough and cold symptoms.

Benylin Non-Drowsy Chesty Cough *Pfizer Consumer, Irl.*
Guaifenesin (p.1561·3); menthol (p.2340·1).
Coughs.

Benylin Non-Drowsy Dry Cough *Pfizer Consumer, Irl.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benylin Original *Pfizer Consumer, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Coughs.

Benylin Pediatric *Warner-Lambert, USA†.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Benylin Sore Throat Lozenge *Pfizer Consumer, UK†.*
Hexylresorcinol (p.1647·1).
Sore throat.

Benylin Tickly Coughs *Pfizer Consumer, UK.*
Glycerol (p.2314·2).
Coughs.

Benylin Wet Cough *Pfizer Consumer, S.Afr.*
Guaifenesin (p.1561·3).
Coughs.

Benza *Century, USA.*
Benzalkonium chloride (p.1629·1).
Eye, bladder, urethra, and body cavity irrigation; skin, mucous membrane, and wound disinfection; vaginal douching.

Benzac *Galderma, Austral.; Galderma, Belg.; Galderma, Canad.; Galderma, Chile; Galderma, Ital.; Galderma, NZ; Galderma, Neth.; Galderma, Port.; Galderma, Singapore; Galderma, Switz.; Galderma, Thai.; Galderma, USA.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzac AC *Galderma, Braz.; Galderma, Hong Kong; Galderma, India; Galderma, Israel; Galderma, Malaysia; Galderma, Mex.; Galderma, Philipp.; Galderma, S.Afr.; Liba, Turk.; Galderma, Venez.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzac Eritromicina *Galderma, Braz.†.*
Erythromycin (p.269·2); benzoyl peroxide (p.1590·2).
Acne.

Benzac Plus *Galderma, Chile; Galderma, Mex.*
Benzoyl peroxide (p.1590·2); erythromycin estolate (p.269·3).
Acne.

Benzaclin
Dermik, Canad.; Darier, Mex.
Clindamycin phosphate (p.251·2); benzoyl peroxide (p.1590·2).
Acne.

Dermik, USA.
Clindamycin (p.251·1); benzoyl peroxide (p.1590·2).
Acne.

Benzacne *Altana, Pol.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzac-W *Lavipharm, Gr.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzaderm
Note.This name is used for preparations of different composition.
Remexa, Mex.
Soap.
Skin cleansing.

Remexa, Mex.
Topical gel: Benzoyl peroxide (p.1590·2).
Acne.

Benzafur *Ivax, Mex.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzagel *Columbia, Canad.†; Dermik, Canad.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzaknen *AB-Consult, Austria; Galderma, Ger.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzalcor *Corsalud, Venez.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzalcream *Argenfarma, Arg.†.*
Benzalkonium chloride (p.1629·1).
Mucous membrane disinfection.

Benzalcrem *Gezzi, Arg.*
Zinc oxide (p.1621·2); white soft paraffin (p.2031·2).
Nappy rash.

Benzaltex *Innothera, Switz.†.*
Benzalkonium chloride (p.1629·1).
Contraceptive; genital hygiene.

Benzamycin *Ingens, Arg.†; Trenker, Belg.; Dermik, Canad.; Finn Vita, Chile†; Papaellinas (Παπαελληνας), Gr.†; Dermik, Hong Kong; Schwarz, Irl.; Dermik, Israel; Darier, Mex.; Dermik, Singapore; Tek, Turk.; Schwarz, UK†; Dermik, USA.*
Benzoyl peroxide (p.1590·2); erythromycin (p.269·2).
Acne.

Benzamycine *UCB, S.Afr.†.*
Benzoyl peroxide (p.1590·2); erythromycin (p.269·2).
Acne.

† This preparation may no longer be actively marketed ⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Benzanil Compuesto *Roche, Mex.*
Benzathine benzylpenicillin (p.212·1); procaine benzylpenicillin (p.319·2); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Benzanil Simple *Roche, Mex.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzantine H *Rekah, Israel.*
⊗ Diphenhydramine hydrochloride (p.577·2); hydrocortisone (p.1535·2).
Skin disorders; skin irritation.

Benzapen *Tum, Turk.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzapen 6.3.3 *Tum, Turk.*
Benzathine benzylpenicillin (p.212·1); procaine benzylpenicillin (p.319·2); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Benzapen G *Teuto, Braz.*
Procaine benzylpenicillin (p.319·2); benzylpenicillin potassium (p.213·1).
Bacterial infections.

Benzapur *Herbapol Poznan, Pol.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzatec *Caps, S.Afr.*
Benzylpenicillin sodium (p.213·1).
Bacterial infections.

Benzatron *Ariston, Braz.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzecilin *Teuto, Braz.*
Benzylpenicillin potassium (p.213·1).
Bacterial infections.

Benzedrex *Ascher, USA.*
⊗ Propylhexedrine (p.2163·1).
Nasal congestion.

Benzemul *McGloin, Austral.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzet *Premier, S.Afr.†.*
Cetrimide (p.1634·1); benzocaine (p.1854·1).
Mouth and throat disorders.

Benzetacil *Wyeth, Arg.; Eurofarma, Braz.; Sandoz, Mex.; Reig Jofre, Spain.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzetacil 3-3 *Sandoz, Venez.*
Procaine benzylpenicillin (p.319·2); benzylpenicillin sodium (p.213·1); benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzetacil 6-3-3 *Sandoz, Venez.*
Benzathine benzylpenicillin (p.212·1); procaine benzylpenicillin (p.319·2); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Benzetacil Combinado *Sandoz, Mex.*
Benzathine benzylpenicillin (p.212·1); benzylpenicillin potassium (p.213·1); procaine benzylpenicillin (p.319·2).
Bacterial infections.

Benzetacil Compuesta *Reig Jofre, Spain.*
Benzylpenicillin potassium (p.213·1); procaine benzylpenicillin (p.319·2); benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzetacil L-A *Sandoz, Venez.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Benzevit *Elofar, Braz.*
Nystatin (p.543·2); zinc oxide (p.1621·2).
Skin infections.

Benzibel *Luper, Braz.†.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzidan *Deva, Turk.*
Benzydamine hydrochloride (p.27·3).
Mouth and throat pain and inflammation.

Benzihex *Galderma, Arg.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzin
Note. This name is used for preparations of different composition.
Globo, Braz.†.
Benzyl benzoate (p.2036·1).
Scabies.

Vida, Port.
Lisinopril (p.1325·2).

Benziq *Graceway, USA.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzirin *Fater, Ital.*
Benzydamine hydrochloride (p.27·3).
Inflammatory mouth and throat disorders.

Benzitrat *Biolab Sanus, Braz.*
Benzydamine hydrochloride (p.27·3).
Fever; inflammation; pain.

Benzoax *Ducto, Braz.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzoben *Osorio de Moraes, Braz.†.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzo-Bencil *Vita, Venez.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzocaine PD *Produits Dentaires, Switz.*
Benzocaine (p.1854·1); hydroxyquinoline sulfate (p.2323·1); eugenol (p.2301·2).
Dental pain.

Benzocan *Teuto, Braz.†.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzodent *Procter & Gamble, USA.*
Benzocaine (p.1854·1).
Oral lesions.

Benzoderm Myco *Athenstaedt, Ger.†.*
Clotrimazole (p.530·1).
Fungal skin infections.

Benzodiazol *Meyer, Venez.*
Dequalinium chloride (p.1641·3); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Benzodit *Drovepat, Venez.†.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzogal *Rafarm, Gr.*
Benzyl benzoate (p.2036·1).
Lice infestations.

Benzo-Ginestryl *Aventis, Mex.*
Estradiol benzoate (p.2097·2).
Menopausal disorders; menstrual disorders; osteoporosis.

Benzo-Ginoestril *Sanofi-Aventis, Braz.*
Estradiol hexahydrobenzoate (p.2097·3).
Menopausal disorders; osteoporosis.

Benzol
Note. This name is used for preparations of different composition.
Greenpharma, Braz.
Albendazole (p.139·2).
Worm infections.

Teuto, Braz.†.
Tiabendazole (p.156·2).
Worm infections.

Benzolac *Surya Dermato, Indon.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzolac Cl *Surya Dermato, Indon.*
Benzoyl peroxide (p.1590·2); clindamycin phosphate (p.251·2).
Acne.

Benzolato *Sedabel, Braz.†.*
Benzyl benzoate (p.2036·1).
Scabies.

Benzoleks *Sanofi Synthelabo, Turk.*
Phenyltoloxamine citrate (p.588·1); guaifenesin (p.1561·3); sodium citrate (p.1673·3); ammonium chloride (p.1551·3).
Respiratory-tract congestion.

Benzolina *Biofarma, Braz.†.*
Benzyl benzoate (p.2036·1).
Scabies.

Benzolom *Osorio de Moraes, Braz.†.*
Benzyl benzoate (p.2036·1).
Pediculosis; scabies.

Benzomel *Granado, Braz.†.*
Sodium benzoate (p.1630·2); mepyramine maleate (p.585·2); sulfogaiacol (p.1573·2); belladonna (p.2263·3); passion flower (p.2363·2).
Coughs.

Benzomid *Surya Dermato, Indon.*
Benzocaine (p.1854·1); cetrimide (p.1634·1).
Burns; insect bites; minor wounds; skin irritation; sunburn.

Benzonal *Cryopharma, Mex.*
Benzonatate (p.1552·1).
Coughs.

Benzopin *Schwulst, S.Afr.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety; premedication.

Benzoral *Billiet, Arg.†.*
Cyanocobalamin (p.1980·2).
Anaemias.

Benzosed *Troika, Venez.*
Midazolam (p.1007·3).
General anaesthesia; premedication.

Benz-O-Sthetic *Geritrex, USA.*
Benzocaine (p.1854·1).
Local anaesthesia.

Benzotal *Cifarma, Braz.*
Ampicillin benzathine (p.205·1); ampicillin sodium (p.204·1).
Bacterial infections.

Benzotisan *Sanval, Braz.*
Benzyl benzoate (p.2036·1).
Scabies.

Benzotripen *Sons, Mex.*
Procaine benzylpenicillin (p.319·2).
Respiratory-tract infections.

Benzoyt *Riemser, Ger.*
Benzoyl peroxide (p.1590·2).
Acne.

Benzperox *Medphano, Ger.*
Benzoyl peroxide (p.1590·2).
Acne.

Benztrop *Pharmalab, Austral.; AFT, NZ.*
Benzatropine mesilate (p.797·1).
Drug-induced extrapyramidal disorders; parkinsonism.

Benzyme *Collins, Mex.*
Diazepam (p.986·3).

Beocid Puroptal *Metochem, Austria.*
Sulfacetamide sodium (p.335·3).
Bacterial eye infections.

Beof *Saval, Chile.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Beofenac *UCB, Austria†; Almirall, Ger.*
Aceclofenac (p.14·3).
Ankylosing spondylitis; musculoskeletal and joint disorders; osteoarthritis; rheumatoid arthritis.

Beofta *Columbia, Mex.†.*
⊗ Betaxolol (p.1231·2).

Be-Oxytet *Be-Tabs, S.Afr.*
Oxytetracycline hydrochloride (p.312·3).
Bacterial infections.

Bepanten *Bayer, Ital.*
Dexpanthenol (p.2362·1).
Intestinal atony.

Bepanthen
Note. This name is used for preparations of different composition.
Bayer Consumer, Austral.
Benzalkonium chloride (p.1629·1).
Formerly contained panthenol.
Minor skin lesions; skin irritation.

Bayer, Cz.; Bayer, Fin.; Bayer Sante, Fr.; Bayer, Ger.; Bayer, Hung.; Bayer, Indon.; Roche, Israel; Bayer Consumer, Mex.; Bayer, Pol.; Bayer Consumer, Rus.; Bayer, S.Afr.; Bayer, Singapore; Bayer, UK.
Dexpanthenol (p.2362·1).
Dry skin disorders; eye disorders; minor burns and wounds; nappy rash; nasal disorders; skin and mucous membrane disorders; skin irritation; sunburn.

Roche, NZ.
Panthenol (p.2362·1).
Burns; skin irritation; skin lesions.

Bayer, Austria.
Cream; ointment: Dexpanthenol (p.2362·1).
Skin damage; wounds.

Bayer, Austria.
Solution: Dexpanthenol (p.2362·1); domiphen bromide (p.1643·1).
Gastrointestinal disorders; mouth and throat disorders; nasal disorders; respiratory tract disorders; skin damage.

Bepanthen Antiseptische *Bayer, Ger.*
Dexpanthenol (p.2362·1); chlorhexidine gluconate (p.1635·3).
Wounds.

Bepanthen Plus *Bayer, Austria; Bayer, Cz.; Bayer, Hung.; Roche, Israel; Bayer, Pol.; Bayer Consumer, Rus.*
Dexpanthenol (p.2362·1); chlorhexidine hydrochloride (p.1635·3).
Burns; skin disorders; wounds.

Bepanthene
Note. This name is used for preparations of different composition.
Bayer Sante, Fr.; Bayer, Spain; Bayer, Switz.; Roche, Turk.
Dexpanthenol (p.2362·1).
Alopecia; gastrointestinal disorders; mouth and throat disorders; nasal disorders; respiratory-tract disorders; skin disorders; wounds.

Bayer, Port.
Cream; ointment: Dexpanthenol (p.2362·1).
Skin disorders; wounds.

Bayer, Port.
Lotion: Dexpanthenol (p.2362·1); chlorhexidine hydrochloride (p.1635·3).
Skin disorders; wounds.

Bepanthene Plus
Bayer, Port.; Roche, Turk.
Dexpanthenol (p.2362·1); chlorhexidine hydrochloride (p.1635·3).
Skin disorders; wounds.

Bayer, Switz.
Dexpanthenol (p.2362·1); chlorhexidine gluconate (p.1635·3) or chlorhexidine hydrochloride (p.1635·3).
Skin disorders; ulcers; wounds.

Bepantol *Roche, Braz.; Bayer, Chile; Roche Consumer, S.Afr.†; Merkez, Turk.*
Dexpanthenol (p.2362·1).
Burns; skin disorders; wounds.

Beparine
Note. This name is used for preparations of different composition.
Biological E, India.
Cream: Heparin sodium (p.1301·2); benzyl nicotinate (p.28·1).
Superficial thrombophlebitis.

Biological E, India.
Injection: Heparin sodium (p.1301·2).
Thromboembolic disorders.

Bepeben *Teuto, Braz.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Bepeno *Milano, Thai.*
Phenylephrine hydrochloride (p.1568·1); brompheniramine maleate (p.569·2).
Nasal congestion; respiratory-tract disorders.

Bepeno-G *Milano, Thai.*
Phenylephrine hydrochloride (p.1568·1); brompheniramine maleate (p.569·2); guaifenesin (p.1561·3).
Coughs; respiratory-tract congestion.

Beplex *Anglo-French Drugs, India; Darou Pakhsh, Rus.*
Vitamin B substances with or without vitamin C (p.1922·1).
Vitamin B deficiency.

Beplexaron *Ariston, Braz.*
Vitamin B substances (p.1922·1).

Beplex-Zee *Anglo-French Drugs, India; Anglo-French Drugs, Thai.†.*
Multivitamin preparation with zinc (p.1922·1).

Beplus
Note. This name is used for preparations of different composition.
Cazi, Braz.
Vitamin B substances (p.1922·1).

Plusandex, Venez.
Thiamine (p.1976·3); pyridoxine (p.1979·1); cyanocobalamin (p.1980·2).
Neuralgia; neuritis; vitamin B deficiency.

Bepro *Wallace Mfg Chem., UK.*
Codeine phosphate (p.37·2).
Coughs.

Beprogel *Hoe, Malaysia; Hoe, Singapore; Hoe, Thai.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Beprogent *Hoe, Malaysia; Hoe, Singapore; Hoe, Thai.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

Beprogenta *Chew, Thai.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected inflammatory skin disorders.

Beprolic *Hoe, Thai.*
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Bepronate *Pharmasant, Thai.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Beprosalic *Hoe, Malaysia; Hoe, Singapore.*
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Beprosone *Hoe, Malaysia; Hoe, Singapore; Chew, Thai.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Beprospen *Biotech, Venez.*
⊗ Betamethasone phosphate (p.1519·1); betamethasone dipropionate (p.1518·3).
Corticosteroid.

Bepsar *Nabiqasim, Philipp.*
Losartan potassium (p.1326·1).
Hypertension.

Beptazine *MM, India.*
⊗ Propranolol hydrochloride (p.1380·3); dihydralazine sulfate (p.1264·3).
Hypertension.

Beptazine-H *MM, India.*
⊗ Propranolol hydrochloride (p.1380·3); dihydralazine sulfate (p.1264·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Bequidril *Teuto, Braz.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Bequium *Saval, Chile.*
Chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2); codeine (p.37·2).
Coughs; nasal congestion.

Beramicina *Berman, Mex.*
Gentamicin sulfate (p.282·1).
Bacterial infections.

Beramikin *Berman, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Berberell *Sanorell, Ger.*
Homoeopathic preparation.

Berberil *Mann, Pol.*
⊗ Tetryzoline hydrochloride (p.1574·1).
Conjunctivitis; eye irritation.

Berberil Dry Eye *Mann, Ger.*
Hypromellose (p.2144·2).
Dry eyes.

Berberil N *Mann, Ger.*
⊗ Tetryzoline hydrochloride (p.1574·1).
Eye disorders.

Berberis Complex *Blackmores, Austral.*
Berberis vulgaris; taraxacum (p.2395·1); greater celandine (p.2317·1); boldo (p.2267·2); lecithin (p.2332·2); methionine (p.1450·1); thiamine hydrochloride (p.1976·1).
Constipation; dyspepsia; liver disorders.

Berberis Cosmoplex *Peithner, Austria.*
Homoeopathic preparation.

Berberis Med Complex *Dynamit, Austria.*
Homoeopathic preparation.

Berberis Oligoplex *Madaus, Ger.*
Homoeopathic preparation.

Berberis/Cantharis Comp *Weleda, S.Afr.*
Homoeopathic preparation.

Bercetina *Bernabo, Arg.*
Flunarizine (p.580·3).

Berciclina *Berman, Mex.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Berciclina Enzimatica *Berman, Mex.*
Tetracycline (p.347·1) with enzymes.
Bacterial infections.

Berclomine *Polipharm, Thai.*
Dicycloverine hydrochloride (p.1722·3); simeticone (p.1770·2).
Gastrointestinal colic and spasm; irritable bowel syndrome.

Beres *Beres, Hung.*
Trace element preparation (p.1922·1).
Nutritional supplement.

Beres B1 *Beres, Hung.*
Thiamine nitrate (p.1976·2).
Vitamin B deficiency.

Beres B6 *Beres, Hung.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

Beres C *Beres, Hung.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency.

Beres Calcium *Beres, Hung.*
Calcium carbonate (p.1714·1).
Allergic disorders; calcium supplement; osteoporosis.

Beres Drops Plus *Beres, Rus.*
Mineral and trace element preparation (p.1922·1).

Beres Magnezium + B_6 *Beres, Hung.*
Magnesium oxide (p.1744·1); magnesium citrate (p.1743·2); pyridoxine hydrochloride (p.1978·2).
Magnesium deficiency; magnesium supplement.

Berex *Leiras, Fin.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency; vitamin B supplement.

Berex Cee *Leiras, Fin.*
Vitamin B substances; ascorbic acid; calcium carbonate; calcium glycerophosphate (p.1922·1).
Calcium supplement; vitamin B supplement; vitamin C supplement.

Bergacid *Bergamon, Ital.*
Boric acid (p.2268·1); bergamot oil (p.2265·1).
Fungal skin and vaginal infections.

Bergagyn *Bergamon, Ital.*
Benzalkonium chloride (p.1629·1).
Vaginal disinfection.

Bergamol *Medichrom, Gr.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Bergamon Sapone *Bergamon, Ital.*
Tribromsalan (p.1632·3).
Skin cleansing.

Berggeist *Kur und Stadtapotheke, Austria.*
⊗ Arnica tincture (p.2260·2); urtica tincture (p.2409·3); formic acid (p.2306·3); menthol (p.2340·1); methyl nicotinate (p.85·3); juniper oil (p.2328·3); lavender oil (p.2331·2); eucalyptus oil (p.2301·2); rosemary oil (p.2381·3); pumilio pine oil (p.2376·3).
Bruising; musculoskeletal and joint disorders; neuralgia.

Bergon *MC, Ital.†.*
Orthophenylphenol (p.1655·1); glutaral (p.1645·2); isopropyl alcohol (p.1650·3).
Disinfection of endoscopes.

Beriate *Aventis, Austria.*
A factor VIII preparation (p.1067·1).
Factor VIII deficiency.

Beriate P *Aventis Behring, Arg.; CSL, Braz.; ZLB, Ger.; CSL, Hung.; ZLB, Ital.; CSL, Port.; ZLB, Spain; Aventis Behring, Swed.†; ZLB, Switz.; Farma-Tek, Turk.; Aventis Behring, UK.*
A factor VIII preparation (p.1067·1).
Factor VIII deficiency; haemophilia A.

Beribumin *CSL, Braz.*
⊗ Albumin (p.1052·1).
Plasma volume expansion.

Bericard *Provita, Austria.*
Crataegus (p.2289·1).
Cardiovascular disorders.

Berifen *Mepha, Indon.; Sunthi Sepuri, Indon.*
Diclofenac sodium (p.44·3).
Gout; musculoskeletal and joint disorders.

Beriglobin *ZLB, Austria; ZLB, Denm.; ZLB, Ger.; Mirren, S.Afr.; ZLB, Swed.; ZLB, Switz.*
A normal immunoglobulin (p.2225·3).
Hypogammaglobulinaemia; mucositis; passive immunisation.

Beriglobin P *Aventis Behring, Israel.*
A normal immunoglobulin (p.2225·3).
Hypogammaglobulinaemia; passive immunisation.

Beriglobina *Aventis Behring, Arg.; CSL, Braz.*
A normal immunoglobulin (p.2225·3).
Passive immunisation.

Beriglobina P *Sanofi Pasteur, Chile; ZLB Behring, Mex.; ZLB, Spain.*
Normal immunoglobulins (p.2225·3).
Hypogammaglobulinaemia; passive immunisation.

Berigripina *Elea, Arg.†.*
An influenza vaccine (p.2218·2).
Active immunisation.

Berinert *ZLB, Austria; CSL, Cz.; ZLB, Ger.; ZLB, Switz.*
Complement C1 esterase inhibitor (p.2287·1).
Hereditary angioedema.

Berinert P *Aventis Behring, Arg.; CSL, Hung.*
Complement C1 esterase inhibitor (p.2287·1).
Hereditary angioedema.

Berinin *CSL, Braz.; ZLB, Ger.*
A factor IX preparation (p.1068·3).
Factor IX deficiency; haemophilia B.

Berinin HS *ZLB, Switz.*
A factor IX preparation (p.1068·3).
Haemophilia B.

Berinin P *Aventis Behring, Arg.; CSL, Hung.; ZLB Behring, Mex.; ZLB, Spain; Farma-Tek, Turk.*
A factor IX preparation (p.1068·3).
Factor IX deficiency; haemophilia B.

Beriplast *Aventis, Austria; Nycomed, Fr.; ZLB, Ger.; Dexa, Indon.; ZLB, Indon.; Aventis Behring, Israel; ZLB, Ital.; Centeon, Pol.*
1 Ampoule: fibrinogen (p.1070·1); factor XIII (p.1069·2); 1 ampoule, aprotinin (p.1055·1); 1 ampoule: thrombin (p.1080·1); 1 ampoule, calcium chloride (p.1675·2);
On mixing this forms a fibrin glue (p.1069·3).
Haemorrhage; wounds.

Beriplast P
Note.This name is used for preparations of different composition.
Aventis Behring, Arg.; CSL, Braz.; Sanofi Pasteur, Chile; ZLB, Gr.; Aventis Behring, Hong Kong; CSL, Hung.; ZLB Behring, Mex.; ZLB, Neth.; ZLB, Switz.; Farma-Tek, Turk.
1 Ampoule, fibrinogen (p.1070·1); factor XIII (p.1069·2); 1 ampoule, aprotinin (p.1055·1); 1 ampoule, thrombin (p.1080·1); 1 ampoule, calcium chloride (p.1675·2);
On mixing this forms a fibrin glue (p.1069·3).
Haemorrhage; wounds.

Beriplast P Combi *ZLB, Spain.*
1 Vial, fibrinogen (p.1070·1); factor XIII (p.1069·2); 1 vial, aprotinin (p.1055·1); 1 vial thrombin (p.1080·1); 1 vial, calcium chloride (p.1675·2);
On mixing this forms a fibrin glue (p.1069·3).
Haemorrhage.

Beriplex *ZLB, Austria; ZLB, Switz.*
A factor IX preparation (p.1068·3).
Anticoagulant overdose; factor II, VII, IX, and X deficiency; haemorrhagic disorders.

Beriplex PN *Aventis Behring, Arg.; CSL, Braz.; ZLB, Ger.; CSL, Hung.; CSL, UK.*
A factor IX preparation (p.1068·3).
Anticoagulant overdose; haemorrhagic disorders.

Berirab *ZLB, Austria; ZLB, Ger.; Aventis Behring, Israel; ZLB, Switz.*
A rabies immunoglobulin (p.2233·3).
Passive immunisation.

Berirab-P *Zydus, India; ZLB Behring, Mex.; Aventis Pasteur, Philipp.; ZLB Behring, Philipp.*
A rabies immunoglobulin (p.2233·3).
Passive immunisation.

Berivine *Meuse, Belg.*
Riboflavin (p.1977·2).
Vitamin B deficiency.

Berko-Fiz *Berko, Turk.*
Sodium chloride (p.1686·1).
Nasal congestion.

Berk-Oral *Berk, Turk.*
Sodium chloride; sodium citrate; potassium chloride; anhydrous glucose (p.1672·2).
Diarrhoea; oral rehydration therapy.

Berko-Setamol *Berko, Turk.*
Paracetamol (p.108·1).
Fever; pain.

Berlactone *Berlin Pharm, Thai.†.*
⊗ Spironolactone (p.1400·1).
Hypertension; oedema and ascites of heart failure; primary aldosteronism.

Berlamin Modular *Berlin-Chemie, Rus.*
Preparation for enteral nutrition (p.1922·1).

Berlex *Duncan, Arg.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Berlicetin
Note.This name is used for preparations of different composition.
Wernigerode, Ger.
Ear drops: ⊗ Chloramphenicol (p.239·3); prednisolone (p.1540·3).
Bacterial ear infections with inflammation.

Chauvin ankerpharm, Ger.
Eye drops: Azidamfenicol (p.206·3).
Bacterial eye infections.

Berlicort
Note.This name is used for preparations of different composition.
Berlin-Chemie, Ger.†; Berlin-Chemie, Rus.
⊗ Triamcinolone (p.1544·2).
Corticosteroid.

Berlico Mulia, Indon.
⊗ Hydrocortisone acetate (p.1535·2).
Skin disorders.

Berlifed *Berlico Mulia, Indon.*
⊗ Promethazine hydrochloride (p.588·2); pseudoephedrine hydrochloride (p.1571·2); sodium citrate (p.1673·3); ammonium chloride (p.1551·3); alcohol (p.1625·2).
Cough; influenza symptoms.

Berlinsulin H 30/70 *Berlin-Chemie, Ger.*
⊗ Mixture of insulin injection (human, prb) and isophane insulin injection (human, prb) respectively in the proportions indicated (p.443·2).
Diabetes mellitus.

Berlinsulin H Basal *Berlin-Chemie, Ger.*
⊗ Isophane insulin injection (human, prb) (p.443·2).
Diabetes mellitus.

Berlinsulin H Normal *Berlin-Chemie, Ger.*
⊗ Insulin injection (human, prb) (p.443·2).
Diabetes mellitus.

Berlipril *Berlin-Chemie, Cz.; Berlin-Chemie, Hung.; Berlin-Chemie, Rus.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension; left ventricular dysfunction following myocardial infarction.

Berlison *Intendis, Braz.*
⊗ Hydrocortisone acetate (p.1535·2).
Skin disorders.

Berlithion *Berlin-Chemie, Rus.*
Thioctic acid (p.2400·2).
Alcoholic polyneuropathy; diabetic polyneuropathy.

Berlizon *Berlico Mulia, Indon.*
Phenylbutazone (p.117·1).
Gout; musculoskeletal and joint disorders.

Berlocid *Berlin-Chemie, Cz.†; Berlin-Chemie, Ger.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Berlocombin *Berlin-Chemie, Ger.†.*
Trimethoprim (p.355·2); sulfamerazine (p.339·3).
Bacterial infections.

Berlofen *Elea, Arg.*
Aceclofenac (p.14·3).
Musculoskeletal, joint, and peri-articular disorders; pain.

Berlosid *Berlico Mulia, Indon.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); dimeticone (p.1770·2).
Gastric hyperacidity; gastritis; peptic ulcer.

Berlosin *Berlin-Chemie, Ger.*
Dipyrone (p.49·2).
Fever; pain.

Berloson-N *Berlico Mulia, Indon.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Berlthyrox *Berlin-Chemie, Ger.*
Levothyroxine sodium (p.2171·2).
Hypothyroidism.

Bermacia *CIF, Braz.†.*
Theophylline (p.1140·1).
Obstructive airways disease.

Bernacin *Am-Europharma, Philipp.*
Vitamin B ; vitamin B ; vitamin B   (p.1922·1).
Vitamin B deficiency.

Bernadine *Shiwa, Thai.†.*
Povidone-iodine (p.1659·2).
Disinfection of skin, wounds, burns, and mucous membranes; mouth and throat inflammation.

Bernesten *Berlico Mulia, Indon.*
Clotrimazole (p.530·1).
Fungal skin infections.

Berniter *Galderma, Ger.*
Coal tar (p.1616·2).
Scalp disorders.

Bernoflox *Bernofarm, Indon.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Berocca *Bayer Consumer, Arg.; Bayer Consumer, Austral.; Bayer, Austria; Roche, Cz.†; Bayer Sante, Fr.; Bayer, Hong Kong; Bayer, Hung.; Roche, Ital.†; Bayer Consumer, Mex.; Bayer, NZ; Bayer, Philipp.; Roche Consumer, Singapore; Roche, Swed.†; Roche, Thai.; Roche Consumer, UK; Roche, USA; Roche, Venez.†.*
Vitamin B substances; vitamin C; with or without minerals (p.1922·1).
Dietary supplement; vitamin B and C deficiency.

Berocca Calcio e Magnesio *Bayer, Port.*
Vitamin B substances; vitamin C; calcium; magnesium (p.1922·1).
Vitamin deficiency.

Berocca Calcium *Roche, Cz.†.*
Vitamin B substances; vitamin C; calcium (p.1922·1).

Berocca Calcium and Magnesium *Roche, Cz.†; Roche, Israel†.*
Vitamin B substances; vitamin C; calcium; magnesium (p.1922·1).
Nutritional supplement.

Berocca Calcium & Magnesium *Bayer Consumer, Rus.*
Vitamin B substances; ascorbic acid; calcium; magnesium (p.1922·1).

Berocca calcium, magnesium + zinc *Bayer, Switz.*
Vitamin B substances; vitamin C; calcium; magnesium; zinc (p.1922·1).
Alcoholism; vitamin deficiency.

Berocca Plus
Note.This name is used for preparations of different composition.
Bayer Consumer, Arg.; Bayer, Chile; Bayer, Fin.
Vitamin B substances; vitamin C; calcium; magnesium; zinc (p.1922·1).

Roche, USA.
Ferrous fumarate (p.1938·3); folic acid (p.1940·1); multivitamins and minerals (p.1922·1).
Iron-deficiency anaemias.

Berocca plus Zink *Bayer, Austria.*
Vitamin B substances; ascorbic acid; magnesium salts; calcium salts; zinc citrate (p.1922·1).
Vitamin B and C deficiency; zinc deficiency.

Berocca-C *Roche, Venez.†.*
Vitamin B substances; vitamin C (p.1922·1).

Beroccal *Roche, Braz.*
Vitamin B substances; vitamin C; calcium; magnesium; zinc (p.1922·1) 406 Formerly contained vitamin b substances, vitamin C, calcium, and magnesium =(prvademecum.com 05.05).

Berodual *Boehringer Ingelheim, Arg.; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Chile; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Denm.; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Hong Kong†; Boehringer Ingelheim, Hung.; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Malaysia; Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Philipp.; Boehringer Ingelheim, Pol.; Unilfarma, Port.; Boehringer Ingelheim, Rus.; Boehringer Ingelheim, S.Afr.; Boehringer Ingelheim, Singapore; Boehringer Ingelheim, Spain†; Boehringer Ingelheim, Switz.; Boehringer Ingelheim, Thai.; Boehringer Ingelheim, Venez.*
⊗ Fenoterol hydrobromide (p.1121·1); ipratropium bromide (p.1124·1).
Asthma; obstructive airways disease.

Berodualin *Boehringer Ingelheim, Austria.*
⊗ Fenoterol hydrobromide (p.1121·1); ipratropium bromide (p.1124·1).
Obstructive airways disease.

Berofin *Sanofi Synthelabo, Arg.*
Biperiden hydrochloride (p.797·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Beromin *Condrugs, Thai.*
Vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2).
Neuritis; vitamin B deficiency.

Beromun *Boehringer Ingelheim, Belg.†; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Fr.†; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Ital.; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Port.; Boehringer Ingelheim, Spain; Boehringer Ingelheim, Swed.*
Tasonermin (p.783·3).
Soft-tissue sarcoma.

Berosolvon *Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, Venez.†.*
⊗ Fenoterol hydrobromide (p.1121·1); bromhexine hydrochloride (p.1552·2).
Obstructive airways disease; respiratory-tract disorders.

Berotec *Boehringer Ingelheim, Arg.; Boehringer Ingelheim, Austral.†; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Belg.; Boehringer Ingelheim, Braz.; Boehringer Ingelheim, Canad.; Boehringer Ingelheim, Chile†; Boehringer Ingelheim, Cz.; Boehringer Ingelheim, Denm.; Boehringer Ingelheim, Fin.†; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Hong Kong†; Boehringer Ingelheim, Hung.; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Jpn; Boehringer Ingelheim, Malaysia; Boehringer Ingelheim Promeco, Mex.†; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Norw.; Boehringer Ingelheim, Philipp.; Boehringer Ingelheim, Pol.; Unilfarma, Port.; Boehringer Ingelheim, Rus.; Boehringer Ingelheim, S.Afr.; Boehringer Ingelheim, Singapore; Boehringer Ingelheim, Spain†; Boehringer Ingelheim, Swed.†; Boehringer Ingelheim, Switz.; Boehringer Ingelheim, Thai.; Boehringer Ingelheim, Venez.†.*
⊗ Fenoterol hydrobromide (p.1121·1).
Asthma; dyspnoea; obstructive airways disease; premature labour; uterine hypertonia.

Berovent *Boehringer Ingelheim, Gr.*
⊗ Salbutamol sulfate (p.1131·3); ipratropium bromide (p.1124·1).
Asthma; obstructive airways disease.

Berry Vision *Sanbe, Indon.*
Myrtillus (p.2349·3); vitamin A; vitamin E; betacarotene (p.1922·1).
Dietary supplement for eye health.

Bersen *Pasteur, Chile.*
⊗ Prednisone (p.1542·3).
Corticosteroid.

Bersol *Bernofarm, Indon.*
⊗ Clobetasol propionate (p.1522·2).
Skin disorders.

Berthyco *Bernofarm, Indon.*
Mecobalamin (p.1981·1).
Peripheral neuropathy.

Bertocil *Edol, Port.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Beruhigungs- und Schlaftropfen fur Kinder Nr 4 *Doskar, Austria.*
Homoeopathic preparation.

Berzymplex *Bernofarm, Indon.*
Pancreatin (p.2360·1); ox bile extract (p.2266·3); dimeticone (p.1770·2); vitamin B substances (p.1922·1).
Flatulence; pancreatic enzyme deficiency; vitamin B deficiency.

Besavar *Winthrop, UK.*
Alfuzosin hydrochloride (p.2183·1).
Benign prostatic hyperplasia.

Besedan *Wyeth, Braz.†.*
Butamirate citrate (p.1553·1).
Coughs.

Besemax *Adcock Ingram, S.Afr.*
Orphenadrine citrate (p.812·1); paracetamol (p.108·1).
Musculoskeletal spasm; pain.

Besenol *Adcock Ingram, S.Afr.*
Paracetamol (p.108·1); orphenadrine citrate (p.812·1).
Musculoskeletal spasm; pain.

Beserol *Sanofi-Aventis, Braz.*
Diclofenac sodium (p.44·3); carisoprodol (p.1894·1); paracetamol (p.108·1); caffeine (p.1116·3).
Muscle spasm; pain.

Beseroldos *Sanofi-Aventis, Venez.*
Methocarbamol (p.1897·3); paracetamol (p.108·1).
Pain; skeletal muscle spasm.

Beserol-S *Sanofi-Aventis, Chile.*
Paracetamol (p.108·1); chlorzoxazone (p.1894·3).
Musculoskeletal spasm; pain.

Besflox *Labesfal, Port.*
Norfloxacin (p.309·2).
Bacterial infections.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Besidin *Coup, Gr.†.*
Cimetidine (p.1716·2).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Besitran *Pfizer, Spain.*
Sertraline hydrochloride (p.421·3).
Anxiety post-traumatic stress disorder; depression; obsessive-compulsive disorder.

Besix *Remek, Gr.*
Pyridoxine hydrochloride (p.1978·2).
Hyperoxaluria; sideroplastic anaemia; vitamin B6 deficiency.

Besobrial *Merck, S.Afr.*
Acamprosate calcium (p.958·3).
Chronic alcoholism.

Besone *Atlantic, Malaysia; Atlantic, Singapore; Atlantic, Thai.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Besone-N *Atlantic, Malaysia; Atlantic, Singapore; Atlantic, Thai.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Bespar *BMS, Ger.; Hormosan, Ger.; Vianex (Βιανεξ), Gr.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Bessasone *Pharmaland, Thai.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Best *Konsuma, Venez.*
dl-Alpha tocoferil acetate (p.1992·3).
Antoxidant.

Best Balm *Minorock Mandiri, Indon.*
Camphor (p.2273·2); peppermint oil (p.1761·2).
Insect bites; muscle pain.

Bestafen *Best, Mex.*
Ibuprofen (p.64·2).
Inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Bestalen *Phoinix Pharm (Φοινιξ Φαρμ), Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Bestalin *Lapi, Indon.*
Hydroxyzine hydrochloride (p.581·2).
Anxiety; pruritus.

Bestatin
Note.This name is used for preparations of different composition.
Kayaku, Cz.†; Kayaku, Jpn.
Ubenimex (p.784·1).
Restoration of immune function following chemotherapy.

Berlin Pharm, Thai.
Simvastatin (p.1390·2).
Hypercholesterolaemia.

BestBreast *Milte, Ital.*
Vitamin and mineral preparation (p.1922·1).

Bestcall *Takeda, Jpn.*
Cefmenoxime hydrochloride (p.225·2).
Mepivacaine hydrochloride (p.1866·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Bestcilina-A *Best, Mex.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Bestelar *Best, Mex.*
Mebendazole (p.148·3).
Worm infections.

Bester Complex *Salvat, Spain.*
Thiamine hydrochloride (p.1976·1); hydroxocobalamin acetate (p.1980·3); pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

Bestocin *Best, Mex.*
Erythromycin estolate (p.269·3).
Bacterial infections.

Bestocol *Tanabe, Indon.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3); guaifenesin (p.1561·3).
Cold and influenza symptoms.

Beston *Tanabe, Indon.*
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Bestozyme
Note.This name is used for preparations of different composition.
Biological E, India.
Capsules: Amylase (p.2256·3); papain (p.2362·3) simeticone (p.1770·2).
Dyspepsia.

Biological E, India.
Paediatric Syrup: Amylase (p.2256·3); papain (p.2362·3); anise oil (p.2258·2); caraway oil (p.2277·1); cinnamon oil (p.2283·2); dill oil (p.2293·3).
Dyspepsia.

Biological E, India.
Syrup: Amylase (p.2256·3); papain (p.2362·3).
Dyspepsia.

Bestpirin *Polfa Kutno, Pol.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Bestrol *Cetus, Arg.*
Alprazolam (p.960·1).
Anxiety; depression.

Bestron *Senju, Jpn.*
Cefmenoxime hydrochloride (p.225·2).
Bacterial eye infections.

Bestum *Wockhardt, Rus.*
Ceftazidime (p.234·1).
Bacterial infections.

Be-Supra *Irex, Port.†.*
Vitamin B substances and vitamin C (p.1922·1).

Beta
Note.This name is used for preparations of different composition.
Lichtenstein, Cz.†; Pacific, NZ; Jean-Marie, Philipp.; Chew, Thai.
⊗ Betamethasone valerate (p.1519·1).
Skin and scalp disorders.

Stadmed, India.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

CCM, Malaysia.
⊗ Betamethasone sodium phosphate (p.1518·3).
Inflammatory eye and ear disorders.

Beta 21 *IDI, Ital.*
⊗ Betamethasone valero-acetate (p.1519·1).
Skin disorders.

Beta A-C
Note.This name is used for preparations of different composition.
Eagle, Austral.
Oral powder: Ascorbic acid (p.1983·3); sodium ascorbate (p.1984·1); calcium ascorbate (p.1984·1); *dl*-alpha tocoferil acetate (p.1992·3); rutoside (p.2305·1); zinc amino acid chelate (p.2000·1); betacarotene (p.1930·3).
Vitamin supplement.

Eagle, Austral.
Tablets: Ascorbic acid (p.1983·3); sodium ascorbate (p.1984·1); calcium ascorbate (p.1984·1); *dl*-alpha tocoferil acetate (p.1992·3); rutoside (p.2305·1); zinc amino acid chelate (p.2000·1); betacarotene (p.1930·3); bioflavonoids (p.2304·1).
Vitamin supplement.

Beta Adenil *Adesil, Arg.†.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Beta Alcanforado *Betamadrileno, Spain.*
⊗ Camphor (p.2273·2); alcohol (p.1625·2).
Musculoskeletal, joint, and soft-tissue pain.

Beta C E with Selenium *Stanley, Canad.†.*
Betacarotene, selenium, vitamin C, and vitamin E (p.1922·1).

Beta Long *Uniao Quimica, Braz.*
⊗ Betamethasone acetate (p.1518·2); betamethasone sodium phosphate (p.1518·3).
Skin disorders.

Beta Micoter *Leo, Spain.*
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1).
Fungal skin infections.

Beta Nicardia *Unique, India†; Unique, Singapore.*
⊗ Atenolol (p.1217·3); nifedipine (p.1350·1).
Angina pectoris; hypertension.

Beta Nicip *Cipla, India.*
Nimesulide betadex (p.95·3).

Beta Opthiole *Kite (Κιτε), Gr.*
⊗ Metipranolol hydrochloride (p.1883·2); benzalkonium chloride (p.1629·1).
Formerly known as Beta-Ophtiole.
Glaucoma.

Beta plus Vitamins C, E & Selenium *Quest, Canad.†.*
Betacarotene, selenium, vitamin C, and vitamin E (p.1922·1).

Beta Romero *Betamadrileno, Spain.*
⊗ Alcohol (p.1625·2); rosemary oil (p.2381·3).
Musculoskeletal pain and fatigue.

Beta-Adalat *Bayer, Austria; Bayer, Belg.†; Bayer, Irl.; Bayer, Switz.; Bayer, UK.*
⊗ Atenolol (p.1217·3); nifedipine (p.1350·1).
Angina pectoris; hypertension.

Beta-Adalate *Bayer, Fr.*
⊗ Atenolol (p.1217·3); nifedipine (p.1350·1).
Hypertension.

Betabion
Note.This name is used for preparations of different composition.
Merck, Ger.; Merck, Swed.
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Bioton, Pol.
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betabioptal
Farmitalia, Cz.†.
⊗ Betamethasone (p.1518·2); chloramphenicol (p.239·3).
Infected eye disorders.

Farmila, Ital.
⊗ Betamethasone (p.1518·2) or betamethasone sodium phosphate (p.1518·3); chloramphenicol (p.239·3).
Infected eye disorders.

Betabiot *Serral, Mex.*
Amoxicillin (p.202·2).
Bacterial infections.

Betabiotic *Benedetti, Ital.*
Flucloxacillin sodium (p.277·1).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Betabloc
Note. A similar name is used for preparations of different composition (see below).
USV, India.
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension.

Betablok
Note. A similar name is used for preparations of different composition (see above).
Hexpharm, Indon.
⊗ Atenolol (p.1217·3).
Angina pectoris; hypertension.

Be-Tabs Antacid *Be-Tabs, S.Afr.*
Magnesium trisilicate (p.1744·1); light magnesium carbonate (p.1743·1); sodium bicarbonate (p.1673·2).
Gastrointestinal disorders associated with hyperacidity.

Betac *Medochemie, Malaysia; Medochemie, Rus.; Medochemie, Singapore.*
⊗ Betaxolol hydrochloride (p.1231·2).
Angina pectoris; arrhythmias; hypertension; hypertrophic cardiomyopathy; myocardial infarction.

Beta-C *Chew, Thai.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betacade *Dermoteca, Port.†.*
Salicylic acid (p.1612·2); cade oil (p.1616·1); cedar oil (p.2278·3); liquid paraffin (p.2030·3).
Skin irritation.

Betacaine *Canderm, Canad.; Darier, Mex.*
Lidocaine (p.1862·3).
Local anaesthesia.

Betacap *Dermal Laboratories, Irl.; Dermal Laboratories, UK.*
⊗ Betamethasone valerate (p.1519·1).
Scalp disorders.

Betacar *Sanofi-Aventis, Chile.*
⊗ Atenolol (p.1217·3).
Hypertension.

Betacard *Torrent, Rus.*
⊗ Atenolol (p.1217·3).

Beta-Cardone *UCB, UK.*
⊗ Sotalol hydrochloride (p.1398·2).
Arrhythmias.

Betacarpin *Riel, Austria.*
⊗ Pilocarpine hydrochloride (p.1884·3); metipranolol hydrochloride (p.1883·2).
Glaucoma.

Betacef *Biochimico, Braz.†.*
Cefalexin (p.218·2).
Bacterial infections.

Betachek *California Scientific, Arg.; National Diagnostic, Austral.†.*
Test for glucose in blood (p.2314·1).

Betacid *Meditop, Hung.*
Pepsin (p.2365·1); betaine hydrochloride (p.2265·2).
Hypochlorhydria.

Betacin
Note.This name is used for preparations of different composition.
CCM, Malaysia.
⊗ Betamethasone sodium phosphate (p.1518·3); neomycin sulfate (p.305·1).
Infected eye and ear disorders.

Be-Tabs, S.Afr.
Indometacin (p.66·3).
Formerly known as Famethacin.
Gout; musculoskeletal and joint disorders.

Betaclar *Angelini, Ital.*
⊗ Befunolol hydrochloride (p.1878·2).
Glaucoma.

Betaclav *Ranbaxy, Braz.; Corsa, Indon.*
Amoxicillin (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Betaclomin *Be-Tabs, S.Afr.*
Dicycloverine hydrochloride (p.1722·3); dried aluminium hydroxide gel (p.1706·2); light magnesium oxide (p.1744·1).
Gastrointestinal hyperacidity.

Betaclopramide *Be-Tabs, S.Afr.*
Metoclopramide hydrochloride (p.1747·3).
Gastrointestinal motility disorders; nausea.

Betacomplesso *Medosan, Ital.*
Vitamin B substances (p.1922·1).
Tonic; vitamin B deficiency.

Betacort
Note.This name is used for preparations of different composition.
Biospray, Gr.
⊗ Betamethasone valerate (p.1519·1); fusidic acid (p.279·3).
Skin disorders.

SM, Venez.
⊗ Betamethasone (p.1518·2).
Skin disorders.

Cassara, Arg.
Cream: ⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Cassara, Arg.
Injection: ⊗ Betamethasone acetate (p.1518·2); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Cassara, Arg.
Oral drops: ⊗ Betamethasone (p.1518·2).
Corticosteroid.

Betacort Plus *Cassara, Arg.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1); miconazole nitrate (p.541·3).
Infected skin disorders.

Betacorten *Trima, Israel; Trima, Singapore; Unipharm, Singapore.*
⊗ Betamethasone valerate (p.1519·1).
Skin and scalp disorders.

Betacorten-G *Trima, Israel.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

Betacorton
Note.This name is used for preparations of different composition.
Spirig, Cz.
⊗ Halcinonide (p.1535·1).
Skin disorders.

Orva, Turk.
⊗ Halcinonide (p.1535·1); urea (p.1620·2).
Skin disorders.

Betacorton S *Spirig, Cz.*
⊗ Halcinonide (p.1535·1); salicylic acid (p.1612·2).
Skin disorders.

Betacorton U *Spirig, Cz.*
⊗ Halcinonide (p.1535·1); urea (p.1620·2).
Skin disorders.

Betacortone
Note.This name is used for preparations of different composition.
Spirig, Switz.
Cream: ⊗ Halcinonide (p.1535·1); urea (p.1620·2).
Skin disorders.

Spirig, Switz.
Topical solution: ⊗ Halcinonide (p.1535·1).
Skin disorders.

Betacortone S *Spirig, Switz.*
⊗ Halcinonide (p.1535·1); salicylic acid (p.1612·2).
Skin disorders.

Betacream
Note. A similar name is used for preparations of different composition (see below).
Epifarma, Ital.
⊗ Gentamicin sulfate (p.282·1); betamethasone valerate (p.1519·1).
Infected skin disorders.

BetaCreme
Note. A similar name is used for preparations of different composition (see above).
Winthrop, Ger.
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betaderm
Note.This name is used for preparations of different composition.
Stiefel, Braz.; Taro, Canad.; Biotech, Venez.
⊗ Betamethasone valerate (p.1519·1).
Scalp disorders; skin disorders.

Beta, Ital.
Salicylic acid (p.1612·2); aluminium acetate (p.2255·1); zinc oxide (p.1621·2).
Skin disinfection.

Betaderm con Gentamicina *Biotech, Venez.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

Betaderm N *Stiefel, Braz.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betaderma *Safire, Hong Kong.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betadermic *Galen, Ger.*
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Betadine *Faulding, Austral.; Purdue, Canad.; Egis, Cz.; Leiras, Fin.; Viatris, Fr.; Lavipharm, Gr.; Mundipharma, Hong Kong; EGIS, Hung.; Win-Medicare, India; Mahakam Beta, Indon.; Mundipharma, Indon.; SSL, Irl.; Viatris, Ital.; Mahakam Beta, Malaysia; Baxter, NZ; Viatris, Neth.; Mundipharma, Philipp.; Pascual, Philipp.; Egis, Pol.; Meda, Port.; Egis, Rus.; Adcock Ingram, S.Afr.; Mundipharma, Singapore; Gervasi, Spain; Viatris, Spain; Mundipharma, Switz.; Mundipharma, Thai.; Molnlycke, UK; Purdue Frederick, USA; Novapharm, Venez.*
Povidone-iodine (p.1659·2).
Burns; disinfection of burns, mucous membranes, skin, skin ulcers, and wounds; infections of the skin, mucous membranes, vagina, and oropharynx; lubricant in catheterisation; oral hygiene; seborrhoeic dermatitis; ulcers; wounds.

Betadine First Aid Antibiotics + Moisturizer
Purdue Frederick, USA.
Polymyxin B sulfate (p.317·3); bacitracin zinc (p.210·3).
Minor cuts and burns.

Betadine Plus First Aid Antibiotics & Pain Reliever *Purdue Frederick, USA.*
Polymyxin B sulfate (p.317·3); bacitracin zinc (p.210·3); pramocaine hydrochloride (p.1868·1).
Minor cuts and burns.

Betadine-AD *Win-Medicare, India.*
Povidone-iodine (p.1659·2).
Scalp disorders.

Beta-Dipo *TNP, Thai.†.*
⊗ Betamethasone dipropionate (p.1518·3); neomycin sulfate (p.305·1).
Skin disorders.

Betadipresan *Fides Ecopharma, Spain†.*
⊗ Hydralazine hydrochloride (p.1305·3); propranolol hydrochloride (p.1380·3).
Hypertension.

Betadipresan Diu *Fides Ecopharma, Spain†.*
⊗ Bendroflumethiazide (p.1224·1); hydralazine hydrochloride (p.1305·3); propranolol hydrochloride (p.1380·3).
Hypertension.

Betadiur *Siphar, Switz.†.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; liver failure with ascites; oedema.

Betadona *Mundipharma, Austria.*
Povidone-iodine (p.1659·2).
Infected wounds and burns.

Betadorm D *McNeil, Ger.*
Diphenhydramine hydrochloride (p.577·2).
Sleep disorders.

Betadorm-A *Woelm, Ger.†.*
Diphenhydramine hydrochloride (p.577·2); 8-chlorotheophylline.
Sleep disorders.

Betadrenol *Desma, Ger.*
⊗ Bupranolol hydrochloride (p.1238·1).
Hypertension; ischaemic heart disease; myocardial infarction.

Betadrin *Polfa Warszawa, Pol.; Polfa, Rus.*
⊗ Diphenhydramine hydrochloride (p.577·2); naphazoline nitrate (p.1565·2).
Allergic rhinitis; conjunctivitis; eye disorders.

Betaeffe Complex *Mavi, Ital.*
Carotenoids; vitamin E; vitamin C; vitis vinifera (p.1922·1).
Nutritional supplement.

Betaeffe Plus *Mavi, Ital.*
Betacarotene, vitamin E, and selenium preparation (p.1922·1).
Nutritional supplement.

Betafact *Lab Francais du Fractionnement, Fr.; Vianex (Βιανεξ), Gr.; Omrix, Israel; Lab Francais du Fractionnement, Neth.; LFB, Port.; Er-Kim, Turk.*
A factor IX preparation (p.1068·3).
Haemorrhagic disorders.

Betafed *Be-Tabs, S.Afr.*
Triprolidine hydrochloride (p.592·3); pseudoephedrine hydrochloride (p.1571·2).
Nasal congestion.

Betaferon *Schering, Arg.; Schering, Austral.; Schering, Austria; Schering, Belg.; Schering, Braz.; Schering, Chile; Schering, Cz.; Schering, Denm.; Schering, Fin.; Schering, Fr.; Schering, Ger.; Schering-Plough, Gr.; Schering, Hong Kong; Schering, Hung.; German Remedies, India; Schering, Irl.; Schering, Israel; Schering, Ital.; Bayer Schering, Malaysia; Schering, Mex.; Bayer, NZ; Schering, Neth.; Schering, Norw.; Schering, Philipp.; Schering, Pol.; Schering, Port.; Schering, Rus.; Schering, S.Afr.; Schering, Singapore; Schering, Spain; Schering, Swed.; Schering, Switz.; Schering, Thai.; Schering, Turk.; Schering, UK.*
Interferon beta-1b (p.891·2).
Multiple sclerosis.

Betafloroto *INTES, Ital.*
⊗ Betamethasone sodium phosphate (p.1518·3); tetracycline hydrochloride (p.347·2).
Ear infections; rhinitis.

Betafoam *Cipla, India.*
⊗ Betamethasone (p.1518·2).

Betafusin *Pharmex (Φαρμεξ), Gr.*
⊗ Betamethasone valerate (p.1519·1); fusidic acid (p.279·3).
Infected skin disorders.

Betagalen *Galen, Ger.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betagan *Allergan, Arg.; Allergan, Austral.; Allergan, Belg.; Allergan, Braz.; Allergan, Canad.; Allergan, Denm.; Allergan, Fr.; Allergan, Hong Kong; Allergan, Irl.; Allergan, Israel; Allergan, Malaysia†; Allergan, Mex.; Allergan, NZ; Allergan, Neth.; Allergan, Port.; Allergan, S.Afr.; Allergan, Singapore; Allergan, Spain; Allergan, Thai.; Abdi, Turk.; Allergan, UK; Allergan, USA.*
⊗ Levobunolol hydrochloride (p.1882·3).
Glaucoma; ocular hypertension.

Betagard *GNLD, Austral.*
Vitamin, mineral, and amino-acid preparation (p.1922·1).

Betagen
Note.This name is used for preparations of different composition.
Allergan, Chile.
⊗ Levobunolol hydrochloride (p.1882·3).
Glaucoma; ocular hypertension.

Generics, Hung.
Betahistine hydrochloride (p.2265·1).
Ménière's disease.

CCM, Malaysia.
⊗ Betamethasone sodium phosphate (p.1518·3); gentamicin sulfate (p.282·1).
Infected eye and ear disorders.

Biotech, Venez.
⊗ Betamethasone (p.1518·2).
Corticosteroid.

Betagen Solspen *Biotech, Venez.*
⊗ Betamethasone sodium phosphate (p.1518·3); betamethasone acetate (p.1518·2).
Corticosteroid.

Betagenot *Lekko, Rus.*
⊗ Betamethasone sodium phosphate (p.1518·3); gentamicin sulfate (p.282·1).
Infected ear and eye disorders.

Betagentam *Winzer, Ger.; Sanbe, Indon.*
⊗ Betamethasone sodium phosphate (p.1518·3); gentamicin sulfate (p.282·1).
Infected eye disorders.

Betagesic *Adcock Ingram, S.Afr.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Betaglau *Edol, Port.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betaglid *Pliva Krakow, Pol.*
Glimepiride (p.441·1).
Diabetes mellitus.

Betaglim *Panacea, India†.*
Glimepiride (p.441·1).
Diabetes mellitus.

Betaglim M *Panacea, India†.*
Glimepiride (p.441·1); metformin hydrochloride (p.453·2).
Diabetes mellitus.

Betagranulos *Medihealth, Mex.; Roemmers Medihe, Venez.*
Polyethylene granules (p.1585·3).
Acne.

Betahist *Cipla, India†.*
Betahistine hydrochloride (p.2265·1).

Betahist-B *Farmaline, Thai.*
Betahistine mesilate (p.2265·1).
Ménière's disease; vertigo.

Betahistop *Topgen, Belg.*
Betahistine hydrochloride (p.2265·1).
Ménière's disease; vertigo.

Betaimune *Pharmadass, UK.*
Vitamins A, C, and E; selenium; zinc (p.1922·1).
Antoxidant preparation.

Betaine Digestive Aid *GNLD, Austral.*
Betaine hydrochloride (p.2265·2); pepsin (p.2365·1); papain (p.2362·3); pectin (p.2145·2); natural dried beet; rhubarb (p.1768·3); liquorice (p.1740·3).
Digestive disorders.

Betaisodona *Mundipharma, Austria; Mundipharma, Ger.*
Povidone-iodine (p.1659·2).
Burns; mouth and throat infections; skin and mucous membrane disinfection; skin infections; skin ulcers; vaginal infections; wounds.

Betaject *Sandoz, Canad.*
⊗ Betamethasone sodium phosphate (p.1518·3); betamethasone acetate (p.1518·2).
Corticosteroid.

Betaklav *KRKA, Cz.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Betakon *Aroma, Turk.*
Povidone-iodine (p.1659·2).
Oral hygiene; skin disinfection.

Betaksim *Nevzat, Turk.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Betalbee *Wellhealth, Philipp.*
Vitamin B ; vitamin B ; vitamin B (p.1922·1).
Dietary supplement.

Betaleukin *Gosnii, Rus.*
Interleukin-1 (p.2325·3).
Leucopenia; secondary immunodeficiency.

Betalgon *Nizhpharm, Rus.*
Nicoboxil (p.95·1); nonivamide (p.96·2).
Musculoskeletal, joint, peri-articular and soft-tissue disorders; neuralgia.

Betalin *Be-Tabs, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Betaliver *Luper, Braz.†.*
Methionine (p.1450·1); adenosine (p.1202·1); betaine hydrochloride (p.2265·2); pyridoxine hydrochloride (p.1978·2); choline citrate (p.1934·2).
Liver disorders.

Betalmic *Unimed, Cz.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betaloc
AstraZeneca, Austral.; AstraZeneca, Canad.; AstraZeneca, India; AstraZeneca, Irl.; AstraZeneca, Malaysia; AstraZeneca, Philipp.; AstraZeneca, Thai.; AstraZeneca, UK.
⊗ Metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; migraine; myocardial infarction.

AstraZeneca, Cz.; AstraZeneca, Hong Kong; AstraZeneca, Hung.; EGIS, Hung.; AstraZeneca, NZ; AstraZeneca, Pol.; AstraZeneca, Singapore.
⊗ Metoprolol succinate (p.1338·1) or metoprolol tartrate (p.1338·1).
Angina pectoris; arrhythmias; heart failure; hypertension; hyperthyroidism; migraine; myocardial infarction.

Betaloc Comp *AstraZeneca, Hong Kong.*
⊗ Metoprolol tartrate (p.1338·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Betaloc ZOK *AstraZeneca, Rus.*
⊗ Metoprolol succinate (p.1338·1).
Angina pectoris; arrhythmias; heart failure; hypertension; migraine; myocardial infarction.

Betalol *Berlin Pharm, Thai.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; anxiety disorders; arrhythmias; hypertension; tremor.

Betalor *Biosintetica, Braz.*
⊗ Amlodipine besilate (p.1214·1); atenolol (p.1217·3).
Angina pectoris; hypertension.

Betama-EN *Samakeephaesaj, Thai.†.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betamaks *Grindex, Rus.*
Sulpiride (p.1028·3).
Delirium; depression; irritable bowel syndrome; neuroses; peptic ulcer; schizophrenia; vestibular disorders.

Betamann *Mann, Ger.; Mann, Pol.*
⊗ Metipranolol hydrochloride (p.1883·2).
Glaucoma; ocular hypertension.

Betamatic *Medichrom, Gr.†.*
⊗ Betamethasone valerate (p.1519·1).
Topical corticosteroid.

Betamed *Kwizda, Austria.*
⊗ Bupranolol hydrochloride (p.1238·1); diazepam (p.986·3).
Anxiety disorders.

Betamesol *Proge, Ital.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Betametagen *Kinder, Braz.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betametasona B12 *Roux-Ocefa, Arg.*
⊗ Betamethasone sodium phosphate (p.1518·3); hydroxocobalamin (p.1980·3).
Procaine hydrochloride (p.1869·1) is included in this preparation to alleviate the pain of injection.
Musculoskeletal and joint disorders.

Betameth *Osoth, Thai.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betamethason comp *Hexal, Ger.*
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Betamethason Plus *Heumann, Ger.†.*
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Skin disorders.

Betamethasone Clo *Pharmaniaga, Malaysia.*
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1).
Formerly known as Dermal C.
Fungal skin infections.

Betamethasone G *Pharmaniaga, Malaysia.*
⊗ Betamethasone (p.1518·2); gentamicin sulfate (p.282·1).
Formerly known as Dermal G.
Infected skin disorders.

Betamethasone N *Pharmaniaga, Malaysia.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Formerly known as Dermasole N.
Infected skin disorders.

Betamethasone SA *Pharmaniaga, Malaysia.*
⊗ Betamethasone dipropionate (p.1518·3); salicylic acid (p.1612·2).
Formerly known as Dermal SA.
Skin disorders.

Betameth-N *Osoth, Thai.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betamican *Alter, Spain.*
⊗ Salmeterol xinafoate (p.1135·1).
Obstructive airways disease.

Beta-Micoter *Leo, Port.*
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1).
Fungal skin infections.

Betamida *Alcon Cusi, Spain†.*
⊗ Betamethasone sodium phosphate (p.1518·3); sulfacetamide sodium (p.335·3).
Eye disorders.

Betamil-GM *Merck, India.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1); miconazole nitrate (p.541·3).
Infected skin disorders.

Betamil-M *Merck, India.*
⊗ Betamethasone dipropionate (p.1518·3); miconazole nitrate (p.541·3).
Infected skin disorders.

Betamin *Aventis, Austral.; Sanitas, Chile†.*
Thiamine hydrochloride (p.1976·1).
Neuralgia; neuritis; vitamin B deficiency.

Betamine *Wolfs, Belg.*
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency; Wernicke's encephalopathy.

Betamoclav *Zak, Austria.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Betam-Ophtal *Winzer, Ger.†; Sanbe, Indon.*
⊗ Betamethasone sodium phosphate (p.1518·3).
Inflammatory eye disorders.

Betamotil *Ipca, India.*
Artemotil (p.598·1).
Malaria.

Betamox
Note.This name is used for preparations of different composition.
Duopharma, Hong Kong; Be-Tabs, S.Afr.
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Cipan, Port.
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Betamycin *Be-Tabs, S.Afr.*
Erythromycin estolate (p.269·3).
Bacterial infections.

Beta-N *Chew, Thai.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betanase *Cadila, Cz.†; Cadila, Rus.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Betanicomylon *Nizhpharm, Rus.*
Nicoboxil (p.95·1); nonivamide (p.96·2).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders; neuralgia; peripheral vascular disorders.

Betanoid *Pharmacare, S.Afr.*
⊗ Betamethasone (p.1518·2) or betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betanoid N *Aspen, S.Afr.†.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betanorm *Ali, Turk.*
Gliclazide (p.440·3).
Diabetes mellitus.

Beta-Ophtiole *Riel, Austria; Tramedico, Belg.; Mann, Malaysia†; Tramedico, Neth.; Bausch & Lomb, Philipp.; Lepori, Port.; SofLens, S.Afr.; Mann, Singapore†; Bausch & Lomb, Thai.†; Mann, Thai.†.*
⊗ Metipranolol hydrochloride (p.1883·2).
Glaucoma; ocular hypertension.

Betapace *Berlex, USA.*
⊗ Sotalol hydrochloride (p.1398·2).
Arrhythmias.

Betapam *Be-Tabs, S.Afr.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety; premedication.

Betapect *Be-Tabs, S.Afr.*
Light kaolin (p.1738·1); apple pectin (p.2145·2).
Formerly known as Pectikon.
Diarrhoea.

Betapen *Be-Tabs, S.Afr.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Betaperamide *Adcock Ingram, S.Afr.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Betaphlem *Be-Tabs, S.Afr.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders with increased mucous.

Betapirox *Medihealth, Mex.; Roemmers Medihe, Venez.*
Piroctone olamine (p.1610·1).
Dandruff; seborrhoeic dermatitis.

Betaplex *Drugtech, Chile.*
⊗ Carvedilol (p.1241·3).
Heart failure; hypertension.

Betapred *Orphan, Fin.; Swedish Orphan, Swed.*
⊗ Betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betapress *Polipharm, Thai.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; arrhythmias; hypertension; tremor.

Betapressin *Wolff, Ger.*
⊗ Penbutolol sulfate (p.1366·2).
Arrhythmias; hypertension; ischaemic heart disease; myocardial infarction.

Betaprid *Tiefenbacher, Neth.*
Tiapride hydrochloride (p.1032·1).
Drug-induced extrapyramidal disorders.

Betaprofen *Be-Tabs, S.Afr.*
Ibuprofen (p.64·2).
Musculoskeletal and joint disorders.

Beta-Prograne *Tillomed, UK.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; anxiety; essential tremor; hypertension; hyperthyroidism; migraine; prophylaxis of upper gastrointestinal bleeding.

Betaprospan *Uniao Quimica, Braz.*
⊗ Betamethasone dipropionate (p.1518·3); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betapyn *Adcock Ingram, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2); doxylamine succinate (p.578·2); caffeine (p.1116·3).
Fever; pain.

Betapyr *Wolfs, Belg.*
Thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2).
Alcoholic polyneuritis; prophylaxis during isoniazid therapy; vitamin B and/or B deficiency.

Betarelix *Wolff, Ger.*
⊗ Penbutolol sulfate (p.1366·2); piretanide (p.1372·3).
Hypertension.

Betaren *Dexxon, Israel.*
Diclofenac sodium (p.44·3).
Inflammation; musculoskeletal and joint disorders; pain.

Betarene *Darya-Varia, Indon.*
Carotenoids.
Antoxidant.

Betaretic *Be-Tabs, S.Afr.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

Betarhin *Mahakam Beta, Indon.*
Cetirizine hydrochloride (p.570·3).
Rhinitis; urticaria.

Betarretin *Roemmers Medihe, Venez.*
Tretinoin (p.1618·1).
Acne.

Betaryx *Integrated Pharmaceutical, Philipp.; Swiss Pharma, Philipp.*
⊗ Metoprolol tartrate (p.1338·1).
Angina pectoris; hypertension; hyperthyroidism; migraine; tachycardia.

Beta-S *Chew, Thai.*
⊗ Betamethasone valerate (p.1519·1); salicylic acid (p.1612·2).
Skin disorders.

BetaSalbe *Winthrop, Ger.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betasalic
Andromaco, Arg.
⊗ Betamethasone (p.1518·2); salicylic acid (p.1612·2).
Skin disorders.

Cipla, India.
⊗ Betamethasone valerate (p.1519·1); salicylic acid (p.1612·2).
Skin disorders.

Betasan *Mundipharma, Austria.*
Povidone-iodine (p.1659·2).
Infected burns and wounds.

Betasel *Alcon, Arg.*
⊗ Betaxolol hydrochloride (p.1231·2).

Betaselen *Arkopharma, Fr.*
Multivitamin and mineral preparation (p.1922·1).
Tonic.

Betasemid *Wolff, Ger.*
⊗ Penbutolol sulfate (p.1366·2); furosemide (p.1292·1).
Hypertension.

Betasept *Purdue Frederick, USA.*
Chlorhexidine gluconate (p.1635·3).
Skin and wound disinfection.

Betaseptic
Note.This name is used for preparations of different composition.
Mundipharma, Austria; Viatris, Ital.
Povidone-iodine (p.1659·2).
Medicated dressing; skin disinfection.

Mundipharma, Ger.; Mundipharma, Switz.
⊗ Povidone-iodine (p.1659·2); isopropyl alcohol (p.1650·3); alcohol (p.1625·2).
Skin and hand disinfection; skin disinfection.

Betaserc *Solvay, Austria; Solvay, Belg.; Solvay, Braz.; Solvay, Cz.; Solvay, Denm.; Solvay, Fin.; Solvay, Fr.; Solvay, Gr.; Solvay, Hong Kong; Solvay, Hung.; Solvay, Indon.; Solvay, Malaysia; Solvay, Neth.; Solvay, Pol.; Solvay, Port.; Solvay, Rus.; Solvay, Singapore; Solvay, Switz.; Eczacibasi, Turk.*
Betahistine hydrochloride (p.2265·1).
Ménière's disease; nausea and vomiting; tinnitus; vertigo; vestibular disorders.

Betaseron *Berlex, Canad.; Berlex, USA.*
Interferon beta-1b (p.891·2).
Multiple sclerosis.

Betasid *Phoinix Pharm (Φοινιξ Φαρμ), Gr.*
⊗ Betamethasone valerate (p.1519·1); fusidic acid (p.279·3).
Infected skin disorders.

Betasin *Otto, Indon.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

Betasleep *Adcock Ingram, S.Afr.*
Diphenhydramine hydrochloride (p.577·2).
Insomnia.

Betaslim *GMP, Indon.*
Poliglusam (p.2370·1); garcinia cambogia (p.2309·2); levocarnitine; chromium tripicolinate; vitamin C (p.1922·1).
Weight reduction.

Betasoda *Restan, S.Afr.†.*
Citric acid (p.2284·1); sodium bicarbonate (p.1673·2).
Urinary alkalinisation.

Beta-Sol
Note. A similar name is used for preparations of different composition (see below).
Fawns & McAllan, Austral.†.
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Betasol
Note. A similar name is used for preparations of different composition (see above).
Upha, Malaysia†; Chew, Thai.
⊗ Clobetasol propionate (p.1522·2).
Skin disorders.

Herbapol Pruszkow, Pol.
Phaseolus; lappa (p.2330·3); ononis (p.2357·1); rhubarb (p.1768·3); equisetum (p.2299·3); buckwheat (p.2270·1); sambucus (p.2383·1); birch leaf (p.2266·3).
Urinary-tract inflammation.

Betason *Kimia, Indon.*
⊗ Betamethasone (p.1518·2).
Corticosteroid.

Betasone
DHA, Hong Kong; Vida, Hong Kong; DHA, Malaysia; DHA, Singapore.
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Lekko, Rus.
⊗ Betamethasone sodium phosphate (p.1518·3).
Inflammatory eye disorders; otitis externa.

Julphar, UAE.
Cream; ointment: ⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Julphar, UAE.
Tablets: ⊗ Betamethasone (p.1518·2).
Corticosteroid.

Betasone-G *Klonal, Arg.*
⊗ Betamethasone (p.1518·2), betamethasone sodium phosphate (p.1518·3), or betamethasone valerate (p.1519·1).
Corticosteroid.

Betasone-G Compuesto *Klonal, Arg.*
⊗ Betamethasone (p.1518·2); neomycin (p.305·1).
Infected skin disorders.

Betasone-G 12 Horas *Klonal, Arg.*
⊗ Betamethasone acetate (p.1518·2); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betason-N *Kimia, Indon.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Skin disorders.

Betaspan
Note.This name is used for preparations of different composition.
Delta, Braz.
⊗ Betamethasone dipropionate (p.1518·3); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

GSK, India.
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; anxiety; hypertension; hyperthyroidism; migraine; tremor.

Betaspore *Aristo, India†.*
Cefalexin (p.218·2).
Bacterial infections.

Betasporina *Atral, Port.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Beta-Stulln *Stulln, Ger.†.*
⊗ Betamethasone sodium phosphate (p.1518·3).
Inflammatory eye disorders.

Betasyn *Jacoby, Austria.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Beta-Synto *Codal Synto, Hong Kong.*
Betahistine hydrochloride (p.2265·1).
Ménière's disease.

Betatab *Pharmaniaga, Malaysia†; Raza, Malaysia†.*
⊗ Metoprolol tartrate (p.1338·1).
Angina pectoris; hypertension; hyperthyroidism.

Beta-Tablinen *Winthrop, Ger.*
⊗ Propranolol hydrochloride (p.1380·3).
Angina pectoris; anxiety; arrhythmias; essential tremor; hypertension; hyperthyroidism; migraine.

Betaton *Hovid, Malaysia†.*
Vitamin and mineral preparation with lecithin (p.1922·1).

Betaton with Ginseng *Hovid, Malaysia†.*
Multivitamin and mineral preparation with rutoside, lecithin, and ginseng (p.1922·1).

Betatop *IPRAD, Fr.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Betatopic *Andromaco, Arg.*
⊗ Betamethasone (p.1518·2).
Skin disorders.

Betatrinta *Eurofarma, Braz.*
⊗ Betamethasone dipropionate (p.1518·3); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betatul *Viatris, Spain.*
Povidone-iodine (p.1659·2).
Infected skin disorders; skin disinfection.

Beta-Turfa *Worwag, Ger.*
⊗ Propranolol hydrochloride (p.1380·3); triamterene (p.1417·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Beta-Val *Lemmon, USA.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

BetaVent *WraSer, USA.*
Pentoxyverine citrate (p.1567·3); guaifenesin (p.1561·3).
Cough.

Betavert *Hennig, Ger.*
Betahistine mesilate (p.2265·1).
Vestibular disorders.

Betavit *Cipla, India; Terramedic, Philipp.*
Multivitamin preparation (p.1922·1).

Betavite *Nicholas Piramal, India†.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B and C deficiency.

Betavix *Genepharm, Gr.*
Butamirate citrate (p.1553·1).
Cough.

Beta-Wolff *Wolff, Ger.†.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betaxa *Zentiva, Cz.*
⊗ Betaxolol hydrochloride (p.1231·2).
Angina pectoris; hypertension.

Betaxin *Abbott, Canad.†.*
Thiamine hydrochloride (p.1976·1).

Betaxina *Terapeutico, Ital.†.*
Nalidixic acid (p.303·3).
Gram-negative genito-urinary tract infections.

Betaxol *Oftalmi, Venez.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betaxon *Alcon, USA†.*
⊗ Levobetaxolol hydrochloride (p.1882·3).
Glaucoma; ocular hypertension.

Betazide *AstraZeneca, Philipp.*
⊗ Hydrochlorothiazide (p.1307·3); metoprolol tartrate (p.1338·1).
Hypertension.

Betazidim *Lapreven, Venez.*
Ceftazidime (p.234·1).
Bacterial infections.

Betazim *Sam-On, Israel.*
Betaine hydrochloride (p.2265·2); pepsin (p.2365·1).
Anorexia; diarrhoea; gastritis; gastrointestinal hypoacidity.

Betazok *AstraZeneca, Philipp.*
⊗ Metoprolol succinate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; migraine; myocardial infarction.

Betazol Cort *Delta, Braz.*
⊗ Ketoconazole (p.539·1); betamethasone dipropionate (p.1518·3); neomycin sulfate (p.305·1).
Infected skin disorders.

Betazone *APT, Hong Kong.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Beten *Svizera, India; CCM, Malaysia.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; hyperthyroidism; hypertrophic subaortic stenosis; myocardial infarction; tremor.

Betesil *IBSA, Cz.; Genevrier, Fr.; IBSA, Hung.; IBSA, Ital.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betfu *Medimar, Gr.*
⊗ Betamethasone valerate (p.1519·1); fusidic acid (p.279·3).
Infected skin disorders.

Bethacil *Bioindustria, Ital.*
Sulbactam sodium (p.335·1); ampicillin sodium (p.204·1).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Bethasone *Greater Pharma, Thai.*
⊗ Betamethasone (p.1518·2).
Skin disorders.

Bethasone-N *Greater Pharma, Thai.*
⊗ Betamethasone (p.1518·2); neomycin sulfate (p.305·1).
Infected skin disorders.

Bethiol *Nizhpharm, Rus.*
Belladonna (p.2263·3); ichthammol (p.1599·1).

Betiga *Solas, Indon.*
Aluminium chlorohydrate (p.1588·3); menthol (p.2340·1); salicylic acid (p.1612·2); triclosan (p.1665·2); zinc oxide (p.1621·2).
Hyperhidrosis.

Betim *ICN, UK.*
⊗ Timolol maleate (p.1412·3).
Angina pectoris; hypertension; migraine; myocardial infarction.

Betimol *Novartis Ophthalmics, USA.*
⊗ Timolol (p.1413·1).
Glaucoma; ocular hypertension.

Betiral *Roche, Gr.†.*
Ornidazole (p.843·1).
Anaerobic bacterial infections; protozoal infections.

Betistine *Rafa, Israel.*
Betahistine hydrochloride (p.2265·1).
Vestibular disorders.

Betitotal *Adcock Ingram, S.Afr.*
Multivitamin and mineral preparation (p.1922·1).

Betlife *Grunenthal, Port.*
Ticlopidine hydrochloride (p.1411·2).
Thromboembolism prophylaxis.

Betnasol *Defiante, Port.*
⊗ Betamethasone (p.1518·2).
Corticosteroid.

Betnecip *Cipla, India.*
⊗ Betamethasone (p.1518·2).
Corticosteroid.

Betnecort *Cipla, India.*
⊗ Betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betnederm *Cipla, India.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnederm C *Cipla, India.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betnederm GM *Cipla, India.*
⊗ Betamethasone valerate (p.1519·1); gentamicin (p.284·2); miconazole nitrate (p.541·3).
Infected skin disorders.

Betnederm N *Cipla, India.*
⊗ Betamethasone valerate (p.1519·1); neomycin (p.305·1).
Infected skin disorders.

Betnelan
Farmoquimica, Braz.; GSK, India; UCB, Irl.; GSK, Philipp.; UCB, UK.
⊗ Betamethasone (p.1518·2).
Corticosteroid.

GSK, Neth.
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnelan-V *GSK, Belg.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnelan-VC *GSK, Belg.†.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betnesalic *GSK, Fr.†; GSK, Hong Kong†; Alloga, Switz.; GSK, Thai.†.*
⊗ Betamethasone valerate (p.1519·1); salicylic acid (p.1612·2).
Skin disorders.

Betnesalic mono *Meda, Ger.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnesol
GSK, Austria; Shire, Canad.; Sigma-Tau, Fr.; GSK, India; UCB, Irl.; Devries, Israel; GSK, Malaysia†; GSK, NZ; Defiante, Neth.; Pharmacare, S.Afr.; Sigma-Tau, Switz.; UCB, UK.
⊗ Betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

IFET (ΙΦΕΤ), Gr.
⊗ Betamethasone (p.1518·2).
Inflammatory bowel disease.

Sigma-Tau, Ger.
⊗ Betamethasone sodium phosphate (p.1518·3).
Ulcerative colitis.

Betnesol Aqueous *GSK, NZ.*
⊗ Betamethasone sodium phosphate (p.1518·3); naphazoline nitrate (p.1565·2).
Nasal congestion and inflammation.

Betnesol-N *GSK, Austria; GSK, India; UCB, Irl.; Devries, Israel; GSK, Malaysia†; Pharmacare, S.Afr.; UCB, UK.*
⊗ Betamethasone sodium phosphate (p.1518·3); neomycin sulfate (p.305·1).
Infected inflammatory eye, ear or nose disorders.

Betnesol-N Nasal *GSK, India.*
⊗ Betamethasone sodium phosphate (p.1518·3); naphazoline nitrate (p.1565·2); neomycin sulfate (p.305·1).
Nasal disorders.

Betnesol-V *GSK, Ger.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betneton *GSK, Philipp.*
⊗ Betamethasone (p.1518·2); chlorphenamine maleate (p.571·3).
Hypersensitivity reactions.

Betneval *GSK, Fr.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betneval-Neomycine *GSK, Fr.†.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betnolon *Cifarma, Braz.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnor *Indoco, India.*
⊗ Betamethasone sodium phosphate (p.1518·3); neomycin sulfate (p.305·1).
Inflammatory eye and ear disorders.

Betnosone *Hoe, Malaysia.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnosone N *Hoe, Malaysia.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betnovat *GSK, Denm.; GSK, Fin.; GSK, Norw.; GSK, Swed.*
⊗ Betamethasone valerate (p.1519·1).
Otitis externa; skin and scalp disorders.

Betnovat Comp *Meda, Fin.†.*
⊗ Betamethasone valerate (p.1519·1); phenylephrine hydrochloride (p.1568·1); lidocaine hydrochloride (p.1862·3).
Anorectal disorders.

Betnovat med Chinoform *GSK, Denm.; GSK, Norw.; GSK, Swed.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betnovat med Neomycin *GSK, Swed.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betnovat Rektal *Meda, Denm.†.*
⊗ Betamethasone valerate (p.1519·1); lidocaine hydrochloride (p.1862·3); phenylephrine hydrochloride (p.1568·1).
Anorectal disorders.

Betnovat-C *GSK, Fin.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betnovate *GSK, Arg.; Sigma, Austral.; GSK, Austria; GSK, Braz.; GSK, Chile†; GSK, Cz.; GSK, Gr.; GSK, Hong Kong; GSK, India; GSK, Indon.; GSK, Irl.; GSK, Israel; GSK, Malaysia; GSK, Mex.; GSK, NZ; GSK, Philipp.; GSK, Port.; GSK, S.Afr.; GSK, Singapore; UCB, Spain; GSK, Switz.; GSK, Thai.; GSK, Turk.; GSK, UK; GSK, Venez.*
⊗ Betamethasone valerate (p.1519·1).
Skin and scalp disorders.

Betnovate Antihemorroidal *GSK, Arg.†.*
⊗ Betamethasone valerate (p.1519·1); phenylephrine hydrochloride (p.1568·1); lidocaine hydrochloride (p.1862·3).
Anorectal disorders.

Betnovate Capilar *GSK, Arg.*
⊗ Betamethasone valerate (p.1519·1).
Scalp disorders.

Betnovate RD (Ready Diluted) *GSK, UK.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betnovate-C *GSK, Arg.; GSK, Austria; GSK, Gr.; GSK, Hong Kong†; GSK, India; GSK, Irl.; GSK, Israel; GSK, NZ; GSK, Philipp.; GSK, Pol.; GSK, Port.; GSK, S.Afr.; GSK, Switz.; GSK, Thai.; GSK, Turk.; Chemidex, UK.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betnovate-GM *GSK, India.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1); miconazole nitrate (p.541·3).
Infected skin disorders.

Betnovate-M *GSK, India.*
⊗ Betamethasone valerate (p.1519·1); miconazole nitrate (p.541·3).
Infected skin disorders.

Betnovate-N *GSK, Arg.; GSK, Austria; GSK, Braz.; GSK, Chile†; GSK, Gr.; GSK, Hong Kong; GSK, India; GSK, Indon.; GSK, Irl.; GSK, Israel; GSK, Malaysia; GSK, Philipp.; GSK, Pol.; GSK, Port.; GSK, S.Afr.; GSK, Switz.; GSK, Thai.; Chemidex, UK.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Betnovate-Q *GSK, Braz.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Betnovate-S *GSK, India.*
⊗ Betamethasone valerate (p.1519·1); salicylic acid (p.1612·2).
Skin disorders.

Beto *1A, Pol.*
⊗ Metoprolol succinate (p.1338·1).
Angina pectoris; arrhythmias; hypertension; migraine; myocardial infarction.

Betodermin *Mugi, Indon.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betolvex
Alpharma, Denm.; Alpharma, Fin.
Cyanocobalamin (p.1980·2) or cyanocobalamin tannate (p.1981·3).
Megaloblastic anaemia; vitamin B deficiency.

Alpharma, Norw.; Team Medica, Switz.
Cyanocobalamin tannate (p.1981·3).
Megaloblastic anaemia; vitamin B deficiency.

Alpharma, Swed.
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

Betolvidon *Abigo, Swed.*
Cyanocobalamin (p.1980·2).
Vitamin B deficiency.

Betonin *Knoll, India.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Betonvit *Recalcine, Chile†.*
Thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2); procaine hydrochloride (p.1869·1).
Neuralgia; neuritis; neuropathy; tonic.

Betopic *Armoxindo, Indon.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betoptic *Alcon, Austral.; Alcon, Austria; Alcon, Belg.; Alcon, Braz.; Alcon, Canad.; Alcon, Chile; Alcon, Cz.; Alcon, Denm.; Alcon, Fin.; Alcon, Fr.; Alcon, Gr.; Alcon, Hong Kong; Alcon, Hung.; Alcon, Irl.; Alcon, Israel; Alcon, Ital.; Alcon, Malaysia; Alcon, Mex.; Alcon, NZ; Alcon, Neth.; Alcon, Norw.; Alcon, Philipp.; Alcon, Pol.; Alcon, Port.; Alcon, Rus.; Alcon, S.Afr.; Alcon, Singapore; Alcon Cusi, Spain; Alcon, Swed.; Alcon, Switz.; Alcon, Thai.; Alcon, Turk.; Alcon, UK; Alcon, USA; Alcon, Venez.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betoptima *Alcon, Ger.; Alcon, Indon.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betoquin *Ioquin, Austral.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

Betosalic *TO-Chemicals, Thai.*
⊗ Betamethasone valerate (p.1519·1); salicylic acid (p.1612·2).
Skin disorders.

Betosone *TO-Chemicals, Thai.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betosone-CE *TO-Chemicals, Thai.*
⊗ Betamethasone valerate (p.1519·1); clioquinol (p.254·1).
Infected skin disorders.

Be-Total *Carlo Erba OTC, Ital.; Pfizer Consumer, Ital.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Betozone
Note. This name is used for preparations of different composition.
De Mayo, Braz.
Capsules: Ferrous fumarate (p.1938·3); folic acid (p.1940·1); ascorbic acid; vitamin B substances (p.1922·1).
Anaemias.

De Mayo, Braz.
Oral liquid: Ferrous sulfate (p.1939·3); vitamin B substances; lysine hydrochloride (p.1922·1).
Anaemias.

Betrat B *Ativus, Braz.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betres AP *Offenbach, Mex.*
Vitamin B substances (p.1922·1).

Betrigen *IQFA, Mex.*
⊗ Betamethasone (p.1518·2); clotrimazole (p.530·1); gentamicin (p.284·2).
Infected skin disorders.

Betrilol *Boehringer Ingelheim, Jpn†.*
⊗ Bunitrolol hydrochloride.

Betrimine *Help, Gr.*
Vitamin B ; vitamin B ; vitamin B (p.1922·1).

Betrion *Otto, Indon.*
Thiamine disulfide (p.1976·3); pyridoxine hydrochloride (p.1978·2); vitamin B (p.1980·2).
Neuralgia; neuritis; rheumatism; vitamin B deficiency.

Betron R *Italfarmaco, Ital.†.*
Interferon beta (human, recombinant) (p.891·2).
Malignant neoplasms; viral infections.

Betrospam *Legrand, Braz.*
⊗ Betamethasone dipropionate (p.1518·3); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Betrox *Serral, Mex.*
Hydroxocobalamin acetate (p.1980·3); thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2).
Metabolic disorders; neuralgias; neuropathies; vitamin B deficiency.

Betsol Z *Zafiro, Mex.*
Sodium bicarbonate (p.1673·2).
Metabolic acidosis.

Betsona *Neo Quimica, Braz.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Betsuril *Almirall, Spain†.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Bettamousse *Celltech, Denm.; Berren, Fin.; Celltech, Irl.; UCB, Irl.; Evans Medical, Israel; Mipharm, Ital.; Vitaflo, Norw.; UCB, Spain; Vitaflo, Swed.; UCB, UK.*
⊗ Betamethasone valerate (p.1519·1).
Scalp disorders; skin disorders.

Better Cholesterol *Young Again Products, USA.*
Sitosterol (p.1373·2); beta-glucan (p.2333·1); soya isoflavones (p.2391·2).

Better Prostate *Young Again Products, USA†.*
Sitosterol (p.1373·2); zinc citrate (p.1999·2).
Dietary supplement.

Betuline *Ferndale, USA.*
Methyl salicylate (p.85·3); camphor (p.2273·2); menthol (p.2340·1).
Muscle, joint, and soft-tissue pain; neuralgia.

Betulla (Specie Composta) *Dynacren, Ital.†.*
Birch leaf (p.2266·3); couch-grass (p.2288·2).
Herbal tea; water retention.

Beurises *Be-Tabs, S.Afr.*
⊗ Furosemide (p.1292·1).
Hypertension; oedema.

Bevalex *Molex Ayus, Indon.*
⊗ Betamethasone valerate (p.1519·1); neomycin sulfate (p.305·1).
Infected skin disorders.

Bevi Dam *Vincenti, Venez.*
Benzydamine hydrochloride (p.27·3).
Inflammation.

Bevigen *Aksu, Turk.*
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Bevindazol *Vincenti, Venez.*
Albendazole (p.139·2).
Worm infections.

Beviplex *Meuse, Belg.†; ICN, Cz.†.*
Vitamin B substances (p.1922·1).
Neuritis; vitamin B deficiency.

Beviplex forte *Abigo, Swed.*
Vitamin B substances (p.1922·1).
Alcoholism; neuropathies; vitamin B deficiency.

Bevispas *Pharmacare, S.Afr.*
Mebeverine hydrochloride (p.1744·2).
Irritable bowel syndrome.

Bevit Forte *Hexal, Ger.*
Thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2).
Nervous system disorders.

Bevitab *Kocak, Turk.*
Thiamine (p.1976·3); pyridoxine (p.1979·1).
Vitamin B deficiency.

Bevitamel *Westlake, USA.*
Melatonin (p.2338·3); vitamin B (p.1980·2); folic acid (p.1940·1).
Aid in homocysteine metabolism; sleep disorders.

Bevitece *Azevedos, Port.*
Vitamin B substances; vitamin C (p.1922·1).

Bevitex
Note. This name is used for preparations of different composition.
Prater, Chile.
Pargeverine hydrochloride (p.1761·1).
Aid in endoscopy or colonoscopy; nausea and vomiting; smooth muscle spasm.

Manon, Israel.
Vitamin B (p.1980·2).
Vitamin supplement.

Bevitin *Abbott, Ital.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Bevitin-C *Abfar, Turk.*
Vitamin B substances; vitamin C (p.1922·1).

Bevitine *DB, Fr.*
Thiamine hydrochloride (p.1976·1).
Beri beri; neuritis; vitamin B deficiency.

Bevitol
Note. This name is used for preparations of different composition.
Lannacher, Austria.
Thiamine hydrochloride (p.1976·1).
Vitamin B deficiency.

Munir, Turk.
Thiamine (p.1976·3); pyridoxine (p.1979·1).
Vitamin B deficiency.

Bevitotal comp *Recip, Swed.*
Vitamin B substances with vitamin C (p.1922·1).
Alcoholism; neuropathies; vitamin B and C deficiency.

Bevonazole *Bevo, Gr.*
Itraconazole (p.536·3).
Fungal infections.

Bevoren *Almirall, Belg.*
Glibenclamide (p.440·1).
Diabetes mellitus.

Bevostatin *Bevo, Gr.*
Simvastatin (p.1390·2).
Hyperlipidaemias.

Bex *Roche Consumer, Austral.†.*
Aspirin (p.20·3).
Fever; pain.

Bexacal *Sandoz, Mex.*
Calcium carbonate (p.1714·1).
Calcium deficiency.

Bexalcor *Sandoz, Mex.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bexatus *Bexal, Spain.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bexce *Tempo Scan Pacific, Indon.*
Vitamin B substances; ascorbic acid (p.1922·1).
Nutritional supplement.

Bexce Plus *Tempo Scan Pacific, Indon.*
Vitamin preparation (p.1922·1).
Nutritional supplement.

Bexicortil *Isdin, Spain.*
⊗ Fluorometholone (p.1532·3); miconazole nitrate (p.541·3); neomycin sulfate (p.305·1).
Infected skin disorders.

Bexid *ACO Hud, Swed.†.*
Benzoyl peroxide (p.1590·2).
Acne.

Bexident
Note. This name is used for preparations of different composition.
Isdin, Port.
Dental gel; dental spray; mouthwash: Chlorhexidine (p.1635·2).
Gingivitis.

Isdin, Port.
Paediatric dental gel: Dipotassium glycyrrhizate (p.2316·2); dexpanthenol (p.2362·1).
Gum protection.

Isdin, Port.
Toothpaste: Triclosan (p.1665·2); sodium fluoride (p.1962·2).
Gingivitis.

Bexident Pediatrics *Rhein, Mex.†.*
Dipotassium glycyrrhizate (p.2316·2); dexpanthenol (p.2362·1).
Gum care.

Bexidermil *Isdin, Spain.*
Trolamine salicylate (p.132·3).
Peri-articular disorders; soft-tissue disorders.

Bexilon *Plusandex, Venez.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bexine
Note. This name is used for preparations of different composition.
Collins, Mex.
⊗ Dexamethasone (p.1526·1); phenylephrine (p.1568·1); neomycin (p.305·1).
Formerly contained dexamethasone.

Spirig, Switz.
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bexinor *Beacons, Singapore.*
Norfloxacin (p.309·2).
Bacterial infections.

Bexistar *Barcino, Spain.*
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Bexon
Note. This name is used for preparations of different composition.
Gobbi, Arg.
Pessaries: ⊗ Metronidazole (p.837·1); nystatin (p.543·2); hydrocortisone (p.1535·2).
Vaginal infections.

Gobbi, Arg.
Tablets: Metronidazole (p.837·1).
Anaerobic bacterial infections; protozoal infections.

Bextra
Note. This name is used for preparations of different composition.
Pfizer, Belg.†; Pfizer, Braz.†; Pfizer, Canad.†; Pharmacia, Chile†; Pfizer, Cz.†; Pfizer, Fin.†; Pfizer, Fr.†; Pfizer, Ger.†; Pharmacia, Ger.†; Pfizer, Gr.†; Pharmacia, Hong Kong†; Pfizer, Indon.†; Pfizer, Irl.†; Pfizer, Malaysia†; Pfizer, NZ†; Pfizer, Norw.†; Pfizer, Port.†; Pharmacia, S.Afr.†; Pfizer, Singapore†; Pfizer, Swed.†; Pfizer, Thai.†; Pfizer, UK†; Pfizer, USA†; Pharmacia, USA†; Pharmacia, Venez.†.
Valdecoxib (p.132·3).
Dysmenorrhoea; osteoarthritis; pain; rheumatoid arthritis.

Pfizer, Switz.†.
Injection: Parecoxib sodium (p.111·3).
Postoperative pain.

Pfizer, Switz.†.
Tablets: Valdecoxib (p.132·3).
Osteoarthritis; pain; rheumatoid arthritis.

Bexxar *Corixa, USA; GSK, USA.*
Iodine-131 tositumomab (p.2054·3) (see also Tositumomab (p.781·2)).
Non-Hodgkin's lymphoma.

Beysonit *Leovan, Gr.*
⊗ Budesonide (p.1520·1).
Skin disorders.

Beytina *Linker, Gr.*
Dihydroergocristine (p.364·2).
Peripheral vascular disorders.

Beza *ABZ, Ger.; Otsira, India†.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezabeta *Betapharm, Ger.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezacur *Investi, Arg.; Pharma & Co, Austria; Hexal, Ger.†.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezadoc *Docpharm, Ger.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezafisal *Cryopharma, Mex.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezagamma *Worwag, Ger.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezagen *Generics, UK.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezalex *Pharmacos Abug, Mex.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezalip *Roche, Arg.; Roche, Austria; Roche, Canad.; Roche, Fin.; Roche, Gr.; Roche, Hong Kong; Roche, Hung.; Nicholas Piramal, India; Roche, Israel; Roche, Ital.; Chugai, Jpn; Roche, Malaysia; Roche, Mex.; Roche, NZ; Roche, Neth.; Roche, Port.; Roche, S.Afr.; Roche, Singapore; Roche, Swed.; Roche, Thai.; Roche, UK; Roche, Venez.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezalip Mono *Roche, UK.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezamerck *Merck dura, Ger.†.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezamidin *Pliva Krakow, Pol.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezamil *Milano, Thai.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezanin *Farmanic, Gr.*
Azithromycin (p.207·1).
Bacterial infections.

Bezapham *Phamos, Ger.†.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Beza-Puren *Alpharma-Isis, Ger.†.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezaretard *Genericon, Austria.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezastad *Stada, Austria; Stada, Philipp.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

Bezpa *Wockhardt, Rus.*
Drotaverine hydrochloride (p.2298·1).

B-Feron *Greater Pharma, Thai.†.*
Multivitamin and mineral preparation (p.1922·1).

BFI *Numark, USA.*
Bismuth-formic-iodide (p.1712·1); zinc phenolsulfonate (p.1621·3); alum (p.2254·1); bismuth subgallate (p.1711·1); boric acid (p.2268·1); menthol (p.2340·1); cineole (p.2282·3); thymol (p.1664·3).
Antiseptic.

B-G Prot *Merind, India.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

BGB Norflox *Pond's, Thai.†.*
Norfloxacin (p.309·2).
Bacterial infections.

B-Gel *Vida, Hong Kong.*
Lidocaine hydrochloride (p.1862·3); cetrimide (p.1634·1).
Oral lesions.

Bgramin *Douglas, Austral.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

B-Gurup *Sanli, Turk.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Bi Moxal *Elea, Arg.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bi Moxal Duo *Elea, Arg.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bi Predonium *Servier, Port.*
⊗ Perindopril erbumine (p.1368·3); indapamide (p.1314·1).
Hypertension.

Bi Preterax *Servier, Belg.; Servier, Port.*
⊗ Perindopril erbumine (p.1368·3); indapamide (p.1314·1).
Hypertension.

Biactol Liquid *Crookes Healthcare, UK.*
Phenoxypropanol (p.1657·2).
Acne.

Biaferone *Kedrion, Ital.*
Interferon alfa (p.885·1).
Anogenital warts; hepatitis; malignant neoplasms.

Biafine
Note.This name is used for preparations of different composition.
Craveri, Arg.; D & M, Chile; Medix, Fr.; Medix, Hong Kong; Medix, Israel; Medix, Malaysia†; Medix, Singapore†; Interdelta, Switz.; Ortho Neutrogena, USA; Medifarm, Venez.
Trolamine (p.2405·1).
Burns; erythema; scars; sunburn; ulcers; wounds.

Medix, Pol.†.
Paraffin; avocado oil.
Burns; ulcers.

Upsifarma, Port.
Sodium alginate (p.2141·1).
Formerly contained trolamine.
Burns; wounds.

Bi-Aglut *Plada, Ital.; Novartis Consumer, UK.*
A range of gluten-free and lactose-reduced foods (p.1922·1).
Gluten and lactose intolerance; gluten intolerance.

Bialcol *Novartis, Chile; Novartis Consumer, Ital.*
Benzoxonium chloride (p.1631·2).
Disinfection of instruments, skin, surfaces, and wounds.

Bialerge *Elofar, Braz.*
Phenylephrine hydrochloride (p.1568·1); brompheniramine maleate (p.569·2).
Nasal congestion.

Bialminal *Bial, Port.*
Phenobarbital (p.492·2).
Alcohol withdrawal syndrome; epilepsy; sedative.

Bialzepam *Medibial, Port.*
Diazepam (p.986·3).
Alcohol withdrawal syndrome; anxiety; epilepsy; insomnia; premedication; skeletal muscle spasm.

Biamotil *Allergan, Braz.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial eye and ear infections.

Biamotil-D *Allergan, Braz.*
⊗ Ciprofloxacin hydrochloride (p.243·3); dexamethasone (p.1526·1).
Infected eye disorders.

Bianco Val *Edmond Pharma, Ital.†.*
Valerian (p.2410·1); crataegus (p.2289·1).
Hyperexcitability; insomnia.

Biarison *ICN, Hung.†; Novartis, Turk.*
Proquazone (p.119·3).
Gout; inflammation; musculoskeletal and joint disorders; musculoskeletal, joint, and peri-articular disorders.

Biartac *MSD, Belg.†.*
Diflunisal (p.47·2).
Arthrosis; polyarthritis.

Biascor *Biol, Arg.*
⊗ Labetalol hydrochloride (p.1321·1).
Hypertension.

Biasquin F *Best, Mex.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Upper respiratory-tract disorders.

Biasten *Pulmomed, Rus.*
⊗ Salbutamol hemisuccinate (p.1133·2); budesonide (p.1520·1).
Obstructive airways disease.

Biatain
Note.This name is used for preparations of different composition.
Coloplast, Fr.
Carmellose sodium (p.2142·1).
Ulcers; wounds.

Coloplast, Ger.
Polyurethane foam.
Ulcers; wounds.

Biatain Argent *Coloplast, Fr.*
Silver (p.2387·1); carmellose sodium (p.2142·1).
Burns; ulcers; wounds.

Biatain-Ibu *Coloplast, UK.*
Ibuprofen (p.64·2).
Pain in chronic wounds.

Biatos *Cimed, Braz.*
Ketotifen (p.582·2).
Asthma.

Biatron *Pharos, Indon.*
Metronidazole (p.837·1).
Amoebiasis; anaerobic bacterial infections; giardiasis; trichomoniasis.

Biavax II *MSD, USA.*
A rubella and mumps vaccine (Wistar RA 27/3 and Jeryl Lynn (B level) strains respectively) (p.2237·2).
Active immunisation.

Biaven *Biagini, Cz.†; Kedrion, Ital.*
A normal immunoglobulin (p.2225·3).
Hypogammaglobulinaemia; idiopathic thrombocytopenic purpura; immunodeficiency.

Biaxin *Abbott, Canad.; Abbott, Ger.; Abbott, USA.*
Clarithromycin (p.248·2).
Bacterial infections; Helicobacter pylori infections.

Biaxsig *Aventis, Austral.*
Roxithromycin (p.331·1).
Bacterial infections.

BiaZinc *Medix, Fr.†.*
Zinc oxide (p.1621·2); copper pidolate (p.1614·1); vitamin E (p.1992·2).
Barrier preparation; dry skin.

Biberon *Martin, Spain; Pharmacia, Spain.*
Glucose (p.1945·3).
Fluid disorders; parenteral nutrition.

Bibien *BJ, Gr.*
Citalopram (p.385·3).
Depression.

Bibivit Light *Lampugnani, Ital.*
Multivitamin and carbohydrate preparation with fruit and plant extracts (p.1922·1).
Nutritional supplement.

Bibix *Lemery, Mex.*
Ketoprofen (p.73·1).
Inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Bibol Leloup *Hexa, Arg.*
Silymarin (p.1452·2); dehydrocholic acid (p.2292·2); pancreatin (p.2360·1); bile salts (p.2266·2); homatropine methylbromide (p.1881·3).
Liver disorders.

Bibora *Berko, Turk.*
Borax (p.2268·1).

Bica *Finadiet, Arg.†.*
Calcium carbonate (p.1714·1).
Antacid.

Bicaflac *Edwards, Austria; Braun, Denm.†; Edwards, Spain.*
A range of haemofiltration solutions (p.1670·3).
Haemofiltration.

Bicain *Orion, Fin.*
Bupivacaine hydrochloride (p.1854·3).
Local anaesthesia.

Bicaluplex *Ingers, Cz.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bicalut *Alvia (Αλβια), Gr.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bicam *Biolab, Thai.†.*
Piroxicam (p.117·3).
Musculoskeletal and joint disorders.

Bicamide *Genepharm, Gr.*
Bicalutamide (p.686·2).
Prostatic cancer.

bicaNorm *Fresenius Medical, Ger.*
Sodium bicarbonate (p.1673·2).
Metabolic acidosis.

bicaNova *Fresenius Medical, Cz.*
Sodium chloride; calcium chloride; magnesium chloride; sodium bicarbonate; glucose (p.1670·3).
A range of peritoneal dialysis solutions.

Bicaprost *Pharmacia, Arg.†.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bicarnat *Pisa, Mex.*
Sodium bicarbonate (p.1673·2).
Electrolyte disorders.

Bicatlon *Medico Uno, Hung.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bicavera *Fresenius Medical, Cz.; Fresenius Medical, Fin.; Fresenius Medical, Neth.; Fresenius Medical, Port.; Fresenius Medical, Swed.; Fresenius Medical, Switz.*
Sodium chloride; calcium chloride; magnesium chloride; sodium bicarbonate; glucose (p.1670·3).
A range of peritoneal dialysis solutions.

Bicavera Glucosa *Fresenius Medical, Spain.*
Sodium chloride; calcium chloride; magnesium chloride; glucose (p.1670·3).
Peritoneal dialysis.

Bicavera Glucose *Fresenius Medical, Denm.*
Glucose; calcium chloride; magnesium chloride; sodium chloride; sodium bicarbonate (p.1670·3).
Peritoneal dialysis.

Bicavine *Cazi, Braz.*
Dipyrone (p.49·2); thiamine (p.1976·3); pyridoxine (p.1979·1); cyanocobalamin (p.1980·2).
Neuritis; pain.

Bicetil *Menarini, Spain.*
⊗ Quinapril hydrochloride (p.1382·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Bicholate *Sabex, Canad.*
Bile salts (p.2266·2); cascara (p.1715·2); aloin (p.1705·3); bisacodyl (p.1710·1).
Constipation.

Bicidal Plus *Kee, India.*
Amoxicillin trihydrate (p.202·2); cloxacillin sodium (p.256·1); *Lactobacillus sporogenes* (p.2372·3).
Bacterial infections.

Bicide *Fischer, Israel.*
Lindane (p.2045·3).
Scabies.

Bicillin-1 *Sintez, Rus.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Bicillin-3 *Sintez, Rus.*
Benzathine benzylpenicillin (p.212·1); benzylpenicillin sodium (p.213·1) or benzylpenicillin potassium (p.213·1); procaine benzylpenicillin (p.319·2).
Bacterial infections; leishmaniasis.

Bicillin-5 *Sintez, Rus.*
Benzathine benzylpenicillin (p.212·1); procaine benzylpenicillin (p.319·2).
Bacterial infections.

Bicillin C-R *Monarch, USA.*
Benzathine benzylpenicillin (p.212·1); procaine benzylpenicillin (p.319·2).
Bacterial infections.

Bicillin L-A *Aspen, Austral.; Healthcare Logistics, NZ; Akromed, S.Afr.; Monarch, USA.*
Benzathine benzylpenicillin (p.212·1).
Bacterial infections.

Bicirkan *Pierre Fabre, Fr.*
⊗ Butcher's broom (p.2270·3); hesperidin methyl chalcone (p.2305·2); vitamin C (p.1983·3).
Venous insufficiency.

Biciron *Alcon, Ger.*
⊗ Tramazoline hydrochloride (p.1574·3).
Eye disorders.

Bicitra *Alza, USA.*
Sodium citrate (p.1673·3); citric acid monohydrate (p.2284·1).
Chronic metabolic acidosis; urine alkalinising agent.

Bi-Citrol *Tonipharm, Fr.†.*
Monosodium citrate (p.1674·2); sodium citrate (p.1673·3).
Dyspepsia.

Bicitron *Medichem, Indon.; Medifarma, Indon.*
Vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2).
Anaemias; neuritis; neuropathy; vitamin B supplement.

Biclar *Abbott, Belg.*
Clarithromycin (p.248·2).
Bacterial infections.

Biclin *BMS, Mex.; BMS, Port.; BMS, Spain.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Biclinocilline *Sanofi-Aventis, Fr.*
Benethamine penicillin (p.212·1); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Biclomet *Biomedis, Philipp.*
Metoclopramide hydrochloride (p.1747·3).
Adjunct in intestinal intubation; nausea and vomiting.

BiCNU *BMS, Arg.; BMS, Austral.; Bristol, Canad.; BMS, Chile; BMS, Cz.; BMS, Fr.; BMS, Hong Kong; BMS, Hung.; BMS, Irl.; BMS, Israel†; BMS, Malaysia†; BMS, Mex.; BMS, NZ; BMS, Philipp.; BMS, S.Afr.; BMS, Singapore; BMS, UK†; BMS Oncology, USA.*
Carmustine (p.694·3).
Malignant neoplasms.

Bicobon *PP Lab, Thai.†.*
Sodium bicarbonate (p.1673·2); activated charcoal (p.1435·2); peppermint oil (p.1761·2).
Diarrhoea; flatulence; gastrointestinal disorders.

Bicofen *Iapharm, Gr.*
Roxithromycin (p.331·1).
Bacterial infections.

Bicolax *Armoxindo, Indon.*
Bisacodyl (p.1710·1).
Bowel evacuation; constipation.

Bicold *Labima, Belg.†.*
Diphenylpyraline hydrochloride (p.578·2); phenylephrine hydrochloride (p.1568·1).
Upper respiratory-tract congestion.

Bicomplex *ABC, Ital.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Bicompo *Bernofarm, Indon.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

Biconcor *Merck, Braz.; Merck, Mex.; Merck, Venez.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bicor *Alphapharm, Austral.*
⊗ Bisoprolol fumarate (p.1234·1).
Heart failure.

Bicox-E *Overseas, India†.*
Rifampicin (p.325·3); isoniazid (p.288·1); ethambutol hydrochloride (p.274·1).
Tuberculosis.

Bicozene *Novartis, USA.*
Benzocaine (p.1854·1); resorcinol (p.1612·1).
Local anaesthesia.

Bicrinol *Ingens, Arg.*
⊗ Tobramycin (p.354·1); dexamethasone (p.1526·1).
Bacterial eye infections.

Bicrolid *Sanbe, Indon.*
Clarithromycin (p.248·2).
Bacterial infections.

Bicromil *Cetus, Arg.*
Sertraline (p.422·1).
Depression.

Bidanzen *GSK, India.*
Serrapeptase (p.2385·3).
Alveolar abscess; breast engorgement; hyphaema; inflammation; pain; pericoronitis; respiratory-tract congestion.

Bidecar *Baliarda, Arg.*
⊗ Carvedilol (p.1241·3).
Heart failure; hypertension.

Bideon *Fecofar, Arg.*
⊗ Phenazone (p.116·1); naphazoline (p.1565·1); lidocaine (p.1862·3).
Eye disorders.

Bideren *Novopharm, Philipp.; Pascual, Philipp.*
Isosorbide dinitrate (p.1317·3).
Angina pectoris; heart failure.

Biderit *Merck, Mex.*
Isosorbide dinitrate (p.1317·3).

Bidex-A *Stewart Jackson, USA.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Cough.

Bidex-DMI *Stewart Jackson, USA.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Upper respiratory-tract disorders.

Bidhist *Cypress, USA.*
Brompheniramine maleate (p.569·2).
Rhinitis.

Bidiabe *Sanofi-Aventis, Ital.*
Chlorpropamide (p.438·3); phenformin hydrochloride (p.455·3).
Diabetes mellitus.

Bidiam *Menarini, Port.*
Calcium phosphate (p.1676·2); colecalciferol (p.1986·2).

Bidicef *Medikon, Indon.*
Cefadroxil (p.218·1).
Bacterial infections.

Bidiclin *Chiesi, Gr.*
⊗ Beclometasone (p.1517·2).
Corticosteroid.

Bidien *IDI, Ital.*
⊗ Budesonide (p.1520·1).
Skin disorders.

BiDil *NitroMed, USA.*
Isosorbide dinitrate (p.1317·3); hydralazine hydrochloride (p.1305·3).
Heart failure in black patients.

Bidiprox *Medikon, Indon.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Biditin *Medikon, Indon.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Bi-Dizalon *Rayere, Mex.*
Metformin (p.453·3); glibenclamide (p.440·1).
Diabetes mellitus.

Bidocef *Cofasa, Venez.*
Cefalexin (p.218·2).
Bacterial infections.

Bidoflox *Kee, India†.*
Ofloxacin (p.310·2).
Bacterial infections.

Bidoflox-Oz *Kee, India†.*
Ofloxacin (p.310·2); ornidazole (p.843·1).
Infections.

Bidor *Weleda, UK.*
Homoeopathic preparation.

Bidrolar *Spyfarma, Spain.*
Pygeum africanum (p.2192·3).
Benign prostatic hyperplasia.

Bidrostat *Bioprofarma, Arg.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bidroxyl *BMS, Venez.*
Cefadroxil (p.218·1).
Bacterial infections.

Bidrozil *Collins, Mex.*
⊗ Nystatin (p.543·2); triamcinolone (p.1544·2).
Skin disorders.

Bidryl Expectorant *Hexpharm, Indon.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Cough.

Biduret *GSK, India.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hepatic cirrhosis with ascites; hypertension; oedema.

Bienfait Multi-vital
Note. This name is used for preparations of different composition.
Lancome, Canad.
SPF 15: Ensulizole (p.1597·1); octinoxate (p.1608·2).
Sunscreen.
Lancome, Canad.
SPF 30: Avobenzone (p.1589·3); octisalate (p.1608·2); octocrilene (p.1608·3).
Sunscreen.

Bienfait Total *Lancome, Canad.†*
SPF 15: Avobenzone (p.1589·3); octisalate (p.1608·2); octocrilene (p.1608·3).
Sunscreen.

Biennol *Dunner, Switz.*
Evening primrose oil (p.2302·1).
Dietary supplement in hyperlipidaemias.

Bienterico *Caldeira & Marques, Port.*
Streptomycin sulfate (p.333·3); neomycin sulfate (p.305·1).
Bowel sterilisation; diarrhoea; hepatic coma.

Bi-Euglucon
Note. This name is used for preparations of different composition.
Roche, Ital.†
Glibenclamide (p.440·1); phenformin hydrochloride (p.455·3).
Diabetes mellitus.
Roche, Venez.
Glibenclamide (p.440·1); metformin hydrochloride (p.453·2).
Diabetes mellitus.

Bi-Euglucon M *Roche, Chile; Roche, Ital.; Roche, Mex.*
Glibenclamide (p.440·1); metformin hydrochloride (p.453·2).
Diabetes mellitus.

Bifardol *Liferpal, Mex.*
Naproxen sodium (p.92·3); paracetamol (p.108·1).
Fever; pain.

Bifaren *Biomep, Mex.*
Bezafibrate (p.1232·1).
Hypercholesterolaemia.

Bifazol *Bayer, Ital.*
Bifonazole (p.527·3).
Fungal skin infections.

Bifebral *Aventis, Mex.*
Ketoprofen sodium (p.73·3); paracetamol (p.108·1).
Fever; pain.

Bifen *DHA, Hong Kong; DHA, Malaysia; DHA, Singapore.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Bifena *Panalab, Arg.*
Lotion 1, salicylic acid (p.1612·2); undecenoic acid amide (p.549·3); resorcinol monoacetate (p.1612·1); sulfur (p.1614·1); capsicum tincture (p.2276·2); lotion 2, pantothenic acid (p.1959·3); inositol (p.2325·2); yeast (p.1998·3); cinchona (p.2282·3).
Hair disorders.

Bifenac *Pharmacia Upjohn, Mex.†*
Tolfenamic acid (p.130·1).
Fever; gout; inflammation; musculoskeletal, joint and peri-articular disorders; pain.

Biferce *Sanbe, Indon.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency; vitamin C supplement.

Bifidosa *Nutricia-Bago, Arg.*
Lactulose (p.1738·2); ferrous sulfate; vitamin B substances (p.1922·1).
Restoration of normal gastrointestinal flora.

Bifiform *Ferrosan, Rus.*
Bifidobacterium; *Enterococcus faecium* (p.2372·3).
Restoration of normal gastrointestinal flora.

Bifilac *Tablets, India.*
Enterococcus faecalis (p.2372·3); *Clostridium butyricum*; *Bacillus mesentericus*; *Lactobacillus sporogenes* (p.2372·3).
Diarrhoea; restoration of gastrointestinal flora.

Bifilact *Fidia, Ital.*
Lactobacillus acidophilus (p.2372·3); *Lactobacillus lactis* (p.2372·3); *Lactobacillus bulgaricus* (p.2372·3); *Streptococcus thermophilus* (p.2372·3); *Bifidobacterium bifidum* (p.2372·3); *Lactobacillus sporogenes* (p.2372·3); vitamin B substances; brewers yeast (p.1998·3).
Maintenance of normal gastrointestinal flora.

Bifinorma *Merckle, Ger.*
Lactulose (p.1738·2).
Constipation; hepatic encephalopathy.

Bifiteral *Solvay, Austria; Solvay, Belg.; Solvay, Ger.*
Lactulose (p.1738·2).
Constipation; hepatic coma; hepatic encephalopathy; stool softener.

Bifix
Note. This name is used for preparations of different composition.
Bayer Sante, Fr.
Nifuroxazide (p.307·2).
Diarrhoea.
Medichem, Philipp.
Rifampicin (p.325·3); isoniazid (p.288·1).
Tuberculosis.

Bifized *Farmanic, Gr.*
Bifonazole (p.527·3).
Fungal skin infections.

Bifluorid *Voco, Cz.†; Voco, Denm.; New Ulros, Ital.†; Voco, Pol.; Meda, Swed.*
Calcium fluoride (p.1932·1); sodium fluoride (p.1962·2).
Dental caries prophylaxis; hypersensitive teeth; sensitive gums.

Bifokey *Inkeysa, Spain.*
Bifonazole (p.527·3).
Fungal skin infections.

Bifomyk *Riemser, Ger.*
Bifonazole (p.527·3).
Fungal skin infections.

Bifon *Dermapharm, Ger.; Genepharm, Gr.*
Bifonazole (p.527·3).
Fungal skin infections.

Bifonal *Fortbenton, Arg.†*
Bifonazole (p.527·3).
Fungal skin infections.

Bifort
Note. This name is used for preparations of different composition.
Finadiet, Arg.
Sildenafil citrate (p.2193·1).
Erectile dysfunction.
Merck, Spain†.
⊗ Cafedrine hydrochloride (p.1238·2); theodrenaline hydrochloride (p.2400·1).
Hypotension.

Bifosa *Troikaa, India.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Bifosin *Sintez, Rus.*
Bifonazole (p.527·3).
Fungal skin infections.

Bifotik *Sanbe, Indon.*
Cefoperazone sodium (p.227·1).
Bacterial infections.

Bifril *Silesia, Chile; Lusofarmaco, Ital.; Menarini, Swed.†*
Zofenopril calcium (p.1434·3).
Hypertension; myocardial infarction.

Bifrizide *Lusofarmaco, Ital.*
⊗ Zofenopril calcium (p.1434·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Big-Ben *Greater Pharma, Thai.*
Mebendazole (p.148·3).
Worm infections.

Bigenol *Grisi, Mex.*
⊗ Methyltestosterone (p.2117·1); calcium glycerophosphate; calcium anhydroxymethylenediphosphate; magnesium anhydroxymethylenediphosphate; glutamic acid; thiamine hydrochloride; nux vomica (p.2355·3).
Anabolic.

Biger *BI, Gr.*
Atorvastatin (p.1219·1).
Hyperlipidaemias.

Bigetric *Casasco, Arg.*
Domperidone (p.1726·2); simeticone (p.1770·2).
Dyspepsia; flatulence; nausea and vomiting.

Bigomet *Otsira, India†.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Bigonist *Sanofi-Aventis, Fr.*
⊗ Buserelin acetate (p.2083·2).
Prostatic cancer.

Bigpen *GSK, Spain†.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Biguanex *Denver, Arg.*
Chlorhexidine gluconate (p.1635·3).
Skin disinfection.

Biherpan *ICN, Pol.*
Heparin sodium (p.1301·2); zinc sulfate (p.1999·2).
Herpes infections of the skin and mucous membranes.

Bikalm *Altana, Ger.*
Zolpidem tartrate (p.1037·3).
Sleep disorders.

Bikipen *Ivax, Mex.*
Biperiden (p.797·2).
Parkinsonism.

Biklin *BMS, Arg.; BMS, Austria; BMS, Fin.; BMS, Ger.; BMS, Swed.; BMS, Venez.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Bil 13 *Bago, Arg.*
Choline orotate (p.2358·3); dehydrocholic acid (p.2292·2); deoxycholic acid (p.2266·3); casanthranol (p.1715·1); boldine (p.2267·3).
Constipation; liver and biliary-tract disorders.

Bil 13 Enzimatico *Bago, Arg.*
Metoclopramide hydrochloride (p.1747·3); dehydrocholic acid (p.2292·2); pancreatin (p.2360·1); simeticone (p.1770·2).
Digestive disorders; flatulence.

Bilagit *Sanofi Synthelabo, Hung.†*
Choleinic sodium; phenolphthalein (p.1762·1); methenamine (p.298·3); papaverine hydrochloride (p.2191·3); homatropine methylbromide (p.1881·3); menthol (p.2340·1).
Biliary-tract disorders.

Bilagit Mono *Temmler, Ger.†*
Javanese turmeric (p.2406·3).
Dyspepsia.

Bilagol *Lazar, Arg.*
Bile salts (p.2266·2); dehydrocholic acid (p.2292·2); domperidone (p.1726·2); simeticone (p.1770·2).
Digestive disorders; dyspepsia.

Bilamide *Ethnor, India.*
Hydroxymethylnicotinamide (p.2323·1).
Anorexia; constipation; dyspepsia; flatulence.

Bilaten *Medipharm, Chile.*
Candesartan cilexetil (p.1238·3).
Hypertension.

Bilaten-D *Medipharm, Chile.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Bilatin *Stada, Austria.*
Lecithin (p.2332·2); liver extract (p.2337·3).
Tonic.

Bilaxil *Bayer, Chile.*
Ispaghula husk (p.1737·1); senna (p.1769·2).
Bowel evacuation; constipation.

Bilberin *Hasco-Lek, Pol.*
Myrtillus (p.2349·3).
Circulatory eye disorders.

Bilberry Formula *Quest, Canad.†*
Myrtillus; carrot; citrus bioflavonoids; hesperidin (p.1922·1).

Bilberry Plus *Eagle, Austral.*
Myrtillus (p.2349·3); euphrasia (p.2301·3); fenugreek (p.2303·3); hydrastis (p.2321·3).
Eye fatigue.

Bilberry Plus Eye Health *Cenovis, Austral.*
Myrtillus (p.2349·3); ginkgo biloba (p.2311·1); tagetes erecta; riboflavin; *dl*-alpha tocoferil acetate; ascorbic acid; zinc gluconate; betacarotene (p.1922·1).
Eye fatigue; eye irritation.

Bilduretic *Bangkok Lab & Cosmetic, Thai.*
⊗ Amiloride hydrochloride (p.1209·2); hydrochlorothiazide (p.1307·3).
Hepatic cirrhosis with ascites; hypertension; oedema.

Bileco *Ivax, Arg.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bilem
Lemery, Mex.
⊗ Tamoxifen (p.775·1).
Lemery, Rus.†; Lemery, Thai.
⊗ Tamoxifen citrate (p.772·3).
Breast cancer.

Bilenor *Schwarz, Ital.*
Magnesium trihydrate salt of chenodeoxycholic and ursodeoxycholic acids (p.2280·1) (p.2408·1).
Biliary dyspepsia; gallstones.

Bilenzima *Elofar, Braz.*
Bromopride (p.1713·3).
Gastrointestinal disorders.

Biletan *Gador, Arg.*
Thioctic acid (p.2400·2).
Liver disorders.

Biletan Enzimatico *Gador, Arg.*
Thioctic acid (p.2400·2); pancreatin (p.2360·1); cellulase (p.2279·1); simeticone (p.1770·2).
Digestive disorders.

Bilicanta *Roche, Spain†.*
Hymecromone (p.2323·2).
Biliary-tract disorders.

Bilicura Forte *Muller Goppingen, Ger.†*
Kava (p.2328·3); cynara (p.2291·2).
Biliary disorders; dyspepsia.

Bilidren *Lanpharm, Arg.*
Cascara (p.1715·2); cynara (p.2291·2); bile salts (p.2266·2).
Biliary-tract disorders.

Biliepar *Ibirn, Ital.*
Ursodeoxycholic acid (p.2408·1).
Biliary dyspepsia; gallstones.

Bilifel *Neckerman, Braz.†*
Cascara (p.1715·2); boldo (p.2267·2); rhubarb (p.1768·3); fig (p.1731·3).
Constipation.

Biliflux *Eurofarma, Braz.†*
Diisopromine hydrochloride (p.1724·1); sorbitol (p.1965·1).
Liver disorders.

Bilifuge *Plan, Switz.*
Cynara (p.2291·2); berberis vulgaris; java tea (p.2328·2); kinkeliba (p.2329·2).
Digestive disorders.

Bili-Labstix *Bayer Diagnostici, Ital.†; Bayer, USA.*
Test for pH, protein, glucose, ketones, bilirubin, and blood in urine.

Bilina *Esteve, Spain.*
Levocabastine hydrochloride (p.583·1).
Allergic conjunctivitis; allergic rhinitis.

Bilinum Complexe no 113 *Lehning, Fr.*
Homoeopathic preparation.

Biliosan Compuesto *Hexa, Arg.†*
Carqueja; boldo (p.2267·2); cynara (p.2291·2); bile salts (p.2266·2); homatropine methylbromide (p.1881·3); peppermint oil (p.1761·2).
Biliary-tract disorders; digestive disorders.

Bilipax *Taphlan, Switz.†*
Naphthylacetic acid (p.2350·2); methylphenylethyl nicotinate.
Adjuvant in cholangiography; digestive disorders.

Bilipeptal Mono *Evisco, Ger.*
Pancreatin (p.2360·1).
Pancreatic insufficiency.

Biliranin *Pharmaten (Φαρματεν), Gr.†*
Loratadine (p.583·3).
Allergic rhinitis; pruritus.

Bilisan Duo *Repha, Ger.*
Milk thistle (p.1452·1); Javanese turmeric (p.2406·3).
Biliary-tract disorders; dyspepsia; liver disorders.

Biliscopin *Schering, Austral.; Schering, Austria; Schering, Ger.; IFET (ΙΦΕΤ), Gr.; Schering, NZ; Schering, Swed.†; Schering, Switz.; Bayer, UK.*
Meglumine iotroxate (p.1486·1).
Contrast medium for biliary-tract radiography.

Bilisegrol *Schering, Spain†.*
Meglumine iotroxate (p.1486·1).
Contrast medium for biliary-tract radiography.

Billerol *Lehning, Fr.*
Homoeopathic preparation.

Biloban *Cipan, Port.*
Ginkgo biloba (p.2311·1).
Vascular disorders.

Bilobene *Ratiopharm, Austria; Merckle, Ger.; Ratiopharm, Hung.*
Fumitory (p.2307·2).
Biliary-tract disorders.

Bilobil *Teva, Hung.; KRKA, Pol.; KRKA, Rus.*
Gingko biloba (p.2311·1).
Cerebral and peripheral vascular disorders; mental function impairment.

Bilocor *Pharma Dynamics, S.Afr.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bilogink *Naturex, Mex.†*
Ginkgo biloba (p.2311·1).

Biloina *Andromaco, Arg.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Bilokan *Santa, Turk.*
Ginkgolides (p.2311·3).
Dementia; peripheral vascular disorders; vertigo; vestibular disorders.

Bilol *Ecosol, Switz.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hyperkinetic heart syndrome; hypertension.

Biloptin *IFET (ΙΦΕΤ), Gr.†; Schering, UK†.*
Sodium iopodate (p.1484·3).
Contrast medium for biliary-tract radiography.

Bilozen *Klonal, Arg.*
Ketotifen (p.582·2).
Eye disorders.

Bilron *Aspen, S.Afr.†*
Iron bile salts (p.2266·2).
Bile salt deficiency; biliary-tract disorders.

Bilsan *Abbott, Hong Kong.*
Choline bicitrate (p.1934·2); inositol (p.2325·2); methionine (p.1450·1); vitamin B substances (p.1922·1); dehydrocholic acid (p.2292·2); ox bile (p.2266·3).
Biliary disorders; liver disorders.

Biltricid *Bayer, Rus.*
Praziquantel (p.153·3).
Worm infections.

Biltricide *Bayer, Austral.; Bayer, Canad.; Bayer, Fr.; Bayer, Ger.; IFET (ΙΦΕΤ), Gr.; Bayer, Hong Kong; Bayer, Israel; Bayer, Neth.; Bayer, S.Afr.; Schering, USA.*
Praziquantel (p.153·3).
Worm infections.

Biluen Enzimatico *Altana, Arg.*
Azintamide (p.2262·2); pancreatin (p.2360·1); cellulase (p.2279·1); simeticone (p.1770·2).
Liver and biliary-tract disorders.

Bilugen *Roche Diagnostics, Austral.*
Test for urobilinogen and bilirubin in urine.

Bilumid *Veropharm, Rus.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bilutamid *PharmaConsult, Hung.*
Bicalutamide (p.686·2).
Prostatic cancer.

Bim *Ivax, Arg.†*
Bacteria; muramidase hydrochloride (p.2348·1).
Respiratory-tract infections.

Bimanol *Polfa Pabianice, Pol.*
⊗ Deanol (p.2152·3).
Atherosclerotic encephalopathy; depression; faecal incontinence; nocturia; reduced concentration in children; schizophrenia; tonic.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Bimetdad *Bajamed, Mex.*
Enalapril (p.1276·1).
Hypertension.

Bimicot *Euroderm, Arg.*
Bifonazole (p.527·3).
Fungal skin infections.

Bimidal *Bajamed, Mex.*
Losartan (p.1327·2).
Hypertension.

Bi-Miotic *Bell, India.*
Pilocarpine nitrate (p.1884·3); physostigmine salicylate (p.1883·3).
Glaucoma.

Bimixin *Sanofi-Aventis, Ital.*
Bacitracin (p.210·3); neomycin sulfate (p.305·1).
Enteric infections.

Bimolin *Drugtech, Chile†.*
⊗ Pemoline (p.2161·2).

Bimoxan *Hexal, Mex.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bimoxin *Biofarma, Braz.†.*
Amoxicillin (p.202·2).
Bacterial infections.

Binafex *Serral, Mex.*
Terbinafine hydrochloride (p.546·3).
Fungal skin and nail infections.

Binafin
Vitapan, Braz.†.
Terbinafine (p.546·3).
Fungal skin infections.

Shreya, Rus.
Terbinafine hydrochloride (p.546·3).
Fungal skin and nail infections.

Binaldan *Vifor, Switz.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Binanidda *Perivita, Neth.*
Terbinafine hydrochloride (p.546·3).
Fungal skin infections.

Binarin *Pisa, Mex.*
Epirubicin (p.716·2).
Malignant neoplasms.

Binazin *Polfa Pabianice, Pol.*
Todralazine hydrochloride (p.1415·1).
Hypertension.

Bindazac *Norma (Νορμα), Gr.*
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Bi-Nerisona *Intendis, Braz.; Schering, Chile; Intendis, Mex.*
⊗ Diflucortolone valerate (p.1529·2); chlorquinaldol (p.242·3).
Infected skin disorders.

Binerisona *Schering, Venez.*
⊗ Diflucortolone valerate (p.1529·2); chlorquinaldol (p.242·3).
Infected skin disorders.

Biniwas *Chiesi, Spain†.*
Binifibrate (p.1234·1).
Hyperlipidaemias.

Binko *Hexal, Braz.†.*
Ginkgo biloba (p.2311·1).

Binoclar *Biochemie, Hong Kong; Sandoz, Venez.*
Clarithromycin (p.248·2).
Bacterial infections; Helicobacter pylori eradication.

Binocrit *Sandoz, Cz.; Sandoz, UK.*
⊗ Epoetin alfa (p.1061·1).
Anaemias; autologous blood transfusion.

Binoctrin *Cazi, Braz.†.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Binocular *Sandoz, Malaysia.*
Clarithromycin (p.248·2).
Bacterial infections; Helicobacter pylori eradication in peptic ulcer.

Binodian *Schering, Mex.*
⊗ Estradiol valerate (p.2097·3); prasterone enantate (p.2124·2).
Menopausal disorders.

Binoklar *Sandoz, Indon.*
Clarithromycin (p.248·2).
Bacterial infections.

Binordiol *Wyeth Lederle, Belg.†; Wyeth, Switz.†.*
Levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3).
Biphasic oral contraceptive; menstrual disorders.

Binospan *Cazi, Braz.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Fever 406 Formerly known as Binospan Composto =(prvademecum.com 05.05).; pain.

Binotal
Bayer, Braz.; Bayer, Mex.
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Grunenthal, Ger.
Ampicillin sodium (p.204·1).
Bacterial infections.

Bayer, Indon.
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Binovum *Janssen-Cilag, UK.*
Norethisterone (p.2119·3); ethinylestradiol (p.2101·3).
Biphasic oral contraceptive.

Binozyt *Sandoz, Indon.; Sandoz, Thai.; Sandoz, Venez.*
Azithromycin (p.207·1).
Bacterial infections.

B-Insulin *Berlin-Chemie, Ger.†.*
⊗ Insulin injection (pork) (p.443·2).
Diabetes mellitus.

Bintamox *Hexpharm, Indon.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Binvex *Ivax, Arg.*
Pargeverine hydrochloride (p.1761·1); dihydroxydibutylether (p.2293·3).
Liver and biliary-tract disorders.

Bio-200 *Dermofarma, Ital.*
Royal jelly (p.2382·1); pollen (p.2370·2).
Nutritional supplement.

Bio Ace *Blackmores, Austral.*
Betacarotene; ascorbic acid; *d*-alpha tocoferil acid succinate; vitamin B ; calcium pantothenate; vitamin B ; vitamin K ; zinc; ginseng; garlic (p.1922·1).
Tonic.

Bio Ace Excell *Blackmores, Austral.*
Vitis vinifera; milk thistle; betacarotene; vitamin C; *d*-alpha tocopherol; calcium pantothenate; vitamin B ; zinc; vitamin B ; folic acid; thiamine nitrate (p.1922·1).
Tonic.

Bio Acidophilus *Bioceuticals, UK.*
Lactobacillus acidophilus (p.2372·3).

Bio C *Blackmores, Austral.*
Ascorbic acid (p.1983·3); sodium ascorbate (p.1984·1); calcium ascorbate (p.1984·1); bioflavonoids (p.2304·1); rutoside (p.2305·1); hesperidin (p.2304·3); rose fruit (p.2381·2); acerola.
Vitamin C supplement.

Bio Cabal *Dallas, Arg.†.*
⊗ Dexamethasone (p.1526·1); astemizole (p.567·2).
Hypersensitivity reactions.

Bio Fibralax Bi-Attivo *Giuliani, Ital.*
Dietary fibre (p.1712·3); *Lactobacillus acidophilus* (p.2372·3).
Dietary supplement.

Bio Flora *DermoDuemila, Ital.*
Lactic-acid-producing organisms (p.2372·3); vitamins; minerals (p.1922·1).
Gastrointestinal disorders.

Bio Grip C *Gramon, Arg.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold symptoms.

Bio Grip Classic *Gramon, Arg.*
Paracetamol (p.108·1); pseudoephedrine (p.1571·2); bromhexine (p.1552·2).
Respiratory-tract disorders.

Bio Grip Plus *Gramon, Arg.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); pentoxyverine citrate (p.1567·3); ascorbic acid (p.1983·3); vitamin B .
Cold and influenza symptoms.

Bio Grip-T *Gramon, Arg.*
Paracetamol (p.108·1).
Fever; pain.

Bio Iron *Blackmores, Austral.*
Ferrous fumarate (p.1938·3); folic acid; vitamin B ; urtica (p.1922·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron deficiency.

Bio Magnesium *Blackmores, Austral.*
Magnesium (p.1678·3); calcium ascorbate (p.1984·1); vitamin B (p.1978·2); colecalciferol (p.1986·2); manganese (p.1956·1).
Muscle cramps.

Bio Max *Shchelkovskii, Rus.*
Vitamins; minerals; rutoside (p.1922·1).

Bio Slim Silueta *Natrahealth, UK.*
Poliglusam (p.2370·1).
Slimming aid.

Bio Star *Novag, Spain.*
Ginseng (p.2312·1).
Tonic.

Bio Tarbun *Duncan, Arg.*
Norfloxacin (p.309·2).
Bacterial infections.

Bio Tears *Maurino, Arg.*
Polyvinyl alcohol (p.2145·3).
Dry eyes.

Bio Zinc *Blackmores, Austral.*
Vitamin A acetate; pyridoxine hydrochloride; magnesium phosphate; zinc amino-acid chelate (p.1922·1).
Skin disorders; wounds.

Bioacne *Ikapharmindo, Indon.*
Cetrimide (p.1634·1); resorcinol (p.1612·1); sulfur (p.1614·1).
Acne.

Bioactiv *Knop, Chile.*
A range of homoeopathic preparations.

Bioaler *Giscard, Arg.†.*
Loratadine (p.583·3).
Hypersensitivity reactions.

Bio-Amoksiclav *Biotech, S.Afr.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Bio-Antioxydant *Pharma Nord, Fr.†.*
Vitamin and mineral preparation (p.1922·1).
Antioxidant.

Bioarginina *Damor, Ital.*
Arginine (p.1928·2) or arginine hydrochloride (p.1928·2).
Asthenia; hyperammonaemia.

Bioarginol-C *Bioresearch, Mex.*
Sulfadiazine (p.336·2).
Bacterial skin infections.

Bioaron C *Phytofarm Kleka, Pol.*
Aloes (p.1705·2); aronia melanocarpa; vitamin C (p.1983·3).
Infection prophylaxis; reduced appetite.

Bio-Arscolloid *SIT, Ital.*
Dichlorobenzyl alcohol (p.1642·1); silver protein (p.2387·3); tyrothricin (p.358·2).
Bacterial mouth infections.

Biobase
Note. This name is used for preparations of different composition.
Odan, Canad.
⊗ Alcohol (p.1625·2).
Antiseptic vehicle for topical preparations.

Bioderma, Fr.
Vehicle for topical preparations.

Biobase-G *Odan, Canad.*
⊗ Alcohol (p.1625·2); glycolic acid (p.1598·1).
Antiseptic vehicle for topical preparations.

Biobeclasona *Biogalenic, Venez.*
⊗ Beclometasone (p.1517·2).
Allergic rhinitis.

Biobeclod *Biogalenic, Venez.*
⊗ Beclometasone (p.1517·2).
Obstructive airways disease.

Biobees *Bioceuticals, UK.*
A range of preparations containing royal jelly (p.2382·1).

Biobin *Biochem, India.*
Cytarabine (p.705·1).
Malignant neoplasms.

Bio-C
Uniao Quimica, Braz.
Ascorbic acid (p.1983·3).

Pharma Nord, Norw.; Pharma Nord, Thai.
Calcium ascorbate (p.1984·1).
Vitamin C deficiency.

Bio-C Complex *Blackmores, Austral.*
Ascorbic acid (p.1983·3); sodium ascorbate (p.1984·1); calcium ascorbate (p.1984·1); lemon bioflavonoids (p.2304·1); rutoside (p.2305·1); hesperidin (p.2304·3); acerola.
Vitamin C preparation.

Biocadmio *Uriach, Spain.*
Cadmium sulfide (p.2271·2).
Skin and scalp disorders.

Bio-Cal *YSP, Malaysia.*
Boron; calcium; colecalciferol; magnesium; iodine; selenium (p.1922·1).
Dietary supplement.

Biocalcin *Esseti, Ital.*
Calcitonin (salmon) (p.1093·1).
Hypercalcaemia; osteoporosis; Paget's disease of bone; sympathetic pain syndrome.

Biocalcio *Sedabel, Braz.†.*
Calcium phosphate; cyanocobalamin; ergocalciferol; sodium fluoride; sodium iodide (p.1922·1).
Vitamin and mineral supplement.

Biocalcium *Bioprogress, Ital.*
Calcium carbonate (p.1714·1).
Calcium deficiency.

Biocalcium D3 *Bioprogress, Ital.*
Calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Calcium and vitamin D deficiency; osteoporosis.

Bio-Calcium + D$_3$ *Pharma Nord, Irl.*
Calcium (p.1675·2); magnesium (p.1678·3); colecalciferol (p.1986·2).
Calcium deficiency.

Bio-Calcium + D$_3$ + K *Pharma Nord, Irl.*
Calcium (p.1675·2); colecalciferol (p.1986·2); vitamin K (p.1995·2).

Bio-Calcium + D3 + K *Pharma Nord, Thai.*
Calcium (p.1675·2); colecalciferol (p.1986·2); vitamin K (p.1995·2).
Calcium supplement; osteoporosis.

Biocalm
Note. This name is used for preparations of different composition.
Lizofarm, Ital.
Valerian (p.2410·1); passion flower (p.2363·2); peppermint leaf (p.1761·2).
Insomnia.

Biolab, Thai.
Tolperisone hydrochloride (p.1899·3).
Obliterative vascular diseases; parkinsonism; skeletal muscle spasticity and spasm.

Biocalron *Biomedis, Thai.; Great Eastern, Thai.*
Calcium lactate (p.1676·1); ferrous fumarate (p.1938·3); vitamin C (p.1983·3); rutoside (p.2305·1).
Calcium and iron supplement.

BioCalth *BioCalth, UK.*
Calcium -threonate (p.1677·1).
Calcium supplement.

Biocalyptol
Note. This name is used for preparations of different composition.
Zambon, Fr.
Pholcodine (p.1570·2).
Formerly contained pholcodine, cineole, and guaiacol.
Coughs.

Laphal, Hong Kong†.
Pholcodine (p.1570·2); cineole (p.2282·3); guaiacol (p.1561·2).
Coughs.

Biocalyptol S *Laphal, Cz.†.*
Pholcodine (p.1570·2); cineole (p.2282·3); guaiacol (p.1561·2).
Coughs.

Biocanol *Fako, Turk.*
Fluconazole (p.532·1).
Fungal infections.

Bio-Caps *Bio-Health, UK.*
Multivitamin and mineral preparation (p.1922·1).

Biocaps *Biotech Naturis, Venez.*
Betacarotene; vitamin C; vitamin D; vitamin E (p.1922·1).
Dietary supplement.

Biocarb *Biochem, India.*
Carboplatin (p.693·1).
Malignant neoplasms.

Biocarbo *Biosintetica, Braz.*
Carboplatin (p.693·1).
Malignant neoplasms.

Biocard
Note. This name is used for preparations of different composition.
Niche, Irl.
⊗ Carvedilol (p.1241·3).
Heart failure; hypertension.

Fako, Turk.
Amlodipine besilate (p.1214·1).
Angina pectoris; hypertension.

Biocarde
Note. A similar name is used for preparations of different composition (see above).
Lehning, Fr.
Crataegus (p.2289·1); passion flower (p.2363·2); avena (p.2262·1); valerian (p.2410·1); melissa (p.2339·3); motherwort (p.2347·3).
Insomnia; nervous disorders.

BioCardine *Scandinavian Laboratories, Pol.*
Fish oil (p.1362·2).
Cardiovascular disorders; hyperlipidaemias.

Biocarn *Medice, Ger.*
Levocarnitine (p.1932·2).
Carnitine deficiency.

Biocarnil *Abiogen, Ital.†.*
Carnitine hydrochloride (p.1933·1); -lysine hydrochloride (p.1955·1).
Carnitine deficiency.

Biocarotine *Bioceuticals, UK.*
Betacarotene (p.1930·3).

Biocatalase *Fournier SA, Spain†.*
Catalase (p.2278·2).
Burns; skin disorders; ulcers; wounds.

Biocebe *Nutergia, Fr.*
Vitamin, bioflavonoid, and zinc preparation (p.1922·1).
Nutritional supplement.

Biocef
Note. This name is used for preparations of different composition.
Sandoz, Austria.
Cefpodoxime proxetil (p.232·1).
Bacterial infections.

Otto, Indon.
Cefotaxime sodium (p.228·1).
Bacterial infections.

Zambon, Spain.
Ceftibuten (p.235·3).
Bacterial infections.

International Ethical, USA†.
Cefalexin (p.218·2).
Bacterial infections.

Biocefazon *Bioton, Pol.*
Cefoperazone sodium (p.227·1).
Gram-negative bacterial infections.

Biocefra *Laquifa, Port.*
Cefradine (p.233·1).
Bacterial infections.

Bioceftrax *Biogalenic, Venez.*
Ceftriaxone (p.238·1).
Bacterial infections.

Bio-Cest *Bioresearch, Mex.†.*
Praziquantel (p.153·3).
Cysticercosis.

Biochetasi
Sigma-Tau, Ital.
Injection; suppositories: Vitamin B substances and electrolytes (p.1922·1).
Fluid and electrolyte disorders; liver disorders.

Sigma-Tau, Ital.
Oral granules: Vitamin B substances, electrolytes, and carbohydrate (p.1922·1).
Fluid and electrolyte disorders; liver disorders.

Biochin *Biolab, Thai.†.*
Neomycin sulfate (p.305·1); bacitracin zinc (p.210·3); amylocaine hydrochloride (p.1853·3).
Mouth and throat disorders.

Biocholes *Medikon, Indon.*
Cynara (p.2291·2); vitamin C; nicotinamide (p.1957·3); vitamin E; chromium tripicolinate (p.1934·3).
Hyperlipidaemias.

Bio-Ci *Ceccarelli, Ital.*
Ascorbic acid (p.1983·3).
Vitamin C deficiency.

Biociclin *Francia, Ital.*
Cefuroxime sodium (p.238·2).
Bacterial infections.

Biocid *Biochem, India.*
Omeprazole (p.1753·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Biocidan
Note. This name is used for preparations of different composition.
Menarini, Fr.
Eye drops: Cethexonium bromide (p.1634·1).
Minor eye infections.
Menarini, Fr.
Nasal spray: Cethexonium bromide (p.1634·1); phenyltoloxamine citrate (p.588·1).
Rhinitis.

Biocil
Note. This name is used for preparations of different composition.
Ibirn, Ital.
Cefonicid sodium (p.226·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.
Pharmaniaga, Malaysia†; Raza, Malaysia†.
Ampicillin trihydrate (p.204·2).
Bacterial infections.
Formula, NZ.
Povidone-iodine (p.1659·2).
Herpes labialis; minor cuts and burns; skin disinfection.

Biocilin *Biochem, India.*
Ampicillin (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Biocilina
Note. A similar name is used for preparations of different composition (see below).
Biogalenic, Venez.
Oxacillin sodium (p.311·3).
Bacterial infections.

Bio-Cillin
Note. A similar name is used for preparations of different composition (see above).
Biotech, S.Afr.
Procaine benzylpenicillin (p.319·2).
Bacterial infections.

Biocin *Atral, Port.†.*
Doxycycline (p.267·1).
Bacterial infections.

Biocine Test *Biovac, S.Afr.*
Tuberculin (p.2405·3).
Diagnosis of tuberculosis.

Biocine Test PPD *Chiron Vaccines, Ital.*
Tuberculin purified protein derivative (p.2405·3).
Test for hypersensitivity to tubercle bacillus.

Biocip
Biochem, India.
Ciprofloxacin (p.243·3).
Bacterial infections.
Ranbaxy, S.Afr.
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Biocipro *Biospray, Gr.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Biocip-TZ *Biochem, India.*
Ciprofloxacin (p.243·3); tinidazole (p.848·3).
Bacterial infections.

Biocitronil *SMB, Chile†.*
Bifonazole (p.527·3).
Fungal skin infections.

Bioclar *Biochem, India.*
Clarithromycin (p.248·2).
Bacterial infections.

Bioclaril *GNR, Ital.†.*
Heparin calcium (p.1301·2).
Thromboembolic disorders.

Bioclate *Armour, USA†.*
A factor VIII preparation (p.1067·1).
Haemophilia A.

Bioclavid *Sandoz, Arg.; Sandoz, Denm.; Sandoz, Fin.; Sandoz, Gr.; Sandoz, Neth.; Sandoz, Philipp.; Sandoz, Swed.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Bioclin Kera *Dermoteca, Port.†.*
Borage; cystine; glycine; zinc gluconate; methionine; arginine; cucurbita; vitis vinifera; calcium pantothenate; biotin; copper gluconate (p.1922·1).
Hair and nail disorders.

Bioclin Sebo Care
Note. This name is used for preparations of different composition.
Dermoteca, Port.†.
Capsules: Borage oil (p.2267·3); Iceland moss (p.2324·1); zinc (p.1999·1); cucurbita oil (p.2290·2).
Seborrhoea.
Dermoteca, Port.
Topical gel: Glycolic acid (p.1598·1); piroctone olamine (p.1610·1); salicylic acid (p.1612·2); lactic acid (p.2329·3).
Acne.

Bioclindax *Biogalenic, Venez.*
Clindamycin (p.251·1).
Bacterial infections.

Bioclox *Biochem, India.*
Cloxacillin sodium (p.256·1).
Gram-positive bacterial infections.

Bioclusive *Johnson & Johnson, Ital.*
Polyurethane dressing (p.1611·1).
Wounds.

Biocobal *Lemery, Mex.*
Hydroxocobalamin (p.1980·3).
Anaemias; neuritis.

Biocodone *UCB, Belg.*
Hydrocodone bitartrate (p.63·1).
Coughs.

Biocolchid *Biogalenic, Venez.*
Thiocolchicoside (p.1898·2).

Biocombin *Meprofarm, Indon.*
Vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2).
Anaemias; neuritis; vitamin B deficiency.

Biocord *Medipharm, Chile.*
Vitamins; minerals; ginseng; soya lecithin; procaine hydrochloride; rutin (p.1922·1).
Skin, hair, and nail disorders; tonic.

Biocord Active *Medipharm, Chile.*
Vitamin and mineral preparation (p.1922·1).
Dietary supplement.

Biocord-E *Medipharm, Chile.*
Vitamins; minerals; rutoside; ginseng; soya lecithin; procaine hydrochloride (p.1922·1).
Dietary supplement.

Biocort
Note. This name is used for preparations of different composition.
Biosintex, Arg.
⊗ Tobramycin (p.354·1); dexamethasone (p.1526·1).
Bacterial eye infections.
Medikon, Indon.
⊗ Gentamicin sulfate (p.282·1); betamethasone valerate (p.1519·1).
Infected skin disorders.
Adcock Ingram, S.Afr.
⊗ Hydrocortisone acetate (p.1535·2).
Skin disorders.

Biocortin *Eczane, Arg.†.*
⊗ Hydrocortisone (p.1535·2); neomycin (p.305·1); tetryzoline (p.1574·1).
Eye disorders.

Biocoryl *Uriach, Spain.*
Procainamide hydrochloride (p.1377·2).
Arrhythmias.

Biocos *APS, Ger.*
Metformin hydrochloride (p.453·2).
Diabetes mellitus.

Biocream *Merck, Indon.*
Moisturiser.

Biocrin *Biofarma, Braz.†.*
Vitamin A (p.1971·2).

Biocrinal *Sofex, Port.*
Minoxidil (p.1342·1).
Alopecia androgenetica.

Biocrist *Biosintetica, Braz.†.*
Vincristine sulfate (p.787·1).
Malignant neoplasms.

Biocristine *Biochem, India.*
Vincristine sulfate (p.787·1).
Malignant neoplasms.

Bio-Cuivre *Herbaxt, Fr.*
Copper pidolate; manganese pidolate (p.1922·1).
Nutritional supplement.

Biocure *Qualiphar, Belg.*
A range of multivitamin and mineral preparations (p.1922·1).

Bio-C-Vitamin *Pharma Nord, Fin.*
Calcium ascorbate (p.1984·1).
Vitamin C deficiency; vitamin C supplement.

BioCyst *CytoChemia, Ger.*
Birch leaf (p.2266·3); solidago virgaurea (p.2391·1); java tea (p.2328·2).
Urinary-tract disorders.

Bio-Dac *Bioresearch, Mex.*
Sulindac (p.126·3).
Inflammation; rheumatism.

Biodaclin *Rayere, Mex.*
Clindamycin (p.251·1).
Bacterial infections.

Biodacyna *Bioton, Pol.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Biodalgic *Biocodex, Fr.*
Tramadol hydrochloride (p.130·3).
Pain.

Biodan
Note. This name is used for preparations of different composition.
Bioresearch, Mex.
Phenytoin sodium (p.495·2).
Epilepsy.
Biomedis, Thai.†; Great Eastern, Thai.†.
Sulfaguanidine (p.339·2); activated charcoal (p.1435·2); bismuth subcarbonate (p.1711·1); pectin (p.2145·2); dicycloverine hydrochloride (p.1722·3).
Diarrhoea.

Biodantyl-C *Bioresearch, Mex.*
Miconazole (p.541·2).
Fungal skin infections.

Biodasin *Promed, Indon.*
Clindamycin (p.251·1).
Bacterial infections.

Bio-Delta Cortilen *SIFI, Ital.*
⊗ Prednisolone acetate (p.1541·1); neomycin sulfate (p.305·1).
Eye infections.

Bioderm
Note. This name is used for preparations of different composition.
Odan, Canad.
Polymyxin B sulfate (p.317·3); bacitracin (p.210·3).
Bacterial skin infections.
Galenium, Indon.
Gentamicin sulfate (p.282·1).
Skin infections.

Biodermatin *Lafare, Ital.*
Biotin (p.1931·3).
Biotin deficiency.

Bio-Dermis *Sidus, Arg.*
Aloe arborescens.
Skin disorders.

Biodexan *Sophia, Mex.*
⊗ Dexamethasone sodium phosphate (p.1526·2); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3); phenylephrine hydrochloride (p.1568·1).
Infected eye disorders.

Biodexin *Silesia, Chile†.*
Bacitracin (p.210·3); neomycin sulfate (p.305·1); zinc oxide (p.1621·2).
Infected burns, ulcers, and wounds; skin infections.

Biodezil *Bioresearch, Mex.*
Captopril (p.1239·2).
Hypertension.

Biodiar *Sandoz, Indon.*
Activated attapulgite (p.1709·1).
Diarrhoea.

Biodif *Bago, Chile.*
Betacarotene; vitamin E; vitamin C; minerals (p.1922·1).

Biodinam *Roux-Ocefa, Arg.*
Vitamin and trace element preparation (p.1922·1).

Biodine *Major, USA.*
Povidone-iodine (p.1659·2).
Skin disinfection.

Bio-Disc *Blackmores, Austral.*
Minerals; vitamins (p.1922·1); silicon dioxide (p.2146·2); bromelains (p.2269·1); papain (p.2362·3).
Delayed bone healing; muscular and joint pain.

Biodobutin *Biosintetica, Braz.†.*
Dobutamine hydrochloride (p.1271·2).

Biodol
Note. This name is used for preparations of different composition.
Biofarma, Braz.†.
Miconazole (p.541·2).
Fungal skin infections.
Niche, Irl.
Tramadol hydrochloride (p.130·3).
Pain.

Biodone *Biomed, Austral.†; Biomed, NZ.*
⊗ Methadone hydrochloride (p.82·3).
Opioid dependence; opioid withdrawal syndrome.

Biodophilus *Bioceuticals, UK.*
Lactobacillus acidophilus (p.2372·3).

Biodoxan *Biogalenic, Venez.*
Cyclophosphamide (p.702·1).
Malignant neoplasms.

Biodoxi *Biochem, India.*
Doxycycline (p.267·1).
Bacterial infections.

Biodramina *Uriach, Spain.*
Dimenhydrinate (p.576·2).
Motion sickness.

Biodramina Cafeina *Uriach, Spain.*
Caffeine (p.1116·3); dimenhydrinate (p.576·2); pyridoxine hydrochloride (p.1978·2).
Motion sickness; vertigo.

Biodribin *IBA, Pol.*
Cladribine (p.701·1).
Leukaemias; lymphoma.

Biodrop *Sidus, Arg.†.*
⊗ Dorzolamide hydrochloride (p.1880·2).
Glaucoma; ocular hypertension.

Biodrox *Biofarma, Braz.†.*
Aluminium hydroxide (p.1706·2).
Gastric hyperacidity.

Biodroxil *Sandoz, Austria; Novartis, Chile†; Sandoz, Cz.; Biochemie, Hong Kong; Biochemie, Hung.†; Sandoz, Indon.; Sandoz, Israel; Sandoz, Pol.*
Cefadroxil (p.218·1).
Bacterial infections.

Biodruff *Farmamust, Gr.*
Tenoxicam (p.128·2).
Inflammatory disorders.

Bio-E
Teguhsindo, Indon.
Vitamin E (p.1992·2).
Antioxidant; vitamin E deficiency.
Pharma Nord, Thai.
d-Alpha tocopherol (p.1992·2).
Vitamin E deficiency.

Bioelementa *Dekaz, Gr.*
⊗ Mometasone (p.1540·1).
Inflammatory skin disorders.

Bio-Energol Plus *Yabrofarma, Port.*
Arginine aspartate (p.1928·2).
Tonic.

Bio-Enhanced Calcium Plus *Abbott, Malaysia.*
Calcium (p.1675·2); ergocalciferol (p.1987·1).
Dietary supplement.

Bioenterine *DB, Fr.*
Nutritional supplement (p.1922·1).
Maintenance of gastrointestinal flora.

Bioepicyna *IBA, Pol.*
Epirubicin hydrochloride (p.716·1).
Malignant neoplasms.

BIO-EPL *Medikon, Indon.*
Lecithin (p.2332·2); vitamin B substances; vitamin E (p.1922·1); methionine (p.1450·1).
Liver disorders.

Bioequiseto *Cabassi, Ital.*
Equisetum (p.2299·3).
Nutritional supplement.

Bioesse Plus *Mavi, Ital.*
Amino acids; biotin; selenium; saw palmetto (p.1922·1).
Nutritional supplement.

Bioestril Blu *Viatris, Ital.*
Soya; red clover; cimicifuga; urtica; valerian; agnus castus; vitamin E (p.1922·1).
Nutritional supplement for women.

Bioestril Rosso *Viatris, Ital.*
Soya; red clover; cimicifuga; agnus castus; ginseng; crataegus; vitamin E (p.1922·1).
Nutritional supplement for women.

Bio-E-Vitamin *Pharma Nord, Fin.; Pharma Nord, Norw.*
d-Alpha tocopherol (p.1992·2).
Vitamin E deficiency.

Biofanal *Pfleger, Ger.*
Nystatin (p.543·2).
Candidiasis.

Biofax *Maver, Chile.*
Vitamin E; betacarotene; vitamin C; selenium; zinc gluconate (p.1922·1).

Biofaxil *Lepori, Port.†.*
Cefadroxil (p.218·1).
Bacterial infections.

Biofazolin *Bioton, Pol.*
Cefazolin sodium (p.222·1).
Bacterial infections.

Biofem
Note. This name is used for preparations of different composition.
Biotenk, Arg.†.
⊗ Raloxifene (p.2128·3).
Osteoporosis.
Biotenk, Arg.
Gestodene (p.2105·2); ethinylestradiol (p.2101·3).
Combined oral contraceptive.
Hexal, Ger.; Ilsan, Turk.
Vitex agnus castus (p.2249·1).
Mastalgia; menstrual disorders.

Biofem 35 *Biotenk, Arg.*
Cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3).
Androgen-dependent acne, alopecia, hirsutism, and seborrhoea in women; oral contraceptive in women with androgenic symptoms.

Biofem Test *Biotenk, Arg.*
Pregnancy test (p.2372·1).

Biofenac
Note. This name is used for preparations of different composition.
Almirall, Belg.; Galenica, Gr.; Almirall, Neth.; Almirall, Port.
Aceclofenac (p.14·3).
Inflammation; musculoskeletal, joint, and peri-articular disorders; pain.
Ache, Braz.
Diclofenac (p.44·2), diclofenac diethylamine (p.44·3), diclofenac resinate (p.46·1), or diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Bio-Fer
Note. A similar name is used for preparations of different composition (see below).
Herbaxt, Fr.
Iron pidolate; folic acid; ascorbic acid (p.1922·1).
Nutritional supplement.

Biofer
Note. A similar name is used for preparations of different composition (see above).
Bioresearch, Mex.
Paracetamol (p.108·1).
Fever; pain.

Bioferal *Bioprogress, Ital.*
Ferrous gluconate (p.1939·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron-deficiency anaemia.

Bioferina *Bioresearch, Mex.*
Phenazopyridine (p.116·3).
Urinary-tract infections.

Bioferon *Sidus, Arg.; Bio Sidus, Thai.*
Interferon alfa-2b (recombinant) (p.885·1).
Anogenital warts; hepatitis; malignant neoplasms.

Bioferon Hepakit *Sidus, Arg.*
Capsules, ribavirin (p.902·3); injection, interferon alfa-2b (recombinant) (p.885·1).
Chronic hepatitis C.

† This preparation may no longer be actively marketed
⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Bioferro *Prospa, Port.*
Ferrous gluconate (p.1939·1).
Iron-deficiency anaemia.

Bioff *Biochem, India.*
Ofloxacin (p.310·2).
Bacterial infections.

Biofiber *Enila, Braz.†.*
Guar gum (p.442·3).

Biofilen *Degorts, Mex.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Biofilm *Braun, UK.*
Hydrocolloid dressing.
Ulcers; wounds.

Biofim *Uniao Quimica, Braz.†.*
14 Tablets, mestranol (p.2116·2); 7 tablets, norethisterone (p.2119·3); mestranol; 7 tablets, inert.
Biphasic oral contraceptive.

Bioflac *Cristalia, Braz.*
Meloxicam (p.80·3).
Osteoarthritis; rheumatoid arthritis.

Bioflam *Rider, Chile.*
Tenoxicam (p.128·2).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Bioflavin *Herbarium, Braz.*
Ginkgo biloba (p.2311·1).

Bioflevin *Biomedica-Chemica, Gr.*
Diosmin (p.2304·2); hesperidin (p.2304·3).
Vascular disorders.

Bioflex *Rottapharm, Chile.*
Glucosamine sulfate (p.2313·2).
Lidocaine hydrochloride (p.1862·3) is included in the injection to alleviate the pain of injection.
Degenerative joint disorders.

Bioflogil *Spedrog, Arg.*
Chondroitin sulfate sodium (p.2280·3).
Osteoarthritis; osteoporosis.

Bioflor *Biocodex, Hong Kong.*
Saccharomyces boulardii (p.2372·3).
Diarrhoea; irritable bowel syndrome.

Bioflora
Note. A similar name is used for preparations of different composition (see below).
Sidus, Arg.
Lactobacillus casei (p.2372·3); *Lactobacillus plantarum*; *Enterococcus faecalis* (p.2372·3); *Bifidobacterium brevis* (p.2372·3).
Restoration of gastrointestinal flora.

Bio-Flora
Note. A similar name is used for preparations of different composition (see above).
Maver, Chile.
Saccharomyces boulardii (p.2372·3).
Diarrhoea.

Bioflorin
Note.This name is used for preparations of different composition.
Sanova, Austria.
Live *Enterococcus faecium* (p.2372·3).
Gastrointestinal disorders.

Hebron, Braz.†.
Saccharomyces cerevisiae (p.1998·3).
Diarrhoea; restoration of gastrointestinal flora.

Sanofi-Aventis, Ital.; Sanofi Synthelabo, Switz.
Lactic-acid-producing enterococci (p.2372·3).
Gastrointestinal disorders.

Bioflox *Bioresearch, Mex.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Biofloxcin *Niche, Irl.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Biofloxin *Biochem, India.*
Norfloxacin (p.309·2).
Bacterial infections.

Bioflox-TZ *Biochem, India.*
Norfloxacin (p.309·2); tinidazole (p.848·3).
Bacterial infections.

Bioflu *United Laboratories, Philipp.*
Phenylpropanolamine hydrochloride (p.1569·3); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Allergic rhinitis; cold and influenza symptoms; sinusitis.

Biofluor Ortodoncia *Distrifarma, Port.†.*
Sodium fluoride (p.1962·2); cetylpyridinium chloride (p.1635·1).
Oral hygiene.

Biofluor Plus *Distrifarma, Port.†.*
Chlorhexidine gluconate (p.1635·3); sodium fluoride (p.1962·2).
Oral hygiene.

Biofluor Prevencao *Distrifarma, Port.†.*
Chlorhexidine gluconate (p.1635·3); sodium fluoride (p.1962·2).
Oral hygiene.

Biofluor Sensitive *Distrifarma, Port.†.*
⊗ Potassium nitrate (p.1658·3); cetylpyridinium chloride (p.1635·1); sodium fluoride (p.1962·2).
Gingivitis; sensitive teeth.

Bioflusin *Bioresearch, Mex.*
Paracetamol (p.108·1); caffeine (p.1116·3); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Hay fever.

Bioflutin *Sudmedica, Ger.*
⊗ Etilefrine hydrochloride (p.1284·1).
Hypotension.

Biofolic *Esseti, Ital.*
Calcium mefolinate pentahydrate (p.1932·2).
Antidote to folic acid antagonists; folic acid deficiency; reduction of aminopterin and methotrexate toxicity.

Biofos *Meprofarm, Indon.*
Echinacea (p.2298·1); curcuminoid; fructo oligosaccharide; taurine (p.2395·2); phyllanthus niruri.
Digestive disorders; immunostimulant; reduced appetite.

Biofreeze
Note.This name is used for preparations of different composition.
Shield, Irl.
Isopropyl alcohol (p.1650·3); maté (p.2416·1); menthol (p.2340·1); camphor (p.2273·2).
Musculoskeletal and joint pain.

Lane, UK.
Menthol (p.2340·1); maté (p.2416·1).
Musculoskeletal and joint pain.

Biofrin *Sophia, Mex.*
⊗ Polymyxin B (p.318·2); neomycin (p.305·1); naphazoline (p.1565·1).
Eye disorders.

Biofructose *Bunker, Braz.*
Vitamin B substances, ascorbic acid, and fructose (p.1922·1).

Biofrut *Neckerman, Braz.†.*
Fructose (p.1945·1); ascorbic acid (p.1983·3).

Bioftal *Lafedar, Arg.*
Chloramphenicol (p.239·3); neomycin sulfate (p.305·1); phenylephrine hydrochloride (p.1568·1).

Biofurex *KBR, Ital.†.*
Cefuroxime sodium (p.238·2).
Bacterial infections.

Biofurin *Bioresearch, Mex.*
Nitrofurantoin (p.308·1).
Urinary-tract infections.

Biofuroksym *Bioton, Pol.*
Cefuroxime sodium (p.238·2).
Bacterial infections.

Biofuroso *Bioresearch, Mex.*
Ferrous fumarate (p.1938·3).
Iron deficiency anaemia.

Biogal *Gal, Pol.†.*
Borage oil (p.2267·3).
Atherosclerosis; cardiovascular disorders; eczema.

Biogam *Biogam, Switz.†.*
Trace element preparations (p.1922·1).

Biogamma *Asubio, Jpn.*
Interferon gamma-1a (p.893·3).
Skin lymphoma.

Biogaracin *Biochem, India.*
Gentamicin sulfate (p.282·1).
Bacterial infections.

Biogastron *Bernofarm, Indon.*
Aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); dimeticone (p.1770·2).
Dyspepsia; flatulence; gastric hyperacidity; gastritis; peptic ulcer.

Biogat *Biochem, India†.*
Gatifloxacin (p.281·1).
Bacterial infections.

Biogaze
Note.This name is used for preparations of different composition.
OJG, Belg.
Dodeclonium bromide (p.1642·3); lidocaine hydrochloride (p.1862·3).
Skin disorders.

Zambon, Fr.†.
Niaouli oil (p.2351·3); thyme oil (p.2401·2).
Burns.

Biogel
Note.This name is used for preparations of different composition.
Prater, Chile.
Ketoconazole (p.539·1).
Fungal scalp infections.

Ghimas, Ital.
Royal jelly (p.2382·1).

Biogelat Vitamin E *Metochem, Cz.†.*
dl-Alpha tocoferil acetate (p.1992·3).
Vitamin E deficiency.

Bio-Gelin *Northia, Arg.†.*
Chloramphenicol (p.239·3).
Bacterial infections.

Biogena Dermo *Valetudo, Ital.*
Soap substitute.

Biogenol *Chemopharma, Chile; Hakay, Turk.*
Vitamin A palmitate; calcium ascorbate; alpha tocoferil acetate; selenium yeast; zinc gluconate; copper gluconate (p.1922·1).
Nutritional supplement; vitamin B deficiency.

Biogesic *Biomedis, Hong Kong; Biomedis, Indon.; Probus, Indon.; Biomedis, Malaysia; United Laboratories, Philipp.; Biomedis, Singapore; Biomedis, Thai.; Great Eastern, Thai.*
Paracetamol (p.108·1).
Fever; pain.

Bioget *Michallik, Ger.†.*
Tannic acid (p.2394·3); cetylpyridinium chloride (p.1635·1).
Burns; wounds.

BioGinkgo
Note. A similar name is used for preparations of different composition (see below).
Pharmanex, USA.
Ginkgo biloba (p.2311·1).
Nutritional supplement.

Bioginko
Note. A similar name is used for preparations of different composition (see above).
Indofarma, Pol.
Ginkgo biloba (p.2311·1); ginseng (p.2312·1).
Mental function impairment; tonic.

Bioglan Acidophilus *Bioglan, Austral.*
Lactobacillus acidophilus (p.2372·3).
Diarrhoea; restoration of gastrointestinal flora.

Bioglan Arthri Plus *Bioglan, Austral.*
Celery seed oil (p.2278·3); evening primrose oil (p.2302·1); fish oil (p.1362·2); devil's claw root (p.39·1); salix (p.121·3).
Arthritis; rheumatism; sports injuries.

Bioglan 3B Beer Belly Buster *Bioglan, Austral.*
Garcinia (p.2309·2); chromium trichloride (p.1934·3); pectin (p.2145·2); methylcellulose (p.2145·1); guarana (p.2416·1); St John's wort (p.422·3).
Obesity.

Bioglan Bioage Peripheral *Bioglan, Austral.*
Viola tricolor (p.2415·2); crataegus (p.2289·1); olive (p.2356·2); magnesium orotate (p.2358·3); *d*-alpha tocoferil acid succinate (p.1993·1).
Peripheral circulatory disorders.

Bioglan The Blue One *Bioglan, Austral.*
Avena (p.2262·1); tribulus terrestris (p.2404·1); damiana (p.2292·1); capsicum (p.2276·2); eschscholtzia californica; zinc amino acid chelate (p.2000·1); rutoside (p.2305·1).
Tonic for males.

Bioglan Cal C *Bioglan, Austral.*
Calcium ascorbate (p.1984·1).
Vitamin C supplement.

Bioglan Cirflo *Bioglan, Austral.†.*
Rutoside (p.2305·1); bioflavonoids (p.2304·1); nicotinic acid (p.1957·3); calcium ascorbate (p.1984·1); calcium gluconate (p.1675·3); aesculus (p.2248·2); hamamelis (p.2318·2); pulsatilla (p.2376·3); butcher's broom (p.2270·3).
Peripheral circulatory disorders.

Bioglan Cranbiotic Super *Bioglan, Austral.*
Cranberry (p.2289·1); taraxacum (p.2395·1); bearberry (p.2263·3); buchu (p.2269·3); solidago virgaurea (p.2391·1).
Cystitis.

Bioglan Daily Plus *Bioglan, Austral.*
Vitamin and mineral preparation (p.1922·1).

Bioglan Daily Plus Max *Bioglan, Austral.*
Ginseng; garlic; milk thistle; bladderwrack; lecithin; vitamins; minerals (p.1922·1).
Tonic.

Bioglan Digestive Zyme *Bioglan, Austral.*
Betaine hydrochloride (p.2265·2); glutamic acid (p.1947·1); pepsin (p.2365·1).
Achlorhydria; hypochlorhydria.

Bioglan Discone *Bioglan, Austral.†.*
Vitamin and mineral preparation (p.1922·1) with bromelain (p.2269·1) and papain (p.2362·3).
Arthritis; rheumatism; sports injuries.

Bioglan Easy Bronz *Bioglan, Austral.*
Lycopersicon esculatum.
Skin tanning.

Bioglan Formula Four *Bioglan, Austral.*
Vitamin and mineral preparation (p.1922·1).

Bioglan Ginger-Vite Forte *Bioglan, Austral.*
Ginger oil (p.1732·3); ginger (p.1732·3); evening primrose oil (p.2302·1).
Arthritis; rheumatism; sports injuries.

Bioglan Ginsynergy *Bioglan, Austral.*
Ginseng (p.2312·1); eleutherococcus senticosis root (p.2386·3); withania somnifera; panax quinquefolium.
Tonic.

Bioglan Hemo Factor *Bioglan, Austral.*
Vitamin preparation with iron and folic acid (p.1922·1).
Anaemia.

Bioglan Joint Mobility *Bioglan, Austral.*
Glucosamine sulfate (p.2313·2); turmeric (p.1473·2); boswellia serrata (p.2307·1); capsicum (p.2276·2); zinc gluconate (p.1999·2); manganese amino acid chelate (p.1956·3).
Musculoskeletal and joint disorders.

Bioglan Liver-Vite *Bioglan, Austral.*
Milk thistle (p.1452·1).
Liver disorders.

Bioglan Maxepa *Bioglan, Austral.*
Fish oil (p.1362·2).
Atherosclerosis; hypertriglyceridaemia.

Bioglan Mega C *Bioglan, Austral.*
Ascorbic acid (p.1983·3); rose fruit (p.2381·2); hesperidin (p.2304·3).
Vitamin C supplement.

Bioglan Mens Super Soy/Clover *Bioglan, Austral.*
Red clover (p.2285·1); soya bean (p.1965·3); saw palmetto (p.2192·3); damiana (p.2292·1); calcium hydrogen phosphate (p.1676·1).
Male menopausal disorders.

Bioglan Micelle A plus E *Bioglan, Austral.*
Vitamin A (p.1971·2); *d*-alpha tocoferil acetate (p.1992·3).
Fat malabsorption syndromes; vitamin A and E supplement.

Bioglan Micelle E *Bioglan, Austral.*
d-Alpha tocoferil acetate (p.1992·3).
Vitamin E supplement.

Bioglan Natural E *Bioglan, Austral.*
d-Alpha tocopherol (p.1992·2).
Vitamin E deficiency; vitamin E supplement.

Bioglan Neo Stress *Bioglan, Austral.*
Multivitamin, mineral, and amino-acid preparation (p.1922·1).

Bioglan Organic Mineral *Bioglan, Austral.*
Mineral supplement (p.1922·1).

Bioglan Panazyme *Bioglan, Austral.*
Pancreatin (p.2360·1).
Digestive enzyme supplement.

Bioglan PMT-Eze *Bioglan, Austral.*
Multivitamin and mineral preparation with herbs (bladderwrack, juniper, alchemilla, bearberry, viburnum opulus, vitex agnus castus) (p.1922·1).
Menstrual disorders.

Bioglan Primrose Micelle *Bioglan, Austral.*
Evening primrose oil (p.2302·1).
Eczema; mastalgia.

Bioglan Primrose-E *Bioglan, Austral.*
Evening primrose oil (p.2302·1); *d*-alpha tocopherol (p.1992·2).
Premenstrual syndrome.

Bioglan Pro-Guard *Bioglan, Austral.*
Saw palmetto (p.2192·3).
Benign prostatic hyperplasia.

Bioglan Psylli-Mucil Plus *Bioglan, Austral.*
Ispaghula (p.1737·1); slippery elm (p.2388·2); peppermint leaf (p.1761·2); ginger (p.1732·3); pectin (p.2145·2).
Bowel cleanser.

Bioglan Pygno-Vite *Bioglan, Austral.*
Vitis vinifera (p.2316·3); myrtillus (p.2349·3).
Peripheral circulatory disorders.

Bioglan Silica-Vite *Bioglan, Austral.*
Equisetum (p.2299·3).
Skin disorders; wounds.

Bioglan Soy Power Plus *Bioglan, Austral.*
Red clover (p.2285·1); soya bean (p.1965·3); dioscorea villosa; calcium hydrogen phosphate (p.1676·1).
Isoflavone and calcium supplement.

Bioglan Stress-Relax *Bioglan, Austral.*
St John's wort (p.422·3).
Anxiety; nervous disorders.

Bioglan Sucro *Bioglan, Austral.*
Vitamin and mineral preparation (p.1922·1).

Bioglan Super Cal C *Bioglan, Austral.*
Calcium ascorbate (p.1984·1); citrus bioflavonoids (p.2304·1); hesperidin (p.2304·3); rutoside (p.2305·1); rose fruit (p.2381·2).
Vitamin C supplement.

Bioglan Supercarotene C&E *Bioglan, Austral.*
Betacarotene; *d*-alpha tocoferil acid succinate; ascorbic acid (p.1922·1).
Tonic.

Bioglan Superdophilus *Bioglan, Austral.*
Lactobacillus acidophilus (p.2372·3).
Diarrhoea; restoration of gastrointestinal flora.

Bioglan Synergy B *Bioglan, Austral.*
Vitamin B substances with vitamin C and magnesium (p.1922·1).

Bioglan Vision-Eze *Bioglan, Austral.*
Myrtillus (p.2349·3); ginkgo biloba (p.2311·1).
Eye fatigue; peripheral circulatory disorders; poor night vision.

Bioglan Water Soluble E *Bioglan, Austral.*
d-Alpha tocopherol (p.1992·2).
Vitamin E supplement.

Bioglan Zellulean with Escin *Bioglan, Austral.*
Aesculus (p.2248·2); ginkgo biloba (p.2311·1); vitis vinifera (p.2316·3); bladderwrack (p.2384·2); bioflavonoids (p.2304·1); lecithin (p.2332·2); pectin (p.2145·2); tyrosine (p.1971·1); evening primrose oil (p.2302·1); omega-3 marine triglycerides (p.1362·2); yellow sweet clover (p.2339·2).
Aid to skin tissue repair; obesity.

Bioglan Zinc Chelate *Bioglan, Austral.*
Zinc amino acid chelate (p.2000·1).
Zinc deficiency.

Bioglan Zn-A-C *Bioglan, Austral.*
Ascorbic acid (p.1983·3); vitamin A (p.1971·2); zinc amino acid chelate (p.2000·1); calcium pantothenate (p.1959·3); rutoside (p.2305·1).
Vitamin and mineral supplement.

Bioglic *Biolab Sanus, Braz.*
Glimepiride (p.441·1).
Diabetes mellitus.

Bioglobina *Vargas, Venez.*
Vitamin preparation (p.1922·1).

Bioglufer *Euro-Pharma, Ital.*
Ferrous gluconate (p.1939·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron-deficiency anaemia.

Bioglusil *Bioresearch, Mex.†.*
Tolbutamide (p.463·1).
Diabetes mellitus.

Biogreen *Euro-Pharma, Ital.*
Sodium monofluorophosphate (p.1964·3); propolis (p.2373·3); tabebuia; plant extracts.
Mouth disorders.

Bio-Grip C *Gramon, Arg.*
Aspirin (p.20·3); vitamin C (p.1983·3).
Cold symptoms.

Biogrip Forte *Sanitas, Chile.*
Paracetamol (p.108·1); pseudoephedrine sulfate (p.1571·2); chlorphenamine maleate (p.571·3).
Cold and influenza symptoms.

Biogyl *Biolab, Thai.*
Metronidazole (p.837·1).
Anaerobic bacterial infections.

Biohep *Kee, India†.*
Ornithine aspartate (p.1959·2); pancreatin (p.2360·1).
Liver disorders.

Biohepax *Ducto, Braz.*
Adenosine (p.1202·1); methionine (p.1450·1); betaine (p.2265·2); choline citrate (p.1934·2); pyridoxine hydrochloride (p.1978·2).
Biliary-tract disorders.

Bio-Hep-B *Biotechnology, Israel.*
A hepatitis B vaccine (recombinant) (p.2215·2).
Active immunisation.

Biohes *Biosel, Turk.*
⊗ An etherified starch (p.1065·1) in sodium chloride.
Plasma volume expansion.

Biohist *Adcock Ingram, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); zinc oxide (p.1621·2); calamine (p.1591·2); phenol (p.1656·1).
Skin disorders.

Biohist-LA *Ivax, USA.*
Chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2).
Formerly contained carbinoxamine maleate and pseudoephedrine hydrochloride.
Cold symptoms.

Bio-H-Tin *e+b, Austria; e+b, Ger.; e+b, Hung.; Gebro, Switz.*
Biotin (p.1931·3).
Biotin deficiency; hair and nail disorders.

Biohulin 70/30, 80/20, and 90/10 *Biobras, Braz.†.*
⊗ A mixture of isophane insulin injection(human, monocomponent) and insulin injection (human, monocomponent) (p.443·2) in the proportions indicated.
Diabetes mellitus.

Biohulin C *Novo Nordisk, Arg.*
⊗ Insulin zinc suspension (human) (p.443·2).
Diabetes mellitus.

Biohulin Lenta *Biobras, Braz.†.*
⊗ Insulin zinc suspension (human, monocomponent) (p.443·2).
Diabetes mellitus.

Biohulin N *Novo Nordisk, Arg.*
⊗ Protamine zinc insulin (human) (p.443·2).
Diabetes mellitus.

Biohulin NPH *Biobras, Braz.*
⊗ Isophane insulin injection (human, monocomponent) (p.443·2).
Diabetes mellitus.

Biohulin Regular *Biobras, Braz.*
⊗ Insulin injection (human, monocomponent) (p.443·2).
Diabetes mellitus.

Biohulin Ultralenta *Biobras, Braz.†.*
⊗ Insulin zinc suspension (crystalline) (human, monocomponent) (p.443·2).
Diabetes mellitus.

Bio-Insulin I *Guidotti, Ital.†.*
⊗ Isophane insulin (human, biosynthetic) (p.443·2).
Diabetes mellitus.

Bio-Insulin 30/70 and 50/50 *Guidotti, Ital.†.*
⊗ Mixtures of insulin injection (human, biosynthetic) and isophane insulin injection (human, biosynthetic) respectively in the proportions indicated (p.443·2).
Diabetes mellitus.

Bio-Insulin L *Guidotti, Ital.†.*
⊗ Insulin zinc suspension (human, biosynthetic) (p.443·2).
Diabetes mellitus.

Bio-Insulin R *Guidotti, Ital.†.*
⊗ Insulin (human, biosynthetic) (p.443·2).
Diabetes mellitus.

Bio-Insulin U *Guidotti, Ital.†.*
⊗ Insulin zinc suspension (crystalline) (human, biosynthetic) (p.443·2).
Diabetes mellitus.

Bioiodine *Bioceuticals, UK.*
Potassium iodate (p.2169·2).

Biojument Plus *Acti Diffusion, Fr.*
Amino-acid, vitamin, mineral, trace-element, and enzyme preparation (p.1922·1).

Biokacin *Rayere, Mex.*
Amikacin sulfate (p.200·3).
Bacterial infections.

Biokadin *Kansuk, Turk.*
Povidone-iodine (p.1659·2).
Oral hygiene; skin disinfection; vaginal infections.

Biokid *Medikon, Indon.*
Vitamins; minerals; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Biokids *Biotherm, Canad.†.*
SPF 35: Avobenzone (p.1589·3); enzacamene (p.1597·1); octocrilene (p.1608·3); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Bioklysm *Biospray, Gr.*
Dibasic sodium phosphate (p.1682·3); monobasic sodium phosphate (p.1682·3).
Bowel evacuation; constipation.

Biokonik *Apotex, Mex.*
Vitamin and mineral preparation (p.1922·1).

Biokur *Biocur, Ger.†.*
Biotin (p.1931·3).
Biotin deficiency.

Biol Preo *Biol, Arg.*
Escherichia coli; *Staphylococcus aureus*; alpha haemolytic streptococcus; *Streptococcus pyogenes*; non-haemolytic streptococcus; *Enterococcus faecalis* (p.2372·3); *Streptococcus pneumoniae*; *Klebsiella pneumoniae*; *Moraxella catarrhalis*; *Pseudomonas aeruginosa*.
Respiratory-tract infections.

Biolac *Angelini, Ital.†.*
Lactulose (p.1738·2).
Constipation.

Biolactine *Sella, Ital.*
Vitamin B substances (p.1922·1), lactic-acid-producing organisms (p.2372·3); myrtillus (p.2349·3).
Nutritional supplement.

Biolactona *Bioresearch, Mex.*
⊗ Spironolactone (p.1400·1).
Hypertension; oedema.

Biolactus *Rider, Chile.*
Lactobacillus rhamnosus (p.2372·3).
Diarrhoea.

Biolactyl *DB, Fr.*
Lactobacillus acidophilus (p.2372·3); *Lactobacillus casei* var *rhamnosus* (p.2372·3).
Maintenance of gastrointestinal flora.

Biolaif *Medix, Mex.*
⊗ Prasterone (p.2124·2).
Tonic.

Biolan *Santen, Ger.*
Sodium hyaluronate (p.2320·1).
Dry eyes.

Biolane *Prater, Chile.*
Pyrithione zinc (p.1611·2).
Dandruff.

Biolanz *Biogalenic, Venez.*
Lansoprazole (p.1739·2).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Biolastin *Ikapharmindo, Indon.*
Collagen (p.2286·1); hydrolastan.
Aid in maintaining skin elasticity.

Biolau *Luchon, Fr.*
Linalol; geraniol (p.2310·3); neroli; d-borneol (p.2268·3); cinol; cineole (p.2282·3); sodium chloride (p.1686·1).
Nasal and oral hygiene.

Biolax *Chatfield Laboratories, UK.*
Bisacodyl (p.1710·1).
Constipation.

Biolectra Calcium *Hermes, Ger.†.*
Calcium carbonate (p.1714·1).
Calcium deficiency; osteoporosis.

Biolectra Magnesium 240 *Hermes, Ger.*
Magnesium oxide (p.1744·1).
Muscular disorders associated with magnesium deficiency.

Biolectra Magnesium 365 *Hermes, Ger.*
Magnesium carbonate (p.1743·1); magnesium oxide (p.1744·1).
Magnesium deficiency.

Biolectra Zink *Hermes, Ger.*
Zinc sulfate (p.1999·2).
Zinc deficiency.

Bioleine *Nutergia, Fr.*
Evening primrose oil (p.2302·1).
Nutritional supplement.

Biolergy *Konimex, Indon.*
Mebhydrolin napadisilate (p.584·3).
Allergic disorders; insect bites; rhinitis; urticaria.

Biolfolic *Biol, Arg.*
Folic acid (p.1940·1).
Megaloblastic anaemia; prevention of neural tube defects.

Biolid
Note. This name is used for preparations of different composition.
Bioresearch, Mex.†.
Loperamide (p.1741·3).
Diarrhoea.

Rovi, Spain.
Ispaghula (p.1737·1).
Constipation; diarrhoea.

Biolina *Bioceuticals, UK.*
Spirulina (p.2392·1).

Biolincom *Otto, Indon.*
Lincomycin hydrochloride (p.293·2).
Bacterial infections.

Biolix *Bioresearch, Mex.*
Domperidone (p.1726·2).
Dyspepsia.

Bio-Logos *Sigma-Tau, Switz.*
Hydroxocobalamin; amino acids (p.1922·1).
Tonic.

Biolon *Ophtapharma, Canad.†; Laboratorios Chile, Chile; Stulln, Ger.; Biotechnology, Israel; Cryopharma, Mex.; Pharmafrica, S.Afr.; Abdi, Turk.*
Sodium hyaluronate (p.2320·1).
Aid in ophthalmic surgery.

Biolone *Pharmafrica, S.Afr.*
Sodium hyaluronate (p.2320·1).
Aid in eye surgery.

Biolorat *Technobio, Mex.; Biogalenic, Venez.*
Loratadine (p.583·3).
Allergic rhinitis; allergic skin disorders; hypersensitivity.

Biolutam *Biotenk, Arg.*
Bicalutamide (p.686·2).
Prostatic cancer.

Biolyse *Key Oncologics, S.Afr.*
Paclitaxel (p.759·1).
Breast cancer; non-small cell lung cancer.

Biolysin *Bernofarm, Indon.*
Vitamins; lysine hydrochloride; NZA (p.1922·1).
Vitamin supplement.

Biomag
Note. This name is used for preparations of different composition.
Baliarda, Arg.
Magnesium pidolate (p.1679·3).
Magnesium supplement.

Lehning, Canad.; Lehning, Fr.
Homoeopathic preparation.

Boniscontro & Gazzone, Ital.
Cimetidine (p.1716·2).
Gastrointestinal hyperacidity; oesophagitis; peptic ulcer; Zollinger-Ellison syndrome.

Sanofi-Aventis, Pol.
Magnesium lactate (p.1679·2).
Magnesium deficiency.

Biomag Vital *Baliarda, Arg.*
Levocarnitine; magnesium pidolate; vitamin B substances; vitamin C (p.1922·1).
Tonic.

Biomagnesin *Madaus, Ger.*
Dibasic magnesium phosphate (p.1680·1); dibasic magnesium citrate.
Magnesium deficiency.

Bio-Magnesium *Phytomed, Switz.*
Homoeopathic preparation.

Bio-Marine Plus *Pharma Nord, Fr.†.*
Omega-3 marine triglycerides (p.1362·2); folic acid; vitamin B (p.1922·1).
Nutritional supplement.

Biomaterna *Biogalenic, Venez.*
Vitamin and mineral preparation (p.1922·1).

Biomax Kid *Biofarma, Mex.*
Vitamins; echinacea (p.1922·1).

Biomega
Note. A similar name is used for preparations of different composition (see below).
Graha, Indon.
Dipyrone (p.49·2); vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2).
Neuralgia; neuritis.

BiOmega
Note. A similar name is used for preparations of different composition (see above).
Usana, Malaysia.
Fish oil; natural tocopherols (p.1922·1).
Dietary supplement.

Biomega-3
Note. This name is used for preparations of different composition.
Usana, Hong Kong†.
Eicosapentaenoic acid (p.1362·1); docosahexaenoic acid (p.1362·1); omega-3 triglycerides (p.1362·1).
Fatty acid supplement.

Usana, Singapore.
Fish oil; mixed natural tocopherols (p.1922·1).
Dietary supplement.

Bio-Melatonin *Pharma Nord, Hung.*
Melatonin (p.2338·3).
Regulation of sleep-wake cycle.

Biomelox *Biogalenic, Venez.*
Meloxicam (p.80·3).
Osteoarthritis; rheumatoid arthritis.

Bioment *Fako, Turk.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Biomesina *Biomep, Mex.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Biomesina Compuesta *Biomep, Mex.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Smooth muscle spasm and pain.

Biometacin *Bioresearch, Mex.*
Indometacin (p.66·3).
Rheumatism.

Biometrix *Schering-Plough, Mex.*
Vitamins; minerals; ginkgo biloba; ginseng (p.1922·1).

Biometrox *Biosintetica, Braz.*
Methotrexate sodium (p.745·2).
Malignant neoplasms.

Biomex *Actavis, Indon.*
Vitamin B (p.1976·3); vitamin B (p.1979·1); vitamin B (p.1980·2).
Anaemias; neuralgia; neuritis; vomiting of pregnancy.

Biomicovo *Biotecnoquimica, Venez.†.*
Arnica (p.2260·2); hamamelis (p.2318·2); St John's wort (p.422·3); calendula (p.2273·1).

Biomida *Biosintetica, Braz.†.*
Flutamide (p.725·1).

Biomin H *Biomin, Cz.*
Calcium; magnesium; phosphorus; trace elements (p.1922·1).
Mineral supplement.

Biomina *Precimex, Mex.†.*
⊗ Albumin (human) (p.1052·1).

Biomineral *Biochimici, Ital.*
Mineral preparation with cystine (p.1922·1).
Nutritional supplement.

Biomineral 5-Alfa *Biochimici, Ital.*
Cucurbita oil; soya oil; evening primrose oil; zinc-rich yeast; green tea; biotin (p.1922·1).
Nutritional supplement; seborrhoea; thinning hair.

Biomineral 5-Alfa Shampoo *Biochimici, Ital.*
Green tea (p.2416·1); biotin; pyridoxine; keratin; collagen (p.2286·1); panthenol.
Seborrhoeic scalp disorders.

Biomineral Donna *Biochimici, Ital.*
Amino acids; minerals; vitamins; millet; cimicifuga; Steromax (palm oil phytosterol) (p.1922·1).
Nutritional supplement for menopausal women.

Bio-Mineral Formula *Blackmores, Austral.*
Mineral preparation (p.1922·1).

Biomineral One *Biochimici, Ital.*
Vitamin and mineral preparation with cystine and methionine (p.1922·1).

Biomineral Plus *Biochimici, Ital.*
Multivitamin and mineral preparation with cystine and methionine (p.1922·1).
Nutritional supplement.

Biomineral Unghie *Biochimici, Ital.*
Amino-acid preparation with vitamins and minerals (p.1922·1).
Nail disorders.

Biominol A *Alter, Spain.*
Vitamin A palmitate (p.1973·1).
Vitamin A deficiency.

Biominol A D *Alter, Spain.*
Vitamin A palmitate (p.1973·1); ergocalciferol (p.1987·1).
Deficiency of vitamins A and D.

Biomira *Ingens, Arg.*
Ketotifen (p.582·2).
Allergic eye disorders.

Biomisen *Bioresearch, Mex.†.*
⊗ Furosemide (p.1292·1).

Biomitin *Bioresearch, Mex.*
Difenidol (p.1723·2).
Nausea and vomiting; vertigo.

Biomoist *Ikapharmindo, Indon.*
Moisturiser.

Biomo-lipon *Biomo, Ger.*
Thioctic acid (p.2400·2) or ethylenediamine thioctate (p.2400·2).
Diabetic polyneuropathy.

Biomona *Bioresearch, Mex.*
Metronidazole (p.837·1).
Vaginitis.

Biomont *Pharmonta, Austria.*
Multivitamin preparation (p.1922·1).

Biomousse *Clement-Thekan, Fr.†.*
Soap substitute.
Feminine hygiene.

Biomoxil *Biochem, India.*
Amoxicillin (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Biomoxil-LB *Biochem, India.*
Amoxicillin (p.202·2); lactobacillus (p.2372·3).
Bacterial infections.

Biomunil *Lusofarmaco, Ital.*
Klebsiella pneumoniae ribosomes and membrane fraction; *Streptococcus pneumoniae* ribosomes; *Streptococcus pyogenes* ribosomes; *Haemophilus influenzae* ribosomes.
Immunostimulant.

Biomunyl uno *Zambon, Ger.*
Ribosomal fraction from *Klebsiella pneumoniae*; *Streptococcus pneumoniae*; *Streptococcus pyogenes*; *Haemophilus influenzae*; membrane fraction from *Klebsiella pneumoniae*.
Respiratory-tract infections.

Biomycetin *JRalph, Philipp.*
Chloramphenicol (p.239·3) or chloramphenicol palmitate (p.239·3).
Bacterial infections.

Bion 3 *Merck, Chile.*
Lactobacillus gasseri (p.2372·3); *Bifidobacterium bifidum*; *Bifidobacterium longum*; vitamins; minerals (p.1922·1).
Dietary supplement.

Bion 3 Adultes *Merck Medication Familiale, Fr.*
Vitamins; minerals; probiotics (p.1922·1).
Tonic.

Bion 3 Seniors *Merck Medication Familiale, Fr.*
Vitamins; minerals; probiotics; ginseng; lutein; myrtillus (p.1922·1).
Tonic.

Bion Tears *Alcon, Austral.; Alcon, Canad.; Alcon, Hong Kong; Alcon, Malaysia; Alcon, Singapore; Alcon, Swed.; Alcon, Thai.; Alcon, USA.*
⊗ Dextran 70 (p.1059·3); hypromellose (p.2144·2).
Dry eyes.

Bion Transit *Merck Medication Familiale, Fr.*
Lactobacillus plantarum.
Digestive disorders; maintenance of gastrointestinal flora.

Bionafil *Bioresearch, Mex.*
Enalapril (p.1276·1).
Hypertension.

Bionagre *Phytobiolab, Fr.*
Evening primrose oil (p.2302·1).
Atopy; dry skin disorders; premenstrual syndrome.

Bionagre plus E *Bio-Sante, Canad.*
Linoleic acid (p.2308·2); linolenic acid (p.1362·1); vitamin E (p.1992·2).

Bionagrol *Biophytarom, Fr.*
Evening primrose oil (p.2302·1).
Nutritional supplement.

Bionagrol Plus *Biophytarom, Fr.*
Evening primrose oil (p.2302·1); omega-3 fatty acids (p.1362·1).
Nutritional supplement.

Bionaryl *Bioresearch, Mex.*
Diphenhydramine (p.577·1).
Hypersensitivity.

Bionder-C *Bioresearch, Mex.*
Clioquinol (p.254·1).
Skin infections.

Bionect *JSJ, USA.*
Sodium hyaluronate (p.2320·1).
Facial wrinkles and folds.

Bionet *Church & Dwight, Canad.*
Benzocaine (p.1854·1); cetalkonium chloride (p.1634·1).
Mouth and throat disorders.

Bioneural B12 *Labinca, Arg.†.*
Ibuprofen (p.64·2); hydroxocobalamin (p.1980·3).
Pain.

Bioneuril *Bioresearch, Mex.*
Carbamazepine (p.471·3).
Epilepsy.

Bionicard *Rottapharm, Ital.*
Nicardipine hydrochloride (p.1348·1).
Angina pectoris; hypertension.

Bionif *Bioprogress, Ital.†.*
Nifedipine (p.1350·1).
Angina pectoris; hypertension.

Bionit *Technobio, Mex.*
Nitazoxanide (p.842·3).
Amoebiasis; lambliasis; trichomoniasis; worm infections.

Bionobal *Bioresearch, Mex.*
Hydralazine (p.1307·2).
Hypertension; oedema.

Bionokaltran *Bioresearch, Mex.*
Calcium (p.1675·2).
Calcium deficiency.

Bionol *Bioresearch, Mex.*
Allopurinol (p.552·2).
Hyperuricaemia.

Bionolip *Bioresearch, Mex.*
Bezafibrate (p.1232·1).
Hyperlipidaemias.

bioNorm mit Konjak *Merck, Ger.†.*
Glucomannan (p.2312·3).
Obesity.

Bionoxol *Bioresearch, Mex.*
Ambroxol (p.1550·3).
Respiratory-tract disorders.

Bionutrin *Biomedis, Thai.; Great Eastern, Thai.*
Multivitamin and mineral preparation (p.1922·1).

Bionutrion *Mugi, Indon.*
Vitamin B substances; vitamin D; vitamin E; calcium hypophosphite; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Biopafen *Bioresearch, Mex.*
Propafenone (p.1380·2).
Arrhythmias.

Biopank *Kee, India†.*
Pancreatin (p.2360·1).
Digestive disorders.

Bioparox *Servier, Cz.; Servier, Hung.; Servier, Pol.; Egis-Servier, Rus.*
Fusafungine (p.279·2).
Respiratory-tract infections.

Biopatch *Johnson & Johnson, Ital.*
Hydrophilic polyurethane dressing (p.1611·1); chlorhexidine gluconate (p.1635·3).
Wounds.

Biopause *Monin, Fr.*
Soya bean (p.1965·3); magnesium lactate (p.1679·2); yam.
Menopausal disorders.

Biopause solution intime *Monin, Fr.*
Soya bean (p.1965·3); plantain (p.2369·3); macadamia oil.
Personal hygiene during the menopause.

Biopaxel *Biosintetica, Braz.*
Paclitaxel (p.759·1).
Malignant neoplasms.

Bio-Pen *Biotech, S.Afr.*
Benzylpenicillin sodium (p.213·1).
Bacterial infections.

Biopensyn *Biomedis, Indon.; Medifarma, Indon.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Biopental *OM, Port.*
Lysates of *Streptococcus pneumoniae*; *Moraxella catarrhalis*; *Staphylococcus aureus*; *Klebsiella pneumoniae*; *Haemophilus influenzae*; *Streptococcus pyogenes*.
Respiratory-tract infections.

Bioperazone *Biopharma, Ital.*
Cefoperazone sodium (p.227·1).
Bacterial infections.

Biophase *Ecofarm, Ital.*
Soap substitute.

Biophase Shampoo *Ecofarm, Ital.*
Piroctone olamine (p.1610·1); salicylic acid (p.1612·2); glycolic acid (p.1598·1); cinnamon (p.2283·1); clove (p.2284·3); gaultheria procumbens.
Seborrhoeic scalp disorders.

Biophase Zinco Amidata *Ecofarm, Ital.*
Barrier preparation.

Biophen *Ilsan, Turk.*
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Biophenicol *Biochem, India.*
Chloramphenicol sodium succinate (p.240·1).
Bacterial infections.

Biopime *Biochem, India.*
Cefepime hydrochloride (p.223·3).
Bacterial infections.

Biopin *Biopin, Rus.†.*
Pine resin (p.2286·2).
Burns; musculoskeletal, joint, and soft-tissue disorders; skin disorders; ulcers; wounds.

Biopiper *Bioprogress, Ital.†.*
Piperacillin sodium (p.315·2).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Biopirox *Biogalenic, Venez.†.*
Piroxicam (p.117·3).
Inflammation; musculoskeletal and joint disorders.

Bioplacenton *Kalbe, Indon.*
Neomycin sulfate (p.305·1); placenta extract (p.2337·3).
Burns; skin infections; ulcers; wounds.

Bioplak *Ern, Spain.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

bioplant-Kamillenfluid *Serum-Werk Bernburg, Ger.†.*
Chamomile (p.2279·3); calendula (p.2273·1).
Bedsores; mouth inflammation; skin inflammation.

Bioplasma FDP *NBI, S.Afr.*
⊗ Plasma protein fraction (p.1076·2).
Fluid depletion; haemorrhagic disorders.

Bioplatinex *Biogalenic, Venez.*
Carboplatin (p.693·1).
Malignant neoplasms.

Bioplatino *Biosintetica, Braz.†.*
Cisplatin (p.698·2).
Malignant neoplasms.

Bioplazma *Biosel, Turk.*
⊗ An etherified starch (p.1065·1) in sodium chloride.
Plasma volume expansion.

Bioplex
Note. This name is used for preparations of different composition.
Sante Naturelle, Canad.; Fresenius Kabi, Ital.
Vitamin B substances (p.1922·1).
Parenteral nutrition.

Teva, UK†.
Carbenoxolone sodium (p.1714·3).
Mouth ulcers.

Bioplus *Adcock Ingram, S.Afr.*
Caffeine; vitamins; calcium (p.1922·1).
Tonic.

Bioposide *Biochem, India.*
Etoposide (p.718·1).
Malignant neoplasms.

Biopram *Bioresearch, Mex.*
Metoclopramide (p.1747·3).
Nausea and vomiting.

Bioprazol *Klinger, Braz.†; Biofarm, Pol.*
Omeprazole (p.1753·1).
Acid aspiration; gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Biopril *Biochem, India.*
Lisinopril (p.1325·2).

Biopril-AM *Biochem, India†.*
Lisinopril (p.1325·2); amlodipine besilate (p.1214·1).

Bioprim *Norma (Νορμα), Gr.†; Bioresearch, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; toxoplasmosis.

Bioprofol *Biosintetica, Braz.†.*
Propofol (p.1791·1).
General anaesthesia.

Bioprol *Bioresearch, Mex.*
⊗ Metoprolol (p.1338·1).
Hypertension.

Bioprost
Note. This name is used for preparations of different composition.
Indofarma, Pol.
Saw palmetto (p.2192·3).
Benign prostatic hyperplasia.

Intelpharm, Rus.
Cucurbita oil (p.2290·2); thymol (p.1664·3).
Benign prostatic hyperplasia; prostatitis.

Bioprotect *Grossman, Mex.*
Vitamin and mineral preparation (p.1922·1).

Bioprotus *Carrare, Fr.*
Lactic-acid-producing organisms (p.2372·3).
Maintenance of gastrointestinal flora.

Bioptan *Biofarma, Turk.*
Propyphenazone (p.119·3); caffeine (p.1116·3).
Pain.

Biopten *Asubio, Jpn.*
Sapropterin hydrochloride (p.2383·2).
Genetic metabolic disease.

Bioptic *Bausch & Lomb, Arg.*
Tobramycin (p.354·1).
Bacterial eye infections.

Bioptic DX *Bausch & Lomb, Arg.*
⊗ Tobramycin (p.354·1); dexamethasone (p.1526·1).
Infected eye disorders.

Bioptimum *Boiron, Port.*
A range of amino-acid, vitamin and mineral preparations (p.1922·1).

Biopto-E *Jenapharm, Ger.*
d-Alpha tocopherol (p.1992·2).
Vitamin E deficiency.

Biopulmin *Grunenthal, Chile.*
Erdosteine (p.1560·1).
Respiratory-tract congestion.

Bioquel *Biotecnoquimica, Venez.*
Procaine hydrochloride (p.1869·1).
Local anaesthesia.

Bioquidan *Bioresearch, Mex.*
Dextromethorphan (p.1555·2).
Coughs.

Bioquil *Atral, Port.*
Ofloxacin (p.310·2).
Bacterial infections.

Bioquin
Note. This name is used for preparations of different composition.
Recalcine, Chile.
Erythromycin ethyl succinate (p.269·3); sulfafurazole (p.338·3).
Bacterial infections.

Ikapharmindo, Indon.
Hydroquinone (p.1598·2).
Skin pigmentation disorders.

Bio-Quinon Q10 Super *Pharma Nord, Fr.†.*
Ubidecarenone (p.2407·2).
Nutritional supplement.

Bio-Quinone *Pharma Nord, Malaysia; Pharma Nord, Thai.*
Ubidecarenone (p.2407·2).
Heart failure.

Bioracef *Bioton, Pol.*
Cefuroxime axetil (p.238·2).
Bacterial infections.

Bioral *Smith & Nephew, Austral.; Merck Consumer, UK†.*
Carbenoxolone sodium (p.1714·3).
Mouth ulcers.

Bioralin *Bioresearch, Mex.*
⊗ Chlortalidone (p.1243·3).
Heart failure; hypertension.

Bioran *Bioresearch, Mex.*
Methenamine (p.298·3).
Urinary-tract infections.

Biordyn *Bioresearch, Mex.*
⊗ Isosorbide (p.1317·2).

Bioregime *Azevedos, Port.†.*
Glucomannan (p.2312·3).
Obesity.

Bioregime Fort *Azevedos, Port.†.*
Glucomannan (p.2312·3); yeast (p.1998·3).
Obesity.

Bioregime SlimKit
Note. This name is used for preparations of different composition.
Azevedos, Port.†.
Capsules: Glucomannan (p.2312·3); bromelains (p.2269·1).
Obesity.

Azevedos, Port.†.
Topical gel: Caffeine (p.1116·3).
Obesity.

Biorenyn *Bioresearch, Mex.*
⊗ Salbutamol (p.1131·2).
Asthma.

Bioretin *Medikon, Indon.*
Betacarotene (p.1930·3); myrtillus (p.2349·3); tribulus terrestris (p.2404·1).
Dietary supplement for eye health.

Bioreucam *Angenerico, Port.†.*
Tenoxicam (p.128·2).
Gout; musculoskeletal, joint, and peri-articular disorders.

Bioreunil *Bioresearch, Mex.†.*
Carbamazepine (p.471·3).
Epilepsy.

Biorevit Gel *DNR, Arg.†.*
Aloe vera (p.1588·2).
Skin disorders.

Biorevit Labial *DNR, Arg.*
Oxybenzone (p.1608·3).

Biorevit Solar 15 *DNR, Arg.†.*
Titanium dioxide (p.1617·3); aminobenzoic acid (p.1589·1).
Sunscreen.

Biorgan
Note. This name is used for preparations of different composition.
Ivax, Arg.
Trimebutine maleate (p.2404·3).
Gastrointestinal disorders.

Royal, Chile†.
Vitamin B substances; methionine; cystine; zinc; gelatin (p.1922·1).
Hair and nail disorders.

Biorgan B *Ivax, Arg.*
Trimebutine maleate (p.2404·3); bromazepam (p.964·3).
Gastrointestinal disorders.

Biorgasept *Biorga, Fr.*
Chlorhexidine gluconate (p.1635·3).
Disinfection of skin and wounds; skin infections.

Biorinil *Farmila, Ital.*
⊗ Betamethasone (p.1518·2); tetryzoline hydrochloride (p.1574·1).
Rhinitis; rhinopharyngitis; sinusitis.

Biorisan *Vocate, Gr.*
Amikacin (p.200·2).
Bacterial infections.

Bio-Ritmo *Medinfar, Port.†.*
Arginine aspartate; pyridoxine hydrochloride; pangamic acid (p.1922·1).
Tonic.

Biormon *Amsa, Ital.†.*
Estradiol benzoate (p.2097·2); progesterone (p.2125·1).
Amenorrhoea; oligomenorrhoea.

Biorox *Biochem, India.*
Roxithromycin (p.331·1).
Bacterial infections.

Biorphen *Alliance, UK.*
Orphenadrine hydrochloride (p.812·1).
Drug-induced extrapyramidal disorders; parkinsonism.

Biorrub *Biosintetica, Braz.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Biortan *Biogalenic, Venez.*
Losartan potassium (p.1326·1).
Heart failure; hypertension.

Biortho *Nutergia, Fr.*
Vitamin and mineral preparation (p.1922·1).
Nutritional supplement.

Biorubina *IBA, Pol.*
Doxorubicin hydrochloride (p.712·2).
Malignant neoplasms.

Bios Life *Unicity, Singapore.*
Guar gum; acacia; ceratonia; pectin; oat fibre; vitamins; phytosterols; calcium carbonate; beta-glucan; chrysanthemum morifolium; policosanol; zinc gluconate; selenium yeast; chromium yeast (p.1922·1).
Dietary supplement.

Biosal
Note. This name is used for preparations of different composition.
Yauyip, Austral.†.
Methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2); eucalyptus oil (p.2301·2); pumilio pine oil (p.2376·3).
Arthritis pain.

Bioprogress, Ital.†.
Nimesulide (p.95·3).
Fever; inflammation; pain.

Biosal Arthritis *Yauyip, Austral.*
Thurfyl salicylate (p.129·1); methyl salicylate (p.85·3); menthol (p.2340·1); camphor (p.2273·2); eucalyptus oil (p.2301·2); pumilio pine oil (p.2376·3).
Arthritis.

Biosan E *Hexal, Ger.*
dl-Alpha tocoferil acetate (p.1992·3).
Vitamin E deficiency.

Biosan Zink *Biocur, Ger.†.*
Zinc sulfate (p.1999·2).
Zinc deficiency.

Biosanbe *Sanbe, Indon.*
Ferrous gluconate (p.1939·1); manganese sulfate; copper sulfate; folic acid (p.1940·1); cyanocobalamin (p.1980·2); intrinsic factor (p.2326·3).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Anaemias.

Bioscalin *Giuliani, Ital.*
Multivitamin and mineral preparation with methionine (p.1922·1).
Hair and nail disorders.

Bioscalin Tricoage+ *Giuliani, Ital.*
Multivitamin and mineral preparation (p.1922·1).
Hair disorders.

Bioscefal *Unibios, Spain†.*
Cefalexin (p.218·2).
Bacterial infections.

Bioscina Composta *Biochimico, Braz.†.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Smooth muscle spasm.

Biosedon *Sabona, Ger.†.*
Valerian (p.2410·1); passion flower (p.2363·2); lupulus (p.2335·2).
Anxiety disorders; sleep disorders.

Bio-Sel *Ache, Braz.†.*
Betacarotene; selenium; alpha tocoferol; ascorbic acid (p.1922·1).

Bio-Selenium *Herbaxt, Fr.*
Selenium (p.1961·1) from *Saccharomyces cerevisiae*; alpha tocoferil acetate (p.1992·3); wheat-germ oil (p.2415·1).
Muscular disorders; skin disorders.

Bioselenium *Uriach, Spain.*
Selenium sulfide (p.1613·1).
Skin and scalp disorders.

Bio-Selenium Zinc *Pharma Nord, Thai.*
Multivitamin preparation with selenium (p.1961·1) and zinc (p.1999·1) (p.1922·1).
Selenium and zinc deficiencies.

Biosemida *Biogalenic, Venez.*
⊗ Furosemide (p.1292·1).

Biosern *Bioprogress, Ital.†.*
Saw palmetto (p.2192·3).
Benign prostatic hyperplasia.

Biosetron *Medicus, Gr.*
Ondansetron (p.1756·3).

Biosil *Enzpharma, NZ†.*
Orthosilicic acid (p.2146·2).
Nutritional supplement.

BioSil *Bio Minerals, Philipp.*
Silicon dioxide (p.2146·2); choline; glycerol; water.
Silicon supplement.

Biosim *Biochem, India†.*
Simvastatin (p.1390·2).
Hyperlipidaemias.

Biosint *Liomont, Mex.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Biosonida *Biogalenic, Venez.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; obstructive airways disease.

Biosonide *Medicus, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Biosorb *Nutricia, Turk.*
A range of preparations for enteral nutrition (p.1922·1).

Biosotal *Sanofi-Aventis, Pol.*
⊗ Sotalol hydrochloride (p.1398·2).
Arrhythmias.

Biosoviran *Bioprogress, Ital.*
Pipemidic acid (p.315·1).
Urinary-tract infections.

Biospasmil *Biomed Lublin, Pol.*
Papaverine hydrochloride (p.2191·3); belladonna (p.2263·3).
Smooth muscle spasm.

Bio-Sport *Pharma Nord, Fr.†.*
Capsules, fish oil; borage oil; tablets, betacarotene; vitamins; minerals (p.1922·1).
Nutritional supplement.

Biostan *Bioresearch, Mex.*
Astemizole (p.567·2).

Biostate *CSL, Austral.; CSL, NZ.*
A factor VIII preparation (human) (p.1067·1).
Haemophilia A.

Biostatik *Pharos, Indon.*
Roxithromycin (p.331·1).
Bacterial infections.

Bi-Osteo *Synergia, Fr.*
Calcium carbonate; fish oil; evening primrose oil (p.2302·1); vitamins; minerals (p.1922·1).
Nutritional supplement.

Bioster *Terramedic, Philipp.*
⊗ Prednisone (p.1542·3).
Corticosteroid.

Biosteron *Lek-Am, Pol.*
⊗ Prasterone (p.2124·2).
Prasterone deficiency.

Biostim *Sanofi-Aventis, Braz.; Aventis, Cz.; Sanofi-Aventis, Fr.†; Sanofi-Aventis, Ital.; Aventis, Mex.; Aventis, Port.†.*
Klebsiella pneumoniae glycoprotein (p.2329·2).
Burns; prophylaxis of respiratory-tract infection; ulcers; wounds.

Biostimol *Vita Health, Switz.*
Citrulline malate (p.1935·1).
Asthenia.

Biostin
Note. This name is used for preparations of different composition.
Teva, Hung.
Calcitonin (salmon) (p.1093·1).
Osteoporosis.

Bioresearch, Mex.
Glibenclamide (p.440·1).
Diabetes mellitus.

Biostop *Vezedes, Fr.*
Coconut oil (p.2029·2); fruit acids.
Insect repellent.

Bio-Strath
Note. This name is used for preparations of different composition.
Bio-Strath, Cz.†.
Valerian (p.2410·1); passion flower (p.2363·2); peppermint leaf (p.1761·2).
Nervous disorders.

Crefar, Port.†.
Amino-acid, vitamin, and mineral preparation (p.1922·1).
Tonic.

Cedar Health, UK.
Saccharomyces cerevisiae (p.1998·3).

Bio-Strath Artichoke Formula *Cedar Health, UK.*
Cynara (p.2291·2); thistle seeds (p.2285·2); peppermint leaf (p.1761·2); yeast plasmolysate (p.1998·3).
Dyspepsia.

Bio-Strath Valerian Formula *Cedar Health, UK.*
Valerian (p.2410·1); passion flower (p.2363·2); peppermint leaf (p.1761·2); yeast plasmolysate (p.1998·3).
Insomnia; irritability; tension.

Bio-Strath Willow Formula *Cedar Health, UK.*
Salix (p.121·3); primula root (p.2372·2); yeast plasmolysate (p.1998·3).
Musculoskeletal and joint pain.

Bio-Strep *Biotech, S.Afr.*
Streptomycin sulfate (p.333·3).
Bacterial infections.

Biostrogen *Biogalenic, Venez.*
Conjugated oestrogens (p.2087·2).
Menopausal disorders; osteoporosis.

Biostrum *Lapi, Indon.*
Bovine colostrum; docosahexaenoic acid; cod-liver oil; lysine hydrochloride; vitamins; zinc picolinate (p.2001·1) (p.1922·1).
Nutritional supplement.

Biostymina *Phytofarm Kleka, Pol.*
Aloes (p.1705·2).
Immunostimulant; respiratory-tract infections.

Biosulidd L *Biopharm, Philipp.*
⊗ An insulin zinc injection (human) (p.443·2).
Diabetes mellitus.

Biosulin N *Marvel, Rus.*
⊗ Isophane insulin (human) (p.443·2).
Diabetes mellitus.

Biosulin R *Marvel, Rus.*
⊗ Insulin injection (human) (p.443·2).
Diabetes mellitus.

Biotad *Biomedica, Ital.*
Vitamin C; glutathione; thioctic acid; vitamin E (p.1922·1).
Dietary supplement.

Biotaer an Caramelos *Investi, Arg.*
Bacitracin (p.210·3); neomycin (p.305·1); tyrothricin (p.358·2).
Mouth and throat infections.

Biotaer Gamma *Hexal, Arg.†.*
⊗ Immunoglobulin (p.2225·3); neomycin (p.305·1); bacitracin (p.210·3); tyrothricin (p.358·2); phenylephrine hydrochloride (p.1568·1); beclometasone dipropionate (p.1516·2); nystatin (p.543·2).

Biotaer Nasal *Investi, Arg.*
⊗ Framycetin sulfate (p.279·1); gramicidin (p.286·1); triamcinolone hexacetonide (p.1544·3); chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1); naphazoline nitrate (p.1565·2).
Nasal congestion.

Biotaer Nebulizable *Investi, Arg.*
⊗ Nystatin (p.543·2); beclometasone dipropionate (p.1516·2); neomycin (p.305·1); bacitracin (p.210·3); tyrothricin (p.358·2); phenylephrine hydrochloride (p.1568·1).

Biotaer Ultrason Nebulizable *Disprovent, Arg.†.*
⊗ Neomycin (p.305·1); bacitracin (p.210·3); tyrothricin (p.358·2); dexamethasone (p.1526·1); phenylephrine hydrochloride (p.1568·1).

Biotaksym *Bioton, Pol.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Biotamoxal *Hexa, Arg.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Biotanica Feminine *Medikem, Fr.†.*
Soya bean; lupulus; borage oil; spinach leaf; vitamin E; grape extract; vitamin B ; folic acid (p.1922·1).
Nutritional supplement.

Biotanica Ginsemag *Medikem, Fr.†.*
Magnesium glycerophosphate; magnesium lactate; magnesium oxide; ginseng; vitamin B (p.1922·1).
Nutritional supplement.

Biotanica Nocturn *Medikem, Fr.†.*
Melissa; valerian; lupulus; wheat germ; spinach leaf; orange leaf; vitamin B (p.1922·1).
Nutritional supplement; sleep disorders.

Biotanica Pro Energy *Medikem, Fr.†.*
Dried yeast; ginseng; kola; shiitake mushrooms; camelia sinensis; vitamin C; royal jelly; grape extract; B vitamins (p.1922·1).
Nutritional supplement.

Biotanica Regenerance *Medikem, Fr.†.*
Marine carotenoids; omega-3 triglycerides; pumpkin seed; grape extract; selenium; vitamin C; zinc sulfate; camelia sinensis; vitamin E; pantothenic acid; folic acid (p.1922·1).
Nutritional supplement.

Biotanica Uricalm *Medikem, Fr.†.*
Heather flower; meadowsweet; melissa; lithothamme; zinc sulfate; pumpkin seed (p.1922·1).
Micturition disorders; nutritional supplement.

Biotarson N *Ifusa, Mex.*
⊗ Hydrocortisone acetate (p.1535·2); gramicidin (p.286·1); neomycin (p.305·1).
Bacterial nose infections.

Biotarson O *Ifusa, Mex.*
⊗ Naphazoline (p.1565·1); gramicidin (p.286·1); neomycin (p.305·1).
Bacterial eye infections.

Biotase *YSP, Malaysia; Yung Shin, Singapore.*
Biodiastase (mixed digestive enzymes) (p.2257·1); lipase (p.2360·3); newlase.
Digestive disorders.

Biotassina *Teofarma, Ital.*
Amino acids; vitamin B substances (p.1922·1); calcium gluconate (p.1675·3).
Lidocaine hydrochloride (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Asthenia.

Biotax
Note. This name is used for preparations of different composition.
Biochem, India.
Cefotaxime sodium (p.228·1).
Bacterial infections.

Faulding, Israel.
Paclitaxel (p.759·1).
Breast cancer; Kaposi's sarcoma; non-small-cell lung cancer; ovarian cancer.

Biotaxel *Medicus, Gr.*
Paclitaxel (p.759·1).
Malignant neoplasms.

Biotaxime *Biolab, Thai.†.*
Cefotaxime sodium (p.228·1).
Bacterial infections.

Biotax-O *Biochem, India.*
Cefixime (p.224·3).
Bacterial infections.

Biotazol *Bioresearch, Mex.*
Metronidazole (p.837·1).
Amoebiasis; giardiasis; trichomoniasis.

Biotecan *Biotenk, Arg.; Biosintetica, Braz.*
Irinotecan hydrochloride (p.737·1).
Colorectal cancer.

Biotel kidney *Biotel, USA†.*
Test for haemoglobin, red blood cells, and albumin in urine.

Biotene *Laclede, Singapore.*
Glucose oxidase (p.2313·3); lactoperoxidase (p.2330·2); muramidase (p.2348·1); lactoferrin (p.2330·1).
Mouth disorders.

Biotene with Calcium *Laclede, USA.*
Propylene glycol (p.2374·1); hyetellose (p.2143·3); aloe vera (p.1588·2); zinc gluconate; calcium lactate; lactoferrin (p.2330·1); muramidase (p.2348·1); lactoperoxidase (p.2330·2); glucose oxidase (p.2313·3).
Dry mouth.

Biotene Dry Mouth *Anglian, UK.*
Lactoperoxidase (p.2330·2); glucose oxidase (p.2313·3); lactoferrin (p.2330·1); muramidase (p.2348·1).
Dry mouth.

Biotene Oralbalance *Anglian, UK.*
Lactoperoxidase (p.2330·2); glucose oxidase (p.2313·3); xylitol (p.1998·2).
Dry mouth.

Biotenor *Biofarma, Braz.†.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Biotenzol *Bioresearch, Mex.†.*
Methyldopa (p.1334·1).
Hypertension.

Bioteral *Northia, Arg.; Itaca, Braz.†.*
Ceftriaxone (p.238·1).
Bacterial infections.

Biotermin AS *Terramedic, Philipp.*
Vitamins (p.1922·1); buclizine hydrochloride (p.570·1).
Appetite stimulant; nutritional supplement.

Bio-Termin Plus with Lecithin *Terramedic, Philipp.*
Vitamins; lecithin; lysine hydrochloride (p.1922·1).
Nutritional supplement.

Bioterona *Biosintetica, Braz.†.*
Cyproterone acetate (p.2088·2).

Biotherm *Biotherm, Canad.*
SPF 15; SPF 25; SPF 30: Avobenzone (p.1589·3); enzacamene (p.1597·1); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Aquasource *Biotherm, Canad.†.*
SPF 15: Ensulizole (p.1597·1); octinoxate (p.1608·2); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Gelee Fraiche Bronzante Hydratante *Biotherm, Canad.†.*
SPF 8: Octinoxate (p.1608·2); enzacamene (p.1597·1); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Gelee Fraiche Hydrantante *Biotherm, Canad.†.*
SPF 10; SPF 15: Avobenzone (p.1589·3); octocrilene (p.1608·3); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Lait Bronzant *Biotherm, Canad.†.*
SPF 8: Octinoxate (p.1608·2); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Lait Protecteur *Biotherm, Canad.†.*
SPF 15: Octinoxate (p.1608·2); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Soin des Levres *Biotherm, Canad.†.*
SPF 8: Octinoxate (p.1608·2).
Sunscreen.

Biotherm Soin Solaire *Biotherm, Canad.†.*
SPF 8: Octinoxate (p.1608·2); ecamsule (p.1596·1); titanium dioxide (p.1617·3).
Sunscreen.

Biotherm Soin Solaire Autobronzant *Biotherm, Canad.†.*
SPF 8: Avobenzone (p.1589·3); enzacamene (p.1597·1); ecamsule (p.1596·1).
Sunscreen.

Biotherm UV Protectant *Biotherm, Canad.†.*
SPF 25: Octinoxate (p.1608·2); oxybenzone (p.1608·3); titanium dioxide (p.1617·3).
Sunscreen.

Biothicol *Sanbe, Indon.*
Thiamphenicol (p.351·1).
Bacterial infections.

Biothrax *Bioport, USA.*
An adsorbed anthrax vaccine (p.2204·1).
Active immunisation.

Biothymus DS
Note. This name is used for preparations of different composition.
Biochimici, Ital.
Face wash: Levomenol (p.2333·3); enoxolone (p.50·1); piroctone olamine (p.1610·1); salix (p.121·3).
Seborrhoeic dermatitis.

Biochimici, Ital.
Scalp lotion: Piroctone olamine (p.1610·1); urtica (p.2409·3); salix (p.121·3); salicylic acid (p.1612·2); menthol (p.2340·1).
Seborrhoeic dermatitis.

Biochimici, Ital.
Shampoo: Pyrithione zinc (p.1611·2); dipotassium glycyrrhizate (p.2316·2).
Seborrhoeic dermatitis.

Biothymus F Urto *Biochimici, Ital.*
Paeonia suffruticosa.
Prevention of hair loss.

Biothymus M Urto *Biochimici, Ital.*
Paeonia suffruticosa; saw palmetto (p.2192·3).
Prevention of hair loss.

Biotic *TRB, Arg.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Bioticaps *Richet, Arg.*
Chloramphenicol (p.239·3).
Bacterial infections.

Bioticic *PS, Ital.*
Cefonicid sodium (p.226·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Gram-negative bacterial infections.

Biotifen *Bioresearch, Mex.*
Ketotifen (p.582·2).
Asthma; hypersensitivity.

Biotin-Asmedic *Dyckerhoff, Ger.*
Biotin (p.1931·3).
Biotin deficiency.

Biotine *ICM, Singapore.*
Tetracycline hydrochloride (p.347·2).
Skin infections.

Biotisan *Hubner, Fin.*
Biotin (p.1931·3).
Biotin deficiency.

Bioton *Sella, Ital.*
Honey (p.1948·2); ginseng (p.2312·1); royal jelly (p.2382·1).
Nutritional supplement.

Biotone *Laphal, Fr.†.*
Kola (p.2416·1); phosphoric acid (p.2367·1); manganese glycerophosphate (p.2315·2).
Tonic.

Biotonus *Gynopharm, Chile.*
Betacarotene; vitamin E; ascorbic acid; minerals (p.1922·1).

Biotrakson *Bioton, Pol.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Biotravel *Carrare, Fr.*
Lactic-acid-producing organisms (p.2372·3).
Maintenance of gastrointestinal flora.

Biotredine *Biomedica-Chemica, Gr.†.*
Etidronate disodium (p.1097·1).
Paget's disease; postmenopausal osteoporosis.

Biotrefon L *Italmex, Mex.*
Cobamamide (p.1980·2).
Tonic.

Biotrefon Plus *Wyeth Consumer, Ital.*
Pollen (p.2370·2); royal jelly (p.2382·1); liver extract (p.2337·3).

Biotrex *Sinterapico, Braz.†.*
Tetracycline (p.347·1).
Bacterial infections.

Biotrexate *Biochem, India.*
Methotrexate (p.745·2).
Malignant neoplasms; psoriasis; rheumatoid arthritis.

Biotriamin *Sophia, Mex.*
⊗ Triamcinolone (p.1544·2); polymyxin B (p.318·2).
Skin disorders.

Biotriax *Sandoz, Indon.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Biotricina *Bioresearch, Mex.*
Tetracycline (p.347·1).
Bacterial infections.

Biotril *Bioresearch, Mex.*
Erythromycin (p.269·2).
Bacterial infections.

Biotrim *Nutravite, Canad.†.*
Thioctic acid (p.2400·2); citrus aurantium (p.2357·1); CLA one; garcinia cambogia (p.2309·2); green tea extract (p.2416·1); guggul lipid extract.
Slimming aid.

Biotrivin *Bioresearch, Mex.*
Vitamin B substances (p.1922·1).
Neuritis; vitamin B supplement.

Biotrixina *Benedetti, Ital.†.*
Cefatrizine (p.221·3).
Bacterial infections.

Biotron *Adcock Ingram, S.Afr.*
Multivitamin and mineral preparation (p.1922·1).

Biotropin *Ivax, Arg.; Enila, Braz.†.*
⊗ Somatropin (p.1799·3).
Growth hormone deficiency; Turner's syndrome.

Bio-Tropin *Biotechnology, Israel.*
⊗ Somatropin (p.1799·3).
Growth disorders in renal failure; growth hormone deficiency; Turner's syndrome.

Bio-TT *Bio Farma, Thai.*
An adsorbed tetanus vaccine (p.2240·1).
Active immunisation.

Biotum *Bioton, Pol.*
Ceftazidime (p.234·1).
Bacterial infections.

Biotuss *Spitzner, Ger.*
Thyme (p.2401·1).
Respiratory-tract congestion.

Biotussil *Biomedica, Cz.*
Gentian (p.2310·3); cowslip (p.2372·2); plantaginis (p.2379·1); sambucus (p.2383·1); thyme (p.2401·1); liquorice (p.1740·3); fennel oil (p.2303·1); anise oil (p.2258·2).
Respiratory-tract disorders.

Biovac HB *Elea, Arg.*
A hepatitis B vaccine (p.2215·2).
Active immunisation.

Biovac-B *Wockhardt, Rus.*
A hepatitis B vaccine (p.2215·2).
Active immunisation.

Bio-Vagin *Elofar, Braz.*
Metronidazole benzoate (p.837·1); nystatin (p.543·2).
Gynaecological infections.

Bioval *Biochem, India†.*
Valdecoxib (p.132·3).

Bioval-P *Biochem, India†.*
Parecoxib (p.112·1).

Biovancomin *Biosintetica, Braz.†.*
Vancomycin hydrochloride (p.358·3).
Bacterial infections.

Biovent *Biomedis, Thai.; Great Eastern, Thai.*
⊗ Salbutamol (p.1131·2); guaifenesin (p.1561·3).
Coughs; obstructive airways disease.

Biovicam *Bioresearch, Mex.*
Amoxicillin (p.202·2).
Bacterial infections.

Biovicam Ex *Bioresearch, Mex.*
Amoxicillin (p.202·2); ambroxol (p.1550·3).
Respiratory-tract infections.

Biovicerin *Geyer, Braz.†.*
Bacillus cereus.
Diarrhoea.

Biovigor *IBSA, Switz.*
Hydroxocobalamin chloride; amino acids (p.1922·1).
Tonic.

Biovinate *Biomedis, Philipp.*
Carboplatin (p.693·1).
Ovarian cancer.

Biovir
Note. This name is used for preparations of different composition.
Ivax, Arg.
Adefovir dipivoxil (p.865·1).
Chronic hepatitis B.

GSK, Braz.
Lamivudine (p.895·1); zidovudine (p.913·3).
HIV infection.

Bioviraz *Bioresearch, Mex.*
Aciclovir (p.862·3).
Herpesvirus infections.

Biovision *Indofarma, Pol.*
Myrtillus (p.2349·3); betacarotene (p.1930·3); vitamin C (p.1983·3); vitamin B (p.1977·2); procyanidin (p.2304·1).
Vascular eye disorders.

Biovit
Note. This name is used for preparations of different composition.
Gerot, Austria.
Multivitamin preparation with iron (p.1922·1).

Biospray, Gr.
Alfacalcidol (p.1986·1).
Vitamin D deficiency.

Biovit-A *Bioceuticals, UK.*
Vitamin A (p.1971·2).

Biovital
Note. This name is used for preparations of different composition.
EMS, Braz.; Roche Consumer, Irl.†; Bayer, Pol.; Nattermann, Rus.
Multivitamin and mineral preparation (p.1922·1).
Tonic; vitamin and iron deficiencies.

Famac, Ital.
Royal jelly (p.2382·1).
Nutritional supplement.

Roche Consumer, Hung.†.
Oral solution: Ferric sodium citrate (p.1950·3); crataegus (p.2289·1); motherwort (p.2347·3); vitamins (p.1922·1).
Iron deficiency; tonic.

Roche Consumer, Hung.†.
Tablets: Ferrous sulfate (p.1939·3); ferric citrate; crataegus (p.2289·1); motherwort (p.2347·3); vitamins (p.1922·1).
Iron deficiency; tonic.

Biovital A, E + Spec B-Komplex *Roche Consumer, Hung.†.*
Multivitamin preparation (p.1922·1).

Biovital Aktiv
Note. This name is used for preparations of different composition.
Roche Consumer, Ger.†.
Oral liquid: Crataegus (p.2289·1); caffeine citrate (p.1116·3); ferrous gluconate (p.1939·1); vitamins.
Tonic.

Roche Consumer, Ger.†.
Tablets: Crataegus (p.2289·1); motherwort (p.2347·3); ferrous sulfate (p.1939·3); vitamins (p.1922·1).
Tonic.

Biovital Classic *Bad Heilbrunner, Ger.*
Crataegus (p.2289·1); motherwort (p.2347·3); ferric sodium citrate (p.1950·3); vitamins.
Tonic.

Biovital Ginseng *Bayer, Switz.*
⊗ Ginseng (p.2312·1); caffeine (p.1116·3); lecithin (p.2332·2); rutoside sodium sulfate (p.2305·2); vitamins; minerals (p.1922·1).
Tonic.

Biovital N *Bayer, Pol.*
Crataegus (p.2289·1); motherwort (p.2347·3); iron; vitamins.
Tonic.

Bio-Vitas *Kyorin, Thai.†.*
Chlorphenamine maleate (p.571·3); -methionine (p.1450·2); vitamin B substances (p.1922·1).
Skin disorders.

Biovitol-C *Bioresearch, Mex.*
Tretinoin (p.1618·1).
Skin disorders.

Biovorin *Biochem, India.*
Calcium folinate (p.1943·3).
Antidote to folic acid antagonists.

Bioxan *Bioresearch, Mex.*
Naproxen (p.92·3).
Inflammation; musculoskeletal and joint disorders.

Bioxel *Bioresearch, Mex.*
Fluconazole (p.532·1).
Fungal infections.

Bioxetin *Sanofi-Aventis, Pol.*
Fluoxetine (p.397·3).
Bulimia; depression; obsessive-compulsive disorder.

Bioxifeno *Biosintetica, Braz.*
⊗ Tamoxifen citrate (p.772·3).
Malignant neoplasms.

Bioxil *Biomep, Mex.*
Captopril (p.1239·2).
Hypertension.

Bioxilina *Northia, Arg.*
Amoxicillin (p.202·2).
Bacterial infections.

Bioxilina Plus *Northia, Arg.*
Amoxicillin (p.202·2); clavulanic acid (p.250·2).
Bacterial infections.

Bioximicina *Bioresearch, Mex.*
Doxycycline (p.267·1).
Bacterial infections.

Bioximil *Bioresearch, Mex.*
Piroxicam (p.117·3).
Inflammation; musculoskeletal and joint disorders.

Bioxon *Otto, Indon.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

BioXtra *Molar, UK†.*
Lactoperoxidase (p.2330·2); lactoferrin (p.2330·1); muramidase (p.2348·1); whey colostrum (p.2208·1); xylitol (p.1998·2).
Dry mouth; oral hygiene; xerostomia.

BioXtra Programme *Pamex, Irl.*
Artificial saliva, toothpaste, and mouthrinse.
Dry mouth.

Bioxyllin *Biomedis, Indon.; Medifarma, Indon.*
Amoxicillin (p.202·2).
Bacterial infections.

Bioxyol *Richard, Fr.*
Zinc oxide (p.1621·2); zinc peroxide (p.1666·3); titanium dioxide (p.1617·3).
Ulcers.

Bioyetin *Probiomed, Mex.*
⊗ Erythropoietin (p.1061·1).
Anaemias.

Biozac *Niche, Irl.*
Fluoxetine hydrochloride (p.391·2).
Depression.

Biozendi *Roemmers Osmoph, Venez.*
Benzydamine hydrochloride (p.27·3).
Inflammation; mouth and throat disorders.

Biozidima *Biogalenic, Venez.*
Ceftazidime (p.234·1).
Bacterial infections.

Bio-Zinc *Herbaxt, Fr.*
Zinc pidolate; vitamin A; vitamin B (p.1922·1).
Nutritional supplement.

Biozirox *Biomedica-Chemica, Gr.*
Aciclovir (p.862·3).
Herpesvirus infections.

Biozitra *BioSaude, Port.*
Azithromycin (p.207·1).
Bacterial infections.

Biozitrom *Biofarma, Braz.†.*
Azithromycin (p.207·1).
Bacterial infections.

Biozole *Biolab, Malaysia; Biolab, Thai.*
Fluconazole (p.532·1).
Fungal infections.

Biozolene *Bioindustria, Ital.†.*
Fluconazole (p.532·1).
Fungal infections.

Biozolin *Novartis, Gr.†; Sandoz, Indon.*
Cefazolin sodium (p.222·1).
Bacterial infections.

Biozoral *Bioresearch, Mex.*
Ketoconazole (p.539·1).
Fungal infections.

Biozosin *Niche, Denm.*
Doxazosin mesilate (p.1275·1).
Benign prostatic hyperplasia; hypertension.

Bipasmin
Note. This name is used for preparations of different composition.
Anchor, Mex.
Oral drops: Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Anchor, Mex.
Tablets: Pargeverine hydrochloride (p.1761·1).
Smooth muscle spasm.

Bipasmin Compuesto *Anchor, Mex.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Formerly contained pargeverine hydrochloride and metamizole magnesium.
Smooth muscle pain and spasm.

Bipasmin Compuesto N *Anchor, Mex.*
Hyoscine butylbromide (p.1734·1); dipyrone (p.49·2).
Smooth muscle spasm.

Bipasmin Compuesto NF *Boehringer Ingelheim Promeco, Mex.†.*
Hyoscine butylbromide (p.1734·1); ibuprofen (p.64·2).
Smooth muscle pain and spasm.

Bipasmin N *Anchor, Mex.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Bipectinol *Adcock Ingram, S.Afr.*
Kaolin (p.1738·1); pectin (p.2145·2); electrolytes (p.1667·1).
Diarrhoea.

Bipencil *Biochimico, Braz.†.*
Ampicillin (p.204·1) or ampicillin sodium (p.204·1).
Bacterial infections.

Bipensaar *MIP, Ger.*
Benzylpenicillin sodium (p.213·1); procaine benzylpenicillin (p.319·2).
Lidocaine hydrochloride (p.1862·3) is included in this preparation to alleviate the pain of injection.
Bacterial infections.

Biperidys *Pierre Fabre, Fr.*
Domperidone (p.1726·2).
Nausea and vomiting.

Biphasil *Wyeth, Austral.†; Akromed, S.Afr.*
21 Tablets, levonorgestrel (p.2121·2); ethinylestradiol (p.2101·3); 7 tablets, inert.
Biphasic oral contraceptive; menstrual disorders.

Biphaston *Agis, Israel†.*
Dydrogesterone (p.2096·2).
Infertility; menorrhagia; menstrual disorders.

Biplatrix *BSN, Fr.*
Dried calcium sulfate (p.2273·1).
External splinting.

Bipodial *Pisa, Mex.†.*
Sodium bicarbonate; sodium chloride (p.1670·3).
Haemodialysis.

Bipolam *GSK, Austria.*
Lamotrigine (p.485·1).
Bipolar disorder; epilepsy.

Bipomax *Janssen-Cilag, Spain.*
Topiramate (p.506·2).
Epilepsy; migraine.

Bi-Pradia *Liferpal, Mex.*
Glibenclamide (p.440·1); metformin (p.453·3).
Diabetes mellitus.

Bipranix *Ashbourne, UK†.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bipredonium *Danval, Spain†.*
⊗ Indapamide (p.1314·1); perindopril (p.1368·2).
Hypertension.

Bipreterax *Servier, Arg.; Therval, Fr.; Servier, Irl.; Servier, S.Afr.; Servier, Spain; Servier, Venez.*
⊗ Perindopril erbumine (p.1368·3); indapamide (p.1314·1).
Hypertension.

Bi-Preterax *Servier, Philipp.*
⊗ Perindopril erbumine (p.1368·3); indapamide (p.1314·1).
Hypertension.

Biprin *Vivax, Venez.*
Pyridoxine (p.1979·1).
Neuritis; premenstrual syndrome; vitamin B deficiency; vomiting.

Bipro *Kenyaku, Thai.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Bi-Profenid *Sanofi-Aventis, Braz.; Aventis, Cz.†; Sanofi-Aventis, Fr.; Aventis, Pol.*
Ketoprofen (p.73·1).
Inflammation; migraine; musculoskeletal, joint, and peri-articular disorders.

Biprol *Makiz-Pharma, Rus.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bipronyl *Pharmachemie, Singapore†.*
Naproxen (p.92·3).
Gout; musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Biquin *AstraZeneca, Canad.*
Quinidine bisulfate (p.1383·1).
Arrhythmias.

Biquinate *Aventis, Austral.*
Quinine bisulfate (p.612·2).
Diagnosis of myasthenia gravis; malaria; muscle cramps; myotonia congenita.

Birac *Pharmacia, Arg.†.*
Stavudine (p.907·1).
HIV infection.

Biral *Altana Madaus, S.Afr.*
Valerian (p.2410·1); passion flower (p.2363·2).
Anxiety; minor nervous disorders.

Biravid *Biex, Irl.*
Ofloxacin (p.310·2).
Bacterial infections.

Birkenkohle comp *Weleda, Austria; Weleda, Ger.*
Homoeopathic preparation.

Birley's *Torbet Laboratories, UK.*
Dried aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); light magnesium carbonate (p.1743·1).
Dyspepsia; flatulence; gastric hyperacidity; heartburn.

Birodogyl *Sanofi-Aventis, Fr.*
Spiramycin (p.333·1); metronidazole (p.837·1).
Bacterial mouth infections.

Bi-Rofenid *Sanofi-Aventis, Belg.*
Ketoprofen (p.73·1).
Inflammation; musculoskeletal, joint, and peri-articular disorders; oedema; pain.

Biron *Douglas, NZ.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Biroxol *Salus, Ital.†.*
Ciclopirox olamine (p.529·2).
Fungal infections.

Birvac *Pharmacia, Arg.†.*
Lamivudine (p.895·1).
HIV infection.

Bisacolax *Valeant, Canad.*
Bisacodyl (p.1710·1).
Constipation.

Bisakol *Yeni, Turk.*
Bisacodyl (p.1710·1).

Bisalax *Aspen, Austral.; Uniao Quimica, Braz.*
Bisacodyl (p.1710·1).
Bowel evacuation; constipation.

Bisa-Lax *Bergen Brunswig, USA.*
Bisacodyl (p.1710·1).
Constipation.

Bisatum *Pliva, Cz.*
Atorvastatin calcium (p.1218·3).
Cardiovascular risk reduction; hypercholesterolaemia.

Biscotto Plasmon *Plasmon, Ital.†.*
Protein, carbohydrate, and lipid preparation with minerals and vitamins (p.1922·1).
Nutritional supplement.

Bisco-Zitron *Biscova, Ger.*
Bisacodyl (p.1710·1).
Constipation.

Bisectron *Corsalud, Venez.*
Bromhexine hydrochloride (p.1552·2).
Cough.

Biseko
Note. This name is used for preparations of different composition.
Biotest, Austria; Biotest, Cz.†; Biotest, Ger.; Biotest, Hung.; Biotest, Thai.
⊗ A plasma protein fraction (p.1076·2).
Haemodilution; hypoalbuminaemia; hypogammaglobulinaemia; hypoproteinaemia; hypovolaemia; passive immunisation; plasma volume expansion.

Biotest, Hong Kong; Biotest, Pol.
⊗ Albumin (p.1052·1).
Hypoalbuminaemia; hypogammaglobulinaemia; hypoproteinaemia; passive immunisation; plasma volume expansion.

Rak, Turk.
A normal immunoglobulin (p.2225·3).
Guillain-Barré syndrome; hypogammaglobulinaemia; idiopathic thrombocytopenic purpura; Kawasaki disease; passive immunisation.

Biselic *ICN, Mex.†.*
Tripotassium dicitratobismuthate (p.1711·2).
Dyspepsia; gastritis; gastro-oesophageal reflux; peptic ulcer.

Biseptine *Bayer Sante, Fr.*
Chlorhexidine gluconate (p.1635·3); benzalkonium chloride (p.1629·1); benzyl alcohol (p.1631·3).
Bacterial skin infections; skin and wound disinfection.

Biseptol *Polfa, Cz.; Medana, Pol.; Polfa Pabianice, Pol.; Pabianice, Rus.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia; toxoplasmosis.

Biserol-Potassium *Bichsel, Switz.*
Electrolyte infusion with glucose (p.1667·1).
Fluid and electrolyte disorders.

Bisidim *Best, Mex.*
Quinfamide (p.846·2).
Amoebiasis.

BI-Sifrol *Boehringer Ingelheim, Jpn.*
Pramipexole (p.814·2).

Bisil *Sriprasit, Thai.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Bisincof *Loeffler, Mex.*
Ambroxol hydrochloride (p.1550·3); loratadine (p.583·3).
Coughs; respiratory-tract congestion.

Biskapect *Adcock Ingram, S.Afr.*
Light kaolin (p.1738·1); apple pectin (p.2145·2); bismuth subcarbonate (p.1711·1).
Diarrhoea.

Bislan *YSP, Malaysia; Yung Shin, Singapore.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bisma Rex
Note. A similar name is used for preparations of different composition (see below).
Novartis Consumer, S.Afr.†.
Bismuth aluminate (p.1710·3); aluminium hydroxide (p.1706·2); magnesium trisilicate (p.1744·1); calcium carbonate (p.1714·1); sodium bicarbonate (p.1673·2); magnesium carbonate (p.1743·1).

Bismag *Wyeth Consumer, Singapore.*
Heavy magnesium carbonate (p.1743·1); light magnesium carbonate; sodium bicarbonate (p.1673·2).
Dyspepsia; gastric hyperacidity.

Bisma-Rex
Note. A similar name is used for preparations of different composition (see above).
3M, UK.
Bismuth subcarbonate (p.1711·1); calcium carbonate (p.1714·1); magnesium trisilicate (p.1744·1); magnesium carbonate (p.1743·1); peppermint oil (p.1761·2).
Dyspepsia; flatulence.

Bismatrol *Major, USA.*
Bismuth salicylate (p.1711·1).
Diarrhoea; dyspepsia; nausea.

Bismed *Technilab, Canad.†; Quimica y Farmacia, Mex.*
Bismuth salicylate (p.1711·1).
Diarrhoea; dyspepsia.

Bismofarma *Farmasa, Mex.*
Tripotassium dicitratobismuthate (p.1711·2).
Peptic ulcer.

Bismolan *Bittermedizin, Ger.†.*
Bismuth subnitrate (p.1711·2); butoxycaine hydrochloride (p.1856·3); zinc oxide (p.1621·2).
Anorectal disorders.

Bismolan H Corti *Bittermedizin, Ger.*
⊗ Prednisolone acetate (p.1541·1); bismuth oxychloride (p.1712·1); zinc oxide (p.1621·2).
Anorectal disorders.

Bismolan N *Bittermedizin, Ger.†.*
Procaine hydrochloride (p.1869·1); bismuth oxychloride (p.1712·1); zinc oxide (p.1621·2).
Anorectal disorders.

Bismomagnesie *Yeni, Turk.*
Aluminium hydroxide (p.1706·2); magnesium carbonate (p.1743·1).

Bismoral *Zentiva, Cz.*
Co-trimoxazole (p.258·1).
Bacterial infections; pneumocystis pneumonia.

Bismorectal *Vifor, Switz.*
Bismuth succinate (p.1712·1); bismuth hydroxyquinoline (p.1712·1); eucalyptus oil (p.2301·2); sage oil (p.2382·3).
Mouth and throat disorders.

Bismu-Jet *Legrand, Braz.*
Neomycin sulfate (p.305·1); bismuth sodium tartrate (p.1712·1); menthol (p.2340·1); procaine hydrochloride (p.1869·1).
Mouth and throat disorders.

Bismultin *Rafarm, Gr.*
Econazole nitrate (p.531·1).
Fungal skin and vaginal infections.

Bismutal *Rougier, Canad.*
Bismuth camphocarbonate (p.1712·1); guaifenesin (p.1561·3).
Sore throat.

Bismuto con Pectina *Chobet, Arg.*
Bismuth hydroxide (p.1712·1); pectin (p.2145·2).
Formerly known as Bismuto Comprimidos.
Digestive disorders.

Biso *Hennig, Ger.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Biso comp *ABZ, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Biso Lich *Winthrop, Ger.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

BisoAPS *APS, Ger.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisobeta *Betapharm, Ger.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisobeta comp *Betapharm, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisobloc *Azupharma, Ger.†; Keri, Neth.†.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisoblock *Extractum, Cz.; Keri, Hung.; Keri, Neth.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisocard *Polfa, Cz.; Valeant, Hung.; ICN, Pol.; Valeant, Rus.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisocombin *Kwizda, Austria.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisocor *Kwizda, Austria; Actavis, Denm.; Niche, Irl.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; heart failure; hypertension.

Bisodol
Note. This name is used for preparations of different composition.
Forest Laboratories, Port.
Calcium carbonate (p.1714·1); magnesium carbonate (p.1743·1); sodium bicarbonate (p.1673·2).
Dyspepsia; flatulence.

Forest, Irl.; SA Druggists Self Med, S.Afr.; Forest Laboratories, UK.
Oral powder: Heavy magnesium carbonate (p.1743·1); light magnesium carbonate; sodium bicarbonate (p.1673·2).
Dyspepsia; flatulence; gastric hyperacidity; gastro-oesophageal reflux; heartburn.

Forest, Irl.; SA Druggists Self Med, S.Afr.; Forest Laboratories, UK.
Tablets: Calcium carbonate (p.1714·1); light magnesium carbonate (p.1743·1); sodium bicarbonate (p.1673·2).
Dyspepsia; flatulence; gastric hyperacidity; gastro-oesophageal reflux; heartburn.

Bisodol Extra *Forest Laboratories, UK.*
Magaldrate (p.1742·3); alginic acid (p.2140·3); sodium bicarbonate (p.1673·2).
Antacid.

Bisodol Extra Strong Mint Tablets *Forest, Irl.*
Calcium carbonate (p.1714·1); magnesium carbonate (p.1743·1); sodium bicarbonate (p.1673·2).
Dyspepsia; flatulence; heartburn.

Bisodol Heartburn Relief *Forest Laboratories, UK.*
Alginic acid (p.2140·3); magaldrate (p.1742·3); sodium bicarbonate (p.1673·2).
Dyspepsia; heartburn.

Bisodol Wind Relief *Forest Laboratories, UK.*
Calcium carbonate (p.1714·1); light magnesium carbonate (p.1743·1); sodium bicarbonate (p.1673·2); simeticone (p.1770·2).
Formerly known as Bisodol Extra.
Dyspepsia; flatulence; gastric hyperacidity; heartburn.

Bisogamma *Worwag, Cz.; Worwag, Ger.; Worwag, Hung.; Worwag, Rus.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisogen *Merck, Hung.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisohexal *Hexal, Ger.; Hexal, Pol.; Hexal, S.Afr.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension; ischaemic heart disease.

Bisohexal plus *Hexal, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisolangin *Boehringer Ingelheim, Austria†.*
Ambroxol hydrochloride (p.1550·3).
Sore throat.

Bisolapid *Boehringer Ingelheim, Switz.†.*
Acetylcysteine (p.1548·2).
Excess respiratory mucus.

Bisolaryn *Boehringer Ingelheim, Austria.*
Ambroxol hydrochloride (p.1550·3).
Sore throat.

Bisolax *Seng, Thai.*
Bisacodyl (p.1710·1); docusate sodium (p.1725·1); carmellose sodium (p.2142·1).
Constipation.

Bisolbruis *Boehringer Ingelheim, Neth.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders associated with increased mucus.

Bisolgrip *Boehringer Ingelheim, Spain.*
Chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1); paracetamol (p.108·1).
Catarrh; cold and influenza symptoms.

Bisolgrip T *Unilfarma, Port.*
Aspirin (p.20·3); paracetamol (p.108·1); caffeine (p.1116·3).
Fever; inflammation; pain.

Bisolgripin *Boehringer Ingelheim, Neth.†.*
Aspirin (p.20·3).
Pain.

BisoLich comp *Lichtenstein, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisolnasal *Boehringer Ingelheim, Neth.*
⊗ Tramazoline hydrochloride (p.1574·3).
Nasal congestion.

Bisolol *Rafa, Israel.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisolpent *Boehringer Ingelheim, Philipp.; Boehringer Ingelheim, Venez.†.*
⊗ Bromhexine hydrochloride (p.1552·2); orciprenaline sulfate (p.1129·1).
Asthma; bronchospasm; cough.

Bisolpent Ex *Boehringer Ingelheim Promeco, Mex.*
⊗ Bromhexine hydrochloride (p.1552·2); orciprenaline sulfate (p.1129·1).
Respiratory-tract disorders.

Bisolsinus *Boehringer Ingelheim Promeco, Mex.*
Gentian (p.2310·3); primula flower (p.2372·2); sorrel (p.2391·1); sambucus (p.2383·1); vervain (p.2413·3).
Respiratory-tract disorders.

Bisolspray *Boehringer Ingelheim, Port.*
⊗ Oxymetazoline hydrochloride (p.1567·2).
Upper respiratory-tract congestion and inflammation.

Bisoltab *Macrophar, Thai.*
Bromhexine hydrochloride (p.1552·2).
Coughs; respiratory-tract congestion.

Bisoltus *Boehringer Ingelheim, Spain.*
Codeine hydrochloride (p.37·2).
Cough.

Bisoltussin *Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Port.*
Dextromethorphan hydrobromide (p.1555·2).
Cough.

Bisolvon *Boehringer Ingelheim, Arg.; Boehringer Ingelheim, Austria; Boehringer Ingelheim, Belg.; Boehringer Ingelheim, Braz.; Boehringer Ingelheim, Chile; Boehringer Ingelheim, Cz.†; Boehringer Ingelheim, Denm.; Boehringer Ingelheim, Fin.; Boehringer Ingelheim, Fr.; Boehringer Ingelheim, Ger.; Boehringer Ingelheim, Gr.; Boehringer Ingelheim, Hong Kong; Boehringer Ingelheim, Indon.; Boehringer Ingelheim, Irl.; Boehringer Ingelheim, Ital.; Boehringer Ingelheim, Jpn; Boehringer Ingelheim, Malaysia†; Boehringer Ingelheim Promeco, Mex.; Boehringer Ingelheim, NZ; Boehringer Ingelheim, Neth.; Boehringer Ingelheim, Norw.; Boehringer Ingelheim, Philipp.; Unilfarma, Port.; Boehringer Ingelheim, S.Afr.; Boehringer Ingelheim, Singapore; Boehringer Ingelheim, Spain; Boehringer Ingelheim, Swed.; Boehringer Ingelheim, Switz.; Boehringer Ingelheim, Thai.; Boehringer Ingelheim, Venez.*
Bromhexine hydrochloride (p.1552·2).
Formerly known as Bisolvon Chesty in *NZ.*
Cough; respiratory-tract congestion; Sjögren's syndrome.

Bisolvon A *Boehringer Ingelheim Promeco, Mex.*
Ampicillin trihydrate (p.204·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Bisolvon Antitusivo *Boehringer Ingelheim, Spain.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bisolvon Chesty *Boehringer Ingelheim, Austral.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bisolvon Compositum *Boehringer Ingelheim, Spain.*
⊗ Bromhexine hydrochloride (p.1552·2); codeine hydrochloride (p.37·2); diphenhydramine hydrochloride (p.577·2); ephedrine hydrochloride (p.1558·2).
Respiratory-tract disorders.

Bisolvon Compositum NF *Boehringer Ingelheim, Arg.*
⊗ Bromhexine hydrochloride (p.1552·2); codeine hydrochloride (p.37·2); diphenhydramine hydrochloride (p.577·2); ephedrine hydrochloride (p.1558·2).
Respiratory-tract disorders.

Bisolvon Dry *Boehringer Ingelheim, Austral.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bisolvon E *Boehringer Ingelheim Promeco, Mex.*
Bromhexine hydrochloride (p.1552·2); erythromycin ethyl succinate (p.269·3).
Respiratory-tract infections.

Bisolvon EX *Boehringer Ingelheim, Thai.*
Bromhexine hydrochloride (p.1552·2); sulfogaiacol (p.1573·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bisolvon Extra *Boehringer Ingelheim, Indon.*
Bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3).
Cough.

Bisolvon Linctus *Boehringer Ingelheim, Switz.*
Bromhexine hydrochloride (p.1552·2); ammonium chloride (p.1551·3).
Respiratory-tract disorders.

Bisolvon Linctus DA *Boehringer Ingelheim, S.Afr.*
⊗ Bromhexine hydrochloride (p.1552·2); orciprenaline sulfate (p.1129·1).
Cough associated with wheeziness.

Bisolvon Sinus *Boehringer Ingelheim, Austral.; Boehringer Ingelheim, NZ†.*
Bromhexine hydrochloride (p.1552·2); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract congestion.

Bisomerck *Merck, Fin.; Merck dura, Ger.; Merck, Swed.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisomerck Plus *Merck dura, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisopine *Pinewood, Irl.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisoplus *Aliud, Ger.; Stada, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisopral *Alpharma, Fin.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisoprolol comp *Ratiopharm, Austria.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisoprolol Comp *Ratiopharm, Fin.; CT, Ger.; Ratiopharm, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisoprolol HCT *Sandoz, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisoprolol Plus *1A, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisoprolol-HCT *Arcana, Austria; Ratiopharm, Austria.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisopromerck *Merck, Pol.*
⊗ Bisoprolol fumarate (p.1234·1).
Hypertension; ischaemic heart disease.

Bisoprotop *Topgen, Belg.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; heart failure; hypertension.

Biso-Puren *Alpharma-Isis, Ger.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Biso-Puren comp *Alpharma-Isis, Ger.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisoratio *Ratiopharm, Pol.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension; ischaemic heart disease.

Bisostad *Stada, Austria.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bisostad plus *Stada, Austria.*
⊗ Bisoprolol fumarate (p.1234·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Bisotyrol *Tyrol, Austria†.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Bis-Pectin *Biotech, Austral.†.*
Codeine phosphate (p.37·2); kaolin (p.1738·1); aluminium hydroxide (p.1706·2); pectin (p.2145·2).
Diarrhoea.

Bisphonal *Astellas, Jpn; Astellas, Philipp.; Astellas, Thai.*
Incadronate disodium (p.1099·3).
Hypercalcaemia of malignancy.

Bissel 12 *Keton, Mex.*
Vitamin B (p.1980·2).

Bistatin V *Bioresearch, Mex.*
Nystatin (p.543·2).
Fungal vaginal infections.

Biston *Zentiva, Cz.*
Carbamazepine (p.471·3).
Bipolar disorder; epilepsy; neuralgia.

Bistrepen *Alembic, India.*
Procaine benzylpenicillin (p.319·2); benzylpenicillin sodium (p.213·1).
Bacterial infections.

Bistryl *Roux-Ocefa, Arg.†.*
Ibuprofen (p.64·2).
Fever; pain.

Bisuisan *DM, Braz.†.*
Sodium bicarbonate (p.1673·2); calcium carbonate (p.1714·1); magnesium carbonate (p.1743·1); bismuth subcarbonate (p.1711·1); belladonna (p.2263·3); rhubarb (p.1768·3); menthol (p.2340·1).
Gastrointestinal hyperacidity.

Bisultrim *Biomep, Mex.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Bisval *Valdecasas, Mex.*
Bismuth salicylate (p.1711·1).
Diarrhoea; gastrointestinal hyperacidity.

Bitakebir *Aspen, Arg.*
Bicalutamide (p.686·2).

Bite & Itch Lotion *Reese, USA.*
Diphenhydramine hydrochloride (p.577·2); pramocaine hydrochloride (p.1868·1).

Bite Rx *International Lab Tech, USA.*
Aluminium acetate (p.2255·1).
Insect bites.

Bitecan AA *Cetus, Arg.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); metoclopramide (p.1747·3).
Gastrointestinal disorders.

Bitensil *Q Pharma, Spain.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension; left-ventricular dysfunction.

Bitensil Diu *Q Pharma, Spain.*
⊗ Enalapril maleate (p.1276·1); hydrochlorothiazide (p.1307·3).
Hypertension.

Biteral *Roche, Turk.*
Ornidazole (p.843·1).
Anaerobic bacterial infections; protozoal infections.

Bithiol *Qualiphar, Belg.*
Ichthammol (p.1599·1).
Skin disorders.

Bi-Tildiem *Sanofi-Aventis, Fr.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris.

Bitiron *Abdi, Turk.*
Levothyroxine sodium (p.2171·2); liothyronine sodium (p.2174·1).
Hypothyroidism.

Bitobionil *SJA, Gr.*
Levocarnitine (p.1932·2).
Carnitine deficiency.

Biulan *Flupal, Venez.†.*
⊗ Bumetanide (p.1237·1).

Biureol *Plurilab, Port.*
Piperazine hydrate (p.153·1); avocado (p.2262·2); phyllanthus niruri.
Urinary-tract disorders.

Bivacyn *Medphano, Ger.†; Lek, Hong Kong; Teva, Hung.; Lek, Pol.*
Neomycin sulfate (p.305·1); bacitracin (p.210·3).
Bacterial eye infections; burns; otitis externa; otitis media; skin and mucous membrane infections; ulcers; urinary-tract infections; wounds.

Bivalos *Servier, Rus.*
Strontium ranelate (p.1104·2).
Osteoporosis.

Bi-Vaspit *Asche, Ger.†.*
⊗ Fluocortin butyl (p.1532·2); isoconazole nitrate (p.536·2).
Nappy rash.

Bivate *Douglas, NZ.*
⊗ Betamethasone valerate (p.1519·1).
Skin disorders.

Bivaxol *Ivax, Cz.*
⊗ Bisoprolol fumarate (p.1234·1).
Angina pectoris; hypertension.

Biviol *Organon, Ger.*
Desogestrel (p.2093·2); ethinylestradiol (p.2101·3).
Biphasic oral contraceptive.

Bivitasi *Kedrion, Ital.†.*
Cocarboxylase hydrochloride (p.1975·2).
Vitamin B deficiency.

Bivitox *Terapeutico, Ital.†.*
Cogalactoisomerase disodium (p.2285·3).
Liver disorders.

Bivorilan *Medinova (Μεντινοβα), Gr.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Bixen *Biomep, Mex.*
Naproxen (p.92·3).
Pain.

Bixon *Biores, Ital.*
Ceftriaxone sodium (p.237·1).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Gram-negative bacterial infections.

B-Ject *Hyrex, USA†.*
Vitamin B substances (p.1922·1).
Parenteral nutrition.

B-Jen *Lafedar, Arg.*
Permethrin (p.2048·2).
Pediculosis.

BK
Note.This name is used for preparations of different composition.
3M, NZ†.
Liquid soap: Lactic acid (p.2329·3).
Soap substitute in skin disorders.

3M, NZ.
Lotion: Liquid paraffin (p.2030·3); oil-soluble dewaxed lanolin fraction (p.2033·2).
Dry skin disorders; pruritus.

BK HC *3M, NZ.*
⊗ Hydrocortisone (p.1535·2).
Skin disorders.

B-kombin *Leiras, Fin.†; ACO, Swed.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

B-Komplex *Zentiva, Cz.*
Vitamin B substances (p.1922·1).
Vitamin B deficiency.

B-Komplex forte *Hevert, Ger.*
Thiamine nitrate (p.1976·2); pyridoxine hydrochloride (p.1978·2); cyanocobalamin (p.1980·2).
Neuralgia; neuritis; neuropathy; vitamin B deficiency.

B-Laboterol *Labomed, Chile.*
⊗ Betamethasone dipropionate (p.1518·3); clotrimazole (p.530·1).
Fungal skin infections with inflammation.

Black Forest *Novartis Consumer, S.Afr.*
Senna (p.1769·2).
Bowel evacuation; constipation.

Black Seed *Be-Tabs, S.Afr.†.*
Nutritional supplement (p.1922·1).

Blackcurrant Coldrex Hot *GSK Consumer, Hung.†.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Black-Draught
Note.This name is used for preparations of different composition.
Chattem, USA†.
Syrup: Casanthranol (p.1715·1); senna (p.1769·2); rhubarb (p.1768·3).
Constipation.

Chattem, USA.
Tablets: Senna (p.1769·2).
Constipation.

Blackmores B Plus C *Blackmores, Thai.*
Vitamin B substances; vitamin C (p.1922·1).
Vitamin B deficiency; vitamin C deficiency.

Blackmores Bio *Blackmores, Thai.*
A range of vitamin preparations with or without minerals (p.1922·1).

Blackmores Exec B's *Blackmores, Thai.*
Multivitamin and mineral preparation (p.1922·1).

Blackmores Naturetime Buffered C *Blackmores, Thai.*
Calcium ascorbate; ascorbic acid; bioflavonoids; rutin; hesperidin; rose fruit (p.1983·3).

Blacor *LKM, Arg.*
⊗ Betamethasone dipropionate (p.1518·3).
Skin disorders.

Bladder Irritation *Hylands, Canad.*
Homoeopathic preparation.

Bladderon *Shinyaku, Jpn.*
Flavoxate hydrochloride (p.2190·1).
Pollakisuria.

Blader *Fada, Arg.†.*
Ciprofloxacin (p.243·3).
Bacterial infections.

Bladex *Pharma Investi, Chile†.*
Ibuprofen (p.64·2).
Fever.

Bladiron *Anfarm, Gr.*
Buflomedil hydrochloride (p.1236·3).
Peripheral vascular disorders.

Bladuril *Casasco, Arg.; Tecnofarma, Chile; Aventis, Mex.*
Flavoxate hydrochloride (p.2190·1).
Urinary-tract disorders.

Blahungstee N *Abtswinder, Cz.†.*
Aniseed (p.2258·2); fennel (p.2302·3); peppermint leaf (p.1761·2); caraway (p.2276·3); melissa (p.2339·3); cinnamon (p.2283·1); centaurea cyanus; calendula (p.2273·1).
Digestive disorders.

Blairex Lens Lubricant *Blairex, USA.*
Range of solutions for soft contact lenses (p.1622·2).

Blamy *Duncan, Arg.*
⊗ Betamethasone (p.1518·2); gentamicin (p.284·2); miconazole (p.541·2).
Infected skin disorders.

Blanc Dient *Bernabo, Arg.*
Urea hydrogen peroxide (p.1666·2).
Dental whitener.

Blancaler
Note.This name is used for preparations of different composition.
Galderma, Mex.
Cream: Titanium dioxide (p.1617·3).
Skin hyperpigmentation.

Galderma, Mex.
Topical gel: Achillea (p.2245·2).
Skin hyperpigmentation.

Blanel *Pfleger, Ger.*
Potassium sodium hydrogen citrate (p.1674·2).
Renal calculi.

Blanoxan *BMS, Mex.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Blasen- und Nierentee *Abtswinder, Cz.†.*
Bearberry (p.2263·3); phaseolus; equisetum (p.2299·3); birch leaf (p.2266·3); peppermint leaf (p.1761·2); liquorice (p.1740·3); calendula (p.2273·1).
Kidney and bladder disorders.

Blasentee St Severin *Smetana, Austria.*
Birch leaf (p.2266·3); herniaria (p.2319·1); equisetum (p.2299·3); calluna vulgaris.
Formerly known as Blasentee EF-EM-ES.
Kidney and bladder disorders.

Blastivin *Pharmachemie, Neth.*
Vinblastine sulfate (p.785·3).
Malignant neoplasms.

Blastocarb *Laboratorios Chile, Chile†; Lemery, Mex.; Lemery, Rus.; Lemery, Thai.*
Carboplatin (p.693·1).
Malignant neoplasms.

Blastoestimulina
Note.This name is used for preparations of different composition.
Almirall, Spain†.
Eye drops: Centella (p.1592·3).
Eye disorders.

Almirall, Spain.
Ointment: Centella (p.1592·3); neomycin sulfate (p.305·1).
Burns; skin infections; ulcers; wounds.

Almirall, Spain.
Pessaries: Centella (p.1592·3); miconazole nitrate (p.541·3); metronidazole (p.837·1); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Vulvovaginal infections.

Almirall, Spain.
Topical aerosol: Centella (p.1592·3); tetracaine (p.1871·2).
Burns; ulcers; wounds.

Almirall, Spain.
Topical powder: Centella (p.1592·3).
Burns; ulcers; wounds.

Blastoferon *Sidus, Arg.*
Interferon beta (p.891·2).
Multiple sclerosis.

Blastolem *Laboratorios Chile, Chile; Lemery, Mex.; Lemery, Rus.; Lemery, Thai.*
Cisplatin (p.698·2).
Malignant neoplasms.

Blaston *Lacer, Spain.*
Cinitapride acid tartrate (p.1720·3).
Gastro-oesophageal reflux; gastroparesis.

Blastop *TRB, Arg.*
Folic acid (p.1940·1); vitamin B (p.1978·2); vitamin B (p.1980·2).
Atherosclerosis; cerebrovascular disorders; dietary supplement; hyperhomocysteinaemia.

Blastovin *Teva Tuteur, Arg.; Teva, Israel.*
Vinblastine sulfate (p.785·3).
Malignant neoplasms.

Blaubimax *Blausiegel, Braz.*
⊗ Albumin (p.1052·1).
Plasma volume expansion.

Blaubumin *Blausiegel, Braz.†.*
⊗ Albumin (p.1052·1).
Plasma volume expansion.

Blauferon *Blausiegel, Braz.*
Interferon alfa-2b (p.885·1).
Chronic hepatitis B; chronic hepatitis C; malignant neoplasms.

Blauimuno *Blausiegel, Braz.†.*
Immunoglobulin (p.2225·3).

Blavin *Baliarda, Arg.*
Terazosin (p.1410·3).
Benign prostatic hyperplasia.

Blecidex *Sanbe, Indon.*
⊗ Neomycin sulfate (p.305·1); gramicidin (p.286·1); dexamethasone sodium metasulfobenzoate (p.1526·2).
Infected eye disorders; otitis externa.

Bledilait *Bledina, Fr.*
A range of infant feeds (p.1922·1).
Allergic disorders; diarrhoea; regurgitation.

Bledstop *Caprifarmindo, Indon.; Sanbe, Indon.*
Methylergometrine maleate (p.2011·1).
Management of third-stage labour; uterine haemorrhage.

Bleduran *Anpharm (Ανφαρμ), Gr.*
Piroxicam (p.117·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Blef-10 *Allergan, Mex.*
Sulfacetamide sodium (p.335·3).
Eye infections.

Blefamide
Note.This name is used for preparations of different composition.
Allergan, Arg.
⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1); phenylephrine hydrochloride (p.1568·1).
Infected eye disorders.

Allergan, Mex.
⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1).
Eye disorders.

Allergan, Chile.
Eye drops: ⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1); phenylephrine hydrochloride (p.1568·1).
Eye disorders.

Allergan, Chile.
Eye ointment: ⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1).
Eye disorders.

Blefamide-F *Allergan, Mex.*
⊗ Prednisolone acetate (p.1541·1); sulfacetamide sodium (p.335·3); phenylephrine hydrochloride (p.1568·1).
Infected eye disorders.

Blefarida *Alcon Cusi, Spain.*
⊗ Chloramphenicol (p.239·3); cortisone acetate (p.1524·2).
Infected eye disorders.

Blefarolin *Bruschettini, Ital.*
Tannic acid (p.2394·3); resorcinol (p.1612·1); menthol (p.2340·1).
Eye disorders.

Blefarosan *Lersan, Arg.*
Sulfathiazole sodium (p.343·3).
Bacterial eye infections.

Blemaren *Esparma, Rus.*
Citric acid (p.2284·1); sodium citrate (p.1673·3); potassium bicarbonate (p.1673·1).
Hyperuricaemia; porphyria cutanea tarda; renal calculi.

Blemaren N
Esparma, Cz.
Citric acid (p.2284·1); sodium citrate (p.1673·3); potassium bicarbonate (p.1673·1).
Hyperuricaemia; porphyria cutanea tarda; renal calculi.

Esparma, Ger.; Esparma, Hung.
Citric acid (p.2284·1); anhydrous sodium citrate (p.1673·3); potassium bicarbonate (p.1673·1).
Hyperuricaemia; porphyria cutanea tarda; renal calculi.

Bleminol *Gepepharm, Ger.*
Allopurinol (p.552·2).
Gout; hyperuricaemia; renal calculi.

Blemish Control *Kay, Canad.*
Salicylic acid (p.1612·2).
Acne.

Blemix *Ashbourne, UK†.*
Minocycline hydrochloride (p.300·3).
Bacterial infections.

Blenamax *Sigma, Austral.; Pharmachemie, Indon.; Pharmachemie, Malaysia; Teva, Rus.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Blend-a-Med *Procter & Gamble, Cz.†.*
Sodium phosphate (p.1682·3); sodium fluoride (p.1962·2).
Dental caries prophylaxis; hypersensitive teeth.

Blendera *Otsuka, Thai.*
Preparation for enteral nutrition (p.1922·1).

Blendox *Degorts, Mex.*
Chlorphenamine (p.572·2).

Blenox *Antibioticos, Spain.*
⊗ Amoxicillin (p.202·2).
Probenecid (p.558·2) is included in this preparation to reduce renal tubular excretion of amoxicillin.
Bacterial infections.

Blenoxane *BMS, Austral.; BMS, Braz.; Bristol, Canad.; BMS, NZ; BMS, Philipp.; BMS, S.Afr.; BMS Oncology, USA.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleo *Kyowa, UK.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleo-cell *Cell Pharm, Ger.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleochem *Biochem, India.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleocin
Kayaku, Cz.; Vianex (Βιανεξ), Gr.; Kayaku, Hong Kong; Kayaku, Hung.; Khandelwal, India; Kalbe, Indon.; Kayaku, Indon.; Kayaku, Jpn; Kayaku, Singapore; Masu, Thai.; Onko, Turk.
Bleomycin hydrochloride (p.688·2).
Malignant neoplasms.

Kayaku, Malaysia; Euro Nippon Kayaku, Pol.
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleocip *Cipla, India.*
Bleomycin (p.688·2).
Malignant neoplasms.

Bleocris *LKM, Arg.*
Bleomycin (p.688·2).
Malignant neoplasms.

Bleolem *Lemery, Mex.; Key Oncologics, S.Afr.; Lemery, Thai.; Atafarm, Turk.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleomedac *Medac, Ger.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bleomin *Teva, Belg.*
Bleomycin (p.688·2).
Malignant neoplasms.

Bleo-S *Kayaku, Jpn; Masu, Thai.*
Bleomycin sulfate (p.687·1).
Skin cancer.

Bleph-10 *Allergan, Austral.; Allergan, Hong Kong; Allergan, NZ; Allergan, Thai.†; Allergan, USA.*
Sulfacetamide sodium (p.335·3).
Bacterial eye infections.

Blephagel *Pfizer, Arg.; Allergan, Braz.; Thea, Fr.; Thea, Philipp.; Pfizer, Singapore; Pfizer, Venez.*
Eyelid cleanser.

Blephamid *Abdi, Turk.*
⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1); phenylephrine hydrochloride (p.1568·1).
Infected eye disorders.

Blephamide
Note.This name is used for preparations of different composition.
Allergan, Canad.; Allergan, Ger.; Allergan, Switz.; Allergan, USA.
⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1).
Blepharitis; conjunctivitis; eye disorders; eye infections; eye inflammation with bacterial infection.

Alvia (Αλβια), Gr.†; Allergan, Hong Kong; Allergan, Malaysia†; Allergan, Singapore.
⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1); phenylephrine hydrochloride (p.1568·1).
Blepharitis; conjunctivitis.

Allergan, Israel; Allergan, NZ.
Eye drops: ⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1); phenylephrine hydrochloride (p.1568·1).
Blepharitis; conjunctivitis.

Allergan, Israel.
Eye ointment: ⊗ Sulfacetamide sodium (p.335·3); prednisolone acetate (p.1541·1).
Inflammatory eye disorders.

Blephasol *Pharmacia, Singapore†.*
Eyelid cleanser.

BLES *Bles, Canad.*
Bovine lipid extract surfactant (p.2375·3).
Neonatal respiratory distress syndrome.

Blesifen *Sanbe, Indon.*
⊗ Clomifene citrate (p.2086·1).
Male and female infertility.

Blexit *Laboratorios Chile, Chile.*
Bleomycin (p.688·2).
Malignant neoplasms.

Blezamont *Farmanic, Gr.*
Cetirizine hydrochloride (p.570·3).
Allergic conjunctivitis; allergic rhinitis; pruritus.

Blindafe *Nucitec, Mex.*
Alendronate sodium (p.1088·1).
Osteoporosis; Paget's disease of bone.

Blink *Advanced Medical Optics, UK.*
Polyvinyl alcohol (p.2145·3); sodium chloride (p.1686·1) (p.1622·2).
Dry eyes in contact lens wearers.

Blink Contacts
Amo, Arg.; Visiontech, Arg.
Sodium hyaluronate (p.2320·1); OcuPure.
Dry eyes.

AMO, Austral.
Sodium hyaluronate (p.2320·1); Ocupure (p.1622·2).
Lubricating drops for contact lenses.

Blink-N-Clean
Note.This name is used for preparations of different composition.
Amo, Arg.; Visiontech, Arg.
Cleansing drops for contact lenses (p.1622·2).

AMO, Austral.
⊗ Hypromellose (p.2144·2); tyloxapol (p.1921·3); trometamol (p.2405·1) (p.1622·2).
Cleansing and lubrication of contact lenses.

Blinx *Pilkington Barnes-Hind, USA.*
Electrolytes (p.1667·1).
Eye irrigation.

Blio *Mayne, Port.†.*
Bleomycin sulfate (p.687·1).

Blis K12 Throat Guard *Blis, NZ.*
Streptococcus thermophilus (p.2372·3).
Restoration of normal throat bacterial flora.

Blisprotex *Rider, Chile.*
Zinc oxide (p.1621·2); dimeticone (p.2032·1).
Nappy rash.

BlisterGard *Medtech, USA.*
Topical barrier preparation.

Blistex
Note.This name is used for preparations of different composition.
Rider, Chile.
Phenol (p.1656·1); camphor (p.2273·2).
Chapped lips.

Pharmaceutical Enterprises, S.Afr.
Allantoin (p.1588·1); phenol (p.1656·1); camphor (p.2273·2); menthol (p.2340·1).
Dry lips; herpes labialis.

Blistex, USA.
Camphor (p.2273·2); phenol (p.1656·1); allantoin (p.1588·1).
Oral lesions.

Blistex Complete Moisture *Blistex, Canad.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Blistex DCT Lip Balm *Blistex, Canad.*
SPF 20: Octinoxate (p.1608·2); oxybenzone (p.1608·3); menthol (p.2340·1); phenol (p.1656·1); camphor (p.2273·2).
Chapped lips; sunscreen.

Blistex Fruit Smoothies *Rider, Chile.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Blistex Fruit Smoothies Lipbalm *Blistex, Canad.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Chapped lips; sunscreen.

Blistex Herbal Answer *Blistex, Canad.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Blistex Herbal Lip Protector *Key, Austral.*
SPF 16: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Blistex Lip Balm
Note.This name is used for preparations of different composition.
Blistex, Canad.
SPF 10: Padimate O (p.1609·1); oxybenzone (p.1608·3); dimeticone (p.2032·1).
Chapped lips; sunscreen.

Blistex, USA.
SPF 10: Camphor (p.2273·2); phenol (p.1656·1); allantoin (p.1588·1); dimethicone (p.2032·1); padimate O (p.1609·1); oxybenzone (p.1608·3).
Chapped lips; sunscreen.

Blistex Lip Conditioner *Key, Austral.*
SPF 16: Octinoxate (p.1608·2); padimate O (p.1609·1).
Sunscreen.

Blistex Lip Medex *Blistex, Canad.*
Menthol (p.2340·1); camphor (p.2273·2); phenol (p.1656·1).
Chapped lips; cold sores.

Blistex Lip Ointment *Blistex, Hong Kong†.*
Allantoin (p.1588·1); camphor (p.2273·2); phenol (p.1656·1); menthol (p.2340·1).
Chapped lips; herpes labialis.

Blistex Lip Revitalizer *Key, Austral.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Dry lips; sunscreen.

Blistex Lip Tone *Key, Austral.*
SPF 18: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Dry lips; sunscreen.

Blistex Medicated Lip Balm *Key, Austral.*
SPF 16: Padimate O (p.1609·1); oxybenzone (p.1608·3).
Dry lips; sunscreen.

Blistex Medicated Lip Conditioner *Key, Austral.*
SPF 20: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Dry lips; sunscreen.

Blistex Medicated Lip Conditioner Jar *Blistex, Canad.†.*
SPF 15: Camphor (p.2273·2); menthol (p.2340·1); meradimate (p.1604·2); octinoxate (p.1608·2); phenol (p.1656·1).
Chapped lips; herpes labialis.

Blistex Medicated Lip Ointment
Note.This name is used for preparations of different composition.
Blistex, Canad.
Allantoin (p.1588·1); camphor (p.2273·2); phenol (p.1656·1).
Chapped lips; herpes labialis.

Key, Austral.
SPF 15: Padimate O (p.1609·1); oxybenzone (p.1608·3); allantoin (p.1588·1); camphor (p.2273·2).
Dry lips; sunscreen.

Blistex Relief Cream *DDD, UK.*
Strong ammonia solution (p.2256·1); ammonia solution aromatic; phenol (p.1656·1).
Formerly known as Blisteze.
Chapped and cracked lips; herpes labialis.

Blistex Silk and Shine Lipbalm *Blistex, Canad.*
SPF 15: Octinoxate (p.1608·2); oxybenzone (p.1608·3).
Chapped lips; sunscreen.

Blistex Ultra Lip Balm *Key, Austral.*
SPF 30+: Octinoxate (p.1608·2); oxybenzone (p.1608·3); octisalate (p.1608·2); meradimate (p.1604·2); homosalate (p.1598·1).
Dry lips; sunscreen.

Blistex Ultra Protection *Blistex, USA.*
SPF 30: Octinoxate (p.1608·2); oxybenzone (p.1608·3); octisalate (p.1608·2); meradimate (p.1604·2); homosalate (p.1598·1).
Sunscreen.

Blistex Ultra Protection Lip Balm *Blistex, Canad.*
SPF 30: Octinoxate (p.1608·2); oxybenzone (p.1608·3); octisalate (p.1608·2); meradimate (p.1604·2); homosalate (p.1598·1); dimeticone (p.2032·1).
Chapped lips; sunscreen.

Blistik *Rider, Chile.*
SPF 15: Padimate O (p.1609·1); oxybenzone (p.1608·3).
Sunscreen.

Blis-To-Sol
Note.This name is used for preparations of different composition.
Oakhurst, USA.
Topical liquid: Tolnaftate (p.548·3).
Fungal skin infections.

Oakhurst, USA.
Topical powder: Zinc undecenoate (p.549·3).
Fungal skin infections.

Bliz *Grisi, Mex.*
Boldo (p.2267·2).
Constipation.

Blizer *Ibirn, Ital.*
Ferrous gluconate (p.1939·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron-deficiency anaemia.

Blocacid
Note.This name is used for preparations of different composition.
Ipca, India†; IPCA, Singapore†.
Famotidine (p.1730·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Collins, Mex.
Naproxen (p.92·3); carisoprodol (p.1894·1).
Inflammation; pain.

Blocadren *MSD, Austria; MSD, Belg.; SIT, Ital.; MSD, Mex.; MSD, Norw.; MSD, Port.†; MSD, Swed.; Merck, USA.*
⊗ Timolol maleate (p.1412·3).
Angina pectoris; arrhythmias; glaucoma; heart failure; hypertension; migraine; myocardial infarction; ocular hypertension.

Blocalcin *Lachema, Cz.; Pliva, Hung.; Pliva Lachema, Pol.; Lachema, Rus.*
Diltiazem hydrochloride (p.1265·1).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Blocamicina *Gador, Arg.*
Bleomycin hydrochloride (p.688·2).
Malignant neoplasms.

Blocanol *MSD, Fin.*
⊗ Timolol maleate (p.1412·3).
Angina pectoris; glaucoma; hypertension; migraine; myocardial infarction; ocular hypertension.

Blocar *Bago, Chile.*
⊗ Carvedilol (p.1241·3).
Heart failure; hypertension.

Blocatens *Unipharma, Gr.*
⊗ Bisoprolol (p.1234·2).
Hypertension.

Blocatril *Tecnofarma, Mex.*
Enalapril (p.1276·1).
Hypertension.

Blocksol *Albephar, Venez.*
Octinoxate (p.1608·2); titanium dioxide (p.1617·3); oxybenzone (p.1608·3).
Sunscreen.

Blocotenol *Azupharma, Ger.†; Sandoz, Gr.*
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension.

Blocotenol comp *Azupharma, Ger.†.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Bloculcer *Labesfal, Port.*
Ranitidine hydrochloride (p.1766·1).

Blodex *Estedi, Spain†.*
Vegetable oil (p.2413·1).
Adjunct in cholecystography and cholangiography.

Bloflex *Blooming Fields, Philipp.*
Cefalexin (p.218·2).
Bacterial infections.

Bloicin-S *Korea United, Philipp.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bloken *Degorts, Mex.*
Phenylbutazone (p.117·1).
Inflammation; pain.

Blokium
Note.This name is used for preparations of different composition.
Casasco, Arg.
Diclofenac diethylamine (p.44·3) or diclofenac sodium (p.44·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Prodes, Hung.; Almirall, Port.†; Romofarm, Spain; Gentek, Venez.
⊗ Atenolol (p.1217·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Blokium B12 *Casasco, Arg.*
⊗ Diclofenac potassium (p.44·3); betamethasone (p.1518·2) or betamethasone sodium phosphate (p.1518·3); cyanocobalamin (p.1980·2) or hydroxocobalamin (p.1980·3).
Musculoskeletal and joint disorders.

Blokium Cox *Casasco, Arg.†.*
Rofecoxib (p.121·1).
Osteoarthritis; pain.

Blokium Diu *Prodes, Hung.; Probios, Port.†; Romofarm, Spain.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Blokium Flex *Casasco, Arg.*
Diclofenac sodium (p.44·3); pridinol mesilate (p.1898·1).
Musculoskeletal and joint disorders.

Blokium Gesic *Casasco, Arg.*
Diclofenac potassium (p.44·3); paracetamol (p.108·1).
Inflammation; pain.

Blokiuret *Gentek, Venez.*
⊗ Atenolol (p.1217·3); chlortalidone (p.1243·3).
Hypertension.

Blonax *Mintlab, Chile.*
Clonixin lysine (p.37·1).
Pain.

Blood Builder *Nutrifarma, Turk.*
Iron (p.1949·1); vitamin B (p.1980·2); folic acid (p.1940·1).

Blootec *Ibfarma, Braz.†.*
Enalapril maleate (p.1276·1).
Hypertension.

Bloprazol *Fresenius Kabi, Port.*
Omeprazole sodium (p.1753·1).

Blopresid *Takeda, Ital.; Euro Registratie, Neth.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Blopress *Takeda, Austria; Abbott, Braz.; Abbott, Chile; Grunenthal, Cz.†; Takeda, Ger.; Takeda, Hong Kong; Takeda, Indon.; Takeda, Ital.; Takeda, Jpn; Takeda, Malaysia; Abbott, Mex.; Euro Registratie, Neth.; Takeda, Philipp.; Seber, Port.; Takeda, Spain; Takeda, Switz.; Takeda, Thai.; Abbott, Venez.*
Candesartan cilexetil (p.1238·3).
Heart failure; hypertension; left-ventricular dysfunction.

Blopress Comp *Seber, Port.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Blopress D *Abbott, Chile.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Blopress 16 mg + 12,5 mg *Seber, Port.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Blopress Plus *Takeda, Austria; Takeda, Ger.; Takeda, Hong Kong; Takeda, Indon.; Abbott, Mex.; Takeda, Philipp.; Takeda, Switz.; Takeda, Thai.; Abbott, Venez.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Blosyn *Gufic, India.*
⊗ Haemoglobin (p.1072·3); ferric ammonium citrate (p.1938·1); vitamin B (p.1980·2); vitamin B (p.1979·1) folic acid (p.1940·1).
Anaemias.

Blotex *Sandoz, Mex.*
⊗ Atenolol (p.1217·3).
Angina pectoris; hypertension; myocardial infarction.

B-Lovatin *Medicus, Gr.†.*
Lovastatin (p.1328·2).
Hyperlipidaemias.

Blow-X *T Man, Thai.*
Simeticone (p.1770·2).
Excess gastrointestinal gas.

Blox *Saval, Chile.*
Candesartan cilexetil (p.1238·3).
Hypertension.

Bloxang *Chauvin, Fr.*
⊗ Gelatin (porcine) (p.1072·1).
Haemostatic.

Blox-D *Saval, Chile.*
⊗ Candesartan cilexetil (p.1238·3); hydrochlorothiazide (p.1307·3).
Hypertension.

Bluboro *Allergan Herbert, USA†.*
Aluminium sulfate (p.2255·1); calcium acetate (p.1675·2).
Bruises; skin inflammation.

Bluco *Hua, Thai.*
Codeine phosphate (p.37·2); brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).
Coughs.

Bluderm *Quimioterapica, Braz.†.*
Boric acid (p.2268·1); glycerol (p.2314·2); quillaia (p.1920·1).
Skin disinfection.

Blue *Ambix, USA; Moore, USA.*
Pyrethrins (p.2049·3); piperonyl butoxide (p.2049·1).
Pediculosis.

Blue Caps *SM, Venez.*
Pyrithione zinc (p.1611·2).
Skin disorders.

Blue Ice Gel *Geritrex, USA.*
Menthol (p.2340·1); isopropyl alcohol (p.1650·3).

Blue Patent *Guerbet, Israel.*
Dye for contrast media.

Bluesteril *IMS, Ital.*
Benzalkonium chloride (p.1629·1).
Instrument disinfection.

Bluetest *Delta, Fr.†.*
Pregnancy or fertility test (p.2372·1).

Blueye *Sam Chun Dang, Hong Kong.*
Hypromellose (p.2144·2).
Dry eyes.

Blum *Ahimsa, Arg.*
Permethrin (p.2048·2).
Pediculosis.

Blumen *Luper, Braz.†.*
Cod-liver oil (p.1935·2); zinc oxide (p.1621·2).
Barrier preparation; skin disorders.

Blumol *Farmanic, Gr.*
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Bluna *Faes, Spain.*
Soya (p.1965·3).
Menopausal disorders.

Blustark *Savio, Ital.*
Ferrous gluconate (p.1939·1).
Ascorbic acid (p.1983·3) is included in this preparation to increase the absorption and availability of iron.
Iron-deficiency anaemia.

Blutwurz *Ratiopharm, Ger.*
Tormentil (p.2403·2).
Diarrhoea.

BM Lactato *Roche, Arg.*
Test for lactic acid in blood.

BM-Accutest *Roche Diagnostics, Irl.; Roche Diagnostics, UK.*
Test for glucose in blood (p.2314·1).
For use with Accutrend blood glucose meters.

BM-Test 1-44 *Roche Diagnostics, Irl.†; Roche Diagnostics, NZ†; Roche Diagnostics, UK.*
Test for glucose in blood (p.2314·1).
Formerly known as BM-Test Glycemie 1-44.

BM-Test BG *Roche Diagnostics, Austral.*
Test for glucose in blood (p.2314·1).

BM-Test Glycemie *Roche Diagnostics, Fr.†.*
Test for glucose in blood (p.2314·1).

BM-Test Glycemie 20-800 *Roche Diagnostics, Austral.*
Test for glucose in blood (p.2314·1).

BM-Test GP *Roche Diagnostics, Austral.*
Test for glucose and protein in urine.

B-Mycin *YSP, Malaysia.*
⊗ Betamethasone dipropionate (p.1518·3); gentamicin sulfate (p.282·1).
Infected skin disorders.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

BN 53 *Staufen, Ger.†.*
Homoeopathic preparation.

BN dolo *Staufen, Ger.*
Homoeopathic preparation.

BNIL *Millimed, Thai.*
Glibenclamide (p.440·1).
Diabetes mellitus.

BNP Ointment *Vendiz, Philipp.*
Bacitracin (p.210·3); neomycin sulfate (p.305·1); polymyxin B sulfate (p.317·3).
Infected skin disorders.

Bobodent *Hasco-Lek, Pol.*
Chamomile (p.2279·3); thyme (p.2401·1); lidocaine hydrochloride (p.1862·3).
Mouth disorders.

Bobotic *Medana, Pol.*
Simeticone (p.1770·2).
Excess gastrointestinal gas; preparation for gastrointestinal procedures.

Bo-Cal *Fibertone, USA†.*
Calcium with vitamins B and D, and magnesium (p.1922·1).

Bocasan *Gillette, Neth.*
Sodium perborate (p.1662·1).
Mouth disorders.

Bocatriol *Leo, Austria; Leo, Denm.; Leo, Ger.; Leo, Switz.†.*
Calcitriol (p.1986·2).
Hypoparathyroidism; osteoporosis; renal osteodystrophy; rickets; vitamin D deficiency.

Bocytin *Asian Pharm, Thai.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders.

Bo-D-Fense *Green Leaf, Philipp.*
Andrographis; ginger (p.1732·3); black pepper (p.2364·3); vitamin C (p.1983·3); zinc gluconate (p.1999·2).
Upper respiratory-tract disorders.

Bodi Care Lotion *Geritrex, USA.*
Liquid paraffin (p.2030·3); soft paraffin (p.2031·2).
Dry skin.

Bodi Kleen *Geritrex, USA.*
Trolamine laurilsulfate (p.2138·3); phenoxyethanol (p.1657·1); hexylene glycol (p.2319·1); aloe vera (p.1588·2).

Bodi Line Action *Geritrex, USA.*
⊗ Alcohol (p.1625·2).
Hand cleanser.

Bodi Oil *Geritrex, USA.*
Liquid paraffin (p.2030·3); lanolin oil (p.2033·2); aloe vera oil.
Dry skin.

Bodi Protect *Geritrex, USA.*
Barrier ointment.

Bodisan *Medinfar, Port.†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bodivitin *Hua, Thai.*
Multivitamin preparation with calcium (p.1922·1).

Bodrex *Tempo Scan Pacific, Indon.*
Caffeine (p.1116·3); paracetamol (p.108·1).
Fever; pain.

Bodrex Forte *Tempo Scan Pacific, Indon.*
Paracetamol (p.108·1).
Fever; pain.

Bodrexin
Note. This name is used for preparations of different composition.
Bode, Indon.; Tempo Scan Pacific, Indon.
Syrup: Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3); guaifenesin (p.1561·3); sodium citrate (p.1673·3).
Cold and influenza symptoms; cough.

Tempo Scan Pacific, Indon.
Tablets: Aspirin (p.20·3).
Fever; pain.

Body Peel *Lierac, Fr.*
⊗ Salicylic acid (p.1612·2); glycolic acid (p.1598·1); urea (p.1620·2).
Sun-induced skin damage.

Body Rox *Usana, Hong Kong†.*
A multivitamin and mineral preparation with bioflavonoids (p.1922·1).

Body Smarts *Adams, Canad.†.*
Vitamin or mineral preparations (p.1922·1).

Body-Calcin *Unipharma, Gr.*
Calcium carbonate (p.1714·1).
Calcium deficiency.

Bodyguard *Sanitalia, Ital.*
Echinacea (p.2298·1); salix (p.121·3); devil's claw root (p.39·1); propolis (p.2373·3).
Nutritional supplement.

Boestrol *Antigen, Irl.*
Diethylstilbestrol (p.2094·1).
Breast cancer; prostatic cancer.

Boflavin *Milano, Thai.*
Riboflavin (p.1977·2).
Vitamin B deficiency.

Bofutsushosan *Tsumura, Jpn.*
Scutellaria root; liquorice; platycodon root; gypsum; atractylodes rhizome; rhubarb; schizonepeta spike; gardenia fruit; peony root; cnidium rhizome; Japanese angelica root; mentha; saposhnikovia root; ephedra; forsythia fruit; ginger; talc; mirabilitum.
Traditional Kampo medicine.

Boi K *BOI, Spain.*
Potassium ascorbate (p.1685·1).
Potassium depletion.

Boi K Aspartico *BOI, Spain.*
Potassium ascorbate (p.1685·1).
Potassium depletion.

Boi K Gluconato *BOI, Spain.*
Potassium gluconate (p.1684·3).
Hypokalaemia.

Boie Carminative (Carminasen) *Boie, Philipp.*
Liquorice (p.1740·3); rhubarb (p.1768·3); senna (p.1769·2).
Colic; flatulence; gastrointestinal spasm; indigestion.

Boil Ease
Note. This name is used for preparations of different composition.
Del, Canad.†.
Benzocaine (p.1854·1); ichthammol (p.1599·1); sulfur (p.1614·1); cade oil (p.1616·1); camphor (p.2273·2); phenol (p.1656·1); zinc oxide (p.1621·2); thymol (p.1664·3).

Commerce, USA; Del, USA.
Benzocaine (p.1854·1); ichthammol (p.1599·1); sulfur (p.1614·1); cade oil (p.1616·1); camphor (p.2273·2); phenol (p.1656·1); zinc oxide (p.1621·2); thymol (p.1664·3); menthol (p.2340·1); eucalyptus oil (p.2301·2).
Boils.

Boi-ogi-to *Tsumura, Jpn.*
Astragalus root; sinomenium stem; atractylodes lancea rhizome; jujube; liquorice; ginger.
Traditional Kampo medicine.

Bokey *Yung Shin, Hong Kong; Yung Shin, Singapore.*
Aspirin (p.20·3).
Thromboembolism prophylaxis.

Bo-Lax *Cipla, India.*
Bisacodyl (p.1710·1).
Constipation.

Bolbamox *Sons, Mex.†.*
Amoxicillin (p.202·2); ambroxol (p.1550·3).
Respiratory-tract infections.

Bolbasalt *Bajamed, Mex.†.*
⊗ Salbutamol (p.1131·2).
Asthma.

Bolchipen *Cruz, Spain†.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bolcitol *Lesourd, Fr.*
Fumitory (p.2307·2); boldo (p.2267·2); sage (p.2382·3); fennel (p.2302·3).
Biliary disorders; gastrointestinal disorders; kidney disorders.

Boldaloin *Herbapol Wroclaw, Pol.*
Aloes (p.1705·2); boldine (p.2267·3).
Constipation; digestive disorders; liver and biliary-tract disorders.

Boldex *Potter's, UK.*
Taraxacum (p.2395·1); butternut bark; boldo (p.2267·2); bladderwrack (p.2384·2).
Slimming aid.

Boldina *Plata, Arg.*
Boldo (p.2267·2); carqueja; cynara (p.2291·2).
Liver disorders.

Boldina He *Teofarma, Ital.*
Boldine (p.2267·3); aloin (p.1705·3).
Constipation.

Boldocynara *Bioforce, Switz.*
Cynara (p.2291·2); taraxacum (p.2395·1); boldo (p.2267·2); peppermint leaf (p.1761·2).
Formerly contained cynara, silybum marianum, taraxacum, boldo, and peppermint leaf.
Digestive disorders.

Boldolaxin *Diviser Aquilea, Spain†.*
Belladonna (p.2263·3); bisacodyl (p.1710·1); boldo leaves (p.2267·2); calcium phosphate (p.1676·2); docusate sodium (p.1725·1).
Bowel evacuation; constipation.

Boldopeptan *Neo Quimica, Braz.†.*
Cascara (p.1715·2); boldo (p.2267·2); rhubarb (p.1768·3); liver extract (p.2337·3).
Liver disorders.

Boldovera *Aflofarm, Pol.*
Aloes (p.1705·2); fumitory (p.2307·2); boldine (p.2267·3).
Constipation; digestive disorders; gastrointestinal spasm.

Bolidol *Kern, Spain.*
Paracetamol (p.108·1).
Fever; pain.

Bolinan *Bayer Sante, Fr.*
Povidone (p.2146·1).
Gastrointestinal disorders.

Bolinet *BMS, Pol.*
Ibuprofen (p.64·2).
Fever; pain.

Bolisegna *Rafarm, Gr.†.*
Bromhexine hydrochloride (p.1552·2).
Respiratory disorders associated with viscous mucus.

Boljuprima *Prima, Braz.†.*
Boldo (p.2267·2); solanum paniculatum.
Biliary-tract disorders.

Bollinol *Viofar, Gr.*
Loratadine (p.583·3).
Allergic rhinitis; pruritus.

Boloxen *Kato, Pol.*
Naproxen sodium (p.92·3).
Fever; pain.

Boltin *Organon, Spain.*
⊗ Tibolone (p.2134·1).
Menopausal disorders.

Bolus Adstringens *EGIS, Hung.*
Albumin tannate (p.1704·2); bismuth subgallate (p.1711·1); kaolin(p.1738·1).
Gastrointestinal disorders.

Bolus alba comp *Wala, Ger.*
Homoeopathic preparation.

Bolus Eucalypti Comp
Note. This name is used for preparations of different composition.
Weleda, Austria; Weleda, UK.
Homoeopathic preparation.

Weleda, S.Afr.
Apis (p.2258·3); belladonna (p.2263·3); eucalyptus leaf (p.2301·2); kaolin (p.1738·1).
Mouth and throat disorders.

Bolus Laxans *EGIS, Hung.*
Rhubarb (p.1768·3); sulfur (p.1614·1); senna (p.1769·2); kaolin (p.1738·1).
Constipation; dyspepsia; flatulence; meteorism.

Bolutol *Farmasierra, Spain†.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Boma *Ogna, Ital.*
Borax (p.2268·1); benzocaine (p.1854·1).
Nausea; oral hygiene.

Bomacorin *Hevert, Ger.*
Crataegus (p.2289·1).
Heart failure.

Bomagall mono *Hevert, Ger.†.*
Fumitory (p.2307·2).
Biliary-tract spasm; gastrointestinal spasm.

Bomagall N *Hevert, Ger.*
Homoeopathic preparation.

Bomaklim *Hevert, Ger.†.*
Homoeopathic preparation.

Bomaklim Complex *Hevert, Ger.*
Homoeopathic preparation.

Bomapect *Hevert, Ger.*
Homoeopathic preparation.

Bomarthros *Hevert, Ger.*
Devil's claw root (p.39·1).
Musculoskeletal and joint disorders.

Bomex *YSP, Malaysia; Yung Shin, Singapore†.*
Brompheniramine maleate (p.569·2).
Hypersensitivity reactions.

Bomexin *Pond's, Thai.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bomine
Note. This name is used for preparations of different composition.
Mayo, Mex.
Dimenhydrinate (p.576·2); pyridoxine (p.1979·1).
Nausea and vomiting.

Pharmasant, Thai.
Brompheniramine maleate (p.569·2).
Allergic rhinitis.

Bomix *Bode, Ger.*
Clorophene (p.1641·1); orthophenylphenol (p.1655·1); chlorocresol (p.1640·1).
Instrument disinfection.

Bomvital *Diamond, Philipp.*
Vitamins; lysine; lecithin; calcium carbonate; omega 3-fatty acid; Chlorella growth factor (p.1922·1).
Nutritional supplement.

Bonadoxina *Pfizer, Mex.; Pfizer, Venez.*
Meclozine hydrochloride (p.584·3); pyridoxine hydrochloride (p.1978·2).
Lidocaine (p.1862·3) is included in the injection to alleviate the pain of injection.
Nausea and vomiting; vertigo.

Bonair *Solara, Mex.*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Bonalen
Note. This name is used for preparations of different composition.
Uniao Quimica, Braz.; Ingers, Cz.
Alendronate sodium (p.1088·1).
Osteoporosis.

Vitae, Mex.
Meclozine (p.585·1); pyridoxine (p.1979·1).
Nausea and vomiting.

Bonalet-Cee *Am-Europharma, Philipp.*
Vitamin C (p.1983·3).
Vitamin C deficiency.

Bonalfa *White, Arg.†; Schering-Plough, Chile; Teijin, Jpn; Schering-Plough, Mex.; Isdin, Port.; Isdin, Spain; Schering-Plough, Venez.†.*
Tacalcitol (p.1615·1).
Ichthyosis; psoriasis.

Bonalon *Teijin, Jpn.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Bonamina *Pfizer, Chile.*
Meclozine hydrochloride (p.584·3).
Nausea and vomiting; vertigo.

Bonamine *Pfizer Consumer, Canad.; Pfizer, Philipp.*
Meclozine hydrochloride (p.584·3).
Nausea; vertigo; vestibular disorders; vomiting.

Bonanoti *Novag, Mex.*
Diphenhydramine (p.577·1).
Insomnia.

Bonapetit *Sinterapico, Braz.†.*
Cyproheptadine hydrochloride (p.575·1); vitamins (p.1922·1).
Reduced appetite.

Bonaplatin *Baxter, Philipp.*
Carboplatin (p.693·1).
Malignant neoplasms.

Bonar *Biosintetica, Braz.*
Bleomycin sulfate (p.687·1).
Malignant neoplasms.

Bonasanit *Biokanol, Ger.*
Pyridoxine hydrochloride (p.1978·2).
Vitamin B deficiency.

Bonat *Roche, Israel.*
Ibandronate sodium (p.1098·3).
Prevention of skeletal events associated with breast cancer and bone metastases.

Bonatol-R *Coup, Gr.*
Flurbiprofen (p.61·2).
Inflammation; musculoskeletal and joint disorders; pain.

Bonaven
Note. This name is used for preparations of different composition.
Medihealth, Mex.
Avena (p.2262·1); sodium cocoyl isetionate (p.2138·3).
Skin cleanser.

Roemmers Medihe, Venez.
Soap substitute with avena (p.2262·1).

Bonazin *Collins, Mex.*
Pyridoxine (p.1979·1); meclozine (p.585·1).
Nausea and vomiting.

Boncilin *Rowe-Fleming, Venez.†.*
Chlorphenamine maleate (p.571·3); sodium salicylate (p.124·2).
Influenza symptoms.

Boncol *Sojar, Arg.*
Phytoestriols.
Hypercholesterolaemia.

Boncordin *Sandoz, Arg.†.*
Benazepril hydrochloride (p.1223·2).
Heart failure; hypertension.

Bondenza *Roche, Cz.; Roche, Neth.; Roche, Port.*
Ibandronate sodium (p.1098·3).
Osteoporosis.

Bondil *Meda, Norw.; Meda, Swed.*
Alprostadil (p.2183·2).
Erectile dysfunction.

Bondiol *Gry, Ger.*
Alfacalcidol (p.1986·1).
Hypoparathyroidism; osteomalacia; osteoporosis; renal osteodystrophy; rickets.

Bondormin *Rafa, Israel.*
Brotizolam (p.965·2).
Insomnia.

Bondronat *Roche, Austria; Roche, Belg.; Roche, Chile; Roche, Cz.; Roche, Denm.; Roche, Fin.; Roche, Fr.; Roche, Ger.; Roche, Gr.; Roche, Hong Kong; Roche, Hung.; Roche, Irl.; Roche, Ital.; Syntex, Mex.; Roche, Neth.; Roche, Norw.; Roche, Philipp.; Roche, Pol.; Roche, Port.; Roche, Rus.; Roche, S.Afr.; Roche, Singapore; Roche, Spain; Roche, Swed.; Roche, Switz.; Roche, Thai.; Roche, UK.*
Ibandronate sodium (p.1098·3).
Hypercalcaemia of malignancy; metastatic bone disease.

Bo-Ne-Ca *ST, Thai.*
Calcium carbonate (p.1714·1).
Calcium deficiency.

BoneCare *MD, Singapore.*
Calcium (p.1675·2); vitamin D (p.1986·1).
Dietary supplement.

Bonedron *Minerva (Μινερβα), Gr.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Bonefos *Aventis, Austral.; Schering, Austria; Schering, Belg.; Schering, Braz.; Berlex, Canad.; Bayer, Cz.; Schering, Denm.; Schering, Fin.; Medac, Ger.; Schering, Ger.; IFET (ΙΦΕΤ), Gr.; Schering, Hong Kong; Schering, Hung.; Schering, Indon.; Schering, Irl.; Leiras, Israel; Bayer Schering, Malaysia; Schering, Mex.; Schering, Neth.; Schering, Norw.; Schering, Philipp.; Schering, Pol.; Lusalfarma, Port.; Schering, Rus.; Schering, Singapore; Schering, Spain; Schering, Swed.; Schering, Switz.; Schering, Thai.; Er-Kim, Turk.; Bayer, UK.*
Clodronate disodium (p.1095·3).
Hypercalcaemia of malignancy; osteolysis of malignancy; Paget's disease of bone.

Bonemax *Dincsa, Turk.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Bonephos *Key Oncologics, S.Afr.*
Clodronate (p.1095·2).
Hypercalcaemia of malignancy; osteolysis of malignancy.

Bonesoy Optima *Nature's Way, Philipp.*
Calcium citrate; soy isoflavones; vitamins; minerals (p.1922·1).
Nutritional supplement.

Bongreen *Welfide, Singapore†.*
Alfacalcidol (p.1986·1).
Osteoporosis; vitamin D metabolic disorders.

Bonic *Ethica, Indon.*
Glucosamine (p.2313·2); chondroitin sulfate (p.2280·3); vitamins; minerals (p.1922·1).
Osteoarthritis.

Bonidon *Mepha, Cz.†; Mepha, Switz.*
Indometacin (p.66·3).

Aluminium glycinate (p.1706·2) is included in the tablets in an attempt to limit adverse effects on the gastrointestinal mucosa.
Gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Bonifen *Merck, Mex.†; Merck, Port.†; Merck, Venez.*
Pyritinol hydrochloride (p.369·1).
Cerebrovascular disorders; mental function disorders.

Bonil *Pediapharm, Chile.*
Ketoprofen (p.73·1).
Fever; pain.

Bonine *Pfizer, Rus.; Insight, USA.*
Meclozine hydrochloride (p.584·3).
Motion sickness; vertigo.

Bonine for Kids *Insight, USA.*
Cyclizine hydrochloride (p.574·2).
Motion sickness; nausea and vomiting.

Bonitrop *Cofasa, Venez.*
Pyritinol hydrochloride (p.369·1).
Fatigue.

Boniva *Roche, USA.*
Ibandronate sodium (p.1098·3).
Osteoporosis.

Bonjedex *Loyal Advance, Hong Kong.*
⊗ Betamethasone sodium phosphate (p.1518·3); chlorphenamine maleate (p.571·3); oxymetazoline hydrochloride (p.1567·2).
Nasal congestion.

Bonjela *Reckitt Benckiser, Austral.; Reckitt Benckiser, Hong Kong; Reckitt Benckiser, Irl.; Reckitt Benckiser, Israel; Reckitt Benckiser, Malaysia; Reckitt Benckiser, NZ; Reckitt Benckiser, S.Afr.; Reckitt Benckiser, Singapore; Reckitt Benckiser, Thai.; Reckitt Benckiser, UK.*
Choline salicylate (p.36·3); cetalkonium chloride (p.1634·1).
Herpes labialis; mouth pain and inflammation; teething pain.

Bonjela Teething Gel *Reckitt Benckiser, UK.*
Lidocaine (p.1862·3); cetalkonium chloride (p.1634·1).
Infant teething.

Bon-Ker *Baxter, Mex.†.*
Calcium gluconate (p.1675·3).

Bonmax *Zydus, India.*
⊗ Raloxifene hydrochloride (p.2128·1).
Osteoporosis.

Bonmin *Aksu, Turk.*
Naproxen sodium (p.92·3).
Gout; inflammation; musculoskeletal and joint disorders; pain.

Bonningtons Irish Moss
Note. This name is used for preparations of different composition.
GSK Consumer, Austral.
Carrageenan (p.2142·3); camphor (p.2273·2); menthol (p.2340·1).
Coughs; sore throat.

GSK, NZ.
Carrageenan (p.2142·3); camphor (p.2273·2); menthol (p.2340·1); liquorice (p.1740·3).
Coughs.

Bonnisan *Himalaya Herbal, Malaysia.*
Dill oil; tinospora cordifolia; capparis spinosa; piper longum; emblica officinalis; cichorium intybus; cassia occidentalis; terminalia chebula; cardamom; achillea; tamarix gallica; tribulus terrestris; punarnava.
Tonic.

Bonocef *Baldacci, Port.†.*
Cefixime (p.224·3).
Bacterial infections.

Bon-One *Teijin, Hong Kong; Dipa, Indon.; Teijin, Indon.; Teijin, Philipp.; Teijin, Singapore; Teijin, Thai.*
Alfacalcidol (p.1986·1).
Hyperparathyroidism; hypoparathyroidism; malabsorption of calcium; osteomalacia; osteoporosis; renal osteodystrophy; rickets.

Bonoq *Grunenthal, Ger.†.*
Gatifloxacin (p.281·1).
Bacterial infections.

Bonserin *Rafa, Israel.*
Mianserin hydrochloride (p.408·1).
Depression.

Bontal *Continentales, Mex.*
Diiodohydroxyquinoline (p.832·1); phthalylsulfathiazole (p.315·1); homatropine (p.1881·2).
Diarrhoea.

Bontoss *Neo Quimica, Braz.†.*
Guaifenesin (p.1561·3); potassium iodide (p.2169·2).
Coughs.

Bontril *Valeant, USA.*
⊗ Phendimetrazine tartrate (p.2162·1).
Obesity.

Bonviva
Roche, Arg.; Roche, Cz.; Roche, Fin.; Roche, Fr.; Roche, Ger.; Roche, Hung.; Roche, Indon.; Roche, Irl.; Roche, Ital.; Roche, Neth.; Roche, Philipp.; Roche, Pol.†; Roche, Port.; GSK, Swed.; Roche, Swed.
Ibandronate sodium (p.1098·3).
Osteoporosis.

Roche, Chile; Roche, Gr.; Roche, Malaysia; Roche, Singapore; GSK, UK; Roche, UK.
Ibandronic acid (p.1098·3).
Osteoporosis.

Bonyl *Orion, Denm.*
Naproxen (p.92·3).
Inflammation; musculoskeletal and joint disorders; pain.

Bonzol
Note. This name is used for preparations of different composition.
Mitsubishi, Jpn†.
⊗ Danazol (p.2090·2).
Endometriosis.

Bajamed, Mex.
Lansoprazole (p.1739·2).
Peptic ulcer.

Boost
Note. This name is used for preparations of different composition.
Mead Johnson Nutritionals, Canad.†; Mead Johnson Nutritionals, USA.
A range of lactose-free preparations for enteral nutrition (p.1922·1).

Seven Seas, UK.
Caffeine (p.1116·3); glucose; vitamin B substances; taurine (p.1922·1).
Fatigue.

Boostim *Svizera, India.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Bacterial infections.

Boostrix *GSK, Austral.; GSK, Austria; GSK, Belg.; GSK, Cz.; GSK, Fin.; GSK, Ger.; GSK, Israel; GSK, Ital.; GSK, Malaysia; GSK, Mex.; GSK, NZ; GSK, Norw.; GSK, Port.; GSK, Singapore; GSK, Spain; GSK, Switz.; GSK, Thai.; GSK, USA.*
A diphtheria, tetanus, and acellular pertussis vaccine (p.2210·3).
Active immunisation.

Boostrix IPV *GSK, Austral.; GSK, NZ.*
A diphtheria, tetanus, pertussis, and poliomyelitis vaccine (p.2211·3).
Active immunisation.

Boostrix Polio *GSK, Fin.; GSK, Ger.; GSK, Gr.; GSK, Norw.; GSK, Port.; GSK, Swed.; GSK, Switz.*
An adsorbed diphtheria, tetanus, pertussis, and poliomyelitis vaccine (p.2211·3).
Active immunisation.

Boostrixtetra *GSK, Fr.*
A diphtheria, tetanus, pertussis, and poliomyelitis vaccine (p.2211·3).
Active immunisation.

Boots Antenatal Massage Cream *Boots Healthcare, Malaysia†.*
Aloe vera (p.1588·2); vitamin E (p.1992·2).
Stretch marks.

Boots Chesty Cough Syrup 1 Year Plus *Boots, UK.*
Guaifenesin (p.1561·3).
Coughs.

Boots Cold & Flu Relief *Boots, UK.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1) caffeine (p.1116·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Boots Cold & Flu Relief Hot Lemon *Boots, UK.*
Paracetamol (p.108·1); vitamin C (p.1983·3).
Cold and influenza symptoms.

Boots Cough & Decongestant Syrup 2 Years Plus *Boots, UK.*
Guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2).
Coughs.

Boots Cough Syrup 3 Months Plus *Boots, UK.*
Glycerol (p.2314·2).
Coughs.

Boots Decongestant Capsules *Boots, UK.*
Phenylephrine hydrochloride (p.1568·1).
Cold symptoms.

Boots Decongestant Tablets *Boots, UK.*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms.

Boots Dry Cough Syrup 1 Year Plus *Boots, UK.*
Pholcodine (p.1570·2).
Coughs.

Boots Gripe Mixture 1 Month Plus *Boots, UK.*
Sodium bicarbonate (p.1673·2).
Dyspepsia.

Boots Maximum Strength Cold & Flu Relief *Boots, UK.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1).
Cold and influenza symptoms.

Boots Nightime Cough Syrup 1 Year Plus *Boots, UK.*
Diphenhydramine hydrochloride (p.577·2); pholcodine (p.1570·2).
Coughs.

Boots Pain Relief Suspension 6 Years Plus *Boots, UK.*
Paracetamol (p.108·1).
Fever; pain.

Boots Threadworm Tablets 2 Years Plus *Boots, UK.*
Mebendazole (p.148·3).
Threadworm.

Boots Wind Relief *Boots, UK.*
Aluminium hydroxide (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Dyspepsia.

B.O.P. *PPDH, Fr.*
Olive leaf (p.2356·2); birch leaf (p.2266·3).
Oedema.

Boplatex *Pisa, Mex.*
Carboplatin (p.693·1).
Malignant neoplasms.

Boracap
Note. A similar name is used for preparations of different composition (see below).
Sriprasit, Thai.
Multivitamin preparation with iron, calcium and folic acid (p.1922·1).

Boracaps
Note. A similar name is used for preparations of different composition (see above).
Tentan, Switz.
Borage oil (p.2267·3).
Dietary supplement in hyperlipidaemias.

Boracough *Sriprasit, Thai.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3).
Coughs.

Boradrine
Note. This name is used for preparations of different composition.
Thea, Belg.
Borax (p.2268·1); boric acid (p.2268·1); phenylephrine hydrochloride (p.1568·1).
Eye irritation.

Thea, Neth.
Phenylephrine hydrochloride (p.1568·1).
Eye irritation.

Borafen *Sriprasit, Thai.*
Ibuprofen (p.64·2).
Fever; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Borag *Ativus, Braz.*
Fish oil (p.1362·2); borage oil (p.2267·3); soya oil (p.1965·3).
Dietary supplement.

Borakid *Sriprasit, Thai.*
Ibuprofen (p.64·2).
Fever; inflammation; pain.

Boraline *McNeil, Spain.*
Phenylephrine hydrochloride (p.1568·1).
Eye irritation.

Boramint *Andromaco, Venez.†.*
Menthol (p.2340·1); borax (p.2268·1); sodium benzoate (p.1630·2); sodium bicarbonate (p.1673·2).
Mouth and throat disorders.

Boramycin *Sriprasit, Thai.*
Tetracycline phosphate complex (p.347·2).
Bacterial infections.

Borasol *Prolab, Pol.*
Boric acid (p.2268·1).
Burns; oedema; skin disorders.

Borbalan *Spyfarma, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Borea *Madaus, Spain.*
Megestrol acetate (p.2114·3).
Anorexia and cachexia associated with AIDS or cancer; breast cancer; endometrial cancer.

Boref *Andromaco, Venez.†.*
⊗ Ephedrine (p.1558·1).
Nasal congestion.

Bori-Zinc *SM, Venez.†.*
Salicylic acid (p.1612·2); zinc oxide (p.1621·2); sulfur (p.1614·1); boric acid (p.2268·1).
Fungal skin infections.

Born *Riemser, Ger.*
Crataegus (p.2289·1).
Cardiac disorders.

Borneral *Ilsan, Turk.*
Ornidazole (p.843·1).
Anaerobic bacterial infections; protozoal infections.

Bornilene *Euphar, Ital.*
Xibornol (p.361·3).
Mouth and throat infections.

Borocaina *Wassermann, Ital.*
Benzyl alcohol (p.1631·3); sodium benzoate (p.1630·2).
Mouth and throat disinfection.

Borocaina Gola *Wassermann, Ital.*
Cetylpyridinium chloride (p.1635·1).
Mouth and throat disinfection.

Borocanfor *Vita, Venez.*
Calamine (p.1591·2); zinc oxide (p.1621·2); menthol (p.2340·1); salicylic acid (p.1612·2); boric acid (p.2268·1); camphor (p.2273·2).
Fungal foot infections.

Borocarpin-S *Winzer, Ger.*
Pilocarpine hydrochloride (p.1884·3).
Glaucoma; production of miosis.

Borocell *Neutron Technology, USA.*
Sodium monomercaptoundecahydro-closo-dodecaborate.
Glioblastoma multiforme.

Boroclarine *Europhta, Mon.*
Borax (p.2268·1); boric acid (p.2268·1); phenylephrine hydrochloride (p.1568·1).
Conjunctivitis.

Borofair Otic *Major, USA.*
Acetic acid (p.2244·2); aluminium acetate (p.2255·1).

Borofax *Warner-Wellcome, USA.*
Zinc oxide (p.1621·2).
Formerly contained boric acid.
Skin irritation.

Borogin *Roemmers Osmoph, Venez.*
Cetylpyridinium chloride (p.1635·1); hydroxyquinoline sulfate (p.2323·1); boric acid (p.2268·1); alum (p.2254·1).
Vaginal infections.

Boronex *Remedina, Gr.*
Buspirone hydrochloride (p.965·3).
Anxiety.

Boropak *Glenwood, USA†.*
Aluminium sulfate (p.2255·1); calcium acetate (p.1675·2).
Inflammatory skin disorders.

Borophen *Dekaz, Gr.*
Clindamycin (p.251·1).
Bacterial infections.

Boro-Scopol *Winzer, Ger.*
Hyoscine hydrobromide (p.1734·1).
Eye disorders; production of mydriasis and cycloplegia.

Borostyrol
Note. This name is used for preparations of different composition.
ACP, Belg.
Thymol (p.1664·3); salol (p.122·1); menthol (p.2340·1); boric acid (p.2268·1); benzoin (p.2394·2).
Mouth disorders.

Mayoly-Spindler, Fr.
Thymol (p.1664·3); salol (p.122·1); levomenthol; boric acid (p.2268·1); siam benzoin (p.2386·2).
Insect stings; minor skin and mouth disorders.

Borostyrol N *Uhlmann-Eyraud, Switz.†.*
Thymol (p.1664·3); salol (p.122·1); menthol (p.2340·1); Siam benzoin (p.2386·2).
Mouth disorders.

Borraginol-N *Takeda, Hong Kong; Takeda, Indon.*
Benzocaine (p.1854·1); cinchocaine hydrochloride (p.1857·3); diphenhydramine hydrochloride (p.577·2); cetrimide (p.1634·1); radix lithospermi.
Anorectal disorders.

Borraginol-S *Takeda, Indon.*
⊗ Prednisolone (p.1540·3); lidocaine (p.1862·3); benzocaine (p.1854·1); cetrimide (p.1634·1); radix lithospermi.
Anorectal disorders.

Borsdruppels *Lennon, S.Afr.*
Liquorice (p.1740·3); fennel oil (p.2303·1); anise oil (p.2258·2).
Bronchitis; coughs; croup.

Borstol Cold and Flu Powders with Vitamin C *Group, S.Afr.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Cold and influenza symptoms.

Borstol Cough Remedy *Group, S.Afr.*
Ammonium chloride (p.1551·3); senega root (p.1572·3); buchu (p.2269·3); camphor (p.2273·2); cinchona (p.2282·3); aristolochia (p.2260·1); balsam sulphuris; turpentine gum.
Coughs.

Borstol Linctus *Group, S.Afr.*
Guaifenesin (p.1561·3).
Cough.

Bort *Megat, Venez.†.*
Tiemonium iodide (p.1776·3); dipyrone (p.49·2).
Muscle spasm; pain.

Borymycin *YSP, Malaysia; Yung Shin, Singapore.*
Minocycline hydrochloride (p.300·3).
Bacterial infections.

Bosconar *Teva Tuteur, Arg.*
Bicalutamide (p.686·2).
Malignant neoplasms.

Bosea *Sevapharma, Cz.†.*
Botulism antitoxins (A, B, and E) (p.2207·3).
Botulism.

Bosisto's Eucalyptus Inhalant *Felton, Austral.*
Eucalyptus oil (p.2301·2); menthol (p.2340·1).
Cold symptoms.

Bosisto's Eucalyptus Rub *Felton, Austral.*
Eucalyptus oil (p.2301·2); menthol (p.2340·1); methyl salicylate (p.85·3).
Muscular aches and pains.

Bosisto's Eucalyptus Spray *Felton, Austral.*
Eucalyptus oil (p.2301·2).
Muscular aches and pains.

Bosisto's Vaporising Ointment *Felton, Austral.*
Eucalyptus oil (p.2301·2); cineole (p.2282·3); menthol (p.2340·1); camphor (p.2273·2); rosemary oil (p.2381·3).
Cold symptoms.

Bosporon *Grunenthal, Port.; Tedec Meiji, Spain.*
Lornoxicam (p.77·3).
Inflammation; musculoskeletal and joint disorders; pain.

Boston *Bausch & Lomb, Braz.†; Bausch & Lomb, Canad.; Chauvin, Fr.; Polymer Technology, USA.*
Cleaning solution for contact lenses (p.1622·2).

Boswellia Complex *Mediherb, Austral.*
Boswellia serrata (p.2307·1); celery (p.2278·3); ginger (p.1732·3).
Musculoskeletal and joint disorders.

Boswellia Compound *Phytomedicine, Austral.*
Boswellia serrata (p.2307·1); devil's claw root (p.39·1); ginger (p.1732·3); guaiacum resin (p.2317·3).
Arthritis.

Botaderm *Biospray, Gr.*
Ketoconazole (p.539·1).
Fungal scalp infections.

Botafex *Farmex, Gr.*
Minoxidil (p.1342·1).

Botamiral *Biospray, Gr.*
Buflomedil hydrochloride (p.1236·3).
Peripheral vascular disorders.

† This preparation may no longer be actively marketed ⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Botamycin-N *Biospray, Gr.*
Clindamycin phosphate (p.251·2).
Acne.

Botanica Hayfever *Botanica, NZ.*
Chamomile (p.2279·3); lavender (p.2331·1); melissa (p.2339·3); quercetin (p.2305·1); vitamin C (p.1983·3).
Prevention of minor allergic reactions in the upper respiratory tract.

Botastin *Biospray, Gr.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis; allergic rhinitis.

Botox *Allergan, Arg.; Allergan, Austral.; Allergan, Austria; Allergan, Belg.; Allergan, Braz.; Allergan, Canad.; Allergan, Cz.; Allergan, Denm.; Allergan, Fin.; Allergan, Fr.; Allergan, Ger.; Alvia (Αλβια), Gr.; Allergan, Hong Kong; Allergan, Hung.; Allergan, Irl.; Allergan, Israel; Allergan, Ital.; GSK, Jpn; Allergan, Malaysia; Allergan, Mex.; Allergan, NZ; Allergan, Neth.; Allergan, Norw.; Allergan, Philipp.; Allergan, Pol.; Allergan, Port.; Allergan, Rus.; Allergan, S.Afr.; Allergan, Singapore; Allergan, Spain; Allergan, Swed.; Allergan, Switz.; Allergan, Thai.; Abdi, Turk.; Allergan, UK; Allergan, USA; Allergan, Venez.*
Botulinum A toxin (p.1890·1).
Achalasia; anal fissures; bladder instability; blepharospasm; bruxism; cervical dystonia; foot spasticity associated with paediatric cerebral palsy; glabellar lines; hemifacial spasm; hyperhidrosis; spasmodic torticollis; strabismus; tremor; upper limb spasticity following stroke.

Botropase *Abbott, Ital.†.*
Batroxobin (p.1056·1).
Haemorrhagic disorders.

Bottom Better *InnoVisions, USA.*
Yellow soft paraffin (p.2031·3); wool fat (p.2033·2).
Nappy rash.

Boucren *Bouzen, Arg.*
Cetrimide (p.1634·1).
Skin infections.

Bounty Bears *Nature's Bounty, USA.*
A range of vitamin preparations (p.1922·1).

Boutavixal *Proel, Gr.*
Butamirate citrate (p.1553·1).
Cough.

Bovisan *Sanum-Kehlbeck, Ger.*
Homoeopathic preparation.

Bowa *TNP, Thai.†.*
Aluminium hydroxide gel (p.1706·2); magnesium hydroxide (p.1743·2); simeticone (p.1770·2).
Flatulence; gastric hyperacidity; peptic ulcer.

Boxazin plus C *Boehringer Ingelheim, Ger.*
Aspirin (p.20·3); ascorbic acid (p.1983·3).
Fever; pain.

Boxocalm *Cheplapharm, Ger.*
Valerian (p.2410·1); lupulus (p.2335·2).
Anxiety; insomnia.

Boxogetten S *Cheplapharm, Ger.*
Phenylpropanolamine hydrochloride (p.1569·3).
Obesity.

Boxol *Pharmacia, Spain†.*
Dalteparin sodium (p.1255·1).
Deep-vein thrombosis; myocardial infarction; thrombosis prophylaxis; unstable angina pectoris.

Boxolam *Mayo, Mex.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Boxolip *Cheplapharm, Ger.*
Loperamide hydrochloride (p.1741·1).
Diarrhoea.

Boyol Salve *Pfeiffer, USA.*
Ichthammol (p.1599·1); benzocaine (p.1854·1).
Skin disorders.

Bozaktral *Chrispa (Χρισπα), Gr.*
Cisapride (p.1720·3).
Diabetic gastroparesis resistant to other therapy.

BP Poly-650 *Brookstone, USA.*
Paracetamol (p.108·1); phenyltoloxamine citrate (p.588·1).
Pain.

B-Platin *Blausiegel, Braz.*
Carboplatin (p.693·1).
Malignant neoplasms.

B-Plex *Stanley, Canad.†.*
Vitamin B substances (p.1922·1).

B-Plex C *Stanley, Canad.†.*
Vitamin B substances and vitamin C (p.1922·1).

B-Plus *Biolab, Thai.†.*
Vitamin B substances (p.1922·1).

BPNorm *Westmont, Philipp.*
Fosinopril sodium (p.1291·3).
Heart failure; hypertension.

B-Prime *Primera, Philipp.*
Vitamin B ; vitamin B ; vitamin B (p.1922·1).
Vitamin B deficiency.

BPzide *Stadmed, India.*
⊗ Hydrochlorothiazide (p.1307·3).
Hypertension; oedema.

BQL *Cadila, India.*
Enalapril maleate (p.1276·1).
Heart failure; hypertension.

B-Quick *Brassora, Arg.*
Pregnancy test (p.2372·1).

Bradelmin *Degorts, Mex.*
Albendazole (p.139·2).
Worm infections.

Bradimox *Astellas, Ital.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bradoral *Novartis Consumer, Ital.*
Domiphen bromide (p.1643·1).
Mouth and throat disinfection.

Bradosol
Note. This name is used for preparations of different composition.
Novartis Consumer, Austria.
Domiphen bromide (p.1643·1); peppermint oil (p.1761·2); eucalyptus oil (p.2301·2); anise oil (p.2258·2).
Sore throat.
Columbia, Canad.
Hexylresorcinol (p.1647·1).
Sore throat.
Novartis Consumer, UK.
Benzalkonium chloride (p.1629·1).
Sore throat.

Bradoxil *Pharmawealth, Philipp.*
Amoxicillin sodium (p.202·2) or amoxicillin trihydrate (p.202·2).
Bacterial infections.

Brady's-Magentropfen *Brady, Austria.*
Cinchona bark (p.2282·3); cinnamon (p.2283·1); aniseed (p.2258·2); coriander (p.2288·1); fennel (p.2302·3); myrrh (p.2349·2); santalum album (p.2383·2); gentian (p.2310·3); zedoary.
Gastrointestinal disorders.

Bragg's Medicinal Charcoal *Bragg, UK.*
Activated charcoal (p.1435·2).
Dyspepsia; flatulence; heartburn.

Brainact *Kalbe, Indon.*
Citicoline (p.2283·3).
Cerebral infarction; head injury; hemiplegia.

Brainal *Grunenthal, Chile†; Andromaco, Cz.†; Andromaco, Rus.†; Librapharm, Spain.*
Nimodipine (p.1357·2).
Mental function impairment; neurological deficit following subarachnoid haemorrhage.

Brainox *Grunenthal, Port.*
Nimodipine (p.1357·2).
Cerebral ischaemia after subarachnoid haemorrhage.

Brain-Spect *Medi-Radiopharma, Cz.*
Technetium-99m (p.2055·3) exametazime.
Radionuclide imaging of the CNS.

Braintop *Exel, Belg.*
Piracetam (p.368·2).
Mental function impairment.

Braito *Konimex, Indon.*
⊗ Tetryzoline hydrochloride (p.1574·1).
Allergic eye disorders; eye irritation.

Brakhor *Psicofarma, Mex.*
Pravastatin sodium (p.1374·3).
Atherosclerosis; cardiovascular risk reduction; hyperlipidaemias.

Bral *Biotech, Venez.*
Dipyrone (p.49·2).
Fever; inflammation; pain.

Bralifex *Sanbe, Indon.*
Tobramycin (p.354·1).
Bacterial eye infections.

Bralifex Plus *Sanbe, Indon.*
⊗ Tobramycin (p.354·1); dexamethasone (p.1526·1).
Infected eye disorders.

Bralin *Bernofarm, Indon.*
Citicoline (p.2283·3).
Cerebral infarction; head injury; hemiplegia.

Bralix *Remedica, Hong Kong.*
Chlordiazepoxide (p.968·1); clidinium bromide (p.1722·1).
Dysmenorrhoea; gastrointestinal disorders; nocturnal enuresis; ureteral spasm.

Bramedil *Grunenthal, Chile.*
Pargeverine hydrochloride (p.1761·1).
Smooth muscle spasm.

Bramedil Compuesto *Grunenthal, Chile.*
Pargeverine hydrochloride (p.1761·1); metamizole magnesium (p.49·3).
Colic; dysmenorrhoea.

Bramicil *Fisiopharma, Ital.*
Tobramycin sulfate (p.354·2).
Bacterial infections.

Bramin *Degorts, Mex.*
Loratadine (p.583·3); pseudoephedrine (p.1571·2).
Influenza symptoms.

Bramin-hepa *Merz, Ger.†.*
Isoleucine (p.1954·1); leucine (p.1954·3); valine (p.1971·1); pyridoxine hydrochloride (p.1978·2).
Hepatic encephalopathy.

Bramitob *Torrex Chiesi, Cz.; Chiesi, Ital.; Promedica, Port.*
Tobramycin (p.354·1).
Pseudomonal infections in cystic fibrosis.

BranchAmin *Clintec, USA.*
Amino-acid infusion (p.1922·1).
Parenteral nutrition in hepatic encephalopathy.

Brand- u. Wundgel-Medice N *Medice, Ger.*
⊗ Benzethonium chloride (p.1630·1); lauromacrogol 400 (p.1916·1); urea (p.1620·2).
Burns; insect stings; skin disorders; wounds.

Brand- und Wundgel *Funcke, Cz.†.*
Dexpanthenol (p.2362·1); allantoin (p.1588·1); lidocaine hydrochloride (p.1862·3); cetylpyridinium chloride (p.1635·1).
Burns; insect stings; wounds.

Brand- und Wund-Gel Eu Rho *Eu Rho, Ger.†.*
Lidocaine hydrochloride (p.1862·3); allantoin (p.1588·1); cetylpyridinium chloride (p.1635·1); dexpanthenol (p.2362·1).
Burns; insect stings; skin disorders; wounds.

Brandiazin *Medphano, Ger.*
Sulfadiazine silver (p.337·2).
Burns.

Branigen *GSK, Ital.*
Acetylcarnitine hydrochloride (p.1932·2).
Peripheral nerve disorders.

Branitil *OFF, Ital.*
Acetylcarnitine hydrochloride (p.1932·2).
Cerebrovascular disorders; peripheral nerve disorders.

Brasan *Vianex (Βιανεξ), Gr.*
Serrapeptase (p.2385·3).
Inflammatory disorders.

Brasivol *Stiefel, Austral.; Stiefel, Fr.; Stiefel, Hong Kong†; Stiefel, Irl.; Stiefel, S.Afr.; Stiefel, UK.*
Aluminium oxide (p.1585·3).
Acne.

Brasmatic *Darya-Varia, Indon.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Brassel *Pharmacia, Ital.*
Citicoline sodium (p.2283·3).
Cerebrovascular disorders; parkinsonism.

Bratofil *Inquifave, Venez.*
⊗ Fluocinolone acetonide (p.1531·3).
Skin disorders.

Bratofil c Neomicina *Inquifave, Venez.*
⊗ Fluocinolone acetonide (p.1531·3); neomycin sulfate (p.305·1).
Infected skin disorders.

Braunoderm *Braun, Austria; Braun, Belg.; Braun, Ger.; Braun, Ital.; Braun, Port.; Braun, Switz.*
Povidone-iodine (p.1659·2); isopropyl alcohol (p.1650·3).
Skin disinfection; wounds.

Braunol *Braun, Austria; Braun, Belg.; Braun, Cz.; Braun, Ger.; Ratiopharm, Ger.; Braun, Ital.; Braun, Neth.; Braun, Port.; Braun, Switz.*
Povidone-iodine (p.1659·2).
Burns; disinfection of the skin, mucous membranes, and wounds; skin infections.

Braunosan *Braun, Switz.*
Povidone-iodine (p.1659·2).
Hand disinfection.

Braunosan H Plus *Braun, Switz.*
Povidone-iodine (p.1659·2).
Hand and skin disinfection.

Braunovidon *Braun, Austria; Braun, Cz.; Braun, Ger.; Braun, Pol.; Braun, Switz.*
Povidone-iodine (p.1659·2).
Burns; infected skin disorders; skin and wound infections; ulcers.

Bravelle *Ferring, Canad.; Ferring, Gr.; Ferring, Neth.; Ferring, Port.; Ferring, USA.*
⊗ Urofollitropin (p.2136·3).
Female infertility.

Brax *Biomep, Mex.*
Paracetamol (p.108·1); naproxen (p.92·3).
Pain.

Braxan *Armstrong, Mex.*
Amiodarone hydrochloride (p.1210·2).
Angina pectoris; arrhythmias.

Braxidin *Sanbe, Indon.*
Chlordiazepoxide (p.968·1); clidinium bromide (p.1722·1).
Gastrointestinal disorders; smooth muscle spasm.

Brazepam *Pharmacare, S.Afr.*
Bromazepam (p.964·3).
Anxiety.

Breacol
Note. A similar name is used for preparations of different composition (see below).
Valeant, Hong Kong; Valeant, Singapore.
Guaifenesin (p.1561·3).
Coughs; sore throat.

Bre-A-Col
Note. A similar name is used for preparations of different composition (see above).
Grossman, Mex.
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Breacol Decongestant & Cough Suppressant *ICN, Malaysia†.*
Codeine phosphate (p.37·2); phenylephrine hydrochloride (p.1568·1).
Coughs; upper respiratory-tract congestion.

Breaflu *Grossman, Mex.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); guaifenesin (p.1561·3).
Respiratory-tract disorders; rhinitis.

Breathe Free *Thompson, USA.*
Sodium chloride (p.1686·1).
Inflammation and dryness of nasal membranes.

Breathe More *Homeocan, Canad.*
Homoeopathic preparation.

Breatheze *Rolab, S.Afr.†.*
⊗ Salbutamol (p.1131·2).
Bronchospasm.

Breathquality-UBT *AB, Ital.*
⊗ Carbon-13 labelled urea (p.2277·1).
Test for gastroduodenal Helicobacter pylori infection.

Breator *Raffo, Arg.†.*
Pergolide mesilate (p.812·3).
Parkinsonism.

Bredinin *Asahi, Jpn.*
Mizoribine (p.1835·1).
Immunosuppressant.

Bredon *Organon, Mex.*
Oxolamine citrate (p.1567·1).
Coughs.

Breeze 2 *Bayer, UK.*
Test for glucose in blood (p.2314·1).

Breezee Mist Antifungal *Pedinol, USA†.*
Miconazole nitrate (p.541·3).
Fungal skin infections.

Breezee Mist Foot Powder *Pedinol, USA.*
Aluminium chlorohydrate (p.1588·3); menthol (p.2340·1); undecenoic acid (p.549·2).
Formerly known as Breezee Mist Antifungal.
Fungal skin infections.

Brefar *Farcoral, Mex.*
Paracetamol (p.108·1); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Cold symptoms.

Brefus *Hebron, Braz.†.*
Liquorice (p.1740·3).
Coughs.

Bregamin *Continentales, Mex.*
Chlorphenamine maleate (p.571·3); phenylephrine hydrochloride (p.1568·1).
Allergic conjunctivitis; respiratory-tract congestion; rhinitis.

Breinox *Farma, Venez.*
Piracetam (p.368·2).
Mental function impairment.

Brek *TRB, Arg.*
Alendronate sodium (p.1088·1).
Osteoporosis.

Brelcip *Micro, Philipp.*
Ciprofloxacin hydrochloride (p.243·3).
Bacterial infections.

Brellercet *Brown & Burk, Philipp.*
Cetirizine hydrochloride (p.570·3).
Allergic rhinitis; urticaria.

Brelomax *Abbott, Ger.*
⊗ Tulobuterol hydrochloride (p.1150·1).
Obstructive airways disease.

Brelox *Brel, Philipp.*
Cefaclor (p.217·2).
Bacterial infections.

Bremagan Flu *Boehringer Ingelheim Promeco, Mex.*
Guaifenesin (p.1561·3); phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3); paracetamol (p.108·1).
Allergic rhinitis; hay fever.

Bremax *Abbott, Austria; Abbott, Mex.; Abbott, Philipp.; Abbott, Venez.†.*
⊗ Tulobuterol hydrochloride (p.1150·1).
Obstructive airways disease.

Bremecina *Collins, Mex.*
Ampicillin (p.204·1).
Bacterial infections.

Bremide *AstraZeneca, Norw.†.*
Amoxicillin trihydrate (p.202·2); potassium clavulanate (p.250·2).
Otitis media.

Breminal *Gobbi, Arg.*
Tolterodine (p.2198·2).
Bladder instability.

Bremon *Pensa, Spain.*
Clarithromycin (p.248·2).
Bacterial infections.

Bremotel *Alpharma, Mex.†.*
Paracetamol (p.108·1).
Fever; pain.

Bren Fort *Collins, Mex.†.*
Multivitamin preparation (p.1922·1).

Brenax *Sandoz, Indon.*
Ginkgo biloba (p.2311·1).
Cerebral and peripheral vascular disorders.

Brenazol *Durascan, Denm.†.*
Miconazole nitrate (p.541·3).
Fungal infections.

Brenda-35 ED *Alphapharm, Austral.*
21 Tablets, cyproterone acetate (p.2088·2); ethinylestradiol (p.2101·3); 7 inert tablets.
Androgenisation in females; combined oral contraceptive.

Brenoxil *Tecnofarma, Mex.*
Amoxicillin (p.202·2).
Bacterial infections.

Brentacort *Janssen-Cilag, Denm.*
⊗ Hydrocortisone (p.1535·2); miconazole nitrate (p.541·3).
Skin disorders with fungal infection.

Brentan
Note. This name is used for preparations of different composition.
Janssen-Cilag, Denm.
Miconazole (p.541·2) or miconazole nitrate (p.541·3).
Fungal infections.
Janssen-Cilag, Indon.; Esteve, Spain.
⊗ Miconazole nitrate (p.541·3); hydrocortisone (p.1535·2).
Fungal skin infections with inflammation.

Bres *Farmacologico Milanese, Ital.†.*
Bromelains (p.2269·1); aescin (p.2248·2).
Peripheral vascular disorders.

Bresal *Berman, Mex.*
Phenylbutazone (p.117·1).
Inflammation; musculoskeletal and joint disorders.

Bresben *Sandoz, Ger.*
⊗ Atenolol (p.1217·3); nifedipine (p.1350·1).
Hypertension.

Bresec *Vocate, Gr.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Brethal *Fako, Turk.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Brethine *aai, USA.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bretol *Flupal, Venez.*
⊗ Tulobuterol hydrochloride (p.1150·1).
Obstructive airways disease.

Bretylate *GSK, Israel†.*
Bretylium tosilate (p.1236·2).
Ventricular arrhythmias.

Bretylol *Sanofi Omnimed, S.Afr.†.*
Bretylium tosilate (p.1236·2).
Ventricular arrhythmias.

Breva *Valeas, Ital.*
⊗ Salbutamol (p.1131·2); ipratropium bromide (p.1124·1).
Obstructive airways disease.

Brevafen *Janssen-Cilag, Arg.*
⊗ Alfentanil hydrochloride (p.16·2).
Analgesia in anaesthesia.

Brevex *Bago, Chile.*
Paracetamol (p.108·1); chlorzoxazone (p.1894·3).
Muscle spasm; pain.

Brevibloc *Sidus, Arg.†; Boots Healthcare, Austral.; Torrex, Austria; Baxter, Belg.; Cristalia, Braz.; Baxter, Canad.; Baxter, Cz.; Baxter, Denm.; Baxter, Fin.; Baxter, Fr.†; Baxter, Ger.; Baxter, Gr.; Boots, Hong Kong†; Du Pont, Hong Kong†; Baxter, Hung.; Baxter, Irl.; Du Pont, Israel†; Baxter, Ital.; BMS, Malaysia†; Aventis, Mex.†; AFT, NZ; Baxter, Neth.; Baxter, Port.; Sanofi Synthelabo, S.Afr.; BMS, Singapore†; Baxter, Spain; Baxter, Swed.; Baxter, Switz.; Eczacibasi-Baxter, Turk.; Baxter, UK; Baxter, USA.*
⊗ Esmolol hydrochloride (p.1282·3).
Angina pectoris; arrhythmias; hypertension; myocardial infarction.

Brevicon *Pfizer, Canad.; Searle, USA.*
Norethisterone (p.2119·3); ethinylestradiol (p.2101·3).
28-Day packs also contain 7 inert tablets.
Combined oral contraceptive.

Brevimytal *Lilly, Ger.*
Methohexital sodium (p.1788·3).
General anaesthesia.

Brevinaze *Intramed, S.Afr.*
Ketamine hydrochloride (p.1787·1).
Analgesia in painful procedures; general anaesthesia.

Brevinor *Pfizer, Austral.; Pfizer, Hong Kong; Pfizer, Irl.; Pfizer, NZ; Searle, S.Afr.†; Pfizer, UK.*
Norethisterone (p.2119·3); ethinylestradiol (p.2101·3).
28-Day packs also contain 7 inert tablets.
Combined oral contraceptive.

Brevital *Monarch, USA.*
Methohexital sodium (p.1788·3).
General anaesthesia.

Brevoxyl *Stiefel, Austral.; Sanova, Austria; Stiefel, Belg.; Stiefel, Fin.; Stiefel, Fr.; Stiefel, Ger.; Gabriel, Gr.; Stiefel, Hong Kong; Stiefel, Irl.; Stiefel, Malaysia; Stiefel, NZ; Stiefel, Norw.; Stiefel, Philipp.; Stiefel, Pol.; Stiefel, S.Afr.; Stiefel, Singapore; Sylak, Swed.; Stiefel, Thai.; Stiefel, UK; Stiefel, USA.*
Benzoyl peroxide (p.1590·2).
Acne.

Brewers Yeast
Note. This name is used for preparations of different composition.
Greater Pharma, Thai.
Dried yeast (p.1998·3).
Vitamin B deficiency.

Seven Seas, UK.
Yeast (p.1998·3); vitamin B substances (p.1922·1).

Nature's Bounty, USA; Sundown, Venez.†.
Vitamin B substances (p.1922·1).

Brexecam *Adcock Ingram, S.Afr.*
Piroxicam betadex (p.117·3).
Gout; musculoskeletal and joint disorders.

Brexicam *Pierre Fabre, Mex.*
Piroxicam betadex (p.117·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Brexic-DT *Wockhardt, India.*
Piroxicam (p.117·3).
Musculoskeletal and joint disorders.

Brexidol *Torrex, Austria; Biovail, Canad.†; Nycomed, Denm.†; Nycomed, Fin.†; Asche Chiesi, Ger.; Nycomed, Norw.; Nycomed, Swed.; Chiesi, Switz.†; Trinity, UK.*
Piroxicam betadex (p.117·3).
Gout; inflammation; musculoskeletal, joint, periarticular, and soft-tissue disorders; pain.

Brexin
Note. This name is used for preparations of different composition.
Torrex, Austria; Gross, Braz.; Pierre Fabre, Fr.; Chiesi, Gr.; Torrex Chiesi, Hung.; Promedica, Ital.; Chiesi, Malaysia; Neo-Farmaceutica, Port.; Chiesi, Singapore†; Chiesi, Thai.
Piroxicam betadex (p.117·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Cofasa, Venez.
Paracetamol (p.108·1).
Fever; pain.

Brexine *Christiaens, Belg.; Nycomed, Neth.*
Piroxicam betadex (p.117·3).
Gout; musculoskeletal, joint, and peri-articular disorders; pain.

Brexinil *Chiesi, Spain.*
Piroxicam betadex (p.117·3).
Gout; musculoskeletal, joint, and peri-articular disorders; pain.

Brexivel *Promedica, Ital.*
Piroxicam (p.117·3).
Musculoskeletal and joint disorders.

Brexodin *Quimica y Farmacia, Mex.*
Piroxicam (p.117·3).
Gout; inflammation; musculoskeletal, joint, periarticular, and soft-tissue disorders; pain.

Brexon *Essex, Chile†.*
Vitamin A (p.1971·2); vitamin D (p.1986·1).
Burns; skin disorders; wounds.

Brexonase *Etex, Chile.*
⊗ Fluticasone propionate (p.1533·2).
Allergic rhinitis.

Brexotide *Etex, Chile.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Obstructive airways disease.

Brexovent *Etex, Chile.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Brezal *Novartis, Ital.*
Choline alfoscerate (p.363·3).
Mental function impairment in the elderly.

Briazide *Pierre Fabre, Fr.*
⊗ Benazepril hydrochloride (p.1223·2); hydrochlorothiazide (p.1307·3).
Hypertension.

Bricalin *Teva, Israel.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bricanil *AstraZeneca, Venez.†.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bricanyl *AstraZeneca, Arg.; AstraZeneca, Austral.; AstraZeneca, Austria; AstraZeneca, Belg.; AstraZeneca, Braz.; AstraZeneca, Canad.; AstraZeneca, Chile†; 3M, Cz.; AstraZeneca, Cz.; AstraZeneca, Denm.; AstraZeneca, Fin.; AstraZeneca, Fr.; AstraZeneca, Ger.; Stern, Ger.; IFET (ΙΦΕΤ), Gr.; AstraZeneca, Hong Kong; AstraZeneca, Hung.; AstraZeneca, India; AstraZeneca, Irl.; AstraZeneca, Ital.; AstraZeneca, Malaysia; Astra, Mex.†; AstraZeneca, NZ; AstraZeneca, Neth.; AstraZeneca, Norw.; AstraZeneca, Philipp.; AstraZeneca, Port.; AstraZeneca, S.Afr.; AstraZeneca, Singapore; AstraZeneca, Swed.; AstraZeneca, Switz.; AstraZeneca, Thai.; AstraZeneca, Turk.; AstraZeneca, UK; AstraZeneca, USA†.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease; premature labour; pulmonary-function tests.

Bricanyl comp *AstraZeneca, Austria; AstraZeneca, Ger.†; Stern, Ger.†.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Bricanyl Composto *AstraZeneca, Braz.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Bricanyl EX *AstraZeneca, Mex.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Bricanyl Expectorant *AstraZeneca, Hong Kong†; AstraZeneca, Irl.; AstraZeneca, Philipp.; AstraZeneca, Thai.†.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Cough; obstructive airways disease.

Bricarex *AstraZeneca, India.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Asthma; coughs.

Bricasma *AstraZeneca, Indon.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bricasma Expectorant *AstraZeneca, Indon.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Bridatec *GE Healthcare, Neth.; GE, Port.*
Technetium-99m mebrofenin (p.2055·3).
Radionuclide imaging of the biliary-tract and liver.

Bridic *Menarini, Port.*
Brivudine (p.867·3).
Herpes zoster infections.

Briem *Pierre Fabre, Fr.*
Benazepril hydrochloride (p.1223·2).
Hypertension.

Brietal *Lilly, Austral.; Lilly, Austria; Lilly, Israel†; Lilly, Neth.; Lilly, Pol.; Lilly, Rus.*
Methohexital sodium (p.1788·3).
General anaesthesia; hypnotic.

Brighser *Solvang, Philipp.*
Vitamins; lysine hydrochloride (p.1922·1).

Briklin *Vianex (Βιανέξ), Gr.*
Amikacin (p.200·2).
Bacterial infections.

Brimex *Biomep, Mex.*
Aciclovir (p.862·3).
Viral infections.

Brimodin *Cipla, India.*
Brimonidine tartrate (p.1878·3).
Glaucoma; ocular hypertension.

Brimodin P *Cipla, India.*
Brimonidine tartrate (p.1878·3); oxychlorocomplex.

Brimodine *Faran, Gr.*
Brimonidine (p.1878·3).
Glaucoma.

Brimo-Klonal *Klonal, Arg.*
Brimonidine tartrate (p.1878·3).
Glaucoma; ocular hypertension.

Brimopress *Poen, Arg.; Poen, Chile.*
Brimonidine tartrate (p.1878·3).
Glaucoma; ocular hypertension.

Brinaf *Slovakofarma, Cz.†.*
Terbinafine hydrochloride (p.546·3).
Fungal skin and nail infections.

Brinal *Biomedica-Chemica, Gr.*
Brimonidine (p.1878·3).
Glaucoma.

Brinaldix *Novartis, Ger.†; EGIS, Hung.; Novartis, India.*
⊗ Clopamide (p.1250·1).
Hypertension; oedema.

Brinerdin *Novartis, Austria; Novartis, S.Afr.; Novartis, Thai.*
⊗ Clopamide (p.1250·1); dihydroergocristine mesilate (p.364·2); reserpine (p.1387·3).
Hypertension.

Brinerdina *Teofarma, Ital.; Novartis, Spain†.*
⊗ Clopamide (p.1250·1); dihydroergocristine mesilate (p.364·2); reserpine (p.1387·3).
Hypertension.

Brinerdine *Novartis, Port.†; Novartis, Switz.*
⊗ Clopamide (p.1250·1); dihydroergocristine mesilate (p.364·2); reserpine (p.1387·3).
Hypertension.

Brinidin *Pharmanel, Gr.*
Brimonidine (p.1878·3).
Glaucoma.

Brinix *Guidotti, Spain.*
Brivudine (p.867·3).
Herpes zoster infections.

Brintenal *Beta, Arg.*
⊗ Selegiline hydrochloride (p.817·1).
Parkinsonism.

Brintoverilte *Nycomed, Denm.; SAD, Denm.*
Hydrogen peroxide (p.1647·3).
Mouth infections; oral disinfection; wounds.

Briofil *Teofarma, Ital.*
Bamifylline hydrochloride (p.1116·1).
Obstructive airways disease.

Briogen *IBC, Ital.†.*
Glutamine (p.1947·2); -phosphoserine (p.2367·1); cyanocobalamin (p.1980·2).
Tonic.

Briomet *Farma, Venez.*
Cobamamide (p.1980·2); thiamine hydrochloride (p.1976·1); pyridoxine hydrochloride (p.1978·2).
Lidocaine hydrochloride (p.1862·3) is included in the injection to alleviate the pain of injection.
Myalgia; myopathy; neuropathy.

Briomotil *DMG, Ital.*
Inulin; arginine; glutamine; electrolytes (p.1922·1).

Brionil *Lesvi, Spain.*
Nedocromil sodium (p.1127·3).
Asthma.

Brionot *Casasco, Arg.*
Piroxicam (p.117·3).
Gout; musculoskeletal and joint disorders.

Brioplus *Piam, Ital.*
Tryptophan (p.427·1); griffonia simplicifolia (p.2317·2); vitamin B substances (p.1922·1).
Low mood.

Briovitan *Montefarmaco, Ital.*
Multivitamin and mineral preparation with flavonoids (p.1922·1).
Nutritional supplement.

Briovitase *Montefarmaco, Ital.*
Magnesium aspartate (p.1679·1); potassium aspartate (p.1684·2).
Magnesium and potassium deficiency.

Briovitase Sostegno *Montefarmaco, Ital.*
Vitamins; minerals; carnitine; papaya (p.1922·1).

Brisair *GSK, Spain.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Obstructive airways disease.

Briscocough *Quatromed, S.Afr.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Briscopyn *Quatromed, S.Afr.*
Paracetamol (p.108·1); caffeine (p.1116·3); meprobamate (p.1006·2); codeine phosphate (p.37·2).
Pain with tension.

Briserin N *Novartis, Ger.*
⊗ Clopamide (p.1250·1); reserpine (p.1387·3).
Hypertension.

Brisfirina *BMS, Spain.*
Cefapirin sodium (p.221·2).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Brismucol *BMS, Braz.; BMS, Mex.*
Ambroxol acefyllinate (p.1114·2).
Respiratory-tract disorders.

Brisomax *Bialfar, Port.*
⊗ Salmeterol xinafoate (p.1135·1); fluticasone propionate (p.1533·2).
Obstructive airways disease.

Brisoral *BMS, Spain.*
Cefprozil (p.232·2).
Bacterial infections.

Brisovent *Bialfar, Port.*
⊗ Fluticasone propionate (p.1533·2).
Asthma.

Brispen *Hormona, Mex.*
Dicloxacillin sodium (p.265·2).
Bacterial infections.

Bristaciclina Dental *Pfizer, Spain.*
Benzydamine hydrochloride (p.27·3); chymotrypsin (p.2281·3); tetracycline hydrochloride (p.347·2); trypsin (p.2405·3).
Mouth and upper respiratory-tract infections.

Bristacol *Juste, Spain.*
Pravastatin sodium (p.1374·3).
Hypercholesterolaemia; myocardial infarction.

Bristacycline *Bristol, USA.*
Tetracycline hydrochloride (p.347·2).
Bacterial infections.

Bristaflam *BMS, Arg.†; BMS, Chile†; Almirall, Mex.; Elmor, Venez.*
Aceclofenac (p.14·3).
Inflammation; musculoskeletal, joint, and peri-articular disorders; pain.

Bristamox *BMS, Fr.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

BrisTaxol *BMS, Mex.*
Paclitaxel (p.759·1).
Malignant neoplasms.

Bristopen *BMS, Fr.*
Oxacillin sodium (p.311·3).
Bacterial infections.

Britamox *Reig Jofre, Spain.*
Amoxicillin trihydrate (p.202·2).
Formerly known as Halitol.
Bacterial infections.

Britapen *Reig Jofre, Spain.*
Ampicillin sodium (p.204·1) or ampicillin trihydrate (p.204·2).
Bacterial infections.

Britaxol *BMS, Chile.*
Paclitaxel (p.759·1).
Breast cancer; Kaposi's sarcoma; non-small cell lung cancer; ovarian cancer.

British Army Foot Powder *Regal, Canad.†.*
Boric acid (p.2268·1); formaldehyde (p.1644·2); salicylic acid (p.1612·2); zinc oxide (p.1621·2).
Tinea pedis.

Britlofex *Britannia Pharmaceuticals, UK.*
Lofexidine hydrochloride (p.1449·1).
Opioid withdrawal symptoms.

Brivex *Menarini, Switz.*
Brivudine (p.867·3).
Varicella-zoster infections.

Brivir *Menarini, Gr.*
Brivudine (p.867·3).
Herpes zoster infections.

Brivirac *Menarini, Ital.*
Brivudine (p.867·3).
Herpes zoster infections.

Brixia *Poen, Arg.; Poen, Chile; Roemmers Poen, Venez.*
Azelastine hydrochloride (p.568·2).
Allergic eye disorders.

Brixilon *Leti, Venez.*
Ambroxol acefyllinate (p.1114·2).
Asthma.

Brixopan *Epifarma, Ital.*
Bromazepam (p.964·3).
Anxiety disorders; psychosomatic disorders; tension.

Brixoral *Biospray, Gr.*
Ranitidine hydrochloride (p.1766·1).
Conditions where gastric acid reduction is beneficial; gastric hypersecretion including Zollinger-Ellison syndrome; peptic ulcer.

Brizolina *BMS, Spain.*
Cefazolin sodium (p.222·1).
Lidocaine (p.1862·3) is included in the intramuscular injection to alleviate the pain of injection.
Bacterial infections.

Broad Spectrum Sunblock *Avon, Canad.†.*
SPF 15: Avobenzone (p.1589·3); octinoxate (p.1608·2); oxybenzone (p.1608·3).
Sunscreen.

Broadced *Kalbe, Indon.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Brocaden *Pharmasant, Thai.*
Bromocriptine mesilate (p.798·1).
Hyperprolactinaemia; parkinsonism.

Brocalcio D3 *Roemmers, Venez.*
Calcium carbonate (p.1714·1); colecalciferol (p.1986·2).
Calcium supplement.

Brocantol *Cofasa, Venez.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Brochlor *Sanofi-Aventis, UK.*
Chloramphenicol (p.239·3).
Bacterial eye infections.

Brocil *Berman, Mex.*
Chloramphenicol succinate (p.241·3).
Bacterial infections.

Brocof *Vamsler, Philipp.*
Ambroxol (p.1550·3).
Respiratory-tract disorders with abnormal mucus.

Brocolan *Berman, Mex.*
Dextromethorphan (p.1555·2).

Brodacid *Inco Veritas, Pol.*
Dimethyl sulfoxide (p.2022·1); lactic acid (p.2329·3); salicylic acid (p.1612·2).
Warts.

Brodifac *Mintlab, Chile.*
Ketorolac (p.75·2).
Inflammation; pain.

Brodil *Sanovel, Turk.*
⊗ Ephedrine hydrochloride (p.1558·2); guaifenesin (p.1561·3).
Respiratory-tract congestion.

Brodilan *Zuoz, Venez.*
⊗ Clenbuterol hydrochloride (p.1120·1).
Bronchospasm.

Brodilin *Zuoz, Venez.*
⊗ Clenbuterol hydrochloride (p.1120·1).
Bronchospasm.

Broend *Parggon, Mex.*
Guaifenesin (p.1561·3); sodium dibunate (p.1573·1).
Coughs.

Brofed
Note.This name is used for preparations of different composition.
Pharmaland, Thai.
Bromperidol (p.965·1).
Psychoses.

Marnel, USA.
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2).
Upper respiratory-tract symptoms.

Broflex *Alliance, UK.*
Trihexyphenidyl hydrochloride (p.820·2).
Drug-induced extrapyramidal disorders; parkinsonism.

Brogal *Rayere, Mex.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Brogal Compositum *Rayere, Mex.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol hydrochloride (p.1120·1).
Respiratory-tract disorders.

Brogal-T *Rayere, Mex.*
Ambroxol hydrochloride (p.1550·3); dextromethorphan hydrobromide (p.1555·2).
Cough; respiratory-tract congestion.

Brogamax *Rayere, Mex.*
Co-trimoxazole (p.258·1); ambroxol (p.1550·3).
Bacterial infections of the respiratory tract.

Broksin *Tripharma, Turk.*
⊗ Ephedrine hydrochloride (p.1558·2); guaifenesin (p.1561·3).
Respiratory-tract congestion.

Brolamina *Ivax, Mex.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

Brolene
Aventis, Austral.; Sanofi-Aventis, Irl.; Aventis, NZ; Aventis, UK.
Dibrompropamidine isetionate (p.1642·1) or propamidine isetionate (p.1660·1).
Eye infections.

Genop, S.Afr.
Propamidine isetionate (p.1660·1).
Eye infections.

Brolene Cool Eyes *Aventis, UK.*
Hypromellose (p.2144·2).
Dry eyes; eye irritation.

Brolexan *Medifarma, Indon.; UAP, Indon.*
Bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3).
Upper respiratory-tract disorders.

Brolin
Note.This name is used for preparations of different composition.
D & M, Chile.
Cysteine; zinc; pyridoxine; biotin (p.1922·1).
Hair and nail disorders.

Vedim, Spain†.
Famotidine (p.1730·1).
Gastro-oesophageal reflux; peptic ulcer; Zollinger-Ellison syndrome.

Brolin Forte *D & M, Chile.*
Cysteine; vitamins; minerals (p.1922·1).
Hair and nail disorders.

Broluidan *Kenfarma, Spain†.*
Letosteine (p.1563·3).
Respiratory-tract disorders.

Bromace *Ace, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with abnormal mucus.

Bromacef *Ad-Drugstel, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with abnormal mucus.

Bromadine-DM *Cypress, USA.*
Brompheniramine hydrochloride (p.569·3); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bromalex *Vitoria, Port.*
Bromazepam (p.964·3).
Anxiety.

Bromalgina *Climax, Braz.†.*
Codeine diethylbarbiturate (p.38·3); dipyrone (p.49·2); homatropine methylbromide (p.1881·3).
Painful muscle spasm.

BromaLich *Lichtenstein, Ger.†.*
Bromazepam (p.964·3).
Anxiety; sleep disorders.

Bromam *Sandoz, Denm.*
Bromazepam (p.964·3).
Anxiety.

Bromarest DX *Warner Chilcott, USA.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Bromatan Plus *Cypress, USA.*
Pseudoephedrine tannate (p.1572·1); dextromethorphan tannate (p.1556·1); dexchlorpheniramine tannate (p.572·2).
Allergic rhinitis; cold symptoms; cough; sinusitis.

Bromatan-DM *Cypress, USA.*
Brompheniramine tannate (p.569·3); phenylephrine tannate (p.1568·3); dextromethorphan tannate (p.1556·1).
Coughs; nasal congestion.

Bromatane DX *Goldline, USA.*
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bromatanil *Investi, Arg.*
Bromazepam (p.964·3).
Anxiety.

Bromatop *Topgen, Belg.*
Bromazepam (p.964·3).
Anxiety; sleep disorders.

Bromavon *Hua, Thai.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Nasal congestion; respiratory-tract disorders.

Bromax *Pentafarma, Port.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Bromaz *1A, Ger.†.*
Bromazepam (p.964·3).
Anxiety; insomnia.

Bromazanil *Hexal, Ger.*
Bromazepam (p.964·3).
Anxiety; tension.

Bromaze *Hexal, S.Afr.*
Bromazepam (p.964·3).
Anxiety.

Bromazep *CT, Ger.*
Bromazepam (p.964·3).
Anxiety; insomnia.

Bromazepan *Dovalle, Braz.†.*
Bromazepam (p.964·3).
Anxiety.

Bromazolo *Baldacci, Ital.*
Thiamazole (p.2176·3); dibromotyrosine (p.2169·1).
Hyperthyroidism.

Bromed *Kolassa, Austria.*
Bromocriptine mesilate (p.798·1).
Acromegaly; galactorrhoea; lactation inhibition; menstrual disorders; parkinsonism; prolactinoma.

Bromedrina *Sankyo, Venez.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromek *Kocak, Turk.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromeksin *Oro, Turk.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromel *Antibioticos, Mex.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Bromelin *Hebron, Braz.†.*
Bromelains (p.2269·1); invertase; glucose oxidase (p.2313·3); ribonuclease (p.2378·3); amylase (p.2256·3).
Coughs.

Bromelip *Maver, Mex.*
Dextromethorphan (p.1555·2).
Cough.

Bromergon *2K, Denm.†; Lek, Pol.; Lek, Rus.; Sandoz, Thai.*
Bromocriptine mesilate (p.798·1).
Acromegaly; amenorrhoea; galactorrhoea; hyperprolactinaemia; hypertension; hypogonadism; lactation inhibition; mastalgia; parkinsonism; prolactinoma.

Bromesep Elixir *Siam Bheasach, Thai.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Allergic rhinitis; nasal congestion.

Bromesep Expectorant *Siam Bheasach, Thai.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1); guaifenesin (p.1561·3).
Allergic rhinitis; coughs; nasal congestion.

Brometix *Etifar, Venez.†.*
Bromhexine (p.1552·2).
Respiratory-tract congestion.

Brometos *Lafedar, Arg.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromex *Qualiphar, Belg.; Cipla, India; PP Lab, Thai.†.*
Bromhexine hydrochloride (p.1552·2).
Bronchiectasis; obstructive bronchopneumonopathies; respiratory-tract disorders associated with increased or viscous mucus; sinusitis; Sjögren's syndrome.

Bromexidryl *Klonal, Arg.*
Bromhexine (p.1552·2).
Respiratory-tract congestion.

Bromexol *Galeno, Venez.*
Bromhexine (p.1552·2).
Respiratory-tract congestion.

Bromfed *Verum, USA.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Allergic rhinitis; nasal congestion.

Bromfed-DM *Verum, USA.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Allergic rhinitis; coughs; vasomotor rhinitis.

Bromfed-PD *Verum, USA.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Allergic rhinitis; nasal congestion.

Bromfenex *Ethex, USA.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract disorders.

Bromhexine Compound *Vida, Hong Kong.*
⊗ Codeine phosphate (p.37·2); bromhexine hydrochloride (p.1552·2); ephedrine hydrochloride (p.1558·2); brompheniramine maleate (p.569·2); papaverine hydrochloride (p.2191·3).
Catarrh; coughs; nasal congestion.

Bromhist *Cypress, USA.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract disorders.

Bromhist PDX
Note.This name is used for preparations of different composition.
Cypress, USA.
Oral drops: Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).

Cypress, USA.
Syrup: Brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1); guaifenesin (p.1561·3).

Bromhist-DM
Note.This name is used for preparations of different composition.
Cypress, USA.
Oral drops: Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs; upper respiratory-tract congestion.

Cypress, USA.
Syrup: Brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); pseudoephedrine hydrochloride (p.1571·2).
Coughs; nasal congestion.

Bromhist-NR *Cypress, USA.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).

Bromhistop *Neo Dermos, Arg.*
Aluminium chlorohydrate (p.1588·3).
Hyperhidrosis.

Bromicof *Loeffler, Mex.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromidem *Sandipro, Belg.*
Bromazepam (p.964·3).
Anxiety; insomnia.

Bromidrastina *Ibefar, Braz.†.*
Sodium bromide (p.2269·2); hydrastis (p.2321·3); hamamelis (p.2318·2); black haw (p.2267·1); gossypium herbaceum.
Menstrual disorders.

Bromifen *Neo Quimica, Braz.*
⊗ Fenoterol hydrobromide (p.1121·1).
Obstructive airways disease.

Bromika *Ikapharmindo, Indon.*
Bromhexine hydrochloride (p.1552·2).
Cough.

Bromil
Note.This name is used for preparations of different composition.
EMS, Braz.
Pastilles: Menthol (p.2340·1); terpineol (p.2396·1); cineole (p.2282·3); ascorbic acid (p.1983·3); benzocaine (p.1854·1).
Mouth and throat disorders.

EMS, Braz.
Syrup: Cineole (p.2282·3); terpineol (p.2396·1); menthol (p.2340·1).
Coughs.

Bromi-Lotion *Gordon, USA.*
Aluminium chlorohydrate (p.1588·3).
Bromhidrosis; hyperhidrosis.

Brominol-C *Sons, Mex.*
Dextromethorphan (p.1555·2); ambroxol (p.1550·3).
Coughs.

Bromiramin *Norma (Νορμα), Gr.†.*
Bromhexine hydrochloride (p.1552·2).
Respiratory disorders associated with viscous mucus.

Bromivec *Precimex, Mex.*
Vecuronium bromide (p.1913·1).
Competitive neuromuscular blocker.

Bromixen *Maver, Mex.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Brommer *Mersifarma, Indon.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Bromo Madelon *St Laurent, Canad.*
Sodium bicarbonate (p.1673·2); citric acid (p.2284·1).

Bromo Seltzer
Note.This name is used for preparations of different composition.
Tower, Canad.
Sodium citrate (p.1673·3).
Dyspepsia; gastric hyperacidity.

Warner-Lambert, USA.
Paracetamol (p.108·1).
Fever; pain.

Bromo Seltzer Effervescent Granules *Warner-Lambert, USA.*
Sodium bicarbonate (p.1673·2); paracetamol (p.108·1); citric acid (p.2284·1).
Hyperacidity.

Bromocal *Caldeira & Metelo, Port.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromocalcio *Pasteur, Chile.*
Calcium bromolactobionate (p.967·3).
Insomnia; nervous disorders.

Bromocod N *Streuli, Switz.*
Codeine phosphate (p.37·2); belladonna (p.2263·3); drosera (p.2297·3); ipecacuanha (p.1562·3); opium (p.105·1); terpin hydrate (p.1573·3).
Coughs.

Bromocorn *Filofarm, Pol.*
Bromocriptine (p.800·3).
Hyperprolactinaemia; lactation inhibition; male and female infertility; menstrual disorders; parkinsonism; prolactinoma.

Bromocrel *Hexal, Ger.†.*
Bromocriptine mesilate (p.798·1).
Acromegaly; hyperprolactinaemia; lactation inhibition; parkinsonism.

Bromodel *Organifar, Venez.†.*
Dextromethorphan hydrobromide (p.1555·2).
Cough.

Bromodol *Janssen-Cilag, Arg.*
Bromperidol (p.965·1) or bromperidol decanoate (p.965·1).
Psychoses.

Bromohexal *Hexal, Austral.*
Bromocriptine mesilate (p.798·1).
Acromegaly; hyperprolactinaemia; lactation inhibition; parkinsonism; prolactinomas.

Bromo-Kin *Winthrop, Fr.*
Bromocriptine mesilate (p.798·1).
Hyperprolactinaemia; lactation inhibition; parkinsonism; prolactinomas.

Bromolactin *Sigma, Austral.†.*
Bromocriptine mesilate (p.798·1).
Acromegaly; hyperprolactinaemia; lactation inhibition; parkinsonism.

Bromolin *Cipla, India.*
Bromhexine (p.1552·2); amoxicillin (p.202·2).
Respiratory-tract infections.

Bromophar *Qualiphar, Belg.*
Codeine phosphate (p.37·2).
Coughs.

Bromopirin *Sigma, Braz.*
Bromazepam (p.964·3); sulpiride (p.1028·3).
Psychoses.

Bromoprid *Teuto, Braz.†.*
Bromopride (p.1713·3).
Nausea and vomiting.

Bromoson *Unison, Hong Kong; Unison, Thai.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bromotec *Teuto, Braz.*
⊗ Fenoterol hydrobromide (p.1121·1).
Obstructive airways disease.

Bromotiren *Baldacci, Ital.*
Dibromotyrosine (p.2169·1).
Hyperthyroidism.

Bromotuss with Codeine *Rugby, USA.*
Bromazine hydrochloride (p.569·1); codeine phosphate (p.37·2).
Coughs and cold symptoms.

Bromovent *Bergamo, Braz.*
Ipratropium bromide (p.1124·1).
Asthma.

Bromox *Etifar, Venez.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract congestion.

Bromoxil *Vitae, Mex.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Bromoxon *Sanval, Braz.*
Bromazepam (p.964·3).
Anxiety.

Bromped *Hua, Thai.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Allergic respiratory-tract disorders; nasal congestion.

Bromphen DX Cough *Muro, USA.*
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Bromphenex *Ethex, Hong Kong.*
Brompheniramine maleate (p.569·2); pseudoephedrine hydrochloride (p.1571·2).
Rhinitis.

Brompheniramine Cough *Geneva, USA.*
Pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Brom-PP *Jean-Marie, Hong Kong.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1); phenylpropanolamine hydrochloride (p.1569·3).
Respiratory-tract disorders.

Brom-Ramine Compound *Universal, Hong Kong.*
Brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1); phenylpropanolamine hydrochloride (p.1569·3).
Respiratory-tract disorders.

Bromso *TO-Chemicals, Thai.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bromso-Ex *TO-Chemicals, Thai.*
Bromhexine hydrochloride (p.1552·2); sulfogaiacol (p.1573·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bromtine *Duopharma, Hong Kong.*
Bromocriptine (p.800·3).
Acromegaly; hyperprolactinaemia; parkinsonism.

Bromtussia *Asian Pharm, Thai.*
Guaifenesin (p.1561·3); brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1).
Coughs; nasal congestion.

Bromtussia DC *Asian Pharm, Thai.†.*
Guaifenesin (p.1561·3); brompheniramine maleate (p.569·2); phenylephrine hydrochloride (p.1568·1); codeine phosphate (p.37·2).
Coughs; nasal congestion.

Bromuc *Ariston, Braz.; Fujisawa, Ger.†; Klinge, Ger.†.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bromurex *Pisa, Mex.*
Pancuronium bromide (p.1907·3).
Competitive neuromuscular blocker.

Bromxin *Masa, Thai.†.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders.

Bromxine *Atlantic, Hong Kong; Atlantic, Malaysia; Atlantic, Singapore; Atlantic, Thai.; General Drugs, Thai.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bromycil *Ace, Philipp.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders with excess mucus.

Bron 6 *Capo Sole, Ital.†.*
Chestnut honey; propolis; althaea; erisimo; thyme; wild rose; niaouli oil (p.1922·1).
Food supplement; tonic.

Bronacim *Valmor, Venez.†.*
Bromhexine (p.1552·2).
Respiratory-tract congestion.

Bronalide *Boehringer Ingelheim, Gr.†.*
⊗ Flunisolide (p.1531·1).
Asthma.

Bronar *Degorts, Mex.*
Ambroxol hydrochloride (p.1550·3); loratadine (p.583·3).
Respiratory-tract disorders.

Bronax *Roemmers, Arg.*
Meloxicam (p.80·3).
Musculoskeletal and joint disorders.

Broncafect *Mediherb, Austral.*
Pleurisy root (p.2370·1); echinacea (p.2298·1); liquorice (p.1740·3); marrubium (p.1564·1); thyme (p.2401·1); ginger (p.1732·3).
Cold and influenza symptoms; coughs.

Broncaire Expectorant *Biolab, Philipp.*
⊗ Guaifenesin (p.1561·3); salbutamol (p.1131·2).
Obstructive airways disease.

Broncal *Novel, Ital.†.*
Dextromethorphan hydrobromide (p.1555·2); sulfogaiacol (p.1573·2).
Coughs.

Broncalene *McNeil, Fr.*
Pholcodine (p.1570·2); chlorphenamine maleate (p.571·3); sodium benzoate (p.1630·2).
Coughs.

Broncalene Nourisson *McNeil, Fr.*
Chlorphenamine maleate (p.571·3); sodium benzoate (p.1630·2); tolu balsam (p.1574·2).
Coughs.

Broncard *Labomed, Chile.*
Levodropropizine (p.1557·3).
Coughs.

Broncasma *Berna, Port.†.*
An inactivated bacterial vaccine containing lysates of *Haemophilus influenzae*; *Klebsiella pneumoniae*; *Moraxella catarrhalis*; *Neisseria t.*; pneumococcus; staphylococcus; *Streptococcus haemolyticus*; *Streptococcus viridans*.

Broncatar *Cazi, Braz.*
Bromhexine hydrochloride (p.1552·2); sulfogaiacol (p.1573·2).
Respiratory-tract congestion.

Broncelix *Pfizer Consumer, NZ.*
Choline theophyllinate (p.1119·3); guaifenesin (p.1561·3).
Coughs.

Bronchalis-Heel *Peithner, Austria; Heel, Cz.*
Homoeopathic preparation.

Bronchathiol *Aventis, Belg.†; McNeil, Fr.*
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

Bronchenolo
Note. This name is used for preparations of different composition.
GSK Consumer, Ital.†.
Pastilles: Cetylpyridinium chloride (p.1635·1).
Mouth and throat disinfection.

GSK Consumer, Ital.
Syrup: Dextromethorphan hydrobromide (p.1555·2); sulfogaiacol (p.1573·2); ammonium acetate (p.1551·2).
Coughs.

GSK Consumer, Ital.
Tablets: Dextromethorphan hydrobromide (adsorbed onto magnesium trisilicate) (p.1555·2).
Coughs.

Bronchenolo Antiflu *GSK, Ital.*
Paracetamol (p.108·1); ascorbic acid (p.1983·3).
Fever; pain.

Bronchette *Pharmacare, S.Afr.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders with excess and viscous mucus.

Bronchex *Hilarys, Canad.†.*
Ammonium chloride (p.1551·3); ammonia (p.2256·1); ammonium carbonate (p.1551·3); glycerol (p.2314·2); liquorice (p.1740·3); menthol (p.2340·1); siberian fir oil; white pine compound.

Bronchial *Atlas, Canad.; Theralab, Canad.*
Ammonium chloride (p.1551·3); senega (p.1572·3); white pine compound.

Bronchial Cough
Note. This name is used for preparations of different composition.
Hylands, Canad.
Homoeopathic preparation.

Pendopharm, Canad.
Ammonium chloride (p.1551·3); aralia racemosa; poplar buds (p.2371·1); sanguinaria (p.2383·2); senega (p.1572·3); white pine; wild cherry (p.2415·2).
Cough.

Bronchialbalsam *Ratiopharm, Ger.†.*
Pine needle oil (p.2368·2); eucalyptus oil (p.2301·2).
Catarrh.

Bronchialtee N *Abtswinder, Cz.†.*
Liquorice (p.1740·3); plantaginis (p.2379·1); fennel (p.2302·3); thyme (p.2401·1); viola tricolor (p.2415·2); wild thyme (p.2415·3); cowslip (p.2372·2).
Upper respiratory-tract disorders.

Bronchiase *Lafare, Ital.*
Dextromethorphan hydrobromide (p.1555·2); sulfogaiacol (p.1573·2).
Coughs.

Bronchicough *Aventis, S.Afr.†.*
⊗ Cimicifuga (p.2282·1); grindelia (p.2317·2); burnet saxifrage (p.2270·3); cowslip (p.2372·2); quebracho (p.2377·1); thyme (p.2401·1); ephedrine hydrochloride (p.1558·2); menthol (p.2340·1); eucalyptus oil (p.2301·2); saponin.
Coughs.

Bronchicum
Note. This name is used for preparations of different composition.
Cassella-med, Ger.
Thyme (p.2401·1); cowslip root (p.2372·2).
Respiratory-tract disorders associated with viscous mucus.

Aventis, Neth.
Thyme (p.2401·1); primula root (p.2372·2); grindelia (p.2317·2); burnet saxifrage root (p.2270·3); anise oil (p.2258·2); eucalyptus oil (p.2301·2); menthol (p.2340·1); saponin.
Coughs.

Nattermann, Pol.†.
Quebracho (p.2377·1); soapwort (p.2388·2); thyme (p.2401·1); eucalyptus oil (p.2301·2); menthol (p.2340·1).
Catarrh.

Aventis, Rus.
Grindelia (p.2317·2); saxifraga; primula (p.2372·2); quebracho (p.2377·1); thyme (p.2401·1).
Respiratory-tract disorders.

Aventis, S.Afr.†.
⊗ Cimicifuga (p.2282·1); grindelia (p.2317·2); burnet saxifrage (p.2270·3); cowslip (p.2372·2); quebracho (p.2377·1); thyme (p.2401·1); ephedrine hydrochloride (p.1558·2); menthol (p.2340·1); sodium bromide (p.2269·2); eucalyptus oil (p.2301·2); saponin.
Bronchitis.

Bronchicum Balsam mit Eukalyptusol *Nattermann, Ger.†.*
Eucalyptus oil (p.2301·2); camphor (p.2273·2); pine silvestris oil (p.2368·2).
Catarrh; cold symptoms.

Bronchicum Eliksir *Nattermann, Pol.*
Grindelia (p.2317·2); burnet saxifrage (p.2270·3); primrose root (p.2372·2); quebracho (p.2377·1); thyme (p.2401·1); eucalyptus oil (p.2301·2); menthol (p.2340·1).
Catarrh.

Bronchicum Elixir *Aventis, Cz.†.*
Grindelia (p.2317·2); burnet saxifrage (p.2270·3); cowslip (p.2372·2); quebracho (p.2377·1); thyme (p.2401·1).
Bronchitis; coughs.

Bronchicum Elixir N *Nattermann, Ger.†.*
Grindelia (p.2317·2); burnet saxifrage (p.2270·3); primula root (p.2372·2); quebracho (p.2377·1); thyme (p.2401·1).
Bronchial congestion; coughs.

Bronchicum Elixir Plus *Nattermann, Ger.†.*
Thyme (p.2401·1); ribwort plantain (p.2379·1); primula root (p.2372·2).
Bronchial congestion; coughs.

Bronchicum Elixir S *Cassella-med, Ger.*
Thyme (p.2401·1); cowslip root (p.2372·2).
Bronchitis; catarrh; coughs.

Bronchicum Extra Sterk *Aventis, Neth.*
Codeine phosphate (p.37·2).
Formerly contained ephedrine hydrochloride, codeine phosphate, and vegetable extracts.
Coughs.

Bronchicum Husten
Note. This name is used for preparations of different composition.
Aventis, Rus.
Pastilles: Thyme (p.2401·1).
Cough.

Aventis, Rus.
Syrup: Thyme (p.2401·1); rose fruit (p.2381·2); saxifraga; primula (p.2372·2); grindelia (p.2317·2); honey (p.1948·2).
Cough.

Bronchicum Husten-Pastillen *Aventis, Cz.†.*
Thyme (p.2401·1).
Coughs; sore throat.

Bronchicum Hustensirup *Aventis, Cz.†.*
Grindelia (p.2317·2); burnet saxifrage (p.2270·3); cowslip (p.2372·2); thyme (p.2401·1); rose fruit (p.2381·2).
Catarrh.

Bronchicum Medizinal-Bad *Cassella-med, Ger.†.*
Thyme oil (p.2401·2).
Bath additive; respiratory-tract disorders.

Bronchicum Mono Codein *Cassella-med, Ger.*
Codeine phosphate (p.37·2).
Coughs.

Bronchicum N *Nattermann, Pol.*
Thyme (p.2401·1).
Catarrh; cough.

Bronchicum Pastillen *Cassella-med, Ger.†.*
Thyme (p.2401·1).
Coughs; sore throat.

Bronchicum Pflanzlicher *Nattermann, Ger.†.*
Thyme (p.2401·1); drosera (p.2297·3).
Cold symptoms; coughs.

Bronchicum Pflanzlicher Hustenstiller *Aventis, Cz.†.*
Drosera (p.2297·3); eucalyptus oil (p.2301·2); menthol (p.2340·1).
Cold symptoms; coughs.

Bronchicum Sekret-Loser *Aventis, Cz.†; Nattermann, Ger.†.*
Eucalyptus oil (p.2301·2); thyme (p.2401·1); cowslip (p.2372·2).
Upper respiratory-tract disorders; upper respiratory-tract disorders with viscous mucus.

Bronchicum T *Nattermann, Pol.*
Thyme (p.2401·1).
Catarrh; cough.

Bronchicum Thymian *Nattermann, Ger.†.*
Primula root (p.2372·2); thyme (p.2401·1).
Bronchitis; coughs.

Bronchicum Tropfen *Aventis, Cz.†.*
Quebracho (p.2377·1); soapwort (p.2388·2); thyme (p.2401·1); eucalyptus oil (p.2301·2).
Bronchitis.

Bronchicum Tropfen N *Nattermann, Ger.†.*
Quebracho (p.2377·1); soapwort (p.2388·2); thyme (p.2401·1).
Bronchitis.

Bronchi-Do *Grasler, Ger.*
Homoeopathic preparation.

Bronchiflu *Aventis, S.Afr.†.*
Mepyramine maleate (p.585·2); menthol (p.2340·1); ammonium chloride (p.1551·3); paracetamol (p.108·1); phenylpropanolamine hydrochloride (p.1569·3).
Cold symptoms; coughs.

Bronchikatt *Kattwiga, Ger.†.*
Homoeopathic preparation.

Bronchil *Siam Bheasach, Thai.*
Guaifenesin (p.1561·3); theophylline (p.1140·1).
Obstructive airways disease.

Bronchilet *Nicholas Piramal, India†.*
⊗ Salbutamol sulfate (p.1131·3); etofylline (p.1121·1).
Obstructive airways disease.

Bronchilin *Flordis, Austral.†.*
Primrose; thyme (p.2401·1).
Coughs.

Bronchilite *Eulite, Neth.*
Homoeopathic preparation.

Bronchilon *Cesra, Ger.*
Ivy (p.2328·1).
Respiratory-tract disorders.

Bronchi-Mereprine *Novum, Belg.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with viscous mucus.

Bronchiole *Bevo, Gr.†.*
Carbocisteine (p.1553·2).

Bronchi-Pertu *Pekana, Ger.†.*
Homoeopathic preparation.

Bronchipret
Note. This name is used for preparations of different composition.
Austroplant, Austria; Bionorica, Rus.
Thyme (p.2401·1); ivy (p.2328·1).
Bronchitis; respiratory-tract disorders.

Bionorica, Cz.; Bionorica, Philipp.; Pharmalink, Philipp.
Primula (p.2372·2); thyme (p.2401·1).
Bronchitis; respiratory-tract disorders.

Bionorica, Ger.
Oral drops; oral liquid: Thyme (p.2401·1); ivy (p.2328·1).
Bronchitis.

Bionorica, Hung.
Oral drops; syrup: Thyme (p.2401·1); ivy (p.2328·1).
Bronchitis.

Bionorica, Ger.
Pastilles: Thyme (p.2401·1).
Bronchitis; cold symptoms; coughs.

Bionorica, Indon.; Darya-Varia, Indon.
Syrup: Thyme (p.2401·1); ivy (p.2328·1).
Respiratory-tract disorders.

Bionorica, Ger.; Bionorica, Hung.; Bionorica, Indon.; Darya-Varia, Indon.
Tablets: Primula root (p.2372·2); thyme (p.2401·1).
Bronchitis; respiratory-tract disorders.

Bronchipret TP *Bionorica, Rus.*
Primula root (p.2372·2); thyme (p.2401·1).
Respiratory-tract disorders.

Bronchiselect *Dreluso, Ger.*
Homoeopathic preparation.

Bronchithym *Austroplant, Austria.*
Thyme (p.2401·1); cowslip (p.2372·2).
Bronchitis.

Bronchitin *Nufarindo, Indon.*
⊗ Ephedrine hydrochloride (p.1558·2); guaifenesin (p.1561·3); paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Cough; influenza symptoms.

Bronchitussin *Vramed, Rus.*
⊗ Glaucine hydrobromide (p.1561·1); ephedrine hydrochloride (p.1558·2); basil oil (p.2263·2).

Broncho D *Sam-On, Israel.*
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3).
Coughs; respiratory-tract congestion.

Broncho Fertiginhalat *Astellas, Ger.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Broncho Inhalat *Astellas, Ger.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Broncho Munal *Medice, Ger.†; Abiogen, Ital.; Lek, Rus.*
Haemophilus influenzae; *Streptococcus pneumoniae*; *Klebsiella pneumoniae*; *Klebsiella ozaenae*; *Staphylococcus aureus*; *Streptococcus pyogenes*; *Streptococcus viridans*; *Moraxella catarrhalis*.
Respiratory-tract infections.

Broncho Saline *Blairex, USA.*
Sodium chloride (p.1686·1).
Diluent for bronchodilator solutions for inhalation.

Bronchobest *CT, Ger.†.*
Spike lavender oil (p.2392·1).
Bronchitis.

Bronchobos *Bosnalek, Rus.*
Carbocisteine (p.1553·2).
Otitis media; respiratory-tract disorders associated with increased or viscous mucus.

Bronchocin *Balkanpharma, Rus.*
⊗ Glaucine hydrobromide (p.1561·1); ephedrine hydrochloride (p.1558·2); basil oil (p.2263·2).
Respiratory-tract disorders.

Bronchocort *Astellas, Ger.*
⊗ Beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Bronchodam *Filadams, Philipp.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bronchodex Pastilles *Prodemdis, Canad.*
Domiphen bromide (p.1643·1).

Bronchodex Pastilles Antiseptiques *Prodemdis, Canad.*
Hexylresorcinol (p.1647·1).

Bronchodex Vapo *Theralab, Canad.*
Camphor (p.2273·2); eucalyptus oil (p.2301·2); menthol (p.2340·1).

Bronchodex-Rub *Theralab, Canad.†.*
Camphor (p.2273·2); eucalyptus oil (p.2301·2); menthol (p.2340·1); methyl salicylate (p.85·3).

Bronchodine *Pharmacobel, Belg.*
Codeine phosphate (p.37·2).
Coughs.

† This preparation may no longer be actively marketed

⊗ Contains a substance whose use may be restricted in certain sports (see p.vii)

Bronchodual *Boehringer Ingelheim, Fr.*
⊗ Fenoterol hydrobromide (p.1121·1); ipratropium bromide (p.1124·1).
Obstructive airways disease.

Bronchodurat N *Pohl, Ger.†.*
Eucalyptus oil (p.2301·2); menthol (p.2340·1).
Bronchitis; cold symptoms.

Broncho-Euphyllin *Altana, Ger.*
Theophylline (p.1140·1); ambroxol hydrochloride (p.1550·3).
Obstructive airways disease.

Bronchofen *Pharma Nutria, Philipp.*
Phenylephrine hydrochloride (p.1568·1); chlorphenamine maleate (p.571·3).
Cold symptoms; rhinitis; sinusitis.

Bronchofluid N *DP-Medica, Switz.†.*
Guaifenesin (p.1561·3); drosera (p.2297·3); ivy (p.2328·1); ribwort plantain (p.2379·1); senega (p.1572·3); thyme (p.2401·1); anise oil (p.2258·2).
Coughs with excessive mucus.

Bronchoforton
Note. This name is used for preparations of different composition.
Sanofi Synthelabo, Austria†.
Eucalyptus oil (p.2301·2); pine silvestris oil (p.2368·2); peppermint oil (p.1761·2).
Cold and influenza symptoms.

Winthrop, Ger.
Capsules: Eucalyptus oil (p.2301·2); anise oil (p.2258·2); peppermint oil (p.1761·2).
Catarrh.

Winthrop, Ger.
Ointment: Eucalyptus oil (p.2301·2); Norway spruce oil; peppermint oil (p.1761·2).
Catarrh; cold symptoms.

Winthrop, Ger.
Oral liquid: Ivy (p.2328·1).
Bronchitis; catarrh.

Bronchoforton Kinderbalsam *Winthrop, Ger.*
Eucalyptus oil (p.2301·2); pine needle oil (p.2368·2).
Coughs; respiratory-tract congestion.

Bronchofyl *Remedina, Gr.*
Butamirate (p.1553·1).
Cough.

Bronchohexal *Hexal, Austria.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with viscous mucus.

Broncho-Kid *Sam-On, Israel.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract disorders.

Bronchokod *Sanofi-Aventis, Fr.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bronchol *Streuli, Switz.*
Guaifenesin (p.1561·3).
Upper respiratory-tract disorders.

Broncholate
Note. This name is used for preparations of different composition.
Sam-On, Israel.
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract disorders.

Sanofi Winthrop, USA.
⊗ Ephedrine hydrochloride (p.1558·2); guaifenesin (p.1561·3).
Coughs.

Broncholate Forte *Sam-On, Israel.*
Diphenhydramine hydrochloride (p.577·2); pseudoephedrine hydrochloride (p.1571·2); codeine phosphate (p.37·2).
Respiratory-tract disorders.

Broncholate Plus *Sam-On, Israel.*
Diphenhydramine hydrochloride (p.577·2); paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Upper respiratory-tract disorders.

Broncholine *TO-Chemicals, Thai.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Broncholit *Nicholas, Indon.*
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

Broncholysin *Spofa, Cz.†.*
Acetylcysteine (p.1548·2).
Paracetamol overdosage; respiratory-tract disorders associated with increased or viscous mucus.

Broncholytin *Sopharma, Rus.*
⊗ Glaucine hydrobromide (p.1561·1); ephedrine hydrochloride (p.1558·2).
Respiratory-tract disorders.

Bronchonyl
Note. This name is used for preparations of different composition.
Pharmasant, Thai.
Syrup: Terbutaline hydrochloride; guaifenesin (p.1561·3).
Coughs; obstructive airways disease.

Pharmasant, Thai.
Tablets: ⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bronchoparat *Astellas, Ger.*
Theophylline sodium glycinate (p.1146·3).
Obstructive airways disease.

Bronchopect *Herbapol Poznan, Pol.*
Ivy (p.2328·1).
Catarrh.

Broncho-pectoralis Pholcodine *Medgenix, Belg.*
Pholcodine (p.1570·2); sulfogaiacol (p.1573·2).
Coughs and nasal congestion.

Bronchoped *Adcock Ingram, S.Afr.*
⊗ Terbutaline sulfate (p.1138·3); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs with bronchospasm.

Bronchophan DM *Atlas, Canad.*
Dextromethorphan hydrobromide (p.1555·2).

Bronchophan Expectorant *Atlas, Canad.*
Guaifenesin (p.1561·3).
Cough.

Bronchophen *Sunthi Sepuri, Indon.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); phenylpropanolamine hydrochloride (p.1569·3).
Cold symptoms; cough.

Bronchophylin *Darya-Varia, Indon.*
Theophylline (p.1140·1).
Asthma.

Bronchoplus *Nycomed, Austria.*
Acetylcysteine (p.1548·2).
Respiratory-tract disorders with viscous mucus.

Bronchoprex Expectorant *Kenyaku, Thai.*
Diphenhydramine hydrochloride (p.577·2); guaifenesin (p.1561·3); bromhexine hydrochloride (p.1552·2).
Catarrh; coughs.

Bronchoprex Syrup *Kenyaku, Thai.*
Diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3); dextromethorphan hydrobromide (p.1555·2).
Respiratory-tract disorders.

Bronchopront
Grunenthal, Chile†; Mack, Cz.†; Pfizer Consumer, Ger.; Mack, Hong Kong; Mack, Hung.†; Combiphar, Indon.; Ferraz, Lynce, Port.†; Mack, Singapore†; Mack, Thai.†.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Zuoz, Venez.
Ambroxol (p.1550·3) or ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Bronchorectine au Citral *Mayoly-Spindler, Fr.*
Citral (p.2284·1); guaiacol (p.1561·2); terpin hydrate (p.1573·3); pine silvestris oil (p.2368·2); wild thyme oil (p.2415·3).
Respiratory disorders.

Bronchoretard *Astellas, Ger.*
Theophylline (p.1140·1).
Obstructive airways disease.

Broncho-Rivo
Note. This name is used for preparations of different composition.
Rivopharm, Switz.†.
Adult: Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Rivopharm, Switz.†.
Paediatric: Diphenhydramine hydrochloride (p.577·2); sodium citrate (p.1673·3); menthol (p.2340·1).
Coughs.

Bronchosan *Zentiva, Cz.*
Bromhexine hydrochloride (p.1552·2); menthol (p.2340·1); fennel oil (p.2303·1); anise oil (p.2258·2); origanum oil (p.2358·1); peppermint oil (p.1761·2); eucalyptus oil (p.2301·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Bronchosan Nouvelle formule *Bioforce, Switz.†.*
Ivy (p.2328·1); thyme (p.2401·1); liquorice (p.1740·3).
Coughs.

Bronchosedal
Note. This name is used for preparations of different composition.
Janssen-Cilag, Belg.
Oral liquid: Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Janssen-Cilag, Belg.
Syrup: Codeine phosphate (p.37·2).
Coughs.

Broncho-Sern *Truw, Ger.*
Ribwort plantain (p.2379·1).
Cold symptoms; inflammation of mouth and throat.

Bronchosol *Phytofarm Kleka, Pol.*
Thyme (p.2401·1); primrose root (p.2372·2); thymol (p.1664·3).
Cough; respiratory-tract congestion.

Bronchosolvin *Ipca, India.*
⊗ Bromhexine hydrochloride (p.1552·2); terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Coughs; respiratory-tract disorders associated with viscous mucus.

Bronchospasmin *Viatris, Ger.*
⊗ Reproterol hydrochloride (p.1131·1).
Status asthmaticus.

Bronchospect *Pfizer Consumer, S.Afr.†.*
⊗ Terbutaline sulfate (p.1138·3); guaifenesin (p.1561·3).
Coughs.

Bronchospray *Astellas, Ger.*
⊗ Salbutamol (p.1131·2) or salbutamol sulfate (p.1131·3).
Obstructive airways disease.

Bronchostad Hustenloser *Stada, Ger.*
Ivy (p.2328·1).
Cold symptoms.

Bronchostop
Note. This name is used for preparations of different composition.
Metochem, Cz.†.
Guaifenesin (p.1561·3); thyme (p.2401·1); chamomile (p.2279·3); anise oil (p.2258·2).
Cold symptoms; coughs.

Metochem, Austria.
Capsules: Mentholum valerianicum; guaifenesin (p.1561·3); eucalyptus oil (p.2301·2); camphor (p.2273·2).
Coughs.

Metochem, Austria.
Ointment: Camphor (p.2273·2); menthol (p.2340·1); eucalyptus oil (p.2301·2); turpentine oil (p.2406·3); pumilio pine oil (p.2376·3); thyme oil (p.2401·2).
Catarrh; colds; cough; sore throat.

Metochem, Austria.
Oral drops: Guaifenesin (p.1561·3); thyme (p.2401·1); chamomile (p.2279·3); anise oil (p.2258·2).
Coughs.

Bronchosyx comp *Syxyl, Ger.*
Homoeopathic preparation.

Bronchosyx N *Syxyl, Ger.†.*
Liquorice (p.1740·3); thyme (p.2401·1).
Cold symptoms.

Broncho-Truw Erkaltungsbalsam *Truw, Ger.*
Eucalyptus oil (p.2301·2).
Cold symptoms.

Bronchotussine
Note. This name is used for preparations of different composition.
Adelco, Gr.
Bromhexine hydrochloride (p.1552·2).
Respiratory disorders associated with viscous mucus.

Vifor, Switz.
Butetamate citrate (p.1553·1); codeine phosphate (p.37·2).
Coughs.

Broncho-Tyrosolvetten *Byk Gulden, Ger.†; Roland, Ger.†.*
Cetylpyridinium chloride (p.1635·1); ammonium chloride (p.1551·3); liquorice (p.1740·3).
Mouth and throat infections; respiratory-tract catarrh.

Broncho-Vaxom
Note. This name is used for preparations of different composition.
Casasco, Arg.; Altana, Austria; Solvay, Belg.; Nycomed, Braz.; Andromaco, Chile; OM, Cz.; Altana, Ger.; OM, Hung.; Altana, Ital.; Grunenthal, Mex.; OM, Philipp.; Pharmalink, Philipp.; OM, Pol.; OM, Port.; OM, Rus.; OM, Switz.
Lysate of: *Haemophilus influenzae*; *Streptococcus pneumoniae*; *Klebsiella pneumoniae*; *Klebsiella ozaenae*; *Staphylococcus aureus*; *Streptococcus pyogenes*; *Streptococcus viridans*; *Moraxella catarrhalis*.
Respiratory-tract infections.

Gap, Gr.; OM, Hong Kong.
Bacterial lysate.
Respiratory-tract infections.

Bronchowern *Wernigerode, Ger.; Wernigerode, Rus.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with viscous mucus.

Broncimucil *Uriach, Spain.*
Brovanexine hydrochloride (p.1553·1).
Respiratory-tract disorders associated with increased mucus.

Broncivent *Boehringer Ingelheim, Spain†.*
⊗ Beclometasone dipropionate (p.1516·2).
Asthma.

Bronclear
Note. A similar name is used for preparations of different composition (see below).
Polipharm, Thai.
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Broncleer
Note. A similar name is used for preparations of different composition (see above).
Adcock Ingram, S.Afr.
Diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Broncleer with Codeine *Adcock Ingram, S.Afr.; Propan, S.Afr.*
Codeine phosphate (p.37·2); diphenhydramine hydrochloride (p.577·2); ammonium chloride (p.1551·3); sodium citrate (p.1673·3).
Coughs.

Bronco Aseptilex Fuerte *Chiesi, Spain.*
Bromhexine hydrochloride (p.1552·2); co-trimoxazole (p.258·1); guaiacol cinnamate (p.1561·2).
Respiratory-tract infections.

Bronco Asmo *Pond's, Thai.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bronco Asmol *Herbes Universelles, Canad.*
Ammonium bicarbonate (p.1551·3); anethole (p.2258·1); tolu balsam (p.1574·2); benzoic acid (p.1630·2); camphor (p.2273·2); squill (p.1573·1).

Bronco Biotaer *Disprovent, Arg.†.*
Ambroxol hydrochloride (p.1550·3); clofedanol hydrochloride (p.1554·2); pseudoephedrine sulfate (p.1571·2); astemizole (p.567·2).

Bronco Etersan *Dallas, Arg.*
Terpineol (p.2396·1); cineole (p.2282·3); pine silvestris oil (p.2368·2); turpentine oil (p.2406·3).
Respiratory-tract disorders.

Bronco Medical *Medical, Spain.*
Sulfogaiacol (p.1573·2); dextromethorphan hydrobromide (p.1555·2).
Coughs.

Bronco Tonic *Vir, Spain.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Bronco-Amoxil *GSK, Braz.†.*
Amoxicillin (p.202·2); bromhexine hydrochloride (p.1552·2).
Bacterial infections.

Broncocalmine *Oriental, Arg.*
Bromhexine (p.1552·2).
Respiratory-tract congestion.

Broncocent *Blue Sky, Philipp.*
Carbocisteine (p.1553·2).
Coughs.

Broncoclar
Note. This name is used for preparations of different composition.
UPSA, Fr.
Granules for oral solution: Acetylcysteine (p.1548·2).
Respiratory-tract disorders associated with increased or viscous mucus.

UPSA, Fr.
Syrup: Carbocisteine (p.1553·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Broncodeina *Pasteur, Chile.*
⊗ Codeine phosphate (p.37·2); ephedrine hydrochloride (p.1558·2); belladonna liquid extract (p.2263·3); menthol (p.2340·1); sodium benzoate (p.1630·2); terpin hydrate (p.1573·3).
Coughs.

Broncodiazina *Vitoria, Port.*
⊗ Ammonium chloride (p.1551·3); pentetrazol (p.2162·1); sodium benzoate (p.1630·2); sulfadiazine (p.336·2); drosera (p.2297·3); tolu balsam (p.1574·2).
Respiratory-tract disorders.

Broncodual *Laboratorios Chile, Chile.*
Clobutinol (p.1554·2).
Coughs.

Broncodual Compuesto *Laboratorios Chile, Chile.*
⊗ Clobutinol hydrochloride (p.1554·1); orciprenaline sulfate (p.1129·1); ammonium chloride (p.1551·3).
Coughs; obstructive airways disease.

Broncofama *FAMA, Ital.*
Dextromethorphan hydrobromide (p.1555·2).
Coughs.

Broncofenil *Zurita, Braz.*
Guaifenesin (p.1561·3).
Formerly contained guaifenesin, lobelia, and aconite.
Cough.

Broncofisin *Luper, Braz.†.*
Tolu balsam (p.1574·2); potassium iodide (p.2169·2); sulfogaiacol (p.1573·2).
Coughs.

Broncofluid *Recofarma, Ital.*
Prenoxdiazine hibenzate (p.1571·1); carbocisteine (p.1553·2).
Coughs.

Broncoflux *Farmasa, Braz.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Broncofol *Ipca, India†.*
⊗ Theophylline (p.1140·1); ephedrine (p.1558·1); phenobarbital (p.492·2).
Asthma.

Broncofol-P *Ipca, India†.*
⊗ Theophylline (p.1140·1); ephedrine (p.1558·1).
Asthma.

Broncoformo Muco Dexa *Gayoso, Spain.*
⊗ Dexamethasone (p.1526·1); dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); sodium benzoate (p.1630·2).
Respiratory-tract disorders.

Broncokin *Geymonat, Ital.†.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders.

Broncol
Note. This name is used for preparations of different composition.
Delta, Braz.
Eucalyptus (p.2301·2); ginger (p.1732·3); siparuna apiosyce; lantana camara; mikania glomerata; belladonna (p.2263·3); jaborandi.
Coughs.

Crown, S.Afr.†.
Dextromethorphan hydrobromide (p.1555·2); ammonium chloride (p.1551·3); panthenol (p.2362·1).
Coughs.

Pharmaland, Thai.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Broncolex *Legrand, Braz.†.*
⊗ Guaifenesin (p.1561·3); etafedrine hydrochloride (p.1560·2); bufylline (p.1116·3); doxylamine succinate (p.578·2).
Coughs.

Broncoliber *Tecnimede, Port.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Broncomega *Almirall, Spain†.*
Co-trimoxazole (p.258·1).
Bacterial infections.

Broncomnes *Bracco, Ital.*
Ambroxol acefyllinate (p.1114·2).
Bronchospasm.

Broncomucil *GSK, Ital.*
Carbocisteine (p.1553·2).
Respiratory-tract disorders associated with excess or viscous mucus.

Bronconait *GSK, Ital.†*
Paracetamol (p.108·1); promethazine hydrochloride (p.588·2); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Bronconal *Cifarma, Braz.*
⊗ Salbutamol sulfate (p.1131·3).
Obstructive airways disease; premature labour.

Bronconex *Schering-Plough, NZ.*
⊗ Mometasone furoate (p.1539·3).
Asthma.

Broncophilina *Behrens, Venez.*
Aminophylline (p.1114·2).
Asthma.

Broncopinol *Luper, Braz.†*
⊗ 1 Ampoule, dipyrone (p.49·2); sodium camsilate (p.2388·3); guaifenesin (p.1561·3); myrtol (p.2349·3); suprarenal cortex (p.1543·3); chlorophyllin copper complex potassium (p.1471·1); cineole (p.2282·3); 1 ampoule, chlorphenamine maleate (p.571·3); vitamin C (p.1983·3).
Cold and influenza symptoms.

Bronco-Polimoxil *Legrand, Braz.*
Amoxicillin trihydrate (p.202·2); bromhexine hydrochloride (p.1552·2).
Bacterial infections.

Broncopulmo *Merck, Port.†*
Sobrerol (p.1572·3).
Coughs.

Broncoral *Ferrer, Spain.*
⊗ Formoterol fumarate (p.1122·1).
Obstructive airways disease.

Broncorinol Expectorant *Bayer Sante, Fr.†*
Carbocisteine (p.1553·2).
Viscous bronchial secretions.

Broncorinol maux de gorge *Roche Nicholas, Fr.†*
Cetylpyridinium chloride (p.1635·1); tetracaine hydrochloride (p.1871·3); ascorbic acid (p.1983·3).
Sore throat.

Broncorinol rhinites *Roche Nicholas, Fr.†*
Cetrimide (p.1634·1); tyrothricin (p.358·2).
Upper respiratory-tract infections.

Broncorinol rhume *Roche Nicholas, Fr.†*
Paracetamol (p.108·1); pseudoephedrine hydrochloride (p.1571·2).
Cold symptoms.

Broncorinol toux seche *Bayer Sante, Fr.†*
Pholcodine (p.1570·2); sodium benzoate; senega; eucalyptus.
Formerly contained pholcodine, sodium benzoate, aconite, hyoscyamus, lobelia, senega, and eucalyptus.
Coughs.

Broncort *Boehringer Ingelheim, Switz.†*
⊗ Flunisolide (p.1531·1).
Obstructive airways disease.

Broncosed *Noos, Ital.*
Thyme (p.2401·1); castanea vesca.

Broncosedina *FAMA, Ital.*
Cocillana (p.1554·3); eriodictyon (p.1560·2); marrubium (p.1564·1); grindelia (p.2317·2); juniper (p.2328·2); compound thyme (p.2401·1); pumilio pine oil (p.2376·3); mint oil (p.2345·2).
Respiratory-tract disorders.

Broncoserum *Ifusa, Mex.*
Sulfogaiacol (p.1573·2).
Coughs.

Broncosil *Basi, Port.†*
Camphor (p.2273·2); quinine (p.612·2).

Broncospasmine *Asta Medica, Ital.†*
⊗ Reproterol hydrochloride (p.1131·1).
Asthma.

Broncot *K2 Pharmacare, Chile.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Broncoten *Farmion, Braz.†*
Ketotifen fumarate (p.582·2).
Allergic conjunctivitis; allergic rhinitis; asthma; urticaria.

Broncoteril *Farmanic, Gr.*
⊗ Formoterol fumarate (p.1122·1).
Obstructive airways disease.

Broncoterol
Note. This name is used for preparations of different composition.
Bago, Chile†.
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Azevedos, Port.
⊗ Clenbuterol hydrochloride (p.1120·1).
Obstructive airways disease.

Broncoterol-B *Bago, Chile†.*
⊗ Salbutamol (p.1131·2); beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Broncotosil *Bago, Chile†.*
⊗ Clenbuterol hydrochloride (p.1120·1).
Obstructive airways disease.

Broncotron-D *Seyer, USA.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3); phenylephrine hydrochloride (p.1568·1).
Upper respiratory-tract disorders.

Bronco-Turbinal *Valeas, Ital.†*
⊗ Beclometasone dipropionate (p.1516·2).
Obstructive airways disease.

Broncovaleas *Valeas, Cz.†; Valeas, Ital.*
⊗ Salbutamol (p.1131·2).
Bronchospasm; obstructive airways disease.

Broncovanil *Skills, Ital.*
Guaifenesin (p.1561·3).
Respiratory-tract disorders.

Broncovir *Vir, Spain.*
Co-trimoxazole (p.258·1); sulfogaiacol (p.1573·2).
Respiratory-tract infections.

Broncovital
Note. This name is used for preparations of different composition.
Ifusa, Mex.
Chlorphenamine (p.572·2); guaifenesin (p.1561·3).
Respiratory-tract disorders.

Puerto Galiano, Spain†.
⊗ Cineole (p.2282·3); codeine phosphate (p.37·2); ephedrine hydrochloride (p.1558·2); niaouli oil (p.2351·3); sodium benzoate (p.1630·2); sulfogaiacol (p.1573·2); belladonna (p.2263·3); drosera (p.2297·3); quebracho (p.2377·1); senega (p.1572·3).
Respiratory-tract disorders.

Broncozol *Mugi, Indon.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Brondal *Upha, Malaysia†.*
Guaifenesin (p.1561·3); theophylline (p.1140·1).
Obstructive airways disease.

Brondecon *Pfizer Consumer, NZ.*
Choline theophyllinate (p.1119·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Brondecon Elixir *Pfizer Consumer, Austral.*
Choline theophyllinate (p.1119·3).
Obstructive airways disease.

Brondecon Expectorant *Pfizer Consumer, Austral.*
Choline theophyllinate (p.1119·3); guaifenesin (p.1561·3).
Obstructive airways disease.

Brondil *Great Eastern, Thai.; Therapharma, Thai.*
⊗ Etafedrine hydrochloride (p.1560·2); theophylline (p.1140·1); guaifenesin (p.1561·3).
Obstructive airways disease.

Brondil (Reformulated) *United American, Philipp.*
Theophylline (p.1140·1).
Obstructive airways disease.

Brondilat
Note. This name is used for preparations of different composition.
Ache, Braz.
Ambroxol acefyllinate (p.1114·2).
Obstructive airways disease.

Pediapharm, Chile; Pharmabiotics, Chile.
Montelukast (p.1126·3).
Asthma.

Brondilax *Vitarum, Arg.*
Bromhexine (p.1552·2).

Brondilex *Biomedis, Indon.; Medifarma, Indon.*
Theophylline (p.1140·1).
Asthma.

Brondix *Pentafarm, Spain.*
Amoxicillin trihydrate (p.202·2).
Bacterial infections.

Bronfilil *Cifarma, Braz.*
Ambroxol acefyllinate (p.1114·2).
Obstructive airways disease.

Bronica *Takeda, Jpn.*
Seratrodast (p.1136·2).
Asthma.

Bronilide *Boehringer Ingelheim, Cz.†*
⊗ Flunisolide (p.1531·1).
Asthma.

Bronilis *Leti, Venez.*
Ambroxol acefyllinate (p.1114·2).

Bronkaid Dual Action *Sterling, USA.*
⊗ Ephedrine sulfate (p.1558·2); guaifenesin (p.1561·3).

Bronkar *Nobel, Turk.*
Chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract congestion.

Bronkar-A *Nobel, Turk.*
Dextromethorphan hydrobromide (p.1555·2); chlorphenamine maleate (p.571·3); pseudoephedrine hydrochloride (p.1571·2).
Respiratory-tract congestion.

Bronkasma *Sanofi Synthelabo, Arg.†*
⊗ Theophylline (p.1140·1); ephedrine sulfate (p.1558·2).
Asthma.

Bronkese *Pharmacare, S.Afr.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders with viscous mucus.

Bronkese Compound *Pharmacare, S.Afr.*
⊗ Bromhexine hydrochloride (p.1552·2); orciprenaline sulfate (p.1129·1).
Coughs.

Bronkids *Great Southern, USA.*
Chlorphenamine maleate (p.571·3); dextromethorphan hydrobromide (p.1555·2); phenylephrine hydrochloride (p.1568·1).

Bronkirex *Irex, Fr.†*
Carbocisteine (p.1553·2).
Respiratory-tract disorders.

Bronkitose Mielimon *Biofarma, Mex.*
Cineole (p.2282·3); verbascum (p.2413·3); sambucus (p.2383·1).
Respiratory-tract infections.

Bronklast *Farma, Venez.*
⊗ Budesonide (p.1520·1).
Asthma.

Bronkolin *Adeka, Turk.*
Theophylline (p.1140·1).
Obstructive airways disease.

Bronkotrat *Hexal, Braz.†*
Bromhexine hydrochloride (p.1552·2); sulfogaiacol (p.1573·2).
Respiratory-tract congestion.

Bronkotuss Expectorant *Hyrex, USA.*
⊗ Ephedrine sulfate (p.1558·2); chlorphenamine maleate (p.571·3); guaifenesin (p.1561·3).
Coughs.

Bronkyl *Weifa, Norw.*
Acetylcysteine (p.1548·2).
Chronic bronchitis; cystic fibrosis.

Bronmycin *Biolab, Malaysia†; Biolab, Singapore; Biolab, Thai.*
Doxycycline hyclate (p.267·1).
Bacterial infections.

Bronoday *Okasa, Thai.; TTN, Thai.*
Theophylline (p.1140·1).
Obstructive airways disease.

Bronolban *Sons, Mex.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Bronolban-M *Sons, Mex.*
⊗ Ambroxol (p.1550·3); clenbuterol (p.1120·1).
Respiratory-tract congestion.

Bro-N-Pain *Brovar, S.Afr.*
Paracetamol (p.108·1); codeine phosphate (p.37·2).
Fever; pain.

Bronpax *Schering-Plough, Mex.*
Benzonatate (p.1552·1).
Coughs.

Bronpect-D *Kenyaku, Hong Kong; Kenyaku, Thai.*
Dextromethorphan hydrobromide (p.1555·2); guaifenesin (p.1561·3).
Coughs.

Bronpul *Soria Natural, Spain†.*
Eucalyptus (p.2301·2); verbascum flower (p.2413·3); althaea (p.2253·3); elecampane (p.1558·1); liquorice (p.1740·3).
Lower respiratory-tract infections.

Bronq-C *Bernabo, Arg.*
⊗ Clenbuterol (p.1120·1) or clenbuterol hydrochloride (p.1120·1).

Bronquial *OM, Port.*
Carbocisteine (p.1553·2); sobrerol (p.1572·3).
Respiratory-tract congestion.

Bronquiasmol *Confar, Port.†*
⊗ Ephedrine (p.1558·1); ethylmorphine (p.52·2); sodium benzoate (p.1630·2).
Coughs.

Bronquicisteina *Iquinosa, Spain.*
Carbocisteine (p.1553·2); co-trimoxazole (p.258·1).
Respiratory-tract infections.

Bronquidex *Farmalab, Braz.*
⊗ Potassium iodide (p.2169·2); guaifenesin (p.1561·3); diphenhydramine hydrochloride (p.577·2); sodium benzoate (p.1630·2); ammonium chloride (p.1551·3); belladonna (p.2263·3); lobelia (p.2157·2).
Respiratory-tract congestion.

Bronquidiazina CR *Faes, Spain.*
Tolu balsam (p.1574·2); bromhexine (p.1552·2); sodium benzoate (p.1630·2); co-trimoxazole (p.258·1).
Respiratory-tract infections.

Bronquil *Vitapan, Braz.†*
⊗ Salbutamol (p.1131·2).
Obstructive airways disease.

Bronquimar *Decrox, Spain.*
Guaifenesin (p.1561·3); sodium benzoate (p.1630·2); co-trimoxazole (p.258·1).
Respiratory-tract infections.

Bronquimucil
Note. This name is used for preparations of different composition.
Arrow, Braz.; Prospa, Port.†.
Brovanexine hydrochloride (p.1553·1).
Respiratory-tract congestion; respiratory-tract disorders.

Uriach, Spain†.
Brovanexine hydrochloride (p.1553·1); co-trimoxazole (p.258·1).
Respiratory-tract infections.

Bronquiogem *Prodotti, Braz.*
Yucca (p.2416·3); rorippa nasturtium aquaticum; mikania glomerata; lantana camara; passion flower (p.2363·2); erva silvina; oleo vermelho; sodium benzoate (p.1630·2).
Respiratory-tract disorders.

Bronquisedan *Gramon, Arg.*
Clobutinol hydrochloride (p.1554·1); ambroxol hydrochloride (p.1550·3).
Formerly contained theophylline glycinate, clobutinol hydrochloride, and ambroxol hydrochloride.
Bronchitis; coughs.

Bronquisedan Elixir *Gramon, Arg.*
Bromhexine hydrochloride (p.1552·2).
Bronchitis; catarrh.

Bronquisedan Mucolitico *Gramon, Arg.*
Ambroxol hydrochloride (p.1550·3); clobutinol hydrochloride (p.1554·1).
Coughs.

Bronquisedan Paediatrico *Gramon, Arg.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders.

Bronquitos *Legrand, Braz.*
Diphenhydramine hydrochloride (p.577·2); guaifenesin (p.1561·3); theophylline (p.1140·1); vitamin B (p.1978·2).
Obstructive airways disease.

Bronsal *UCB, Spain.*
⊗ Betamethasone sodium phosphate (p.1518·3); diprophylline (p.1120·2); guaifenesin (p.1561·3).
Respiratory-tract disorders.

Bronsema *F5 Profas, Spain.*
Erythromycin ethyl succinate (p.269·3).
Bacterial infections.

Bronsema Expectorante *Pliva, Spain.*
Erythromycin ethyl succinate (p.269·3); guaifenesin (p.1561·3).
Respiratory-tract infections.

Bronsol *Vita, Venez.†*
Padimate O (p.1609·1); oxybenzone (p.1608·3).
Sunscreen.

Bronsolvan *Kalbe, Indon.*
Theophylline (p.1140·1).
Asthma.

Bronsul *Del Bel, Arg.*
Canthaxanthin (p.1470·2); betacarotene (p.1930·3).
Suntanning aid.

Brontal *Sanitas, Chile.*
Bromhexine hydrochloride (p.1552·2); clofedanol hydrochloride (p.1554·2).
Coughs; respiratory-tract congestion.

Brontex *Procter & Gamble, USA.*
Codeine phosphate (p.37·2); guaifenesin (p.1561·3).
Coughs.

Brontoss *Teuto, Braz.*
⊗ Potassium iodide (p.2169·2); belladonna (p.2263·3); lobelia (p.2157·2); diphenhydramine hydrochloride (p.577·2).
Coughs.

Brontus *Chinta, Thai.*
Dextromethorphan hydrobromide (p.1555·2); pseudoephedrine hydrochloride (p.1571·2); brompheniramine maleate (p.569·2).
Coughs; respiratory-tract congestion.

Bronuck *Senju, Jpn.*
Bromfenac sodium (p.28·2).
Inflammatory eye disorders; postoperative eye inflammation.

Bronx *Lisapharma, Ital.†*
Carbocisteine (p.1553·2).
Respiratory-tract disorders.

Bronxol *Cifarma, Braz.; Labialfarma, Port.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Bronzearte *Gramon, Arg.*
Canthaxanthin (p.1470·2).
Suntanning aid.

Brooklax *Group, S.Afr.*
Yellow phenolphthalein (p.1762·1).
Constipation.

Brooklax Pills *Group, S.Afr.*
Yellow phenolphthalein (p.1762·1); aloin (p.1705·3); capsicum oleoresin (p.2276·2).
Constipation.

Bropamil *Offenbach, Mex.†*
Bromazepam (p.964·3).
Anxiety.

Bropil *Pediapharm, Chile.*
⊗ Salbutamol (p.1131·2).

Broptin *IQFA, Mex.*
Bromocriptine (p.800·3).
Hyperprolactinaemia.

Broquixol *Schering-Plough, Mex.*
Loratadine (p.583·3); ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders.

Bros
Note. This name is used for preparations of different composition.
TRB, Arg.†.
Cerebral phospholipids (porcine) (p.2337·3).
Mental function impairment; tonic.

TRB, Braz.
Phosphatidyl serine (p.2367·1).
Cerebrovascular disorders.

Brosidon *Bros, Gr.*
Calcitonin (salmon) (p.1093·1).
Hypercalcaemia; Paget's disease of bone.

Brosiral *Bros, Gr.*
Meloxicam (p.80·3).
Inflammatory disorders.

Brosolan *Collins, Mex.*
Ambroxol (p.1550·3).
Coughs.

Brosolan C *Collins, Mex.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol hydrochloride (p.1120·1).
Respiratory-tract congestion.

Brosoline-Rectocaps *Mepha, Switz.†*
Noscapine hydrochloride (p.1566·3); guaifenesin (p.1561·3).
Bronchial disorders.

Brospec *Prafa, Indon.*
Ceftriaxone sodium (p.237·1).
Bacterial infections.

Brospina *Pisa, Mex.*
⊗ Buprenorphine (p.29·1).
Pain.

Brota Rectal Balsamico *Escaned, Spain.*
⊗ Camphor (p.2273·2); cineole (p.2282·3); ephedrine hydrochloride (p.1558·2); niaouli oil (p.2351·3); quinine sulfate (p.612·3); sulfogaiacol (p.1573·2).
Respiratory-tract disorders.

Brotazona *Escaned, Spain.*
Feprazone (p.60·2).
Gout; musculoskeletal and joint disorders.

Brovana *Sepracor, USA.*
⊗ Arformoterol tartrate (p.1115·3).
Obstructive airways disease.

Brovex PD *MCR, USA.*
Pseudoephedrine tannate (p.1572·1); brompheniramine tannate (p.569·3).
Upper respiratory-tract disorders.

Brovicarpine *Rafarm, Gr.†.*
Verapamil hydrochloride (p.1421·1).
Arrhythmias; hypertension.

Brovicton *Bros, Gr.*
Itraconazole (p.536·3).
Fungal infections.

Brovon *GSK, India; Torbet Laboratories, UK.*
⊗ Adrenaline (p.1203·2); atropine methonitrate (p.1219·3); papaverine hydrochloride (p.2191·3).
Bronchospasm; emphysema.

Brown Mixture
Note.This name is used for preparations of different composition.
Vickmans, Hong Kong.
Liquorice (p.1740·3); camphorated opium (p.105·1).
Catarrh; coughs.
British Dispensary, Thai.
Liquorice fluid extract (p.1740·3); antimony potassium tartrate (p.141·2); camphorated opium tincture.
Coughs.

Broxal *Bernofarm, Indon.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Broxamel *Andromaco, Venez.†.*
Bromhexine (p.1552·2); oxolamine phosphate (p.1567·1).
Cough.

Broxan *Dynamic, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with abnormal mucus.

Broxaquim *Quimica y Farmacia, Mex.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Broxifil *Filadams, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Broxil *GSK, Neth.*
Pheneticillin potassium (p.314·1).
Bacterial infections.

Broxil-M *Metz, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders with abnormal mucus.

Broxine *Malayan, Singapore†.*
Bromhexine hydrochloride (p.1552·2).
Respiratory-tract disorders associated with increased or viscous mucus.

Broxitrol *Pharmacare, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Coughs with abnormal mucous secretion.

Broxo al Fluoro *SIT, Ital.*
Levomenol (p.2333·3); sodium fluoride (p.1962·2); sodium monofluorophosphate (p.1964·3).
Gum disorders; halitosis.

Broxodin
Note.This name is used for preparations of different composition.
SIT, Ital.†.
Sodium fluoride (p.1962·2); sodium monofluorophosphate (p.1964·3).
Dental caries prophylaxis.
Vargas, Venez.
⊗ Bromhexine hydrochloride (p.1552·2); salbutamol sulfate (p.1131·3).
Respiratory-tract disorders.
SIT, Ital.
Oral drops; oral gel: Chlorhexidine gluconate (p.1635·3).
Oral hygiene.

Broxofar *Farcoral, Mex.*
Ambroxol hydrochloride (p.1550·3).

Broxofar Compuesto *Farcoral, Mex.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol hydrochloride (p.1120·1).
Respiratory-tract disorders with viscous mucus.

Broxoffler *Loeffler, Mex.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Broxol
Note.This name is used for preparations of different composition.
Mundipharma, Austria; Boniscontro & Gazzone, Ital.; Carnot, Mex.; Masa, Thai.
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders; respiratory-tract disorders associated with increased or viscous mucus; respiratory-tract disorders with viscous mucus.
Galeno, Venez.
Oxolamine citrate (p.1567·1) or oxolamine phosphate (p.1567·1).
Cough.

Broxol Air *Carnot, Mex.*
⊗ Ambroxol hydrochloride (p.1550·3); salbutamol sulfate (p.1131·3).
Respiratory-tract disorders.

Broxol Plus *Carnot, Mex.*
⊗ Ambroxol hydrochloride (p.1550·3); clenbuterol hydrochloride (p.1120·1).
Respiratory-tract disorders with viscous mucus.

Broxolflem *Galeno, Venez.*
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

Broxolgrip Dia *Galeno, Venez.*
Paracetamol (p.108·1); pseudoephedrine (p.1571·2).
Cold symptoms.

Broxolgrip Noche *Galeno, Venez.*
Paracetamol (p.108·1); chlorphenamine maleate (p.571·3); pseudoephedrine (p.1571·2).
Cold symptoms.

Broxolim *Tocogino, Mex.*
Ambroxol (p.1550·3).
Respiratory-tract congestion.

Broxolim-AM *Tocogino, Mex.†.*
Amoxicillin (p.202·2); ambroxol (p.1550·3).
Respiratory-tract infections.

Broxolim-C *Tocogino, Mex.*
⊗ Ambroxol (p.1550·3); clenbuterol (p.1120·1).
Respiratory-tract disorders.

Broxolvan *Novo Pharm, Philipp.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract congestion.

Broxsa *Silom, Thai.†.*
Ambroxol hydrochloride (p.1550·3).
Respiratory-tract disorders associated with increased or viscous mucus.

Broxytone *IAE, Philipp.*
Carbocisteine (p.1553·2).
Respiratory-tract congestion.

Bro-Zedex *Wockhardt, India.*
⊗ Terbutaline sulfate (p.1138·3); bromhexine hydrochloride (p.1552·2); guaifenesin (p.1561·3); menthol (p.2340·1).
Coughs associated with obstructive airways disease.

Brozepax *Biosintetica, Braz.†.*
Bromazepam (p.964·3).
Anxiety.

Brozil *YSP, Malaysia; Yung Shin, Singapore.*
Gemfibrozil (p.1295·3).
Hyperlipidaemias.

Bruace *Jagson, India.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Musculoskeletal and joint disorders; pain.

Brucam *Bruluart, Mex.*
Piroxicam (p.117·3).
Gout; inflammation; musculoskeletal, joint, and periarticular disorders; pain.

Brucap *Bruluart, Mex.*
Captopril (p.1239·2).
Heart failure; hypertension.

Bruciaporri *Giovanardi, Ital.*
Salicylic acid (p.1612·2); lactic acid (p.2329·3).
Verrucas; warts.

Brucilina *Bruluagsa, Mex.*
Ampicillin (p.204·1); dicloxacillin sodium (p.265·2).
Bacterial infections.

Brudol *Elmor, Venez.*
Ibuprofen (p.64·2); caffeine (p.1116·3); dihydroergotamine mesilate (p.618·2).
Vascular headache.

Brufen
Abbott, Austral.; Abbott, Austria; Abbott, Belg.; Abbott, Cz.; Abbott, Denm.; Abbott, Fin.; Abbott, Fr.; Abbott, Gr.; Abbott, Hong Kong†; Knoll, India; Abbott, Irl.; Abbott, NZ; Abbott, Neth.; Abbott, Norw.; Abbott, Philipp.; Abbott, Port.; Abbott, S.Afr.; Abbott, Swed.; Abbott, Switz.; Abbott, Thai.; Abbott, Turk.; Abbott, UK.
Ibuprofen (p.64·2).
Fever; gout; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.
Abbott, Ital.
Ibuprofen (p.64·2) or ibuprofen sodium (p.65·2).
Musculoskeletal and joint disorders; pain; soft-tissue injuries.

Brugesic *Pharmaniaga, Malaysia†; Raza, Malaysia†; Garec, S.Afr.†; Elmor, Venez.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Brugesina *Elmor, Venez.*
Ibuprofen (p.64·2); hyoscine butylbromide (p.1734·1).
Pain with spasm.

Bruise Cream *Medipharma, Hong Kong†.*
A heparinoid (p.1305·2).
Bruising.

Bruiseze *Bayer Consumer, UK.*
A heparinoid (p.1305·2).
Soft-tissue injury.

Brulamycin
Torrex, Austria; Medphano, Ger.†; Teva, Hung.; Biogal, Rus.
Tobramycin sulfate (p.354·2).
Bacterial infections.
Biogal, Cz.
Tobramycin (p.354·1).
Bacterial eye infections.

Brulex *Bailly, Fr.*
Phenazone (p.116·1); zinc oxide (p.1621·2); peru balsam (p.2365·3); phenol (p.1656·1); sodium salicylate (p.124·2).
Burns; sunburn.

Brulidine *Aspen, Austral.; Aventis, Norw.; Manx, UK.*
Dibrompropamidine isetionate (p.1642·1).
Burns; napkin rash; otitis externa; skin abrasions; skin infections.

Brulstop *Agepharm, Fr.†.*
Hydrocolloid dressing.
Burns.

Brumax *Bruluagsa, Mex.*
Amoxicillin trihydrate (p.202·2); ambroxol hydrochloride (p.1550·3).
Respiratory-tract infections.

Brumed *LSP, Thai.†.*
Ibuprofen (p.64·2).
Fever; pain.

Brumetidina *Bruschettini, Ital.*
Cimetidine (p.1716·2).
Gastro-oesophageal reflux; gastrointestinal hyperacidity; peptic ulcer; Zollinger-Ellison syndrome.

Brumeton Colloidale S *Bruschettini, Ital.*
⊗ Betamethasone (p.1518·2); sulfacetamide sodium (p.335·3).
Eye and ear disorders.

Brumixol *Bruschettini, Ital.*
Ciclopirox olamine (p.529·2).
Fungal skin and vulvovaginal infections.

Brunac *Bruschettini, Ital.; Bio-Gen, Turk.*
Acetylcysteine (p.1548·2).
Dry eyes.

Brunacod *Brunel, S.Afr.*
⊗ Promethazine hydrochloride (p.588·2); ephedrine hydrochloride (p.1558·2); codeine phosphate (p.37·2).
Coughs.

Brunacol *Bruluart, Mex.*
Ketorolac trometamol (p.74·2).
Pain.

Brunal *Fada, Arg.†.*
Ibuprofen (p.64·2).
Inflammation; pain.

Brunavera *Euroderm, Arg.*
Aloe vera (p.1588·2); calendula (p.2273·1); alpha tocopherol (p.1992·2).
Dry skin.

Brunazine *Brunel, S.Afr.*
Promethazine hydrochloride (p.588·2).
Hypersensitivity reactions; motion sickness; nausea; vomiting.

Brunicrom *Bruschettini, Ital.*
Sodium cromoglicate (p.1136·3).
Allergic conjunctivitis.

Brunocillin *Mepha, Switz.†.*
Phenoxymethylpenicillin potassium (p.314·2).
Bacterial infections.

Brunomol *Brunel, S.Afr.†.*
Paracetamol (p.108·1).
Fever; pain.

Brupen *Bruluagsa, Mex.*
Ampicillin trihydrate (p.204·2).
Bacterial infections.

Brupen Compuesto *Bruluagsa, Mex.*
Ampicillin trihydrate (p.204·2); bromhexine hydrochloride (p.1552·2).
Respiratory-tract infections.

Bruprin *Condrugs, Thai.*
Ibuprofen (p.64·2).
Musculoskeletal and joint disorders.

Brushtox *Dentox, UK.*
⊗ Denatured alcohol (p.1625·2); hydroxybenzoate esters (p.1648·3); zinc chloride (p.1999·1).
Disinfection of toothbrushes.

Brusil *Silom, Thai.*
Ibuprofen (p.64·2).
Fever; musculoskeletal and joint disorders; pain.

Brust- und Hustentee *Bad Heilbrunner, Ger.*
Thyme (p.2401·1); primula root (p.2372·2).
Respiratory-tract disorders with viscous mucus.

Brust- und Hustentee St Severin *Smetana, Austria.*
Castanea vulgaris; ribwort plantain (p.2379·1); verbascum leaf (p.2413·3); thyme (p.2401·1); elecampane (p.1558·1).
Respiratory-tract disorders.

Brustan *Ranbaxy, Philipp.; Ranbaxy, Rus.; Ranbaxy, Thai.*
Ibuprofen (p.64·2); paracetamol (p.108·1).
Fever; inflammation; musculoskeletal, joint, peri-articular, and soft-tissue disorders; pain.

Brux *Cinetic, Arg.*
Omeprazole (p.1753·1).
Gastric hyperacidity.

Bruxel *Ivax, Arg.*
Proglumetacin maleate (p.119·1).
Gout; musculoskeletal, joint, and peri-articular disorders.

Bruxicam *Bruschettini, Ital.*
Piroxicam (p.117·3).
Musculoskeletal, joint, peri-articular, and soft-tissue disorders.

Brylcreem Anti-Dandruff *Combe, Canad.*
Pyrithione zinc (p.1611·2).
Dandruff.

Bryorheum *DHU, Ger.*
Homoeopathic preparation.

BS *Xepa-Soul Pattinson, Singapore†.*
Co-trimoxazole (p.258·1).
Bacterial infections.

BS Carino *Carinopharm, Ger.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

BSI Medicated Spray *Tungfa, Philipp.*
⊗ Nux vomica (p.2355·3); pinelliae tuber; drynariae rhizoma; liquorice (p.1740·3); ginseng (p.2312·1); lycopodium serratum; menthol (p.2340·1); methyl salicylate (p.85·3); alcohol (p.1625·2).
Muscle pain.

B-Six *Sam-On, Israel.*
Vitamin B (p.1978·2).
Vitamin B deficiency.

BS-ratiopharm *Ratiopharm, Ger.*
Hyoscine butylbromide (p.1734·1).
Smooth muscle spasm.

BSS *Alcon, Austral.; Alcon, Canad.; Alcon, Fr.; Alcon, Ger.; Serag-Wiessner, Ger.; Alkon (Αλκον), Gr.†; Alcon, Hong Kong†; Alcon, Hung.†; Alcon, Irl.†; Alcon, Israel; Alcon, Malaysia; Alcon, Philipp.; Alcon, S.Afr.; Alcon, Singapore; Alcon, Thai.; Alcon, UK; Alcon, USA; Alcon, Venez.†.*
Electrolyte solution (p.1667·1).
Eye irrigation; irrigation of ear, nose, and throat.

BSS Plus
Note.This name is used for preparations of different composition.
Alcon, Austral.; Alcon, Austria; Alcon, Canad.; Alcon, Fr.; Alcon, Ger.; Alcon, Hong Kong†; Alcon, Hung.; Alcon, Israel; Alcon, Malaysia; Alcon, Singapore; Alcon, Switz.†; Alcon, Thai.; Alcon, USA.; Alcon, Venez.†.
Electrolytes (p.1667·1) glucose (p.1945·3); oxiglutatione (p.1448·1).
Eye irrigation.
Alkon (Αλκον), Gr.†.
An electrolyte solution (p.1667·1).
Ocular irrigation during ophthalmic surgery.
Alcon, S.Afr.
Electrolytes (p.1667·1); glucose (p.1945·3); glutathione (p.1448·1).
Eye irrigation.

BT Enema *Yenisehir, Turk.*
Monobasic sodium phosphate (p.1682·3); dibasic sodium phosphate (p.1682·3).
Bowel evacuation.

B-Tablock *Latinofarma, Braz.*
⊗ Levobunolol hydrochloride (p.1882·3).
Glaucoma.

B-Tasone-G *Beacons, Singapore.*
⊗ Betamethasone valerate (p.1519·1); gentamicin sulfate (p.282·1).
Infected skin disorders.

BTK-Plus *Geritrex, USA.*
Clorophene (p.1641·1); orthophenylphenol (p.1655·1); amylphenol.
Disinfectant.

BTXA *LIBP, Hong Kong.*
Botulinum A toxin (p.1890·1).
Blepharospasm; hemifacial spasm; strabismus.

BTX-HA Ofteno *Sophia, Mex.*
⊗ Betaxolol hydrochloride (p.1231·2).
Glaucoma; ocular hypertension.

BU Pangramin SLIT *Alk-Scherax, Ger.*
Allergen extracts (p.2250·2).
Allergen immunotherapy.

Buateron *Farmedia, Gr.*
Calcium folinate (p.1943·3).
Antidote to folic acid antagonists; megaloblastic anaemia.

Bubil *Jaka, Rus.*
Pyrethrins (p.2049·3); acetic acid (p.2244·2).

Bucagel *Meda, Port.*
Choline salicylate (p.36·3).
Mouth disorders.

Bucain *Curasan, Austria; DeltaSelect, Ger.; Bernofarm, Indon.*
Bupivacaine hydrochloride (p.1854·3).
Local anaesthesia.

Bucaine *DeltaSelect, Hung.*
Bupivacaine hydrochloride (p.1854·3).
Local anaesthesia.

Bucanil *YSP, Malaysia; Yung Shin, Singapore†.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Bucaril *Pharmaland, Thai.*
⊗ Terbutaline sulfate (p.1138·3).
Obstructive airways disease.

Buccalin
Note.This name is used for preparations of different composition.
Kwizda, Austria.
Haemophilus influenzae; pneumococci; streptococci; staphylococcus aureus; ox bile extract (p.2266·3).
Prophylaxis of bacterial infections in patients with colds.
SIT, Ital.
Streptococcus pneumoniae I, II, and III; *Streptococcus haemolyticus*; *Staphylococcus aureus*; *Haemophilus influenzae*.
Prophylaxis of bacterial infections in patients with influenza.

Buccaline
Note.This name is used for preparations of different composition.
Qualiphar, Belg.; Berna, Hong Kong†; Pharmabroker, NZ; Berna, Thai.†.
Pneumococcus; streptococcus; staphylococcus; *Haemophilus influenzae*; ox bile extract (p.2266·3).
Common cold prophylaxis.
Desma, Switz.
Streptococcus haemolyticus; *Streptococcus pneumoniae*; *Staphylococcus aureus*; *Haemophilus influenzae*; ox bile (p.2266·3).
Common cold prophylaxis.

Buccalsone *Will-Pharma, Belg.†; Will-Pharma, Neth.*
⊗ Hydrocortisone sodium succinate (p.1536·1).
Aphthous stomatitis; mouth ulcers.

Buccapol *Berna, Turk.*
An oral poliomyelitis vaccine (p.2232·1).
Active immunisation.

Buccard *AstraZeneca, Denm.*
Glyceryl trinitrate (p.1296·2).
Angina pectoris; heart failure.

Buccastem *Reckitt Benckiser, Irl.; Reckitt Benckiser, NZ; Reckitt Benckiser, UK.*
Prochlorperazine maleate (p.1020·1).
Migraine; nausea and vomiting; vertigo; vestibular disorders.

Buccosan *Pfizer Consumer, Belg.†.*
Dequalinium chloride (p.1641·3); lidocaine hydrochloride (p.1862·3).
Mouth and throat disorders.

Bucco-Tantum *Bayer, Switz.*
Benzydamine hydrochloride (p.27·3).
Mouth and throat inflammation.

Buchex *Bernabo, Arg.*
Hexetidine (p.1647·1); benzydamine hydrochloride (p.27·3).
Mouth disorders.

Buchzine *Upha, Malaysia†.*
Buclizine hydrochloride (p.570·1).
Appetite loss; hypersensitivity reactions.

Bucin *Masa, Thai.†.*
Indometacin (p.66·3).
Gout; musculoskeletal, joint, and peri-articular disorders.

Buckleys *Nycomed, Neth.*
Ammonium carbonate (p.1551·3); balsam canadense; camphor (p.2273·2); potassium bicarbonate (p.1673·1); menthol (p.2340·1).

Buckley's Bedtime *Buckley, Canad.*
Diphenhydramine hydrochloride (p.577·2); menthol (p.2340·1).
Cold symptoms; coughs.

Buckleys Chest Congestion *Novartis, USA.*
Guaifensin (p.1561·3).
Cough.

Buckleys Cough *Novartis, USA.*
Dextromethorphan hydrobromide (p.1555·2).
Cough.

Buckley's Cough, Cold & Flu Daytime Relief *Buckley, Canad.*
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2); paracetamol (p.108·1).
Cold and influenza symptoms; coughs.

Buckley's Cough, Cold & Flu Nighttime Relief *Buckley, Canad.*
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2); paracetamol (p.108·1); chlorphenamine maleate (p.571·3).
Cold and influenza symptoms; coughs.

Buckley's DM *Buckley, Canad.*
Dextromethorphan hydrobromide (p.1555·2).
Dry cough.

Buckley's DM Decongestant *Buckley, Canad.*
Pseudoephedrine hydrochloride (p.1571·2); dextromethorphan hydrobromide (p.1555·2).
Coughs and cold symptoms.

Buckleys Kinderhoestsiroop *Nycomed, Neth.*
Acetic acid (p.2244·2); ascorbic acid (p.1983·3); ipecacuanha (p.1562·3).

Buckley's Mixture *Buckley, Canad.*
Ammonium carbonate (p.1551·3); potassium bicarbonate (p.1673·1); menthol (p.2340·1); camphor (p.2273·2).
Cough.

Buckleys Pain Relief *Buckley, Canad.*
Methyl salicylate (p.85·3); menthol (p.2340·1).
Muscle and joint pain.

Buckley's Sinus Pain Relief *Buckley, Canad.*
Pseudoephedrine hydrochloride (p.1571·2); paracetamol (p.108·1).
Sinus pain.

Buckley's White Rub *Buckley, Canad.†.*
Menthol (p.2340·1); camphor (p.2273·2); methyl salicylate (p.85·3); thymol (p.1664·3).
Cold symptoms; muscle and joint pain.

Bucladin-S Softab *Stuart, USA.*
Buclizine hydrochloride (p.570·1).
Motion sickness.

Buclamin *Teuto, Braz.†.*
Buclizine hydrochloride (p.570·1); tryptophan; lysine hydrochloride; pyridoxine; cyanocobalamin (p.1922·1).
Reduced appetite; tonic.

Buclen *Alian, Venez.*
⊗ Clenbuterol (p.1120·1).

Buclifen-Vit *Profarb, Braz.†.*
Buclizine hydrochloride (p.570·1); lysine; vitamin B (p.1922·1).
Reduced appetite; tonic.

Buclimax *Ducto, Braz.*
Buclizine hydrochloride (p.570·1); lysine; vitamin B substances (p.1922·1); caffeine (p.1116·3).
Reduced appetite; tonic.

Buclina *Sanofi-Aventis, Braz.; Vedim, Port.*
Buclizine hydrochloride (p.570·1).
Migraine; motion sickness; pruritus; reduced appetite.

Bucliplex *Dovalle, Braz.†.*
Buclizine hydrochloride (p.570·1); vitamin B substances (p.1922·1).
Reduced appetite; tonic.

Buclorhex *Sertex, Arg.*
Chlorhexidine hydrochloride (p.1635·2); sodium fluoride (p.1962·2).
Dental caries prophylaxis; mouth disorders.

Buco Bleu *Ilsan, Turk.*
Methylthioninium chloride (p.1450·3); resorcinol (p.1612·1).
Mouth and throat disorders.

Buco Regis *Ramon Sala, Spain.*
Ipecacuanha (p.1562·3); methyl salicylate (p.85·3); myrrh (p.2349·2); sulfanilamide (p.343·1); zinc chloride (p.1999·1); menthol (p.2340·1).
Mouth and throat inflammation; pyorrhoea.

Bucoangin N *Northia, Arg.*
Gramicidin (p.286·1); neomycin (p.305·1); benzocaine (p.1854·1).
Mouth and throat disorders.

Bucodrin *Fardi, Spain.*
Chlorhexidine hydrochloride (p.1635·3); benzocaine (p.1854·1).
Mouth and throat disorders.

Bucogel *Gador, Arg.*
Chlorhexidine gluconate (p.1635·3).
Dental caries prophylaxis; mouth disinfection; oral hygiene.

Bucometasana *Solvay, Spain.*
Chlorhexidine hydrochloride (p.1635·3); benzocaine (p.1854·1); tyrothricin (p.358·2).
Mouth and throat disorders.

Bucomicina *Pisa, Mex.*
Streptomycin (p.333·3).
Bacterial infections.

Buconif *Nycomed, Austria.*
Nifedipine (p.1350·1).
Hypertension; ischaemic heart disease; Raynaud's syndrome.

Bucort *Orion, Fin.*
⊗ Hydrocortisone butyrate (p.1535·3).
Skin disorders.

Bucoseptil *Sanitas, Chile.*
Chlorhexidine gluconate (p.1635·3).
Mouth and throat disorders; oral hygiene.

Bucospray *Teofarma, Spain.*
Chlorhexidine gluconate (p.1635·3); benzocaine (p.1854·1).
Mouth and throat disorders.

Bucotricin *Monserrat, Arg.*
Tyrothricin (p.358·2); benzocaine (p.1854·1).
Mouth and throat disorders.

Budamax *PMC, Austral.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; nasal polyps.

Budapp *Dermapharm, Ger.†.*
⊗ Budesonide (p.1520·1).
Obstructive airways disease.

Budasmal *Laboratorios Chile, Chile.*
⊗ Budesonide (p.1520·1).
Asthma.

Budecol *AstraZeneca, Gr.*
⊗ Budesonide (p.1520·1).
Inflammatory bowel disease.

Budecort *AstraZeneca, Braz.; Astellas, Ger.; Cipla, India†; Hoe, Malaysia; AstraZeneca, Philipp.; Cipla, Thai.; Oftalmi, Venez.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; asthma; nasal polyps; obstructive airways disease.

Budefarma *ICN, Arg.†.*
⊗ Budesonide (p.1520·1).
Skin disorders.

Budefat *Fatol, Ger.†.*
⊗ Budesonide (p.1520·1).
Obstructive airways disease.

Budeflam *Cipla-Medpro, S.Afr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; asthma.

Budemar *Biostam (Βιοσταμ), Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Budenas *Oftalmi, Venez.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Budenase *Cipla, Hong Kong; Cipla, India†; Cipla, Malaysia.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; nasal polyps.

Budenite *Aurora, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Budenofalk *Codali, Belg.; Biotoscana, Chile; Falk, Cz.; Falk, Denm.; Meda, Fin.; Falk, Ger.; Galenica, Gr.; Falk, Hong Kong; Falk, Hung.; Darya-Varia, Indon.; Falk, Indon.; Falk, Irl.; Tramedico, Neth.; Falk, Philipp.; Pharmalink, Philipp.; Falk, Pol.; Falk, Singapore; Falk, Spain; Meda, Swed.; Vifor, Switz.; Ali, Turk.; Provalis, UK.*
⊗ Budesonide (p.1520·1).
Inflammatory bowel disease.

Budeprion *Teva, USA.*
Bupropion hydrochloride (p.383·1).
Depression.

Budeprol *Proel, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; skin disorders.

Buderen *Balu, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Buderhin *GSK, Pol.*
⊗ Budesonide (p.1520·1).
Rhinitis.

Budes *Hexal, Ger.*
⊗ Budesonide (p.1520·1).
Nasal polyps; obstructive airways disease; rhinitis.

Budesal *Cipla, India†.*
⊗ Budesonide (p.1520·1); salbutamol (p.1131·2).
Asthma.

Budesan *Biospray, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis; skin disorders.

Budesoderm *Pharmex (Φαρμεξ), Gr.*
⊗ Budesonide (p.1520·1).
Skin disorders.

Budesogen *Generics, Hung.*
⊗ Budesonide (p.1520·1).
Nasal polyps; rhinitis.

Budeson *Altana, Arg.; Falk, Israel.*
⊗ Budesonide (p.1520·1).
Asthma; Crohn's disease; nasal polyps; rhinitis.

Budesonal *Verisfield, Gr.*
⊗ Budesonide (p.1520·1).
Allergic rhinitis.

Budiair *Torrex, Austria; Farmalab, Braz.; Torrex Chiesi, Cz.; Asche Chiesi, Ger.; Chiesi, Gr.; Chiesi, Malaysia.*
⊗ Budesonide (p.1520·1).
Asthma; obstructive airways disease.

Budicort *Teva, Israel.*
⊗ Budesonide (p.1520·1).
Asthma.

Budon *Lindopharm, Ger.†.*
⊗ Budesonide (p.1520·1).
Obstructive airways disease.

Budo-san *Merck, Austria; Falk, Port.*
⊗ Budesonide (p.1520·1).
Crohn's disease.

Budosan *Farmasa, Mex.*
⊗ Budesonide (p.1520·1).
Crohn's disease.

Buenas Noches *ISA, Arg.*
Melatonin (p.2338·3).
Sleep disorders.

Buenoson N *Zilly, Ger.†.*
St John's wort oil; wheat-germ oil; avocado oil; birch tar oil; thiamine hydrochloride; dilute formic acid; garlic juice; birch leaf; juniper berry; gentian root; lupulus; clove; male fern leaf.
Herbal preparation.

Buer Lecithin Plus *Altana, Ger.*
Soya phospholipids; vitamins (p.1922·1).
Tonic.

Buerlecithin
Note. This name is used for preparations of different composition.
Thursday, Austral.; Roland, Cz.†; Altana, Ger.
Lecithin (p.2332·2).
Hypercholesterolaemia; tonic.

Altana, Austria.
Lecithin (p.2332·2) with or without vitamins (p.1922·1).
Tonic.

Buerlecithin Compact *Byk, Austria; Altana, Switz.†.*
Soya lecithin (p.2332·2).
Tonic.

Bufacyl *Medipharm, Chile.*
Octatropine methylbromide (p.1752·1); phenobarbital (p.492·2).
Colic; dysmenorrhoea; vomiting in infants.

Bufect *Sanbe, Indon.*
Ibuprofen (p.64·2).
Musculoskeletal and joint disorders; pain.

Bufederm *Galen, Ger.†.*
Bufexamac (p.28·3).
Skin disorders.

Bufedil *Abbott, Braz.; Abbott, Ger.*
Buflomedil hydrochloride (p.1236·3).
Peripheral vascular disorders.

Bufencon *YSP, Malaysia; Yung Shin, Singapore.*
⊗ Betamethasone dipropionate (p.1518·3); betamethasone sodium phosphate (p.1518·3).
Corticosteroid.

Bufex *Dermapharm, Austria.*
Bufexamac (p.28·3).
Skin disorders.

Bufexan
Note. This name is used for preparations of different composition.
Sandoz, Arg.
Mesalazine (p.1745·1).
Inflammatory bowel disease.

Lannacher, Austria.
Bufexamac (p.28·3).
Inflammatory skin disorders.

Bufexine *Continental Pharma, Belg.†.*
Bufexamac (p.28·3).
Arthritis; peri-articular inflammation.

Buffered C *Quest, UK.*
Calcium ascorbate (p.1984·1).

Buffered C 500 *Bio-Health, UK.*
Calcium ascorbate (p.1984·1).

Buffered Pirin *Pennex, Israel.*
Aspirin (p.20·3) and buffering agents.
Fever; musculoskeletal and joint disorders; pain; thrombosis prophylaxis.

Bufferin *BMS, Arg.†; BMS, Braz.; BMS, Canad.; BMS, Ital.†; BMS, Singapore†; Novartis, USA.*
Aspirin (p.20·3).
Calcium carbonate (p.1714·1), magnesium carbonate (p.1743·1), and magnesium oxide (p.1744·1) are included in this preparation in an attempt to limit adverse effects on the gastrointestinal mucosa.
Fever; inflammation; myocardial infarction; pain; thromboembolism prophylaxis; transient ischaemic attacks.

Bufferin AF Nite Time *BMS, USA†.*
Diphenhydramine citrate (p.577·2); paracetamol (p.108·1).
Insomnia.

Bufferin Low Dose *BMS, Malaysia†.*
Aspirin (p.20·3).
Thromboembolic disorders.

Buffex *Roberts, USA.*
Aspirin (p.20·3).
